Sonora Team Downs Ballinger in Interesting Game Sunday By 13 to 2 Score

Showing complete reversal of form from that of the Sunday before when it played in San Angelo the Station A Sonora team Sunday pounded its way through three Ballinger pitchers to a victory of 13 to 2.

The game, played in Sonora on the school ground diamond, was attended by a large crowd of baseball enthusiasts from Sonora and surrounding towns. Motor cars were forbidden from the edge of the diamond and all admission work and traffic handling was in charge of W. R. Nisbet, Boy Scout finance chairman, and a group of Scouts. The Sonora troop receives all gate receipts from games played here and will use the money in sending Sonora boys to Washington to the National Scout Jamboree in August.

Heavy work with the stick was done Sunday by Paul McLeod, Gardner, Ratliff, Wilford McLeod and Bishop, each of whom "found" the horsehide flung by the Ballinger pitcher, for two hits. Hudson and White of the Station team secured doubles.

McLeod Gets Circuit Tally
The first home run of the season's first league game in Sonora came when Paul McLeod connected for a circuit tour of the bases. As a result of his work he will receive \$2.50 in merchandise, given by Sonora Electric Co. Other Sonora players who won prizes offered by business firms were:

First 3-base hit, Wilford McLeod, year's subscription to the Devil's River News; first single, Gardner, \$1 worth of barber work, Corner Barber Shop; first man home, Ratliff, automobile oil change, J. T. Penick & Son;

First 2-base hit, Hudson, car wash and grease, Sutton Motor Co.; first assist, Ratliff, any \$1 fish bait, Gilmore Hardware Co.; first man driving in Sonora run, Hudson, \$1 worth of beer, Dutch Lunch Room; first man catching fly ball, Hudson, shampoo and tonic, Long's Barber Shop.

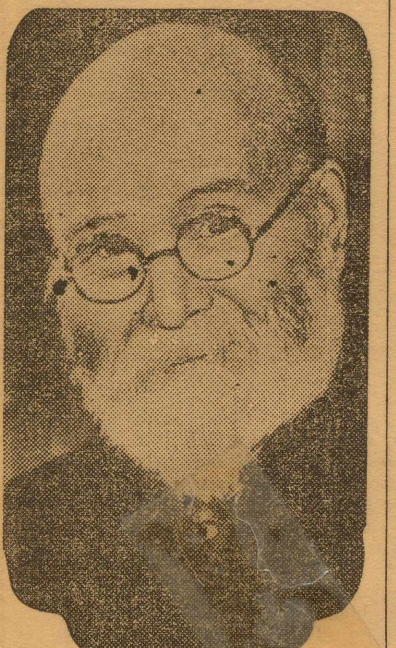

WHERE THEY PLAY SUNDAY

Veribest vs. Sonora (in Sonora, 3 p. m.)
Ellis Parts vs. Miles (in San Angelo)

Concho Basin League		P. W. L.	Pct.
Veribest	2	2	0 1.000
San Angelo	3	2	1 .667
Sonora	2	1	1 .500
Ballinger	3	1	2 .333
Miles	2	0	2 .000

Three Sonora players will receive awards when they accomplish the following—none of which occurred Sunday: second home run (Continued on page 8)

JAP FINANCE MINISTER

The owlish, eighty-three-year-old patriarch and veteran of Japanese finance, Korekiyo Tahahashi, poses for this picture in his Tokyo office, after approving the governmental budget for 1935. He is the finance minister of the Okada government now in power.

NEARLY 500 PASSENGER CARS REGISTERED HERE

A check the latter part of last week revealed that in Sutton county 479 passenger cars had been registered in the office of B. W. Hutcherson, collector.

The total number of passenger cars registered last year was 618. This was the period of the entire year of 1934 and the first three months of 1935. A number of these were voided for various reasons so that the difference between last year's registrations and this year's will probably be a small one.

In one week recently twenty-seven motor vehicles were registered.

Licenses so far this year, licensing period is now April to April, are distributed in the following manner:

Passenger, 479; farm trucks, 131; commercial trucks, 71; trailers, 14; chauffeur's licenses, 27.

Men Complete Boy Scout Work Sunday

Required Outdoor Work Can Be Done at Menard Class Period

Twenty-four men attended the Scoutmasters' training course Sunday afternoon and as a result of their work during the night class periods and the one Sunday afternoon several will receive certificates showing completion of the course.

A number of other men of Eldorado, Ozona, Station B and Sonora, who have been attending the night meetings, may receive certificates by doing the required outdoor work at Menard Sunday afternoon. The five hours outdoor work is a requirement which cannot be waived.

Jack Stone, assistant Scout executive, Concho Valley Council, San Angelo, was here Sunday for the work at the Scout Hall and near there. Scout craftsmanship tests of various sorts were undertaken with points given for each. The Coyote Patrol, directed by C. H. Jennings, assistant patrol leader, in the absence of E. B. Baggett, Ozona, won most points during the afternoon. The Panther Patrol was given a mop as consolation prize.

Those who were present Sunday were:

Dr. W. A. Grandy, Ozona; Amos Floyd, A. G. Lee, George Day, of Station B; J. A. Whitten, Don McCormick, F. M. Bradley, E. W. Brooks, all of Eldorado; O. G. Babcock, Preston C. Lightfoot, C. H. Jennings, John Eaton, F. T. Jones, Theo Virgin, Earnest Castro, A. P. Prater, O. P. Adams, Adolph Flores, L. H. McGhee, A. W. Awalt, R. D. Trainer, Marvin Barnes, W. D. Martin, W. R. Nisbet.

Texas Fort Again Will Be Populated

War Department Money For Marfa Work Available in July

Two batteries of field artillery are to occupy Fort D. A. Russell quarters at Marfa shortly after July 1 according to information from Washington Monday.

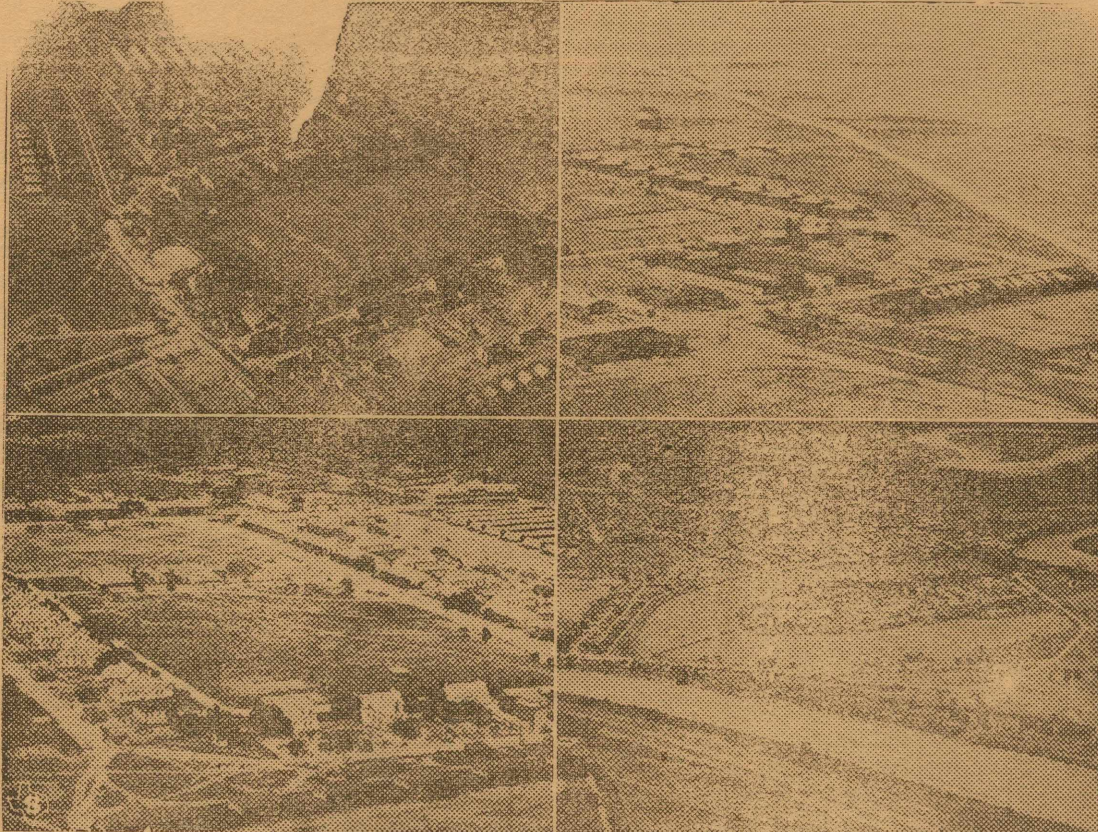

Home of the famous First Cavalry which was ordered to become a mechanized unit stationed at Fort Knox, Ky., late in 1932 the fort has had very few men located there since that time. It is estimated that about \$100,000 of War Department money is available for making the fort suitable for use of the artillery. It has been maintained and kept in good shape during the years since the time the First Cavalry was moved to Kentucky.

