

Spur Chapter, O. E. S. Hold Reception.

Members of Spur Chapter, Order of Eastern Star, gave a reception to a number of visitor members.

The meeting was presided over by Mrs. Roy Russell, Worthy Matron of Spur Chapter. Rev. L. L. F. Parker was introduced and made the address of welcome in which he expressed the appreciation of Spur Chapter for the honor of having so many visitors present.

There were a number of visitors from other chapters. The out of town guests were: Mrs. J. E. Speer, Matador; R. M. Hamby, J. P. Middleton, Miss Olyvia Meador, Mrs. M. L. Jones, Mrs. Dennis Harkey, and Mrs. Frank Speer, of Dickens; Mrs. Mayme Tedrick, Mrs. C. N. Kenyon, Mrs. D. P. Graves, Mrs. B. O. Wilkerson (Past Matron), Mrs. L. R. Simpson, Mrs. Dottie Simmons, Mrs. Ruth Darden, Mrs. B. J. Kellett, Mrs. C. W. Wright, of Girard; T. C. Wathier, Wade Cooper, Mrs. T. C. Wathier, Mrs. Wade Cooper, Mrs. V. R. Plummer, Mrs. Coralee Woody, Mrs. Alice Balowe, Mrs. M. G. Leatherwood, Mrs. Zina Lamar (Past Matron), and Mrs. Roxie Cransberry of Crosbyton; Mrs. Eula Hardin (Past Matron) and Miss Hester Hardin of Estacado; Mrs. C. R. Westerman, Past Matron of Lorenzo; Mrs. Willa Rutherford, Past Matron of Ralls; Jessie McSpadden, Ruby Jewell Kennedy, Heloise Cathey (Past Matron), Verda Mae McCombs, Mrs. R. L. Alexander, Mrs. Edgar Johnston, Lillian Hagins, Mrs. Granville Wade, Mrs. Ross English, Mrs. Chas. J. Robinson, Mrs. W. H. Armes, Mrs. J. M. Johnston, Arlis Wilson and Lola Balch of Jayton; Mrs. Samantha Smith of Gilpin; Mrs. H. W. Siums and Mrs. T. V. Brown of Lubbock; Mrs. Roy Moses of Ralls; Mrs. J. R. Ward, Mrs. W. J. Evens and Francis Hunter of Clairemont.

SHORT VISITORS

Last week about Friday, Mr. H. W. Rhea and E. T. Young, of Fort Worth, paid a visit to Spur in a car, which was an open Ford. They were only out for a few days looking over the country and they arrived in Spur Friday morning, which was a very pretty day. They visited an old friend at the Times office and while here inquired about the rain and the sand storms.

Notice Ladies

Fancy hair-dressings made from combs and cut hair. Prices reasonable, satisfaction guaranteed.—Mrs. Fred F. Bell, box 117, Roaring Springs Texas.

Miss and Madam Spur Elected

Spur is to be represented at the West Texas Chamber of Commerce Convention at Mineral Wells by a Matron and Maid of Honor. The committee that was appointed at the Chamber of Commerce meeting to select these representatives have performed that duty and made their report to the executive committee.

Miss Kittie Powell, of the Spur National Bank, will be one representative and will be known as "Miss Spur." Mrs. Ruby Pierce, of the Bryant-Link Company will be the other representative with the title of "Madam Spur."

These ladies are connected with the business world and will make our people glad of the honor accorded them. The committee took much time in the selection of these representatives, and viewing the duties of these offices, it is very doubtful if two other ladies could have been selected that are better qualified.

TEMPLAR CEREMONIES ENLIST LARGE CROWD

One of the greatest services in the history of the city was that held at the First Methodist Church last Sunday evening by the Spur Commandery of Knight Templars. Long before the services began the large church auditorium and balcony were packed to their capacity, every available chair being taken.

The music, which was under the direction of Miss Nelle Higgins, was carefully selected for the occasion. The large choir of select singers made the welkin ring with sweet music.

At 8:10 the choir, assisted by the local orchestra, led out on that famous old song, "Onward Christian Soldiers," while at the same time the Knights marched in, taking their appointed places and joined in with the singers. Sir Knight, Geo. S. Link, acted as Prelate and conducted the services, which consisted chiefly of scriptural readings and prayer. All of the services were strictly worshipful in their content.

Rev. L. L. F. Parker delivered the address of the evening, impressing upon the minds of the Knights and the remainder of the congregation the essential required in a true life. "We must place our best efforts foremost, and march forward under the banner of right to accomplish our ideals as Knights," he said, "And as we have assembled here to commemorate this great day, we must ever be mindful of Him who occasioned this day and take Him as our example. We must either stand by the great principles set out by Him who broke the chains of death and overcame man's greatest enemies, or else be numbered with those who were willing to nail Him to the cross." These and many other great principles were outlined by Rev. Parker in his discourse which lasted some twenty five minutes.

The Knight Templars believe in benevolent work, and by virtue of this, a collection for the support of orphans was taken. Many people do not realize that the teachings of Masonry are founded upon the teachings of that great book, the Bible, which all mankind are supposed to take as the rule and guide to their faith and practice. The emblems and symbols that Masons have, may be nothing more than signs and pictures to many people, but to Masons they contain a volume to direct the mind of man to higher thinking. Many people ask the question, "Where do you find the teachings of Masonry?" It is easily answered—in the Bible. Read it for yourselves.

L. A. Grizzle, of Midway was transacting business and visited the Times office last Tuesday.

Good Roads Meeting in Jayton Well Attended; Good Interest.

That the people of Kent County are becoming more interested about good roads was manifested in a meeting held in Jayton last Monday. There was a good representation of the citizens of the county who were optimistic for a good roads movement in the county, and many expressed themselves in favor of the work.

The chief object of the meeting was to discuss the construction of a paved highway across Kent County, connecting up with highways to Haskell and other points on the south and then intersecting with Highway No. 18 on the north which would give a direct highway with all points in Dickens, Crosby, Floyd and other counties in the Panhandle.

If the work is accomplished according to the ideas of the promoters, it will be one of the greatest improvements in the history of Kent County and will mean more to this section of the west than any other improvement. After the road is constructed it will create enough business for the county to pay for the cost of it.

The people of Kent County are endeavoring to enlist the citizens of Stonewall County to join them in this movement, and if they do join in extending the work across that county will give one of the best highway connections in the state.

A committee on plans was appointed consisting of E. H. Wade, Lewis Mason and Jinks Garrett of Jayton and W. G. Mayfield, B. J. Kellett and F. S. Woody of Girard. The duty of this committee will be to devise routes, suggest good teachers before they secede, and try to secure co-operation of the people in the good roads building.

