Hospital Vote To Be Held Saturday

*** MHS Team To Enter Trouble Shooting ***

Who will be the top 1973 'Road Scholars' in Texas? Auto shop instructors here and throughout this area are now holding classroom tests to determine which students will win that title and represent their schools in the regional Plymouth Trouble Shooting Contest May 1 at Fenner Tubbs Company, Lubbock.

Shooting teams selected by their instructors for this nation-wide competition which offers generous rewards for outstanding auto-mechanics students. The teams at the regional contest will be looking for a new series of malfunctions which are deliberately hidden in new cars to test the knowledge the students have gained in classes in auto mechanics. Their job is to find the malfunctions using Cont. on Page 3, col. 3

Election Determines Fate Of District

On Saturday, March 31, Bailey County citizens will trek to the polls to decide the fate of the Bailey County Hospital District. Enabling legislation was introduced by Rep. Bill Clayton and passed by the Texas Legislature which enabled the Bailey County Hospital District Board of Directors to call an election to dissolve the existing hospital district. A one and a half million dollar Hill-Burton grant was approved for the district in February of 1972, but was turned down by the directors because, reportedly, the majority of the public of Bailey County was against paying taxes to support a new hospital.

Saturday Is Last Day To Register Autos

For all practical purposes, Saturday (March 31) will be the last day to register motor vehicles for 1973, Robert W. Townsley, director of the Motor Vehicle Division of the Texas Highway Department, said today.

Townsley noted that the law set the final registration date as April 1, which this year falls on Sunday when county tax offices are closed.

The 1973 license plates must be displayed on vehicles registered in Texas starting Monday, April 2. So they must be acquired not later than Saturday, March 31, to avoid penalty. Townsley said many county tax officers had expressed concern that the pace of registration this year has slowed markedly. Cont. on Page 3, col. 1

Annual Farmers Union District Banquet Scheduled April 6

The banquet will be held at the First Methodist Church in Lubbock beginning at 7:30 p.m.

Dechant was elected national president of Farmers Union in March of 1966 after having served as secretary-treasurer of the nationwide general farm organization. He was born and spent his youth on the family wheat farm in Ellis County, Kansas. The farm statesman addressed District 2 Farmers Union in Lubbock last year, and was acclaimed by those who heard him as an articulate and hard-hitting spokesman for agriculture.

Farmers Union has recently challenged the farm program cut-backs announced by the Administration, and President Dechant has taken the lead nationally to get congressional support for the restoration of farm program reductions. His speech in Texas will be one of the many which he has pledged to make across the nation as he 'stumps the country' to arouse public opinion against what he alleges is the Administration's 'campaign to destroy farm programs'.

Wayne Richardson, president of Lubbock County Farmers Union, is in charge of banquet arrangements and has announced that the limited number of tickets are selling fast. The tickets for the prime rib dinner and the program are \$3.00 each and are available from Lubbock County Farmers Union officers, the Farmers Union Insurance office, the American State Bank, the Security National Bank, Lubbock Chamber of Commerce, and the Plains Cooperative Oil Bank, Lubbock

Charter directors are Norman Head, Jerry D. Gleason, Kenneth Henry, Merlyn Neel, Carl White, Charles L. Pummill and Tootie Middlebrook. Kiwanis Clubs of District 33 who had representatives present at the charter banquet were Canyon, Dimmitt, Friona, Hereford, Amarillo, Portales and Lubbock. The sponsoring clubs and their officers are Hereford - Don Lane, president; Howard Birdwell, first vice-president; Lee Umix, second vice-president; R.C. Holescher, secretary; and Gene Hunsinger, treasurer; and Gene Hunsinger, secretary; Dimmitt - Walter Spinhirne, president; Randal Craig, first vice-president; Carl Breugel, second vice-president; Gene King, secretary; and Joe Nelson, treasurer.

Drivers License Schedule To Change April 1

Beginning April 1, the schedule of the Driver License Patrolman will change to Wednesday only. Waldon Menzer of Plainview will replace C.D. Fitzgerald who has worked the Muleshoe office for the past five years. Fitzgerald will transfer into Driver Improvement two days a week and will be in Muleshoe the third Tuesday of each month serving in that capacity.

Department of Housing and Urban Development - Open Space Land Program, \$25,000. *Influence of Federal Activities - Insurance For Property Improvement Loans, (\$2,000). Department of the Interior - Management and Investigations of Res., SF&W, \$36,696; National Wildlife Refuge Funds, \$1,764. Agency total is \$38,460. Department of Labor - MDTA - Institutional Training, \$8,008; Placement Services - Cont. on Page 3, col. 1

Librarians Attend Lubbock Workshop

Librarians, board members, members of the Advisory Council and Friends of the Library, convened Tuesday, March 13, at the Lubbock Garden and Arts center for a workshop on Library Public Relations. The event centered around plans for National Library Week, April 8-16, and was hosted by the Lubbock Area Library System (LALS), a network of 29 Texas counties.

Present at the workshop were Mrs. Holly Ann Millsap and Mrs. Anne Camp of the Muleshoe Area Public Library and Mrs. Lorene Sooter of the High Plains Bookmobile. Mrs. Kathy Chapman, assistant director of Lubbock City-County Libraries, presided at the morning session. She introduced Rex Webster, Webster and Harris Advertising Agency, Lubbock, who spoke on Library Public Relations.

