Sutton County Placed in Emergency District

Fifteen to Fifty Barrel Well Possible on Turney Ranch

Pipeline Facilities Assured by Humble People If Production Reaches One Hundred or More Barrels Daily Output

Two test drillings on the Paul Turney ranch in the northwestern corner of Edwards county have encountered oil at an unusually shallow depth, and as a result of these wells and others to begin shortly on the Jap Holman ranch just to the north possibility of an important oil development seemed imminent in Sonora this week.

Sides No. 1 Turney struck oil at 325 feet, apparently flowing from a crevice, several weeks ago. The hole had deepened to 425 feet last week, and had filled 200 feet with oil of an unusually high grade. The well was to be swabbed and tested this week, at which time the possible amount of production can be determined. The well is expected to be good for more than 15 barrels a day, and possibly as much as 50 or more. At that shallow depth a 15-barrel well represents desirable commercial production, oil men say.

An outlet for the field, should one of consequence be developed, has been assured by promise of the Humble Pipe line company to run a small line the 12 miles from its big pipeline to the field. Humble assured the drillers on the Turney ranch that it would lay the line if production totaling 100 barrels a day could be secured.

Ohlhausen, also drilling on the Turney ranch, is to drill a test on the Holman ranch, and the rig was moved in last week. It is located in Sec. 20, C. C. & S. D. Ry. survey. Stroud of Big Spring is also to drill at once on the Holman ranch in Sec. 34 of the same survey.

Extensive drilling is seen in the area if production is secured in any quantity, since contracts call for 8 more tests should any of the wells make producers. They will be drilled to 1,000 feet unless pay is secured higher.

The strong show in the Turney test defines the boundaries of a possible pool at least four or five miles long, since it is that distance from the deep test drilled by Phillips on the Holman ranch a few years ago. The Phillips test struck a flow estimated at 28 barrels a day at a depth of 900 feet, and it is assumed that the oil in the Sides No. 1 Turney comes from about that same strata, seeping upward through a crevice in the line to fill the shallow hole already drilled.

The oil comes from a sand strata which was more than 40 feet thick in the Phillips-Holman well. Fragments of limestone in the Sides-Turney indicate that use of acid might prove beneficial in increasing production.

There are many theories concerning the area. Oil men declare that it is a large and favorable structure, and that the presence of shallow oil is strong indication of big production at a much greater depth, 4,000 feet or more. Deep drilling is expected to follow soon in the area if the shallow tests prove favorable.

There has been very little publicity on the development so far, but when the strength of the Sides-Turney well is determined the lid may be blown off, and leasing is expected to be greatly stimulated.

The oil now in the hole is of excellent quality. Mr. Holman took 65 gallons from the slush pit at the Sides-Turney well and used it for a smear when his sheep were sheared. He said it had unusually good healing qualities.

With production at so shallow a depth, it will not be necessary for the wells to make a great amount of oil to be highly profitable—and better still, it will require little money to drill a test, since a water rig will be sufficient.

Group 23 Meet to Eldorado Next

Chairmanship Goes to Junction Lion, B. L. Smith

Eight members of the Sonora Lions Club attended the Group 23 meeting in San Angelo Friday afternoon, at which the Angelo Lions club was host.

The host club had prepared an elaborate program for entertainment of the more than 200 visitors. Swimming, golf and softball games were engaged in during the afternoon.

Ernest Hill, Eldorado, retiring Group chairman, made a report on activities, stressing relief work done in the various clubs of the area.

Arthur E. Biard, San Antonio, retiring district governor, was the featured speaker of the meeting. Mr. Biard spoke on the new leadership.

Those present from Sonora were Mr. and Mrs. J. M. Puckett, Mr. and Mrs. H. V. Stokes, Mr. and Mrs. Haynie Davis, Miss Edythe Carson, W. C. Warren, J. D. Lowrey, W. R. Cusenbary, C. C. McDaniel, W. C. Gilmore.

The next group meeting will be held in Eldorado three months from date. Blackie Smith of Junction was elected chairman for the coming year.

ODOM WITH W. T. LBR. CO.

Ban Odom, who for several years has been connected with the E. F. Vander Stucken Co. store, is now with the West Texas Lumber Company as general yard man and salesman.

JOHNNY BROACA

Johnny Broaca, just out of Yale university, has joined the New York Yankees as a pitcher and is doing effective work on the mound.

Stock Shipments Continue Lively

Nannies Bring \$2.50; Muttons at \$1.35; Three Billies Included

Pete Garvin reports this week the sale of 300 yearling muttons to Jess Elrod at 3 1/4c. This double deck load was shipped yesterday to northern feeders.

Four hundred and fifty head of mixed yearling goats were secured by Mr. Garvin from Sid Evans at \$2.50 for nannies and \$1.35 for muttons. This bunch of goats was consigned to I. G. (Cap) Yates, jr., Vineyard, Texas.

The latter shipment also included three yearling billies at \$15 each, purchased from Bryan Hunt. Shipments were loaded out from the Sonora stockyards yesterday.

Mexicans' Dream May Come True Any Day

Three hundred or more Mexican school children, crowded together in an inadequate building located on a small lot with cramped playground facilities, may soon have reason to rejoice, if present plans do not miscarry.

Members of the school board, as well as the citizens of Sonora have long since realized the necessity of larger quarters for the Mexican school—but what to do? What to do! The Mexican scholastic was growing by leaps and bounds, and today practically outnumbered the white scholastics. Conditions were getting serious.

Cramped quarters forced the division of the school into two groups, one group attending the school in the forenoon and the other in the afternoon, thereby shortening each child's school hours by half.

Preparations to meet the requirements for government aid were made. A plot of ground containing ten or more acres was purchased from W. E. Glascock, and other plans pertinent to the proposition were carried out.

With all arrangements fully met, the school board, headed by Judge L. W. Elliott, made application December 26, 1933, to the proper governmental department for aid in the construction of a suitable building for the Mexican school children of Sonora.

Efforts Bear Fruit

Saturday, June 30, a message was received from Congressman Tom Connally, which read:

"Washington DC, June 30th. "Lions Club, "Sonora, Texas. "Pleased to advise allotment by PWA of \$28,100 loan and grant to Sonora Independent School district for school building docket 8730. (Signed) Tom Connally, per Secretary."

Following information of the grant and loan Judge L. W. Elliott, president of the school

Independents Win First Half

5 Teams in Contest; Four to Continue in Second Half

Sonora softball contests warmed to the heating point with the first half of the season, which closed Tuesday of last week. Games were warmly contested throughout the entire first half with honors going to the Independents. Under the management of Bill Fields, assisted by Gene Bailey, the team won out by a record of 12 games won and 6 lost, giving the high percentage of .661.

The Highway gang and the Lions Club follow closely the winners high scoring with a mark of 525 each. The Counter Hoppers composed of clerks and salesmen, marked up an even 500, while the High School team, with 5 games won and 13 lost, bring up the drag with 277 per cent.

The first half of the season being finished and with a few days respite, the second half is ready to start next Monday with four teams competing for honors instead of five for the first half.

The Counter Hoppers and High School have combined forces to battle for victory. Hub Hale, veteran hard ball player, has been named manager of the new team. With the cutting out of one team will mean six games a week, the extra game being played on Saturday and no games on Sunday to

SPAIN'S NEW ENVOY

This is the new ambassador from Spain to the United States, Senor Don Luis Calderon-Martin, who has assumed his post in Washington. He was accompanied by his wife and two children.

Rev. Frank Nixon Called to Sonora

Leader of Clifton Baptists Four Years Accepts Position

The Rev. Frank Nixon, pastor of the Clifton Baptist Church for the last four years has accepted a call to the Sonora Baptist Church, effective Sunday, July 15.

Mr. Nixon and his wife and three children were visitors in Sonora recently when the minister held two services at the Baptist Church. Immediately following the board of deacons held a meeting and issued a call for Mr. Nixon resulting in the following telegram to Judge L. W. Elliott:

"Am accepting call of Sonora Church. Begin work July fifteenth.

(Signed) Frank Nixon

Mr. Nixon is a brother of the Rev. Chas. Nixon, pastor of the Del Rio Methodist Church, and comes to Sonora highly recommended as a leader, not only in church affairs, but civic as well. He and his family will move to Sonora in the near future.

Mrs. Nixon is a sister of Mrs. Tom Murray.

Hall Feed and Grain Supplying Dealers

Original 15,000 Sacks Cottonseed Cake Dwindles to 5,000 or 6,000

H. V. (Buzzy) Stokes, manager of the Hall Feed & Grain Co., Sonora's feed supply depot for Sutton county ranchmen, is wearing a smile these days that won't come off.

The cause is laid to the continued droughty condition of West Texas, enabling him to dispose of great quantities of cottonseed cake, which was purchased at or near the close of last winter's feeding period.

Every day one or more trucks leave the Sonora warehouse loaded with cottonseed cake, which is being sold by the feed house at attractive prices. Recently in one day two loads were sent to Del Rio, two to Sterling City and one to Ozona.

Most of this cake is being sold to feed stores of the surrounding towns, and a considerable portion, Mr. Stokes states, is being bought at prevailing prices by Sutton county ranchmen to be stored for next winter's feeding.

Even with good rains at the present time, some feeding would be continued as grass is very short and would require several weeks to attain a growth sufficient to warrant heavy grazing. Mr. Stokes feels confident that his overload of cake will soon be down to normal.

Mrs. Ed Harris and Mrs. Rebecca Evans of Katemcy, and Mrs. F. R. Sims of Marlowe, Okla., spent the week-end with Mr. and Mrs. J. D. Lowrey.

