OUR COURTS ARE COURTS OF JUSTICE

After a long and pains-taking trial, six of the eight saboteurs who landed on our shores several weeks ago as emissaries of Germany to blow up and destroy as many of our defense industries as possible were electrocuted in Washington, D. C., Saturday. The other two were sentenced to prison, escaping the death penalty only because they gave information to U. S. officials which helped them to prove the guilt of the accused men.

There has been much murmuring and dissatisfaction among the citizenship of this country because the court, which in this instance was a military court consumed so much time in the trial. Good citizens generally felt that swifter justice should have been meted out.

But the fact that our constitution and laws guarantee a fair trial to every person accused of crime and give such person every reasonable facility for producing evidence in his own defense is the glory of this country. It is one of the characteristics of our system that distinguishes our government from that of Nazi Germany. Here, every man is presumed to be innocent until he is proven guilty, and even criminals are protected in their rights. Hence the courts must grind slowly. While the court did grind very slowly in this particular instance, that very fact gives assurance that the ver-

dict was just and righteous. And the people generally believe that it was not only just and righteous but nothing less would have been adequate.

By the way, we are wondering if the death penalty met with the approval of the Junior Senator from Texas.

As governor of this state he besieged and implored the legislature to abolish the death penalty as punishment for crime. He said he didn't believe in capital punishment.

If it is wrong for the State to inflict the death penalty, it is likewise wrong for the Federal Government to inflict it.

When Senator O'Daniel goes back to Washington will he introduce a bill to abolish capital punishment and to let future saboteurs and enemy spies get off with a prison sentence?

If he is consistent, he will.

The war picture in Europe gets gloomier every day. The Russians have been making a heroic defense, but the German war machine continues to roll onward. Slowly but surely it has advanced to its major objective, the oil fields of the Caucasus. The invaders have advanced at terrific cost, but they have inflicted terrific losses. They have been better prepared than were the Russians in the first place, and they have gathered additional force with every country they have conquered in the second place. As they conquered a country they disarmed it, enslaved its labor, appropriated its resources, and thus gained in strength as they went. They are now almost in position to rob Russia of her oil and the wheat from her rich grain lands, enslave the Russians in the conquered territory, and put both the land and the people to work for Germany, just as they did in Czechoslovakia, in Poland, in the Netherlands, and in France, thus enabling Hitler to send German workers from the fields and the factories to the fighting front. He is a ruthless master. The only bright spot on the European horizon is the possibility of an attempted invasion of Germany by Great Britain and the United States at a very early date. While such an invasion would appear to be a tremendous task and a perilous adventure, yet if and when Roosevelt and Churchill switch on the green lights and give the American and British soldiers the signal to go forward we shall believe that they then have good reason to believe that victory will be not only possible but probable.

They are proposing now to make big bomber airplanes that can start from a base on our seaboard, fly across the ocean, and drop tons and tons of explosives on an enemy country. They are talking of building great armies of such planes. If

we can do it, Germany can do the same thing—in fact, she has already done so. And, if this war lasts two or three years longer, and if it is to be won with airplanes, as many experts now believe, who can doubt but that scores of our cities will be riddled with bombs before this war is over? And yet, just a year or two ago, the isolationists were scoffing at the idea that any foreign country could cross the ocean and invade America. We were perfectly safe between our two oceans, they argued. Short-sighted statesmen in Washington have been responsible for our failure to make preparation to defend ourselves against outlaw nations.

As Governor, 1935-38, inclusive. Social security constitutional amendments—including old age assistance—submitted and adopted during his administration. Made speeches for adoption in summer of 1935. After people had voted the amendments, called special session of the legislature to put them into effect. Signed first old age pension bill in Texas history November 19, 1935. Odds and Ends . . .

Not long ago, we heard one citizen heatedly ask "What has Allred ever done for Texas any way?"

"Nothing," another answered, and both seemed to get great satisfaction out of the conviction that they had made a great point.

