PRESIDENT SAYS RESERVATIONISTS SEEK TO NULLIFY, RATHER THAN RESERVE, IN A LETTER TO SECRETARY HITCHCOCK

"CANNOT UNDERSTAND DIFFERENCE BETWEEN A NULLIFIER AND A MILD NULLIFIER," HE SAYS IN DISCUSSING THE PEACE TREATY.

ARTICLE TEN A MORAL OBLIGATION, HE SAYS

Could Not Look Soldiers In The Face If He Did Not Do Everything In His Power To Remove Every Obstacle That Lies In The Way Of Adoption Of Article.

WASHINGTON, Mar. 8.—President Wilson restated for democratic senators today his opposition as to any peace treaty reservations which would weaken the full force of article 10, or otherwise materially impair the provisions of the league covenant.

Without saying specifically what qualification he would or would not accept, he wrote in a letter to Senator Hitchcock, the administration leader, that almost all of the reservations he had heard suggested were "in effect virtual nullifications" of the treaty articles to which they applied.

"I hear of reservationists and mild reservationists," the president added, "but I cannot understand the difference between a nullifier and a mild nullifier."

"Can't Escape Moral Obligation." "Discussing article 10 particularly, the president wrote that there was "no escaping the moral obligations which are expressed in positive terms in this article, though there could be no objection to explaining in an interpretation the constitutional methods by which such obligation would have to be fulfilled."

The president's letter, written in response to a request that he confer with Senator Simmons of North Carolina, in charge for the democratic side of the senate in current negotiations for a compromise, follows in full:

"My dear Senator Hitchcock: I understand that one or two of your colleagues do me the honor of desiring to know what my views are with reference to article 10 of the League of Nations and the effect upon the league of the adoption of certain proposed reservations to the great struggle. It did seem to me that I should be glad to say upon a subject which has become so singularly preoccupied by misapprehensions and misinterpretations of every kind.

Won A Moral Victory. "There is no escaping the moral obligations which are expressed in positive terms in this article of the covenant. We won a moral victory over Germany, far greater even than the military victory, won on the field of battle, because the opinion of the whole world swung to our support of the nations associated with us in the great struggle. It did so because of our common profession and promise that we meant to establish an organization of peace which should make it certain that the combined power of free nations would check every invasion of right and serve to make peace and justice secure by affording a definite tribunal of opinion to which all must submit and by which every international re-adjustment that cannot be amicably agreed upon by the peoples directly concerned shall be sanctioned."

"This promise and assurance was written into the preliminaries of the armistice and into the articles of the peace itself and constitute one of the most sacred obligations ever assumed by any nation or body of nations. It is unthinkable that America should set the example of ignoring such solemn moral engagement.

"For myself, I could not look the soldiers of our gallant armies in the face again if I did not do everything in my power to remove every obstacle that lies in the way of the adoption of this particular article of the covenant, because we made these pledges to them as well as to the people of the world and it was to this cause they seemed themselves devoted in a spirit of crusaders. I should be forever unfaithful to them if I did not do my utmost to fulfill the high purpose for which they fought.

"I think, my dear senator, we can dismiss from our minds the idea that it is necessary to stipulate in connection with article 10, the constitutional methods we should use in fulfilling our obligations under it. We gain nothing by such stipulations and secure nothing which is not already secured. It was understood as a matter of course, at the conference in Paris, that whatever obligations any government assumed or whatever duties it undertook under the treaty would, of course, have to be fulfilled by its usual established constitutional methods of action.

Once or twice in meetings of the conference, when the treaty was under consideration, "reservations" were made to that effect by the representatives of individual powers, and these "reservations" were invariably received in the way in which men who have met for business and not for talk always receive, with scrupulous supererogation, attention to with indifferent silence, as though men listen to what is a matter of course and was not necessary to say.

There can be no objection to explaining again what our constitutional method is and that our congress alone can declare war or determine the

STOCK DIVIDENDS NOT SUBJECT TO U. S. INCOME TAX

SUPREME COURT HOLDS THEY DO NOT COME UNDER THE GENERAL PROVISIONS OF THE 1916 FEDERAL STATUTES.

MEANS MANY MELONS CUT

Will Result In Great Loss Of Revenue To The Government; Minority Report Of Court Declared The Majority Report Was "Narrow And Bizarre."

