Phone Co-op Moves Closer To Approval

An understanding was reached Thursday of last week at a conference in Dallas between Southwestern Associated Telephone company and Puka-Lambro Rural Telephone cooperative on areas to be served by the two organizations in this section of the South Plains.

Co-op engineers are now proceeding with the plans and specifications preparatory to letting contracts. Sam Allen, co-ordinator, says from three to six weeks will be required to get final approval from REA officials after plans are submitted.

Mr. Allen, Attorney Tom Garrard, Director V. R. Osborn of Brownfield, Engineer Guy S. Keeper, and Lyrtegar Manager Garland Pennington represented Puka-Lambro at the conference in Dallas. L. E. Armfield, REA engineer from Washington, D. C., represented the government organization making the loan for co-op telephone construction. Ray F. Red, general commercial superintendent, and a dozen other executives represented Southwestern Associated.

Mr. Armfield opened the topic of territories to be served by stating the primary object was to get telephone service to the rural people in the most economical manner.

General principles had been agreed on in Washington at a previous conference, and almost complete agreement was reached between the two organizations at the Dallas conference on details. Southwestern has agreed to serve territories near towns they are now serving and their lines will range from 1 1/2 miles to 4 miles, depending on circumstances, around these towns.

Some Southwestern lines, for example those to West Point and to New Home in Lynn County, will be sold to the cooperative.

Exchange areas planned at the present are Southland, Tahoka, O'Donnell, and Lamesa, with modern dial system plants likely at such places as Southland, Drew Redwine-Grassland, New Home, West Point, and Wells. These will be automatic and unattended. Lines from these communities will connect with the central trading city, and there will be no toll charges for a call from Grassland to Tahoka, for example.

To date, 1507 members of the co-op have signed up for telephone service.

RECORDS RETURN FROM CHRYSLER PLANT VISIT

Rollin McCord and wife returned from Detroit Tuesday, driving home one of the new Chrysler Eight cars. Mr. McCord also visited the Massey-Harris factory at Racine, Wisconsin, last week, and states that the farm machinery is still critical.

Shambeck's Open House Is Sunday

Shambeck Buick Company will hold its formal opening Sunday afternoon from 2:00 to 8:00 p. m. in their beautiful new modernistic building at the corner of Main and North Fifth streets.

Alvin and Willie Shambeck, the owners, are inviting all the people of the area to inspect the new building. There will be orchids for all the ladies, and a number of prizes will be given.

The Shambeck boys bought the local Buick agency from J. K. Applewhite last October, and since that date have had temporary quarters in the Steele Bros. garage.

Their new building has a full polished glass front, trimmed in red Roman brick. The structure is 65 by 124 1/2 feet in size with high ceilings, large and well-

1226 Scholastics Are Counted Here

A total of 1226 scholastics, a new record, were enumerated in the Tahoka School District recently in the annual census, according to Mrs. Helen Ellis.

This is an increase of 38 over last year's census, when 1188 were enumerated.

However, by reason of transfers, the above figure may be slightly higher or lower in the final analysis, she says. Of the 1226 children of school age, 72 are Negroes.

Mrs. Richards, 33, Died Thursday

Mrs. M. M. (Mozelle) Richards, age 33, of the New Lynn community died at her home Thursday morning at 3:25 o'clock, following a long illness of about a year.

Funeral services will be held today, Friday, at 3:00 p. m. at the New Lynn Baptist Church, of which she was a member, with Rev. J. B. Vickery officiating. Burial will follow in Tahoka Cemetery under direction of Starley Funeral Home.

Mrs. Richards was born October 8, 1917, in Johnson county, Texas. She came to Lynn county with her parents in 1928. She was married near Lamesa on December 8, 1935 to R. R. Richards.

Surviving are the husband and one child, Bobby Joan, 8-year-old daughter; the parents, Mr. and Mrs. J. D. Carter of New Lynn; a grandmother, Mrs. Viola Carter of Cleburne; two sisters, Mrs. Eunice Sales of New Lynn and Mrs. Gladys Cooper of Houston; and two brothers, Virgil Carter, teacher of Vocational Agriculture in Tahoka High, and Duane Carter of New Lynn, a student in Texas Tech.

D. W. Copeland Erects Building

D. W. Copeland is just completing a neat 40 by 60 foot frame and stucco suburban grocery store building in west Tahoka, located on the Brownfield highway just west of the new city water reservoir.

He has been operating a store in east Tahoka in a building owned by J. F. Tippit, but has given up his lease and will move in a few days to his new building.

Mr. Copeland has been in business here three years and has built up a nice trade. His new store will be known as Copeland Food-Way.

Mr. Roy Autry, president of Southwestern Associated Telephone company, has been elected to serve as president of the Texas Telephone Association for the coming year. Mr. Autry's election took place at a meeting of the Association's Directors in Fort Worth on March 14, 1951.

Since returning to Texas from California, Mr. Autry has been active in Texas Telephone Association work, having served on several important committees as well as holding the office of first vice president prior to his election as president.

Mr. Autry's wide telephone experience and his broad knowledge of telephone operating problems for both large and small companies will enable the Texas Telephone Association to continue to take an active part in legislative as well as service and business problems of the telephone industry.

Rotary Is Host To THS Bulldogs

Tahoka Rotary Club was host Thursday night as The News went to press at a banquet honoring the Tahoka High Bulldog football and basketball teams and coaches.

Speakers for the occasion were the new coaches of Texas Tech, including head coach DeWitt Weaver, and his assistants Wade Walker, Walter Wood, Wyatt Posey, and possibly others.

Last week's Rotary program featured a talk by Frank Norton, counselor to the young people of the Tahoka and O'Donnell high schools. Mr. Norton made an excellent talk in which he outlined his work and its value in helping young people with their many problems.

He stated the adults almost habitually treat the 'teen-agers as children but expect them to act as adults. The 'teen-ager therefore is thrown into two worlds, which creates many complex problems for the youth.

Spring Football Training Starts

Fifty Tahoka High School boys started spring training Monday afternoon under Coach Joe Turner, assisted by Coach Jake Jacobs. They will train for 30 calendar days.

"The boys are working pretty hard and appear to be eager," Coach Turner told The News.

Ten lettermen of last fall's fifteen will be eligible this coming fall if all pass their work. Most of last year's squadmen are in training as well as a few new boys and this year's eighth grade boys who will be Freshmen next fall.

Coach Turner hopes to play a practice game with a team of "exes" at the end of the training period.

Grassland Will Have Pie Supper

An old-fashioned pie supper will be given at the Grassland School on Friday, April 13, at 8 p. m., under sponsorship of the community Parents Club. Proceeds will be given to the Grassland School Lunchroom for purchase of equipment and maintenance.

Following auctioning of the pies, forty-two and omelets will be played.

Cancer Crusade Fund Drive Set For Week End

Today marks the opening of the 1951 Cancer Crusade in Lynn County, and H. W. (Cotton) Carter, chairman, hopes to complete the drive this week end.

It will be impossible for the drive committee to see everyone, therefore citizens are asked to cooperate in this worthy undertaking by mailing or handing a contribution to the local chapter.

"Of every dollar contributed here," Mr. Carter said, "a quarter goes to finance nearly 300 research projects at the nation's leading institutions.

"The chief object of this research is to find means of controlling cancer. Causes of cancer may never all be known, but it is entirely possible that we shall find means of cure or of control of even the advanced cases, which today are most often hopeless.

"In addition to research, your contribution supports national and state programs of cancer control," the chairman explained. "Nation-wide education for the public and physicians, completion of statistics, medical fellowships, scientific motion pictures, exhibits and administration will consume 15 cents of each dollar. The Texas organization retains 80 cents for its own broad program providing the citizens of this area with educational materials, service to the cancer patient, support of tumor clinics, cancer information centers, volunteer activities, and other essential aspects of the fight against cancer.

"We believe it is just as important to learn the danger signals as it is to contribute money to the American Cancer Society," he said. "When a solicitor leaves a leaflet at your home, a few (Cont'd. On Back Page)

County School Trustees Elected

Trustees were elected by six Lynn county school districts in the annual election held last Saturday.

John F. Thomas and W. T. Kidwell are the new Tahoka district trustees, succeeding Alton Cain and Ross Smith, who are retiring. Only eighty-six votes were cast, with Thomas receiving 61 and Kidwell 48. Also on the ballot were the names of Cecil Hammonds, who received 35, and E. W. Coppel, 11.

Results in other districts were: Grassland: R. M. Thomas and LeRoy Davis elected, with only 16 votes cast. New Home: Adrain Evans and C. B. Nowlin elected, 47 votes cast. New Moore: Olen Blair and Buddy Webb elected. O'Donnell: Delbert Mires and Billie Vaughn, unopposed. Wilson: Guy Smith and Edmund Mackey.

Fire Damages Local Residence

A house on South First Street owned by A. H. Moyer of Post and occupied by Mr. and Mrs. Lee Murphy was almost a total ruin as the result of fire which broke out in the ceiling at about 9:00 p. m. Wednesday.