Well, the official records of this state show what Jimmy Allred has done for Texas, and as a matter of justice to one of her native sons, who has been much maligned by some of the admirers of the Ohio-Kansas gentleman who came to Texas as several years ago, but never did think enough of the state even to pay a poll tax until he suddenly decided to turn statesman—in justice to our native son we have decided to let the record speak this week through this column.

So, here is a part of the record of the things Jimmy Allred has accomplished for Texas with the help of, and in co-operation with, the legislature and other officials of this state.

As Attorney General, 1931-34, inclusive—
Collected and saved for Texas people \$7,338,088.03.

Defended oil proration laws and secured victory in test case.

Vigorously prosecuted anti-trust suits against 15 major oil companies. This was the first action in 20 years by an attorney general to protect the people from an oil monopoly.

Gave relief to hundreds of legitimate concerns suffering from unfair trade practices and combinations.

Resisted efforts of the Interstate Commerce Commission to assume control of intra-state commerce.

Successfully fought federal income tax officials in their effort to tax school income.

Vigorously denied the power of the Federal Trade Commission to authorize violations of anti-trust laws.

Re-wrote the gasoline tax law, putting "teeth" into it.

Put out of business fraudulent insurance companies.

Challenged Supreme Court interpretation of fee laws, saving Texas \$800,000 annually.

Returned \$2,000,000 in guaranty trust fund to over 1,100 banks and thousands of individual depositors within 10 months after taking office. The money had been tied up by legal technicalities since 1928 when the guaranty fund law was repealed.

Collected for the state school fund \$1,600,000—eight times as much as any other Attorney General.

Established school funds title to oil royalty in Yates Field, valued at more than \$20,000,000.

As Governor, 1935-38, inclusive. Social security constitutional amendments—including old age assistance—submitted and adopted during his administration. Made speeches for adoption in summer of 1935. After people had voted the amendments, called special session of the legislature to put them into effect. Signed first old age pension bill in Texas history November 19, 1935. Called three special sessions of the legislature in efforts to raise sufficient funds. Up until last September every dollar of pension money came from money raised during his administration. Today more than half of every dollar comes from revenues raised at his insistence. In his final message to the Legislature on Jan-

uary 10, 1939, he called attention to the fact that the old folks were drawing an average of \$13.80 per month. He said then: "This is not enough," and told the Legislature that it was their duty and that of his successor to raise additional funds to pay pensions and suggested ways and means that were finally adopted for raising the additional money.

Instituted a pardon and parole system that became a model for other states.

Instituted prison reforms.

Instituted unemployment insurance department.

Revived Industrial Labor Commission to arbitrate labor difficulties.

While he was Governor, sit down strikes were sweeping the nation. He said there would be none in Texas, and there were none.

Instituted Teachers Retirement Fund, Aid to Dependent Children and Needy Blind (all part of the social security program).

Gave rural schools increased aid and all schools the largest per capita apportionment in Texas history.

Advanced building program for institutions of higher learning and feiler salaries for instructors, at the same time reducing the ad valorem tax 28 cents per hundred dollars.

Instituted vocational training.

Established a Negro tuberculosis hospital.

Aided insane and eleemosynary institutions by affording them new buildings and equipment.

Placed the public health program in a better position to battle disease and death.

Established the State Department of Public Safety, combining the Ranger force and Highway Patrol, and modeled after the Federal Bureau of Investigation. This department became the model for many other states.

Passed the drivers' license law.

Blocked a state sales tax.

Instituted graduated chain store tax, yielding millions in revenue.

Advanced program of natural resources tax.

Instituted a planned program of conservation in oil and gas industries.

Established flood control districts; co-operated in soil erosion prevention.

Increased funds of the Livestock Sanitary Commission to aid farmers and cattle raisers in tick eradication.

Organized State Planning Board.

Passed the state securities act.

Recognized enfranchisement of women by appointing the first woman district judge—Sarah Hughes—in the state at Dallas.