WASHINGTON, Mar. 8.—Corporation dividends distributed in the form of stock do not constitute "income" and consequently are not subject to federal income taxes, the supreme court decided today in a five to four decision.

Provisions of the 1916 federal income tax law levying tax on stock dividends were declared unconstitutional. The decision also nullified similar provisions of the present law and will involve great loss in revenues to the government in future collections and also removal of such taxes already collected. Large financial interests likewise will be affected and numerous stock dividends of generous proportions are expected to be declared soon.

In the majority decision, read by Justice Pitney, Chief Justice White and Justices McKenna, Vandever and McReynolds concurred. Of the four dissenting members of the court, Justice Holmes read a brief opinion in which he was joined by Justices Day and Justice Brandeis. Brandeis concurred, characterizing the majority view as "narrow and bizarre" and saying it would permit many corporations to escape taxation on a large portion of what is actually their income.

NEW YORK, Mar. 8.—Wall Street was thrown into a state of demoralization today and many hundreds of thousands of dollars were lost and won within a few minutes when news agencies, which serve the financial district, misstated the decision of the United States supreme court in the stock tax case and declared that stock dividends were taxable.

The service of the Associated Press was accurate in every particular. After its report reached the street, stocks which had broken two to ten points under an avalanche of selling orders, steadied and began to climb. For the balance of the session, prices continued to strengthen, final quotations for leading shares making substantial gains.

During the violent declines which followed the misleading report, frightened traders sold almost regardless of value. The hundreds of thousands of dollars forfeited by them were captured on the rebound by others who had refused to sell on the strength of the first false report, or who were in ignorance of what was happening.

General motors was the star performer, gaining fifteen points before noon, reaching 11 points on receipt of the erroneous report and then rising briskly to 301, a net gain of 4 1/4 points.

OKLAHOMA CITY, Mar. 8.—Income stock dividends declared by corporations out of earnings and profit are taxable under the 1919 law, according to Hubert L. Bolen, internal revenue collector here.

ANOTHER MILLION DOLLAR BANK HERE; FIRST GUARANTY

CISCO'S GROWTH INDICATED BY ARRIVAL OF SECOND FINANCIAL INSTITUTION TO PASS THE COVETED DEPOSIT REPORTED MONDAY.

ORGANIZED THREE YEARS

Splendid Record of The Bank Reflects Stability of Prediction Cisco Is Making Progress As Financial And Commercial Center Of Section.

Marking a distinct achievement in financial circles here, the deposits of the First Guaranty State Bank, of this city, went over the million dollar mark Monday. The accounts totaled \$1,023,982.

In view of the fact that the bank is less than three years old this record is considered by business men here to be nothing short of remarkable.

Deposits in the First Guaranty for the same date last year totaled only \$563,654. For the preceding year, the total on March 8th was \$256,300.

The officers of the bank are C. H. Fee, president; R. L. Poe, vice-president; A. J. Olson, second vice-president; A. Spears, cashier; and M. S. Stamps, assistant cashier.

John Gilmartin Made Acting Secretary of Chamber Commerce

At a special meeting of the board of directors of the chamber of commerce, held Monday afternoon, James Gilmartin, formerly an employee of the Morning News, was appointed to serve as acting secretary of the chamber in the place of Walter A. Downing, resigned.

MAINTENANCE WORKERS ARE UNABLE TO GET STRIKE VOTE

CHICAGO, Mar. 8.—Delegates and grand lodge heads representing nearly 400,000 railway maintenance men, who today failed to reach a decision as to whether they will call a strike. They expected to decide tomorrow. No session was held tonight.

CANDY FACTORY TO SUPPLY WEST TEXAS FROM LOCAL PLANT

If west Texas has a sweet tooth, it is going to have to depend upon Cisco 400 miles. Representatives of one of the large candy manufacturers of Kansas City have been to Cisco and concluded arrangements to open a manufacturing and wholesale candy factory here. Lease on the building now occupied by the American Printing company, 417 Avenue D, was taken by the company Monday. They will be in operation within a month.

Plans to install about \$7,000 worth of candy making machinery are included in the arrangements made, and every sort of sweets, from the luscious chocolate to the pebbled striped stick, will be made on the premises.