Supervisor Was Here This Week for Interview

KILL NUMBER CATTLE

3,000 Head Signed at First Meet of Committee

Following advice that Sutton county had been changed from the "secondary area" in which first placed to that of an "emergency" district, G. W. Barnes, animal husbandman, extension service of A. & M. college, College Station, arrived in Sonora Tuesday morning and called a meeting at the First National Bank for the purpose of outlining a plan of activities and appointing proper officials to care for drought relief work among the ranchmen of Sutton county.

W. R. Nisbet was appointed as director for Sutton and Crockett counties; Fred Simmons, office man with headquarters in the directors' room of the First National Bank.

Dr. J. L. Skiles, veterinary, representing the bureau of animal industry will be in charge of inspection, and Tom Bond will appraise all stock inspected. These gentlemen will make trips to the different ranches to inspect and appraise cattle. Ranchmen making application for relief will be notified of date of inspection, at which time cattle must be penned at a convenient location to facilitate prompt and efficient action.

R. E. Taylor, county relief administrator, will be in charge of receipt of stock and shipments.

Twenty-five ranchmen filed applications for immediate relief at the first meeting Tuesday at the bank. The 25 applications represented approximately 3,000 head of cattle.

According to W. R. Nisbet, county director, stock will be classified as to age and condition of health, with no exception made as to range of ages. All stock in sound condition will be accepted for food consumption. Poor or infected stuff bought, will be condemned and immediately killed and the carcasses disposed of in a sanitary manner.

At the close of the first day of inspection a number of head of stock were condemned as unfit for human consumption, and ordered killed. This last included animals poor in flesh and otherwise diseased.

The following scale of prices will prevail on stock accepted for food values: two years and up, \$12 to \$20; 1 to 2-year-olds, \$10 to \$15; calves, \$4 to \$8. All the prices are net to owner with no commissions of any kind charged.

Where stock is inspected and found unfit for food uses, prices will prevail: two years up, \$12; 1 and 2 years old, \$10; calves, \$4.

Where stock is covered by mortgage the prices paid will be prorated between owner and mortgagee, the larger share going to the party selling the stock.

Judge C. E. Davidson and Scott Peters of Ozona were in attendance upon the Tuesday meeting. They were representing Crockett county.

SONORA FIGHT-MINDED

As evidence of the fact that Sonora is fight-minded a goodly number of citizens attended the state championship bout at San Angelo Thursday night of last week. Among the number going were: Libb Wallace, R. L. Hallum, H. V. Morris, Woodie Martin and his father, J. W. Martin, Dred Green and all the Sonora softball players from the Eden game. The bout was between Howard Scott of San Angelo and Cullum Williams of Denison. Williams concede defeat in the last round.

Mr. and Mrs. Paul Turney were in Rock Springs Wednesday.

Attempted Burglary Foiled By Precaution of Owner

THE J. W. TRAINER STORE AGAIN THE TARGET OF LIGHT-FINGERED GENTS

An unsuccessful attempt was made Sunday night by some unknown party or parties to burglarize the gents' furnishing and cleaning department of the "Friendly Store," J. W. Trainer, proprietor.

The would-be burglars cut an opening 3 1/2 by 5 inches in the back door of the establishment and succeeded in turning the night latch, but the door held fast because of another lock affixed to a different part of the door.

Like the fellow who would not trust his trousers to one suspender button, the "Friendly Store" owner had added an extra lock. Mr. Trainer profited through past experience. His store was burglarized for fair several years ago, the loss amounting to several hundred dollars.

Saturday afternoon two men entered the Vander Stucken grocery store and asked A. W. Awalt for a light lunch. Mr. Awalt advised the purchase of sardines, crackers and cheese. The two men bought a can of sardines and later repaired to the courthouse steps to dine.

Monday morning J. E. Grimland, Sonora's widely known fingerprint expert was called to the scene of the attempted burglary and a number of extra clear prints were obtained. One piece of the splintered door was picked up from the floor by Mr. Grimland, but no trace of the balance of board cut out was in evidence.

Later in the day Mr. Grimland picked up a sardine can near the steps of the courthouse. Along with this find were two pieces of wood which fitted into the Trainer store door. Further investigation and photographs of the sardine tin and the pieces of wood tallied in every detail with the fingerprints secured earlier by Mr. Grimland from the face of the back door of the store.

The work of a detective and a fingerprint expert go hand in hand. Mr. Grimland started a quiet search for the source of the sardine can and was awarded by his interview with Mr. Awalt. A description by Mr. Awalt of the two men identified them without doubt and the duplicate fingerprints indicated them as the ones who tried to open a door fastened with two locks.

The men are known to Sheriff Hutcherson and no doubt soon will be apprehended and placed in the county bastille.

COPPER GETS DEGREE

Among those receiving the degree of bachelor of arts at the commencement exercises of New York university was Herman Schwartzberg, a patrolman of the city police department since 1927.

HUTCH GETS 'EM

Three men wanted for an alleged job of highjacking were picked up at the OST Filling Station Tuesday by Sheriff Hutcherson and landed in jail.

The men, who gave the names of Orville Denning, Harvey Loggins, and James Rogers, are said to be charged with striking a young lady over the head with a six-shooter, robbery and theft of an automobile driven by two young ladies near Brackettville. The girls were left tied up, it was reported.

The young ladies, whose names could not be obtained, reside in El Paso. Together with a brother they were on a vacation trip and had been stopping in San Angelo. The girls had driven over to Brackettville to visit a friend and were on the return trip to San Angelo when attacked by the three men.

The young ladies were picked up by Tom Richie and Chas. Harold Evans and brought to Sonora. Arriving in San Angelo later they reported the crime to the brother, who with the two young ladies had started out in search of the men with a hope they would be encountered on the highway.

A car with three men in it had stopped at the OST station Tuesday for gas just as the searching party passed. The young ladies recognized the men and notified Sheriff as noted above.

Hutcherson with the result The sheriff from Brackettville is expected in Sonora today to return the men to the county jail there to be held for the grandjury.

One member of the party is thought by the Brackettville official to have recently escaped from the penitentiary.

TEACHER TRAVELS WIDE TO SEE "BOYS"

Alumni Are Scattered All Over the World.

Shanghai.—No matter in which odd nook or cranny of the world, what queer port or strange shore he finds himself, Dr. Henry F. Cutler, schoolmaster, seems assured of being welcomed with unbounded joy and elation.

For 43 years Doctor Cutler, a kindly smiling savant of seventy-one, with twinkling blue eyes and unruly gray hair, was principal of Mount Hermon school, near Northfield, Mass., and now he is traveling around the world, visiting some of his former "boys" to whom he taught the three R's during the more than two score years.

The "boys" now have grown—many have made their fortunes in business and retired—and have scattered to the far corners of the world, from Nome, Alaska, to the Belgian Congo. He and Mrs. Cutler are en route to Paris after a brief stopover here. But by the time he reached here he realized it wasn't possible to see all his former students.

It was easy enough to meet them in New York, Havana, Panama, Los Angeles, San Francisco, Honolulu and Tokyo, where the local alumni gave splendid receptions in his honor, but from Shanghai onwards, it will be difficult. As an instance, three of the "boys," George M. Newell and Rev. Robert M. McClure, missionaries, and Ralph Townsend, American consul, are now in Poochow, Fukien, and completely cut off from the outside world by the revolution raging there against the Nationalist government.

Mount Hermon school, a religious but nonsectarian school for boys, may not have a grid squad equal to University of Southern California, Northwestern or Princeton, but its seeds are planted the universe over, he says.

Doctor Cutler is going to stop in Paris long enough to study medicine, on the theory that it's a good thing to know about the ills and aches of the body as well as the mind.

"Wouldn't some of the boys be amused to see me—at my age—sitting on a hard, wooden bench in school, without any back rest, studying kidneys, adenoids and things like that," he says. "Well, I was a schoolmaster for 43 years and now I'm going to be one of those famous Paris medical students."

West Coast Indians May Have Been Cannibalistic

Coalinga, Calif.—Possibility that the Channel tribe of California Indians may have been cannibalistic was seen following the discovery of cracked, burned human bones near Indian graves in this district.

Gordon Cain, local archeologist, discovered skeletons of two Channel Indians, possibly father and son. The manner of burial, with the skeletons propped in the graves, and beads and other artifacts, proved them to be members of the Channels, who normally dwell along the coast of southern California, Cain said.

Roasted human bones, cracked to permit extraction of marrow, also were found near the graves, indicating, Cain said, that possibly the Channels were cannibals. This was the first indication that any of the California Indians practiced the grim custom.

The Channels also preceded white men in the use of petroleum products, Cain discovered. Arrows in the graves, which were hundreds of years old, were found to have their heads fastened on with asphaltum, which abounds in this section of the famous Kettleman hills.

Twin Sisters Replace Each Other in Office

Boston.—The Misses Ruth and Mary Henderson, twin sisters, who attend Emmanuel college, not only dress alike, take the same courses and attend the same classes together, but succeed each other in the same office at school. Mary served as president of the freshman class for the first half of the year and was succeeded by Ruth for the rest of the term.

Eats 51-Year-Old Cake

Westport, Conn.—A slice of wedding cake, made more than fifty-one years ago, was eaten recently by Prof. and Mrs. E. D. Merriman. The slice was from a cake baked for their wedding in 1882. It was preserved in a sealed tin.

2,000 Volts to Bar Escapes From Jail

Crockett, Texas.—Rewards for capture of criminals come high, so Sheriff J. L. Hazlett will erect a 12-foot barbed wire fence around the Brazoria county jail here and charge it with 2,000 volts of electricity.

