## Wellington Wins Regional Crown

Wellington High School Sky-rocketers came to town Saturday afternoon and left with a 9 to 2 win over the Spur bulldogs and the Region I baseball championship.

Wellington's nine won the ball game in the first inning when they scored three runs on three hits, and an error. This was more than one run enough to win the ball game, but the visitors came back in the second inning to put the game on ice with a six-run outburst. They scored on three hits, hit by pitcher, base on balls and an error.

The bulldogs tallied in the second inning and saved themselves a white-washing. Two of their three hits during the game were good for 2 runs. Smith led off with an infield out. Pitcher Joe King pumped a single into left field, stole second and went to third on a wild pitch. Darwin Callahan was safe on a fielder's choice Callahan stole second and went to third on a passed ball as King scored. Melvin Lindsey punched a single to score Callahan, ending the rally for the bulldogs.

Bobby McCutchen, Wellington pitcher was scarce with his hits and held the bulldogs in check, allowing only three scattered singles during the game. King, losing pitcher, pitched airtight ball after the two disastrous innings, first and third. He matched McCutchen pitch for pitch. He allowed a total of 8 hits, two of them for extra bases by Norman, Wellington Catcher, who blasted a triple and a double.

## Hundreds Expected To See Best Show in West Texas; Spur School Band To Lead Parade

## JOTS BY JOE

JOTS was very disappointed in the citizenship of Spur Monday p. m. . . Only a small crowd was on hand for the Memorial Day Services conducted downtown . . . A very nice address was delivered by Willis Jernigan, minister of the Church of Christ . . . it was a pity that only a few were present to hear this wonderful message . . . and to pay tribute to those who gave their lives in order that we may continue to live in Peace and Freedom . . .

Although we do not ordinarily publish unsigned letters, we think that the following letter written by an out-of-towner, deserves special attention, and are publishing it herewith.

"The Texas Spur, Spur, Texas  
Dear Editor:

"In beginning this letter I would like to express my congratulations to the men who participated in the Memorial Day Services last Monday. They did a wonderful job. However, I was amazed to see such a small turnout of Spur people. What's wrong? Have the people forgotten the men who gave their lives for the freedom of our country and this community in which we live? It's rather hard to understand why we can't take a few minutes from our work to attend these services, when those men who fought for our freedom gave their lives.

It is very obvious that we are un-aware of our National Anthem. There were only a small number of people who stood and paid tribute to our country when the National Anthem was sung. Some even continued to keep walking down the street. WHAT'S WRONG? Surely we think more of our flag and the country in which we live than was shown by some on the streets of Spur last Monday.

Let's educate ourselves. I think we will find that it doesn't require an over expendable amount of energy to stand and pay tribute to our National Anthem.

Sincerely,  
A Citizen.

P. S. Although we do not live in Spur, we are still a part of these United States."

"30" for this week—but watch for me at the rodeo . . . I'm scheduled to come out of chute No. 1 on blue-tail '3y . . . be seef' yu pardner."

## Dickens County Expects Bumper Wheat Harvest

Farmers of Dickens County are expecting a bumper wheat harvest, according to information from County Agent Chas. Taylor. Harvesting in the county will get underway sometime next week and the yield is expected to be good, Mr. Taylor stated.

Mr. Taylor urged that farmers begin construction of storage space for their wheat. According to information received at his office, storage facilities will not be available for storing wheat in elevators for government loans. In view of this fact, farmers are urged to construct, repair, or otherwise prepare a place or storage, if they expect to get the price guaranteed by the CCC.

The wheat loan rate for Dickens County will run about 1.87 per bushel, Mr. Taylor said. This is about 40c per bushel less than the present price. This factor alone will pay for the additional farm storage needed to care for the wheat. Loans for grain sorghum has been set at 2.03 per hundred pounds; oats at 0.73 per bushel and barley at 1.03.

## Early Pioneer Of Dickens County Dies At Pampa

Mrs. Emma Dunwoody, age 81, pioneer settler of Dickens County, died at the home of her son, Guy Dunwoody, in Pampa, Sunday, May 29.

Funeral services were conducted at 3 p. m. Tuesday in the Central Baptist Church of Pampa. Mrs. Dunwoody was born in Arkansas and came to Dickens County as a bride, long before the county was organized. She settled in Dickens, and resided there from 1889 until 1927. Her husband, who preceded her in death several years, was the first County Clerk of Dickens County after the organization of the county in 1891. He served two terms. Other members of the official family of Dickens at that time were: W. L. Hyatt, county treasurer; Jeff Harkey, sheriff; J. D. Couch, tax collector.

