A Common Cold.

We claim that if catching cold could be avoided some of the most right survey, bounded on the west dangerous and fatal diseases would never be heard of. A cold often forms a culture bed for germs of infectious diseases. Consumption, pneumonia, diptheria and scarlet fever, four of the most dangerous and fatal diseases, are of this class. The culture bed formed by the cold favors the development of the

Fifteenth tract being 40 acres germs of these diseases, that would not otherwise find lodgment. There is little danger, however, of any of these diseases being contracted when a good expectorant cough medicine like Chamberlain's Cough Remedy is used. It cleans out these culture beds that favor

the development of the germs of these diseases. That is why this Lean headright league situated remedy has proved so universally about 20 miles N. The better and greater the quantity of efficient tence on the farm, the higher the price per acre.

If you do not raise stock, the good fence protects your crops and insures largest possible returns.

Thousands of investors are making fortunes by buying up socalled "run down" or "raw" farms, putting on a few buildings and good fences, then selling them for improved up to date farms. Good fences, well built, pay bigger dividends than good barns or good houses.

You want bigger profits per acre-build good fire-proof, stockproof, time-proof fences. Now is the time to do it. American Fence is the best fence, fully guaranteed, always satisfactory. It is cheaper per rod to-day than ever before. The manufacturers propose to double the use of American Fence during the next twelve months. We are here to help them. In helping them, we help you by offering you American Fence, the best in the world, at heretofore unheard of prices. Come and see us, don't delay-this opportunity is too good to miss. You know a good thing, and you know when a good thing is cheap.

It is not always best to buy cheap things, but when cheap and good, in fact the best, and the article will pay dividends for years afterwards, it is clearly safe and good business sense to buy it, and buy all you can use to advantage.

Henceforth those people who are anxious to press forward business, social, political, or religious questions can do so in the new and better way. It is very simple and not overly burdensome. Just buy Virginia Ave., Indianapolis, Ind., space in the newspapers and turn loose until there is absolute relief. SIXTEEN FIGHTING VESSELS OF AMERICA ENDING FOURTEEN MONTHS' CRUISE.

FEAT THOUGHT IMPOSSIBLE

Task Performed by United States Ships-One Not Hitherto Attempted.

Old Point Comfort, Va., Feb. 15 .--Half way across the Atlantic oceau on the last long reach of their spectacular cruise around the world the sixteen battleships of the United States Atlantic fleet are steaming in leisurely fashion toward the anchorage grounds of Hampton Roads from whence they sailed fourteen months ago. Dùring these months of record steaming the heavily armored fighting vessels have traveled approximately 45,000 miles and are returning in condition, still "fit for a frolic or a fight." The cruise has been a veritable expedition of the seven seas and tasks heretofore deemed impossible for the modern ironclad have been accomplished with an ease bordering on the commonplace. The stories of the cruise have been succeeding chapters of receptions, banquets, balls and merrymaking, but back of all this relaxation and entertaining in the hospitable ports of the two hemispheres has been a test of men and material which has placed the American navy in an enviable position before all the world.

Robbers Get \$35,000. *

Denver: That the holdup of the Denver and Rio Grande passenger train No. 4, near Denver, early Saturday morning, was the work of three instead of two robbers and that the robbery of the mail car gave them a loot of possibly \$35,000 are indicated by the investigation of the police and railroad officials. So far no tangible clew to the identity or whereabouts of the robbers has been found. but it seems that the men came to Denver and are now hiding in this city.

Earth Quivers in Mexico.

City of Mexico: Rumbling and earth quiverings continue to be felt in the vicinity of Mt. Colima. During the eruptions ashes and cinders fell on Colima, Tuxpan, Capotla and other towns in the vicinity and forests were set on fire. Wild animals rushed into the settlements almost tame from fright, and the people abandoned their homes and fled in terror.

IN AGONY WITH ECZEMA.