He announced his plans following the escape of Earl (Baby Face) Joyner, Southwest bank robber and prison breaker, after he had paid \$50 reward to Arkansas officers to bring Joyner here.

IT WAS NEWS TO HIM

William A. Roberts, who is people's counsel for the District of Columbia, was informed the other day that he was a candidate for Vice President of the United States in the 1932 elections on the ticket of the National Association Opposed to Blue Laws. This was the first he heard of it. A letter from Ross E. Black of Paris, Va., chairman of the executive committee of the association, broke the news. He said he thought the candidate for President, Leland Barton, had informed Roberts, but had learned differently.

Swans Much Alike

Trumpeter and whistler swans are so much alike as to be almost indistinguishable in the field, yet the first is almost extinct, while the second continues to flourish. The whistling swan breeds mainly north of the Arctic circle. Its nesting grounds are unaffected by civilization. The trumpeter swan bred in Canada and the great interior valley of the United States, where it was subject to every adverse influence, even to the draining of many of the small breeding lakes.

Vandalism

The word "vandalism" does not always denote malicious destruction, says Literary Digest. Vandalism is defined: "Hostility to, or contempt for art and literary treasures; wanton or ignorant destruction or defacement, as of monuments of the past, or treasures of art or learning." Accordingly, vandalism may be hostile and malicious; it may be contemptuous, or it may be due to ignorance. The destruction of a treasured bit of sculpture by small boys may be due simply to ignorant mischievousness without denoting any degree of hostility or maliciousness.

Hanfstaengl Comes, Despite Hostile Reception

When Dr. Ernest Hanfstaengl, personal friend and aide of Chancellor Hitler of Germany landed in New York on his way to the reunion of his Harvard class, he was greeted by a throng of anti-Nazis carrying unfriendly banners. The police were alert, however, and took Hanfstaengl from the boat secretly and put him aboard a train for Boston. To reporters and camera men the visitor showed the Nazi salute.

**B. M. Halbert, Sonora, Wants to Know—
"Shall It Be Angora or Mohair Goats?"**

By B. M. HALBERT

"Shall it be Angora or mohair goats? Some of our friends have insisted on a change of name, by dropping the Angora and calling our shearing goats 'Mohair Goats'. Why so? Because they were afraid the Angora rabbit would in a very few years put the Angora goat out of business with his mohair?"

The Angora rabbit produces only a few ounces at each shearing called "Angora wool."

The Angora cat's hair has not been commercialized or named as yet. They are now experimenting to produce a shearing rat. When they do, they will name him an "Angora Rat!" Why? Because the rabbit and cat with a fine fleece had to be named Angora to tell the world they had fine fleece like the Angora goat's mohair. The late Charlie Adams of Sonora and California, some 20 years ago told me he had worked out a plan, when the Angora cat was produced, that if we could develop an "Angora rat," our fortune would be made. For we would need only a few acres of land for a ranch to build two pens and huts on, with a shearing floor between them, to shear the rats and feed them to the cats. Then shear the cats and feed them to the rats. He figured the plant would be self-sustaining. I agreed with him, but told him it would never be done in our day. Now the Angora rabbit game is being worked all over the country, selling a pair of Angora rabbits, a buck and a doe, for \$40.00, telling the buyer they would buy back all the young rabbits at a certain price per head, and buy all the rabbit wool they can produce at 65 cents an ounce. They called this rabbit the "Chinchillo."

Back to the Angora goat, he was in the Old World when the Bible was written, producing fine mohair of which the curtains of King Solomon's Temple were woven, and I can't see that as a producer of fine mohair he can ever be replaced. Because he is clean and edible, will shear from 6 to 12 pounds of mohair each year, from the surplus brush that grows on our ranches. We have, with the backing of the Sheep and Goat Raisers' Association, tried to give the meat of the Angora goat a name—"Chevon". Why? Because it never has been named like the meat of the cow, sheep and hog—beef, mutton and pork.

Before the World War and the strict administration of the Pure Food Law, everybody called the meat of the goat "mutton." The packing houses bought and sold it under the name of mutton. But they had to stop it, with the result that the trade would not buy a carcass of a goat tagged "goats" or "goat meat," when the trade had been buying it as mutton. This killed the market for the edible goats.

We needed a commercial name for goat meat then and need it now, for the packers cannot kill our goats and sell them as mutton. A lot of our ranchmen don't believe that, but don't take the time to step into a packing house and ask about it. Webster's Dictionary says, "Mutton—the flesh of a sheep." — San Angelo Morning Times.

Use a Want Ad to tell Sutton county people about the livestock you want to sell.—adv.

THREE F'S RESPONSIBLE FOR SPREAD OF TYPHOID

Austin, July 5.—The Texas State Department of Health has joined the government and other organizations in the use of letters to designate phases of their work, according to the state health officer. The letters used at this time are F F F and they stand for fingers, flies, and food—the three most common methods of transmitting intestinal diseases.

The three F's are generally responsible for the spread of typhoid fever, diarrhea, dysentery, and enteritis. Drinking water is considered a food and, as it is used by all ages, great care should be exercised to assure one that their supply is pure. If uncertain the water should be boiled before used for drinking purposes.

It is during hot weather when the most complaints are received on account of diarrhea and dysentery, and parents should do their utmost to prevent it. The chief causes include impure milk, water, contaminated foods or wrong diet. If diarrhea develops the feeding should be stopped or greatly diminished and a physician called. Carthartics should not be given unless the doctor prescribes them.

The three F's are the three sources of danger to the baby. Flies carry disease germs to the baby and its food. Fingers and hands that are not thoroughly washed before preparing the babies food are likely to be germ carriers also. All milk and water intended for the baby should be boiled for five minutes and then carefully covered and kept in a cool place until used.

Blackberries Yield Profit

Mount Vernon, July 5.—A small plot slightly less than one-quarter of an acre planted in strawberries paid large dividends to J. B. Jagers of Franklin county, according to the county agent. From this plot he sold \$88.15 worth of berries, and his actual expenses for marketing were \$19.14. This left him a net profit of \$69.01. Many of the berries were sold locally by the bucket. The variety is Blakemore which was planted in February 1933. They withstood the dry summer of 1933 with less than 10 per cent loss.

Household Effects Burn

C. H. Jennings received a message last week from Buckholts informing him of the loss by fire of his household goods. For the last several years Mr. and Mrs. Jennings have been doing light housekeeping and have had their furniture stored in a hotel at that place. The building and contents was destroyed by fire. Among the losses sustained by Mr. and Mrs. Jennings were books valued at more than \$250.

Vander Stuckens Get Coach

F. B. Williams manager of the McKnight Chevrolet Company reports the sale and delivery of a Chevrolet coach this week to Mr. and Mrs. Joseph Vander Stucken.

Mr. and Mrs. R. S. Covey came in last week from Alpine where Mr. Covey has been an instructor in the summer school. They have returned to Alpine for another six weeks.

CAMP ALLISON

By Mrs. T. C. Thiers

Mrs. T. C. Adams and her two daughters, Lorene and Irene, from Del Rio, and her sister, Mrs. I. R. Howard of Duran, Nw Mexico, are visiting relatives at Camp Allison.

Mr. and Mrs. Doug Cravy of Camp Allison made a trip to Sonora Monday.

Asa Hallum and Lee Joy of Camp Allison made a business trip to Sonora Friday.

Mr. and Mrs. Shorty Davison made a trip to San Angelo Friday, Mrs. T. Pearl of London, Texas, visited Mr. and Mrs. Dock Joy Sunday.

Mr. Lum Adams of Camp Allison made a business trip to Sonora Friday.

Dock Joy, who has been sick for two weeks, is doing as well as can be expected.

The school house of Camp Allison is being remodeled for the next term of school.

Mrs. McKee of Merton, Texas, is visiting her mother, Mrs. D. Q. Adams.

Miss Ray Adams of Camp Allison returned home Sunday from a visit with her sister, Mrs. Ernest Bode, in San Antonio.

Mrs. Jess Kring of Sonora visited her daughter, Mrs. T. C. Thiers. Camp Allison had a light rain Saturday night.

Cattle Moved to Stockton

Bobbie Allison, Bill Cartwright and C. B. Swails delivered 42 head of cattle last week for Raymond Barker and John Hamby to the R. P. Hinyard ranch, 16 miles east of Fort Stockton.

Mr. and Mrs. V. F. Marett and two children of Gonzales left Wednesday for their home after a visit with Mrs. Marett's sister, Mrs. W. H. Dameron, and Mr. Dameron at the Experiment Station south of Sonora.

San Saba Gets Canning Plant

San Saba, July 1.—Equipment for two canning plants, one here and the other at Richland Springs, is arriving and will be installed shortly. Mrs. Hulen Dunnahoe will be in charge here and Mrs. Silas Duncan at Richland Springs. Miss Grace Baxter is county supervisor at large. E. B. House is the county administrator.

SUDAN-JOHNSON GRASS MIXTURE GOOD PASTURE

San Juan, July 5.—While most of the dairy farmers of Hidalgo county are short on pasture, G. E. Alcott reports pastures in abundance. In a demonstration with the county agent he has 20 acres in Sudan grass and 20 in Johnson grass. He irrigated the Johnson grass sod and irrigated and planted the Sudan grass. The result now is 40 acres of pasture growing faster than 53 head of good hairy cows can eat it.

A General Motors Value.

CHEVROLET With the announcement of price reductions several weeks ago, Chevrolet stepped into the most favorable price position it has enjoyed in a long time!

Reductions amounting to as much as \$50—the most substantial price cuts announced in the low-price field this year—dropped Chevrolet's base price to a new low figure of \$465. Just compare this price—compare any Chevrolet price—with those of other cars. Then compare what you get for what you pay! There'll be no question in your mind which car to buy.