The annual event - now in its 25th year - is sponsored jointly by the schools and the Plymouth dealers of this area to encourage talented auto mechanics students to complete their education and seek careers in the automobile industry.
 There are 113 regional contests scheduled throughout the United States this spring. Regional meet winners receive trips to the National Finals at Boston June 25, 26 and 27 to compete for more than \$90,000 worth of scholarships, prizes, trophies, tools and automobile components which will be given to their schools for auto shop training aids.
 This spring, some 165,000 students studying auto mechanics in more than 2,000 schools in 50 states are competing for the right to represent their school in the regional contests in which they qualify for the National Finals.

3 Accidents Investigated In Bailey County

The Texas Highway Patrol investigated three accidents on rural highways in Bailey County during the month of February, according to Sergeant Thurman Keffer, Highway Patrol supervisor of this area.
 These crashes resulted in no persons killed and three persons injured.

The rural traffic accident summary for this county during the first two months of 1973 shows a total of six accidents. The rural traffic accident summary for the 60 counties of the Lubbock Department of Public Safety Region #5 for February, 1972 with 478 accidents, resulting in 15 persons killed and 233 persons injured. This 98 less accidents, five less fatalities, and 60 less injuries in 1973 at the same period of time.

The veteran officer reminds you that Texas has over seven million licensed drivers. As the population increases, so does the congestion upon our roads.
 The ten traffic deaths for the month of February, 1973 occurred in the following counties: Briscoe, Clay, Hall, Jack, Palo Pinto, Randall, Stonewall, Swisher, Terry, and Wichita, one each.

South Plains Cotton Harvest Approaches Two Million Bales

The South Plains cotton harvest is approaching the two million bale mark, according to W. K. Palmer, in charge of the Lubbock Cotton Classing Office of the U.S.D.A.
 Samples from 1,947,000 bales had been received at area U.S.D.A. Cotton Classing Offices through Friday, March 23rd. Some cotton remains in fields but most of the remaining cotton to be ginned is stored in bales.
 Samples from 30,000 bales were tested and classed at the

Lubbock office during the week ending Friday, March 23rd. This brought the total classed for the season to 1,918,000 bales.
 Grades of cotton were about the same as the previous week. Low Middling Light Spotted (52) was the predominant grade, making up 24 percent of all cotton classed. Strict Low Middling Light Spotted (42) made up 16 percent, Strict Low Middling Spotted (43) 10 percent and Low Middling Spotted (53) 15 percent.

Average staple length also was about the same as the previous week. Staples were predominantly 30 to 32. Thirty-five percent had a staple length of 30, 29 percent stapled 31 and 17 percent was 32.
 Micronaire reading continued low as the harvest neared completion. Only 10 percent of all cotton classed at Lubbock had micronaire readings in the premium range of 3.5 through 4.9, 9 percent "miked" 3.3 through 3.4, 31 percent was 3.0 through 3.2, 30 percent 2.7 through 2.9 and 20 percent was

2.6 and below.
 The Agricultural Marketing Service of the U.S.D.A. reported active trading on the Lubbock market. Prices were \$2.50 per bale higher. Prices to \$5.00 per bale higher. Prices ranged from \$2.50 per bale over the loan for low grade, low micronaire cotton up to \$60.00 per bale over the loan for high grade, premium micronaire cotton.

Wilbur D. Mills, Congressman (D-Ark), on 15 percent surcharge for imports; "Indecisiveness now will not promote stability but it will instead inflame an already dangerous situation."

Muleshoe Is Featured In Magazine Ad

Muleshoe, a major point on the Texas Plains Trail, this month will begin reaping the benefits of a major new national promotion of the special Panhandle-Plains route. The Texas Tourist Development Agency disclosed that \$13,900 of its spring advertising budget will be invested in a full color page ad on the Plains Trail in four key magazines. It will appear in March issues of Camping Journal and Southern Living, and in April issues of Texas Parade and Trailer Life.

The TTDA is buying a combined circulation of 1.3 million in the publications. The ad's single dominant photo is that of the Ranch Headquarters outdoor museum on the Texas Tech University campus at Lubbock. It was shot specifically for the ad by the TTDA.

The copy mentions such other principal area attractions as Palo Duro Canyon, unique restaurants, "boot hill" cemeteries, and a wildlife refuge for waterfowl.

Featured in a corner of the ad is a coupon inviting the reader to request copies of the Texas Highway Department's special pamphlet on the Plains Trail, and its 208-page travel guide, "Texas --- Land of Contrast".

The ad, and subsequent highway department literature, will give the reader compelling reason to discover this exciting part of Texas", said Frank Hildebrand, TTDA executive director.

"We expect communities and attractions all along the Plains Trail to benefit appreciably from this added promotion of their area as 'trail riders' come their way."

The Plains Trail is one of the ten Texas Trails around which the TTDA has developed special ads. Other spring ad subjects are the Brazos, Hill Country and Forest Trails.

Market Report

COLLEGE STATION -- Cheese and peanut butter making inroads on dinner table "welcome" mats have something going for them.

"First class protein" describes them, according to Mrs. Gwendolyn Clyatt, consumer marketing specialist with the Texas Agricultural Extension Service, Texas A&M University. She suggested them as "excellent meat alternates," as well as eggs, tuna and dry beans, during the weeks ahead.

"With food dollars stretched to the limit, it's certainly well worth the time and effort involved to become a good shopper," the specialist added. "For an economy class main dish, serve a macaroni and cheese casserole, or serve apples and shes for an easy, nutritious dessert.