Whole Body a Mass of Raw, Bleeding, Torturing Humor --- Hoped Death Would End Fearful Suffering.

In Despair; Cured by Cuticura.

"Words cannot describe the terrible eczema I suffered with. It broke out on my head and kept spreading until it covered my whole body. I was almost a solid mass of sores from head to foot. I looked more like a piece of raw beef than a human being. The pain and agony endured seemed more than I could bear. Blood and pus oozed from the great sore on my scalp, from under my finger nails, and nearly all over my body. My ears were so crusted and swollen I was afraid they would break off. Every hair in my head fell out. I could not sit down, for my clothes would stick to the raw and bleeding flesh, making me cry out from the My family doctor did all he pain. could, but I got worse and worse. My condition was awful. I did not think I could live, and wanted death to come and end my frightful sufferings. "In this condition my mother-in-law begged me to try the Cuticura Remedies. I said I would, but had no hope of recovery. But oh, what blessed relief I experienced after applying Cuticura Ointment. It cooled the bleeding and itching flesh and brought me the first real sleep I had had in weeks. It was as grateful as ice to a burning tongue. I would bathe with warm water and Cuticura Soap, then apply the Ointment freely. I also took Cuticura Resolvent for the blood. In a short time the sores stopped running, the flesh began to heal, and I knew I was to get well again. Then the hair

How to Tell a Good School. Even more indicative of the inner spirit of a school, however, are the little indications given by the talk of boys at home on their vacations, says Appleton's Magazine. Don't make the mistake of believing what they tell you about the lessons, or the food, or even the prowess of the football team. A boy is an inveterate generalizer and, moreover, you are quite likely to misunderstand his terminology. He will tell you that the food is "rotten." that the milk is always sour, that Mr. So-and-so is a "fearful soak," and gives out a hundred lines of Virgil to a lesson right straight along, and that the football team has never been beaten; all of which will only mean that sometimes it has happened that -the food was not above criticism, the milk was sour, Mr. So-and-so gave out a long lesson, and the footbail team has won. No, don't try to pump him about the school, but just notice how he talks of it, and of the masters. If he fires up when you suggest that there is anything to criticise in it, if be speaks of this or that master with a gentle suggestion of affection in his voice, and more especially if he does not try to entertain you with stories of how this or that boy "beat out" this or that master, then the chances are that he goes to a good school.

If the world had not passed beyond the age of myth-making, the disaster in southern Italy would be ascribed to the turning of Enceladus in his sleep. Enceladus was one of the giants who rebelled against Jupiter. He was killed by one of Jupiter's thunderbolts, according to Virgil, and buried under like a regular cow pony of the plains. Mount Etna. When he turns in his grave the earth quakes, and when he breathes the mountain belches forth berry juice. He got on the zebra fire and smoke. It was the peculiar geographical and geological formations round Sicily and the Strait of Messina that gave rise to many of the ancient myths. The rock of Scylla, dangerous to navigators, was believed to be the the king through the chaparral and home of a monster which seized the came near killing him, but Pa exsailors from the decks of the ships plained to the old king that the cowthat passed too near. So chagrined were the three sisters that they threw themselves into the sea, and were transformed into rocky islands which bear their names. "Alaska is a cold and barren region and is almost useless except as a ing the male members of the tribe in hunting ground for the seal and other the military drill, and we have got fur-bearing animals," declared a standard school geography published so re- fours and in platoons, and come into cently as 1875. The discovery of gold line just like soldiers, and they are served materially to broaden that view, and a representative of the department of agriculture now reports that the territory's agricultural possibilities have been grievously underestimated. In the Yukon valley he has ripened cats, barley and winter wheat for suc- diamonds, and they are going to cessive seasons, and found them fully dig up their gold and diamonds as heavy as the best grain of the states. Grasses grow abundantly, as do all the hardier vegetables; and when it comes to live stock, Galloway cattle, a long-haired, hardy breed, stand the climate well. Such facts suggest that it should not be difficult to carry out the aim of the Alaska-Yukon-Pacife exposition, "to correct the common impression that Alaska and Yukon are nothing but countries of cold and gold."