The Murphys lost practically all of their furnishings and clothing, and those not destroyed were water-damaged.

The house was one of the old-time Tahoka residences, occupied at various times in the early days of the town by J. A. Brashear, J. H. Collenback, and D. Sanders.

A \$2,000,000 haul of "radium" set in a raid by Egyptian police turned out to be luminous paint.

TB X-ray Tests Given To 2,561

A total of 2561 Lynn county people were examined for evidence of tuberculosis by mobile X-ray unit of the State Health Department here last week.

Operators of the unit declared the survey here this year was so successful that they were sure it could be obtained again next year if the Lynn county people want it. O'Donnell really went over the top. There only one day, Thursday of last week, 1,875 people were given X-ray pictures.

In Tahoka for three days, 1,486 people availed themselves of the opportunity for a free examination.

Matched Roping Here Sunday

Jack Lowe of Plains and Jim Cooper of Monument N. M., will meet at the local rodeo arena here Sunday afternoon at 2:30 o'clock in a \$2000.00 matched roping contest sponsored by the Tahoka Roping Club. Each man will rope eight calves.

Added features will be "jackpot" roping and bronc riding contests. Admission will be \$1.00 for adults and 50 cents for children.

Furniture For School Bought

Furniture for the new Tahoka elementary school building now under construction was bought by the school board in a meeting on Monday night, according to Mrs. Helen Ellis, school district secretary.

American Desk Manufacturing company of Temple received the order for the new furniture, which will include approximately 440 units of equipment.

The building contractor is still engaged in foundation work for the new building, for which \$250,000 in bonds were voted last December.

The school board was reorganized at a meeting Tuesday night. Calloway Huffaker was re-elected board president, V. F. Jones is the new vice president, and J. D. Finley is the secretary.

W. T. Kidwell was sworn in as a new member, but John F. Thomas, the other newly elected member, was out of town and will be sworn in later. They succeed Ross Smith and Alton Cain.

Other members of the board are H. R. Tankersley and Boel Draper.

Holland is a country of bicycles and dog carts.

GEN. BRIDGWAY DIRECTS ATTACK AT DAWN—The commander of the 8th Army in Korea talks with Maj. James H. Lee, of Dallas, Tex., during the former's inspection of a front line position. Right, Tanks and infantrymen of the U. S. 24th Division move up during early morning attack against Communist positions.

Donald Ivan Henderson, 15, son of Mr. and Mrs. Virgil Henderson of Wilson was killed accidentally by a .22 calibre rifle in the hands of a hunting companion Monday night at about 11:15 o'clock between Wilson and Tahoka.

The bullet entered the top rear of his skull.

The body was taken to the family's former home at Jacksonville Texas, in a Stanley Funeral Home ambulance which left here at noon Tuesday. Services were scheduled there Wednesday at the Jacksonville Baptist Church, with Rev. O. B. Martin of Sulphur Springs officiating, and burial was to follow in Meadows Cemetery.

Sheriff Roland W. Clean, and investigated the accident, told The News that John H. Phillips, 26, his nephew, Claude Phillips, 16; Dan Tom Stoker, 14, and the Henderson youth were out hunting rabbits with three .22 rifles, shooting them by car light.

The group had spotted a rabbit. Claude, who was driving the car of his father, H. E. Phillips, stopped the machine. Two of three got out and took a shot at a rabbit up ahead. So far as the boys could reconstruct, the details, the Henderson boy, who was sitting in the right front seat, leaped out the rolled-down window to fire. At about the same time Dan Tom Stoker had quickly stepped out the right rear door, with one foot resting on the ground and one in the car and took a short shot.

For a short time, no one of the bunch knew Donald had been shot. They noticed him slumped in the seat, tried to arouse him, and found he had been shot in the top of the skull, the bullet going through a baseball cap Donald was wearing. The shocked group rushed the boy to Tahoka Hospital, where he died a few moments after their arrival.

Donald was born at Jacksonville July 24, 1935. He came to Wilson with his parents in September, 1949 and Mr. Henderson has worked there at gins the past two cotton ginning seasons. A few weeks ago, he bought the Wilson Washer.

In addition to his parents, the youth is survived by three brothers, David, John, and Paul; the paternal and maternal grandfathers, Mr. and Mrs. A. J. Henderson and Mr. and Mrs. L. P. Moore, all of Jacksonville; seven uncles and seven aunts.

Congratulations:

Mr. and Mrs. James Brookshire on the birth of a daughter weighing 7 pounds 5 1/2 ounces at 5:34 Thursday, April 5, in a Lubbock hospital.

Mr. and Mrs. Lon Howard of O'Donnell, Rt. 3, on birth of a son, weighing 8 pounds at Tahoka Hospital at 8:15 p. m. Saturday. He has been named Randy Lon.

Mr. and Mrs. J. R. Stone of Wilson, Rt. 2, on birth of a daughter weighing 7 pounds at 12:54 a. m. Tuesday in Tahoka Hospital. They have named the new arrival Sandra Florence.

Mr. and Mrs. George Rouse on birth of a son weighing 7 pounds 4 ounces at Tahoka Hospital at 2:41 p. m. Sunday; name, Thomas Newman. Mr. Rouse is a Naval officer stationed at Corpus Christi. Mrs. Rouse is the former Allene Bartley.

MEMBER OF CHOIR

Miss Doris Roberts, daughter of Mr. and Mrs. John Roberts of Tahoka, is a member of the 44-voice Howard Payne College / Cappella Choir which will be on tour next week.

The choir will appear at Leveland High School next Wednesday at 1:00 p. m., and at Lamesa First Baptist Church that night at 7:30 o'clock.

We have nothing at all against
 the big boys who are mining our
 marvelous underground supply of
 natural gas and shipping it to the
 rich industrial states up north,
 for they seem to be about the
 most reasonable in their charges
 of any of the great public utility
 companies, but we do hate to see
 only measly little sums of revenue
 flowing into our state treasury
 from these gas wells. We think
 that Texas rather than Illinois,
 Ohio, and Michigan, should be
 the chief beneficiary of the nat-
 ural wealth being taken from
 her bowels. Therefore we are in
 favor of that bill now pending in
 the legislature which would im-
 pose a tax of one cent per 1,000
 cubic feet of natural gas for the
 benefit of our highways and
 farm-to-market roads. But the
 Gas companies seem to have plen-
 ty of friends and protectors in
 the legislature. Their names
 should be procured and published,
 and they should be called on to
 tell the people "how come?"
 when they offer for re-election.

Two Traitors Convicted

For the first time in American
 history the death penalty was as-
 sessed for the crime of treason by
 an American civil court in New
 York City on Thursday of last
 week. The defendants were Julius
 and Ethel Rosenberg. The Judge
 before whom the case was tried
 and who pronounced the death
 penalty was Judge Irving R.
 Kaufman. The specific charge as-
 against the defendants was that
 they had ferreted out atomic

bomb secrets for a Russian-bos-
 sed international spy ring.
 The evidence given by Mrs.
 Rosenberg's own brother, David
 Greenglass, a former Army ser-
 geant stationed at Los Alamos, New
 Mexico, was that his sister and
 her husband, the Rosenbergs, had
 talked him into turning over to
 the spies atom-bomb secrets;
 that he turned this data over to
 Harry Gold of Philadelphia, a bro-
 chemist.

Gold confessed his guilt and
 had been sentenced to 30 years
 imprisonment. He also was a
 witness against the Rosenbergs.
 Gold had also gotten atom-bomb
 data from Dr. Klaus Fuchs, a
 British atom scientist who was ar-
 rested and imprisoned a year ago.
 Morton Sobell, a radar expert,
 was convicted along with the
 Rosenbergs but was deemed less
 guilty than they and he drew a
 30-year sentence. Greenglass, the
 brother of Mrs. Rosenberg, who
 confessed his guilt, was sentenced
 to a term of 15 years in jail.

Rosenberg, 32, is an electrical
 engineer. He was born in New
 York City but is the son of Rus-
 sian parents. Mrs. Rosenberg, 35,
 is the mother of two children.
 She was also born in New York
 City but her father was a native
 Russian and her mother an Aus-
 trian.

The evidence against the couple
 seemed to be conclusive. Judge
 Kaufman in pronouncing sen-
 tence, said that he had searched
 his soul but could find no
 compassion for the husband-wife
 team of traitors. He declared that
 they had entered with their eyes
 wide open into a "diabolical con-
 spiracy to destroy a God-fearing
 nation." He told them that he be-
 lieved that in putting the A-
 bomb into the hands of the Rus-
 sians they had caused the Korean
 War with resultant casualties
 exceeding 50,000 Americans, and
 who knows but that millions more
 of innocent people may pay the
 price of your treason." The couple
 were sentenced to die May 21 but
 both gave notice of appeal.

