The truly conderful and remarkable cures that have one under 'ur immediate observation, have more than onvinced us that Doctor Pull is a GREAT MAN, and that his Haid Extract of Sarsaparilla is the most valuable combination of vegetable extracts that the science of chem-istry has yet produced. All success to the Doctor in his

Bull is a great man, and his Sursaportla a GREATER MEDI-Sarsaparilia, will create a far horse status and a variation of the East than Earnam did with Jenny Lind. We would not have our readers to uniterstand as as classing the Doctor and his Sarsaparilia with Bernum and Jenny Lind, because all who spend their dellar for a bottle of Br Te Sarsaparilia will get its equivalent; and we have heard it side hinted, will get its equivalent; and we have heard it side hinted. that many, after hearing the divine Jenny, and finding, their pockets minus from ten to twenty dollars, thought is was paying pretty hear for the waisras. One objection we have to Bull's Sarsaparilia, and each one—it is so exceedingly pleasant to the tare, and invigorating to the system, that, once in the habit of using it, it is equal to smoking the regains, chewing lamphorne's best, or drinking Walker's mint juleps—YOU CANT QUIT IT.—LQUISTILLS DEMOCRAT.

Louisville (burser and Democrat, were endorsed by Ged D. Prentice, Esq., the distinguished chiter of the Louisville Journal, in the following flattering notice:—a

There is to doubt in the world of the greatness of Doctor
Bull, and the excellence of his Sarsaparilla. Some of the
most scientific physicians in the city have applicated the areaparilla, and, what is a great deal better, the mil Sarsaparilla, and, what is a great deal better, the million applant it too. It is having a tremendous sale. The celebrated Jayne has, from the profits of his medicine, built a grantee palace in Philadelphia, seven stories high, and Dr. Buil, if he chooses, can very soon build one twice as high as that. It is, we are told, very difficult for him to walk through our streats at all, as he fluids himself arrested, at every step, by grateful men and women, many of whom have travelled from great distances to look upon their benfactor, and to bless him for their wonderful restoration to very modest and relight; set me trust that the Eastern cities will, in justice to themselves, give a fitting reception to the distinguished man who has made as glorious a campaign against human diseases as tien. Scott made against the Mexicans.

WE have on hand a full ascortment of Muslins, Calicoes, Moll. Jackonet, Lace, Flannel, white and brown Domestic; also, John Buil's Sareaparilis is one of the greatest female medicines now in existence. In those numerous cases where the constitution is debilitated, the nervous energy is lessened, when the efforts of mature are weak and dedicient, or are profuse and overwrought, when the face is pale and coloriese, the strength feeble and yielding, the spirit troubled and depressed, the health broken, mind shaken, and consequently, the happiness destroyed—then Buil's fareaparilis is a sovereign remedy. It assists Nature in the performance of her duty, braces the whole system, renews permanently the natural energies, removes observedions, checks excesses, creates pure any healthy picod, and imparts health and happiness. Were ladies generally to adopt the use of this medicine, we would see far less suffering, disease, and unhappiness, among them, than now exists; health would take the place of disease, the rosy check would succeed the pallid face; we should have suffer instead of fears, and perhaps a happy long life, instead of one cut short by disease, or made misorable by continual suffering and affliction. At that critical period termed "this turn of life," which is often attended with so much danger, limit's Sarsaparilla is found to exert a most Ladies' Shoes, Gaiters, etc., and a large assort-NOTICE TO FEMALES. ment of Gentiemen's Kossuth Hats and Children's Straw Hats. ASBEAUTIFUL CLEAR SKIN, How we all scimire a clear, beautiful, white skin, and a mey colored check? How often do we see persons not pre-sessing this desideration, "so devently to be wished," reserting to collecte, lorious, washes, paints, and coloring materials, to restore them to a samblance of what disease has degrived them of, and that, too, with great injury to the skin. Bull'a distributed that, too, with great injury to the skin. Bull'a distributed that, too, with great injury to the skin. It beautifus the sam by removing every particle of morbid and diseased mailet from the blood, making it pure, healthy, and vigorous, giving detivity to every minute viscal, and changing the politics and dark countenance to the bloom and inchanging the politics and dark countenance to the bloom and inchanging the politics and dark countenance to the bloom and inchanging the politics and dark countenance to the bloom and inchanging the politics and understand managers, and use Bull's sarsuparilla, the only effectual remody. "A word to the wise is sufficient," and a hint is shough for the ladies.

We earmenly invite all peregns who are suffering with any of "the ills that flesh is fleir to," to call on Dr. John Bull's agent, and get a copy of flull's Family Journal, suarts; and for the sake of humanity, we hope that a single individual will not be found, unwilling to give Bull's faresuparille a TRIAL, after reading, and recollecting, at the same time, that it is impossible for the Bostor to publish the tenth part of the number of pertificates of assensing curvs performed by his Saresuparille. The amount of testimony voluntarily showered on Br. Bull's Sarasparille, from well-known and distinguished individuals, both in public and private life.
