

## Northwest Texas Fair Postponed; To Be October 7th, 8th, 9th And 10th

### Added Attractions, Feature This Year's Fair; Be Here

At a meeting of the Fair Association for the Northwest Texas Fair held the last of the week it was decided to hold the Fair the second week in October instead of September 24-27 as has been formerly advertised. The dates now are October 7th to 10th, beginning on Wednesday and closing on Saturday of that week.

There were several reasons for not holding the Fair this month. Among these were the fact that the amusement company that was billed for the Fair in this month decided they could not be here. This necessitated getting a new amusement company, and as most companies had been billed for to secure one at all. By defaulting to secure one at all. By delaying the Fair two weeks the Association was able to secure one of the best lines of amusements found anywhere.

Again, the recent rains had kept crops from developing as they prolonged the growing period. There is practically no cotton that could be exhibited at this time that would meet the requirements for exhibit cotton. The rainy season being on so long the farmers were not able to get ready for any kind of an exhibit like they want to be ready for.

It will be observed that there has been a day added to the Fair, there being four days instead of three. There will be an entirely new program for this extra day. This will be "Band Day" and the proceeds will go to Spur Municipal Band. The "Band Day" will be a new feature in the Fair, and will be one of the best days of the Fair.

There will be a great line of horse races this year. One of the great attractions will be the relay races. The Fire Works display will come on the evenings of 8th and 9th, the second and third days of the Fair. This will be one of the greatest of its kind in this country.

In addition to all of these amusements there will be an excellent exhibit of live stock of different varieties, all kinds of agricultural products, poultry exhibits, etc. that will require a great deal of time for people to see. All of them will want to see these exhibits, for they display the producing ability of Dickens County.

#### FILMLAND FLOCKS

Something new, something out of the ordinary. We have them in stock. The garments received this week were personally selected and posed by Anna Q. Nilsson, famous movie star, and every member of the Hollywood Film Colony who has seen them is delighted. See Miss Nilsson's pictures in our window modeling, the very garments we are showing this week. These garments made in Los Angeles and selected and modeled by famous movie stars will be coming to us each week. If movie actresses know anything, they know how to dress. So you can't go wrong in buying a garment they have selected for you. We have never shown these garments before, and no other merchant in Texas has shown these garments before, and no other merchant in Texas has shown them. They are new; they are novel. Every garment different; every one carrying charm that proves the designer knew what constitutes real beauty and refinement of dress. Ask to see Filmland Flocks.

#### METHODIST LADIES

##### TO GIVE PROGRAM

The members of the Young Ladies' Missionary Society of the Methodist Church will give an open program at the Church next Sunday evening. The exercises will begin at eight o'clock and will consist of fine musical selections.

The members of the Young Ladies' Missionary Society are live wires in the Church, and their pastor depends upon their support a great deal. People will have an opportunity to hear a good program if they are present.

Mrs. W. P. Marshall, of Steel Hill, was doing some shopping in our city Tuesday.

#### FOUR PER CENT MONEY ON COTTON, TO FARMERS

Four per cent money on cotton is perhaps not unprecedented. But farmers get mighty little of it. Offhand, one might be tempted to say that they get none of it. But that is a mistake. Somebody has sent The News a copy of an advertisement published in the Wetumpka (Ala.) Herald by the First National Bank of that town. In part it says:

To enable our farmers to market their cotton in proper manner, we will until further notice make loans on cotton secured by deposit of warehouse receipts at the low rate of 4 per cent per annum.

Cotton must be stored in warehouse at Wetumpka, Ala., and properly insured, and must be free of all incumbrance.

Further down in the advertisement occurs a statement of the general policy of the bank:

In every emergency this bank has been willing and able to furnish adequate banking service for the community and it has at all times endeavored to provide proper credit facilities for the farmers of this section at rates as low or lower as are enjoyed by those engaged in commercial or industrial enterprises.

Four per cent money is pretty reasonable, any way you look at it. But, even after we make the calculations which would give its equivalent in Texas, where the use of money is worth more, there is something worth thinking about in the Wetumpka bank's advertisement. It did not offer money at 4 per cent to make a crop with. It did not offer money at that price to speculate with or "buck the market." It minimized risk to itself. It required adequate security. In other words, it did not overstep safe banking. But on the notion that the farmer takes a higher interest rate just because he is a farmer, the First National of Wetumpka had no mercy. It opened up with both barrels, so to speak, and blew daylight out of that idea. It is interesting to think about that. After all, isn't the farmer overlooking the value of having bank-worthy collateral?

#### MERCHANTS' MATINEE WEDNESDAY

The following merchants are giving a Matinee at the Lyric Theater next Wednesday afternoon, the program starting at two o'clock. Spur Hardware & Furniture Company, M. Grocery, Spot Cash Grocery, C. R. Edwards & Company, Salems Dry Goods, Huie, the Tailor, and Spur Tailor Shop.

Customers can secure tickets free at any of the above named business firms. The Lyric management says this will be as good a program as is put on here or any other place. The picture is one of the highest type, and one that the people will enjoy.

Get tickets free at these places of business.

#### MY CITY AND I

My city is where my home is founded, where my business is situated, where my vote is cast, where my children are educated, where my neighbors dwell and where my life is chiefly lived.

It is the Home Spot for Me. My city has the right to my civic loyalty. It supports me, and I must support it.

My city wants my citizenship—not partisanship; Friendliness—not selfishness; Co-operation—not dissension; Sympathy—not criticisms; my intelligent support—not indifference.