A number of excellent addresses were made on the benefit of the proposed highway. Among those who spoke on the subject were: Tom Johnson and Jinks Garrett, of Jayton; A. P. Foust, of Rotan; Clifford B. Jones, of Spur; and Judge H. A. C. Brummett, of Dickens.

Spur citizens attending the meeting were Clifford B. Jones, W. B. Lee, E. C. Edmonds, W.

FOREMAN CHAPEL MAN GETS ARM BROKEN

R. B. Stanley, of Foreman Chapel community, fell last Saturday morning and broke his right fore arm just above the wrist. Some of the horses got out of the lot and started out into a pasture and Mr. Stanley undertook to turn them back. In crossing a fence which was down he did not observe that one wire was a few inches above the ground, and when he hit the wire it tripped him throwing him forward. Most of the force landed on the right arm severing the ulna bone.

Mr. Stanley came into town and Dr. Blackwell set the broken bone. At this time he is suffering quite a bit of pain, but says he feels that he will soon be all right. "It is dry and I can't do much now, so I will just take a rest," was his remark.

SCHOOL BOARD MEETING

The Board for Spur Independent School held a meeting in the Spur National Bank yesterday afternoon. All of the newly elected members made the proper qualifications to assume the duties of the office. Among other things the Board discussed the faculty question some but did not go into election. The Board feels that it soon will be time to make selection of teachers for another year. The teachers now in the school will soon be looking for positions elsewhere and we need the good ones for another year. Again should any of the present faculty not stay for another term the Board wants an opportunity to select good teachers before they secede in positions in other schools. Spur has had an excellent school this year. The people generally are optimistic over the work done this year, and this is largely a result of the good judgment of our School Board in selecting efficient teachers.

F. Godfrey, C. L. Love, Geo. T. Snodgrass, and Geo. S. Link, Judge H. A. C. Brummett and O. C. Arthur, of Dickens, were also representatives of this country present.

Advertisement for The Spur National Bank. Text: "We'll Pay You Well. This is strictly a business proposition to you, a business man, a farmer of our community. Before giving you the details of it we want to ask you a question. Would you, a level headed farmer, keen as the next fellow for extra profits, permit an acre of land of yours to lie uselessly idle when it might be paying taxes and dividends and increasing your wealth? Sure, we know the answer. You wouldn't Not-by-a-jug-full! But—every day you carry around that roll of seventy or a hundred dollars, you're losing dividends, to say nothing of running the chance of losing the cash besides. If you are carrying with you the price of an acre of land, put it to work at once. Land may need following, but money doesn't. Keep it busy all the time. COME IN. GLAD TO SEE YOU. We Pay 4 per cent on Savings. The Spur National Bank"

Spur Better Homes League.

Everyone is in accord with Better Homes in America. The function of that educational organization is to correlate these wishes, through local Better Homes demonstrations, into tangible, beneficial results. Herbert Hoover, Secretary of Commerce and President of Better Homes in America, writing of the movement, said:

"In the crowded life of today there is danger that we may lose sight of high standards for the home and the stimulus they afford. We all do better when we have a high ideal to live up to. The Better Homes in America movement aims to give practical demonstrations of comfortable, healthful and attractive homes, to direct attention to the means by which family life may be elevated. It recognizes, however, that it is not the wish but the will; not sentimental desire, but vigorous, well-judged leadership, that moves our national life forward. The campaigns provide a means by which the men and women and children of our cities and our farms may cooperate to encourage and facilitate home-building, reduce needless drudgery in household operations, increase good sense or balance in furnishing or decorating the home raise standards whose necessary, in housing and family life, and, especially, foster the fine ideals of the American home.

"The 1924 campaign for Better Homes in America was greater than ever before. It reached every state in the Union; it penetrated rural districts, and towns and cities. Fifteen hundred local committees worked with the most inspiring zeal for public service, to protect and raise the standards not only of the home but of the community and the nation as well.

"As we enter the 1925 campaign for better homes, I hope that every American community will consider participation. The movement concerns every householder, every home-maker, every citizen. I bespeak active cooperation with the local chairman on the part of all persons or groups interested in the home—public officials, schools, churches, local civic associations, trade associations, and clubs. The home is the concern of all, and everyone should welcome the opportunity to contribute to its welfare."

Last year, as Mr. Hoover has said, fifteen hundred communities, large and small, in every state of the Union, took part in the observation of Better Homes Week. This year that number will be far surpassed. Three months before Better Homes Week some twelve hundred local chairmen had had accepted appointments and started work. It is impossible to forecast yet just how many communities will take part.

DICKENS BOY GETS NEW CAR BURNED

Johnny Koonsman, of Dickens, suffered the misfortune of getting his new Buick Roadster burned yesterday afternoon. The conflagration took place near the A. C. Hindman place on the Dickens road about four o'clock in the afternoon. The cause of the fire is not known as Mr. Koonsman was driving along at a very moderate rate.

Mr. Koonsman had owned the car about four months, buying it new sometime in the early part of the Winter. He was very proud of it and had given the car excellent care.

Hubert Karr, who has been a student in the Brantley Draughon College at Fort Worth, came in Saturday to be with his parents.

John L. Law Passed Away Wednesday

John L. Law, one of the most progressive citizens in the Duncan Flat community, departed this life at 7 o'clock Wednesday evening. Mr. Law had been a sufferer for two or three months as a result of a malignant tumor on the liver, and some weeks ago had come to the decision that his life would be of short duration. However, feeling that possibly there might be something that could be done for him he went to Lubbock where he entered the West Texas Sanitarium, but when a diagnosis was made, he was told his condition was beyond reach of medical skill.

Mr. Law was 51 years old, and had been in this country more than thirty years. He had worked on the range when this was an open territory, and had witnessed the transition of the country from a barren prairie to a land of feed and cotton. Not being averse to the advantages offered he secured a nice little home in the Duncan Flat country, and after wards bought other farms in the community.

He leaves his wife and four children who mourn his departure.

Funeral services were held, and interment made in the cemetery at Dickens yesterday afternoon.

1924 COTTON CROP IN TEXAS EXCEEDS 1923

According to reports sent out by the Bureau of Census, there was raised and ginned in Texas 4,851,878 bales of cotton in 1924. This was an excess of 639,630 bales over the 1923 crop which was 4,212,248 bales.

Dickens County experienced more than a fifty per cent increase in cotton production in 1924 as compared with that of 1923. The increase just shows how rapidly Dickens County is becoming one of the great agricultural counties in Texas.

