## Broncho Eleven to Have United Force Against Menard

Stinging After 40 to 0 Eldorado Defeat Team Expected to Fight Hard Saturday

**TOMORROW'S GAME:**  
Sonora vs. Menard  
Here—3 o'clock

Flaunting revived determination to score a victory for their school eleven Sonora Bronchos will charge at the sound of the 3 o'clock whistle tomorrow afternoon to attempt to conquer the team representing Menard High School.

O. P. Adams, coach, said yesterday that the boys and he were determined to beat Menard. Every effort will be made to find the weak spot in the strong defense the opposing team is reputed to have. On the offense they boast the services of Bauley, a fullback who is ranked by some alongside the burly Earwood who displayed his prowess for Rocksprings two weeks ago.

Eldorado has beaten Menard this year by a score of 13 to 0. Last Saturday the Menard team and coach were through here on their way back home after a 7 to 0 defeat at the hands of Ozona.

The starting line-up for Saturday's game, Coach Adams said, will likely be:

Glasscock	Left End
J. Logan	Left Tackle
E. Logan or Morgan	Left Guard
Trajan	Center
Vehle	Right Guard
L. Smith or Saunders	Right Tackle
Archer	Right End
Taylor	Fullback
M. Smith	Halfback
Barrow	Quarterback
Brantley	Halfback

## TO FORT STOCKTON OCT. 27

Arrangements have been completed for a game with Fort Stockton to be played there, under floodlights, Friday night of next week. It will be the Bronchos' first experience under the lights and Coach Adams has declared they will get plenty of coaching between now and that time.

A. W. Awalt has been on the sick list since Monday and has not been able to come out for practice. Wednesday afternoon Louis Smith sprained his ankle in practice and may not start the game tomorrow. Saunders will get his chance if the ankle is not "fit." Reggie Trainer received a knockout in practice Tuesday and was ill for several (Continued on page 3)

## NEATLY-WRITTEN LETTER COMES FROM GARZA BOY

Dear Mother:  
I want to come home Christmas. Send me some trousers and a box of candy — zero.  
How are you?  
Love,  
Rudolph.

After only a few weeks in the state school for the blind at Austin, Rudolph Garza sent the above letter to his foster parents, Mr. and Mrs. Paul Garza. It was received this week.

Although he could not write at all when he left here the letter is in a neat, legible handwriting. When he enrolled his parents were told that they would not receive a letter from him until he could write it himself so Mr. and Mrs. Garza feel that the letter was written by Rudolph.

The candy he mentions is the only kind that he likes. Clothes have been sent the boy several times since he was taken to Austin by his parents.

## Former Resident Returns

Asa Bricker who formerly lived here returned Thursday of last week on business. Mr. Bricker now lives on the Kingston Ranch, in the Davis Mountains, sixty miles from Balmorhea.

R. W. Perrine of Manor visited Mr. and Mrs. W. J. Fields, sr. this week.

## FIRST OF HER KIND

Miss Elinor Murdoch of New York, who was declared the winner of the "Individual masters' championship of the American Bridge league at tournament in the Hotel Ambassador, New York. She is the first of her sex to win the title.

## Cast Announced for "Captain Applejack" Play Next Friday

Parent-Teacher Organization in Charge of Production as Benefit

Ambrose Applejack's library was an interesting place and a very apt setting it is for the play "Captain Applejack" which is rapidly being shaped into final form for presentation by Thirteen Dramatic Club Friday, Oct. 26, under the auspices of the Parent-Teacher Association.

Receipts from the sale of tickets, above the actual cost of production, are to be used by the association in buying a curtain for the stage of the elementary school. The curtain would be in the nature of a tribute to the memory of the late Miss Vivian Ball, former principal of the school.

The play, under the direction of W. C. Gilmore, has been in rehearsal at the high school auditorium where it will be held, for several weeks. The cast of eleven characters was announced this week. It is:

Lush	Collier Shurley
Poppy Faire	Mrs. Tom White
Mrs. Agatha Whatcombe	
Miss Margaret Hull	
Ambrose Applejohn	Roy Baker
Anna Valeska	Mrs. Roy Baker
Mrs. Pengard	Mrs. Collier Shurley
Horace Pengard	Houston Stokes
Ivan Borolsky	Joseph Trainer
Palmer	Mrs. W. C. Gilmore
Dennet	George Wynn
Johnny Jason	W. C. Gilmore

It is described as "Arabian Night's adventure in three acts." Act one bears the sub-title of "the adventure," act two "the dream" and the third act the title of "the romance."

## WEST TEXAS FISHES LOSE OUT ON MEMPHIS WORMS

One thousand miles of travel for 2000 Memphis, Tenn., red wiggler worms was just too much of a journey. They couldn't take it!

When W. P. McConnell, jr., of Station B, wanted to be sure of good, live bait he sent "back home" to Memphis for worms. He cautioned that earth in which they were packed should be wet but that no water should be in the container.

Worms came Saturday. Too much water! Half were dead, according to Tom Driskell, fishing partner of McConnell's. It's vacation time for McConnell now but fishing plans may have to be revised if much more of his bait decides West Texas just isn't the place for worms used to that Memphis climate.

Hub Hale said Wednesday that his experience, too, with "imported" worms had been sad. His father brought him two and a half gallons several years ago. They were "planted" alongside the garage and tended so carefully as any flower bed. When fishing time came all had departed for parts unknown. Not a worm had decided to take up residence on the Hale homestead.

## Progress of Sonora Shown by Increase in Tax Valuation

New Property and Business Moves Account for \$24,000 Gain in Renditions

"City, here's your money"—

Most prompt taxpayers this year, in order of alertness, are R. S. Covey and Gene Lightfoot, according to the city manager. Statements for taxes, both property and personal, are being mailed.

An increased city tax valuation of \$24,305, as set forth in the tax rolls recently completed, can be pointed to as an index of progress in the growth of Sonora.

The valuations on which taxes have been levied for 1934 total \$1,219,430.42—the largest ever—as compared with last year's total of \$1,195,125.58. The increased valuations are accounted for not by increases on existing property on the rolls before, but by valuations placed on property never before assessed, according to George E. Smith, city manager.

Real property shows an increase, in round figures, of \$18,500, and personal property almost \$6000. The tax rate of 80 cents on the \$100 valuation, recently established by the city, is the same as last year. Absolute potential tax collections would total \$9,755.44—to be used, according to the budget, in these ways: general fund \$6,097.70; building fund \$616.42; sewer fund \$3,041.32. This is the first year a building fund has been set aside to receive benefits of tax monies. The city hall-fire station bonds recently voted are to be retired by such a fund.

City valuations are based on 80 per cent of actual value. An estimate then of the value of "real property" in Sonora would be \$1,524,288. Mr. Smith explained that inasmuch as valuations of individual property had not been increased the greater total valuation could only be attributed to new construction, business changes, new businesses established and levy upon property not heretofore rendered for taxation.

Included in new construction on the rolls for the first time are the residences of William Fields, jr., Libb Wallace, Russell Long, J. T. Penick, Ernest McClelland and W. S. Evans. The addition to the Sonora Wool & Mohair Co. was also rendered for the first time.

W. J. Fields, jr. and S. H. Allison were in Caterina Tuesday and Wednesday on business.

Mr. Smith explained that inasmuch as valuations of individual property had not been increased the greater total valuation could only be attributed to new construction, business changes, new businesses established and levy upon property not heretofore rendered for taxation.

Included in new construction on the rolls for the first time are the residences of William Fields, jr., Libb Wallace, Russell Long, J. T. Penick, Ernest McClelland and W. S. Evans. The addition to the Sonora Wool & Mohair Co. was also rendered for the first time.

## W. R. Barnes Completing 26th Year of Telephone Service

"Number, please," relief operators, insulators, copper wire, trouble of this sort and that has been a part of the life of W. R. Barnes, Sonora manager for Say Angelo Telephone Co., for 26 of the last 28 years of his life.

Mr. Barnes just naturally gravitated into the telephone business. He was born in Ennis, Texas, June 15, 1889, and came with his parents to Christoval as a boy of eleven. The elder Barnes secured the exchange there and in December, 1906, a boy-operator was being trained at the switchboard. His mother, Mrs. J. A. Barnes, and his sister, Velma, still have the Christoval office. Miss Odessa Deats is operator.

Work "in the office" and at other businesses in Christoval kept him occupied for a couple of years. At times he worked in and out of San Angelo as "trouble shooter." For a time in 1909 he was night operator in Sonora for Miss Daisy Palmer, manager. When telephone work palled a bit on him he took up barbering in Christoval for a 2-year period.

## Oil Field Work Called

In 1912—twenty-two years ago Wednesday to be exact—Mr. Barnes went to work at Rowena and Bronte where he stayed for 7½ years—still in telephone work. He was twenty-two when he got these

## Richard Vehle and Jo Nell Miers Are School Leaders

Each Will Be Honored by Lions Club Designation for Best High School Students

Introducing:  
"Lion"—Richard Vehle  
"Lioness"—Jo Nell Miers

An average of 96 2-5 for the five subjects she is studying is the accomplishment of Jo Nell Miers, daughter of Mr. and Mrs. W. A. Miers, during the first six weeks of the 1934-1935 school year.

The honor roll for the high school was announced Tuesday by R. S. Covey, superintendent. Girls other than Jo Nell Miers who made high averages are: Rena Glen Shurley, daughter of Mr. and Mrs. M. G. Shurley, with an average of 94½; Jo Ann Marion, daughter of Mr. and Mrs. Vernon C. Marion, with an average of 93 3-4.

An average of 94 4-5 was secured by Richard Vehle, son of Mr. and Mrs. Richard Vehle. Other boys who ranked well are: Robert Allan Simmons, son of Mr. and Mrs. Arthur Simmons, who scored with 93½ as an average; Wesley Sawyer, son of Mr. and Mrs. E. E. Sawyer, whose average was 92½.

Honor roll students must have passing marks in all subjects, have no 'C' grades and as many 'A' grades as 'B.'

The complete honor roll for the high school is:

Seniors: Joseph Logan, Dorothy Penick, Winnie Mae Trimble.

Juniors: Kenneth Babcock, Lunetta Marion, J. O. Mills, Wesley Sawyer, Lillie Marie Smith, Cora Belle Taylor

Sophomores: Marion Elliott, Nora Gilliam, Janie Lee Jackson, Lillian Kring, Emmalou Logan, Joyce McGilvray, Jo Ann Marion, Jo Nell Miers, Bobby Nisbet, Richard Vehle.

Freshmen: Kathryn Brown, Jack Shurley, Rena Glen Shurley, Robert Allan Simmons, Jim Taylor, Garland Slaughter.

Minnows: Louise Briscoe, Claud Thomas Driskell, Katha Lea Keene, Jimmie Gwynne Langford, Maida Ruth McKee, Robby Jo Wyatt.

## Sonora Boy Wins Rodeo Prize

Cleveland Jones was recently awarded a leather jacket for first place in steer-riding in the fifth annual rodeo and horse show at Texas Technological College, Lubbock. Herbert Fields, also a student there, was an entrant in the steer-riding.

## Ban Odom Ill

Ban Odom has been ill of a severe heart attack for the last week. He is improving.

## HAWKEYE CAPTAIN

Here is Russ Fisher, new field general of the University of Iowa eleven. Last season he played halfback. This year he has succeeded Joe Laws as quarterback and captain of the team.

