

Chamber of Commerce Doings: Chamber to Set Up Distribution Office For Dickens County Cotton Choppers

Whoa, Now!

It's easy to publish a newspaper. You never get tired. You never need a vacation. Your head is always clear. You're always bright as a silver dollar. Everyone phones in news. Everybody writes in beautiful letters telling you what a nice newspaper you have. You never have any trouble getting paper.

Everybody pays you on time. You never have to remind people over and over again that their subscriptions are due. If you're late paying a bill, they say it's all right, let it go. You never make people mad at something you have written or haven't written.

Your proof reader never makes a mistake. The front page always looks nice. The ads are always eye-catching. You just sit at the typewriter and write beautiful lines.

People never say your paper is political. They never insist you are taking sides. They always agree that you're independent.

Everywhere you hear the people say you're a good guy. They always say you work hard. The waste baskets never fill up, so nobody has to empty them. The pressman never needs a helping hand to lift forms onto the press. Bundles of paper you receive are never torn so there is never any waste. Your mail galley never gets tied.

People never think of asking you for favors that are entirely out of your reach. After every issue advertisers call you up and say: "Say, that was a honey of an ad you wrote for me last week. Thanks." If an advertiser gives you copy announcing a week-end special, it's always sunny that week-end and the crops don't need chopping so everyone comes to town.

You always have plenty of time to spend with the family. Your little girl never asks: "Mama, have I really a daddy? ... Never do you place an ad upside down. When you mis-spell a person's name, he calls up and says, 'Forget it, it's all right' ... Oh, it's wonderful to be a newspaper publisher. It's so easy. So Simple. (Pilfered)

The Chamber of Commerce will act as a Clearing House to place farm labor in this area. The farmers will phone or write requests to the Chamber of Commerce, and farm labor will be distributed to farmers in Dickens County.

Mr. V. L. O'Farrell, representative of the Texas Employment Commission stated this week in a visit to Spur, that we will receive choppers and that a local man will be employed to serve as representative for Dickens County. Application has been made and approval by the state is pending. The representative will work through the Chamber of Commerce office to place farm labor and keep choppers busy through proper distribution. The labor camp located here in Spur will be a potential stopping place for laborers until they can be placed.

This program is expected to help the farmers of this area in getting crops harvested and to provide them with ample labor.

We have in our city an outstanding group of women who are devoting their time and money to provide Spur with a library. The library is located in the bank building and is used by a great number of people, but most books are out-dated, and there is great need for financial backing to buy books and help pay operating costs. With enough assistance the Spur library could be an asset to our city. The City Federation of Women's clubs is composed of delegates from the 20th Century Club, The 1933 Club, The 1931 Club, The P-T Association, and the 1917 Club. Mrs. Margaret Elliott is chairman of the Library Committee with Mrs. Julie Hickman, Mrs. S. L. Benefield, Mrs. C. F. Cook as members of the committee. Mrs. Wilburn Ball is Treasurer of the Library Committee.

The presidents of the clubs are Mrs. Nell Davis, Mrs. O. C. Arthur, Mrs. Larry Boothe, Mrs. Franklin Patrick, Mrs. George Gabriel, and Mrs. Rynell Bowman. This City Federation of Women's Clubs is sponsoring an old fashioned covered Dish Social, Friday, July 13 at 6 P. M. at the American Legion Hut and you are urged to come and bring the family to help support our library.

Wednesday morning, July 18, Robert W. Frieberg who is a specialist on consumer durable goods will be here in the Chamber of Commerce office to help men on OPS regulations and charts that have been returned for correction.

The Chamber of Commerce wishes to extend a hearty welcome to Messrs and Mmes. R. A. Drennen, Jr., M. L. Gardner, Guin Bailey, W. M. Copeland, R. M. Ryker, and J. R. Gryder as newcomers to Spur and extend an invitation to them to visit the Chamber of Commerce Office.

Former Editor of the Texas Spur Killed

E. Thorn Smith, 46, a former editor of the Texas Spur, died Saturday when he plunged from the seventh floor window of the Jefferson Hotel in downtown Dallas.

