Number 47

First National Bank Enlarging Quarters Here

Plans for enlargement and improvement of the First National Bank quarters were announced this week by W. B. Slaton, vice president.

Interior of the building will be completely remodeled, the space enlarged by about one-third, new fixtures installed, and the exterior remodeled to some extent.

Last year the bank bought the adjoining C. A. Thomas building, which was occupied by C. N. Woods Jewelry and R. L. Richardson Electric and Radio Shop. Partitions between the bank and these rooms, which are actually a part of the two-story building, will be removed; and the entire ground floor of the building will be used by the bank. The building occupies a lot 55 by 75 feet in size.

Sampson Construction company of Lubbock has the overall contract for remodeling the building.

Outside entrances on the south will be closed, except for the stairway entrance to the second story, and the main entrance at the southeast improved.

The lobby will be enlarged to 23 by 40 feet across the front of (Cont'd. On Back Page)

Mrs. Dub Harvick Taken By Death

Mrs. W. C. (Dub) Harvick, 31, died at 7:40 a. m. Monday in Tahoka Hospital after a lingering illness of many weeks.

The First Baptist Church was filled with relatives and close friends for the funeral services held at 4:00 p. m. Tuesday with Rev. Lee Romsour, the pastor, and Rev. J. H. Sharp, the Methodist Church pastor, officiating. Burial followed in Tahoka Cemetery under direction of Stanley-Jones Funeral Home.

Valerie Bernice Wells Harvick was born in Dallas on November 27, 1919, but her parents, who had long lived in Tahoka, returned to this city soon afterward. She was reared in Tahoka, and was graduated from Tahoka High School in 1937.

Valerie served her church for several years as pianist and for several years as church secretary. She served as secretary in the local AAA office and the county superintendent's office on different occasions.

Last Christmas Eve, December 24, 1950, she was married to W. C. (Dub) Harvick, her "sweetheart" of several years. About three months ago she was stricken with a rare and almost incurable ailment, and for nine weeks preceding her death she was a patient in Tahoka Hospital.

Her grieving husband and other relatives have the deepest sympathy of a great host of friends. Valerie was known and loved by everyone with whom she came in contact.

In addition to the husband, she is survived by her father, R. C. "Ruby" Wells; her step-mother; four brothers, R. C. Jr., Johnnie, and Glenn D. of Tahoka, and James Wells of Oklahoma City; her maternal grandmother, Mrs. Cornelia Kelly of Dallas; and many other relatives of the Wells, Galloway, and Harvick families.

Wilson Leads In Softball Play

Wilson Lions have taken a commanding lead by winning the first two games over New Home of the Softball League championship.

Last Friday night at New Home, the Lions were victorious by a score of 8 to 5.

Tuesday night at Wilson, the Lions took the big end of a 17 to 15 scoring battle.

This Friday night, the two teams tangled at New Home. Wilson Lions could clinch the championship with a victory tonight in the best three out of five game series.

High School Will Start Registration Friday Morning

Registration of Tahoka High School students will take place next Friday morning, beginning at 9 o'clock, Supt. Otis Spears and Principal R. T. Rich announce. This enrolling will be completed by noon, it is hoped.

Grade School and eighth grade students will not come to school until Monday morning. Buses will not run Friday, but they will run Monday, Sept. 3, the full schedule of class will be run off, and the lunchroom will be open. Friday afternoon, there will be a general faculty meeting at which all teachers will be expected to be in attendance.

Priority Given To Poka-Lambro

Poka-Lambro Rural Telephone Cooperative Thursday morning received the biggest item of news it has had since the loan for construction was approved.

National Production Authority in Washington wired Sam Allen, coordinator of the co-op, that 100 percent approval had been given for allotment, authority number, and ratings to apply on orders of materials.

Mr. Allen had expected that, due to shortages, the proposed order would be cut possibly a third. He was surprised to learn plans for materials had been approved in total.

The telephone co-operative is now ready to advertise for bids on materials to be used in construction of the east half of the system comprising Southland, Tahoka, Lamesa, and O'Donnell exchange areas, which will be constructed in this order.

Methodists Will Hold Revival

Beginning next Sunday, August 28th, and running through Sunday, September 2nd, the Methodist Church is having revival services each evening at 8:00 o'clock.

Also, the church is having a vacation Bible School in the afternoon from 3:30 to 5:00 o'clock. There will be Bible stories, singing, a game time and refreshments for the children. There will not be any craft work, but the emphasis will be on Bible stories. All children up to and including Juniors are invited to the school. Registration will be Sunday afternoon at 3:30 p. m. If any child cannot register Sunday afternoon they are urged to register as soon as they can.

Rev. James B. Sharp of Midland will preach in the evening and Rev. Welbourne Sharp of Whitharrel will lead the song services during the revival. Everyone is invited to attend all of these services.

D & H Will Donate New Refrigerator

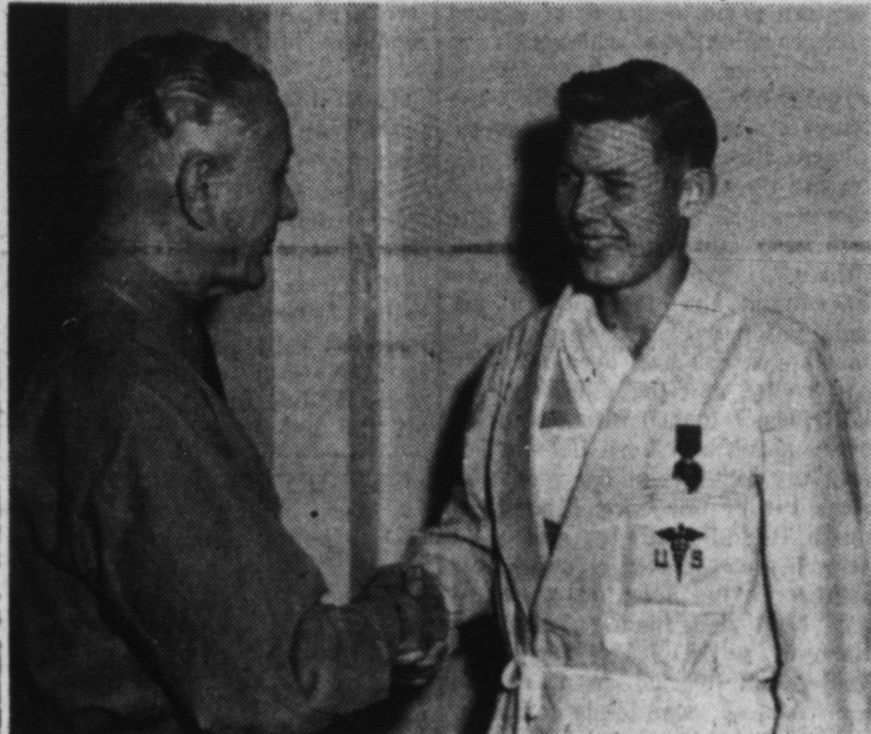

A new 11 cubic foot Admiral refrigerator will be given some customer of the local Davis & Humphries Super Market on Friday afternoon, August 21, at 4:00 o'clock.

C. W. Conway, local manager, invites the people of this territory to register each time they visit the store. The store also has a tie-in with the local Admiral dealer, Larkin Appliance, whereby the purchaser of an Admiral refrigerator becomes eligible for \$50.00 worth of groceries free.

Bobby Carroll Will Recover

Bobby Carroll, manager of the Tahoka Farmers Co-op, who was stricken with some type of paralysis Wednesday morning of last week, is recovering nicely in a Lubbock hospital.

Most or all of the paralysis has left his body, and relatives have been informed by his physician that complete recovery is expected.

Pfc. Bill Dockery, 19, of the U. S. Marine Corps, is pictured above receiving the Purple Heart award at a hospital in Yokosuka, Japan, from Capt. W. F. James, M. C., USN, Commanding officer of the U. S. Naval Hospital. Pfc. Dockery is the son of Mr. and Mrs. Ted Dockery of Grassland, a graduate of Blossom, Lamar county, high school, and celebrated his 19th birthday on August 19th. He landed in Korea on February 15, 1951, and was wounded in action on June 11. His mother reports he has been discharged from the hospital and is now stationed in Kobe, Japan.

Negress Charged In Cutting Scrape

A negro man, Homer B. McCullar, about 26, is in Tahoka Hospital with a serious chest wound, and a Negro woman, Bessie May Willis, about 30, is in the Lynn County jail, as the aftermath of a cutting scrape over "the hill" at about 2:30 p. m. Sunday.

Sheriff Clem told The News that witnesses said when Bessie May stopped in front of a house in the area, McCullar came out to the car and struck at her. The woman pulled a knife and stabbed the man in the chest, cutting a gash several inches long, completely severing a rib, and puncturing the lungs.

Attendees at the hospital said the man had a good chance to recover.

If he dies, County Attorney Mitchell Williams said murder charges would be filed against the woman. If he lives, she will be tried either on a charge of intent to murder or aggravated assault.

Infant Child Of Clint Walkers Dies

Dean Mack, the infant son of Mr. and Mrs. Clint Walker, was dead at birth Sunday morning at 6:00 o'clock.

Graveside funeral services were conducted at Tahoka Cemetery by Rev. J. H. Sharp, pastor of the Methodist Church, with Stanley-Jones Funeral Home conducting.

The parents and their son, Townes, age five, and a number of other relatives survive.

Mrs. Walker was released from Tahoka Hospital Tuesday.

4-H Beef Tour Scheduled Here

A 4-H Club beef tour has been planned for Wednesday, August 29, when all people interested are invited to view the fat calf projects of Lynn County 4-H Club boys, according to Bill Griffin, county agent.