Chevrolet offers patented Knee-Action—and others do not! The same thing applies to Fisher body, cable-controlled brakes, shock-proof steering, and valve-in-head six-cylinder engine. Chevrolet gives you far more features—far finer quality. Yet the price of the Chevrolet Standard is lower than that of any other six or any eight in the world.

L. of T. Meets In Galveston, July 9

Utility Regulation in Texas Will Be Discussed; Other Subjects

Austin, July 2.—Texas city officials will hold a statewide conference on municipal government at Galveston, July 9, 10 and 11, this being the 22nd annual meeting of the League of Texas Municipalities.

Mayor Max Starcke of Seguin, president of the league, will address the convention, outlining the activities of the past year. Others to address the convention on the opening day are: Mayor Ross D. Rogers, Amarillo; John N. Edy, city manager, Dallas; Mayor H. B. Stein, Luling; Dr. Roscoe C. Martin, director, Bureau of Municipal Research, University of Texas; Mayor Frank Morris, Gainesville; and Col. E. O. Thompson, railroad commissioner, Austin.

On Monday evening, July 9, the citizens of Galveston will honor the convention visitors with an informal banquet. C. W. Ham, field consultant of the American Municipal Association, will be the guest speaker for this occasion.

On Tuesday morning, July 10, there will be another general session, at which problems of police administration and utility rate regulation will be discussed. O. W. Wilson, chief of police, Wichita, Kans., will be the principal speaker on the subject of Police Training and Administration. Chief Wilson is very active in the work of the League of Kansas Municipalities and serve as the director of the Kansas Police Training School, which is sponsored by the Kansas league.

L. G. Phares, chief, state highway patrol, as well as a number of chiefs of police will take part in the discussion of police administration and training. Mayors and other members of the governing bodies of cities are giving considerable thought and attention to the question of crime and methods to conduct this ever-present evil; therefore, this will likely be a very interesting session.

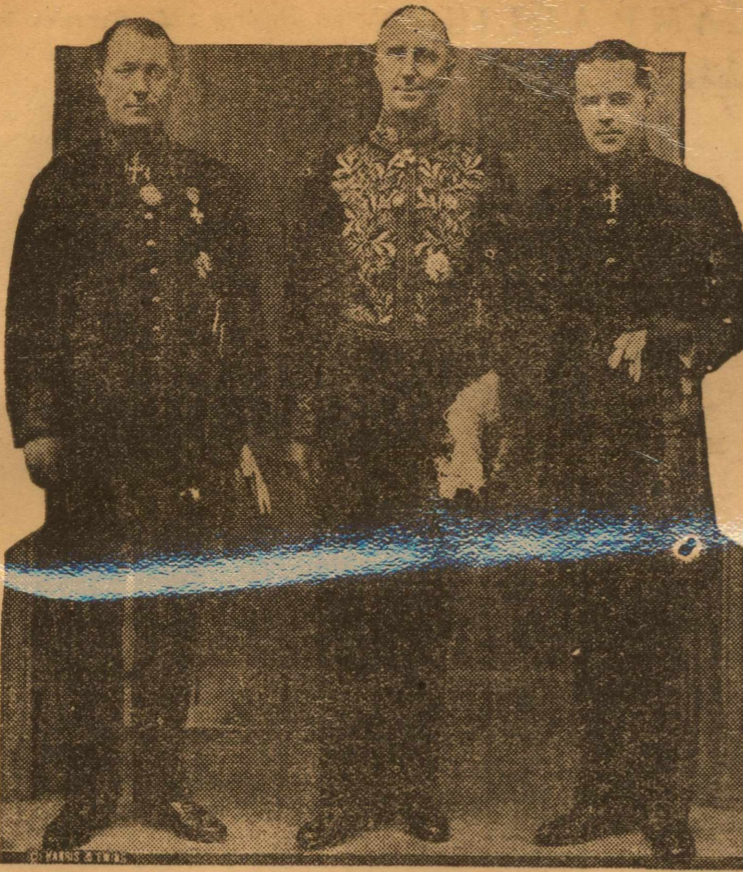

John McGlasson, city attorney, Waco, will address the convention on the subject: Present Status of Utility Regulation in Texas. City attorney McGlasson has had considerable experience in utility matters, and at this time is handling the investigation of gas and light utility rates for his city. Utility rates are being discussed most everywhere in the country and Texas city officials are very much interested in the subject.

The afternoon of Tuesday, July 10, has been set aside for the round tables. Four different groups will have round tables. They are: (1) Mayors and commissioners of the larger cities—Mayor Tom Miller, Austin, chairman and Commissioner Paul Steffler, San Antonio, vice chairman; (2) "Mayors and commissioners of the smaller cities"—Mayor C. R. Glass, Marlin, chairman and Mayor E. P. Ruhman, Kennedy, vice chairman; (3) "City Managers"—City Manager H. J. Graeser, Marshall, chairman; and (4) "City Attorneys"—City Attorney Thelbert Martin, Wichita Falls, chairman. Meeting places will be provided for any other groups that might wish to hold round tables.

City officials wishing to invite the convention to their city for the 1935 session will be given an opportunity to present their invitation during the final session on Wednesday.

'The Devil's Dream' By WILL E. JAMES Lone Goat Ranch, Two-Gun Ike, Foreman

THANKS, BLONDIE

The Sonora All-Star softball team, claimant of the West Texas title, might be interested to know Austin is staging a state championship tournament under direction of the Texas Amateur Athletic Federation Aug. 17 and 18.—Top o' Morn Stuff, Blondie Cross in San Angela Standard Times.

Let's lay aside softball long enough to remember that on July 8 begins absentee voting. This year an entire new gang is to be elected, from constable on up to governor. In a number of instances present incumbents have no opposition, in others many want to be elected. Pre-nescence, only seven men are after the governor's office—all good men, but only one can be elected.

In this issue of the NEWS will be found the state, county and precinct ballot. Look it over. There is plenty of time to make up your mind as to whom you want in office for the coming term—and if enough voters are of the same opinion, rest assured your man will get there.

Two-Gun Ike says, while he is not a politician he has observed that the fellow who is so dad burned confident that he is going to be the next governor, constable, or whatever office he is running for, is generally the most disappointed man in the whole caboodle when the final results are given out. He says to keep up your nerve but ease down on this confidence business.

The NEWS is being published this week under considerable difficulties. Did you ever move? Then you know what a task it is to try to find things when you want them in a hurry. Well, we've had our share of that kind of stuff the past week. Not only did we move from the old location to the new, but have moved—partially—at least seven times, from one side the new building to the other—and back again. And we are still moving.

One good thing, however, people can't miss the office now. Since getting up on a main street we have had visitors who were never in the office before. One man undertook to tell us that Sonora was too small for two papers; that the

Devil had been here years and years and was good enough for him or anybody else for that matter. And, then we had to explain all over again that we were the same old Devil's River News, only in a new location.

Speaking of moving, did you ever stop to consider how much small change could be scattered around among the inhabitants on such occasions? Quite a bit to be sure. At least ten or more families shared in the distribution of the funds set aside by the NEWS management for this moving job.

It took four men to move the machinery and office equipment; one man to wire in the electric power and lights; two boys to clean up; one man to remove trash; another to do several repair jobs and new construction work inside the new office; two men to build frames and set new composing stone; another man to fix broken hammer handles and sharpen tools—and we are not straightened out yet. Several more odd jobs pending.

All materials necessary for construction, such as lumber, nails, plaster of Paris, new hammers, screen wire, electrical supplies, etc., were purchased from seven different Sonora firms. Only one item had to be ordered from another town—and that was not in stock, thank the Lord—and we are going to be forced to have it made in Sonora and by a Sonora machinist, if we do not decide to get along with the old worn out thing we have been using for the past six years.

No one can beat the move of the NEWS for a dyed-in-the-mohair-trade-at-home event! All of which reminds us of the fact that if every Sonora and Sutton county resident followed this lead Sonora would be THE Capital of the Stockman's Paradise in deed and in truth.

Two-Gun Ike says that the only successful article he ever bought from a mail order house was a left handed monkey wrench, and it worked only when he used his right hand!

Cy Ogden's Cousin Dies

Cyrus Roy Ogden, 52, was buried Saturday at San Angelo following services conducted from the Massie Chapel by the Rev. Edmund Heinsohn. Death followed an illness of 12 years. Mr. Ogden is survived by two sons, five brothers and two sisters. O. C. Ogden of the Sonora Motor Company is a cousin of the deceased.

MOTHER OF EIGHT LEADS STORK DERBY

Probable Winner of Race Says She Isn't Trying.

Toronto. — Ontario's celebrated ten-year "stork derby," purse of \$500,000, looks like a walkaway for a contender who declares that she isn't even trying—Mrs. Grace Bagnato, who has given birth to eight children since October of 1923. The stakes in the "stork derby" were provided by Charles Vance Miller, K. C., prominent Toronto barrister, who died in October, 1923, and who bequeathed the bulk of his fortune to the Toronto woman who gives birth to the largest number of children in the ten years following his death.

With more than seven of the ten years now having passed and with the contenders rounding into the home stretch, Mrs. Grace Bagnato appears to have the inside rail position, always barring the possibility of triplets putting some "dark horse" into the lead.

Plans to Have More. Runner-up to Mrs. Bagnato in the contest is Mrs. Florence Brown, who has had seven children since the race started, but who is today said to be falling behind.

Mrs. Bagnato, now only in her early forties, has given birth to 22 children, all told, and declares that, irrespective of the Miller trophy altogether, she expects to have two or three more before October of 1933. In fact, she insists that the \$500,000 isn't even an inducement at all; although admitting that it, or even a slice of it, would come in very handy indeed.