The production in Dickens and surrounding counties is as follows:

Table with 2 columns: County and Bales. Cottle 31,636 18,855; Crosby 40,990 23,574; Dickens 26,911 17,142; Floyd 22,103 10,297; Garza 16,959 10,296; Kent 9,254 9,814; Motley 18,997 9,329; Stonewall 10,252 11,704.

No report was received on King County as what cotton is raised there is ginned in other counties.

INTERSCHOLASTIC LEAGUE MEETING AT LUBBOCK

The meeting of the Interscholastic League for District No. 2, convened at Lubbock at 9:30 this morning. All of the first honor winners from eighteen West Texas counties, including Dickens, will be present to contest for first honors in the district. The contests will include senior and junior declamations for both boys and girls debating contests and track and field events. There will be approximately 500 contestants in all the events.

GOVERNOR NEFF'S BROTHER-IN-LAW DEAD

C. H. Calvert, 78, died at his home eight miles south of Brownwood Tuesday. He was buried in Brownwood at ten o'clock Wednesday morning.

Mr. Calvert was a brother-in-law of former Governor, Patt M. Neff.

STATE'S APPROVAL GIVEN TO USE ROCK ISLAND TRACKS

The Railroad Commission Tuesday gave its approval for the Burlington system to enter Dallas from Fort Worth over the tracks of the Rock Island, a distance of thirty-five miles, and also the right to use the facilities of the Union Terminal Company at Dallas, the Dallas Railway and Union Depot Company and the St. Louis Southwestern Railway Company. Freight and passenger facilities are mentioned in all instances. The Burlington's entry is in the name of the Fort Worth & Denver City Railway Company, its Texas corporation.

The thirty-five miles of the Rock Island track between Dallas and Fort Worth will be one of the busiest stretches of railroad in Texas, as four trunk lines will be using it to enter Dallas, being the Rock Island itself, the Burlington, the Frisco and the Southern Pacific, the H. & T. C. having recently made a similar agreement with the Rock Island.

CHRISTY BROS. SHOW DREW GREAT CROWDS

Christy Bros. Big Wild Animal Show gave two performances in Spur last Monday and was favored with great crowds of people. Both performances were interesting and the exhibition of wild animals was very interesting. There were many animals that came from the orient and tropical regions, and the occasion of seeing them has been very rare with western people.

The ring performances were good. Many domestic animals were used and it is remarkable the wonderful feats they performed. The trapeze performances were good, and the comedies were clean and brought a roar of laughter from the people every time.

The after shows consisted of wild west performances and wrestling. In the afternoon the show champion wrestler made a challenge to pin down any local man within ten minutes or pay \$10.00. Mr. Turpin, of Roaring Springs accepted the afternoon challenge and received the ten dollars. At the evening performance, Mr. Edwards, of Dickens, accepted the challenge and also received the ten dollars. These are two West Texas boys that usually take the showman's money when they get an opportunity.

Christy Bros. have a good clean show, and generally command the respect of people wherever they go.

provided in the London agreement signed Jan. 20, 1914, at the international conference on the safety of life at sea. This conference was the outcome of the sinking of the Titanic with appalling loss of life after striking an iceberg on the night of April 14, 1912. As a result of this conference the United States was asked to undertake the responsibility of the ice patrol in the North Atlantic.

CHICKEN TALK Frank E. Wilson

Mrs. Housewife of the city and the country, if you have to buy your eggs for cooking, there will be, fresh gathered Extra Fancy, Fair and Middling Fair, Cold Storage in 3 grades; then, also, the grading according to size, color, etc.—making various and extreme differences in prices.

Some claim only 50 per cent of all baby chicks live and it is a fact and caused by lack of proper care in cleanliness of bedding, feed and water—also much depends on the eggs from healthy stock. Around 91 per cent should be average with proper care.

The Spur Poultry Ranch under the management of O. L. Evans, shows good and efficient handling. Their incubator capacity is now 12,096, which is not capacity sufficient to take care of present orders. There should be an increased number of incubators giving at least thrivable the present capacity for the coming year.

At present their laying flocks at the Hatchery consists of about 240 Leghorns, 180 Reds and 120 Barred Rocks, which should be increased. But incubator capacity is now most needed, the Ranch now being 30 days behind the orders on file.

During the coming year the chickens now being distributed throughout the country will help in supplying the extra demand for eggs.

Another good dip for chickens is made by mixing 1 ounce of sodium chloride to 1 gallon of warm water or 1 pound to 16 gallons of water; being odorless it does not effect the immediate marketing of the fowls.

The following instructions given by the Ranch with shipments of young chicks is good on the farm after your chicks are 48 hours old:

Have your brooder heated up to 90 degrees, as the shipping box has almost that temperature due to the heat given off by the chicks. As you transfer them to the brooder, give them a few swallows of water—not too much, as they will be quite thirsty, and too much water may make them sick.

If you intend to brood the chicks with hens, secure a setting hen for each 15 chicks, dust the hens thoroughly with a good insect powder and allow them to sit on artificial eggs. Do not put the chicks with the hens until after dark, or the hens may not adopt them readily.

Give them their first feed of Purina Chick Starter, the ideal buttermilk starting food. Feed it dry on a cardboard or in a low hopper or trough.

Feeding directions for Purina Startena and Chick Chow in each bag.

If your dealer has no Purina Chows in stock, write direct to the Purina Mills, St. Louis, Missouri.

ROOSTER CAN COUNT

A class in experimental psychology at the University of Chicago has found that a rooster can count. Kernels of corn were arranged in rows on the floor, every third kernel was tacked down. The rooster discovered this and passed up the stationary kernels. Then the third kernels were loosened and the rooster was set at his task. He skinned them until his foot struck one when, with a chuckle, he returned and ate all the kernels.

Agricultural Students Plan And Build Hog Houses

Vocational students of the West Texas State Teachers College at Canyon, under the direction of Prof. T. M. Moore, have demonstrated to their fathers and friends that fifteen to twenty-year-old boys are capable of planning and constructing suitable hog houses. The Teachers College Farm has been limited in the past for hog houses on account of limited appropriations. However, by wrecking gopher buildings, the students have built a sufficient number of individual houses to protect the five brood sows kept on the farm. The only cost to the state has been the nails and wear on the tools which were used.

The college farm is attracting favorable attention in West Texas because of the fact that it is more than self-sustaining, and is furnishing sufficient funds to keep six students in school.

