MISSIONARY SOCIETY MEETING

The Young Ladies Missionary Society met Monday evening at 7:30 at the Methodist Church with fourteen present. Mrs. Pierce led a very interesting discussion on the Teachings of Jesus in which all of the girls took part. There were several people reported ill and flowers were ordered for them. A part of our work is to bring cheer to those in distress. We meet every Monday evening at 7:30. Come join us. It is great work. —Reporter

LYRIC THEATER CO-OPERATES WITH LOCAL BAND

As will be seen in the announcement by the manager, Spur's Municipal Band will give a concert, and in co-operation with the Lyric Theater the people will enjoy an excellent picture show on the evening of April 1st. The proceeds of the evening will go to the local Band, and will be used to purchase uniforms and equipment for the Spur Band. This will be one of the best programs that ever been given in Spur, and while it will be the first appearance for the local boys, we want to impress on every one that the program will be worth your time. It is hoped people will lend their encouragement to the local band at this time.

Grow With A Growing Bank

We regard the steady, continued growth of this institution as a credit to the enterprise of our business community as well as an evidence of the esteem in which our officers and our business policies and methods are held.

We invite you to make this bank the clearing-house for your financial affairs. We want the small accounts of individuals as well as the larger business firms and corporations. The wage earner has need of the bank as well as the business man.

Open an account with even a small amount, pay all your bills with checks, and see how much better you get along. We solicit your account irrespective of the amount.

WE WILL WELCOME YOU.

CITY NATIONAL BANK

Spur, Texas

THIS IS TEXAS' LARGEST PECAN ORCHARD

Within five miles of the courthouse of Dallas county, lying between the West Fork and the Elm Fork of the Trinity river, is what is perhaps the largest pecan orchard under one ownership in Texas, if not in the world.

Nearly 1,200 acres of the rich, alluvial soil formed between these two streams at their confluence are set with pecan trees in regular orchard form. Some of the individual rows are nearly a mile in length. The stakes marking the places for setting the trees were all located with extreme accuracy by the use of a surveyor's transit, and it was said that not a single stake in the more than 10,000 total was as much as three inches out of line in any direction.

This pecan orchard is a part of a total acreage of between five and six thousand, owned and operated as one farm by the Trinity Farm Company, whose head offices are Waxahachie, Texas. Formerly subject to long periods of overflow, this choice farming land is now protected by a system of levees nearly fifteen miles long. These huge piles of earth, over twenty feet in height in some places, hold back the waters of the river during flood stages, and it is no uncommon sight to see teams plowing with in a few yards of these levees, while they hold back a wall of water ten or fifteen feet high that would otherwise inundate the field.

COTTON VARIETY TEST ATTRACTING ATTENTION

Canyon, Texas.—Many farmers of West Texas as well as students of the Agricultural Department of the Teachers College are showing interest in the cotton variety test which is to be run on the college farm this year. The test is to be made under a co-operative agreement between the agricultural authorities of the College and the superintendent of the Lubbock experiment station. Only those varieties of cotton which have been grown successfully at the Lubbock station will be used in making the test.

HINTS FOR COW OWNERS

The cow tester gives the owner a written introduction to each of his cows.

Some cows pay 95 cents in return for every \$1.00 invested in feed, others can make \$3.00 in return for each dollar invested in feed. Which kind are yours?

The cow tester can show you how to make the cows keep you, rather than for you to keep the cows.

Too many of our cows are simply hay consuming parasites—get rid of that kind.

The most butterfat per acre should be the goal of every dairyman.

The kind of cows that eats your hay determines whether it brings you \$10 or 40c per ton.

Cows cannot make milk out of our beautiful climate—feed and plenty of it.

Cream that tests 30 per cent of butterfat is best for whipping. Keeping it at a low temperature helps.

A cow testing association is a labor saving device—it enables a dairymen to make profit from fewer cows.

Not "how many" cows, but "how good" is the determining factor in dairv profits. —Farm Bureau Monthly.

ONE-FOURTH OF ALL PARIS ENGAGED IN MAKING OF GOWNS!

Paris' largest business, one of the biggest in France—and indeed, one of the biggest single industrial enterprises in the world—is dressmaking! A recent compilation of facts on the industry has developed some astonishing figures.

Paris dressmaking now has its own chamber of commerce. It has millions of capital invested. Three hundred thousand people in Paris are directly engaged in making women's dresses. Add to these the people who make fabrics, embroideries, linings buttons, and other accessories, and you find a full one-fourth of the Parisian population identified with dressmaking.

There are two hundred Paris dressmaking houses with more than five hundred employees apiece. As for the the twenty or thirty big famous houses that actually create style, their employees number all the way from a thousand to fifteen hundred in each establishment.

To make a lady's gown is a simple operation. To make several hundred of them is not beyond ordinary business powers. But when you find, as you do in Paris today, dressmaking houses in which single models of gowns must be duplicated several hundred times then you have something that big business embraces and adapts for its own.

