## FIELD REPRESENTATIVE RECOMMENDS CHARTER FOR LOCAL KIWANIS

### K. K. Smith Heads Organization; Weekly Luncheons Will Be Held On Thursdays.

Upon the receipt of twenty-five applications for membership together with a list of duly elected officers and directors for the proposed Kiwanis Club of Muleshoe, Walter C. Humpton, Field Service Representative of International Kiwanis, Saturday morning recommended to that organization that a charter be granted to this city, thus assuring the perfection of the Muleshoe Kiwanis Club. This came as a result of two days' work in Muleshoe by Mr. Humpton and untiring efforts of a few interested citizens of this place.

The way was paved for the building of this club a few weeks ago when a petition, bearing a number of signatures was submitted to International Kiwanis asking that a representative be sent to Muleshoe.

A preliminary meeting, under the direction of Mr. Humpton, was held Thursday night at the court house, at which time a temporary organization was formed and plans made for a banquet which took place at the Legion Hall on Friday night.

At this meeting the establishment of the Club was consummated. A model program was carried out and permanent officers for the organization were named. At both meetings Mr. Humpton laid down the underlying principles of the Kiwanians.

Officers of the club are as follows: K. K. Smith, president; A. V. McCarty, Jr., vice-president; Pat E. Bobo, secretary; Connie D. Gustin, Treasurer; J. E. Aldridge, district trustee; Ray Griffiths, Neil Rockey, J. E. Adams, A. J. Gardner, J. M. Mareh, C. S. Holland and T. E. Arnold, directors.

For the present, weekly luncheons will be held at 12:20 o'clock on Thursdays.

The objects of International Kiwanis are given briefly as follows:

To give primacy to the human and spiritual rather than to the material values of life.

To encourage the daily living of the Golden Rule in all human relationships.

To promote the adoption and the application of higher social, business, and professional standards.

To develop, by precept and example, a more intelligent, aggressive and serviceable citizenship.

To provide through Kiwanis clubs, a practical means to form enduring friendships, to render altruistic service, and to build better communities.

To cooperate in creating and maintaining that sound public opinion and high idealism which make possible the increase of righteousness, justice, patriotism, and good will.

### TEXAS BARBER LAW IS BEING ATTACKED IN SUIT

WAXAHATCHEE—Seeking to have declared unconstitutional the Texas barber license law, a suit for a permanent injunction was filed in Judge Tom Ball's court here Tuesday.

Joe Thompson, Waxahatchie barber, was named as the plaintiff and County Attorney A. D. Emerson, Gov. Dan Moody, Attorney General Rabbit and members of the Texas board of barber examiners were cited as defendants.

Trial was set for April 18.

W. E. Antwerp of Austin was here Tuesday.

### President Resigns

William C. Cosgrave, President of the Irish Free State, who resigned with his entire Cabinet when his policies were voted down by the Irish Parliament.

### PLANS MADE FOR THIRD ANNUAL TEXICO-FARWELL DAIRY SHOW

At the meeting of the Texico-Farwell P. F. A. chapters Wednesday night final plans for the coming dairy show to be held on the 25th and 26th of this month were made. All the necessary committees were appointed and these committee members are beginning work at once in order to do everything they can to make a success of the dairy show.

Rules for the show are to be very much the same as for last year. One new attraction is being added and that is a sale on the last day of the show. The price of the sale are being sent out to all prospective exhibitors and will appear in this paper next week.

The finance committee has been busy for the past few days but has not yet been able to raise enough money to put on the show.—State Line Tribune.

## Baseball Players Improving With Hard Work-outs

The Muleshoe baseball club met the Lariat aggregation in a 7-inning practice game on the local diamond Sunday afternoon, losing to Lariat by a score of 7-4. Batteries for Lariat were Vaughn, pitcher, and Coon, catcher. For Muleshoe Jordan was catcher and Guinn was twirler. A return game will be given Lariat at that place next Sunday.

On Sunday, April 27th, the Muleshoe aggregation will meet the Clovis team here, the next game scheduled to be played in Muleshoe.

Manager Garret announces that Tuesday and Thursday afternoons will be practice days, working from 4:00 to 5:30 p. m. At the workout Tuesday, he says, the infield was looking good. All players are urged to come out to practice and put the team over in a big way.

It is requested that all players who have extra suits bring them in at once since the team is short of tops just now.

## Record Crowd Here For First Drawing of Year

The first Saturday Trades Day of 1930 was attended by one of the largest crowds since the first of the year. People were here from all sections of the country, many coming from as far as forty miles. Merchants report one of the best days since Christmas and quite a few new customers. About \$90 in cash and merchandise made up the prizes given away. Thurlow Branscum, living 18 miles north of Muleshoe won the first prize of \$25; second prize of \$10 to R. B. Dennis of West Camp, and third prize of 100 baby chicks to Otis Branscum.

Other winners were D. J. Harris, Mrs. E. H. Buhman, Mrs. Chas. Mankin, Geo. Johnson, Mrs. Nina Elrod and Miss Lucy Robison.

## Cochran County Man Held In Cutting Affray

The Lubbock Journal Tuesday carried a report as follows:

F. L. Jones, 28, is in a grave condition at the Lubbock Sanitarium, while a Cochran county farmer is being held in custody of Sheriff J. C. Montgomery of Cochran county as a result of a cutting affray which occurred Monday night at 8 o'clock at the latter's farm home, one and one-half miles south of Morton.

Jones, who had been until recently employed at the farm, was brought to the local sanitarium this morning when his precarious condition became apparent.

No charges have yet been filed in connection with the altercation, further procedure awaiting developments as to the victim's condition.

Jones sustained a deep laceration in the abdomen, another across the chest, and several cuts about the head and arms.