The company was represented by J. H. Chambliss and W. T. Wagman, of Kansas City, who will be in charge of the plant and business.

THINGS YOU SHOULD KNOW ABOUT CISCO

- It will be interesting to the News readers to know that with the arrival of the First Guaranty State Bank in the million dollar class, two institutions in Cisco have deposits of over a million. The other is the Cisco Banking company. Two other strong banks, the American National and the Guaranty Banking and Trust company complete a quartet of financial institutions that can take care of every financial need of Cisco and surrounding territory.

The Weather.

- WEST TEXAS: Fair, warmer.
- Louisiana: Tuesday, cloudy, probably rain in south portion, rising temperature; Wednesday, fair, warmer.
- Arkansas and Oklahoma: East Texas: Tuesday and Wednesday, fair, warmer.

ONLY FIVE MORE YEARS OF FAGE FOR AMERICA?

CHICAGO, Mar. 8.—Abolition of cigarette smoking in America by 1925, the aim of the International Cigarette League, which has been organized in successor to the Anti-Cigarette League, it was announced today.

INVITES NOMINATIONS TO RAILROAD BOARD

WASHINGTON, Mar. 8.—The sixteen railroad unions and the association of railway executives were directed tonight by the interstate commerce commission to make nominations for labor and capital, respectively, to the tripartite board created by the transportation act, which will attempt settlement of disputes without strikes.

Each side will name not less than six men, to be submitted to President Wilson, who will choose the board of nine, divided equally between the public, the workers and the corporations.

In promulgating the regulations to govern the naming of delegates, the commission said the unions had been chosen to represent labor, because the "overwhelming majority"—more than ninety per cent of the railroad workers—were included in their membership and the unions had been recognized as authorized to speak for the "several classes" of employees.

Similarly, the association of railway executives was asked to nominate representatives of the railroad managements and owners, because approximately 95 per cent of the railroad mileage was included in the association.

YOUNG MEN KICK IN ON FUND TO EXPLOIT CISCO IN PAPERS

YOUNG MEN'S BUSINESS LEAGUE WILL ADVERTISE OPPORTUNITY CITY IN DALLAS AND FORT WORTH ACCOUNT STOCK SHOW.

Hospital Project, Mechanic's Hotel, and Publicity Took Up Entire Evening At Regular Monday Night Meeting.

Action that will lead to publicity for Cisco was taken Monday night at a meeting of the Young Men's Business League, when a fund of several hundred dollars was raised in a few minutes to pay for display advertising in the Fort Worth and Dallas papers exploiting the Opportunity City. Reports that rival cities were busy at the Fort Worth live stock show and that Cisco heads of southwest stockmen in calling attention to this city's possibilities caused the action.

Changing the meeting nights to Tuesday and setting the hour at 7:30 o'clock, hearing a report on a city hospital, discussion of the proposed mechanic's hotel, and naming a publicity committee, the organization occupied the city hall auditorium.

The league's committee on the proposed city hospital for Cisco, consisting of Messrs. J. A. Smith, chairman, the Reverends Leslie and Stuckey, Judge Greenwood and W. H. Culver, reported good progress in their efforts toward securing the much needed public institution for Cisco; that the project, in their estimation, was of early consummation or to its financial status, and that they were confident that within a few months' time the people of Cisco and this territory will actually have under way the erection of a hospital that will be a credit to this fast growing part of west Texas. This committee will meet in special committee session today at 6 o'clock.

Proposed Mechanics' Hotel. The league devoted considerable time to the discussion of the question of financing the proposed mechanic's hotel, which it has aroused unusual interest since Mayor Williamson stated Monday that the projects Cisco has contracted for the erection of this spring, such as the new dam, which will impound Cisco's reserve water supply, and street paving will bring to Cisco approximately 1000 additional laboring men. Mayor Williamson stated that it is his understanding that the mechanic's hotel should have at least 200 rooms, based at a room tariff of \$2 weekly, and that a \$50,000

BANKERS PLAN CUBAN TRIP--RUSH TO JOIN

DALLAS, Tex., Mar. 8.—Plans are being formulated for an excursion to Havana, Cuba, by 1000 or more Texas bankers immediately following the 36th annual convention of the Texas bankers' association at Galveston, to be held the first week in May.