The tour will make the following stops, and others if time permits: Jerry Cain, milk fed; Walton Terry, dry lot; Melvin Edwards, milk fed; Leroy Edwards, dry lot; Chester Watley, dry lot; Charles Gass, milk fed; Jerry Gass, milk fed; Jerald Barton, milk fed and dry lot; Ralph Mires, milk fed and dry lot.

Sheriff Closes "Liquor Joints"

Sheriff "Slick" Clem recently padlocked four O'Donnell places of business, two each allegedly operated by Steve Gonzales and Robert Rivas.

Each claimed to be operating cafes but Sheriff Clem said they were obviously operated principally for the purpose of bootlegging beer, wine, and/or whiskey.

On the most recent raid on one of the establishments, Sheriff Clem says he found five cases of beer and that Robert Rivas, the alleged operator, fled when he approached the building. Last week end, Rivas was apprehended in Odessa and brought back to Tahoka.

Monday morning charges of possession were filed against Rivas, and he was released on \$500 bond.

Tahoka Bulldogs Will Begin Work-Outs On Next Monday

Head Coach Bill Haralson announces that work-outs for Tahoka High Bulldog hopefuls will begin Monday, August 27, at 8:00 a. m. at Kelley Field.

Two work-outs will be held daily until the opening of school on Monday, September 3, due to the short time in which the boys will have to get into shape for the opening game on September 7. The afternoon work-outs will start at 3:00 o'clock.

He is hopeful of having all the 45 boys who were out for training last spring under Coach Joe Turner turn out for Monday morning's work-out.

If sufficient boys report, a B-team schedule of six games has been arranged for those who can not make the A squad this year.

Under the new alignment of schools, Tahoka is in District 4-AA this year along with Post, Slaton, Spur, and Rails, each of

whom had a top team last year. Spur was the champion of it's district.

Six tough non-conference games have been scheduled to complete a 10-game schedule.

The schedule follows: Sept. 7—Sun-down, there. Sept. 14—Denver City, here. Sept. 21—Seminole, here. Sept. 28—Abernathy, here. Oct. 5—Open. Oct. 12—Post, here. Oct. 19—Spur, there. Oct. 26—Slaton, here. Nov. 2—Rails, there. Nov. 9—Lockney, there. Nov. 16—O'Donnell there. * Denotes conference games. Coach Haralson will be coaching his first year here.

He finished high school at Spur, where he lettered in football, basketball, and track. He is a graduate of Howard Payne College, where he played at quarter-

Long Drouth Broken By Rains Which Covered All Dry Areas

Lubbock Man Named Director Tahoka Band

Otis Spears, superintendent of schools, announces that his faculty for the opening of school on September 3 is now complete except for the election of one teacher.

Glenn Burleson of Lubbock is the new band director, and will succeed Bill Tregoe, who resigned to accept a similar position at Iraan.

Mr. Burleson announces that he will start pre-school band practice next Monday morning at 9:00 o'clock at the High School auditorium, and all band members and prospective members are asked to meet there at that time.

The new director, age 26, has been married since January 1. He is a nephew of R. L. Richardson of this city, and himself lived here as a child.

Burleson is a graduate of Lubbock High, served in the Army a few years, and is at present a Senior at Texas Tech. He expects to receive his degree next summer. He comes highly recommended. He has been assisting with the Texas Tech band and with summer band clinics, although he has had no actual teaching experience.

Mr. Spears also announces the election of Miss Marie Johnson, who has had 13 years of teaching experience in Arkansas, to a position here in the grade school, possibly a fifth grade place. One more fifth grade teacher is yet to be elected.

Miss O'Gene Gill Gets B. S. Degree

Miss O'Gene Gill, daughter of Mr. and Mrs. Tom Gill of Tahoka, will be among the 700 students graduating from North Texas State College, Denton. She will receive the B. S. degree from the school of Education.

Miss Gill has been employed as a teacher in the Midland Schools, starting next month. Mrs. Gill went down to Denton for the graduation exercises.

O'Donnell Gets Additional Deputy

Another deputy sheriff has been put on the job at O'Donnell. He is Lloyd Bowlin, and will be on duty nights.

Deputy Sheriff Dee Reese will be the day officer henceforth in the O'Donnell area.

Gas Company Is Granted Increase In Tahoka Rates

A 13.4 per cent increase in gas rates for residential users has been granted by the West Texas Gas company by the Tahoka City Council, according to Russell McGee.

There will be no increase in the industrial rates.

The rate increase was asked by the gas company several weeks ago, and Tahoka was one of the last three towns to grant them the increase.

Mr. McGee is informed the increase granted will cost each home gas user approximately \$3.00 more per year than the present rates, or a total of about \$3,000 per year for the whole town.

The gas company has never before asked a general raise in rates here, but instead had last reduced rates in 1940. The minimum charge will remain at \$1.25.

Local Citizen Is Polio Victim

Bobby George Oliver was taken to Plainview Polio Clinic early Wednesday morning in a Stanley-Jones ambulance, where he is seriously ill with polio. He was placed in a respirator and showed improvement in a short time.

He first became ill on Monday, complaining with a headache. On Tuesday he began vomiting, and was taken to Tahoka Hospital Wednesday night, where his ailment was diagnosed as polio.

Bobby George's wife and parents, Mr. and Mrs. J. B. Oliver, Mr. and Mrs. L. A. Forsythe, and a nurse accompanied him.

Bobby George has been a student in Abilene Christian College, but has been here most of the summer working with his brother, Billy Joe Oliver, painting contractor.

City Increases Police Force

Beginning Sept. 1, the City of Tahoka will have another policeman and a patrol car on duty, the Council voted at a meeting Tuesday afternoon.

A 1951 Plymouth has been bought by the City for a patrol car, and the Council hopes to equip it with a two-way radio later.

L. N. Bartley, who was on the police force here for about 10 months before going to the Slaton force a month and a half ago, will return to Tahoka. He and Dwaine Jones will be on night duty.

Police Chief J. B. Florence will continue on duty during the day.

Newmoore Sets School Opening

Newmoore school has two new teachers of the new school term which opens on September 3, states Mrs. Lenore Tunnell, county superintendent.

They are: John Covey, formerly of the Snyder area, and Mrs. Henrietta Byrd, who comes from Garza county.

Congratulations:

Mr. and Mrs. N. W. Trammell of Tahoka on the birth of a son, Jimmy Michael, weighing 8 pounds and 8 ounces in Tahoka Hospital on Thursday, August 16.

Mr. and Mrs. Elmer Nunley of Post on the birth of a daughter weighing exactly 3 pounds in Tahoka Hospital last Friday morning at 4:16 a. m. The tiny infant, named Sharon Diane, is in an incubator but is reported to be doing fine.

Tahoka Receives 2.76 Inches Rain In Two Days

The drouth and heat wave is broken.

Showers which began falling Sunday were climaxed by a general rain Wednesday which, so far as The News has been able to determine, covered up all the dry spots in Lynn county.

Total precipitation in Tahoka, as measured by the official U. S. Weather Bureau gauge kept by The News, was 2.76 inches.

This included a bare sprinkle Sunday afternoon, 1.12 inch which fell Tuesday morning beginning at 3:00 a. m., .39 of an inch which fell during Tuesday night and early Wednesday morning, and 1.25 inch Wednesday.

Large areas, particularly from the east to the north sections of Lynn county, did not get appreciable moisture until the general rain Wednesday.

However, though coming too late to aid some crops and too late for planting anything now where there are no crops, the rains will materially benefit the county's cotton and feed crops.

The rains broke the back of one of the worst drouths this county has ever had.

There will not be a big crop this year in Lynn county. Some spots have nothing, or almost nothing. Others have some good cotton and feed. Some crops have held up miraculously well under the hot, dry weather and will be benefitted. Even some of the "bumble-bee" cotton may be helped.

One "agricultural expert" estimated the rains would raise the county's cotton production 20,000 bales. He is guessing a 60,000-bale crop.

The rains this time were spotted, ranging up to four or five inches and as low as about an inch.

Heavy rains were received in parts of the Petty, Three Lakes, Wells, Midway, O'Donnell, Draw, and south of Tahoka areas. Showers Sunday afternoon covered some dry areas in the eastern part of the county.

Sheriff's Posse Wins Trophies

Lynn County Sheriff's Posse took first place as the best riding group in the parade held at the Post Junior Rodeo Wednesday of last week. A handsome trophy was presented the local group.

Sheriff "Slick" Clem, president of the Posse, this week received a letter from Santa Fe (N. M.) Trail rodeo association which stated a trophy was being engraved for the Lynn County Posse. Crosbyton had been presented the trophy as the riding group coming the greatest distance for the appearance in the celebration there on July 12, but the Santa Fe organization said there was such little difference in the distance from Crosbyton and Tahoka to Santa Fe that they felt the Lynn County Posse deserved a trophy also.

Grassland School Opening Sept. 3

Grassland school will open Monday, September 3, according to Mrs. Lenore Tunnell, county superintendent, with one more teacher than has been used in recent years because of increase in attendance.

Mrs. Edna Davis is the new teacher. Mr. and Mrs. Tom Pace, who were there last year, will be back with the school.

High school students attend the Tahoka High School.

Odds AND Ends

(By E. I. The Elder)

Well, let's go, folks, for that jaunt out to Double Lakes in the T-Bar Ranch, free of charge, as I promised you last week. All right, we're gone. And now here we are, inside the cattle guard that admits you to the north lake.

That north lake is the one with which people are best acquainted, for right over there in that shady grove at the north end of it lives the leasee of a large area, W. B. Pritchard, a princely gentleman, who, together with his brother, SED Pritchard of Dalhart, have operated the place for two years. So, people having business with the manager come necessarily to see W. B. in that lovely home in which he maintains his headquarters.

Furthermore, since one enters the ranch through that cattle guard, there are no gates to open; and the lake itself seems to be extending you a welcome, for apparently it is as serene and hospitable as the friendly, genial

owner himself.