Marfa is eighty miles from the border and fifty from the Chinati Mountains. Bandit raids in the section in which it is located have not been uncommon at various times.

Business people as well as residents of Marfa were elated this week as a result of the favorable news from Washington by way of an announcement by Senator Morris Sheppard and R. E. Thomason, representative.

Miss Reba Callan of Station B spent the week-end as guest of Miss Zella Lee Thorp.

Stationing of 500 Men at Fort D. A. Russell Authorized

FHA Official of San Antonio Tells of Building Act

Plans May Be Submitted to San Antonio Office Previous to Loan Request

Complete explanation of Title 1 and Title 2 of the National Housing Act was Wednesday night made to twenty-two Sonora and Eldorado contractors and men interested in one way or another in the building industry.

Thomas H. Jarrell, executive assistant to R. A. Tullis, district director, Federal Housing Administration, located in San Antonio, spoke to the group. Mr. Jarrell is on a swing of West Texas which has taken him to Del Rio, Sanderston, Marfa, Alpine, Fort Stockton and Ozona.

Mr. Jarrell expressed his mission as one having the purpose of "explaining the better selling of better housing to people in the building industry."

"Title 1" of the legislation has to do with modernization, repair or alteration of property. Owners who do not have cash for the work may secure loans from approved lending institutions and repay monthly. Interest is "per cent discount."

The second division of the act, "Title 2," is in regard to mutual mortgage insurance on loans which originate in connection with the building of new homes and dwellings. Mortgages may be created not to exceed eighty per cent of the total valuation of the property, including land and improvements. Maximum amount is \$16,000. Under this plan one may borrow from an approved lending institution, for a one-to twenty-year period, at an interest rate of approximately five per cent. Repayment must be made monthly.

In connection with "Title 2" Mr. Jarrell stated that new construction plans may be submitted to his San Antonio office either before or after they have been submitted to an approved lending institution.

Eldorado men who attended the meeting Wednesday night in the First National Bank were: Ernest Hill, hardware merchant; J. A. Whitten, ranchman; C. E. Knight, lumber company manager; C. Alfree, lumber company manager; Les Baker, banker.

Mrs. Labenske Ill
Mrs. Lee Labenske has been ill the past week of influenza. She is reported to be improving.

Mrs. Westbrook Better
Mrs. J. D. Westbrook who has been ill several days is improving.

J. E. VICKERS TO START SHEEP MARKING SOON

Marking of some 2000 sheep will begin soon on the Frank Friend Ranch, according to J. E. Vickers, former Sonora resident, who was through here Tuesday afternoon with supplies for the work.

Mr. Vickers said that his section was beginning to need rain badly. The last moisture was on April 2.

Cedar Eradication Cooperation Pledged

If Can Be Done Without Heavy Obligation, Program Desired

Whole-hearted cooperation of ranchmen of this section was assured R. E. Taylor, county relief administrator, Thursday afternoon at a meeting called to discuss possibilities of a program of cedar eradication.

The meeting was called after a request had been received from Albert O. Hensley, field representative, district three, Texas Relief Commission, for information as to the attitude of ranchmen of this section.

About thirty attended the meeting in the First National Bank directors' room.

Mr. Taylor wrote to Mr. Hensley that the consensus of opinion here was:

"... that ranchmen of this section will cooperate with the government if some form might be worked out by which the expense of destroying cedar would not involve heavy obligation, if any, on the ranchmen."

Miss Elizabeth Caldwell, student at Southwestern University, and William Caldwell, student at the University of Texas spent the Easter holidays with their parents, Mr. and Mrs. W. E. Caldwell.

"EVERYTHING SET" FOR MR. HULL'S "MOTOR CO." DANCE

It's dance time at Sonora Motor Co. Monday night and Sam Hull, manager, says everything will be in readiness when Harrison's Texans of San Angelo strike up the music.

The party this year is by way of celebration of the firm's twenty-first year in business in Sonora.

Everything will be free, as usual with the yearly party, and Mr. Hull has sent out cards and placards to many West Texas friends promoting the affair.

Former Sonora Man Dies in San Angelo

W. Oren Hightower Was Formerly Manager of Store Here

Funeral services were conducted in San Angelo Monday afternoon for W. Oren Hightower, 32 years old, former Sonora resident, a brother of Alton and J. O. Hightower, Sonora business men.

Mr. Hightower lived from 1922 to 1929 when he was manager of W. O. Hightower & Co., general mercantile business which was located in the building now occupied by McKnight Chevrolet Co. He has been an automobile salesman for the Edwards Motor Co. in McCamey since that time.

He became ill Tuesday of last week and was taken to San Angelo. Some improvement was noted in his condition, due to pneumonia, until Sunday when he became worse. Death was at 6:35 that evening.

Besides his wife, to whom he was married about two years ago, Mr. Hightower is survived by the two brothers here, his parents, Mr. and Mrs. J. O. Hightower of McCamey, and a brother, Glenn, who lives in McCamey.

Services were conducted by the Rev. K. P. Barton of the First Methodist Church, San Angelo. Pallbearers were: Bill Edwards and Tom Edwards, both of McCamey; Duke Wilson, John Hamby, Raymond Barker, B. M. Halbert, Jr., of Sonora. Burial was in Fairmount Cemetery, San Angelo.

RETAIL BUSINESS MEN TO HAVE ANNUAL CONVENTION

Problems of the retailer, particularly as regards his credit relations with his customers, are to be discussed at the thirty-fifth annual convention of the Retail Merchants Association of Texas, the Associated Retail Credit Men of Texas and the Texas Retail Credit Association in San Antonio May 13 to 15.

In addition to credit and collection problems there will be a discussion of such subjects as good salesmanship, chain store competition and how to meet it, proposed laws and their effect on retail trade.

Adolf Grasso, secretary of the San Antonio Retail Merchants Association, has written Sonora business people inviting them to the sessions of the convention.

Mrs. P. J. Taylor and daughter, Je Beth, and Mrs. James Yantis were in San Angelo Saturday. Mrs. Yantis remained there Sunday to visit her mother, Mrs. Mary Evans.

Mohair Clip Brings 25 and 35 Cents in Sale This Week

Price for 850,000 Pounds in Local Warehouse Nine Cents a Pound Higher Than February

Rain Thursday night of last week over various parts of the county served as an index of good omen to a week in which Sutton ranchmen were to sell at the advantageous prices of 25 and 35 cents the 850,000 pounds of mohair in the Sonora Wool & Mohair Co. warehouse.

Sale negotiations were completed Tuesday night by Fred Earwood, executive vice-president, whereby Tom Richie, representing A. W. Hilliard & Company, purchased the clip in the warehouse. Shipping orders, according to W. J. Fields, Jr., are expected today or tomorrow.

Mr. Fields said Thursday that mohair from about 250 growers is involved in the sale. About 740,000 pounds was sold at 25 cents a pound and 110,000 at 35 cents, the latter being kid hair.

The entire sale lot was divided, approximately, as follows:

Fall (1933), 300,000 pounds; spring (1934), 225,000 pounds; fall (1934), 175,000 pounds; spring (1935), 150,000 pounds.

Actual cash involved in the purchase will be about \$223,500. This is expected to be available within the next two weeks, according to Mr. Fields. Lots sold ranged from 40,000 pounds to 100 pounds.

In February the company sold 80,000 pounds of mohair to the Hilliard company at 18 cents and 26 cents. The next month 36,000 pounds was disposed of to E. G. Wentworth, representing R. P. Collins and Company, for 18 cents and 32 cents.

Prices paid in West Texas this week are the best since the fall of 1933 when 45½ and 55½ cents was paid for the clip. Other sales reported this week in the San Angelo Morning Times were:

Schreiner Wool & Mohair Commission Co., 600,000; Fred Horners, Uvalde, 200,000; Edwards County Wool & Mohair Co., 150,000; Junction Cattle Loan Co., 150,000; March Brothers, Joe B. Blakeney and other warehouses, 150,000;

J. R. Smart warehouse, Menard, 75,000; Bandera Ranchmen and Farmers' Association, 50,000; Roddie and Company, Brady, 30,000; Eldorado Wool Company, 40,000.

George Leuzler of the Humble Pipe Line Co., located at Kempner Station, between Big Lake and Texon, was in Sonora this week and attended the Lions Club party at Station A Tuesday night.

To Speak Saturday

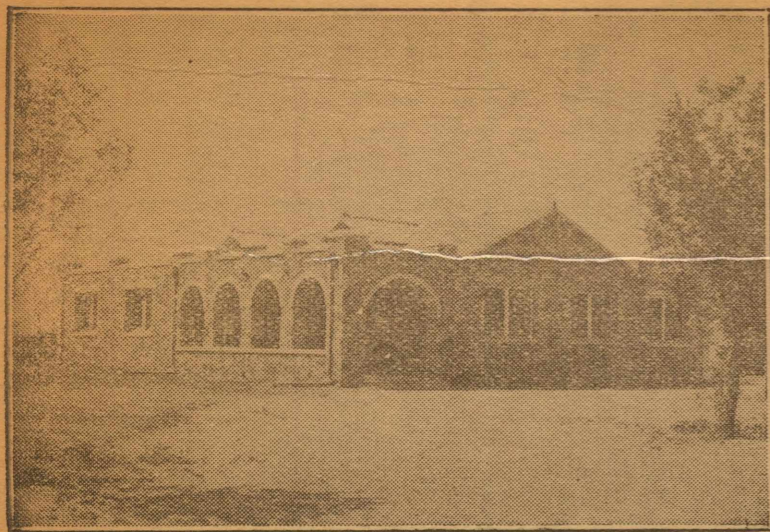

An address, "Experiences of a Country Banker," will be made by George H. Neill, First National Bank cashier, at the Hill Country Bankers' Association annual meeting Saturday night in Bandera.