If accused of such a crime in
 Russia, there would be no ap-
 peal—only a firing squad, and
 that possibly without the sem-
 blance of a fair trial. It's passing
 strange that people born and
 reared in this country, where a
 fair trial for every person ac-
 cused of crime is guaranteed by
 our constitution, will conspire
 against our government in favor
 of an autocratic system that
 never grants a fair trial to any
 person who happens to incur the
 ill will of the reigning auto-
 crats.
 It's a pitiful thing too, to have
 to send any mother to the electric

chair, but it is also a pitiful
 thing to have to send our boys
 across the seas to defend our
 country against the plots of auto-
 crats aided by treason on the
 part of our own citizens, and to
 see thousands of those same boys
 bleed and die on fields thousands
 of miles away from home and
 Mother. As Judge Kaufman stat-
 ed, the crime committed by the
 Rosenbergs was far worse than
 the crime of murder; it was in
 fact possibly thousands of mur-
 ders wrapped up in one.

Truckers have been swarming
 down to Austin trying to get the
 legislature to raise their load
 limit. We think that instead, the
 legislature should raise their tax-
 es. A dozen heavily loaded trucks
 a day may do more damage to a
 paved highway than 500 ordinary
 passenger cars. Besides, there are
 entirely too many truck drivers
 who want to hog the roads. Some
 of them won't give an inch even
 though a half dozen cars are
 crowded over onto a soft shoulder.
 We do not bring this accusa-
 tion against all truck drivers, for
 most of them are gentlemen. It's
 the few hogs that make the car
 drivers cuss. No, if the legisla-
 ture is going to license them to
 crush our highways, they should
 raise their fees high enough to
 build some highways.

Whether General MacArthur's
 sudden thrust across the 38th
 parallel into North Korea made
 a few days ago and still in pro-
 gress is a brilliant strike or the
 height of folly is yet to be de-
 termined by results. If it proves
 to be successful and the Chinese
 Reds are driven back into Man-
 churia, MacArthur will be ac-
 claimed a hero. If it should re-
 sult in a crushing defeat for the
 UN forces or a hard-fought and
 long-drawn-out campaign without
 decisive results in our favor, he
 will be execrated as never before
 and possibly dismissed from lead-
 ership for insubordination. Cer-
 tainly he made this thrust across
 the line without the approval of
 the President and other military
 leaders at Washington and a-
 gainst the bitter opposition of
 Great Britain. We hope that he
 achieves quick and undisputed
 success. But in face of the fact
 that Chiang-Kai-shek and the
 Chinese Nationalists will not be
 authorized to render aid in this
 campaign, General MacArthur has
 certainly done a daring and risky
 thing. If he should lose, it would
 be the greatest disaster we have
 yet encountered in Asia.

ADDING MACHINE rolls, fit all
 standard machines.—The News.

There are some politicians in
 this country, including some in
 the United States Senate, who
 have been using Communism as
 a mere political scare-crow, for
 the purpose of feathering their
 own nests politically. But when
 FBI Director J. Edgar Hoover
 speaks, it pays to listen. Not
 long ago, testifying before a Sen-
 ate Appropriations subcommittee,
 he told Senators that there are
 still in this country 43,217 known
 Communists; that they constitute
 a "hard core dedicated to sabo-
 tage and to militant revolt against
 this country if and when the time
 comes;" that they have been "em-
 phasizing the need to infiltrate
 heavy industries such as coal,
 steel, rubber, machinery, trans-
 portation, and the mines and
 factories engaged in vital defense
 efforts," most prevalent in such
 states as New York, California,
 Illinois, Ohio, Pennsylvania, and
 Michigan, and he might have
 mentioned the Texas coast area.
 He declared that every member
 of the Communist party is a po-
 tential saboteur and spy, "steed-
 ed for organized violence
 through party direction and train-
 ing." Each is supposed to act
 as the party directs and when it
 directs, or if war with Russia
 comes, he may commit acts of
 sabotage and violence at his own
 volition. In other words, every
 American citizen belonging to the
 Communist party, is at heart a
 traitor just waiting for a good
 chance to strike. And a "fellow
 traveler" is little or no better
 than a member of the party. We
 do not want to do an injustice to
 any person, but we do want to
 keep our eyes open for snakes.

Mrs. Lawrence Sanford left this
 week to visit relatives in Clinton,
 South Carolina for several weeks.

Beautiful to look at
 Beautiful to drive

Watch the little lady park
 the beautiful, big car . . . a
 single finger on the steering wheel
 can do it now, with Hydraguide!

Now Hydraguide Steering does four-fifths

of the work for you!

THINK of the easiest steering car you ever
 drove . . . then imagine one *five times easier*
to steer! Chrysler's new Hydraguide power
 steering . . . regular on Crown Imperials and
 optional at extra cost on all New Yorker
 and Imperial models . . . gives you
 exactly that. Here is by far the greatest
 single change in handling ease—and safety
 —you ever found in any car. At your touch
 on the steering wheel, the car *mechanically*
 provides four-fifths of the energy to turn the
 tires on the road. Like so much in these
 new Chryslers . . . Hydraguide is so *basically*
 new, so *basically* better than anything before,
 that only when you try it can you ever know
 what it really does!

The longest day's drive you ever
 made . . . without arm-and-
 shoulder fatigue at the end.
 Around the curves . . . over the
 hills . . . Hydraguide does four-
 fifths of the work!

In tight city traffic . . . on awk-
 ward driveways and roads . . .
 Hydraguide means new safety,
 new ease, new *witless*ness of steering
 control!

The Most Basically New Cars of All!

Beneath the rich new beauty of these Chryslers for 1951
 are 73 different improvements and advances. Among
 them are the most basic new ideas in any cars for many
 years! Like the revolutionary new FirePower engine,
 of 180 horsepower, which gives owners of Chrysler
 Imperial and New Yorker cars the most powerful, most
 efficient, most all-around economical powerplant in any
 car today! And like the amazing new Chrysler Ori-flow
 shock absorbers, which give every new Chrysler car
 riding ease with *twice* the shock-absorbing power of any
 other cars at any price. And with all their newness,
 they're built to stand by you like no car you can buy!

SHRIMP CURRY AND RICE LOAF

You don't have to live near the ocean to enjoy the luxury of delicious shrimp dishes. Just look on your grocer's shelf and you will see cans of shrimp that can be turned into inspired main dishes with little effort. You'll find canned shrimp a big success when you serve this

Shrimp Curry and Rice Loaf

- 2 cups cooked rice
 - 1 can shrimp
 - 1 onion, thinly sliced
 - 3 tablespoons fortified margarine
 - 2 tablespoons flour
 - 1 cup tomatoes
 - 1/2 teaspoon salt
 - 1 bouillon cube or 2 tbs. meat extract
 - 1/4 teaspoon curry powder
 - 1/2 cup water
- Prepare shrimp for cooking. Peel the onion and slice in thin slices. Melt the margarine in a heavy pan. Add flour and make a rich golden brown roux. Add onions and brown lightly. Add salt, curry powder, and shrimp. Stir until shrimp are well coated in the roux, and none is left in the frying pan. Dissolve the bouillon cube or meat extract in the water and combine with tomatoes. Push the shrimp to one side of the pan and add the tomatoes. Bring the shrimp back into the sauce; lower heat and cook very slowly 10-15 minutes. Taste for seasonings and add more salt and pepper, if needed. Serve with rice. For other tempting, nutritious food ideas, send today for your free copy of "Mealtime Marvels with Margarine," a helpful, 32-page recipe booklet in two colors. Write National Cotton Council, Box 76, Memphis, Tenn.

WILSON SENIORS WILL PRESENT CLASS PLAY

The Senior Class of Wilson High School will present the three-act play, "Old Doc," Thursday, April 19, at 7:30 p. m. in the school auditorium. Admission prices are 50 and 25 cents.

Mrs. Gene Riley, who has been caring for her mother recently at Belen, New Mexico, made a brief business visit here Monday and reported that her mother, Mrs. M. J. Corley, is still very seriously ill.

in the chair and presided in a way that predicted another good year for Tahoka's Methodist Men. A good meal was prepared and served under the supervision of Roger Bell and R. A. Dubose. The program committee was composed of Walter Mathis and Claude Donaldson. Charles Verner led in the singing of hymns before the meal, and also sang a solo preceding the speaker. Rev. Ira Hart of Ropesville gave the invocation.

Judge Walter Mathis introduced Ralph Brock, Lubbock attorney, who spoke on the subject, "In the Beginning, God." He said that recognizing the sure fact of God, His greatness and goodness, all men ought to be good men and should work together in the building of a better community, church, and world; and that it would be done if all men were as concerned as those present. Rev. C. A. Holcomb pronounced the benediction.

The committees for next month: Program, Clint Walker and Pete

METHODIST SERVICES FOR NEXT SUNDAY

Rev. C. A. Holcomb's subject for next Sunday morning at the Methodist Church is "Small Potatoes."

The Young people, under supervision of Mr. and Mrs. Ira Joe Hart, will have charge of the evening service at 7:30.

This will be a unique service. Everybody invited—young people, adults, and children.

Ageless
"I won't get married until I find a girl like the one Grandpa married."

"You won't find women like that today."

"That's funny, Grandpa married her only yesterday."

A pink elephant, a green rat and a polka-dotted snake walked into a cocktail bar.—
"You're a little early, boys," said the bartender. "He ain't here yet."