That lake, extending in a general northeast and southwest direction, must be nearly two miles long and more than a half-mile wide. There are a few weak springs in some of the draws that lead into it, but water for domestic use and for the stock is pumped from wells by wind mills. Heavy rains, of course, put some water into the lake but usually the lake-bed is dry, white, and beautiful.

It must be very restful and satisfying to live out there in that spacious home situated in that pretty grove just above the shore-line at the north end of that lake which stretches far to the south in its be-jeweled frame of earth and shrub and sky. At least that was what A. L. Dunagan and I thought when we ended our brief visit out there a little while ago.

So, having spent a pleasant hour there, we struck out over a dim, winding road through mesquite thickets up the slope and along the east side of the lake until eventually we rounded the south end of it, swerved around to the northwest, if I kept my directions on straight, dipped down into a depression that lies between the two lakes, climbed a hill on the other side, bore around to the west, passed through another gate—we had already passed through two—went down into another draw, thence southward uphill-downhill for a considerable distance, and ultimately up a steep rocky hill that could be climbed only in low gear.

We had been snatching glimpses of the south lake-bed, now east of us, as we went along, and so when we got to the top of that hill, outside and west of the T-Bar pasture, and still could not see the bed of the lake because the hill rose a little higher east of our road, we disembarked, parked our Chevy, managed to climb through the wolf-proof fence, began hot-footing it east. Presently we came in sight of the lake-bed, and there is where we almost went into hysterics, ecstasies, or something else just as fitfitted.

Away out yonder to the east, beyond the mesquite fringe, and far below us, lay the snow-white bed of the lake, glistening in the sunlight, against a background of rugged walls of rock and sand and greenery. That, I believe, was the most thrilling picture I had yet seen at any Lynn county lake. But I could not take a picture of it because it was still forenoon and the eastern sun was directly in my face. We looked to the south across another draw to a higher hill than the one we were on, and I was wild to get a picture of the lake from that vantage point too. So, after briefly discussing the matter, we decided to come home and go back in

the afternoon when the sun would be to our backs. But after starting back home and rounding the north end of this lake, we sought for a long time for a road which might lead to or near the top of the eastern rim of the lake from which we might get a picture looking west, but we sought in vain.

So, coming home for a two o'clock lunch, Dunagan and I headed out west over the Brownfield highway at about 4:00 p. m., got instructions from Mrs. George Claude Wells at her home as to how we might reach some point near to the lake, followed her directions, parked the car at a pasture fence at the back of a field, hurried down a draw to the lake about a half-mile away—and there she was, in all of her glory, the floor as white as frost and as clean, almost, as a lady's parlor; stretching a mile and a half or possibly two miles north to a chalky-white dam which had been built across a draw coming into the lake from the northwest at the north end of the lake; rugged walls of the lake to our right as we faced the north; oval-topped hills rising high and graceful to our left. A marvelous piece of God's handiwork!

But that hill on which we had stood and looked to the east across the lake that morning must have been fully a mile and a half away. There was a taller hill a little nearer. I knew it was going to be a man's job to mount those hills, so I hesitated.

At the south end of the lake, where we were, there were several draws coming down from the southeast, the south, and the southwest into the lake. Waters that had been falling and coming down these draws for countless centuries had worn deep gulches in the earth at many places before spreading out into the lake. Some of these gulches extended far back into the hillsides, and the beds and parts of the walls of these gulches were as white as the alkali-encrusted bed of the lake itself. Here and there rugged little promontories extended like giant fingers out into the lake. The marginal draws were green almost down to the bed of the lake with mesquite bushes and other shrubs and with an occasional hackberry, cotton-wood, or willow tree in the deeper channels. It all presented to the eye a pretty picture. So, I leveled my kodak so as to gather in as much of this beauty as possible and then threw the switch. I hope the picture will be almost as charming as the original one which the great Creator and the

Supreme Artist of this Universe had hung out there at the south end of Double Lake No. 2 for man to appreciate and enjoy.

Although I had taken what I believed would be a charming picture of the breaks and the ravines and the wild shrubbery at the south end of this lake, yet I could not make up my mind to go home without snapping a picture from some elevated point on the western slope. Leaving Mr. Dunagan to explore as he might wish the bed and the shore-line, I started climbing the western slope in search of a good vantage-point from which to snap a picture of the lake-bed and the rugged banks beyond. But the heavy mesquite bushes everywhere obstructed the view, and by the time I had mounted above the mesquite fringe, I found myself in a belt of sage-brush and shin-oak, from ankle-high to knee-high, and teeming in my imagination with rattlesnakes. Also, the ascent had become steep and rocky, and the climbing was laborious. I looked intently under every shrub and herb before putting my foot down, for fear that some rattler was lying hidden beneath it and ready to strike. I also listened intently, but after awhile, having seen no snake of any kind and having heard no warning rattle, I grew a little bolder and hurried on up to the top. Almost completely exhausted, I dropped down on a big rock for a breathing spell.

Then I arose and took a look across the lake. Wonderful! I doubt if old Balboa got a much greater thrill out of scaling that Andean peak in Darien in 1513 and gazing upon the waters of the Pacific Ocean, which also was the first time in history that a European had seen the Pacific.

Of course I was not the first white man by any means to climb that hill and look across that lake; and even if I had been the first white man to do it, I guess that act would not have turned the world upside down or toppled over any thrones or changed the course of history. I don't guess it even would have attracted the attention of a single T-Bar white-face cow. But I got a kick out of it just the same. I also snapped a picture and hope that it too proves to be a good one.

A few hundred yards to the north of me was another commanding hill. From its top I could get a better picture perhaps of the north portion of the lake. Why not do it? It was the first opportunity I had ever had to take pictures of that little beauty parlor and it might be the last.

It is true that there was a deep valley between those two hills, and that valley was covered with scrubby mesquite, sage-brush, and shin-oak; but I couldn't get down off the hill I was on, any way,

without going through that kind of stuff. So, down and then I went through that horrid valley—down pretty fast and up pretty slowly. Again I took a rest and then another snap-shot, and finally a lingering longing look for my car some two miles away. Two miles? My leg meter registered about seven miles.

When in the course of time I got back to the south end of the lake, old Dunagan was gone. He was not to be seen anywhere. I dragged my heavy feet out onto the point of that promontory that extended far out into the lake-bed and took a seat on a tuft of grass, hoping that Dunagan would show up while I was enjoying those cooling breezes that were now coming down briskly from the south and sweeping over that long lake-bed.

The breezes came, but Dunagan didn't. I tried to raise my deep bass voice and roar so loud that maybe he would hear me if he were anywhere in the country. But my mouth was as dry as a dust-pan

and my tongue as thick as a T-Bar bull's tongue. I had to practice a long, long time before I could raise my voice much louder than that of a cooing dove. There was no response, and it was now almost sundown. I was afraid to go on to the car a half mile south for fear that I had left

Cites Dangers From Bollworm

County Agent W. B. Griffin states that Harry Harvey, Associate County Agent - Entomology, has released a statement that indications point toward an increasing bollworm infestation. Growers are urged to be on the alert checking for bollworm eggs and small bollworms.

Remember, you cannot kill injurious insects if they are not there and you may, by making badly timed poison applications, kill some beneficial insects, which may allow the harmful insects to increase later on. Some growers are alarmed at finding a few damaged squares but are unable to find worms now. This is many times old damage and gives you a false report of what is going on in the field.

We want to emphasize the importance of making regular infestation counts. Growers should make field inspections at least two times a week and be on the alert at all time so that quick action can be taken when needed to prevent damage.

In checking for bollworms examine 100 or more main terminals of plants selected at random from representative points in each field. Unless bollworm eggs and 4 or 5 worms are found per 100 terminals, do not apply controls. If the forms and eggs are present and building in damaging numbers, you can apply sprays using 2 to 3 quarts (1 to 1 1/2 pounds per acre) of 25 per-

cent Emulsifiable DDT or 2-1 mixture (Tox-DDT) at 2 to 3 pounds per acre, preferably 3 pounds if cotton is rank and bollworms are heavy. DDT is an excellent control for bollworms; however 1/4 pint or 40 percent TEPP per acre may have to be added along with the DDT to prevent a bad aphid build-up which usually follows the application of DDT alone. Growers should consider the price in helping them to decide which materials to use.

In the dust you can use 10 percent DDT-40 percent sulfur, 2-10-40 (BHC-DDT-Sulfur) or 3-5-40 (BHC-DDT-Sulfur) at 15 to 20 pounds per acre. If aphids build up from using 10 percent DDT-40 percent Sulfur, 1 percent parathion can be added to control aphids.

An important thing to remember is that treatments, whether using spray or dust, must be continued at 5-day intervals until the infestation is brought under control.

Growers are urged to follow carefully the safety precautions printed on the insecticide labels, especially with TEPP and parathion. Formulators should avoid filling gallon jugs all the way to the top with TEPP or parathion. Reports have been received that a few jugs have "Blown up" because they were filled to full. A full gallon is obtained in most jugs without filling the neck and if filled too full they constitute a very serious hazard.

Odds & Ends

(Cont'd. From Page 2)

Dunagan up around a bulge in the lake-shore far to the north, waiting for me to come down out of the hills.

Knowing that anything as big as a jack-rabbit out on that lake bed could be seen for a distance of two miles in any direction, I ambled away out into the middle of the lake, yelling whenever I could find breath enough. Finally I dragged my feet in to shore and decided to drag them on up the draw to the car. Just as I was starting, I thought I heard a human voice doing its best to

yell. I scanned the horizon for a moment and saw a man up on a ridge several hundred yards to the south gesticulating and waving his hat wildly and trying to yell at the top of his voice. So I trudged on up to where he was but it was an up-hill business, I want to tell you.