According to a statement made by the man held to Sheriff Montgomery, the trouble arose when Jones resented an order to leave the farm. "My wife told me to leave him," the farmer said. "After I did so he called me out and the fight started."

Further than that, the man being held would say nothing as to the exact nature of the fight.

## 1,000 Attended Singing Meet Here Sunday

A crowd estimated at close to one thousand people were in Muleshoe last Sunday to attend the Bailey county singing convention. The program was held at the High school building and the large auditorium was packed to capacity with large numbers having to stand in the halls while many were unable to get in at all.

People were here from all parts of West Texas and New Mexico. Some of the New Mexico towns represented were Roswell, Portales, Elida and Clovis. Dinner was served to the crowd from well-filled baskets. The day was one of the finest from the standpoint of weather and the people enjoyed themselves to the utmost.

### A. J. HICKS ANNOUNCES FOR COMMISSIONER, PREC. NO. 1

I take this method of announcing my candidacy for Commissioner of Precinct No. 1, subject to the action of the Democratic primary. Your vote and influence will be appreciated.

Gordon F. Moore of Morton was in town Tuesday.

Mr. and Mrs. H. A. Brandon, with the Allertia Loomis players, were guests of Mrs. Arthur Fields Sunday.

## Heavy Rains In South Portion Of Bailey County

Good rains last Friday and Saturday in parts of the Muleshoe trade territory have done much to boost conditions and farmers and ranchmen in these sections were looking on the brighter side of life this week. The weather gauge in Muleshoe registered a total of .82 for Friday and Saturday.

The heaviest rain reported here was in the Longview and Baileyboro districts where it was estimated that from one to one and one-half inches fell. North and east of Muleshoe only showers were reported and in much of this section rain is varied on wheat. According to various reports from the wheat belt to the north, some of the crop is beginning to suffer while many claim that the crop will stand another two or three weeks with ease.

In the Plainview and Hereford districts good rains were reported. Practically all sections received light showers which will be of some benefit. Quite a bit of hail fell in Muleshoe Saturday night but no material damage was done.

## School Board Organizes; Term To Close 25th

A meeting of the school board was held last Monday night for the purpose of reorganizing. New members qualifying were Will Harper and A. W. Wimberly. F. C. Skeeters and H. L. Reed were re-elected and at the above mentioned meeting K. K. Smith was elected president of the board and F. C. Skeeters as secretary.

One question which came up before the board was in regard to the closing of school. Due to many necessary items which had to be purchased during the past year, funds for carrying on the school are running short and it was decided that an eight months term would be advisable. This will necessitate the closing of the present term on April 25th.

## John N. Janes, Pioneer Citizen, Passes Away

John N. Janes, pioneer citizen of the Plains and for thirty years a resident of this section of the country, died very suddenly in El Paso early Wednesday morning, according to reports reaching The Journal office as we go to press, but full particulars concerning his death have not as yet been ascertained. According to a telegram to R. L. Brown from C. V. Wooley, secretary to Mr. Janes, the funeral will be held in Amarillo about Saturday.

A further report and full particulars will be given in this paper next week.

## Missionary Tells Of Conditions In Chinese Republic

The Journal is in receipt of another interesting letter from Rev. H. G. C. Hallock, missionary in China, which follows: Rev. Hallock is located at Shanghai, his address being C. P. O. Box No. 1234. Enclosed with the letter was a water color reproduction of the god of wealth Dzaai-zen, as referred to in the latter part of Rev. Hallock's letter, which is now at the Journal office. We give his letter verbatim as follows:

Shanghai, China, Jan. 30, 1930.

Dear Editor:

Here comes a letter from this land of make-believe. This is Chinese New Year, but the government would make believe it is abolished and forbids its celebration. But it is Chinese New Year. Fire crackers boom as of old. People in their best "go-to-meetings" greet their friends with "Kong-hai fah-hai". "Congratulations and a bounding wealth." Stores are closed. Nanking's order is ignored. You can't change 1000-year-old customs of 450 million people in a night. But this is not the only make-believe.

Nanking makes believe that China is unified. It "ain't." China is split into smithereens. Chang Fa-kwei in Kwang-tsi is fighting Nanking. Yen Hsi-shan has Shansi and Chihli and rules well. Chang Hsi-hoh-ling lords it over Manchuria. Tang Seng-chi keeps a horne's nest business in Honan. Vong Yoh-dang sways Shensi. Ezechuen goes its own way, and other rebels keep the Capital on "pins and needles." Yet Nanking has repeatedly reported each of these discordant ones over-run or won over. But it is only make-believe to hood-wink the world.

Chiang Kai-shek is the "conqueror of the North and the unifier of China." But what has he really done? He has done mostly with Russian brains and capital until he took Nanking. After that the rest was won by squeezing money from people in the rear of the "fighting lines" and buying enemy commanders in front. There was hardly one worth-the-name battle fought. It was mostly victory by purchase and buying of victory takes the gloss off the glory. If Nanking had the money now she could purchase all her present enemies. But what's the use? Soon there would be swarms of other enemies. It's profitable to be an enemy of Nanking!

China had to humble herself before Russia because Russian officers could not be bought. But in China the "fishing palm" is conspicuous. Remember this and you can understand much about the wars in this 'squeeze-greaser' land.

China is getting worse and worse. Property rights are gone. Life is unsafe. Business is paralyzed. Freedom of the press and speech has vanished. Loyalty and obedience are not. Liberty is dead. Bandits abound. But Nanking makes believe all is "as fine as pie" and issues pious reports.

Among officials there are doubtless sincere ones who would put things right but the make-believers predominate and block every move for good. (Continued on Page 5.)

