

Concho Basin Pennant Won By Station A Sonora Sunday

Local Team Completes
Excellent Baseball
Season

WON 27 IN HALF

Game With Winner of
Permian Basin May
Be Played

Whirlwind-fashion the Station A Sonora baseball team swooped into San Angelo Sunday afternoon to capture the Concho Basin 1935 championship as a result of their defeating the Ellis Parts team in two games.

The two victories Sunday afternoon by scores of 5 to 4 and 4 to 2 gave the Sonora team a remarkable record of twenty-seven consecutive games in the "win" column. Ellis Parts, winner of the first half of the season, bowed to the Sonora team here in the first game of the play-off series—a 15-inning conflict that ended with Sonora holding the long end of a 4 to 3 score.

White and Smith Pitched
The concluding series was one of five games, if necessary, the first team winning three games to be awarded the league championship. Other teams of the league, during the last half, have been Miles, Eola, Rowena and Ballinger.

In the first game Sunday P. McLeod, Gardner and W. McLeod did the "heavy" work with the bat, each one getting a two-base hit. Russell (Lefty) White, hampered by a cold, pitched the first game and allowed only nine hits. In the second game both George Smith and White were used and the two of them allowed the San Angelo crew seven hits. Both of them were credited with one assist and Smith got one hit.

Former Manager Sees Game
Before the game Sunday pictures were taken of the Sonora team with its former manager, W. A. Hampton, who so ably guided their work during the season. Mr. Hampton was recently transferred by the Humble company to the superintendency of a pumping station near Ballinger and could not see the 15-inning battle here a few Sundays ago. A. L. Ohlenburg is acting manager of the team now.

There is some talk of a game or series of games between the champion Station A Sonora group and the winner in Permian Basin League. Ozona and Texon are playing for the title in that league, with each team having won two of a scheduled "best four out of seven" series. Nothing definite has been decided regarding the matching of

Cousin of Sonora Man Killed Sunday

Charles Meckel Only Distant
Relative of Ben Meckel

An accident near Kerrville early Sunday costing the lives of four people and injuring six others took the life of Charles H. Meckel, 50, an orderly at the veterans' hospital at Legion, near Kerrville.

Mr. Meckel was a cousin of Ben F. and Harry Meckel of Sonora and a nephew of August Meckel of San Angelo. Ben F. Meckel said Wednesday that, as far as he knew, the man who was killed was the last one of his father's relatives bearing the Meckel name other than his immediate family. His father's brother had two children—a son (the man who was killed) and a daughter.

One of the cars which collided contained two men and two women and the other a Mexican couple and five children. A San Antonio paper this week said that the crash was so intense that the gasoline tank of one of the cars was thrown fifty feet from the scene.

Mr. Meckel's funeral was held Monday.

Daughter To Needhams

A daughter, weighing seven pounds, was born Saturday to Mr. and Mrs. L. R. Neelham.

Directors of Bank Name Edwin Sawyer As One of Group

Young Man Succeeds Late E. E. Sawyer Who Was First National Director 24 Years

Appointment of Edwin Sawyer, son of Mrs. E. E. Sawyer, to the board of directors of the First National Bank at their regular meeting Saturday morning continues in the bank's affairs a name which has been linked with it nearly a quarter of a century.

Mr. Sawyer, a senior at Texas Agricultural and Mechanical College, was twenty-one years old the day before his appointment. He succeeds his father, the late E. E. Sawyer, who was a member of the board from Jan. 10, 1911, to the time of his death in April. The elder Sawyer had been active in financial circles and in the ranching industry here, in Del Rio and El Paso for many years.

Mr. Sawyer is one of the youngest if not the youngest man in West Texas actively to have a part in the guidance of a banking institution.

George H. Neill, the bank's cashier, in speaking Wednesday of the appointment of Mr. Sawyer pointed out that his place on the board was in the nature of an appointment. The institution's stockholders elect the directors and the directors make appointments to their group to fill any vacancies which occur. On the official records of the bank Mr. Sawyer, known to Sonora people as Edwin Sawyer, will be known as "E. E. Sawyer, Jr."

Other officers and directors of the bank are: President, Roy E. Aldwell; vice-president and chairman of the board, E. F. Vander Stucken; vice-president, George S. Allison; cashier, George H. Neill; assistant cashier, Mrs. Maysie Brown; directors, Joseph M. Vander Stucken, Roy E. Aldwell, S. E. McKnight, George L. Aldwell, George S. Allison, S. H. Allison.

The bank's staff is made up of C. H. Allen, Edmond Heinze, Miss Audrey Rankhorn, Mrs. C. C. Smith.

Wool Sales Friday Add 525,000 Pounds

Large Lot Goes at 26 to 27 Cents
and Short at 24½ a Pound

Purchases Friday by Joe Walker and Tom Richey, representing Philadelphia and Boston firms, practically "cleaned out" the Sonora Wool & Mohair Co. of wool in storage there.

Four hundred and fifty thousand pounds of twelve months wool was bought by Mr. Walker of Thomas Woolstenholmes and Sons, a woolen mill, at 26 to 27 cents a pound. The same day Mr. Richey of A. W. Hilliard and Son, Boston, paid 24½ to 25 cents for 75,000 pounds of clothing wool, mostly six months clip.

No mohair has been sold by the warehouse, W. J. Fields, manager, said Wednesday, although there is about 175,000 pounds in the house. In the spring of 1935 about 140,000 pounds was received. Mr. Fields estimates that the amount received this fall will be about the same as last autumn.

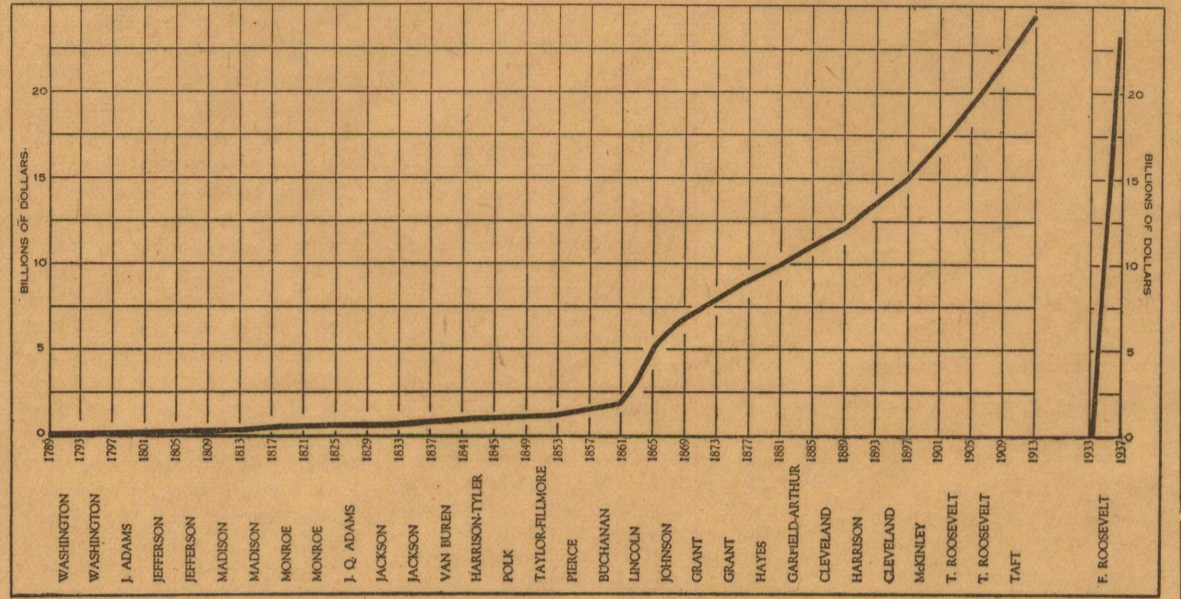

Twenty-six cents is the lowest price the warehouse has received this season for wool with the exception of the short clothing wool.

PAT COOPER BUYS 2,000 HEAD OF SHEEP IN BRADY

Two thousand sheep were bought Wednesday by Pat Cooper of Sonora acting for himself and the estate of the late E. E. Sawyer.

The purchase was made from Raleigh White of Brady who received \$7.50 a head for the animals. Mr. Cooper said here late Wednesday that the stock would be put on a portion of the Baker Ranch, property of the Sawyer estate, after December 1.

Your Government Has Spent--and Is Spending--Your Money and Your Grandchildren's Money At This Startlingly, Rapid Speed

—Courtesy, The First National Bank, Boston

The NEWS believes that the week in which "Constitution Day" occurs is a particularly appropriate one for the use of the above chart showing federal expenditures through the years. The accompanying article is reproduced by special permission of The First National Bank of Boston.

The magnitude of the spending by the federal government has been forcibly brought to public attention by the recent congressional legislation to obtain additional tax revenue.

It was discovered that the so-called "soak the rich" measure

would produce only about \$270,000,000 in taxes. Large as this sum is it is but 7 per cent of the estimated deficit for the present fiscal year and less than sufficient to pay federal expenses for two weeks.

The Senate Finance Committee recommended broadening the base but even by tapping income in the very low brackets it was found that the estimated yield would scarcely exceed \$450,000,000.

This should be a warning that the day of reckoning is not far distant. Sources of taxable revenue are not unlimited and it is only from taxation that the billions we are now spending can be ever re-

paid. The government cannot create wealth or income. It can only collect and distribute income that has been produced by private enterprise.

The accompanying chart is a forceful reminder of the magnitude of federal expenditures. These expenditures for the three fiscal years, 1934-5-6, would almost defray all the expenses of this Republic for the first one hundred and twenty-five years of its existence.

The figures on which the chart is based are from reports issued by the Secretary of the Treasury, except those for the year 1936 which
(Continued on page 3)

New Grade Rooms Ordered By School Board at Meeting

Petersburg, Texas, Resident Offered
Position at Owensville
School

Decision of the school board to establish a seventh grade section in the high school building, to divide the over-crowded fourth grade of the elementary school and to open the Owensville community school was made at a meeting Monday night.

The seventh grade students in the high school building have been departmentalized with the high school students. This plan has been abolished. The new plan will permit the offering of two more subjects and an additional class of one now being taught.

A new home economics class has been organized as a result of the change, third year Spanish is being offered and some social science, either modern history or economics and civics will be available to high school students.

Miss Velma Linn of Petersburg, Texas, has been offered the position of instructor in the Owensville school, Mr. McLain, superintendent, said Wednesday that he had not heard from Miss Linn regarding the offer. She has taught five years at Glenrio-Endee Consolidated School, Endee, N. M. Her training has been secured in West Texas State Teachers' College, Texas Technological College and N. M. Agricultural and Mechanical College.

