## Moon Rock Attracts Viewers Here

On display in the Tahoka High School Library is the Apollo 17 Lunar sample moon rock. The rock, which weighs 77 grams (approx. 1/5 lb.) was collected by Astronaut Harrison Schmitt near the landing site in the Taurus-Littrow valley region of the moon. The mare basalt rock is said to be about 3,750,000,000 years old. It is older than 99.99% of all surface rocks.

The rock may be viewed by the public today (Thursday) and Friday from 9 a.m. to 3:30 p.m.

A slide presentation of the moon and other planets will be narrated by Dr. Robert Moreland, professor at Texas Tech, tomorrow (Friday) at 9 p.m. Dr. Moreland will also have telescopes for students and the public to view the moon and other planets.

This week's moon-related activities are part of the science enrichment program started in the Tahoka schools this year.

**IT LOOKS BETTER** — Volunteers turned out for a work day Saturday, when about 20 persons labored to clean up the lot just east of the Keltner Hotel, which is being restored as a community project. Above, Joe Hays, Jim Solomon and Kent Elliott work on the trees and debris in the early stages of the cleanup. The photo at right shows how much better the lot looked near the finish of the project. ## Sexual Abuse Case Brings Guilty Verdict

A jury in 106th District Court in Tahoka Tuesday found a 67-year-old man guilty of a charge of sexual abuse of a child and sentenced him to 10 years in the state prison. Judge George Hansard assessed the term set by the jury.

The 12-year-old victim of the offense committed on or about June 6, 1982 testified that the former delin-

ing plant manager, welder and county worker, Charles Glendell Connolly, abused her on more than one occasion. Her mother also testified. These were the only prosecution witnesses called during that portion of the trial by Dist. Atty. Joe Smith of Seminole. Defense Atty. Rick Wardrop of Lubbock called Connolly and one of his relatives to the stand.

The jury of seven men and five women returned their verdict of guilty at 2:15 p.m., after deliberations of about two hours. They then heard witnesses in the penalty proceedings. Smith called Lubbock fingerprint expert Jack Mitchell, and the defense called three character witnesses who all testified that they knew Connolly to be a good worker and they felt he could be rehabilitated.

The prosecution also introduced into evidence records of a conviction in Howard County in 1962, which showed Connolly had been convicted of a similar charge at that time.

Connolly's attorney immediately made an appeal bond, so Connolly will remain free on bond at least until the appeals court makes a ruling.

Another jury Wednesday was hearing a case against Bob Mims of Tahoka, charged with criminal mischief in connection with an incident at the school fieldhouse last May.

Pleading guilty before Judge Hansard and sentenced to five years in the penitentiary, probated, was Jimmy Ray Smith, 40, of Idalou, charged with attempted murder in the July

business.

Anyway, I do appreciate the small businesses in our own community. They are the ones who support all the local worthwhile activities, pay a disproportionate share of local taxes and who make a real effort to provide quality of goods and services to local people, a few of whom show their lack of appreciation by driving off to Lubbock or somewhere to buy an article a dollar cheaper. When a local business goes under, it hurts a lot of people other than just whoever owns the business. That's why we always urge people to trade at home whenever possible.

## WOODWORK BY DALTON

WHAT I didn't know until the Small Business Administration sent me some information this week included the fact that there are more than 13 million businesses in the United States, with '98 per cent of these hiring fewer than 500 employees and are considered small businesses by U.S. Small Business Administration standards.

I want everyone to know right now that if I have 495 employees, I sure as heck better have a big business, by my own standards, or I'll never meet the payroll. I wish they had given me information on how many businesses hire fewer than 100 persons.

Anyway, these businesses classified as small by SBA account for about half of the nation's total employment, says SBA, which is sending out all this information in conjunction with Small Business Week, which is May 8-14.

The SBA says "this is the one time of the year when small business steps into the limelight. A Small Business Person of the Year from every state will be in Washington, DC, for ceremonies."

