Kitty's Korner

by
Kitty Montgomery

"You know, my blood just boils when I think of how much emphasis they place on sports in this town and how little on training the kids' minds," this statement was overheard recently in the Stockman office, and we could hardly disagree. The woman who made the statement was new to Ozona, had youngsters in school, and apparently had moved here from a town whose school system elected to teach, rather than coach athletes.

It gave us some food for thought, because we can remember when the Ozona school system placed academic achievement at least on a level with sports. We can remember when our high school had kids going to district and state in literary events as well as sports. It doesn't seem all that long ago.

I also realize the newspaper is partly responsible. Perhaps we have given sports here too much coverage and let other things go by the way. However, its sports the kids manage to win at, and the coaches are good enough to get the results in, and this is what makes the news. A story about winning is news, a story about losing is no big item. I can remember going almost an entire football season without having a front page story about the Lions, this was one of their few losing seasons.

We've heard a few cryptic remarks about the monotony of the front page lately, and for those who are not track fans, six straight wins are monotonous, to those of us who are, six straight wins are exciting. We get good, detailed reports from the track coach and we can have a good story. Of course, we will use it and we think it's news. We will do the same for any successful organization or group.

This is not disagreeing with those who want their children to learn something besides sports. I realize the entire school system places too much emphasis on athletics, but most of the faculty has coaching duties on the side. I am of the opinion teaching should come first and coaching second, but I am neither a school board member nor an administrator, so my opinion doesn't count for much. I do know kids graduate from high school who can't spell, can't write and can't read. They are not very well prepared for the real world, but this seems to be all over, not just here in West Texas. Maybe it's just a sign of the times and maybe it will come full circle and we will once again be bringing up scholars who don't know one end of the football from the other.

I don't think we can look for this in the near future, however. Parents are too sports-oriented, especially fathers. When parents unite and demand more learning and less sports, we might see a change in the trend.

CLERKS MEET HERE-County and District Clerks from all over Area III, held the spring meeting in Ozona Friday. The local clerk's office staff hosted the event. Meetings were held at the Civic Center all day Friday and a barbecue dinner was catered at noon at the Country Club. A cocktail party was held for the clerks Thursday evening at the Inn of

the West. District Attorney Bill Mason chats with Dallas County Clerk Larry Murdock. Other officers, l. to r., are Margaret Ray, Howard County Clerk; David Weant, host; Pat Finley, Ward County Clerk, and Ida Prieto, Presidio County Clerk.

Lion tracksters pick up sixth straight victory

The amazing Ozona Lions brought home their sixth straight championship Saturday when they won the McCamey Relays. The Lions got in the "win" column the first meet of the year in Fort Stockton, and they have made it a habit, winning every meet they have entered.

The Lions outscored second place Kermit 127 to 81, in spite of flu, injuries, their head coach being ill, and without the services of Rudy

Martinez, Kelly Buckner, Mark Vallejo, Randy DeHoyos and Fabian Delgado, who scored 30 points among themselves at the last meet.

Coach Sewell was hospitalized Thursday with a severe viral infection. He was dismissed from the hospital Saturday, but still unable to make the meet. Sewell gave much of the credit for the sixth victory to his assistant coaches, David McWilliams, Wayne Palmer, Don Sessom and Tommy Wilson.

He said "I was so anxious and nervous at home Saturday, my wife threatened to put me back in the hospital." Coach Sewell had a great deal of praise for the ability and spirit of the team members also.

The meet was held in high winds that gusted to 30 miles per hour throughout the day. These conditions affected the times and distances, but not the outcome.

The last regular meet will be held Saturday, April 11, in Junction, and the district meet will be held in Eldorado, April 22.

Prelims will begin at Junction with field events at 9:00 a.m. and running events at 10:30. The finals are set for 3:00 p.m. Coach Sewell thinks this will be the toughest meet to date for the Lions, and a preview for the district meet, as most of the teams in the district are entered.

In the McCamey meet, the 400-meter relay team of Felix Flores, Larry Payne, Ernie Borrego and Willie Payne, got a first place for the Lions with a time of 45.0.

Richard Garza won the 3200-meter run with a time of 10:37.5, setting a record in spite of windy conditions. Jack Thompson placed second with 10:44.2.

Larry Payne, a consistent winner for the Lions this year, got a first place again

in the 400-meter dash with a time of 51.77. Marcelo Hernandez placed second in the 800-meter dash with 2:05.0, and Ernie Borrego got a third in the 300-meter hurdles with 41.4.

Richard Garza and Terry Crawford placed second and third respectively in the 1600 meter run. Garza's time was 4:52.5 while Crawford came in with 4:55.1.

The 1600-meter relay team, Flores, Fierro, Hernandez and L. Payne, placed second with 3:33.6.

Hernandez got a first place in the high jump with a leap of 6-feet flat, while Harvey Huereca placed third with 5'.

Larry Payne picked up some more points for the Lions in the long jump, placing third with 21'5".

Harvey Huereca got a fifth place in the discus and Santiago Lopez placed sixth in the shot put.

Clerks hold area meeting in Ozona

Thirty-two county and district clerks, representing 20 counties were on hand Friday when the Crockett County Clerk's office hosted the Area III meeting. The group met Thursday evening at the Inn of the West for an informal cocktail party and the meeting began Friday morning at 9:00 a.m. at the Civic Center. A barbecue dinner with all the trimmings was served at noon at the Country Club, courtesy Crockett County Commissioners Court.

Everyone who registered received a welcome packet put together by the Ozona Chamber of Commerce with items furnished by local merchants.

Larry Murdock, County Clerk of Dallas County and Vice-President of the State

Association, Lucille C'deBacca, Jack Griggs, recently retired District Clerk from Ward County, and Beatrice

Wooley, retired County and District Clerk of Jeff Davis County were special guests and were honored by the clerks of Area III.

Pending Legislation and Proposed Law Changes was a topic high on the agenda and was discussed at length. Mr. Murdock told the group that county and district clerks worked closer to the voters than any other elected officials. He said even though a proposed bill sounds like it would never pass, it is the clerk's duty to write their state representatives and senators and voice the opinion of the voters in their locale.

The group elected Margaret Ray, Howard County Clerk, as Area Director for the coming year. Pat Finley, Ward County Clerk, and Ida Prieto, Presidio County and

District Clerk, were elected as area leaders. David Weant was elected as reporter for Area III.

Following the meeting, the group toured the Crockett County Museum, local stores and shops, and were very complimentary on Ozona and the merchants of the town. The group expressed a desire to return to Ozona for a future meeting.

Weant expressed his appreciation to the Commissioners and local merchants for their support and donations of door prizes and to all who made the meeting a success.

Screwworm reported in Sutton Co.

A screwworm case was confirmed in south Sutton County Monday. This is the second confirmed case this year and the first one in our area according to Billy Reagor, County Extension Agent.

Screwworm officials are studying the case and at present time are unable to link this case to any known cases. The sample was collected from the wound of a fresh docked lamb. Since this is marking time, ranchmen are encouraged to use a wound protectant when marking lambs. Also livestock should be checked regularly and samples submitted. Sample bottles are available at the local feed stores.

4-H horse program

The 4-H Horse Program will officially get started Friday, April 10, at 7:30 p.m. in the Fair Park Arena. This is the first of five scheduled play days. These play days will be educational in nature with 4-H adult leaders conducting them. They will run approximately two hours each. Play days are scheduled for April 10, 24, May 8, 29, and June 4.

An all-day trail ride is planned for May 16, at the Jeffrey Sutton Ranch. The county 4-H Horse Show will be held on June 6.

All boys and girls between the ages of 9-19 are welcome.

2 new school board members elected Sat.

A total of 338 votes were cast in Saturday's school board trustee election, which saw the challengers taking the two posts open on the board while the incumbent was defeated.

Jeffrey Sutton, local rancher, topped the ticket with 260 votes. Henry (Hank) Sellers, rancher-educator, polled 241 votes for a spot on the board, while incumbent George

Bunger, Jr. went down to defeat with 157 votes.

Absentee voting amounted to 126 ballots. Sutton and Sellers also led in the absentee balloting with 107 for Sutton, 89 for Sellers and 52 for Bunger. On election day, 212 votes were cast. Of these, Sutton got 153 votes, Sellers received a vote total of 152 and Bunger trailed with 105.

Ms. Warren named president of TSEA

Nancy Warren, daughter of Mr. and Mrs. Charles R. Womack of Ozona, has been elected District One president of the Texas Student

and the chairperson of the district she represents. The State Executive Committee has scheduled the first executive meeting May 1-2 at Austin, which Nancy will attend.

Nancy is a senior elementary education major at Tarleton State University. She is presently doing her student teaching at Chamberlin Elementary School in Stephenville in the fourth grade.