## College Entrance Exams Will Be Held 21, 22 & 23

The County Judge's office wishes to again call attention of the public to the fact that College entrance examinations will be held on April 21, 22, 23 and 25. These examinations will be held at Muleshoe, Baileyboro and Bula on the above mentioned dates. A small fee will be charged. Further information may be had by applying to Judge Adams.

 To the Sheriff or any Constable of Bailey County—Greeting:  
 You are hereby commanded to summon Floyd Coyne by making publication of this citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in said county if there be a newspaper published therein, but if not, then in the nearest County where a newspaper is published, to appear at the next regular term of the District Court of Bailey County, to be holden at the Court House thereof, in Muleshoe, on the first Monday in May, A. D. 1930, the same being the 5th day of May, A. D. 1930, then and there to answer a petition filed in said court

on the 31st day of October, A. D. 1929, in a suit numbered on the docket of said court No. 513, wherein Agnes Coyne is Plaintiff and Floyd Coyne is Defendant, and brief statement of Plaintiff's cause of action, being as follows:  
 That the plaintiff is the wife of the Defendant and Plaintiff lived with Defendant as the wife of Defendant since their marriage until on or about the 15th day of July, A. D. 1928, when by reason of cruel and harsh treatment and improper conduct of the Defendant toward Plaintiff she was forced and compelled to permanently abandon Defendant; that the Defendant by a series of studied vexations and deliberate insults caused the Plaintiff such mental worry that her health if not her life was impaired and that defendant's actions and conduct toward her are such as to render their further living together as husband and wife insupportable.  
 Plaintiff prays judgment of the court dissolving the said marriage relations.

Herein Fall Not, but have before said Court, at its next regular term, this writ with your return thereon, showing how you have executed same. Given under my hand and seal of said Court, at office in Muleshoe, Texas, on this the 3rd day of April, A. D. 1930.

D. 1930, the same being the 5th day of May, 1930, then and there to answer a petition filed in the said court on the 5th day of April, 1930, in a suit No. 526 on the docket of said court, wherein R. A. Tipton is plaintiff and Will Smith, Matthew C. Vaughan and wife, Blanche E. Vaughan, Samuel D. McCloud, A. F. McCloud, Jas. C. Dunlap, M. R. Russell, P. N. Halley, Alfred McCauley, Mrs. Maud Smith, Anna E. Rigdon, Fred A. Kirk, M. N. Lyons, Michael N. Lyons, Austin C. Hatchell, J. A. Thompson, Orr & Sutton, J. W. Sutton, C. M. Orr, George A. Hutchins, Llewellyn Carter, L. W. Sloneker, Frances Smith, Wm. Smith, W. H. Seefeld, Will Smith, Ella McCauley, J. A. Murphy, Henry Bowser, W. L. Heck, C. V. Harris, T. M. Littlejohn, G. R. Strange, Mrs. Sallie Strange, Mrs. Stella M. Huskey, Hamer Neff, Frank A. Strayer, Robert Ackerman, G. W. Ackerman, Evelyn Spindler, John F. Muldoon, C. J. Blackburn, Henry H. Thompson, H. C. Carpenter, Wm. J. Taft, Mary C. Bentley, a widow, R. E. Davis, R. E. Morris, H. M. Russell, C. C. Cockrell, Security Savings Bank of Waterloo, Iowa, a corporation, F. F. McElhinney, Susan S. Rogers, F. G. Hudgins, C. D. Benson, Evelyn McElhinney, Annie McElhinney, H. D. Chipley and J. H. Goodrich, the unknown heirs and legal representatives of such named persons and the unknown stockholders of the Security Savings Bank of Waterloo, Iowa, a corporation, are defendants; said petition alleging that on 5th day of April 1930, he was lawfully seized and possessed of Survey or Section No. 52 in Block "B" Melvin Blum & Blum Survey, consisting of 640 acres of land more or less, situated in Bailey County, Texas; that on said date defendants and each of them entered upon said lands and ejected plaintiff therefrom, and now withholds the possession thereof.

Plaintiff further alleges a chain of title from the State of Texas to himself through various deeds and instruments and that he is the owner and entitled to the possession of said land.

Plaintiff further pleads specifically that he has had actual possession of said tract of land, under color of title from the State of Texas with peaceable, continuous and adverse possession of same for a period of more than three years, and that he has likewise held such possession for a period of more than five years, paying taxes thereon and that he has likewise had such peaceable and adverse possession for more than ten years, enjoying and using the same so as to mature the title under the three years, five years and ten years statutes of limitation.

Plaintiff prays for title and possession of said land, that his title be quieted and that any and all claims interest or estate in said lands, had or claimed by defendants be divested out of them and invested in plaintiff.

HEREIN FAIL NOT but have you then and there before said court this writ with your return thereon, showing how you have executed the same.

WITNESS: J. L. Alsop, Clerk of the District Court of Bailey County, Texas. Given under my hand and seal of said court in the town of Muleshoe, Texas, this 5th day of April, A. D. 1930.

J. L. ALSOP,  
Clerk of the District Court of Bailey County, Texas.

"So your husband is letting his beard grow?"

"He is not letting it grow—I am letting him grow it."

Mrs. J.: I wept oceans of tears over this dinner.

Mr. J.: It does taste salty, dear.

FIGHTERS

The officers of a great chain of stores were sitting at lunch, and making good progress with their business discussion when somebody mentioned a forthcoming prize fight.

Instantly all business conversation ceased; every man leaned forward eagerly to present his view on the more engrossing subject.

On another occasion I stopped at the offices of J. P. Morgan and Company to see one of the partners. His secretary apologized. You will have to wait a few minutes," he said. "They will be down from lunch a little late today. They are entertaining Gene Tunney."

One could write several different kinds of comments on these incidents.

One might, if piously inclined, view with alarm the absorption of the best business minds in a low and brutal form of sport.

