RAILROAD FOR CROCKETT.

ONE OF OUR CITIZENS TO PROMOTE A ROAD FROM CROCKETT TO DALLAS.

It is a Good Thing—Help It Along.
Let Crockett Bestir Herself.
Get on the Bandwagon.

EDITOR COURIER:

I have made several trips out west lately where the whole country seems to be alive with activity, building railroads and factories, turning new lands into cultivation and doing most everything necessary to make a good country. Witnessing all this, my mind naturally turned to Crockett. It occurred to me that we could make Crockett as good a town as any in the state, especially the western towns, as we have natural advantages, materials and varied soils, which the western country has not.

With another railroad or two, and probably a cotton mill, Crockett would take on a new life. Every piece of property in town would be more than doubled in value, the town probably increased in population, and other advantages we cannot now see, should such ends be effected.

Desiring to further advance my own and Crockett's interest in general, I have made a very close investigation and desire to say that, with sufficient co-operation from the Crockett people and our neighbors, I am prepared to undertake the building of a railroad from Crockett towards the northwest. It occurs to me that a railroad across the Trinity bottom extending from Crockett is eminently proper.

I am in pretty close touch with some interests who have money and are investing it, and, if the citizens of Crockett think it would be a good idea to attract such interests this way, I would be glad to talk with them. I believe it is a well-known fact that an effort must be made to accomplish anything. And of course, we would

have to expend some energy and money, but in such quantities as I think could be easily obtained.

The state of Texas owns a little road extending from Rusk toward Crockett some ten or twelve miles. There is a movement on foot to have the same extended to Palestine by the state. A more logical route would be via Augusta, Crockett and Weldon to Huntsville, connecting the two penitentiaries together with a direct line independent of the other roads.

With just a little more expenditure of money by the state than is contemplated to extend the road to Palestine would build it to Crockett, provided we of Crockett and other parties along the route could wake up at once and assist. The legislature, I understand, will soon act upon this matter, but I believe with some concerted movement on the part of Crockett and proper representation made to the legislature such action by them might be delayed until we could investigate the matter and make the state some kind of proposition. There are several different propositions which we could make.

Mr. Editor, wouldn't it be real nice if we had the headquarters of two railroads located at Crockett, even though the railroads were only a hundred miles long each, and the shops too all in Crockett? We would not only have more railroads to get in and out over, but we would take on new life, build better streets, sidewalks, better houses, finer ones, and turn old Fanny and Maude into the pastures and buy automobiles.

Yours truly, THOS. SELF.

Gives Health, Vigor and Tone.

Herbina is a boon for sufferers from anaemia. By its use the blood is quickly regenerated and the color becomes normal. The drooping strength is revived. The languor is diminished. Health, vigor and tone predominate. New life and happy activity result. Mrs. Belle H. Shriei, Middlesborough, Ill., writes, "I have been troubled with liver complaint and poor blood, and have found nothing to benefit me like Herbina. I hope never to be without it. I have wished that I had known of it in my husband's life time. 50 cents. Sold by Murchison & Beasley.

EDITOR COURIER:

Most of the people down here have planted corn. They are getting along nicely with their work.

La grippe is prevalent in our community. It seems that nearly every one has had or is having an attack of it. My father has been sick for the last two weeks with it.

One of our farmers who got the western fever has already returned and we are expecting several more to come back soon.

The way the wind is blowing today may be an indication of some bad weather soon. We haven't had any rain to amount to anything for a long time.

The Presbyterian Church.

Services every Sabbath. Sabbath school meets at 9:50 a. m. Preaching at 11 a. m. and at 4 p. m. Prayer-meeting at 4 p. m. on Wednesday.

The Sunday afternoon preaching service and the Wednesday afternoon prayer-meeting do not conflict with services at the other churches, so that members of other churches can attend these services with us and we will be glad to see them. Also the general public, including strangers and visitors in the community, have a standing invitation to be with us at any or all our church services. The Sunday afternoon service and the prayer-meeting last only three-quarters of an hour. Come and bring your children. S. F. TENNEY, Pastor.

Always Keeps Chamberlain's Cough Remedy in His House.

"We would not be without Chamberlain's Cough Remedy. It is kept on hand continually in our home," says W. W. Kearney, editor of the Independent, Lowry City, Mo. That is just what every family should do. When kept at hand ready for instant use, a cold may be checked at the outset and cured in much less time than after it has become settled in the system. This remedy is also without a peer for croup in children, and will prevent the attack when given as soon as the child becomes hoarse, or even after the croupy cough appears, which can only be done when the remedy is kept at hand. For sale by Murchison & Beasley.

Result of City Election.

The city election, held Tuesday for the purpose of electing three aldermen and a city marshal, resulted in the selection of G. Q. King, W. A. Norris and C. C. Warfield for aldermen and Wortham LeGory for marshal. The vote for aldermen was as follows: King, 221; Norris, 205; Warfield, 218.

The vote for marshal was as follows: Brashears, 18; LeGory, 116; Ed Moore, 47; Major Sharp, 8; Young Shook, 55.

All Crockett was pained to learn last week of the death of Mrs. Lucile Benedict Lewis, which occurred at her home in the Indian Territory. Mrs. Lewis will be remembered in Crockett as Miss Lucile Benedict, a niece of Mrs. Thos. Self. First as a little girl and then as a young lady she had made visits to our city, visiting at the home of her aunt, Mrs. Self. Our people saw her develop into a beautiful womanhood and had come to love her as one of their own. Returning to her home at Whitewright, Texas, she was married last year to Mr. Lewis of the Indian Territory. Her death occurred March 10, at the early age of nineteen. Funeral services were held at Whitewright March 11, attended from our city by Mr. and Mrs. Thos. Self. Those bereft by the death of this loved and loving young woman have the sincerest sympathy of all our people.

Invaluable for Rheumatism.

"I have been suffering for the past few years with a severe attack of rheumatism and found that Ballard's Snow Liniment was the only thing that gave me satisfaction and tended to alleviate my pains." A Favorite Remedy for Babies.

Its pleasant taste and prompt cures have made Chamberlain's Cough Remedy a favorite with the mothers of small children. It quickly cures their coughs and colds and prevents any danger of pneumonia or other serious consequences. It not only cures croup, but when given as soon as the croupy cough appears will prevent the attack. For sale by Murchison & Beasley.

Epworth leagues at 3 and 4 p. m.

You are cordially invited to attend any or all these services. We are much pleased with the kind hearing that is given to the word as it is preached, also with the increased attendance. We want every man and woman, boy and girl to attend church in Crockett, and if our church is your preference we will be pleased to have you present. Our singing is inspiring. Miss Foster is giving special attention to the work of the choir, and the members are giving her their support, so we are able to promise you something in the service of song. Do not forget. Always welcome.

Letter to Tony Gossett.

Crockett, Texas.

Dear Sir:—You may like to know what you pay for the paint in a gallon of "paint," assuming the pure-paint part of all "paints" to be all alike; which it isn't; and worth \$1.75 a gallon.

Of a paint adulterated 10 per cent, the pure-paint part brings \$1.94 a gallon.

15 per cent	brings \$2.06 a gallon.
25	" 2.38 "
33 1/2	" 2.62 "
50	" 3.50 "
75	" 7.00 "

The average adulteration of paint in this country is about one-third; so, you see, the average price the American people are paying for paint is about \$2.62 a gallon.

It is a game of wits. Adulterators are always too sharp for the bulk of consumers. People won't pay \$1.75 a gallon for paint. So they pay \$2.62 a gallon for paint and something that looks like paint mixed with it. (They pay the painter, besides, from \$2 to \$4 for painting those useless gallons.) Why do they do it? They don't know Devoc. Yours truly,

FLOOD BUILDING SAN FRANCISCO

Too Much Exercise.