## CLEVER STICKER TELLS EMPHATIC SAFETY STORY

The garland of posies this week, the NEWS feels, should be awarded to the unnamed author of the windshield sticker on the Humble car seen on Sonora streets. It is worded in this fashion:

The Wife of a Careless Driver Is Almost a Widow.

## Tax Exemption for NHA Improvements May Be Granted

Executive — Advisory Committee Named at Meeting Held Wednesday Night

Requests will be made of the county commissioners and the city commission that property improvements made as a result of financing secured under provisions of the National Housing Act not be taxed as increased value of the property.

That decision was reached Wednesday night at a meeting of the general committee directing the campaign in Sutton county under the "generalship" of W. C. Gilmore, chairman.

In Dallas, Albany, N. Y., and Memphis, Tenn., the special concession has been granted as an encouragement to property owners. The improvements in those places are being considered as offsetting ordinary depreciation.

Pamphlets and leaflets of many types—all telling of the National Housing Act—were displayed at the meeting. These are available and may be secured without cost at West Texas Lumber Co., Wm. Cameron & Co. or Gilmore-Hardware Co. Other promotion material for the purpose of educating the public as to act provisions are to be distributed to business houses and individuals.

An advisory-executive committee was appointed to direct the general campaign. It is composed of R. S. Covey, A. C. Elliott, W. C. Warren, John Eaton and W. E. Caldwell. Other committees appointed were:

Publicity, G. B. Rankhorn, Mrs. Roy E. Aldwell, Robert W. Jacobs.

Women's work, Mrs. B. W. Hutcherson, Mrs. W. C. Warren, Mrs. M. O. Britt.

Those who were present at the Wednesday meeting were: L. H. McGhee, W. E. Caldwell, G. B. Rankhorn, Mrs. B. W. Hutcherson, W. C. Warren, G. W. Archer, George E. Smith, W. C. Gilmore.

## Earl Smith Breaks Right Arm

A fracture of his right arm, near the wrist, was suffered Saturday by Earl Smith while attempting to crank an automobile.

Mr. and Mrs. J. O. Hightower, jr., and infant son, Richard Lee, returned last week from McCamey where they had been the guests of her parents.

## Problems Relief People Encounter Explained Monday

State Executives Address Workers from 23 Counties Here All Day Monday

"The new state board of control is impressed with the value of working as many people of relief rolls as is possible," declared E. A. Baugh, recently appointed assistant director of Texas relief activities, at a meeting here Monday attended by administrators, certifying officers and other staff workers of twenty-three West Texas counties.

Mr. Baugh's address in the morning session was a feature of the meeting—a joint one of the Hill Country and Heart of Texas administrative councils. Other state executives who attended were: Rex B. Baxter, district rural supervisor; L. B. Winan, senior accountant, district three; Miss Elva Lind, supervisor, adult education; A. O. Hensley, field supervisor, district three; Mrs. Helen S. Swanson, chief dietitian.

The meeting was opened by R. E. Taylor, Sutton county administrator who was in charge of arrangements for the day's work. Henry A. Rode, Mason, and L. M. Taylor, Brady, secretaries of the councils read minutes of their last meeting. They were introduced by Jimmie Atlee, Kerr county administrator, who, with Mr. Hensley, presided at the morning session. W. C. Gilmore, mayor, and R. S. Covey, Lions Club president, welcomed the visitors.

Commendation of the new state relief law was expressed by Mr. Baugh who described it as providing an efficient, more workable system than the old set-up. Allocation of bond monies, he declared, was being handled properly by the new board of control, made up of three members. Needs of counties are being considered carefully and he expressed the belief that no county would be left out on a limb' as far as budget needs were concerned.

"My position in the works division may have prejudiced me," Mr. Baugh commented, "but I think of relief in terms of work as a necessary adjunct to legitimate relief program. It is unfair to the individual not to give him an opportunity to serve for the benefit he has received.

"You are doing something for the man when you work him. If we don't give him work we do him an injustice that is primary, I think, and secondary is what we do or what we build"

Mr. Baugh outlined various problems of relief and told the workers of ways in which they unintentionally erred. Work projects, (Continued on page 3)

## Elementary School Honor Roll Chosen

Thirty-one Excel During the First Six Weeks of Year

Thirty-one pupils of the elementary school excelled during the first six weeks to the extent that they were named Wednesday by N. S. Patterson, principal, and his teaching staff as honor roll students.

The pupils in the various grades whose scholastic ability was recognized are:

First grade: Perry Ray Henderson, Gene Johnson, Betty Gene Rankhorn, Geraldine Morrow, Davey Dean Locklin, Lila D. Chalk, Mary Burtle, Sammie Jeanne Allison, Lena K. Ray, Martha Jo Moore.

Second grade: Sybil Burleson, Geraldine Meckel, Don Nicholas, Edwin Nixon, Warren Reddock.

Third grade: Jack Burleson, J. T. Jackson, Billy Shurley, Katherine Cartwright, Margie Crowell, Geraldine Gazelle, Alta Pearl Livey, Lois Morris, Patsy Nisbet, Betty Lou Shoemaker, Elizabeth Taylor, Edna Lee Wilson.

Fourth grade: Wilma Sue Gilliam.

Fifth grade: Billy Sid Evans.

Sixth grade: Dock Simmons and Lilly Owens.

### Riotous Strikers Held Back by Guardsmen

Striking mill workers giving way before the bayonets of National Guardsmen after a riot at the offices of the Woodside mill near Greenville, S. C. The workers became unruly as they received their last pay at the mill office before going on strike, and the troops, on hand for just such an emergency, were forced to use tear gas bombs before the riot could be quelled.

#### SHED IMPROVEMENTS AT STATION TO START SOON

A concrete floor in another of the sheds at the Ranch Experiment Station as well as stalls alongside the building are to be constructed soon, according to W. H. Dameron, superintendent.

On one side of the revamped building will be quartered animals being studied as research of an internal parasite nature. It is likely that sheep in the pens opposite them will be for the production of soremouth scab for vaccine purposes.

The concrete floor is necessary for the efficient operation of experiments of this nature as it is then possible to keep the animals clean and away from all contamination.

#### SERVICING DEPARTMENTS SOLD BY SUTTON MOTOR CO.

Billy Penick who has been operating the Magnolia Service Station for several weeks Thursday secured the gasoline, oil, tire, washing and greasing service divisions of Sutton Motor Co., Dodge-Plymouth dealers.

C. C. Smith, proprietor of the company, retains his mechanical department and the agencies for the two automobiles. Penick will no longer operate the Magnolia station. At his new location Texas Company products will be handled.

Max Baer says he wants to get out of the boxing business. There are plenty of husky youngsters who'd just dearly love to knock him out of it.—Roanoke Times.

### PERSONALS

H. V. Stokes was in Rocksprings Wednesday on business.

W. C. Warren was in San Angelo Thursday on business.

Hix Hall left Sunday for a short business trip to Fort Stockton.

Mrs. Rose Thorp and daughter, Zella Lee, spent Tuesday in San Angelo.

Miss Lois Thomas, Mrs. Maysie Brown and Miss Nina Roueche were in San Angelo Friday.

Mrs. Belle Steen, Miss Johnnie Allison and Miss Florence Langford spent Sunday in San Angelo.

Mr. and Mrs. Frank Vehle of Menard were the guests of Mr. and Mrs. Richard Vehle on Sunday. Julian Rogers of Rocksprings left Wednesday after visiting Mr. and Mrs. Earl Lomax for several days.

Miss Frankie Mae Dragoo of Rocksprings was the guest of Mr. and Mrs. Earl Lomax several days this week.

Mrs. A. E. Bailey and son, George, of Thomaston, Ga., are the guests this week of Mr. and Mrs. J. D. Lowrey.

Mr. and Mrs. Jim Valliant of New Orleans, La., are the guests of Mrs. M. A. Valliant. Mrs. Valliant is an aunt of Mr. Valliant.

Mrs. Lee Labenske and daughter, Mildred, and Mrs. Ernest Carroll were in San Antonio Tuesday and Wednesday on business.

Mr. and Mrs. Ernest Smith, Miss Helen Smith and Miss Nora Gilliam spent Saturday and Sunday visiting with relatives in Ballinger.

Mr and Mrs. Harris McMahan of the Ranch Experiment Station spent the week-end in Big Spring as guests of Mr. McMahan's mother.

Mr. and Mrs. Russell Long, son, Joe Richard, and Mrs. R. E. Long and daughter, Esta, left Tuesday for Concord where they will visit relatives.

Mr. and Mrs. Roy Aldwell and Pat Cooper left today for College Station where they will be the guests of Lea Roy Aldwell, a student at A. & M.

Woodrow Norris spent the week-end in San Antonio. He was accompanied home by his mother, Mrs. J. C. Norris, who has been visiting there several weeks.

Mrs. Tyree Hardy and young son have returned from Big Spring where they have been staying with Mrs. Hardy's mother. Mrs. W. R. Dawes, since the baby was born a few weeks ago. Dr. Hardy brought them home Sunday.

#### GUESTS FROM ELDORADO AT OBLIGATION PROGRAM

The Sonora Order of the Eastern Star had its regular meeting Tuesday night at the Masonic Hall in observance of obligation night.

Five guests from Eldorado and Mrs. Nellie Calder of Fort Worth, aunt of Mrs. J. D. Westbrook, attended the meeting.

Mrs. Ruby Stephen gave an interesting lecture on "Symbolism of the Elective Officers." Refreshments were served at the close of the meeting.

The Whats-in-a-Name Society ought to get quite a kick out of Gov. O. K. Allen of Louisiana, whose main job appears to be O. K.ing the monkey doodle-doods of Huey Long. — Macon (Ga.) Telegraph.

### Dinner Menu for Halloween Party

Decorations Can Be Cut-Outs in Halloween Motif

A treasure hunt for Halloween! That's a good idea, but first the dinner is in order and when there is so much excitement and activity ahead as a real treasure hunt necessitates, the dinner needs to be one of the kind that "stick-to-the ribs."

Here is a menu for the Halloween dinner. It is planned by Inez S. Willson, home economist.

**Halloween Dinner Menu**  
Fruit Cup Served in Orange Baskets  
Frenched Loin of Pork  
Buttered Carrots in Spinach Cups  
Peach Halves in Lettuce Leaves (Decorated with whole cloves)  
Pumpkin Pie Coffee

The loin of pork is a favorite meat for company meals, but when it is Frenched, it is doubly so. Frenching merely means removing the meat from the ends of the rib bones, thus after the loin is roasted, those rib ends may be decorated with paper frills to give the whole dish a festive appearance, and incidentally to aid the carver, for the paper frills slipped over the rib ends makes an excellent handle.

To roast the Frenched loin of pork, season it with salt and pepper, and place in an open roasting pan. The unprotected rib ends should be placed down so that as the fat melts it will keep them moist and prevent charring. Do not add water and do not cover the roast. Place in a moderate oven (350 F.) and roast until done. This requires about thirty minutes per pound.

The decorations for the Halloween dinner may be as simple or as elaborate as you like. Wonders can be worked with a little crepe paper and a few lights. Cardboard cut-outs of grinning Jack-o-lanterns, black cats and witches on broomsticks may be effectively used for place cards or other table decorations, while a few colored balloons, painted with faces and allowed to float about the ceiling, add to the ghostly atmosphere and to the enjoyment of the dinner.

### The Outstanding NEW VALUE in the Half-Ton Truck Field!

The New Model C-1 truck, with all-steel pick-up body 66 in. long, 47 1/2 in. wide.