The enclosed list showed that a Mrs. Phyllis Griggs of McAllen, who has a Mr. Donut franchise, is the Small Business Person from Texas. I should have got it. I'm about as small as any person in

## Show Barn Use Temporarily Halted

Because of some problems of enforcement of rules in the past at dances and other events at the Lynn County Show Barn, county commissioners this week called a halt to scheduling any events at the barn

until further notice.

Events already scheduled for the show barn will be allowed, provided sponsors are careful to enforce the rules, the commissioners said. However, no new events will be scheduled until the group has had a chance to review liability insurance and to establish a new plan for scheduling events.

It was decided that the group would take the matter up at the May 2 meeting.

The action followed an appearance before the commissioners by Sheriff Stanley Krause, who said there exists the possibility of serious incidents at some of the functions being held at the show barn. Written rules touch on such things as alcoholic beverages, firearms and required presence of an officer of the law at events, and sometimes, Krause said, these rules have been violated.

Commissioners Monday also re-considered bids on insurance for county facilities and awarded the insurance contract to Clint Walker Agency of Tahoka. Previously it had been voted to award the contract to the apparent low bidder, Moore Insurance of O'Donnell, but Moore advised that he had been supplied erroneous information from one of the insurance companies regarding premiums, and could not meet the price he had bid. Walker was second low bidder on the insurance originally.

It was noted that Ben Morrison, justice of the peace for Precinct 3, has completed an instruction course for JPs.

The group also heard a representative of a microfilm company present a proposal for putting county records on permanent microfilm. At present there are no duplicate records anywhere.

All commissioners and Judge J.F. Brandon were present.

The duty of man is plain and simple, and consists of but two points; his duty to God, which every man must feel; and his duty to his neighbor, to do as he would be done by.

Thomas Paine

18, 1982 shooting of Sharon Elder in Tahoka. The victim was wounded in the arm.

Also sentenced to five years, probated, was William Stokes Thorp, 54, of San Angelo, who pleaded guilty of driving while intoxicated, second offense. He also was fined \$500.

Bobby Cook of Tahoka reported a butane tank stolen from a farm 13 miles southwest of Tahoka Sunday. Deputies talked to a suspect the same day and recovered the tank. No charges were filed.

A three-wheeler motorcycle was stolen from a farm four miles north-east of New Home, Allen Nettles

reported. The vehicle was recovered nearby, but was damaged.

A resident in the 1200 block of Ave. K reported to Tahoka police that she heard a prowler trying to get into her house through the front door at approximately 8:30 p.m. on Wednesday.

Police investigated an accident at the intersection of Main and Ave. J on Friday morning that involved a 1976 Oldsmobile 2-door driven by Bertha Standridge Lawrence of Tahoka and a 1979 Chevrolet pickup driven by Jenaro Benavides Ramon, also of Tahoka. No injuries were reported.

## RECEPTION TO HONOR LADY STEWART

### City-County Library Started In 1931

Mrs. G.M. (Lady) Stewart, a longtime supporter of the library in Tahoka, will be honored at a reception in the City-County Library this Sunday afternoon from 2-3:30 p.m. Mrs. Stewart has compiled a history of the Library and the following excerpts were taken from it.

#### COMPILED BY LADY STEWART

The City-County Library had its beginning in 1931. The Phebe K. Warner Study Club sponsored a book tea at the court house and the 50 books donated at that time formed the nucleus of the present library which has more than 12,000 books on the shelves.

The first library was on the first floor of the court house in a small ante-room. Since this was a project of Phebe K. Warner Club, the members took turns checking out the books and kept records in a small notebook. The club also had a room in the old City Hall, at one time, and in this room, an old wooden telephone booth was used as a library for the few books the club had. The library was open on Saturday afternoons.

The city later required the room

that had been allocated to the Club, so the Library moved to a small southwest room in the basement of the court house, shelves were installed and the curtains from the room at the City Hall were hung.

A Library Board of local citizens was formed and Lady Stewart served as chairman of that board. She has been an active member of that board since its beginning.