In making this announcement, W. A. Philpott Jr., secretary of the association, said the "outing" would consume about ten days—five days on the water and five days in and around the Cuban capital. The Spanish steamer Infanta Isabel, with a passenger capacity of 1500, has been chartered for the excursion. At Havana any or all the excursionists may retain their quarters aboardship, if they so elect, instead of going to hotels.

The excursion will sail from and return to Galveston.

GUY DABNEY SELLS OUT TO W. W. WEST AND HOCK

The Dabney Auto company was taken over Saturday morning by W. W. West and L. V. Hock, two business men of this city. Guy Dabney, former owner of the garage, will retire to his large ranch near San Angelo.

The consideration of exchange was \$45,000, covering a five year lease. This does not include the price paid for oils and materials on hand which were also purchased by West and Hock.

The new firm announces its intention of installing a complete automobile machine shop the first of June. The additional equipment is to cost \$25,000 and will be able to turn out parts for any make of automobile on the market in short order.

The garage is at present dealing in gasoline and motor oils and also has spacious accommodations for automobile storage. It is situated on South Main.

TRUSTEES BALL TEAM TO HOLD MEET TODAY

An important meeting of the trustees of the Cisco baseball club will be held this Tuesday morning at 11 o'clock in the office of the Simmons Oil company. Just what the nature of the meeting will be was not forecasted by the officers of the organization, but the gathering promises to be one of rapid decision and determined promotion. Pet Brown, local contractor, who is paving the streets in the downtown section of the city, will break ground in the Frank Harrell tract today for the big ball park which will be the home grounds of the Cisco team. The lot will be plowed, harrowed and rolled.

The stairway to the telephone building on West Fifth.

The stairway to the Gray building on West Ninth.

All awnings on Main street not standard. Canvases and cloth awnings were ruled against by the city attorney.

"One of the chief reasons why the awnings must come down," said Mayor Williamson, "is that they interfere with the lighting system of Main street. The street looks like a warehouse district."

The commission also issued a warning to owners of property along Main street that frame shacks in the downtown district are to be condemned shortly and that in leasing buildings this projected action should be taken into consideration.

The commission also adopted a resolution directing city attorney to bring suit in the district court to clear the titles of city lots in the Britton addition.

HOWET SAYS ALLEN LABOR'S WORST ENEMY

KANSAS CITY, Mo., Mar. 8.—Governor Henry Allen of Kansas, was characterized one of the worst enemies organized labor ever had by President Alexander Howet, in his report to the fourth bi-annual convention of District 14, United Mine Workers of America, which opened its sessions here today.

Governor Allen's effort to work the strip coal pits in the Pittsburg field last November, during the nation-wide coal strike, was declared a failure, and the industrial court established by the recent special session of the Kansas legislature was arraigned as inimical to organized labor.

"This so-called industrial court law," Howet's report declared, "is an insult to every union who believes in the principles of liberty and justice and a disgrace to the state of Kansas. It is meant to place us at the complete mercy of the employers of labor, and is in fact only the beginning of a movement that is finally intended to enslave the working class of America and to destroy the organized labor movement of the entire country."

"Organized labor" the report continued, "is not opposed to industrial court law because of our desire to call strikes, but we know from the bitter experiences of the past what it is to strike if that right is taken away from us."

CONSOLIDATED OFF-SETTING VESTAL
The Consolidated Oil company of this city, which recently brought in the Vestal well in the southeast corner of Callahan County, has risen up for two offsets to the west. The rigs are located respectively on the C. E. Barr farm and the John Barr farm. The Vestal is doing about 300 barrels into flow tanks at the present time. The officers of the company expect to have pipe line connections by the end of this week.

NEW DOMAIN STILL GOING DOWN
Rumors to the effect that the new Domain well on the Ward tract had come in for a gasser, which gained circulation Monday, are unfounded, according to officers of the company, who say that the well is drilling at 2650 feet and that there have been no recent developments other than a slight show of gas a higher level which was reported some time ago.

