AMERICAN LEGION HOME DEDICATED SATURDAY

Old Judge Cooks FAMILY COURT

BILLY vs DAD

Docket: Shall Billy Drive Dad's Car? **BILLY:** "I'm 16 and have a driver's license, but Dad still objects to my taking the family car when I have dates. It's hard for a fellow to have much fun without a car. Shure makes a big difference with the women."

DAD: "Billy got his license sometime ago, and he drives safely enough when his mother or I can go along to hold him down. But several times in the past, when I've let him take the car out alone, reports come back to me of his speeding. On one occasion an officer personally came to the house and warned me."

Findings and Verdict of Judge Early

Well, folks, this is a mighty serious case on the docket this week.

The old judge has a good deal of sympathy with Billy in his desire to use Dad's car as a popularity weapon with the girls. Nonetheless, it's mighty plain that the court will have to side with Dad.

There are many 16 year-olds who can be trusted with the property and lives of others under normal driving conditions. But since Billy loves to speed so well, the court can only conclude that he isn't quite ripe for membership in the safety club.

Dad's an easy winner in this case.

NEXT WEEK'S CASE: Shall Dad bring work home from the office?

Williams-Puckett Post 161 Dedication Ceremonies Saturday, July 10

Saturday night in Spur will mark the official opening of the new Williams-Puckett Post No. 161 American Legion. Dedication services will begin at 8:30 p.m. with George S. Berry as principal speaker.

Spur Legionaires are in charge of the program with W. R. Weaver as program chairman and Bernard Golding, refreshment counselor.

On the evenings scheduled roster are visiting dignitaries from other Texas Legion divisions. J. R. Gleason, commander of Texas Fifth Legion Division has notified Spur officials that he cannot be present.

All veterans are invited to attend the ceremony, whether or not they are members of the Legion.

Spur Legionaires will hold open house from 2 until 6 o'clock Sunday afternoon for public inspection of the new building, according to Guy B. Karr, Spur Commander.

Construction on the hut has been under way for sixty days with plans dating as far back as 1945 when the building fund was started. It is located on the triangle east of Spur Experiment Station, and the plot on which it stands was donated by Mr. R. E. Dickson, supervisor of the station.

The structure consists of an entrance hall, a main hall 40 by 28, storage rooms complete with large closets, bathroom and kitchen fully equipped. A sixty foot concrete terrace extends across the building front to facilitate outdoor activities. Brick veneer on two front wings flank a porch paneled in knotty pine.

The building committee is composed of Lawis Lee, Kelly Marsh and Virgil Murry, who with the Legion members assistance have done fine work on a building for which Spur is justly proud.

GEORGE S. BERRY

See Roping Contest At Dickens July 10

Hey! Calf roping fans of Dickens and Crosby counties don't forget the calf roping contest between these two counties on July 10th, at 8:30 p. m. at the Dickens ball park.

The feature attraction on the program will be a calf roping contest between Tince Williams of Mobeetie, Texas and Fred Albritton of Guthrie, Texas.

Number two on the action roster for the night will be the roping teams of Dickens and Crosby with six men on each team to carry their own county to victory. A hundred dollar purse will be given to the lucky man. The participants will be picked prior to the July 10th, in the pre-contest elimination.

Other added attractions will be the flag race between Jan Fellmy and Barbara Speer, both winners in the recent rodeo held at Spur.

Cowboys who love a good cutting horse will miss a wonderful chance to see horses that can turn on a dime in action in the contest between Berry Hart of Spur, and Fred Albritton.

Ropers will select their own judges, Eric Swenson of Spur, will be the announcer with Bob Westerman of Spur, arena director.

LYNDON JOHNSON ADDRESSES LARGE CROWD LAST SATURDAY

Petty Geographical To Make Test Holes In Kent County

Petty Geographical and Engineering Co. of San Antonio, Texas, arrived in Spur last week with a crew of twenty men and nine equipment trucks.

Field Chief, Clyde Cotton, stated most of their testing would be done in the Kent County area and would cover an indefinite period.

Spur should certainly use some substantial oil development such as oil shooting over the top of a derrick about 30 to 40 feet high but if that fails to develop—she feels grateful for the different time to time, they sustain our hopes for a sure enough field some day and they also happen to be spending approximately from \$1,400 per month in our town.

Scattered wildcat leasing continues in different sections of the county and the Hunt Oil Co., of Dallas is setting up their derricks this week, on the Boley Williams section south east of Spur.

Drilling was discontinued in his hole a few months ago after striking a layer of granite shale. They will resume drilling in the same hole as soon as material arrives and the derrick is erected.

LYNDON B. JOHNSON

Rotarians Hear Interesting Program On Photography

James Hudson, local photographer, presented quite an interesting program on Color Photography at the July 1 Rotary luncheon. Fifty-four Rotarians enjoyed viewing the numerous color pictures shown on a screen by a slide projector.

There were familiar scenes made in Spur and vicinity as well as historic spots in Austin and San Antonio. The setting of each picture was explained by Mr. Hudson as it was shown on the screen.

Charlie Fisher, program chairman and color picture enthusiast, showed a number of color pictures which he had taken, among which was one of Guadalupe Peak in the Big Bend country, and one somewhere along the Santa Fe Trail now covered with growing mesquite, which proves that mesquite grows even in a desert country, according to Mr. Fisher.

Miss Margaret Wood presided most capably at the piano in the absence of Club Sweetheart, Annette Lee.

Program scheduled for July 15: "Rites", by J. H. Taylor with Ned Hogan as chairman.

Dread Polio Strikes 600 Texas Victims

In a meeting of the city officials Tuesday night, it was decided to name next week as Official Clean Up Week in Spur, beginning on Monday and lasting through the entire week.

The city officials wish to cooperate to the fullest extent with the citizenship of Spur in an effort to make our town the cleanest and safest town in these parts.

The city force will add two trucks to aid in collecting trash and garbage over town. Those residing outside the city limits are advised to see that clean up week is strictly observed in their additions, and that every precaution be taken to guard against polio and other summer diseases that may be transmitted by flies.

Dr. P. C. Nichols, health officer suggests that all garbage pails be kept covered and then sprayed with a lasting spray.

It will be next to useless for the city officials to clean the alleys and spray if back yards are left as a breeding place for flies to contaminate the entire neighborhood.

Weeds that are left on each side of the alleys should be cut and the trash burned. A heavy weed growth is a harbor for both flies and mosquitoes.

The people of Spur should put forth every effort for a clean and sanitary town. It may save a child or girl from becoming a cripple for the rest of their life. "An ounce of prevention is worth a pound of cure."

City officials are making efforts to secure equipment for spraying the alleys with DDT at an early date. Citizens of Spur, let's cooperate with our officials one hundred per cent.

A number of cases of polio have been reported in neighboring towns and may strike here any time. Let's do our part to prevent it from striking in our town.

On Thursday of this week, Dr. Nichols visited Dickens and McAdoo to urge the people to clean up their towns as a safety measure against polio. Dr. Nichols stated that if more and better care were taken to keep Spur clean the Doctors in Spur would not be kept so busy trying to keep people well.

"Every day," said Dr. Nichols, "should be clean up day."

Long Time Spur Business Man Dies At His Home

Funeral services for David Huff Sullivan, 81, well known business man of Spur, who passed away at his home in Spur Wednesday morning, June 30, at 4:50 A. M., 1948, after a long illness, were held last Thursday afternoon at 3:00 o'clock in the Sullivan home in East Spur, with Rev. James Hardison officiating.

Before coming to Spur in 1914, Mr. Sullivan was employed by the Murry Gin Co., of Dallas as an expert gin man, and at one time was in charge of fifteen gins at Plano, Texas, later traveling in Texas, Oklahoma, Mississippi and Louisiana, repairing and correcting gin troubles.

Coming to Spur in 1914, he engaged in the buying and selling of cotton and grain. He was also the owner and operator of the Sullivan Grocery in Spur for a number of years.