Nancy is currently serving as president of the local chapter of T.S.E.A. at Tarleton. She is listed in Who's Who Among Students in American Universities and Colleges, a member of Alpha Chi, national honor society, on the Student Senate at Tarleton, and on two faculty boards at Tarleton concerning education.

Nancy will graduate in May. She plans to return to Tarleton in the fall and begin work on her master's in Physical Education. She will also be a graduate assistant in the education department teaching a course in reading improvement.

Texas Student Education Association is the college or university affiliate of the National Education Association and the Texas State Teachers Association. District I covers an area that ranges from Texas Tech, to the University of Texas at El Paso, to Angelo State University, to Tarleton State University.

NANCY WARREN
Education Association. She was elected at the State convention held in San Antonio, March 13-15. Her elected office runs from April the first to May 31, 1982.
As District I president, Nancy will preside at the District Executive Committee meetings, the District Leader's Conferences and the District Convention. She will also be a member of the State Executive Committee

OHS girls lead Dist. in golf

Ozona High School girls golf team was leading the district today going into the final meet. The boys team, with two tournaments remaining, were third. The girls are in Big Lake today for the final match before regional. The boys have two more district matches, Junction, April 14 and Eldorado, April 20.

The Ozona girls have a six-point lead over Big Lake, with Junction and Menard far behind. Ozona and Big Lake will play at regional, and today will decide first place in district.

Team members are Wendy Hood, Sherri Webster, Gail Hunnicutt, Aileen Lopez, Jennifer Justiss, Bobbi Acton, and Peggy Skains, in order of scoring.

After three meets, the Ozona boys have three team members in the top ten in district, Richard Wallace, with a three-meet score of 239; Kent Hokit, 260 and Robert Massey, 269.

Sorority to conduct ACS drive

Members of Beta Sigma Phi Sorority will be conducting the door-to-door crusade of the American Cancer Society in Ozona, April 13, from 5:30 until 8:30.

Mrs. Gary Vannoy, service chairman for the sorority, and Mrs. Wesley West, crusade chairman for the American Cancer Society, are in charge of the annual crusade.

Volunteers will be handing out educational material to aid in early detection of cancer, in addition to asking for donations.

CANCER DRIVE KICKS OFF here with volunteers placing posters in various places of business. Beta Sigma Phi Sorority will conduct the annual ACS door-to-door crusade Monday, April 13. Mrs. Wesley West, left, is Crusade

Chairman for the ACS. Mrs. Gary Vannoy is service chairman for the sorority and Mrs. Jack Baggett is a volunteer. Mrs. West and Mrs. Vannoy are coordinating the annual drive.

TRADE: THE STEPCHILD OF U.S. FOREIGN POLICY

By Edwin Feulner

A careful reading of the General Accounting Office's (GAO) new report on a recent tax "reform" leads me to believe that the U.S. Congress must have some kind of economic death-wish.

What else could one make of a tax policy that, in one year alone (from 1979 to 1980) eliminated some 14,000 overseas jobs for U.S. workers, cost the U.S. Treasury some \$6 billion from lost export sales, and increased domestic joblessness by an estimated 80,000.

All in the guise of tax "reform." The new report by the government's fiscal watchdog agency, published on March 2, found that the percentage of Americans employed overseas has gone into sharp decline — anywhere from 20 to 50 percent in some basic export industries since 1976 — as a result of U.S. tax laws.

The report "urges that Congress consider placing Americans working abroad on an income tax basis comparable to that of citizens of competitor countries."

Ben Jarratt Brown, an expert at the U.S. & Overseas Tax Fairness Committee, said that the GAO findings come as no real surprise. "They confirm what we've been saying for four years and what many earlier privately and publicly funded studies have consistently shown."

Estimates from several sources, including a Treasury Department study, indicate that a 10 percent reduction in American presence abroad produces a five percent loss in exports. According to the Chase Econometrics model of the domestic economy, that leads to a loss to the U.S. Treasury alone of approximately \$6 billion in tax revenues on corporate profits.

"The GAO estimates losses in American overseas employment well in excess of 10 percent," Brown points out. Using similar data, a study by the Georgetown Center for Strategic and International Studies found that the resulting job loss in the domestic economy could rapidly exceed one million jobs.

The Treasury Department estimates that it currently receives about \$500 million in tax revenues that it would lose if all U.S. taxes on Americans working overseas were eliminated — which is what Brown and his colleagues would like to see.

"In light of the billions of dollars it's costing our economy to collect that \$500 million, it is ridiculous to assign any revenue gain to the current tax practice or any revenue loss to a reversal of that practice," Brown argues. "The current practice is robbing the Treasury of at least \$6 billion in potential revenues right now — and will rob it of much more later."

"The fact is that it takes Americans overseas to sell American," Brown says. "And you can't sell American if you force Americans out of the marketplace."

Senator John Danforth (R-Missouri), Chairman of the Senate Trade Subcommittee, says Congress must act soon to reverse the situation.

With trade deficits amounting to \$150 billion since 1976, it's time for trade to become a component of, rather than remain what Senator Danforth calls "the stepchild of foreign policy."

Modest changes in the so-called Foreign Earned Income Act — changes eliminating or substantially reducing the tax bite on U.S. citizens working abroad — would appear to be a fully justified step in the right direction.

Since most host countries already tax these "expatriate" U.S. workers, it seems foolish to punish them, their employers and the economy with the present system of double-taxation.

(Feulner is president of The Heritage Foundation, a Washington-based public policy research institute.)

FANCY THAT!

The median price of a new home has nearly tripled in the past ten years.

And the cost of owning and operating the home has more than doubled.

STATE CAPITAL HIGHLIGHTS

By Lyndell Williams

TEXAS PRESS ASSOCIATION

AUSTIN — News of the attempted assassination of President Ronald Reagan rocked the State Capitol last week as senators and state representatives prepared to hear jointly an address by fellow Texan and Vice President George Bush.

Bush was aboard Air Force Two and almost to Austin when he received news of the armed assault. His scheduled appearance at the Capitol probably sharpened the impact of the misguided event on Texas lawmakers. Security officers were noticed increasing protection measures for Bush, even as filtering news reports on office radios began to create a ghoulish aura on the afternoon.

While aides stood nervously by, Lt. Gov. Bill Hobby and House Speaker Bill Clayton went outside together to the north steps of the Capitol to await Bush's arrival. Governor Bill Clements met Bush at the airport, and spoke briefly with him while the Vice President's plane was refueled for an immediate flight back to Washington, D.C.

A short time later the Legislature met in joint session, and offered prayers for the recovery of the President.

That same day and all through the week, as legislators vented their emotions, many emphasized the need for tougher anti-crime measures.

The most surprising emotional statement came perhaps from moderate Republican Rep. Bill Blythe of Houston, who said he thought an assassin should be hanged "within 30 days." Blythe is an independent, reform-minded legislator, a well-respected voice of reason and compromise.

The gun control issue was also reborn, and a big surprise in this area was a comment from Clayton that he would have no objections to a ban on "Saturday Night Specials", the cheap handguns readily available at pawn shops. President Reagan apparently was shot with such a pistol bought at a pawn shop in Dallas.

For Clayton, such a stand is an act of courage. The Speaker represents a Panhandle district, where farmers and ranchers need guns for predator control and protection... and are adamantly opposed to any form of gun control.

Clayton, a farmer himself, understands the need for rifles, and his constituents and other Texans may listen to his comment on cheap handguns.

Carters Visit Texas

Amid the hubbub of last week's disruptions, former President Jimmy Carter quietly visited Texas, touring the LBJ Library in Austin and the LBJ Ranch near Johnson City.

Carter reportedly consulted with Lady Bird Johnson about a presidential library

in Georgia. Former Vice President Walter Mondale also recently slipped quietly into Texas to meet with Railroad Commissioner Buddy Temple and some two dozen conservative Democrats. Mondale apparently wanted to meet with Texas business leaders during a relaxing weekend to discuss a future presidential bid.

Waste Bill Signed

Governor Bill Clements last week signed into law a bill regulating storage and disposal of low-level nuclear waste. Clements has indicated the measure will help Texas in a crisis in radioactive waste disposal.

The Senate voted to increase pensions for most retired teachers, from 2 to 21 percent to meet cost of living hikes. The bill went to the House where little opposition is foreseen.

Senators also voted to improve public disclosure laws for contributions from political action committees (PACS). The measure would require PACS to disclose the occupation or employer of each contributor on the list. Violators could be jailed for a year and fined. The bill was sent to the House.

New Prison Stalled

The \$35 million prison construction program, ordered by a federal judge, stalled in the Legislature because of a work-furlough plan for prisoners.

