Woodwork... by Dalton

LIKE MOST People Employed Only in Non-government Services (PEONS), I always figured that folks who worked for the government, especially the U.S. Government, had the best-paying jobs around. In fact, the unofficial viewpoint of most folks I know who work for themselves or for some private company is that government workers have easy jobs with lots of money and good vacation and retirement benefits. Those of you who work for the government probably have been fighting this image all your adult lives.

Government jobs aren't that great, says *Modern Maturity*, a magazine published by the AARP (Association of Ancient Rheumatic Persons?). In fact, says an article in the August issue, government salaries have never been known to compete with salaries in the private sector, and in the 1980s the gap widened until government career salaries were, "on average, 22 per cent below the rate paid for similar work outside government."

Quoted in the story which concluded that "the government of the United States cannot find and keep good people to run the country," was part of a report from a commission chaired by Paul Volcker, Federal Reserve Board chairman:

"...the Dept. of Defense is losing its top procurement specialists to contractors who can pay much more; the Federal Aviation Administration is unable to hold skilled traffic controllers because of stress and working conditions; the Environmental Protection Agency is unable to fill key engineering jobs because the brightest students simply are not interested; the Federal Savings and Loan Insurance Corp. simply cannot hire and pay able executives."

One thing that was noted was the fact that judges are not paid well enough to attract new and good people into the judiciary. Said one commission chairman: "We have to decide whether the Chief Justice of the United States should continue to be paid less than half the average salary of an NFL nose tackle."

Anyway, it was kind of a revelation to me to learn that government jobs are not so great. Still, I'll bet the average is more than most of us make.

Of course, with taxes like they are, most of us work for the government about half of each year.

One of the solutions offered by *Modern Maturity* was, naturally, to have the government hire more retired persons, particularly retired executives who already have demonstrated leadership abilities, to run the government. This does make sense, but if only the old guys are running things, pretty soon the State Dept. probably would be phased out and replaced by the Prostate Dept.

LOTS OF SERVICE—Lewis Spears, left, was presented a plaque last Thursday from the Lynn County chapter of American Cancer Society for 40 years of service to the ACS. Presenting the plaque was county chapter President Dayton Parker, right.

DISTRICT 4-H WINNERS—Back row, left to right, Katy Huffaker, Eva Gickhorn, Brandi Gickhorn, Felicia Davis. Front row, left to right, Brooke Tekell, Halee Hughes and Abbie Gill. These 4-H'ers participated in a style show in Lubbock on July 24.

GOOD PEAS—Deputy Roy Burdett shows off a box of fresh green peas from a garden grown and maintained by trustys at the Lynn County jail. The inmates have grown vegetables on parts of two blocks near the jail, and Sheriff Jack Miller said the garden has supplied the prisoners with good fresh vegetables for weeks, and in the process, has saved the county many dollars on the cost of feeding inmates.

Five Businesses Burglarized Here

Five businesses in Tahoka were victimized by burglars sometime after midnight Sunday, giving the Tahoka Police Dept. a full load of work for the week.

Among the businesses burglarized were the Tahoka City Warehouse located at 1400 N. 5th, the Wright Building at 1524 Harper, Lynn County Appraisal District at 1635 Ave. J, Tahoka Auto Supply at 1652 Main and D & H Tire Co. at 1229 Lockwood.

Damage to the City Warehouse included one window, valued at \$25 which had been broken and approximately \$20 worth of gasoline had been syphoned out of some equipment gas tanks.

The Wright Building had been entered by prying open a metal door causing approximately \$25 damage and also one desk had received approximately \$50 damage.

\$150 damage to a front door at

Lynn County Appraisal District and a filing cabinet that contained a safe was pried open and approximately \$370 cash was stolen. The filing cabinet damage was estimated at \$200.

One wooden door was pried open at Tahoka Auto causing \$25 damage. Nothing else was reported missing.

D&H Tire suffered approximately \$200 damage to a north side metal door, \$500 damage to a safe that had been opened and had stolen approximately \$740 cash. Tools used to open the safe were tools from the tire trucks that were parked inside the business.

Lynn County Crime Line has offered a \$500 reward for information leading to the arrest and conviction of person or persons responsible for these burglaries.

Eight persons indicted by a 106th District Court grand jury July 23 were arrested on the indictments during the last week and all posted bonds after being held briefly. These included two persons indicted on charges of theft over \$750, two for delivery of a controlled substance, cocaine, two on burglary charges, one for attempted burglary and one for aggravated assault.