Unfortunately a good many men have the conviction that they must keep exerting themselves all the time. They call every moment wasted which is not spent in activity of some kind, either physical or mental. Such men are taking the quickest means to burn themselves out. You cannot live well and keep happy under a constant and tyrannical sense of effort. There must be times of play, times to let up the tension and to do easy and natural things which don't require conscience and exact attention. Horace Bushnell, the great Connecticut minister, recognized this when he said, "Let's go sin awhile." Sinning has the advantage of being easy, and there are times when the easy thing is the right thing. A man who takes no time off for one kind of play or another, but who keeps the anxious, conscientious look on his face day in and day out, may be on the road to heaven, but he will find that the sanitarium is a way station.—Dr. Luther H. Gulick in Good Housekeeping.

A Few Corrections.

A few things picked up from a child's schoolbook: Never say, "I don't think it will rain." What you mean is, "I do think it will not rain." "All over the world" is bad; say "Over all the world." "The reason why" is not only incorrect, but doesn't sound as well as "The reason that." In the King James version of the Bible, quoted by some authorities as a standard of pure English, one may find the following, which occurs in Isaiah xxxvii, 36: "Then the angel of the Lord went forth and smote in the camp of the Assyrians a hundred and fourscore and five thousand, and when they arose early in the morning, behold they were all dead corpses." In other words, the corpses arose early in the morning and found themselves dead. Don't say "A man fell off the dock." A man might fall into a dock, but to say that he fell off a dock is no better than to say he fell off a hole.

The Crested Rat.

The crested rat of East Africa is remarkable first because of the great length of the black and white hairs down the ridge of the back, which are rendered the more conspicuous because the hairs along the sides of the body are so short and so differently colored, being brownish gray and looking for all the world as if some one had taken a pair of scissors and maliciously shorn off the decorative hair, leaving only a dull underfur. Secondly, it is remarkable because the skull has a roofing of bones exactly resembling that of some turtles, while, furthermore, this roof has a granulated appearance recalling that presented by the skulls of certain fishes. In its habits it appears to be arboreal while from the structure of its teeth it would appear to be at least partly insectivorous.

Arnold's Comment.

As school inspector Matthew Arnold was examining a class in geography one day, and, holding up the poker with which he was about to strike the fire, he asked if any child could tell him where it was manufactured. There was a long silence, broken by the schoolmistress, who remarked nervously that such information was not mentioned in Cornwell's geography. "No," said Arnold; "Cornwell's an ass!"

The Entertainer.

"My wife is a lecturer, and I am an entertainer," said Hobbs.
"Indeed? I knew your wife appeared in public, but I did not know that you ever did."
"Oh, I don't. I stay at home and entertain the baby."

Effect of High Living.

Goodman Goring—Wake up, pard. What're you'n' about? Tuffold Knutt (rubbing his eyes)—Gosh, but I've had a terrible dream! I thought I'd got a lot of work an' was dain' the man's'n' for a scapuk.—Chicago Tribune.

Impossible.

Robert Duke—Why don't you travel in style, as I do? It's far pleasanter.
Robert Duke—Ya, but my wife always goes with me, and I married an American.—Pitt. Me. U.

STARS FOR VOYAGERS.

Rise Used by Navigators to Place a Ship's Location.

There are nine eminent nautical stars considered by navigators. They are important as determining the position of the ship at the time the observation is taken, calculated by their distance from the moon. The stars are Alpha, Arctis, the principal star of Aries, but of the second grade; Aldebaran, first magnitude, in the rich constellation of Taurus, easily distinguished by its red color; Pollux, second magnitude, in Gemini, readily known by its companionship with the brighter Castor; Regulus, a first class star in the breast of Leo (hence often called Cor Leonis, the Lion's Heart); Spica Virginis, a first class star in Virgo, remarkably conspicuous from being insulated in a dark surrounding field; Alpha Aquilae, generally known as Altair, first magnitude; Alpha Pegasi, second class, usually termed Narkab; Antares, first magnitude, in Scorpio, distinguished by its fiery red color; Fomalhaut, first class, in Piscis Australis. These stars are conveniently situated with reference to the moon's path and are used for taking tables of lunar distances by makers of nautical almanacs in order to enable vessel masters to deduct their longitude. The distances of the center of the moon from some of the nine conspicuous stars near the ecliptic are computed with the utmost care for every three hours during the year at Greenwich. When on the broad ocean the navigator finds his position by marking when such a lunar distance, set down accurately in the almanac for the day and hour, occurs, as seen from his own vessel, and deduces thereby his whereabouts on the watery waste.—Milwaukee Free Press.

MADE TO ORDER BEAUTY.

Artificial Noses, Mouth Formers and Dimple Denters.

The best artificial noses nowadays are made of papier mache, enameled. Such a nose is fastened to a spectacle frame sometimes for the sake of convenience and thus may be put on or removed at brief notice.

There is a patented contrivance, somewhat resembling a clothespin, for attachment to the nose to give to the organ a proper taper. Another device is supposed to improve the lines of the mouth.

Not a few people have no roofs to their mouths, having been born without any, or in other cases having lost them by disease. For such unfortunate artificial mouth roofs made of galvanized rubber are furnished.

There is a patented device for cleaning the tongue, consisting of a knife with a concave edge to which a sort of sponge brush is attached. When one is not well one's tongue is liable to be disagreeably coated, but the annoyance may be removed by means of the instrument described.

If you desire dimples you may wear a certain kind of wire mask at night to which are attached blunt wooden points that may be caused by the help of screws to press upon the points where the dimples are wanted. Thus after awhile the dimples are made to appear.

An Old English Law.

An act of parliament, passed in the reign of George III, and which is still in force, exempts members of the yeomanry from the ballot for the militia, allows them to ride through a toll bar when in uniform without paying and also relieves them from the tax on powder for the hair. Such privileges were highly valued in 1804, when the act was passed; but, as yeomen are not now liable for the militia ballot, as toll bars have been abolished and hair powder is no longer in request these favors have ceased to have any practical value. Nevertheless, they still exist.—London Mail.

A Humble Archbishop.

Willegis, a famous archbishop of Mentz, rose to that elevated position from the very lowest ranks. He was the son of a poor carter, but was never ashamed of his parentage. He not only caused the following inscription to be placed conspicuously in his palace, "Willegis, remember thy parentage," but had the wheels of a cart hung up in the Cathedral of Mentz. From that time to this the arms of the see have borne the figure of a cart wheel.

Quite Regular.

"The last time I saw Gayley he wasn't very—er—regular in his habits."
"Oh, he's very regular now."
"Well, well, I didn't think he'd ever reform."

"He hasn't. His habits are all bad now."—Philadelphia Ledger.

See what thy soul doth wear. Dares to look into thy chest, for 'tis thine own, and tumble up and down what thou findest there.—Wordsworth.

An Air Brush.

Dottie was asked, "What is a fan?"
After a moment's thought Dottie replied, "A fan is a thing to brush warm air away with."

But human bodies are sic fools, for 'tis their colleges and schools, that when one real life purifier them they make know themselves to vex them.—Burns.

THE SWISS ARMY.

Always Ready For War Service at a Moment's Notice.

The total population of Switzerland is rather less than half the population of London alone, yet the plucky little republic can throw into the field at a moment's notice four completely equipped and trained army corps to Germany's and France's twenty and England's nominal eight. In proportion to her population as compared with Switzerland, England should possess fifty.

Every able-bodied Swiss is, ipso facto, a member of the army from eighteen to forty-four, yet never does one hear the least complaint made by a Swiss of whatever social class at the trifling sacrifice of time that his military duties demand. To watch a Swiss battalion on its way to maneuvers in camp or on its return is to watch as contented, servicable and cheerful a lot of men as one could wish to meet.