My city supplies me with law and order, trade, friends, education, recreation and the right of a free born AMERICAN. I should believe in my City and work for it, and I WILL BY SUPPORTING THE CHAMBER OF COMMERCE.

#### JERSEY CATTLE

I have for sale a carload of good fresh and heavy springer Jersey cows and heifers, the sure enough kind, priced right, see them at the Spur Poultry Rancho.—R. B. Johnston.

#### MACHINE CORN PICKER CUTS PRODUCTION COST

Corn husked by hand was produced at a cost of 53 cents a bushel in 1924 in Kingsbury County, S. D. The cost of producing an acre including all expenses and interest on the value of the land was \$20.47. A machine picker reduced the cost to \$18.44.

#### ST LOUIS ACCIDENTS NUMBER 200 EACH DAY

Automobile accidents in St. Louis, Mo., average 200 daily. Forty per cent of the accidents, ranging from battered fenders and punctured radiators to serious smashups, occur during the joy-riding period, from 11 p. m. to 6 a. m. Sixty per cent occur between 3 p. m. and 10 p. m.

#### ARE SPUR SCHOOLS PROGRESSING

It is certainly evident from a material viewpoint that the Spur School system has made some progress. There has been an increase in attendance. Now teachers have been added to take care of this and yet our schools are crowded. All of the floor space is now taken in the new high school building and we need more. The material environment of the pupils has been bettered by giving them new desks and new boards. Congratulations to the janitor, Mr. Denton, the Campus has been made to be an inviting spot. The school has one of the most up-to-date transportation systems in the west. This is material progress.

But these things as important as they are, should not be set up as a standard of advancement. Every good school will have all of these, but it does not follow that every school having these things is a good school. It seems vastly more important that the school atmosphere is made more conducive to the making of a good school. And it is evident to the most casual observer that the patrons of the Spur Schools are being incited to a higher and better school standard. They want a good school and will be satisfied with nothing less. Then there is the important element of the board of trustees. Do they take their position seriously and wisely? Or do they take it that it has been thrust upon them and they will run it as they please without direction and expert suggestion? Then if a progressive school board should have these characteristics the board of the Spur Independent School District is advancing—they know their business, if they do not they make it their business to find out. Then your superintendent; if he is going ahead with the rest of your school system, he should be in the lead. He should know good teachers and get them. A prominent educator of the west has said that fifty per cent of a superintendent's duty is the selection of the teachers. Last but not least are the pupils themselves progressing. Do they study more? Is their school life a more vital factor to them? Do they want to make men in the big sense of the word? Is he learning to make his school work his business? If he is doing these things then it must be the Spur school system is progressing. If he is not, you patrons had better do something. All the other progress is for naught. It is stagnating.

#### AGE AND SHORT SKIRTS

Youth ever delights in asking Age: "Well, what do you think of me?" The answer is usually censorious in a mild way. Hardly ever is it approving.

A nonagenarian the other day assumed the traditional attitude of Age chiding Youth. She was shocked by the present-day short skirts. Never had she seen so many ankles as on a recent stroll.

It is not surprising that a display of ankle or calf should offend the sensibilities of one who lived in an age when a woman hardly dared show too much of her foot. But since the manifold feminine activities of modern life require that young women have their limbs untrammelled, it is reasonable that they should be relieved of the constant necessity of lifting long

#### BOY GETS BACK AT BEES; BURNS DAD'S BARN

In retaliation for a sting by a honey bee, Norman, small son of Mr. and Mrs. Harry Reed, of South Milford, Ind., set fire to the insect's nest, with the result that the Reed barn was completely destroyed.

#### DIG UP BURIED CITIES ON OCEAN FLOOR, PLAN

Deep sea exploration by the Hartman expedition has aroused widespread interest among European scientists. A study of ancient civilizations buried thousands of feet below the surface of the Mediterranean is the first objective.

After twenty years' research Dr. Hartman has perfected a deep sea apparatus through which ocean depths of 5000 to 15000 feet can be explored and studied.

Mrs. R. R. Wooten and daughter, Miss Lucile Lucas, were visiting friends here Tuesday.

#### FACULTY ENTERTAINED

On last Friday evening at the invitation of the School Board, the teachers of the Spur schools, and a few friends found their way to the Fair grounds, where they found the members of the Board awaiting them.

When all had arrived, Mr. Jennings president of the Board introduced all present, after which the Board served all with delicious barbecued chicken, bread, pickles, soda water and ice cold watermelons.

After all were fully satisfied Mr. Jennings told the teachers what the Board would expect of them. Mr. Watson then told what the teachers expected of the Board, asking especially for all holidays and a few more thrown in. After this Mr. McLean told what the churches would expect of the teachers. Mr. R. B. Johnston told how much the public expected of the teachers, stating that they expected nothing but since seeing the teachers they expected still less.

All returned to their homes feeling that the Board and teachers should meet together oftener. All the teachers declared the Board wonderful hosts, and S. H. Twaddell a wonderful cook as the chicken was best that was ever eaten.

Those present were: Mr. and Mrs.—F. W. Jennings, T. A. Johnson, G. H. Snider, S. H. Twaddell, Dr. Hale, of the board. Faculty—J. E. Watson, Mr. and Mrs. Hull, Mr. and Mrs. A. K. Knott, Mrs. Lane, Mr. and Mrs. R. E. Doss, Margaret Elliott, Misses Jennings, Tuna Hull, Smith, Mrs. R. B. Johnston, Mrs. Williamson, Miss Nell Higgins, Mrs. McLean; Guests—R. B. Johnston, Mr. Williamson, Miss Kitty Powell, Geo. S. Link Jr., Cecil Hicks, Chesley Speck, Bill McAlpine, J. D. Richburg, Henry Elkins, Rev. McLean.