One might point out the interesting fact that at the top all winners meet. Be the best in your line whether you be prize-fighting or banking, motion-picture acting or preaching, and you may lunch with Mr. Morgan. "Seest thou a man diligent? (a top-notch) 'in business? He shall stand before kings."

I prefer, however, to point a differ-

ent moral. Men attend prize fights and entertain champions because all the world loves a fighter.

People ask sometimes: "Why do the richest men in the country keep on working? Why don't they take their millions and retire?"

Because the decision to keep on working is not a decision of the intellect. It lies much deeper than that. Man was made for struggle. He was cast by Providence into a hard, unyielding universe. Climate was his enemy. Wild animals were his enemies. The earth was his enemy, and would give him no food until he had scarred its face with the undercuts of the plow, and beaten it to helplessness with the barrage of the harrow. "Fight and you shall live," says Nature. "Quit and no matter how well you have surrounded yourself with comfort, you will soften and die."

I once made a visit with the late George W. Perkins to a certain foreign city. Nature had so favored it that people can live with very little effort and be in the sunshine all the year round.

"How do you like this city," I asked him.

He answered: "It is full of men who have run away from the game."

"When death comes to me," said old Stephen Girard, who was more than eighty, "it will find me busy, unless I am asleep. If I thought I was going to die tomorrow, I should nevertheless plant a tree today."

Planting a tree on the very last day—launching a new bit of life—a splendid last punch at the old enemy, Death.

W. M. S. MEETING

The W. M. S. ladies of the Baptist church met Monday afternoon at the home of Mrs. Joiner. The lesson on prayer was enjoyed very much. These lessons are a wonderful inspiration to our prayer life. The Lord is calling us to daily prayer or a constant attitude of prayer. We are glad so many of our ladies are entering into our studies.

Next Monday we will meet in the home of Mr. and Mrs. George Johnson to render a beautiful missionary program for the benefit of Mr. Johnson's parents who are confined to their home because of Mr. Johnson's health. We covet your presence at this meeting. It encourages our hearts to meet and visit with those who have overcome the trials of life in the Christian faith and are still bravely carrying on. In the business session the society voted to serve lunch to the Kiwanis Club Thursday at noon. We also voted to serve lunch the 2nd day of court, the place to be announced later. The ladies also voted to serve the Kiwanis Club on Red Letter Night. If a patched apron comes your way in the next few days, patch your offering on and pass it on-but be sure and keep the apron going and put a patch on. We will meet next Monday at the church at

2:30, going from there to Mrs. Johnson's.—Reporter.

Texas Electric Service is building a new transmission line from Big Spring to Lamesa. Meest Texas Utilities is building a line from Dallhart to Hartley and Channing and has brought the plant at Dumas with the purpose of improving and enlarging it. Guita States Utilities is building a 132,000-volt transmission line from Beaumont

to Dayton to supply other towns in that area. Central Power & Light has 200 men at work on a trunk transmission line from Robston to Palfurrias via Kingsville and Premon. Preston road citizens living north of Dallas have undertaken to furnish right of way to the Dallas Power & Light Co. in order to secure electric service.

**VIGILANTES**

In the early days of San Francisco when the great gold rush to California which began in 1849 was in full swing, the make-shift government machinery broke down so completely that the town was at the mercy of the crooks, murderers, and bandits. The citizens took the law into their own hands. They organized a super-government, a Vigilance Committee, popularly called by its Spanish equivalent, "Vigilantes," and cleaned up the town. They had to hang a good many and shoot a good many more before they finished the job, but they cleaned up the town and turned its government over to honest men who could be relied upon to administer justice adequately.

In most of the large cities of the United States today and in many smaller communities conditions exist in respect to crime and mal administration which make thoughtful citizens at times wonder whether a revival of the old vigilantes is not called for. Whenever a known criminal is turned loose by a complaisant judge, when men paid to police a community fail to suppress crime which is blatant and easily discoverable, when men intrusted with public funds squander or steal them, the remedy of the ballot-box does not always seem adequate.

There is another remedy, however, and one which does not savor of lynch law nor contravene the right of every person criminal or otherwise, to his day in court. The remedy is publicity.

It takes a stout heart to expose corruption in office. It takes courage to tell the truth about local crime and criminals. It lays a heavy burden upon any one man, to carry the risks which surround whoever tries to check lawlessness, for he is dealing with men who are not governed by the rules to which the reformer must adhere. But every now and then some newspaper man performs that sort of public service.

Sometimes he loses his life, as Don Mellett did in Canton, Ohio. But the name of Don Mellett, newspaper man will stand forever in the annals of his city as that of the man who freed its citizens from criminal misrule. Canton is building a monument to its liberator.

In the fraternity of journalism Don Mellett's memory will live for all time as a martyr to the spirit of public service which must actuate every honest member of the craft.

More recently the newspapers of Scranton, Pa., exposed a conspiracy among gamblers and public officials, and several "prominent citizens" of Scranton are under indictment in consequence. The New York Evening Journal's disclosure of vice and graft in Atlantic City is another example. Columns could be filled with instances where newspapers, often fighting alone, have saved their communities from the clutches of organized crime and corrupt officials working in partnership with criminals.

A free press, the friend of every honest citizen, the fearless foe of every dishonest one, is the modern Vigilante.

**THE PRESIDENT AND THE LAWS**

There are times and occasions when honest people can honestly disagree about the policies of the President of the United States. They may disagree on personal or political grounds, and express their opinions freely without being subject to criticism therefor.

On one point, at least, of President Hoover's policies, it is difficult to see how honest people can disagree. This is on the question of law enforcement.