When we got back to the car I proceeded to irrigate that segment of Sahara Desert inside my mouth and throat and to loosen up my parched and swollen tongue a bit with that jug of ice water which we had left in the car. Dnuagan had already taken a swig at the fountain and had gotten much relief. Dunagan told me that he had

America's Newest Circus To Appear In Tahoka On Friday, September 7th

been up there about thirty minutes. He had gotten back from the bulge completely exhausted, he said. He told me later that he got up late the next morning and rested all day. I don't think he hoed any more cotton all that week.

And boy, I want to tell you, I He has—I've been at it just a several days after taking that trip. I think the exercise was helpful, or will be in a month or so from now after I get thoroughly rested up.

By the way, folks, I got those films back the other day, and the pictures were good, for a young photographer like me. Of course, they didn't quite measure to the pictures the Lord had made and spread out there in his great art gallery for all "His chillun" to enjoy, but you know I haven't been at the business as long as He has—I've been at it just a few months.

Now, I'm going to let all my friends in on a bargain. If any of them want one of these pictures of the south lake which I took, they can get it for only thirty dollars. It was worth that for me to get them.

By the way, again, if any of my friends want to go with me on the next jaunt I make out to one of the Lynn county lakes and to go the gaits that I set for him, I promise in advance that he will have a free ride out there and back. D. C. Davis made one trip and quit; A. L. Dunagan has made two trips but the last one just about got his goat; Ben Moore is laying off until the weather gets cooler. M. H. Brasher went once and got to ride in a pick-up all over the ranch—no walking. Maybe I can lure him to take it a second time. At any rate, I have had a lot of fun.

And, come to think of it, I have had my Battle of Double Lakes too. And I too came out of it without a wound. And I have a little more respect than ever before for those Comanche squaws who trudged 15 miles with papooses strapped on their backs, trying to get away from white men. A walk of half that distance without papoose appendage is all the walking I want to do in one day, especially any hot day.

And if I had been one of those Negro soldiers wandering around hopelessly and helplessly on a desert without water, I think I should have perished long before any of them did.

Guess we of this race and generation are getting soft.

Traveling on its own special caravan containing car after car crammed and jammed with wonders, and cage after cage of animals from every land, with tons upon tons of equipment, properties and devices and riggings, the all new, streamlined Wallace & Clark Wild Animal Circus will arrive in Tahoka early in the morning of September 7th, and immediately a tented city will rise in the air. The first tent to be erected will be the "cook-house," where all circus personnel are fed, and next, the animal and horse tents, then the "big top" and sideshows. Huge elephants and horses play a prominent part in the erection of this tented city.

For the first time, the American public will have the opportunity of viewing "Mighty Goliath," largest hippopotamus ever captured. This huge beast weighs over four tons and is transported on a special iron bound and steel barred den, and at 10 a. m. on circus day, this mighty animal, together with all the wild animals, will be fed and watered, a spectacle to which the public is cordially invited to view free.

The performance of the Wallace & Clark Wild Animal Circus is acclaimed by press and public as being high class in every respect, and no doubt this popular traveling institution will be greeted by large audiences when it exhibits in Tahoka for an afternoon and night performance on Friday, September 7. Auspices of Tahoka Fire Department.

COMANCHE COUNTY ANNUAL REUNION TO BE HELD SUNDAY, AUG. 26

The annual picnic and reunion will be conducted by residents and former residents of Comanche county Sunday, August 26th in MacKenzie State Park, Lubbock, Texas. Each family will bring a basket lunch. Food will be spread about 12.30. The Stephenson Quartet will sing. — Mrs. Jess Vaughn, Secretary.

YOUNG COUNTY REUNION

Former Young county residents now living in this area will meet at MacKenzie State Park in Lubbock all day Sunday, August 26. Old Young county people and their families are invited to bring a basket lunch and spend the day visiting old friends. Geo. E. Mayes of Crosbyton is president of the organization, and Mrs. Sallie Godfrey of Tahoka is the secretary.

EASTERN STAR MEETING

Tahoka Order of the Eastern Star No. 743 will have its regular meeting at 8:00 p. m. Monday, August 27. A special Bob Morris program is planned. —Lonelle Brown, orthy Matron —Louise Steele, Secretary.

THE LYNN COUNTY NEWS.

Friday, August 24, 1951

Neil Walker, who is with the Humble Oil Company district offices in Midland, was a visitor in Tahoka Sunday and Monday. Neil was reared here, the son of Mr. and Mrs. J. B. Walker. County Attorney and Mrs. Mitchell Williams and baby were called to Dallas last week end to the bedside of his father who was ill in Baylor hospital there. They left him much improved.

Legion Ladies Elect Officers

Mrs. Odelle King was unanimously elected president of the American Legion Auxiliary of Marion G. Bradley Post No. 250 at a recent meeting.

Other newly selected officers who will serve for the 1951-1952 term are as follows: first vice-president, Mrs. Mabel Gurley; second vice-president, Mrs. Eulalia Richardson; secretary, Mrs. Pherne Cade; treasurer, Mrs. Myrna Verner; historian, Mrs. Lenore Tunnell; chaplain, Mrs. Frances Weathers; parliamentarian, Mrs. Thelma Oliver; sergeant-at-arms, Mrs. Fern Leslie; social director, Mrs. LaNeel Bray; and reporter, Mrs. Mary M. Stewart.

Plans were discussed for cooperating with the Legion in staging a barbecue and social as the season's opener.

According to Mrs. Gurley, past president, the principal project of the Auxiliary is giving financial aid to veterans in need, principally needy children of veterans. Also, the Auxiliary annually sells Buddy Poppies which help disabled veterans in hospitals throughout the nation. Last year's local project, under the leadership of the late Mr. and Mrs. Calvin Edwards, Legion and Auxiliary commander and president, was the staging of the "Foolish Follies of '51," the success of which made possible the recent kitchen remodeling program at the Legion Hall.

Mrs. Jennie Lankford, who was seriously ill for several days, is reported by Tahoka Hospital attendants to be recovering nicely and is about ready to go home.

WHAT A DAY!

"Come on in—the water's fine!" invites pretty Doris Day, Warner Bros. dulcet-voiced singing star. The blonde actress wears a glamorous one-piece cotton swim suit for her dip. Her molded, strapless cotton suit is one of the season's most popular designs, the National Cotton Council reports. Doris soon will be seen in a new musical, "On Moonlight Bay."

Picture Show At Rotary Meeting

"Fishing for Fun," a color-sound movie, was presented by A. M. Bray as the program at the Rotary Club luncheon Thursday noon of last week.

Harley Henderson was in charge of the day's program.

Go To Church Sunday.

Water District Vote Planned

The fate of a 21-county underground water conservation district will be decided by Panhandle-South Plains voters in an election tentatively set for late September.

Plans to hold the water district election are being made by five directors who head the temporary district created August 9 by the State Board of Water Engineers following a hearing in Plainview.

The election date will be announced by the directors, E. C. Hatton of Lubbock, A. C. Chesher of Littlefield, Jess Osborne of Muleshoe, Tom McFarland of Hereford and Tom Bostic of Plainview. Duties of these temporary directors are confined solely to holding the election, at which West Texas citizens may approve or reject the district proposal.

The election will be conducted under the local option system, with municipalities, counties and segregated irrigation areas voting separately. The vote of one such political subdivision cannot affect the vote of another. Under this system, a town can vote itself out of the water district while the surrounding rural area joins the district, or vice versa. The working district, when created, may thus consist of one or more counties, part of any of the counties, or the entire area of the 10,649-square-mile reservoir.

The temporary district includes all of Lubbock, Hale, Farmer and Swisher counties and parts of Armstrong, Bailey, Briscoe, Castro, Cochran, Crosby, Deaf Smith, Dickens, Floyd, Garza, Hockley, Lamb, Lynn, Oldham, Potter, Randall and Terry counties.

No One Injured In Two-Car Crash

No one was injured in a two-car crash Tuesday morning at the intersection of Kelsey and Lockwood streets, the West Side Grocery corner.

Mrs. Frank Hill was driving a 1949 Ford headed south. She said she stopped at the stop sign and looked both ways down Lockwood, but failed to see an oncoming car headed east. As she pulled onto Lockwood, and before being aware another car was anywhere near, she crashed into the side of a 1950 Chevrolet. Considerable damage was done to the side of the Chevrolet, but the Ford received lighter damage to the front end.

The Chevrolet was occupied by Frank Wilson and son of Pilot Point, the young son being the driver. They were en route home from a vacation trip to Canada. Following an investigation by Deputies Otis Curry and Chester Roan, the Wilsons were able to proceed to Pilot Point in their damaged car.

ADDING MACHINES—The News is dealer for R. C. Allen Business Machines. See us before you buy.

FIRE WATCHER—Five towers, each 400 feet high, have been erected around Camp Lejeune Marine Base where alert watchers are kept on duty to guard against forest fires. Use of live ammunition creates a fire hazard in the adjacent North Carolina woodlands and the Marines are provided to check a blaze at the first alarm. (Below) Dave Willis, of Jacksonville, N. C., one of the watchers, chugs up the long flights of stairs to his "air-conditioned office." His is no job for a light-headed man.

Miss Milliken And Pennington Wed

Miss Robbje Milliken and Garland Pennington were united in marriage in a simple double-ring ceremony Monday evening at 7:30 o'clock at the Baptist parsonage here, Rev. Lee Ramsour, pastor of the First Baptist Church officiated.

The couple left immediately following the ceremony on a wedding trip to Colorado Springs and other points.

The bride is office manager of Lyntegar Rural Electric Cooperative, and Mr. Pennington is general manager of the same institution.

INJURED GO HOME

Mrs. Dennie Polk and Mrs. Troy Havens, injured in a car accident north of Tahoka two weeks ago, were released from Tahoka Hospital this week.