DOCKING FACILITIES AND SAILORS NEEDED

WASHINGTON, Mar. 8.—Immediate and extensive enlargement of naval docking and basing facilities on the Pacific and legislation to provide a naval reserve force of at least 200,000 trained men were advocated today before the house naval committee by Secretary Daniels.

Secretary Daniels asked authority to start construction of a new naval base on San Francisco bay below Mare Island, and urged that \$10,000,000 be made available at once. He first estimated the cost at \$75,000,000, but later said it might be done for \$40,000,000.

Two new submarine and destroyer bases on the northwest coast, one at Port Angeles, Wash., and the other at Astoria, Ore., were urged, as well as extensive developments at Hawaii and Guam.

Expressing the belief that in the next war, as in the last, the United States would send its troops into the enemy's country, Mr. Daniels said a large navy and strong naval reserve were "absolutely necessary."

TAXPAYERS DELINQUENT MAY GET FREE WRITE-UP

That all properties upon which delinquent taxes have not been paid be advertised for sale in a local newspaper, will be the recommendation made to the county commissioners by W. B. Statman, city clerk, according to an announcement made by him yesterday.

"Tax payments are coming in too slowly," says Statman. "The schools especially need money and some drastic action must be taken if delinquents continue to delay settlement."

"The city and school tax here is just about half of that in its neighboring towns and there should be little hesitancy in paying it. In Ranger, the city tax is \$2.25 and the school tax 50c, a total of \$2.75. In Eastland, the city tax is \$1.55 and the school tax 50c, a total of \$2.05. Here the city tax is but the and the school tax 50c, a total of only \$1.25."

POLICE ADVISED OF THEFT N MERCHANDISE AT CARBON

Local police have been warned to be on the lookout for the burglar or burglars who looted the German Brothers general store at Carbon of \$1000 worth of goods early Sunday morning. The thieves broke their way through a back window and loaded silks and other stuff aboard a wagon. No clue as to their whereabouts has as yet been discovered according to advices received here. The burglars thought by the Carbon authorities to have headed toward Cisco, however.

A FAMILY ROW.

THE battle is on, and democracy of Texas is up in arms. On one hand, we have the Bailey faction, and on the other, the Wilson faction. It looks like a finish fight, and the late war may pale in a pillow fight in comparison to the scrap that is brewing in this state.

Mr. Bailey opened his campaign for governor here on national issues. It was suggested at the time that Mr. Bailey had started something, and the meeting of democrats at Dallas Saturday indicates the suspicion was well founded. Democrats throughout the state support Mr. Wilson and the administration. They support his policies. The election in Missouri where the issue between two congressional candidates proved that. The League of Nations and the democratic ticket won by a larger majority than ever given a congressional candidate in that particular district.

In coming to Texas and hoisting the battle flag, Mr. Bailey finds by this time that all democrats will not follow him blindly. The theory that the people of Texas are anti-Wilson, anti-prohibition, anti-suffrage, anti-everything in our opinion is fallacy, and Mr. Bailey is in for a big surprise. However, there isn't any four candidates for governor who can defeat him. Some of those running must withdraw, so the issue can be made squarely between two candidates.

It is upon this condition that the republicans of the nation are passing their assertion that Texas may swing into the republican ranks. They figure that with their own strength and the anti-Bailey strength, they may defeat Mr. Bailey, who will undoubtedly be the nominee for governor, providing all of the present candidates opposing him continue in the primary race.

It is doubtful if ever such a situation has developed in Texas. Certainly, no one can recall when the republicans figured Texas as fighting grounds in a national campaign. It has been of the solid south for so long that it has been counted for the democratic ticket before the election.

Honestly, though, we are of the opinion that the republicans have made a bad guess in this instance, even if Mr. Bailey is nominated. There might be a republican governor—which we seriously doubt—but the presidential electors will be for the democratic nominee regardless of which of the many aspirants who are now seeking the presidential nomination.

PUTTING THE CARDS ON THE TABLE.

WE congratulate the railroads in their going to the people with a message as to their policy and program. The railroads have earned their lesson, and are gradually coming out in the open and putting their problems square up to the people. Railroads have in the past made mistakes, one of the greatest was their policy of forgetting that they must depend upon the public to exist.

The people, too, have learned some things. They have discovered that the railroads operate and function best under private ownership. The lines have been turned back to their owners, and following two years of about as miserable service as has ever been given the public, the operators have a wonderful opportunity to win the argument against federal management.