Such a place must be as well organized as a motor car factory, or confusion will step in and disaster loom ahead. There must be efficiency from the top down, cost accounting systems, progress charts, scientific arrangement of departments, welfare work, and all the rest that enables an executive easily to be supreme over a myriad of shop details.

It is this state of affairs which has brought about the new type of Parisian dressmaker. He is, indeed, an artist—that first of all. But he is also the keen business executive, and the front he presents to the public is the business front and not the artistic one. He has suppressed his artistic temperament, and with it the low roll collar, the long hair, and the ineffable look that for so many years stood for distinction in dress designing.

Edison's Son Makes Electric Speed Winning Harvard Teacher's Daughter

Boston, Marriage intentions were filed in Cambridge on March 7, by Theodore Miller Edison, youngest son of Thomas A. Edison, and Miss Anna Mariea Osterhout, the daughter of one of Harvard's ablest biologists.

Young Edison, aged 26, is a graduate of Massachusetts Institute of Technology. Miss Osterhout is 23 a graduate of Vassar. She is the daughter of Professor Winthrop J. Osterhout, chairman of the department of biology at Harvard. She lives with her parents in Buckingham street, Cambridge.

The wedding will take place the Appleton Chapel at Harvard in April.

Miss Osterhout did not start out to be a Mrs. Edison at all. Since she was old enough to reason, it had been her ambition to be a doctor. She was preparing for a course at Johns Hopkins when she met Theodore Edison. Her ambition for medicine then began

to weaken, and she changed her life plans with electric rapidity.

JOHN D. ROCKEFELLER Jr. GIVES TUSKEGEE MILLION

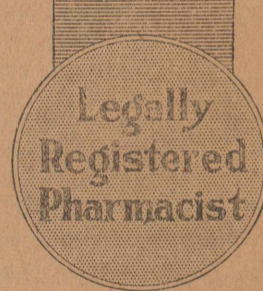

New York.—John D. Rockefeller Jr. has given \$1,000,000 to the Hampton and Tuskegee Institutes for negroes, it was announced by Dr. Anson Phelps Stokes, chairman of the special gifts committee of the Hampton Endowment Fund.

Mr. Rockefeller's donation was made unconditionally and brings the endowment fund now being raised to \$3,500,000.

FORD AND THE AIR MACHINE

The people will rejoice that the Fords have taken up the flying machine and will await results with absolute confidence. In Westminster Abby, the younger Pitt and his father sleep in the same grave. The world knows the service that they rendered to Britain and a great Englishman might well say of them, "Did ver any grave contain such a father and such a son?"

Luckily, the Fords, father and son, are far from any grave. It may be truly said that when they shall have solved the problem of the flying machine for the United States, the Fords, kings of this industrial age, will have rendered to their country service greater than the services rendered to England by the Pitt family.

The younger Pitt with his genius helped to keep Napoleon out of England.

When the Ford's build these machines, they will have made it impossible for any enemy to survive in the United States, even if he should foolishly come here.

All honor to the young men of ambition. See a Ford agent, or write directly to Henry Ford, Dearborn, Mich., about getting one of the first all-metal monoplanes.

The automobiles that the Fords have manufactured during the last ten years would not only transport any army the United States could gather, but would also transport the whole population of the United States anywhere, in a very short time.

The flying machines soon to be manufactured under quantity production by the Fords, with all the science and limitless resources of the Ford organization back of them, will soon solve the United States' problems.

J. C. Lewis and family and D. L. Lewis arrived here Sunday from Fort Worth and spent a day or two visiting their brother, W. R. Lewis of Bryant-Link Company. They left Tuesday for their homes at Aztec, N. Mexico.

Mrs. Eula Ford, formerly of Afton, who had purchased the Lucas home, has moved into the property and is now a citizen among us. She has built a new garage which adds much to the property.

PROFITS FROM LITTLE FARMS

In the fertile San Fernando Valley, California, the ranches who follow scientific one-acre cultivation and does an ordinary amount of work can clear it is said, something like \$2500 a year raising chickens, rabbits, squabs or growing vegetables, berries or fruit trees. At the same time within an hour's easy drive he can be in the heart of the city.

R. C. Judd, formerly of Texas, had worked in a clerical capacity all his life. His doctor ordered him to California for his health. Judd had long dreamed of the little ranch idea. After talking the matter over with an expert at Ventura Boulevard Acres, he decided to cast his slim finances into his carefree, profitable business.

He says he feels a thousand per cent better already, and is convinced that he will clear \$2500 the first year from his one-acre ranch, where he is raising chickens, rabbits and growing vegetables.

Another case is that of Mrs. C. M. Miller, who with her daughter and so have settled at Ventura Boulevard Acres. They are enthusiastic over their attractive home and intend raising chickens and berries.

The one-acre intensified ranching plan has meant independence to them, which was made possible only through the smallness of the investment required.

If that is a ranch—Well, what would the ycall some of our West Texas farms and cattle ranges?

Mr. and Mrs. W. E. Ballard, of Foreman Chapel, were trading with our merchants Monday.