#### MUSICAL RECITAL MUCH ENJOYED

The recital given by members of Henry Elkins' violin class at the Methodist Church last Thursday evening, was much enjoyed by those who were fortunate to hear it. On account of the inclement weather there were not many present, but they declared the program an excellent one.

Mr. Elkins, who has been teaching here during the summer, was very successful in his work. He secured good work from his pupils, and it is said that in some instances that some pupils became so enthused that mothers had to require them to not practice too much. Through his methods of instruction he was able to work, and build a nice orchestra who were a great pleasure to all who heard them. Mr. Elkins is doing his Senior year at the T. C. U. this year, and in addition is assisting in violin in that institution. It is hoped that he will open a studio in Spur when he finishes his college work. His service as a teacher is very much in demand when he is here.

George S. Link, Jr. left Wednesday for Dallas where he will become a student in the S. M. U. He has been attending school in Missouri for some time, but will finish his work at the S. M. U.

Mrs. J. H. Flowers, of Paducah, was in our city Wednesday and was inspecting Chrysler cars.

## Ten Good Reasons Why YOU SHOULD HAVE A BANK ACCOUNT WITH THE Spur National Bank

- Because:** It cost you nothing to deposit your money and check it out as you need it.
- Because:** You will avoid mistakes in counting and handling money in paying your bills.
- Because:** You can make your payments by check and avoid disputes and litigation over payments which have not been properly credited.
- Because:** You will receive many favors and benefits usually accorded by banks to their depositors.
- Because:** Of the many opportunities your bank has of speaking a good word for you.
- Because:** Your money is safer in the bank than in your pocket or in your house.
- Because:** You can pay your bills or transfer your money by checks through the mails with perfect safety.
- Because:** You can secure yourself against loss of money or valuable papers by fire, storm or theft.
- Because:** The best and most successful farmers and business men keep a bank account.
- Because:** We want your business and we know we can be of service to you in many ways if you will give us a chance.

**JUNGLE**  
With Cheerups and the Quixies  
By Grace Bliss Stewart

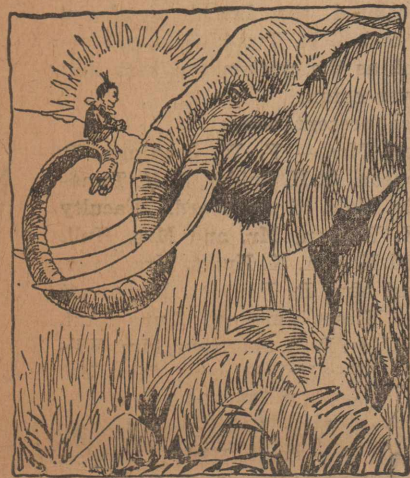

**ELEPHANT GOES CALLING**

ONE morning Cheerups opened his round twinkly eyes sooner than usual.

"Folks have to be up bright and early to get ahead of men," thought he. "I feel just as if something were going to happen today."

He was really too excited to sleep. All the lovely Jungle was so much more wonderful than any dream he had ever dreamed that he opened his eyes very wide to make sure of staying awake. Above Cheerups' head the palm trees waved their giant leaves in the breeze like so many palm-leaf fans. Big Bright Mr. Sun, as he peeped over the tops of the Little

"Hop Onto My Trunk and Run Up Nearer My Ear."

Hills, made diamonds of the dewdrops and turned the flowers into flame.

"One of those flowers would make a whole suit for me," thought Cheerups. "If I could only find a taller, I would exchange my green coat for a purple one. But what in the world is that rumbling noise? I believe we are going to have a shower. Quick, do you hear thunder?"

"I certainly hear something very loud and alarming, sir," cried Quick-ear, jumping up from the comfortable cobweb where he was sitting. "It doesn't sound a bit like the thunder we hear on the Great Mountain at home, though. It's so rumbling-rolly, and it's coming nearer all the time."

"Bless me, what's that?" shouted Cheerups, as a great gray monster broke through the underbrush and stood still a minute, as if deezed. Fully ten feet tall was this fellow, with the biggest ears and the longest nose and the most surprising teeth which stretched away, way out in front of him.

LOCAL TRACTOR MAN  
RETURNED HOME

The City of Spur was represented in the Fordson Tractor Training School, held in Dallas all through last week, by Mr. S. E. Berry of the Godfrey & Smart Company, who returned home Monday.

The Dallas Branch of the Ford Motor Company conducted the school and was assisted by engineering experts, inventors, and sales representatives of some twenty-five nationally known manufacturers of equipment designed to work with the Fordson. Fifty Tractor specialists from as

many retail Ford dealers, scattered all over the lower half of Texas, attended the school.

"The thing that impressed me most," said Mr. Berry, in discussing his experiences with Fordsons at the School, "was the amazing number of jobs a tractor will perform, the low cost of doing them. Of course, I've made a study of Fordsons before I went to Dallas and was thoroughly familiar with it, I thought, but I found there, that there was much I could learn—and before I left, you can take my word for it—I learned everything about a Fordson Tractor and the variety of jobs it can do with the proper equipment. This school was not a long-winded theoretical affair. It is true that we were privileged to hear wonderfully inspiring lectures pointing out how the Fordson Tractor today is measuring up to Henry Ford's ideal in producing it—to lighten man's burden—increase productivity and lower costs on the farm and in commercial use, and we also heard a number of constructive sales talks pointing out our opportunity to serve our communities by placing more Fordsons at work, but ninety per cent of the time we were out on the grounds of the Ford Motor Company where the field work was done, and we were actually hitting the ball.