Miss Callie Mae Love temporarily is teaching the new fourth grade which is made up of a part of the pupils in the grade taught by Miss Jamie Gardner. Miss Love is to have work at the Mexican School when the new building is in use and a permanent teacher it is thought, will have been appointed for the new fourth grade by that time.

No action was taken by the board relative to the acceptance of the new Mexican School building or of the high school roof-rebuilding job. Neither contractor of the projects was present and a conference with both is to be had before action is taken.

Mr. McLain was authorized by the board to take steps to have corrected the matter of water seepage in the elementary school building.

Attending University of Texas Alvis Johnson, Jr., left Monday for Austin where he entered the University of Texas as a freshman. He was accompanied by his father, Alvis Johnson, and grandfather, Robert Johnson.

County Invests in \$16,000 Bonds of Three Counties

Sutton Valuations of More Than
4½ Millions Approved By
Commissioners

Sixteen thousand dollars worth of bonds were ordered purchased by Sutton county from available funds of the A. B. C. road bond sinking fund of the county when the county commissioners met Friday.

The purchase, made of a Dallas investment firm, was divided in this manner:

\$2,000 Ellis county road district, 4½ per cent bonds, to yield net of 4 per cent;

\$6,000 Jefferson county funding bonds, ½ per cent bonds, to yield net of 4½ per cent.

\$8,000 Archer county road bonds, 5 per cent bonds, to yield net of 4.15 per cent.

At the time of the last quarterly report the A. B. C. road bond sinking fund had a balance of \$37,973.11

All of the bonds are to be bought on a basis of "plus accrued interest." As a result of the purchase the county's available funds will earn a larger return than at present. Waxahachie is the county seat of Ellis county, Beaumont the county seat of Jefferson and Archer City of Archer.

County tax rolls for 1935, totaling valuations of \$4,336,085, were approved by the judge, Alvis Johnson, and the commissioners, Joe F. Logan, C. T. Jones and C. W. Adams, who were present. Similar approval was given the August report of Floyd Dungan, justice of the peace, and \$21 fees for the month ordered paid him.

Contract was let to Lester Shroyer of the Camp Allison community for eleven cords of wood for use this winter at the courthouse. Mr. Shroyer's bid was \$5.50 a cord. The county judge was authorized to execute bills of sale for a county truck and car traded in recently on the purchase of a new truck for use in county road work. Payrolls for road work were also approved.

SONORA PEOPLE'S NEPHEW BETTER AFTER OPERATION

Substantial improvement is noted in the condition of Dock Lee son of Mr. and Mrs. Pat Lee of Ozona, who underwent an appendicitis operation a week ago Sunday in a San Angelo hospital.

Dock Lee is a nephew of Mr. and Mrs. Tom Thorp and Fred Simmons of Sonora. Mr. and Mrs. Thorp visited him in San Angelo Saturday and Mr. Simmons was there Sunday.

Minister Describes Sinister Plan of Working of Evil

Divorce and Re-Marriage of Two
Children of Franklin D.
Roosevelt Scored

"The 'temperature' of a church must be raised to a high point before the spirit of the community may be affected."

Thus the Rev. K. C. Minter, Midland pastor conducting a revival meeting at the Methodist Church opened his Saturday night message to the congregation composed of church members and other Sonora residents. He explained that his sermon that night was to be built around the theme of the divine warning and the one the next night, Sunday, that of the divine promise.

Baptists Dismiss Sunday Night
The Rev. Mr. Minter's first sermon was Thursday night of last week and he has preached each morning at ten and at eight each night since then. On Sunday night the Baptist Church did away with its night service and the members worshiped with the Methodists. The subject of the Rev. Mr. Minter's discourse that night was "The Christian Home or What Made America Great."

The Rev. Mr. Minter explained in detail Saturday night his childhood conception of the devil and his manner of working. He contrasted this conception with that developed in later years.

"Children think of evil," the Rev. Mr. Minter declared, "as a devil with peculiar characteristics. That is not true. Evil today is a strange, intangible thing that permeates the air. Temptation gripping people today does not come in a form of a devil. It works through people who have sold out to him to do his work."

Example Powerful Influence

"The devil can do more with one man in the church with influence that sets him up as an example, and does damage through him, than with all the infamous blackguards who are in hell."

"On what side is your life and influence being thrown? Is your

Son To R. L. Allens
Mr. and Mrs. R. L. Allen of Station A are the parents of a son, weighing ten pounds, born Wednesday in a hospital in San Angelo.

Son To George Trainers
Mr. and Mrs. George Trainer, Jr. are the parents of a baby boy born Saturday in a hospital in San Angelo.

Miss Labenske Better
Miss Mildred Labenske who has been ill several weeks is able to be out and walking on crutches.

Sonora Opposes Del Rio in First 1935 Football Contest

Game There Tonight at Eight
Second One Local Group Has
Played at Night

When a gun sounds in Del Rio tonight the Sonora Bronchos will have ended their first 1935 encounter with their gridiron foes.

The boys and O. P. Adams, coach, along with a number of interested citizens will leave at noon today for the first 1935 game under lights and the second the Sonora team has ever played on an illuminated field. Last year on the lighted Fort Stockton field the Sonora team gave a good account of itself against the district-winning Fort Stockton eleven but lost the game by a 6 to 0 score.

Last year the Sonora team performed very well in its game with Del Rio, completing seven of eight passes tried but finally losing the game by a 12 to 0 score.

Five 1934 Lettermen in School
Coach Adams' work this season has resolved itself into building a fighting machine around the five lettermen who returned to school. These "veterans" of the 1934 season are:

R. Vehle, tackle, captain, weight 140; F. Archer, halfback, weight 120; J. Taylor, quarterback, weight 118; R. Trainer, end, weight 140; W. B. Brantley, fullback, weight 145 pounds.

Others of the 1935 squad are: John Nichols, tackle, weight 180; M. Elliott, end, weight 130; L. Martinez, tackle, weight 150; R. Allan Simmons, center, weight 125; E. Archer, halfback, weight 165; C. T. Driskell, halfback, weight 110; W. Elliott, end, weight 120.

Coach Adams said yesterday that his tentative line-up for the Friday night game would be:

Left end, R. Trainer; left tackle, L. M. Roueche; left guard, C. Martinez; center, R. A. Simmons; right guard, L. Martinez; right tackle, R. Vehle (captain); right end, W. Elliott; quarterback, J. Taylor; halfback, F. Archer; halfback, M. Elliott, fullback, W. B. Brantley.

Both Vehle and Simmons have been sick this week and if they cannot make the trip Lloyd McGhee will likely be the choice at center and John Nichols in right tackle position.

Les Cranfill, former mentor at Simmons University, Abilene, is directing the Del Rio squad of twenty-seven this year. His group is said to lack weight and experience but in it are two backs and six ends. It was said this week that Cranfill will use a double wing back formation this year, thereby using this wealth of speed material.

Del Rio expects to pit the following against the Sonora team:

Ends, Walter Wardlaw, playing his fourth year, and Alfred Laye, first year man; tackles, Eldon Abbott, co-captain, and Ben Ttate; guards, Weatherbee and George Baker; center, Chino Conley or John Green; quarterback, halfbacks and fullbacks, to be selected from Babb, Peifert, Fred Herbst, (co-captain), Henry Brooks, Wally Hodge, Robert Logan, Clifford Lamas, Tomas Moreno, Nevin
(Continued on page 6)

MENARD MAN WILL OPEN NEW LAUNDRY MONDAY

Eight years experience in laundry work in West Texas is the background of E. F. Clark who will open Clark's Soft Water Laundry in Sonora Monday morning.

Mr. and Mrs. Clark and their daughter, Margie, ten years old, have been living in Menard for the last seven years where Mr. Clark was employed by a laundry. Before that he was manager of the St. Angelus Hotel laundry in San Angelo for a year.

The new business will be operated in the Morris Building, close to the business district, and will offer both pick-up and delivery services. The Clarks have moved here.

Toes Injured This Week

Henry Decker suffered three crushed toes Tuesday on his left foot when a sledge hammer with which he was working slipped out of his hands and fell on his foot.

States Will Work Together on Fairs

Arkansas and Texas Both To Be Hundred Years Old

Dallas, Sept. 19.—Texas and Arkansas will work hand in hand during 1936 to sell the commercial possibilities of the southwest to the rest of the nation. It will be Centennial year for both states and the Arkansas Centennial Committee and the officials of the Texas Centennial Exposition will cooperate in every way possible for their mutual benefit.

Harvey Couch of Pine Bluff, chairman of the Executive Committee in charge of the Arkansas Centennial celebration, recently visited Dallas for a conference with Walter D. Cline, managing director of the \$15,000,000 Exposition which opens next June. It was agreed that maps and literature issued by the Arkansas Centennial authorities should note Dallas as the Texas Centennial Exposition site and feature the highways of Texas leading to the Mexican border.

In return, the Texas Centennial Exposition will, in its literature, comment on the Arkansas Centennial celebration and feature Arkansas as being on the logical route to Dallas and Texas from the north and east. The Arkansas celebration is state-wide during 1936 but will have no central exposition. "Arkansas and Texas are bound together historically and commercially," says Walter D. Cline. "It will benefit both to co-ordinate their Centennial efforts."

New Telephone Directory SOON

The new fall and winter directory is being compiled. Anyone wanting phone installed, change in name or address, call 100 now.—adv.

HEADS NEW BOARD

President Roosevelt appointed as chairman of the social security board John G. Winant, former Republican governor of New Hampshire. He is to serve six years and his annual salary will be \$10,000.

Government Agency Lends Much Money

Banks and Trust Companies Repay RFC 76 Per Cent

Washington, Sept. 18.—Passing the \$10,000,000,000 mark for the first time since its establishment in February, 1932, loan authorizations by the Reconstruction Finance Corporation on August 31 totaled \$10,080,523,441, of which \$55,622,153,904 was in advances to private borrowers. Of the latter total, \$2,984,565,720, or 53 per cent, has been paid.

A total of \$731,472,423 has been disbursed to various government establishments pursuant to statutes passed since the RFC was established.

Relief disbursements were \$1,209,983,486, including \$299,994,999 advanced directly to states; \$499,958,489 to states upon certification of the relief administrator, and \$500,000,000 to the relief administrator under provisions of the 1935 Emergency Appropriation Act.

Of the total of all authorizations, applications for \$838,411,500 were cancelled and \$875,692,881 remained available to applicants and banks offering preferred stocks and capital notes.

Banks and trust companies, by far the largest single group of borrowers from the RFC, at the end of August had repaid \$1,454,630,759, or 76 per cent of the \$1,904,772,194 disbursed to them. Total authorization to this group was \$2,381,867,633 but with improvement in the condition of financial institutions generally, all of the residue was cancelled, because it was not needed.