"Instead of pacing the floor... go down to ABBIE'S FASHION SHOP and buy your wife a gift. She'll love their lovely lingerie."

Pictured above is the new home of Bill Strange Motors, which had its formal opening in the new building last Saturday. The building occupies 90 by 120 feet of a lot 200 by 200 feet in size, allowing room for a large used car lot and plenty of parking space. The building and equipment is modern in every respect.

Better farming holds its own promise of more food for the future. Dollars fight cancer. Gave to the 1951 Cancer Crusade of the American Cancer Society.

Engagement of Miss Jeannine Smith And Geno Jones Is Announced Here

All Signs Indicate Spring Is Just Around the Corner

The robins are back—at least two couples have built their nests in a couple of trees at the senior editor's home. They have summered here for the past two or three years at least. And now they are back for another summer. That's one sign that spring is here.

Monday the senior editor went out and examined the mesquite shrubs in his neighborhood. The green leaves were beginning to peep out on some of them. That's another sign of spring.

A look at Tahoka Daisy plants on vacant lots revealed that they

Vic Vet says

IF YOU'RE GETTING A DEGREE UNDER THE GI BILL AND WANT TO ATTEND GRADUATE SCHOOL IN THE FALL, APPLY BEFORE YOU GRADUATE. . . THEN THE JULY 25, 1951 CUT-OFF DATE WON'T AFFECT YOU

Mr. and Mrs. W. E. (Happy) Smith of Tahoka, announces the engagement and approaching marriage of their daughter, Miss Jeannine Smith to Mr. Geno Jones of Tahoka, son of Mr. and Mrs. Ervin L. Jones of O'Donnell.

The wedding will take place early in June in the home of the bride's parents.

Miss Smith is teaching in Tahoka High School, and Mr. Jones is employed by the Stanley Funeral Home.

are beginning to bloom. The plants are small yet and the few flowers which have appeared are likewise rather small. The plants are numerous, however, and the chances are that in spite of the continued dry weather there will be a nice spring crop of these prairie beauties that have shown a decided preference for Lynn county ever since they were first discovered by a flower-loving woman many years ago out at Tahoka Lake.

Incidentally, the Senior Editor took some Tahoka Daisy seeds down to Waco a few weeks ago, and presented them to his three sisters there, who planted them on their premises just to find out if they will germinate and grow in that soil and climate. So we are awaiting results, though we are doubtful.

Chapter II

The above story was written Monday night. About seven o'clock Tuesday morning the wildest and howlingest sandstorm that has swept over these Plains this winter hit Tahoka full in the face and got fiercer and colder as the day wore on, continuing to do its stuff practically all night. In fact the wild winds began to spit snow about ten p. m. By seven o'clock Tuesday morning the mercury in all reputable thermometers had dropped down to about 27. It wasn't hot Tuesday night either. It is believed that much of the fruit, by staying well within its shell, escaped serious damage.

TEA HELD HONORING YOUNG MARRIED COUPLE

A tea was given Saturday, April 7, at 8:00 p. m. in the home of Mrs. L. A. Forsythe honoring Jane and Bobby George Oliver, who are students in Abilene Christian College.

The table was laid with a beautiful imported Quaker lace table cloth, with a centerpiece of yellow iris and green tapers.

Cookies and spiced tea were served to guests who called between the hours of 8:00 and 10:00 o'clock.

Patsy McGinty and Wanda Marlin, in evening dresses, served at the table, and Pat Oliver, sister-in-law of the bride, also in an evening dress, registered the guests at the door.

Bobby George is the son of Mr. and Mrs. J. B. Oliver, and Jane is the daughter of Mr. and Mrs. P. L. Clack of Irving.

Mr. and Mrs. R. L. Gibson of Chicago have been here for several days at the bedside of his father, R. L. "Kid" Gibson, who is a patient in Tahoka Hospital with a heart ailment. Mr. Gibson has had hiccoughs for several days to add to his discomfort but otherwise has shown some improvement.

Mrs. Jim Banister is reported to be improving at Tahoka Hospital, where she has been a medical patient for several days.

Quicksands are frozen to dig tunnels.

Mr. and Mrs. John Bulman, former residents of Lynn county now living near Hico, came up Tuesday for a visit with Mr. and Mrs. C. T. Tankersley and other relatives, and returned to Hico Thursday.

The Bulmans lived in Lynn county many years, having first come out here when the coyotes, prairie dogs, rattlesnakes, and whiteface cattle possessed the country. Then John served as a deputy sheriff for a number of years and was one of the best officers Lynn county ever had. Then he picked up and moved back to Hamilton county and has been living in Hamilton and Coryell ever since.

He and Mrs. Bulman had been away from here so long that they had gotten real hungry to see another sandstorm. They must have had a hunch that one was coming, for they lit out from home Tuesday morning and met a wolfish one on the way. But we are still doubting if they really enjoyed it.

They have many friends here who were glad to see them.

GARDEN CLUB WILL MEET

The Tahoka Garden Club will meet in the home of Mrs. W. C. Huffaker Tuesday, April 17 at 4:15 o'clock.

Mrs. J. K. Applewhite will tell of her trip to Natchez. "Table Settings" will be the subject.

The American Cancer Society has awarded \$55 research grants since starting its nation-wide program in 1946.

The Donald Caudle family was surprised with a "house warming" last Friday night at their new home three miles south of New Home, when about one hundred friends and neighbors called on them, brought gifts and refreshments and participated in the party. The Caudles were presented a set of Southwestern pool tables for six, and other Games of chance were by the group. Naturally, the Caudle appreciate such tokens of love. They have recently a beautiful new cash-set room modern home on the

Large Crowd At Strange Opening

"We deeply appreciate the wonderful response from the people of Lynn county to our formal opening last Saturday" Bill Strange, Sr., of Bill Strange Motors told The News.

Fully 2,000 people visited the new Ford sales and service plant here that day, 1400 of whom signed the register.

Orchids were given the lady visitors. Six hundred of the flowers had been flown here from Hawaii for the occasion. These were exhausted by about 4 p. m., and it was necessary to give the ladies carnations or roses from then on. Coffee and doughnuts were served throughout the day, and about \$500 worth of door prizes were awarded guests at 7:30 p. m.

Many business institutions and individuals sent flowers for the opening, and the display was impressive.

Mr. and Mrs. R. E. Gibbs of Houston, who are installing the parts department for the Strange company and who are present at such openings almost twice a month told The News, "It was one of the nicest openings we have ever seen. The people were so nice and orderly, and the crowd was above the average."

"I would say," Mrs. Gibbs continued, "That the new Bill Strange quarters are about ten years ahead of the times for a community this size. It is one of the nicest plant layouts anywhere."

J. R. Crandall, Jr., district sales manager of the Ford Motor Company of Dallas, was here for the opening and likewise added his compliments to the management and to the community.

Wilson Planning Football Field

Plans are under way for improvement of a new football field at Wilson High School, according to Coach A. J. Sales.

School authorities are seeking to raise at least \$3,000 for the work through sale of bonds to fans, which bonds will draw two percent interest and which the school expects to repay. However, donations for the improvement will also be appreciated.

Mr. Sales says the school hopes to buy some more lots south of the school, lay off a standard field and plant it in grass, and to get some bleachers, and move the lights from the present six-man field in north Wilson to the new site.

Wilson will play 11-man football next fall in District 4B along with Frenship Meadow, Ropes, Kalka, Whittharrel, Wellman, and

Wreck Victims Are Improving

James Smith 25, son of Mr. and Mrs. Guy Smith of New Lynn, who was critically injured in a car wreck seven miles north of Tahoka Sunday morning, April 1, is expected to be able to return home in an ambulance some time next week from Baylor Hospital, Dallas, where he is a patient.

In the accident, he suffered a broken leg, severely bruised chest, broken nose, head lacerations, and a left arm laceration, according to his father, who returned from Dallas Friday. Mrs. Smith and Miss Wilma remained at his bedside.

James underwent an operation on the leg Tuesday of last week during which a steel plate was used to set the bones, and he was placed in a cast. Doctors say he must remain in the cast about two months and that it will be six months to a year before he can walk again. As a young boy, James suffered infantile paralysis which left him crippled in the right leg. After several years of treatment in hospitals, he was able to walk with a crutch.

R. A. McClinton, 28, son of Mr. and Mrs. R. A. McClinton of Levelland and a former deputy sheriff of Lynn county, who received head and shoulder injuries in the wreck, was released from a hospital in Lubbock last week end.

Miss Jimmie Ruth Gayden, 18, daughter of Mr. and Mrs. James Gayden of Ruidoso, N. M., who was in the car with the two young men, is recuperating from a fractured right leg and bruises at the home of her parents.

Smith was driving McClinton's car home from Lubbock when the accident occurred. He was blinded by lights of another car turning around on the highway and crashed into a third car, occupied by two Lubbock men, one of whom was drunk, parked squarely on the highway. Raymond Lawrence, driver of the car turning around, was preparing to move the parked car from the highway.