England alone of all the great European powers has done but little experentation with aerial war-craft. Yet she is of all nations the most threatened by the recent inventions and improvements in aerial work, because she has depended largely for security on her splendid isolation, protected by her powerful navy, says Henry B. Hersey in the Century. Now she realizes that this isolation cannot be maintained against aerial attack by any present means of defense, and that such defense must be prepared in the form of a fleet of air cruisers.

brave enough to fight an enemy. The cowboy had been drinking some berry juice and he said he would assist at the Fourth of July celebration by taking his Winchester and firing at some of the jackals and hyenas that had been attracted by the barbecue smell, just as I touched off my fireworks.

Well, it was a crime to do it, but away off in a strange country, and he has to create his own fun?

Well, just as the troops had got filled up with the meal, and the women who had served the banquet had sat down with the colored soldiers to eat what was left, and everybody was laughing, and Pa stood up by a tree in the light of the fire, like a fat statue, patting himself on the back and thinking he was the greatest man since Julius Caesar, I got a coal of fire and touched off my nigger chasers and pointed them towards the crowd sitting around the fire, and touched off a pin wheel I had fastened to a tree by a thorn, and opened up my battery of Roman candles, pointing them at Pa and the ex-king, who were the only ones standing up, and the cowboy cut loose with the Winchester at the if you hunt the book through from wild animals, with a cowboy yell such as they give when they are shooting don't find it then you will have found up a town out west.

ly and now go over to the senate. On the floor of both branches of the legislature this week, some of the most important measures pending, will be threshed out.

The anti-race track bill is scheduled to come up in the house on Monday, and also in the senate either Monday or Tuesday. In the house the Robert son bill is almost sure to pass, but it will be checked in the senate when insist on the substitute by the senate committee which permits racing

conference committee and then the question will be settled. The bank guarantee law, the fee bill and other important measures are scheduled to come up on reports

from the committees. The report of the free conference committee on the navigation district bill will also be adopted in both branches and this important measure will then be up to the governor.

Houses Are Apart.

Austin: Practically all of the afternoon session of the house was devoted to the consideration of the bill providing for the appointment of a commission for revising and codifying the civil and criminal statutes, after the adoption of an amendment by Robertson, of Travis, to require the commission also to prepare two bills, one providing for a civil and one for a criminal code of practice in the courts of Texas and report the same to the next legislature.

Messrs. Davis and Lee attempted to have an amendment adopted providing that the commissioners shall be appointed by the chief justice of the supreme court, the presiding The bill on the same subject in the

Summary of Doings.

Austin: House committees unfavorably report anti-fee bill, joint resolution to amend constitution so as to reduce membership of legislature, and all bank guaranty bills. Will be no minority reports. Bills for training school or juveniles and constitutional amendment for Confederate Women's home favorably reported.

House passed finally the following bills: Anti-raffle; requiring cars to be repaired in Texas; exempting Collin, Ellis, Hunt and Lamar counties from county auditor laws; labor bureau; compulsory education; antiblacklist; providing for revision, codification and annotation of laws; authorizing school teachers to temporarily suspend school, authorizing dis-

trict judges to extend terms of court; shall appear in appeal cases where brief is less than fifteen pages.

Anti-Fee Bill.

Austin: Final action was taken Friday afternoon by the house judiciary committee on the anti-fee bill. The committee reported adversely on the bill by a vote of 11 to 5.

Favorable minority report will be brought out. The last of the arguments in favor of this measure was made by Senator Senter, who directed his attack on the fee system, especialit gets over there, and that body will ly the sheriff's fees. This bill had already been reported adversely in the senate, with a favorable minority, and at fairs. This will result in a free now has the same status in both branches of the legislature.

Beautify Battlefield.