"But we aren't thinking about the award, at all," insists the Italian matron, younger in appearance than her years. "We're just raising the family that we consider is our duty—and finding it mighty difficult sometimes. If we win the \$500,000, it will be fine, wonderful; but if we don't it won't be any disappointment to us, for we aren't counting on it."

Several attempts have been made, in the past, to cancel the "stork derby," on the ground that Miller never seriously intended his estate to be so utilized. Several of his close associates declare that he only drew up the will in question as a joke, and that he intended to prepare a later testament, which would revoke it, but that he died suddenly, before having an opportunity to do so.

Upheld by Courts. Regardless, however, of the spirit in which the testament may have been drafted, the Ontario courts have already ruled that it is a valid document.

The Ontario government, two years ago, moved to set the will aside on the ground that it was contrary to public interest, and to appropriate the estate, utilizing it for educational purposes.

A protest arose against such a step, however, with the result that the government abandoned its proposal.

Soon afterward it became known that efforts had been made to "buy off" both Mrs. Bagnato and Mrs. Brown, and that certain unidentified men had offered them from \$50,000 to \$100,000 in cash to assign their rights to the estate. It was suggested, but not definitely established, that these offers might have been made on behalf of the government. Both Mrs. Bagnato and Mrs. Brown declined them, however, taking the stand that a bird in the hand is not worth two in the bush when the bird in question is the stork.

If Mrs. Bagnato—mother of 11 living children and as many more dead—wins the prize, one of the first things she plans to do is to adopt a child, she declares. Then she and her husband hope to buy a small farm, perhaps about 15 acres, on which to raise their family.

English Woman Walking Around World on a Bet

Montreal.—Mrs. W. Chatworth-Musters, widow of a British ship captain, who is walking around the world without money on a bet, arrived here recently on her way across Canada and the United States.

She already has walked around England, and after a short stay here she proposes going to New York by rail and walking from there to Chicago and out to the coast.

Her itinerary will take her across the United States and Canada in easy stages, then south to Mexico and South America, across to Honolulu and onward through the Far East, Africa and Europe.

Under the terms of the wager, her stay at any place is limited to 12 days. There is a clause which stipulates that "hospitality, transport over land and sea, food and lodging can be offered and accepted and when desired reasonable services can be rendered in exchange." The wager is for \$2,500.

Father Dies in Dance of Joy Over Son's Birth

Wheeling, W. Va.—"It's a boy!" a beaming nurse told John Ward, thirty-two, in a hospital here. Overcome with joy, Ward capered about the corridor. He slipped, fell, and fractured his skull. A few hours later, before he had seen his son, he died.

PERSONALS

Bob Muckleroy was in Ozona Monday on business.
Mrs. Alvis Johnson and son, Alvis jr., were in San Angelo Tuesday.
Mr. and Mrs. Bud Smith and little daughter visited in Brady Wednesday.
Miss Lois Thomas left Sunday to spend several days at her home in Miles.
Mrs. J. W. McDermott of St. Louis, Mo., is visiting her sister, Mrs. C. E. Stites.
Mr. and Mrs. Henry Decker and Mr. and Mrs. H. L. Taylor were in Rock Springs Wednesday.
Miss Jamie Gardner is spending the week in Big Lake in the home of Mr. and Mrs. Clifton Brooks.
Mr. and Mrs. Wirt Stephenson and Mr. and Mrs. Stanley Patton spent the Fourth in Rock Springs.
Mr and Mrs. A. C. Smith and children of Waco are guests of Mr. and Mrs. Alvis Johnson this week.
Miss Marie Watkins returned Wednesday from a visit with her sister, Mrs. Paul Patterson of Fort Worth.
Mrs. Birdie Rutledge spent the week-end last week in the home of her daughter, Mrs. George Russell of Ozona.
Mrs. Ernest McClelland and daughter, Raymie Jo, left Friday to spend a week with Mr. and Mrs. George Cardwell of Lockhart.
Ralph Trainer and children, Reggie, Sanford and James, and Miss Grace Trainer spent the day Wednesday in Rock Springs.
Miss Polly Hecker of Montrose, Mo., and Horace Aken of Austin spent several days this week as guests of Mr. and Mrs. Fred Earwood.
Mr. and Mrs. J. L. Guthals and son, Lawrence, of San Angelo, spent the week-end with Mrs. Beulah Pfeister, mother of Mrs. Guthals.
Mrs. Louis Rouche and daughter, Nina, returned Sunday from a week's visit in Rankin. They were accompanied home by Vincent Rouche.
Vernon Holmes of Gonzales, recent graduate of A. & M. college, spent several days last week at the Ranch Experiment Station a guest of Mr. and Mrs. W. H. Dameron.
Miss Grace Draper left Sunday to spend several weeks at her home in Lohn. Mrs. Cecil Allen is taking Miss Draper's place at the Trainer Beauty Shop during her absence.
Mr. and Mrs. Richard Vehle and daughter, Betty Grace, and Kathryn Trainer attended the Sonora-Eden softball game at Eden Thursday. The party returned by way of Menard, stopping for a short visit.
Mr. and Mrs. B. M. Halbert, jr., Mr. and Mrs. Duke Wilson,

Losing Side "Pays Off" With Party at Hutchersons

Following an established custom Pastime Club losers for the last six months' period "paid off" handsomely at a "42" party Monday night at the home of Mr. and Mrs. B. W. Hutcherson.
Thirty-six guests at nine tables of forty-two enjoyed the hospitality of the several hostesses until a late hour.
Considerable confusion followed erratic scoring of games, when, after each game a new method was introduced. Reversing the usual procedure of tallying scores, the low man progresses, leaving the high to figure out just where they came in on the deal. Scores were totaled, divided, subtracted, multiplied or doubled as suited the fancy of the hostesses in charge of tables.
High score for men went to Richard Vehle and high score for ladies to Mrs. Robert Rees.
Ice cream and cake were served to the following participants:
Guests: Messrs. and Mesdames G. H. Davis, James D. Wilson, Hi Eastland, Libb Wallace, Troy White, Mesdames Maysie Brown, Stella Keene, and Mary Evans of San Angelo, and
Messrs. R. A. Halbert, George D. Chalk and J. D. Lowrey.
Members: Messrs. and Mesdames O. G. Babcock, Robert Rees, W. E. James, C. E. Stites, W. E. Caldwell, E. P. Neal, Richard Vehle, L. E. Johnson, Orion Brown and B. W. Hutcherson, and Mesdames Rose Thorp, J. W. Trainer and J. A. Cauthorn.

Here Is Miss Frontier 1934

Miss Lois Crane, born on a Wyoming ranch and who has spent most of her life in the open, was selected as the most typical western girl and will reign as Miss Frontier 1934 over the Frontier Days celebration in Cheyenne beginning on July 23.

Mrs. Johnson Is Club Hostess at Morning Party

Mrs. L. E. Johnson was hostess to the Pastime Club Thursday morning at her home with three tables of "42".
Cantaloupe a la mode was served at the close of the games to Mesdames W. E. Caldwell, O. G. Babcock, Rose Thorp, J. A. Cauthorn, J. W. Trainer, C. E. Stites, M. G. Shurley, Orion Brown.
T. W. Sandherr, B. W. Hutcherson, W. E. James, members and W. D. Martin guest.
Mrs. Trainer held high club score and Mrs. Martin high guest.

Livestock Shipments Show Sharp Decline

Sheep Fall Off 17 Per Cent; Less Than As Many Hogs Received
Austin, July 5.—Shipments of livestock from Texas to the Fort Worth market and interstate points suffered a drastic decline in May in comparison with the same month last year, according to Dr. F. A. Buechel, assistant of the University of Texas. Total shipments of all classes of livestock were 5,306 cars, against 7,854 cars a year ago, a drop of 32 per cent. All classes of livestock shared in the decline. Shipments of cattle for the two periods were, respectively: 3,509 and 4,931 cars; calves, 490 and 1,037 cars; hogs, 351 and 835 cars; and sheep 956 and 1,051 cars. For the year to date combined shipments of all classes of livestock to the Fort Worth market and interstate points totaled 24,059 cars, compared with 25,760 cars during the corresponding period of last year.
Individual markets showed marked changes in the number of Texas livestock received in May this year, compared with the same month a year ago. Less than half as many Texas hogs reached the Fort Worth market, and the number of sheep fell off 17 per cent. Los Angeles received about one-fifth as many cattle and half as many hogs as a year ago. Sharp declines characterized shipments of cattle and calves to the grazing land of Kansas and Oklahoma. To the former State Texas shipped only about half as many cattle and one-fourth as many calves; and to the latter about three-fourths as many cattle and a third as many calves as in May last year. More cattle but fewer calves were shipped from Texas to Colorado than a year ago; 9,621 head of sheep were shipped from Texas to Colorado whereas none was shipped in May last year.

Mrs. Duke Wilson Bridge Hostess on Saturday Afternoon

Entertaining the members and guests of the Queen of Clubs, Mrs. Duke Wilson was hostess to four tables of bridge Saturday afternoon at the home of Mrs. Nannie B. Wilson.
High club award went to Mrs. John A. Ward, jr., low club to Mrs. Joseph Vander Stucken, and high guest to Mrs. W. J. Fields, jr.
The hostess served a delicious pink and green sandwich plate with iced tea.
Members: Mesdames Joseph Vander Stucken, R. C. Vicars, Lloyd Earwood, Henry Decker, John A. Ward, jr., Sam Karnes, and Miss Ada Steen.
Guests: Mesdames R. A. Halbert, J. A. Cauthorn, Nannie B. Wilson, Roy Ward, H. V. Stokes, B. M. Halbert, jr., W. J. Fields, jr., and the Misses Muriel Simmons and Mae Cauthorn.

congress between now and the July 28th primary election.