Two ladies who had not seen each other for a long time met on the street: "Oh Mary," Blanch excitedly exclaimed, "I've had a lot to happen to me since I saw you last. I had my teeth out and an electric stove and refrigerator put in."

Pains. In the past, Wilson has been playing six-man football and won the district championship in 1949.

Coach Sales recently completed spring training. He will have 12 returning lettermen, having lost only two from last year's team. Captains for the coming year are Joe Stone and John Mark Stoker

AID FOR KOREAN REFUGEES FROM MARINE CORPS LEAGUE—Leathernecks pass out gifts of clothing and toys to thousands of Koreans as fast as the crates of goods arrived in the desolated country. Left, Sgt. Thomas D. Prutzman, of the Fifth Marines, helps Korean boy try on a pair of trousers. Right, Sgt. Prutzman holds a baby while the mother examines an article of clothing sent by the Pacific. N. J., detachment. Prutzman is a son of Mr. and Mrs. William Prutzman, of Wilkes-Barre, Pa. His wife lives in San Diego, Calif.

Jaycees Leave For State Meet

Five Tahoka Jaycees left Wednesday night for Houston to attend the three-day convention of the Texas Junior Chamber of Commerce.

Those making the trip are: Charles Reid, president of the Tahoka Jaycee organization, Seth Lewis, Bill Chaney, and H. L. McMillan, directors, and Russell McGee, secretary of the Tahoka Chamber of Commerce.

The young men hope to get ideas and inspiration for worthwhile Tahoka civic work at this meeting which is being attended by approximately 1,200 delegates.

Several prominent men will address the convention, and several entertaining features have been arranged for the visitors.

The total area of attic vent openings should be approximately one-half square inch per square foot of attic floor area when the roof pitch is greater than a three-inch rise in a 12-inch run, and double that when the pitch is flatter.

One million volunteer recruits are being sought by the American Cancer Society. The 1951 Cancer Crusade needs your help. Join now.

O'Donnell Farmer Captures Coyotes

Bill McKenzie, farming near Gooch Lake, ran his tractor over a hole in the field. He heard "pups" whining in the hole.

Securing a shovel, shotgun and small rifle he soon had the mama coyote hanging onto the shovel. He dropped the shovel, grabbed the .22 and shot at her. She grabbed the gun barrel and Mack dropped his rifle. The mother coyote was then dispatched by a blast from the shotgun. Five young ones were captured.

Asked whether he thought such actions indicated the old mammy might be "mad," McKenzie replied that "she was at least angry."

To train cancer research specialists, the American Cancer Society has awarded 242 fellowships to young doctors and scientists in the past five years.

Funds given the American Cancer Society help to train cancer research scientists. Awards have been made to 72 young researchers this year.

Mechanical corn pickers have about done away with the corn shucking contests in the corn belt. A mechanical corn picker can shuck more corn than a dozen ace shuckers.

A New York newspaper, sponsor of an annual hole-in-one golf tournament, figures the chances of scoring an ace are 11,720 to one. Odds are based on the experience of 16 years, with better-than-average golfers participating.

Sid Moltrosh and Red Smith of the Brownfield radio station were business visitors in Tanoka Tuesday of this week.

Tahoka Co-op Members Meet

Tahoka Co-op Gin association was holding its annual membership meeting at the gin office here Thursday afternoon.

Principal business scheduled was the distribution of \$27,900.00 worth of stock and equities to 150 of dividends for the year of 1949.

Two directors were to be elected to the board, the terms of Cecil Clem and M. M. Hall expiring this year. During the past year, the officers have been: C. B. Evans, president; Ward Eakin, vice president; M. M. Hall, secretary; Clem and K. W. Phillips, directors. H. G. Hodges is the manager and treasurer.

Following election of the two directors, the board will name the officers from its own membership.

URBAN BROWN ON PROGRAM AT MEETING IN AUSTIN

Austin, Apr. 12.—Urban Brown, principal of the Tahoka elementary school, has been selected as one of a group of Texas school men to participate in discussions during the 1951 Elementary Education Conference being held at the University of Texas Thursday through Saturday of this week.

Dept. of Defense Photo

GROUND CONTROLLERS—Pfc. Walter J. Pollack, of Morgan, N. J., left, watches the enemy as Lt. William A. Williams, of Columbia, S. C., uses a high-frequency radio to inform Far East Air Forces fighter planes of Communist positions somewhere on the western front in Korea. They are members of the Tactical Air Control group engaged in detecting enemy targets and directing fighters to them. In a radio-equipped jeep they roam the territory close to the front lines, working closely with United Nations ground forces.

MRS. OLIVER, DISTRICT VFW AUXILIARY VICE PRESIDENT INSTALLS CHAPTER HEADS

Mrs. J. B. Oliver, district Junior vice president of the V.F.W. Auxiliary, installed officers of the Seagraves Auxiliary on Monday night, April 2.

Eloise Griffin, VFW Auxiliary

president, and Pauline Smith accompanied her to Seagraves and assisted in putting on the work.

Mrs. Oliver installed the officers of the Tahoka VFW Auxiliary Monday night, April 9.

The site of Amsterdam's fortified walls of 1482 is now a park.

C. F. King, Hereford, Is Buried Here

C. F. King, 72, former Lynn county citizen who died at Hereford last Saturday, was buried here Monday afternoon following services held in the First Baptist Church at 3:00 o'clock.

Mr. King was a bachelor and, at the time of his death, was living with a nephew and niece, Mr. and Mrs. Jim Sirkel. He was a brother of the late H. J. King of the Dixie community.

PETTY H. D. CLUB HOLDS MEETING

Petty Home Demonstration club met in the home of Mrs. J. W. Schuknecht for an all-day quilting. There were nine ladies present, each bringing a covered dish. At noon, the men folks came over and enjoyed a good lunch with the ladies.

Next meeting will be on April 23 in Mrs. Schuknecht's home and the agent, Miss Hard, will meet with us.—Reporter.

Mrs. J. W. Owens was dismissed this mid-week from Tahoka where she was a medical patient for several days.

When you read the stories about how stunning the bride looked, we always imagine the groom looked stunned.

Baptist Revival Closed Sunday

The two weeks revival services at the First Baptist Church came to a close Sunday night. The records show that during the revival campaign eighteen new converts were baptized, 17 of them having been received during the revival and one having been received previously. Ten others were received into the church upon promise of letters of recommendation from other Baptist churches. Still seven other persons walked the aisles to rededicate their lives to the service of God.

Rev. Lee Ramsour, the pastor, did the preaching throughout the campaign and Mr. Weldon Lewis of Borger led the song services until Friday, at which time he left for home and Bob Callahan, the regular choir director, took over.

The sermons from start to finish were invariably pronounced very fine by those attending the services and the music both vocal and instrumental, was unusually inspiring.

A sizable love offering was contributed during and at the close of the services.

The pastor, Rev. Lee Ramsour, is conducting a study course at Wells for five nights this week.

A few local Baptists attended the Sunday School rally at O'Donnell Tuesday night, and a few also attended the Associational Workers Conference at Tokio on Thursday.

WHARTON AND TAYLOR VISIT OLDS FACTORY

Winston C. Wharton and Richard Taylor arrived home early Wednesday morning from Lansing, Michigan, where they visited the Oldsmobile forge, Rocket engine and final assembly plants.

They made the trip with a group of 48 West Texas dealers, flying both ways in a company-chartered DC4 plane. They left in the plane from Big Spring Monday noon.

Three Draw Fines In County Court

Three men drew fines in County Court here Monday morning on pleas of guilty before Judge W. M. Mathis.

Mickey Robertson, Negro, and Perferio Trevino, Mexican, both of O'Donnell, were each fined \$200.00 and costs on charges of illegally selling intoxicating liquors in a dry area.

Another Mexican man was fined \$50 and costs for driving while intoxicated in Tahoka.

All three were arrested Saturday night.

Dixie-New Home Road Work Ready

Work of pouring the "hot top" on a new farm-to-market road between Dixie and New Home is expected to get underway next month, The News is informed.

Five and a half miles of paving will be laid. It will extend three miles south from New Home, thence east two and a half miles to meet the paving west from U. S. 87 extending to Dixie and beyond.

Cellihs for the project was laid several weeks ago.

Now, if paving can be secured from the corner west to Petty, a lot more funds would be taken out of the mud (or, rather, the wind-whipped dirt road class.)

REV. C. F. CARMACK IS REPORTED IMPROVING

Rev. C. F. Carmack, 84, retired pioneer West Texas Methodist minister, who has been very ill with the "flu" for more than three weeks, was taken to Tahoka Hospital for treatment last week. However, on Wednesday he was reported to be improving nicely.

Mrs. Carmack has also been ill but is now able to be up.

Two of their daughters, Mrs. A. B. Swann of Albuquerque, N. M., and Mrs. Ben Wileman of Oklahoma City, left for their homes last week end after having visited with them for several days.

TOKEN OF APPRECIATION—A Korean boy presents a bouquet of flowers to an American soldier. It is the lad's way of expressing his gratitude for the liberation of his native village from Communist invaders. Such incidents were frequent as the U. S. troops advanced toward the 38th parallel in Korea.