Mrs. Dunwoody had resided in Lubbock, San Barbara, California, and Pampa since leaving Dickens in 1927.

She is survived by one son, Guy Dunwoody of Pampa; two daughters Mrs. Paul Hardwick, Lubbock and Mrs. Mary Potts of Santa Barbara, Calif.

LORETTA YOUNG, VAN JOHNSON and RUDY VALLEE in a scene from 20th Century-Fox "MOTHER IS A FRESHMAN." Color by Technicolor.

Capitalizing on the current trend towards realism, Twentieth Century-Fox has given the campus a fresh new look which the rah-rah brethren of the raucous twenties and the 'cantie thirties wouldn't recognize.

According to previewers, the

technicolor comedy, "Mother Is a Freshman," starring Loretta Young and Van Johnson, due Sunday at the Palace Theatre, is a college movie where students really act like students, with no chorus of shapely chorines, no absent-minded professor or not

even a game-winning, last-minute touchdown in the final reel.

Instead, there is projected against a realistic college background the novel story idea of a lovely young widow, who, financially embarrassed after years of luxury, discovers that she is eligible for a college scholarship. Following her sophomore daughter to the campus, she enrolls as a freshman and promptly falls in love with the handsome professor of English literature, with whom her daughter is also enamored. Seen in the title role, Loretta Young has Betty Lynn as her daughter while the apex of the unusual triangle is Van Johnson, as the youthful professor.

Prior to production, Director Lloyd Bacon made a tour of leading western colleges and universities, finally selecting the picturesque Universities of Nevada for exterior and classroom scenes. This is the third time in two years that Twentieth Century-Fox companies had been in Reno, where much of the background footage for the successful "Marge" and "Apartment For Peggy" productions was filmed.

Headling the "natural" cast of "Mother Is a Freshman" are Rudy Vallee and Barbara Lawrence, while Robert Arthur, Betty Lynn, Griff Barnett and Kathleen Hughes are featured.

**LOST \$32 WITHOUT DET.**

Philadelphia, Pa. — Recently, Bernard Goodis lost his wallet containing \$32. The next day, he received the empty wallet and a note, which read: "Next time you have more money in it and have a better wallet or I will not return it again. I put your money on a horse and, if it pays off, I will return your \$32." Apparently, the horse didn't win, as Goodis hasn't gotten his money back yet.

Los Angeles.—Just an hour before John Lamar, 24, went to the altar to wed Constance Cronk, 20, his mother suffered a heart attack and died in their home. John, his father and the officiating minister kept their secret until after the ceremony, not telling his brother, Louis, Jr., an usher, or his sister, Cyranne, a bridesmaid, until after the reception that their mother was dead.

# Sunday School Lesson

**JESUS SENTENCED TO DEATH**  
International Sunday School Lesson for June 5th, 1949

**MEMORY SELECTION:** "Christ when he was reviled, he did not revile in return; when he suffered, he did not threaten." I Peter 2: 21, 23.

**LESSON TEXT: JOHN 19: 1-16**

The student will notice that while we have been studying the Gospel of Mark since the first of the year, the account of the trial and sentencing to death of Jesus is taken from the Gospel of John, because the Apostle John gives a more detailed account, having been present for some, if not all, of the proceedings, probably being the disciple "who stood afar off."

Immediately after the arrest of Jesus in the Garden of Gethsemane, he was hurried before a group of Sanhedrists who had been hastily summoned together by the chief priest. Since a formal trial could not be held at night, under Jewish law, all that could be done was to hold a preliminary investigation, the object of which was to see what charges could be laid against the prisoner and to determine the procedure to be followed in order that those charges might be pressed against him.

Although they had Jesus in their power, it was not at all easy for them to decide what to do with him. They knew, of course, that he must die but they also knew that there must be charges brought against him which would make him guilty of death and that these charges would have to be proved so that the Roman Governor would pronounce the sentence of death upon him.

Then, there were the people to take into consideration. It being the time of the celebration of the Passover, Jerusalem was filled with religious pilgrims from all over Palestine and among them were the Galileans and their Galileans were proud of this prophet of theirs, True, Judas had told them that this Jesus had claimed to be

the long-promised Messiah of the Jews and while this claim had not been made public in so many words, Jesus had acted with all the authority of the Lord's Anointed, one of the chief reasons why the Sanhedrists had determined to get rid of him.

