#### NUMBER 52

#### **Sutton's Ranchmen** Pleased With Work of Twelve Months

Protective Association Re-Elects Schwiening and Simmons As Well As Directors

So well satisfied are Sutton county ranchmen who paid \$2,425 the last twelve months for special protection for their ranch property that they agreed unanimously Saturday morning that the work should be continued as it has been carried on the two years since the Sutton County Ranchmen's Association was formed.

along with the directors who are calls for a 11/2-hour stop here. "contact men" in their neighborand Mack Cauthorn.

Leonard Gibbs, Dee Gibbs, and by Miss Marie Watkins. Bryan Hunt.

When the suggestion was made by Lee Morris that analysis be made of what was actually being accomplished several expressed thmselves. The concensus of opinion was that the effect of employment of a special officer was a serious deterrent to the one contemplating violation of a ranchman's property.

Gain in Membership Reported One instance was pointed out by several n whch the association's officer, Harrison L. Hamer, was Nearly 100 Ready directly responsible for the recovering of a ranchman's stolen wool and the bringing to justice of those alleged to have stolen it.

During the last twelve months only three members dropped out of the association and eight new ones joined. Mr. Simmons began work at the meeting of re-signing members for the coming year.

Motion to re-elect officers of the association by acclamation was made by Ben L. Wheat. Thomas Espy moved that the president be re-elected and his motion was seconed by Auther Simmons. A motion by Bryan Hunt, seconded by J. S. Holman, re-elected Fred Simmons. The president and directors have the responsibility of hiring the special officer.

#### **Deacons Ordained** Wednesday Evening

Baptists Install Four Men in Responsible Positions

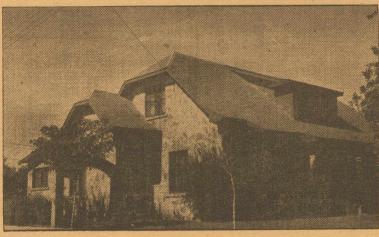

Ordination services Wednesday night at the Baptist Church made deacons of E. S. Long, A. C. Elliott and F. T. Jones, recently elected to those positions of responsibility by members of that church.

Ben F. Meckel, another chosen recently, was unable to be present and will be ordained at a later date. The Rev. C. T. Aly, pastor of the Baptist Church in Eldorado, assisted the Rev. R. C. Brinkley in the ordination service.

The church pastor will speak both morning and evening at the church Sunday.

In his announcement Thursday the Reverend Mr. Brinkley expressed his personal welcome and that of his church to the Rev. and Mrs. R. F. Davis of the Methodist Church who this week were again assigned to the Sonora pastorate.

#### Minimum of \$1.75 Set By City For Water Customers

November 22 Bids To Be Asked For From Those Wanting To Do Improvement Work

The 350 customers of the cityowned water system who receive their statements this week-end will find their service rated on a new scale which the city commission members estimate will amount to a yearly saving to Sonora people of approximately \$3,000.

W. C. Gilmore, mayor, this week outlined the following rate structure as being that evolved by the city officials and the water system manager, O. C. Ogden, as being desirable at this time:

Minimum Rate (for first 2000 gallons) Next 1000 gallons 50c Next 5000 gallons 30c per 1000

Over 8000 gallons 25c per 1000

The minimum rate has been \$2.75 for 3000 gallons. Each 1000 of the next 5000 gallons has been costing 35 cents. Additional gallonage-to 13,000-came at the rate of 30 cents a thousand. After 13,000 gallons the price was 25c per 1000.

The buyer of 8000 gallons will pay \$3.75 under the new rate structure as opposed to \$4.50 under the old schedule.

The user of 4000 gallons will pay \$2.55 for the service whereas that same quantity has been costing

Discount for Prompt Payment The 25-cent discount for payment by the tenth of the month has been

retained in the new rate schedule. The mayor said that no irrigation rate had been decided upon-When more is known of available water supply such a rate may be made. At present it cannot be, Mr. Gilmore said.