The House and Senate have passed different versions and a conference committee cannot reach a compromise. Senators want an amendment to spend \$250,000 for a work-furlough program to let 2,500 inmates live and work at home. Representatives want to drop the amendment, and Rep. Bob Davis, R-Irving, said he didn't see much chance of a solution being worked out. His statement immediately brought a charge of irresponsibility from Wichita Falls Sen. Ray Farabee.

The dispute threatens to scrub the construction bill which both sides view as necessary to relieve prison overcrowding.

Redfish Bill

Some of the hottest battles in the Legislature revolve around issues that affect very few Texans, and this session has seen ardent debate over whether to outlaw commercial fishing of redfish and speckled trout.

Sports fishermen claim the commercial fishermen are catching the fish right out of existence, and the commercial netters say they need the market to make even a small profit.

Last week the sports fishermen won a battle when a House committee approved the bill taking redfish and speckled trout off the commercial market.

The battle on this issue will now shift to a Senate Committee this week, where lobbyists for the commercial fishermen are expected to concentrate their efforts.

The Lion's Roar

CONNIE TRUJILLO, Editor
KAYE THOMPSON
MERCY STRATUS

This past week was another week for O.H.S. The Lion Track Team has yet to lose a track meet. They won the McCamey meet last week. The Lionettes track team placed fourth in the McCamey meet. This week the boys will be in Junction for a meet and Friday the girls will go to Big Lake for district. We want to wish everybody the best of luck.

The Girl's Golf Team is 4 strokes ahead of Big Lake and will be in Big Lake Wednesday for their last district meet. We want to wish them the best of luck and hope they make it to regional.

The Varsity Tennis Team went to their district meet Tuesday in Junction. The One Act Play went to Mason this weekend. Allen Dews received honorable mention.

Jay Moreno placed third in Number Sense and Arnold Rios placed second in Debate at the U.I.L. meet this weekend in San Angelo.

Hey Tilly K., and Harvey H., no lunch?!
Hey Lisa H., what did Gary say in Civics last week about your seat?
A song dedication of "Let's Get Serious" goes to the One Act Play.
A Warning of the Week goes to Gary A. and Gary S. of "Watch out for your T-square" from me! (Guess who).
Hey Joanna, what did the horse do to your neck?
SENIORS: Only 35 more days left!
Thanks for the banquet, Juniors.

LETTERS TO THE EDITOR

Dear Editor,
The Gardendale American Quarter Horse and All-Breed Show will be held on May 9, at the Gardendale, Texas, arena. The Quarter Horse show will start at 8:00 a.m. A Silver Tray will be given for Over-All High Point. Money for 4 places and Trophy Buckles for High Point in each division will be given and ribbons through 6th place. The All-Breed show will start at 8:30 a.m. A Billy Cook Roper Saddle will be given for All-Round High Point. Trophy buckles will be given for high points in each age division. Ribbons will be given through 6th place and silver platters awarded to the first place class winners.

Breakfast will be served this year in our new Fire Building starting at 6:00 a.m. for \$2.00.

Bar-B-Que will be served at 5:00 p.m. in the Community Building. Tickets will be available at the door. Tickets are \$4.00 for adults and \$3.00 for those under 12 years.

For entry blanks or more information write Box 37, Gardendale, Texas, 79758; or call 915-366-5230 or 915-366-3438 or 915-366-6109. The money raised in this event helps our Volunteer Fire Department. Donations

are now being taken on a chance to win a half beef. These tickets are \$1.00 and are available from the Gardendale Community Assoc. members. These tickets will be sold at some of the banks in Odessa.

We welcome you to Gardendale, Texas on May 9, to join us for a day of fun. Remember this will help our Fire Department and the whole community will benefit.

Thank You,
D.J. Ray

TEXAS HOUSE SALES DROP DURING WINTER

Sales of existing homes in Texas dropped 15 percent during the first three months of 1980 over previous years, a study conducted by the Texas Real Estate Research Center at Texas A&M University has revealed.

After monitoring housing sales for seven years, Dr. Arthur Wright, research economist, concludes that the coldest months of the year are a buyer's market. "People are reluctant to move during this period, and since many families are tied to an area during the school year, the greatest amount of activity occurs during the summer recess," he said.

you and the LAW

PRESENTED BY THE STATE BAR OF TEXAS

Q: I understand a new law will take effect that states that a person's children cannot inherit property that was owned by their parents should the parents die, with or without a will. Can this really be true? I can't believe my husband and I can't leave our property to our children!

A: There is no such law. In Texas you may leave your property to any person you wish. Your estate includes all the property you own as an individual and, if you are married, one-half of all the property which you and your spouse own together as community property. If you die without a will, the law says that your property will be distributed according to a formula set out by statute. You can avoid disposition by this formula only by having a valid will.

Q: My will was made in New York State where I lived for a good many years. I am a widow, 73 years of age, and have recently moved to Texas. Do I have to have another will drawn or is my will legal in the State of Texas?

A: A Texas attorney should review your will to determine whether it meets the requirements of this state and to discuss whether it will dispose of your property to your satisfaction. Although the Texas courts, at your death, will make every effort to utilize a valid out-of-state will, there could be problems if you have real property in Texas or New York.

Q: If I inherited money from an estate in another state and paid the inheritance tax to that state, do I have to claim this on my Federal Income Tax and pay again?

A: The Internal Revenue Code specifically excludes money or property acquired as an inheritance or a bequest under a will. These items are not considered income, and you owe no Federal Income Tax on them. However, if you receive any money as interest or income from an estate or a trust, you will probably receive notice of such income, and you must report it

as taxable income in the year received.

Q: I couldn't avoid hitting a deer that dashed in front of my car on the highway. I stopped and, after determining the animal was dead I moved it to the side of the road and left it. Was that the proper thing to do or should I have notified someone?

A: You should immediately notify the game warden of the county where you hit the deer. He will retrieve the dead animal. Under no circumstances can you keep the deer. There is no open season for animals hit on public roadways.

Q: What can I do to have my maiden name removed from my Texas driver's license? It causes nothing but confusion. If it is possible to do this, what steps should I take?

A: Texas law requires that holders of driver's licenses notify the Texas Department of Public Safety, Drivers License Division when the name of the licensee changes because of marriage. The proper procedure is to apply for a duplicate license, with satisfactory evidence of the name change, along with the payment of \$1. Texas law further requires that this procedure take place within 30 days of the name change.

Q: If I purchase a home that is being sold by the owner, is it necessary that I hire a realtor or attorney to handle the required paperwork, or can I handle it myself?

A: While you are not required to hire either a realtor or an attorney to purchase a home, you should consider hiring one professional to assist you with financing, proration of taxes, title, and possession questions. The purchase of a home involves a significant outlay of money. Hiring a qualified attorney is inexpensive, compared to the problems that could arise before closing, or even many years from now.

Tips For Gardeners

From the Ozona Garden Club by Mrs. Bailey Post

We have been so fortunate to have timely showers this spring, I am optimistic enough to hope that between April showers you will make the most of your gardening opportunities. Much of the success of your summer garden and lawn depends on what is done this month.

Now is the best time to remove suckers that often grow on trees, shrubs and roses. They should be removed as soon as they are noticed, for they can weaken a plant in a short time. These suckers usually grow on the root stock of the plant, and have foliage that is different from the foliage of the main plant. Dig soil from around these shoots and trace them back to their origin. If tender, they can be jerked off with your hands, or cut them out close to the root system.

When going to a nursery to buy plants, get full information on their growth, size, soil requirements, and if hardy for this area. The nursery man may have more time to give this information on a week day, for they are usually swamped on weekends. Be sure and check to see if plants are free of disease and insects.

If you are impatient for color in your garden, purchase seedlings already in flower. Most nurseries and garden supply shops have petunias, marigolds, Alyssum, ageratum, and many others for sale.

Teranium plants massed in a flower bed or border will have a colorful impact. They are easily grown and will tolerate a wide range of conditions. Any good, well-drained soil with several inches of compost or peat moss spaded into the top 6 inches will produce good plants. A half cup of 8-8-8 fertilizer for 50 square feet should also be added to soil. Allow 15 inches for the plants to grow and develop. Water and fertilize plants regularly and they will provide a solid blanket of green foliage with attractive flowers.

April 23 is Flower Show time, so begin grooming, watering and fertilizing if needed. All plants that you may want to enter in horticulture. Any one may enter in this section with all entries named properly. We are hoping to have another beautiful show of both horticulture and design.

Our workshop in preparation for the flower show will be next Monday the 13th at the Civic Center - 1:30 p.m. Program - Flower Arranging Clinic.

DUPLICATE BRIDGE

Winners in Duplicate Bridge Club play at the Country Club Saturday were Mrs. Robert Cox and Mrs. Sherman Taylor, first, and Mrs. Bob Bailey and Mrs. Tom Montgomery, second. In play Sunday, Mrs. Bailey and Evert White were first and Mrs. Taylor and Mrs. Hillery Phillips, second.