The only serious tax upon the time of the soldiers is the first two months of hard training as a recruit. Afterward sixteen days in camp every other year is all that is required of him. Between whiles he shoots with his comrades—every little village has its shooting range—because he loves it, and devotes a certain amount of time voluntarily to the physical exercises he is taught at school to keep himself fit. On first joining he is carefully examined as regards his suitability for this or that branch of the service and is drafted into that for which he is best fitted, and he invariably takes as great a pride in his regiment, battery or squadron as could any voluntarily enlisted man in our smartest corps at home.

The Swiss army comprises 100 battalions of infantry and twenty-four squadrons of cavalry, with the necessary ordnance and departmental corps, while the artillery includes forty-eight field batteries, ten batteries of position and two excellent mountain batteries.—Pall Mall Gazette.

First Thermometer.

The first thermometer was made in 1621 by a Dutch physicist named Cornelius Van Drebbell and consisted of a tube filled with air, closed at its upper end and dipping at its other extremity, which was open, in a bottle of nitric acid diluted with water. As the temperature rose or fell the air in the tube increased or grew less in volume and consequently the liquid descended or rose. This instrument is now known as an air thermometer, but as its measurements were based on no fixed principle it was of little use.

No Relative of His.

Duncan, aged two and a half, had been naughty. To punish him his mother tied him in his high chair and kept him there for one hour, by the clock. His father got home before the hour was quite up and asked the youngster why he was tied up.
"Father," replied Duncan, pointing an accusing finger at his mother, "I'm completely surprised at that lady."

The Greater Offense.

Professional Hypnotist—Can I get permission to bury old Joe Soaker alive and dig him up after thirty days?
Mayor of Lonelyville—No, ding ye! Ye kin bury him alive if ye want to, but if ye ever dig him up ag'in I'll jug ye!—New York Press.

An Artist.

She—You said you were going to marry an artist, and now you're engaged to a dentist. Flo—Well, isn't he an artist? He draws from real life.

TYROLESE CUSTOMS.

Peccoliar Manner in Which Proposals of Marriage Are Made.

There is an old custom prevailing among the Tyrolese regarding proposals of marriage. The first time a young man pays a visit as avowed lover he brings with him a bottle of wine, of which he pours out a glass and presents it to the object of his desires.

If she accepts it the whole affair is settled. Very often the girl has not yet made up her mind, and then she will take refuge in excuses so as not to drink the wine and yet not refuse it point blank, for that is considered a gross insult, proving that she has been merely trifling with the affections of her lover.

She will, for instance, maintain that the wine "looks sour" or that wine disagrees with her or that she is afraid of getting tipesy or that the priest has forbidden her to take any—in fact, she makes use of any subterfuge that presents itself at that moment.

The purport of these excuses is that she has not come to a decision and that the wine offering is premature. This strange custom, dating very far back—according to one account, it was known as early as the ninth century—is called "bringing the wine" and is synonymous with the act of proposing. Shy lovers, loath to make sure of their case beforehand, find it a very happy institution. Not a word need be spoken, and the girl is spared the painful "No" of civilization.

If any of the wine is spilled or the glass or bottle broken it is considered a most unhappy omen—in fact, there is a peasant's saying for an unhappy marriage, "They have spilled the wine between them."

A Monster Musical Instrument.

The most gigantic harp ever constructed, as far as the record goes, was that made by Veritan, the provost of Burkil, near Basel, Switzerland, in 1787. That was a long while ago, but the fame of M. Veritan's gigantic harp was such that it is still occasionally mentioned by writers on the rare and the wonderful, just as the sea serpent, bloody rain, live mastodons, etc., are. M. Veritan's colossal musical instrument was 820 feet in length, and, on that account, was constructed in an open lot instead of in a harp factory. It was most simple in construction, consisting of fifteen wires strung tightly between two poles. These wires were of different sizes, the largest being one-sixth of an inch in diameter and the smallest one-twelfth of an inch. They were stretched north and south and inclined in such a manner as to form an angle of from twenty to thirty degrees with the horizon. This queer instrument was not intended as an exaggerated toy, but was constructed for the express purpose of foretelling changes in the weather, which were calculated by Professor Veritan according to the different tones the instrument made when the wind was blowing through it.

As You Please.

In the ancient times there lived a wonderfully wise man, of whom it was said that he could answer correctly any question put to him. There was one, however, who thought himself clever enough to outwit the sage. This man took a poor, captive bird and clasped it so closely in his hand that only the head and tail were visible.

"Tell me," said he to the renowned guesser of riddles, "is the bird which I hold in my hand alive or dead?"

If the answer were "Dead," thought this artful plotter, he would just open his hand and let the bird fly. If the answer were "Alive," he would with one little squeeze crush the poor bird to death.

But the wise man proved himself equal to the occasion and replied, "It is as you please."

Each one holds within his or her grasp the fair bird of life. Which is it to be? A blessing or a bane? It is "as you please."

Pressed to Death.

An English court has sentenced a woman to imprisonment because she refused to speak during a trial. The old penalty for remaining mute under similar conditions was being pressed to death. The form of sentence set forth "the prisoner shall be laid in some low, dark house, where he shall lie naked on the earth and one arm shall be drawn to one quarter of the house with a cord and the other arm to another quarter, and in the same manner let it be done with his legs, and let there be laid upon his body iron and stone, as much as he can bear—or more." There the man had to lie. On the following day he was given three morsels of bread without water, on the following water, but no bread. And this was his diet until he died.

Great Discovery.

The editor of a Kansas paper states that he once borrowed a Winchester rifle and started up the street a few days after to deliver the weapon to its owner. The delinquent subscribers got it into their heads that he was on the warpath, and every one he met insisted on paying what he owed him. One man wiped out a debt of ten years' standing. On his return to his office he found a load of hay, fifteen bushels of corn, ten bushels of potatoes, a load of wood and a barrel of turnips that had been brought in. We would like to borrow a Winchester for a day or two.—St. Louis Post-Dispatch.

A Disadvantage of Health.

A visitor among the poor of the east end of London found unexpected testimony to the disadvantages of health in one of his calls. Mrs. B. had a family of a dozen children, and, like most of her class, she had her tale of woe to tell. "How are the children, Mrs. B.?" inquired the caller. "All very well, indeed, sir; very well, indeed," was the answer. "You ought to be thankful, I'm sure, with so much sickness about." "Yes, sir; I suppose I ought to be thankful; but, I tell you, when they're well they eat an awful lot."

Java's Population.

Java is very thickly populated, and cultivation is pushed to an extraordinary distance up the steep slopes of the hills. The plain of Leles in the mouth of July "is one sea of ripe golden rice, with here and there a village of brown thatch roofs nestling in a group of green coconut trees." In the middle of the island white chimneys of sugar mills peep above miles and miles of sugarcane fields.

Fire and Water.

Why does water put out fire? Water reduces the temperature of the flame below the point of ignition; therefore it cannot burn. Water does not smother the flames even when the burning brand is completely immersed in a tank of water, because the first contact puts out the fire—that is, reduces the temperature of the flame below the point of ignition.

Considerate.

Mrs. Dove—Henry, I think you are positively cruel. Here I've tried so hard to cook you a nice dinner and you haven't had a word to say to me about it. Mr. Dove—Darling, I love you too much for that. If I said what I thought, you'd never speak to me again.

Painfully Economical.

Husband—You are not economical. Wife—Well, if you don't call a woman economical who saves her wedding dress for a possible second marriage, I'd like to know what you think economy is?

The Point of View.

"Henry, if I were a young man like you and expected to have to make my own way in the world some day I should try to make my expenses come within my income."

"Father, if I were as rich as you are and had only one son I'd try to bring his income up to his expenses."—Chicago Post-Dispatch.

An Old Proverb.

The proverb, "Necessity is the mother of invention," can hardly be traced to one independent source. The idea was expressed by Petrus, the Roman satirist, about 60 A. D. and is found in the precise form now quoted in Richard Franck's "Northern Memoirs" (printed in London in 1604) and in various later English writers.