"I wish some of the people of Spur could have been there to see what we did. Each man had to assemble and operate the different machinery to the complete satisfaction of the Ford Motor Company and the equipment specialists.

"Some people will doubt probably when they hear of the number of tasks I did with a Fordson, but all the men there including myself—did them. We plowed, cultivated, did heavy hauling, pumping water for irrigation, built and graded streets, dug and filled ditches, sawed wood, mowed lawn, baled hay, hauled cotton 50 bales at a time, pulled stumps from the earth 3 feet in diameter, unloaded carloads of gravel, mixed and hoisted concrete, ground feed, terraced land, pulled down trees and uprooted them, excavated earth and loaded it into trucks and a lot of other things I can't think of now.

"The school attracted so much attention nationally that the Ford Motor Company produced a complete moving picture showing all of us in our work.

"A news cameraman 'Shot' us during the middle of the week and on Saturday before we left, we were the guests of the Ferris-Dunlap Equipment Company who handle all the lines of the manufacturers represented.

"My friends know" he said in conclusion "that I've been a Fordson booster all along, but at Dallas I really saw the vision of what power farming can do to help the farmer and what the Industrial Fordson can do to lower the cost of doing commercial or business jobs—and I realize now more than ever that Godfrey & Smart are rendering a real service everytime another Fordson is sold."

Godfrey and Smart are particularly elated since Mr. Berry passed his final examination Saturday afternoon with flying colors.

**ANTHRACITE COAL PRICE UP IN CHICAGO**

Anthracite coal will advance from

25 to 50 cents a bushel after Monday, due to the strike, it was announced in Chicago recently. Further rises are to be expected unless mining in the anthracite region is resumed soon, M. E. Kleig, sales manager of the Consumers' Company, declared.

**CHRYSLER NEWS**

In an opinion rendered by Assistant Attorney General J. Fred Johnson, Jr., of Alabama, and delivered to the State Superintendent of Insurance, Frank N. Julian, Chrysler dealers and distributors in selling Chrysler cars insured against loss, fire and theft for one year, are not under the law, insurance agents.

The first question that presents itself in making a study of the Chrysler plan of lowering finance charges and reduced insurance rates on Chrysler cars sold on the deferred payment basis, says Mr. Johnson, is "whether this certificate of insurance is a domestic or foreign contract, that is whether it is an Alabama or a Michigan contract. In my opinion it is so obvious as to require no further arguments, discussion, nor citation of authority, that it is a foreign contract made in Michigan between parties in Michigan, and subject to the lex loci contractus, which in this case is the law of the State of Michigan.

"In the second place," continues Mr. Johnson, "is the Chrysler dealer to be deemed an insurance agent by reason of his negotiating a sale of a car, which has been made subject of this insurance, and hence is he required to obtain an insurance license? Chrysler dealers have absolutely nothing to do with the contract between the Chrysler Corporation and the Palmetto Fire Insurance Company. They solicit no insurance," continues Mr. Johnson, "have no connection or correspondence with the Palmetto company, did not put the insurance on the car and cannot take it off. They do not receive or transmit the certificate of insurance, nor do they collect or remit any premiums, nor did they do any act or thing in the making or consummating of the contract of insurance.

"In my opinion there is no reasonable interpretation of the law whereby they may be deemed to be insurance agents on the above stated facts, and hence they may not be required to procure licenses as such."

**CAPT. ROBERT DOLLAR, 82, ENDS 6TH WORLD CRUISE**

Returning September 12th to San Francisco from his sixth cruise around the world Capt. Robert Dollar, founder and president of the company that bears his name, declared that despite his 82 years he had a most enjoyable trip. He said the proudest country he visited on the trip was China. He said China had the greatest trade possibilities in the world. Mrs. Dollar accompanied the captain.

**R. B. Johnston**  
Manager

S. T. Battles, of Espuela, was greeting friends on our streets Saturday. Mr. and Mrs. O. F. Scott, of the J. W. Vickery, of Afton, was here Saturday securing duck to make cotton picking sacks, expecting to get busy with them soon.

Mr. and Mrs. W. L. McAteer, north of town, were greeting friends and trading here Saturday.

R. H. Parnell and sons, of Afton, were looking after business affairs here Saturday.

West Pasture, were guests in our city Saturday.

**WILL ENTERTAIN**

Mrs. J. J. Lilly will entertain the Social Club at her home just north of town Thursday, September 24th. This is an organization where all the members prepare a dish of good eats, then meet with some member and enjoy a feast and a good time. Mrs. Lilly is an ideal hostess, and the members on this day will have a real picnic. Have your dish full and be there.

Mr. and Mrs. T. E. McArthur, of southwest of town, were doing some trading with our merchants Saturday.

**JOI DE VOI CLUB—**

Charming indeed in every detail, was Mrs. Jim Edd Hall's bridge party on Thursday evening at her lovely home where four tables were arranged for that interesting game.

Mrs. Cecil Fox winning high score received an unusual duster in blue with a beautiful hand painted handle and for consolation, Mrs. Tracy Gorham was given a dainty box containing sandwich recipes and guest prize was given Mrs. Hill Perry, a lovely glass nut jar.

Mrs. Hall's plate favors were attractive cases containing tiny powder puffs for Mesdames G. A. Welsh, J. W. Algier, F. W. Jennings, Tracy Gorham, M. H. Brannen, E. L. Brown, C. A. Love, Roy Harkey, Jack Rector, Murray Lea, Faust Collier, Williamson, Cecil Fox, Dan H. Zachry, Hill Perry, Bill Putnam.