Deal, well known for his work in behalf of farmers and ranchmen of the district, is and always has been, a staunch supporter of President Roosevelt.

The candidate believes that the battles of the ranch and farm interests in West Texas may be fought as much before the AAA and FCA in Washington as before congress in practical ways that will mean dollars and cents to this district.

These governmental facilities today are administering funds that go direct to the people, he has been telling audiences in the district, and the next congressman needs to know how to contact them.

For a profitable program, he said, he would work for a reduction in the 2 per cent commission charge allowed certain dealers on consigned government wools and would seek to abolish the bonding system of foreign imports which are landed in the United States duty free.

Cubans Greet an Ex-President

Ramon Grau San Martin, former provisional president of Cuba, was carried on the shoulders of the welcoming committee as he arrived at Havana from Mexico on the liner Sierre Vertama. Although he refrained from a formal declaration, he intimated that he would accept the nomination of the Revolutionary party to run for the presidency in the next election. Grau San Martin was so affected by the reception that he had to have medical treatment.

Independents Win—
(Continued from page 1)

be played by any of the contesting teams.

It is the intention of managers to match Sunday games between outside organizations and the All-Stars, West Texas champions of softball. This new arrangement is being made to provide extra amusement for Sonorans.

Official score keeper, Frank Knapton, is making a request that people who attend the several games will please observe parking rules and locate their cars outside the safety zone. This request is made in order to prevent the possibility of serious accidents to players and spectators alike.

The following table gives the line-up of the five starting teams in the finish of the first half.

Double-Header Here Sunday
One of the largest crowds of the season, estimated between 500 and 600 fans, witnessed the double-header here last Sunday when the Sonora All-Stars played all-star teams from Robert Lee and San Angelo.

The first game was with the Robert Lee boys, resulting in a sound drubbing at the hand of the champions with a score of 13 to 7. John and Herbert Fields were accounted the hitting stars of the game. Herbert made an all-time record by getting three hits from three times at bat and scoring a run each time. John Fields earned his star with three hits out of four times at bat and scoring two runs.

In the second game between

VAST WEALTH RULED BY AMERICAN WOMEN

Huge Inheritances Pass on Fortunes to Females.

Chicago.—The golden stream of America's wealth is gravitating into the hands of American women.

The prospect of women exercising a dominant control over the nation's billions is no longer remote, for, from the wife of the wage earner, with her kitchen clutch on the family purse strings, to the great queens of inherited finance, women little by little are possessing the nation's wealth for themselves.

The days not so long ago when the country marveled over the legendary riches of Hetty Green, "first woman millionaire," have given way to everyday acceptance of the many women who now possess colossal fortunes.

Control Vast Sums.

Doris Duke, granddaughter of the late James B. Duke, is now in control of \$10,000,000 of the Duke tobacco fortune. By 1936, when she will come into full control of her complete inheritance of \$50,803,000, she will be the richest girl in the world.

Right now she ranks second in actual holdings to Barbara Hutton, who recently married Prince Alexis Mdivani of the Russian province of Georgia. She inherited one-third of the \$58,000,000 left by her grandfather, the late Frank W. Woolworth, dime store king.

While these two girls are the most glittering examples of women with legendary wealth, there are thirty others in the United States currently reporting annual incomes of over \$1,000,000 each. Their average income, indeed, was \$2,062,190—and that means that their fortunes run into tremendous sums.

The complete astounding picture of how far the women of the United States have already come in their instinctive program of corraling the money made by men in a man's country has just been presented by economists.

Published by the University of Chicago, the survey, "Women and Wealth," directed by Mary Sydney Branch of Western college at Oxford, Ohio, shows:

Survey Gives Facts.

That women millionaires are now as plentiful as men.

That women are the beneficiaries of more than half the estates left by either men or women.

That they receive more than two-thirds of the value of all the legacies through which these estates are distributed.

That an average of 38 per cent, or more than one thousand millions of all income reported under the federal income tax, is received by women.

That of the 18,000,000 stockholders in the United States women comprise 7,740,000.

That women, in 1928, owned more than twenty thousand millions of the total of ninety-two thousand millions worth of capital stock in all American corporations.

That 48 per cent of all those leaving enough property to be subject to inheritance tax are women.

That women annually are the recipients of 80 per cent or more of the death claims paid by life insurance companies, receiving, in 1931, the staggering total of \$732,155,607.

And that they are named beneficiaries of eighty-seven thousand millions of the one hundred and nine thousand millions of life insurance outstanding.

All this, too, only a few generations from the days when women's economic status was little better than that of a child or a slave!

Silver Tipped Arrows Started Lode Legend

Smethport, Pa.—The tradition of a fabulous silver lode in this district—based on discoveries of silver tipped arrows—has been revived with a renewal of coal mining activity in the past year.

Source of the silver used by the Indians for their arrow heads has been sought by prospectors who believed that a rich lode of the metal might be uncovered. Many shafts have been sunk without success.

During recent months, however, coal mining, after a long period of inactivity, has been revived in several districts. The renewal of mining operations recalled the old tradition—with speculation on a possible rich discovery of silver in some new mine shaft.

Lion Hunter Obeys CWA Rules on Working Hours

Prescott, Ariz.—Six mountain lion hunters appointed by the Civil Works administration in Yavapai county took the NRA pledge as to working hours. One of them treed and killed three lions, and had a fourth up a tree, when he looked at his watch and found that his work-week was over. He called off his dogs, shouldered his rifle, and went home.

Historic Chain Presented

San Francisco.—The original surveyor's chain used by Jasper O'Farrell in the first survey of the downtown district in 1846, has been presented to the city by a grandson and namesake, Jasper O'Farrell, bank official.

Sonora Champions Defeat Eden 6-1

Team Led by Jodie Trainer and John McClelland

The Sonora All-Stars, soft-ball champions of West Texas, have added another win to their string of victories by defeating an all-star team of Eden the past week at Eden. The Sutton county club was led by Jodie Trainer and John McClelland, both scoring two runs for the winners. The final score was 6-1. Tabor scored the Eden run. Tatum of Eden was the only player on either team to get two hits.

The Sonorans are still undefeated in softball play and the challenge is still open to any team in Texas. In a recent game against Eldorado the Sonora Lions Club dropped a game to Eldorado. Many fans thought the Sonora team was the city's all-stars, according to Frank Knapton, official score keeper.

The box score of the Eden game:

Sonora All-Stars	AB	H	R	E
J. Trainer rf	3	1	2	0

Halls Visit Plains Farm

Mr. and Mrs. Hix Hall returned Tuesday morning from Hart, Texas, where they had been to supervise the reaping of their wheat crop. This was their second visit to the Plains country in the past two weeks. On the first trip the wheat was considered too green for cutting. The yield per acre was satisfactory, considering a lack of good season, Mr. Hall said.

Attend Assembly at Kerrville

The Rev. and Mrs. E. P. Neal and daughter, Miss Clovis, and sons, Carman and Cadman, and Miss Gertrude Babcock left yesterday for Kerrville to attend the Young People's Methodist Assembly. Misses Neal and Babcock go as delegates from the Methodist church of Sonora. The Assembly will last seven days. The Rev. Mr. Neal will return to Sonora for the Sunday morning services.

Chevrolet Production Totals 468 Units

Assembly Line Employs One Hundred Seventy-five Workmen

Detroit, July 5.—First month's production of Chevrolet cars at the Chicago World's Fair, General Motors building assembly line totaled 468 units, according to information released by Dudley Fraser, assembly line manager.

By actual count, 646,107 people have visited the exhibit to watch the building of Chevrolet cars, an increase over the first 30 days last year.

Retail sales of Chevrolet cars in the General Motors building are materially higher than last year also, it was reported.

The Chevrolet World's Fair as-

sembly line employs 175 workmen selected by merit from the Janesville, Kansas City, Norwood and Flint assembly plants. They work six hours a day, six days a week, according to the NRA code. The line operates from 1:30 in the afternoon till 9:30 at night, except Sunday

**India's Venomous Snakes
Less Than Six Feet Long**

Should you encounter a snake more than six feet long in India, outside the thick jungles of Travancore, Assam and Burma, you need not be badly worried, according to a zoologist connected with the Review of India, of Calcutta and Delhi. For he tells us that most of the deadly venomous snakes native to that country are six feet or under in length. The deadly jungle species attaining a length of more than six feet is the Hamadryas or king cobra.

But even if they are not monsters, the poisonous snakes of India do plenty of damage. "The wild beasts of India kill 2,000 people every month," this authority writes.

There are 320 species of snakes registered, of which 67 are toxic (29 water snakes, 18 vipers, 11 kraits and 9 species of cobras). Only two of the vipers can give a fatal bite, and there are only four species of land snakes whose bite is usually fatal. These are a species of cobra, a krait, the chain viper, Russel's viper, or daboia, and the phoorsa, echis carinata or saw-scaled viper.

Everyone should learn to recognize the four types of snakes among which extreme poisonous varieties are to be found, even though he cannot distinguish the individual species, for two reasons—to be as wary as possible if the reptiles are of a type to be feared, and to minimize the possibility of dying from fright when bitten by a species that is comparatively harmless.