THE ARTISTIC-WALL.

One of Solid Color Will Always Give Best Effect.

The dearest, daintiest, most artistic wall is a solid colored wall. It furnishes a perfect background for all kinds of pictures, it throws them out in their correct proportions, and does not detract from their artistic value. The solid colored wall is also much better as a background for furniture, and harmonizes much more artistically with carpets and rugs than any other method of wall treatment. The less breaking up of color on a wall the more artistic it is.

The most successful form of the solid colored wall is an alabastined wall. There is as much difference between tinted walls, as there is between shoddy and all-wool gowns. The shoddy gown holds its color for a few days, while the all-wool keeps its color to the very last thread, so also in solid colored walls, there are shoddy walls and permanently colored walls which retain their color down to the very last particle. The ideal wall coating never rubs off, never flakes nor chips off and is always ready for a fresh coat. If there is wallpaper on the wall, soak it off with warm water, then go over the plaster after you have removed the paper with warm water to remove every trace of paste. Have the wall thoroughly clean for a clean wall cannot be built on an unclean foundation. If there are any particles of foreign matter adhering to the wall scrape them off with a putty knife. Then if there are any discolorations on the wall, size it with a material made from cheap varnish, thinned down with benzine and Japan added for a drier, then cover your wall with your tinting material.

Be sure your man uses a tinting material mixed with cold water. If he comes to you and asks for warm water, you can make up your mind that there is glue in the material which he proposes to put on your wall, and you can be certain that you are going to have a shoddy wall, for glue means shoddy. Glue means that it will hold its color long enough for the man to collect his bill and not much longer. Insist on your tinting material being mixed with clear, cold water. Be sure that your wall is made from pure materials, then you will have a permanent, artistic, sanitary wall. A wall that will be a "thing of beauty and a joy forever."

Year's Cigarette Output.

The cigarette output of 4,358,729,015 in the calendar year of 1906 must have come as a surprise to the bulk of the trade, but more stunning yet its increase in one year of \$42,240,425, an increase by nearly 300,000,000 larger than the increase of our cigar industry during the same year. This jump is the more remarkable in the face of the pronounced and unrelenting hostility of a half dozen state legislatures which have ostracized not only the manufacture but also the handling and consumption of cigarettes within the confines of their respective territories.—United States Tobacco Journal.

THREE BOYS HAD ECZEMA.

Were Treated at Dispensary—Did Not Improve—Suffered Five Months—Perfect Cure by Cuticura.

"My three children had eczema for five months. A little sore would appear on the head and seemed very itchy, increasing day after day. The baby had had it about a week when the second boy took the disease and a few sores developed, then the third boy took it. For the first three months I took them to the N— Dispensary, but they did not seem to improve. Then I used Cuticura Soap and Cuticura Ointment and in a few weeks they had improved, and when their heads were well you could see nothing of the sores. THE VALUE OF PERSONAL KNOWLEDGE

Personal knowledge is the winning factor in the culminating contests of this competitive age and when of ample character it places its fortunate possessor in the front ranks of

The Well Informed of the World.

A vast fund of personal knowledge is really essential to the achievement of the highest excellence in any field of human effort.

A Knowledge of Forms, Knowledge of Functions and Knowledge of Products are all of the utmost value and in questions of life and health when a true and wholesome remedy is desired it should be remembered that Syrup of Figs and Elixir of Senna, manufactured by the California Fig Syrup Co., is an ethical product which has met with the approval of the most eminent physicians and gives universal satisfaction, because it is a remedy of

Known Quality, Known Excellence and Known Component Parts and has won the valuable patronage of millions of the Well Informed of the world, who know of their own personal knowledge and from actual use that it is the first and best of family laxatives, for which no extravagant or unreasonable claims are made.

This valuable remedy has been long and favorably known under the name of—Syrup of Figs—and has attained to world-wide acceptance as the most excellent family laxative. As its pure laxative principles, obtained from Senna, are well known to physicians and the Well Informed of the world to be the best we have adopted the more elaborate name of—Syrup of Figs and Elixir of Senna—as more fully descriptive of the remedy, but doubtless it will always be called for by the shorter name of—Syrup of Figs—and to get its beneficial effects, always note, when purchasing the full name of the Company—California Fig Syrup Co.—printed on the front of every package, whether you call for—Syrup of Figs—or by the full name—Syrup of Figs and Elixir of Senna.

ALLEGHENY FLOODS.

TWENTY PERSONS LOST LIVES—WATER RECEDING.

Thousands Who Were Stranded Return to Their Homes with Resumption of Traffic.

Pittsburg, Pa.: Flood losses in Allegheny county are summarized as follows:

Loss in output of steel mills, \$3,800,000; loss in output of other industries, \$2,000,000. Loss in wages to employes, \$1,837,000. Estimated damage to industrial plants, \$2,500,000. Total, \$9,377,000.

With the rapid receding of the Monongahela, Allegheny and Ohio rivers, which is taking place, conditions are fast assuming normal proportions and the most destructive flood in the history of the city, resulting in twenty fatalities in Allegheny county, is at an end. At nightfall the approaches to the bridge were cleared of water and several hours later street car service was resumed.

In Pittsburg the intensity of the flood was amazing, ten square miles in the downtown district being submerged.

To add to the confusion in Pittsburg two early morning fires broke out. The firemen experienced difficulty in fighting the flames owing to a shortage of water in the mains.

RECEPTION TO BAILEY.

Gainesville Citizens Prepare a Welcome for March 23.

Gainesville, Tex.: Some of Senator Bailey's close friends here Thursday received word from him that he would return to Texas next week and would reach Gainesville on the 23d inst. The committee that had prepared to give him a reception here before he left for Washington at once became active, and announced that a great reception will be given the Senator here next Saturday week, March 23. A banquet at night will also be tendered Mr. Bailey, and his friends from all parts of the State will be invited to attend.

Interurban Bill Signed.

Austin, Tex.: After holding the bill to grant interurban railways the power to eminent domain until the last day upon which he could act concerning it, Governor Campbell Saturday afternoon gave the measure his approval.

It is intended primarily to facilitate the building of the Galveston-Houston Interurban.

Prospective Bridegroom Killed.

Gonzales, Tex.: Ed Irvin, formerly of this place, was killed in a railroad accident at Shreveport, La., Wednesday night. He is a brother of Mrs. Catches of this place and of Lonnie Irvin of San Antonio. His death is especially sad, as he was soon to be married to a young lady here.

Cotton On Track.

Cleburne, Tex.: On Saturday morning about 5 o'clock, just this side of Crowley, Santa Fe passenger train No. 5, engine No. 425, with Engineer Joe Girard and Fireman L. O. Freeman in the cab, struck four bales of cotton on the track, seeming placed there to wreck the train. The cotton was scattered on either side of the road. The engine was covered with the fleecy stuff when it reached this city. The matter is being investigated.

WATERWAYS MEETING APRIL 4.

Congressmen Burgess and Garner Have Promised to Attend.

Victoria, Tex.: The date for the holding of the interstate inland waterway celebration on the Guadalupe at Victoria has been definitely set for Thursday, April 4, and from the present outlook it is safe to say that this celebration will be by far the largest of its kind ever held in this section of the State.

The executive and subcommittees are hard at work getting all the details of the plans in good shape; in fact, this has been a week of meeting holding, preparing for the festivities. A full budget giving all the plans and details of the celebration will be given out the early part of next week.

Congressmen Burgess and Garner and Mayor James A. Baker of Waco have already promised to be here. Besides, a number of the most prominent men of the State are expected to attend, although no definite assurance has been received from them.

A RAILROAD'S ART GALLERY.

All Southern Pacific Employees, Will Have "Pictures Taken."