Smith had been mechanical foreman for the Winkler County News for 18 months. He had been in the newspaper business for 30 years working on the Odessa American prior to his going to Kermit. In 1947, he leased the Scurry County Times, Snyder, from Willard Jones, and was in partnership with Floyd Raymond. There was no question of foul play, according to Dallas police, who stated that Smith either jumped or fell from the hotel window. Smith was found on the sidewalk by passers-by shortly after 1 a. m. He was fully dressed, but was wearing pajamas under his clothing.

A veteran of World War II, Smith was in the armored division and took part in the first landing in Africa and was in the invasion of Italy. He was married in 1946 and is survived by his wife, three children, two brothers and three sisters. He was a native of Rosalie.

On Thursday, July 19, Miss Berry will be presented in concert by the North Texas State college in Denton, where she has for the past four years been a student of Dr. Silvio Sciolti. She received a bachelor of music degree with a major in piano in June of this year from North Texas.

Dickens County Local Contribution To State School Program Increased

The Dickens county local contribution to the state foundation program has been increased by \$10,350 over that of the school year 1950-51. In order for the schools of Dickens county to obtain the same amount of money used to finance their schools last year, the schools of the county must raise \$10,350 more than they did last year.

The sum of the amount which is charged annually against the local school districts of Texas toward the minimum Foundation Program shall be \$45,000,000. The State Commissioner of Education, subject to the approval of the State Board of Education, assigns each school district, according to its tax paying ability, its proportionate part of the \$45,000,000 to be raised locally and applied toward the financing of its minimum foundation school program.

The local county assignment for 1950-51 was \$41,400; for 1951-52 it is \$51,750.

Education Conference Attended by Cook

C. F. Cook attended the education conference held at the University of Texas last week on the "Nature of Education." Dr. Henry Alvis and L. D. Haskew, both members of the education department staff at the University, were the coordinators of the conference. A series of these conferences is being conducted. The conference this week is especially for school board members with the theme of "State Action for Powerful Schools."

Bruce Browning, East Ward principal, who is a student for the summer session at the University doing graduate work, has also been attending this series of conferences.

On his return trip from Austin, Cook stopped at Denton in his search for faculty members for the Spur schools.

Proctor's, Fireboys Vie For 4th Play-Off Berth Tonight

V. F. W. First to Cinch First Division; Hoover-McAteer Now Leading League

The V. F. W. softball team was the first to cinch a berth in the city league play off with wins last Thursday and Tuesday. Actually, the Hoover-McAteer and City Drug teams have not yet been guaranteed spots in the play off, but it would take four upsets in the league to eliminate either team.

The spotlight this week is on the Proctor's and Fireboys teams, one of which will be eliminated. The Fireboys can cinch only a tie for fourth place and a play off berth with wins over City Drug and the V. F. W. However, should Proctor's drop to Hoover-McAteer tonight, and the Fireboys win both of their remaining games, the Fireboys will enter the play off.

Proctor's, Gabriel's Open Store-Wide Sales This Morning

Spur's two largest independent department stores opened store-wide sales this morning with throngs of bargain seekers filling both stores shortly after 9 a. m.

Proctor's is having a Close-Out sale, offering sale prices on items "wall to wall." Gabriel's July Clearance sale is designed to relocate summer merchandise to make way for new fall lines which the store is now receiving.

Both stores are marking down first quality merchandise to truly "sale prices," offering many items at one-half price.

New Teachers Voted On By School Board

New teachers which have recently been elected by the local school board to teach in the Spur Public Schools next year are Mrs. Clyde Latham, sixth grade; Mrs. Ethel McArthur, sixth grade; and Mrs. Glenn Harwell, fifth grade.

One vacancy in the high school English department was announced by C. F. Cook, school superintendent. Mrs. W. D. Blair has resigned.

Weldon Skinner, who has been elected principal of high school and junior high, will attend Texas Tech the last six weeks term this summer. He has his master's degree from Hardin-Simmons University.

Henry Mullins is now attending Texas Tech and will receive his master's degree in August. Coach Sam Hawkes is now attending T. C. U. working on his Master's degree. J. E. Bachman, fifth grade teacher, is attending Texas Tech doing graduation work in elementary education.