**THE KOLONIAL KARD KLUB—**

The Kolonial Kard Klub met with Miss Willie Richburg at the home of Mrs. Jack Rector last Thursday afternoon September 10, 1925.

The color scheme of red and green was carried throughout the party. At the end of the bridge hour Dorothy Love was awarded high score prize, Adriene Atterberry won guest prize and Pauline Brown won cut prize.

A delicious course of ice tea, salad crackers, olives and potato chips was served to the following members and guests: Ruby Love, Dick Stafford, Mildred Williams, Dorothy Love, Lera Harris, Ermal Lisenby, Lucille Lucas, Thelma Caraway, Adriene Atterberry of Amarillo, Pauline Brown, and Mrs. Floyd Barnett.

**THE KOLONIAL KARD KLUB—**

Miss Jettie Windham entertained the members and guests of the Kolonial Kard Klub with a lovely party at her home Friday evening, September 11.

Annis Albin won high score prize and Pauline Atterberry was awarded cut prize among the girls, while Hubert Karr won high score prize and Carl Wester won cut prize among the boys.

The color scheme of yellow and white was carried throughout the party. The most delicious cream and cake was served to the following members and guests: Annis Albin, Lera Harris, Ermal Lisenby, Thelma Caraway, Lucille Lucas, Ruby Love, Mildred Williams, Dick Stafford, Pauline Brown, Willie Richburg, Lois Lee, Dorothy Love and Mrs. Floyd Barnett. Mesrs. Ben Murray Hale, E. C. Edmonds, Floyd Barnett, S. B. Scott, Hilton Manning, George Lisenby, Mack Rash, Carl Wester, Byron Chapman, Elzy Watson, Francis Clay, Hubert Karr, and John Albin.

C. O. Parker, east of town, was in trading with home merchants Saturday.

Mrs. D. H. Dunn and daughter, of Croton, were doing some shopping here Saturday.

**MISCELLANEOUS ADS**

LOST—A key ring with ten or twelve padlock keys. Liberal reward.—Joe Lambert, at Spur Grain & Coal Co. 42 tn

FOR SALE—About 60 pounds of country lard—M. L. Rickels, Box 654, Spur, Texas 42 2t

FOR SALE—Two houses and lots in Spur. Prices and terms right.—Jim Cross. 43-1tp

LOST — Hand Bag containing man's clothing. Name on pocket of pants. \$10.00 reward.—R. E. Patterson, Jayton, Skating Rink. 43-1tp

LOST—Between Dickens and Spur a "Red Head" Hunting coat. Reward Dickens County Times. 431tc

Miss Gentry, teacher in the Croton School, was shopping with Spur merchants Saturday.

Mr. and Mrs. J. J. Lilly, north of town, gave the Times force a surprise Wednesday by presenting them with a mighty nice watermelon. We simply had a great feast with it. Thanks.

R. B. Hall, of Mabank, is visiting his sister, Mrs. W. W. Parker, and he is also looking around the country. It might mean another Dickens Co. citizen soon.

Mr. and Mrs. Chas. (Uncle Charley) Montgomery, Mrs. Mary Scoggins, of Archer City, were here this week visiting their cousins Mr. and Mrs. M. A. Lea and children.

E. M. Dabney, of Granberry, special representative of the Southern Union Life Insurance Company at Fort Worth, is here this week in the interest of that company.

Miss Clara Cammack, who has been spending the summer with her aunt, Mrs. Starcher, returned to her home at Matador Saturday.

**THE FAVORED FOUR**

Because of Supreme Quality, New Performance Results, Advance Engineering, Superior Workmanship

The Chrysler Four, quite as much as its companion car, the Chrysler Six, reflects the training and experience of its builder—Walter P. Chrysler.

Out of Chrysler engineering and manufacturing skill comes the extraordinary performance and value of the Chrysler Four—plus quality and beauty never before equaled in its price class.

Like the Six, too, the Chrysler Four combines new refinements of proved engineering principles with the finest of materials.

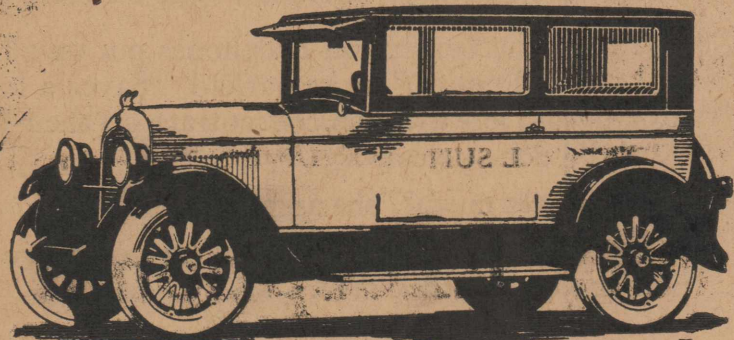

These, by and of themselves, would not necessarily account for its surpassing performance results and extraordinary quality.

Of equal importance is the fact that this Chrysler Four is built with painstaking care, and to a degree of accuracy and precision, heretofore unknown among cars of its price—in the most modern and scientifically equipped manufacturing plant.

The Chrysler Four is, in the most precise sense, a fine car—fine in principle, fine in materials, and fine in its standards of manufacture and assembly.

Obviously, when such quality is combined with the usual reliability which results from Chrysler designed spring suspension and balloon tires; with low center of gravity, pivotal steering and the option of Chrysler hydraulic four wheel brakes to give utmost safety; and with Fisher bodies for maximum comfort—the result is unapproached motor car value in the thousand dollar class.