Both received severe bruises and cuts, but are reported to be improving nicely now.

Mr. and Mrs. "Toe" Roberts of Dallas were here this week for the funeral of Mrs. Dub Harvick and visiting with relatives.

New Doctor Is Indiana Native

Dr. H. C. Bronnberg, physician and surgeon, who last week moved to Tahoka and took over the former Seale Clinic, is a native of Indiana and not India, as stated by The News last week.

The "na" was inadvertently left off the word Indiana, which incorrectly put the Doctor's birthplace on the other side of the world.

Dr. Bronnberg was born and educated in the state of Indiana, coming to Texas last year for an internship at St. Paul's Hospital in Dallas.

Wilson Revival Starting Sunday

Revival services will open at the Wilson First Baptist Church next Sunday with Rev. Vic Allen of Acuff doing the preaching, and Rev. Vance Zinn of Lakeview conducting the song services.

Rev. Allen has just recently returned from the Holy Land, and will show pictures and talk on his experiences while overseas.

Morning services will be at 11:00 o'clock and evening services at 8:00 o'clock. The meeting will extend through Sunday, September 2.

Sismograph Crew Moves To Tahoka

Southern Geophysical company last week moved offices and 17 families to Tahoka, and is expected to remain here for several months.

Tahoka Chamber of Commerce assisted in finding places to live for the personnel. The W. V. McElroy building was rented for the offices.

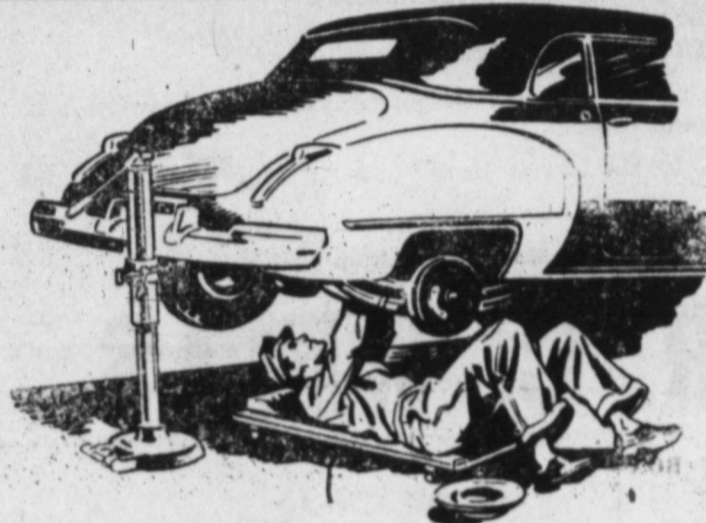

The company will make sismograph tests in this area.

The planting of supplemental forage crops is insurance against a shortage of summer grazing and forage for winter feeding.

Mr. and Mrs. Turner Rogers left last Sunday morning for a few days vacation in Denver and the Rocky Mountain country.

the Draw community Tuesday. Brother Arthur Wright of Sebastian, Texas, visited in several homes here Tuesday.

Mr. Tom Charters, Frank Timmons and Glenn Ensor went fishing at Umbarger Tuesday and Wednesday. They reported fair luck.

Mrs. J. T. Fulford and daughters spent this week with her mother in Dublin.

Visiting in the Charlie Brent home Sunday were Mr. and Mrs. Charlie De Woody and son of Bonham, Mr. and Mrs. John Miller of Lubbock, Mr. and Mrs. Geo. Gilham of Carlisle, Mr. and Mrs. Bill Miller of New Mexico, and Mr. and Mrs. Jack Myght of Anton.

Lonnie Fulford entered the Post Junior Rodeo last week.

Visiting in the Clifton Robison home Friday night were his sisters, Mr. and Mrs. Ted Royal of Fieldon and Mr. and Mrs. R. T. Bidwell of Lamesa.

Congratulations are in order to Mr. and Mrs. E. H. West on the birth of their first granddaughter, the baby's parents, Mr. and Mrs. Bill Branch live in Dallas.

Jake Fulford has returned from a business trip to Waco.

The Baptist Church is conducting a revival from the 17th until the 26th of August. Bro. Matthew Doyle of Meadow, will do the preaching.

The Methodist Church will begin their revival on the 26th of August with Bro. C. T. Jackson of Dalhart doing the preaching.

All are cordially invited to attend both of these meetings.

Mrs. Paul Carlisle of Littlefield visited her sister, Mrs. Clifton Robison Sunday.

Mr. and Mrs. Wilton McNabb and daughters have returned from Wichita Falls where they spent the week-end.

Mr. and Mrs. Jack Smith, Mr. and Mrs. Foy Swinson, Mr. and Mrs. D. B. Wheeler, Mr. and Mrs. C. B. Nowlin, and Mr. and Mrs. Cliff Robinson enjoyed a chicken supper in the home of Mr. and Mrs. Morris Russell Monday night.

Bro. Bert Stice of near Tahoka preached both morning and night services at the Baptist Church Sunday. He and his family spent the day with the L. N. Walker family.

Miss LaVerne Knight spent the week-end with her brother and family, Harvey Dell Knight of Central.

Mrs. W. C. Felty has returned from a sight-seeing tour in California.

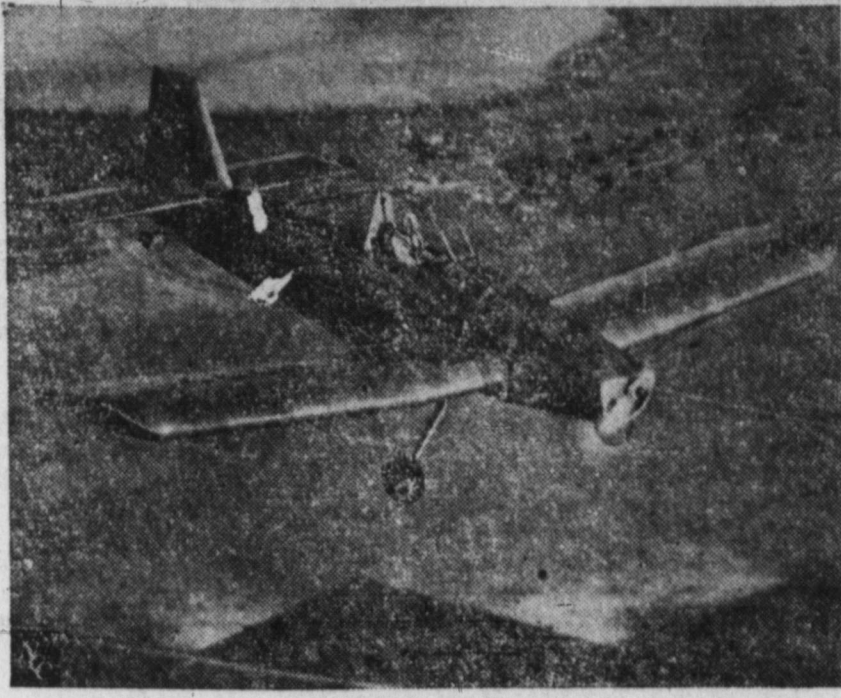

On the sick list this week are Wayne Fillingim, Mrs. H. A. Dial, and LaVerne Knight.

Mrs. Byron Milliken is still improving from an operation a few weeks ago but is still confined to her home.

A nice shower Friday afternoon and night has caused the farmers to be very busy this week. The crops are fair.

Mrs. W. H. Timmons and son

FLYING 'WORKHORSE' DESIGNED FOR FARM USE

This 'workhorse of the air' is a new experimental airplane designed especially for performing such farm operations as crop dusting, spraying, and fertilizing. The experimental plane, designed and built for the Civil Aeronautics Administration by Texas A & M College in cooperation with the National Flying Farmers' Association and the aircraft industry, now is making a series of appearances in the cotton-producing states.

Dwight Townsen Gets B. S. Degree

ABILENE, August 20. —Dwight Townsen, senior student at McMurry College from Tahoka, will complete graduation requirements next week at the close of the summer session.

Townsen will receive the Bachelor of Science degree with a major in speech.

CARD OF THANKS

We sincerely appreciate the kind deeds, flowers, and words of sympathy extended us on the loss of our infant. May God be with each of you kind friends. —Mr. and Mrs. Clint Walker and Townes.

If Swift and Company had during the past 50 years sold every dollar's worth of its products at its actual cost, the consumer would have paid 98.5c.

Wayne spent Tuesday and Wednesday in Dallas.

Miss Jo Rita Fulford is visiting her grandparents in Hereford.

The C. B. Nowlin family spent the week-end at Possum Kingdom.

Miss Jerry Sue Milliken spent this week in Ruidoso, New Mexico, with her grandparents.

Mr. and Mrs. M. J. Williams of Shallowater spent Sunday with his parents, Mr. and Mrs. S. L. Williams.

Hunting, Fishing Licenses For New Year Available

AUSTIN. —Fishing and hunting licenses for the fiscal year beginning September 1 will be in the hands of Texas agents the last week in August, according to the Chief Clerk of the Game, Fish & Oyster Commission.

He said 1650 persons in practically every community in Texas will help distribute the licenses. Approximately 315,000 individual resident sport fishing licenses and roughly 310,000 individual resident hunting licenses will have been issued to Texans for the current fiscal year ending August 31.

All of the 36 licenses issued by the Game, Fish & Oyster Commission must be renewed for the new fiscal year, advised the Chief

Mrs. Dick Mitchell ANNOUNCES

The Opening of Her—
MUSIC STUDIO
FOR ENROLLMENT
CALL 467-W

Clerk.

The fees range from 50 cents for a duplicate individual fishing license, replacing the original, to \$200 for a wholesale fish and oyster dealer permit.