A ONE-WHEEL CYCLE

Spectators at the National Stadium in Rome were surprised not long ago when they saw a huge wheel, driven by a motorcycle engine, rushing at high speed around the track. Within the wheel they saw the driver, his hands gripping the steering wheel, his feet resting on ordinary motorcycle pedals. His body kept the wheel in perfect balance. At every turn he would lean to one side or the other. When the spinning wheel finally slowed down and came to a stop he simply rested both of his feet on the ground, then let down a standard to keep the wheel from toppling over.

The driver of this remarkable vehicle was Davide Gislahi. Having an idea that one wheel would be more efficient than two, he had perfected what more than any inventor before him had attempted unsuccessfully, a one-wheel cycle that would run.

The wheel has two principal running parts—a large hop of steel. The inner circle carries the driving mechanism and the driver, while the tire moves around it. On the outer circumference of the steel hoop are rollers, and these support the run of the tire. Thus the two pieces, hoop and tire, are independent of each other as the wheel moves forward.

When the machine is moving, the inner hoop is kept stable by the weight of the engine and driver. But opposing this there is a friction roller, driven by the vehicle's motor, which acts against the rim of the tire and revolves it. This force is more powerful than any retarding resistance.

Consequently the driver does not turn with the wheel, but maintains his upright position. He balances the machine much as he would a motorcycle and regulates the direction to be taken by the vehicle by inclining his body to the right or left and by a steering wheel.

Drunkness Becoming Dangerous in Germany

In Germany hereafter getting drunk will be more dangerous. The draft for revision of the criminal code provides that persons committing crimes while drunk shall be punished for inebriety besides the criminal offense.

Community Correspondence Valuable.

Every community owes to itself to be represented in its local press both for community advancement and for community protection. If the community has no paper of its very own, it should be represented in a news way in the paper that circulates in its community. A good community correspondent is a valuable asset to any neighborhood in keeping that community accurately represented in the local press. People have more pride in their neighborhood and take a greater interest in community activities when they know that they will be properly represented in the press. Yet few neighborhoods are well represented by local press correspondents. Those that are not, should hold mass meetings and arrange to secure proper newspaper representation for their communities. This paper will always be glad to co-operate in publishing the news of any neighborhood in its territory. The difficulty is in getting correspondents who are able and willing to supply the news. The communities not represented could well afford to see to that.

RADIO WILL PROTECT SHIPS FROM ICEBERGS

As a result of the invention of a high-powered low-voltage thorated tungsten filament tube, the Coast Guard cutters, Tampa and Modoc, put to sea recently equipped with the highest powered telephone and telegraph radio transmitters carried by any ship flying the American flag. Each ship has a 2KW telephone-telegraph transmitter, and, if the regulations of the Coast Guard Service permitted, they could easily be used as floating broadcasting stations greater in power than most licensed land stations.

The Tampa and Modoc left the Boston navy-yard detailed to patrol the ship lanes of the North Atlantic to protect shipping from the menace of icebergs. These floating radio stations, both with the same call letter, NIDK, are in reality, international, for the cost of the operation of the patrol is shared by the leading maritime powers of the world, as

SELF CONFIDENCE CONDEMNATION

"The present prohibition Law is a joke," Judge David of Chicago declared recently. "The courts are cluttered up with such petty cases as this one where some poor man is found with a couple of drinks in his place and dragged into court." Continuing he said, "But no one ever hears of the wealthy man with a cellar full of booze being dragged into court."

So far as the principle of the law is concerned two drinks in the possession of the poor man is just as much a violation as the cellar full in the possession of the rich man. But may we ask why is not the rich man brought to the same terms as the poor man? The people elect legislators and pay the salaries which run into the millions of dollars in order to have good laws enacted. These legislators accept the people's money and is supposed to represent their best interests in law-making. The

laws, including the present prohibition laws, were enacted. They contain no clause that exempts the rich. Why do the rich escape, if they are violating the law?

Judge David said, "The ministers, the reformers, the prominent citizens who cry for prohibition are hypocrites as well as the Congressman who made the law."

It is very easy for a jurist in a dignified manner to make such accusations. There are too many courts today that would rather dance to the whim of sentiment given out by a few rich, than to stand by the principle of seeing the law enforced. Our sheriffs and police forces risk their lives, lose sleep, etc. to capture moonshiners and bootleggers, and when they are brought before the courts of our land the main principle of the law is voluntarily overlooked and they are released on some technicality. Why did Judge David issue a writ of mandamus forcing the city authorities to restore license

to run a soft drink stand to Stanley Peredena in whose possession whiskey was found when the state laws there provide that such license become void if intoxicants be found in his possession? He wanted to make the prohibition law a joke. Why should he criticize the ministers when at the same time our courts are upholding criminals? It is peculiarly strange how some judges interpret the laws, and from the way some of them handle some cases one would think of the procedure more in the light of a juvenile court that is handled by school boys than that of genuine jurisprudence.

ESCAPED WOMAN CRIMINAL CAUGHT

Memphis, Tenn. April 12.—Mrs. Winona Green, under life sentence for the killing of her husband's parents, who escaped from the county jail at Little Rock, Ark., last night, was captured today walking along the Missouri Pacific railroad tracks near union station here. Little Rock officers arrived late today and started back to the Arkansas capital by automobile with their prisoner. —Ft. Worth Record.

NEGRO HURLS FROM HIGH SWING; 2 HURT

Marlin, April 12.—Two persons sustained injuries at a carnival here Thursday night when Charley Reed, negro man, hurled from an aerial swing and landed on Mary Zapata, a Mexican woman. Reed leaned forward in an effort to touch the swing in which his wife was riding slipped from his seat, hurled out through the air into a group of spectators. All managed to scatter except the woman who was dazed and bruised about the hands.

SHEPPARD TO ATTEND MINERAL WELLS MEET

Washington, April 13.—Senator Morris Sheppard who returned from Texas Sunday announced he would attend the meeting of the West Texas Chamber of Commerce at Mineral Wells May 6, and the International Ad Convention at Houston May 9. He will not attend the good roads meeting at Houston this month but that event will be attended by Senator Earle B. Mayfield who leaves for Texas in a few days. —Dallas News.

MOSLAH TEMPLE TO HAVE CEREMONIES APRIL 25

Plans for the holding of of Moslah Temples' spring ceremonial in Fort Worth, Saturday April 25 are fast being completed and Richard Clark, former Ziegfield Follies and Famous-Players scenic artist is fast putting the finishing touches to the stage setting which is being especially built at the Coliseum for the ceremonial.

