## Farmers Interested In Labor Situation, Met Here Saturday

Seventy-eight farmers, members of the Lynn county Victory Council and AAA county committeemen, met with County Agricultural Agent R. L. Stobe in the county court room Saturday for the purpose of lending their assistance toward solving the farm labor situation and other matters pertinent to the agricultural interest of this county. The farm labor program for the current year on a state-wide basis has been placed under the direction of the Extension Service.

In case of harvesting small grains and grain sorghum, custom-combining machinery will be moved from county to county as related to reasonable demands. Therefore, it is necessary that considerable information be had in the County Agent's office as to the proposed acreage of each farmer in Lynn county. The Victory Council members and AAA county committeemen who were present are securing this data from farmers in their communities this week, May 8 to 13. If you have not been contacted, it will be appreciated if you would see the county agent early this coming week and give him the information desired.

## Demo Convention Is Tame Affair

There were no "fireworks" whatever at the Lynn County Democratic convention held Tuesday in the county court room.

An uninstructed delegation was named to the State convention in Austin on May 23. They are: J. W. Elliott, B. M. Haymes, John Heck, A. L. Dunagan, and W. E. Suddarth, the alternates being B. P. Maddox, Mrs. Lenore M. Tunnell, Charles Doak, Rollin McCord, and J. R. Strain. The names were presented by a committee on delegation composed of R. C. Wood, W. E. Suddarth, and Boswell Edwards.

Though no action was taken on the "instructed or uninstructed question" of a fourth term for the President, it was conceded that a majority of the delegates will favor the present administration. However, at least three or four groups of delegates had come to the county convention with the intention of fighting an "instructed" delegation. Only resolution offered was the single statement from the committee composed of Truett Smith, H.D. White, and A. L. Dunagan: "Be it resolved by the Democratic Convention of Lynn county, Texas, that the Democratic Party has always advocated freedom of speech, freedom of religion and freedom of the press, and we again pledge our allegiance to such principles and to the principles of democracy, and to constitutional government."

County Chairman C. H. Cain was named convention chairman, and Frank Hill was elected secretary. Delegates were seated on recommendation of the credentials committee composed of W. S. Anglin, Grayson George, and N. W. Alphin.

## Property Should Be Rendered Now

Due to the tire and gasoline shortage, property owners of the Tahoka School district are requested to come to the school office on the first floor of the court house for the purpose of rendering your property.

I will be in the office all day on Wednesdays and Saturdays, and part of the time on other days of the week. Won't you please cooperate with us in this matter?

Many property owners have been assessed, but I have failed to find some at home, and the national emergency will not permit my making several trips to see you.

J. S. Weatherford, tax assessor and collector, Tahoka Independent School District. Itc.

## Tahoka's Negro Voters Organize

Charles Deo, colored, a former citizen of Tahoka, now a prominent citizen of Carver Heights in Lubbock, addressed a good-sized crowd of Tahoka Negroes in the Baptist Church (colored) over in northeast Tahoka Tuesday night in the interest of the Association for the Advancement of Colored People and to organize a Colored Voters League here.

Following the address, Rev. O. D. Hollins, pastor of the Church, was called to the chair, and he presided while the organization was perfected.

Rev. F. N. Nelson, district missionary, was elected president; Dave Washington, vice-president; Para Lee Sayles, secretary; Ophis Hollins, assistant secretary; and Will Ervin, treasurer. These officials together with James Williams and Ivan Mitchell will constitute the executive committee.

Fifteen persons went into the organization. The admission fee is \$1.00, and therefore \$15.00 was placed in the treasury; \$2.50 were raised for the visiting speaker.

Space forbids that we give a resume of the speech; it is sufficient to say that while it was in no sense a rabid one, yet it would have been very interesting to white people by reason of its implications.

## Boyce House Is Rotary Speaker

Boyce House, humorist, radio entertainer, newspaper columnist, author, and once a candidate for lieutenant governor, was the guest speaker at the Rotary luncheon here Wednesday, the time of the Rotary meeting having been moved back one day to fit in with the speaker's itinerary, who had a number of appointments in this section of the state.

House has made a specialty of collecting jokes and humorous stories about Texas, mostly of the pioneer days of the state, and on Wednesday he drew liberally from his fund of stories, some of them new and some old but all of them humorous when House tells them. He kept his audience laughing most of the time, roaring a part of the time.

