'57 MERCURY

WE, THE CITY COUNCIL OF THE CITY OF SPUR, TEXAS RECOMMEND

THAT THE CITIZENS OF SPUR VOTE

FOR

authorizing the City Council of the City of Spur, Texas, to lease the lighting and electric distribution system and plant owned by the City of Spur for a cash rental of \$22,500 per year for a period of 40 years.

First, this is a request that all qualified persons vote in the City election May 18th. The issue is too important to be decided by a light vote.

None of us propose to tell you how you should vote. We do want you to know the facts upon which we have called this election.

This Lease proposal is the result of many months of study and negotation, with the West Texas Utilities Company and others in an attempt to obtain cheaper fuel, or other sources of power or electricity. We regret that it falls to our lot to recommend leasing the City electric system. It has stood as a symbol of our independence and self sufficiency, but it is becoming a hollow symbol.

At the same time, and over the 28 years the City Plant has been in existence, the controversy of City Plant versus Utilities has been a major source of disagreement, dissension and distrust in our community. As a unified people we have never "fought" the Utility Company rather, we have fought one another.

Increasing costs of all elements that go into production of electricity in our plant, and no way to pass these costs on to the consumer in higher rates have brought us to the point of little return on the investment and no profits with which to meet bond and interest payments. The alternatives are, cheaper fuel, a larger proportion of the business, or lease of the system.

We have never had the proportion of the business that we should expect our citizens to give their City electric system. In that time we have never succeeded in getting natural gas—the cheaper fuel we need. If we do not lease, we can meet bond and interest payments on the system only by taxation or increased electric rates. Our taxes need to be reduced, not increased, and our electric rates are already higher than towns in this area. We can recommend neither of these courses.

Copies of the proposed lease agreement are in the City Office. A summary is printed below.

We asked West Texas Utilities personnel to let us make this decision without interference or preasure. We also asked that no individual or group receive any commission, payment or compensation of any kind if the lease were made. We believe they have kept this agreement.

We have not signed a lease agreement—and we are still negotiating to make this the best lease we can get. The issue is this: Will you vote for a lease of \$900,000.00 over the next 40 years, plus franchise tax of over \$100,000.00 over that period, or do you vote that we keep a plant and system that is no longer making the profit to meet bond and interest needs?

signed:

J. R. McNeill, Mayor
Rex Holder, Alderman
Loyd Roberson, Alderman
W. K. Callan, Alderman
M. H. Bragg, Alderman
Jackson East, Alderman

HERE IS A BRIEF CONDENSATION OF THE PROPOSED CONTARCT:

A Condensation of the PROPOSED LEASE CONTRACT between the City of Spur and the

West Texas Utilities Company.
(The proposed lease contract, in double spaced typewriting, covers 18 legal size pages. The following is a mere condensation of the contract, and is an attempt to cover the high lights and basic provisions. Complete copies of the contract are on file at the City office and are open to inspection to all persons who are interested in all of the exact details.)

PROPERTY COVERED BY THE LEASE: All of the properties comprising the City's electric generating plant and distribution system, including land, buildings and machinery, except such items which are specifically excepted

PROPERTY SPECIFICALLY EXCEPTED AND NOT COVERED BY LEASE: Cash, bills, notes and accounts receivable as of the effective date of the lease; all office furniture, fixtures, equipment and office supplies; all sutomobiles and trucks; the new Enterprise engine and all appurtenances thereto; all traffic sig-

nal lights; the sheet metal covered building located behind the main plant building; all electric operating material and supplies on hand, including fuel and lubricating oils; and all income from minerals and royalties and leases on minerals in connection with the City's properties.

RIGHTS GRANTED BY THE

RIGHTS GRANTED BY THE COMPANY: The right to operate and maintain the leased property within the City and the right to use the streets and alleys and other public ways of the City for the operation of an electric distribution system to serve the electric needs and requirements of the inhabitants of the City.

TERM OF THE LEASE: Forty

CONSIDERATION TO BE PAID BY COMPANY TO CITY: The sum of \$22,500.00 per year, plus a franchise tax payment amounting to two percent (2%) of the sum total of the annual revenue received by the Company from its domestic and commercial customers in the City of Spur, but such franchise tax is not to be paid on revenues received for services provided for industrial, municipal or other governmental uses. Such annual rental of \$22,

500.00 and such franchise tax are to be paid in equal monthly installments throughout the 40 years term of the lease contract, making each monthly installment the sum of \$1,875.00 (for rental) plus the proper sum for franchise tax.

OBLIGATIONS CONCERNING REVENUE BONDS AGAINST THE CITY'S SYSTEM: City obiigates itself to pay such bonds and the interest thereon as they fall due, with the Company agreeing, however, that if any bond or interest is not paid at maturity or if any bonds should be accelerated due to any default or act on the part of the City, Company have the right to pay any all of such matured bonds and interest and accelerated bonds, and Company will have the right to pay any judgment which might be procured against City so that the lease properties will not be in jeopardy; and with it being agreed that if the Company does take up and pay off any judgment or bonds or inter-est, on which City may have defaulted, then, in addition to having the right to be repaid by City, Company will have the right

to charge its actual interest cost on bonds or borrowed money so that Company will not lose on such bonds, either by way of corpus or because of interest; and in such events, Company will have the right to withhold one-half of the rentals and franchise taxes due the City under the lease, as same fall due, in order to relimburse itself.