His honesty and square dealing in his business connections were unquestioned. His business associates became his good friends. Generous and big-hearted, he was ever ready to render aid to those less fortunate than himself, and his neighbors bear witness to the fact that what D. H. Sullivan had, they also received a part. He will be greatly missed by his neighbors and friends in Spur. He was truly loved by those who knew him best.

He was born October 4, 1867, in Van Zandt county, Texas, near Willis Point, where he lived with his family for many years. He was married to Josephine Poe at Jarrett, Texas in 1894. They established their first home in Dallas, Texas where they lived for some time, later moving to Louisiana, where they located temporarily.

He was converted early in life and joined the Christian church in Spur in 1917, of which he remained a member until the time of his death.

Survivors include his wife, Mrs. Josephine Sullivan and son, Pete Sullivan, of Spur, one grandson, Pat Sullivan of Ferris, three brothers, Will of California; A. A. of Fort Worth; Alex of Dallas; four sisters, Mrs. Burrow and Mrs. Bennett, both of Ardmore, Oklahoma; Mrs. Gracie Arlington and Mrs. Briggs of Terrell, Texas.

Funeral services were held at 10:30 a. m. on Thursday at the home of Mrs. J. A. Koon, Jerry Ensey, Callie Ramsey, E. L. Caraway, Carl Penninger, and F. Z. De Graffenreid.

Interment was in the Spur Cemetery with Chandler Funeral Home in charge of arrangements.

580 Cases In 65 Texas Counties

Reported cases of polio in sixty-five Texas counties reached the alarming total of 580 during the first six months of the year, according to State Health Officer, Dr. George W. Cox. For the same period in 1946, the total number of cases reported in sixty-six counties of the state was only 292.

"This staggering increase in polio in a brief two year period evidences a need for drastic measures in all communities to combat the disease," Dr. Cox asserted. "It is the responsibility of the people of the state to report themselves to their doctors whenever they recognize symptoms of polio. It is also their duty to give whole-hearted cooperation to clean-up drives."

Immediate medical attention is urged at this time of the year for such things as headaches, fever, stiff neck, pain in the legs, irritability and drowsiness. These are the symptoms of polio.

"It is well to guard against panic in polio cases," Dr. Cox said. "For complete recovery is not impossible. Even in the more severe cases, when the germ has penetrated the nervous system causing paralysis of one or more groups of muscles, some remarkable recoveries have been made."

Dr. Cox indicated his belief that the first line of defense against polio is a carefully executed clean-up campaign in all communities. "Local police power should make clean-up mandatory," he said.

Work On Fair Store Progressing

Workmen on the Fair store building are still on the construction part of the work but next week should find a decided improvement and the new modern front will begin to shape up.

If plans and problems work out according to blueprint the Fair Store will be one of the most modern and up-to-date stores in West Texas.

Owner George Gabriel, has a new and large selection of fall merchandise to be placed in the shelves just as soon as the remodeling is completed.

The Fair store continues to remain open for business and what is a little dust to people of Dickens county.

Old Time Spur Resident Spends Short Visit Here

While enroute to their home in Houston from a vacation in Estes Park, Colorado, R. E. Johnson, business manager of the Houston Post, accompanied by Mrs. Johnson who lived in Spur about thirty years ago and was then Miss Mary Francis Walker, daughter of Mr. and Mrs. J. R. Walker, owners and operators of the Spur Grain and Coal Co., stopped in Spur for a short visit.

Mrs. Johnson took time out to look for a few old familiar landmarks—was happy to find the oldest business houses in Spur, she inquired of the fate of the old Attabury Hotel that used to stand on the main street in the business section, and was a very popular eating place in those days.

Gruben Children Home For Visit On The Fourth

There was much laughter and joy in the W. C. Gruben home the past few days when all the children were home together. Mr. and Mrs. Matthew Gruben and baby of Spur; Mr. and Mrs. Bill Gruben and two children of Westchester, Chicago and Mr. and Mrs. J. B. Adbritton of Beaumont.

Mr. and Mrs. Bill Gruben will spend a number of days here on vacation before returning to Chicago.

LIONS PREXY KINNEY INSTALLED IN TUESDAY NIGHT PROGRAM

Methodist Grove was the scene of an informal Family Night picnic supper when Spur Lions Club met with their families to enjoy fried chicken, salads, lemonade, ice cream and cake.

Installation ceremonies followed the food, during which Fred Kinney, new Lions president, was introduced by outgoing president A. Z. Hays. Mr. Hays completed his installation duties as he introduced Bruce Browning, Sam Hawkes, and Randolph East as first, second and third vice presidents, respectively.

Ernest McNutt was installed as Lions Tail Twister by outgoing Tail Twister Fred Kinney. Sylvan Golding turned his Lion Tamer duties over to Billy Ray Barrett. Robert Williams, Van North, Leon Reagan, and Larry Booths were installed as directors and D. J. Dyess assumed the office of secretary.

The club's yearly income and activity expenditures figures were discussed. Among their community service activities of the past year were needed glasses purchased for a child in Ward school and a slide installed at the Ward School playgrounds. The club has to its credit a slide, a merry-go-round, and a set of swings on this playground. A set of swings and a merry-go-round located in the park on the west side of Spur also were purchased through the Lions Club.

Lions Club Board of Directors will meet Friday night to outline the new year's work. Laurels to the club for its expenditures of \$300.00 to help defray the expenses of the summer recreation program in Spur.

Duck Creek Soil Conservation District News Notes

WILL WRIGHT, JAMES MONTGOMERY, CHAS. WITT, RILEY WOOTEN, Chm., OSCAR McGINTY, Sec.

There are five different kinds of range land in this district which are separated according to their types of soil. They are sandy loam, hard land, shallow land, Shinnery and the breaks. These types of country or range sites, vary as much in the kind of vegetation they grow as in their kinds of soils. Cattle do best on ranges that have the greatest variety of each. During the days of open range, cattle were able to range over the country and select their choice of range. Fencing now restricts them to comparatively small areas, but they still eat the best food they can find.

The livestock producers largest interest lies in the amount of beef they can grow. To produce the maximum amount of beef, they have to grow the best kind of grass possible. To grow the best kind of grass, they have to be familiar with the grasses themselves—the kind of land they like when they seed, how they seed, when they are best for grazing, and so on. A series of articles to appear in the Texas Spur will discuss the five range sites in the Duck Creek Soil Conservation District, as well as some general conditions concerning their management for grazing.

The sandy loam range site has a sandy loam topsoil of about 20 inches deep underlain by a reddish clay subsoil. The topography is flat to gently rolling. This soil absorbs water easily when it has a good cover of grass and is potentially very productive. It is also good farm land. When the grass cover is removed the soil erodes rapidly and the surface tends to "slick" over, making water penetration slow. Gullies also form very easily during hard rains.

Numerous choice grasses are found on this kind of country when it is in top shape. Buffalo, or "mesquite" grass, blue grama, sideoats grama, crowfoot grama, winter spear grass, cottontop, and dropseed. Muhly and lovegrass should make up about 90 per cent of the grass cover. There will always be a certain percent of needle grass present even under the best of conditions. The sandy loam site will also have mesquite, catclaw and sagebrush.

When range of this kind is hurt by grazing or drought, the best forage grasses will go out and are replaced by a lot of needle grass and weeds. Filaree, wild rye, tallow weed or yellow flower are abundant during a wet spring. They are good grazing while they last.

INSPIRATIONAL

Cheerfulness and content are great beautifiers and are famous preservers of youthful looks. —Charles Dickens

Five Future Farmers Awarded Lone Star Farmers Degree In Ceremony Held In Lubbock July 9

Five Spur Future Farmers, Guinn Beadle, J. W. Karr, Clifford Dean Karr, T. A. Johnson and Randolph Pritchett, will be awarded the Lone Star Farmer degree at the Area 1 banquet to be held in Lubbock Hotel, Lubbock, Texas, July 9, 1948.