Loans disbursed for distribution to depositors of 2,646 closed banks totaled \$848,497,695, of which \$549,662,397 had been repaid to August 31.

"As an American citizen I oppose divesting the Supreme Court of the power to construe and interpret the constitution at the suit of any citizen of the Republic whenever any right guaranteed to him by that instrument may be invaded by the Congress, the Executive, the Courts, or any state of the Union." —Senator Tom Connally, of Texas.

Too much food for thought can cause mental indigestion. — Dean E. V. White.

ALASKAN TOWN HAS VIRGINIA CLIMATE

Temperature Seldom Falls Much Below Freezing.

Washington.—Ketchikan, Alaska, is going into the public utility business. The city has arranged to buy up local electric light, power, water and telephone properties.

"This is only another indication that Ketchikan is a strictly modern city, with very few of the characteristics popularly attributed to Alaskan towns," says the National Geographic society. "Its population of 3,800 would scarcely rate it a metropolitan standing in the states, but in Alaska it is second only to the capital, Juneau.

More Rain Than in Panama.

"Situated at the very southernmost tip of the long, Alaskan panhandle that reaches down the coast of British Columbia, Ketchikan is first port of call for all steamers entering Alaska through the inland passage. It is perched on a rocky hillside that falls abruptly into the waters of Tongass Narrows. Around it rise steep, wooded hills, green the year around, for winters in Ketchikan are as mild as in Richmond, Va. The temperature seldom drops much below freezing, and there is practically no snow. The winding sea channels and swift, mountain streams freeze. But there is rain, plenty of it; over thirteen feet a year, which is worse than tropical Panama. Yellow oilskins are the prevailing fashion in all seasons.

"The bare, rock foundations of the city provide neither soil nor level space for roads, so the streets are built of wooden planks. The business district is set on piles, close to the long line of wharfs. Stairs and winding board roads lead up to the residential part of town. There almost every home has a bit of lawn or garden, probably planted on imported earth.

Is Busy Place.

"Business is good in Ketchikan. It is a shipping center and supply base for a large district. The shops and stores are stocked with foods and merchandise fresh from the states. After all, Seattle is only 600 miles away, with regular steamer service winter and summer. Huge salmon canneries are frantically busy during the short season when salmon are running. Often the little river that rushes through Ketchikan, incidentally supplying it with electric power, is packed solid with pink and silver fish. The chinook, or king salmon, is the principal variety of the Ketchikan district. Halibut fishing is another big industry, and there are great cold storage plants where the fish are frozen before they are shipped south.

"Although there are several sawmills, lumbering has not been developed on a very large scale. But Ketchikan has all the potential resources for a great pulpwood industry—unlimited, year round water power and almost inexhaustible timber. The forests, which are mostly spruce and hemlock, mixed with some elder, willow, and cottonwood, are controlled by the United States forest service."

Turkish Woman Seeking Right to Cross Her Legs

Istanbul.—Whether it is an outrage for a woman to sit with one leg across the other is being discussed in Turkish Anatolia.

The offending Turkish woman is Madame Nadjie Kipchak, a history teacher.

She attended a sitting of the court as a member of the public, and taking a front seat, placed one leg across the other.

The usher called her to order, saying, "that is not how one sits in court." She answered sharply and the usher instituted proceedings against her for outrage to a magistrate in the exercise of his functions.

When the case came up, Madame Kipchak defended herself by saying that in her opinion good manners in the Twentieth century allowed a lady to place her right leg over her left knee or her left leg over her right knee without it constituting any lack of respect to a court of law.

She replied to the magistrate that she was well-grounded in notions of law and sociology as well as etiquette.

The case was adjourned for witnesses to give evidence as to the exact angles at which her legs were crossed.

Istanbul Sets Up Code for Its Grave Diggers

Istanbul.—In Istanbul Turkish mourners have staged a revolt against the grave diggers.

They say that they charge more than the due fees for burying the dead and bargain speculatively over the corpses.

So many complaints have reached the municipality from the mourning population that the police have been sent a schedule of grave digging charges which all grave diggers must follow.

It will cost \$3.75 to bury anyone over five years old, and \$1.80 for persons under five.

But for burials in graves which are already open, the charge will be only a dollar.

HERE'S A ROPER'S IDEA OF THE GOLDEN SHORE

Ted Powers, Crockett county ace calf roper and a serious threat to the nation's champion ropers, tells this one on calf ropers:

A calf roper went to heaven and sought admittance of Saint Peter, but the keeper shook his head.

"I can't let you in here," he said. "The place is full of calf ropers now."

"But just let me in for a time to look around," the calf roper begged. Saint Peter finally agreed to let the roper have a look-see around before sending him on.

On the inside the newly arrived calf roper gathered the group of ropers already arrived in a huddle.

"Boys," he said, "they're having a calf roping in hell."

There followed a wild stampede as the ropers grabbed their lassos and hit for the door. Left alone, the newly arrived lariat artist waited for the victims of his practical joke to return. Time passed and they didn't return and then Saint Peter was startled as the roper brushed past him, saying,

"Lemme outa here. Maybe they are having a calf roping down there." — Ozona Stockman.

INDIANS' GAME PRESERVE "BELOVED BEAR GROUNDS"

Washington, Sept. 18.—Two hundred years ago the Indians in Kentucky set aside game refuges for bears and created what may have been the first game law in America, says Vernon Bailey, retired naturalist of the Biological Survey.

Bear fat, bear meat and bear skins were the most prized returns of the hunt. Large areas were set aside as "beloved bear grounds" where only a limited number of animals could be killed each year, so that a permanent supply of these animals would be obtained. Mr. Bailey believes it might be well today to follow the example of the Kentucky Indians, and establish "beloved bear grounds."

SONORA MAN DELEGATE TO CHICAGO CONFERENCE

Appointment as a member of the Texas delegation to the National Recreation Congress which meets in Chicago Sept. 30-Oct. 4 was received Saturday by B. H. McLain.

The meeting is the annual one of the National Recreation Association which cooperates with federal, state and municipal governments in providing wholesome recreation programs for citizens.

The appointment was made by James V. Allred, governor of Texas.

Don't mistreat a person because some other person has mistreated you.—Dean E. V. White.

"Ears of the Army" at Work

The United States army's huge "ears," sound locators tuned to pick up noises which might come from "enemy" aircraft or infantry, as seen in the war maneuvers at Camp Pine, N. Y. These locators are synchronized with the huge searchlights and once a sound is picked up, the lights reveal the cause of the disturbance.

Small Quantities Rapidly Made, Secret of Delicious Jelly Making—Authority Says

"Make jelly in small lots. Use a large, flat-bottomed saucepan. Carry the entire process through promptly."

These are tips on jelly-making from women in the Bureau of Home Economics, U. S. Department of Agriculture, who for years have studied the behavior of fruit juices and sugar when combined to make jellies.

An ideal jelly, they say, has a bright color, delicate flavor and a translucent texture. It holds its shape when turned out on a plate, but quivers when the plate is moved. Perfect jelly should be so tender that it cuts easily with a spoon, yet shows a sharp face.

Such jellies cannot be produced in wholesale amounts. When extracting the juice, it is easiest to prepare and handle about six quarts of currants or berries or eight pounds of apples or grapes at a time. Large masses of fruit pulp drip too long and the bags are not

handled easily.

In cooking the juice and sugar together it is important to reach as rapidly as possible the point where the sirup will jell. This is the reason a large, flat-bottomed saucepan is best—evaporation takes place more rapidly from a broad surface. When the jelly stage is reached, cooking must be stopped immediately, the sirup skimmed and put promptly into hot, sterilized glasses to set. Prolonged cooking affects the flavor and color and sometimes the jelling power of the juice.

It sometimes is better to use more than one drip bag. If there is a large amount of fruit on hand, a fresh lot can be prepared and cooking started as soon as the first lot has finished dripping. Some fruits are so rich in jelling power that two extractions of juice can be made from the same fruit. These may be mixed.

Field Worker For Lions Here Tuesday

Annual Ladies Night Program For Teachers Monday Night

Teachers of Sutton county will be guests of Sonora Lions Club Monday evening at 7:30 when the club has its annual Ladies' Night program to welcome the instructors to Sonora and Sutton county.

The program was originally set for Monday night, Sept. 9, but had to be postponed because of inclement weather.

At the noon luncheon Tuesday a short talk was made by Roy Keaton, field representative, International Association of Lions Clubs who, with Mrs. Keaton and H. V. Stokes, left that noon for Mason to organize a club there. On Monday night the two organized a club at Miles. Last night they attended the charter program of the Brady club.

The entertainment program con-

sisted of: vocal solo, "Sleepy Hollow Tune," Miss Wilma Hutcherson, pupil of Mrs. Preston C. Lightfoot; piano solo, "Grand Waltz Caprice," by Miss Hutcherson, pupil of Miss Elizabeth Francis; vocal solo, "Brown Bird Singing," Walter E. Willis.

J. M. Puckett, chairman of the Loys' and girls' work committee, told of plans to cooperate with other organizations in supplying hot lunches for school children. An outline of membership requirements and the method of proposing members for the club was given by W. R. Cusenbary who, with Nolan Kennedy, makes up that committee.

At the board of directors meeting after the luncheon E. S. Long was added to the membership committee.

Guests at the luncheon were Clayton Puckett of San Angelo, Mr. Parris, Fort Worth, representative of R. G. Dun & Co., and Russell White.

Where Friendship Ceases

By JACK RODOLPH
© McClure Newspaper Syndicate.
WNU Service.

"THAT'S her!" rumbled Big Un Measley, raising a huge arm to point across the gay flutter of the dance floor.

Peewee Pruitt swung his one hundred and forty pounds upon the big arm and pulled it down. "Civilized people," he admonished, "don't point. And they don't say 'That's her!'" Then he turned to look in the direction the big man had indicated. "My savage protegee desires the paleface medicine in big gulps!" he whistled softly as his eyes lighted upon a glorious blond.

"Cut the kidding and start calling signals for my play," the giant urged.

Pruitt shook his head sadly. "Start calling signals for your play! Just look at that! Big Boy, the play hasn't been doped yet that will carry a man across that goal line!"

Something in his tone caused Beasley to glance down quickly. "Has she thrown you for a loss, too?" he asked.

"Every Romeo in school has tried to rush her," Pruitt responded lightly. But his dissimulation did not deceive the big fellow.

"If she's your girl, that lets me out," he stated decisively.

Pruitt dropped his air of mockery. "Big Un, that won't go between us. I'm going to call your play tonight and give you an even break. Then let the best man win. That girl has seen hundreds of men like me. And there's only one man in the world like you. Your play is to be yourself and not try to imitate."