STOCKMAN CLASSIFIEDS GET RESULTS

Affairs of Life

If looked upon with understanding, one can recall the past with gratitude and come to the realization that certain difficulties or shortcomings were a blessing.

In actuality, often future stepping stones and not hindrances as originally appeared.

Crockett Automotive

ENGAGEMENT ANNOUNCED. Mr. and Mrs. Frank McMullan, Jr., announce the engagement and approaching marriage of their daughter, Sarah Kay, to Mr. Eddie Gene Stewart of Lubbock. He is the son of the late Mr. and Mrs. James [Jake] Allen Stewart of Haskell. The bride-elect is a graduate of Ozona High School and Texas A&M University. She is presently employed by a brokerage company in Lubbock. Her fiance is a graduate of Haskell High School and attended Angelo State University. He is a sub-contractor for a custom built homes firm in Lubbock. The wedding is planned for June 6, in the Ozona United Methodist Church.

Girl Scout leaders plan spring events

Ozona Girl Scout leaders met Wednesday evening in the home of Mrs. Thelma Janes for the regular monthly meeting.

Terri Adams presided and discussed Leader's Week which will begin April 3, at Camp Jo Jan Van. She also reminded leaders to get all cookie sales monies in to her before April 8.

Activities brought to the attention of the leaders included a leadership and training session in camp craft to be held in San Angelo, April 11; outdoor training at Jo Jan Van, April 24-26; America Beautification Day, April 25; covered dish supper for final leader's meeting.

Ms. Childress hostess for bridge play

Mrs. Duane Childress was hostess for luncheon and bridge at the Country Club Thursday.

High score went to Mrs. Bill Cooper, second high to Mrs. Evert White and third to Mrs. Billy Carson. The two bingo prizes went to Mrs. Joe Friend and Mrs. Bob Bailey.

Others playing were Mrs. Clay Adams, Mrs. Charlie Black, Mrs. Larry Braden, Mrs. George Bunker, Mrs. John Childress, Mrs. Joe Clayton, Mrs. Bud Cox, Mrs. Joe Couch, Mrs. Arthur Kyle, Mrs. Bill Mason, Mrs. Kirby Moore, Mrs. J. B. Parker, Mrs. Buddy Phillips, Mrs. Hillery Phillips, Mrs. Jake Short, Mrs. Sherman Taylor, Mrs. C. O. Walker, Mrs. Byron Williams, Mrs. Charles Williams, Mrs. Gene Williams, Mrs. Jack Williams, and Mrs. Jake Mayfield.

Luncheon guests included Mrs. Virginia Murrah of Fort Worth, Mrs. Gary Garlitz of Midland, Mrs. Sidney Mills-paugh and Mrs. Pete North.

Debra Says

By Debra Price

Before you start sewing spring-fashion items, take inventory of the fabric, notions, patterns and tools on hand. Your savings as a result can be considerable in terms of storage space, money and time.

Here are some possible reasons:

You may be a collector of fabric and have various yardages from years back.

You may have bought thread on sale only to discover that you already had 15 spools of white thread or six spools of a color you don't even like. We all make mistakes in purchases. Get rid of these! They are confusing, and they take up valuable space.

Give these items to someone, or garage-sale them since one person's "junk" may be someone else's "treasure."

Couples golf play

Winners in couples golf play at the Country Club this week were Marilyn and Bud Cox and Dorothy and Beecher Montgomery, first. The second place team was made up of Mary and Dick Webster and Leslie Fatout and Randy Crawford. In a tie for third place were Sherry and Otis Holt and S. L. and Marie White tied with Geniece and Pleas Childress and Betty and Winston Koerth.

Closest to the pin on number nine were Sherry Holt and Bob Wallace.

Ladies golf play

The Ozona Country Club's Ladies Golf Association held its weekly play April 1. The April Fool Day's winners were Mrs. Charles Williams with low net and a tie for low puts between Wanda Stuart, Mary Webster, and Jeanette Bailey.

A sack luncheon will be held Wednesday, April 8, at the home of Mrs. Bud Cox at 11:30 a.m. Tee-off time will follow at 1:15 p.m.

Others playing with the above winners were Marilyn Cox, Billy Jean Baggett, Sherry Holt, Kathy Jones, Marie White, Dorothy Montgomery, Kay Braden, Bobby Fatout and Liz Williams.

Set up files of everything to assist you in the inventory. One idea is a metal file box (such as a recipe file) from an office-supply store and 3x5-inch file cards.

Clip a swatch of each fabric you have on hand and all newly added purchases as you go. Attach each to a 3x5 file card.

On the card write the fabric content, suggested care and width and length of each yardage.

This way the swatches will be easily accessible for color matching and they'll eliminate measuring a second time.

Many people purchase fabric and forget they have it.

If you bought matching thread, buttons and other notions, record this on the card. On shopping trips, the cards will be handy "go-alongs" for matching other notions and accessories.

List on cards all notions on hand, such as zippers, seam tape and trims. Be sure to include size, colors and quantities. This will prevent buying duplicates, especially if you take the cards along on shopping trips.

Be sure to mark items off when you use them.

Make a pattern file that will include style numbers, sizes and garment descriptions. This will organize your patterns and prevent pattern buying binges or duplicates.

Sort out the sewing tools and pressing equipment that you have. Make a list of these along with their intended use.

With these files and the tools list, your spring-fashion sewing projects should be hassle-free, leaving more time for economical decision-making trimmed with your own special creativity.

GINGERBREAD

8 servings, about 4 by 2 inches each. Calories per serving: About 200.

1/2 cup Oil
1/2 cup Water
1/2 cup Molasses, light
1/2 cup Sugar
2 Egg whites, slightly beaten

1 cup Whole wheat flour, unsifted

1/4 teaspoon Salt
1/4 teaspoon Baking Soda
1 teaspoon Baking Powder
1 teaspoon Ginger
1/2 teaspoon Cinnamon
1/4 teaspoon Nutmeg

Preheat oven to 350 F (moderate).

Grease lightly with oil and flour an 8x8x2-inch baking pan.

Mix oil and water. Add molasses, sugar, and egg whites. Stir until sugar is dissolved.

Mix flour, salt, baking soda, baking powder, and spices. Add to liquid mixture. Beat until smooth. Pour into pan. Bake 30 minutes or until surface springs back when touched lightly.

Calling All Homemakers

Brought To You By Brown Furniture

Would you like a little tip on how to bring new life and new excitement to your home? Here's one plan.

Take one area of your home - or perhaps just one area of a room and go all out to dramatically re-do that one little area.

This plan can raise your spirits and give you a bright new corner of the world. But how do you go about it?

After you've decided which corner or area you want to improve, add one truly magnificent piece of furniture there. Add a daring new color or color scheme. Or, perhaps try an exciting pattern you've always wanted but were afraid to use in a whole room.

We can give you other ideas, and we invite you to come in. By vastly improving one area in your home, you'll be taking that one bold gesture to start you on the road to the home you've always wanted.

And such a move can help relieve that monotonous "Sameness" that afflicts too many homes. By using this plan you can improve one area of your home - and actually make the whole house seem better, too. Come see us at **BROWN FURNITURE**.

GOD WANTED NO PUPPETS

It is called *freedom of will*. And it is one of the most exciting ideas in man's religious knowledge; we decide for ourselves what we'll believe and how we'll live.

It is not that God doesn't care about human beliefs and behavior. In the Bible and in the life of His Son Jesus, God had made vividly clear His LOVE and His WILL.

But God wanted no puppets. So each of us has been endowed by the Creator with freedom of will. This way our faith is a vital response to God's love — not a mechanical reaction controlled by a puppeteer. And our morality is the real-life expression of our Christian convictions — not a wooden uprightness imposed by strings.

Remember this whenever God puts spiritual opportunity in your path. Like next week when you worship.

Time for home canning check

Get ready for home canning with inventories, tests, checkups and plans, says Marilyn Haggard, a foods and nutrition specialist.

Ms. Haggard is on the home economics staff of the Texas Agricultural Extension Service.

Inventory jars, lids, rings, freezer bags and any other equipment necessary for your special home canning projects.

Test dial-gauge pressure canners every year.

For information on testing sites, call your county Extension agent. Many County Extension Offices have testing equipment and they hold pressure-canner-testing clinics early in the canning season. Tests should include making sure safety valves, petcocks and safety plugs are in good condition.

Replace any worn parts. Remove any corrosion by soaking in vinegar.

Finally, when testing the canner, be sure to look for steam leaks around the canner lid. If the lid has a rubber gasket, make certain it's clean and grease free. If the gasket leaks steam, turn it over, stretch it gently and replace it. If the rubber has hardened, replace it with a new gasket.