Seven teachers in the Spur school system have their master degrees, Cook stated; and all other teachers; both white and colored, have bachelor of arts or bachelor of science degrees.

Exam To Be Given To Fill P. O. Vacancy

The training given reservists at the center closely parallels that given the regular recruit with certain exceptions, such as drilling. The course, which ends July 14, stresses such subjects as signaling, aircraft recognition, and exercises on mock-up ship models.

The American Legion Auxiliary will have a social meeting and watermelon feast, Monday evening, July 23 at 8:30 o'clock with their husbands as guests.

"Santa Fe" Newest Randolph Scott Hit Film in Technicolor

A story of the men of iron who built a railroad from Texas to the sea comes to the screen of the Palace Theatre starting Sunday. In Columbia Pictures' "Santa Fe," photographed in color by Technicolor, the new film stars Randolph Scott, while Janis Carter has the feminine lead as one of those Western women of fire who inspired the "empire-builders."

Scott is seen as one of four brothers, all veterans of the Confederate Army who in 1846 following the Civil War only one of the four returned home against the victorious Yankees, he sets back the fortunes of the great himself a job on the Santa Fe Railroad, then being built to uncharted frontier wilderness for the iron horse, his three brothers join an outlaw gang which operates along the Santa Fe. Scott gets them out of scrape after scrape. When one of his brothers is killed during an attempted train robbery, he tries to turn them to honest livelihoods. When better automobiles are built BUICK will build them

*Standard on ROADMASTER, optional at extra cost on other Series.

PARDON us if we play switch-phrase, but we aim to flag down some certain people...

Those folks who've always had a great big yen for a new Buick, but a big worry that Buick prices ran too high for their budgets.

Now we'll have to grant you that — on style and beauty and size and impressive appearance — a 1951 Buick looks like a pretty high price tag.

And we'll have to grant, too, that the zooming power and the luxurious ride and the heavyweight steadiness you get in a Buick would also indicate prices beyond the reach of most people.

But honestly, you'll find nothing farther from the truth when you note the price tags on 1951 Buicks.

You'll find that beauty with the big-power, big-mileage, valve-in-head Fireball Engine is really within your budget picture—with prices starting below those of many of today's sixes.

And you'll have to admit then and there that you can have Buick room and comfort, can have Buick ride and handling, can have Buick style and size—for little, if any, more than you've been paying for lesser cars.

That leaves the next step up to you—stopping in to see us.

Come in soon, look over the SPECIAL, SUPER or ROADMASTER you've always wanted — and let that happy glow go surging all through you as you sign up for your smart-buy Buick.

Equipment, accessories, trim and models are subject to change without notice.

More People Eligible For S. S. Insurance

During the first six months of 1951 the Lubbock office of the Social Security Administration has received an average of 175 claims per month for old-age and sur-vivors insurance. This is an in-crease to about 4 times the figure for the same period last year; ac-cording to John G. Hutton, man-ager of the office.

Most of this increase, Hutton ex-plaines, is due to changes made last year in the law, which dras-tically reduced the requirements for eligibility. Under the new rules payments can be made in many cases after as little as six quarters, about a year and one-half, in jobs covered by the law.

The new eligibility rule applies to two types of cases. Retired workers past the age of 65 and survivors of workers who have died since August, 1950. The required six quarters of work may have been done at any time since the law went into effect in 1937 and can be from either steady work or scattered jobs with several different employers.

One effect of the changes, Hutton pointed out, is that a large number of workers, many well past the age of 65, who were not eligible under the old rules, may now qualify for payments. The majority have already filed ap-plications, but Hutton is certain that there are many in the Lub-bock area who have not filed claims and are losing payments.

"We can make back payments for only 6 months," Hutton said, "so that a claim filed now will cover only the months from Jan-uary on. Any payments which might have been due for 1950 are now lost. If a claim is delayed until August, then January will be lost, and so on, a month less for each month of delay. For this reason, we urge anyone who believes he may be eligible for payment to get in touch with us at once."