Mr. Neill's address will follow that of J. Marvin Hunter, publisher of the Frontier Times, Bandera, and will precede that of L. L. Lentz, vice-president of Frost National Bank, San Antonio.

Twenty-four banks of West Texas and Southwest Texas are members of the association.

Pecos County Monument to Cooperation

Pecos county's beautiful new center, shown above, is truly a monument to cooperation, it having been completed in February after more than a year of combined effort on the part of county agents, Block One irrigated farms, the county court and the relief office, as well as citizens and business firms of the city of Fort Stockton.

Sonora Lions Club Host Tuesday Night

Humble Station People Guests at Dinner and Program

Good fellowship reigned supreme Tuesday evening when Station A and Station B residents were guests of the Sonora Lions Club at a dinner and musical program at Station A.

Sonora and Station B people went to the company station about 3:30 in the afternoon to see a baseball game arranged by W. J. Fields, Jr., and George E. Smith between Sonora and Station A players. The Station nine beat by a score of 14 to 7.

The dinner was served, cafeteria style, in the school building after a few words of welcome had been expressed by W. A. Hampton, superintendent of the station. The invocation was said by the Rev. Frank Nixon, pastor of the Baptist Church.

Before the dinner the visitors inspected the Humble company's property. Many favorable comments were made in regard to the attractive appearance of the station—made even more so at this particular time by beds of large roses.

After the dinner vocal numbers were sung by Mrs. Preston C. Lightfoot and Miss Rena McQuary. Several piano numbers were played by Miss Elizabeth Francis.

The ladies of the Parent-Teacher Association at the Station prepared and served the meal and will use the money received for school work.

Survey Shows Some Diet Items Higher

Price Increases Largely in Foods Not Needed in Quantities

Austin, April 25.—Average cost of an adequate weekly food allowance for a family of five in Texas has increased 16 cents since October, 1934, it has been announced by Mrs. Helen Swanson, consultant dietitian of the Texas Relief Commission, who recently completed a study of reports from 212 Texas counties.

Average division of the food dollar, if an adequate food allowance is to be provided at low cost, is 30 per cent for milk, 30 per cent for fruits, vegetables and legumes, 15 per cent for cereals, 13 per cent for fats and sugars, 9 per cent for meat and eggs, 3 per cent for coffee, soda, salt and other foods.

Average cost of milk in Texas in March was slightly more than 11 cents per quart, and slightly less than it was six months ago.

Milk, fruit, vegetables and eggs show an expected seasonal decrease in price and relief clients have been urged to use more of these "protective foods."

Chief significance of the analysis, Mrs. Swanson said, is that although the price of some foods has increased appreciably, the low cost foods in the quantities sufficient to provide an adequate diet have shown only a slight increase in cost. In other words, the foods which have shown the greatest increase in price are not necessary in any considerable quantity for an adequate food allowance.

Mrs. Swanson stated that the food cost survey was taken in order that the social welfare department might have an itemized index to use as a guide in setting up food budgets, in adjusting prices for school lunches and in making specific recommendations to individual counties regarding economy of certain items; to guide the field administration department in appropriation of funds; the commodity distribution department in making available larger quantities in counties where the article being distributed costs more; the rural rehabilitation department in choosing counties by taking into consideration cost of food along with other factors influencing designation of the areas for the rehabilitation centers.

TRAINED DOGS HELP POLICE FIGHT CRIME

Prove Efficiency for Guard Duty at Prisons.

El Reno, Okla.—Dogdom's part in the war against crime is ably demonstrated at the United States Southwestern reformatory here in the person of 100 pounds of canine fury assigned to Roy Lund, a guard.

The animal, of German and Swiss breeding, exemplifies the well-trained and thoroughbred police dog being adopted for guard duty in various parts of the country. It is deep-chested, short-haired, possesses a world of stamina and courage—and is a one-man dog.

Just recently the dog played an important part in the capture of two escaped convicts from the reformatory, Lund said. He indicated that dogs of this type are to be issued to guards on Alcatraz Island, the United States "Devil's Isle," according to present plans.

Dog Captures Two.

"On my command to search," said Lund, "the dog led our party to a heavy undergrowth where the escaped men were hidden. I said 'charge,' and the dog ran toward the clump. The two men surrendered before the dog reached the undergrowth. I then stopped the animal by shouting 'halt.'"

The dog assigned to Lund is one of two kept at the reformatory. It has been in his care since a year ago, when he went to Morrilton, N. J., to train with the animal.

"The dog is my constant companion," Lund explained, "and obeys only my commands. These dogs are trained that way. They will obey their keeper's orders to the letter, but will not heed a stranger."

If anyone, either man or woman, approaches the prison guard, the dog immediately places himself between his master and the oncoming party. Lund said the dogs are not vicious and will not attack without reason. If the quarry shows fight, then the dogs fight.

How They Are Trained.

"They are trained not to attack a man armed with a club," Lund said. "They circle the man at a safe distance until their master arrives."

The dogs are trained to disarm a man by clamping their jaws on the wrist of the gun hand.

"A clever trick mastered by most of these animals," said Lund, "is their method of combat when the quarry shows fight. My dog throws the full weight of his body against the man's leg closest to him and then grabs the other leg. This usually upsets the man."

Lund says the dogs are bred in Switzerland and are used by the signal corps of the Swiss army. Albert Muehler, a Swiss, who trained the dogs of Mussolini's police, is in charge of the training field in New Jersey.

"I never whip my dog," Lund said. "If he disobeys a command, I throw a small chain, which I always carry in my pocket, at him, and he will come and place his nose on my knee—his way of saying that he is sorry. Then I command him to retrieve the chain."

Bury Casket Maker in Coffin Friends Built

St. Joe, Ark.—Willis Phillips, casket maker in the Snowball community south of here for more than 50 years, is dead—buried in a casket made by his friends.

For more than a half century the skilled carpenter and cabinet maker made caskets for his neighbors' dead. It is a pioneer custom of the hill folk for neighbors to make caskets for bereaved families. Phillips made about 200 during his life without charge. Men who could afford expensive coffins made last requests they be buried in one of Phillips' making.

500 Abandoned Mines Sealed Pomeroy, Ohio.—Five hundred abandoned mines in Meigs county have been sealed since last March by FERA workers. The closing is expected to stop the flow of polluted water into streams.

South African Sees With Borrowed Eyes

London.—After being blind for years, Mrs. Daphne Muir, South African novelist, sees today with the eyes of other women.

She underwent the corneal graft operation at the hands of a Welsh specialist, Dr. Tudor Thomas. In each case, the necessary graft was taken from the eyes of other women.

Doctor Thomas has an impressive record with this type of operation. He restored the sight of a man blind 25 years, a woman sightless for 30 years and last June a woman blind all her life.

Mrs. Muir was disappointed in one sense—she wanted the graft to come from a man's eye because "I have always wanted to see through the eye of a man." She promised to dedicate her next book to Doctor Thomas.

LA VISTA TO SHOW SOME OF YEAR'S BEST PICTURES

Bookings were completed this week in Dallas by Hix Hall, operator of La Vista Theater, for some of the best pictures released in recent months.

Mr. and Mrs. Hall returned Wednesday noon from Dallas where they went Saturday.

Among the pictures Mr. Hall mentioned as having been secured are: Kid Millions, featuring Eddie Cantor; Sequoia, an M-G-M production; Romance in Manhattan, Flirtation Walk, The Mighty Barnum, West Point of the Air, Roberta, Naughty Marietta.

Today and tomorrow the theater will show "Hold 'Em, Yale" as well as another chapter of the serial, "The Red Rider." Sunday and Monday Eddie Cantor will entertain in "The Kid From Spain." On Tuesday "Advice to the Lovelorn," featuring Lee Tracy, will be offered. On Wednesday and Thursday "We Live Again" with Frederic March and Anna Stein will be shown.

Mrs. Tom White, Mrs. M. M. Stokes and Mrs. Theresa Friend were in San Angelo Thursday.

BYRD DOGS WILL BE EXHIBITED IN AMERICAN TOUR

Huskies Made History in Antarctic Explorations.

After more than a year in the far flung, frozen wastes around the South Pole, Admiral Richard E. Byrd's Second Antarctic Expedition is on the way back to civilization, crowned with new laurels of epoch-making discovery. The triumphant return started early in February, but it will be May or June before those sturdy adventurers drop anchor in Home Port, U. S. A.