The Lone Star Farmer degree is the highest state degree awarded members of Future Farmers of America. Only 2 per cent of the state's membership is elected annually at the state convention for such an award. The Spur F. F. A. chapter is proud of its members who have worked hard to earn the degrees, and who have good farming programs in actual operation.

Qualifications as set up in the National Constitution and By-Laws of the Future Farmers of America Organization that had to be met by the candidates are:

1. The candidate must have held the degree of Chapter Farmer one year preceding election to the degree of State Farmer and be an active member.
2. He must have completed at least two years of instruction in vocational agriculture or all the vocational agriculture offered in the school attended, and have in operation an outstanding program of supervised farming.
3. He must be familiar with provisions of the Constitution of the state and national organization.
4. He must demonstrate proficiency in parliamentary procedure.
5. The candidate must be able to lead a group discussion for forty minutes.
6. He must have earned by his own efforts from his farming program or other agricultural work and deposited in a bank or other wise productively invested at least \$250.00.
7. The boy must show outstanding leadership and scholarship record.

CLASSIFIED

An Old Time Revival To Be Held At Bethel Baptist Church

An old-time revival meeting will start at the Bethel Baptist Church Friday night, July 9, 1946. Brother Burnson will conduct the services. The meeting will last about ten days.

Don't forget the W. M. U. each Tuesday night at 8:00.

CHURCH SERVICES

Sunday School 10 A. M.
Sermon 11 A. M.
B. T. U. 7:30 P. M.
Sermon 8:30 P. M.
Wednesday night services 8:00 P. M.

Pastor, Dock Love.
C. Ray Williams of Girard, was in town Tuesday of this week looking after business affairs.

HALF-A-CENTURY OF PROGRESS

What half-a-century will do is well illustrated in the picture of an early tire built by the Pennsylvania Rubber Company and the latest in premium low pressure tires, the Air Cushion. To carry out the theme of the golden anniversary, Miss Dorothy Bruno, whose grandfather helped to build the first Pennsylvania tire, poses with the examples of progress in the rubber tire industry.

Nearly a half century ago, the Vacuum Cup tire, shown on the right, was the premium tire of its day. It was famous for its non-skid feature despite the fact that it carried 65 pounds of air. An average of 5,000 miles was considered good for any tire.

Contrast this with the low-pressure Air Cushion that is a feature of the automotive style leaders today. Smooth riding on 24 pounds of air, a tread much thicker than the original, guaranteed for many thousand miles of care-free riding and more lives coming off the production lines in a day than were originally built in a month.

Planning To Paint The House?

If you're planning to paint the house this year, things are going to be a lot better for you than ever before. In the first place, good house paint is readily available in quantity for the first time since before the war. Secondly, technical and chemical improvements promise the home-owner a longer-lasting, better-looking job.

Two of these basic improvements, developed by Sherwin-Williams for its new house paint, have produced rigid controls for chalking and penetration. All good house paints chalk so that the finish becomes self-cleaning when it rains. In the new paints this chalking is slowed down so that an extra year of fresh appearance is provided.

The control of penetration keeps the oil in the paint film, providing a more durable finish, instead of letting it saturate into the wood where it would do little good.

If you're planning to paint, you will also be glad to know that prices are only slightly higher than pre-war. In fact, the increase is negligible when the entire cost of painting is considered. Good paint is inexpensive insurance in the long run. A few pointers for your new paint job: be sure that the surface is properly prepared for the new coat, don't start painting until warm weather has drawn moisture out of the wood, and consult a good painter or contractor.

PERSONALS

Mrs. W. W. Garner, Mrs. Loretta Denson and son, Robert, and Buzzy Jones visited Mr. and Mrs. Luther Jones in Morton over the 4th, and then continued their trip to Carlsbad, New Mexico where they went through the Carlsbad Caverns.

Mr. and Mrs. L. C. Rasberry of Kaufman County spent a few days visiting in Spur last week. While here, Mrs. Rasberry received word that her mother, Mrs. L. F. Boyd of Seagoville, Texas, was seriously ill.

Guests in that home of Mr. and Mrs. W. G. Johnson spending the week end were Mr. and Mrs. L. D. Parks and two children, Sandra and Shirley Ann of Fort Worth, who also visited in the home of Mr. and Mrs. Luther Hindman, Mr. and Mrs. Edward Johnson and son Edward. Jr. were down from Lubbock. They also visited Mrs. Johnson's parents, Mr. and Mrs. Butler of Girard.

Brother Frank L. Cox, pastor of the Church of Christ, Spur, is the author of a number of religious books, the most recent publication is a 226 page volume based on the life of Apostle John. The title is "According to John." It includes outlines for bible lessons and writings suitable for Sunday School teachers and other forms of church teachings.

In 1941 his book "According to Luke" was published; this book the somewhat similar has an entirely different viewpoint from the book according to John, and contains a wealth of good lesson material based on Acts and Luke. It will be found invaluable for those engaged in any form of teaching or directing in Sunday School or young peoples work.

In addition to these works on the Apostles, he has two smaller volumes published on "A Hundred and One Sermons Outlined" and a pocket size "Prayer Book" with a prayer for every occasion and thoughts on correct attitudes for prayer. Both of these are great help to young preachers just entering the ministry.

Brother Cox has also had a recent article published in the Christian Digest on "The Sin of Slender" which with permission has been republished in other magazines.

ABOUT FOLKS

Visitors in the home of Mr. and Mrs. Ott Denson last week were Mr. and Mrs. Frank Pilley and children of Bakersfield, California. Joining them for the past week end were Mr. and Mrs. C. O. Barley, Mrs. W. M. High, and Miss Eunice Denson of San Antonio. At home were Morris and Rex, brothers of Mrs. Pilley and Mrs. Eunice Denson. Mrs. Barley and Mrs. High are sisters of Ott Denson.

Mr. and Mrs. Roy Campbell and children accompanied by Mr. Campbell's mother, spent a few days visit here last week, visiting his uncle, T. G. Campbell and wife of Spur.

Mr. and Mrs. Joe Curry of Fort Worth visited Mr. and Mrs. T. P. Johnston here last week. Ms. Curry and Mrs. Johnston are cousins.

Billy D. Starcher and Pike Dobbins left Friday. They were accompanied as far as Abilene by George Caple, Texas Spur editor,

where Mr. Caple will take a bus for his home in Midland and Billy D. and Pike will continue their trip to Waco to look after business affairs—in this instance, looking after business may cover a multitude of sins.

Miss Beverly Woods of Spur spent last week in Matador where she was the guest of Mr. and Mrs. Rex Taylor.

Mr. and Mrs. Harry Miller and daughter Marion, left Saturday of last week for Dallas, where Mrs. Miller and Marion boarded a train for Cleveland, Ohio, where they will spend a month's visit with Mrs. Miller's mother, Mr. Miller returned home Sunday night.

Mrs. A. Klingensmith of Vernon left Wednesday after spending a two weeks visit here with her sister, Mrs. G. H. Snider and family of Spur.

H. H. Rutledge and family who has been living on the Geo. S. Link farm for the past two years left Saturday of last week for Roswell, N. M., where they plan to make their permanent home. Mr. Rutledge will be connected with his brother who is a con-

tractor from Lubbock and who is also located in Roswell.
Mrs. Eula Ford, who has been on an extended visit in Odessa, is home again and was attending to business in Spur Saturday of last week.

J. J. Ensey left on Sunday of his week for Chico and points in Oklahoma where he will spend an extended visit.

Mr. and Mrs. Clarence Foreman and children spent the week end with Mr. and Mrs. J. H. Harburger in Amarillo. Mrs. Harburger is an aunt of Mrs. Foreman.