Dept. of Defense Photo

FOR HEROISM—M. Sgt. Curtis D. Pugh, of Columbus, Ga., receives the Distinguished Service Cross from General of the Army Douglas MacArthur for his valor for saving the lives of his comrades and commander in Korea. Sgt. Pugh, volunteer member of a rear guard held his position and fought off fanatical enemy assaults on a narrow mountain ridge near Haman, Korea. He personally stopped one attack and when his battalion commander was engaged in hand-to-hand combat with enemy soldiers, Pugh came to his rescue by shooting the attackers who had wounded him.

Wilson Juniors Postpone Play

Due to a death in the community, the Wilson High School Junior Class play has been postponed from its original scheduled date for last Tuesday until Monday night, April 16.

The three-act comedy entitled "Look Me in the Eye," will begin at 8:00 p. m., but a musical will precede the play, starting at 7:30 p. m. Admission prices are 50 and 25 cents.

French and Italian movie producers seek a plan to enable the exchange of feature films with Spain.

New Home Elects School Teachers

New Home school board was reorganized at a meeting Tuesday night, and teachers for next year were elected.

B. A. Morrow was re-elected as board president; Harlan Dean, is vice president; Aubrey Smith, secretary. C. B. Nowlin is a new member of the board, and Adrian Evans was re-elected along with Nowlin at last Saturday's voting. Donald Caudle and Clarence Eides are the other two board members.

All teachers who asked for re-election were given new contracts. Supt. James Vaughn was given a three year contract; C. P. Martin, grade school principal, two; Clint L. W. high school principal, two; Olan Rice, vocational agriculture, two; Miss Philly, Gordon Gaines, and Mrs. Limer, one. Some of the other teachers expect to teach elsewhere next year while others expect to attend college. The News was informed by a member of the board.

Cancer Drive ...

(Cont'd. From Page 1)

minutes spent in memorizing the seven danger signs might well be invaluable to you. It could mean the difference between life and death.

The seven danger signals, that the American Cancer Society says may mean cancer and certainly should mean a visit to your doctor, are:

1. Any sore that does not heal.
2. A lump or thickening in the breast or elsewhere.
3. Unusual bleeding or discharge.
4. Any change in a wart or mole.
5. Persistent indigestion or difficulty in swallowing.
6. Persistent hoarseness or cough.
7. Any change in normal bowel habits.

Mrs. J. W. Jolly underwent major surgery Wednesday at Tahoka Hospital. She is improving satisfactorily.

Emil A. Lundie has been released from Tahoka Hospital, where he received treatment for pneumonia.

Shakespeare Play Is Presented Here

Wm. Shakespeare's "The Taming of the Shrew" was presented before an appreciative audience in Tahoka High School auditorium Wednesday night by the Texas Tech Speech department.

Gerald Wayne Tippit, a graduate of the local schools, had a leading role in the play.

The school auditorium was more than half filled, although the performance had received very little advance billing due to the fact that arrangements for the appearance were not made until Monday.

The Tech players were brought here under sponsorship of the American Legion, with each group clearing about \$40.

New Time For Drivers' Tests

Days on which citizens may take driver's license examinations have been cut to two a month in Lynn county, according to Joe Roberts, Evminer Patrolman, who in the past has been coming here every Friday.

In the future, he will be at the County Court room on each second and fourth Friday of the month.

Written examinations will be given in the mornings, and driving examinations will be given in the afternoons, he says.

Differences of opinion makes mental progress possible and fist fights certain.

Legion Starts Rehearsals on Annual Musical Production

Home Talent Show Dated For Next Month Will Feature Many Local People

Rehearsals are underway on a brand new American Legion musical show entitled "Foolish Follies For Fifty One." This show promises to be the best home talent production ever presented in Tahoka or surrounding communities. It is an original, being written and staged completely by local people, and the entire proceeds from the show will remain in Tahoka for use by the American Legion and Auxiliary for further improvement of the Legion Home and other uses from which the entire community will benefit.

In the past the American Legion has presented two such shows, the first being "Fun For You" in 1947. It was staged by an out of town concern and the Legion benefited greatly from it by learning that we could stage our own show, thus keeping all proceeds instead of having to share them with out-of-town people.

The second show was the "Gay Nineties Revue," written and di-

rected by home talent in 1946, and this show was a great success in two ways. It was a sell out and it also gave the public what they paid for. Many praises were sung about this show and it was enjoyed by many.

Now, again in 1951, we are bringing you the "Foolish Follies For Fifty One." It is a lot like the previous show. The "Follies" will be staged in the school gym and the audience will be made to feel they are guests at a huge night club. The show itself will serve as a floor show for the "guests."

The Follies will be presented in two parts, the first part taking you back to that era when everyone had nothing on their mind but having a good time. The Charleston was the national craze and contests were held throughout the nation. The women bobbed their hair and started wearing slacks. It was also the era of the Mobster, Prohibition and the Bootlegger. In simple words it was the era when the solid citizens of today had their fling and decided to settle down to the quieter ways of today.

Throughout the entire show one will be entertained with music arranged and played by Winston Redwine at the piano and Bill Tregoe and orchestra. There will be good songs by many of your friends or people you know. On stage you will see and hear a revival of the old songs and dance routines famous in the 1920's, all of which will be further highlighted by the use of colorful spot lights for special effects. There will be comedy acts to make one chuckle, acts that will make some of you recall an exciting youth, and even one or two

The Lynn County News

TAHOKA, TEXAS,

FRIDAY, APRIL 13, 1951

Edwards Gets Bad Reputation By Telling Truth

We failed to mention last week the visit that Mr. and Mrs. E. R. Edwards had just made with relatives and friends at Bartlett, Holland, and Shiloh in Bell county and also in Austin. They visited his sister, Miss Bernice Edwards, who works in the state employment commission there. Mr. Edwards says that everybody was having the dry weather blues when he arrived in Bell county but that it rained while he was there, and so he thinks now that most of the folks down there will manage to stay out of the poorhouse the remainder of this year. Everybody was asking him if they didn't need rain out here. He says he told them Heck, No, that the folks out here were still gathering last year's crop when he left. But Roy says the more he tells the truth down there about the South Plains the more they think he is a liar.

The first application of spray to control the plum curculio should be made when most of the petals have fallen. These insects attack peaches as well as plums and due to the expected short peach crop, peach growers are urged to check their orchards now for this pest.

A "must" in the daily diet is one serving of some whole grain cereal. Cereals help build strong bodies and they are economical from the standpoint of costs.

that might bring tears of remembrance.

After a short intermission, part two will be presented which is entirely a black face scene. The scene is on a wharf or landing on the Mississippi and will feature such talented personalities as Charles Verner singing "Old Man River" with a huge chorus directed by Mrs. Patterson.

This show is nothing like a play in which lines are forgotten or cues missed to sometimes spoil a good show. Instead, it is one of those fast moving pieces of entertainment which everyone can enjoy. The whole stage settings are being designed and painted by Johnny McKaughn and should be something delightful to the eye.

Watch this paper for more articles concerning this production, the show dates, and the price of admission.

A. H. Moyers Is Tahoka Visitor

A. H. Moyers, an old Lynn county boy who moved over to Post about five years ago, was here Monday visiting old friends and looking after his Tahoka property.

Mr. Moyers has been reading The Lynn County News almost from scratch. The paper was established in 1903, and he started reading it when he moved to Lynn county in 1905.

When he first came to Lynn county, he had a section of land in the southeast part of the county, on the corner of which was built the old Joe Bailey school house. He sold the section after three or four years to "Uncle Bud" Brewer, and moved to Oklahoma. He lived there a few years, at Plainview a few years, then returned to Lynn in 1920 to remain until he moved to Post.

While he was living at Joe Bailey, Mr. Moyers planted some cotton in 1906. J. S. Wells and his son-in-law, Mr. Welcher, established a gin in Tahoka that year, located several blocks south of the square. Mr. Moyers said he ginned the third bale of cotton ginned at Tahoka in 1906, but doesn't remember who ginned the two preceding him.

Mr. Moyers owns some rent houses in west Tahoka. He also owns some property at Post which he declares is bringing in enough income from oil to buy his bread and beans.

The hand of little Chris Dyer, the two year old son of Mr. and Mrs. J. C. Dyer, which was severely burned a few weeks ago when he got it caught in a hot roller iron in their home, is reported to be healing nicely now. He is a great-grandson of Mr. and

Mrs. E. H. Cunningham, and it was Mr. Cunningham who gave us this report. The little fellow had just been taken back to a Lubbock hospital Monday for an examination of the burn and the Doctor reported satisfactory improvement.

Silage is a basic feed. A silo filled with good silage is mighty good insurance against pasture failure. Dairymen and other livestock producers are urged to include sufficient acreages of good silage crops in this year's plantings to take care of their needs.

The Chef

and his favorite fare... *Steak* flame-broiled to retain that unbeatable flavor

The efficient, smokeless broilers of gas ranges built to "CP"

standards are cool, convenient and easy to clean. Even

broiling is easy... there are no "hot spots." Fats and greases

are drained away from heat zone to prevent sputtering and

smoking. Rising food and grease vapors are incinerated in

the broiler flame. And... in West Texas where "Steak is

King"... most people say, "I want my steak flame-broiled."