Premiums totaling \$13,129 will be awarded to exhibitors in swine shows at the 1951 State Fair of Texas, Oct. 8-21, compared to \$12,473, in 1950. Rav W. Wilson, the fair's livestock manager, has announced.
Prize money will be awarded for nine breeds of swine. Berkshires will compete for \$844 in premiums; Ches'er Whites, \$924; Durocs, \$1,269; Hampshires, \$1,248; Hereford breeding hogs, \$582; OIC swine, \$1,014; Poland Chinas, \$1,248; Spotted Poland Chinas, \$1,415; and Yorkshire breeding hogs, \$536. Hereford swine are shown at the State Fair for the first time this year.
Judging will start at 9 a. m. Monday, Oct. 8, with F. W. Bell of Manhattan, Kansas, and A. A. Heidebrecht of Stillwater, Okla., as judges. Stangel, 4404 of the agriculture division at Texas Technological College, Lubbock, is general livestock superintendent.

Musial Moves Up

STAN, the man, Musial, whom manager Marty Marion called "our whole attack", backed up the statement with hitting power—bouncing the ball for a week's average of 500 before taking over his usual spot at the top of the National League batting list with a healthy .382 average. . . . Cleveland's Bob Feller could wind up with one of the best records in the major leagues—he is beginning to tire in the later innings, but Garcia and Brisse stand close behind, as they did in helping him notch his 10th win against one setback. . . . One of the biggest holdups in history may occur when TV purchases the rights to the Joe Louis-Ezzard Charles skirmish, that is, if TV can afford the price. . . . Patty Berg, injured in a Texas auto crash, as was Ben Hogan, may do the female version of a real Hogan comeback. . . . Player receiving most votes in selection of all-time Cincinnati Red team was Eddie Roush, who came to the Reds in 1916, a side-dish in a deal for Christy Mathewson and Bill McKechnie.

STILL THE CHAMP . . . Comeback Ben Hogan drives out of a trap on way to a three-under-par 67 that was good enough to help him keep crown as U.S. Open title holder. Brilliant Texas came from behind on last day to win over field of 163 starters by two strokes.

HEALTH NOTES

AUSTIN, Texas—Not a single case of smallpox has occurred in Texas this year, said Dr. Geo. W. Cox, State Health Officer. Unfortunately, the fact that we have had no smallpox does not mean we are immune for all time.
"Smallpox can strike again. For example, in 1947, an infected individual from Mexico innocently carried the disease to New York City. The result was 13 cases and three deaths, the first deaths in 35 years. Service men returning from the Orient caused an epidemic of 66 cases and 20 deaths in Seattle in 1946.
"In spite of Texas apparent freedom from smallpox, vaccination of every child before he is a year old and re-vaccination every three to five years is imperative. This is the only sure way to prevent the disease.
"With the speed of present day travel a person harboring smallpox could alight in our midst at any time. If the public became lax concerning vaccination that single case could spread as happened in New York and Seattle.
Dr. Cox asks, "When were you and your family last vaccinated against smallpox? Would you and your children be safe if exposed to this disease"

Chamber of Commerce Doings: Chamber to Set Up Distribution Office For Dickens County Cotton Choppers

Whoa, Now!

It's easy to publish a newspaper. You never get tired. You never need a vacation. Your head is always clear. You're always bright as a silver dollar. Everyone phones in news. Everybody writes in beautiful letters telling you what a nice newspaper you have. You never have any trouble getting paper. Everybody pays you on time. You never have to remind people over and over that their subscriptions are due. If you're late paying a bill, they say it's all right, let it go. You never make people mad at something you have written or haven't written. Your proof reader never makes a mistake. The front page always looks nice. The ads are always eye-catching. You just sit at the typewriter and write beautiful lines. People never say your paper is political. They never insist you are taking sides. They always agree that you're independent. Everywhere you hear the people say you're a good guy. They always say you work hard. The waste baskets never fill up, so nobody has to empty them. The pressman never needs a helping hand to lift forms onto the press. Bundles of paper you receive are never torn so there is never any waste. Your mail galley never gets piled. People never think of asking you for favors that are entirely out of your reach. After every issue advertisers call you up and say: "Say, that was a honey of an ad you wrote for me last week. Thanks." If an advertiser gives you copy announcing a week-end special, it's always sunny that week-end and the crops don't need chopping so everyone comes to town. You always have plenty of time to spend with the family. Your little girl never asks: "Mama, have I really a daddy?" Never do you place an ad upside down. When you mis-spell a person's name, he calls up and says: "Forget it, it's all right." Oh, it's wonderful to be a newspaper publisher. It's so easy. So Simple. (Piffed)