C. H. McCulley and Clyde Bingham attended the rodeo in Stamford on the Fourth.

Mr. and Mrs. Harry Miller and daughter Marion, left Saturday of last week for Dallas, where Mrs. Miller and Marion boarded a train for Cleveland, Ohio, where they will spend a month's visit with Mrs. Miller's mother, Mr. Miller returned home Sunday night.

Mrs. A. Klingensmith of Vernon left Wednesday after spending a two weeks visit here with her sister, Mrs. G. H. Snider and family of Spur.

BATTLE OF BRAINS... In a grueling three-hour competitive examination at the A. and M. College of Texas, 215 honor graduates of Texas high schools fought it out for fifty thousand dollars worth of college scholarships. The fifty winners, who will receive four-year Opportunity Awards at Texas A. and M. College, were announced today. Selected on the basis of need, scholarship, leadership and character, winners will receive \$200 to \$300 per year, plus an opportunity to earn other college expenses, for their full four years.

Vet's Family On Rocks; Wife Wins \$2,000 Story Contest

Two thousand dollars isn't all the money in the world, but when you and your war veteran husband have just gone on the rocks in a venture financed by a GI loan, have a young son to support, and very little income, it seems just about as unattainable as all the money ever issued.

But Fortune reserved her most dazzling smile for Mrs. Barbara Turner of Bridgton, Maine, by dropping a \$2,000 check in her lap just when the Turner fortunes were at their lowest ebb.

Not only that, but the check itself was a virtual assurance that the lucrative life of a successful writer lies ahead for the comely Mrs. Turner. It happened this way.

Last March, Cosmopolitan magazine launched a Dark Goddess contest, offering a top prize of \$2,000 for the best short story inspired by a rather enigmatic illustration in the magazine. Entries were to be in by June 1, 1948.

Approximately 6,000 manuscripts were submitted by aspiring writers from every state in this country, every country in Europe, from South Africa, South America, Canada, Egypt, India and China.

On June 12 the editors of Cosmopolitan agreed that they could not choose between two stories one submitted by Mrs. Turner, and one by Pendleton Hogan, a professional writer of Washington, D. C. They decided each should get a \$2,000 award.

Mrs. Turner was busily engaged in her Bridgton home on a rainy June afternoon writing another of the countless manuscripts which always came back with a rejection slip, when her telephone rang. It was a long-distance call from Dale Emsom, fiction editor of Cosmopolitan, advising her she had won the \$2,000 prize.

"I wh-what?" she gasped when she was told she had won the prize. Then after another series of gasps between visions of paid-up bills at the local stores, with something left over in the Turner bank account, she exclaimed: "I'm overwhelmed."

And well she might have been for her entry in the contest was merely another desperate shot-in-the-dark trying to sell a magazine story at which she had failed consistently for years. When she recovered herself sufficiently to talk coherently, she said:

"I am still in a terrific daze from learning I won the Dark Goddess contest. My husband and I recently lost our shirts in a resort and hotel venture financed by a G. I. loan. He has been trying to pull us up by our bootstraps as a representative of a farm equipment wholesaler but the going has been tough. The prize money will erase the red ink from the Turner ledgers, but more important is the fact that winning the prize has given me the confidence to go on writing, and I'm certain I will be a success."

FARM QUESTION BOX

By ED. W. MITCHELL

Q—Have just made a weather vane out of aluminum and brass and want to put it on the peak of my barn. Will it attract lightning?

A—If lightning gets that close to your barn, a weather vane will have little bearing on what happens. The whole barn should be properly protected by rods and cable installed by a competent expert in that business. At least, run a 5-8 copper cable from the vane to the ground.

Q—I have some extra potatoes and thought I would feed them, cooked, to the chickens. Are potatoes good for chickens? Will they cut down on the egg production?

A—Potatoes are starchy and bulky and not a good feed for hens because it displaces high protein mash needed for good egg production. They are OK in small amounts for cows and pigs.

Q—Why does the flame on a kerosene lamp or stove creep. Recently lost a brooder full of baby chicks due to this action of a kerosene lamp used for heating purposes.

A—As the wick and the air become warmer, and as the amount of air supplied to the flame increases or decreases the flame will vary. That's one reason electric brooders are replacing other types.

Q—How can we make our hen stop laying soft-shelled eggs?

A—Only way is to cut off head end, but that stops laying altogether. Shell call for a reserve of lime that has to be built up over a long period of time and kept supplied by daily feed of oyster shell or lime grit. When the reserve gets low, the shells get weak and soft and it takes a long moult or rest period to rebuild reserves.

Q—I use a cleaner to wash our painted walls. It seems to leave a film after I use it. Is it advisable to paint after using it, or would the paint peel off?

A—I think the paint will peel off unless you wash wall thoroughly with water and get

off all that cleaning preparation. Q—I want to plant pop corn and sweet corn in my garden and haven't room to space it far enough so it won't mix. Could I plant four rows—one half of each kind—and detassel the sweet corn?

A—Better not detassel either because corn is generally self-pollinating. There will be some crossing, but unless you grow the corn for purebred seed it will make very little difference; only a kernel here and there, now and then.

Paisley shawls were first made in Paisley, Renfrewshire, Scotland.

HAND-PROOF

YOUR own hand is the first to touch the pouring-rim of the bottle of milk we leave on your doorstep. That completely protective Sealright hood, made of specially treated, sterilized paper is sealed on in the dairy at 500° F. and guards your milk against handling from the dairy to your home.

PLAIN GOLD GRADE A PASTEURIZED MILK Plainview, Texas

This is available at the following store in Spur: Clover Farm Store—Phone 27; Smith Grocery, Phone 93; Dunaway Food Market, Phone 67; Hoover Finer Foods, Phone 242; Hill Top Cafe, Will serve this milk at every meal.

National Home Food Preservation Week July 19 To 24

In announcing the week, Sec. Brannan stated: "Food is still the most important single factor in the fight for world peace. We cannot afford to let the abundances of our farms and gardens be wasted when, with a little planning and a little extra effort, these supplies can be used to maintain the health and vigor of our families and add to the total world food supply."

Dial-type gauges on pressure canners need accurate checking. The weighted type gauge don't need checking, but should be given a thorough cleaning.

The best way to dig potatoes is with a turning plow or a middle buster run 8 to 10 inches deep. Be sure the spuds are mature before digging them up.

YOUR VOTE FOR JAMES G. LUMPKIN WILL KEEP

a qualified, experienced jurist in the important post of **ASSOCIATE JUSTICE OF THE COURT OF CIVIL APPEALS** 7th Supreme Judicial District

(This district, which sits at Amarillo, has jurisdiction of 48 Northwest Texas counties.)

• Judge Lumpkin is now serving on this court. His work has been highly commended by leading jurists.

• Judge Lumpkin, a native of Potter County and World War II Veteran, was three times elected District Attorney.

Pl. Adv. paid for by Judge Lumpkin's Friends of Northwest Texas

...KEROSENE FOR LAMPS HAS ONE'S FIRST LARGE SCALE USE...

INDIANS ONCE TAUGHT COLONIAL SOLDIERS TO USE VETCH SEEDS WITH OIL FROM SEWAGE POOLS...

POTENTIAL OIL RESERVES WERE SO UNREALIZED THAT A PATENT MEDICINE MANUFACTURER FEARED HIS OIL SUPPLY WOULD SOON RUN OUT...

THE PROGRESSIVE SPIRIT OF OIL HAS KEPT PACE WITH THE ADVENT OF THE AUTO, DIESEL ENGINE, PLANE, HOME BURNER, SHIP, TRAIN...

MODERN EXPLORATION METHODS HAVE RAISED THE KNOWN RESERVE OF OIL UNDERGROUND TODAY TO THE HIGHEST IN HISTORY. MORE THAN A BILLION GALLONS, DESPITE UNPRECEDENTED DEMANDS FOR OIL PRODUCTS. GEOLOGISTS ESTIMATE ANOTHER 5 BILLION GALLONS REMAIN TO BE DISCOVERED IN THE UNITED STATES.