House started out as a printer while yet a kid and just naturally

## Dr. G. W. Williams Injured In Wreck

Due to some mishap, the car of Dr. G. W. Williams, veterinarian, turned over out on the highway east of Tahoka Friday night, rolling over two or three times before coming to a stop. When it did stop, the Doctor was pinned under it, and remained so for some time before help came to release him.

He was brought to his home and at first it was not thought that he was badly hurt. But, while no bones were broken, he was terribly bruised, and on Wednesday morning he was removed to the Tahoka Clinic, where he is being treated.

The outstanding bonds bore interest at the rate of five percent while the new bonds which the court will issue in lieu thereof will bear only 2½ percent. They will be in the same amounts and fall due at the same time as the old bonds, the only difference being in the rate of interest, which was cut in half.

The Eastern Star School of Instruction held in Lubbock Tuesday in which Tahoka Chapter was one of the hostess chapters was pronounced one of the best held in the state this year by the Grand Officers attending. She is believed to have gotten the poisoning either from cookies or a bottled drink in a Lubbock establishment. A few hours later she was stricken while attending a show in Tahoka.

She is the daughter of Mr. and Mrs. D. H. Willburn of Wilson and for some time she was employed in the office of the Production Credit Association here. Then for several months she served in the WAAC. Many friends are hoping for her speedy recovery.

## 48 Seniors Will Get Diplomas, Three In Armed Forces

Commencement exercises will be held in the Tahoka High School auditorium tonight, beginning at 8:30 o'clock, and diplomas will be awarded to 48 graduates, 23 boys and 25 girls.

Among the group will be three youths who are in the armed forces of the United States, Kenneth Carter, now in the Navy, and Maurice Smith, now in the Army, were each members of the Seniors class this year until called into service by the Selective Service board at end of the first semester this year. Both were granted furloughs to come home for the graduating exercises.

One young man, Doyle Manor, lacked just a few weeks of graduating with the class of 1934. He has received much educational training since he has been in the Army, far more than enough to entitle him to a diploma. So when he presented his case to the school authorities here recently, they readily agreed to grant him a diploma along with the members of the 1944 Senior class. He is in the Army Air Corps.

## \$725 Fund Set Up For 4-H Club Work

Recently it was discovered that the Clawson-Holcomb Gin of O'Donnell was overlooked in the initial stages in establishing the Gin Sponsored Program of Livestock Awards to be given to Lynn County 4-H Club Boys having the most outstanding Victory Garden demonstration this summer. As soon as the oversight was known, Clawson-Holcomb Gin was invited to participate in the program and accepted.

With the entrance of this gin into the program, twenty-nine gins have contributed a total of \$725.00, which is now on deposit in the Lynn County 4-H Club Fund, all contributions having been sent in.

4-H Club boys in each community have an excellent opportunity to win a registered weaning age gilt and community winners of these gilts will then compete for a precinct prize which will be a beef animal and precinct winners will compete for a county grand champion prize which will be a registered dairy heifer. One or more gilts will be awarded to a boy or boys in every 4-H club in the county; the referee, every boy should be encouraged to participate in this program as he has an excellent opportunity to win. Parents it is hoped, will assist and encourage their boys in entering this program.

## Littlepage Erects New Tile Building

In spite of war and scarcity of building material, Tahoka continues to grow steadily.

A new structure now being built is a tile building 30 by 60 feet in size, being constructed by R. L. Littlepage on a lot across the street immediately west of Shaffer Laundry, to be used as a garage and electrical work shop. It will be occupied by Otto Everson.

This building has a concrete floor and a composition roof. The walls outside are to be plastered and dashed a spotless white. Nearly all the lumber in the structure is second-hand.

Mr. Littlepage has built several small residences in Tahoka during the past few years.

Mrs. Roy Goodman and little daughter Jeanette of Hillsboro left Saturday for her home after a three weeks visit with her aunt, Mrs. Tom Tyler, of Draw.

**Capt. Truett Cooper Writes of War In Admiralty Islands**

Mr. and Mrs. E. J. Cooper a few days ago received the following letter dated April 14 from their son, Capt. George Truett Cooper, which will be of interest to his many friends.