The Chamber of Commerce will act as a Clearing House to place farm labor in this area. The farmers will phone or write requests to the Chamber of Commerce, and farm labor will be distributed to farmers in Dickens County.

Mr. V. L. O'Farrell, representative of the Texas Employment Commission stated this week in a visit to Spur, that we will receive choppers that will be distributed to farmers in Dickens County. Application has been made and approval by the state is pending. The representative will work through the Chamber of Commerce office to place farm labor and keep choppers busy through proper distribution. The labor camp located here in Spur will be a potential stopping place for laborers until they can be placed.

The program is expected to help the farmers of this area in getting crops harvested and to provide them with ample labor. We have in our city an outstanding group of women who are devoting their time and money to provide Spur with a library. The library is located in the bank building and is used by a great number of people, but most books are out-dated, and there is great need for financial backing to buy books and help pay operating costs. With enough assistance the Spur library could be an asset to our city. The City Federation of Women's clubs is composed of delegates from the 20th Century Club, The 1933 Club, The 1931 Club, The P-T Association, and the 1917 Club. Mrs. Margaret Elliott is chairman of the Library Committee with Mrs. Julie Hickman, Mrs. S. L. Benefield, Mrs. C. F. Cook as members of the committee. Mrs. Wilburn Ball is Treasurer of the Library Committee.

The presidents of the clubs are Mrs. Nell Davis, Mrs. O. C. Arthur, Mrs. Larry Boothe, Mrs. Franklin Patrick, Mrs. George Gabriel, and Mrs. Ryneil Bowman. This City Federation of Women's Clubs is sponsoring an old-fashioned covered Dish Social, Friday, July 13 at 8 P. M. at the American Legion Hall and you are urged to come and bring the family to help support our library.

Wednesday morning, July 18, Robert W. Friedberg who is a specialist in consumer durable goods will be here in the Chamber of Commerce office to help men on O.P.S. regulations and charts that have been returned for correction. The Chamber of Commerce wishes to extend a hearty welcome to Messrs. R. A. Drennon, Jr., M. L. Gardner, Guin Bailey, W. M. Copeland, R. M. Ryker, and J. R. Gryder as new comers to Spur and extend an invitation to them to visit the Chamber of Commerce Office.

As orderly, Private Childress accompanied General Sturgis throughout the day while overseeing training, inspecting installations, and conducting post business. Pvt. Childress has completed the 14-week engineering training cycle with Company B, 9th Armored Infantry Battalion of the 6th Armoured Division. Upon completion of a 10-day leave with friends, he will report to Fort Belvoir, Virginia, where he will continue specialized engineer training. Prior to his induction into the Army last March, Childress was employed in the dry cleaning business. He is a 1948 graduate of the Aspermont high school, and he attended Texas Technological College at Lubbock.

Supper To Be Given As Library Benefit The City Federation library committee is sponsoring an old-fashioned covered dish social, as a library benefit, tomorrow night, Friday, at 6 o'clock at the American Legion. The supper will be served cafeteria style. Every-one living in Dickens county and surrounding territory is invited to attend. The Dickens county library, located above the bank, is sponsored by the study clubs of Spur through the City Federation. The library is open on Wednesday and Saturday afternoons from 1 o'clock to 5 o'clock. Proceeds from the covered dish supper will be placed in the library fund and new books will be purchased.