Check jar rings. Discard any that are bent, dented or rusted. Estimate the number of lids you'll need. Check jars for chips or cracks. Chips along the jar mouth usually result in an unsealed product after processing. Cracked jars usually break in the waterbath or pressure canner.

Make plans for clean storage areas, and plan ways to use leftover canned food. Group "last year's" canned foods so they're easy to reach and use—and so they're separate from "new" canning.

Tax Credits Reduce Tax Bite For Lower, Middle Income Taxpayers

Last year 73 million of America's 91 million taxpayers collectively reduced their tax bills by \$17 billion. The majority of those taxpayers were average wage earners, and many did not itemize deductions.

Their trick is no secret. They took advantage of tax credits. In recent years Congress has turned more and more to the tax credit as a way of extending tax advantages to all taxpayers, including lower and middle income people who seldom have enough deductions to itemize.

A tax credit differs from a tax deduction in that the credit is a direct reduction of the tax bill. A deduction reduces only taxable income, and is only available to those who are allowed by law to itemize.

As an example of the difference between the two, say you are in the "25% tax bracket," and this year you have enough deductions to itemize. A deductible expense of \$8, by the time it filters down to your final tax bill, would only produce a \$2 tax advantage. If you have that same \$8 coming as a credit, first, you wouldn't have to itemize to claim it, and second, your taxes would be reduced by the full \$8, since you subtract a credit directly from your tax bill after you've done all the other figuring.

Tax credits are worth knowing about, but in order to claim them, you need to know what they are and who qualifies for each one. The tax credits are listed in the Form 1040 instruction book and in Publication 17, **Your Federal Income Tax**. Both are available free from IRS. There are also separate publications on many of the individual tax credits. These publications tell who qualifies for the credit, and what forms, if any, you need to claim the credit.

Although there are a couple of exceptions, you usually need to file your taxes on a Form 1040 if you plan to claim a credit, since there are special lines on that form on which to enter the dollar amount of the credit you're claiming. If you use the long Form 1040 but don't itemize deductions, you may still be able to use the same simple tax table method that is used to complete the shorter 1040 A.

Here is a brief summary of some of the common credits: **Child & Disabled Dependent Care**-If you incur expenses to care for your child or your disabled dependent or disabled spouse so that you can work, you might be entitled to a credit of 20 percent of those expenses up to \$400 for one individual, \$800 for more than one. (Form 2441, **Credit for Child**

and Dependent Care Expenses, Pub. 503, **Child and Disabled Dependent Care Credit for the Elderly**-Elderly persons age 65 or older, or those under 65 who receive a taxable pension or annuity from a public retirement system might be able to claim the credit for the elderly and reduce their taxes. (Schedules R&RP, **Credit for the Elderly** attached to Form 1040, Pub. 524, **Credit for the Elderly**)

Political Contributions-If you made contributions to qualified candidates for political office or to political committees in 1980, you may be eligible for a maximum credit of \$50 (\$100 on a joint return). (Form 1040 or 1040A no special additional form. Information in Pub. 17, **Your Federal Income Tax** and Pub. 585, **Voluntary Methods to Help Finance Political Campaigns**)

Residential Energy Credit-Those who have installed insulation or certain other energy-conserving devices in their homes, such as storm or thermal doors or windows, may be entitled to a credit of 15 percent of the first \$2,000 if expenditures, not to exceed a credit of \$300. Additional credit is available for the installation of renewable energy source property, such as solar heating. (Form 5695, **Energy Credits** attached to Form 1040, Pub. 903 **Energy Credits for Individuals**)

Earned Income Credit-Certain low-income parents who earn less than \$10,000 in 1980 and who have a child living with them may be eligible for a credit of up to \$500, depending on income. Note that this is not like most credits because it will be refunded even if it exceeds taxes owed, and, in fact, even if no taxes are owed at all. With this particular credit, instead of claiming the credit on the tax return, taxpayers now have the option of receiving it along with their pay each payday. A worksheet for figuring earned income credit is in the beginning of the tax package that comes in the mail, and is also available separately. However, no special form is necessary to claim the credit. It can be claimed directly on Form 1040 or 1040A. (Pub. 596, **Earned Income Credit Advance Payment Certificate**, if you want to receive payments each payday.)

Targeted Jobs Tax Credit-Employers who hire members of any of seven economically and socially disadvantaged groups - handicapped individuals undergoing vocational rehabilitation, Vietnam-era veterans, welfare recipients, certain groups of young people, for example may be able to claim a credit on a federal income tax return, worth up to an additional \$3,000 per certified employee for the employee's first year of employment and up to \$1,500 per certified employee for the employee's second year of employment.

(Form 5884, **Jobs Credit** attached to either Form 1040 or Form 1120, Pub. 906, **Targeted Jobs and WIN Credits**)

If you believe you may be qualified for any of these tax credits, check the recommended publication or call the IRS Forms/Tax Information number listed in the telephone directory for details. Also bear in mind that this summary is not all-inclusive; there are several other less common credits. IRS has another free booklet, **Publication 900, Index to Tax Publications**. This contains an alphabetical list of topics showing the number of the publication that covers each topic. Look under Credits for further kinds of tax credits not mentioned here. The index will direct you to the publication which will furnish the necessary information on the particular kind of credit. All these publications and forms are available by using the handy order form in your tax package.

RAILROAD COMMISSION OF TEXAS

OIL AND GAS DIVISION

OIL AND GAS DOCKET

NO. 7C-76,515
Austin, Texas
March 26, 1981

IN RE: CONSERVATION AND PREVENTION OF WASTE OF CRUDE PETROLEUM AND NATURAL GAS IN THE STATE OF TEXAS

NOTICE OF HEARING ON THE APPLICATION OF SIMPSON-MANN OIL PRODUCERS FOR MINERAL INTEREST POOLING IN THE ADAMS-BAGGETT RANCH (CANYON SAND) FIELD CROCKETT COUNTY,

TEXAS

NOTICE IS HEREBY GIVEN To the public and all interested persons that under the authority of Title 3, Oil and Gas, Subtitles, A, B, and C, Texas Natural Resources Code, and Chapters 26, 27 and 29 of the Texas Water Code, the Railroad Commission of Texas will hold a hearing on MAY 19, 1981 at 9:00 a.m. in its Hearing Room 221 at 1124 South I-35, in Austin, Texas, for the following purpose:

To consider the application of Simpson-Mann Oil Producers, who makes application under the Mineral Interest Pooling Act (Chapter 102 Texas Natural Resources Code) for an Order establishing a 160.15-acre

pooled gas proration unit of all interests in the Adams-Baggett Ranch (Canyon Sand) Field, Crockett County, Texas.

A well identified as the Simpson-Mann Baggett Unit 1, Well No. 6-2, has been drilled to the subject reservoir on lands proposed to be included within the pooled unit. There is attached hereto as Exhibit B a plat showing the location of said well and the lands proposed to be pooled pursuant to this application.

PURSUANT TO SAID HEARING, the Commission will enter such rules, regulations, and orders as in its judgment the evidence presented may justify.

ALL EXHIBITS FILED AS A PART OF THE RECORD IN THIS CAUSE MUST BE

SUBMITTED IN DUPLICATE. REFERENCES TO DATA IN COMMISSION RECORDS MAY BE INCORPORATED BY REFERENCE, BUT THE REFERENCE MUST BE SPECIFIC, AND IF IT INCLUDES EXHIBITS FILED IN PRIOR PROCEEDINGS BEFORE THE COMMISSION, A COPY OF SUCH EXHIBIT PROPERLY IDENTIFIED SHALL BE SUBMITTED FOR THIS RECORD.

Don't miss those tax deductions

In the time of year when Uncle Sam asks adherence to honesty as millions of us file our income taxes, two Texas A&M University business experts offer advice for those filling out long forms.

"Before filing, first check with an accountant, tax consultant or a representative of the Internal Revenue Service for possible changes in tax laws," advises Dr. Charles Maurice, head of the Department of Economics at Texas A&M.

Maurice said because tax laws often change, long forms could be confusing, particularly for those being pushed by inflation into higher income tax brackets who want to reduce the amount of taxes they will pay.

"Frequently people don't know what they can claim against their income," Maurice said, "and some pass up deductions simply because they don't know tax laws."

Although most Americans will file the 1040A, or short form, this year, those who choose the long-form route, the 1040, will fill out an average of two to three addi-

tional forms. While the total number of forms is over 30, there are about six or seven most commonly attached to the 1040, said Dr. Clair Nixon, professor of accounting at Texas A&M.

"The object of filing taxes is for individuals and businesses to accurately declare income or losses," Nixon said. "The incentive is for people to get their due return or pay a due amount without being fined or penalized for mistakes or false statements. The government counts on us being honest."