The letter follows:

Dear Mother and Dad: As I suppose, you know by now I am in the Admiralty Islands. The landing here wasn't one of those that one enjoys making every day. The campaign was not extremely difficult, but at times one sorta held his breath for a few seconds and wondered where he would be when he breathed again. The boys all did a swell job and showed that they had received the proper training.

The islands here are beautiful—just like the ones you read about and see movies of. The marvelous coral formations and the multi-colored fish swimming in crystal-clear water is a sight to be seen. My tent is on the beach facing the open sea; it is mighty nice to step out of your tent into the sea and get a momentary relief from the sweltering heat. The sun and salt water are also a prevention of the many skin diseases so prevalent

here in the tropics. Our camp is in the midst of a coconut plantation, and we get the coconut and shred it for cakes, pies, etc. There are a few orange and lime trees here also.

Yes, I suppose this would be a swell place to drop by in peace time on a tour of the South Sea Islands. Right now it is getting mighty lonesome here. There are a few natives about—they are a long way from the ones you see in the movies.

The mail is all coming in now, some of it a little old, but I enjoy it. I'm getting the Lynn County News now, also. Some of the copies are from November, but I like them, it is news to me.

I got the fruit cake sent by Opal in November yesterday. They say the cakes are better when they age but I believe there is a limit to it because this one was beyond repair.

I get the Texas Aggie, a paper for the ex-students of Texas A. & M. and get all the news from my former classmates, most of whom are on battle-fronts the world over. A lot of them have been killed, wounded, or captured, but the majority are still giving the enemy h—!

Lt. James, one of my battery officers from Lubbock received the Silver Star medal for gallantry in action during the campaign here. He did a marvelous job.

Your son, Truett.

**HERMAN REID MARRIES GIRL IN ALABAMA**

Herman E. Reid of Gunter Field, Alabama, and Miss Helen Powell of Montgomery, Ala., were married at the First Baptist Church in that city on Sunday May 30, according to his parents, Mr. and Mrs. Tom Reid of this city.

Herman is a 1939 graduate of the Tahoka High School. He spent one year in Frye Aircraft School, Dallas, entered the Army Air Forces and was sent to Spartan Mechanics School, Tulsa, Okla., for specialized training for nine months, following which he went to Montgomery as an instructor. He now is awaiting aviation cadet training. He is well known over Lynn county.

The bride is not known here, but he has been acquainted with her for quite some time before their marriage.

Mrs. Deen Nowlin and little son Thomas Deen returned Sunday from Dallas, where they had spent the past five weeks at the bedside of her husband. He had hoped to be released from the hospital on Saturday but swelling of the feet prevented. Mrs. Nowlin reported that he would be there probably two or three weeks longer.

REV. J. C. WARRICK

**Former Grassland Boy Making Success In Nazarene Church**

A clipping taken from a Henryetta, Oklahoma, daily newspaper shows that one of Grassland's sons, Rev. J. C. Warrick, is making something of a record as a minister in that city.

"Members of the First Church of the Nazarene," says the Henryetta newspaper, "were unanimous in a vote last night to recall their pastor, the Rev. J. C. Warrick, for another year's service with the church, giving him one of the largest votes ever accorded a minister of the local church." And then it proceeded to pay him a glowing tribute.

Rev. Warrick has been at Henryetta as pastor since August, 1943. Under the action just taken by the Church, he will serve until October, 1945. He had requested the church not to consider him for more than a one year call.

Rev. Warrick was reared at Grassland in this county, being the son of Mr. and Mrs. J. W. Warrick, highly respected citizens of that community. In 1935 he graduated from the Grassland high school, attended the Post high school one year, and then entered Bethany Peniel College situated just outside Oklahoma City. In three years he graduated at that institution, doing much evangelistic work while a student.

After graduation he entered the field of evangelism and has conducted revival meetings in most of the states of the South. Recently he conducted a very successful meeting down in the Rio Grande Valley. He and wife and two children also recently visited his parents and relatives and friends at Grassland.

Mr. and Mrs. H. W. Smith, Mr. and Mrs. Walter Smith, Mr. and Mrs. Lit Moore, all of the New Home vicinity, returned Monday from Winters, where they had gone on Friday to visit relatives. They report that that area had been soaked with rain.

Donald K. Ware, 18, son of Mr. and Mrs. A. E. Ware, is receiving his Navy "boot" training at the Great Lakes, Ill., Naval Training Center. The News is informed in a dispatch from the Public Relations Office there.