Former Editor of the Dickens County Local Contribution To State School Program Increased

E. Thorn Smith, 46, a former editor of the Texas Spur, died Saturday when he plunged from the seventh floor window of the Jefferson Hotel in downtown Dallas. Smith had been mechanical foreman for the Winkler County News for 18 months. He had been in the newspaper business for 30 years working on the Odessa American prior to his going to Kermit. In 1947, he leased the Scurry County Times, Snyder from Willard Jones, and was in partnership with Floyd Raymond. There was no question of foul play, according to Dallas police, who stated that Smith either jumped or fell from the hotel window. Smith was found on the sidewalk by passers-by shortly after 1 a. m. He was fully dressed, but was wearing pajamas under his clothing. A veteran of World War II, Smith was in the armored division and took part in the first landing in Africa and was in the invasion of Italy. He was married in 1946 and is survived by his wife, three children, two brothers and three sisters. He was a native of Rosalie.

The Dickens county local contribution to the state foundation program has been increased by \$10,350 over that of the school year 1950-51. In order for the schools of Dickens county to obtain the same amount of money used to finance their schools last year, the schools of the county must raise \$10,350 more than they did last year. The sum of the amount which is charged annually against the local school districts of Texas toward the minimum Foundation Program shall be \$45,000,000. The State Commissioner of Education, subject to the approval of the State Board of Education, assigns each school district, according to its tax paying ability, its proportionate part of the \$45,000,000 to be raised locally and applied toward the financing of its minimum foundation school program. The local county assignment for 1950-51 was \$41,400; for 1951-52 it is \$51,750. The various schools of the county, per cent of the county contributions and assignments are listed below.

Texas Farm Income Shows 45% Increase

AUSTIN, Texas, July—Texas farmers' cash revenue was 45 per cent greater the first five months this year than in the same 1950 period, the University of Texas Bureau of Business Research reports. The Bureau estimates Texas farm cash income from major commodities through May at \$484,853,000, compared with \$334,184,000 during January - May last year. Cattle, the main farm-income producer for both periods brought in \$165,046,000, 42 per cent more than January-May, 1950. Only commodities bringing less money in the 1951 period were cotton, cottonseed, fruit, vegetables and wheat. Most income drops were caused by unfavorable weather.

"Santa Fe" Newest Randolph Scott Hit Film in Technicolor

A story of the men of iron who built a railroad through the mountains to the sea, comes to the screen of the Palace Theatre Sunday. Randolph Scott stars in "Santa Fe," photographed in color by Technicolor. The picture stars Randolph Scott, with Janis Carter as the heroine. He is one of those Western heroes of iron who built the railroad.

Scott is seen as one of four brothers, all veterans of the Confederate Army, who are following the Civil War. Only one of the brothers survives. He takes back the railroad of the Santa Fe Railroad, then being built at the Southwest, meets and falls in love with a girl who is working on the railroad with the railroad.

Gun battle rages—JANIS CARTER and RANDOLPH SCOTT in an exciting scene from Columbia's "SANTA FE," in color by Technicolor.

uncharted frontier wilderness for the iron horse, his three brothers join an outlaw gang which operates along the Santa Fe. Scott gets them out of scrape after scrape. When one of his brothers is killed during an attempted train robbery, he tries to turn them to honest livelihoods. Miss Carter believes in Scott and in a blazing

climax he cleans up the entire gang with the final struggle taking place on a freight train speeding through mountain canyons. The frontier adventure features Jerrome Courtland, Peter Thompson and John Archer as Randolph Scott's erring brothers, while Warner Anderson plays Scott's boss on the railroad. The screen

play of "Santa Fe" was written by Kenneth Gamet from a novel by James Marshall and a story by Louis Stevens. The Scott-Brown production was directed by Irving Pichel and produced by Harry Joe Brown.

PARDON us if we play switch-phrase, but we aim to flag down some certain people...

Those folks who've always had a great big yen for a new Buick, but a big worry that Buick prices ran too high for their budgets.

Now we'll have to grant you that — on style and beauty and size and impressive appearance — a 1951 Buick looks like a pretty high price tag.

And we'll have to grant, too, that the zooming power and the luxurious ride and the heavyweight steadiness you get in a Buick would also indicate prices beyond the reach of most people.

But honestly, you'll find nothing farther from the truth when you note the price tags on 1951 Buicks.