In 1941-42, the W.P.A. assisted with the Library by paying the librarian's salary. In 1942, salaries, such as they were, were paid from money collected for book fines. At this time, the county donated \$50 to the library, and later, the county budgeted \$25 a month for the library. Also, the library again moved, this time to a bigger room in the northeast corner of the basement of the court house, a much better location with more room and better light. John Donaldson, a staunch supporter of the library, hauled lumber in his car, and built the shelves himself, free of charge, and he and Mrs. Stewart varnished the shelves using rags as brushes.

The city offered the use of the old

Scout Hall to the library with utilities paid. Phebe K. Warner Club members painted the room and laid linoleum, bought shelves by having salad suppers. Two members of the board moved the books in a pickup to the new quarters.

In 1965, the board was re-organized and members from the entire county were involved. Then, in 1966, the library moved to the newly acquired county building on the northwest corner of the square. The girls from the homemaking classes helped in this move, and about 40 per cent of the building has been designated for library use. This building has been redecorated, and the county now has budgeted \$100 per month for the library, with the use of the building and utilities and upkeep being included in county support.

In February of 1968, the City of Tahoka budgeted \$50 per month to the library, and the name was changed to City-County Library, with a black metal sign installed on the outside wall. For an extended period of time, the Rotary Club gave a book a month to the Library, and local citizenry have also donated many books.

Other guests were Mrs. Brad Hammonds, Traci Green, Vicki Randolph, Lisa Huckabey, all of Tahoka and Carla Reece, of Odessa.

**Hospital Auxiliary News**

The Lynn County Hospital Auxiliary will meet for regular business on Monday, May 2, at 9:30 a.m. in the hospital cafeteria.

President Grace Huffaker urges members to attend this meeting.

The United States Dept. of Agriculture this week released new processing recommendations for the home canning of tomatoes and tomato juice, applesauce, fruit purees and pumpkin. For tomatoes, the USDA no longer recommends the one-step, cold pack method. Instead, use the hot pack method and increase the processing time to 35 minutes for pint jars and No. 2 cans, and to 45 minutes for quart jars and No. 2½ cans. Also increase the hot-pack processing time for tomato juice to 35 minutes. The USDA further recommends that strained (pureed) pumpkin and winter squash not be canned at home. Instead, cubed pumpkin and squash may be canned using a processing time of 55 minutes for pint jars and 90 min. for quart jars. The processing time for applesauce and fruit puree should be increased to 20 minutes for pints, quarts, No. 2 and 2½ cans. To prevent food borne illness and the loss of valuable home canned foods, specialists with the Texas Agricultural Extension Service are urging home canners to follow the new USDA guidelines.

The Tahoka Garden Club met April 20 at 9:30 a.m. in the home of Mrs. C.E. Short with nine members present. Plans to visit the Ranching Heritage Center was discussed. The trip will be made on May 5.

Mrs. Mildred Abbe presented a program on Wild Flowers of Texas.

Two arrangements were brought to the meeting representing Easter by Lucille Stewart and Lahrué Tippit. Lahrué's arrangement was judged first place. Plants were brought and exchanged.

# Rotary Is Host To Secretaries

Rotary was host at Thursday's meeting to secretaries and female staff members, an annual affair of the club.

Mrs. Melvin Burks, teacher of career opportunities classes in Tahoka High School, was the principal speaker.

The course, probably only one of its kind in Texas, is designed to help students decide on and prepare for future careers for which they may be fitted, how to apply for a job, analyzing each one's personalities and interests, studying various possible career, and responsibilities to their future employer.

"What is success?" she asks her students. The answers are varied, but she says she tries to guide them into a life that will be fulfilling, pleasurable and profitable. She hinted that the young people of today

think pretty well, and she feels such study is very important in getting her students off on the right foot.

Mrs. Laura Nettles, head of Lynn County Children's Protective Service, which helps children in need, spoke briefly of her work and gave credit to the Rotary Club's contribution last fall in making the financial drive a success. She will go before the Texas Legislature soon on behalf of the organization's help to needy and abused children.