The time honored dance will be held, Friday, April 24 for the novices, Nobles and their ladies, in addition to which there will be a dance held Saturday morning at the Texas Hotel in the Crystal Ball room.

Promptly at 4 o'clock the street parade will be held, after which the feed will start at the Coliseum promptly at 6 o'clock for all Nobles and novices.

Moslah Temple band, under the direction of Noble Wright Armstrong will give a band concert starting at 7 o'clock, after which the ceremonial proper will be staged. Noble Wright Armstrong is widely known as the director of the world's famous "Old Grey Mare" band.

Novices will be registered both Friday and Saturday that they may attend the dance Friday night and Saturday morning.

Nobles and their ladies are especially invited to attend an entertainment, which is being staged by Moslah Temple Chanters, under the direction of Sam S. Losh, Tuesday, April 21 at the Southside lodge auditorium, corner Fifth and Magnolia avenues. The program is being arranged by E. Clyde Whitlock. The Chanters are composed of over fifty male voices.

In addition to the entire new stage settings, numbers of new stunts are to be staged in the second section of the ceremonial, which are all new and are now being rehearsed in order that they may be in good working order.

A large class is anticipated by Potentate John F. Lyons as reports from the surrounding territory are very encouraging.

Moslah Temple uniform organizations will stage the entire show at the West Texas Chamber of Commerce meeting, May 4 at Mineral Wells which has been designated Shrine day and all Nobles are especially invited to attend.

Little Texas Girl Who Swallowed Grass Blade Is on Way to Recovery

St. Louis Mo., April 13.—The possibility that little Jimmie English, 11-year-old girl of San Antonio, Texas, who was brought here Feb. 25 for an operation for abscess of the lung, caused by a blade of grass she swallowed, would be permitted to return home soon was indicated when she was permitted to walk about for the first time since her operation. Hospital authorities declined to say definitely when she would be sent home, but indicated it would be soon. The blade of grass became lodged in the child's lung four years ago. —Dallas News.

FIND 1,450 GALLONS OF MASH NEAR MEXIA

Local officers of Mexia and Federal officers made a search into the "young bottom" in Freestone County, East Texas, where they destroyed one of the largest stills ever found in that place, made famous three years ago by a machine gun battle between Texas rangers and natives, when sixty-four prisoners were taken and eleven stills destroyed.

One of the rangers on the force of 3 years ago, Charles Greathouse, now a city detective of Mexia, assisted the Federal men on the raid.

Charges are to be filed against one man, who is said to have operated the still. Fifty-four half gallon jars of corn whisky and 1,450 gallons of corn mash was found. A well a hog-proof fence, a brick furnace to heat the still and other indications of a permanent whisky-making business were found.

The officers spent all of Sunday in that section of Freestone County, they report.

PRESENT REPRESENTS TOMB AND MOURNERS AFTER CRUCIFIXION

Governor Miriam A. Ferguson received an unusual Easter present. Many people throughout the State probably saw beautifully decorated Easter eggs, but it remained for Geo. Sene, Austrian candymaker of San Antonio, to present her with a present that will prove both different and beautiful.

Sene has moulded from candy, which he made himself, an Easter egg larger than a football. The egg has a door at one end and is made to represent the cave in which the Savior was placed following the crucifixion.

Through this door the crucified Christ can be seen lying on rocks in the cave and standing around can be seen Mary, the Mother of Christ, and other when the body was buried.

The egg is mounted on a cady pedestal which in turn is placed on a platform of candy. This is only one of the many designs which Sene has made in his little candy kitchen in his room at the Central Hotel in San Antonio.

LAW FORBIDDING USE OF CUT-OUTS

One of the acts passed by last legislature is one relative to forbidding the use of cut-outs on cars. The governor approved this bill to become effective ninety days after being signed. The time limit on the bill will be up about June, and after that time it will be a violation of the law for any one to run cars with the cut-outs open.

Each offence against the law is classed as a misdemeanor, and upon conviction the offender is to be fined and if the offender repeats the crime the fine is increased accordingly.

SAND CAVE TRIES TO CLAIM ANOTHER VICTIM

Sand Cave, claimant of the life of Floyd Collins, cave explorer, had another wayfarer trapped in its death chamber for more than an hour last Tuesday.

Shifting rocks of the cave suddenly blocked the passage of the lateral leading from the shaft to Collins' body as Elmer Hays, a member of the second rescue party now trying to effect Collins release, was about to ascend the crawlway in the lateral. It took his companions more than an hour of careful work to free him.

TIMES ADS always brings results, read and follow them.

NOLAN COUNTY TO WAGE WAR ON GRASSHOPPERS

A solid carload of arsenic has been ordered by a group of Sweetwater business men in co-operation with the Board of City Development, for distribution to Nolan County farmers for staging active warfare against the grasshoppers in this county. The drive against the pests will start early this year in an attempt to clean them out before serious damage is done the cotton crop.

The arsenic will be distributed to farmers at cost, selling for approximately 10c per lb., and representing a distinct savings over retail prices.

A carload of molasses has also been ordered, and this will also be sold at cost to the farmers. The molasses is mixed with arsenic and bran to make an effective grasshopper poison.

BABOON OF NEW YORK ZOO, SLAIN BY KEEPERS

Duke, Central Park Zoo's 90 muscular pounds of chacina baboon, long known as the dangerous character, is dead after standing a hostile world at bay for three hours.

Duke was shot at the zoo April 13, after all efforts to recapture him had failed. He had gained freedom through the top of his cage by springing a loose bar, and dropped to the floor among a crowd of visitors many of whom were school children enjoying a holiday. The crowd beat a hasty retreat. Keepers strove for three hours to catch him alive, but finally were obliged to kill him.

Duke came to the zoo from a circus menagerie five months ago. He was believed to have been between six and ten years old, and stood 4 feet tall. His keepers said he had always been a nasty inmate, refusing to warm up to them even at feeding time.

Tillie Clinger says the reason she resigned her job as a cashier at the movie was because she got tired of the witty men who called her Miss Gish. The new Minister of Finance in France is De Monzie. And he has need to capitalize his name.