"Cottage cheese, a relatively inexpensive protein food, served in one-half cup portions, contains only 120 calories with about the same amount of protein as three eggs or three ounces of meat.

"Peanut butter sandwiches, popular with most kids, served with a glass of milk, provides a goodly amount of protein, too."

"Turning to vegetables, Mrs. Clyatt cited carrots as "excellent selection because of the extra plentiful supply on farms in South Texas resulting in attractive prices."

Other vegetable choices include cabbage, potatoes, turnips, beets, cooking greens, rutabagas and broccoli.

"Fruit counters boast first-of-the-season strawberries, usually luxury-priced, but looking very appetizing. Economical choices include bananas, pineapples, tangerines, grapefruit, oranges, apples and avocados."

In spite of increased prices, poultry remains one of the better protein buys, the specialist reflected.

"Turkey and turkey parts are featured at some markets, and this meat can be used many ways."

Beef values in general will appear on chuck roasts and steaks, round steaks, and beef and calf liver.

Pork values are found on quarter loin sliced, shoulder roasts and steaks, smoked hams and picnics.

Calvary Baptist Church Wins Traveling Attendance Trophy

The Calvary Baptist Church of Muleshoe brought home the traveling trophy from the World Baptist Youth Fellowship meeting. The meeting was held on Friday, March 23, in the Bible Baptist Church of Lubbock where Rev. Paul Earp is pastor. The meeting was attended by churches from Plainview, Littlefield, Slaton, Lubbock and Muleshoe.

The trophy is a traveling trophy. It must be taken back to the next meeting and awarded to the church with the best attendance record. The church that wins the trophy three times in a year gets to keep it. The attendance record is not based on the one with the greatest number present at the meeting but is calculated on the church with the greatest percent present at the meeting from their youth departments who were present at Sunday School the Sunday before the youth meeting.

Calvary Baptist Church had eight present at the youth meeting from the junior high and senior high Sunday School classes. That is the same number present at Sunday School the Sunday before the meeting. Adding the extra points for others present, Calvary Baptist Church had a score of 105 points. The next closest church was Grace Baptist Church of Lubbock with 84 points.

The meeting was attended by approximately 168 persons. The majority of these were young people. Rev. Tommy Meers, pastor of the Calvary Baptist Church of Plainview, led the group in singing. Special music was provided by the "Musical Americans", a singing group from the Western Hills Baptist Church of Lubbock.

The featured speaker was Dr. Wayne Martin, pastor of the Grace Baptist Church of Fort Worth. Dr. Martin is dean of students at the Bible Baptist Seminary. He brought a mes-

sage concerning "What we think we are, what other people think we are, what God knows we are, what we ought to be." Dr. Martin summed up the message with the phrase of a famous psychologist, "I'm OK, You're OK."

The host church provided refreshments of sandwiches and cold drinks following the meeting.

As a touch of humor to the meeting, a pitiful award of a monkey was presented to the church that had the lowest score on attendance.

The next youth meeting will be held at the Littlefield Missionary Baptist Church in Littlefield. Anyone from Muleshoe wishing to attend the meeting can obtain further information concerning time and transportation from any member of the Calvary Baptist Church.

Easter Seal Appeal Is Going Well

Bailey County's Easter Seal Representative reported today that the 1973 Easter Seal Appeal of the Easter Seal Society for Crippled Children and Adults is going well. Jimmie Crawford serves as Easter Seal Appeal Treasurer for Bailey County.

The 1973 Easter Seal Appeal will finance the Easter Seal Society's rehabilitation program for crippled children and adults in Texas. Last year the Society helped 16,572 disabled persons through its program of assistance in finding and making effective use of services for the disabled and their families.

The Easter Seal Society helps support 18 treatment facilities in Texas where children and adults not eligible for other assistance are treated. These centers offer physical therapy, medical diagnosis, speech and hearing programs and related services to help the disabled build happier and more useful lives.

As Easter Seal Representative, Crawford is the person to contact for services from the Easter Seal Society. He can be contacted at Muleshoe State Bank, Drawer K.

When contacted for services, Crawford will provide the request to the Easter Seal Society to investigate the needs of the disabled person. The Society will advise the handicapped person of the best resources available to help him.

Crawford added that contributions to the Easter Seal Appeal should be sent to him as soon as possible.

Those who smile often have more friends than those who frown.

Pointers For A Trim Garden

To get the spring garden off to a good start, County Extension Agent Spencer Tanky lists these pointers to consider.

SOIL PREPARATION -- Garden soil needs to be loose and friable to prevent crusting during dry spells. Dig up the soil and work in plenty of sphagnum peat moss, compost or pine bark. Apply a layer three to four inches deep over the entire bed and work in to a depth of six to eight inches. This will improve both heavy clay soils and light sandy soils.

FERTILIZER -- When preparing flower beds, mix two to three pounds of complete fertilizer per 100 square feet of area. Use a fertilizer with an analysis of 8-8-8 or similar type. Light monthly applications of fertilizer throughout the

summer will insure large plants with ample flowers. Water thoroughly after each application of fertilizer.

WATER -- Water in young plants thoroughly at time of transplanting. Water plants regularly except during rainy periods. A thorough soaking once every five to seven days as needed is better than a light application every day.

USE GOOD PLANTS -- Newer and better varieties are being developed each year. Many of the new hybrids will provide more flowers and brighter colors throughout the season. They require no more work and care than the older varieties. Don't attempt to save seed from the new hybrid lines. The results will usually be disappointing since the seed seldom comes true to type.