Honest people may dislike any particular law, for any number of honest reasons. It is not only their right in such a case to agitate for its amendment or repeal, it is their duty. There is nothing for its amendment or repeal, it is their duty. There is nothing inconsistent with honesty and good citizenship in taking part in any lawful effort to change the laws, the effort of the Executive to enforce it to the utmost of human and administrative efficiency calls for the support of every one who regards himself as a good citizen, or who wishes to be so regarded by his neighbors and his community. If each of us is to select which laws he will obey and which he will violate, the foundations of our democratic system of government begin at once to crumble.

President Hoover has asked Congress to put better tools into his hands for the enforcement of the Federal laws. The procedure in the Federal Courts today necessitates long delays and inadequate attention to the majority of criminal cases. The Commission of law enforcement, composed of many of the ablest men in the Nation, has recommended many changes in the laws governing the Federal courts. The legislation necessary to effect those changes should not be made the basis of a partisan quarrel in Congress. The issue in this instance is not between political points of view but between honest citizens and criminals.

Plow swaths, 6 to 10 feet wide, 2 to 6 inches deep. Moves all soil "one way," leaving ground level for harvester. Light draft, 15-30 tractor easily pulls 10-foot plow. Weeds and volunteer wheat all killed.

Prevents blowing by leaving stubble and trash in surface. Saves one or two operations because close set discs pulverize all lumps in soil.

For summer fallowing, kills all weeds without going too deep. The Original Angell "One Way" Disc Plow revolutionized wheat farming—cut the cost of preparation by one-third—grew bigger crops. That's why we offer it to you.

**CITATION BY PUBLICATION**

THE STATE OF TEXAS,  
 To the Sheriff or any Constable of Bailey County, Greeting:

You are hereby commanded to summon William E. Chapman, and heirs and legal representatives of the said William E. Chapman, whose names are unknown, and the addresses of each and all of the defendants being unknown, by making publication of this citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in the nearest County where a newspaper is published, to appear at the next regular term of the District Court of Bailey County, to be held at the Court House thereof, in Muleshoe, Texas, on the first Monday in May, A. D. 1939, the same being the 5th day of May, A. D. 1939, and there to answer a petition filed in said Court on the 2nd day of April, A. D. 1939, in a suit, numbered on the docket of said Court as No. 528, wherein Maple Wilson is Plaintiff, and William E. Chapman, and heirs and legal representatives of the said William E. Chapman, whose names are unknown, and the addresses of each and all of the defendants being unknown, are Defendants, and said petition alleging that plaintiff is the owner in fee simple of and entitled to the possession of, and was in possession of the South half of Section 19, of the Carter Subdivision of the Hansford County School Land Leagues, in Bailey County, Texas, on the 29th day of March, 1930, and on said date the defendants unlawfully entered into possession thereof and ousted the Plaintiff and withheld from him the possession thereof, to Plaintiff's damage; and Plaintiff says in connection herewith that Joseph H. Oglesby is common source of title.

And in connection with the second count, Plaintiff says, and by virtue thereof, he is the owner in fee simple of, and entitled to possession of the South half of Section 19 of the Carter Subdivision of the Hansford County School Land Leagues in Bailey County, Texas, and was in possession thereof on the 29th day of March, 1930, and on said date the Defendants unlawfully entered in possession thereof, and ousted the Plaintiff, and withheld from him the possession thereof.

WHEREFORE, Plaintiff prays for service upon the defendants that upon hearing he have the title to said possession of said property together with such other and further relief as in law or equity, he may be entitled to receive.

Herein fail not, and have you before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said Court, at office in Muleshoe, Texas, this 2nd day of April, A. D. 1939.

January 17, 1914, recorded in Vol. 8, page 635, said deed records, conveyed the land to Defendant, William E. Chapman, and that at the time of the two last mentioned conveyances, Plaintiff's grantor had paid a valuable consideration for same, without notice of any other person's rights, and that his deed was duly filed for record in the proper county; and that Defendants have no other claim of title than that as set out, which is void because the same arose after Plaintiff's grantor acquired a good title to such premises without notice.

And in connection with the second count, Plaintiff says, and by virtue thereof, he is the owner in fee simple of, and entitled to possession of the South half of Section 19 of the Carter Subdivision of the Hansford County School Land Leagues in Bailey County, Texas, and was in possession thereof on the 29th day of March, 1930, and on said date the Defendants unlawfully entered in possession thereof, and ousted the Plaintiff, and withheld from him the possession thereof.

WHEREFORE, Plaintiff prays for service upon the defendants that upon hearing he have the title to said possession of said property together with such other and further relief as in law or equity, he may be entitled to receive.

Herein fail not, and have you before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said Court, at office in Muleshoe, Texas, this 2nd day of April, A. D. 1939.

J. L. ALSUP, Clerk  
 8-4t District Court, Bailey County.

**MISSIONARY TELLS—**

(Continued from Page 1.)  
 But don't judge harshly. Most officials are sons of the laboring class and of the newly-rich. They are young and inexperienced. They pay together with attention to trivial things and neglect great things. If in our Washington it is said, "He that is without GIN among you let him first cast a stone," can we condemn heathen China? We hope that some day China stragglers will be of "playing house" and will get down to horse sense.

But I'm getting away from the New Year.

Gambling is everywhere. Superstition is rife. Money is wasted that might relieve famine suffering. Every temple is crowded with people offering incense, candles, paper-money and prayers to all the gods. They pray most for wealth. That prayer is not make-believe. They want wealth, and they worship the god of wealth with all their hearts. Every home has one made of wood, mud or of paper but he is "Dai-zen" all the same. When business gets dull they say the god of wealth has gone to America.