A. W. Jordan, of Steel Hill, returned from Fort Worth Friday where he had been attending the Southwestern Exposition and Fat Stock Show.

CARD OF THANKS

With hearts sad, yet full of gratitude, we wish publicly to express our very great appreciation of the kindness and sympathy shown us by our many friends, during the sickness and death of our dear wife and mother.

Such sympathetic expressions and deeds of kindness by loving hands, certainly want to thank you for the tokens of regard manifested by many beautiful floral offerings, and personal letters of condolence.

May Heaven's richest blessings follow you as the years go by, and when at last you have drifted away into life's evening's twilight, may you be surrounded by helping hands and sympathetic friends, is the prayer of,
Rev. G. C. Alexander and Children.

TALKED HIM OUT OF IT

Our wits were put to a thorough test last Saturday when Lovell came into our office and demanded his dollar back for his subscription. We asked him if he had been receiving the Times to which he answered in the affirmative. We then asked him if the Times had contained anything that do not coincide with his opinion, and he answered "no". Then we were at our wits end, when he remarked that since he had subscribed for the Times he had not seen his name in the paper a single time, and that he thought he ought to get his dollar back. Now any one can talk us out of a dollar for charitable purposes or for any other good cause, but when it comes to refund we are not there. Those of you who know Mr. Lovell realize what a proposition we were up against when it come to convincing him he should not have the dollar back for he sure likes money as well as we do. Well we kept the dollar.

This was just one of Mr. Lovell's methods of putting

over a joke on us. Every one knows how he enjoys a good, harmless joke, and he invariably has one ready every time he comes to town. He complimented the Times, and did not stop at that. He said Spur is the best town of its size in the west, stating that the businessmen of Spur are wonderful. He said, "I have come to the business men in Spur for assistance for those who needed help and I have never been refused a single time. The businessmen of Spur seem to take a pleasure in helping us country people."

Mr. Lovell is a farmer east from Dickens, and he believes in living at home and boarding at the same place.

BIM! BAM! BING!

Hail! Hail! The Gink's all here! Who said Spur couldn't have a Band!

We are getting support from ninety eight per cent of the tradesmen of Spur, and the other two per cent will fall in line as soon as they see what a band will mean to the town.

On the evening of April 1, the biggest little band in Texas will strut their stuff with a musical performance at the only theater in Spur with a 10,000 foot reel of screen pictures. This will be given for the pleasure of all present which will probably be a full house, and a full house is hard to beat. The patriotic owner of the theater (Mr. Flournoy) is going to donate the entire house to the Band, and we don't mean "mebbe." By house we mean all the coin that flows in thru the ticket "winder" on this "pertickler" evening. Uniforms for the Band is going to be the answer. Don't crowd; DON'T PUSH!—C. B. Cook, Business Manager.

Mr. and Mrs. Dick Rowland, of Stamford, were guests of Mr. and Mrs. Weldon Grimes Sunday.

CHICKEN TALK FROM 12 YEARS PRACTICAL EXP.

By Frank E. Wilson

Mix one quart of Avenarius Carbolineum (Reg.) in five gallons of water—dip hens any time that lice or mites accumulate, dipping once a year is sufficient.

For little chickens one qt. of AVENARIUS! CARBOLINEUM (Reg.) in 20 gallons of water once a year.

Early in the morning using AVENARIUS CARBOLINEUM (Reg.) direct from the can, full strength solution, going over Roosts, Side Walls, Nests and runways to perches so that the solution will have time to go into and dry, then when the chickens go to roost at night the fumes will go up through the feathers and the hens will smell strong of it in the morning, by putting it on in the morning it will be dried sufficiently so as not to burn their feet.

An unhealthy hen will lay an unhealthy egg producing an unhealthy chicken.

A healthy hen produces a healthy egg which will bring a healthy chicken.

To make hens and chickens healthy, chop lettuce and Irish potatoes together and feed about three times a week, the potatoes can be cooked or raw.

If the egg shells are not stout and healthy, then make a weak solution of lime water and give them for a week or so and then shell will become firm and well matured.

Early in the Spring hens should go through a course of lime water as it builds up their bones and makes them healthy.

Half of the diseases of chickens starts from lice, mites and Scab of feet and legs— one application of Coal oil will abate on the feet and legs ill take off scale or scab.

A good laying mixture is made by chopping up potatoes and turnips, feeding three or four times a week.

Mites are blood suckers.

Lice need water, that is why that by putting the solution around the vents, eyes, bill etc. they leave the chicken at the first opportunity to get the necessary moisture needed.

In treating Roosts, Side Walls, Nests etc., you can mix either 3 gallons of Coal Oil or 3 gallons of Crude Oil with one gallon of Avenarius Carbolineum (Reg.) which will

give the desired results and go much further and do for 2 or 3 years where you have but a small flock.

Avenarius Carbolineum (Reg.) costs around \$1.50 per gallon can.

Should you put grease on a setting hen and she gets it on the eggs they will not hatch.