Vetch Seed Testing In Operation At Texas A&M College

The Vetch Seed Testing Laboratory of the Texas Agricultural Experiment Station at A. and M. College is now operating. Dr. E. B. Reynolds, laboratory director announced today. Germination and Purity tests are being run on seed from the crop now being harvested.

Vetch is one of the best and most widely grown legumes used in Texas for soil improvement. It furnishes protection against erosion, adds nitrogen and improves the physical condition of the soil.

Production of high quality Vetch seed has become an important source of farm income in the West Cross Timbers and adjacent farming areas.

An appropriation for experiments with vetch and seed testing was made available by the State Legislature at the request of individual vetch seed producers and grower organization. Dr. Reynolds said. Services of the laboratory will include germination and purity tests on seed produced by Texas growers.

There will be plenty of glass jars and cans for home canning needs in Texas this year; however, the future for pressure cookers hold a question mark because aluminum is used in airplanes.

VETERANS NEWS

Student veterans entitled to increased monetary benefits because they have more than one dependent are reminded by VA of two important deadline dates to be observed if they are to receive increased allowances retroactive to April 1.

One deadline affects veterans taking full-time educational courses. The other affects veterans taking part-time courses, combination school-job training courses or entitled to increased benefits due to new subsistence-earned income ceilings.

Veterans in full-time educational courses who are entitled to \$120 monthly subsistence because they have more than one dependent must submit evidence of additional dependency before July 1 in order to have the higher payments retroactive to April 1.

Veterans with more than one dependent and taking part-time school training, combination courses or who are affected by the increased income ceiling must submit proof of additional dependency by September 1. In most cases, veterans in this group may submit this evidence on a form which they will receive from VA.

Veterans who lose subsistence, compensation or pension checks should notify immediately the appropriate Veteran Administration Regional Office.

VA said a veteran losing such a check should write a letter giving his full name and address, his claim number and the date an amount of the check. He should also state what the check was for and the circumstances surrounding its loss.

On being notified of the clerk's loss, VA determines first if it may have been found and returned to the U. S. Treasury. If so, the check will be re-mailed to the veteran. If not, VA will request the Treasury to stop payment and take necessary steps to reimburse the veteran.

A veteran who finds his check after reporting its loss should notify VA and hold the check until he has been advised by the Treasury that action to stop payment has been withdrawn.

QUESTIONS AND ANSWERS

Q—When is National Service Life Insurance considered lapsed?

A—It is lapsed when a veteran fails to make payment of premium within 31 days from the date it was due.

Q—If I do not receive National Service Life Insurance premium notices or receipts promptly, should I continue to send premiums?

A—Yes. You also should clearly identify your payments by giving your insurance policy number, but if that is not available you should give your rank, organization and your service serial number.

Q—If I filed a change of address with the VA hospital or regional office where my claims folder is on file, will the same change be made on my insurance records?

A—No. Change of address for purpose of compensation or pension is not a notice of change of address for insurance purposes. VA Form 889, "Change of Address," should be executed by the insured to notify the Insurance Service in the appropriate Branch Office.

Q—When may a veteran decide whether he will pursue training under the Servicemen's Readjustment Act (G. I. Bill) or under the Vocational Rehabilitation Act?

A—After eligibility has been established under both laws.

LARRY DOUGLAS

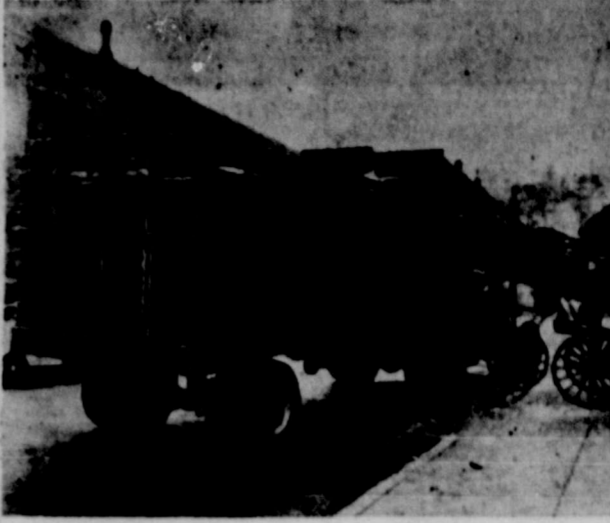

Physical fitness, an essential in the nursing profession, is one of the important goals set for students at Cook County School of Nursing. Located in the heart of Chicago's famous Medical Center this modern nurses' residence and training ground utilizes a big city rooftop for summer practice in keeping fit. Its solarium and huge open deck are gay spots in recreation hours.

Summer students from all parts of the country include many who are taking a five year collegiate course. This leads to both a college degree and a diploma in nursing, and is open to both men and women. Cook County has affiliations with accredited colleges in Illinois, Pennsylvania, Iowa, Michigan and Wisconsin.

Edna S. Newman, director of the school, is already receiving applications for the regular Fall classes which open in September.

HAM 'N STEAK EXPRESS

Cincinnati, Ohio... Cattle and hogs get a one-way ride from Cincinnati's Central Market to the plant of J. & F. Schroth Packing Company in a Fruehauf livestock trailer. The vehicle is easily maneuvered through narrow city streets because the trailer turns in the same radius as the small truck which pulls it.

Quality Eggs Result From Proper Care

Quality eggs are affected by environment, according to extension news received from Texas A. & M. College. "Environment" means the way eggs are handled from the time they are laid until the housewife serves them at the table.

Heat, says the college poultry marketing specialist, is the greatest enemy of high quality in eggs. They should be gathered several times a day, and held below 68 degrees F. because higher temperatures break down the egg rapidly.

Quality may be lower in eggs after three days of improper handling than in eggs which have been stored properly for six months. Egg rules for the flock owner include: Keep hens in laying house until late afternoon on rainy days; put ample clean nesting material in nests; remove broody hens from nest; remove male birds from the flock; cover dropping pit with wire; gather eggs three to five times a day; cool eggs promptly after gathering and store in cool place.

Business firms should handle eggs carefully; store in good cases; keep at proper refrigeration and away from strong odors. For the housewife: Keep eggs in clean containers, under refrigeration in hot weather and away from foods which have strong odors.

For safety, never grease, oil, unlug or adjust a machine that is in gear.

Rome is known as the eternal city.

There are two kinds of buffalo grass—male and female plants. The female plant is preferred in lawns and can be identified by the flowers, which are set between leaves and stem, close to the ground. The male plant has a seed stalk four to six inches high.

Declaration of Independence!

He's on his own. It's a wonderful feeling. He can go places all his life — as long as he keeps his sense of independence.

That's America's richest resource — not forest, field or mine, but the spirit of her people. Ambition, energy, self-reliance are the reasons why individuals — and industries — grow great from small beginnings.

Take the electric industry — this company, for example. A few practical dreamers opened up an "electric frontier" when in 1915 they strung the first transmission power lines in West Texas. People of faith and vision risked their savings. Other folks combined skill and hard work to produce better and better service — at lower and lower costs — creating more and more jobs — and carrying the benefits of electric living to more and more West Texans.

That's the American way of progress. Free enterprise, vision, and hard work. They are what built America and the American way of life, which is the highest standard of living in the world.

No nation has ever found a satisfactory substitute for that combination. No nation ever will.

West Texas Utilities Company

50 Boys and Girls Enjoying Program

Recreation program in progress at the high school gymnasium is being enjoyed by some fifty odd boys and girls of school age. Coach Hawkes is seeking a baseball game for the boys thirteen years of age and under. Mr. Hawkes has been unable to get a game with a team in Lubbock and is now trying to get one with Post and Slaton or both. Mrs. Van North took a group of girls to a concrete tank for a swim and hike on July 7. The girls took their lunches and had an all day affair of it. The Junior American Legion Baseball team is in second place in the South zone of District 2 and if they defeat Slaton, this week they will attend a four day tournament in Lubbock to be held starting July 12, the two top teams in each zone. The Lubbock B team is the only undefeated team in this district playing in the north zone. Their only defeat of the year has been at the hands of the Spur nine in a non-conference game.