Charles Louder was in charge of the program, and introduced Mrs. Burks.

About 40 women were guests of the club for Secretaries Day.

## Family Focus

By Harriett Pierce

Allergic illnesses affect an estimated 31,000,000 people in the United States. Allergy victims are often prevented from leading normal lives. Many days of work are missed due to allergy-related illnesses.

The most common allergic diseases include eczema (allergic dermatitis), poison ivy (contact dermatitis), hay fever, asthma, hives (urticaria), and digestive disturbances.

Allergic diseases are a major cause of illness among children. Allergy symptoms usually appear during the first fifteen years of life.

Many parents believe their children will outgrow allergies, and therefore do not treat them. But allergies can become more severe without specific treatment, and should be identified early and treated adequately.

The physician makes a careful review of the pa-

tient's life for clues to the causes of the allergy. The medical procedure may include:

- \* A complete medical and environmental history to detect the allergens involved.

- \* A physical examination with appropriate laboratory tests.

- \* Specific allergy tests to discover the substances to which the patient reacts.

- \* Desensitizing treatments, such as injections, to gradually build up immunity.

- \* A general care plan involving advice on living, supervision of the diet, drugs for temporary relief of symptoms, and other recommendations according to the patient's needs.

Certain treatments will relieve the symptoms but will not cure the allergy. Antihistamines provide relief from mild allergies, especially hay fever.

Severe allergies, such as asthma, usually require a more potent drug treatment. Examples of these drugs include the corticosteroid hormones, epinephrine for treating asthma, and aminophyllin for severe asthma.

Once they are determined, allergy causing substances should be avoided whenever possible. There may be times

when allergens can not be avoided. Then the patient must acknowledge the limitations that allergies cause, and learn to live with them.

Allergy victims can expect to achieve favorable results by following their physicians' advice, understanding their own case, being aware of their sensitivities, avoiding substances that cause trouble, regulating medication and knowing when to seek help from their physician.

**Reducing Your Waistline And Your Blood Pressure**

Overweight? You may not know it, but shedding those unwanted pounds can do more than shrink your waistline. It might also lower your blood pressure.

High blood pressure is twice as common among people who are overweight. When these patients take pounds off and keep them off, chances are they'll need less medicine (or none) to lower pressure to a healthy level. And many people with normal blood pressure can help keep it that way by watching their weight.

Ask your doctor for advice about keeping your weight and your blood pressure under control.

## Telephone Users Face Change

As of April 1, coin telephone users wanting to charge a long distance call to a third number will be subject to having the charges approved by someone at the third number.

The verification procedure is being initiated to help eliminate fraudulent billing of long distance calls and ensure customer protection from having unauthorized charges appear on their monthly statements.

Under the new procedure, if an individual at the third number does not answer and approve the charges, the caller will be asked to provide alternate billing, such as another third number that will approve the charges, a valid calling card, a collect call or correct change to pay for the call.

O.D. Hearn, GTE operations manager in Brownfield said, "Customers who frequently use public coin telephone facilities for third number billing may find that the calling card may represent an attractive alternative. Besides being faster and more convenient than the third number and collect calls, most calling cards calls are cheaper." In a growing number of locations, customers can direct dial calling card calls without operator assistance from

public telephones. The calling card also provides the customer with a printed monthly statement of long distance calls placed.

Customers can call their local telephone business office to obtain a calling card. There is no charge for the card.

## Men's Softball Selections Due

There will be a work night this evening (Thursday) at the softball field to prepare for the men's fast pitch softball league, with all interested persons urged to take part.

League President Curtis Whitley said the workers should be on hand about 7:30 p.m. He also said that the teams will be chosen at 3 p.m. Sunday at the park, again urging everyone to be present.

## Comptroller To Be Available

State Comptroller Bob Bullock announced that Virgil Rogers from his Lubbock Field Office will be at the Lynn County courthouse in the court room on Wednesday, May 4, from 10 a.m. to 12 p.m. Bullock urges anyone with problems or questions concerning state taxes to contact Mr. Rogers at the courthouse in person or call the Lubbock Field Office at (806) 795-0691.