The railroads have adopted a policy of using the newspapers to reach the public. They are making frank statements to their patrons about their conditions, their problems and their plans for the future. Such a policy, if backed up with service, will make a better understanding between the railroads and their patrons.

All the people ask is to have the cards placed on the table, where they can be easily seen and read.

Umpire Signs Contract. DETROIT, Mich., Mar. 8.—"Burr" Byron, for many years an umpire in the national league and the old eastern circuit has signed a contract for the coming season with the Pacific Coast league, has announced today. Byron plans to leave for the west within 10 days.

TO SELECT KEY-NOTE SOUNDER MAY TEN. CHICAGO, Mar. 8.—Officers of the republican national convention, including the temporary chairman, who will sound the keynote of the 1920 campaign, will be selected at a meeting of the convention committee here May 10.

A. T. Hart, of Kentucky, chairman of the committee, made that announcement tonight after a meeting at which plans for the convention were laid, the seating arrangements approved, and the appointment of seats and convention attaches settled.

The Chicago Coliseum will be remodeled to seat 12,187 delegates and spectators, approximately 1,100 more than were accommodated at the convention four years ago.

Chairman Will H. Hays, reiterated his declaration made public Sunday night, that the committee should "elect the candidate, not select him." Friends of all the candidates have been trying to draw him into the light, he said.

LAUNDRY WORKER LOST ARM IN CLEANING VAT

Frank Stiles, employe of the Cisco Steam laundry, lost his right arm Monday afternoon when he slipped and fell into the "extractor," a fast moving machine, in the cleaning department of the laundry. The accident occurred at about 3 o'clock. Failure to have the top on the extractor and a slippery floor caused the accident.

Stiles was engaged in cleaning the machine preparatory to using it, and was reaching for the belt shift, when his foot slipped, and threw him against the rapidly revolving drum. Going at the rate of 1800 revolutions a minute, it snatched the arm off at the elbow as clean as if cut with a knife. The bones were not broken.

Dr. Scott and Howell and Lee amputated the arm just above the elbow and dressed the wound. At a late hour Monday night, Stiles was recovering from the effects of the shock and seemed to be out of danger. He will be taken to the home of Mr. Shaw, one of the proprietors of the laundry, until he has passed out of the danger period, after which he will be sent to his home at San Angelo. Stiles has been a resident of Cisco since February 1, 1919.

DOWNING JOINS SPENCER FORCE IN CHARGE OF SALES

Walter Downing, who recently resigned the secretaryship of the Cisco chamber of commerce to go into the oil business, has taken a position with the Spencer Petroleum company of this city, as head of the sales department.

Downing expects to leave for the east sometime late this month in the east sometime late this month in the east sometime late this month in the east...

Mr. Downing came to Cisco about a year ago from Tulsa, where he served in the capacity of secretary of the chamber of commerce and made a splendid record as a city builder.

Mr. Downing's first suggestion upon accepting the place of secretary of the chamber was that Cisco needed a daily newspaper, and it is this suggestion that resulted in the organization of the Cisco Morning News.

RUM REBELLION IN SUPREME COURT ON STATE RIGHT ISSUE

RHODE ISLAND MAKES LEGAL ATTACK ON THE PROHIBITION AMENDMENT; HUNDREDS HEAR MOOTED QUESTION DEBATED.

Anti-Saloon League and 24 States Filed Brief, While Attorney General of Smallest State Makes Argument on the Biggest Question of the Hour.

WASHINGTON, Mar. 8.—Rhode Island's legal attack on the prohibition amendment to the federal constitution was argued in supreme court today, assisted by the complainants' attorneys and an invasion of state's rights, and defended by the government as a legitimate addition to the nation's basic law over which the court held no jurisdiction.

Throng attended the session of the court to hear the arguments on one of the burning questions of the day.

Herbert A. Rice, attorney general of Rhode Island, opened for the opposition and William L. Frierson, assistant attorney general of the United States, replied for the government.

TEXAS REPUBLICANS TO MEET IN CISCO

Plans to call a meeting of the republicans of the 17th congressional district in Cisco are being made this week here, R. W. Wells, of Dallas, representing the republican national committee, is here for a conference with N. F. Payne, chairman of the congressional committee. The meeting will be called in about 10 days.