You can always count on winning their favor with the

flavor of flame-broiled steaks... done to a turn... in an

automatic GAS range built to "CP" standards.

Odds AND Ends

(By E. I. The Elder)

Here I am, writing this weighty column again from this end of the line. I know it must be weighty, for no column could be as long as this one without having considerable weight.

One of the first things I did after getting home and finally settling down was to look over the exchanges that come to this office. One of the first I picked up was The Canyon News owned and edited from time immemorial by that prince of weekly newspaper men, Clyde Warwick.

Clyde doesn't conduct a column but each week he has an editorial page that would do credit to any daily newspaper. In fact, in our opinion, there are few daily newspapers in Texas that surpass in intelligence and interest Clyde's editorial page although frequently we do not entirely agree with many of the opinions he expresses.

Last week however, Mr. Warwick expressed a disappointment and a peeve because so many weekly newspaper men no longer carry any home-grown editorials nor even a "column" usually supposed to be composed of lighter and often humorous stuff. We quote from his comments regarding this short-coming of the week of so many of his fellow

newspaper men.

"H. M. Biggarty of the Tulsa Herald reports," Mr. Warwick says, "that he looked over twenty exchanges last week and found that The Canyon News was the only one which published original editorials. A lot of 'damned material' was published as editorial matter."

"Frankly we are disappointed that so many weekly publishers take no interest or pride in their editorials. For years we read more than 75 Panhandle newspapers week after week, trying to gather newspaper material. Those newspapers which have enterprising and readable columns written by the publisher have less need for editorials than those who never carry an editorial expression."

"We have always believed that the reader wanted to know what the newspaper man thinks. They have a right to disagree with his views but after all he is entitled to his say. We shall continue saying our piece regardless of what others may think."

Well said, Clyde. We approve every word of your comments. In fact if a copy of The Canyon News should reach this office without an editorial page, we should feel very much as if we had met up with an old friend who had just had a leg cut off.

Of the weekly newspapers which come to this office, we always read first those which either carry an editorial page or a readable column or both. Then, if we have time, we scan hurriedly the other weekly papers for news items that might possibly be of interest to a goodly number of our own readers. But as a rule a newspaper without either a column or an editorial page is just about as interesting as last year's Ladies Birthday Almanac.

that is, to readers over across the county line.

Down here on the South Plains, however, we have a number of weekly newspapers that carry either an interesting column or a regular editorial page, or both.

Just to mention a few, there are the Slaton Starlette, The Post Dispatch, The Floydada Hesperian, The Ralls Banner, The Lockrey Beacon, The County-Wide News (Littlefield), The Hockley County Herald, The Anton News, The Terry County Herald, and others.

Homer Steen of the Hesperian always gives his readers something worth-while on the editorial page and Nellie Witt Spikes conducts a well-written column that most of the old-timers and the women and many of the rest of us thoroughly enjoy.

A. M. Jackson of the Slatonite conducts a humorous column that brings many a chuckle and a ha-ha from his readers each week.

Each week, too, Eddie Warren of the Post Dispatch gets "Out On a Limb," a friendly sort of column, but he never gets the limb sawed off between him and the tree trunk. He plays safe and rarely ever has occasion to feel "sorry."

Then there is Jack Stricklin and his Terry County Herald. There is just one Jack Stricklin in the world. In his zeal, he may butcher up the King's English quite a bit but that is not half as much as he does to New Dealers wealthy and influential crooks, or just anybody that chooses to take him on-in-an-argument. Jack nearly always has an editorial page that comes off his press steaming hot, and although some folks may find fault with his grammar, they have no trouble in figuring out what he is driving at.

And Jack publishes a column also; writes it himself, and we'll bet nearly all his subscribers read it.

I might go on at much greater length but this is enough to show that there are numbers of newspaper boys down here on the South Plains who have not forgotten how to "shoot 'em up" editorially and who frequently seem disposed to do so.

I am glad to be back among you, gentlemen, where I may sit down and feed on the intellectual provender that you put out each week, and maybe biff you on the nose editorially speaking when you go too far wrong.

Now, just one sup to the publishers of the Avalanche-Journal

newspapers. These papers are just about twice as large as the two daily papers published in Waco, a city of more than 83,000 population, not counting several populous suburbs.

Recently after making a little business and pleasure trip to Seguin, where my daughter Berta works for the State Department of Public Welfare, and then doing a bit of sight-seeing at Gonzales, Bastrop, and other places, I made some mention of the Palmetto State Park situated at Ottine near Luling, which I did not visit, however, and so last week I received a letter from my daughter including an editorial clipping from the San Antonio Express giving some interesting information about the park and the freak of nature that made this such a strange and useful piece of terrain. So, I am publishing it this week in this column paragraph by paragraph, for the edification and pleasure of my two or three readers. Here it is, entitled—

Preservation of Palmetto State Park at Ottine

"At least, one dam that the Army Engineers have recommended for Texas probably will not be built. This is the proposed dam across San Marcos River three miles northwest of Gonzales. It would turn Palmetto State Park into a reservoir."

"Certainly divo-minded, far-sighted Texans will not approve that move. Already, Gordon K. Shearer, executive secretary of the state Parks Board, has protested against the proposal. As he writes, the park at Ottine possesses attractions not found elsewhere in the Southwest and pro-

bably not duplicated in the country.

"That spot is a little cross-section of a 'lost world'—the North American continent as it was before the Ice Age. It is a bog built upon a subterranean stream of warm water, constantly replenished. Consequently, the warm soil produces a natural outdoor hothouse. Palmettos, dwarf

tree ferns (such as in ages past produced the coal beds), moss-hung trees, and numerous tropical plants grow there.

"The area holds minerals and geologic formations not found elsewhere. For many years before a group of public-spirited Gonzales citizens purchased the land and gave it to the State—to be forever preserved for the peo-

ple's benefit—scientists had been going there to study and collect plants, small animals, minerals, and formations, for light upon earth's early history.

"Dr. B. C. Thorp, who heads the University of Texas botany department, discovered the treasure-store of rare plants at Ottine and frequently took his classes

Odds & Ends

(Cont'd. From Editorial Page)

there. Professor H. B. Parks of Texas A. & M. College, Mrs. Ellen Schulz Quillin, director of Wildlife Museum, San Antonio, and other authorities on Texas plant life have utilized that outdoor laboratory for important research. Texas Academy of Science has gone there for 'field days.' Thus it would appear that by right of discovery, science holds a prior claim on Palmetto State Park.

"However, in the 1930's the Civilian Conservation Corps took the spot in hand and built roads, bridges, trails, footpaths, tourists lodges, picnic facilities and a headquarters building. Ever since, the park has been a popular outing place and tourist attraction. It is worth far more to Texas for recreation, and for instruction in nature lore, than as a reservoir for irrigation and power.

"What is more important, Gonzales Warm Springs Foundation draws the waters for treating polio patients from that same source. Have the Federal authorities considered what flooding the area might do to the humanitarian undertaking?"

"Unquestionably, Texas' crippled children hold a prior claim on that spot."

The next time I go to Gonzales, Luling, or anywhere down

Nat Williams, Former THS Principal Named Superintendent at Lubbock

Nat Williams, one-time principal of Tahoka High School for three years, has been named superintendent of the Lubbock Public Schools at a salary of \$15,000.00 a year plus \$100 a month expense money.

Nat, age 46, was high school principal and teacher of mathematics here for three years, from the fall of 1926 to the spring of 1929. While here he built a home on North Fourth street, just west and across the street from the Judge C. H. Cain home. Since leaving here, he has risen to a position of recognition as one of the outstanding school men of Texas.

Many of his old friends here have watched with pride Nat's rise in the school profession. When here, he was a capable young man and was active in civic affairs as well as being a progressive school man.

Mr. and Mrs. Williams have one son, Don, 23, a senior at Texas A. & M.; two daughters, Natlynne, 21, a teacher in Austin, and Gwen, 16, a junior in high school.

A native of Putman, he is a 1924 graduate of Hardin-Simmons. After teaching in Abilene two years, he was elected principal at Tahoka. He left here to serve successively as superintendent at Cross Plains eight years, Baird two years, Ballinger eight, Glendale, and Abilene three and one-half years. He is a member of many state and national professional organizations and is prominent in Abilene civic and church affairs.

The new Lubbock superintendent will be directly answerable only to the school board in an official capacity. I am going to visit Palmetto State Park also. Come and go with me, fellow.

Farmers Plant Evergreen Trees

Three Lynn county farmers have recently planted pine and red cedar trees as windbreaks around their farmsteads, according to N. E. Wood of the local Soil Conservation Service office, who secured the trees free of charge to the farmers.

Bill McNeely, who lives nine

Here's where You come into your own

Once in a while, any man's entitled to let himself go.

He's entitled to that glow of pride that comes from feeling like the very important person that he really is.

He's entitled to take practical steps to make his dreams come true.