O. B. Davis, who lives near the highway ten miles north of Tahoka, has been in a Lubbock hospital two weeks seriously sick.

R. R. Adms is also among those who have gotten the New Mexico fever recently. He is just closing a deal this week for a tract of 1,600 acres of land out near House in that state, about 50 miles northwest of Clovis. However, he has no intention of leaving Tahoka.

Richard Young, S. 1/c in the U.S. Coast Guard, left Tuesday after a visit here since Friday with his wife who works in Lubbock and his wife's parents, Mr. and Mrs. N. M. Wyatt. He has been stationed at Groton, Connecticut, but is reporting for duty in South Carolina. He expects to go to sea soon.

**The Railroad LAND GRANT**

\* To speed the settling of the West, our nation wanted railroads pushed across great unsettled areas to develop rich but distant regions and to bind the country together for military and other reasons.

In the 1850's and 1860's, to encourage railroads to push their tracks into the undeveloped territory, Congress granted the odd sections on each side of the track to the railroads, with certain "strings" attached, and these grants varied in depth up to several miles.

The even sections retained by the government were for the most part sold to settlers at a substantial increase in price.

The Land Grant policy was very helpful in getting the railroads started in those early days. BUT...

**Isn't it out of date today?**

In return for their Land Grants, the railroads originally were required, and are still required to do so in respect of military and naval property and personnel, to haul government passengers, freight, and mail at rates far below those applicable to ordinary traffic.

Since the Land Grants were made, railroads have paid out in reduced rates on government traffic many times the amount they have received from these Land Grants.

In the case of the Santa Fe, here are the figures: In more than 60 years which have elapsed since the

Land Grants were made, Santa Fe's net realization from these lands has been about \$23,000,000. In 1943 alone, the government received from Santa Fe, in the form of rate reductions, approximately \$46,000,000.

Many governmental agencies as well as private shipper groups are convinced that the time has arrived for the entire repeal of these burdensome Land Grant requirements.

### Graduation . . .

(Cont'd. from first page)  
delivering the valedictory address, and Clara Faye Nordyke will be salutatorian.

The commencement address will be delivered by Dr. Doyle D. Jackson of the Texas Technological College, and Truett Smith, president of the school board, will present the diplomas. Principal Leo Jackson certifying the list of graduates.

A trio composed of Patricia Hill, Dorothy Lee Carmack, and Mary Beth Fenton, members of the class, will sing "Come Where the Blue Bells Ring." Mrs. Marcus Edwards will be the piano accompanist.

On last Sunday evening, beginning at 8:30 o'clock, baccalaureate services were held in the auditorium, in the presence of a congregation that packed the building.

Mrs. Marcus Edwards played the prelude, and for the processional, the choir sang "Lead On O King Eternal."

The invocation was given by Gene Atkinson, minister of the Church of Christ, and Rev. H. A. Nichols, pastor of the Methodist

Church, read the Scripture selection.

After "Come Thou Almighty King," was rendered by the choir, Dr. J. M. Lewis, pastor of the First Presbyterian Church of Lubbock, delivered the baccalaureate sermon, which was a well-prepared and thought-provoking discourse.

After another hymn, Rev. A. C. Hardin of the Baptist Church pronounced the benediction, and "Onward, Christian Soldiers" was used as the recessional. Rev. Art Brown was music director and Mrs. Edwards was pianist throughout the program.

The class personnel is as follows:

gravitated into writing stuff for the papers himself. He is the man who put Old Rip into the headlines of all the daily newspapers some twenty years ago. Old Rip, you remember, was the horned frog that was taken from the cornerstone of the old Eastland courthouse, still alive and able to wiggle, after having allegedly been sealed up inside the stone for some thirty years or more.

The scientists all said it couldn't be so, that a fake had been perpetrated, but Boyce was right there Johnny on the spot when the stone was opened and his frogship came forth like one risen from the dead, and he sent the story to the papers with "proof" that it was so.

Well, Boyce didn't mention Old Rip Wednesday but he staged a good performance just the same, and everybody enjoyed it.

And "everybody" included the Rotarians, a lot of the Rotary Anns, and a number of the members of the high school faculty, together with other guests, including some from Brownfield and even some from other states. Among the latter were Mrs. Charles Gaignat and her mother, Mrs. Kane, from New York City.