Few human beings like listening as well as talking.

A History of Bailey County Pioneer Families

Mr. and Mrs. Bill Mathiesen

William S.F. (Bill) Mathiesen was born in Avaca, Iowa, on January 2, 1884. He was married on January 23, 1907, in Minden, Iowa, to Celia Leaders. Celia was born March 22, 1882, in Minden. The Mathiesens came to the Muleshoe area in September of 1918 from Little Sioux, Iowa. The journey was by train on an excursion trip through the Coldren Land Company of Kansas City, Missouri. Mathiesen purchased 320 acres of the YL Ranch headquarters. The family then moved to their new home in December of 1918.

The farm was located in the YL community and the Liberty School District. The school was a two room, two teacher school, located where the YL Methodist Church now stands.

Mathiesen engaged in dairying and farming. One irrigation well was located on the farm, with another being drilled the following year. Mathiesen worked continuously for the betterment of irrigation in the Muleshoe area. The family living was made from dairy cattle, hogs, sheep, alfalfa, wheat and sorghum grains.

Mathiesen shipped a Rumley tractor, plow and threshing machine down from Iowa. With these he did custom soil breaking and threshed small grains including sudan and a variety of sorghum grains.

When the Mathiesens came to the area, Muleshoe consisted of a general mercantile store and post office combination, a bank, depot, elevator, garage, Magnolia Petroleum wholesale plant, a school used also for a church, and a hotel. Communication stemmed from a meager telephone system maintained by the people of the community with the switchboard located in a Muleshoe home.

In 1923 Mathiesen was elected commissioner of Precinct No. One. He served in that capacity for ten years. During his term as commissioner, a new courthouse, replacing a three room building, was built in 1925. During this time, many of the section lines were also laid out.

The Mathiesens' daughter, Vera Engelking, recalls some of the events relating to the pioneer days in Bailey County. She remembers, "A hail storm devastated the crop in 1920. Two years after we came to Muleshoe, the original ranch house burned. We lived in the old bunkhouse until my father could build another house for us. The old barn, a landmark for many years, was built in 1906 by E.K. Warren with lumber shipped from Michigan. The silo, which stood next to the barn, was built in 1916. My father kept silage in it for his registered Holstein dairy cattle. The barn and silo burned on November 3, 1970."

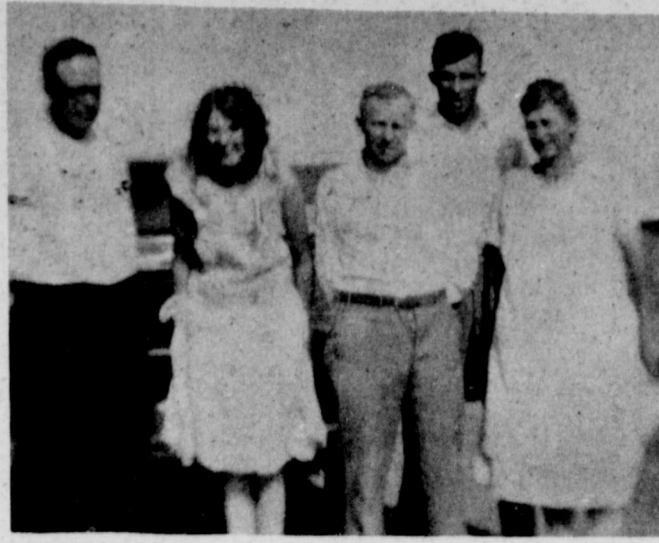

"The sandstorms, always a part of this area, were at their worst in the late 1930's. The pioneers endured the hardships, never losing faith with God to carry them through, and built the foundations for present-day Bailey County."

"The people of the community made their own entertainment. Box suppers, school plays, community dances, school and church socials were never to be forgotten by these early pioneers. In 1924 and 1925 my father furnished the ranch headquarters for Fourth of July celebrations. These celebrations consisted of barbecues, rodeos, baseball games, concession stands and a dance each night. To our amazement, people gathered from near and far, with the estimation of a couple thousand attending each year. The celebration in 1925 was accompanied by some of the coldest weather I ever experienced in July, but with the pioneer spirit, the celebration went on."

The Mathiesens, now deceased, had two children, Roland and Vera, who both live in Muleshoe. Vera, married to the late Harry Henry Engelking, lives at 908 West 7th. Roland and his wife, Dorothy, reside at 1727 West Avenue E.

This is one in a series of historical biographies of Bailey County pioneer families who arrived prior to 1930.

In the spring a young woman's thoughts lightly turn to clothes. The best way to earn a rest is to complete your work.

EARLY DAY SETTLERS...Members of an early pioneer family in Bailey County were the Mathiesens who settled in the YL community. Pictured, from left, were Bill; Vera; Floy Leaders, Celia's brother; Roland and Celia.

Miss Janis May, bride-elect of William Frank (Bucky) Taylor III, was honored with a bridal shower on Saturday, March 24, from 3 to 5 p.m. in the home of Mrs. Jimmie Crawford.

Bailey County 4-H's Enter Foods Show

Six Bailey County 4-H Club members entered the District Foods Show which was held in the Student Union building on the Texas Tech University campus in Lubbock on Saturday, March 24. The Show was sponsored by ConAgra, Inc. Approximately 130 4-H Club members from throughout the district entered the Foods Show.