Some raisers of thorough bred birds put grease on the eggs or a little coal oil on their hands in counting the eggs for market which does not injure the egg for cooking purposes but prevents hatching.

Eggs sold for hatching purposes are selected and handled very carefully so as to make good hatches.

In breaking or cracking the shell of an egg that the shell is too hard and not hatching properly, break at the large end as the head of the chicken is always at the large end.

A large hen makes the best winter layers as they retain more heat than a smaller hen.

For the first feed for little chicks, 48 hours after hatching give them rolled oats for 3 or 4 days.

Chickens properly handled are the most profitable of all farm productions continuing through good and bad years alike.

Eggs can be cooked in 200 different ways and good and healthy any way served.

Copies of Chicken Talk can be had at Bell's Cafe, or at Scott Bros. Grocery. Ask for a copy. It will make your chickens profitable.

SPUR MUTUAL HELPED ME

One of the great balms in the recent illness and death of my dear wife, was the aid derived through the Spur Mutual Life Insurance Association. When this Association was organized, wife and myself both took certificates in it. Up until her death her certificate had cost us only \$27.00 or about \$9.00 annually. The day after her death I was delivered a check for \$1000 and no one can realize what that check meant to me at that critical time.

I would advise every person to get into the Spur Mutual on an account of its helpfulness. It is just home people helping their neighbors in the sad hour besides this the money is raised and spent at home.— N. E. Weaver.

Announcements of the Spur Methodist Circuit Revival Campaign For The Summer

Beginning at Dickens on the first Sunday in July and running through full two weeks. Rev. R. H. Hizer, from Glenrose will do the preaching. Brother Hizer is an old time spiritual preacher, he believes in people getting religion, and I am sure that no one can stay under the sound of his preaching for two weeks with out being moved by the Spirit of GOD in some way. I urge that every Christian in the reach of Dickens will come and help us, let us fight sin and the Devil from that community.

Our meeting will begin at Foreman Chapel on the 26th of July which will be the 4th Sunday. Through the leadership of the Holy Spirit, and Reeve, J. W. Hawkins from Hedley, we expect to put over a great revival for GOD and the community. Brother Hawkins, has had a great success in the evangelistic work as well as in the pastor work, but let us remember that the success of this meeting will depend on your prayers and your work. The messages that brother Hawkins will bring will be full of Fire and religion, and if you people of the Foreman Chapel community are willing to pay the sacrifice then you shall see the Spirit of God move in a mighty way. Let us get in good shape for this two weeks work.

The Methodist meeting will begin at Duck Creek on August 23rd, which will be the fourth Sunday of that month.

We will begin at Girard first Sunday in September. Also run there full two weeks. Brother Barnett from Jayton will do the preaching. He is a great preacher and has a great success in his meeting wherever he goes.

Let every body get in the harness now and begin to work to the end that we may gain a great victory for God's kingdom. Remember that each one of these revivals will be an open air tent meeting, will be plenty of room for every body that comes. Let us pray much and work hard for the lost of the community.

Evening preaching hours will be 8:00 o'clock instead of 7:15
W. W. Riley, Pastor

Drive up and honk, we will do the rest.
Spur Drug Store

Cheaper Prices

Commencing Friday, March 20th.
And Lasting 15 days

During this period everything will be offered at reduced prices. Do not deprive yourselves of buying necessary clothing, because you might think we have not had enough rain. SPECIAL OFFER ON SHOES

Any person purchasing of the most pairs Saturday will receive a dollar back for every pair they have bought of us. Surely you will need shoes, as a rule we are all now harder on shoes than we used to be. You might have a new pair bought, but in a very short time you will need another. Lay in your supply for the family and receive back a dollar for every pair you purchase. You can "shoe 'em up cheap," so see how many pairs you can consume. Remember
PETERS DIAMOND BRAND SOLID LEATHER SHOES.

The surprise for the school children will not be exposed—Base Balls and rubber balls will be given away to the boys and girls of the Grammar School. Cut out the coupon below, present it to us Monday March 23rd and carry away the balls. BASE BALL SEASON is now on boys!! This 50c baseball we are going to give you is a "humdinger." It is double sewed all around. GIRLS!! Jacks days are here O! the rubber ball awaits you.

—COUPON—

I promise to buy my next pair of shoes from Salem's. I will keep my promise if Salem's will have a pair of shoes to suit me and will sell them to me at the right price.

My Name Is _____

My Address Is _____

We ask everybody to come and see us, with a good spirit. If we cannot sell you we like to wait on you anyway and show you around. Our aim is to please everybody and keep them satisfied. In the length of time we have been here we have not had one complaint and hope that we can always be able to continue our relationship in this manner.

SALEMS.