TODAY, everywhere, International Trucks for light and fast duty are giving an exceptional account of themselves in low-cost performance and lasting reliability.

NOW we announce the New Half-Ton Six-Cylinder Model C-1, a finer product of International truck engineering, styled for the popular demand. The striking beauty of line in this new truck is only its most obvious feature. On the job, and as time goes on, its unseen qualities of rugged sturdiness will come to the fore. We promise you the extra factors of durability that we know a truck must have. International Harvester has learned this vital lesson in many years of building trucks for service.

Let us demonstrate this new Model C-1. Other Internationals, 1/2-ton to 7 1/2-ton. Come in, or phone us.

## Lions Will Sponsor Company's Barbecue Late This Month

Date of All-County Celebration at Warehouse to Be Announced Soon

A harmonica number by six members of the Sonora Harmonica Band, with piano accompaniment by Miss Rena McQuary, public school music instructor, was a feature of the Tuesday luncheon of the Lions Club.

William Fields, jr., told of plans being formulated for a county-wide barbecue to be given soon by the Sonora Wool and Mohair Co. in co-operation with ranchmen of this section. He asked that the club sponsor the barbecue. It was decided to do so and Mr. Covey appointed B. W. Hutcherson, chairman, Mr. Fields and C. H. Jennings to serve with him in arranging for the club's part.

A definite date for the affair has not been set. Mr. Hutcherson, chairman, stated Wednesday that a definite date would be decided upon when Mr. Fields returns to town today. He added that it would not be held before Oct. 29.

An announcement was made by R. S. Covey, president, that G. Lorimer Brown, district governor, will be the club's guest at its luncheon Tuesday. Wednesday he was in Rocksprings to which place H. V. (Buzzy) Stokes, deputy district governor, went to investigate the possibilities of reorganizing the club there which has recently disbanded.

A paper entitled 'Better English' was read by Marjorie Davis, daughter of Mr. and Mrs. Haynie Davis. Mr. Davis is a member of the club. Marjorie wrote the paper as a part of her school work during Better English Week, now being observed.

Clyde Henderson, recently elected to membership, was present for the first time. Guests were: Mans Hoggett, Mertzon; Harold Sharp, San Angelo; J. D. Eaton, San Angelo. Thirty-seven members answered to roll call.

Richard Vehle reported the work of his committee in handling the barbecue served relief workers who were in Sonora Monday.

## Books Received at High School Library

Portion of Year's Book Quota Bought for Boys and Girls

A shipment of new books costing about \$75 was received Tuesday afternoon and placed on the shelves of the library at the high school building.

An appropriation of \$200 is made yearly by the board of the Sonora Independent School District for library purposes. The shipment this week is about one-half of the books that will be bought during the year. Titles include books for boys and girls. Among them are:

Boy Scouts of Eagle Patrol—Louis W. Quirk; The Halfback—Ralph Henry Barbour, writer of boys' books and magazine stories for many years; 54-40 or Fight—Emerson Hough; The Log of a Cowboy—Andy Adams; Scouting with Kit Carson—Everett T. Tomlinson;

Silver—a story of a wild horse—Thomas C. Hinkle; Portrait of a Dog—Mazo de la Roche; The Ranch on the Oxhide—Henry Inman; Sand—Will James.

## Davis and Babcock Secure Merit Badges

Sonora Boys Reply in Kind to Welcome by Signals

Semaphore signals replying to a welcome in that fashion by Eldorado Boy Scouts were waved by Kenneth Babcock and Lloyd McGhee, Sonora scouts, at the Court of Honor Monday night in Eldorado.

A Public Health merit badge was awarded Louis Davis and one on Horsemanship to Kenneth Babcock, both of the local troop. Short talks were made by Bob Billington, executive in the Concho Valley Council area, and by J. A. Whitten, chairman of the Eldorado committee in charge of Scout work.

R. D. Trainer and A. W. Awalt, members of the Scout committee here, and John Eaton, scoutmaster, accompanied the boys to Eldorado. Mr. Eaton reported that the following boys made the trip:

A. W. Awalt, jr., Bobbie Nisbet, Sam Odom, Louis Davis, Wesley Sawyer, Reggie Trainer, Kenneth Babcock, J. O. Mills, Lloyd McGhee.

## Problems Relief—

(Continued from page 1)

for instance, which have been approved, total between 17 million and 18 million dollars. Projects approved and canceled on request of petitioning counties who could not do their agreed part were more numerous than those approved. He pointed out that necessary work incidental to approval cost \$22 for each project and that county offices had thereby caused waste of money for each project they had canceled after the state office had approved it.

**Accounting Problems Told**  
L. B. Winan, senior accountant, in the afternoon session discussed with administrators and clerical assistants a number of their problems. Various funds handled, filling out forms, writing of the different vouchers, proper handling of special "earmarked" funds and other problems of their work were outlined by Mr. Winan. Questions which had bothered various workers were answered.

Others who spoke in the afternoon were Mrs. Swanson, dietician, Rex B. Baxter, district rural supervisor, and Mrs. Lind, supervisor, adult education.

In the early evening the Lions Club was host to the visitors and to club members at a barbecue on the golf course east of town. Arrangements there were in charge of C. H. Jennings, Richard Vehle and W. L. Davis.

Counties who sent representatives to the conference and the number representing that division of relief administration work were: Bandera, 1; Coleman, 3; Concho, 4; Coke, 3; Edwards, 2; Gillespie, 7; Irion, 3; Kendall, 1; Kerr, 2; Kinney, 2; Kimble, 3; Mason, 2; McCullough, 4; Medina, 5; Nolan, 1; Schleicher, 3; Tom Green, 4; Menard, 2; Runnels, 3; Sutton, 5; Uvalde and Real, 3.

## Broncho Eleven—

(Continued from page 1)

hours. He is back at work now. **Eldorado Overwhelms Bronchos**

A 75-yard run by Kerr after he received the kick-off at the beginning of the second half of the game with Eldorado Saturday seemed to take all the starch out of the Bronchos who ended the game with the short side of a 40 to 0 score.

In the second quarter the Bronchos found themselves to a certain extent and did their best playing of the afternoon. Eldorado's four touchdowns, other than Kerr's after his long run, were by passes to men close to the goal line, by a line plunge and by an off tackle play with an end run. Joe and Jack Hext, R. J. Alexander and Paul Davis did the scoring work.

One Eldorado touchdown was made in the first quarter, two in the third and two more in the fourth.

Sonora was unsuccessful with its passes. Two were intercepted. Eldorado completed three for 39 yards. Substitutes used by Sonora were: Francis Archer, Elmalea Logan, Jim Taylor, Lloyd McGhee, Cesario Martinez and Reggie Trainer.

Officials in charge of the game were: Harry Taylor, San Angelo, referee; Con Isaacs, umpire; Tonto Coleman, linesman.

## Man's Life May Have Been Saved by Cow

Driver Barely Escapes Injury When Truck Overturns

Don Graham, driver for Oil Distributing Co., San Angelo, distributors of Marathon Oil Co. products, may owe his life to the fact that a cow kept the weight of his truck off of him Monday afternoon near the 9-Mile Service Station.

Graham on his way to Sonora with his truck loaded with 850 gallons of gasoline ran into cattle said to belong to C. E. Stites. Seven animals were killed. The truck went off the right side of the highway, rolled over and stopped on its side. A cow under a front fender held the truck off of the driver's body.

About 100 gallons of gasoline was lost. Two trucks and a wrecker were required to right the truck which had been used only 6,505 miles. It was considerably damaged.

## Warren Is Chosen on Methodist Board

Annual Methodist Conference Will Be in San Antonio Soon

Re-election of the church officers of the last year and the election of W. C. Warren to the board of stewards was the chief business at the last quarterly conference of the church year at the Methodist Church Monday night.

The Rev. S. L. Batchelor, presiding elder of the San Angelo district was present. Reports were read from all departments of the church. Indications are, the Rev. E. P. Neal, pastor, stated Wednesday that the financial budget will be completed by the end of the year—Sunday.

The annual conference of the church will be in San Antonio from Wednesday to Sunday of next week. Appointments will be announced Sunday night, Oct. 28. The Rev. Mr. Neal and W. E. Caldwell, delegate will attend the meeting. Late in the week Mrs. Neal and Mrs. W. E. James will go there for the concluding sessions.

Now the Republican spellbinders have got to go to work and try to convince the people that as Maine goes the Union does not go.—Daily Oklahoman.

SONORA MAY WELL  
PLAN FOR FUTURE

Again a Sonora need has been  
emphasized to citizens who are in-  
terested in Sonora as a progressive  
community ever alert to make plans  
and finally to act for anything  
that will be for the good of the  
town.

We speak of some central meet-  
ing place where conferences and  
meetings of a general nature may  
be held.

Churches and business houses  
are gracious in their kindnesses  
both to visiting groups and to local  
ones which seek a place to meet.  
However, at times these places are  
not available for one or more of  
a number of reasons. Then it is  
realized how badly the town needs  
a meeting place.

This week nearly one hundred  
people from twenty-three counties  
met here and were made cognizant  
of Sutton county hospitality. Their  
sessions were held in the courtroom  
where acoustics are bad and seats  
far from comfortable. They had  
a good meeting and it is hoped that  
they were favorably impressed  
with Sonora.

Sonora citizens should consider  
and plan as definitely as possible at  
this time for an auditorium or hall  
of some sort which will suitably  
present our town to visitors. It  
might also be planned as a center  
for community recreation. Careful  
analysis of the problem would re-  
veal many uses to which such a  
building could be put for the good  
of the community.

That such a building might not  
be obtained right now is beside the  
point. That might not be. But  
some steps might be taken to plan  
something of this nature for the  
future when conditions are more  
favorable to community improve-  
ments of this type.

### PWA Funds Boon to Educational Plants

From Edom, Texas, to California  
U. S. Aiding School System

Washington, Oct. 18.

As a result of the \$3,700,000 PWA  
program, \$210,000,000 has  
been added to the capital outlay for  
school building construction in ev-  
ery section of the country.

Allotments have ranged in size  
from \$600 for a one-story frame  
building in Edom, Texas, to \$2,-  
500,000 for a new high school in  
Bayside, N. Y., and \$8,285,000 to  
Los Angeles for repairs, replace-  
ments and reconstruction of 130  
school plants.

According to a statement of the  
Acting Commissioner of Education,  
Miss Bess Goodykoontz, the PWA  
allotment, aggregating 1,071 pro-  
jects, account for more than half  
of the public school building con-  
struction now going on in the United  
States. From a peak of \$433,-  
000,000, spent on public elementary  
and secondary school construction  
in 1925, there was a steady decline  
to almost a standstill when the  
PWA financing began.

The need for new school build-  
ings has increased greatly during  
the last four years, and especially  
since the depression, as the NRA  
prohibition of child labor added to  
the high school enrollment nearly  
a million pupils, Miss Goodykoontz  
said.

The press often omits an im-  
portant feature of a news story.  
It never did tell us, for instance,  
what became of the rattlesnake,  
poor thing, that bit the evangelist.  
—Olin Miller in Thomaston (Ga.)  
Times.

### Barnes Completes—

(Continued from page 1)

toll lines are copper and nearly all  
lines to residences are copper.

Fortunate has been Mr. Barnes' lot  
in his varied work. He has never  
fallen from a pole or been "burnt"  
by the "hot stuff" which flows  
through the wires which have  
concerned him so many years.  
Safety, as he sees it, is merely a  
matter of care and knowledge of  
the right method of doing a particu-  
lar thing.