Everywhere, men and women who know motor cars are favoring the Chrysler Four. Women, who like fine things, say it is a delightful car to drive and to ride in. Men are enthusiastic over its extraordinary performance, its economy and durability. Test it out, yourself behind the wheel. Your Chrysler dealer is eager to provide the opportunity.

### The Poets Will Have To Change Their Lines

by Peggy Paige

"WHEN dark December glooms the day," and "dread winter spreads his latest glooms" are lines that will hardly describe this winter. For, when the fair sex scatter over the landscape clad in all their winter glory, they're going to make the winter of 1925 look like a jolly riot of color.

Dame Fashion has gone to her paint box, chosen the brightest of her blues, added still more brightness to it, and tinted the smartest of her winter frocks "pencil" and "royal" blue. Into a gorgeous red she's poured a bit of purple to make the new "Black Prince" and garnet shades that will cast a rosy glow over many a winter landscape. The royal purple and pansy shades that enjoyed such popularity in the later summer will also be much seen, and colorful new greens and brownish reds as well. Black will be more chic than ever, but it will always have a brightening touch of gay color.

Yes, the poets will change their tunes this winter—if Dame Fashion has her way with the women.

### Mother's Cook Book

Ah, what would the world be to us, if the children were no more? We should dread the desert behind us Worse than the dark before.

#### HOT WEATHER DISHES

ON a warm day when hot dishes do not appeal to the palate, it is refreshing to serve some of the cooling jellied dishes.

Chicken is the favorite summer meat and may be prepared in many different ways to vary the sameness.

#### Chicken in Aspic.

Wash and clean a four-pound chicken and put in a kettle with two quarts of water (boiling), one sliced onion, one-half cupful of diced celery, or one-eighth teaspoonful of celery seed, a sprig or two of parsley, a bit of bay leaf, one small carrot diced, two teaspoonfuls of salt, and one-quarter of a teaspoonful of pepper. Cook slowly until very tender. Set away to cool; remove the chicken and skim off all the fat from the top of the liquor. Heat the liquor, adding two egg whites and shells to clarify, one-half teaspoonful of salt, one-quarter teaspoonful of paprika, one-eighth teaspoonful of nutmeg and the juice of half a lemon. Add three tablespoonfuls of granulated gelatin which has been soaked in three-quarters of a cupful of cold water; stir until the gelatin is dissolved, then strain through a double cheesecloth. Mold as for any meat loaf, adding asparagus tips, cooked egg, canned pimientos or stuffed olives for color.

A quick aspic may be made with beef extract or bouillon cubes, one teaspoonful to each cup, or one cube. Attractive jellies may be made of tomato juice. This is nice for fish mold.

#### Maryland Hors d'Oeuvre.

Spread rounds of buttered toast with minced mushrooms stewed in a little butter or cream. On this place a spoonful of diced chicken moistened with white sauce, and top with half a stuffed egg garnished with a whirl of mayonnaise. This makes a nice luncheon dish which may be extended to serve many.

Neenie Maxwell

### YOUR Last Name

#### IS IT MILTON?

THE American Miltons have the satisfaction of believing that they are collateral descendants of John Milton, the immortal author of "Paradise Lost." At least such may be their claim if they are descended from the Milton family early established at Halifax, N. C.

The tradition is that the ancestor of these Miltons was Judge Christopher Milton, a brother of the poet. A descendant of his was John Milton, who was born in England and came to the United States in 1734, settling in North Carolina.

His son, John Milton, born in Halifax county, North Carolina, in 1740, was secretary of state of Georgia after the Revolution, and received two votes from the Georgia electors for first President of the United States. He married Hannah Spencer and by her had a son, Homer Virgil Milton, an officer in the War of 1812. He was known as General Milton.

General Milton had a son John Milton, born in 1807, who was governor of Florida. Governor Milton had a son, William Henry Milton, a distinguished jurist, and his son, William Hall, born in 1864, was a distinguished surveyor general.

CASE—There is an Anglo-Norman word "cas" or chance from which this name is probably derived.

ASHLEY—From the name of parishes in Staffordshire, Wilts, Cambridge and other English counties.  
(© by McClure Newspaper Syndicate.)

#### LAMPKIN PLAYERS LIKE SPUR

The Lampkin Players closed their weeks engagement here Saturday night of last week with the presentation of "A Girl Without a Chance" which is in every respect a feature enacted by people who as actors are professionals in their line. The tent was crowded and all persons seeing Saturday night's play say that it was the best that any show of this kind had ever attempted to put on in this city.

The Lampkin players left Spur with a kindly feeling towards the people of this city and community, because they say they were treated with that West Texas Hospitality that makes West Texas what it should be. Their

stay here was enjoyed by the entire company and they hope that they can come back to us some time later with a brand new show throughout. While their showing here was handicapped because of the fact that they did not have their regular orchestra with them.—Reporter.

#### SLOW TRAINS MEAN ENORMOUS WASTE

How much money is wasted by California business men every year on account of slow train service to Chicago and the East?

Evidently a great deal. An index to the extent of this loss is furnished by Al Rockett, an official of First National Productions. In a statement for a Los Angeles paper recently he said:

"First National produces pictures in New York and Hollywood. Our companies are constantly exchanging players, including stars. In many cases entire companies, with directors, technical men and chiefs of staff, go as a single unit to and from New York.

"The annual loss, on account of a four-day instead of a three-day schedule between Los Angeles and New York, is more than \$500,000. Salaries are paid for that superfluous day in the cars, but the company receives no return."