Austin: The house went on record yesterday aternoon as being in favor of a liberal appropriation for the beautifying of the San Jacinto battlefield.

> In the Senate. Bank Guaranty Law.

Austin: The senate committee on

history, insurance and statistics Thursday reported favorably without any argument the bank guarantee law introduced by Mr. Alexander, Senators Senter and Hudspeth gave notice of an adverse minority report.

Fish and Oyster Law.

Austin: Arguments were continued until a late hour Saturday evening before senate judiciary No. 2 on the bill by Mr. Baker of Hood, amending the fish and oyster law, but final action was not taken. It will be several days before a report is made as more arguments are to be made.

Bills Reported Favorably.

Austin: Senate judiciary committee No. 2 reported favorably the following bills Saturday:

After disposing of this measure the house passed finally the bill by Fuller, permitting the courts to extend court terms not in conflict with other terms, also passed the bill by Harman, providing that when fifteen or more typewritten pages are submitted in a brief the attorney may be excused from appearance, also the Luce bill empowering school trustees to order temporary suspension of schools.

The board adjourned to Monday morning.

Providing for Survey.

Austin: The bills providing for a topographical survey of the river and creek valleys of Texas and authorizing the creation of levee districts, in troduced by Representatives Lively, Buchanan and Meeks, are now before house committee on internal improve ments, and a favorable report could be had upon them at any time, but the authors are holding them up awaiting the arrival of Arthur C Stiles of the United States geological survey, who is coming here to confer with the committee as to certain features. It is the desire of these gentle men and of the members of the committee to have this legislation perfect. Therefore they are proceeding cautiously. The preparation of the bills entailed a great deal of preliminary work, including correspondence with Washington, conference with and advice frim Gov. Campbell, Attorney General Davidson and Land Commisvioner Robinson. It is the feeling of all these gentlemen, as was expressed by Gov. Campbell, that "this matter

is too important to be messed up."

The colt incident is believable and the pitching story is plausible.

It was at Fredericksburg that Washington was initiated into Masonry. It was there that he took final leave of his mother before assuming the office of president in New York, and it was there that Mrs. Washington, successively known in that city and the country roundabout as "the Rose of Epping Forest," "Belle of Lancaster," "the Roman Matron" and "Old Madame," died August 25, 1789.

GOOD CHANGE

Coffee to Postum.

The large army of persons who have found relief from many chronic ailments by changing from coffee to Postum as a daily beverage, is growing each day.

It is only a simple question of trying it for oneself in order to know the joy of returning health as realized by an Ills, young lady. She writes:

"I had been a coffee drinker nearly all my life and it affected my stomach -caused insomnia and I was seldom without a headache. I had heard about Postum and how beneficial it was, so concluded to quit coffee and try it.

"I was delighted with the change. I can now sleep well and some ever have headache. My stoman has gotten strong and I can eat without suffering afterwards. I think my whole system greatly benefited by Postum.

"My brother also suffered from stomach trouble while he drank coffee, but now, since using Postum he feels so much better he would not go back to coffee for anything."

A meeting of this committee for completion of the details of organization and incorporation will be held in Jacksonville this week, upon which Mr. Kalb will be in attendance.

The Courier has received an invitation reading as follows: "Cyrus Lovelady Lodge No. 324 K. of of Lovelady. The bond of the P. requests the honor of your presence at their annual banquet on the evening of Friday, February 12, 1909, 8 to 11:30 o'clock, Lovelady, Texas." The editor regrets very much that on account cinct was accepted and J. N. Wellof pressing business matters he could not be present at this banquet, for the Lovelady people never half-do things, and he knows from the reputation 0 those whose names appear on the invitation that the banquet was huge success.

On Sunday morning last County Judge E. Winfree of this city received the sad intelligence of the death of his brother, W. W. Winfree, who died at his home in Washington, D. C., on February 10. This is the third death mes sage that has reached Judge Winfree since the 3rd of December, 1908. On that date another broth-T. M. A Dancing Party.