Menu And Recipes For Sunday Dinner

Suggestions For The Household

MENU FOR THE SUNDAY DINNER

Fried Chicken Cream Gravy
New Potatoes Asparagus
With Drawn Butter
Hot Rolls
Tomato and Lettuce Salad
Marshmallow Pudding
Angel Food Cake Iced Tea

A Day's Menu

Breakfast—Stewed figs, cereal, hin cream, crisp buttered toast, orange and rhubarb marmalade, creamed dried beef, milk, coffee.
Luncheon—Rinkum diddle, radishes, molasses cookies, milk, tea.
Dinner—Pot roast of beef, brown gravy, mashed potatoes, baked celery, endive salad, rolled oats bread, March pudding, milk, coffee.
The cream dried beef is suggested for children who must go to school and eat a hurried or cold luncheon at noon.
Since figs are such a bland fruit tse marmalade is used to "pep up" the breakfast.

RINKUM DIDDIE

Three tablespoons butter, 2 tablespoons flour, 3 tablespoon of cream, 1-8 teaspoon soda, 1-2 cup strained tomato juice, 2 cups grated cheese, 3 eggs.
Melt butter, stir in flour and add cream. Dissolve soda in tomato juice and add to first

cup cold water, add one cup sugar, stir until dissolved and set aside to cool. Whip one pint of cream until stiff, add gelatine mixture, nuts and fruits and beat until thoroughly mixed. Flavor with vanilla and serve with whipped cream.

FRUIT COCKTAIL

Cut, oranges and bananas mix with grated pineapple and grape juice. Sweeten taste.

ANGEL CAKE

Whites of eleven large or twelve small eggs, one teaspoon cream tartar, one and one-half cups fine granulated sugar, one cup flour. Sift once, measure and sift four times. One-fourth teaspoon salt, one teaspoon vanilla extract, one half teaspoon lemon extract.
Add salt to egg whites and beat until foamy, add cream of tartar and continue beating until stiff. Fold in sugar gradually, add flavoring and fold in flour in same manner as sugar. Pour in an ungreased pan and bake in a slow oven forty or fifty minutes.

SALAD DRESSING

One whole egg, one pint wesson oil one lemon, salt, pepper, mustard and paprika.
Beat whole egg, add oil gradually. Mix seasoning with lemon juice and when oil is half added, add seasoning.

EGG RECIPES

Eggs lend themselves to almost any course in a meal. Stuffed with piquant delicacies they make a tempting and appetizing dish combined with cheese they furnish a worthwhile main dish, as a garnish or in jelly they do much for a salad and in custards and creams they provide nourished deserts.

When a custard is served for desert keep in mind that if the serving be large it is really the "main dish" of the meal and plan the rest of the dinner or luncheon accordingly.

Eggs Baked With Macaroni
Six hard cooked eggs, 1 cup of Macaroni, 1-2 cup grated cheese, 2 cups milk, 3 tablespoons butter, 1 1-2 tablespoons flour, 1-2 teaspoon salt, 1-4 teaspoon pepper, few drops onion juice, 1-2 buttered crumbs.

Cook macroni in boiling salted water for twenty minutes. When boiling ad dsalt, pepper butter, stir in flour and slowly utes. Drain an dblanch. Melt add milk, stirring constantly. and onion juice and remove fro mthe fire. Stir in cheese and add macroni and eggs cut in slices. Turn into a buttered baking dish, cover with buttered crumbs and bake until crumbs are brown.

EGG SOUFFLE

Six eggs, 3 tablespoons butter, 3 tablespoons flour, 2 cups of thin cream, 1 cup milk, 1 teaspoon salt, 1-8 teaspoon pepper.

Cream butter and beat in flour, when perfectly blendede slowly stir in cream and milk heated to the scalding point. Cook over hot water for five minutes. Beat yolks of eggs until thick and lemon colored and add to sauce. Remove from the fire and add salt and pepper. Beat whites of eggs until stiff and dry and fold into first mixture. Turn into a well buttered baking dish and bake surrounded by hot water until firm to the touch. Do not let the water boil while he soufflé is baking. It will take about 35 minutes. Serve as soon as done or it will fall.

CHEESE SOUFFLE

Two tablespoons butter, 2 tablespoons flour, 1 cup milk, 1-2 teaspoon salt, 1-8 teaspoon mustard, 1-8 teaspoon pepper, 1-2 cup grated cheese, 4 eggs.
Melt butter, add flour and stir until thoroughly blended. Slowly add milk, stirring constantly. Mix salt, mustard, pepper and grated cheese. When the sauce reaches the boiling point add the grated cheese. Remove from the fire and add yolks of eggs beaten until thick and lemon colored. Let mixture stand until cool. Beat

whites of eggs until stiff and dry. Fold into first mixture. When well mixed turn into a buttered baking dish and bake twenty five minutes in a slow oven. Serve immediately.

JELLIED EGG SALAD

Four hard cooked eggs, 1-2 cup sliced stuffed olives, 1 tablespoon lemon juice, 1 table spoon granulated gelatin, few grains pepper, 1 teaspoon salt, 4 tablepoons cold water, 1 cup boiling water, lettuce, mayonnaise.