The paper Dai-zen is interesting. The god's throne is a big ingot of gold set with jewels. Mountains of gold are at the god's left and Silver Hill is at his right. In front of him is a great bowl of jewels. On Silver Hill is the money tree, a shake of which will shower you untold wealth. Over Dai-zen's head is Foh—"Blessedness. All around are his servants ready to carry wealth to those whom the god favors. This god is very amenable to flattery and he who flatters best gets most. But he, too, is make-believe. May the true God of Wealth prosper you and friends in all good.

Yours longingly for a sincere and prosperous China.

# Sunday School Lesson

International Sunday School Lesson for April 20  
**JESUS TEACHING FORGIVENESS**  
 Matthew 18:21 and EASTER LESSON  
 John 20:1-16

Rev. Samuel D. Price, D. D.  
 Only about eight months intervene between the time when Jesus taught the lesson about forgiveness in Capernaum and the glorious Easter morning that marked the resurrection of the body of our Lord from the grave. The disciples are still at school with the Master. Jesus held a quiz class at the base of Mount Hermon when He asked Peter "Who do men say that I am?" Now Peter turns the question on the Teacher. The man himself may have been in trouble. Possibly he had been injured by some one and had forgiven that person three times, which was the legal requirement. But Peter knew that as a follower of the new Teacher he must go further and may have made it double the number, with one more for good measure. "Master isn't seven times enough to forgive anyone?" The answer suggested that with seven times the habit was only well started. Let the act be done 490 times, was the reply by way of instruction.

One thing accomplished by forgiving another is to get the cancer of hatred out of our own heart, otherwise there is internal trouble for us by day and night. One least that we have truly forgiven another is when we sincerely pray that they may experience God's richest blessings. Jesus set the fine example when on the cross, in the midst of His agonies, He prayed "Father forgive them, for they know not what they do."

Great truths are remembered better when clinched with an apt illustration, so Jesus added a parable. Here is a man who owes millions of dollars and when payment is called for begs for

more time. The situation is already impossible and nothing remains to be done but sell man, wife and children that even a little equity may come to the prince cancel the entire indebtedness. This is just the way God forgives the sinner. It is not a question of the size of the sin but of the abounding love of the Father. Then this forgiven man in the story looks over his records and finds a fellow servant who owes him the small sum of \$17. With uncouth words this paltry debtor is cast into prison until full restitution be made. Humanity is usually eager for fair play and the fellow citizens take the case to the prince. Then justice speaks. The ungracious tyrant is recalled and the impossible debt reestablished with no hope of ever discharging it.

God is ready to forgive all when we are penitent. We, in turn, are to exercise the grace of forgiveness when wronged by others. To what extent shall we forgive, even though this is not sought by the one who has wronged us? The answer is in a petition that Jesus used in teaching the disciples how to pray. "Forgive us our debts as we forgive our debtors" is the well-known condition that we name in approaching the Father for His forgiveness. In the Revised Version the words call for our actual act of forgiveness: "As we also have forgiven our debtors."

Great truths in the Easter Lesson are the fact of the resurrection of the body of Jesus, which is a pledge of the resurrection of our own body at His Second Coming. Death refers to the body only: "To be absent from the body is to be present with the Lord. There is no sleep of the soul after death. Do not worry about things in advance. The women found that the stone was rolled away before they arrived.

Both of those were found by men who had already achieved fame as scientists. Clyde Tombaugh's name is now bracketed with those of Herschel, Galileo and the other explorers of the skies. Somehow, whenever something really important is done in the world, we find a small-town boy or a farmer's son doing it. Add this Kansas young man's name to the list of men of rural origin who have won fame by contributing to the world's store of knowledge.

### HISTORICAL PROGRAM BY CONOCO ADVENTURERS, APR. 24

A re-enactment of the Washburn-Doane expedition, in 1870, which made a discovery journey into what is now Yellowstone Park, the greatest scenic wonderland in the Western Hemisphere is the subject matter for the weekly broadcast of the Conoco Adventurers Thursday night, April 24 at 10 p. m., C. E. T., over the N. B. C. network.

Prior to the time of this expedition, various tales had been told by Indians

and a few scattered hunters and scouts who had penetrated a short distance into the Montana wonderland, but the American people were extremely doubtful of these tales of boiling geysers, volcanic peaks, and fields carpeted with wild flowers. It remained for the Washburn-Doane expedition to bring back the first authentic data regarding Yellowstone, which was even more wonderful fact that the Indian legends and trapper's yarns.

A thrilling incident in connection with the expedition, the disappearance and subsequent rescue of Truman Everts, one of the members of the party after he had wandered for nearly a month through the wilderness without weapons or supplies, is included in the Conoco dramatization. The playlet also gives an authentic historical story of the story of the first conception of the plan to make Yellowstone a national park, and thus forever preserve its magnificence and grandeur for future generations.

Texas has 441 licensed airplanes and stands seventh among the states in air-mindedness. California, leading the procession, has 1,237 licensed planes.

Texas had 1,368,384 automobiles registered in 1929, gain of 124,203 over 1928. Automobile registrations doubled and almost a fifth more between 1920 and 1929, the exact gain being 218 per cent over the 430,377 total of 1920.

The first chartered public utility in Texas was in Galveston—the Galveston Gas Co., chartered in 1856 by special grant of the Legislature. Galveston also had the first telephone exchange in Texas, while Laredo had the first street railroad, according to apparently authentic reports.

The largest cavalry post in the United States is Fort Bliss, near El Paso.

# THE WHOLE WORLD IS TURNING TO FORD!

## DID YOU KNOW?

The life of the average automobile is six years and nine months? The average cost of operation for a 4-cylinder car is 6.43 per mile!

These figures are based upon an average of 8,000 miles per year, according to the American Automotive Association. These mortality figures are based upon replacement data furnished by automobile manufacturers. The cost per mile is computed from detailed cost accounting records covering 800 typical automobiles operated in various parts of the United States.