Mr. and Mrs. Chas. Clinton entertained with a dancing party on Tuesday evening of last week. The dance was complimentary to their guests, Mrs. Hoover of St. Louis, Mr. James Clinton of Detroit, Mich., and Mr. Shepherd of Joliet, Ill. Mr. and Mrs. Fisher of Chicago were also honored guests of the evening. The music was by Tunstall's orchestra. The guests from town went out in wagonettes, thus forming a merry party both going and coming. The weather was fine, the music and floor were good, the girls were

Land Fraud Investigation.

Muskogee, Okla., Jan. 26.-With the sitting of the federal grand jury today to investigate alleged town lot frauds, Muskogee becomes the cynosure of the eyes of half the nation. That the government regards the matter of great importance is evidenced by the fact that the jury is closely watched and guarded by secret service men. Rumor has it that there is a man for every juror.

Additional interest is added to the case by reason of the implication of Governor Charles Haskell in this investigation. He in turn declares the entire matter is due to the enmity of William R. Hearst.

BOGG

The Madden-Courvoisier Betrothal

Concerning the foregoing en gagement, the following is clipped fron: a San Francisco paper, to wit:

"Little notes finding their way tbrough the mails this week tell of the betrothal of Miss Gladys Courvoisier of Oak street to Ensign Erls Madden of the United States Cruiser Buffalo. The engagement is the sequel to another of those romances that had their beginning when Uncle Sam's fleet visited the Pacific waters in May. F. Martin, G. W. Mobley, J. D. Madden is a Texan, the son of a well known family in that state. He saw the dainty little Oakland maid for the first time at a ball on board the battleship Maryland, and immediately the young Southerner's heart unconditionally surrendered. Miss Courvoisier 1s exceptionally pretty, with big beautiful eyes, and the most distractingly pretty dimple in her cheek. She is the daughter of E. B. Courvoisier and Mrs. Desire Courvoisier.

"Madden is a graduate of Annapolis, with the class of 1906. He is now with the Buffalo in Pacific waters in the neighborhood of Honolulu. Just when the wedding is to be is as yet impossible to say definitely, but it will probably be solemnized in March or April."

Referring to the engagement, another San Francisco paper has this to say: "Miss Gladys Cour- a serious malady. McLean's Drug voisier's engagement to Ensign Store.

pretty and the hospitality of the Clintons, which is of the kind that never gives out, was never more charming. The merry waltz and the frolicsome two-step kept things going until along about the midnight hour, when a dainty repast was served by the hostess. Thus one more round of pleasure was

added to the social life of our little city, for which Mr. and Mrs. Clinton have the sincerest thanks of the social set.

If that's you Davy

The demand for our Davy Crockett brands of fertilizer has grown to such proportions until on February 1st we were behind with our shipments twenty-one cars. We are taking care of our home trade, however, and will continue to do so. Remember you make no mistake when you buy your home product. Why send GOOD CASH away from home when you can get the very best goods to be had and always at from \$4.00 to \$6.00 per ton less money? THIS IS NO JOKE.

Remember, too, we have a variety of fertilizers and can supply what the different land and plant need. The great trouble with fertilizer users, and sellers sometimes, is that they will buy a cotton fertilizer for potatoes or potato fertilizer for cotton, etc., when the user will be dissatisfied and perhaps say that fertilizers are no good. Be sure to get the kind most suited. Take great care in selecting something you need. Give us all the information you have about your land and crops, and we will furnish the fertilizer needed.

Mr. Charles Stokes says: "I have tried the fertilizer made at Crockett for two years and in both instances was satisfied with the result. One year I was induced to use another fertilizer for a change and made a complete failure. We know what we get at home. My estimate is that half the cotton seed will pay for fertilizer for cotton."

We have customers who grew 48 bushels of corn with fertilizer and without fertilizing only twelve. You will double your yield by using Davy Crockett brands.