Passed 50-50 bill permitting election of women to the State Democratic Committee.

Sponsored and aided in presentation of a series of Centennial celebrations throughout the State, attracting thousands of new citizens and new industries to Texas.

Successfully fought federal con-

rol of the oil industry. Established the Interstate Oil Compact. Promoted more cordial Pan-American relations.

As U. S. Judge of the Southern District of Texas, 1939-42:
Committed for his record on the bench by President Franklin D. Roosevelt, who in accepting his resignation wrote:

"I want you to know that the trust imposed in you by your appointment as Federal Judge has been fully honored. You have made a fine record on the Bench and can leave it with

that comfortable feeling of a job well done."
Allred resigned a lifetime appointment as federal judge in May to run for the U. S. Senate, declaring: "I do not believe in holding one office and running for another."

County Attorney and Mrs. Calloway Huffaker and children returned Monday from Cowles up in the mountains of New Mexico near Las Vegas, where they spent a few days vacationing. Calloway says that the wild mountain scenery capped with snow presents a picture of cold beauty.

BAPTIST CHURCH

The Services Sunday morning will all lead to the special service in the preaching service. The songs, the announcements, and the sermon will all be based on the fact that in this time of stress, this time when so many of our members are moving to defense centers, this time when we are having to do the work we have been doing, and the work of some of our helpers, we are faced with the problem of too few workers, too few to carry the load. All of us enjoy the privileges of the church in our community, and because of that need, you who enjoy those opportunities will want to help. The VOLUNTEER service is planned to give us all courage, vim, vigor, and vitality to carry the torch of Christianity farther. Won't you come help make this service a great service for the Lord? We will be looking for you, and will be praying that God will impress you to do your utmost for Him this next year. Our Church year will close with the last Sunday of this month. Help us have a record number in Sunday School and

in the preaching hour Sunday.

We are planning much and the people are anxious for the Revival services to start. Brother A. C. Hardin of Post, Texas, will bring the messages. We will have a large choir each evening, and we are planning for the largest attendance ever had. Make your plans now to come to the services, and to give your utmost to the winning of the lost to Christ. The Song service will begin each evening with a song which has been written as a prayer for the soldier boys in our armed forces. You will enjoy this song written by Tommie Godfrey, Seminary Hill, Texas. Plan to sing in the choir each night and help with your praises to God. Melvin Rathel will lead the singing, and there will be special numbers every night. Mrs. Melvin Rathel will play one piano and we will have someone else play another piano for the night services also.

Felix Macha, son of Mr. and Mrs. H. A. Macha of the Dixie community, was promoted to the rank of corporal at the Lubbock air base this

week. Felix has been a student in the Tahoka high school.

Knight Drowns ...

(Continued from page one)
led a clean life and intended to come back home when released from the Navy just as clean morally as when he entered it.

On Tuesday afternoon, in company with J. L. Waggoner Jr., L. C. Holt, and Reagan Reece, he went out to the tank at Guthrie Lake for a swim. The boys had been in the water only a few minutes when one of them heard a gurgling sound and upon looking around discovered that Knight was sinking. He made his way to Knight, got hold of him, and tried to rescue him, but lost his hold and Knight went down. The other boys were unable to locate him and they called to two other boys out on the bank, who were preparing to come to town, to hurry and get help. These boys, Dewey and Sonny Cain, rushed to town and gave the alarm. Numbers of citizens hurried to the scene. Several divers found the body but were unable to bring it to the surface. Wayne Chandler finally succeeded, but more than an hour had elapsed since the body had gone down. At 7:10 p. m., soon after the body was recovered, Dr. E. Prohl pronounced the youth dead.

When it is remembered that the water was eight or ten feet deep and that Raymond weighed more than 200 pounds, the difficulty of rescuing the dead body can be easily understood.

The physician suggested the probability that the young man had suffered from cramping, which caused him to become helpless in the water. This probability seems to be heightened by the fact that shortly before going out to the lake Raymond had eaten quite a quantity of candy and had drunk two glasses of root beer, an ordinarily harmless cold drink.