Amusing and interesting expe-  
riences without number are shelved  
in his memory—subject to call.  
There's that Maryneal 2 months—  
In 1909 his company wanted an  
exchange in Maryneal, in Nolan  
county. The Orient hadn't built to  
San Angelo yet but there was the  
dump all ready and "things" looked  
good. Barnes was selected to in-  
stall an exchange in Maryneal, a  
town hopeful of big things when  
the railroad should come.

By Wagon from San Angelo!  
An oil stove, switchboard, tele-  
phones, Barnes and a "Dad" Brooks  
made up that 25-year-old cargo  
transported by wagon from San  
Angelo. Maryneal had four  
houses. The switchboard was set up  
in a lumber yard office in a bitterly  
cold December or January. The  
company was ready to serve the  
four town families and twelve  
ranchmen who wanted to talk to  
their friends—by telephone!

"Then after that sleet storm in  
1923," Mr. Barnes continued, "Troy  
White was with me on that trip and  
did we have a time—"

Only two of Eldorado's two  
hundred poles were erect. The two  
men left here to establish service  
along the line. For two days and  
two nights, Mr. Barnes says, they  
couldn't call Sonora. The office  
pole at Eldorado had gone with the  
rest and had almost torn the  
switchboard from the office.

The line was first repaired to  
within two miles of Eldorado. They  
then fought their way to San An-  
gelo and returned with two miles  
of insulated wire. Leaving San An-  
gelo before daylight they strung  
the wire around Eldorado on  
slanting nails driven into two by  
fours. Conditions prevented a line  
through the town. Calls were going  
through by nightfall the next day  
and their improvised system held  
for two months until the exchange  
was rebuilt.

Mr. Barnes' service to one  
company since 1906 has been under  
the direction of John Y. Rust,  
owner and manager of the San An-  
gelo company for many years.  
When talking—yes, by telephone—to  
a NEWS representative this week  
Mr. Rust said:

"Mr. Barnes has been a mighty  
fine employee and anything you  
say about him to that effect will be  
all right with us."  
Mr. Rust's employee, in turn,  
said "nice things" about "the boss,"  
declaring that he had never been  
corrected by him "but two or three  
times and those were times when I  
really did need it."

### FORMER TEXAN COMPLETES STUDY OF STATE'S ROADS

Austin, Oct. 18.—A study of  
highway administration in Texas  
has been completed by Dr. Frank  
M. Stewart, professor of govern-  
ment at the University of Califor-  
nia. Dr. Stewart was formerly on  
the staff of the University of Tex-  
as and it was while he was con-  
nected with this institution that he  
began the survey of the state's  
highway system. His findings have  
been published in bulletin form for  
free distribution by the University  
of Texas Bureau of Research in  
the Social Sciences.

Dr. Stewart traces the history  
of the good roads movement in  
Texas from its beginning until the  
present, when the administration  
of the highways is carried on by  
a state highway commission and  
a large amount of revenue for high-  
way construction and maintenance  
is brought to the state treasury  
through a special tax on gasoline.  
He discusses development of state  
control of highways in Texas, high-  
way organization and management,  
the planning, construction and  
maintenance of highways, special  
problems of highway administra-  
tion, and the problem of financ-  
ing state highways.

No hurricanes or floods should  
be scheduled during October. All  
the Red Cross people will be away  
at a convention in Tokio.—Akron  
(Ohio) Times-Press.

### Butterflies and Moths Alike in Several Ways

There are many ways in which  
butterflies and moths are similar.  
They have all been caterpillars be-  
fore being what they are, says an  
authority in the Missouri Farmer.

Besides being similar, and in the  
additional fact of all having four  
wings, moths and butterflies are  
very different in some other re-  
spects.

First, butterflies have little knobs  
at the end of their antennae, or  
feelers, while moths have antennae  
that are either straight or feath-  
ered. There are a few exceptions  
among tropical species, but the rule  
applies well to all species known  
in North America. The antennae  
of butterflies look like little clubs,  
with the knob at the end. Moths  
sometimes have many branched an-  
tennae, looking wide and intricate,  
while others may have only delicate  
thread-like ones.

Butterflies usually have slender  
and graceful bodies, while moths  
have fat ones.

Butterflies, when at rest, usually  
hold their wings together straight  
above their bodies, while moths  
spread their wings out flat or hold  
them against the body. A butterfly  
resting on a flower seems to derive  
protection from his leaf-like wings  
held above his body.

Butterflies are seen most in the  
daylight, while moths prefer the  
nighttime or twilight, like the owls  
and bats. Some moths, however,  
fly about in the daytime, but the  
majority prefer darkness.

### Planets Have Spots That Change Shapes Rapidly

Jupiter, which has 1,300 times  
the mass of the earth, is the most  
interesting of the planets when seen  
through the telescope, with the pos-  
sible exception of Mars. It ap-  
pears as having great zones which  
circle it parallel to its equator.  
These zones, which are dark, de-  
velop spots.

Of great interest, also, is Jupiter's  
permanent spot, this is a great el-  
liptical area 7,000 miles wide and  
30,000 miles long—like a great dab  
of rouge on the old gentleman's  
cheek—is called the red spot. It  
is seen north of the equator.

The red spot, although it changes  
in shape and color, is practically  
always present. It cannot be ex-  
plained. South of the planet's equ-  
ator is a semipermanent feature of  
the surface, known as the south  
tropical disturbance.

All these spots and features  
change their shapes with rapidity.  
None of them are stable, as they  
have their existence as part of a  
shell of clouds and vapors which  
surrounds the planet, scientists  
think.

Because methane would not be  
shown by the spectroscopy unless  
it was in gaseous form and because  
it liquefies at 154 degrees below  
zero Centigrade, Jupiter's tempera-  
ture must at least be above that  
figure. That temperature, while it  
would be considered very cold on  
earth, is warm when compared with  
the temperature formerly thought  
to exist on Jupiter.—Washington  
Post.

### Fingerprints 400 B. C.

Some crude system of identifying  
by means of fingerprints is believed  
to have been used by the Chinese  
as early as 400 B. C., and possibly  
by other ancient peoples even be-  
fore this. They were employed  
for business and legal purposes,  
rather than for tracking criminals.  
The impression of his thumb was  
often the ancient ruler's sign-manu-  
al. The modern development of  
this system dates from the middle  
of the Nineteenth century. In 1823  
J. E. Purkinje, professor of psychol-  
ogy, read a paper before the  
University of Breslau, adducing  
nine standard types of impressions  
and advocating a system of  
classification. In 1858 Sir William  
Herschel put a system of this kind  
in effect in India to prevent false  
personation. Later the Bengal  
police under the administration of  
Sir E. R. Henry, adopted fingerprints  
for the detection of crime. Sir  
Francis Galton, famous English an-  
thropologist, also devoted much at-  
tention to working out a system  
which was adopted in Great Britain  
in 1901. Similar methods were in-  
troduced into this country about ten  
years later.

### Colombia's Emeralds

Colombia is the biggest producer  
of emeralds among the nations of  
the world. Other famous emerald  
mines exist in the Ural mountains,  
in the Salsberg Alps, in Norway and  
in New South Wales. Occasionally  
emeralds are found in the United  
States. Unlike the diamond, most  
emeralds have flaws and these flaws  
give individuality to the gems and  
make them more valuable. A flaw-  
less emerald is a rare thing.—Path-  
finder Magazine.

### Animal's Best Friend

The founder of the American So-  
ciety for the Prevention of Cruelty  
to Animals was Henry Bergh, who  
was its first president from 1866 to  
1888. This society was antedated in  
England about 40 years when Rich-  
ard Martin, M. P., of Galway, Ire-  
land, was the leader of a movement  
which led to the organization in  
1824 of a society which eventually  
became the Royal Society for the  
Prevention of Cruelty to Animals.

### King Arthur Memorial Built on Cornish Coast

On the northwest coast of Corn-  
wall, England, according to the Na-  
tional Geographic society, the peo-  
ple of Tintagel have erected a stone  
memorial to King Arthur, the mythi-  
cal warrior who, according to leg-  
end, led Britain's Christian kings  
against the Saxon kings in the  
Sixth century. At Tintagel Head  
is the crumbling ruin of an old  
cliffside castle—one of England's  
most remarkable antique monuments  
—where, it is said, King Arthur  
conducted his round table.

Maintaining that a legend which  
has survived many centuries must  
have a respectable origin, Cornish-  
men, it is explained, believe and pre-  
serve tales of King Arthur, Merlin  
the Enchanter, and others.

Tintagel castle is described as  
a tracery of crumbling walls on a  
vast headland, at the foot of which  
the seas of Cornwall crash and  
glitter. In two parts, the castle is  
separated by a deep ravine which,  
legend says, once was bridged. De-  
fended by steep cliffs and sea, the  
ancient stronghold was, in the  
Sixth century, impregnable.

As in yore, the iron-studded door  
of the keep is the only exit or en-  
trance to the headland, and steep,  
narrow stone steps lead down the  
cliff to a high, narrow causeway  
which links the headland to the  
mainland.

The castle's banqueting hall, with  
its grass-covered floor, is an open-  
air affair and, according to the study  
made by the society, it was from  
here that Ygraine, wife of the duke  
of Cornwall, watched the siege of  
Castle Terrabil, on the mainland.  
When Terrabil fell, it was recalled,  
Uther Pendragon, conqueror, slew  
the duke and married the widow.  
Legend holds that King Arthur  
was born from this marriage.

### Pipes From Bones Among Earliest Ways to Smoke

About four thousand years ago,  
when there were no pipes, people  
"smoked" by squatting around an  
incense-burning fire and inhaling the  
fumes. Such a procedure invari-  
ably made them "drunk."

The clean, comforting, modern  
briar has many strange anteces-  
sents, some of which are still in  
service amongst remote tribes. The  
Kirghis shepherds of Turkestan  
smoke a pipe fashioned from the  
knuckle-bone of a lamb from which  
the marrow has been scooped out  
and a hole punched in the thicker  
end for the bowl! An accepted au-  
thority on smoking utensils once  
discovered a child's thigh bone put  
to a similar use in China. The Red  
Indians of Nova Scotia formerly  
converted lobster claws into effec-  
tive pipes, while, to gratify novelty  
hunters, Eskimos carve elaborate  
and artistic pipes out of walrus  
tusks.

Old soldiers may recall the primi-  
tive earth pipes built by Indians dur-  
ing the war. A small hole was dug  
in the ground and stuffed with to-  
bacco. Into it a stick was thrust  
almost horizontally, and the earth  
pressed firm on top of it, so that,  
when withdrawn, a tiny air tube  
remained. Then the smoker, having  
lit his favorite weed, applied his  
lips to the tube.—Pathfinder Maga-  
zine.

### Ways of a Magyar Maid

A Magyar maid likes to test her  
suitor's persistence. When he raps  
at her door, she lets him rap, in rain  
or shine, until any but the most per-  
severing—that is a Magyar—lover  
would give up and take his atten-  
tions elsewhere. But when he is  
finally admitted to the kitchen—the  
room where all the courting is done  
in peasant homes—he finds ade-  
quate compensation. If the family  
is not considerate enough to leave  
them alone they have their own way  
of securing privacy. They seat them-  
selves on a bench in a corner, and  
with one arm the lover throws his  
ample cloak over them both, com-  
pletely covering them, while with  
the other he draws his sweetheart  
closer.