Soften gelatin in cold water. Add boiling water and lemon juice, salt and pepper and stir until gelatin is dissolved. Chop eggs or cut in fancy shapes if a "dressy" salad is desired. When jelly is beginning to set add eggs and olives. Turn into small individual molds and let stand until firm and chilled. Turn out and serve on a bed of lettuce with mayonnaise.

EGGS AND BEET SALAD

Hard cooked eggs and pickled beets combine well in a salad. Cut the whites of egg in the shape of daisy petals and cut the beets in crescents. Use the yolk of egg as the center and arrange tthe white daisy fashioned around it. Sprinkle the crescents of beet over the salad and serve on a bed of lettuce with mayonnaise.

BAKED SAUSAGE

Cook sausage in the oven instead of on top of the stove if you wish to avoid the odor of frying.

FISH IN VINEGAR

Always wash fish in a little vinegar and water before cooking.

LEFT OVER RICE

Cold rice may be used as a breakfast dish with sugar and cream, with stewed fruits or with baked or coddled apples.
Cold rice may be mixed with chopped veal, pork, chicken, etc., and seasoned to taste with minced pepper, celery or parsley and onion juice, salt and pepper and made into croquettes.
Cold rice mixed with a little chopped meat or flaked fish and seasoned to taste may be used for stuffed peppers, tomatoes, baked fish, rolled steak, egg plant, etc.

Brown Rice and Pimientos
Cook 1 cup of well washed brown rice until tender in plenty of salted water. Drain and combine with 1 pint scalded milk, 1 small can drained and minced pimientos, 1 cup graed American cheese, 1 teaspoon salt, 1-2 teaspoon paprika and a few grains pepper. Pour into a well buttered baking dish adn bake until delicately browned in a hot oven.

OATMEAL COOKIES

Beat 1 egg until light. Add 1-4 cup sugar, 1-4 cup thin cream and 1-4 cup milk. Add 1-2 cup fine oatmeal, 2 cups sifted flour, sifted again with 2 teaspoons baking powder and 1 teaspoon salt. Mix well and turn out on a floured board, roll, cut in rounds or or any desired shapes and bake in a moderate oven.

ITALIAN RISOTTO

Peel and slice 1 onion and cook until delicately colored in 3 tablespoons salted oil (olives or substitute). Add 5 tablespoons butter and when it is melted add 1 1-2 cups brown rice and cook until the rice is delicately colored, stirring constantly. Add 2 cups of soup stock and cook until the rice is dry. Add more stock as needed and continue cooking until rice is tender and of the consistency of spaghetti. Add 2 tablespoons grated Parmesan cheese and serve immediately.

WHOLE WHEAT BREAD

Ad 2 tablespoons sugar and 2 teaspoons salt to 2 cups scalded milk. Cool and when lukewarm add 1 yeast cake dissolved in 1-4 cup lukewarm water. Beat in flour to make a stiff batter and then knead in flour until dough is elastic. Place in a warm buttered bowl and brush over the top of the

GIRL 18 YEARS, PROPOSED TO BY 18 MEN IN MAIL

New Work—Margaret Hepburn, 18-year-old Jamaica girl, has a proposal of marriage for every year of her life.

They all came by mail and within a week. So Margaret is thinking of giving a party, inviting all the suitors and looking them over.

The proposals followed publication of the fact that the girl had won a "hope chest" filled with fine linens at a fair.

"Some of the letters seemed to be from very nice men," said Margaret, "but others indicated that the writers were very silly. It must take supreme conceit for a man to think a girl would ever consider him when she hadn't been courted."

**MAID ADMITS \$100,000
ROBBEY IN 3 HOMES**

New York City, Arrested and charged with the theft here and in Chicago of more than \$100,000 in jewels and is said by the police to have confessed today to the robbery of three homes in which she worked as a maid. She implicated her companion, Herman Lieberwirth, who was also arrested, and said that he played the stock market with the results of her operations. Lieberwirth, according to the police, had been interned during the war as an alien enemy.

**FARM PROSPECTS
BEST IN 3 YEARS**

Prospects for the American farmer are brighter today than they have been at any previous time in three years, according to Henry C. Wallace, Secretary of Agriculture.

"My optimistic view of the present farm situation," explained Secretary Wallace, "is based on the fact that producers of grain and livestock are coming to understand the fundamental principle of production adjustment. Out of the post-war chaos order is being revived.
"The farmer is coming to his own rescue by installing

ALL DRUGGISTS

business methods in the barn yard and field. He has learned that farming (as well as big business, is the work of experts and specialists. He has come to realize that in meat-must be an understanding of world conditions and world methods of marketing. He knows that to sell intelligently requires the work of experts, who know the tricks of the market.

"The individual farmer no longer can work by himself, he must cooperate with his neighbors and hire business brains to handle the selling end of the farm. The producer has learned by experience the hazards of dumping on a glutted market. The wisdom of feeding out the surplus to fit the demand is becoming an economic principle of the farm.

"The depression period is near a close, because business brains are mastering the new science of farming." Los Angeles Examiner.