**THE PICTURE**

By Donald J. Yockey, President Defense Electronics Operations Rockwell International Corp. Since it is much less expensive—in lives and tax dollars—to prevent a war instead of fighting one, America's defense contractors are looking for new technologies and new efficiencies to prevent other countries from attacking us.

To make the most of America's war-prevention dollars, many defense contractors are working to reduce costs and make weapons more affordable. More than ever, this country needs improved weaponry and an effective command, control, communications capability to counter the threat posed to our national security. We need to deploy these

**Shelter Forms Requested**

Tahoka city officials this week reminded citizens to fill out their storm shelter forms and return them to city hall. Response has been good but officials believe there are many more. These shelter locations will be on file in the city hall. In the event of a storm disaster the rescue mission would be much faster and could possibly save lives. To familiarize everyone with the different siren blasts, they are as follows: One long blast--fire. Three short blasts--fire practice (first and third Monday nights) Four short blasts--tornado alert Two short blasts--all clear.

weapons quickly and in greater numbers. In addition, the equipment must be reliable—capable of performing when needed. But in order to deploy these weapons, they must be affordable to us—the United States taxpayer who ultimately must foot the bill for our nation's defense. America can attack the issue of rising costs on a united front of productivity, quality and reliability. Already, defense leaders can point with pride to existing and ongoing cost savings programs. Rockwell is aggressively pursuing a "War on Costs."

**Tornado Shelters**

The Tahoka Volunteer Fire Department asks all families with storm shelters to notify them as to where the shelters are located and how many persons will be in the shelters. This information is for the department's use only, should they need to provide rescue operations.

**Tahoka Daisies Meet**

The Tahoka Daisies Extension Club met at Vicki Ashbrook's home April 25. Linda Bartley presided and Harriett Pierce, County Extension Agent, gave a program on "Read The Label, Set a Better Table". A money making project was also discussed and members were reminded of the State meeting to be held in September and the get together at Lyntegar Thursday night. The public is invited to attend. Refreshments were served to five members by Vicki Ashbrook, hostess. Next meeting will be held at the home of Linda Bartley on May 9 at 7 p.m.

**Grand Jury Indicts Six**

A 106th district court grand jury last week returned indictments against six persons. Indicted were: Jose Pedro Alvarez of Tahoka, charged with murder in the Jan. 1 slaying of Guadalupe Cano in Tahoka. Rickey Lavelle Smith of Lubbock, burglary of Dayton Parker Pharmacy March 10. Freddie Salazar of O'Donnell, aggravated assault with a deadly weapon, related to an incident in O'Donnell Feb. 20. Sheila Jones, Thomas Owen Jones Jr. and Sotero Jack Benevides Jr., all charged with theft by taking, related to removal of furniture from a house in Tahoka on April 6.

**Test Your Eyes At Home**

**Don't Take Vision For Granted**  
 A do-it-yourself Home Eye Test for Adults that will enable people to determine if they are seeing as well as they should has just been announced by the nation's oldest voluntary health agency engaged in sight conservation: the National Society to Prevent Blindness (NSPB), which is marking its 75th anniversary this year.

NSPB estimates that there are more than ten million Americans over 25 years old who have lost some vision. Society spokesmen urge everyone to "stop taking their eyes for granted and have them checked periodically to prevent loss of sight."

The Home Eye Test for Adults provides three individual tests—for distance vision, for near vision and for macular degeneration, which affects the ability to read and see fine details in sharp focus. The easy-to-follow, illustrated kit may be ordered from the National Society to Prevent Blindness, 79 Madison Avenue, New York, NY 10016. The fee of one dollar in cash, check or money order covers postage and handling.