New Orleans, La.: Since Rudolph Pink Garner, alias Henry L. Stewart, is charged with having made such a clean get-away with \$35,000 of the Southern Pacific's money in manipulating a supposed cross-tie deal, officials of the Southern Pacific have concluded to have a photograph taken of every man, woman or boy employed on that system.

These photographs will be filed away and used for reference in case any person tries to work any game on the road.

SCRAP IN SENATE.

Correspondent Quarles and Senator Halsey Mix.

Austin, Tex.: Senator W. R. Halsey of Navarro county and James Hayes Quarles, Austin correspondent of the Houston Post, had a fistie encounter on the floor of the Senate late Friday afternoon. Several blows were exchanged before the participants could be separated by Sergeant at Arms Clem Allen and others. Senator Halsey was struck in the face, the blow glancing off his temple and leaving no mark. Mr. Quarles' white vest was torn, but he was otherwise uninjured.

So far as known here, there has never been an incident which paralleled that of Friday. Never before in the history of the Texas Senate, it is asserted, has a member engaged in a fight on the floor of the chamber.

Killing in Henderson County.

Mabank, Tex.: The case of killing reported as taking place near here Friday evening, occurred in Henderson county, on Mason's old ranch, in which E. A. Smith was killed in the yard of Sam Cates. Cates phoned to the Sheriff and surrendered at once, and was put under \$1,000 bond to await the action of the grand jury.

Eight Years for Murder.

Eagle Lake, Tex.: Tom Gooden, a negro of this place, at Rammer's Point last October was convicted of a crime in the district court at Columbus Thursday and sentenced to eight years in the penitentiary.

FADED TO A SHADOW.

Worn Down by Five Years of Suffering from Kidney Complaint.

Mrs. Remetha Myers, of 180 South Tenth St., Ironton, O., says: "I have worked hard in my time and have been exposed again and again to changes of weather. It is no wonder my kidneys gave out and I went all to pieces at last. For five years I was fading away and finally so weak that for six months I could not get out of the house. I was nervous, restless and sleepless at night, and lame and sore in the morning. Sometimes every thing would whirl and blur before me I bloated so badly I could not wear tight clothing, and had to put on shoes two sizes larger than usual. The urine was disordered and passages were dreadfully frequent. I got help from the first box of Doan's Kidney Pills, however, and by the time I had taken four boxes the pain and bloating were gone. I have been in good health ever since."

Pine 200 Years Old.

Charles H. Lord of Dunbarton, N. H., recently cut a large pine tree on his farm which, from the rings, was 200 years old. The tree was 134 feet tall, measured five feet four inches on the stump, and at the height of 60 feet measured three feet in diameter.

Stood the Test.

Allcock's Plasters have successfully stood the test of sixty years' use by the public; their virtues have never been equaled by the unscrupulous imitators who have sought to trade upon their reputation by making plasters with holes in them, and claiming them to be "just as good as Allcock's."

Allcock's plasters stand to-day endorsed by not only the highest medical authorities, but by millions of grateful patients who have proved their efficacy as a household remedy.

TIGER COMES ON SHIPBOARD.

Furnished Entertainment for Crew Until Animal Was Killed.

To be attacked by a tiger was the thrilling experience of the crew of the Norwegian steamship Thorsdal, which arrived at Philadelphia recently, while that vessel was at Tampico, Mexico. After a terrible fight with the animal it was killed, and its skin is now on board the Thorsdal.

It was midnight when the anchor watch saw appearing over the rail the two bright eyes of the huge animal. The man ran to the mate's room and informed him what he had seen. The mate concluded the man had been drinking, and when he ordered him back to his post the seaman rushed into the room of Capt. Malsom, master of the ship. The captain came on deck and saw the tiger. He summoned all hands, and, armed with revolvers, they made an attack on the infuriated animal and killed it. Had it not been for the fact that the tiger got caught between an improvised hatch it probably would have killed several of the crew. When imprisoned in this position five of the men began firing bullets into the animal's head.

The country about Tampico is infested with wild animals, and it is thought the tiger was crossing the stream when it came against the side of the Thorsdal. It came up the ladder, which was lowered over the side.

The animal was an unusually large one and handsomely marked.

FOOLED THE PREACHER.

A Doctor's Brother Thought Postum Was Coffee.

A wise doctor found out coffee was hurting him, so he quit drinking it.

He was so busy with his practice, however, that his wife had to write how he fooled his brother, a clergyman, one day at dinner. She says: "Doctor found coffee was injuring him and decided to give Postum a trial, and we have used it now for four years, with continued benefit. In fact, he is now free from the long train of ills that follow coffee drinking."

"To show how successful we are in making Postum properly I will relate an incident. At a dinner we gave, Doctor suggested we serve Postum instead of ordinary coffee.

"Doctor's brother, a clergyman, supposed it was old fashioned coffee and remarked, as he called for his second cup: 'If you do preach against coffee, I see you haven't forgotten how to make it.'"

This goes to show that well-made—fully boiled—Postum has much the flavor and richness of good coffee although it has an individuality all its own. A ten days' trial will prove that it has none of the poisonous effect of ordinary coffee, but will correct the troubles caused by coffee. "There's a reason." Name furnished by Postum Co., Ltd., Battle Creek, Mich.

J. L. Ward Medicine Co., Big Springs, Texas.

Dear Sirs: Two years ago I was a sufferer with kidney trouble, became confined to my bed, the trouble became so severe that I passed blood in my urine in abundance; was treated by four prominent physicians, all of whom gave me up as incurable. I began taking Ward's Kidney Pills, and in a short time I could see and feel a great improvement; the bloody urine stopped, my kidneys acted freely without pain. After taking the two boxes I was able to be up; sent for more and continued taking them until I could feel no symptoms of my trouble. To-day I can do hard manual labor. I will gladly answer any inquiry, for I greatly sympathize with any and all who are suffering with this terrible disease and feel perfectly safe in recommending to them Ward's Wonderful Kidney Pills.

On Deserved Vacation.

After 16 years of continuous service, during which he has never taken a vacation, Prof. John Sterling Kingsley, of Tufts college has been granted a year's leave of absence, which he will pass in scientific research in Italy. He is one of the most widely known authorities on zoology in the country.

It Will Stay There.

"In my family medicine chest no remedy is permitted to remain unless it proves beyond a doubt the best to be obtained for its particular purpose. For treating all manner of skin troubles, such as Eczema, Tetter, Ringworm, etc., Hunt's Cure has held its place for many years. I have failed to find a surer remedy. It cures itching instantly."

SCIATIC TORTURE

A Locomotive Engineer Tells How He Was Cured by Dr. Williams' Pink Pills.

Pain that seems almost unbearable is a characteristic of sciatic rheumatism. In some cases the pain is knife-like, sharp on shooting; in others it is dull and aching. Sciatica is stubborn in resisting treatment and the patient frequently suffers for years. This was the case with Mr. Herbert E. Spaulding, a locomotive engineer on the Cincinnati, New Orleans & Texas Pacific Railway, whose home is at Longview, Texas.

"While running an engine some years ago," he says, "I fell off and hurt my knee and spine and I have always considered this to be the cause of my illness. The sciatica took hold of me from my heel to the back of my head. The pain was the worst I ever suffered in my life and my leg and back were twisted out of shape. I was under a physician's care for several months and for six months could not get out of bed. I also went to Hot Springs but came back in a worse condition than when I went.

"It was when I was down in bed that I heard of the case of a Mr. Allison, a much older man than myself, who had been cured of sciatica by Dr. Williams' Pink Pills. I began taking the pills and soon was able to get out of bed. When I had taken six boxes I was able to work about the house and yard. I kept right on with the pills until I was cured and I have never had any return of the trouble. I have been running an engine ever since."

Dr. Williams' Pink Pills are sold by all druggists, or sent postpaid, on receipt of price, 50 cents per box, six boxes for \$2.50, by the Dr. Williams Medicine Co., Schenectady, N. Y.