The largest single item in the composite average automobile, for both four and six cylinder machines was maintenance, followed in both types by depreciation, and gasoline consumption. The following is a comparison of the operation costs of the average medium four and six cylinder types.

Items	Cents per mile	
	4 cyl.	6 cyl.
Maintenance	1.55	1.95
Depreciation	1.25	1.74
Gasoline	1.34	1.36
Tires	.60	.75
Garage	.44	.44
Interest	.37	.35
Oil	.25	.19
Insurance	.21	.21
License	.11	.20

The above figures are computed on a mileage of 8,000 miles per year, getting an average of 12.53 miles per gallon of gasoline for the average 4 cylinder car and 13.19 miles per gallon for the average 6 cylinder car.

During the year 1929 Ford's increase in sales was 217 per cent over 1928. Nearest competitors increase was less than 1 per cent.

## Here is the Reason Why!

- When you buy a FORD!
- You pay less money for it!
- You pay less Factory profit!
- You pay less dealer's commission!
- You pay less for the equipment!
- You pay less handling charges on the paper!
- You pay less to keep it running!
- BUT you take less depreciation when you trade it in for a new car!

CONSIDER THESE FACTS WHEN YOU BUY YOUR NEXT CAR!

### THE NEW PLANET

Percival Lowell, one of the world's greatest astronomers, died fourteen years ago. Before his death he showed his colleagues in the Lowell Observatory at Flagstaff, Ariz., a book full of complicated mathematical calculations. He pointed to a spot on the chart of the stars and said:

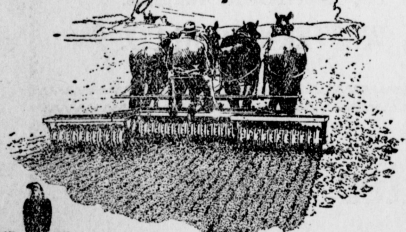

"Here, or hereabouts, there is a planet as yet undiscovered, part of our own solar system. These calculations prove that it must be there. Watch for it."

The greatest astronomers in the world have been watching for the Lowell planet ever since. The other day

a farm boy from Burdett, Kansas, found it with a telescope which he had built himself.

Clyde Tombaugh, the boy from Kansas, has placed his name on the scientific roll of honor for all time because he recognized the tiny speck which showed on his photographic negative for what it turned out to be, a new planet. Only twice since the beginning of the recorded history has such an event occurred. Until the telescope was invented in the Middle Ages, the only planets known to man were those which could be seen with the naked eye. Then, in 1781, the planet now called Uranium was found, and in 1846 the planet Neptune was discovered.

**"No Medicine Ever Helped Me As Did Konjola"**

Tulsa Lady Is Enthusiastic About New Medicine—"Best In The World She Says."

MRS. G. I. CRABBAUGH

"No medicine ever helped me as did Konjola," said Mrs. G. I. Crabbaugh, 738 Quaker street, Tulsa. "For more than nine years I had trouble with my stomach. Gas accumulated after meals and I bloated terribly. The pains and pressure often made me short of breath and dizzy. Constipation was another of my worries and I became an almost daily user of cathartics. I had terrible headaches and found it difficult to sleep. My nerves became badly affected and my general condition badly run down."

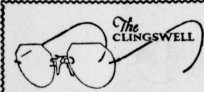

"I am delighted with the results I obtained from Konjola. Before I had finished the second bottle my constipation had been relieved and my stomach greatly improved. As I kept on with this great medicine my general health improved until I am feeling better today than I have in a long time. I have an excellent appetite and eat heartily without distress. Even neuritis which attacked me occasionally has been totally driven from my system. I cannot say too much in praise of this great medicine."

"Konjola works quickly, six to eight bottles are recommended as a fair trial. Although many people are benefitted within a few weeks, the longer period is best."

Konjola is sold in Muleshoe at McCarty Drug store, and by all the best druggists in all towns throughout this entire section.—Anv.

Now that elbow sleeves have returned to favor, we wonder how we ever managed to get along without them for as long as we did.

For formal afternoon dresses and less formal evening dresses there are short sleeves with floating drapery hanging down below the bend of the elbows—also very short puffed sleeves that are very becoming to well-shaped arms.

The picture shows a black flat crepe afternoon frock embroidered in red, and green made with the new short sleeves.

O, don't be sorrowful, darling!  
And don't be sorrowful, pray;  
Taking the year together, my dear,  
There isn't more night than day.

'Tis rainy weather, my darling;  
Time's waves they heavily run;  
But taking the year together, my dear,  
There isn't more cloud than sun.

We are old folks now, my darling,  
Our heads are growing gray,  
But taking the year all round, my dear,  
You will always find the May.

We have had our May, my darling,  
And our roses long ago;  
And the time of the year is coming, my dear,  
For the silent night and the snow.

But God is God, my darling,  
Of the night as well as the day;  
And we feel and know that we can go  
Wherever He leads the way.

A God of the night, my darling,  
Of the night of death so grim;  
The gate that leads out of life, good wife,  
Is the gate that leads to Him.

The Union Missionary Society went to Portales Monday to take clothing to the orphan child they are clothing. There were twenty seven who went and all reported a wonderful trip. On the return trip they had the misfortune to have two flat tires on one car so when the men were fixing the tires the ladies had a very interesting lesson from the Missionary Voice. There were ten members present and three visitors. They will meet at the school house next Monday and hope to see every lady in the community present.

The commencement exercises were held Thursday night. There were 12 graduates from grammar school. Mr. Ben Graham gave the class address and Judge Adams awarded the diplomas.

The patrons of the school served a basket dinner at the school Friday, the last day of school.

The school rendered a very interesting program Friday night.

Because of the absence of the League program committee the time was filled with singing.