Raymond had been a student in the Tahoka high school and was an outstanding athlete and football player. He had been in the Navy about eight months.

HONOR MOTHER WITH REUNION

Mrs. Lee Poer was the honoree when her children and friends celebrated her birthday last Sunday with a picnic in MacKenzie State Park in Lubbock.

Mrs. Lois Williams and daughter of Capps, Mr. and Mrs. Rayford Smith, and Mrs. Delphine Simmons, all of San Antonio, Mr. and Mrs. Frank Rutherford and three sons of Whitharrall were members of the immediate family present, the above named ladies being daughters of Mrs. Poer. Mrs. Poer's son, R. B. Poer, who was an electrician at San Antonio before entering the service at Wichita Falls some two weeks ago, could not be present.

Among those attending this birthday dinner were Mr. and Mrs. R. C. Wood, Mr. and Mrs. Roy Poer and family and Miss Dorothy Conway, Mr. and Mrs. Robert Poer and Mr. and Mrs. May, Mr. and Mrs. Bernice Early and Grandfather, J. B. Hall of Tahoka and vicinity. All reported a most enjoyable occasion.

BURLESON-MILAM COUNTY REUNION NEXT SUNDAY
Announcement has been made that the Burleson-Milam County reunion will be held as usual just south of the swimming pool in MacKenzie State Park at Lubbock next Sunday, August 16.

All persons who ever resided in either of these counties are invited to come and bring well-filled baskets and enjoy the day.

Fritz Speckman of Lakeview is president; Mrs. J. L. Holt of Lubbock and Mrs. E. I. Hill of Tahoka constitute the publicity committee.

Mrs. O. B. Davis Jr., is visiting her parents, Mr. and Mrs. A. J. Mullins, at Corpus Christi.

O'Daniel ...

(Continued from page one)
name any corporation that had been so offended, but of course that wasn't necessary for his purposes.

The newspapers are against him in this campaign because they have been bought, he charged. He did not produce nor attempt to produce one iota of evidence to support the charge, but that was unnecessary, too. If O'Daniel said it, that was enough.

While the Senator was out on his campaign truck making his charges and insinuations against the newspapers, one of his press agents was sitting over in the office of the Lynn County News using its facilities, to which he was just as welcome as the flowers in May, to advance the candidacy of his chief.

By the way, in the turmoil of the campaign, the Senator seems to have suffered a strange mental lapse of some kind since his appearance in Tahoka during "the first half of the campaign." When here on that occasion he was greeted by a much larger crowd than that which was present Wednesday, and at that time he literally fell all over himself telling the people of Tahoka how glad he was to be back in the old town and to see their smiling faces again, and a lot of other similar gush.

So Wednesday, the people were greatly astonished when he began to explain to them that he was trying to visit places in this run-off campaign that he did not have the opportunity to visit in the first half of the campaign, and that as he didn't get to visit Tahoka then he had come now to pay them a kind of "Appreciation visit" and to thank them for their support, etc. It was a strange lapse of memory that must have brought a deep feeling of disappointment and depression to some of his local followers.

Anyway, Mike and Pat and Texas Rose gave us some dandy good music.

MEETING AT GRASSLAND WILL CLOSE SUNDAY

The series of gospel services which began at the Church of Christ at Grassland on last Friday night are bringing gratifying results, according to Clayton Johnson, one of the members, and Minister Weiden Bennett of Bellingham, Washington, who is doing the preaching. There were three additions during the first four days of the meetings, they reported.

The crowds have been gratifyingly large during the day services and have been very good at night, the minister stated.

The meeting will close Sunday night.

Paul Howell, who is now employed in checking out C. C. C. camps in New Mexico and adjoining areas, spent Saturday night here with his family.

Mrs. W. D. Baker is spending this week with her husband at Perryton, where he is employed in the harvesting of the wheat crop.