Fat Men's Club Adds To Its Gross Weight

Boston.—Two and one-half tons have been added to the membership of the United States Fat Men's Club. Twenty-two new members, with a total weight of 5082 pounds, joined the club at a meeting here.

**LARGEST PIPE ORGAN
ARRIVES ON 12 CARS**

Los Angeles.—The world's mightiest pipe organ ended its trans-continental journey from North Tonowanda, N. Y., late last Friday on a special freight train.

Representatives of the railroad and of the Wulitzer Company, which built the mammoth instrument, also of the Roosevelt Memorial Park Association, met the train. Arrangements were completed for the unloading and transfer of the organ to the park Monday.

Twelve freight cars were required to transport the organ across the country.

Last night, in anticipation of the organ's arrival, Farny Wulitzer, president of the Wulitzer company, touched off a fire at the Memorial Park which sent flames 250 feet high and lured thousands of motorists to the spectacular blaze, despite the rain.

At thirty-two Clive established British power in India, Rubens painted his "Descent From the Cross," and Shiller published his "Thirty Years' War."

At thirty-nine, Napoleon was Emperor of France, Wolfe scaled the Heights of Abraham at Quebec, Stephenson had made his first locomotive, Edison had harnessed electricity to the uses of man, Gray wrote his "Elegy," and Poe his "Raven."

There are fresh victories still to be won. Face the future manfully, with undaunted courage and unflinching trust. What other men have done you may do.—Selected.

THE DICKENS COUNTY HATCHERY IS RUNNING AT FULL CAPACITY

Something more than 3000 nice plump little chicks were taken from the large incubator of the Dickens County Hatchery Monday. This large incubator is kept full all of the time now and still the management are not able to fill the orders as fast as they are received.

Large orders from Lubbock, Stamford and points as far away as Fort Worth are being received. The directors of the business are allowing nothing but first class stuff to be shipped or sold from the hatchery, and this is the chief reason the great demand. The Dickens County Hatchery is not being run from a money making standpoint, but from the point of improving the poultry industry of the west.

A number of Dickens County people are taking advantage of this hatchery and are securing from it chicks from eggs produced by the best bred birds found in America. Farmers are beginning to realize the fact that chickens can be made profitable on the farm and that it costs no more to keep a good laying hen than it does to keep an ordinary feeder.

MORE NEW RESIDENCES UNDER CONSTRUCTION

Contractor Marsh, was given the contract Monday to erect a nice residence for S. B. Roddy in the east part of town. This will be a modern home containing four rooms and a bath. Work has already begun on it and Mr. Marsh expects to have it ready to be occupied within a few days.

R. B. Johnston has started a new residence on his 20 acre tract just north of town. When completed this will be a nice five room residence with both. Part of the rooms are being built now and the others will be built later.

Mack Brown will soon start a new residence on his tract north of town. This will be a modern residence.

It is understood that Mr. Garner will start a new residence on his 20-acre tract north of town in the near future.

SHADE TREES TO SET TO SECURE QUICK RESULTS

The question often arises as to what are the kinds of shade trees to be planted where one desires to secure quick results. It is a well known fact that the best trees, that is, the ones that are the most permanent and the best looking, are slow growers. Those that grow up fast and give quick results are not the best shade trees, but where one is in the position of wanting to get quick results there are a number of different kinds that may be used for this purpose, but it should be kept in mind that such trees are not the most lasting ones, the most servicable, nor the best looking.

The Lombardy Popular is one of the quick growing shade trees that is used very extensively in the South. Because it is so tall and narrow in its habit of growth, it naturally does not produce as much shade as the more spreading type of tree. It is not very good for roadside planting, where only a limited amount of shade is needed. It grows very high and upright and therefore cannot produce as much shade as spreading types of trees like the Silver Maple.

Of the rapid growing shade trees, the Silver Maple is probably the leader in the South. Of course this maple is not as good as some of the more permanent ones, but because of its quick growing habits, it is very useful where quick results are desired. It is a hardy tree, and can adapt itself to almost any condition.

Where the space is small one of the very best of the quick growing shade trees is the Texas Umbrella. It is a rapid grower, shaped somewhat like an umbrella, and is one of the best of the small and rapid growing shade trees for the South.

Another shade tree of this type is the Catalpa Bungei, or

ENTRE NEOUX CLUB—

Among the leading social activities of the week was a Forty-Two party at the home of Mrs. Blackwell.

Exceptional interest was created in each game. Every thing was so well arranged that it added much mirth to evening.

Mrs. Blackwell was assisted by Mrs. R. F. Hale and Mrs. J. M. Foster in serving a salad plate to Mesdames C Hogan, Jones, Huie, Nichols, Williams, Senning, Morris, Bill Putman, W. H. Putman, Lea, Perry, Harkey, Forbis, Smart, Rector, Edmonds, Jennings, Wilson, Lavery, Starcher, and Mrs. Walter Russell of Roaring Springs.