Rev. J. O. Quattlebaum, pastor of the Brownfield Methodist Church, and J. O. Gillham, Brownfield banker and president of the Texas Bankers Association, were visitors and took Mr. House along with them on their return trip to that city, where he was to appear on a program for the benefit of the Brownfielders.

Before the program here got started, the Rotary Club voted to sponsor again the "I Am an American Day," which will be Sunday, May 21. A committee consisting of Truett Smith, Tom Garrard, and Rev. H. A. Nichols was appointed by President Hanes to "put it over."

#### TWO DRAW TEACHERS GO TO TERRY COUNTY

Mrs. Madge Hall and Miss Esther Prestidge, teachers in the Draw school the past session, have been elected to teach in the Union school near Brownfield. Union is a 12-teacher school.

Mrs. Hall's husband, Clarence Hall, was expected from their home near Greenville next Thursday at the close of the Draw school. Mrs. Hall will return home with her husband after they visit relatives in Tahoka a day or two.

#### MISS CHARLENE BUCY PRESENTED IN RECITAL

Following a meeting of the South Plains music teachers in Lubbock last Saturday, the various teachers each presented their senior pupils in a recital given in the First Methodist Church.

In this recital, Mrs. J. K. Applewhite presented Miss Charlene Bucy. It was not a contest but the program was interesting to music lovers.

Relatives report that Mrs. J. M. Noble, who recently returned to her home in Brownfield after spending five or six weeks in a Lubbock hospital, is now able to be up a part of each day.

### Labor Problem . . .

(Cont'd. from first page)  
Information needed at this time is as follows: Who owns combines in the county; what condition are they in; and, will they be available for in county and out of county harvesting. With this information, it will be possible for us to assist the farmers who do not have combines and have been unable to make arrangements with anyone to combine their grain this fall. We can give those farmers the names of such other farmers in the county who do not have combines and desire to do some outside harvesting.

Information also needed is the number and size of tires which will be needed by farmers this fall for use on any equipment essential to the harvesting of grain sorghums—combine, binder, trailers, truck, pickup, or any equipment absolutely essential to harvesting the farmer's grain crop. In cases which a farmer knows, he will be unable to get through the harvesting season on such rubber as he now has, he should fill out the proper forms which can be had in the county agent's office. This should be done immediately, as the compiled list from the county must be mailed to the State ODT office by May 20.

Presentation of this material to the ODT office will give the board a more nearly accurate record of the numbers and sizes of tires which will be needed by farmers in Lynn county this fall in harvesting their grain crop. This will enable that board to set up a proper quota for Lynn county. It should be understood by the farmer in filling out these forms that he is not applying for a tire, but is making his needs known. The Rationing Board will continue handling all matters pertaining to the issuing of certificates. Our program is designed to secure a quota of tires sufficiently large to meet the demands made upon the Rationing Board.

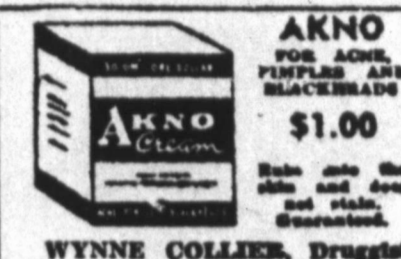

The possibility of establishing a Prisoner of War unit in the county for the purpose of utilizing war prisoners as farm laborers was discussed at the meeting. It takes considerable time to make application and to secure these prisoners. If it is the desire of a sufficient number of farmers in the county to

have these prisoners available, application for a camp site in this county will be made. If such laborers will be needed for cotton chopping, farmers should make their wishes in this matter known immediately so that all efforts necessary may be made to secure this camp and have the prisoners here by the time they are needed. This procedure will require from four to six weeks, and, therefore, it is imperative that farmers report their needs to the County Agent not later than Saturday, May 20. Farmers should understand that the prisoners will be transported to and from their farms and that they, the farmers, are not responsible for housing and feeding of these prisoners. The prisoners would be housed in a central camp in the county and transported to and from the farms on which they are to work morning and night under escort of guard.