NEGRO SOLDIER TELLS.
 D. C. GRAY GIVES A STATEMENT
 OF BROWNSVILLE OUTRAGE.

AFFAIR NOT PREMEDITATED.
 Negro Soldier Found White Man With
 His Woman and Prepared Revenge
 And Others Helped Out.

Others Helped Out.
 Galveston, Tex.: The mystery sur-
 rounding the murderous midnight raid
 by negro soldiers of the 25th In-
 fantry upon the people of Brownsville,
 Texas, on August 13 last year, has
 been cleared up. A full statement
 has been made by one of the dis-
 charged negroes to two representa-
 tives of the Galveston News. After
 seven months of investigation by the
 authorities of the United States, dur-
 ing which time the most searching
 inquiry has failed to shake the testi-
 mony of the negroes that they did
 not commit the outrage, what appears
 to be the true version of the crime
 has been secured from one of the dis-
 charged soldiers, who admits that he
 partially participated. The man has
 been living in Galveston a large por-
 tion of the time since he was dis-
 charged without honor from the mili-
 tary service of the Nation which he
 swore to serve honorably and is still
 in the city.

According to the statement made to
 the reporters, the outrage was not
 premeditated, but was the result of
 an alleged injury done of the soldiers
 by a white man in Brownsville about
 a half hour before the raid was made.
 The negro was struck by the white
 man at a resort in Brownsville. The
 negro, returning to the barracks, se-
 ized his rifle and announced he was
 going to kill the white man. Several
 of the negroes promptly volunteered
 to go along and see the work well
 done and to wipe out old scores which
 they had against the citizens on ac-
 count of injuries which they claimed
 to have suffered. The negroes re-
 turned to the barracks after commit-
 ting the assault on the town and
 many soldiers assisted in the hurried
 cleaning of the guns for the inspec-
 tion which followed soon after the
 shooting in the town ceased. Appar-
 ently the soldiers from only one com-
 pany participated in the raid, although
 practically the entire battalion knew
 the soldiers had done the shooting.

Many of the negroes belonging to
 this battalion enlisted in Galveston
 during the summer of 1905 and re-
 turned to the city after being dis-
 charged from the army. Knowing there
 was a story in some of the returned
 soldiers a News reporter has been
 working on them for two months, but
 with poor success, because the negroes
 had been advised by local negro poli-
 ticians to avoid newspaper men. An-
 other reporter was assigned to the
 story and met with success through
 the fact that the negro jumped to the
 conclusion that he was a United States
 secret service detective and let out
 the secret for obvious reasons.
 The man who talked to the report-
 ers gave his name as D. C. Gray and
 stated he was formerly a private in
 Company B of the Twenty-Fifth In-
 fantry. He is a man apparently 29
 years and is about 5 feet 10 inches in
 height and of copper color. He is a
 big, strong individual, and is a model
 in physical build.

Few Lines From Gray.
 Galveston, Tex.: The News received
 the following yesterday through the
 mail.—The letter is postmarked March
 18, 9 a. m., Galveston:
 "Sunday Night, Gal. News.—Your
 reporters are telling what I said and
 I am a dam fool. I am going to lit out.
 Some of the boys are after me and
 it's all off. It's taps. Gray."
 The handwriting in the above note
 is very poor, but is quite legible.
 Chief Rowan stated to the newspa-
 per fraternity that he only character-
 ized the affair a "fake" in so far as
 the colored workman, D. C. Gray, is
 concerned.
 The name of the man given the re-
 porters is evidently a fake as the
 roster of the discharged men does not
 show the name "D. C. Gray" and the
 only D. C. Gray in Galveston is pro-
 nounced by the reporters not to be the
 man who made the statement.

COTTON MILL FOR LA GRANGE.
 Head of Dallas Met the Committee of
 the Board of Trade.
 La Grange, Tex.: Mr. J. Head of Dal-
 las representing Britton Bros., met the
 committee appointed by the Board of
 Trade here Tuesday night. The propo-
 sition relative to the building of a
 cotton mill here, submitted by Mr.
 Head, was acceptable to the commit-
 tee, and the building of a mill is prac-
 tically certain.
 The citizens have until March 27
 to finally close up the matter.

The Missouri, Kansas and Texas will
 shortly put on a fast train for Texas,
 leaving St. Louis about noon. This
 train has been under contemplation for
 some time. No date is as yet set for
 its advent, but it can be stated upon
 reliable authority that the train will
 soon be in operation.

A Frisco oil train was wrecked be-
 tween Woodville and Kingston, I. T.,
 Thursday, and four or five cars of
 oil were burned. It is reported that
 no one was killed or injured. Smoke
 from the burning oil was blown into
 Texas and caused great alarm at
 Pottsboro.

 Explanation of Politician That Sure-
 ly Was Convincing.
 A recent incident in Australia is re-
 lated as showing how watchful a poli-
 tician must be in this censorious age.
 Among other accounts of a deadhead
 nature on the books of the Westralia
 railway was one setting forth that
 Miss Peacock had been franked over
 the lines to the value of \$35, and in-
 stantly there was wide demand about
 it. People wanted to know why Sir
 Alexander Peacock's daughter was
 given these privileges. Sir Alexander
 himself, a former premier of Victoria,
 was very much hurt when he heard
 of the matter, and hastened to assure
 the Westralian government firstly,
 that if his daughter had appeared in
 Westralia, it was entirely without his
 sanction; secondly, if she had made
 claims upon the Westralia railways
 she had done it without his authority;
 thirdly, that never during his long po-
 litical career had he asked his own
 state, let alone any other, to extend
 dead-heading privileges to a daughter
 of his; and, fourthly and finally, he
 had no daughter, and never has had a
 daughter.—Boston Transcript.
 Ideal Trade Conditions.
 Women should not get credit.
 Neither should men. Cash is the cure.
 Tradesmen, maybe, would have a bad
 time for six or 12 months, and many
 a lady would have to "lie low," but in
 the end we would get both our trade
 and our money, and she would get her
 dress, and at far less cost.—London

**Corn Field
 Sweetness**
 Corn has been known as a food
 since the days of the prophets, but
 it may safely be said it has never
 been prepared in so delicious a form
 as Elijah's Manna.
 This food is simply the sweetness
 of the corn field done up in pack-
 ages ready to eat without the bother
 of cooking. It is made in light
 crisp flakes, toasted a delicious
 brown, and has a flavor all its own.

Catarah and Headache.
Mrs. Z. E. Goforth, 2115 Holly street, Kansas City, writes: "After using a sapphire bottle and two 35c bottles of Sloan's Lightning Oil, I am almost well of Catarah. It stops my headaches. It is the best medicine I ever saw and I just can't keep house without it." She is right.

Coldest European Winter.
In the year 1814 the Thames froze and the English channel was for a time impassable because of icebergs. The coldest European winter on record was that of 1708-1709. It began early in October. In 1740 also the cold was so intense that birds fell dead to the ground.

TACK THIS UP.
Simple Advice Which May Prove of Untold Value.

At the first sign of Backache or pain in the region of the Kidneys, or weakness and Urinary trouble, the following simple prescription should be used:

Fluid Extract Dandelion, one-half ounce; Compound Karon, one ounce; Compound Syrup Sarsaparilla, three ounces. Take a teaspoonful after each meal and at bedtime.

Any good prescription pharmacy will supply these three ingredients at small cost, which can easily be mixed by shaking well in a bottle. This is said to force the Kidneys to filter the sour acids and poisons from the blood, overcoming the worst cases of Rheumatism.

Put Bismarck in Hole.
When "Full Run" Russell, who died a short time ago, was with the German army in 1870 he reported a long interview with the crown prince (Frederick), some expressions in which gave umbrage to Bismarck. Bismarck went for him, lost his temper and said: "I suppose you couldn't resist showing your impudence by reporting all that that 'dunderhead' confided to you?" Russell replied: "Your excellency knows that I always respect confidences; there is much that you have said to me yourself that I have not reported." Bismarck: "Pouf! Anything I say to you you may haul from the top of St. Paul's." "I thank your excellency," said Russell. "I shall use that permission to record your opinion of the crown prince."