### Early Transportation

The conquests of Roms, of Dar-  
ius, of Alexander the Great, were  
only made possible by the sailing  
vessel and the cart and chariot.  
Many more centuries elapsed and  
little new in the way of transporta-  
tion made its appearance. Early  
in the Seventeenth century an en-  
terprising Englishman noticed that  
carts drawn over boardfilled ruts  
ran much smoother and with less  
effort than the others. Working on  
this principle he devised a set of  
parallel wooden rails mounted on  
ties leading from the mouth of a  
coal mine to tidewater. Thus the  
first railroad was born more than  
150 years before invention of the  
first steam locomotive.

### The Kitchen Cabinet

The kitchen cabinet was a coterie  
of intimate friends of President  
Jackson, who were supposed to have  
more influence on his actions than  
his official advisers. They were:  
Gen. Duff Green, editor of the Uni-  
ted States Telegraph at Washing-  
ton, the confidential organ of the  
administration; Maj. William B.  
Lewis of Nashville, Tenn., second  
auditor of the treasury; Isaac Hill,  
editor of the New Hampshire Pa-  
triot and Amos Kendall of Ken-  
tucky, fourth auditor of the treas-  
ury.

### WORD ORIGINS

The Roman Sculptor's Chisel Helped to Create Our Word

#### INCISIVE

When you apply the word "in-  
cise" to speaking, writing, or  
thinking, do you realize that you  
are using a word that pictures a  
sharp cutting instrument? The  
Latin in (in) and caedere (to cut)  
were combined to form the verb  
incidere meaning "to cut into." From  
the past participle of this verb  
comes our English verb in-  
cise, with the same meaning, and  
also our adjective incisive, applied  
to thinking that is clear-cut and  
penetrating.

The incisive speech of such an  
orator as Theodore Roosevelt was  
a keen-edged tool for cutting his  
message deeply into the minds of  
his hearers. When we know the  
origin of the word, what a clear  
picture we have of its meaning,  
and how much more accurately we  
can use it.

(Copyrighted by G. & C. Merriam  
Co., Springfield, Mass.)

#### Texan on New Board

Austin, Oct. 18.—Dr. Walton  
Hamilton, one of the newest re-  
cruits for President Roosevelt's  
"new deal" administration, is a  
former University of Texas stu-  
dent. Dr. Hamilton was recently  
appointed a member of the new  
Board of National Recovery Ad-  
ministration. He obtained his bach-  
elor of arts degree from the Uni-  
versity of Texas in 1907, and was  
instructor in medieval history at  
that institution from 1909 to 1910.  
He is now professor of law at Yale  
University and a widely known  
economist. His son, Edward Rhodes  
Hamilton, was a freshman student  
at the university last year.

#### NOTICE OF SALE

The State of Texas  
County of Sutton

In the District Court of Sutton  
County, Texas.

Mrs. S. M. Sessom, Plaintiff, vs.  
J. S. Glascock, Defendant:

Whereas, by virtue of an order of  
sale issued out of the District Court  
of Sutton County, Texas, on a judg-  
ment rendered in said court on the  
4th day of September, A. D. 1934,  
in favor of the said Mrs. S. M.  
Sessom and against the said J. S.  
Glascock, in cause No. 819 on the  
docket of said court, I did, on the  
10th day of October, A. D. 1934, at  
9 o'clock a. m., levy upon the fol-  
lowing described tracts and parcels  
of land situated in the county of  
Sutton, State of Texas, and belong-  
ing to the said J. S. Glascock, to-wit:  
An undivided one-fourth inter-  
est in the following:

- All of Survey No. 21, Cert. 585,  
Abstract 50, containing 673 acres;
- All of Survey 35, Cert. 581, Ab-  
stract 56, containing 640 acres;
- All of Survey No. 22, Cert. 585,  
Abstract 1006, containing 679 acres;  
all the above three sections being  
CCSD & RGNG Ry. Company  
lands;
- All of the Wm. Burgess Survey

### 35 YEARS AGO

Miss Keanie Henderson, sister  
of Mrs. Tom Savell, arrived in  
Sonora Monday on a short visit to  
Mrs. C. G. Lovelace.

Dr. Colson came in Sunday from  
the Whitehead ranch and will re-  
main several days. The doctor  
looks fine and says ranch life  
agrees with him.

Chris Wyatt the handsome young  
stockman from the Llano country  
was in Sonora several days this  
week.

Abe Mayer passed through So-  
nora Sunday with about 1050 head  
of cows and calves for the Middle  
Valley ranch.

J. C. Goode a lawyer of Karnes  
City arrived in Sonora Wednesday.

Will Haley was in from the  
Thompson Bros. ranch Tuesday.

A. P. Belcher was in Sonora a  
few days this week.

The best line of saddles between  
San Antonio and El Paso can be  
found at Bob Dawson's.

Dr. John Allison and Jim Barton  
were in Sonora Monday inviting  
everyone to the dance Friday night  
at the G. S. Allison ranch.

No. 22 1/2, Cert. No. 1229, Abstract  
No. 1311, containing 1015 acres;  
97 acres of the NE part of the  
D. F. Storey survey No. 26 1/2,  
Cert. No. 1333, Abstract No. 1542;  
70.8 acres out of the W. J. Cody  
survey No. 20 3-4, Cert. 2054, Ab-  
stract 927, and

21 acres out of the Mrs. A. J.  
Anslley Survey No. 10, Cert. 1928,  
Abstract No. 3; and being the same  
land described in deed from J. M.  
Sessom to J. S. Glascock, dated  
June 10, 1929, recorded in Volume  
26 page 530 of the deed records  
of Sutton County, Texas, and  
known as the Sessom Ranch in the  
Southwest part of Sutton County,  
Texas; and on the 6th day of No-  
vember, A. D. 1934, being the first  
Tuesday of said month, between  
the hours of 10 o'clock a. m. and 4  
o'clock p. m., on said day, at the  
courthouse door of said county, I  
will offer for sale and sell at pub-  
lic auction for cash, all the right,  
title and interest of the said J. S.  
Glascock in and to said property.

Dated at Sonora, Texas, this  
10th day of October, A. D. 1934.  
B. W. HUTCHERSON,  
50-3tc Sheriff, Sutton Co. Tex.

Mrs. Decker Gives  
Afternoon Bridge  
For Club, Guests

Including three tables of guests, Mrs. Henry Decker was hostess to the Queen of Clubs Tuesday afternoon at the home of her mother, Mrs. J. T. McClelland.

Score awards were received by Mrs. John A. Ward, jr., for high club, Mrs. Marshall Huling for low club and Mrs. Andrew Moore for high guest.

A salad, wafer, olives and cookies were served with iced tea to Mesdames John Fields, John Hamby, Bryan Hunt, Joseph Vander Stucken, R. C. Vicars, Tom White, Marshall Huling, W. P. McConnell, jr.

John A. Ward, jr., and the Misses Joanna Stokes, Alice Karnes and Ada Steen, club members.

Mesdames Libb Wallace, R. A. Halbert, Hilton Turney, Virgil Powell, Nolan Kennedy, Andrew Moore, W. J. Fields, jr., B. M. Halbert, jr., Ernest McClelland, J. C. Morrow and the Misses Muriel Simmons and Faye James, guests.

Edith Babcock Better

Edith May Babcock, daughter of Mr. and Mrs. O. G. Babcock, is improving after an attack of scarlet fever.

Mr. Roosevelt was not entirely in accord with Mr. Sinclair unless he charged him two bits for entrance into Hyde Park.—Beverly Hills (Cal.) Citizen.

Mrs. Millspaugh  
Honored at Party  
Saturday Afternoon

Mrs. W. D. Wallace entertained with four tables of bridge Saturday at her home, complimenting Mrs. Sidney Millspaugh, jr. of Ozona.

Awards went to Mrs. Vernon Hamilton for high score and Mrs. Mike Murphy for second high. The gifts were presented to the honoree who also received a gift from the hostess.

A salad course in the Halloween motif was served with a small decorative candle as a plate favor. The candles were lighted as each guest was served.

Guests were: Mesdames J. F. Howell, Will Wilkinson, R. C. Vicars, Hix Hall, Joseph Vander Stucken, W. P. McConnell, jr., Josie McDonald, Duke Wilson, Mike Murphy, E. F. Vander Stucken, Sterling Baker, Vernon Hamilton,

The Misses Nan Karnes, Jamie Gardner and Callie Mae Love

Libby Jo Wallace  
Honored with  
Surprise Luncheon

Mrs. Libb Wallace honored her daughter, Libby Jo, with a surprise luncheon on her eleventh birthday anniversary Monday at their home.

Guests were: Marjorie Davis, Cathryn Trainer, Kathryn Brown, Margaret Sandherr, Betty Grace Vehle and Sue Glascock.

Mrs. Shurley  
Entertains Pastime  
Club and Guests

Entertaining guests and members of the Pastime Club, Mrs. M. G. Shurley was hostess at forty-two Thursday afternoon of last week at the ranch.

A salad course with sandwiches, potato chips and olives was served to Mesdames L. E. Johnson, J. W. Trainer, Hi Eastland, Richard Vehle, R. D. Trainer, Orion Brown, J. A. Cauthorn, C. E. Stites, B. W. Hutcherson and W. E. James, members;

Mesdames Collier Shurely, F. T. Jones, W. R. Nisbet, Joe Berger, T. C. Murray and T. L. Harrison, guests.

Mrs. Johnson held high club score and Mrs. Nisbet, Mrs. Jones and Mrs. Shurley held high guest scores.

Mrs. Chalk  
Hostess Saturday  
To Two-Bit Club

Mrs. George D. Chalk was hostess to members and guests of the Two-Bit Club Saturday afternoon at her home.

Pumpkin pie, whipped cream and coffee were served to Mesdames Earl Lomax, Joe Hull, Hilton Turney and the Misses Zella Lee Thorp, Mae Cauthorn, Muriel Simmons and Faye James, members.

Mesdames W. J. Fields, jr., and Rose Thorp, guests.

Miss Cauthorn held high score for club members, Miss Thorp low score and Mrs. Fields, high guest score.

Birthday Party  
For Sammie  
Jeanne Allison

Sammie Jeanne Allison celebrated her 6th birthday anniversary at a party given for her by her mother, Mrs. S. H. Allison, Saturday afternoon.

Angel food cake and ice cream were served to these guests: Jean Cliff Johnson, Geraldine Morrow, Jo Alice Evans, Davie Dean Locklin, Patsy Nisbet, Marguerite Howell, Lila D. Chalk, Margaret Pearl Smith, Katha Lea Keene, Doris Keene and Kathleen Schwiening.

Royal Service  
Program at  
W. M. U. Monday

The members of the Baptist Woman's Missionary Union met Monday afternoon for a Royal Service program at the church.

Mrs. Ray Clark led the program on "Our Brothers in Black Here and There."

Mrs. P. C. Lightfoot sang a solo. Talks were made by Mrs. T. L. Harrison, Mrs. Harvey Morris, Mrs. Frank Nixon, Mrs. J. A. Cauthorn and Mrs. F. T. Jones.

Bobbie Halbert  
Hostess at Dinner  
For H. H. Club

Honoring the seven members of the H. H. Club which has been organized recently, Miss Bobbie Halbert was hostess at a dinner Wednesday evening at her home.

Guests were: the Misses Opal Akins, Nina Rousche, Dorothy Penick, Wilma Hutcherson, Lunetta Marion and Joyce McGilvray.