W. M. U. CIRCLE 1—

Circle No. 1 of the Baptist Church met for regular Bible lesson on the book of Exodus, at 3 o'clock Monday afternoon at the church with ten ladies present. Bro. Parker is the efficient teacher for these lessons on the 1st, 2nd and 3rd Mondays of each month.

These lessons are very helpful and enjoyable to all who attend. Next Monday Circles 1 and 2 meet together for the lesson in Royal Service with Mrs. Lee Davis leader. Every Baptist lady in town is requested to be present at the Church at 3 o'clock.—Reporter.

AN APPRECIATION

The Cemetery Association wishes to express their thanks and appreciation of the Spur people and surrounding communities for their loyal support and help at the cemetery work last Tuesday.—Mrs. Putman, President.

Mr. and Mrs. Caroway left Monday for a few days visit with friends in Goldthwaite.

J. M. Robertson and daughter, of Afton, were doing some trading in our city Friday.

Miss Nadine Jay, of Girard, was shopping in our city Saturday.

DICKENS HOME IMPROVEMENT CLUB MEETS

The Club met with Mrs. R. M. Hamby on March 17. Our subject was to have been a lecture on setting hen and care of baby chicks, however Mrs. Hollingsworth just handed out pamphlets on same and devoted the time talking to us on the contest to be at Spur Mar. 28 consisting of Club workers.

Those present at the club were as follows: Mesdames Spear, O. C. Arthur, W. G. B. Y. Love, R. S. Harkey, Frank Crego, Porter Day, Mrs. Hollingsworth and the hostess.

The Club adjourned to meet with Mrs. W. G. Crego on March 27.—Reporter.

BRIDGE PARTY—

On Wednesday afternoon March 11, Mrs. Mac Brown entertained the Joi de Voi Club and a few guests. Table numbers and talley cards were suggestive of St Patrick's Day.

At Bridge, Mrs. Dan H. Zachry was winner of high score of the club members and Miss Kitty Powell of the guests. Mrs. Brown proved to be a charming hostess, and assisted by Mrs. Wack Rector served a lovely salad course to the following: Mrs. Cecil Fox, Mrs. E. L. Brown, Mrs. Roy Harkey, Mrs. M. H. Barnnen, Mrs. Jack Rector, Mrs. Dan H. Zachry, Mrs. Tracy Gorham, Mrs. Hill Perry, Mrs. Schrimsher, Mrs. Oran McClure, Miss Kitty Powell, Miss Hicklin, and the hostess.—Reporter

Miss Bessie Wayne Jackson has accepted a position with the Spur Mutual Life Insurance Association and will assist with the clerical work in the office.

Mr. and Mrs. J. W. Hilton, of Afton, were trading with Spur Merchants Friday.

T. T. Fancher, of Red Mud, was transacting business here Monday. He just lately moved from the Sycamore community.

sometimes referred to as he umbrella tree. It produces a very symmetrical head, has large leaves and is very popular. These two should be made use of where quick shade is desired, and especially where the space for them is somewhat limited.

By planting some of these four different trees about the place, one will have made a start to get quick shade. They should not be depended upon, however, for permanent shade trees. Better plant some of the longer lived, more permanent and beautiful shade trees in between them.

FROM THE CHURCHES

Soldier Mound—33 present for Sunday school on the second Sunday. \$13.50 collected for missions. Sunday, 15th there were 29 in Sunday school. The work is very encouraging.

Pansy—Rev. W. B. Bennett, pastor. There were five addi-

tions to the church last Sunday. 34 present at Sunday School. Rev. Parker is to be with us in a revival meeting beginning the first Sunday in April.

Whiteflat—Rev. W. L. Williamson, pastor. 43 present at Sunday school March 8th, and a good collection. 42 were present at Sunday school last Sunday. The Fifth Sunday Meeting will be with this church, beginning Thursday evening, March 26th, and continuing on through Sunday.

Duncan Flat—The Missionary was with us Saturday night and Sunday morning. Good interest.

Midway—Good interest in work. A fine sermon by Rev. J. O. Tidwell, missionary, Sunday evening.

Macedonia—A good crowd and a fine sermon by the Missionary Sunday evening.

Matador—This church is soon to be in a great training school under the leadership of Rev. J. B. Johnston, the pastor.

Roaring Springs—Rev. J. B. Vinson, the new pastor, is on the job and starting off nicely.

Spur—Rev. Parker was with us Sunday and delivered two of the finest messages you ever heard. Bro. Parker is giving his life for ours, let the membership pray for him each day, and lend him your presence at each service. Sunday School work is growing. There were 145 present Sunday. Prayer meeting is improving, 84 present. Let us make 100 the new Wednesday evening.

B. Y. P. U. and W. M. U. work continues to grow. Don't miss the services.

James F. Williams, the old Reliable Druggist, still filling prescriptions at Spur Drug Store

Mr. and Mrs. R. J. Bateman, of Afton, were in our city Monday.

W. D. Eldridge, of McAdoo, was transacting business here Monday.