Bids for improvements and expansion of the water system, under terms of the federal grant, are to be received until 2 o'clock November 22. Plans have been approved by the Fort Worth office of the Public Works Administration. Included in the work contemplated is:

a) Drilling of new well large enough for 10-inch casing and with turbine pump if enough water is secured to warrant it.

b) Replacement of very old wrought iron mains with 8-inch cast iron pipe in business district and 6-inch in residential sections. (At present most of main is 5-inch; there is small amount of 6-inch.) c) New 100,000-gallon, covered storage tank and covering of present 200,000 storage tank.

d) Installation of chlorinating plant.

e) All of town provided with fire plug service so that no house in town is outside of 1000-foot limit from plug and most of them will be within 500-foot limit.

f) Installation of about 150 new meters, making town 100 per cent "metered."

Insurance Saving Contemplated The more efficient fire protection made possible by the improvements, Mr. Gilmore says, will result in an 18-to 21-cent reduction in the insurance key rate which is now 64 cents per \$100.

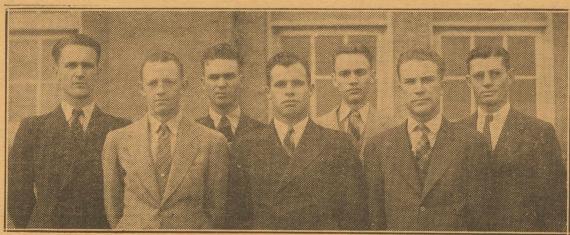

Since the city took over the system August 1 there has been an increase of about twenty customers, Ogden, manager, told the NEWS this morning.

Halberts to Dallas Thursday Mr. and Mrs. R. A. Halbert left. yesterday for Dallas to visit their daughters, Mrs. C. W. McBride, Jr. and Miss Bobbie Halbert, a student at Southern Methodist University. They will attend the football game, and a polled Hereford sale at Hereford.

Sonora People in El Paso Among those from West Texas attending the Grand Chapter meeting of the Order of the Eastern Star this week in El Paso are Mrs. Joe Hull, Mrs. Gene Lightfoot. Mrs. W. P. McConnell, Jr., Mrs. Ardena Speed, Mrs. W. L. Davis, Mr. and Mrs. M. G. Shurley.

Sonora Ladies Return From Cuba Mrs. Hix Hall and Mrs. W. D. Wallace returned Thursday night of last week from a trip to Havana, Cuba. They also visited in Miami. Their trip home was delayed by a strike among the sailors.

### **Cattle Being Tested**

Tuberculin Work Being Done By Veterinarian of USDA

Tuberculin injection work on approximately 400 head of Sutton county cattle was completed Wednesday by Dr. J. O. Whitehead veterinarian of the Bureau of Animal Industry, United States Department of Agriculture, who began his work here Monday.

Dr. Whitehead told the NEWS Wednesday evening that he would finish his work today and Saturday, it being necessary to wait seventy-two hours after the first injection before completing the test. Helping him is Martin Owens of Sonora.

Cattle owned by the following were used in the inspection work: Sol Mayer & Son, W. J. Wilkinson, Ed Glasscock, Bryan Hunt, E. E. Sawyer Estate, Alvis Johnson, Mrs. Frank Turney.

The 400 head being used in the test constitute a large enough number that the entire county may be given an accredited standing for another 3-year period on the basis of findings with that number.

Dr. Whitehead, a graduate of Texas A. and M. College in 1935, expressed his appreciation of the maner in which Sutton ranch owners had cooperated with him in his

#### Poison Placed For Two Sutton Towns

Prairie Dogs, 'Enemy' of Pastures, Steers Scarce with Grass Yearlings Targets For Destroyers

First work of destroying two Sutton county towns was done last week when H. C. Atchison, county agent, and J. E. Boog-Scott of the U. S. Biological Survey, made war head. Trading was very uneven on on homes of prairie dogs in Sut- the liberal supply. Early sales of

NEW 2-burner oil heater for sale. A "town" on 400 acres of the B. B. Dunbar ranch was attacked BIDS wanted on four cords dry by the men and one of 125 acres on a dull market, although some wood, 20-inch length. See T. C. on the ranch of William M. Allison, early sales of cows were stronger 51-2tc west of town. The work last week than last week's dull close. Bulls was the first attack. A final blow were draggy. LOST—child's link bracelet with will be struck at the towns later. initials "H.N.K."; lost Saturday.