To have Jesus condemned to death on the ground that he had claimed to be the Messiah might be dangerous. Therefore, they must have him sentenced on a ground which would condemn him in the minds of the people. They decided to bring charges against him of having assailed the temple, which in the minds of the people, was blasphemy indeed. Didn't he predict that the beloved edifice would soon be destroyed? They seized upon this property, twisted it and secured two false witnesses who would testify that Jesus had claimed that he could destroy the temple and, in three days, build it again. Realizing that they could not take Jesus before Pilate on a charge of blasphemy, they trumped up a political charge, that he claimed to be the King of the Jews.

Pilate was in a difficult position for a politician. He was not a bad man, nor an immoral one, but he was a politician, having to keep the Jews satisfied on the one hand, and Rome satisfied on the other. Therefore, he found himself in the position of being unable to take sides in his matter. If he refused to condemn this prisoner, whom he knew to be really innocent of the charges brought against him, he would infuriate the ruling class of the Jews. If this brought about a rebellion, then he would be in disfavor with Caesar. In Rome wanting to do right, but weakly submitting to the wrong, Pilate played politics with the life of Jesus, keeping his office but crucifying his Savior!

So, in the end, the Sanhedrists had their way. Led by them, the crowds shouted: "Crucify him, crucify him!" And when Pilate asked them, "Shall I crucify your King?" the chief priests answered,

"We have no king but Caesar." Then, John tells us, "Therefore, he delivered him unto them to be crucified."

Henry Ward Beecher aptly reminds us, "He who goes about mourning and saying, 'It is too bad, but I can do nothing to prevent it'—he is a Pilate."

Williams, vice president of the club, was selected candidate for the Texas Home Demonstration Association. Mrs. Dea McArthur was game prize winner. Delicious refreshments of frozen salad, hot bran rolls, cookies and iced punch were served to Mrs. W. H. Condron, Dee McArthur, Ollie Hindman, Henry Gruben, Joe McDaniel, John Astor, W. T. Williams and the hostesses.

## HOG LIVES IN WELL IN WELL

Newville, Ala.—A sow, which had disappeared from the farm of J. D. Hatton, tenant farmer, last December 1 and long given up for lost, was found by Hatton after eighteen weeks in an abandoned well. Seeing a snake near the well, while planting peanuts on his farm, Hatton went to investigate, poked into the well and found the sow. Its weight had been reduced from about 300 pounds to about 94 pounds, but it was alive and expected to survive its grueling ordeal.

### TIME TO BUY BONDS AGAIN

Between now and the end of June, the people of the United States will be asked to purchase not less than \$1,000,000,000 worth of savings bonds, with the assurance that such an investment will provide security for the purchasers and add to that of their country.

Some three million volunteer workers are expected to participate in the National Savings Bond program and they will be assisted by thousands of newsboys who are expected to carry the message into millions of American homes. State and county quotas will be assigned and every effort will be made to complete the sale job.

During the war, when the United States was fighting for its life, there was a general appreciation of the necessity of buying war bonds to support the activities of the Government. Today, while not engaged in actual warfare, the nation is assuming extra-ordinary expenses closely associated with the security of the nation and the preservation of individual liberty in the world.

Under the circumstances, the people of Dickens county, will, we have no doubt make an effort to reach the quota assigned to them. Doing so, they will be expressing not only their loyalty to their country, but also the wisdom that persuades individuals to save now for a rainy day.

It is needless to say anything about the security of the bonds offered for sale by the United States of America. Whatever money is invested in them will be safe. Consequently, we do not hesitate to urge every citizen to purchase at least one bond, with the size to be determined by the financial condition of the buyer.

### DRUNKEN DRIVERS

Thousands of good people will be killed on the highways of the United States before the year 1949 ends.

There seems to be little public indignation over the slaughter. The average automobile driver, acquainted with the natural hazards of the road, hesitates to incur drastic penalties through the fear that some unavoidable catastrophe will land him in the hose-gov.

There was a time when high speed were

blamed for most of the accidents but the years have produced better cars and higher speeds. What would have been criminal carelessness in the twenties is considered reasonably safe in the forties and twenty years from now the dangerous speeds of today may be routine.