Entering in the junior division were: Monti Vandiver, who won a blue ribbon in the fruit and vegetable group; Shonny Autry, who won a blue ribbon in the snack and beverage group; JoRhonda Rhodes, who won a red ribbon in the main dish group; and Benetta Roming, who won a blue ribbon in the bread and dessert group.

Connie Floyd won a red ribbon in the senior main dish group and Diane Vinson won a red ribbon in the senior bread and dessert group.

Taylor Sr. of Amherst, and his maternal grandmother, Mrs. Kresten Sorensen of Spade. Other out of town guests were Mrs. J.E. Jennings, Mrs. Harlan Gilley and Mrs. Loyd Sturgis.

Guests were registered by Mrs. Harlan Gilley.

The serving table, covered with a gold linen cloth edged in gold lace, was centered with a silver double candelabra holding avocado tapers and decorated yellow daisies, yellow roses and greenery. A white cake, decorated with tiny daisies and green leaves surrounding a miniature bride's bouquet, and pineapple punch were served from crystal and silver appointments. Presiding at the serving table were Mrs. Stanley Harrison and Miss Diane Crawford.

The hostess gift was an eight piece set of stainless steel cookware.

Hostesses for the occasion were Mrs. Mildred Neely, Mrs. George Washington, Mrs. Charles L. Pummill, Mrs. F.H. Gable, Mrs. W.O. Rudd, Mrs. Francis Gilbreath, Mrs. Clifton Finley, Mrs. Melvin Seymour, Mrs. J. W. Watson, Mrs. Alex Williams, Mrs. Alfred Patterson, Mrs. Horace Blackburn, Mrs. N.L. Johnson, Mrs. Jimmie Crawford, Mrs. Kenneth Precure, Mrs. Martin Oliver and Mrs. Eldon L. Davis.

Comparison Of Food Prices In U.S., Europe

COLLEGE STATION --The U.S. housewife may have rising food prices to contend with, but she still has a few advantages over her European counterpart, according to Dr. Randall Stelly of the Texas Agricultural Experiment Station.

In the U.S., for example, an average income family spends about one-fifth of its income on food. In Italy and England, however, a third of the total consumer income goes for food. Similarly high figures hold true in other European countries as well, with France spending a quarter of her average income

and Germany, 30 percent. It also takes proportionally less work to buy food in the U.S. than in Europe, Stelly said. Paying for a pound of roast beef takes 20 minutes of work in New York but more than an hour and 20 minutes in Moscow. The same amount of beef costs 54 minutes of work in London, 85 minutes in Paris and 70 minutes in Munich, West Germany.

Even buying such a basic as bread requires 13 minutes of work for one pound in Moscow and 12 minutes in Paris but only about half as much in New York.

Another way of looking at the total cost of food is the "food basket", a figure that shows the theoretical weekly food expenditures for a family of four. In 1969, the latest figures, a U.S. food basket costs \$32 and required 12 hours of work. France's cost was close to the U.S., \$31, but required almost three times as much work, 36 hours.

In England the basket actually cost less, \$29, but took 27 hours of labor by the breadwinner. Russia, on the other hand, ranked among the highest with the basket costing \$56 and 82 hours of work needed.

Another plus the American housewife has going for her is the quality and ease of U.S. products. American food quality is the highest in the world, Stelly said, and often the easiest to prepare. Preprocessed foods that only have to be heated and served and specially prepared mixes are common in the U.S. but rare elsewhere, he added.

Consider Use Of Sheets If Decorating On A Budget

Consider sheets when decorating on a budget--they're economical, colorful and versatile.

Mrs. Robin Taylor, county-extension agent, pointed out that today's sheets are available in a wide variety of colorful solids, prints and designs.

Home decorators should find several possibilities to fit family tastes and fancies. Sheets make numerous decorating accessories--indicating their versatility.

For example, they make excellent cafe curtains and full draperies. In fact, a home decorator can achieve complete window coordination by cutting a motif from a sheet and applying it onto a window shade.

Chair and sofa cushions, extra pillows and throw pillow covers all can be constructed from sheets. They're ideal covers for

round and oval tables since they're wide enough to form circular, floor-length tablecloths.

Turning to bedroom accessories, the agent noted that dust ruffles add a dressy appearance.

To make dust ruffles, cut an old sheet the size of the box springs. Cut the ruffle from a new sheet, allowing enough width to reach from floor to top of the box springs. Attach ruffle to old sheet and place between springs and mattress.

In addition, sheets make attractive quilts. A decorative sheet is used as the quilt top, with machine stitching around the major motifs--as in doing quilted upholstery.

A luxurious appearance can be accomplished simply with creative thinking and a little effort, the agent added.

Beef Stroganoff

- 1 lb. ground round steak
- 1 clove garlic, minced
- 1 c onion, chopped
- 2 T flour
- 2 t salt
- 1/4 t monosodium glutamate (optional)
- 1/4 t black pepper
- 1/4 t paprika
- 1 c cream of chicken soup

- 1 small can mushrooms and liquid
- 1 c sour cream
- large pkg. egg noodles

Brown ground beef, onion and garlic. Add the remainder of the ingredients except sour cream and parsley. Simmer uncovered about 10 or 12 minutes. Add sour cream just before serving and simmer very slowly for 5 minutes. Serve on bed of noodles.

Rural Health Needs Boost

EVEN THE INNER cities, distressing as conditions there are, seem to be getting more medical attention than rural poverty pockets.

While some doctors are willing to work for awhile in poorer neighborhoods, in many non-metropolitan areas the situation is becoming more critical.