The David and Goliath act had been introduced at State university a half dozen months before when Pruitt had crouched between the legs of the big center who had handed the ball back to him and plowed ahead, with the little quarterback following between the protecting legs.

A month later Beasley had marveled, "You certainly can run interference on this math stuff."

"Concentration is the secret," the little man had snapped. "Jam your nose back into that book, and keep it there." Examinations, which would determine eligibility for the basketball team, were due the following day.

Beasley's father had gone West when land was just something between a man and where he wanted to go. When Beasley came to State he could read a cattle brand a half mile away better than he could read math symbols under his nose.

Pruitt was from a long line of lawyers who spared enough time from acquiring culture to garner their share of the coin of the realm.

Their act drew more applause when the big man tipped the basketball to the little one, who dribbled it in dazzling circles until the other was in position for him to pass for a score.

Beasley was on hand to catch Pruitt when he staggered after breaking the tape in the hundred-yard dash and the little fellow juggled the hammer and the big shot to the ring for the glant.

By now the students generally referred to them collectively as David and Goliath.

Then the two three-letter men were ready to break training.

"It's time you were getting civilized, you woolly son of a West," Pruitt had declared. "Have a dress suit ready for the hop tomorrow night, and I'll break you for society."

The mentor decided the following evening that Beasley's first course of introduction should be to leave him on his own with a group of girls to whom he had been introduced. But it was not long before the big one came seeking the little one to declare, "Half-pint, I've found the girl who makes all this fuss worth while. Come on. I'll show her to you. I want an introduction."

That had led up to the conversation which carried the two to the coat room. "Stand still," Pruitt ordered, while he pulled Beasley's tie around to the front. There were sundry adjustments before the final survey and he murmured, "Well, that's the best I can do. We'll go find her. And, remember, after the introduction it's every man for himself."

"I wouldn't do it if it were any girl except that one," the giant apologized. "Can't we still be friends?"

"Sure," snapped Pruitt. "Damon and Pythias were—in the book. It's a pretty story. Better read it."

Pruitt sought the largest group in the big hall and dragged Beasley to its center. He performed the introduction gracefully and added, "My best friend, and the finest fellow who ever came to State." Then he turned to leave.

He was halfway across the room when he was roughly seized from behind. Beasley wrapped his left arm about the little fellow and jerked him about. As Pruitt looked up into the grim face above him, the giant growled, "You fumbled with your damn politeness." He held Pruitt powerless, while his long arm came up to point openly and defiantly at a girl with a shock of dark curls above saucy eyes. "That's her!" he said again.

Guy Stokes, 71 Thursday, Spent Three Days Coming Here From San Angelo in '90

As Guy Stokes, 71 years old yesterday, recalls it there were only two stores—Mayer and Hagerlund and Callahan's (Sonora Supply Co.)—when he rode his horse in here one fall day back in 1890.

Although born in Madison county in East Texas, Mr. Stokes came here from McCulloch county. There Mr. Stokes had been waiting for his brother, Sam, long time Sutton county official, to get a bunch of cattle ready to take to the plains. The cattle were traded for sheep around San Angelo. Mr. Stokes sold his interest in them to his brother and started for Sonora.

He and his horse camped the first night (between here and San

Angelo) on Spring Creek, the next night they stopped at a ranch house. The next day they fell in with a freight wagon outfit operated by "Booger" Robinson and came on to Sonora.

His brother, Sam, came with the stock a short time later and Guy herded them for him on Dry Devil's River. After a year here Mr. Stokes went to the Chickasha Nation. He has not lived in Sutton county continuously but has resided here most of the years since 1890.

In 1826 he was in the ranch business in the Sutton section and he continued in this until a few years ago.

RUG CLEANING PLANT MEN BUSINESS VISITORS HERE

Well known in San Angelo where he sold real estate for nine years, J. M. T. (Salty) Sparks, now operator of a rug cleaning plant in San Angelo was a business visitor in Sonora Thursday of last week.

He was accompanied by C. T. Wilkerson, also of the firm which is known as Sanitary Rug Cleaners.

Besides the cleaning and tinting of floor coverings the company cleans and moth-proofs upholstered furniture. It was established in San Angelo about two months ago and is said to be the only business of its kind in West Texas. The man in charge of plant operations, Mr. Sparks says, has had eighteen years experience in that line of work.

YOUR GOVERNMENT

(Continued from page 1)

are taken from an estimate by the President.

If state local government expenditures are added to those of the federal government the total is staggering. The aggregate estimate for 1934 was \$15,500,000,000. Only \$2,500,000,000 was collected in taxes so that outlay exceeded income by nearly 40 per cent.

The gap has been bridged by borrowing and at the end of this fiscal year the total public debt will exceed \$50,000,000,000. Reducing the national balance sheet to a simple arithmetical basis we find that the per family income in 1934 was \$1,587, total public debt \$1,663, governmental costs \$517 and taxes collected \$317.

For the past year governmental cost represented 33 per cent of the average family budget and taxes collected were 20 per cent.

Our taxes in relation to income in 1934 were nearly as high as in Great Britain but Great Britain's budget is balanced and the national debt is only 2.6 per cent above 1929 while the national debt of this country at the end of this fiscal year will be 80 per cent above the 1929 figure.

No nation can long go on with its budget scale so badly out of balance without inviting repudiation or inflation with its disastrous consequences. The cheernig thought is this. In good times from thirty-five to forty billion dollars are annually spent on durable goods and these industries provide direct employment for approximately ten million workers. The bulk of the unemployment is now in these heavy industries.

Because of the prolonged depression there is a tremendous potential demand for durable goods. These industries can and will be stimulated into activity when the uncertainty caused by the strain on the federal credit and the threat to our monetary standard is removed. Sincere and vigorous efforts to work toward a balanced budget and to have done with experimenting will remove this uncertainty and set in motion the only wheels that can produce real recovery.

TESTING OF MACHINE
 MATERIALS AT HIGH SPEEDS WORTH WHILE

Sir Malcolm Campbell has made his 300 miles an hour and goes back to England happy. After his 276 miles an hour at Daytona Beach, 300 was a nice round figure to shoot at on the Utah salt flats. Then again a mile a minute has been a measurement for speed since the turn of the century. Therefore speed records in multiples of 60 have been natural.

Great were the cheers when Barney Oldfield passed the 120-mile-an-hour mark over twenty years ago. Then 180 and 240 were passed, and now the 300 mark. Five miles a minute! A mile in twelve seconds!

Speed is fundamentally a breaking down of human barriers. Hence there will never be any letup in the attempt to devise machines which will travel at higher and higher speeds. But these barriers are really broken down only as speed is combined with safety.

Radio has cut communication time to almost nothing flat. A British seaplane has gone well over 400 miles an hour. Planes are planned which will travel faster than sound, over 600 miles an hour. Stratosphere engineers foresee a possible 1000 miles an hour some day in the not too distant future.

Sir Malcolm's speed trial is admittedly a testing of machinery rather than the design of a vehicle for ordinary surface travel. The British racer admits that fifty miles an hour is enough for everyday highways and too much for some. For the higher speeds men will take to the air. But the grueling test of machinery, the challenge to designer to turn out a machine which will make 300 miles an hour on the surface, is a distinct contribution to technological knowledge. Stuff'n' Dates
 by Ned Moore

THE DANISH ENSIGN IS SWALLOW-TAILED AND THE WHITE CROSS IS NOT TAPERED OUT INTO A POINT BUT ENDS SQUARELY, THE INNER EDGES OF THE RED TAILS LEADING OFF FROM THE UPPER AND LOWER EDGES OF THE BAR. THIS IS THE DANNEBROG, ONE OF THE OLDEST NATIONAL FLAGS IN CONTINUOUS USE.

THE DANISH MERCHANT SHIP IS RECTANGULAR, WITH THE BAR OF THE CROSS LONGER TOWARDS THE FLY THAN TOWARDS THE HOIST.

IN THE YEAR 1219 KING WADSWARD OF DENMARK IN A CRITICAL MOMENT OF HIS STORMY CAREER SAW, OR THOUGHT HE SAW, A WHITE CROSS IN THE RED SKY. HE WAS THEN LEADING HIS TROOPS TO BATTLE AGAINST THE PAGAN LIVONIANS, AND GLADLY WELCOMED SUCH AN ASSURANCE OF CRESCENT AND IN ANSWER TO HIS PRAYERS, AND AS SOON AS HE COULD BE ADORPTED IT WAS HIS COUNTRY'S FLAG UNDER THE WELL-KNOWN NAME WHICH SIGNIFIES THE STRENGTH OF DENMARK.

A FLAG UNCHANGED FOR 716 YRS.

Today's Wallpapers Lend Charm to Modern Home

The texture of wallpaper has been receiving considerable attention from manufacturers in recent years. Decoration today is a matter of form, color and texture as these characteristics are found in furniture, walls and drapes, carpets and fixtures.

There is a wallpaper texture for every kind of interior, ranging from the hard glossy finishes, thru metallic, basket weaves, cloth-productions, flat pastels, to the old-fashioned "plasters" (designs embossed in one or more colors), still popular in many parts of the country. As a result of the technical progress within the industry it is now possible to finish a wallpaper in a surface texture directly related to the "style" of the art work.

Mohair and Velvet Imitated
 Metallic surfaces without formal design are a direct expression of the modern trend. These come in gold, silver, bronze and aluminum. At the farthest end of the scale we find papers in pastel shades and, to the touch, seeming to be actually pastel in quality, except, of course, that the colors do not rub off. Delicate though these papers are, they come guaranteed colorfast and, in many cases, washable.

Among the textile finishes are: embossed papers which simulate admirably monks cloth, basket weaves, and, of course, the old-fashioned plasters. Some of the finer handmade papers simulate velvet and mohair so successfully

that few outside the wallpaper industry can conceive of how it is done. Woods are duplicated with remarkable fidelity by several different processes. Some of the papers available are real wood veneer on a paper base, but the majority are reproductions.

Striped Papers Popular
 So-called "oatmeal" wallpapers are no longer made, though they once were popular. Instead, a higher grade product, available in remarkably beautiful plain colors, and known generally as "velours" and "rough plasters," have taken their place. Stipple-tones, which come in many different colors, are popular with people who like the stipple effect commonly advocated by painters and decorators a few years ago. Some of these stipple tones are applied over a surface embossed with a basket-weave design.

Modern architecture has done a lot to increase the demand for vertical and horizontal-stripe wall-papers. In many of these one or more of the dominating lines in the stripe are raised either by embossing or heavy printing of the color. This same device, using color with a heavy body, is used with great effect in the plaids which have also grown in popularity for modern homes. Their sophisticated simplicity suits them admirably for the current urge of "back to the land" via the pent-house garden.