COMMITTEES NAMED AT  
MEETING OF H. E. CLUB

At the meeting Friday of the Home Economics Club, Joyce McGilvray, president, named the following committees to serve during the year:

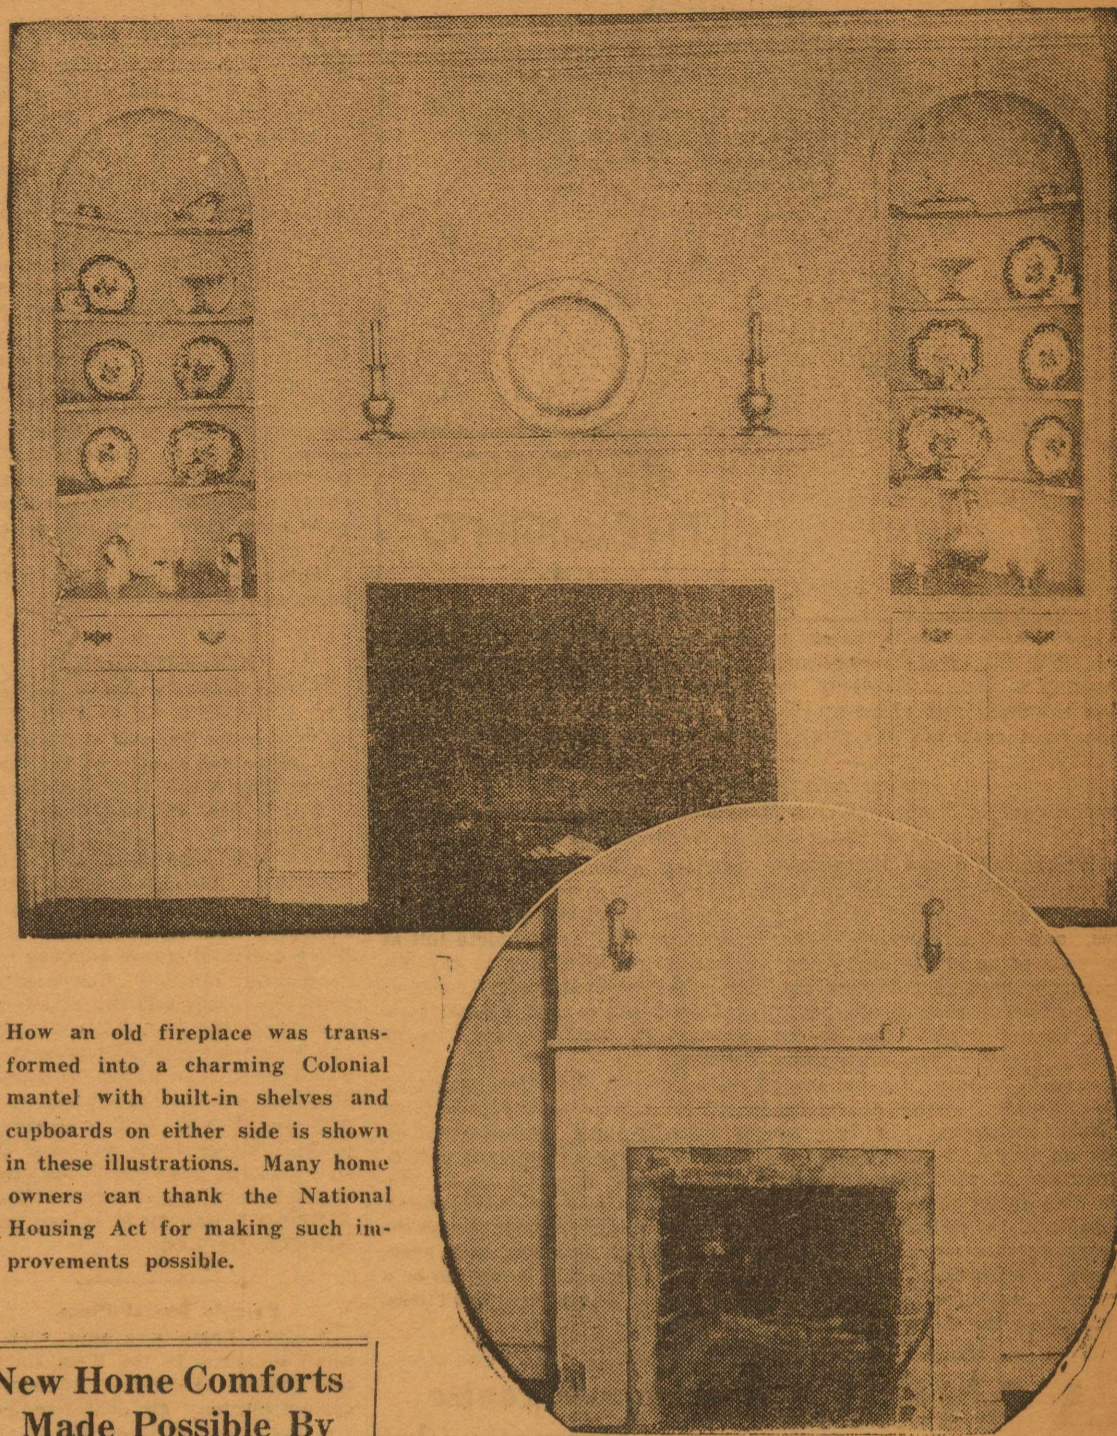

Finance, Helen Smith, chairman, Dora Shroyer and Lois Merck; program, Lillian Kring, chairman, Joyce McGilvray and Pearl Lea Ory; entertainment, Violet Drennan, chairman, Emma Sessions and Alma Louise Glascock.

Jo Nell Miers was elected secretary in the place of Wynona Hutcherson who resigned.

Truck and Sedan Sold

Delivery of a sedan to Mrs. J. E. Grimland and of a 1½-ton truck to Hub Hale and S. R. Hull for use of the local agency of Magnolia Petroleum Co. was reported this week by Sonora Motor Co. Mr. Hull went to Dallas Friday with a Ford representative and drove the truck here Sunday.

FIREPLACE CHARM CAN BE CREATED FROM PRESENT TYPE

How an old fireplace was transformed into a charming Colonial mantel with built-in shelves and cupboards on either side is shown in these illustrations. Many home owners can thank the National Housing Act for making such improvements possible.

New Home Comforts  
Made Possible By  
Financing Plan

Money for Built-in Features Can  
Be Secured by Eligible  
Loan Applicants

Houses today, done in the most modern manner, may have as many built-in features as a ship's cabin, practical and convenient for everyday use. New ideas in interior design contemplate more and more built-in furnishings in the home. Grandmother had a pantry and a cupboard, and that was all. She didn't think of built-in beds, built-in electric stoves and any of the one hundred and one built-in fittings that the modern woman may enjoy and which at the same time conserve time, space and money.

Under provisions of the National Housing Act, the first section of which is now functioning under the direction of the Federal Housing Administration, money is available through financial institutions to the home owner for modernization of the interior of the house as well as the exterior.

All built-in furniture is considered immovable under terms of the National Housing Act and loans up to \$2,000 can be made for the sole purpose of constructing built-in household equipment, if such is desirable.

Pneumatic Beds Now!

In the ultra modern houses most of the furniture is built in. In the most extremely modern house ever designed every article of furniture is built in—even pneumatic beds. While this is impractical at the present time for the average home, it seems to be the goal to which built-in interiors are rapidly tending.

Certain built-in fittings are much more practical than time-honored relics, and may be achieved with a minimum of labor and expense, plenty of planning and lots of paint in the hands of an artistic interior designer.

Any plan to completely revolutionize the interior of the house by discarding much of the furnishings now in use and replacing them with built-in features should be considered first from the standpoint of utility, then from locality and finally from practicality.

Living rooms can be made to yield more space for living by a variety of built-in features. Bookcases may sink right into the wall, taking up no floor space, and may be so placed that they will be both ornamental and useful. In the same room the fireplace may be an electric one and recede into the wall,

as do the bookcases.

An all-purpose desk with drawers may be built in one corner, or elsewhere as the space lends itself, and a decorative cabinet may be added. In the modern manner, and surprisingly inexpensively, almost all the living room fittings can be built in. Rooms so designed are particularly appealing to the persons who must live in small quarters, because they release so much space and yet offer all needed equipment for putting things away.

Utility Paramount Feature

A "bunk bed" is associated with a camp or a ship. Not so in the mind of the up-to-date interior architect. He uses it as a very exquisite part of the bedroom and makes it comfortable, simple in construction, and, again, inexpensive. On each side of the bed may be shelves designed to harmonize with the bed and ready to serve as night or utility tables. Underneath the bed very deep drawers can be built extending the length of the bed, and at the head of the bed underneath the reading table bookshelves may utilize the space, making one compact unit of the bed, chest, table and bookcase.

A window seat may complete this, practical corner and the cabinet-maker may even construct one of those novel chairs with a small tea table pulling out magically from somewhere under one chair-arm. Such a chair and table are practical in small all-purpose space such as the modern bed-liv-

ing room in the apartment house or small dwelling.

Some folks think Huey Long is after the dough while others are sure he has enough crust already.—Wichita (Kans.) Eagle.

Officers Named  
at Ozona Meet

Auxiliaries from Sonora, Mertzon  
and Eldorado Represented

Seven members of the Sonora Woman's Missionary Society attended the all-day session of the quarterly meeting of zone one of San Angelo district which met in Ozona Thursday of last week.

After the morning session, luncheon was served by the Missionary Society of the Ozona Methodist Church. A song service followed the luncheon.

The Rev. L. Hardt of Eden, formerly of Poland, spoke of his experiences while in that country.

Mrs. W. E. Caldwell was named president, Mrs. J. D. Westbrook, secretary, and Mrs. Russell Long, chairman of the program committee.

Others attending were Mrs. J. D. Lowrey, Mrs. George B. Hamilton, Mrs. W. J. Fields, sr., Mrs. Rose Thorp and the Rev. and Mrs. E. P. Neal.

Hostess at D. A. R. Meeting

Mrs. S. T. Gilmore was among the hostesses for the tea hour at the monthly session of the Pocahontas Chapter of the Daughters of the American Revolution held Tuesday afternoon in San Angelo.

ing room in the apartment house or small dwelling.

It is practically impossible today to plan a modernized home without a variety of the built-in features that can be easily and economically constructed.

### Diagrams of Danger—No. 1

No one is more active in the campaign to persuade the automobile driver to exercise the care, courtesy and common sense which will reduce the appalling number of accidents than Motor Vehicle Administrators. They know the facts. Ten of them, officers of National and Regional Associations, have described the most common driving and pedestrian faults

By E. AUSTIN BAUGHMAN

Commissioner of Motor Vehicles, Maryland. President, American Association of Motor Vehicle Administrators.

LIGHT-beating is one of the most frequent motor vehicle regulation violations reported from our cities, and it is responsible for thousands of accidents every year. Apparently, impatient drivers cannot visualize in advance the result which ensues when two moving cars try to occupy the same space at the same moment. One of these cars, of course, is properly proceeding with the green light, and the other, as shown in the diagram, is a member of the Take-A-Chance Club. The driver thinks he can get across, but he doesn't, and it is another intersection accident.

Street intersections and country crossroads continue to be bad accident traps for motorists and pe-

destrians alike. Altogether these claimed last year one person in every five killed and 45 per cent of those injured. The complete toll at intersections, according to the National Bureau of Casualty and Surety Underwriters, was 326,050 accidents, 6,330 fatalities and 378,300 injuries.