**Texas A&M chemist patents device to extract oil from pits**

COLLEGE STATION — A Texas A&M University chemist has patented a device he says will extract water clean enough to drink, and thousands of dollars of petroleum from oil field waste pits now regarded as environmental hazards. Dr. Rod O'Connor said the patent has been assigned to ROMEC Environmental Research and Development Inc., a College Station firm formed to develop and market the device. O'Connor, director of Texas A&M's first-year chemistry program, worked with several other people after hours and on weekends to perfect the system. The first mobile model, housed inside a 16-foot trailer and capable of processing about 50 barrels of waste fluid a day, will soon be field-tested by a Louisiana waste treatment company, he said. A 40-foot unit could handle about 10,000 barrels of waste a day.

By Florence Davies — Call 924-7479

Richard Byers, New Home's basketball coach, reports that his brother, CWO Rayford J. Byers was in stable condition in the American University Hospital in Beirut, Lebanon. He was seriously injured in the bombing of the U.S. Embassy in Beirut last Monday. Byers was the only survivor of a four-man army team sent to Beirut two months ago to teach Lebanese soldiers how to maintain U.S. supplied M 113 armored personnel carriers. Byers was stationed at Ft. Hood Army Base. His wife, Arnesia, and two teenage children live at Killeen. She is a registered nurse. She left Saturday for Beirut. Byers, 36, was reared at Lorenzo, graduated from Slaton High School and attended Texas Tech before joining the U.S. Army 18 years ago. His mother, Bessie May Byers, lives in Lorenzo.

Mrs. Susie Mayfield returned home Saturday after visiting a month with relatives in Dallas, Amarillo and Oklahoma City.

Congratulations to Andy and Judy Fillingim of New Home on the birth of a son, Clayton Ross, born in Lubbock's Methodist Hospital Tuesday, April 19, at 8:50 p.m. He weighed 8 lbs. 3 ozs. and was 21 1/4 inches long. He has an older sister, Brooke, 2 1/2.

Grandparents are Bobby and Adrina Clem and Bobby and Fernie Fillingim. Great-grandparents are Mr. and Mrs. J.A. Evans, A.C.

Fillingim Sr., all of New Home and Mr. and Mrs. Arden Bailey and Mrs. Era Balch of Lubbock.

E.M. and Billie Rudd spent last weekend in Odessa with her sister and brother-in-law, Mr. and Mrs. Otis Goforth.

Richard Wyatt had surgery Thursday in the Lynn County Hospital. He expects to be released early in the week.

Boswell Edwards was moved from the CCU in Methodist Hospital to room 808 Saturday.

Jonathan Mac Edwards was honored on his first birthday with a party in his home in Canyon given by his parents, John Dudley and Cindy. Others helping Jonathan celebrate were his grandparents, John and Mary Bess Edwards of New Home and Lois and Ray Mac Walker of Silverton. Great-grandparents Mr. and Mrs. C.G. Eades of New Home and Aunt Karon Durham, Kary and Kriston.

Ruby, Randy, Rodney and Leah Overman were in Albuquerque last week Friday-Sunday with Carolyn Wright and family.

Walter Smith remains in serious condition in Methodist Hospital.

Mrs. Thad Smith was dismissed from Highland Hospital Friday and returned to her home in Wilson.

**CONTEST WINNERS** — Second place 4-H winners in the Dairy Cattle Judging held recently at Texas Tech University are, left to right, Bruce Lehman, Jody Woodard, Matt Bessire, and Todd Ballard.

in growing, handling, and processing the crop, he said. Cotton-produced revenue at the farm level and in handling, marketing and processing the crop averages more than \$11 billion annually. "By the time our cotton gets to the consumer in the form of products, it has generated almost five times that much revenue or \$53 billion," Brewer stated.

**Cotton In Loan Reported:** Producers had placed a total of 4,991,285 running bales of upland cotton under the Commodity Credit Corporation loan by April 7, according to the U.S. Dept. of Agriculture.

Repayments had been made on 1,807,105, leaving loans outstanding on 3,184,180. Loans are also outstanding on 2,679,641 bales of 1980 and 1981 crops, according to the National Cotton Council.