Food Combinations, Thoughtfully Selected, Provide Meals That Tempt All the Family

Denton, Sept. 18.—With a well chosen reserve stock of staple canned goods, a few well prepared home cooked foods and some fresh supplies, careful and thoughtful preparation will produce appropriate and attractive meals. A platter of odds and ends, if tastefully arranged, becomes a tempting and appetizing dish, and offers great appeal to those interested in food combinations.

Suggested Menus
 Breakfast: Sliced bananas in orange juice; rolled oats; top milk and sugar; coffee.
 Luncheon: Tomato juice cocktail; cold platter; hot biscuits; spinach salad; apricot marmalade.
 Breakfast: Stewed prunes, cornmeal mush; top milk and sugar; coffee.
 Dinner: Baked ham roll with tomato sauce; baked cucumbers; orange gelatin; cookies, coffee.
 Supper: Tongue and rice omelet; creamed peas; sweet potato tea cakes; tea.

Recipes
 Apple Cottage Pudding: Cream 1/4 cup butter; add 2-3 cup sugar gradually. Add 1 egg yolk. Mix and sift 2 1/2 cups flour, 4 teaspoons baking powder and 1/4 teaspoon salt. Add flour mixture alternately with 1 cup milk to first mixture, beginning and ending with a portion of the flour mixture. Fold in the beaten white of 1 egg. Turn into a well greased bread pan. Cut apples into eights and press into the batter, sharp edge down. Bake in a moderate oven at 350-375 degrees F. for 45 minutes. Serve with lemon sauce. Make a syrup by boiling 1/2 cup sugar and 1/2 cup water for 5 minutes. Mix in 1 tablespoon butter and 1 tablespoon lemon juice. If more sauce is liked, the recipe may be doubled.
 Bakel Ham Roll: Prepare a moist stuffing. Mix 1 quart stale bread crumbs, 1 pint mashed potatoes; 1/2 teaspoon salt; 1 chopped onion and

1 cup milk or broth. Use more liquid as needed. Spread stuffing on 2 large slices ham 1/4 inch thick. Roll up and tie with string or fasten with tooth picks. Place in a covered casserole. Add 1 cup hot water and bake in a moderate oven 350 degrees F. for 1 to 1 1/2 hours. Serve with tomato sauce.

Tomato Sauce: Cook 1 slice onion with 2 cups canned or stewed tomatoes for 10 minutes. Put through a strainer. Melt 3 tablespoons butter in a sauce pan or top of double boiler; add 2 tablespoons flour and 1/4 teaspoon salt. Mix well. Add tomato puree and bring to boiling. Simmer until thickened and well done.

Tongue and Rice Omelet: An omelet always makes a delicious supper dish. If something more than a plain omelet is required, left-over cereals, meats or vegetables, or a combination may be used. Beat 6 eggs until frothy. Add 1/2 cup chopped beef tongue, 1/2 cup cooked rice; 2 tablespoons minced parsley; and 1/2 teaspoon salt.

Melt 2 tablespoons butter in a large frying pan over moderate heat. When hot, pour in the egg mixture. Stir slowly with a fork to prevent sticking to pan. When quite set spread evenly over pan. Fold and allow to brown slightly in a moderate oven. Serve at once.

Sweet Potato Tea Cakes: Cream 2 tablespoons butter with 1/2 cup sugar. Add one well beaten egg; 1 cup cooked and mashed sweet potatoes and 1/2 cup chopped pecans. Sift together 2 cups flour, 3 tablespoons baking powder, 1/2 teaspoon salt. Add to first mixture alternately with 1/2 cup milk. Bake in muffin tins in moderate oven at 350 degrees F. for 20 to 25 minutes. Brush over tops with a mixture of melted butter, sugar and a little cinnamon just before removing from oven. Let stand in oven until sugar mixture is slightly browned. Serve hot.

PERSONALS

L. W. Elliott left Tuesday on a business trip to San Antonio.
 Mrs. Rose Thorp and Dave Locklin were in San Antonio Friday.
 Mrs. H. V. Stokes is visiting her father, H. B. Casbeer, of Lampasas this week.
 Miss Allie Halbert left Saturday for Dallas where she is visiting this week.
 Mr. and Mrs. Ernest McClelland and daughter, Raymie Jo, were in San Angelo Saturday.
 Mr. and Mrs. Roy E. Aldwell spent the week-end with their son, Lea Roy, in Crystal City.
 Mr. and Mrs. W. R. Gilliam and daughters, Nora and Sue, of Junction spent the week-end here.
 Miss Audrey Rankhorn spent the week-end in San Angelo in the home of Mr. and Mrs. Leslie Nance.
 Mr. and Mrs. C. H. Carson and daughter, Edith, left Thursday on a week's business trip to Oklahoma City.
 Mr. and Mrs. B. B. Kelly and son, Jamie, of Texon were the guests of Mr. and Mrs. W. E. James for the week-end.
 Mrs. Neil Roueche, Mrs. Louis Roueche and daughter, Nina, and Miss Dorothy Penick were in San Angelo Friday.
 Mrs. Alton Hightower left Monday for Mertzton to visit her parents, Mr. and Mrs. B. F. Carter. Mr. Carter is in ill health. She was accompanied by Mr. and Mrs. Dan Cauthorn who visited here several days.

WAR VETERAN, 1898-1899, FAILS TO SEE OLD FRIEND

Mr. and Mrs. W. S. Evans and children of San Angelo were weekend visitors here with Mrs. Evans' parents, Mr. and Mrs. Bob Glasscock.
 Mr. and Mrs. Byron Newby and son, Hi, of Brackettville were the guests of Mrs. Newby's parents, Mr. and Mrs. Hi Eastland, several days last week.

Mrs. Russell Long and son, Joe Richard, and Mrs. J. T. Penick left Tuesday for San Antonio where they will spend several days with Mr. Long who is in a hospital there.

Mr. Stites is believed to be the only Spanish-American war veteran living here now. K.V. E. Scott, a carpenter here until his death a few years ago, was also in the conflict.

Mrs. Ford Stansell of San Angelo left Thursday after spending several days with her parents, Mr. and Mrs. L. H. McGhee.

Changing the name of a thing leaves it what it was before.—Dean E. V. White.

TRAFFIC TIPS
 by the NATIONAL SAFETY COUNCIL

1934
 1 1/2 BILLION DOLLARS

HIGH COST OF ACCIDENTS

If you want to get the low-down on the high cost of accidents just "ask the man who's had one!"
 Some twenty years ago an ambulance delivered an automobile accident victim to a certain hospital. At last reports he was still there, a helpless cripple with limbs paralyzed and power of speech gone. He has never been identified. Day after day, year after year, he sits immovable in his wheel chair, a living, breathing work of distorted human sculpture.

During 1934, 35,500 people lost their lives in auto accidents—the highest motor vehicle death toll in history. But such cases as the one just referred to forcibly remind us that accidents sometimes deal out a fate worse than death.

In addition to 35,500 deaths, more than a million others were injured, including about 100,000 permanently disabled. The economic loss is estimated at one and a half billion dollars, including medical, hospital charges, property damage, loss of wages, earning power, etc.

Isn't it a pretty high price to pay on the altar of recklessness?

with velvet or fur.

The wine shade of a season ago has given way to a more brilliant tone and comes out, fresh from the designer, in a brick color. The material is self-woven into strips making a pleasing fabric for semi-sport frocks. This brick color is popular in mingled tweeds with brown and green, and is nice when trimmed with dark brown fur.

35 YEARS AGO

Mr. and Mrs. W. J. Fields were in from the ranch last Saturday.
 Mr. and Mrs. B. M. Halbert moved to the Justice and Halbert ranch Wednesday.

Mrs. R. H. Martin was in Sonora Thursday for supplies. Mrs. Martin says all the men were too busy running the pump jacks and could not come to town.

Geo. Allison came in from the ranch Wednesday and reports having to fight fire in the Middle Valley ranch Tuesday. People should be more careful this dry weather with fire.

W. H. Lightfoot left Monday for Junction on business.

Will Ogle the stockman was in Sonora Monday from the ranch.

Lige Cone left for San Angelo Tuesday on a business trip.

Hop Wood was in from the ranch Thursday for supplies.

Herbert Palmer was in from the camp Thursday to see his folks.

Mod Cowser the new merchant of Juno was in Sonora Monday.

Ed Dodson the painter returned from a trip to San Angelo Tuesday.

Robert Bailey the stockman from Eldorado was in Sonora Thursday.

EXPERT SHOWS FEDERAL COURT HOW IT IS DONE

Washington, Sept. 19. — Uncle Sam's food examiners strive for accuracy—it's part of their job. One of them recently converted a federal court into a school room and enabled the government to win a contested food seizure case. The cannery whose food was seized testified its count of molds was consistently lower than those of the government.

B. J. Howard, chief of the Micro-analytical Laboratory of the Food and Drug Administration, who teaches cannery employees the proper method of using the microscope in examining and counting molds on foods, was summoned.

At the court's direction he instructed the cannery's food examiner in correct use of the microscope and revealed errors in the latter's method of examination. The cannery attorney watched closely, and later consented to a decree of condemnation as originally sought by the government.

Mrs. Friess Honored with Party Saturday

Honoring Mrs. Harold Friess, recent bride, Mrs. J. S. Glasscock and Mrs. R. D. Trainer entertained at bridge Saturday afternoon at the clubhouse of the Sonora Woman's Club.

Pink and white rosebuds and zennias were used to decorate the room.

In the bridge appointments and refreshments the colors of pink and white were used.

Mrs. John Hamby received high score award and Miss Muriel Simmons second high award.

Mrs. Friess was presented with a gift.

Guests included:

Mesdames J. A. Cauthorn, G. H. Davis, Arthur Starling, B. H. McLain, P. J. Taylor, I. B. Boughton, W. H. Dameron, Joe Hull,

Duke Wilson, John Feilds, B. M. Halbert, Jr., R. A. Halbert, Richard Vehle, E. W. Hutcherson, J. Franklin Howell, John Hamby, Edgar Shurley, J. W. Trainer, Paul Turney, R. C. Vicars, W. C. Warren, W. D. Wallace, Rip Ward, Hix Hall,

Mike Murphy, J. A. Ward, Jr., C. E. Stites, Preston Prater, A. W. Awalt, Joe Turney, Sterling Baker, Sidney S. Millsbaugh, Jr., of Ozona,

W. E. Caldwell, Josie McDonald, J. C. Morrow, F. T. Jones;

Misses Gertrude Babcock, Mary Louise Gardner, Ches Thorp, Zella Lee Thorp,

Muriel Simmons, Nina Roueche, Jamie Gardner, Harva Jones, Johnnie Allison, Annie Duncan, Rena McQuary, Elizabeth Francis,

Bobbie Halbert, Nann Karnes, Marie Watkins, Callie Mae Love, Faye James.