HOW MUCH FERTILIZER TO APPLY.

The question, "How much fertilizer should be used per acre?" cannot be answered definitely, but only in a general way. It is sometimes put in this form: "What is the most profitable amount that may be applied per acre?" Neither can the question in the amended form be easily and accurately answered. The soil, its character, condition, preparation, etc., may be well known, or controllable factors, but we know not what the seasons may be, says Hon. R. J. Redding, Director Georgia Experiment Station, Department of Agriculture, in the Virginia-Carolina Fertilizer Almanac.

We know that some crops will bear larger amounts of fertilizers with reasonable assurance of profitable returns than may be expected of other soils. A crop may accumulate the soil from the fall season until spring, or early summer, will bear heavier fertilization than will a crop that is planted in the spring and ripens for harvest in midsummer. The first-crop is illustrated by oats, wheat, or other small grain, or grass, especially when sown in the fall of the year. Such a crop occupies the soil during the late fall and winter, and early spring—during which periods, the rains are usually abundant—waiting for harvest in late spring, or very early summer, before the burning summer heat and possible droughts of June and July. Oats and wheat therefore are ideal crops for liberal fertilizing.

Corn is rather an uncertain crop on the ordinary dry uplands of the South. It has but a short period in which to develop its flowers—stamens, and silks—covering but a few days. If very dry weather shall prevail when this critical period is approaching, and for some time after it is passed, the crop may prove a greater or less failure. There can be no second sowing, no second period of blooming.

It is different in the case of cotton, which commences to bloom and make fruit in June (or even earlier) and continues throughout the summer until checked by a severe frost in November. It has a number of "chances."

Cotton is therefore another ideal crop for liberal fertilizing. A small amount of fertilizers applied per acre will no doubt yield a larger percentage profit on its cost than will a larger amount. To illustrate: An application of \$3 worth of fertilizer per acre may cause an increased yield of cotton (at 10 cents per pound) of the value of \$5 to \$8, or a profit of 50 to 200 per cent. on its cost. I have frequently had such results. But it does not follow that twice as heavy an application will produce twice as large results, or that three times as much would cause three times as great an increase in the yield. In other words, the rate of increase in the yield of cotton will not be in proportion to the increase in the amount of fertilizers applied. Two dollars worth of fertilizer per acre may yield an increase in the crop of \$5; but \$3 worth would not therefore bring an increase of \$15.

But careful observation has shown that an application of \$5 to \$6 worth of fertilizers (properly balanced) is a safe amount to apply per acre on cotton. Many farmers in Georgia have secured satisfactory returns from an application of so much as \$10 per acre, but a perfectly safe fruit can be obtained in fairly good condition, well increased and properly cultivated in cotton, for \$5 per acre, or even an old upland.

City's Death Rate Reduced.

WOMEN IN HOSPITALS

Experiences of Mrs. Rockwood and Miss Tierney

MISS MARGARET TIERNEY MRS. CHAS. A. ROCKWOOD

A large proportion of the operations performed in our hospitals are upon women and girls for some organic trouble.

Why should this be the case? Because they have neglected themselves, as every one of these patients in the hospital beds had plenty of warning in those dragging sensations, pains at left or right of abdomen, backaches, nervous exhaustion, inflammation, ulceration, displacement, and other organic weaknesses.

All of these symptoms are indications of an unhealthy condition of the female system and if not heeded the penalty has to be paid by a dangerous operation. When these symptoms manifest themselves, do not drag along until you are obliged to go to the hospital and submit to an operation—but remember that Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, has saved hundreds of women from surgical operations.

Lydia E. Pinkham's Vegetable Compound has cured more cases of feminine ills than any other one remedy. See letters as the following:

Where The Money Comes From
Most of the money comes from the users or consumers of farm products. Are you getting your share of all this money? Our new almanac lays down necessary rules for fertilizing, planting, cultivating, top dressing, harvesting and preparing for market your crops of cotton, tobacco, corn, vegetables, fruits and grains. If you desire big profits, use from 400 to 1000 pounds of high grade
Virginia-Carolina Fertilizers
per acre on all your crops, and you will be agreeably surprised, at your greatly increased yields. Ask your fertilizer dealer, or write us for a copy of Virginia-Carolina Fertilizer almanac, which is written by some of the most experienced and successful farmers in the South. While it is free to you, many farmers say the almanac is worth \$1.00 to them for its suggestions.

For Girls & Women

You Need Cardui
At every age, after entering womanhood, girls and women need the strengthening, building, pain-relieving assistance of Wine of Cardui. It will carry you over the rough places, ease your hard days and increase the comfort and pleasure of living.
What its millions of users think of it, is well expressed in these words of Mrs. Rosa Lee Cole, of Smithton, Mo., who writes: "I suffered from female troubles for 7 years. I had pain, low down in my stomach, my feet hurt so I could not stand, and I was so weak and nervous I could hardly do anything. I was just sick all the time. At last I wrote you for advice and you recommended Wine of Cardui, which I took according to your directions. I have now taken 5 bottles of Wine of Cardui, and am feeling better than in the past 7 years. My feet and stomach do not hurt, my female troubles have gone, I am getting stouter and stronger, can do all my housework, work in the garden and tend to 260 little chickens."
Wine of Cardui acts directly upon the sick or disordered womanly organs or functions. It is a natural, scientific, female tonic. It contains no dangerous minerals, or other deleterious ingredients, but is purely vegetable, perfectly harmless and beneficial to young and old. Every reliable druggist sells it, in \$1 bottles. Try it.

S. S. Elliott of Percilla was among those calling at the COURIER office Saturday. The editor regrets that he was out and did not get to see Mr. Elliott.

The criminal docket of the district court will be taken up Monday. For three weeks from next Monday the town will be filled with witnesses and jurymen.

Magale, Paul Jones, Parker Rye, Puritan Rye, R. Monarch, Sugar Valley, and all other high grade brands of whiskey. Address Hyman Harrison, Palestine.

No Gloss Carriage Paint Made will wear as long as Devoe's. No others are as heavy bodied, because Devoe's weigh 4 to 8 ounces more to the pint. Sold by Murchison & Beasley.

Embroidery Sale.

Come to the great Embroidery and Lace Sale Friday and Saturday, March 29th and 30th. Everything at a bargain during this sale at Jas. S. Shivers & Co's.

Another railroad through Crockett would pay. The I. & G. N. has more business than it can handle.

Have your measure for clothes taken by a man who knows how to make clothes and you will get all that's coming to a satisfied customer. SHUPAK TAILORING CO.

Special Sale in Dress Goods March 29th and 30th at the Big Store. You will always regret it if you fail to attend this sale and see the swellest line ever before seen in Crockett.

Church Notice.

Evangelist G. J. Massey will preach at the Christian church next Sunday, March 24th, at 11 o'clock, and at night. Everybody cordially invited to attend.

Lost Dog.

A white bird dog, with liver-colored spots, answers to the name of Frank. Notify Fount Kelley, Kennard, Texas, and he will properly reward you. 4t

W. T. Blakeway of Midland, the former deputy sheriff, was shaking hands with old-time friends in and around Crockett this week. Bill is now connected with a mercantile firm at Midland.

A Crockett Woman Asks

"have you a floor paint that will last two weeks?" Yes we have Devoe's; it has a beautiful gloss and will wear two years if properly applied. Sold by Murchison & Beasley.

Men Wanted.