—Morse Photo. Admiral Byrd, Commander of Expedition.

Returning with them on the long homeward voyage are the vivid recollections of the vast, forbidding and previously uncharted regions that grudgingly and dangerously gave ground before the determined advance of these Polar Pioneers. With them also are more tangible

reminders of their unprecedented Antarctic experiences. For if, as Napoleon said, an army marches on its stomach, a Polar expedition unquestionably moves on its dogs—those magnificent canine creatures upon which explorers in frigid lands have always depended so much for the success of their ventures—for their very lives, in fact.

A Long, Long Trail
The vital part played by those hundred and fifty huskies that accompanied Admiral Byrd in his remarkable explorations has been voiced repeatedly by radio, by letter, and by the press of the world in dispatches from Little America. The trail blazing achievements of the powerful dogs that pulled the heavy food and supply sledges over hundreds of miles of icy trek to open up immense stretches of hitherto unexplored country, have been lauded again and again by the Admiral and his hardy crew. Where the planes dared not land the dogs pushed on undaunted. When the most modern transport equipment was delayed by the rugged, treacherous topography, the dogs came through! They're coming back to America with their grateful human companions to receive their share of the plaudits for their indispensable contribution to the memorable accomplishments of the Expedition.

In all the changing temperatures and conditions of ten thousand miles of ocean travel, from the intense heat of the tropics to the extreme rigors of the Antarctic sojourn, the health and stamina of the Byrd huskies have been outstanding, according to those in charge of the dogs throughout the entire itinerary. Frequent reports have praised their fine condition and the way they have stood up to the severe tasks they have been called upon to perform.

Such strength and staying power are put there by the feed they've been getting—a ration in compressed checker form, developed by the Purina Experimental Kennels at Gray Summit, Mo. The Byrd Expedition selected this food after careful investigation of many dog rations, and took along 100,000 pounds of it to see that the huskies were well fed from the beginning to the end of the long, long trail.

Exhibition Tour Planned
The Expedition has cabled the makers of this dog food that upon the return to America they will be presented with a number of these fine animals as a gift for their experimental feeding kennels, in appreciation of the success of the ration in the Polar venture. These huskies will eventually find a permanent place in the Purina Kennels where, under the best of care and handling, the effects of feeding upon stamina, breeding, and condition will be studied through many canine generations. But before that is done, the dogs will go on an extended exhibition throughout the country. It is planned to display them all over the United States in the feed stores of communities where the greatest demand has developed for this same ration that Admiral Byrd carried with him for his dogs—a ration that has proved it is best for the dog under every feeding condition of house, kennel, or field.

That hardy fellow who drove a herd of Alaskan reindeer 2,000 miles is a type who could get a Sunday School class aboard a picnic bus.—San Francisco Chronicle.

SECRET OF SPHINX NEARER SOLUTION

Work of Vandals Proves Aid to Archeologists.

Cairo, Egypt.—The ageless riddle of Egypt's sphinx was declared nearer an answer as archeologists examined fresh evidence given them unwittingly by robbers whose vandalism uncovered the nearby tomb of a hitherto unknown Egyptian queen.

The new addition to the fabulous women who preceded Cleopatra as first lady of the Nile is Queen Rekheta, who lived in 3666 B. C. Her tomb was unearthed close to the famous Gizeh pyramids by a robber band that stole from the burial place all that was immediately convertible into cash.

To reach the tomb across which the sands of centuries had sifted, the robbers uncovered constructional details of the sphinx, the 189-foot lion-bodied, woman-headed idol, to the sun.

Heretofore available scientific data has placed construction of the Sphinx at approximately 2850 B. C. In the fourth dynasty. The new evidence may eventually prove some connection between the brooding, broken-nosed woman of the sands and Queen Rekheta.

Thus the Sphinx, archeological and mystic puzzle for ages, may be really older than hitherto believed, but not older than 3666 B. C.

Also, the new evidence points strongly to the possibility that the Sphinx was not built out of solid rock, cropping out of the desert, but out of rock that was transported to its present site—facing the rising sun in the shadow of these companion wonders of the world, the Pyramids.

Two Young Men Touring World in Small Motor

Capetown, S. A.—Two young men, A. F. Kane from Chicago and W. J. Kahler from Chile, arrived here in their car after having driven for 111,000 miles.

They traveled from Japan to London, from London to Norway, and from Cape North (Norway), the northern-most point in Europe, to Capetown.

It has taken them five years to do it—and that means that they have averaged nearly 430 miles a week for the whole of the five years. In a travel-stained car, bearing badges of every nation and packed to the roof with equipment and many weird curios, they drove nonchalantly through Capetown, looking for somewhere to rest.

"We have been on the road for five years," they said. "We are collecting material for books and lectures. At the end of the month we shall leave for America to prepare some of this, but we shall return in 1936 to undertake another trip planned in the reverse direction."

During their trip they have worn out five different cars.

Spare tanks fitted to the running boards have enabled them to carry gasoline and oil for 500 miles at a time.

Throughout the whole journey, they only four times used the means of transport other than their car—twice to cross the English channel, once to cross from Italy to Tunis, and again to cross the River Juba, Africa.

Battle of New Orleans Second Only to Yorktown

New Orleans.—The Plains of Chalmette, just below New Orleans, where Andrew Jackson fought the Battle of New Orleans in 1815 and brought to an end the War of 1812, are being beautified, marked and made more readily accessible through an added PWA appropriation of \$46,000.

This announcement was made in Washington on the heels of a report from the Tennessee commission of research ranking the Battle of New Orleans as second only to Yorktown as a military event of significance in the life of the republic.

"But for Jackson's victory at New Orleans," says the Tennessee report, "England might have laid claim to the vast Louisiana domain . . . now carved into 17 United States . . . on the ground of invalidity of title acquired by the United States from Napoleon at New Orleans in 1803."

Money Lenders Excluded From Jewish Synagogue

London.—The biggest Jewish synagogue in England, the Liberal Jewish synagogue in St. John road, has a peculiar rule:

"No money-lender shall be admitted as a member."

Rabbi Mattuck explained that no effort would be made to prevent a money-lender from attending services, but that membership, and official position are denied at the temple.

"Usury is a flagrant violation of the Jewish doctrine," he said. "I am categorically opposed to money-lending."

"There have been some money-lenders who have done good in their lifetimes. I knew Russell Sage, the wealthy American Jewish money-lender, who gave immense sums to charity and who founded the Russell Sage health foundation.

"But money-lending is essentially undesirable."

Trans-Pecos Area Ranchmen Losing Numerous Cattle

Howard Espy Animals Doing Better After Siege of Brush Poisoning

Loss of his cattle by brush poisoning has practically stopped Howard Espy, who has been having difficulty with his animals for several weeks, said Wednesday.

Mr. Espy says that he lost about forty head in a period of about two weeks. As soon as the malady was noticed the cattle were penned and treatment of various sorts started. Some of the animals became sick on the tenth day after they were penned. Two or three are still sick, Mr. Espy said, but he is of the opinion that all of the others have thrown off the poisoning.

It was thought for a time that the trouble might be hemorrhagic septicemia but Mr. Espy says that he is now convinced that it was brush poisoning. The Pecos Enterprise had the following story recently about hemorrhagic septicemia and the losses it has taken in the Trans-Pecos section:

Hemorrhagic septicemia—that dreaded and frequently fatal disease of cattle—swept through herds of the Trans-Pecos this week, leaving a trail of dead and dying animals in its wake. Many herds throughout this section are affected; many ranchers have already suffered heavy losses through the disease.

Quick Action Helpful

County Agent Ted Johnson this week issued a warning to all ranchers to watch closely for any symptoms of the malady. Calves and yearlings are the ones most susceptible. Immediate signs are: running of the nose; sinking of the eyeballs; and general weakness, causing the animal to stagger and fall.

Immediate action is necessary to prevent the disease from reaching epidemic proportions, he said. At the first sign, all animals should be immediately vaccinated, as the disease is highly contagious. Vaccine is easily accessible, and prompt action will prevent further losses.

Several ranchmen have reported severe losses in their herds, and more are expected unless quick vaccination is done. County Agent Johnson stated that he was ready at any time to assist ranchmen in vaccination and in culling the diseased animals from the herds.

While the dread germ of hemorrhagic has not yet gained a firm foothold in this county, it could quite easily cause alarming losses

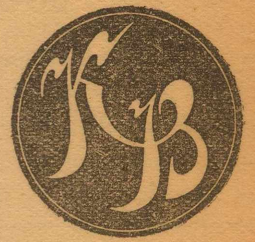

to the cattlemen. "The drouth is almost directly responsible for the deaths," the county agent said. "Healthy cattle have enough resistance to throw off the germ. The drouth, however, has weakened the cattle until they fall as easy prey to the ravages of the hemorrhagic germ."

He also issued a warning that vaccination was practically the only solution to the problem.

"Why not? I've found that it pays to stick to.."