An estimate of several millions in loss for the entire motion picture industry is charged to slow train service.

There is no doubt that California interests sacrifice to antiquated train service an enormous aggregate each year.

This loss to California, of course, does not include that which results

#### FOR WORKING PEOPLE

The best of workers get out of sorts when the liver fails to act. They feel languid, half-sick, "blue" and discouraged and think they are getting lazy. Neglect of these symptoms might result in a sick spell, therefore the sensible course is to take a dose or two of Herbine. It is just the medicine needed to purify the system and restore the vim and ambition of health. Price 60c. Sold by

ALL DRUGGISTS

from people not coming to the Coast on account of the tedious trip. A two-day run from Chicago, meaning three days from New York, would largely correct that situation.

The western roads give excellent service. They can make it perfect by giving speed.

#### FAREWELL PARTY

A farewell remembrance to Mrs.

Goss D. Cobb (Nee Carol Senning) who has been in Spur for a few days visiting with her mother, Mrs. Kate Senning before going to her new home in Albany was that of Thursday afternoon when she was presented with a surprise basket of lovely gifts by her friends at the conclusion of the "42" party she was attending at her mother's home.

### Now—Mrs. Ivers has an Extension Telephone!

(Mrs. Ivers was in her husband's office the other day.)

"Well, I've had extension telephones put on all the desks, you'll notice," he remarked. "Saves a lot of walking and lets the men concentrate on their jobs. Wish I'd done it years ago."

"Do they cost much?" she asked.

"A few cents a week. Nothing when you figure the time and energy they save."

(A Couple of nights later he looked into her room.)

"Hello, what's this?" he queried.

"Oh, that," she said, smilingly, "is an extension telephone. You know, we women are learning things from you good business men."

Visit a central office and see the signal lamp and other apparatus in operation. You are welcome at any time.

SOUTHWESTERN BELL TELEPHONE COMPANY

**FAMOUS "LIFER"  
STILL FIGHTS  
TO SEE WORLD**

**Jesse Pomeroy, Denied All  
Pleas for Liberty,  
Still Hopes.**

Boston.—The doors of the Charles-town state prison clanged behind him 50 years ago when he was a stripling of seventeen. Today he is a grizzled man of sixty-seven, but he still is fighting, fighting in the hope some day he will get out to see the modern world about which he has read so much. He wants to see a trolley car, to ride in an automobile, to fly over the mountain tops in an airplane. Jesse Pomeroy, the most famous "lifer" in all America, has written a really graphic poem on the flying machine.

Although 20 years of his time has been spent in solitary confinement, Pomeroy does not feel that the world has passed him by. His "solitary" was done years ago, when he was young and rebellious and fought and broke all the prison rules. For the last two decades Jesse has been what they always call the model prisoner.

**Sues Boston Woman.**

That is why he has entered suit for libel against a Boston woman who wrote a letter to a newspaper claiming that Pomeroy had skinned alive a little kitten placed in his cell. Pomeroy feels this letter has prejudiced the public against him again and ruined his chances for parole or pardon perhaps for years to come. And so he says he had been damaged \$5,000 worth.

Pomeroy's half century of confinement has been spent under the very shadow of Bunker Hill. Pomeroy has just suffered another setback, the refusal of Governor Fuller to consider him for a pardon.

When Pomeroy was fourteen it was charged he had murdered a four-year-old boy, found with his throat cut and 15 stab wounds in his little body. Three years later Pomeroy was convicted and sentenced to be hanged. The governor commuted the sentence

**TO THE FARMERS**

By Fred S. Reynolds, County Agt.

The leaf worm is doing damage rapidly to the majority of the cotton fields. There is only one way to get rid of them and that way is to poison them. There are several poisons that one could use. Calcium Arsenate is the best one for this purpose for several reasons. It is cheap, easy to apply and is safe to handle as any poison.

Remember that entomologists have studied control measures for this and other insects and base their recommendations on many years of experience and much experimentation.

We are wasting our time and money trying to concoct other poisons. It is a poor time to experiment when the house is on fire.

**When to Poison**

Apply the Calcium arsenate when dew is on the cotton so the particles of poison will stick to the leaves.

Watch your fields and dust the poison on when the top leaves of the stalks are beginning to look ragged.

**Amount to Apply**

Apply four pounds of poison per acre of cotton. Any method to get the stuff on evenly over the plants will do. The experiment station has done some effective poisoning.

I suggest you visit there to see a simple device they have made for this purpose. It does the work well.

Use ordinary precaution in handling Calcium orsenate. It is not a food. It has been designed by government experts for insect poisoning and is as near food proof as a poison can be made.

There is absolutely no danger to cotton pickers. The first rain washes it all away. Heavy dews and the

winds will soon scatter the poison to the ground if no more rains come.

**A FAMILY REUNION**

On Wednesday September 9th Mrs. Mollie Murphy of Hubbard, Texas, who is spending the summer here with her children, celebrated her 78th birthday with a little picnic and family reunion.

She has seven children, five of whom were present, twenty-eight grand children and sixteen great grand children.

Mrs. Murphy is one of the early settlers of Texas, having come from Tennessee in the early "70" and living over fifty years in Hill County where she still resides. She is hale and hearty for one her age and reads with out glasses having her second eye sight.

She received a number of nice useful gifts.

All enjoyed the day and departed for home wishing "Grandma" many more happy birthdays.

Those present were: Mr. and Mrs. J. A. Murphy and two children, Mr. and Mrs. S. R. Bowman

and Grand son, Roy Bowman, Mr. and Mrs. D. E. Wells and children, Mrs. W. H. Suddeth, Miss Eva Murphy, Mrs. S. H. Twaddell and little daughter Lorelle, Mr. and Mrs. Lewis Bowman and two children.