He explained deductions commonly overlooked include travel, medical and charitable expenses. Other deductions are local and federal tax preparation expenses, interest expenses, theft and damage to property.

"People often deduct vacations as business travel expenses because they make them business-related trips," he said. "When you drive, it's easier to take the whole family."

Traveling to and from a doctor's office, pharmacy or

hospital can also be deducted, as can travel expenses incurred when working for the church or a charitable organization such as the Red Cross.

Though many families will declare one income, an increasing number of families will declare two.

"That will cost them more in taxes," Nixon said, adding, however, he doesn't advocate "living together" for a tax break.

"In some instances married couples can expect revenue back in addition to their tax refund," he said. "This applies to couples with one or more children making less than \$10,000 a year."

Nixon explained one way a person with widely varying incomes can reduce his taxable income is to average his current income with that from the previous four years. Income averaging, or Schedule G, could substantially reduce a person's tax liability, he said.

Single people with less than \$1,700 in itemized deductions may use the short form, he said. Married cou-

ples may use the short form if they have less than \$3,400 in itemized deductions. Individuals with sources of income other than wages, salaries or interest are generally required to file the long form.

He said the easiest way of keeping records is from returned checks or credit receipts. Other forms of documentation are important, particularly for expenses on specialized items like prescription drugs, which can be deducted as medical expenses.

"Records are necessary if the IRS decides to audit you," Nixon said. "If you underpay, the agency will impose a 12 percent interest charge. Penalties will vary depending upon the situation. However, working with the IRS in making corrections could alleviate penalties."

The IRS has up to three years to check tax statements and an unlimited time in cases of fraud. Nixon noted the penalty for fraud is up to 50 percent of the tax liability, plus interest.

Sales tax Bullock blasts reporters

rep. to visit here

State Comptroller Bob Bullock will have a representative from his San Angelo office in Ozona on April 16, 1981 to assist local taxpayers and answer questions about state taxes.

Bullock said Enforcement Officer Steve Mercer will meet with local taxpayers in the Library in the Courthouse Annex from 1:00 to 2:00 p.m.

"If Ozona area merchants, or anyone else for that matter, have any questions about state taxes or need help in preparing state tax forms, Mr. Mercer will be there to assist them," Bullock said.

"We're trying to cut the red tape in this office, and we believe these face to face sessions with taxpayers help do just that," Bullock added. The San Angelo office, headed by Bill Teaver, serves San Angelo and surrounding counties.

STOCKMAN CLASSIFIEDS GET RESULTS

State Comptroller Bob Bullock Thursday said newspaper reporters who have become self-appointed critics of optional equipment purchases on state-owned vehicles should have been riding in a Comptroller's Suburban which crashed and killed an employee last summer.

"Can these cub reporters put a dollar value on the loss of Carolyn Boyd's life?" Bullock asked.

"Sure, it cost us \$40,000 in

Ms. Schoenhals attends foster parent confab

Mrs. Merlin Schoenhals recently attended the 11th National Foster Parent Training Conference in Dearborn, Michigan. She also toured the Detroit area and Windsor, Canada.

While attending the conference, she had workshops on foster child care, nutrition and behavior, along with the role of religion in foster care.

death benefits, but what about the cost of human tragedy?"

Ms. Boyd was killed on June 7, 1980, just south of Dallas when the 1979 Chevrolet Suburban she was driving went out of control and plunged down an embankment.

"If I could go back and buy one more piece of optional equipment to prevent that accident I would buy it," Bullock said.

"Here's a 90-pound woman driving a ton and a half truck-but these are things that reporters don't think or care about."

Bullock blamed the recent rash of stories about his vehicle purchases on Waco Herald-Tribune reporter Laylan Copelin "being in unholly cahoots with C.C. Jones of Mart, the Chevrolet dealer who recently sold the Comptroller's Department a 1981 Suburban."

"Jones is mad because he won the bid and lost money on it," Bullock said. "But the newspapers haven't seen fit to publish that side of the story."

Bullock said Jones bid on the Suburban with certain options like radial tires which were not on the vehicle when it arrived.

"We wouldn't take it. We made him live up to his bid and he's mad about it," Bullock said.

"Jones isn't mad because we spent \$11,000 on the truck-he's mad because we wouldn't spend another \$500 to cover his mistake," Bullock said.

"The people of Texas can rest assured that we've spent our last dollar with this fellow in Mart," Bullock said. "It's obvious that the lowest bid isn't always the best."

"The newspapers know this but they won't print it."

GIRL TO WALSTONS

Mr. and Mrs. Frank Walston are the parents of a daughter born March 12, at 5:15 p.m. in Shannon Hospital in San Angelo. The little girl has been named Sandra Kaye. She has one sister, Jessica, 2.

OHS GIRL GOLFERS lead the district with one tournament to go. They are in Big Lake today for the final meet. They have been exchanging the lead with the Reagan County team all season. However, the top two teams in the district go to regional, so they are assured a spot at regional

regardless of today's score. From left to right, team members are Peggy Skains, Bobbi Acton, Jennifer Justias, Gail Hunnicutt, Aileen Lopez, Sherri Webster, and Wendy Hood.

Quilted fabrics, good year round

An old winter friend will be a new spring-summer fashion item.

Quilted fabrics are an important fashion item for the 80's-year round, says Nancy Brown, a clothing specialist.

They offer a texture dimension to fashions, and they add interest and variety to the wardrobe, she says.

Quilted fabrics do require special cutting and sewing techniques if you're trying for a professional look in homesewn fashions, the specialist says.

Below are her suggestions: Select a pattern with a straight silhouette. Avoid gathers and curved stitching lines, since the batting in quilted fabrics can make them bulky and prevent drape and ease.

When cutting, use the "with nap" layout. Horizontal and vertical quilt stitching will need to be matched at the seams just as you would a stripe or plaid design.

Because of the fabric's thickness, hold the scissors at a right angle to the fabric as you cut. This will assure same-size pattern pieces.

Mark the fabric with chalk or tailors' tacks. Avoid a tracing wheel, because it may mar the quilted surface or ruin the paper pattern.

When stitching, use a cotton-covered polyester thread in the luster and strength suitable to the fabric.

Always test stitching on a fabric scrap. Match the stitch length to the length of the quilting stitch lines. This is usually eight to 10 stitches per inch.

Because of the fabric's bulk, you may need to lessen the presser-foot pressure and loosen the stitch tension.

For stitching, use a regular sharp-point machine needle. A size 14 needle for lightweight quilted or a size 16-18 for heaviest weights should do the best jobs.

To prevent the shift of the bulky fabric when stitching, pin it generously.

If stitching with two different textures, stitch with the smooth side up. An even-feed foot attachment will help the fabric feed smoothly without puckering.

Cubettes finish third

The Seventh Grade Cubettes traveled to Del Rio Sat. to compete in the Del Rio Jr. High Track Meet. The Cubettes scored 80 points for a third place finish, losing to first place finisher Kerrville and runner-up Del Rio. The Cubettes outscored Uvalde, Crystal City, Carrizo Springs and Eagle Pass. Scoring points for the Cubettes were Z. Munoz with 34 points, D. Sanchez, 15 points; V. Miller, 17 points; L. Lozano, 5 points; E. Tijerina, 5 points, and O. DeHoyos, 2 points.

Results of the events were: 400-relay-4th place (D. Sanchez, Z. Munoz, L. Lozano, V. Miller) 800-meter dash-Z. Munoz, first. 200-meter dash-V. Miller, third.

1320 run-D. Sanchez, first. Mile Relay-(D. Sanchez, L. Lozano, V. Miller, Z. Munoz), third.

Triple Jump-Z. Munoz, tied for first. Long Jump-Z. Munoz, first. Discus-V. Miller, third; E. Tijerina, fourth. Shot-O. DeHoyos, fifth; E. Tijerina, sixth.

800 relay-(L. Lozano, P. Miles, R. Flores, A. Enriquez), sixth.

Other members of the team are E. Moran, C. Hall, M. Vargas, and L. Faires. Managers are Jeri Martinez, Kathy Bailey and Diana Sanchez.

The Cubettes will be in their last track meet Friday in Big Lake which is the District Meet.

Ms. Wellman married to Mr. Smith

Ms. Jan Wellman became the bride of G. Wayne Smith in an afternoon ceremony at Westover Baptist Church in Odessa, March 28.

The bride is the daughter of Mrs. Pete North and the late Mr. North, and the bridegroom is the son of Mr. and Mrs. Garland Smith of McCamey.

Attendants included the bridegroom's brother and his wife, Mr. and Mrs. Ronnie Smith, and Christopher Wellman, son of the bride.