7-8, in Fresno, Calif. The Foundation is supported by firms that supply and service the cotton industry and is staffed by the National Cotton Council.

**Cotton's Value Noted:** In a recent speech, National Cotton Council President Gerald B. Brewer said he thought cotton people were "overly modest" about the industry's importance to the national economy. Almost half a million Americans are employed

**FFA News**

The Tahoka FFA livestock judging team participated at Big Spring on April 16 and placed fourth over-all. Sean Todd was ninth high individual. Team members were Tadd Knight, Sean

Todd and Martin Martinez. The poultry team participated in Brownfield on April 22 and placed sixth over-all. Team members were John Hawthorn, Jubal Dunlap, Jim Cawman, Todd Pebsworth and James Strickland.

The livestock judging team also participated at Levelland April 22. The team consisted of Mike Rivas, Tadd Knight, Sean Todd and Martin Martinez. A poultry, dairy and livestock judging team also attended the contest at Texas Tech on April 23. Poultry team members were John Hawthorn, James Strickland and Jubal Dunlap. They placed 11th in Area II.

The dairy team consisted of Jesse Vasquez, Scott Orr and Ty Askew. They placed 25th in Area.

The livestock judging team which included Mike Rivas, Tadd Knight, Sean Todd and Martin Martinez placed fifth over-all in Area II which qualified them for the state contest to be held at Texas A&M University April 30. Sean Todd was sixth high individual.

**A Visit With Your County Agent**

By Stanley Young

Cotton farmers can follow a few practices to improve their chances of a uniform crop stand this spring.

Start off with high quality seed properly treated with fungicides. Good quality seed is the foundation on which to start a successful crop.

Check your planter to make sure it's dropping the proper amount of seeds, since different varieties vary in seed size. To get a final stand of three to four plants per foot of row on 38 to 40-inch rows, use a seeding rate of five or six seed per foot with good quality seed and

favorable weather conditions.

Stay abreast of the soil temperature and do not plant until the soil warms up to about 65 degrees F. at the 4-inch depth over a three-day period. At the same time, keep a close check on weather reports and look for a favorable five-day forecast after planting.

Don't plant too deep, and get seed into firm, moist soil with only enough covering soil to prevent moisture loss. Keep bed tillage at a minimum to conserve planting moisture.

Plant on a bed rather than in a furrow. When adding fertilizer in direct contact with seed during planting, keep nitrogen rates below 10

pounds per acre. Higher rates can prevent germination and cause skippy stands. Following these practices can help yet your 1983 cotton crop off to a good start.

**Harvick Named Lone Star Leader**

Robert L. Harvick of Tahoka was among those qualified for Lone Star Leader in the Lubbock area of Life Underwriters.

To receive this honor, a member must have produced \$35,000 in first year business, almost double the requirement for general membership in the Texas Leaders Round Table, an elite organization composed of the life insurance industry's successful underwriters in Texas.

Regular qualifying members included Harvick and Jeff Atwell, formerly of Tahoka.

**Cotton Projects Picked:** Cotton research and education projects totaling more than a quarter million dollars have been approved for 1983-84 by a screening committee for the Cotton Foundation. Projects to find the answer to the cotton dust problem received major emphasis. Other projects include

surveys of annual crop losses to weeds and other pests, studies of field control of aflatoxin contamination of cottonseed, and use of cottonseed oil in pesticide application.

All projects will be presented for approval to Foundation membership at the organization's Ninth Annual Cotton Outlook Conference, June

**NOTICE OF APPLICATION FOR FLUID INJECTION WELL PERMIT**

**WHEELER OIL COMPANY**  
2010 Texas American Bank Building, Fort Worth, Texas 76102 has applied to the Railroad Commission of Texas for a permit to inject fluid into a formation which is productive of oil or gas. The applicant proposes to inject fluid into the San Andres, Clara Crews, Well Number 1-S-INJ. The proposed injection well is located 4 miles Southeast from Wilson in the Guinn (San Andres) Field, in Lynn County. Fluid will be injected into strata in the subsurface interval from 4016 to 4036 feet.