Mr. Wells is one republican who admits a doubt in regard to Texas sweeping into the republican ranks. I have told the republican national committee many times that because of the many diversified interests in the state of Texas, it is impossible to get all the people here to be united or disturbed by any one issue," he said.

REVIVAL MEETING OPENED IN TALK ON THE MODEL CHURCH

With a deep, earnest discussion of the model church and what it should be, and stand for, Dr. W. B. Gray, the Brownwood minister, opened a revival meeting at a splendid attendance, Dr. Gray said that the people are living in an age when many had doubts, but the man who held on to God and to the Bible and the church need have no fear.

"The question is raised as to what kind of a church should we have to meet the requirements of the age," Dr. Gray said. "What sort of a church does God want in the world? The answer is to be found in Acts 2:42-47."

Dr. Gray made a deep impression upon Cisco's citizens who heard him Sunday, and they are predicting that the work in the revival here will be effective in developing the church and Christianity generally.

Plans for the revival include services this morning at 10 o'clock, and tonight at 7:45 o'clock.

HITCHED WAGON WRONG SPOT; POLICE DEPARTMENT GOT IT

A man hitched a sorrel pony to a leucisone pole near the rear of the Judia theater Monday afternoon in such a manner that the sidewalk was completely obstructed. A lady attempted to get around the obstruction and was forced to step into a pile of material, and tore her dress on an offending piece of tin.

PRESIDENT'S NOTE DECLARED SEN. BORAH MEANS TREATY DEFEAT

FOUR OF THE REPUBLICAN RESERVATIONS SWEEPED OUT OF THE WAY, AND WORK STARTS TOWARDS THE KEYSTONE PROBLEM ARTICLE X.

WILSON NOTE IS MILD

Did Not Center His Objection to Any Single Reservation And No Hint of White House Pigeon-Hole Makes Situation Hopeful For Reservationists.

WASHINGTON, Mar. 8.—Limiting debate by unanimous consent the senate moved swiftly today to reduce its fight over the peace treaty to basic issues.

Only Article 10 Left. In the day's work on the senate floor, the last of the fourteen republican reservations except those relating to article 10 and the league veto powers, were swept out of the way and debate on the voting power provision was begun.

President Didn't Advise. Democratic senators were quick to see, however, that the president did not advise them to vote against ratification.

Article X Essentially American. The chief arguments advanced in Paris in support of the Italian claims on the Adriatic were strategic arguments, that is to say, military arguments, which had at their back the thought of naval supremacy in that sea.

involved us in its maelstrom of suffering. If America has awakened, as the rest of the world has, to the vision of a new day in which the mistakes of the past are to be corrected, it will welcome the opportunity to share the responsibilities of article 10.

Still Have Militaristic Ambitions. "It must not be forgotten, senator, that this article constitutes a renunciation of wrong ambition on the part of powerful nations with whom we were associated in the war. It is by no means certain that without this article, any such renunciation will take place.

Article X Essentially American. The chief arguments advanced in Paris in support of the Italian claims on the Adriatic were strategic arguments, that is to say, military arguments, which had at their back the thought of naval supremacy in that sea.

I need not say, senator, that I have given a great deal of thought to the whole matter of reservations proposed in connection with the ratification of the treaty, and particularly that portion of the treaty which contains the covenant of the League of Nations and which I have been struck by the fact that practically every so-called reservation in effect a rather sweeping nullification of the terms of the treaty itself.

I hear of reservationists and mild reservationists, but I cannot understand the difference between a nullifier and a mild nullifier. Our responsibility as a nation in this turning point of history is an overwhelming one, and if I had the opportunity, I would beg everyone concerned to consider the matter in the light of what it is possible to accomplish for humanity rather than in the light of special national interests.

Responsibility Is Overwhelming. I believe that when the full significance of this great question has been generally apprehended, obstacles will seem insignificant before the opportunity, a great and glorious opportunity, to contribute our overwhelming moral and material forces to the establishment of an international regime in which our own ideals of justice and right may be made to prevail and the nations of the world be allowed a peaceful development under conditions of order and safety hitherto impossible.