There are certain recognized criminal acts in connection with motor vehicles, however, that will continue to be condemned. Driving an automobile under the influence of alcohol is an example. It is dangerous, not only to the driver but to all who use the highway. It should be severely punished and yet, in many instances, convictions are hard to secure and punishment is avoided.

The drunks are public enemies when operating automobiles and should be "persuaded" to let others drive in place. Just because "nice people" sometimes commit this offense is no reason to encourage the habit. It is a crime and should be promptly punished as a crime. To do this will save some lives in 1949.

### CONTRIBUTED NEWS

The Texas Spur is always glad to receive proper news items from those who read it. However, if your news item is not published, don't blow up.

For one thing, you might have forgotten to sign your name. For another, you may have waited too long to send in the news, which may have been printed in an earlier issue which you did not see.

"Yes," we hear a lady exclaim, "but my article was omitted last week when I sent it in on time and another account of the wedding printed that was not as good as mine." Now, listen there! Ladies always present problems. Anyway, here's the answer:

Very often a newspaper gets two accounts of such important events as weddings. We have received, on occasion, an account of a wedding from the bride, the groom's mother, bridesmaid and one friend. We couldn't print 'em all. And, when the best account came in, we had already put another into type.

So, Watson, the mystery is solved. Give us a pipe, or want to smoke.

## MOST TEXANS PAY LITTLE ATTENTION TO LAWMAKERS

By Joe Beiden  
Director, The Texas Poll

AUSTIN, Texas, June 2—Most Texas voters don't know how much a member of the Legislature is paid. Lacking this basic information, the public today is not prepared to support a raise in pay for the lawmakers.

This finding by the Texas Poll indicates that a proposed constitutional amendment to be voted on September 24 may be defeated unless its backers conduct an effective selling campaign. The amendment, besides giving each lawmaker an annual salary of \$3,600, would require the Legislature to meet in regular session every year instead of every other year.

Eight out of every ten qualified voters questioned in the latest statewide survey by The Texas Poll were found to be either uninformed or misinformed about how much pay a lawmaker receives from the state. Even so, the weight of opinion among this group was that the legislators are receiving about the right amount or too much. Only 14 per cent felt they were being paid too little.

On the other hand, only about two out of every ten qualified voters were found to be informed about legislators' pay. Fifty per cent of those said they thought the lawmakers are underpaid.

The poll shows that voters, as a group, are slightly better informed than the general public because they pay more attention to what goes on in the Legislature. However, about four out of every ten voters admitted they pay very little or no attention to what goes on in the Legislature. However, about four out of every ten voters admitted they pay very little or no attention to legislative affairs.

Interviewers in all parts of the state put these questions to a cross section of the adult population: "Do you think members of the Legislature are paid too much, too little, or about the right amount?"

No direct questions were asked about the proposed pay-raise amendment because not many people are familiar with its provisions. The fact that the amendment includes the requirement of annual sessions may have some effect on its chances of approval.

In a special section four years ago, however, Texans voted 3 to 1 against increasing legislators' pay.

The lawmakers are now paid for only the first 120 days of a regular session, and \$5 a day thereafter if the session lasts longer than 120 days. For special sessions, which last 30 days, members are paid at the rate of \$10 a day. Regular

**Veterans Buy 18 Dairy Calves**

This section of the country now has the nucleus of a high producing dairy industry, as 18 choice dairy heifers and two Holstein bulls were distributed last week throughout Dickens and Kent counties.

Dairy cattle numbers in the U. S. as a whole, are at the lowest point since 1939, while there has

been a population increase of some 10 million people during the same period. It is also noted in the last Texas Agricultural census that the average milk cow in Dickens and Kent counties produced less than 2 gallons of milk per day for a 10 month milking period.

In view of these statistics the members of John Montgomery's veterans class commissioned Alton Jones of Girard and Russel Welch of Jayton to go to Phoenix Arizona, to bring back a truck

load of the best dairy calves available.