W. R. Weavers On Vacation To Points In New Mexico

Mr. and Mrs. W. R. Weaver and daughter Betty, left Saturday morning for Amarillo where they will meet their son Bob and his friend, Miss Betty Stowe of Milwaukee, Wisconsin, who has been west of Chicago. The Weavers plan to show Miss Stowe the land of the great open spaces. Their route will cover Santa Fe, New Mexico, Carlsbad Caverns, New Mexico and El Paso and a visit will be made to Juarez, Mexico. Miss Stowe will accompany them on their return trip to Spur and spend a week's visit in the Weaver home.

Qualls Home Scene Of Sunday Gathering

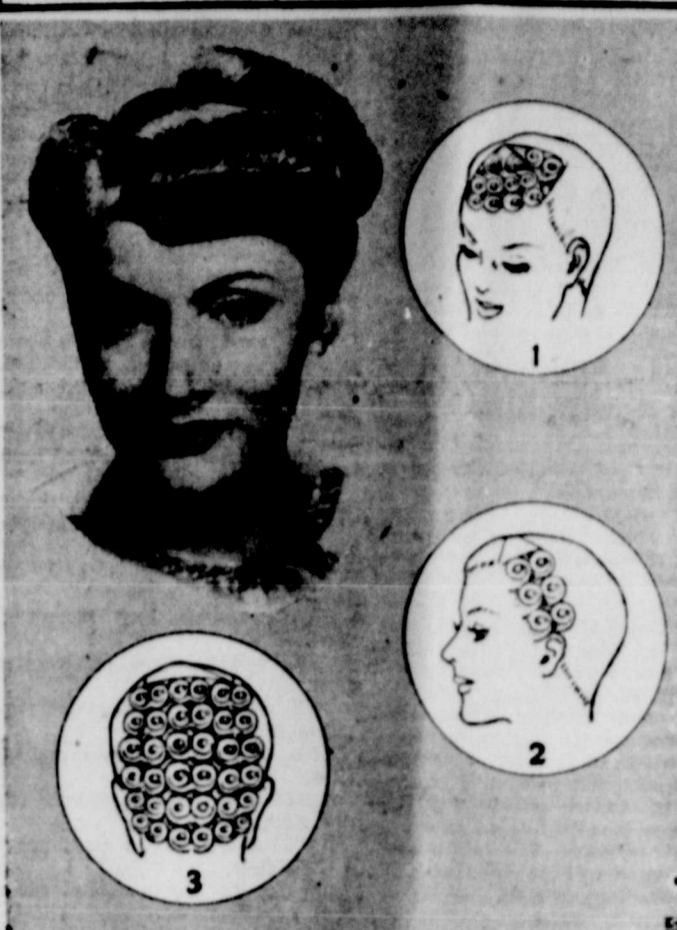

Guests in the home of Mr. and Mrs. Robert Gibson and Mr. and Mrs. W. P. Qualls last Sunday were Oscar Gibson and family of Sagerton, Charlie Gibson and family of Aspermont, Mr. and Mrs. George Crist of Athens and Mrs. H. A. Stubbs of Spur. The visit terminated in the Qualls home where all the guests enjoyed a fried chicken Sunday dinner.

So this is HOUSEKEEPING

I'm convinced that for a time Dad never thought of my husband as "the nice young man" his daughter had married. For a man of paint finally made Dad see what a smart mate I've married. One Sunday afternoon Dad began his favorite lament about the house again needing painting and the fact that he wouldn't pay so-called "high prices" for paint. "That's where you're making your big mistake," jumped in my spouse. Then the pride of the Stuarts really dressed Dad down. He pointed out that cheap house paint, by not standing up well, costs far more money in the long run. He maintained that really good paint is inexpensive insurance. Well, Dad sputtered a bit, then stoutly declared that since the war sufficient good paint couldn't be had. "Not according to the world's largest manufacturer of paint," says my best beau. "And you'd be surprised at the improvements they've made to give a longer-lasting, better-appearing paint job than ever before."

A few days later I discovered Dad had been checking up on a few things. "Speaking of improvements in certain paints," he began, "chalking is a good example." For my benefit he explained that chalking provides a self-cleaning feature in good paint. The chalk with clinging dirt and dust is gradually washed away during rainfalls. It seems that in the new Sherwin-Williams paint, chalking is rigidly controlled to prevent wearing down too quickly. This control provides an extra year of fresh appearance for a paint job. Dad got excited too, about a new control of oil penetration. He explained that a method had been found to prevent vital oil from soaking into the wood. Through a new process, developed by Sherwin-Williams, much of the oil is held in the paint film to make a better-looking, more durable film with fewer brush marks and more uniform thickness. "Until we have our own home to paint, I consider SWP has done enough for me; I overheard Dad telling one of his friends, 'That new son of mine—good head on his shoulders!'"

Hair beauty secrets... by Toni

This charming coiffure is perfect for the pear shaped face. The soft half halo effect of the bangs gives just the right balance—and what's more, it's easy to care for, easy to set yourself at home. The back hair should be shoulder length, and the bangs should be tapered to about 6 inches. To dress: top pin curls are waved into bangs (1) and the two identical side sections are brushed into rolls (2). Back curls are in 6 vertical rows, alternate left and right, and when brushed out, they are swirled up the back and anchored with combs. (3) Of course, a good natural looking permanent is a necessity to keep this hair-do attractive.

Walter Labay Earns Agriculture Award

Walter Labay, who has taught Vocational Agriculture in Spur High School for five years, will be awarded a certificate for meritorious service in his 13 years as a Vocational Agriculture teacher. It has been announced by Texas Vocational Agriculture Teachers Association. Mr. Labay will receive the certificate in San Antonio on July 28 at a meeting of the Association. Such awards will be presented to teachers of Vocational Agriculture as the first ever awarded by the Association.

Interior Modes... by Toni

Summertime turns every homemaker's mind toward thoughts of how she can make her home look cool and inviting while still keeping work at a minimum. A smart housewife knows that a cool-appearing room can go a long way toward making summer weather more bearable. One way to achieve this cool, comfortable look and eliminate extra work is to take down heavy curtains and the winter draperies. But the best trick is to follow this young lady's good example of pulling down the window shades before spending her leisure hours outdoors sun bathing or gardening. To keep the room cool, draw the window shades to the sill during the hot part of the day. Cloth shades insulate against excessive heat and will make the room as much as 10° cooler... a welcome relief on sultry days.

The Texas Spur Weekly Scrapbook

WEEK'S BEST RECIPE: Graham Cracker Shortcake: 1-2 1/2 finely crushed Graham crackers (18), 1 c sifted flour, 3 1-2 t baking powder, 1-2 t salt, 2 T sugar, 5 T shortening 1 egg, well beaten, 1-2 c milk, soft butter. Mix and sift crumbs, flour, baking powder, salt and sugar. Cut in shortening with pastry blender until shortening is evenly distributed and mixture resembles coarse meal. Combine egg and milk. Add to dry ingredients, mix quickly to form soft dough. If sticky, sift in two more tablespoons of flour. Turn on floured board, knead gently. Roll to three-eighths thickness. Cut into rounds spread half of rounds with soft butter, top with remaining round. Bake in hot oven 10-12 minutes. Separate at buttered slit, serve either hot or cold with fruit between layers and over top. Add whipped cream if you desire. SO THEY SAY The full, long skirts will continue to be popular for the summer but the forecast for fall styles is another thing. The skirts will continue to be long, street length at 12 inches, but the decree is for a return to the hobble skirt. The split, to facilitate walking, will come in the front, shorter ones on each side or even the middle have buttons for fastening. Flared hips, hiding the hips that are too plump will be extremely popular. The peplums hang uneven, many of them hip lengths in front and dipping down to knee length in back. The apron front with the combination bustle back will be very good. The skirt may be slim and straight, but many designers are draping over many numerous folds of material pulled tightly over the hips then puffed in at the back. GARDEN DESIGN: Transplanting in the garden, give thought to the effect when flowers are in bloom. Consider the size of the house, the lot, the family's taste. The year plants in together, having your arrangement simple, therefore beautiful. Don't clutter up the beds, putting little plants of plants here and there. Blend all parts but have a definite focal point. Let your garden offer a "surprise", having choice arrangements back of the border plants. William Gollmar, student at N. T. A. C. was home for the week end and remained over until Monday of this week.