Also jailed during the week were three persons for public intoxication, one for possession of marijuana under two ounces, plus application to revoke probation on a conviction of driving while intoxicated, one for DWI, one for public intoxication plus no insurance and expired inspection sticker on a vehicle, one for public intoxication and disorderly conduct. The total number of new inmates in the Lynn County jail during the last week was 15.

CORN ON THE COB—Deputy Elton Childress, left, and Les Averitte, an inmate at the Lynn County jail, are holding corn grown by jail trustys at a site southeast of the jail. The garden has done very well, officers said, and includes green beans, peas, squash, cucumbers, corn and other vegetables. The project reportedly has allowed the inmates to eat better and also has saved the county money on grocery bills for the jail.

Denise White - Craig Goodwyn Exchange Wedding Vows July 28

Denise White and Craig Goodwyn were united in marriage in a candlelight ceremony on Saturday, July 28, 1990, at 7 p.m. in First United Methodist Church in Tahoka. Officiating at the double-ring ceremony was Rev. Lloyd Hamilton.

Parents of the couple are Mr. and Mrs. Binie White of Tahoka and Mr. and Mrs. Wayne Goodwyn of Plano.

The church was decorated with candelabrum featuring white and peach silk flowers. Peach bows lined the aisles.

The bride wore a full length gown of raw silk with an alencon lace fitted bodice and a high neckline. Full bishop sleeves were accented with clusters of seed pearls. Her chapel length train featured a waistline bow and a bustle back, both accented with flowers. The bride chose a headpiece adorned with iridescent sequins and clusters of seed pearls. She carried a bouquet featuring a cascade of white stephanotis, white gardenia, sonja roses and baby's breath.

Andra McLaren of Lubbock was matron of honor. Other bridal attendants were Cathy Brown of Irving, Shelley Johnson of Idalou, Celia Spaans of Dallas, Paula Allen of Lubbock and Gayle Gage of Lubbock, sister of the groom.

The attendants wore pale peach full length faille dresses accented with a cummerbund waistline. A deep v-back was accented with a large bow. They carried peach gerbera daisies.

Jerry Crausbay of Dallas served as bestman. Groomsmen were Jack Lee of Sweetwater, Bill Baker of Clearlake City, Dave Barry of Littleton, Colo., and Brad White of Houston, brother of the bride.

Ushers were Edwin Gage of Lubbock, brother-in-law of the groom, and Mike Carter of Seminole, cousin of the bride.

Candlelighters were Elizabeth Kallus and Mary Kallus, cousins of the bride.

MRS. CRAIG GOODWYN nee DENISE WHITE

Registering guests were Barbara Owen and Gigi Gutekunst.

A reception was held in the fellowship hall of the church immediately following the ceremony.

After a honeymoon in Maui, Hawaii, the couple will live in Dallas where Craig is employed by American International Group and Denise is employed by Garland Independent

School District.

Courtesies

Friday evening the groom's parents hosted a rehearsal dinner for the wedding party and guests at the Fifty Yard Line Restaurant in Lubbock.

It wasn't until 1863 that Americans started to take drugs in commercially made pills. Jacob Dunton, a Philadelphia wholesale druggist, originated the machine. His entire production from 1869 until 1876 was less than that now made daily in U.S. laboratories.

OSTEOPOROSIS

Salmon calcitonin offers a new therapy to prevent osteoporosis (weakening bones). Calcitonin is a natural hormone that helps bones develop in humans. Bone content increased 13% in women given calcitonin and calcium, compared to women given calcium and a placebo, reports Dr. Chas. Chesnut of U of Washington. He suggests calcitonin could replace estrogen as 'treatment of choice' for osteoporosis, as calcitonin has fewer negative side effects than estrogen therapy.

ATTENDING THE Y.E.S. CONFERENCE in Lubbock July 18-20 were Carrie Taylor, left, and Annis Godfrey of Tahoka.

Youths And Senior Citizens Map Intergenerational Exchange

A plan to build bridges across the generation gap in 20 South Plains counties and improve the quality of life for both youth and rural senior citizens has come off the drawing board and gone into construction.

The project is Youth Exchange with Seniors (Y.E.S.). Its goal is to promote positive intergenerational relationships between youth and seniors by providing assisted-living services that enhance independent lifestyles of the elderly in rural communities.