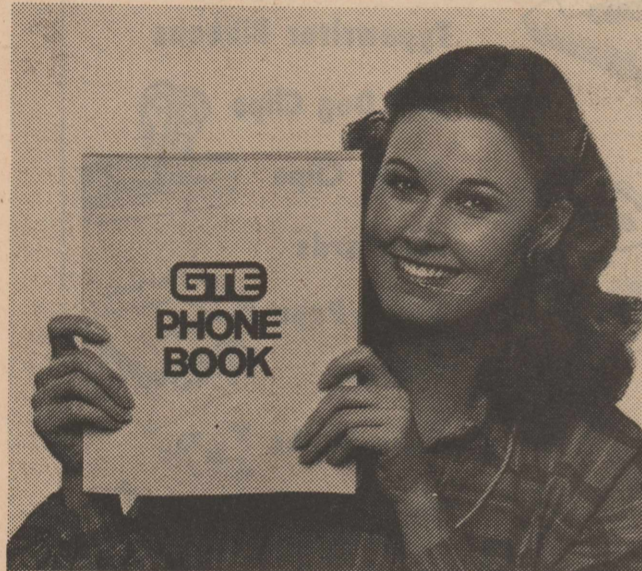

The couple is at home in McCamey.

Thanks

I wish to thank those who supported me with their vote of confidence in the School Board election.

I am looking forward to serving Crockett County.

Jeff Sutton

Search is on for tell-tale cells in leukemia

A search is on at the Southwestern Medical School here for tell-tale cells in the one-half of acute leukemia patients destined to relapse and succumb to their disease.

Dr. Graham R. Smith, an immunologist in the Department of Internal Medicine and the Department of Oncology at the University of Texas Health Science Center, believes that cells bearing enzyme markers can be used to predict imminent relapse of acute lymphatic leukemia patients. His research is supported by an American Cancer Society grant.

The presence of the enzyme TdT (for terminal deoxynucleotidyl transferase) is found in blood cells. It occurs in large amounts in leukemia patients but is also found in some normal blood cells. Tests are underway to measure exact quantities in normal and abnormal tissues. Now it has been shown that an increase in the enzyme precedes acute leukemia relapse.

Presently one-half of all acute leukemia patients are being saved by prompt treatment with combinations of chemicals. Because leukemia responds best to treatment when fewer of the abnormal cells exist, the means of predicting a resurgence of

the disease would be of great advantage, Dr. Smith believes.

Dr. Smith and his colleagues also are on the trail of a primitive type of cell in leukemic and lymphoma cancers that may be the origin of these diseases. The "suspect" is a "stem cell" which may be the key to these types of cancer if its origin can be traced. Once identified, the cell could be made the target of specific chemicals. Presently, chemotherapy kills off or checks the growth of the wildly-growing leukemia cells, but some escape and these cells may be the ones that are the progenitors of future growth.

Use of a new technique, "monoclonal antibody" production, will be used in seeking out the suspected stem cell. This method employs hybrid cells to produce clones that generate specific antibodies continuously. Scientists use antibodies for reactions that can identify a particular cell.

Grill steak, sauté mushrooms, simmer vegetables and more, all at once on Jenn-Air's new Tri-Convertible Cooktop.

Jenn-Air's new Tri-Convertible Cooktop lets you match your cooking surface to any menu. Choose either conventional electric or designer glass ceramic cooktops in combination with the famous Char-Flavor grill. Food prices up in 1980, but increase is small

Food prices continued to rise in 1980, but the increase was the smallest in 3 years and well below the inflation rate for all prices in the economy. For domestically produced foods, both the farm value and food-industry charges for processing and marketing rose less in 1980 than the year before, limiting the retail price rise. However, retail prices for fish and imported foods, particularly sugar, rose more sharply.

As in past years, about a third of consumer expenditures for domestically produced foods paid for the farm value of foods and the rest was needed to pay for the marketing bill.

Retail prices of most foods derived from crops, including fats and oils, fruits and vegetables, and bakery and cereal products, increased between 7 and 12 percent. In contrast, prices of sugar and sweets advanced nearly 23 percent.

The farm value is the payment received by farmers from the retail price of food. USDA determines this value for a fixed list, or "market basket," of foods.

For 1980, the farm value of foods in the market basket increased by 5.3 percent. This was about half the increase of 1979 and the smallest since 1977. The increase in the farm value of foods caused about one-fifth of the 8-percent rise in food-store prices of food.

The 5.3 percent rise in farm value had a moderating effect on food prices, the increase was insufficient to cover rising farm production costs. Prices that farmers paid for the various inputs used in farm production jumped by 12 percent in 1980. This disparity between the payments farmers received for food products and prices they paid for inputs contributed to a sharp drop in farm income last year.

Consumer expenditures totaled \$269 billion for foods originating on farms last year, \$24 billion, or nearly 10 percent, more than in 1979. This amount included pur-

chases of farm foods both in foodstores and at away-from-home eating places.

The increase in food expenditures was larger than that in food prices because consumers purchased a 1 to 2 percent larger volume of food. They ate out less, but bought a larger volume of food at stores for home preparation. Nonetheless, food expenditures advanced less than they had in 1978 or 1979.

Just under a third of consumer food expenditures went back to farmers, who received about \$86 billion for the foodstuffs, equivalent, up \$5-1/2 billion from 1979. The remaining \$183 billion of expenditures represented the marketing bill—the total charges received by the food industry for handling, processing, and retailing foodstuffs after they left the farm. The marketing bill was up by \$18-1/2 billion in 1980 and thus accounted for more than three-fourths of the year's increase in consumer food expenditures.

BOY TO BIENS

Mr. and Mrs. Michael Bien are the parents of a son born Thursday, April 2, at 11:52 a.m. in Angelo Community Hospital. The little boy weighed 8 pounds and one ounce and has been named Kevin Lee.

Grandparents are Mr. and Mrs. D. L. Bien of Eules, and Mr. and Mrs. Gene Perry.

Happy Easter Junior Hi hosts UIL meet

Ozona Junior High School was host for District 9-AA U.I.L. events which were held Wednesday, April 1, and Saturday, April 4. Seven area schools participated in four literary events. Schools attending included Eldorado, Big Lake, Junction, Mason, Menard and Wall.

Wall was overall winner. Only two Ozona students managed to score. David Ledbetter got a first in number sense and Peery Holmsley received a third place in the same event.

Ozona students entered in each event were as follows: Ready Writing—Ann Hoover, Rhonda Smith, and Susan Scott. Mrs. Katrina Pullen was coach.

Oral Reading—Diana Brooking, Julie Reagor, Bonnie Cameron and Ludmilla Faries. Mrs. Joyce Maness was coach.

Spelling and Plain Writing—Teresa Lee, Leisa Bell, and Dina Flores. Mrs. Bettye Hoover was coach.

Number Sense—Angela Dalby, Peery Holmsley, David Ledbetter and Dina Flores. Mrs. Peggy Bien was coach.

Angel Falls in Southern Venezuela is the highest waterfall in the world at 3,212 feet.

OHS girl tracksters place

The Ozona High School Girl's Track Team placed fourth out of 13 teams with 58 points, at the McCamey Relays, Saturday.

Results are:
Jana Lilly, fifth in hurdles, 17.58.

800-meter run—Kaye Thompson, first, 2:27.29; Katrina Burger, fifth, 2:39.0.
400-meter dash—Molly Womack, first, 62.88.
200-meter dash—Molly Womack, fifth.
1600-meter run—Kaye Thompson, first, 5:34.69.
1600-meter relay—third place with 4:27.51.

In the field events Molly Womack placed fourth in the high jump.
Lori Clayton was fifth in the long jump.

The District Track Meet will be Friday in Big Lake for the 7th and 8th grades and for the high school girls. Field events start at 11:00 a.m. and running prelims start at 12:30. Finals start at 3:30 p.m.

District UIL meet held here

The District 9-AA UIL Literary Meet was held here last week, with Eldorado High School the clear winner with 188 points. Wall High School was second with 143 1/2 points, followed by Mason with 85 points. Junction High came in fourth with 80 points, followed by Reagan County with 70 1/2 points. Menard High School scored 22 points in the meet while Ozona High School was at the bottom with an embarrassing 16 points.

Out of the sixteen literary events, Ozona High School only placed students in two events. Arnold Rios placed second in informative speaking and Jay Moreno placed third in number sense.

Ozona High School's one-act play tied with Wall for bottom in the district. Each school earned only one point. Allen Dews was responsible for the Ozona point, chosen for honorable mention in the all-star cast.

Cancer cells to be trapped

An organic chemist at the University of Texas here is using a "synthetic handyman" to build a "better chemical mousetrap" for cancer cells at less cost and more speedily than present methods of anti-cancer chemical production.