Farmer Gets Big Check From Baker

The nation's daily bread — and pies, cakes, doughnuts and sweet rolls — require so much farm produce that the bakers of America are very near the top of the farmer's list of "best customers." This close economic relationship of baking and agriculture is illustrated above by the check for \$70,000,000 which the bakers spend annually for farm produce. The baking industry has equal stature by other measurements, according to the American Bakers Association, baking ranks first in the food manufacturing industry — number of employees, motor vehicles, plants, volume of sales, and size of payroll; and second in value of products. The industry is now nearing the three-billion-dollar total for annual business. Recent studies show that while less than 50 years ago about 10 per cent of all bread was baked at home, 90 per cent or more today is baked in the nation's 50,000 bakeries.

BINGO PARTY

The Knights of Pythias lodge are having a Bingo party on Thursday evening of this week at 8:30 o'clock in the lodge hall. Members of the lodge and their families are urged to come and bring a friend.

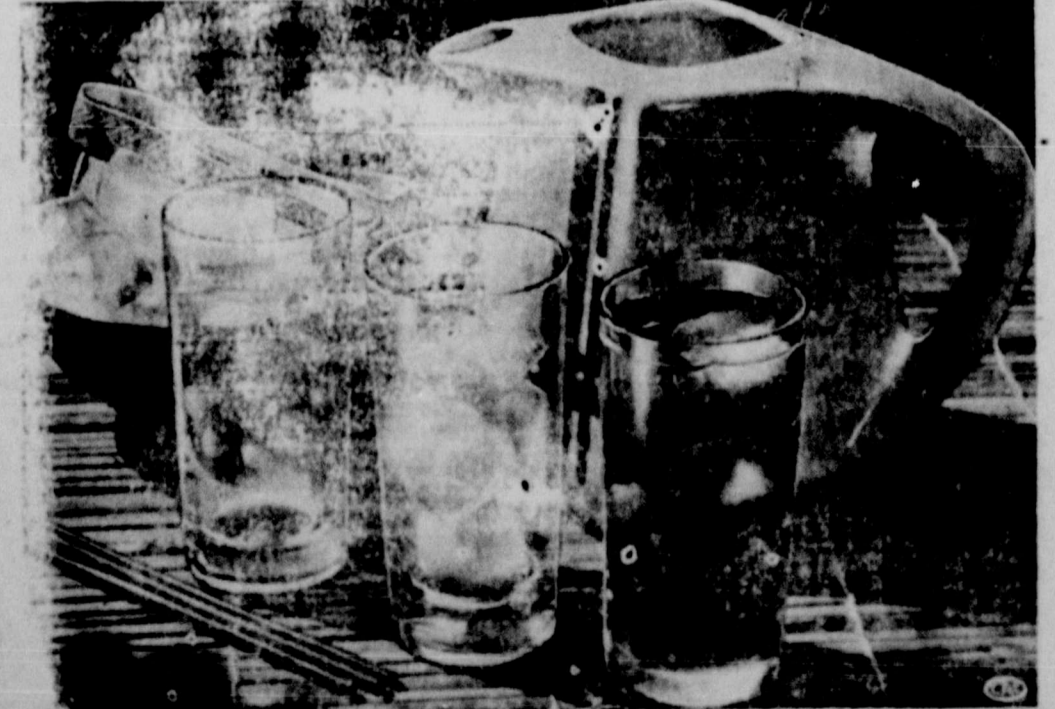

Lem Waldens Vacation In Colorado

Mr. and Mrs. Lem Waldens returned last Friday night from a trip to the cool Colorado where they saw plenty of snow; in fact on Saturday before their arrival there on Wednesday, a big snow fell. They stated they slept under two blankets all the time they were there. While they were away they visited relatives and friends in Clayton, New Mexico and Texline. Mr. and Mrs. Waldens had with them over the past week end, their son, Sgt. Leroy Waldens and wife and Mrs. Walders of Lackland, San Antonio, and also a friend, Sgt. J. W. Wheeler of San Antonio and Mr. and Mrs. L. D. Walden and baby of Lubbock. They all returned to their homes on Monday of this week.

FALSE ECONOMY DESTROYING VETS MENTAL CARE SYSTEM

Six thousand war veterans are entering mental hospitals every month, but the vast majority of them could be spared that ordeal were it not for Federal penny-pinching. While the government squanders millions of dollars teaching veterans how to tend bar or how to dance, a wave of false economy has hit the mental hospitals for veterans, causing a serious curtailment of services, according to an article by Albert Q. Maisel, in the July issue of Cosmopolitan magazine. More than 475,000 veterans of World War Two have already been adjudged mentally disabled by strict Veterans' Administration Disability Rating Boards, Maisel points out, declaring: "Of all this great swarm of mentally troubled veterans, the vast majority could be saved from mental disease by modern treatment. Instead of increasing the number of doctors, nurses, attendants and others who care for the mentally-ill veterans, the personnel of our mental hospitals has been sharply curtailed in the last few months Maisel declares. "Many of the best physicians have already left the veterans' mental hospital service," he states. "Hundreds of employees have been laid off because of an alleged 'lack of funds.' Essential services have been cut and cut again." Such "economy" is the sheerest kind of nonsense, according to Maisel, who points out that the future cost of this "economy" will be terrific. "All this may seem to save a few millions now," Maisel asserts, "but like the phoney economies that followed the first World War—the false savings that wrecked our veterans' hospital system once before—these discharges and cutbacks will cost America infinitely more both in money and in wrecked lives than they will ever save. "Men who could, with prompt and proper treatment, be quickly discharged from these hospitals, begin to linger in them and to deteriorate, solely because reduced staffs cannot adequately protect them from themselves and from one another, cannot provide that full measure of service and treatment which would carry them over the hump to a complete cure and rapid discharge. "We can save most of these men—your neighbors and mine. But we will not be able to save 43,000 of these men uncared for in the early stages of their mental disorders, will, sooner or later, require prolonged and far more expensive hospital treatment."

How To Make Iced Coffee

THERE'S nothing like Iced Coffee to take the stizzle out of summer, leaving you perked up and cooled off. But it's got to be good iced coffee... darkly rich in color, sparkling clear and full of real coffee flavor. Start by making good hot coffee and transform it into iced coffee by either of these two methods.

DOUBLE STRENGTH METHOD
1. Make coffee double strength, by using half the amount of water to the usual amount of coffee.
2. Pour hot over ice cubes in tall glasses. The extra strong coffee allows for the dilution caused by the melting of the ice.
3. Serve with cream and sugar.

PRE-COOLED REGULAR STRENGTH METHOD
1. Make coffee regular strength.
2. Cool in a non-metallic container for not more than 3 hours. Or, if the container is tightly covered, chill in refrigerator.
3. Serve in tall glasses with ice, adding sugar and cream to taste.

Vary your iced coffee service by adding a big scoop of ice cream to each glass. Or serve it with whipped cream flavored with a few drops of vanilla, cinnamon or nutmeg.

the Church of Christ
Spur, Texas
Presents
EVANGELIST CECIL E. HILL
San Antonio, Texas
IN A SERIES OF Gospel Meetings
From Friday of July 16 to Sunday July 25
With Services Daily at 10:00 A. M. and 8:00 P. M. (Sunday Services at 11:00 A. M.)