One important change to sportsmen is the new combined \$2.15 resident hunting license which is good for both big game and small game, barring antelope which requires a special \$5 permit. All persons over 17 years of age hunting beyond their home county must have a hunting license.

The resident license for sports fishing in fresh water costs \$1.65. It must be used by all persons over 17 years of age when fishing beyond their home counties or adjoining counties. Licenses must be possessed even then if artificial bait is used in the home county or artificial bait or live bait are used in adjoining counties.

PLAINS MOTOR CO. - 151.

Plant Bluebonnets For Next Spring

COLLEGE STATION.—Take a tip from Mother Nature and plant bluebonnet seed before September 15th. Bluebonnet seeds are small but tough, so it's a good idea to soak them for 24 hours before planting, says Sadie Hatfield, Extension specialist in Homestead Improvement of Texas A. & M. College. Planted early they normally come up in October. They grow all through the winter except during extreme temperatures.

The state flower thrives in many soils, but does best on light sandy soil. One of the beauty spots of Texas is Old Indianola or Matagorda Bay near Port La

vaca where the variety adopted as out state flower grows. The soil at Indianola is coarse white sand with an abundance of shell fragments. In rich well fertilized soil, bluebonnet stalks will grow tall with many large leaves but few blooms. Acid soils of East Texas could grow bluebonnets nicely if sweetened with alkali. Adding one pound of lime or ashes to each ten square feet of soil will counteract acid, adds Miss Hatfield.

Bluebonnets should have plenty of sunshine and good drainage. They can be transplanted in late winter but will do better if planted where they can be left to bloom. In the coldest areas of the state, it will be necessary to start bluebonnets in greenhouses or small flower garden pots. The bluebonnet has few insect and disease enemies.

Bluebonnets are soil building legumes. They seem to be of little or no value for grazing.

The well known Texas botanist, H. B. Parks, has described four blue bonnets; the Chisos Mountain or tall bluebonnet of West Texas, sandy land or Texas bluebonnet, the rock or purple bluebonnet of Central and West Texas and a "pink" bluebonnet. The pink bluebonnet is a perennial in the Western and Big Bend areas

Wanted By FBI

SIDNEY STEINBERG
Sidney Steinberg, Assistant National Labor Secretary of the Communist Party, USA, who was indicted by a Federal Grand Jury at New York City on June 20, 1951, on a charge of conspiracy to advocate the violent overthrow of the government, is being sought as a fugitive from justice by the Federal Bureau of Investigation. The FBI has requested the citizens of the country and the law enforcement agencies to assist in locating Steinberg. His description is as follows:

Age, 36; born September 16, 1914, Otenos Kaundas, Lithuania; height, 5 feet, 6 inches, 157 pounds; build, medium; hair, brown; eyes, blue; complexion, light; race, white; nationality, American.

Steinberg, who used the name Sid Stein in connection with his Communist Party work, resided at Jackson Heights, Long Island, New York, prior to his disappearance. From April, 1930, to September, 1932, he resided in Worcester, Massachusetts, and prior to assuming his duties as a full time functionary of the Communist Party, Steinberg worked as a meat cutter in New York and New Jersey. He attended grammar and high school in Lithuania and was naturalized in March, 1938, in New York City. He has been in the Communist Party since about 1936 and was at one time an organizer in New Jersey. He also held other offices in the Communist Party in Camden County, New Jersey, and in 1945 became Chairman of the New Jersey State Communist Party. His parents, two sisters and three brothers reside at Worcester, Massachusetts. Steinberg claimed at one time that he had a heart murmur.

Any person having information which may assist in locating Sidney Steinberg is requested to immediately notify the nearest FBI office. The phone number will appear on the first page of the telephone directory.

Home Building Gets 'Green Light'

Home building can continue in Lynn county without interruption as a result of recent rulings by defense agencies in Washington, according to R. R. Sherrill, local lumber and building materials dealer and member of the Public Affairs Committee of the National Retail Lumber Dealers Association.

"The new regulations insure a minimum but adequate supply of critical materials for use in new housing, although it will be difficult to build large homes after September 30," Mr. Sherrill said. "Builders will be obliged to economize greatly on steel and copper and no aluminum can be used, except for certain fabricated house parts, but quality homes of moderate size can be constructed without difficulty by using lumber and other plentiful materials in place of the critical metals.

"If kitchens and bathrooms are placed near each other in one part of the house, the government's steel and copper allowances should be ample. In addition, the number of electrical outlets will have to be held to a minimum to come within the copper wire restrictions.

"Through a self-certifying procedure, builders and contractors will be permitted to obtain allotments of steel and copper without having to apply for special permits, thus eliminating the delays which would arise if priority applications had to be filed.

"Prior to October 1, homes of any size can be started, regardless of the amount of metals required, but no priority assistance will be available to help get those materials until after September 30, and only minimum amounts can be obtained then through the self-allotment procedure."

Competitive enterprise is so far gone in Europe that it is illegal to open a new watch factory in Switzerland.

WOMEN CHIEFS IN THE ARMED FORCES—At the Pentagon, Capt. Joy Hancock, USN (left), Director of the Waves, was congratulated on the ninth birthday of the organization by Col. Katherine A. Towle, USMC (2d from left), Director of the Women Marines; Col. Mary Jo Shelly, USAF, Director of Women in the Air Force; and Col. Mary A. Hallaren, USA (right), Director of Women's Army Corps. WAVES (Women Appointed for Volunteer Emergency Service) first joined the Navy on July 30, 1942, when Congress authorized enlistment and commissioning of women in the Naval Reserve. With passage of the Women's Armed Services Integration Act in June, 1948, women for the first time became an integral part of the regular army.

Plains Exhibit At State Fair

The South Plains area will have an impressive display of its own as part of the "Storybook of Texas Agriculture" at the 1951 State Fair of Texas, Dallas, October 6 through 11.

Irrigated cotton will be featured in the large diorama devoted to the South Plains, Extension District 2 of the Texas A. & M. College System.

Growing cotton will line the front of the display while in the center a miniature field of cotton under irrigation will be shown. A model modern farm house, and cotton gin building will also be shown along with the amount of cotton in a bale and the products that can be made with this much cotton.

Grain sorghums, truck garden vegetables and wheat will also come in for a fair share of attention, while growing dahlias will form the floral decorations for the South Plains exhibit.

District 2 includes Farmer, Bailey, Cochran, Yoakum, Lamb, Gaines, Castro, Hockley, Terry, Swisher, Hale, Lubbock, Lynn,

Dawson, Floyd, Crosby, Garza and Borden counties.

The Storybook of Texas Agriculture is a unique, new type of agriculture show developed by the fair and Texas A. & M. For the first time, every part of the state is represented in the show, through the 14 Extension Districts of the A. & M. College System.

The display will give fairgoers an opportunity to see under one roof the complete, comprehensive story of the state's production. Products from the Rio Grande Valley to the Panhandle area can be seen side by side, with each area's products shown in their relative importance.

The glamorous, true story of Texas agriculture is told in a series of colorful, animated dioramas, each devoted to an Extension Service district. The dioramas are built like open pages in a giant book and the entire show covers almost an acre in the mammoth Agriculture Building.

In addition to the 14 district

Tax evasion is so general in France that Americans working there are sometimes given an extra-legal automatic income credit of 3 percent before the tax rates are applied against them, on the theory that Americans do pay their taxes.

At least one and preferably two tons of good hay should be put up during the haying season for each cow in the dairy herd.

Something new and not especially inviting is a "blue tomato." Or how the botanist passes a Monday.

displays, dioramas will tell of the work of Negro Extension Service personnel and 4-H Club members

Rene Sedillot, French author: "The cult of peace has led only to wars, since pacifist nations are insufficiently armed."

Cotton producers are urged to continue their fight against damaging infestations of cotton insects.

Amendments To Texas Constitution Will Be Up To Voters In November

HOUSE JOINT RESOLUTION NO. 37

proposing an amendment to Article VII of the Constitution of the State of Texas by adding a new section after Section 11 thereof to be designated as Section 11a providing for the investment of the Permanent University Fund in additional securities to those now enumerated in Section 11 of Article VII of the Constitution of the State of Texas; providing for the necessary proclamation and publication, and calling of an election therefor.

Be It Resolved By The Legislature Of The State of Texas:

Section 1. That Article VII of the Constitution of the State of Texas shall be amended by adding after Section 11 thereof a new section to be designated Section 11a, which shall read as follows:

"Section 11a. In addition to the bonds now enumerated in Section 11 of Article VII of the Constitution of the State of Texas, the Permanent University Fund may be invested in such other securities, including bonds, preferred stocks and common stocks as the Board of Regents of the University of Texas may deem to be proper investment for said fund; provided, however, that not more than fifty per cent (50%) of the said fund shall be invested at any given time in stocks, nor shall more than one per cent (1%) of the said fund be invested in securities issued by any one (1) corporation, nor shall more than five per cent (5%) of the voting stock of any one (1) corporation be owned; and provided further that stocks eligible for purchase shall be restricted to stocks of companies incorporated within the United States which have paid dividends for ten (10) consecutive years or longer immediately prior to the date of purchase and which, except for bank stocks and insurance stocks, are listed upon an exchange registered with the Securities and Exchange Commission or its successors. This amendment shall be self-enacting."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at an election to be held throughout the State on the second Tuesday in November, 1951, at which election all ballots shall have printed thereon:

"FOR the Constitutional Amendment providing for the investment of the Permanent University Fund in additional securities to those now enumerated in Section 11 of Article VII of the Constitution"; and

"AGAINST the Constitutional Amendment providing for the investment of the Permanent University Fund in additional securities to those now enumerated in Section 11 of Article VII of the Constitution."