Maize poisoned by coating with grass yearlings cashed around a paste made of strychnine, syrup \$5.50 and down with a rail load of and corn starch is used to tempt 510-lb. medium grass yearlings at the wily animals from ther holes. \$7.50. Medium grass calves sold The grain (a thin covering of it not mostly from \$5.25 to \$5.75 with noticeable enough for stock to most good fat calves at \$6 and bother) is put at each hole of the \$6.50, few to \$6.75 and \$6.85. Plain

Many of the animals are killed to \$3.50. The bulk of butcher cows after the first attack by their eat- ranged from \$3.75 to \$4.50, including of the maize. Those who suring a rail load at \$4.50, odd head of vive or who scorn the poisoned fat cows to \$4.75, few above. Low grain are killed on a second trip cutter cows sold mostly at \$2.50 when jute balls soaked in "high to \$3.50. Bulls were mostly medilife" are dropped in the holes which um kinds at \$4 to \$4.75, with thin are then stopped up.

When driving over the Dunbar own the morning after their work the men found that fifty-eight dogs had been killed. It is estimated that two or three times as many die within their holes as above

The Dunbar ranch work took four men five hours; the work on the Allison ranch two men four hours. First attack cost was \$8.50 on the Dunbar acres and \$2.87 on the Allison place. The conservation program allows seven and one-half cents an acre for such eradication

LOT OF LAMBS SENT TO BUYER IN PLAINVIEW

Second delivery on the lot of steer and heifer calves sold by R. A. Halbert recently to Burts Johnson and C. T. Jones at 8c and \$6.75 was made this week.

There were 106 head delivered this week.

Three hundred and sixty-four lambs shipped by Halbert last week to L. J. Halbert of Plainview included about ninety head donated by ranchmen to the general fund of the Methodist Church in meeting its church budget for the year which has just closed.

CONSERVATION PROGRAM UNDER WAY 2 MONTHS MORE

When Sutton county ranchmen complete conservation work signed for in the 1937 program their compliance record will be checked by either Fred Simmons or Leonard Gibbs.

H. C. Atchison, county agent, said this week that the two men, inspectors at the start of the program, were to check compliance requirements also.

The 1937 program is in effect until December 1, according to Mr. Atchison.

very similar to this year's with no gressman, in Coleman.

The announcement that the residences of the late John D. Rockefeller and John D. Rockefeller, Jr., were to be demolished to make space for a million-dollar museum again recalls the fight of the Rockefellers to keep West Fifty-fourth street, between Fifth and Sixth avenues, strictly residential. Quietly, Rockefeller and son for years purchased adjacent properties until they owned all but two parcels on West Fifty-fourth street and had considerable holdings on West Fiftythird street. A dozen years ago, the home of Florence A. Twombley at the southwest corner of Fifth avenue and Fifty-fourth street was acquired. The purchase price was not made public though it was held to have been more than a million dollars since the property was assessed at more than that amount. By owning the Twombley home, with St. Thomas' church on the northwest corner of Fifty-third street, father and son possibly thought their privacy would be protected. For that security they had invested about four and a quarter million dollars.

The house in which the elder Rockefeller spent a number of years of his life after he had attained his fortune is a four-story structure at No. 4 West Fifty-fourth street. It was built in 1865 and at that time stood alone in the neighborhood. In 1912, John D. Rocke feller, Jr., built a home at No. 10 West Fifty-fourth street. Nine stories in height and of ample proportions, the residence is one of the largest homes in the city, its size being equivalent to that of an apartment house. The cost was \$200,000 and the interior trim and decora tions are said to have cost another \$100,000. In later years, the elder Rockefeller spent much of his time at the Rockefeller estate at Pocantico Hills in Westchester. As the years passed he passed his summers on an estate in New Jersey and his winters in Florida.

When plans for Rockefeller Center, first known in its entirety as Ra dio City, were announced, old-tim ers shook their heads. The Rocke fellers, who had fought for privacy by the new development were bring ing crowds right to their back doors Rockefeller Center was built, then came apartment houses built by the Rockefellers in West Fifty fourth street. Now the Rockefelle homes are to come down and John D. Rockefeller, Jr., and his family are to move to a Park avenue apartment.