CUSTOMER DEPOSITS: City shall pay to Company within 30 days after lease the amount of all refundable deposits, and Company assumes the liability to refund such deposits.

AGREEMENTS AS TO BOOKS AND RECORDS: City to furnish Company with a list of depositors, and City to make available to Company all records and other data as might be useful to the company in setting up its books of accounts on the leased property, with same to be done with due regards to the convenience of the City.

OTHER OBLIGATIONS OF COMPANY: Company will merge the two distribution systems and keep it in good working order so as to render customers in Spur adequate electric service at all times. Company will carry insurance on the leased property. Company will pay taxes to the city on all of its property, except the lease property. Company will place in effect its standard rates for electric services. None of these rates are higher than present rates. Some are lower. Average: 8% lower.

POWER FOR MUNICIPAL OP-ERATIONS: City will purchase electric service from the Company.

DISPOSITION OF CITY'S DIE-SEL ENGINES: Company shall maintain such engines as are covered by lease until Company has either put in new generating equipment or has provided twoway transmission line service to Spur, at which time the Company may call upto the City to sell or otherwise dispose of such diesel engines and City shall have 12

months to sell or dispose of same.

RIGHTS AT THE END OF THE
40 YEAR LEASE TERM: At the
end of the 40 years period, the
City shall have the option to acquire the leased properties by
reimbursing Company for the agreed value of Company's portion of the merged distribution

system at the date of the lease and for all expenditures made by the Company thereafter on the system, less a sum equal to an annual rate of depreciation of two and one-half percent per year. Or if the City does not elect to acquire the leased properties, the company will have the option to extend the lease agreement for an additional term at a cash rental to be then agreed upon by the City and the Company, or the Company, in lieu of such lease extension, may pay the City a cash consideration in an amount to be then agreed upon for full and final purchase of the City's assets in the merged electric system as of that date, and if the City and the Company cannot agree on the amount of cash consideration, same shall be established by an inventory and appraisal of the leased property by independent engineers or by a disinterested committee of three persons ,the details of the selec-

And A Fine Pie It Is!

If pies like this are made in Ireland, we're ready to set sail! And that's not Blarney, either—it's a well-deserved compliment for this special dessert. White as the clouds that float over the Emerald Isle, is the tender-thin flaked coconut atop the lovely green filling of this pie. And for a "quick trick" that's as clever as the Irish—add half cup of flaked coconut to the dry pastry mixture . . . then add water, mix and roll out as usual. Cut the shamrocks from large green gumdrops and enjoy the results!

Coconut Lime Chiffon Pie 2 teaspoons gelatin 2 tablespoons cold water

1/4 cup sugar
1 teaspoon grated lime rind
Few drops green food color-3 egg yolks 1/3 cup lime juice 1/4 teaspoon salt 1 baked 9-inch pie shell,

1/2 cup cream, whipped and sweetened 3/4 cup Baker's Angel Flake Coconut, plain or toasted Combine gelatin and cold water in mixing bowl; mix well. Beat egg yolks until light. Add lime juice, salt, and 1/2 cup sugar. Cook in double boiler over hot, not boiling, water until thickened. Pour over gelatin and stir until gelatin is dissolved. Chill until slightly thickened.

Beat egg whites until foamy, add 1/4 cup sugar gradually, and continue beating until stiff. Fold into gelatin mixture. Add lime rind and green coloring. Pile lightly in pie shell. Chill until firm. Just before serving, spread with whipped cream, sprinkle with coconut, and garnish with shamrocks.

To garnish: Cut shamrocks from large green gumdrops and scatter

I was glad he asked me. It gave me a chance to bring him up to

ate about complete, convenient telephone planning.
"Look at it this way," I said. "A Model-T will still get you from here to there. But you wouldn't want one for your family car. You have the latest model. And before you bought it, you looked over all

the models, styles, special features - even colors - and picked out the one that suited you best.

"And it's the same way with phone service these days. You can select a telephone arrangement that exactly fits your own needs. Here's what I meant:

Enough telephones so you don't have to run to answer (or walk halfway through the house to make a call).

Telephones in color in bedrooms and kitchens to harmonize or contrast with your room decorations.

Phone book listings for everyone in the house. And maybe a second main line for teen-agers.

And extra bells or signal lamps if necessary, so nobody misses in protection incoming earlier.

important incoming calls.

We're always happy to help plan a personalized home telephone.

Lots of Spur people already are taking advantage of the many lowcost "extra" services we offer.

For more details, why not call the telephone business office today? The number is 169

MONEY SAVING IDEA

The idea of making Long Distance calls station-to-station instead of person-to-person seems to be catching on more all the time. Makes

"Station" rates are about 1/3 lower. You can actually make three ut-of-town calls for the price of two. Here's an example. Three station-to-station calls from here to Dallas cost only 2.55 (3 minutes, after 6 p. m. weekdays or all day Sunday).

Two person-to-person calls would cost 2.90.

Businessmen have known the economy of station-to-station calling for a long time. Many like to make all their calls that way.

Whether you make a lot of Long Dinstance calls, or just a few,

I think you'll find worthwhile savings in regular use of statio station service. And you'll save time, too, if you'll always call by

READY WHEN YOU NEED IT

There's a special value in telephone service th taalways comes to nind when vacation time rolls around. No matter how far away your vacation takes you, it's always easy to phone home and make sure everythin's okay. Or to stop at a road-side booth and call ahead for hotel or motel reservations.

No matter where you go, the telephone is always nearby - ready