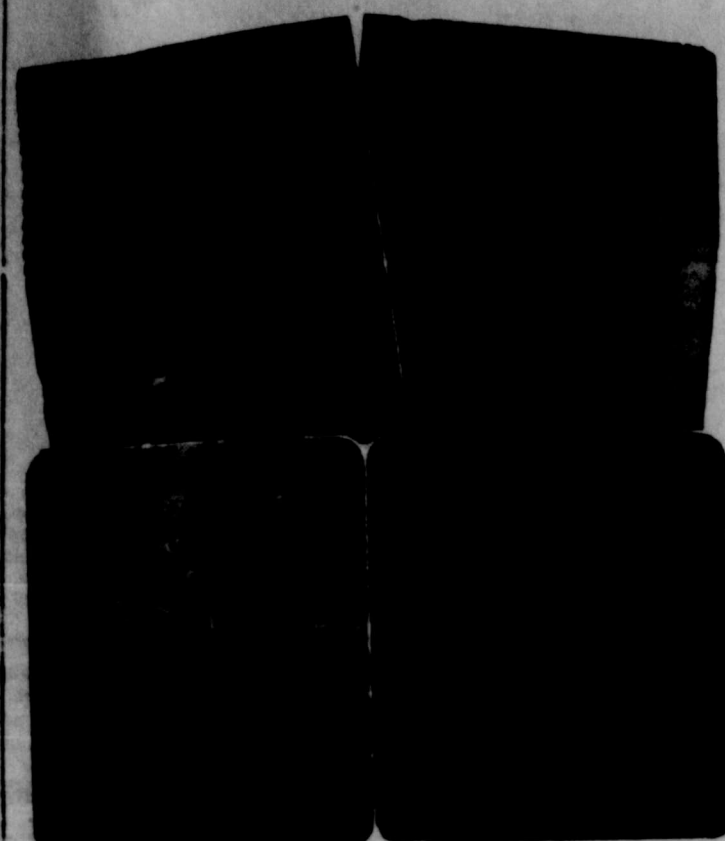

This was a non-profit venture with the main objective being to raise the dairy potential to a profitable level and to add to the diversification of the farms in his area.

The following men received Holstein heifers: Rusty Welch of Jayton, Buddy Page, Rufus Page, Alton Jones, Don Spradling, and Warren Fincher of Girard and Durwood and Jimmy McArthur of Spur.

Jerseys and Guernseys went to Walter Erath of Spur, Buddy Page of Girard and John Montgomery of Jayton. One Ayrshire went to Rusty Welch.

The two Holstein bulls were placed with Warren Fincher and Alton Jones and will be available for service at a small fee in 6 or 8 months. These are outstanding bull calves from very good cows and should prove popular in this area.

Although not completely rested from a 30 hour truck ride, the

calves were very satisfactory in type and official DHIA records showed that the dams of these calves are now producing 6 or 6 to over 10 gallons of milk per day.

Everyone receiving calves seemed more than satisfied and it is hoped that a large load of this kind of calves can be brought in for distribution in the near future.

**HEALTH NOTES**

**AUSTIN, Texas, June 2**—There is an old slang expression that would make a good slogan for living a longer and more comfortable life, and that is "Be your age." According to the State Health Officer, Dr. Geo. W. Cox, many persons injure their health and endanger their life through indulgence in exercises and vigorous sports unsuited for their age and physical condition.

"While a young man in prime physical condition may benefit from a fast game of tennis, older

men and women have been known to collapse and suffer serious heart attacks following such a game. The same thing applies to golfing, swimming and other vigorous sports," Dr. Cox said.

During the hot summer months, it is of especial importance that you know your physical limitations, and indulge in only such activities as will benefit, and not harm your physical condition.

"Persons of middle age should never participate in activities requiring violent physical exertion, and should confine their physical exercise to such bounds as doctor prescribes," Cox asserted.

The State Health Officer suggested that all persons of middle age be examined by their physi-

IT SOUNDS IMPOSSIBLE! But Joseph A. B. Casso of New York City says claim to the fact that he can write seven hundred prayers on a piece the size of a dime.

Too much prayer for a little money — yet many have many prayers and connect it with a dime.

So we urge you to come to the prayer service each Wednesday evening for worship and prayer. For prayer will open hearts' purses, enlarge vision, give strength for the remainder of the week, and prepare for the Sunday services.

We had two good services Sunday. Won't you do your part in making the services better next Lord's day?

Bring your friends. Welcome.

He and his wife have been in China for more than 25 years, have buried a child there, and have a son, daughter-in-law and grandchildren there now. He has just come back from China and can tell you more about the conditions and possibilities than any man we have heard. We cordially invite you to hear this Missionary, June 29, 1949 in the First Baptist Church at 8:00 P. M. (You had better come early to get a seat).