Sec. 3. The Governor shall issue the necessary proclamation for said election and have the same published as required by the Constitution and laws of this State. The expense of publication and election for such Amendment shall be paid out of the proper appropriation made by law. 45-4tc

SENATE JOINT RESOLUTION NO. 8

proposing an Amendment to Section 48-d of Article III of the Constitution of the State of Texas, authorizing the Legislature to provide for the creation and establishment of rural fire prevention districts so as to provide that the Legislature may authorize an ad valorem tax not to exceed Fifty (50c) Cents on the One Hundred (\$100.00) Dollars valuation.

Be It Resolved By The Legislature Of The State of Texas:

Section 1. That Section 48-d of Article III of the Constitution of the State of Texas be amended to read as follows:

"Sec. 48-d. The Legislature shall have the power to provide for the establishment and creation of rural fire prevention districts and to authorize a tax on the ad valorem property situated in said districts not to exceed Fifty (50c) Cents on the One Hundred (\$100.00) Dollars valuation for the support thereof; provided that no tax shall be levied in support of said districts until approved by vote of the people residing therein."

Sec. 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of the State at an election to be held on the second Tuesday in November, 1951, at which election all ballots shall have printed thereon:

"FOR the constitutional amendment authorizing the Legislature

to provide for the levy of an ad valorem tax not to exceed Fifty (50c) Cents on the One Hundred (\$100.00) Dollars valuation for the creation and establishment of rural fire prevention district; and

"AGAINST the constitutional amendment authorizing the Legislature to provide for the levy of an ad valorem tax not to exceed Fifty (50c) Cents on the One Hundred (\$100.00) Dollars valuation for the creation and establishment of rural fire prevention districts."

Each voter shall mark out one of said clauses on the ballot, leaving the one expressing his vote on the proposed amendment; and if it shall appear from the returns of said election that a majority of the votes cast are in favor of said amendment, the same shall become a part of the Constitution of the State of Texas.

Sec. 3. The Governor of the State of Texas shall issue the necessary proclamation for said election and have the same published as required by the Constitution and laws of this State. 45-4tc

HOUSE JOINT RESOLUTION NO. 2

proposing an amendment to Section 49-b, Article III, Constitution of the State of Texas, increasing the amount of bonds or obligations that may be issued by the Veterans' Land Board is increased to One Hundred Million Dollars (\$100,000,000); providing for the issuance of said bonds and certain conditions relating thereto and the use of the Veterans' Land Fund; providing for an election and the issuance of a proclamation therefor.

Be It Resolved By The Legislature Of The State of Texas:

Section 1. That Section 49-b, Article III, Constitution of Texas, be amended so that the same will hereafter read as follows:

"Section 49-b. There is hereby created a Board to be known as the Veterans' Land Board, which shall be composed of the Governor, the Attorney General, and the Commissioner of the General Land Office. The Veterans' Land Board may issue not to exceed One Hundred Million Dollars (\$100,000,000) in bonds or obligations of the State of Texas for the purpose of creating a fund to be known as the Veterans' Land Fund. Such bonds shall be executed by said Board as an obligation of the State of Texas, in such form, denominations, and upon the terms as are now prescribed by Senate Bill No. 29, Chapter 318 of the Acts of the Fifty-first Legislature (provided, that when the limitation of Twenty-five Million Dollars (\$25,000,000) is used in said Senate Bill No. 29, the same shall hereafter be construed as One Hundred Million Dollars (\$100,000,000), or as said Act may be hereafter amended, or by other laws that the Legislature may hereafter enact; provided, however, that said bonds shall bear a rate of interest not to exceed three per cent (3%) per annum and that the same shall be sold for not less than par value and accrued interest. "In the sale of any such bonds, a preferential right of purchase shall be given to the administrators of the various teacher retirement funds, the Permanent University Funds, and the Permanent School Funds; such bonds to be issued as needed, in the opinion of the Veterans' Land Board. "The Veterans' Land Fund shall be used by the Board for the sole purpose of purchasing lands suitable for the purpose hereinafter stated, situated in this State, (a) owned by the United States, or

any governmental agency thereof; (b) owned by the Texas Prison System, or any other governmental agency of the State of Texas; or (c) owned by any person, firm, or corporation.

"All land thus purchased shall be acquired at the lowest price obtainable, to be paid for in cash, and shall, be a part of the Veterans' Land Fund.

"The lands of the Veterans' Land Fund shall be sold by the State to Texas Veterans of the present war or wars, commonly known as World War II, and to Texas Veterans of service in the armed forces of the United States of America subsequent to 1945, as may be included within this program by legislative act, in such quantities, and on such terms, and at such prices and rates of interest and under such rules and regulations as are now provided by law, or as may hereafter be provided by law.

"All moneys received and which have been used and which have not been used for repurchase of land as provided herein by the Veterans' Land Board from the sale of lands and for interest on deferred payments, shall be credited to the Veterans' Land Fund for use in purchasing additional lands to be sold to Texas Veterans of World War II, and to Texas Veterans of service in the armed force of the United States of America subsequent to 1945, as may be included within this program by legislative act, in like manner as provided for the sale of lands purchased with the proceeds from the sales of the bonds provided for herein, for a period ending December 1, 1959; provided, however, that so much of such moneys as may be necessary during the period ending December 1, 1959, to pay principal of and interest on the bonds heretofore issued and on bonds hereafter issued by the Veterans' Land Board shall be set aside for that purpose. After December 1, 1959, all moneys received by the Veterans' Land Board from the sale of the lands and interest on deferred payments, or so much thereof as may be necessary, shall be set aside for the retirement of said bonds and to pay interest thereon, and any of such moneys not so needed shall not later than the maturity date of the last maturing bond or bonds be deposited to the credit of the General Revenue Fund to be appropriated to such purposes as may be prescribed by law. All bonds issued hereunder shall, after approval by the Attorney General of Texas, registration by the Comptroller of the State of Texas, and delivery to the purchasers, be incontestable and shall constitute obligations of the State under the Constitution of Texas. Of the total One Hundred Million Dollars (\$100,000,000) of bonds herein authorized, the sum of Twenty-five Million Dollars (\$25,000,000) has heretofore been issued; said bonds are here-

in all respects validated and declared to be obligations of the State of Texas. This amendment shall become effective upon its adoption."

"Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at an election to be held throughout the State of Texas on the second Tuesday in November, 1951, at which election all voters favoring the proposed Amendment shall write or have printed on their ballots the following words:

"FOR the Amendment to Section 49-b, Constitution of Texas, for increasing Veterans' Land Fund for the purchase of lands in Texas to be sold to Texas Veterans of World War II, and to Texas Veterans of service in the armed forces of the United States of America subsequent to 1945."

Sec. 3. The Governor of the State shall issue the necessary proclamation for said election,

THE LYNN COUNTY NEWS,

Friday, August 24, 1951

as, for increasing Veterans' Land Fund for the purchase of lands in Texas to be sold to Texas Veterans of World War II, and to Texas Veterans of service in the armed forces of the United States of America subsequent to 1945."

If it appears from the returns of said election that a majority of the votes cast were in favor of said Amendment, the same shall become a part of the State Constitution and be effective from the date of the determination of such result and the Governor's proclamation thereof.

Sec. 3. The Governor of the State shall issue the necessary proclamation for said election,

"AGAINST the Amendment to Section 49-b, Constitution of Tex-

and shall have the same published as required by the Constitution and laws of this State. 45-4tc

Records show that home gardens in Texas are valued at \$380 per acre. It's higher for the intensively worked and fertilized and irrigated smaller plots.

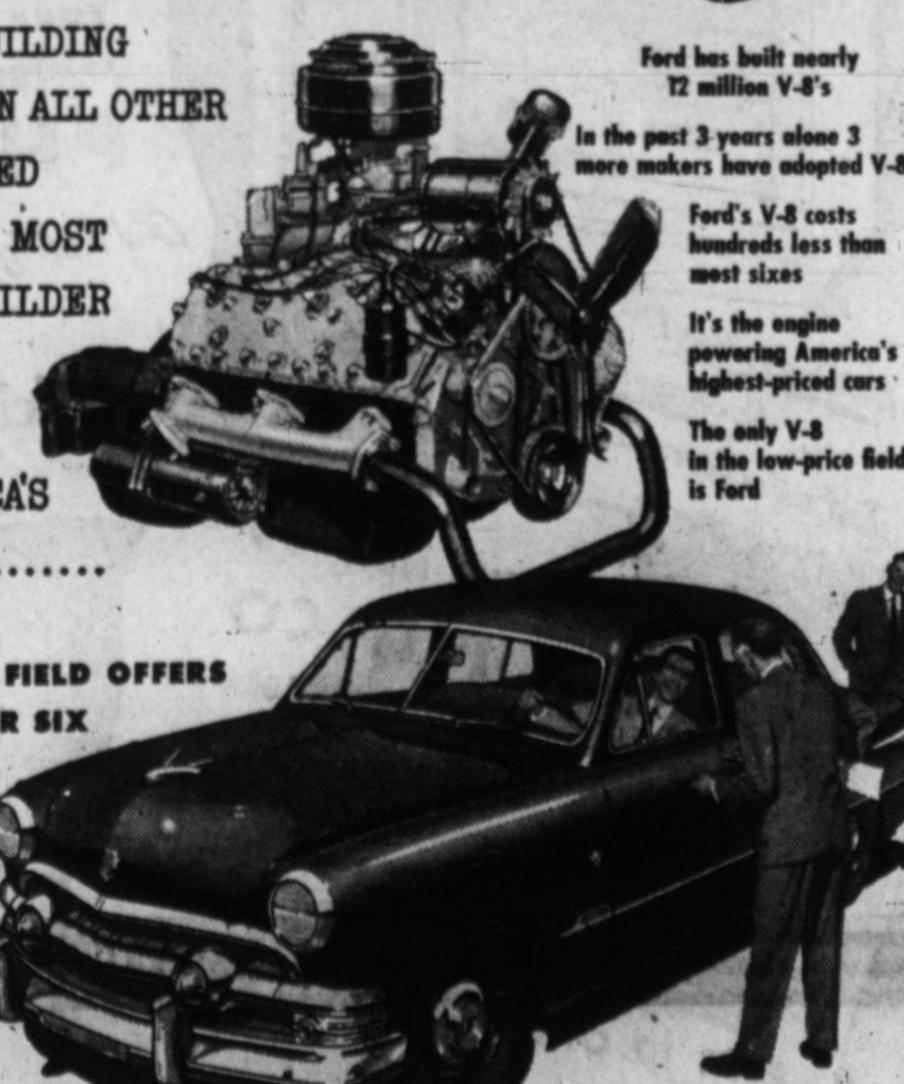

One passenger in a moving automobile takes up nearly 25 times as much street space as does a passenger in a street car, trolley coach, or bus.