**One-Cent Stamp of 1856
Most Valuable in World**

The British Guiana 1856 one-cent stamp is the most valuable bit of postal paper in existence, says the Boston Transcript. Like many another rarity, its worth was not recognized by its original owner. A lad living in British Guiana who found it among some old family papers in the year 1872, sold it to a collector for \$1.50! The stamp thereafter changed owners several times, each time at rising prices, until in 1890 it was purchased for \$600 by that great stamp collector of all time, the Austrian Count Phillip la Renotiere von Ferrary.

When Count Ferrary died, in 1917, his huge and wonderful collection was sold in a series of 14 auction sales at a price which totaled \$2,275,075. It was at one of these auction sales that the agent of an American millionaire, the late Arthur Hind, of Utica, N. Y., outbid the agent of King George V for the possession of the British Guiana rarity. The price paid, including the French government's tax, was \$88,025—a colossal sum for one postage stamp! Yet stamp prices, like all prices, are based on laws of supply and demand. There are millions of stamp collectors, but only one copy of the one-cent 1856 stamp of British Guiana. This stamp, it is estimated, if sold, would sell in the neighborhood of \$50,000.

"Once in a Blue Moon"

The expression "once in a blue moon" appears to have originally meant "never," but now it denotes "very rarely." Ware's "Passing English of the Victorian Era," says that its origin is absolutely lost in mystery but it is probably an Anglicism of a word or words with which neither "blue" nor "moon" has anything to do. The United States weather bureau also has been unable to account for the phrase. Doctor Brewer, compiler of the Dictionary of Phrase and Fable, states in his explanation of the phrase: "On December 10, 1833, we had a blue moon. The winter was unusually mild." Again in December, 1927, at the time of an eclipse of the moon, some observers in Belfast, Ireland, were reported to have seen a blue tinge in the moon's appearance. Moons of unusual colors, such as green and blue, have been noted after violent volcanic explosions or through smoke-laden fogs.

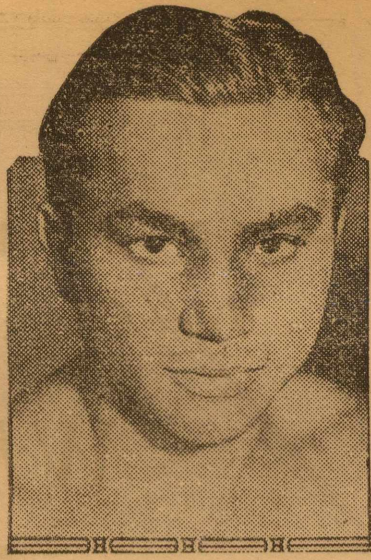

Jaguar

The Jaguar and the jaguarundi are not alike. Indeed two cats could hardly be more different, yet both inhabit tropical America. The jaguar is in size between that of a tigress and a leopard, and, like the latter, is marked with ring-like spots. It is a very powerful and savage beast, preying upon the largest quadrupeds and reptiles in the South American forests. On the other hand the jaguarundi, which seems to be an Indian name somewhat modified in Spanish, is a small wild-cat of the heated jungle from northern Mexico to Brazil, which lives in trees and hunts for birds and lizards. It is peculiar in its long, slender body, which measures about 20 inches, to which must be added a tail 20 inches in length. Its coat is short, fine, and one of color throughout, usually a pepper-and-salt gray.

Nearest Celestial Body

With the exception of swarms of wandering meteorites which enter the earth's gravitational field and fall into the earth as "shooting stars," the moon is the nearest celestial body to the earth, so far as known. There is a possibility of a very small moon or satellite of the earth revolving inside the moon's orbit around the earth, but its existence remains unproved.

NEW RING CHAMPION

Barney Ross of Chicago, who recently won the welterweight title from Jimmy McLarnin in a ten round battle in New York. Ross already held two other championship titles. He is twenty-four years old.

Barometer Has Been Big Aid to Weather Wizards

The air contains water, vapor, ammonia, hydrogen, nitric acid, dust particles and a host of various small plants and animals, such as yeast plants and various germs and bacteria. These constituents are variable in amount and are largely the product of modern cities and civilized life—with the exception, of course, of water, says an authority in the Boston Globe.

This is the chemical analysis of air at the level of the earth, the air we can take hold of. What of the air overhead?

Physics, and its infant offspring, meteorology, the science of the weather, also investigated the air. Careful study of generations of scientists found that at sea level the air pressed down—that is, weighed—15 pounds on every square inch of the earth's surface. An instrument known as the barometer was invented to measure this weight, and it was found that the air would support a column of mercury 30 inches high.

Study showed that this measurement was not constant; it fluctuated from time to time above and below 30 inches. Some bright mind found that when it was below 30 inches, it brought rainy weather; when it was above 30 inches, it was fair weather. This was a very important discovery in the beginning of the science of weather.

And then some other bright mind discovered that a barometer carried up a mountain measured less and less as the ascent was made. At a height of 3.6 miles the mercury read only 15 inches—which meant that just one-half of the entire amount of the atmosphere lay in that thickness. But, there being few mountains higher than four miles which are climbable, scientists found that they could discover nothing else by direct measurement of the air.

**Prisoner's Citizenship
Lost When Incarcerated**

According to the warden of the Ohio penitentiary, each prisoner upon admittance to the penitentiary is automatically disfranchised, and he can seek restoration of his citizenship only when he has received final discharge from his prison term.

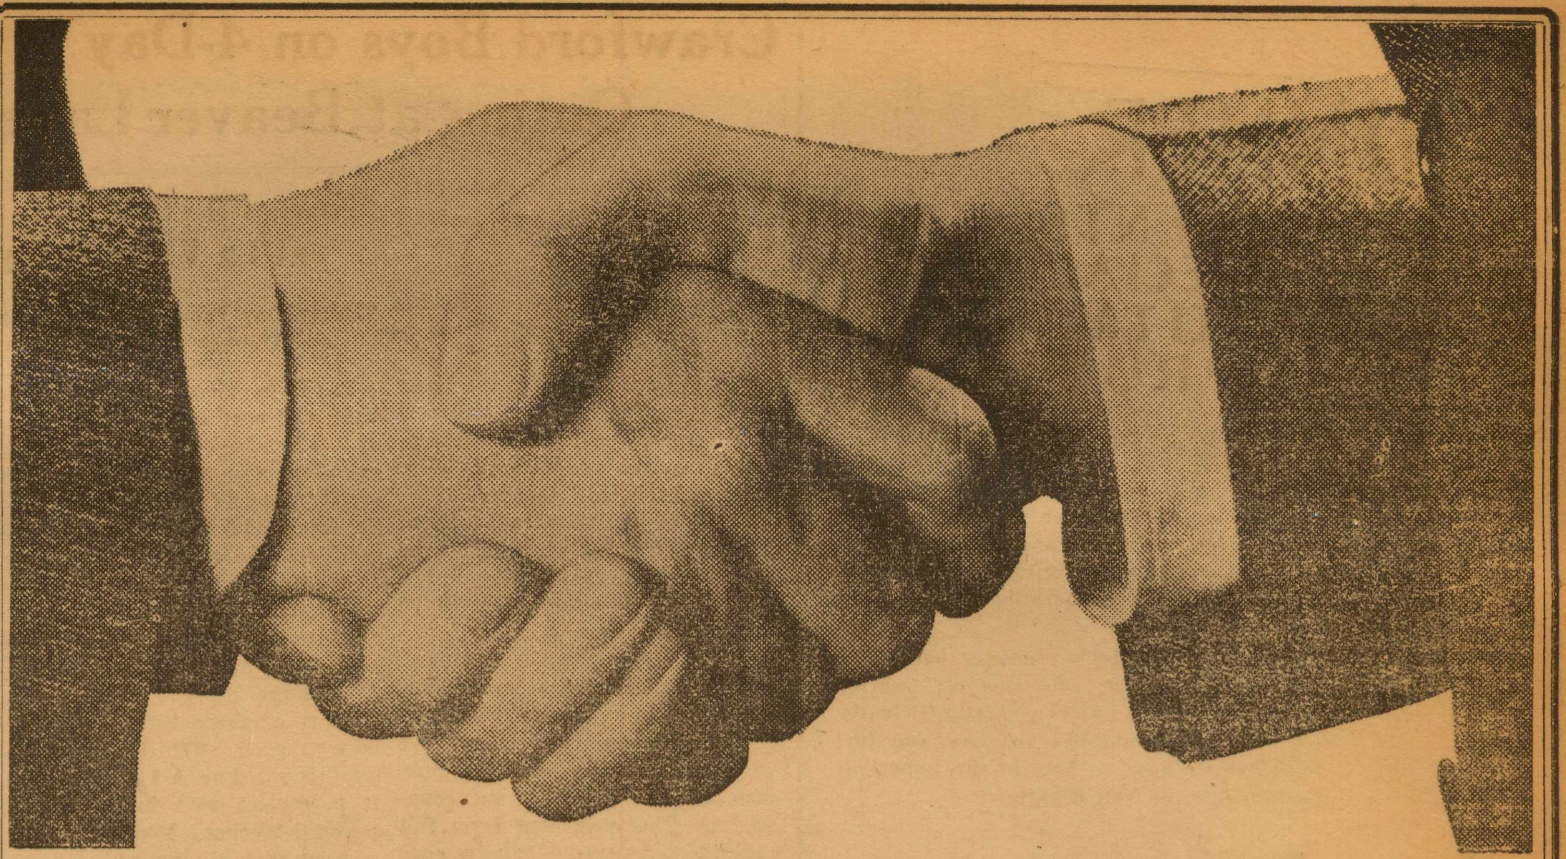

A paroled prisoner is actually still a prisoner who has been allowed to prove himself over a period of time away from prison as specified by the paroling authorities, and if he has proven himself worthy, is granted a final release from the sentence and may then make application to the governor to have his citizenship restored, which is granted in all cases where proper proof is furnished that the applicant was a citizen prior to his imprisonment.