Y.E.S. is a cooperative effort of the Texas Tech University Health Sciences Center, the Texas Tech College of Home Economics and the South Plains District of the Texas

Agricultural Extension Service, an agency of Texas A&M University System.

It will link members of 4-H Clubs and Future Homemakers of America with senior citizens in Bailey, Borden, Briscoe, Castro, Cochran, Crosby, Dawson, Floyd, Gaines, Garza, Hale, Hockley, Lamb, Lynn, Lubbock, Parmer, Scurry, Swisher, Terry and Yoakum counties.

It is a model program, funded principally with a \$254,000 grant from the Robert Wood Johnson Foundation, the nation's largest health care philanthropy. It is intended as a pilot effort which can be duplicated across the nation.

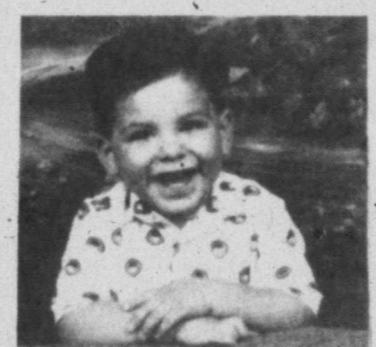

The program was initiated July 18-20 with a summer institute at the Texas Tech Health Sciences Center which provided two-and-a-half days of training for adults and a day-and-a-half for teens. More than 100 high school home economic teachers, county Extension agents for home economics and senior citizens and some 20 youthful 4-H and FHA members from the 20 counties took part. Attending from Lynn County were Carrie Taylor, a Tahoka 4-H and FHA member, and Annis Godfrey, County Extension Agent-H.E. Pattie Rambo, Home Economics teacher in Tahoka was unable to attend but will be working with the Y.E.S. Project in Lynn County.

This institute is not just about the Y.E.S. project, it's about aging. It included such topics as understanding aging processes, myths about aging, the project structure, existing services, involving youth and seniors, strategies for community involvement and support, fostering business skills of participants, county planning and program implementation.

In the next two months, county teams will enlist a variety of community volunteers from businesses, health care and civic organizations to teach the youth service providers and match them with seniors requesting services. Seniors will also work with youths to carry out a joint activity that will benefit the community or county.

The projects and services selected in each county will begin in January and continue throughout 1991. Possible services might include routine housekeeping assistance, lawn care, personal services and minor home or auto care.

Happy 2nd Birthday Michael Hernandez

FERTILIZE FRUIT TREES NOW

Fertilizer now will help put your landscape fruit trees in good shape for winter.

Caution and common sense are the watchwords for this process, but many trees benefit from a boost before cold weather comes, said Brett Cypert, county agent.

Make sure the tree is not actively growing as added fertilizer will promote more growth resulting in severe freeze damage.

Trees under three years old should not be fertilized now as they are the most likely to begin new growth.

On mature trees that are not actively growing, apply one cup of ammonium sulfate (21-0-0) around the dripline. The dripline is the edge of the tree's canopy and is usually the edge of the tree's root area.

For trees that look to be in poor health, two cups should be added, Cypert said.

Higher rates than those suggested could cause freeze damage, but the correct amount at the right time will make the trees look healthier and bloom better next spring.

PAGEANT SLATED—Fifteen teams of mothers and daughters from throughout Texas will take part in the 1991 Texas Mother/Daughter Pageant Aug. 5-6 in San Antonio, with the finals being edited into a one-hour television special airing later. The reigning Texas Mother/Daughter team of Phyllis Weiss (M) and Tisa Hibbs (D) of Tyler, above, will crown their successors and will offer commentary.

Water Loss Reduction Seminar Planned

The seminar is sponsored by the Texas Rural Water Assn.

For more information or to register for the free seminar, contact the Texas Rural Water Assn., 6300 La Calma, Suite 120, Austin, Texas or call (512) 458-8121.

Farmers Should Report Weather Damaged Crops

"Before destroying weather-damaged crops, farmers should notify their county office and obtain failed acreage credit for future crop acreage bases," Jerry Harris, chairman of the Texas State Agricultural Stabilization and Conservation Committee, said.

"Evidence of the failed acreage must be present when we inspect the area for this purpose," Harris said.

Farmers are currently filing acreage reports with ASCS to qualify for benefits on their 1990 program crops. Harris said the reports are necessary to determine program compliance and to document crop acreages for 1990 deficiency payments, and for future programs.

Farmers in compliance with the 1990 acreage reduction programs are eligible for price support loans, deficiency payments and other farm program benefits.