Bridge Club Meets Friday With George Neills

Mr. and Mrs. George H. Neill entertained three tables of members of the Sonora Night Club Friday night at their home.

Mr. and Mrs. Duke Wilson won high score award and Mr. and Mrs. Lloyd Earwood second high.

A salad course was served to: Messrs. and Mesdames S. H. Allison, Henry Decker, Joseph Vander Stucken, Duke Wilson and Lloyd Earwood.

RECENT BRIDE LIVING ON SUTTON RANCH

Until September 5 Mrs. Harold Friess was Miss Pauline Turney, well known Sutton county girl who was graduated from Sonora high school in 1933 and later attended the University of Texas for two years. Mr. and Mrs. Friess are at home in a new home several miles from the ranch home of Mrs. Friess' parents, Mr. and Mrs. Paul Turney.

Las Amigas Club Guests of Mrs. White Friday

Including Mrs. Ernest McClelland and Mrs. Andrew Moore as guests, Mrs. Tom White entertained Las Amigas Club Friday afternoon at her home.

Members attending were: Mesdames J. C. Morrow, John Hamby, Collier Shurley, Nolan Kennedy, R. C. Vicars, P. J. Taylor, and the Misses Nann Karnes, Ada Steen and Alice Karnes.

A salad course was served at the close of the games.

Mrs. McClelland won high guest score award and Mrs. Vicars high club award. Mrs. Taylor received low score prize.

Mrs. Howell Club Hostess Tuesday Afternoon

Entertaining the Just-Us Club, Mrs. J. Franklin Howell was hostess to two tables of bridge Tuesday afternoon at her home.

Members attending were: Mesdames G. H. Davis, J. S. Glasscock, R. A. Halbert, Vernon Hamilton, Edgar Shurley, W. C. Warren, Hix Hall, Libb Wallace.

High score award was won by Mrs. Hamilton and high cut by Mrs. Halbert.

Refreshments of ice cream, nut cookies and mints were served.

A Fall River resident is jailed for chewing his wife's arm. Some enthusiasts in the corn-on-the-cob season lose all sense of direction. —The Detroit News.

Miss Rode Bride of Matt Adams in Ceremony Monday

In a ceremony yesterday afternoon at the home of Mr. and Mrs. Floyd Dungan, Miss Bessie Rode of the Camp Allison community became the bride of Matt Adams, son of Mr. and Mrs. Marion Adams of Sonora.

The words uniting the two were spoken by Mr. Dungan, a justice of the peace. Miss Josephine Denard witnessed the ceremony.

Miss Rode, daughter of Mr. and Mrs. Bert Rode of Camp Allison, was reared in that community and went to school there and at Sonora high school.

Mr. Adams was graduated from high school here in 1931 and since that time has been a salesman of Humble Oil and Refining Co. products for R. L. Hallum, wholesale agent. He is a popular member of the Sonora fire department.

Mr. and Mrs. Adams are living next to the Alfred Cooper residence.

Missionary Society Meets With Mrs. Brasher

The members of the Baptist Missionary Society met Wednesday afternoon at the home of Mrs. J. H. Brasher for a social hour and Royal Service program led by Mrs. G. G. Stephenson.

Those taking part in the program were:

Mesdames Bob Odom, Harvey Morris, J. H. Brasher, Frank Nixon, B. C. McGilvray and F. T. Jones.

Guests were: Mrs. T. J. Griggs and Mrs. E. E. Castleberry.

A sandwich plate was served by Mrs. J. A. Cauthorn, Mrs. Orion Brown and Mrs. Brasher.

MISS NINA ROUCHE NAMED SOCIETY EDITOR OF DEVIL'S RIVER NEWS

Resigning from her work as society editor of the NEWS this week, Miss Faye James, daughter of Mr. and Mrs. W. E. James will begin six months' study next week in a San Antonio business college.

Miss Nina Roueche, well known Sonora girl, daughter of Mr. and Mrs. Louis Roueche, will succeed Miss James. Miss Roueche was graduated in 1934 from Sonora high school where she was active in school affairs.

Miss James has been in charge of the woman's page and general society news since March, 1934, when Mrs. George Baker, wife of the former publisher, went with her husband to new work at Fort Stockton. She was formerly a student in Texas State College for Women at Denton.

MISS NINA ROUCHE

Mrs. Vehle Hostess To Fastime Club

Including several guests, Mrs. Richard Vehle was hostess to the Pastime Club Thursday afternoon at the home of Mrs. R. D. Trainer.

A salad plate was served to Mesdames Libb Wallace, B. C. McGilvray, F. T. Jones, H. L. Taylor, O. P. Adams, E. B. Heinze, guests.

Mrs. Libb Wallace held high score among the guests.

Members present were: Mesdames O. G. Babcock, C. E. Stites, J. W. Trainer, W. E. James, Rose Thorp, J. A. Cauthorn, R. D. Trainer, Robert Rees, Joel Shelton, Orion Brown, W. D. Wallace, W. E. Caldwell, B. W. Hutcherson.

Mrs. Rees held high score.

PTA NATIONAL BOARD IN SESSION IN CHICAGO NOW

Chicago, Sept. 17.—The Board of Managers of the National Congress of Parents and Teachers is in session here this week at the Edgewater Beach Hotel, instead of at Rapid City, S. D., as was scheduled at the Miami convention last spring.

The various sessions of the board will be held throughout the week, under the direction of Mrs. B. F. Langworthy, national president.

Policies affecting the activities of about 23,000 local parent-teacher associations will be considered. Plans for the convention to be held at Milwaukee, Wis., in 1936, will be discussed. Invitations from cities which desire to have the 1937 convention of the National Congress of Parents and Teachers will be read.

Attending John Tarleton Lem Eris Johnson, Jr., left Sunday for Stephenville where he enrolled at John Tarleton College. He was accompanied by his mother, Mrs. L. E. Johnson.

College Year rate for NEWS: only \$1.25. Send it to the student. Like a letter from home except there is more in it. Subscribe now! —adv.

Minerals in Food
To anyone who has not studied chemistry, it must be baffling to read about iron in the blood, lime in the bones and phosphorus in the nerves. Indeed, it does sound spooky. Nevertheless, it is true. More than that, the presence of minerals in the right quantity is very important, not only to general health but in the prevention of certain diseases. Of course, the source of minerals is the food we eat. Perhaps the best known source is milk and milk products. From these we get most of the lime or calcium and phosphorus we use. In children, these minerals furnish the building material for bones and teeth. When they are insufficient in amount, the well known disease called "rickets" results. Iron has long been a standby among home remedies. Adults will remember the days when "iron tonics" were popular. Today, we know that iron is easier and pleasanter to take in food. The best sources are cabbage, lettuce, spinach, milk, egg yolk, liver, peas, string beans and beef. Iodine is familiar to residents of the so-called goiter belt in this country. Its great contribution is to the very important thyroid gland. We find it in many foods, but most abundant in fish and other seafoods, onions and lettuce. Perhaps you have noted this fact while reading. The mineral-rich foods are also the vitamin foods. This fact makes everything simple. Just build meals around the essentials—green vegetables, fruit, milk, bread and butter—and stop worrying.

YOUNG GOVERNOR TELLS LEGISLATURE TO THINK CAREFULLY OF PENSIONS

JAMES V. ALLRED
Governor, State of Texas

Texas WPA Wants Total About 176 Million Dollars

State Director Hopes To Have Men at Work Soon on \$1,500,000 Worth of Projects

San Antonio, Sept. 18.—Hoping to begin a systematic wrecking of relief rolls in Texas within a week, state Works Progress Administration officials this week were perfecting final plans for the execution of projects.

With State Project Director E. A. Baugh's report that Texas had requested a federal expenditure of \$176,570,000 in the state, Administrator H. P. Drought announced that the promotional phase of WPA work is completed.

Works division staff members were summoned to San Antonio to receive instruction on the actual execution of projects which have been proposed. District engineering staff members were called to state WPA headquarters by Mr. Baugh last Friday and Saturday. Coincidentally, women's work supervisors from the twenty Texas WPA districts were convened for instructions from Mrs. M. K. Taylor, state women's work consultant.

"Men At Work" Next Week
"We hope to have men at work on the first \$1,500,000 in projects by next week," Mr. Baugh declared today. "This represents the amount approved for Texas at this time by federal authorities and will include work projects in every Texas WPA district."

Although the vast bulk of last-minute projects rushed into the state office for approval recently made exact computations impossible at this time, engineers reported the 176 millions as the approximate total approved by state examiners for Texas.

Included in the figure were 31 state-wide and multi-district proposals asking approximately \$95,940,000 in federal funds. The remainder of the total was contained in local projects sponsored by agencies in the various districts.

Federal approval of a considerable proportion of these requests will leave state WPA officials a wide latitude for the selection of the more worthwhile of the projects submitted, Mr. Baugh pointed out.

"Although the 176 millions requested obviously will be more than state's employables on relief rolls, we have attempted to secure allocation of enough federal funds to allow a proper leeway in the selection of projects when actual work

CAPITOL, SCENE OF MOMENTOUS LEGISLATIVE SESSION

necessary to provide work for the is started in Texas," he said. "Expenditure of such a huge amount in Texas is not contemplated," Mr. Baugh continued, "but it is to the interest of sponsors that we secure as large an allotment as possible to insure the proper prosecution of deserving projects."

Round figure approximations of requests from the twenty districts follow:

Marshall, \$2,598,000; Tyler, \$2,638,000; Beaumont, \$3,206,000; Dallas, \$1,189,000; Palestine, \$1,526,000; Houston, \$7,162,000; Fort Worth, \$7,481,000; Waco, \$4,199,000; Austin, \$6,417,000; San Antonio, \$6,172,000; Laredo, \$1,962,000; Wichita Falls, \$4,402,000; Abilene, \$3,984,000; Brownwood, \$1,202,000; Uvalde, \$1,485,000; Amarillo, \$1,512,000; Lubbock, \$3,293,000; Big Spring, \$698,000; San Angelo, \$1,048,000; El Paso, \$2,347,000.

State Auditor Says 62,933 a Probable Pension Number

If Monthly Stipend Goes To That Many Texas Will Spend 12 1/2 Million Each Year

Austin, Sept. 18.—"Old-age pensions could cost Texas taxpayers as much as \$56,073,492 yearly if each of the 283,199 people 65 years of age and over receive the full \$15 monthly allotment provided for in the recent Amendment," Orville S. Carpenter, state auditor, said today.