TEXAS' GAS TAX IS LARGE ENOUGH—NO INCREASE WARRANTED

The truth is a hard thing to arrive at in matters of politics and statesmanship. Always there are selfish factions seeking personal profit through almost every measure that comes up...

Oil companies have naturally opposed the increase, and for that reason many people who are prone to scent a motive back of every movement, having swung to the other side, thinking that the measure should be passed if only to spite the oil companies.

The whole measure, however, was perpetrated by a few of the thickly populated Texas counties which have extensive systems of lateral county roads built principally from the proceeds of bond issues which they have been unable to keep in good standing.

Therefore, representatives of those counties, aided by holders of their greatly defeated bonds, have set in motion a more-or-less popular clamor for an increase in the gasoline tax, the cent levy to be used in retiring the bonds of the counties of the state.

Now the state has already assumed a large part of the bond load of Texas counties—a major portion of their expenses in construction of state and federal highways. That plan was certainly fair, for it relieved those progressive counties which had voted bonds and taken the lead with the state in highway development.

The present plan, however, would bring little benefit to the less densely populated counties with their few lateral roads. It would be a great thing for the counties with a network of county roads, but these county roads are not used by citizens of the state at large. They are used by the local people in the counties, in which the funds were in some cases foolishly voted.

A so-called county judges association has opened an office in Austin for the purpose of flooding the state of Texas with propoganda favorable to the measure, stressing the fact that advalorem taxes would be drastically reduced in many counties. Yet from the office of the president of the Texas County Judges and Commissioners' Association in Lubbock, Judge E. L. Pitts only last week issued a statement which explains the entire situation and points out the fact that only a few of the densely populated counties stand to gain through the plan and that it is not a measure backed by the association as such.

Mr. Darrow who predicted the eighteenth amendment would never be repealed, is trying again. "Good times," says Persevering Clarence, "are gone forever." Atlanta (Ga.) Constitution.

Battle Against Wind Erosion in Plains Counties in Progress on Extensive "Front"

Austin, April 25.—Farmers, under the direction of county agents, moved grimly over the entire length and breadth of the Texas Panhandle and Plains country last week, bent on controlling wind erosion.

Nature, using the wind as a lash, has assailed Northwest Texas for the last forty-five days, whipping soil from the land and carrying it in all directions.

Now the government will help these dust-choked farmers list their land in an effort to prevent further losses to the elements.

County agents, working with committees in forty-six counties, last week were approving contracts under which these farmers agree to list their land in return for fuel or feed for tractors or teams, the amount to be determined by the number of acres to be listed.

"Listing" of land is an agricultural term meaning to throw up the dirt into ridges with a basic principle that the wind may blow the soil upward from one side of the ridge but that a certain type of suction will draw that soil back to the other side of the ridge.

A survey submitted to the Texas Relief Commission by Dr. O. B. Martin, director of the extension service at A. & M. College, under whose supervision the program will be undertaken, shows listing of 5,395,000 acres. The federal emergency relief administration has made available through the Texas Relief Commission, funds to be granted to these farmers at the rate of ten cents per acre for the land to be listed.

County Agents to Direct E. A. Baugh, assistant director of the Texas Relief Commission, last week announced plans have been completed whereby farmers may obtain purchase orders by presenting approved contracts to county administrators.

"Land to be treated in this program must be selected by county agents, who are executing the program in all instances. The Relief Commission acts merely in a purchasing, disbursing and ac-

Business Failures Rise in March Austin, April 25.—An increase of 53 per cent in commercial failures during March as compared with February indicates that Texas business was under greater strain than in several months, according to the University of Texas Bureau of Business Research. The number of failures during March totaled 29, an increase of 38 per cent over March last year. Total liabilities were \$404,000, an increase of 120 per cent over February, but 7 per cent below those a year ago. Average liability per failure, \$13,931, was up 44 per cent from the previous month but down 33 per cent from March last year.

Many New Businesses Chartered Austin, April 25.—New charters granted Texas corporations during March made substantial gains in both number and capitalization, according to the University of Texas Bureau of Business Research. A total of 162 new charters was granted, an increase of 10 per cent over March, 1933. Total capi-

counting capacity," Mr. Baugh said.

Purchase orders may be presented for the amount of fuel or feed called for in the contract. Cash will not be delivered to the farmer, and no cash will be sent to the counties. All purchases will be paid from the state office of the Texas Relief Commission. This procedure was adopted in order to carry on the program with all possible speed.

Work to Take 40 Days Relief officials said they expect supplemental applications for funds from Dr. Martin as a result of continuation of his survey in the affected counties. These applications will be granted until the federal allotment of \$750,000 for the program has been exhausted Mr. Baugh said.

A completion date of May 1 has been set in order to assure concerted action in the campaign against the wind.

The Relief Commission will cooperate by furnishing bugetary labor and clerical help where it is needed. Bugetary workers in most cases will be used to drive tractors on large tracts of land where one farmer will be unable to complete the work in the allotted time.

Relief officials announced they had signed contracts with six oil companies for fuel at one cent under market price and that they had negotiated successfully for exemption from the four-cent state and one cent federal gasoline tax. In addition to the six companies with whom contracts have been signed, relief officials said they would honor purchase orders from any company that files a written quotation in the same amount as that in existing contracts.

Counties in which the program will be carried on are Dallam, Sherman, Hansford, Ochiltree, Lipscomb, Hemphill, Roberts, Hutchinson, Moore, Hartley, Oldham, Potter, Carson, Gray, Wheeler, Collingsworth, Donley, Armstrong, Randall, Deaf Smith, Hall, Childress, Motley, Cottle, Foard, Farmer, Castro, Swisher, Briscoe, Bailey, Lamb, Hale, Floyd, Cochran, Hockley, Lubbock, Crosby, Dickens, Yoakum, Terry, Lynn, Garza, Gaines, Dawson, Borden and Clay.

tialization showed gains of 13 per cent and 50 per cent respectively over the two comparable periods. Groups making the greatest gains were banking-finance, real estate-building, and merchandising.

WHAT A CREW!

(Copyright, 1935, for The Daily Oklahoman)

35 YEARS AGO

April 28, 1900 B. M. Halbert returned from Brownwood Thursday where he had been delivering some cattle.

M. V. Sessom and son, Dan, were in from their ranch Saturday for supplies.

Lee Aldwell who has been laid up for about a week with rheumatism is able to be about again and left on Wednesday for Ozona.

A. P. Belcher was in from the ranch on the Llano Sunday to attend church.

Bob Martin was in from the ranch Sunday and says the water was within three feet of the school house near his place last week. Bob is busy putting up fences.

G. W. Morris was in San Angelo Sunday to meet Mrs. Morris and

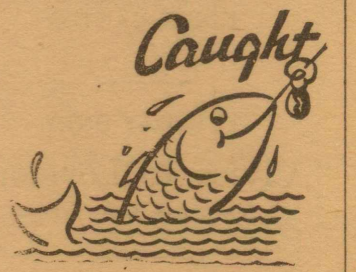

the children who have been on a visit to friends and relatives in the east.

Miss Della Carlton, daughter of Mrs. Wm. Adams was in from the ranch for a few days this week the guests of her friend, Miss Willie Hemphill.

Car Sales Increase in March Austin, April 25.—For the third consecutive month, sales of new passenger cars in Texas during March made sharp gains, according to the University of Texas Bureau of Business Research. Reports from fifteen representative counties show a total of 6,433 cars, an increase of 23 per cent over February and 30 per cent over March, 1934. Sales during the first quarter aggregated 16,157 cars, an increase of 62 per cent over the corresponding period last year.

Orion P. Brown and G. P. Hill went to San Angelo Sunday where they were called for jury service in the Federal Court. Mr. Brown returned Tuesday afternoon but it was necessary for Mr. Hill to remain longer as a member of a jury hearing a case.

Lad Operates Own Maple Sugar Plant

Clinton Lynes, twelve years old, is shown here at work on his own maple sugar evaporator which he built out of a bed frame. He has hung his buckets on the trees along the roadside. Clinton tends his own fires, boils his sap and cans his sirup. He hopes some day to be in the business in a big way.

Electric Kitchen Aids Mean Less Labor
For Housewife--and More Pleasing Foods

Denton, April 25.—Within the homes of today there are many labor saving devices and among these electricity is found to be the one most used.

At first we thought of electricity only with the presence of light, but now we have our numerous electric appliances, other than light, both large and small to suit the family's many needs. Such appliances as percolators, waffle irons, grills, toasters, heaters, hot plates, beaters, fans, refrigerators, and ranges are used within the modern kitchen.

Among the larger appliances in relation to foods in which the housewife is so vitally interested are the refrigerators and ranges. In using the refrigerator many delicious and wholesome desserts may be served as well as furnishing a perfect storage place for left-over foods.

The ranges have been so perfected that a meal may be prepared hours before time to be cooked and placed in the oven of an electric range which is so insulated that it will maintain the temperature at which it is placed in the oven until the cooking period begins by the thermostatic control which operates automatically, thus cooking the food to a proper degree of doneness.

Menus

Breakfast: Grapefruit juice, shirred eggs, crisp bacon, Melba toast, butter, stawberry preserves, coffee.