Records show that in Washington, D.C., there is one doctor for every 340 persons. By contrast, southwestern New Mexico has only three physicians to care for more than 95,000 inhabitants.

With passage of time, the situation is worsening. Ten years ago, there were 98 counties in the country without a physician. Last year, there were 133. That largely resulted from the die-off of old family doctors and failure to replace them. The figures also reflect growing disinterest in the country's more than 300,000 active doctors to take up practice in out-of-the-way rural areas.

A NEW LOOK at health care in medical deprived areas will be taken when the American Medical Association holds its 26th National Conference on Rural Health in Dallas beginning March 29.

The two-day conference, called "Rural Health — Innovation to Implementation," will concentrate on ways of attracting doctors, nurses and other medical personnel to areas badly needing them. And it will go a step further, by searching for answers that might coordinate existing services through new transportation and communications sys-

tems, mobile health units and use of trained paraprofessionals.

It is understandable that the condition has deteriorated to its present gravity. Practice in rural areas offers the individual physician few inducements. Incomes are usually low. A 1972 AMA study says "general practitioners in non-metropolitan counties see more patients per week, charge lower fees and have higher professional expenses... than their colleagues in metropolitan areas."

THERE HAVE been suggestions that the United States borrow from Britain's system to relieve the situation both for doctors and those in need of health care in far-out rural areas. That would mean offering of extra financial benefits to doctors willing to work in medically understaffed areas.

The alternative, observers are convinced, is a further decline of medical care in the hinterlands.

Aside from the humane consideration, other factors are involved. Not the least of these should be an appreciation for the well-being of those who, unlike most of us, are willing for one reason or another to live and work outside the social, recreational and generally more advantageous life provided in urban centers.

They are the ones who develop the raw expanse of thinly populated rural America, and make it produce. Without them, many of us would find it impossible to live comfortably in more convenient urban settlements.

WASHINGTON BUREAU NEWS REPORT FROM WASHINGTON

U.S. Defense - The Money - The Weapons - Falling Behind -

WASHINGTON, D.C. — Although President Nixon is still spending approximately half the nation's income (aside from national debt interest) on national defense, there's growing doubt about the relative military strength of this country and Russia.

The Russians today possess not only their traditional quantity of military hardware but quality. Some Pentagon brass tend to hide the full truth. For example, the Air Force's much-publicized F15 fighter, its first in some time, is being ballyhooed as the fastest in the world. The truth is, however, it's not as fast as the latest Russian MIG's—and they are already flying in considerable numbers.

The Marine Corps is putting much hope in its new air weapon, the Harrier—a vertical takeoff aircraft being built by the British. The Harrier may one day be a key weapon but many feel that, as of today, it's still an experimental vehicle. If it uses its vertical takeoff capability, for example, it can't lift much. Yet the Marines now describe it as a fine air weapon.

The Army, forced to concentrate on helicopters be-

cause jealous Air Force brass has long managed to prevent that service from acquiring fixed-wing, close-support aircraft to support its ground troops, has just seen one of its pet helicopter projects shot down. (The Army should logically be permitted to use whatever aircraft is best suited for its ground units.)

There is also growing doubt if helicopters can survive in a highly hostile environment. Losses in Vietnam were heavy and many feel the Army sustained unacceptable personnel fatalities in their helicopters in Vietnam, losses which could have been avoided, to some extent, had the Army possessed other types of close-support aircraft.

Against a first class enemy air force, helicopters are certain to be dangerously vulnerable.

All these worries face Capitol Hill members of the Armed Services committees of both Houses, who see costs skyrocketing for weapons they are not sure of but weapons defended by each service in a parochial manner; to admit doubt would give a rival service too much ammunition!

NEWS NOTES

HIGH HOSPITAL COSTS

CHICAGO — Two months after James and Lynn Baer became parents of quintuplets, they got their hospital bill for \$13,000. Mrs. Baer entered the hospital only two days before the rates were raised. Insurance will cover 80 per cent of the bill.

LINDSAY WON'T RUN

NEW YORK — Mayor John Lindsay has announced that he would not seek re-election for a third term. He said his decision was based on

personal considerations although "I believe I could win a third term."

GREAT STEAKS

PORTLAND, ORE. — Edward Rooney found out through a news story that he had been eating horse "steaks" for three years. The interview showed his wife buying horse meat at about one-fourth the price of beefsteak. Rooney says he'll continue eating horsemeat.

REAGAN TO RETIRE

SACRAMENTO — Governor Ronald Reagan has decided to become a private citizen when his term as governor ends next year. He made it clear he would not seek a Senate seat.

LETTERS TO THE EDITOR

Dear Mr. Hall:

I received a recent issue of The Muleshoe Journal from one of our members in Bailey County, and I want to thank you for your excellent story on Farmers Union's role in protesting the recent agricultural program cuts. Our people in Bailey County have been very active in supporting Farmers Union to get some of the programs restored.

It is extremely important to our cause that farmers and ranchers understand what we are trying to do, and you newspaper has been very helpful to us in that area. We are somewhat encouraged by the developments in Washington as the legislation to restore agricultural program cuts have passes both Houses of Congress with large votes.