At the request of Governor Allred, Mr. Carpenter and R. B. Anderson, state tax commissioner, prepared the report "Cost and General Plan for Old Age Pensions." Upon the governor's suggestion it was mailed to members of the legislature September 10.

"Experience of other states has shown that they have attempted at first to take care of only those actually in need of assistance. Requirements made of applicants have been with a view of eliminating those who, although of eligible age, did not actually need assistance. In this way other states have greatly reduced the costs from the amount necessary to pay if all persons of the required age had been included.

"As there are 41,787 persons 65 years of age and over on the Texas Relief Rolls, this apparently is the minimum number able to qualify for old-age pensions. At \$15 a month and with 10 percent administrative cost added, this would be \$8,273,826 yearly," Carpenter explained.

Mr. Carpenter believed the figure 62,933 most nearly represented the actual number who probably would receive old-age pensions in Texas. He determined this figure by considering the experiences of other states. If 62,933 people in Texas 65 years of age and over were to receive the full \$15 a month, the yearly cost to the taxpayer would be \$12,460,734. Carpenter calculated. In this he included 10 percent administrative expenses.

"The federal government, if funds are available, will provide an amount equal to that spent by the state plus 5 per cent for expenses. This depends upon approval of the Texas plan by the Social Security Board in Washington. The Texas legislature will formulate a plan for distribution, and it will decide whether or not the full \$15 maximum will be used," Mr. Carpenter concluded.

SONORA OPPOSES DEL

(Continued from page 1)

Cranfill.

Coaches and superintendents of district 34-B, meeting here Saturday morning, elected B. H. McLain, chairman of the executive committee, and F. T. Jones, secretary. G. H. Mitchell, Junction superintendent, has been acting chairman since the removal of R. S. Covey, last year's chairman, from the district.

It was decided at the meeting that the host team in each game of the 1935 season should be responsible for a record of first downs and penetrations of teams into the 20-yard zone. This information is necessary in the awarding of the game in case of a scoreless tie.

Uniform Records Ordered

Eligibility record forms were printed this week and supplied each of the six teams—Menard, Sonora, Eldorado, Junction, Rocksprings and Ozona—which make up district 34-B. This form provides a detailed record of the player's scholastic and athletic record. These forms must be filled out and in the secretary's office here before each team's first conference game.

Those who attended the Saturday meeting were:

G. H. Mitchell, Junction; R. C. Donaho, Rocksprings; C. S. Denham, Ozona; J. Carlton Smith, Eldorado; B. H. McLain, F. T. Jones and O. P. Adams, Sonora; N. S. Ward, coach, Rocksprings; Mr. Bowers, coach, Junction; Mr. Murphy, assistant coach, Junction; Mr. Williams, elementary school instructor, Ozona.

A week from tomorrow, Saturday, Sept. 28, the Bronchos take on the Mertzson team in a non-conference tilt on the Sonora field. Last year the Bronchos piled up a touchdown, kick for goal and a field goal to swamp the Mertzson eleven by a 22 to 0 score on the gridiron here.

life true to the standards of Jesus Christ? Are you for Him or against Him? Just because you call yourself a Christian is no sign that you are one. As the Lord said it—"He that is not with me is against me, and he that gathereth not with me scattereth."

The Rev. Mr. Minter made scathing indictments of salacious magazines, of the matter of divorces and re-marriage of two of the children of the president of the United States, of cigars, cigarettes and tobacco and of the operation of picture shows.

Devil Makes Self Attractive

In conclusion the Rev. Mr. Minter said: "The devil makes himself attractive. He gets in some man, or woman, who begins to lead an ungodly life. That person is looked up to by others whom his life influences. The 'infection,' thus created, spreads among men. Others see that person as an ideal. Offenses of his, or her, life come directly into others' lives and the 'infection' spreads rapidly."

The Rev. Mr. Minter concludes his ten-day series of two-a-day meetings Sunday night.

Art Club Begins Year's Work Friday

Program For This Year Planned; Met With Miss Rees

The Sonora Art Club had its initial meeting of the year Friday night at the home of Miss Thelma Rees, president.

Apple pie was served at the close evening year was read by Miss Jamie Gardner.

An outline of the program for the of the meeting to these members:

Mesdames L. H. McGhee, C. H. Jennings, E. B. Heinze, Miss Pauline Davis, Miss Jamie Gardner.

More Extensive Teacher Training Urged By Association For Childhood Education

Two thousand delegates attended the forty-second annual convention of the Association for Childhood Education, held at Swampscott, Mass., recently. Forty-two states and five foreign countries were represented.

The convention theme was: "How Today's Teacher Can Meet Modern Problems." Edna Dean Baker, president of the association, stated among other things that the teachers of young children are "developing a philosophy of education both for the present and the future"; they are placing greater and greater emphasis on "cooperation between home and school for the benefit of the child." Education, should be seen in relation to an ever-changing process, natural or artificial, in the national social order—"not as a method of school-room procedure, but as a way of living."

"Teacher Training Too Limited"
Dr. Grace Langdon, director, Federal Emergency Nursery Schools, led the discussion in the topic, "Training Teachers to Meet Modern Problems." Teacher-training, she pointed out, is yet too narrow in its scope and outlook, even in the most advanced teacher-training schools. "The function of the teacher has been enlarged to include many more services than she is trained to give."

Doctor Langdon outlined some changes in teacher-training courses which she thought would be helpful in meeting the new duties which the complex social growth had thrust upon the public schools.

Dr. Bess Goodykoontz, assistant U. S. Commissioner of Education, urged the need for an understanding of causes of the changes taking place in the world today.

Teacher Should Know Problems
The modern teacher should have a clear and broad knowledge of the problems affecting society. She should be a leader in her community in social intelligence. She then pointed out four general conditions in the social order, in and among which the changes are taking place:

- (1) the capacity for prodigious production and the need for less labor;
- (2) collective action as both cause and effect of serious clashes between grouped employers of labor, and between labor and employer groups;
- (3) rapidity of change in design and function of material things;
- (4) widespread

economic insecurity for many persons in many groups, and the change of attitudes toward the whole social range of things.

The speaker declared that it was the teacher's job to arrive at a clear understanding of these changes—what and why they are; to accept the job willingly and eagerly, not with fear or dread, but with joy, for they constitute the controlling factors of our national life. This is the teacher's first duty. Her second duty is to give freely of her understanding of these changing conditions; to help the people to become "conscious of the character elements involved" * * * such as tolerance for the beliefs of others, respect for the rights of others, willingness and ability to cooperate for social purposes"; to help them to understand the flexibility, the experimental attitude in the development and adaptation of new ideas and plans to new social functions and new opportunities; to aid them to develop ability "to accept responsibility" and to practice "integrity in the performance of public trusts."

Character Must Be Developed
Continuing, she stated that the teacher should take it as her major obligation to develop character elements out of the warp and weft of the changing order of things, and consonant with these changes, to "modify our schools radically, gladly and intelligently."

It was the sense of the association that it actively support all measures for protection of childhood by providing opportunities for teachers in training and service, to maintain leadership in dealing with present-day social problems, to support desirable child welfare legislation in order that the family, community, national and international needs be better understood and met.

The three new officers elected are: President, Helen M. Reynolds, director Kindergarten-Primary Department, Public Schools, Seattle, Wash., vice-president, representing nursery schools, Marie Belle Fowler, director, Department of Child Development and Parent Education, Cornell University, Ithaca, N. Y., vice-president representing kindergartens, Olga Adams, University of Chicago.

The next convention is scheduled to be held in New York City, next spring.

Army Tank Mothers Brood of Bayonets

Dashing out from the protective but speedy hulk of this modern tank, soldiers of the Sixteenth infantry, from Governor's Island, are pinning their invisible enemies to the ground with bayonets during the tank drill at the Camp Pine maneuvers at New York. These soldiers were the winners of the drill.

EFFICIENT LAND TITLE SERVICE
ON SUTTON COUNTY LAND
We represent several of the old line fire insurance companies

The same friction by which the Indian created a flame caused the easy ignition of the first Friction Match made by the Frenchman, Dr. Chas. Sauria, in 1831. . . . This was a basic discovery that we still use today. But how obsolete a smudging flame now seems in contrast with the convenience, safety and cleanliness of Electric Heat.

Mankind has an innate sense of cleanliness in relation to his food. Hence, the ever-increasing demand for such Electric Appliances as the Range, Electric Water Heater and the Electric Refrigerator. These modern electric appliances can be had on convenient terms, and you will be surprised at the moderate cost of such added superior service.

West Texas Utilities Company

Observatory Mirror Polishing To Take Several Months

Cleveland Firm Expects To Finish Huge Lens Sometime This Next Year

Austin, Sept. 19.—Grinding of the 82-inch lens for the W. J. McDonald Observatory of the University of Texas on Mount Locke, near Fort Davis, is well under way, according to information which has been received from Dr. Otto Struve, director of Yerkes Observatory at Williams Bay, Wis., and who also is director of the McDonald Observatory.

The firm of Warner & Swasey of Cleveland, Ohio, hopes to have the two and one-half ton 82-inch disc finished in 1936, Dr. Struve wrote. Most of the rough grinding of the disc has been completed in the shops of the firm but it is not yet ready for tests, Dr. Struve said. Surface of the mirror is now a portion of a sphere, having a radius of approximately 54 feet. This means that approximately one and one-third inches of glass have been removed from the center of the disc, giving it a concave figure.

The next step will be the polishing of the mirror and the changing of its shape from a sphere to a paraboloid, which may take several months. The latter geometrical figure has the property of reflecting parallel beams of light in such a way that they are all concentrated in one point which is called the focus.

It was stated by Dr. Struve that "practically all of the astronomical work with the 82-inch reflector will be carried on by photography and the astronomers will rarely have an opportunity to see the stars"; that through an eye-piece, they will expose photographic plates in the focus of the telescope and then examine the photographs under microscopes and measuring machines in the observatory laboratory.

The observatory building is completed and ready for installation of the telescope.

The NEWS will print it for you.

Lambs Up To \$7 On San Antonio Market

Stocker Steer Yearlings Active at \$5.25 to \$6.50

San Antonio, Sept. 18.—Supplies in the cattle division were fairly liberal and trading was spirited Tuesday in the cattle division of the San Antonio livestock market. Price levels appeared slightly stronger as good fat calves cashed readily up to \$7.00 with the general spread of calves and light yearlings going readily at \$5.00 to \$6.50. Stocker steer yearlings of good breeding were active at \$5.25 to \$6.50 or about in line with packer bids. She stock moved to the scales a little livelier but at no advance in prices. Bulls were draggy at \$3.50 to \$4.25 for best offerings.

Hogs held steady at \$10.25 for best 175-250 pound truck arrivals. Medium grades moved a little easier. Feeder pigs under 100 pounds continued in active demand at \$7.00 to \$8.00. Packing sows sold readily at \$8.50 to \$9.00.