Dr. Philip L. Stotter, Associate Professor in the Division of Earth and Physical Sciences at the University, is constructing a biochemical assembly line to produce a man-made variety of "anthracycline" compounds for treating cancer. His research is supported by an American

Cancer Society grant. Two anthracycline agents are being structured. These are daunomycin and adrimycin. Both are normally products of mold cells and their production is time-consuming and expensive. They are effective in treating various types of cancer.

The two agents were originally isolated from fermentation products. One, adrimycin, was derived from a mold found on the shores of the Adriatic Sea.

Now Dr. Stotter is using a chemical "handyman" as a handle for his synthetic agents while under construc-

tion. When the molecule is completed, the "handyman" is relieved of his chores. A helper agent used to couple together segments of the compound is removed.

The complex procedure involves two processes—one linking four rings of the molecule together—and the other, converting the molecule into a three-dimensional structure.

In addition to faster and less expensive production, such a process for man-made anti-cancer chemicals can also lead to more powerful agents with less toxic effects.

When you see how hard our consultants work for you, you'll be glad there's no charge.

Being a General Telephone Communications Consultant is a full-time job. It means taking as much time as needed to survey, plan and discuss all the details of a business customer's phone installation.

But they don't stop there. They are also busy looking for ways to show customers how to use their phones more efficiently. Sometimes they can show them how to save money and maybe even how to make money.

Sound like good people to know? They'll be happy to meet you anytime and make a survey of telephone requirements. Call your local General Telephone business office and make an appointment today. And remember there's never an extra charge for their services.

We keep you talking.

Consumers often waste money, says specialist

"Consumers often waste money. They misspend it in small amounts through unwise choices," Bonnie Piernot, a family resource management specialist, challenges.

"Unfortunately, most consumers devote little time to the art of being a smart buyer, although industry spends much time and money trying to sway our buying decisions," she says.

It isn't all the consumer's fault, she admits.

"Of course, many factors complicate the buying process," she continues. "The numerous choices in the marketplace make it difficult for any consumer to consistently make logical and intelligent choices."

"Fast-talking salesmen, outright fraud and meaningless information in advertising compound an already complex situation."

"But many times, it is the consumer's impulsiveness that causes dissatisfaction and frustration in today's marketplace," she says.

So what's her suggestion? "Take a 'rule' shopping with you," she advises consumers.

Remembering--and using one basic "rule" can help eliminate many of the costly impulse purchases. Mrs. Piernot assures buyers.

That, in turn, eliminates or reduces many financial problems or complications for today's families, she says.

The "rule" is the "Delayed Action Rule."

It works this way:

After a salesman has made the sales pitch, say, "Thank you--I will let you know in a day or so what my decision is."

You can use this technique in stores, with door-to-door salesmen and at home-sales parties.

Using the "Delayed Action Rule" will allow you time to think and discuss the purchase without the pressure of the sales person--or the merchandise itself.

It will also give you time to answer important questions before deciding.

These are the questions to ask--and answer--in deciding whether to buy or not to buy:

Do I really need it?

Unexpected sales, "blue-light specials" and unadvertised specials are ways to catch your attention and get you to buy impulsively.

Have I checked or researched the item: What do other models offer me? Be sure to study the results of independent research tests--as reported in magazines such as "Consumer Reports" and "Consumer's Research."

Is the price reasonable? Is this the best time of the year to buy the item? Comparison shopping and seasonal sales calendars will assist you in answering these questions.

If the item is on "sale," is the price a true sales price? Can I substitute something else for this?

A product you already own may do the same task or provide the same enjoyment as the new product. A used product also may be acceptable depending on how much you expect to use it.

Does this product have any disadvantages? If so, do they offset the advantages, or do they create a need for other products or services?

What is the retailer's reputation? What services will he provide?

Finally, what am I willing to give up if I buy this product?

Public Notice

CITATION BY PUBLICATION THE STATE OF TEXAS TO: ALFONZA ZAMORA GREETING:

You are commanded to appear by filing a written answer to the plaintiff's petition at or before 10 o'clock A.M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 23rd day of April, A.D., 1981, at or before 10 o'clock A.M., before the Honorable 112th District Court of Crockett County, at the Court House in Ozona, Texas.

Said plaintiff's petition was filed on the 6th day of March, 1981.

The file number of said suit being No. 4299.

The names of the parties in said suit are:

In the Matter of the marriage of **MARTHA ANGELEEN FLORES ZAMORA** as Petitioner, and **ALFONZA ZAMORA** as Respondent.

The nature of said suit being substantially as follows, to wit: **DIVORCE**

If this Citation is not served within 90 days after the date of its issuance, it shall be returned unserved.

Issued this 12th day of March A.D., 1981.

Given under my hand and seal of said Court, at office in Ozona, Texas, this the 12th day of March A.D., 1981.

David H. Weant, Clerk
112th District Court Crockett County, Texas

Crockett County Care Center News

By Mary Wilton-Director of Activities & Social Care

In case you have not noticed, the humming birds are back, and we have placed feeders near the patio for them. The residents enjoy sitting out in the sunshine and watching these little birds. Joan Nicholas brought us five pounds of sugar and some red food color to go in the feeders, thanks Joan. We also feed the wild birds in the back yard. There is a beautiful red bird we have been watching along with a number of other kinds.

We have started decorating for Easter and planning a party for sometime the week before. The lobby has a very big pink bunny with brightly decorated eggs around him. Of course the eggs are plastic but hopefully we will have some candy ones before Easter.

Tuesday bingo was played in the dining room, thanks to Orphella Enriquez and Alice Ross for helping out.

As I was trying to decide what to do in Bible Study, Rev. Rex Ponder called and volunteered to come and help out. Thanks Rex, everyone really did enjoy the class. By the way, if any of the ministers or Bible teachers of any of the churches would like to come and have Bible Study with us you are more than welcome to do so. Just call and let us know when you can come. We have Bible on Wednesday mornings at 10:00. After we completed our study, we had a fifteen minute exercise class and many of us found that we had muscles that had not been used for awhile. Hopefully we will start a regular class on Monday mornings so we can keep in a little better shape.

Thursday night, the Charlie Beard Band came from Big Lake to entertain us with music and song. As I looked around the lobby, I noticed Mary Seelye and Jessie Deaton tapping their toes and Grace Cotter clapping with the music. Smiles across the faces of Paul Cavin, Louise McWilliams, Nila Turnell, Bertha Miller, Maude Pettit and Gertrude Daniels made it very clear that they too were enjoying themselves. Frances Borrego, Bernard Aguirre and Floy Clare Shor all seemed to have a good time also, as do all of us when Charlie comes.

Friday morning the smell of popcorn filled the air and we all knew that Liz Mary Pipes, Annabell Patrick, Alice Ross, Dorothy Doll and Doris Karr were here ready

Pecan grafting workshop

A pecan grafting workshop will be held on Friday, April 10, at 2:00 p.m. at 304 Avenue E. Dr. Austin Stockton, area horticulturist with the Extension Service from Fort Stockton will instruct.

The public is invited to come and participate. Each individual will have an opportunity to make a graft. Limited graft wood will also be available for individuals to take and put on their own tree.

For further information call Billy Reagor, County Extension Agent at 392-2721.

VICAs get third at state

Robert Tambunga, Frank Galvan, and Johnny Rodriguez, members of the Vocational Industrial Clubs of America Chapter No. 1949 of Ozona High School, were awarded third place ribbons at the State Vica meeting at Dallas, held April 2, 3, and 4.

These students were first place winners at the district meeting, held in Big Spring, prior to the state meet, qualifying them for state.

The students competed in two fields of competition which included exhibit competition and technical competition in which the students had to take a technical test. Students in this event were Joe Vasquez, and Johnny Rodriguez.

Approximately 3500 Vica students from all over the state competed in this annual event.

The advisor for Ozona High School's Vica group is Pete Maldonado.

I BET YOU DIDN'T KNOW
By Jerry Lay
Here's one of the most incredible baseball records of all-time. There was once a player in the big leagues who never batted lower than .368 for 11 straight seasons! **Ty Cobb** hit .368 or better every year from 1909 through 1919!

What was the lowest batting average ever made by a regular player in major league baseball over a whole season? The record was set by Detroit shortstop **Ray Oyler** in 1968. Oyler played 111 games that year and batted just .135. But Oyler was a great fielder, and despite his all-time low batting average, the Tigers won the pennant with Oyler as their regular shortstop that year.

Here's an interesting sports question. Can you name the only college in America that plays major college football but doesn't play basketball? Answer is the University of Miami of Florida. They gave up basketball in 1971 because they had no adequate field-house. Every other school in the nation that plays major-college football also fields a basketball team.

I bet you didn't know... **L-B Motor Co.** has a wide selection of cars, pickups, and used cars. Come by and see our Oldsmobiles, Pontiacs, Chevrolets, Cadillacs, and Buicks.