In regard to the horse-drawn equipment list which is being compiled, any other farmers in the county who have such equipment

which they desire to sell, should advise the County Agent of what equipment they have by Saturday, May 13. This combined list of equipment available in this county will be mailed to the County Agricultural Agents in East Texas, who in turn will advise their farmers of the equipment which we have available. Those farmers in that section of the state are having the same difficulty in securing equipment as are we in West Texas. As a result, it is likely that at this time horse drawn equipment in good condition can be disposed of by Lynn county farmers at a price they may never see again.

**To Our Friends and Customers**

An adequate supply of reliable electric power is necessary to the growth and prosperity of every city and community. One of the first questions asked by industrial managers, seeking new locations, relates to the power supply. In the post-war period, the type of electric service available will become increasingly important, since the location of processing plants will depend largely upon the availability of adequate and reliable electric power.

Our facilities in Tahoka are connected to and are a part of an electric system consisting of generating plants furnishing power to a network of transmission lines. These facilities are operated as a unit and constitute a pool from which power from the combined resources of the system is available to every city and community in the territory served by this Company.

This arrangement makes ample quantities of electric power available to each city and community, and because of economies in operating costs, makes possible industrial electric rates which will attract additional businesses.

The Southwestern Public Service Company operates an integrated power system. Its power resources are available to the people of Tahoka and to all industrial users, large or small, now located here or which may be attracted here in the future through the efforts of all of us who are interested in the progress and development of Tahoka.

In 1942, the Company emerged from the administration of the Public Utility Holding Company Act with flying colors. It now does not have any holding company over it whatsoever. Its securities are widely held by thousands of people without dominating investment control centered anywhere. Its management is in position to cooperate in all matters for the betterment and development of Tahoka and the surrounding territory. Our program is to be helpful and aggressively active in the development of Tahoka in future years.

**GOVERNMENT COTTON LOANS TO BE CONTINUED**

The News has been told some farmers are under the impression that Government loans on cotton are to be discontinued, and we have been requested to assist in correcting this false impression.

There is no foundation in fact whatever for such an impression, our informant states. Government loans will be continued heretofore on 90 percent of the parity value, and cotton will in all probability continue to be chief money crop of the South Plains farmers.

Mr. and Mrs. H. O. Hargett carried Mrs. Boyce Evans to Hondo, Texas, Saturday, where her husband is stationed in Navigation School. She expects to remain until he receives his commission.

**Rev. A. C. Hardin To Hold Last Services As Pastor In Tahoka**

Having resigned as pastor of the Baptist Church to enter general evangelistic work, Rev. A. C. Hardin will hold his last services here next Sunday morning and evening. Large congregations are expected to be present at these services.

At the regular church conference on Wednesday night, resolutions were adopted praising his work here as pastor and commending him to the churches of the state as being capable and well adapted for evangelistic work.

The church here has prospered during his pastorate. The records show that there have been 52 additions by baptism and 118 by letter and statement during the 14 months he has been here. The annual budget has been raised from about \$7,000 to \$10,676. Improvements in the basement have been made costing more than \$2,000, and the pastor leaves with more than \$2,000 in the treasury. This fund is expected to be increased until it may be sufficient to construct an educational building on the church premises.

Pastor Hardin and family have been granted the use of the parsonage until such time as a new pastor may be procured. His salary is also to be paid for the full month of May.

He has not decided definitely where he will make his home following his removal from the parsonage.

**METHODIST CHURCH**  
 Sunday will be Mother's Day and we shall plan our services in songs and sermon accordingly. It would be fine for families to sit together at the service Sunday morning. This is a day that is observed by many nations and races. It is due our mothers, because of their sacrifice, labor and courage. The Madonna is one of the world's greatest pictures, perhaps.

The League and Youth Fellowship will meet at 7:30 p. m. Let's make Sunday a great day by being present and entering wholeheartedly into the spirit of worship. Some seven names have been given to the pastor for membership and they will be received into the church Sunday.—The Pastor.

**ASSEMBLY OF GOD**  
 The revival is making splendid progress at the Assembly of God Church here. Mrs. Birdie Smith, evangelist, is boldly declaring the full counsel of God without respect of persons, and we are delighted to say that many souls have been blessed, many new consecrations have been made, and the entire congregation has been stirred. Services begin each evening at 8:30 o'clock.  
 Rev. Leon C. Quillin, Pastor.