Lunch: Pigs in blanket, savory potatoes, mashed turnips, bran muffins, butter, combination vegetable salad, ice box cookies and milk mousse, hot tea.

Dinner: Veal bird, creamed vermicelli in casserole, string beans, butter rolls, grated pineapple, nut and cheese salad, coffee, date and nut pudding and whipped cream.

Breakfast: Wheat cereal and dates, link sausage garnished with apple rings, toast, butter, coffee, cream, sugar.

Lunch: Russian fritters, rice croquettes with mint jelly, tomato salad, bread, butter, hot cocoa, chocolate cookies.

Dinner: Baked ham with sherry sauce, sweet potato coupe, creamed cauliflower, snowflake rolls, stuffed spiced peach with fruit dressing, coffee, cream, sugar, molasses pie.

Recipes

Chocolate Browning: ½ c shortening, 7-8 c sugar, 2 sq melted chocolate, 2 eggs, ½ tsp salt, 1¼ c flour, ¼ tsp cinnamon, ¼ tsp almond extract and 1 tsp vanilla. Cream shortening and beat in sugar. Add chocolate and eggs well beaten. Mix and sift together flour, salt and cinnamon and add to first mixture. Add flavoring. Drop a spoonful on each section of waffle iron and bake two minutes.

Baked Ham: 15 lb. ham, 1½ qts flour, 1 c brown sugar, 2 Tsp ground cloves, 2 Tsp ground cinnamon, 2 Tsp ground all-spice, enough water to make into smooth dough. Roll out thick dough. Scrape ham and clean and wrap with above dough. Bake 4½ hours.

Savory Potatoes: 6 c diced cooked potatoes, 2 c medium sauce, 4 TB peanut butter or ½ c cheese, ½ c evaporated milk, 4 Tsp green pepper chopped and 4 Tsp pimento. No baking necessary.—CIA News Bulletin.

Some of the Nebraska legislators want to go home. Others are not so certain of the welcome when they get there.—Omaha World-Herald.

Anyway there is Russia's budget. It is always on the Red side of the ledger.—Dallas Morning News.

Club Women Elect
Officers Thursday

Mrs. Wilkinson and Mrs. Nisbet Selected For Positions

At the regular meeting of the Sonora Women's Club Thursday afternoon at the clubhouse the following officers were re-elected for the coming year: Mrs. B. W. Hutcherson, president; Mrs. W. C. Warren, vice-president; Miss Nan Karnes, recording secretary; Mrs. L. E. Johnson, corresponding secretary; Miss Jamie Gardner, treasurer.

Mrs. W. R. Nisbet was elected parliamentarian and Mrs. W. J. Wilkinson, auditor.

A parliamentary drill was led by Mrs. R. S. Covey.

At the round table discussion, the program for next year was discussed.

The party for the past presidents has been postponed indefinitely.

A number of new tables and chairs have been added to the clubhouse furnishings.

Collier
Shurleys Hosts
To Club Friday

Mr. and Mrs. Collier Shurley were hosts to the Friday Night Bridge Club at their home last week.

A chicken dinner was served to these members:

Messrs. and Mesdames R. A. Halbert, L. E. Johnson, P. J. Taylor, A. C. Elliott, W. C. Gilmore, R. C. Vicars, Nolan Kennedy, J. D. Westbrook; Miss Ada Steen and George Wynn.

Mrs. Belle Steen was a guest for the evening.

Mrs. Westbrook and Mr. Gilmore won high score awards.

If it's printing see the NEWS.

Worth of Lunches
Noted by Officials

School Children Gain When Given Hot Lunches as "Relief"

The following bulletin out of the Texas Relief Commission office is interesting from a state-wide standpoint. Locally, R. E. Taylor, relief administrator says, the situation is equally interesting. In one week recently seventeen children received seventy-three lunches, the cost of which was shared by the relief organization and the Lions Club. Examples of weight increases among local children receiving the nourishment have been noted, Mr. Taylor said.

Austin, April 25.—The school lunch program being carried on in 640 Texas schools by the Texas Relief Commission for children of relief roll families has done so much to correct dietary deficiency of some 42,000 boys and girls that plans already are under way to continue the program next fall.

During April, \$119,323 of general relief funds will be expended over the state at school lunch rooms to provide these children with adequate food. Results of the program are indicated by the benefits enumerated in a report from a school official in Bowie county:

"On health charts—the average increase in weight of students who have been given this service is three pounds or more above the average increase of the school.

"The percentage of attendance this group is far above the average for the entire school and above that of these same students before the lunches were provided.

"From all indications, the average grade for these children has improved four or five per cent since the service was instituted."

The
Universal Car

ONE name comes quickly to mind when you think of "The Universal Car." The description is distinctively Ford. No other car is used by so many millions of men and women in every part of the world. Everywhere it is the symbol of faithful service. . . . That has always been a Ford fundamental. Something new is constantly being added in the way of extra value. Each year the Ford has widened its appeal by increasing its usefulness to motorists. . . . Today's Ford V-8 is more than ever "The Universal Car" because it encircles the needs of more people than any other Ford ever built. It reaches out and up into new fields because it has everything you need in a modern automobile. . . . The Ford V-8 combines fine-car performance, comfort, safety and beauty with low first cost and low cost of operation and up-keep. There is no other car like it.

FOREIGN LOTTERIES ARE PUT UNDER BAN

Postal Department Renews Drive on Swindles.

Washington.—The federal government is strengthening its barriers against sweepstakes and other foreign lotteries. Customs inspection is being strengthened at borders and other ports of entry, and a series of nets has been woven to enmesh ticket counterfolios shipped back to foreign agents. Seizures have increased rapidly in recent months.

Forty thousand sweepstake tickets were confiscated recently by federal agents in post offices in Boston and Philadelphia. Three trunkfuls were seized in an express office in Buffalo. Quantities ranging from single tickets brought in by individual foreign travelers to hundreds of books of the flimsy smuggled across the Canadian border are being taken almost daily by customs officers. Mail sacks full of tickets and counterfolios seized in post offices all over the country are being shoveled more frequently now than formerly into the big furnace in the basement of the dead letter office at Washington.

Growth of Traffic.

Traffic in foreign lotteries has grown enormously in the United States in the last four years. The annual loss to the American people is estimated at more than \$10,000,000. No estimate is available of the additional millions lost through the purchase of counterfeit tickets, but single seizures by the government have involved more than \$500,000 worth of such "phonies." Investigation of a Cuban lottery whose agents were reported to have sold 3,000,000 tickets in the United States revealed only 100,000 tickets entered in the drawing.

Operators of the Irish sweepstakes have boasted that they take \$1,000,000 net profit out of the United States on a single lottery. This figure was greatly exceeded last year, when more than 2,000,000 tickets at \$2.50 each were sold in this country on the Cambridgeshire lottery operated by the Irish Free State. Of the 2,000,000 buyers there were less than 1,000 winners. For every winner there were more than 2,000 losers, and all who held counterfolios lost.

There are three Irish sweeps a year, based upon the running of the English derby at Epsom Downs, the Cambridgeshire at Newmarket and the Grand National at Aintree. Other big lotteries for which tickets are sold in the United States are the French National, Cuban National, Mexican National and the Canadian Army and Navy lottery. The government recently confiscated tickets on a lottery in Morocco.

Warnings to Post Offices.

Lists of names of foreign sweepstakes and other lottery ticket sellers against whom fraud orders have been issued by the government are sent each month to 15,000 post offices. Special compilations of names and addresses go to twenty-four postal exchange stations through which all mail for Canada, Cuba, Irish Free State, France and Luxembourg must clear. No money orders can be drawn to these persons, and all mail addressed to them must be returned to senders. More than 750 orders have been issued since last August.

Since many persons are not willing to claim the returned letters and thereby admit complicity in a lottery, in violation of the United States penal code, the cash contents often go into the United States treasury and the lottery counterfolios are destroyed. Coming in by mail, the tickets run a gauntlet of watchful postal agents, adept at detecting fraudulent material, no matter how skillfully it may be concealed in rolled newspapers, books, clothing, and first-class mail matter.

Wake Forest College

Places Ban on Hazing

Raleigh, N. C.—Wake Forest college, Baptist institution for higher learning, located 17 miles north of here, will no longer tolerate hazing. Expulsion will be the penalty. The executive committee of the faculty, examining 50 students charged with hazing, announced this decision.

Claims Freak Rooster

Kerrville, Texas.—Joe Coffey of Ranch Branch community in Mason county has an egg-laying rooster. He kept close watch on the bird to make sure he was not being fooled, he said.

Jap Can Dislocate

Every Joint in Body

Osaka, Japan.—A twenty-four-year-old man who can dislocate every joint in his body without feeling pain is being studied by physicians. When he was fourteen years old, he found that he could dislocate his fingers. So he practiced on other joints in his body. Now he can turn himself into a hunchback or so flex his backbone that it can be bent in any direction. He can, in fact, "tie himself in knots"—and flap his ears as well as any animal.