Those receiving full pardons automatically return to the status enjoyed prior to being incarcerated, the full pardon legally proving the recipient guiltless.

Prisoners receiving conditional pardons or executive clemency in the way of commutation of sentence (commonly referred to as pardons), make application for restoration in the same manner the paroled do after they have fulfilled the conditions imposed.—Cleveland Plain Dealer.

Can Watch Day Being Born

In the Arctic ocean, about seventy miles from Nome, are two islands—the Big and Little Diomedes. The big one belongs to the Soviet Union and the little one is United States territory, and they are less than two miles apart. Here live people who, without turning their heads, can see America and Asia. Believe it or not, says a writer in the Cosmopolitan, they are the only people in the world who can watch a day being born. Each day begins out in the middle of the Pacific ocean on the international date line, a mythical mark on the one hundred and eightieth meridian—which runs between these two Diomedes Islands. Today began exactly at one moment after midnight last night on this date line, and these lonely Russians and Americans out there watched it being born many hours ago.

Hand in Hand for 43 Years...

For forty-three years Sonora and its territory and the Devil's River News, the publication devoted to the interests of both, have worked hand in hand—through good times and bad, through flood and drouth.

The result of this association has been a progress for both, in which each has had a share in the other's development. Truly, they have traveled the road together. The community has grown, and has thus made possible the growth and development of The News. The News has in turn aided this community in its path of progress by telling the world of the merits of this great land, and by carrying to residents of the great Sonora territory the messages of local business firms.

Modern "Dress" for Towns and Newspaper

As the years have passed away a sure and steady growth in the town of Sonora and its surroundings has brought a changed appearance. The flimsy buildings and board walks of early days have been replaced by modern business structures, paved streets and sidewalks. Adequate schools, beautiful church buildings, a railroad, a big wool firm, a beautiful bank and office building have concrete evidence of the substantial nature of the basis business structure of the Stockman's Paradise.

During the same years THE DEVIL'S RIVER NEWS kept pace with community growth. Its plant "went modern", with equipment both up-to-date and complete, thereby affording for the growing town a complete publishing and printing service on par with that in other towns of similar—and much larger—size in our nation.

NOW!! A Move to Convenience All of Us

Beginning with this week's issue THE NEWS comes from a modern building, with plant re-arranged to increase our convenience—and more important—in a location especially convenient FOR YOU. Now our modern shop is located in a modern building, adjoining the Sonora Motor Company's showroom (in former location the Ruteledge Cafe). It will be more convenient for all our friends and customers to drop in for a friendly visit—to tell us their news, pay their bills, order their advertising and printing.

We invite you to come in at any time, whether on business or just to look around. When we can serve you, please let us know. We are here to serve this community, now and in the future.

Crawford Boys on 4-Day Outing at Beaver Lake

A group of eleven boys from an intermediate class of thirteen, all members of a Baptist Sunday school class of Crawford, Texas, passed through Sonora Monday en route to Beaver Lake for a 4-day outing.

"The trip is a reward for three months' good attendance and perfect lessons," said V. B. Watson, superintendent of the Crawford public schools, and teacher of the class of boys. "Grades of 85 to 100 per cent were attained by the boys," their teacher added. Mr. Watson is a relative of Ralph Watson of Ozona.

The party was well organized, being in charge of their teacher and two counsellors, E. B. Fincher and Stanley Tufts. The boys were divided into two groups, each headed by one of the counsellors. The governing body felt sure the boys would have a good time and enjoy the trip to its fullest.

The boys were traveling in one of the Crawford school busses driven by L. H. Weiss, one of the regular drivers during the school terms. Every convenience had been installed for comfort and pleasure, and with the experience of camping out, fishing and bathing in the Beaver Lake the boys should have wonderful tales of adventure to relate on their return to their homes in Crawford.

"And there'll be no dishwashing" one of the group volunteered, "because we have with us a famous camp cook and chief bottle washer, Alex Booker, (colored)!"

The personnel of the party, not including officials already named, follows:

Freeman Nunnley, Henry Kelling, Edwin Hurst, Henry Homan, Ren Barnard, Jack Bennett, Benja Nail, George Reid, Gene Reid, Eugene Finch and Reynolds Welch.

Mr. and Mrs. L. E. Holland and Leo Holland of San Angelo spent the 4th of July in Sonora, guests of Mrs. Lee Holland, mother of the Holland boys, and Mr. and Mrs. Lum Heflin, parents of Mrs. L. E. Holland.

"Now I'll Tell" at La Vista Today

"Thirty Day Princess" Wednesday and Thursday; Also Serial

La Vista Theatre offers this week and next a splendid program of entertainment. Attention is called to two pictures in particular: "Now I'll Tell," today and Saturday and "Thirty Day Princess" on Wednesday and Thursday. In the former Spencer Tracy gives a convincing performance as "Rathstein"; Helen Twelvetrees plays the part of his wife, and Alice Faye his girl friend. The support of these three characters is very good. "Thirty Day Princess" is rated an A-1 performance. It is replete with humorous and satirical touches. You will be well pleased with the acting of Sylvia Sidney and Cary Grant.

Today and Saturday another chapter of the interesting serial "Gordon of Ghost City" will be shown.

A different line-up for Tuesday has been worked out, Mr. Hall states. The bargain night will be discontinued for a while and the regular prices of 15 and 35 cents will prevail. This change is made on account of a new departure that is being tried out. If the venture proves successful the Tuesday night prices will be maintained. In this event two bargain nights will be established, Wednesday and Thursday.

Through error in booking La Vista failed to show "Embarrassing Moments" it will not be on the Tuesday night, instead showing another picture. That patrons may know this switch in feature films was not made intentionally, Mr. Hall states that account of delay in release date of "Embarrassing Moments" it will not be in the screen until July 9th, at which time or a little later it will be shown at La Vista Theater.

Jim Vowel of Dalhart was a guest of Hillman Brown for the week-end.

Near Wreck on Main Street Wednesday morning two cars collided at the First National Bank corner, doing considerable fender damage to each automobile. A car

Carry an Adequate Balance in Your Checking Account

Why?

1. Because it is good business to do so.
2. You will have available funds with which to take advantage of unexpected cash bargains and profitable business transactions.
3. You will have a cash reserve in case of necessity.
4. It eliminates the necessity of a service charge to cover the cost of handling your account when active.
5. Your credit standing is raised by adequate cash balances.
6. Loans are more readily available to those who constantly carry good balances.

First National Bank

BANANAS, med-ium size, doz. **20c** GRAPES, fresh per pound **12½c**

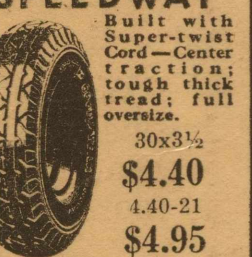

—EVERYTHING THAT IS AVAILABLE IN VEGETABLES—

"Your Advertising of 43% MORE NON-SKID MILEAGE is all WRONG"

Reports pouring in from G-3 users everywhere read like these: "43% more non-skid mileage is too conservative"—

Top Notch Value— at Every Price! Another famous example of Goodyear value possible because Goodyear Dealers sell the most tires—by millions!

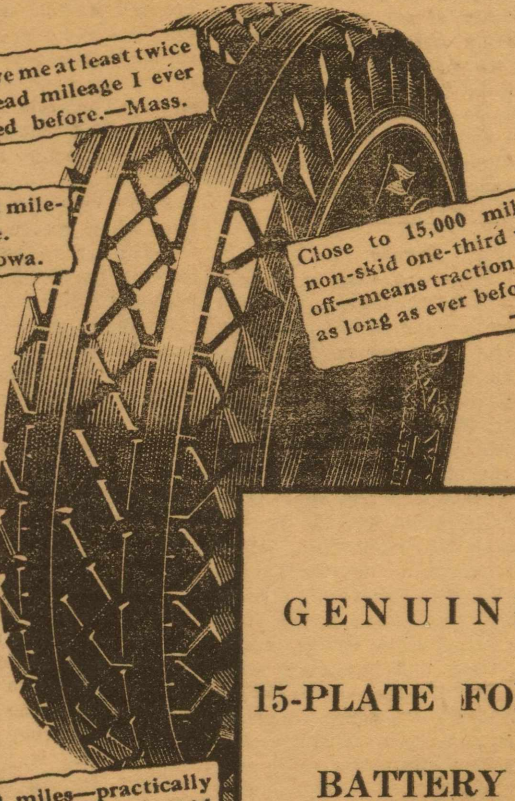

Other sizes in proportion expertly mounted on wheels. Prices subject to change without notice and to any State sales tax.

"60% would be closer"— "Feel I'll receive 100% more non-skid mileage." Maybe we have put the figure low, but—Goodyear's 43% statement is based on the toughest tire tests ever devised—speeding up to 50—jamming on brakes—every few miles—day and night—tougher use than most people give tires. Come see this wonderful new G-3 that "The Public Test Fleet" says is better than we claim—the costlier-tire-to-build that costs YOU nothing extra to buy!

ASTONISHING NEW "G-3" GOODYEAR ALL-WEATHER Look What You Get— No Extra Cost: 43% More Miles of real non-skid safety . . . Flatter Wider Tread . . . More Center Traction (16% more non-skid blocks) . . . Heavier Tougher Tread (average of 2 lbs. more rubber) . . . Supertwist Cord Body (supports heavier tread safely).

says a North Carolina car dealer who has seen G-3's perform for months on mountain roads. "In My Opinion You Have 75% More!"

18,030 miles—practically 75% of their non-skid left.—Wash.