In short, he's entitled to own a ROADMASTER, and particularly a ROADMASTER as it is custom built for '51.

For it's more than big and roomy and distinguished in its styling.

It's more than sweetly willing in performance, and superbly poised in stride.

It does things to you, when you let yourself sink deep down in the subtle softness of its cushions, and run a caressing hand over the fine texture of its fabrics.

This is everything a fine car should be!

Of course, this brilliant performer is Fireball powered. It is cushioned by

coil springs on every wheel. It provides, at no extra cost, the complete relaxation of Dynaflo Drive. It has durable and dependable sturdiness engineered into every mechanical part.

But the best is yet to be told. When you check the ROADMASTER price list, you'll find that the car of your choice can be yours for hundreds of dollars less than you'll pay for others with comparable reputation.

Come in soon and see this buy of buys in the fine-car field.

Bennett Remains In Soil Service

WASHINGTON Apr. 12 —Retention of Dr. Hugh H. Bennett, chief of the Soil Conservation Service, past his retirement date was announced today by Secretary of Agriculture Charles F. Brannan.

Dr. Bennett has been with the U. S. Department of Agriculture since 1903, as soil chemist and soil surveyor, and is chief of the Soil Conservation since its establishment in 1935. He was on loan to the Department of Interior from September 1933 until March, 1935, where he organized and headed the Soil Erosion Service before its transfer to the Department of Agriculture as the renamed Soil Conservation Service.

The veteran of nearly 48 years' service in the Department will be 70 years old on April 15.

In announcing Dr. Bennett's extension Secretary Brannan said: "Particularly today, when agriculture production is so important in the mobilization program, Dr. Bennett's long experience is invaluable. His continued services will contribute greatly to the further advancement of soil and water conservation, which is so important in the mobilization of our agriculture resources."

Dr. Bennett has been a soil conservation advocate and leader since shortly after he graduated

from the University of North Carolina in 1903 and entered the old Bureau of Chemistry and Soil as a soil chemist. He turned a temporary assignment to field duty into permanent field work. It took him eventually into most of the agricultural counties in the United States and on special assignments to Cuba, Alaska, and Central and South American Countries.

His specific interest in soil conservation dates back to 1904, when he concluded, during a soil survey of Appomattox County, Virginia, that accelerated, or man-made soil erosion had been an important farm problem since the days before the Civil War. He built up a supporting background of information through subsequent and observations over the country, which he presented at every opportunity in publications, before Congressional committees and otherwise.

Largely on the basis of Dr. Bennett's recommendations, Congress in 1929 authorized setting up 10 erosion control experiment stations in cooperation with the States in representative agricultural areas. They carried out studies of the causes and effects of water and wind erosion, and methods for its control. When the Soil Erosion Service was created in 1933 to demonstrate soil and water conservation methods on actual farms and watersheds in erosion control projects, Bennett was named to head the program.

He continued as chief of the re-

HENRY ZWEIFEL, Republican National Committeeman of Texas

Republicans of Texas are preparing to launch an all-out fight to restore to the state and people of Texas their valuable tideland properties which a ruling of the United States Supreme Court has given to national control and ownership.

This campaign will be part of a militant program Texas Republicans plan to lay before the people in the immediate future Henry Zweifel, Republican National Committeeman for Texas, said. "Texas tidelands belong to Texas," Mr. Zweifel said, "regardless of whatever ruling the Supreme Court has made. Texas Republicans are firmly resolved to restore them to their rightful owners, the people of this state."

"The Government of the United States recognized the right of Texas to retain her public lands when our state agreed to come into the Union. The agreement is part of a treaty between two sovereign nations, the United States and the Republic of Texas. "How did the Supreme Court get around this treaty? By making use of a little known legal clause known as the "equal footing" clause.

"The 'equal footing' clause has long been held to refer only to political and sovereignty rights, never to property rights.

"The exercise of this clause to attempt to legalize a great property steal is, as a matter of fact, the most dangerous aspect of the whole tideland question. It menaces every state in the Union.

"Under the 'equal footing' clause the national government can legally expropriate any state or private property it sees fit to seize."

named Soil Conservation Service when it was transferred to the Department of Agriculture, where it became a permanent agency under the Soil Conservation Act of April 27, 1935.

Dr. Bennett has traveled into various parts of the world since that time, to consult and advise on soil conservation problems. He is the author of various books and other publications on the subject of his life-long work, and holds many awards for distinguished service in the conservation and related fields.

Now is the time, to make plantings in the home garden of squash, cucumbers, pole beans, bush beans, cantaloupes, peas,okra, spinach, eggplant and watermelons. Be sure to include in your planting at least a few plants of the varieties that bear well during the hot summer.

Don't forget the supplemental pleasures for summer grazing. The application of fertilizers, in most cases, will materially increase their production. A mixture of sudan and cowpeas makes a good summer pasture.

Junior Baseball Takes Spotlight

Tahoka South Side junior baseball team won both ends of a twin bill Sunday afternoon at JayCee Park here at the expense of New Home and the Tahoka Colored boys.

South Side downed New Home in the first game by a score of 6 to 1. Ray Madrid went all the way for his second exhibition win of the season. Madrid gave up only

one run of four hits. Smith, Fletcher, Crooks, and Rogers shared the hill for New Home, with Fletcher being charged with the loss.

In the second game, Eustacio Madrid, brother of Ray, hurled the South to a 17-6 win over the Tahoka Colored boys. Bobby Green one of the four Colored hurlers, was the losing pitcher.

A new team, Wayside, managed by James Foster, has entered the league. With this team in, Wilson will not be entered. The Colored boys will play only in the practice games and not during the regular season, which will open sometime in May.

Improvements are being made on the local field. A meeting of team representatives will be held soon to make league rules and a schedule.

As of now, there are four teams in the league, Tahoka North Side, Tahoka South Side, New Home, and Wayside.

Next Sunday afternoon at 2:00 o'clock, Tahoka North Side will play New Home at New Home, and Tahoka South Side will play Wayside at Tahoka.

REV. HOLCOMB WILL CONDUCT REVIVAL

Rev. C. A. Holcomb, Jr., pastor of the Tahoka Methodist Church, will conduct a revival meeting at the Lockney Methodist Church next week.

He will be back in the local pulpit for both services on Sunday, April 22.

REMINGTON-RAND portable adding machines, less than list price. —The News.

The boys would like to have good crowds out for these games. No charge is made for spectators.

STATED MEETINGS of Tahoka Lodge No. 1941 the first Tuesday night in each month at 7:30. Members are urged to attend. Visitors welcome. —B. F. Sherrod, W. M., Wayne Shawn, Sec'y

HALF-POUND CAKE

If you're scouting around for new dessert ideas, here is an appetizing one to delight your family's sweet tooth. This half-pound cake with a rich cream cheese frosting makes a tasty climax at mealtime or a delicious dish to highlight party refreshments.

Half-Pound Cake 1 cup fortified margarine 1 cup sugar 4 eggs 1 teaspoon vanilla 2 cups sifted cake flour 1 teaspoon baking powder 1/2 teaspoon salt 1/2 cup milk Cream margarine; add sugar gradually and cream until light and fluffy. Beat in eggs, one at a time, beating thoroughly after each addition; add vanilla. Sift dry ingredients and add alternately with milk. Turn into loaf pan, 5 x 9 1/2 inches, coated with pan-coat or greased and dusted with flour, and bake in a moderately slow oven (300° to 350° F.) from 1 to 1 1/4 hours. (One-half cup chopped nut meats may be added after all flour is added, if desired.)

Cream Cheese Frosting 1/2 package cream cheese (1 1/2 oz.) 2 tablespoons margarine 1/2 teaspoon salt 2 to 2 1/2 cups confectioners' sugar 1/2 teaspoon vanilla Cream the cheese, margarine, and salt together until light and fluffy. Beat in sifted sugar gradually. Add vanilla and finish beating. Spread on cool cake. For other tempting, nutritious food ideas, send today for your free copy of "Mealtime Marvels with Margarine," a helpful, 32-page recipe booklet in two colors. Write National Cotton Council, Box 76, Memphis, Tenn.

IT'S A STEAL! Have your tires and wheels balanced today at O. C. Elliott's Panhandle Service Station No. 1 in Tahoka or No. 3 in O'Donnell.

CHEVROLET America's Largest and Finest Low-Priced Car! Yes, LARGEST... and the facts speak for themselves Yes, FINEST... and here are the plain-spoken reasons It's LONGEST in the low-price field, a full 19 1/2 inches of spirited action and clean, sweeping lines. It's HEAVIEST in the low-price field, a staunch and solid 3140 pounds in the model illustrated. It has the WIDEST TREAD in the low-price field, a road-taming 58 1/2 inches between centers of the rear wheels. Longer, heavier, with wider tread... that's the measure of Chevrolet's rock-solid value... big in looks, big in handling and riding ease, big in road-hugging performance. Why settle for less than a Chevrolet... when Chevrolet is the lowest priced line in the low-price field. Good reasons why MORE PEOPLE BUY CHEVROLETS THAN ANY OTHER CAR!