PERSONALS

A. C. Fambrough was a business visitor in San Angelo Tuesday.

Mrs. Rose Thorp and daughters, Zella Lee and Ches, and Miss Reba Callan were in San Angelo Saturday.

Mr. and Mrs. H. V. Stokes and Mrs. W. J. Fields, Jr., spent Tuesday in San Angelo and Sterling City.

Pat Cooper returned to College Station Monday after spending the Easter holidays here. He is a student at A. & M. College.

William and Lea Allison returned home Sunday after spending the Easter holidays in San Angelo with their mother, Mrs. Lillian Allison.

Mr. and Mrs. C. D. Wyatt, Mrs. John Fields, Miss Beverly Reiley and Miss Florine Reiley left Wednesday for San Antonio where they will spend several days.

Lacey Smith, Edwin Sawyer and Charlie Herring of McGregor returned to their respective schools Monday after visiting their parents through the Easter holidays.

Mrs. Fred Hull, Miss Margaret Hull and John Hull were in San Angelo Sunday. John went on to Dallas where he will be several days before returning to school at A. & M.

Fast living means quick death.—Dean White (CIA).

Mr. Darrow who predicted the eighteenth amendment would never be repealed, is trying again. "Good times," says Persevering Clarence, "are gone forever." Atlanta (Ga.) Constitution.

NORMAL LIFE SPAN 140, SAYS VORONOFF

Gland Specialist Outlines a Plan for Longevity.

Calcutta.—"The natural span of life is 140 years, and I have every hope that one day we may prolong it to this period," declared Dr. Serge Voronoff, the famous exponent of rejuvenation here.

"Everybody who dies between the ages of seventy and ninety is a person who is 'killed,'" Doctor Voronoff added. "The problem is to find out how not to be so 'killed.'"

"Between sixty and seventy is a critical period. Death is awaiting us. Those who wish to survive in the unequal struggle have but one means of gaining their end—to replace their worn-out glands with young and active glands, which will impart a new impulse to the cells of all our organs, causing them to create new young cells and thus rejuvenate the whole organism."

His Methods Recognized. Doctor Voronoff declared that the most eminent experts now recognized the efficiency of his methods and thousands of operations were being performed in Europe, and also in Japan. The only difficulty was procuring an adequate supply of animals for the purpose. The ordinary monkey was not suitable, the specimens of the genera required being the gorilla, orang-outang, chimpanzee or gibbon.

Together with his beautiful young wife, Doctor Voronoff intends to go to Java, where he will spend some time conducting experiments on the blood of the orang-outang. Afterwards he will go to Indo-China to conduct similar research on the gibbon.

Different Blood Types. Recalling his early work, the doctor said that at first he presumed that the blood of monkeys was of one type instead of the four types present in the human being. Some of the early experiments were not very satisfactory, but after long research he found that the monkeys had four types of blood also, corresponding to those types found in humans.

He therefore altered his methods to include tests of the blood both of the patient and of the animal to make sure that the types of blood corresponded. Then he grafted to the human being the thyroid, pituitary and sexual glands of the monkey.

The results, he claims, are "highly successful." The change observed in the aging human being could only be described as "something marvelous."

"Hot" Grapefruit Rival of "Hot" Oil in Texas

Merced, Texas.—"Hot" grapefruit may soon be as great a problem to Texans as "hot" oil.

R. V. A. Swarthout, Texas citrus co-ordinator, has put into effect a proration order limiting shipments of grapefruit from this state. The order was authorized by the Texas Citrus committee, and is designed to prevent speculation in grapefruit in produce centers and to create a uniform price during the entire season.

Certificates have been issued to growers in the Rio Grande valley, and as is the case with oil, producers must receive "a tender" before they can ship their fruit.

Penalties for violation of the proration orders are so heavy that it is believed there will be much "hot" grapefruit running.

Two-Cylinder Stove Is Invention of Ohio Man

Lakeside, Ohio.—Edward Patrick, local barber, has achieved a high rank among Lakeside inventors with his "all-weather" stove, recently installed in his shop.

The invention consists of two stoves, a large and small one, joined in tandem to the same pipe.

"In mild weather," Patrick explains, "I fire the small stove, in cold weather the large one, and in extremely cold weather both of them."

No patent has been applied for.

France Bars Advertising From Its Radio Programs

Paris.—Advertising will not be included in French radio broadcasting programs here, the ministry of posts telegrams and telephones announced. The decision was made in answer to protests from radio listeners who objected to paying a tax on their radio sets and then listening to advertising.

In many European countries the government controls broadcasting. The expense is covered by a tax on receiving sets and advertising is not permitted.

Copper Cannon, Relic of Civil War, Is Carried Off

Sutton, Mass.—A 500-pound copper cannon, Civil war relic and one of four that have served as landmarks in front of the town hall for 50 years, has been stolen. While police had little or no clues to follow, it is believed possible that the cannon might have been stolen by the same man who walked out of the Old South church of Boston recently with a cannon ball, Revolutionary war memento, in his overcoat pocket.

PERSONALS

Tommy Barrow of Ozona spent Sunday here.

Marshall Huling of San Angelo was in Sonora Tuesday on business.

Mrs. W. S. Evans and son, James Robert, returned from San Angelo Friday.

Miss Ches Thorp, James Ed Hutcherson and Troy White were in San Angelo Sunday.

Mr. and Mrs. Earl Lomax returned Tuesday from Rocksprings where they went on business Monday.

Mrs. J. E. Grimland and Mr. and Mrs. Fred Grimland and daughter spent the week-end with Mr. and Mrs. B. W. Hutcherson.

Edgar Glasscock returned Monday to Schreiner Institute, Kerrville, where he is in school. He spent the Easter holidays with his parents.

DEPOSITORY NOTICE

The State of Texas, County of Edwards.

Notice is hereby given that the Commissioners' Court of Edwards County, Texas at the regular May term, A. D. 1935, will select a depository for the funds of said county for the remainder of the current two-year term.

Any banking corporation, association or individual banker of Sutton county desiring to bid, shall deliver to the County Judge of said County, at or before 10 o'clock a. m. on the first day of the regular May Term, A. D. 1935, of said Court, same being the 13th day of May, A. D. 1935, a sealed proposal stating the rate of interest offered on the funds of said county and said bid or proposal shall be accompanied by a certified check, payable to Mrs. Cora Rogers, County Treasurer of Edwards County, Texas, in amount of One Hundred Forty Dollars, (\$140) as a guarantee of good faith on the part of the bidder, and that if his bid is accepted will enter into the bond required by law. In the event of the failure of the banking corporation, association or individual banker

selected as such depository, to give said bond, the amount of such certified check shall go to said Edwards County as liquidated damages.

Said Commissioners' Court is authorized by law to reject any and all bids.

Given under my hand this 10th day of April, A. D. 1935.

J. L. Johnson, County Judge, 24-3tc Edwards County, Texas.

selected as such depository, to give said bond, the amount of such certified check shall go to said Edwards County as liquidated damages.

GATE RECEIPTS TO BOY SCOUTS

Choice Cooking School Recipes

CHICKEN SALAD

3 cups cold cooked chicken 1 cup shredded lettuce
1/2 cup pecans finely chopped 1/2 cup mayonnaise
3 hard-boiled eggs diced 2 pimientos finely chopped
Small bottle of olives

Toss together and chill and serve in lettuce leaves. Decoration one stuffed olive on top.

CRUSHED BANANA CAKE

1 1/2 cups sugar 1/2 cup chopped nuts
1/2 cup butter 1 tsp. soda
2 egg yolks 4 tbsps. sour milk
3 medium bananas crushed 1 1/2 cups flour
Mix in order given. Folding beaten egg whites. Bake in 2 layers and stack with the following icing:
2 cups powdered sugar 2 tbsps. butter
Enough milk to make soft enough to spread

SPARERIBS AND SAUERKRAUT

3 lbs. pork spareribs 3 cups sauerkraut
salt and pepper

Choose spareribs which have a layer of meat on them. Wipe with a damp cloth. Place on a rack in roasting pan. Place in a hot oven (500 degrees) for 20 minutes, or until nicely browned. Then reduce the oven temperature to 300 degrees. Place sauerkraut on ribs and return to oven and bake until tender (about one hour).

STUFFED PORK CHOPS

Pork chops cut thick 2 hard cooked eggs
1 cup bread crumbs 2 cups meat stock
1/2 cup celery 2 tbsps. grated cheese
1 onion diced 1 clove garlic
2 tbsps. butter Salt and pepper

Make a pocket in the pork chop and fill with dressing made by combining bread crumbs, hard cooked eggs, diced onion, and melted butter, moistening with meat stock, and seasoning with salt and pepper, and grated cheese. Sew or skewer the edges of the pocket together. Brown the stuffed chops on both sides in hot shortening, then transform them to a buttered casserole which has been rubbed with a clove of garlic. Add a very little moisture and bake in a moderate oven (350 degrees) for 1 hour or until done.