New in New York, I used to like to stroll by those quiet, respectable looking but somewhat domineering residences on West Fifty-fourth street. If progress were too slow or if a stop were made to speculate on the gardens in the rear-gardens on million-dollar real estate!—silent and businesslike gentlemen appeared. There were always two of them and I took them to be guards. One evening, I saw John D. Rockefeller, Jr., carrying a bulging brief it was his habit to take home from afternoon to do battle with the his office at 26 Broadway work he had been unable to finish during the day. I never saw the senior Rockefeller enter or leave No. 4.

Another diversion for this Middle Westener when new in New York was to wander around Madison avenue in the vicinity of No. 231 and hope for a glimpse of J. P. Morgan. Not until several months of vain vigil did I learn that though the telephone book listed that address as his, Mr. Morgan lived out at Glen Cove, L. I.

With so many New Yorkers looking around for a place to which to move at the end of September, a tale told by Carl Ravell, young orchestra leader, about a young friend seems in line.

"Darling," said the friend as he rushed into his wife's arms, "we don't have to move to a more expensive apartment. They've just raised the rent here.'

Recently Phil Baker received a novel gift, a small glass vial containing an odd-looking insect. It was sent to him by a Vermont farmer with this note: "Just so you can carry 'Beetle' and 'Bottle' around with you when you're not broadcasting.'

#### Steps in Kitchen Saved By Planning

Time and Energy Saved If Thought morning meal. Bench seats and a Given to Room Lay-out

It is estimated that the average ousewife walks 5 miles a day in oursuit of her household duties. The modern kitchen equipped with time- and labor-saving devices materially reduces the necessary steps and operations in that

mportant part of the household. A student of home economics in esting the advantages of the new kitchen over those of the old used in her experiment the making of a simple dessert. It was found that the 97 operations formerly required were reduced to 64 and the

ecessary steps from 281 to 45. Conservation of time and energy made possible by present-day planning and the installation of adequate equipment enables the housewife to give more time to recreation or educational pursuits.

When planning a new home inanced through a mortgage insured by the Federal Housing Administration, it is advisable to make a thorough investigation of modern kitchen equipment and to select the best that can be afforded, always having in mind that it should be in keeping with the cost range of the house.

SHOWER POSSIBLE FOR ANY TYPE OF HOME BATHROOM

Any bathroom can be modernized vith a shower regardless of whether the tub is of the leg type or built-in type.

There is a variety of equipment on the market, and the home owner may select one of the new types of showerheads that will effect a saving of from 25 to 50 per cent

of water over the old style. Showers are available that can be fitted to any built-in bathtub, installed by an experienced plumber a few minutes. Such showers involve no changing of pipes; they are permanent, fully automatic with a minimum number of moving parts, and are low in cost and economical in the use of water.

Hints for Saving of Money The Technical Division of the Federal Housing Administration points out that in one-story houses the greatest economy can be achieved by planning kitchen and bathroom as adjoining rooms, but with sufficient space in the separating wall to carry the necessary plumbing lines. Through this combination of rooms and by placing the fixtures in the adjoining rooms along the common wall, only one vent stack is required for all the fixtures, and the lengths of drainage and water lines are reduced to

Wait a While and Save Money When an owner moves into a newly completed home he will find it advantageous to wait until the plaster drys before decorating the walls. Paint is likely to discolor when it as applied to green plaster, and wallpaper frequently peels off.

Sight Heart, Light Home to See Best in Life

> Life is fleeting, says the poet. Hence, we say "Why not get the utmost out of life 'ere it fleets?" To lighten the heart, light the home. For two reasons: conserve eyesight...brighten the domestic scene. Doctors can tell you of proper light's value; our lighting advisor can show you how good light will beautify living room, dining room, bedroom, kitchen or basement. Glare and sudden contrasts are eyesight's worst enemies. Ask our lighting advisor to show you how they can be eliminated at little or no additional expense. There is no charge for a lighting demonstration.