Thanking you for your support for Bailey County agriculture and for giving your readers current information on agricultural developments, I remain Sincerely,

/s/ Jay Naman, President

United States Senate
COMMITTEE ON ARMED SERVICES

There is considerable debate going on at this time on budgetary matters involving authority over federal spending. There are those who say the President has over-stepped his powers by holding up some funds authorized by Congress. Others say it is the responsibility of the executive to see that over-all federal spending stays within reasonable bounds.

exercise authority over spending as it should under the Constitution. It is clear to me that the people across this nation are demanding as never before that the federal government put its financial house in order. This is particularly true because of the fiscal and inflationary situation that has continued to worsen over the past couple of years. I am convinced that most Texans are no longer interested in who is at fault for the large deficits and inflation of the last several

years. They want to know that their elected representatives are capable of acting with foresight, restraint and candor. This also is my feeling, and I intend to react accordingly. What we're talking about is not the merits, or demerits, of any particular piece of legislation. The heart of the matter is this: Just how much spending can we afford in this country without having to dig deeper into the pockets of the taxpayers? During the last Congress, I went along with a vast majority of both Houses to limit total federal spending to \$250 billion for fiscal year 1973. We are now considering a request by the President to limit federal spending for the next fiscal year beginning July 1 to a total of \$269 billion. Even at that, we still will be going in the red. But our commitments to national defense and to domestic

programs which have been passed over the past decade without real concern over their enormous costs are such that it will be almost impossible to go under that figure. There appears to be a general consensus among my colleagues that these spending limits are the correct over-all levels for the nation's immediate needs. Thus, the basic issue is: What are the national priorities—what are the purposes for which the available monies are to be spent.

There appear to be some involved in the debate who may be more determined to participate in a political confrontation rather than come up with a substantive determination on over-all spending and priorities. As I see it, we

who have a leadership role in the Congress have a critical function to exercise in determining this issue. Thus, it's up to Congress to exercise its Constitutional powers in budgetary matters by establishing on its own the appropriate budget procedures. Too often, the practice in the past has been for Congress to haphazardly pass spending measures without any idea of what effect that particular appropriation has on the overall budget. As a consequence, the federal government has gone deeper and deeper in the red—deficit spending has become a way of life.

The crux of the current controversy is over the President's budget. He has submitted a budget that would come

within the ceiling of \$269 billion. And, he has made it clear that if Congress appropriates funds that go over this ceiling, he will veto them. Thus we must act on the immediate objective before us: this is, how do we solve the current fiscal crisis. Also, I am determined that Congress must re-establish its Constitutional power—its will—and its structural ability to determine national priorities within the context of our national resources. Accordingly, I believe the time has come for Congress to become both responsive and responsible in order to attain these goals.

Since the President already has informed the Congress that he will veto spending measures that go beyond budget limit actions, we in Congress must face up to the realities of the time. Personally, I plan to vote to sustain any veto of spending bills which is essential to contain over-all spending within the limits of fiscal prudence defined as being within the consensus ceiling for the next two fiscal years. I also plan to consult with other leaders in the Senate as to specific vetoes and as to recommendations to the President to use or withhold the veto. I will vote against authorizations linked to automatic expenditures inconsistent with these policies, and will join with others in coming up with procedures that give the Congress effective means of controlling over-all expenditures.

These are very vital measures. They affect every one of us, and are most important to the over-all economy of the entire nation. We must move now to re-establish fiscal responsibility. The only alternative is continued run-away inflation, rising prices, and ultimately higher taxes for us all.

The credit got by a lie lasts only till the truth comes out.

Reading Tests Given At MJHS

Muleshoe Junior High School students take two important tests each year. These are the California Reading Tests that are given at the beginning and near the end of the school year.

The test given in the fall was to help the teachers evaluate each student's ability to read and comprehend what is read. The students were then taught according to the results.

The California Reading Test given last week was to inform

teachers and parents the degree of improvement each student has made through the course of the year. This same test also shows the teachers if their method of teaching needs to be improved.

Many students and teachers benefit from these tests. They help teachers to understand the individual needs of their students so they can attain greater goals in reading.

AUSTIN, TEX. -- A widely-publicized ruling of the U.S. Supreme Court relaxed pressure on the Texas Legislature to overhaul school finance laws and the property tax system this year.

Predictions are the major revisions will be undertaken in special session -- if they are undertaken at all before the 1975 regular legislative meeting.
 The High Court, reversing a San Antonio three-judge federal court ruling of December, 1971, upheld property tax financing of local schools and concluded education is not a right assured by the Constitution. The lower court had invalidated the Texas system of financing schools on grounds it varied quality of education from district to district rather than fixing it on the basis of state wealth.

Gov. Dolph Briscoe and Atty. Gen. John Hill emphasized that inequities must still be abolished in public school finance. House Speaker Price Daniel Jr. and others agreed the heat on the Legislature to "act now" has been turned down several degrees.

Bills are pending in both Houses backed by Texas Board of Education and Texas State Teachers Association to revamp finance formulas.

The bills are slated for House Education Committee hearing April 4 at 6 p.m.

Under the Board of Education bill, the state would assume virtually all basic education program cost over a five-year period.

TSTA's proposal calls for local districts to pay 30 per cent (instead of the present 20 per cent) of program costs and would require the local school districts to meet state standards for assessing property and setting tax rates.

With the heat off, legislators aren't expected to rush into anything so far-reaching and controversial as school finance. more to come

ALTERED PRESS BILLS ADVANCE -- Weakened versions of open meetings and newsmen's privilege (called the "free flow of information bill") measures moved forward last week.

H.B. 10 -- the open meetings bill -- advanced to the Senate calendar with Jurisprudence Committee approval in a

form criticized by the Texas Joint Media Committee and Common Cause.