EVANGELIST HILL

Brother Hill did the preaching in a series of meetings two years ago. The people who heard him learned to love and to appreciate his great sermons. They will desire to hear him again. The people of Spur and Adjacent Communities are most cordially invited to hear this man of God from time to time. Fine gospel singing under the direction of a capable leader will feature every service.

Stamford Production Credit Ass'n Program For 15th

A large attendance from among 1,600 members of the Stamford Production Credit Association is expected at the 14th Annual Stockholder's meeting to be held in Stamford, Texas, on July 16th. Registration is to start at 11:00 a. m. at the Texas Cowboy Reunion Bunkhouse. From 11:30 until 1:00 a chuck wagon dinner will be served to members of the Association and their families.

Following the chuck wagon dinner a brief session will be held in the grandstand of the arena. This business session, beginning at 1:00 p. m. together with the entertainment program at 2:30 is open to the general public in addition to association members and their families.

In the business session reports from the Board of Directors and the Secretary-Treasurer will be given. The Association and its members will be honored by the presence of C. R. Arnold, Production Credit Commissioner, from Washington, D. C. who will make an address.

At the end of the business session at 2:30 attendance prizes will be awarded to PCA members and their wives. As an added feature the Rev. Jas. W. McClain, the original Dr. I. Q. of radio fame, will have charge of this part of the program. The final event of the program will be a matched calf roping contest between two widely known ropers, Fred Albright, Benjamin, Texas, and Tince Williams, Mobeetie, Texas.

The general public is invited to the afternoon session in the arena beginning at 1:00 p. m.

Former Spur Man Dies in Crosbyton Thursday, July 1

Funeral services for Vergil H. Davis, 72, were held Friday afternoon at 4:00 o'clock at the First Baptist church of Crosbyton, with the pastor, Rev. Carl Grisson, officiating. Burial was in the Crosbyton cemetery with King funeral home in charge.

Mr. Davis passed away Thursday evening, June 24, at his home. He had been a resident of Crosbyton for the past 35 years. He was a member of the First Christian church and was a fine, upright citizen who will be missed by all who knew him. He had been crippled for many years but was always cheerful.

He was born in Kentucky, December 23, 1876. He came to Texas with his mother at the age of two years and settled in Hill county. When he was eight, the family moved to Seymour where he grew to manhood and was married to Miss Essie McMurry. They moved to Spur and Dickens and later came to Crosbyton where his wife passed away in 1916. One daughter was born to this union.

In 1917 he was married to Mrs. Effie Ball of Waco, and to this union was born one son. He is survived by his wife; a daughter, Mrs. Carl Gunn of Crosbyton; one son, V. H. Jr., of McGregor; a step-son, W. D. Ball of Colorado; three step-daughters, Mrs. George Millan of Espanola, New Mexico, Mrs. Maude Chrisler of Waco and Mrs. Nora Pierce of Austin; four brothers, three sisters, 14 grandchildren, and three great grandchildren.

R. R. Smiths Wed 50 Years, June 27

June 27, 1948 marked a half century of wedded life and a Golden Wedding celebration for Mr. and Mrs. R. R. Smith of Spur, a reception honoring the couple was held that Sunday in the home of one of their sons, Mr. R. C. Smith.

Mr. and Mrs. Smith were married in 1898, and came to Dickens county in 1900. They have lived in or near Spur since that time. Four of their six sons were present for this occasion.

Eddie Bob Smith, a grandson, assisted by his wife and Mrs. Chae Smith, served punch and cake from a lace laid table decorated with red roses. The white wedding cake was symbolic with its tiers outlined in gold.

Relatives present for the occasion were: Mr. and Mrs. B. E. Smith and children of Wink, Texas, Mrs. Jack Smith and son, Richard, from Moanahans Texas, and Mr. and Mrs. Otis Smith, Mr. and Mrs. O. K. Smith, Mr. and Mrs. R. C. Smith, and Mr. and Mrs. Eddie Bob Smith all of Spur.

YOUR CUSTOMER SPEAKS

In an effort to determine consumer demand for certain durable items, we listed eight and asked the consumer "To please check the items below which you need now and would buy now, provided things were favorable for immediate purchase." The items listed and consumer preferences were as follows:

- 52% would buy a new automobile.
- 35% would buy furniture.
- 30% would buy a refrigerator.
- 25% would buy a cooking stove.
- 16% would buy a console radio.
- 10% would buy a table radio.
- 7% would buy a used automobile.
- 2% did not answer.

We then concluded with "which of the above items would you buy first?"

- 34% would buy a new car first.
- 14.6% would buy furniture first.
- 13% would buy a refrigerator first.
- 12% would buy a washing machine first.
- 11% would buy a cooking stove first.
- 4.7% would buy a console radio first.
- 3.7% would buy a used automobile first.
- 3% would buy a table radio first.
- 4% did not answer.

Minor Home Repairs Bring Major Results

Minor home repairs will bring major results to homeowners in the prevention of large repair bills later on. Summer time is a good time to check the outside of the home and make needed repairs.

Five major spots to be checked start with a good foundation. Then cornices, window frames and trim in that order. Take a good look at the roof, and don't forget to check gutters and down spouts.

Small cracks in the foundations or masonry walls can be repaired by filling with asphaltic cement, while large cracks should be chipped out to half an inch or more and filled with cement mortar. Use caulking compound in cracks between walls and window frames, or where the chimney joins the house or other joints.

Replace badly worn and warped shingles and boards, whether walls or roofs. Split warped wood shingles on the roof and renew them perfectly flat. Seal Clapboard joints with paint and doubtful joints in composition roofing with pitch.

Replace rotted wood around wooden cornices, window frames and trim. If retinting is all that is needed, set and putty each nail. Check metal flashings on dormers and chimneys for looseness, corrosion or lack of paint. Resolder broken joints on gutters and downspouts and repaint the inside of gutters with metallic paint. Replace loose nails and straps holding gutters and downspouts.

Khyber Pass is on the border between Afghanistan and India.

Texas Farm Safety Campaign Spurred

"Farm safety is not a one-week job," state plans for Farm Safety Week in Texas, July 25-31. The goal of the 1948 Farm Safety program is the elimination of 30,000,000 farm hazards.

Agriculture ranks third among industries in the number of people per thousand workers killed each year by accident. Farm people of the 25-44 age group—the most productive group—are most often killed in farm accidents. Motor vehicles are the cause of the largest number of accidents on the farm.

Texas State Farm Safety Committee met recently on the Texas A. & M. Campus to formulate a year-round farm safety campaign. "It is imperative that farm safety be emphasized 52 weeks of the year," said the chairman of the group.

Accidental deaths on farms are caused by falls, machinery, animals, motor vehicles, burns, or shocks, improper handling of equipment, and falling objects, the committee pointed out. Most of these could be eliminated through "safety consciousness" on the part of every member of the family.

After these questions have been answered, the specialists point out, quite often the home-maker finds that she can eliminate a number of unnecessary steps. Rearrangement of work centers are often the result of such studies of housework. "Leave out any part of a task you can," the specialists advise. "Use the best tool for that particular job. Sit to work whenever you can. Keep everything within easy reach. Make one job of two or more, and finally, make both hands work." After all, life's span is too short at it's longest and woman should not spend all her life in needless toil.

Runs Dozens of Farm Machines

DETROIT, MICH. — A new portable power source that can be easily carried to any job is taking the drudgery out of many farm chores. Multi-Tool will deliver up to 1 1/2 h.p. at a wide range of speeds controlled by finger-tip speed selector. In addition to driving pumps, separators, grindstones, etc., it has a flexible utility shaft connecting for operating shop and hand tools. Multi-Tool was developed by Continental Motors Corporation.