Misses Rama, Edith and Lorne and Mr. George Newman and some friends of House, N. M., visited relatives and friends here over the week-end. We were very glad to have them with us again.

Mr. and Mrs. J. J. Gross and family

CONOCO Gasoline is actually tested dozens of times in the process of refining—but it is called Triple Tested Gasoline because of all of these tests converted into three main tests—for starting—acceleration—power!

These are the things that motorists want—and are entitled to get—from the gasoline they use. A gasoline may be ever so powerful—but if it is not volatile enough to start the motor quickly and give rapid acceleration in traffic—it will not satisfy today's demands. An easy starting, swift acceleration, are mere snares if they are not backed up with power for every need—economical power!

CONOCO Gasoline meets all three of these important practical tests—that's the reason so many people insist on Triple Tested—

**WARNING IS GIVEN TEXANS**

WACO.—The note of warning sounded by speaker after speaker followed conferees Tuesday as they prepared to hear a report from a special committee of the land utilization conference meeting here.

The warning was the same from every speaker, beginning with Dr. T. O. Walton, president of Texas A. & M. College—that the fertility of Texas farm lands fast was being depleted, threatening not only the livelihood of the Texas farmer, but the welfare, the social and economic fabric of the whole state.

The purpose of the conference was summed up by Dr. Walton as to outline what was being done to improve agricultural conditions, and to bring to the attention of its citizens and leaders the importance of properly utilizing and conserving "our greatest national resource."

Dr. Walton declared a third of the total acreage now under cultivation in Texas would not yield a profitable return. Judge M. H. Gossett, president of the Federal Land Bank of Houston, called the depletion of fertility "in-describable, inexorable and irremediable waste."

**GOLIAD ELECTRIFIED FARM IS ATTRACTING INTEREST**

Farmers of the Quero and Goliad sections are watching with interest the electrification of O. W. O'Dell's 200-acre farm a mile north of Goliad to be used for raising poultry, dairy products and irrigated truck and feedstuffs. Mr. O'Dell plans to pump water from a nearby creek for irrigation, using electric motors, to operate electric brooders, to milk his cows by electrically driven machinery, to grind and mix feed by electricity and to install an electric cooling unit for milk, eggs and vegetables.

Electricity will supply running water

in the house and other household equipment includes an electric range, hot water heater and refrigerator. Initial stock purchases include 800 hens and sixteen cows.

One of the biggest all-electric hatcheries in the state was recently installed by the Perryton Premier Poultry producers Association. It has a 50,000-egg capacity. Mont Cook installed a 16,000-egg hatchery at Perryton and J. D. Moss, secretary of the Perryton Chamber of Commerce, writes that the poultry industry in that section is thriving. The Texas-Louisiana Power Co. has completed rebuilding of the Perryton distribution system at a cost of \$125,000, he also writes, and is now rebuilding distribution systems at Spearman and Follett, served from the plant at Perryton.

Four Scotchmen had dinner in a restaurant. When it came to paying they disagreed. Finally, they decided that the waiter should be blindfolded and that the first one he touched should foot the bill. They are still at large.

**29 CASES 'JAKE PARALYSIS' REPORTED IN LITTLEFIELD**

There have developed about 29 cases of "jake paralysis" in Littlefield during the past ten days, according to information, and one death, a negro, said to have resulted from the same cause.

During the past two weeks more than 50 cases of this type of paralysis has been reported from various towns in this section, its peculiar action being unknown to medical science today. The victims seem to be afflicted in varying degrees, thought probably due to the amount of the liquor imbibed. Generally speaking, the concoction produces rheumatism of the legs, numbness in the feet, and in extreme cases there is a total paralysis from the hips down.

Chemical analysis of the liquor from samples obtained shows it to contain a mixture of creosote, carbolic acid, a small quantity of ginger, coloring matter and alcohol, and it has been branded as better adapted for dipping sheep than exhilarating human beings.

While physicians are endeavoring to discover a cure for the peculiar type of paralysis produced by this particular type of "bootleg," prohibition officers are making an effort to apprehend the bootlegger who dispensed the concoction.—Lamb County Leader.

COMPARE the delivered price as well as the list price in considering automobile values. Chevrolet's prices include only reasonable charges for delivery and financing. Easy G. M. A. C. Terms.

There is one sure way to get greater value in a low-priced car today—choose a Six!

This greater value is instantly obvious when you drive a Chevrolet Six. You notice first of all its greater smoothness. There is no tremor in the steering wheel—no rattle in the floor boards—no drumming in the body.

In addition to the finer performance of its six-cylinder motor, the new Chevrolet gives you truly remarkable economy.

Its six-cylinder smoothness saves the entire car from the strain and wear of vibration. This, of course, lowers the cost of maintenance and assures a longer-lasting automobile.

From the standpoint of operating expense, Chevrolet is equally economical. No automobile uses less gasoline and oil. No car shows a lower expense for tires. And no car costs less for service.

Because of its modern engineering, Chevrolet also assures a

high re-sale value—for its entire design is just as advanced as its six-cylinder engine.

Chevrolet gives you fully-enclosed, weather-proof, 4-wheel brakes. It gives you a modern fuel system—with the gasoline tank mounted in the rear outside the body. It gives you four long semi-elliptic springs, mounted lengthwise in the direction of car travel. It gives you beautiful Fisher bodies built of combination hardwood-and-steel. It gives you a full ball bearing steering mechanism, an adjustable driver's seat, a Fisher VV non-glare windshield, and tilting beam headlights, operated by a foot-controlled button.

Before you decide on any car in the low-price field, see and drive the Chevrolet Six. The more thoroughly you investigate, the more certain you are to conclude that it's wise to choose a Six—for value, for performance and for economical transportation!