Amendments to the measure are being prepared to tighten the sections on real estate transactions and attorney-public body meetings. These amendments should make the bill more acceptable to the Senate, media groups, House sponsors and other supporters of public access to information.

The "free flow of information" bill, HB 10, to protect sources of information from forced disclosure was due for Jurisprudence Committee consideration after winning sub-committee approval.

Critics noted that an amendment to the open meetings bill permitting closed deliberations on "negotiated contracts" and real estate sales covers a lot of territory never contemplated in the original House bill.

The shield law as it cleared sub-committee on a 4-0 vote would permit the State Supreme Court to order source and information disclosure if it can be obtained by no other means and if withholding it would cause or threaten "substantial cause or injury, endanger public health and welfare or cause substantial injustice."

Spokesmen for the Texas Joint Media Committee said this was a "qualified" privilege, but better than the present common law which gives no privilege at all. REFORM BILL KILLED -- Senators cursed one of House Speaker Daniel's top reform measures -- to limit powers of spending and taxing conference committees by statute -- on a 10-21 vote.

L. Gov. Bill Hobby and ranking senate members maintained the conference limitation is best handled by legislative rules, and senators approved joint rules containing recommended controls.

However, Daniel claimed failure of the bill (HB 5) "dealt pocketbooks of the people a stunning blow." He said millions of dollars are written into appropriations bills at every session not approved in original House and Senate budget measures.

Reversing a Tyler drunk driving conviction, the Court of Criminal Appeals held a jury couldn't alter a verdict reading "guilty" in one section and "not guilty" in another without consultation with all parties.

APPOINTMENTS -- Governor Briscoe appointed Louis Stumberg of San Antonio and John Green of Beaumont to the Parks and Wildlife Commission.

Briscoe also announced these recent appointments: Garrett Morris of Fort Worth to the State Board of Public Welfare.

Dr. Ervin E. Baden of Austin and Raymondville as acting director of the Office of Comprehensive Health Planning.

A.J. Kemp of Fort Worth and J. Fred Buncy Jr. of Dallas and Judson F. Williams of El Paso (reappointment) to the board of regents of Texas Tech University, Lubbock.

Fred S. Nail of Austin is associate director of the new Texas Center for the Judiciary.

Chick Morris, deputy press secretary.

Mary Neil Carlson, special assistant to the press secretary.

AG OPINIONS -- Attorney General Hill held the new Constitutional Revision Commission is not bound by appropriations bill limitations on employee salaries or members' expenses.

Hill said the group can obtain office space, equipment and supplies either through the Board of Control or by contract.

In another recent opinion, Hill held proprietary school bond sureties on closing of a school for financial reasons are liable for all damages and expenses incurred by students and others and not just for refund of "unused" tuition.

ACCIDENT RATE UP -- The Department of Public Safety reported traffic accidents last year rose to 432,998, a 10 per cent increase over 1971.

A record 3,688 died in Texas street and highway accidents. Another 128,158 were injured. Rural areas led in traffic deaths, but the cities had the most injuries.

Total economic loss from the accidents came to an estimated \$1.35 billion, according to the new DPS report.

SHORT NOTICES
 Saturday is the deadline for getting your 1973 car license plates. New tags must be displayed by Monday, April 2.

The Senate approved submission of a proposed constitutional amendment to provide for an annual legislative sessions and \$15,000 a year pay for lawmakers.

A comparative negligence bill permitting damage suit awards on the bases of partial fault received Senate approval and was returned to the House.

House members approved a modified version of Speaker Daniel's bill to limit speakers from succeeding themselves except in event of a genuine draft.

The new State Democratic Executive Committee will hold its first full-scale meeting in Fort Worth March 31.

Lieutenant Governor Hobby's Citizens Conference on Ethics recommended creation of a

strong state ethics commission. Hobby acknowledged little enthusiasm for the idea. Gov. Briscoe said he didn't want an ethics commission either.

The governor announced plans to create a Rural Development Council.

New state bank applications have been filed in Orange and Austin.

Reversing a Tyler drunk driving conviction, the Court of Criminal Appeals held a jury couldn't alter a verdict reading "guilty" in one section and "not guilty" in another without consultation with all parties.

Sibyl Brown Dies In California

Sibyl Coker Brown, a Muleshoe native, died of cancer March 22, in Riverside, California.

Born January 18, 1918, Mrs. Brown was head librarian at California Baptist College in Riverside for 22 years. She received her Bachelor of Arts degree from West Texas State University and the Master of Science degree in Library Science from the University of Southern California.

Mrs. Brown was responsible for building the collection of 100,000 books in Cal Baptist's Annie Gabriel Library and for the impressive position the library holds among colleges of comparable size.

Societies in which Mrs. Brown held membership include American Association of University Women, American Librarians' Association, Christian Librarians' Association, American Archivists Association, and International Relations Club. She has also appeared in "Who's Who of American Women" and was a member of the Magnolia Avenue Baptist Church.

Mrs. Brown is survived by her husband, Olie, one daughter, Mrs. Richard Melchior; and a son, Alton Theoran.

Funeral services were held March 26 at Magnolia Avenue Baptist Church, Riverside. Larry Nixon, pastor, officiated. Others participating in the service were Dr. George Musacchio, Dr. Dewey H. Jones, Dr. James Staples, Helen English Walker, and the Magnolia Avenue Baptist Church choir. Burial was at Crestlawn Memorial Park.

Classes at the college were dismissed and offices closed on Monday in Mrs. Brown's memory. The family requested donations to California Baptist College in lieu of flowers.