School Contract Let At O'Donnell

Contracts were let Tuesday night at O'Donnell for construction of a new elementary school building which will cost approximately \$225,000, including furnishings.

Warner Construction company of San Angelo was low bidder on the general contract at \$138,652. Plumbing contract went to J. W. Gray of Lubbock on a bid of \$19,500, and the electrical contract was awarded J. & H. Electric company of Lamesa for \$9,493.

The new structure will be erected on a plot of ground immediately northwest of the present buildings.

The O'Donnell schools will open on Monday, September 3, the same date set for opening of all Lynn county schools.

John Morris was recently announced as the new superintendent to succeed S. F. Johnson, who resigned to accept a position as assistant superintendent of the Plainview city schools.

Mr. and Mrs. George Nixon will have as their guest this week end Mr. and Mrs. O. L. Bradford of Sweetwater. Mr. Bradford is chief electrician for the new Lone Star Cement plant being built at Maryneal, Nolan county.

Mrs. Cornelia Kelley of Dallas, formerly of Tahoka, was here this week for the funeral of her granddaughter, Mrs. Dub Harvick.

Mrs. Tom Sanders Dies At Hillsboro

Mrs. Tom G. Sanders of Hillsboro, sister-in-law of Dee and Joe Sanders of Tahoka, died of a heart attack at her home Sunday, August 19.

She and her husband had on the Sunday before, August 12, attended a reunion of the Sanders families at MacKenzie Park in Lubbock, and they left here Monday for their home. She was stricken the following Saturday.

Mr. and Mrs. Dee Sanders, Mr. and Mrs. Joe Sanders, and Mrs. Ira Hart attended funeral services held at Hillsboro Monday.

RAY WEATHERS WAS TO BE PROMOTED

Fred Barker of the Levelland First National Bank informs The News that Raymond P. Weathers, who died Thursday morning of last week following a heart attack, was assistant cashier of the bank in that city and was slated to become cashier on September 1, succeeding J. W. Smith.

Mr. Weathers had been with the bank for several years. He had not given up his position with the Levelland bank, as The News stated in last week's issue.

PARKER COUNTY REUNION

The annual reunion of former Parker county people now living in this area will be held at MacKenzie Park in Lubbock, Friday, August 31, at the same place as it was held last year. "Bring your lunch and spend the day," C. C. Williamson, president, writes.

New Home Has Full Faculty

The faculty has been completed for the New Home schools for the season opening Monday, September 3, according to James F. Vaughn, superintendent.

Clint Low, Jr., is high school principal, teacher of mathematics, and Senior sponsor.

Bill Stephenson will teach commercial subjects, history, and sponsor the Junior class.

Coleman Walton is the new Vocational Agriculture teacher and Sophomore sponsor.

Mrs. Bray will teach Home Economics and sponsor the Freshmen.

Larry Morton will teach English and coach.

Grade school teachers are: 8th, Gordon Gaines; 7th and coach, Fred Beard; 6th, C. P. Martin; 5th, Mrs. Virginia McCullough; 4th, name not available; 3rd, Mrs. E. C. Raney; 2nd, Miss Laura Phillely; 1st, Mrs. Doak.

Mr. Vaughn says the resolution recently passed by the board requiring all students to remain on the school ground while school is in session was not meant to discriminate against anyone but is a safety measure to keep children off the highways and roads.

Children need not patronize the lunchroom, unless they desire. Those who bring lunches with them will have access to the room to eat their lunches.

Bank

(Cont'd. From Page 1)

the building, with two offices for the vice president and cashier on the extreme north occupying space 13 by 23 feet.

Five teller windows will face east toward the lobby, with the present vaults west of them. The present ante-room on the south will be converted to a conference and directors' room.

A number of years ago the Bank bought that part of the building on the west now occupied by the bookkeeping department from the late E. S. Davis. This will be remodeled and will continue in use by this department, and will contain rest rooms, mailing room, and storage space.

Walls, ceilings, and floors will be rebuilt with acoustical materials on the ceilings, terrazzo floors on the lobby, and tile covering on the rest of the building floor.

New heating and air conditioning units will also be installed.

The Bank over a long period of time has been gradually improving its equipment and service to its patrons. Just last week, it installed a new Todd check imprinting machine, which enables the Bank to furnish its customers individualized check books with the customer's name printed on the face of each check. With these check books, the Bank is also issuing its customers bill-folds in which to carry the checks and currency.

Predecessor to the First National Bank of Tahoka was established in May, 1906, as a State bank, but eleven months later, in April, 1907, it became a National bank.

Mrs. A. L. Lockwood, whose late husband was one of the first directors and later president of the institution, succeeded her husband on his death a few years ago as president.

Mr. Slaton, is the vice president, and Mrs. W. D. Nevels of Lubbock, whose late husband also was once a president, is vice president.

Other officials include Fred B. (Pete) Hegi, cashier; and W. H. Eudy, assistant cashier.

BEACH GAMBLER!

They call this smart looking cotton swim suit "beach gambler" because it is printed with a domino design. This gay two-piece swimsuit was designed by Brigrance in Hope Skillman's popular cotton with an embroidered effect.

Labor Meeting Next Friday

Farm leaders and farmers of this area will attend a Farm Labor Conference at the Lubbock Hotel Friday, August 31, a meeting sponsored by West Texas and Lubbock Chambers of Commerce.

The meeting is designed to answer questions and solve the problems of the labor shortage which will face farmers this fall. Among the topics for discussion are: Using of Mexican Nationals, ruling on wages and employment of children of school age, and related subjects.

The meeting opens at 9:30 a. m. and will close at about 4:00 p. m. There will be a "dutch treat" luncheon at noon, with plates at \$1.25 each.

OPS Meeting Is Set For Sept. 3

Business men who operate firms which retail services to the public will be told how to meet the requirements of the Office of Price Stabilization regulation (CPR 34) in a meeting in the district courtroom of the Terry County courthouse in Brownfield at 8:00 o'clock Tuesday night, August 28.

The area meeting is for merchants in Lynn, Terry, Gaines, Yoakum and Dawson counties.

All business men whose operations are covered by CPR 34—the government price regulation covering service establishments—are urged to attend the clinic if they need help in preparing their reports to the Office of Price Stabilization, or if they need help in otherwise complying with the law.

CARD OF THANKS

We want to express our sincere appreciation and thanks to all those who were so kind to us during the sickness and death of our loved one. The many things that were said and done will always remain in our hearts. May God richly bless each of you. — W. C. (Dub) Harvick and the Wells family.

Mrs. Joe Waldrip underwent major surgery at Tahoka Hospital last Saturday. She is reported to be improving nicely.

Build, Buy, Live in Tahoka!

Little News On Oil Producers

After finding a small amount of oil with a large amount of water at 10,900-910 feet, the Humble No. 1 Launa Thomas test between Wells and Newmoore is making a test in the Upper Mississippian at 10,720-750 feet in its attempt to make a producer.

Much interest is expected in the Cities Service No. 1 Gregory test in the extreme southwest corner of Lynn county, about four miles southwest of Newmoore. Early this week it was reported running intermediate casing at 4,410 feet. The test is about six miles east of production in Terry county.

Humble No. 1 Cox, north of West Point, was last reported drilling in lime and sand at 8,529 feet.

Work Is Delayed On New School

Work on the new \$250,000 Tahoka elementary school building is being delayed somewhat by failure of steel girders for a part of the roof.

However, workmen have gone ahead with building room partitions and other work. Brick work was completed two weeks ago. Steel for the cafeteria roof was here in plenty of time and this roof has been put on, but the steel for the classroom section is due any time.

The contractor hopes to complete the building by the first of the year but may be delayed.

Miss JoAnn Henderson, spring graduate of Texas Tech, has been elected to a position as teacher of art in Tulia High School.

Mr. and Mrs. Carl Williams and family returned home Wednesday night from San Francisco, where they visited a daughter, Mrs. John Bueerman.

Southland Wins Over Wayside

Southland defeated Wayside 8 to 3 at Southland last Sunday afternoon in the first game of the play-off series to determine the Lynn County Junior Baseball League champions.

The two teams will meet at Jaycee Park in Tahoka next Sunday afternoon at 2:30 o'clock for the second game. A win for Southland will give them the championship, but a win for Wayside will tie up the series and make a third game necessary to determine the championship.

Last Sunday "Lefty" Tremble started on the mound for Southland and went all the way to victory. "Punk" White was the starting pitcher for Wayside, but

was relieved by James Foster. White got credit for the loss.

Local baseball fans are urged to see the game here Sunday afternoon and lend encouragement to the local boys.

OLAN RICE TO COOPER

Olan Rice, vocational agriculture teacher at New Home the past two years, has moved to Cooper, Lubbock county, where he was recently elected to a similar position. He is the son of Mr. and Mrs. Boyd Rice of Kosse, formerly of Tahoka and Wilson.