ITALIAN SPAGHETTI

3-pound rump roast, insert 3 cloves garlic; sear well in four tbsps hot fat. Remove and place in deep boiler; saute in fat skillet 2 cups minced onion, 2 tbsps minced garlic; add salt to taste; 4 cans tomato paste, one No. 2 can tomatoes, and pour over the roast in pot. Let simmer about three hours. Be careful not to let stick to bottom. When done serve over one package of spaghetti that has been boiled in salted water about twenty minutes.

SPANISH CAKE

1/2 cup Mrs. Tucker's shortening 1 1/2 cups flour
1 cup sugar 2 tps. cinnamon
2 egg yolks 2 egg whites
1/2 cup sweet milk. 1 1/2 tps. K. C. Baking powder

Mix well in order given and fold in. Bake in moderate oven 25 minutes.

FILLING:
1 1/2 cup granulated sugar 1/2 cup brown sugar
5 tbsps. water

Cook over boiling water 7 minutes, beating constantly. When stiff to stand in peaks add 1 sq. of chocolate and spread on cake.

CREOLE STEAK

2 lbs. steak 1 small can peas
1 small can tomatoes 1/4 lb. cheese
1 onion minced Salt and pepper to taste
1 green pepper minced 4 tbsps. fat

Sear steak quickly in hot fat, remove from skillet saute onions and pepper until tender, add tomatoes and peas and diced cheese, replace steak, cover and let simmer thirty minutes or until tender as desired.

SANDWICH FILLING

1/2 lb. ground pork 4 hard boiled eggs
1/2 lb. ground veal 1 cup pecans chopped
1 grated onion About one cup mayonnaise

Boil pork and veal in 3 cups water about 1 1/2 hours, let cool thoroughly and add all the other ingredients. Salt to taste and spread on slices of bread and finish as any other sandwich.

VEAL LOAF

2 lbs. ground veal 1 teaspoon salt
2 eggs 3 slices stale bread
1 large onion sliced 1 small can tomatoes
1/2 cup thin cream

Mix all together and form into loaf, place in loaf pan and bake in moderate oven about one hour.

JONNEBESSETTI

1 lb. each veal and pork cut in one inch squares
1 stalk celery 1 can tomatoes
3 medium onions 1 can tomato paste
1 can mushrooms 1 teaspoon tabasco

Salt to taste

Fry meat in 1/4 cup fat until all is well brown add celery, onions, which have been cut in small pieces, add mushrooms and juice; cook until onions are tender, add tomatoes and other ingredients, cover and cook until meat is tender. Then add one package of noodles that have been boiled, bake all this. Serve on large platter.

HUNGARIAN GOULASH

1 1/4-lb. lean beef cut in one-inch pieces; 3 tbsps Mrs. Tucker's shortening. Fat shortening and brown beef well; put in roaster and add 3 cups boiling water, 1 teaspoon paprika, 12 small potatoes, 6 small white onions, 6 carrot balls, salt to taste, 1 bay leaf, 2 cloves, 3 tbsps flour should be added to meat as soon as brown and before adding the hot water. Cover and cook slowly about two hours. May be simmered on top of stove or placed in oven.

Tuesday—Troop Meeting

Council-Wide Rally
San Angelo, April 26-27

TROOP MEETING

Inter-patrol competition as preparation for the Council-wide rally was the "order of the day" at our Tuesday night meeting. The Flying Eagle Patrol won the cot contest with a time of 1:35. The Flaming Arrow was second with time of 1:45. The Flying Eagle won the tent peg contest, with the Rattlesnake boys a close second. The Flaming Arrow group was most successful in the knot tying contest with the Flying Eagle boys getting second.

Reggie Trainer.

San Angelo, April 25.—West Texas towns will play a "heavy role" in the presentation of the biggest event of the Concho Valley program of the Concho Valley Council in San Angelo tomorrow and Saturday in participating in the first annual Merit Badge Exposition and Camparall.

Nearly every one of the 20-odd towns of the 16½ counties comprising the Council will be represented in exhibiting a Merit Badge (vocational subject) in the Exposition and competing in the rally events of the Camparall.

Towns that have already made bids for booths and their exhibits are: Eldorado, Troop 18, Carpentry; Iraan, Troop and Ship 49, Music and Bookbinding; Rankin, Troop 56, Signaling; Sonora, Troop 19, Insect Life; Fort Stockton, Troops 69 and 60, Indian Lore and one unannounced; Ozona, Troop 53, Horsemanship; and Ballinger, Troop 29, Nut Culture.

San Angelo Troops will exhibit many Merit Badges, each taking one choice in the presentations. The exposition will open at 6 p. m. Friday. Troops out of Angelo will arrive around 4 p. m. to set up their booths and camp at the Log Cabin Village where they will spend the night.

Saturday a huge barbecue is planned at noon, the Camparall events in the morning, a big parade in the afternoon and the closing hours of the Merit Badge show at night.

Prizes will go to nine Exposition winners and to troops in the Camparall.

Methodist W.M.S. Meets With Mrs. B. W Hutcherson

The members of the Woman's Missionary Society met Wednesday afternoon at the home of Mrs. B. W. Hutcherson for a regular meeting.

Mrs. J. F. Howell read a description of the important incidents in the life of L. B. Statler, a builder of empires, and Mrs. W. E. Caldwell told of the high points in the life of William Taynor.

A playlet entitled, "Getters and Givers of Yesterday and Today," was presented by members of the society.

Opening and closing prayers were given by Mrs. Caldwell and Mrs. Howell.

Members present were: Mesdames W. J. Fields, J. T. McClelland, A. W. Awalt, J. W. Trainer, W. C. Warren, Joel Shelton, J. C. Stephen,

Fred Nichols, G. B. Hamilton, Russell Long, W. E. Caldwell, J. P. Howell, J. D. Lowrey, Preston Preter, O. L. Richardson and Robert Rees.

Only two weeks before daylight saving starts. Spendthrifts take note and act now.—New York Sun.

The NRA code chief of the tombstone industry has resigned, thus confirming Gen. Johnson's assertion that the Blue Eagle has been buried.—Chicago Daily News.

Veribest, Leading—

(Continued from page 1)

hit, dinner for two, Club Cafe; each man in double play, \$1 worth of merchandise, Hamilton Grocery.

New Ballinger Pitcher Often Mound work for Ballinger was done for three innings by Spoons. In the fourth he gave way to Smallwood and in the sixth Harvey took up hurling work.

"Lefty" White did all of the pitching for the Sonora team and struck fourteen men out. Ballinger's 10 hits were scattered enough to render them of little effect.

While Manager Hampton's Station A men were doing their work, Veribest, Concho Basin League leader now, defeated Ellis Parts, San Angelo, to jump into first position, which has been held by "Red" Weatherford's San Angelo entry. Miles did not have a league game, but beat Eldorado 24 to 2 at Eldorado.

Lauder, Veribest pitching ace, will be seen in action here Sunday afternoon when the league-leading Veribest team engages the Station A Sonora team in diamond fray.

Dopesters who juggle the little word "IF" this way and that are authority for the statement that IF Sonora beats Veribest Sunday AND Miles, in cellar position, topples Ellis Parts, the Station A Sonora players will be tied with Ellis Parts for the league lead.

The game Sunday will be at 3 o'clock.

Box score of the last Sunday game was:

Senior Class Play Now in Rehearsal

Production May 3 to Be One of Exceptional Interest

The situations resulting from the love of a young man for a sophisticated woman, still young but several years his senior, combine to make especially entertaining the senior class play in rehearsal now for presentation Friday night, May 3.

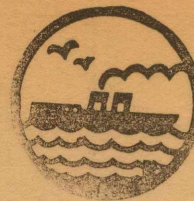

"Hero Is As Hero Does" is the title and each member of the 1935 graduating class and one junior has a part. A wild plan for a robbery, a young "old maid," with a propensity for screaming and finally a surprising finish—all combine to give an evening of real entertainment. Booth Tarkington's writings are recalled as the various situations occur.

One member of the cast, playing a minor part, has not been selected. Those who are rehearsing now are: Dorothy Penick, Winnie Mae Trimble, Viba Holland, Joseph Logan, Marvin Smith, Alvis Johnson, Lem Eriel Johnson, V. J. Glasscock, Cora Belle Taylor, Raymond Morgan.

Recreation Club For Women

A recreation club for Sonora and Sutton county women is the latest means of diversion offered in Sonora. Miss Grace Trainer, owner of Trainer Beauty Shop, has devised a plan for allowing women to play bridge and forty-two in her place of business. A small amount is to be charged as annual dues and an hourly charge made for the privilege of playing.

You always lose when you gamble with wrong.—Dean White.

The Willingness of a Bank to Loan

—is limited only by the fundamental rules of good banking practice.

In making loans a bank uses primarily the money of others—its depositors. As custodian of this money it is obligated to obtain adequate assurance that its borrowers are responsible and its loans safe. Furthermore, a large part of a bank's deposits are subject to withdrawal on demand and it must have ample cash always available.

For this reason preference is given to commercial loans for current business activities, because their cash proceeds are sufficient, within a specified period, to repay the loan. These repayments, together with new deposits, enable the bank to meet the requirements of depositors and to make fresh loans.