Espuela Baptist Church disbanded and presented equipment and building to the Soldier Mound Baptist Church with understanding that the building could be when and where it so desired.

Soldier Mound Church plans to remodel and add to the building. Until that time, the church will hold its services at the Espuela Church.

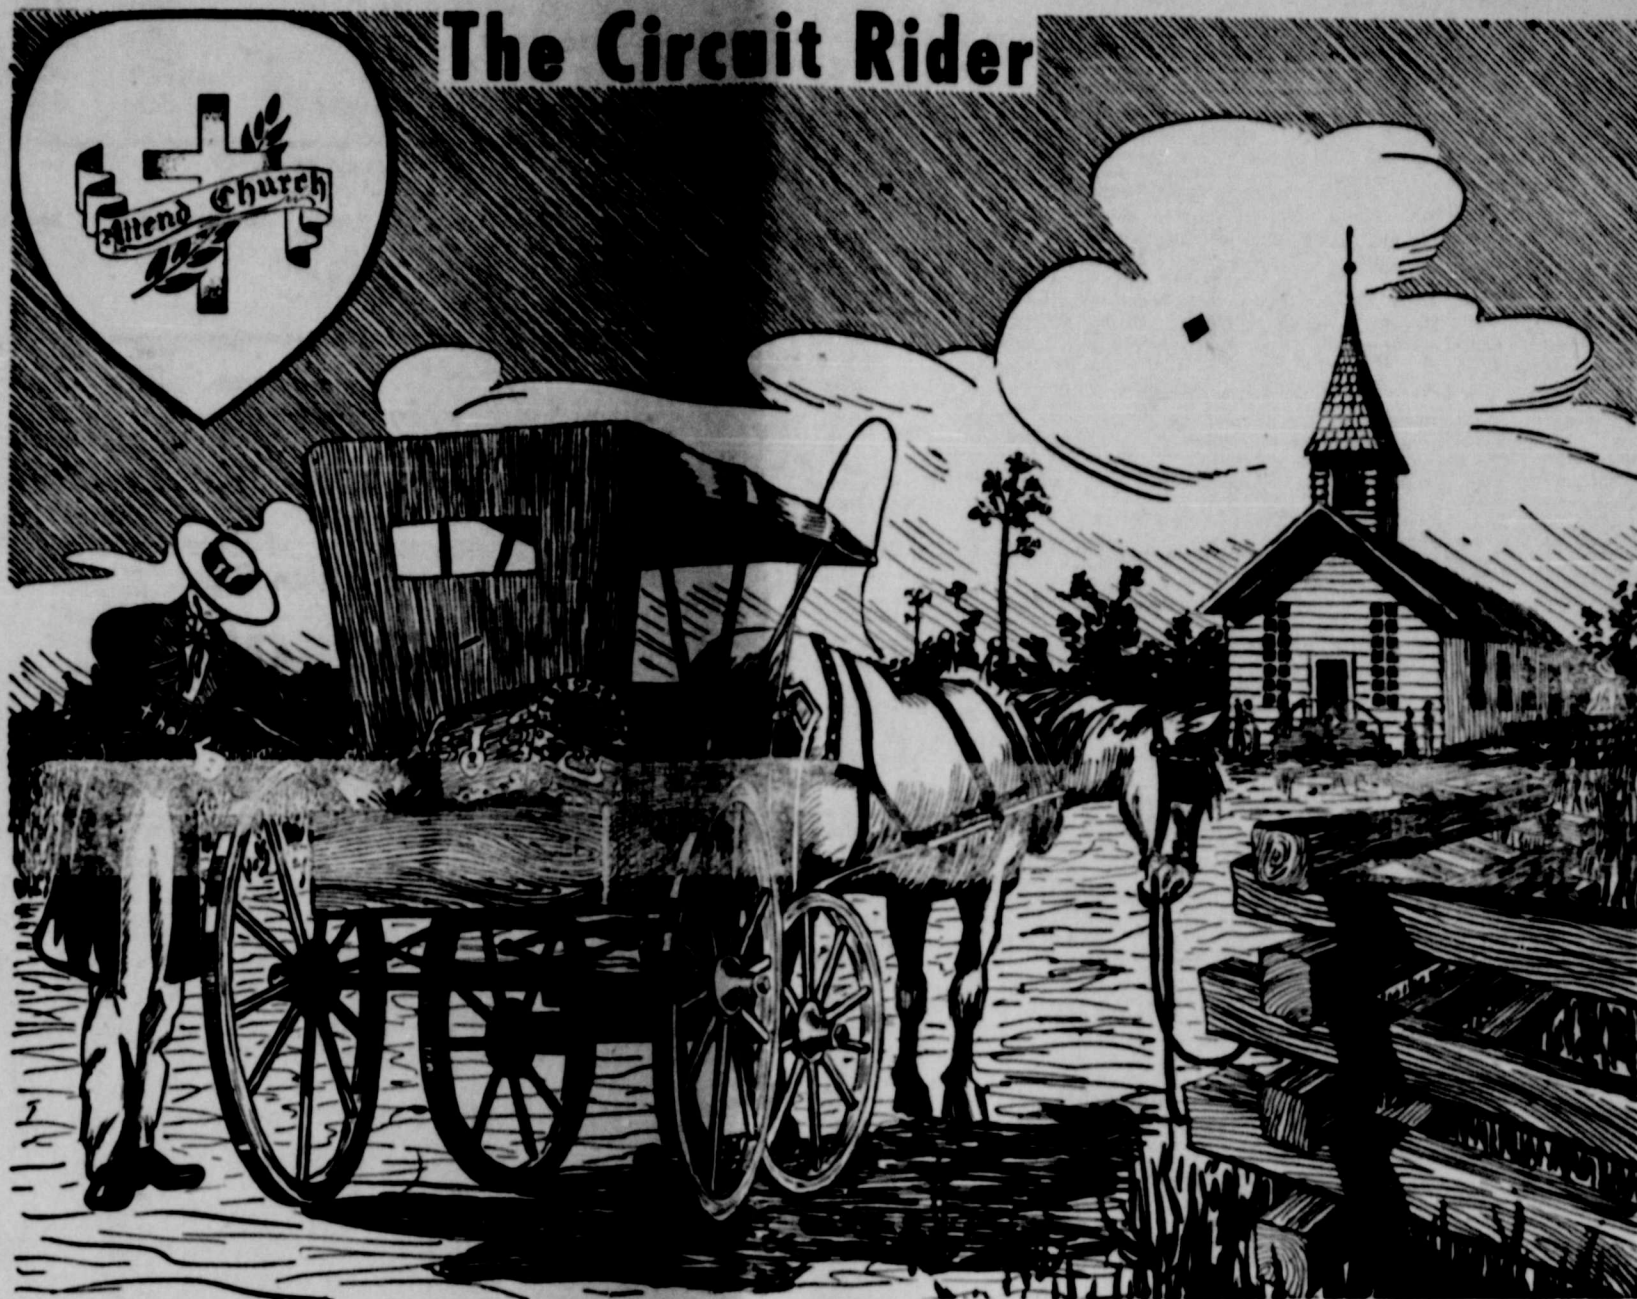

Singing will be held at the church the first Sunday of each month starting June 5.

**The Circuit Rider**

We who live in the comfortable days of the Twentieth Century may do well to cherish and honor the memory of the vigorous servants of another day without whom we could not enjoy the blessings of our time. Among those noblemen of another day we must count the Circuit Rider of the churches.

They were "Prophets of the Long Trail," on horseback and by boat and by buggy, making their way along the bridle paths and the fresh trails of the frontier settlements, or down the streams along whose shores men had built their homes and their hamlets. Of one of them we have read that he journeyed some 270,000 miles through a long itinerant ministry.

These men were first and last God's men, committed to the work which they believed to be the will of God for them to do. They were "very sons of God" and counted themselves His messengers to the careless and the sinful and the needy. They carried Good News of divine grace and hope for lost men and women, and they spoke it wherever they could get a hearing: in private homes, in empty buildings of every sort, in the open fields, in the busy streets of the city. They asked only for people who would listen.

They were also lovers of their fellows, concerned for the present and for the eternal welfare of men. Many of them were well-educated men who brought into the distance places the news of the world and a careful interpretation of its meaning. They were all imbued with such love for human souls that they counted no sacrifice too great, if they might kindle in a man's heart a love for the Father God. They believed that inner riches were more to be desired than much fine gold. They carried books and Bibles and tracts for the hungry minds, they brought comfort and cheer to lonely spirits, but mainly they brought the Touch of God for the healing of souls.

Thank God then for these good servants of another day; may their memory stir each of us to self-forgetful service of men and of God.