Good drivers slow down for every intersection whether it is controlled by a traffic signal, a uniformed officer, or is just an unguarded stop. They do this in order to be prepared for unforeseen emergencies. A good driver never tries to beat the light although the way may seem to be clear ahead. It is easy to be a good driver. Remember, Don't Beat the Light!

### Sudden Death Is Natural for Big Game, Says Guide

Very few big game animals die of old age or disease, though occasionally some of them do meet death from such causes in the late winter or very early spring, in the opinion of a woods guide, who related some of his observations on causes of death among animals, in the Boston Transcript.

According to this authority most animals that are weakened by disease or age fall easy prey to their enemies before death can overtake them from either of the former causes.

"A few times I have found a dead moose," he wrote. "Probably it had become weakened from disease and died from exposure and lack of food. Some years moose are found with large lumps on the body; lumps such as rabbits have, a tick we call it. That is, in the early spring. I doubt if many big game animals die a natural death during the summer and fall. When deer or moose get to be so old that they are not able to keep out of the clutches of such animals as may prey upon them, they are hunted and killed and eaten."

"Black bear go after moose, and bears and wildcats after deer."

### Roman Numerals

Roman numerals chiefly used are I for 1, V for 5, X for 10, L for 50, C for 100, D for 500 and M for 1,000. Thousands are sometimes indicated by drawing a line over a numeral; V with a dash above is 5,000. In combining the symbols, a letter placed after one of greater value adds to it; thus XI is 11. A letter placed before one of greater value subtracts from it, so that IV is 4. When a symbol stands between two of greater value it is subtracted from the second and the remainder is added to the first; XIV is 14. Of two equivalent ways of representing a number, that in which the symbol of larger denomination precedes is preferred. For 45, XLV is preferred to VL. Usage tends to favor the shorter form, however, if the alternative is very long; it prefers IX to XIII for 9, and MCM rather than MDCCXC for 1900.

### Perry's Burial Place

In 1818 Perry was sent with a small squadron to the West Indies to protect American commerce against pirates. He contracted yellow fever and died on his thirty-fourth birthday, August 23, 1819. He was buried with military honors at Port of Spain, Trinidad, but in 1826, by direction of congress, his body was removed in the sloop of war Lexington and re-interred at Newport, R. I. The state of Rhode Island erected a monument to him.

### Invented Lawn Tennis

The game of lawn tennis was invented by an Englishman, Maj. Walter Clopton Wingfield. In 1874 he evolved a game that he called spheristike and which was designed to be played on English lawns. In a short time it obtained great popularity. The Greek name was retained only a short time, Tennis, a very old game—"the game of kings," as it was called—had the word "lawn" prefixed to it, and that is still the proper name.

### It's Marble Season

"Do you like the book I gave you, Johnnie?" asked the fond aunt. "I don't know yet," replied the boy. "Mother said I had to wash my hands before I could look at it."

### College and University

There is no clear line of distinction drawn between a college and a university, although in the United States the college is primarily an institution of higher learning having but a single faculty or curriculum; or is an institution for special instruction, says Pathfinder Magazine. An American university usually comprises a college and one or more graduate or professional schools. In Great Britain the college was originally a corporation founded to assist its members to pursue university studies.

### HEADS NAVY BOARD

Rear Admiral Frank H. Clark, U. S. N., has been appointed chairman of the general board of the navy. He succeeds Rear Admiral Richard H. Leigh, U. S. N., who retires from active duty. Admiral Clark has been a member of the general board since June, 1933.

### SHOWS HIS SOUVENIRS

Midshipman Edwin Denby got home to Annapolis, with 800 or so of his buddies, from a summer cruise in European waters, and he is seen here showing his mother, Mrs. Edwin Denby, some of the souvenirs he picked up on the trip. Middy Denby's father was once secretary of the navy.

### Sand From Lake Michigan Built the Famous Dunes

Thousands of years ago the great ice sheet that had covered Canada and the northern part of the United States gradually melted and retreated northward. It left in its wake heaps of clay, piles of boulders, plains of sand and pools of water. One of the largest of these pools was named Lake Chicago, and after many changes came to be Lake Michigan.

The winds and the waves began their work on the shores of the lake as soon as the ice sheet had melted. Some parts of the shore were washed away by the force of the waves. Some of the material removed by the waves soon sank to the bottom of the lake, but some of it traveled far and was then thrown upon the shore miles away. Because of the winds and the currents, the south end of the lake received tons upon tons of sand cast upon the shore by the waves and piled up by the wind into sand bars and dunes. Century after century this went on until the new earth thus formed measured many square miles, spread out as a crescent about the southern end of the lake.

The fascinating thing about this crescent is that while the outer edge is 20,000 years old the inner side was built up yesterday and is receiving further additions today. This permits us to see the new sand heaped up during the past few decades or centuries with its new plants, the older sand undergoing changes which are transforming it into soil with its older vegetation, and the mature soil, with the oldest vegetation forming a climax forest upon a climax soil.

### Longfellow's Old Home

The Longfellow home in Cambridge, Mass., built in 1760, is doubly famous as the poet's home and as the one-time "headquarters" of Gen. George Washington. In the early days of the Nineteenth century, the house which entertained Washington, Talleyrand, Queen Victoria's father, and Charles Dickens was used as a rooming house for college students. Longfellow found quarters there while he was a young Harvard professor. He became the owner of the house in 1843, and it stands in its original state, aided by a few modern improvements and frequent upkeep painting.

### 7-Foot Roman Skeleton Found

Peasants plowing near Potenza in southern Italy found the skeleton of a soldier still wearing his helmet and the medal he won in the Second Punic war of 200 B. C. The medal is inscribed Scipio Africanus on one side and Hannibal Punicus on the reverse, showing that the warrior fought for the Roman Scipio who, having conquered Hannibal the Carthaginian, took to himself the name of Africanus. The man was nearly seven feet tall, as his skeleton proved before it crumbled into dust at the touch of the fresh air. All that then remained were the embossed medal and the helmet.

### Gold Extraction

Briefly, the method of separating small particles of gold from gravel and sand in "placer" mining depends on the fact that it is one of the heaviest metals. Masses of the gravel and sand are stirred up with wafer, and the heavy gold sinks to the bottom. Metallic mercury is also used to catch the gold particles, because of its great affinity for gold. Gold plating is performed by passing an electric current through a solution of one of the salts of gold; a bar of gold is connected to the positive terminal within the solution and the article to be plated is connected to the negative terminal.

Robert M. Washburn describes Senator David I. Walsh as a "maverick Democrat," which is not quite the same thing as a bull moose Republican.—Boston Globe.

### Glasscock Holds Class Office

Edgar Glasscock, son of Mr. and Mrs. W. E. Glasscock, was selected recently as vice-president of the high school junior class of Schreiner Institute, Kerrville, where he has been attending school the last two years. Edgar visited his parents here Saturday and Sunday.

I do not know anything, except it be humility, so valuable in education as accuracy. Direct lies told to the world are as dust in the balance when weighed against the falsehoods of inaccuracy; and accuracy can be taught.—Sir Arthur Helps.

### Students Organize Dramatic Club

Miss Maurine Lorançe, Sponsor; Officers, Committees Named

With Miss Maurine Lorançe as sponsor, a dramatic club was organized Monday afternoon by high school students.

The following officers and committees were elected: president, Wesley Sawyer; vice-president, Joyce McGilvray; secretary-treasurer, Bobbie Halbert; reporter, Jo Nell Miers; parliamentarian, Wilma Hutcherson.

The committee appointed to write the constitution and by-laws is composed of Wilma Hutcherson, Cora Belle Taylor, Bobby Nisbet and Rena Glen Shurley.

Lunetta Marion, Cathryn Trainer and Jimmie Gwynn Langford were appointed to select a name for the club.

A program committee composed of Jack Shurley, Lillie Marie Smith, Robbie Jo Wyatt and Joyce McGilvray was also named.

The regular meeting hour for the club will be at 4 o'clock each Tuesday.

The members other than those mentioned are: Iona Belle Sykes, J. O. Mills, Kenneth Babcock, Emma Sessions, Nora Gilliam and Louise Briscoe.

# "Little Stories for Bedtime" by Thornton W. Burgess

A LOVING MATE BUT POOR HOUSEKEEPER

"IT'S TIME for my dust bath," said Mourner the Dove to Peter Rabbit, as the latter sat thinking over what Mourner had just told him about eating gravel as an aid to digestion. "There is a dusty spot over in the Long Lane where I take a dust bath every day," continued Mourner.

"If you don't mind," said Peter, "I'll go with you."

Mourner said he didn't mind, so Peter followed him over to the dusty place in the Long Lane. There Mourner was joined by Mrs. Mourner, who was dressed very much like

"Now, if you will excuse us, we must be getting back home."

him save that she did not have so beautiful a neck. While they thoroughly dusted themselves they chatted with Peter.

"I see you on the ground so much that I've often wondered if you build your nest on the ground," said Peter.

"No," replied Mourner, "Mrs. Dove builds in a tree, but usually not far above the ground. Now, if you'll excuse us we must get back

home. Mrs. Dove has two eggs to sit on, and while she is sitting, I like to be close at hand to keep her company and make love to her."

The Doves shook the loose dust from their feathers and flew away. Peter watched to see where they went, but lost sight of them behind some trees, so decided to run up to the Old Orchard. There he found Jenny and Mr. Wren as busy as ever feeding that growing family of theirs. Jenny wouldn't stop an instant to gossip. Peter was so brimful of what he had found out about Mr. and Mrs. Dove that he just had to tell some one. He heard Kitty the Catbird among the bushes along the Old Stone Wall, so hurried over to look for him. As soon as he found him, Peter began to tell what he had learned about Mourner the Dove.

"That's no news, Peter," interrupted Kitty. "I know all about Mourner and his wife. They are very nice people, though I must say that Mrs. Dove is one of the poorest housekeepers I know of. I take it you never have seen her nest."

Peter shook his head. "No," said he, "I haven't. What is it like?"

Kitty the Catbird laughed. "It's about the poorest apology for a nest I know of," said he. "It is made of little sticks and mighty few of them. How they hold together is more than I can understand. I guess it is a good thing that Mrs. Dove doesn't lay more than two eggs, and it's a wonder to me that those two stay in the nest. Listen! there's Mourner's voice now. For one happy he certainly does have the mournfullest sounding voice. To hear him you'd think he was sorrowful instead of happy. It always makes me feel sad to hear him."

"That's true," replied Peter, "but I like to hear him just the same. Hello! Who's that?"

### FADS

The Germ Theory and inoculating Fads are dying out as have other superstitious Fads of so-called medical science.

Research doctors are realizing that diseases have a Cause. Prof. William J. Kerr and Dr. John B. Lagen of the University of California, report that attempts to transmit Colds by exposure or inoculation had failed. In their opinion, this disease results from the inability of the body quickly to adapt itself to changes in temperature, humidity and other conditions.

Chiropractic has known for 38 years that the cause of Colds and other diseases is PRESSURE ON NERVES . . .

Make an appointment now and have this cause removed and corrected!

## Mrs. Stokes' Mother Buried in Lampasas

Mrs. H. B. Casbeer Had Lived There for Fifty Years

Death after an illness of two years came Friday afternoon to Mrs. H. B. Casbeer, 65, of Lampasas, mother of Mrs. H. V. Stokes of Sonora.