Mrs. W. G. Lyons and her daughter, Mrs. Skiles Thomas, who are here from Galveston visiting Mr. and Mrs. C. A. Thomas, spent Saturday afternoon in Lubbock visiting Rev. and Mrs. H. I. Robinson. He had been their pastor in Galveston.

**Mummy must've forgot to OIL IT**

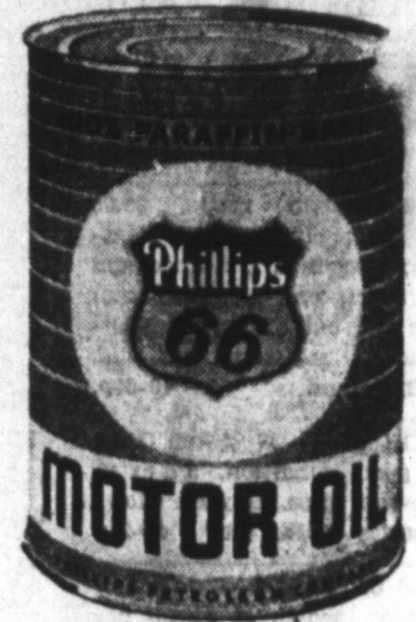

**American mechanical genius** shows itself at an early age. Youngsters are hardly out of their diapers before they know that today's world moves on a film of oil.

A few years more, and they have learned that the life of any mechanical device depends, in large part, on the quality of the lubricant. But even grown-up car owners are sometimes late in finding out a simple clue to choosing a quality motor oil.

It is contained in this plain, straightforward statement: If you want our best oil, remember we specify that Phillips 66 Motor Oil is our finest quality...the highest grade and greatest value...among all the oils we offer to average motorists.

Regular oil change has never before been so important, now that you must "Care For Your Car For Your Country." Authorities state that, with today's reduced driving, every two months is the safest change period. So get rid of winter-worn, contaminated lubricant... get quality, by asking for Phillips 66 Motor Oil.

We are glad to see an increase in interest of the members of the church in the county. The entire contribution of all five churches will go to the support of the work in Socorro, New Mexico.

Will you please turn to Eph. 5:22-23 and read. In verse 23 you learn that "Christ also is head of the church, being himself the saviour of the body." In Eph. 1:22-23 and Col. 1:18 you will also learn that Christ is head of the church which is his body. In verse 30 of Eph. 5, Paul says "we are members of his body." Therefore Paul was a member of Christ's church; a member of his body, and Christ was saviour of the body. In Eph. 4:4 we are told that there is one body, one faith, one baptism, one Spirit. One body can have just one head; one head can have just one body; therefore, there is just one church, and Christ

is head of that church. In I Cor. 12:13 we are told "For in one Spirit were we all baptized into one body" Christ teaches us to "he that believeth and is baptized shall be saved." Mk. 16:16; Peter says to "repent and be baptized for the remission of sins." Acts 2:38; and Paul tells us that we "are baptized into Christ... to rise to walk in newness of life." Rom. 6:3-4. Summing up the things we have learned we have: (1) We must believe, repent, and be baptized, (2) for remission of sins, (3) we are baptized into Christ—his body or church; (4) we rise to walk in a new life, because he is saviour of the body. Some teach that you do not have to be in the church to be saved. Compare what we have studied with what they teach and accept nothing but "thus saith the Lord."

Visit the Church of Christ nearest you; it will be different.

**WILSON METHODIST PASTOR BECOMES ARMY CHAPLAIN**

Rev. C. Stephens, who has been pastor of the Wilson Methodist Church since the last annual conference, has resigned his charge to become a chaplain in the Army. He has already gone and his successor is already on the field, Rev. Seago, who has been pastor of the Brownfield circuit.

Rev. Stephens was not generally well known throughout Lynn county, having been here only a short time, but he is the minister, it will be remembered, who offered prayer at the dedication of the Lynn county service board here a few weeks ago.

**REV. EDWARD JACKSON WILL LEAVE TAHOKA**

Rev. Edward Jackson, pastor of the Church of the Nazarene here for the past several months, has resigned his pastorate and expects to leave here for Fort Worth about June 19, according to a statement he made to The News Tuesday.

The Mission Board of his church has asked him to go down to Fort Worth and take the responsibility of organizing and pastoring a new church there. He feels that he can not shirk this responsibility.

While his health has not been very good here, he declares that