CHILDREN'S FATAL DISEASES
Worms and parasites in the intestines of children undermine health and so weaken their vitality that they are unable to resist the diseases so fatal to child life. The safe course is to give a few doses of White's Cream Vermifuge. It destroys and expels the worms without the slightest injury to the health or activity of the child. Price 35c. Sold by

CHURCH REPORTS
Lost Lake: In Sunday school 50, and offering for Foreign Missions \$7.00. The prayer meeting well attended and enjoyed by all.
Soldier Mound: Report 33 in Sunday School. Most of them come to Spur to hear Dr. Powell speak at the Baptist church.
Spur: Reports a great day, a large attendance and a fine service. 206 at Sunday school. The writer spent a pleasant day and we trust a profitable day Sunday with Wake people on the plains. A full house and a responsive audience. A fine dinner for all.—Reporter.
PANSY CHURCH
 Last week's revival meeting held at the Pansy Church, was a great spiritual uplift to the community. Bro. L. F. Parker, pastor of the Pansy Baptist church did the preaching. His inspiring old time gospel messages made a profound impression on all who heard him because he made the undeniable Gospel Truths so plain that even a child could understand them. The services were largely attended and we are sure that much good was accomplished. Though the visible results were not what we had hoped

and prayed for, we know that God's Word will not return unto Him void, so the good seed sown will undoubtedly spring up and bear much fruit in the future years. There was only three additions to the church, one for baptism, but the church was greatly revived and benefitted in every way.
 The Pansy church is one of the best churches in the entire association. It has a genuine zeal for God and righteousness, and is doing things for His Cause. The church building has recently been repainted, has a new piano, and is now installing a carbide light plant. Pansy has a membership of about 140 and a good Sunday school, superintended by Bro. McDonald. Prayer meeting every Wednesday night. The Singing class meets every first and third Sundays afternoon. Andy Walker is president.
 Come and join the large crowds at Pansy and help us keep house for the Lord. We will have preaching every first and third Sunday, morning and night.—W. B. Bennett, Pastor

the evening. The class members were requested to invite a guest, and as the class is composed of young ladies there were a number of young men that had an off time leap year invitation.
 The occasion was a very enjoyable one as every one present were asked to dispense of dignity and have a good time. Old time games were indulged in, and before long these young people who ranged from twenty years on up, were playing like children.
 The refreshments consisted of nut angel food cake and ice cream, and was relished by every one present.
 At a late hour the good time closed and the guests departed feeling that they had enjoyed the time of their lives.
 Those present were: Misses Kittie Powell, Mabel Harris, Dura Whaley, Blanche Smith, Mary Stovall, Jennie Shields; Messrs. Hull Speck, William Manning, Folley, Nicels, and Mr. and Mrs. Weldon Grimes.
ROARING SPRINGS LOCALS
 Some of the Simmons Students from Abilene will give Roaring Springs a program tonight at the Baptist church. The program will start at 8:30. Mozelle Keahey, who has been in bed sick for a few days is now up again feeling

ant and attractive to herself and to the other members of the household. Occasionally, it might be well for the housewife to test her meals and herself by asking these questions:

1. Does this meal contain a sufficient amount of protein? fat? carbohydrates?
2. Does it contain one or two green vegetables? fresh or dried fruit?
3. Is there a pleasant variety?
4. Is it as well cooked as it might be?
5. Has it been prepared at a minimum cost of money, time and strength.
6. Finally, is it served as attractively as possible?

ESPUELA HOME CLUB—

The Espuela Home Improvement Club met with Mrs. Delisle, Wednesday afternoon, April 8 with a good attendance.

Mrs. Holingsworth discussed baby chicks and their ills.

We will meet with Mrs. W. F. Foreman April 22. We will have a demonstration on salad dressings.

All are invited to be present—Reporter.

METHODIST REVIVAL CLOSED SUNDAY

The revival at the Methodist Church which had been in progress the past two weeks closed Sunday afternoon. Rev. Haymes, who did the preaching, brought able messages during the entire series of sermons delivered. The last services were held at four o'clock Sunday afternoon and was devoted strictly to the men. A large number of men and boys were present, and Rev. Haymes made an appeal which should cause any man a desire to want to live a better life.

During the meeting the church generally was placed on a higher basis spiritually. However, there was not much gained among the worldly class because they refused to make any change in their mode of life.

ONE DEAD, 8 HURT IN CRASH ON SPEEDWAY

Havana, Cuba, April 12.—One person was killed and 8 others seriously injured this afternoon when Joe Rossum, the Austrian speed driver lost control of his machine during the automobile races in Vedado, in the suburbs of Havana, and dashed into a crowd of spectators. Rossum himself was seriously injured if not mortally injured.—Ft. Worth Record.

EPIDEMIC OF RABIES FOUGHT AT BARTLETT

Bartlett, April, 12.—Bartlett is having an epidemic of the rabies. Marshall McElroy was called out of bed at 1 o'clock yesterday morning to kill a rabid dog that was running wild and had bitten five other dogs that they knew of and perhaps several more before it was killed. The city officials urge that the owners of dogs be very careful.—Record

DENISON WOMAN GIVEN PEN SENTENCE

Mrs. Simmie Combs, Denison woman, charged with manufacturing intoxicating liquor was convicted by a jury in Fifty-ninth District Court Friday night and given one year in the penitentiary.

Mrs. Combs told the jury she was making the liquor as medicine for her children, victims, she said, of a wasting malady, upon a doctor's advice. Several other charges are pending against her. The arrest which resulted in the charge tried Friday was made in an exclusive residential district of Denison.—Record.

ment of foods in the testines.

The serving of soup first, either in the dinner or supper menu, is wise. Digestion is stimulated by the eating of hot soup before the other dishes. For lunch or dinner, a cream soup with its many possibilities for variation is good. For supper a meat or chicken soup, called clear soup, may be served.

Since the dessert comes last,

followed by a hot drink, the maker feel reasonably sure of having provided the proper amount and kind of food for her family.

Breakfast Plan—(1) Fruit in some form. (2) Cereal. (3) Some muscle building dish such as eggs, fish, or a small amount of meat. (4) Bread. (5) Hot drink.

Dinner Plan—(1) Light soup, if desired. (2) Meat or meat substitutes. (3) Starchy

considered only the content of food materials in the menu. But the thoughtful housewife must consider also economy of money and time. It is by no means the most expensive meal which is always the most wholesome. The last minute meal with perhaps canned goods for the foundation costs more than one that is carefully planned. By thinking ahead the housewife can prepare fresh dishes that are both more wholesome and inexpensive than those hastily thrown together, and she can also utilize left-overs to better advantage. Sometimes Monday is "blue" for a family because the "scraps" from Sunday's Dinner must be eaten. These should not be thrown away. But a few minutes of thoughtful planning on the part of the housewife often will enable her to make some left overs more delicious than the original dish. Or perhaps by a little thought, she may see that she can just as easily wait until the following day to use the left-overs and prepare something new for Monday. Indeed, it is far better at the beginning of the week to plan the meals, as well as other household affairs, for the entire week. Such a schedule must necessarily be more or less elastic, subject to alternations and adjustments. By thus planning, one can have not only better balanced and more appetizing meals but at the same time, she can have less expensive ones, often reducing the grocery bill to a surprising extent.