**LEGAL AUTHORITY:** Chapter 27 of the Texas Water Code, as amended, Title 3 of the Natural Resources Code, as amended, and the Statewide Rules of the Oil and Gas Division of the Railroad Commission of Texas.

Requests for a public hearing from persons who can show they are adversely affected, or requests for further information concerning any aspect of the application should be submitted in writing, within fifteen days of publication, to the Underground Injection Control Section, Oil and Gas Division, Railroad Commission of Texas, Drawer 12967, Capitol Station, Austin, Texas, 78711 (Telephone 512/445-1373).

**ASC News**

**Conservation Use Acreage:** There will be an even larger amount of conservation use acreage in the county this year. The county committee is concerned that producers are not aware of what is expected to be done with these acres. Failure to control wind and water erosion and weeds can and will cause you to lose program payments. Taking preventative measures is the best insurance for program benefits. A cover is not required but is strongly encouraged. Spot checks of maintenance of CUA is required.

**Small Grain Certification:** The final date to certify small grain has been extended to May 10. This is also the final date to bale wheat on CUA if you have a PIK contract on that farm. If you have small grain on CUA or will participate in the wheat program, you must certify your small grain. Other small grain should be certified for history purposes. A sketch of your farm will speed your certification.

**Measurement Service:** An accurate certification is an essential part of participating in the program. The tolerance is the larger of 1.0 acre of 5% of the reported crop and 1.0 acre or 5% of the required CUA. The tolerance is applied to dryland and irrigated acreage separately for feed grains and wheat, not cotton.

The rates for 1983 are a minimum of \$20 plus \$9 for each additional slide over two. One slide covers a section of land. If plots must be determined by ground measurement, the rate is \$30 for the first plot and \$15 for each additional plot.

**Dates to Remember**  
April 29- last day to designate who receives first bales of cotton for PIK from joint "A" loan.  
April 29- last day to sign up for ACP.  
April 29- last day to designate cotton in the "A" loan in another county to be used for PIK in this county.

May 10- last day to certify or request measurement service for small grain.  
May 10- last day to bale wheat on CUA if you have a PIK contract on that farm.  
May 31 - last day to place 1982 cotton in the CCC loan.

**CONSTANT COMMENTS**  
By DAVID & EUNICE BIGELOW

Tired of diet soda? Looking for a more healthful alternative? For the summer of '83, here's something new and exciting in its place.

It's an iced tea variation called "Constant Comment" Coolers. Not only are these light, bubbly, cool and refreshing, they're also what we all love—low-calorie!

To make an iced tea cooler, simply mix equal parts "Constant Comment," the original orange-and-spice iced tea, with club soda or ginger ale. Stir, add ice and a wedge of lemon or lime.

Coolers are right in step with today's lifestyles, and the interest in fitness, diets and health. So, why not treat yourself to a new and exciting iced tea sensation today?

Thank you dear friends and relatives for all the things you did to help us through a trying time. To all those that sat with us at the hospital during Winston's surgery, for the cards, letters, and flowers while in the hospital and for the food brought to our home, and especially for the prayers offered. May God bless you all real good.  
 Winston and Florence Davies

We would like to thank Tahoka Fire Service, the Sheriff's Dept. and all our family and friends here in Tahoka for all the kindness you have shown to us since we came back. We really don't know how we ever could repay you all for everything you have done for us. We hope we will be able to one day pay you all back for all the love and kindness you have shown to us and for accepting us into your community. Thanks also to Tahoka High School.  
 God bless you all,  
 Dorothy, Bruce,  
 Jane and Andrew

**Major Medical that's worth a Million.**

**Time Insurance Company's Major Medical plan offers:**

\$1,000,000 in lifetime benefits per insured party.  
 Payment of all covered charges both in and out of the hospital. Without schedules.  
 A deductible you pay just once a year rather than with each medical occurrence.  
 And the plan is area-rated so you don't pay for higher risk areas of the country.