Smith & Wooters want men at their railroad camp near Druso. They will pay \$1.75 a day for grubbers, teamsters, slip leaders, etc. Apply at the camp or to Jim Smith at Crockett. 4t

Four Roses, Mount Vernon, Murray Hill Club, Canadian Club, Hunter's Rye, Cascade, Camel's Milk, Old Forester, Billy Lee's Old Crow, Mumm's Extra Rye, Club House and many other high grade brands at Hyman's, Palestine.

The Young Ladies' Aid society of the Presbyterian church will give an Easter sale of pretty and useful hand made articles at the church parlors March 28, from 3 to 7 p. m. Refreshments will be served. Everybody cordially invited.

Sam H. Kyle, an old Houston county boy and now one of the foremost lawyers of Durant, I. T., was shaking hands with friends at Crockett and Augusta last week. The COURIER is glad to know that Sam is building up a fine practice in the coming state of Oklahoma.

Afflicted With Rheumatism.

"I was and am yet afflicted with rheumatism," says Mr. J. C. Bayne, editor of the Herald, Adlington, Indian Territory, "but thanks to Chamberlain's Pain Balm am able once more to attend to business. It is the best of liniments." If troubled with rheumatism give Pain Balm a trial and you are certain to be more than pleased with the prompt relief which it affords. One application relieves the pain. For sale by Murchison & Beasley.

ANNOUNCEMENTS.

We are authorized to make the following announcements:

For City Marshal
Morgan Brashears
Young Shook
Wortham LeGory
Ed Moore

A board, composed of J. W. Brightman, Porter Newman and Joe Adams, duly appointed by the city council and sitting as an equalizing board, has created quite a stir in Crockett by raising city taxable values. This board has seen fit to raise many property values 50 per cent. and some even more than that. It is true that property is not always given in at a fair value for purposes of taxation, but we believe the above board has gone too far in its limitations and placed an unfair value on some physical properties. We are certain it has on one, and if it has on one, the chances are that it has on others. The editor of the COURIER has been cited to appear before this honorable board (this is being written Wednesday) on Thursday to show cause why his assessment should not be raised 50 per cent. The editor will appear before the board and endeavor to show why his assessment has been placed too high, but will ask no favors at the hands of this board. The COURIER has always worked for the advancement of the city and its interests, and has perhaps accomplished as much in an unpretentious way as has some of the board, and it has the satisfaction of having done its duty along that line. It wants and expects nothing more than that feeling of satisfaction that comes from doing its duty. But it cannot understand why its assessment should have been raised half its value just at this time. The COURIER editor has no property except a small printing plant, which was given in at a less value when it was new and of a better physical value. Its assessment was deemed ample in days gone by when its presses were new and its type new. Now at this time, when heavy expenditures will be necessary to keep it up to its former physical value, we do not think the board has acted fairly in raising it half its former assessed value.

Since the sitting of the city equalizing board there is a strong current of sentiment in favor of abolishing the city corporation except for school purposes. The objection to the present form of city government is that it is too costly. City taxes are more than state and county taxes. The Courier regrets to see this dissatisfaction that has sprung up as the result of the work of the city equalizing board. It would hate to see public improvements stopped, such as street work, etc. But that there is a strong current of dissatisfaction there is no denying. The Courier does not lay the blame for the present dissatisfaction on the city council or the city of Crockett, and does not think the city should be made to suffer. If it is necessary to curtail expenses, we would suggest a commission form of government, which might be procured through a special act of the legislature.

Let there be five commissioners, elected from four wards and one at large, to meet at regular intervals and attend to assessing, collecting and disbursing the city taxes. The COURIER does not favor abolishing the present form of city government unless a satisfactory commission form of government can be established in its stead. Our people need the benefits of city ordinances for the protection of their health and property, and city improvements are reasonably to be expected from time to time.

BAILEY'S PLAN OF BATTLE.

The war is on. Senator Bailey cried havoc and let slip the dogs of war at Austin on February 28. With a brutal, domineering bluster heretofore unknown in Texas politics he declared himself dictator and placed upon his proscription list the very flower of Texas citizenship. He has crossed the Rubicon and turned the sword of the people against the people. He says it is to be a war of extermination, compared with which Sherman's march to the sea was but a dress parade. A poor estimate, indeed, does this volunteer from a sister State place upon the courage, manhood and intelligence of Texas citizenship. Now that the war is on, let us forecast Bailey's plan of battle. Will he and his friends fight fairly? No. Will they discuss Bailey and Baileyism? No. Will they state Bailey's course and conduct and undertake to justify him? No. Will any Bailey candidate from congressman to constable stand up before the people, face to face, and say he knows what Bailey's transactions have been, and that if elected he will pursue a similar course? No. You cannot find a congressman, a State senator or member of the legislature in Texas today who will write over his own signature these words: "I am familiar with Bailey's corporate connections, and I will do as Bailey has done if opportunity affords me a chance." How many respectable Bailey men will ever advise their sons to make Bailey's conduct their guide? Not one. What, then, will be the Bailey program? Anything to detract attention from Bailey's conduct. Anything to prevent a discussion of the facts. Anything to muddy the water. Anything to prevent the public mind centering and resting upon the question, the only question in the case. Can a man serve two masters? Can a senator represent the people and the enemies of the people? Can a senator be the hired man of a trust magnate and ordered to "quiet all Texas parties?" Bailey and his terrorized followers would not dare to make the issue fair and square. They will cry Hearst and the Independence League and try to make an issue between Hearst and Bailey. Hearst is not a candidate for any office and probably does not know fifty people in Texas, but it is anything to throw dust in the public eye. They will cry out that the party organization is in danger, and yet 90 per cent of all the people of Texas vote the straight ticket. Anything to keep the public from looking at Baileyism in all its hideousness. Will their plan of deception succeed? No. It might win elsewhere, but not in Texas. The spirit of Hogg and Reagan and Coke and Roberts will ride in the forefront of the people's battle. The mask will be torn from the face of Bailey and his satellites by men who fear nothing but to do wrong. Bailey is a giant in debate, but the people will raise up a champion who, armed with the right, shall smite this proud impostor hip and thigh.

On with the conflict. Let cowards and weaklings fly the field. Texans will burn with shame and indignation until they hoist the head of this political traitor high in air and proclaim to all the world that Texas is forever against bossism, graft and greed.—Beaumont Journal.

INVESTIGATION AFTERMATH.

What man of intelligence will believe that the Standard Oil Co. paid Joe Bailey \$2500 for an opinion as to whether they could do business in Texas after the Waters-Pierce Oil company had been ousted from the state, because of their affiliation with the Standard Oil Co? Moreover, who will believe when Mr. Bailey received \$5000 as a fee for writing the charter of the Security Oil Co. (and it had to be rewritten by another lawyer before it would hold good in law), that he did not know that the Security Oil company was a branch of the Standard Oil company? If he has been all the time such a paragon of innocence and a "persecuted and hounded statesman," why was it that his packed committee dared not put either Gates or Pierce on the stand?

Did Bailey's packed investigating committee doubt the genuineness of Pierce's telegram to Finlay and Gruet to pay the famous \$1500 draft uncovered by the testimony of Francis? If so why did they not ask for the records of the Western Union Telegraph office in St. Louis? The draft was paid; Henry & Strubling say they did not get the money. Mr. Bailey said if the draft could be produced he would resign. He knew when he said that, that the draft was where it would never see the light of day. If the committee had been allowed to go to St. Louis and get the books and papers of the Waters-Pierce (Standard) Oil Co., uncensored by Perjuror Johnson, what might not have been told?

If the \$8,000 note was a loan from Pierce to Bailey, what business had it on the books of the Waters-Pierce (Standard) Oil company at all? Gruet swears that it was passed to the profit and loss account on the books of the Waters-Pierce (Standard) Oil company. His evidence is uncontroverted except by that of Perjuror Johnson. Might not the committee have been able to have proven the accuracy of Gruet's statement had they been enabled to get at the books and papers uncensored by Perjuror Johnson?—Dallas Democrat.