Nor is there saving in money alone. By planning she will save her own time and strength. In the first place, she thus eliminates that uncertain feeling of "what shall I have for dinner?" which is a constant source of mental discomfort. And by thinking and ordering or buying ahead she keeps a well stocked pantry.

Then, too, it takes less time to prepare a well thought-out meal than one that is not planned. Furthermore, she derives more pleasure from systematic work than from scattered efforts. Altogether, wise planning will mean more to a woman than she can possibly realize until she has given it a trial. If she has not been accustomed to doing systematic planning, she will perhaps find it difficult at first, but by persistent effort she can eventually train herself to such a method and thus save money, time, and strength, and at the same time make the work and the life of her home more pleas-

Grasshoppers Hatching in
Great Numbers—Steps
Should Be Taken At
Once to Control Them

A great number of grasshoppers are hatching in the areas which have been favored with rains, and it is apparent that with rain enough to bring up grass and crops, that we are going to have to take steps to protect our crops from them.

So far, only one practical means has been found to combat them, and that is by way of poison bran-mash mixture. The cooperation of the business people of Spur has been secured, the grocery men having agreed to handle the syrup and fruit necessary for the poisoning of the fields at cost, and the druggists buying the arsenic and furnishing it to the Spur Commercial Club who will distribute it at cost to the farmers.

In order to facilitate the handling of the poison, I would be glad if every farmer who expects to have to poison to let me know at once how much he will need so that I may save it for him.

A very good plan to follow in figuring the amount of poison you will need is to plan to use a half pound per acre for each time you apply the poison, and it will be necessary to apply the mash to only a small strip of land around the edge of the field, and in the tall weeds or bushes near the edge of the field.

The cooperation of the business men, by securing the ingredients for the mash at cost, will save thousands of dollars to the farmers of the County, and this plan will make the ingredients cheap enough that every farmer can afford to wage a fight on the hoppers that will protect whatever crops the rains may assist us in getting up.

Please do not overlook booking your order for the poison, and at the same time, see your grocer, and arrange with him to have a sufficient amount of the cheap molasses saved for your needs.

I am in my office only on Saturdays, so please see me on the first Saturday that you are in town and let me know what amount of the poison to save for you.—R. B. Johnston, County Agricultural Agent

Mr. and Mrs. H. P. Gibson left Tuesday for Farwell, N. Mexico, for a few days visit.

Mrs. M. D. Ivey, of Roaring Springs, was doing some shopping in our city Tuesday.

Dudley Wooten, little son of R. R. Wooten, is gradually improving in health. He has been ill for some time.

Geo. C. Haile, of Megargle, was here the last of the week visiting his mother, Mrs. M. B. Haile, and his brother, C. C. Haile.

Mr. and Mrs. J. E. Johnson left Tuesday for Austin where they will visit their daughter.

Mrs. Homer Nix, who has been confined to her bed on account of typhoid fever for some time, is recovering and will soon be able to be up again.

Mr. and Mrs. J. B. Overton, of Jayton, were doing some trading with Spur merchants Monday.

J. M. Jackson, of Roaring Springs, was looking after business affairs here Monday.

MADE A GOOD CAPTURE

The first of the week a number of negroes and few whites decided to have a thrill in a poker game. It is not known why they forgot there is a law condemning such actions, but at any rate they either forgot or ignored the fact, and went on with the game. Local officers made their appearance and captured twenty nine of the gamblers and brought them before the court. Some fifteen or eighteen of them paid fines because they were engaged in the game. The others had been looking on and were just as guilty as the others so as the meaning of the law was concerned, but as they had to pay a fine they were released with the understanding that they get out of the country at once. Those that were turned loose had come here with the Christy Bros. Show and the officers felt that it would be better for the country to get them away than to confine them in the County jail and have to pay the expense of feeding them. The show people promised to take them away, and after a reprimand the gamblers were turned over to the show people.

If the people of the county would vote a small road bond it would fulfill the conditions of the law and permit officers to work such violators on the roads. By this means they would be taught to do honest work and at the same time earn what the country would have to be out for their expenses. A 2000-dollar bond would be all that would be required and just keep it in force, and then the law violators could pay the bond in work.

One thing sure, if people come into our county expecting to run over the law they are liable to be disappointed. We have officers who are not afraid to go after those people, and they are on the job the greater part of the time.

SOON TO BE COMPLETED

Home Beautiful being built by W. H. Pearston for Miss Kitty Powell is again progressing rapidly after two weeks delay awaiting materials from Fort Worth. Brick work being done by Mr. Berry. Outside painting by Mr. Laine; papering by Mr. Dilleshaw. Mr. Pearston expects to have this home ready for occupancy by May 1st.

POLICY HOLDERS DO LIKE SPUR MUTUAL

The policy holders in the Spur Mutual Life Insurance Association is manifested in the following letters.

Aspermont, Tex., Rt. 1 4.9, 1925.

Mr. C. C. Haile, Sec. Spur, Texas,

Find inclosed \$1.00, fee for the death of W. A. Hart, Aspermont, Texas. I was personally acquainted with Mr. Hart and family. It was a great blessing to his children to receive the insurance, otherwise times would have been hard with them. Please give credit.

(Signed) A. S. Holmes

of \$1.00 required by the death of Mr. W. A. Hart of Aspermont, Texas.

I knew him well. I was very sorry to hear of his death. I am glad to help his children.

Yours truly,

(signed) J. T. McElhane

These letters demonstrate the value of insurance. Many times death visits homes when the bank account is at low ebb, and a little insurance does much in taking care of the difficulties. There is not much excuse for a strong healthful man doing without protection for his family. Many times insurance keeps widowed mothers and orphan children from becoming the objects of charity.

SANITARIUM NEWS

Lewis Bowman underwent an operation Tuesday morning and is getting along nicely.

Ernest Keaney, who is here on account of a broken limb, is getting along all right. His accident occurred Thursday of last week.

P. G. Youngblood, of Dickens, who underwent an operation last week, is getting along nicely.

Mrs. J. V. Powell, who underwent an operation last week, is improving.

Miss Ola Seales, of Roaring Springs, underwent an operation yesterday morning.

E. E. Chapman, who has been in the sanitarium since April 3rd, on account of an appendectomy, was able to return home Wednesday.