Fat lambs sold up to \$7.00 with wethers of fair quality at \$3.25 to \$3.50. No goats arrived for market but quotations were steady at \$7.00 to \$8.00.

Receipts and quotations Tuesday were: Cattle, 463 head; calves, 618 head; calves, culls and common, \$2.50 @ 3.50; general spread of calves, \$3.75 @ 5.25; better kinds, \$5.50 @ 7.00; low grade grass steers, \$3.25 @ 4.25; better grades, \$4.50 @ 5.50; low cutter and cutter cows, \$1.75 @ 3.00; plain butcher cows, \$3.25 @ 3.75; good fat cows, \$4.00 @ 4.25; butcher bulls, \$3.00 @ 3.50; beef bulls, \$3.75 @ 4.25.

Hogs, 193 head; best 175-250 pounds, \$10.25; medium grades, \$8.50 @ 9.75; slaughter and feeder pigs, \$7.00 @ 8.00.

Sheep, 38 head; fat lambs, \$6 @ 7.00; wethers, \$3 @ 3.50; goats, \$1.25 @ 2.00.

Lambs Bought This Week

One thousand head of lambs have been bought in the last few days by T. L. Benson, San Angelo commission man, at 7 to 7½ cents a pound. The animals were purchased for January delivery to northern feeders.

SONORA GIRLS TO BE IN SCHOOL IN SAN ANTONIO

Three of five girls who will attend business college in San Antonio left Wednesday with Mrs. Rose Thorp, Dave Locklin and Hillman Brown for that city.

Those who have gone are: Miss Ches Thorp, who was a student in the University of Texas last year, Miss Zella Lee Thorp and Miss Muriel Simmons. Miss Faye

James left today for San Antonio and Saturday Miss Mary Louise Gardner, daughter of Mrs. Clyde Gardner, will go.

All the young ladies but Miss Gardner will live with Mrs. Thorp who will make her home there for several months.

Mr. Locklin and Mr. Brown returned yesterday.

Phone your news to 24.

Tom Bond Elected To Convention Group

Sheep and Goat Raisers To Have Annual Meeting Dec. 5-6

Election of Tom Bond, Sonora ranchman, as a member of the entertainment and program committee charged with making arrangements for the annual convention of the Texas Sheep and Goat Raisers' Association was a part of the business transacted by the executive committee at an Ozona meeting Friday.

Mr. Bond will serve with Weaver Baker of Junction, G. W. Cunningham of San Angelo, the association's secretary, and E. S. Mayer of San Angelo, association president.

The committee passed resolutions asking that the state legislature restore a \$15,000 slash from the budget of funds for predatory animal control. The resolutions committee also urged that the federal government assist in efforts to control the screw worm pest in West Texas.

Incorporation of the association as an agricultural and educational group was authorized and Weaver Baker, Junction, ordered to proceed with filing of incorporation papers.

Dues collected for the association since the middle of June total more than \$3,000. At present the organization has a balance of slightly over \$1,000, according to the report of the secretary, Mr. Cunningham. An additional \$127.52 was received by the secretary during the day.

Among those from here who attended the executive committee meeting were: Roy E. Aldwell, Dr. I. B. Boughton, Tom Bond and Roy Hudspeth.

Scouts' Court of Honor Monday Night

Recognition To Be Given Both Scout and Scout Worker

Awarding of merit badges, advancement of a Scout to the rank of Eagle Scout, advancement in rank of several other Scouts and the making of a young man a Junior Assistant Scoutmaster will be done Monday evening at 6:30 in the high school auditorium at a special Court of Honor program.

B. H. McLain, Court of Honor chairman of the local committee of Scouters, said yesterday morning that Kenneth Babcock was the one to become an Eagle Scout and Marvin Barnes, an active worker with the boys in their Scout work, would become the junior assistant.

The tentative program arranged includes the invocation by the Rev. Frank Nixon, a talk by John Eaton, Scoutmaster, and a talk on Scouting by Roy E. Aldwell of the Scouters group. It is thought that one of the area executives will be here for the special meeting.

The meeting time has been set at 6:30 in order that those who are to attend the Lions Club Ladies' Night dinner at the Methodist Church at 7:30 may also attend the Court of Honor.

MEXICAN PTA MAKES PLANS FOR SCHOOL YEAR

Plans for the year's work and activities were discussed by members of the Mexican School Parent-Teacher Association in their first meeting of the school year at the school Wednesday of last week.

The new officers, chosen last year, were in charge. They are: President, Mrs. Agnes Brown; vice-president, Mrs. Adolph Flores; secretary, Ernest Castro; pro secretary, Adolph Flores; reporter, Mrs. Tita Almaguer.

Arrangements were made with the school board to have Adolph Flores work on the yard of the new Mexican School building, beautifying it and putting it in shape for the time when the building will be used by the Mexican children.

The next meeting of the association will be Wednesday, Sept. 25.

Leaves For Temple

Mrs. W. J. Fields and daughter, Mrs. Alvis Johnson, left Monday for Temple where Mrs. Fields will be in the hospital there several days. They were accompanied as far as San Angelo by Mrs. W. J. Fields, Jr., Miss Faye James and R. W. Johnson.

Mrs. Stokes New Flower Agent Representation of Veck's Pioneer Florist, firm of San Angelo is now being done in Sonora by Mrs. Marion Stokes. Miss Joanna Stokes, now Mrs. Dan Cauthorn, sister-in-law of Mrs. Stokes, formerly held the agency.

PARIS NOW SEEKING NAPOLEON'S EAGLET

Body of Emperor's Son May Return to France.

Vienna.—Prince Bonaparte, head of the dethroned French dynasty, has renewed his negotiations with Archduke Otto of Hapsburg, the Austrian pretender, and with Austrian authorities in hopes of hastening "homecoming" of the Eaglet.

The embalmed body of the "Eaglet," son of Napoleon I, will be transferred from the Capuchin Catacombs, from the company of his Hapsburg relatives, to the Dome of Invalides in Paris, to the side of his great father, if the negotiations are successful.

This wish of the Bonapartists was refused in 1932 by the Republican government of Austria. The present government, which has strong monarchical leanings, may raise no objections if the Hapsburgs are willing to deliver up the corpse of the Eaglet to the Bonapartists, whom they fought so desperately a century ago.

Three years ago the hundredth anniversary of the death of the Eaglet was celebrated by France. Next year the one hundred and twenty-fifth anniversary of his birth will be observed.

The Eaglet, who was made king of Rome when he was born in Paris, died as the duke of Reichstadt at the age of twenty-one in the Vienna castle of Schoenbrunn.

After the fall of Napoleon, his son was deprived of everything that might remind him of his father.

He died of consumption, according to the official announcements. It was popular belief, however, that the young prince was poisoned by Prince Metternich, Austrian chancellor.

Wife on World Cruise, Husband Calls Weekly

Chicago.—When Mrs. Albert P. Whittall took a 130-day cruise around the world this year, her husband, Albert P. Whittall of Chicago, spoke to her and their children, a daughter and two sons, every Sunday by radio telephone, establishing what was at that time a new record in long distance wireless telephony. The most distant points of contact were Batavia, Ball, and Zamboanga.

Owing to the difference of time, while Mr. Whittall always spoke on a Sunday that his calls reached their destination; for as the ship crossed the international date line, it was Monday in that part of the globe when it was Sunday in the United States.

Mr. Whittall made his calls from his home in Chicago just the same as if he were making an ordinary long distance call. Other points of contact were at or near Athens, Cairo, the Red Sea, Bombay, Colombo, Singapore, the Java sea, Hongkong, Chinwangtao, the inland Sea of Japan, Yokohama, the Pacific ocean, Los Angeles, Panama, and, finally, a point about midway between Havana and New York.

Chinese Racial Traits Studied in California

San Francisco.—The big Chinese colony here, largest in the world outside of China, is being turned into a great experimental laboratory. Most of young China here is being measured and photographed to determine if America changes Chinese characteristics. Parents of 3,000 school children are to be examined later.

Already changes have been noted in physical stature and cranial features. Heads of American-born Chinese are found to be larger, but growth of their bodies slower than their China-born brothers and sisters.

The work is part of the most extensive anthropological tests ever made on the Chinese people. It is the idea of twenty-six-year old Samuel D. Lee, Chinese graduate of Pomona, and is being carried on as an emergency relief project.

Scientist Captures Free Electricity

New York.—A scientist's dream—harnessing sunlight as a source of electricity—has come true.

"Free electricity," drawn from sunlight, lit an electric bulb! Dr. Collin G. Fink, professor of electro-chemistry at Columbia university, showed how his latest development, the "sun converter cell" had tripled the amount of electricity he could gather from the sun's rays.

Doctor Fink placed his cell on a window sill. Attached to a terminal of the apparatus was an ordinary bulb and a galvanometer—for measuring the strength of the current.

He pulled up a shade, allowing the light to strike the cell. The sensitive galvanometer immediately noted a flow of electricity. A moment or two passed. Then the filament wire in the bulb began to glow.

Doctor Fink said he can now collect only 1 per cent of the solar radiation, but hopes to do better.

YOUR CHECK IS YOUR RECEIPT

Save the bother of Saving receipts....

PAY BILLS THE Safe, Convenient Way

Most people settle obligations by check in preference to cash BECAUSE:

- * checks prevent misunderstandings;
- * they provide a record and receipt for each transaction;
- * they enable the depositor to avoid the dangers of keeping a large sum of cash at home or carrying it on his person;
- * they save time and trouble.

SERVING SUTTON COUNTY

SUTTON RELIEF WORKER WANTS AID FOR NEEDY

Forty-nine cases comprise the relief load in Sutton county at this time, although Sept. 1 there were only thirty-eight, according to Mrs. Annice Murchison, case worker for Sutton and Schleicher counties.

Mrs. Murchison has Sutton county headquarters in the relief office room in the courthouse and spends all of each Wednesday here.

When in Sonora this week Mrs. Murchison expressed the wish that Sutton county citizens who have discarded clothing either for adults or children would get in touch with her at the courthouse office.

Employables under the work

program, when and if such projects are approved for Sutton county, will receive only \$21 a month. Many will need warm, "wearable," clothing in order to do the work. Similarly a number of children should have shoes and clothing that will allow them to go to school.

Mrs. S. B. Thomas left Thursday for her home in Miles after a week's visit with her daughter, Mrs. Floyd Ridley, and Mr. Ridley.

Mr. and Mrs. Merton Shurley and children, Rena Glen and Jack were the guests of Mrs. Shurley's parents, Mr. and Mrs. John R. Howse of San Angelo Saturday.