You'll find that beauty with the big-power, big-mileage, valve-in-head Fireball Engine is really within your budget picture—with prices starting below those of many of today's sixes.

And you'll have to admit then and there that you can have Buick room and comfort, can have Buick ride and handling, can have Buick style and size—for little, if any, more than you've been paying for lesser cars.

That leaves the next step up to you—stopping in to see us.

Come in soon, look over the SPECIAL, SUPER or ROADMASTER you've always wanted — and let that happy glow go surging all through you as you sign up for your smart-buy Buick.

More People Eligible For S. S. Insurance

During the first six months of 1951 the Lubbock office of the Social Security Administration has received an average of 175 claims per month for old-age and survivors insurance. This is an increase to about 4 times the figure for the same period last year; according to John G. Hutton, manager of the office.

Most of this increase, Hutton explained, is due to changes made last year in the law, which drastically reduced the requirements for eligibility. Under the new rules payments can be made in many cases after as little as six quarters, about a year and one-half, in jobs covered by the law.

The new eligibility rule applies to two types of cases.

Retired workers past the age of 65 and survivors of workers who have died since August, 1950.

The required six quarters of work may have been done at any time since the law went into effect in 1937 and can be from either steady work or scattered jobs with several different employers.

One effect of the changes, Hutton pointed out, is that a large number of workers, many well past the age of 65, who were not eligible under the old rules, may now qualify for payments. The majority have already filed applications, but Hutton is certain that there are many in the Lubbock area who have not filed claims and are losing payments.

"We can make-back payments for only 6 months," Hutton said, "so that a claim filed now will cover only the months from January on. Any payments which might have been due for 1950 are now lost. If a claim is delayed until August, then January will be lost, and so on, a month lost for each month of delay. For this reason, we urge anyone who believes he may be eligible for payment to get in touch with us at once."

Mr. and Mrs. Earl Thomason spent last week end visiting at Cisco and Moran.

Mr. and Mrs. Buster Thomason are driving a new Ford pickup.

Wilbur Stanley may be quoted as saying that it might pay the farmers to watch the worms for while Elmer Thomason was poisoning for Bill Rucker the worms made a good start on the Thomason cotton.

The men of the Highway community are all too busy to go fishing at present.

The community party was Friday night. Visitors were Mr. and Mrs. Charles Taylor and Butch, Fred Price, Mr. and Mrs. Jim Wyatt and children. Mr. Taylor gave a talk on the control of insects.

Mr. and Mrs. Robert Thomason and daughters, and Mr. and Mrs. Jack Tolver and son, spent the day Sunday with C. E. Morgan and family.

Highway News

Mr. Wilber Stanley started a cleanup program by moving his lawn Saturday afternoon.

Mrs. Elmer Thomason and Ray-worth have been hoeing and cleaning up their driveway.

Fred Dankey has had some men hoeing, but reported that the worms were eating his cotton so much that it may not have paid him to have the cotton cleaned out.

Gale Estep, son of Alton Estep, is reported as doing fine.

Mrs. Jim Hahn is also reported as feeling fine.

Prize money will be awarded
for nine breeds of swine. Berk-
shires will compete for \$844 in
premiums; Chester Whites, \$924;
Durocs, \$1,263; Hampshires, \$1,248;
Hereford breeding hogs, \$582;
OIC swine, \$1,014; Poland Chinas,
\$1,415; and Yorkshire breeding
hogs, \$335. Hereford swine are
not shown at the State Fair for
the first time this year.
Judging will start at 9 a. m.
Monday, Oct. 6, with F. W. Bell of
Marshall, Kansas, and A. A.
Heidebrecht of Stillwater, Okla.,
as judges. Fred Hale, College Sta-
tion, Texas, will be superintendent
with Sam Fisher, Arlington,
Texas, as assistant. W. L. Stangel,
head of the agriculture division at
Texas Technological College, Lub-
bock, is general livestock superin-
tendent.