Mrs. J. F. Crump has been here the past few weeks, was able to return Monday.

Mrs. W. C. Messers, of Espuela, who has been here since April 1st, is able to sit up some now.

Miss Zazle Teague will soon be able to return to her home. She has been here since March 31st.

Mrs. Cal Martin, who was severely burned some weeks ago, is able to be up and about her home again.

LUBBOCK PEOPLE ARE
KILLED IN AUTO WRECK

Mrs. J. W. Letsinger and her little daughter, Ella Virginia, were killed near the north Lubbock County line Monday afternoon, when a Santa Fe train hit the auto in which they were riding. Miss Susie Letsinger, 19, and Ted, 12, were seriously injured at the same time.

The accident occurred in what is known as the Monroe community at a crossing on either side of which were high embankments. The mother and baby were pinned beneath the auto, while the two older children were knocked clear of the auto.

Mrs. Letsinger was 41 years of age and had lived in Lubbock County more than twenty years.

Fred P. Dawson, a good Roaring Springs farmer, was transacting business here Monday.

REVIVAL PRESBYTERIAN
CHURCH BEGINS SUNDAY

A revival meeting will begin at the Presbyterian Church next Sunday. Rev. McLean, the pastor, is very busy this week making proper arrangements and getting everything in readiness for a great week for his church. Rev. E. A. Lindsey, of Fort Worth, will do the preaching and home talent will be used in the singing. Rev. McClean especially requests that everybody feel at home when they go to the services, and assist all they can to make the meeting a success. "I want people to feel they are welcome when they come," was his remark when speaking about the meeting.

It is every Christian's duty to attend all they can and lend every assistance possible for a good cause.

Lem Miller, a Roaring Springs merchant, was visiting friends here Sunday.

BOBBED HAIR STARTED IN SHANGHAI

Shanghai, for centuries the native habitat of long haired men, started the feminine bobbed hair craze on its way around the world, Miss Laura Holden, Shanghai buyer for a San Francisco style shop asked yesterday, upon her arrival here from the Orient. Styles in Shanghai are out two years a head of us in bobbing and everything else," said Miss Holden. "I observed Paris modistes copying Shanghai styles many years ago."

FOR HOME AND STABLE
An extraordinary Borozone treatment for wounds, cuts, sores, galls, burns and all kinds of ailments. It is just as effective in the stable as at home. Horse flesh heals with remarkable speed under its powerful influence. The treatment is the same for humans. First wash out the area with liquid Borozone, then apply Borozone Powder to complete the process. Price (liquid) 30c, 60c, 1.00. Powder 25c and 50c. Sold by ALL DRUGGISTS

AN EXHILARATING EFFECT
A bottle of Herbine on the shelf at home is like having a doctor in the house all the time. It gives instant relief when the digestion gets out of order or the bowels fail to act. One or two doses is all that is necessary to start things moving and restore that fine feeling of exhilaration and buoyancy of spirits which belongs only to perfect health. Price 60c. Sold by ALL DRUGGISTS

Clock on Strike 158 Years Now Strikes Hourly Again

London.—An old clock that stopped working in 1767-158 years ago—recently was re-started after a year's effort by a member of the Admiralty staff. The clock is about 200 years old and contains more than 600 parts which weigh about 100 pounds. It is made of brass of such fine quality that an ingot of it could be beaten almost like gold leaf. The clock was made by a carpenter named John Harrison for His Majesty George II. by order of the Board of Longitude, which appears to have been an Admiralty commission appointed to superintend the installation of chronometers and navigation apparatus on the ships gave Harrison \$1,250 for the job and he took two years to make it. It is really a clock within a clock, the smaller one running for four minutes only, being wound every three and three-quarter minutes by the larger clock, which has to be wound daily.—Dallas News.

PARIS MEN INJURED IN FURIOUS STORM

While on their way home from Honey Grove, Warren Alexander, a prominent business man of Paris, Texas, and Lee Terry, an employee, were caught in the storm that recently swept over Brookston, west of Paris. Alexander ran his car into a garage, which was blown away. He made an attempt to go to another location, but the hail and wind was so strong that he could not make it, the hail beating him about the face and head, inflicting many painful bruises. He was blown against a pile of cross ties and took refuge under same. Terry got under a concrete culvert and came near being drowned.—Ft. Worth Record

SNAP SHOTS

The reason we like a goldfish is that being a public character doesn't make him pompous.

Furthermore, when a lady is tripping the light fantastic toe nothing makes her madder no steps of Apocymos. for unpa it.

THE DAY'S WORK
By Edgar A. Guest

Is anybody happier because you passed his way?
Does any one remember that you spoke to him today?
This day is almost over and its toiling time is through;
Is there any one to utter now a kindly word of you?

Can you say tonight, in parting with the day that's slipping fast,
That you helped a single brother of the many that you passed?
Is a single heart rejoicing over what you did or said?
Does a man whose hopes were fading now with courage look ahead?

Did you waste the day or lose it, was it well or poorly spent?
Did you leave at rail of kindness or a scar of discontent?
As you close your eyes in slumber, do you think that God would say,
You have earned one more tomorrow by the work you did today?

DOCTOR URGES PEOPLE TO GET ENOUGH SLEEP

People who "sleep less than seven hours a day are going on their nerve," for sleep not only "kits up the reveled sleeves of acre," but it is an important factor in the prevention of its raveling, according to Dr. Chester T. Brown of Newark, N. J.

Dr. Brown, who is associate medical director of an insurance company, made this statement in a reply to the inquiry, "How much sleep is necessary, and why?"

"It is a mistake to say that every adult should have eight or any other specified number of hours of sleep," he said. "The present-day tendency is to underindulge in sleep and overindulge in eating and other pleasures. Such unbalanced indulgence does not make for a healthy or efficient people. For sleep is a pleasurable pastime as well as a great healer."

LEPERS ENDANGER PUBLIC HEALTH IN PHILIPPINES

More than 300 lepers detained in various parts of the Philippines are held under conditions neither sanitary, humane nor safe to the public at large, according to an urgent communication sent by Vice Governor Eugene A. Gilmore to the Secretary of Commerce and Communications. Mr. Gilmore requests that a coast guard vessel be made available immediately for the purpose of collecting these lepers from the various islands and transporting them to Culion Island, the leper colony.

According to the report of Dr. Jose Avellana, chief of the Culion Leper Colony, 5,103 persons are confined there, four of whom are Americans. The colony consists of 2,487 men, 1,318 women, 802 boys and 496 girls. There are 1,134 single and 2,350 married lepers; 262 widows and 1,298 children.