The Dickens County Times now carries in stock a good carbon paper for cloth stamping and copy work.

### WHAT'S DOING IN WEST TEXAS

#### West Tex. C. of C.

Within a short time the cotton rush will be on in Runnels County and there will be busy times there for the next sixty days or longer. The gins are humming and the daily receipts of cotton are increasing on the local market. Up to date more than thirty bales have been marketed.

A fleet of seven trucks have been provided for the school at Muleshoe for the purpose of conveying the children to and from school, rain or shine, regardless of weather. Muleshoe has a population of 1,000 and is located in the heart of the great plains district.

The Moran Luncheon Club met recently with more than sixty members and visitors present. The Moran Band rendered several selections before the luncheon, at which J. F. Scott, of Haileyville, Okla. was the principal speaker.

Agricultural Exhibits of Hale Co. will be shown this year at the Amarillo Tri-State Fair and Exposition; the Texas-Oklahoma Fair at Wichita Falls, and the State Fair of Texas at Dallas. Col. R. P. Smyth, Sam T. Scaling and Maury Hopkins, secretary of the Board of City Development will have charge of the exhibits.

The Fort Worth & Denver City Railway Company is erecting the second large steel storage tank in Childress. The tank is being built on a concrete and steel support with a diameter of 24 feet and more than 60 feet to the top of the cover. The capacity of the tank will be 150,000 gallons of fuel oil for locomotives.

A. H. Broad was re-elected president of the Brady Chamber of Commerce at a meeting of the directors recently, and Wm. D. Cargill was re-elected secretary. Considerable time was given to the hearing and discussion of plans for the developing and building of Brady and McCulloch County.

Plans are under way at Artesia, N. M. for two additional municipal improvements. Plans for the installation of a modern street lighting system also a paving program were submitted to the City Council at a meeting recently held.

More than 5,000 people at Comanche heard the address of R. Q. Lee, President of the West Texas Chamber of Commerce, on diversified and intensive farming. An informal reception for Mr. Lee was held and numerous farmers discussed with him the program he is advocating. Following the speaking a water-melon feast was held on the Courthouse lawn and several hundred melons furnished by the local Chamber of Commerce and Lions' Club were served.

Contract has been let for the remodeling of the Tribune-Chief building at Quanah. After a 35 foot brick extension, two linotypes and three job presses will be put into the building. A concrete floor is to be laid, the wall plastered, a metal ceiling put in, and the old iron front will be replaced by a modern brick front with plate glass.

Water mains are now being rapidly laid on the streets of Littlefield. Two wells furnishing the water supply have been completed and pumps installed. The Chamber of Commerce is now discussing ways and means for a sewerage system and the paving of the main street of the town.

#### GREAT SCREEN PROGRAM BEGINS HERE TONIGHT

The Lyric Theater has again arranged for another great line of screen programs beginning tonight. Among these are "One Glorious Night" and "Fighting Skipper," a special, both pictures to be shown tonight. At this program two tickets will be sold for the price of one.

Monday and Tuesday evenings will be one of the greatest history scenes known. This is one of Zane Grey's stories entitled, "The Thundering Herd," and possible will be the only way that many children will ever get to see a buffalo. Here is shown a how a girl handles a maddened team of horses, and how the wild buffalo goes roaming over the prairies. You will enjoy these programs and they will be a treat to you.

#### HUSBANDS ENTERTAIN WIFE

On last Friday evening the Friday Afternoon Club enjoyed a lovely evening at the Fair grounds. Being ranged by their husbands.

We were very proud of our husbands for they surely were nice indeed. There were the best seats arranged that one could think of and the barbecued chicken was yum.

After dinner, they (our husbands) had arranged a theater party to make a long story short we say that the evening was very lightly spent and there was nothing lacking in the way of pleasure.—Reporter.

Subscribe to THE TI

### MARY PICKFORD

#### ANNOYER FREED

A dispatch from Detroit recently said the police there had arrested Joseph A. Seditis, a city employee, upon the complaint of Miss Mary Pickford that he had written love letters to her. Miss Pickford and her manager, Edward de P. Newman, later expressed surprise and regret that the Detroit police should have taken this action. The letter was one proposing marriage and similar to many received by the motion picture star.

It is the custom of her manager, it was explained, to refer these letters to the police of the city whence they come as a precaution; a practice instituted at the time a man had tried to force his way into Miss Pickford's home. The Detroit letter writer explained he had written the letter "for fun." He was released.

#### EMPTY LONDON TAXI

London is having a taxicab war that will interest Angelinos. Tens of thousands of Londoners refuse to use taxis because fares are exorbitant and thousands of taxicabs are empty because the operators refuse to cut charges.

Which is better, lower fares and many more rides or high fares and empty taxis? That is the question.

Another phase of the problem is presented by the complaint of Londoners that nearly \$50,000 worth of gasoline is wasted daily by taxis searching vainly for passengers. They argue with a lower tariff the operation of taxis could be placed on a basis that would return bigger profits for the operators and give greater satisfaction to the public.

JAPAN is preparing a sham battle at sea, attacking the Isle Bay region, near Tokyo.

For twelve days airplanes will operate above Japanese waters, and it is safe to predict they will stay in the air. When Japanese want to establish a flying force, they improve on the United States method. They hire from France, England, Germany, Italy, men that know about flying. Then they learn. And they put flyers, not stock brokers or sedate judges, in charge of national flying operations.