Musical Moves Up

STAN, the man, mental, whom
manager Marty Marion called
"our whole attack", backed up the
statement with hitting power—
bouncing the ball for a week's
average of 500 before taking over
his usual spot at the top of the
National League batting list with a
healthy .382 average. . . Cleve-
land's Bob Feller could wind up
with one of the best records in the
major leagues—he is beginning to
tire in the later innings, but Garcia
and Briscoe stand close behind, as
they did in helping him notch his
10th win against one setback. . .
One of the biggest holdups in his-
tory may occur when TV purchases
the rights to the Joe Louis-Ezzard
Charles rematch, that is, if TV can
afford the price. . . Patty Berg,
injured in a Texas auto crash, as
was Ben Hogan, may do the fe-
male version of a real Hogan
comeback. . . Player receiving
most votes in selection of all-time
Cincinnati Red team was Eddle
Roush, who came to the Reds in
1916, a side-dish in a deal for
Christy Mathewson and Bill Mc-
Kechnie.

STILL THE CHAMP . . . Come-
back Ben Hogan drives out of a
trap on way in a three-under-par
67 that was good enough to help
him keep crown as U.S. Open
title holder. Brilliant Texan came
from hobbling on last day to win
over field of 128 starters by two
strokes.

Monday judging will include
Poland China hogs, spotted Pol-
and Chinas, Berkshires and
Yorkshire hogs. Tuesday, Oct. 9,
at 9 a. m. judging will include
Hampshire hogs, Durocs, OIC
hogs, Chester Whites and Here-
fords.
Fat barrows of all breeds will
be judged at 9 a. m. Wednesday,
Oct. 10. Breeding swine and open
barrow judging is scheduled for
Oct. 6-14; the Junior Pig and
Junior Negro Pig shows are Oct.
15-21.
The \$83,074 in livestock pre-
miums for the 1953 Fair represents
an increase of \$10,365 over last
year's high. The \$25,000 offered
in the Pan-American National
Hereford show, is the highest ever
offered for a single breed.
In addition to swine, four beef
cattle breeds, four dairy cattle
breeds, six sheep breeds and two
divisions of Angora goats will be
exhibited. American Saddle, Quar-
ter horses and cutting horses will
compete during the three respec-
tive week-ends of the fair.
Other attractions at the 1953
State Fair include the top Broad-
way musical, "Guys & Dolls", three
major college football games, the
Aut Swenson Thrillcade auto
drama show, Ice Cycles of
1952, the Million Dollar Midway
and scores of other attractions.

HEALTH NOTES

AUSTIN, Texas—Not a single
case of smallpox has occurred in
Texas this year, said Dr. Geo. W.
Cox, State Health Officer. Un-
fortunately, the fact that we have
had no smallpox does not mean we
are immune for all time.
"Smallpox can strike again. For
example, in 1947, an infected in-
dividual from Mexico innocently
carried the disease to New York
City. The result was 13 cases and
three deaths, the first deaths in
35 years. Service men returning
from the Orient caused an epidem-
ic of 66 cases and 20 deaths in
Seattle in 1946.
"In spite of Texas apparent
freedom from smallpox, vaccina-
tion of every child before he is a
year old and re-vaccination every
three to five years is imperative.
This is the only sure way to pre-
vent the disease.
"With the speed of present day
travel a person harboring small-
pox could alight in our midst at
any time. If the public became lax
concerning vaccination that single

case could spread as happened in
New York and Seattle.
Dr. Cox asks, "When were you
and your family last vaccinated
against smallpox? Would you and
your children be safe if exposed
to this disease"

The Great New U.S. ROYAL LIFE-TUBE

Important Note on Nylon!

This is the first and only innertube in
history to use the new magic power of
Nylon.
A single thread of Nylon will lift a
ten-pound weight. A cord of it will tow
an airplane.
That's why the Life-tube strength is
the newest and greatest "INSIDE"
safety factor in the long history of tires.

- ★ The greatest "inside" protection in the history of tires.
- ★ Steps blowouts at their source, prevents their occurrence.
- ★ Strong enough to support a fully loaded car without aid of outer tires.
- ★ Doubles the strength of tires, vastly increases any tire life and safety.
- ★ Outlives many sets of tires.
- ★ The utmost in blowout protection!