Mrs. Casbeer was born in McLennan county in 1869. Her childhood days were spent in Bell county but she had been a resident of Lampasas for almost fifty years. Besides her husband and Mrs. Stokes she is survived by a brother, I. C. Fletcher of Lampasas, and a half sister, Mrs. Jennie Stevens of Cleburne, and these eight children:

Tom Casbeer, Wayne Casbeer, Mrs. A. W. Bales, Miss Alice Casbeer, Elton Casbeer, Beatrice Casbeer and Olene Casbeer, all of Lampasas; Mrs. B. K. May of Lometa.

Services were conducted Saturday afternoon at the Methodist Church in Lampasas to which Mrs. Casbeer had belonged since childhood days.

Sonora people who attended the funeral, other than Mr. and Mrs. Stokes, were: Mr. and Mrs. John Fields, Mr. and Mrs. B. M. Halbert, jr., Miss Alice Karnes, Raymond Barker.

### NOTICE TO BIDDERS

Sealed proposals for the construction of City Hall and Fire Station in accordance with plans and specifications and instructions to bidders, prepared by John G. Becker, Architect and Engineer, of San Angelo, Texas, will be received at the office of the City of Sonora, W. C. Gilmore, Mayor, Sonora, Texas, until 4 p. m. October 26th, 1934.

The successful bidder will be required to enter into a contract with the City of Sonora, W. C. Gilmore, Mayor, Sonora, Texas, which will contain provisions conforming with the requirements of the Federal Administration of Public Works as set out in its bulletin No. 2 Revised March 3, 1934, and the construction provisions of the Loan and-or Grant agreement.

A certified check, or acceptable bid bond in amount equal to five (5) per cent of the total bid must accompany each bid as a guarantee that if awarded the contract the bidder will promptly enter into a contract with the City of Sonora, W. C. Gilmore, Mayor, Sonora,

Texas, as outlined in the specifications and instructions to bidders. A performance bond in an amount of one hundred (100) per cent of the contract price, and a separate and distinct labor bond in an amount equal to the estimated largest aggregate payroll in any one month, will be required.

Attention is called to the Fact that not less than the Minimum wage rates prescribed by Federal Emergency Administration of Public Works must be paid on this Project.

Contract will be awarded subject to the approval of the State Engineer, PWA, and also subject to the execution of the Loan and-or grant agreement by the government.

(a) Pursuant to the Executive Order 6646, dated March 14, 1934, no bid will be considered unless it includes or is accompanied by a certificate (worded in accordance with PWA 61 Revised March 19, 1934) duly executed by the bidder stating that the bidder is complying with and will continue to comply with each approved code of fair competition to which he is subject, and if engaged in any trade or industry for which there is no approved code of fair competition, then stating that as to such trade or industry he has become a part to and is complying with and will continue to comply with an agreement with the President (President's Reemployment Agreement) under Section 4, (a) of the National Industrial Recovery Act.

Plans and specifications may be purchased from John G. Becker, Architect and Engineer, San Angelo, Texas, upon deposit of \$10.00 as a guarantee of the safe return of same. 50-2tc

## Soap Guns That Were of No Avail

Two Dillinger gangsters, emulating their late chieftain by using guns cunningly fashioned from soap, failed in a desperate attempt for liberty from Ohio penitentiary's death row. Charles Makley was shot to death by the prison guards and Harry Pierpont was wounded. Above are the fake guns used in the attempted escape.

## Winner of National Beauty Title

Helen Mack of Richmond Hill, L. I., was judged the outstanding beauty of the National American Beauty Pageant contest held in Madison Square Garden, New York city.

### Fish Turns into Ball!

The puffer fish, which inhabits coral reefs, inflates itself into an inedible, prickly ball when attacked.

### On Submarine Chasers

The complements of submarine chasers are two officers, one chief petty officer and 28 enlisted men.

## New Floating Dock for the Navy

The new floating drydock for handling destroyers and small craft is shown just as it was launched for the navy at the plant of the Dravo Constructing company in Wilmington, Del. It will be of great value for the use of ships which are based at a considerable distance from the large graving docks at the various navy yards, as many of the smaller craft of the fleet can be placed in the floating drydock without making the long trips to the navy-yard docks. The dock will be moored at the navy destroyer base at San Diego, Calif.

**Nazi Flag in a New Jersey Camp**

Sponsored by The Friends of New Germany, Camp Wille und Macht (Will and Might) is being conducted near Griggstown, N. J., and 200 boys of German descent are learning the rudiments of military drill. The lads carry the Nazi swastika flag and are taught German and the first principles of Nazism.

**Involuntary Aviator Decides Home-Made "Flying Machine" Research Not Urgent**

Menard, Oct. 12.—Joe Dunagan, who once built at a cost of \$800 his own airplane without air or advice from any source other than aviation magazines, plans to experiment again in aeronautics when times get better, he said this week.

His first ride in the home-made machine was his only one, for he sold it to a man at Eden who cracked it up, later disposed of it in Ballinger and the motor was finally put in a motor boat. Mr. Dunagan did not intend to take that ride in his home-made, heavier than air machine. He had completed the construction and had it in Waldemar Striegler's field, learning how to taxi.

Soon he noticed that the bumps made when the wheels struck the clods of dirt were no more and locking down he saw the ground was 10 to 15 feet away. Looking ahead there was a fence and he could not land there without striking it, so he nosed it into the air and soon he reached an altitude of 500 or 600 feet.

Here he was, never at the controls of a plane before riding around in the air, uncertain as to the kind of mechanism he had created for himself. It seems, he recalls, that he traveled a hundred miles, but actually he must not have been up more than 15 minutes as he sought a place to land in this fairly wooded region. Soon he caught sight of the Striegler field again and came down.

No one saw him go up, no one saw him in the air and no one saw him land and break an axle. He was glad to get out alive, and to sell it for half the price of construction.

A resident of this section for 16 years, coming here from Arizona, he owns the Riverside Grocery on the road between Menard and Fort McKavett. He has built a number of radicos, made his own radio and phonograph cabinet and operates it by the use of current from a six-volt battery. In the back yard are two parrots, which to his disgust he cannot teach to swear, but they can cry like babies.

Mr. Dunagan has a 60-acre tract of land here, eight of which is under irrigation. He finds time to enjoy his hobby of the sciences and muses in conclusion that his home-made airplane ride was a thrill worth the money, but he wouldn't give a dime for another such trip. The cost was about \$4 a minute.—Mason County News.

**TRUCK AND CAR COLLIDE AT HOTEL CORNER SUNDAY**

Collision of a car occupied by H. T. Cross and Lee Morris Sunday night at the Sutton Motor Co. corner with a gasoline truck driven by Hub Hale resulted in great damage to the former car and the tearing off of a bumper on the truck.

Mr. Hale said this week that the collision was caused by a car occupied by Mexicans coming into the highway from the street alongside the Hotel McDonald. Cross and his companion swerved to dodge the car from the side street and collided with the truck driven by Hale.

**Vital Statistics to Be More Accurate**

True Death Rate Will Be Found for Towns and Counties

Austin, Oct. 18.—A new ruling by the Federal Bureau of Census has just been put into effect in Texas and will be of interest to every community in the state, according to Dr. W. A. Davis, registrar, state department of health. This new ruling is to the effect that the death of any person shall be charged to that person's legal residence. In the past the place where one died was charged with the death. New death rates for all towns and counties will show the true conditions.

Towns in Texas that have a reputation as health centers have been unduly credited with more deaths than have occurred among their citizens. Now, whenever a health-seeker dies away from home, the place of his residence will be charged with the death.

The same holds true in the compiling of records for counties. In the past many towns had a death rate three or four times as high as the county. This was due to a variety of causes—principally, patients from the rural areas coming to town for medical attention and hospitalization and dying while there and giving their addresses as the town without specifying that their home is outside the city limits.

**VARIED THEATER PROGRAM OFFERED FOR NEXT WEEK**

The "cream" of all the girls who aspire to motion picture work—the Wampas Baby Stars—will be featured at La Vista Sunday and Monday in "Young and Beautiful"—starring William Haines and Judith Allen.

Today and tomorrow "Crimson Romance," a spectacular air drama, will entertain young and old with its thrilling air shots—It's the story of men who lived and loved and fought. Tuesday Franchot Tone is the featured actor in "Straight Is the Way," a Metro-Goldwyn-Mayer picture based on the play "Four Walls," by Dana Burnett and George Abbott.

Concluding the week's entertainment will be "She Loves Me Not," a rowdyish story of college life, a chorus girl and a host of complications with the dean and faculty. Bing Crosby and Miriam Hopkins play the leading roles.

**To Visit in New Mexico**

A ten-day trip which will take her to Las Cruces, N. M. and El Paso was started Tuesday afternoon by Mrs. Josie McDonald. In Las Cruces she will visit Mrs. Maude M. Vander Stucken, sister-in-law of E. F. Vander Stucken. In El Paso she will be a guest of Dr. and Mrs. William T. Chapman. Dr. Chapman, former Sonora resident, lived in Mrs. McDonald's hotel before he was married.

**NOTICE TO BIDDERS**

Bids will be accepted at the post-office for four cords of dry oak wood, 16 inches long.

T. C. Murray, P. M.

**Many Schools Playing Football**  
Austin, Oct. 18.—Enrollment in the University of Texas Interscholastic League football contest for 1934 totals 473 high schools, according to Roy B. Henderson, athletic director of the University Bureau of Public School Interests. There are 89 schools participating in Conference A, comprised of schools of 500 or more enrollment; 323 schools participating in

Conference B, comprised of schools of 150-500 enrollment; and 61 schools participating in Conference C, comprised of schools below 150 enrollment.

A Kansas man drank 30 glasses of beer and then became deathly sick after eating a hamburger. It's awful what they put in meat nowadays. — Louisville Courier-Journal.

**Interest Shown in Journalism Courses**

Would-Be Newspaper Men Must Learn Typing at University

Austin, Oct. 18.—A total of 456 students are registered in the various journalism courses at the University of Texas, as compared with 429 when registration closed on October 15 last year, according to Paul J. Thompson, chairman of the department.

This slight increase was not anticipated for a number of reasons. One is the fact that journalism courses were offered during the last summer session. At least half of the fifty students enrolled in those courses during the first term of the summer school would have registered this fall had they not taken the summer work, Mr. Thompson estimated.

An innovation in the department this fall that has tended to prevent registration of students not seriously interested in the subject has been the addition of a non-credit typing course as a requisite for the elementary journalism work. Students enrolling in journalism were required to pass a speed test in typing or to take a non-credit typing course as parallel work.

A third factor that may have affected enrollment in the first year journalism courses has been the

elimination of laboratory reporting from the first semester of Journalism 12. Formerly first-year students in newsgathering have been sent on "assignments" from the very beginning of the work, and their "stories" have been published in the Daily Texan, student newspaper. Henceforth, however, reporting for the first semester will be done entirely by "upperclass" students, and "J. 12" students will not begin to do laboratory work until they have had four and one-half months of class instruction.

**LLANO RECEIVES YOUNG FISH FROM S. A. HATCHERY**

Bass, bream, catfish and crappie that will some day provide genuine sport for fishermen of this section were deposited in the Llano River at Camp Allison Thursday by C. H. Jennings and representatives of the state fish hatchery at San Angelo.

Most of the fish were about three to four inches in length. A large quantity was in the shipment. It was a part of the hatchery's program of re-stocking and developing West Texas streams to make them more interesting to the sportsman.

Edgar Mosel is superintendent of the hatchery in Tom Green county.

The NEWS will print it for you. Phone 24.—adv.
