

THE GRAHAM LEADER

ESTABLISHED AUGUST 16th, 1876.

WITH MALICE TOWARD NONE; WITH CHARITY FOR ALL

OLDEST NEWSPAPER IN NORTHWEST TEXAS

VOLUME XLIV.

GRAHAM, TEXAS, THURSDAY, MARCH 4, 1920.

NUMBER 28.

ELIASVILLE BECOMING OILFIELD TOWN OF IMPORTANCE

The little town of Eliasville, which has heretofore been looked upon as a place to spend a summer outing in camping and fishing, has taken on real oil field activity and is building rapidly since the stroke in the Lydon well, two miles south. A town lot sale was held there yesterday at which several lots were sold at good prices, one lot on the bank of the river bringing the net sum of \$1250.00. The day of the sale was very disagreeable, one of those blustery, sandy, dark days common in the spring of the year, and for this reason the crowd in attendance was not so large as had been anticipated, but a majority of those who came from a distance were there for business regardless of weather conditions and purchased choice lots in the new addition upon which residences will soon be erected.

More than a dozen new business houses and about the same number of residences, have just been built or are under construction. Restaurants, hotels and business concerns are doing a real oil field business.

The Lydon well, the greatest producer in the north Stephens county field, is just two miles south from Eliasville. Around the Lydon, within a radius of not over one-half a mile, there are ten new derricks up and will be drilling within the next few days. The greatest part of the supplies for this field come from Eliasville, giving the merchants there a volume of business that would have satisfied a small city a few years ago.

It is generally believed there that a location has recently been made near the business section and the construction on a rig will be begun during this month.

Slowly, but surely, the line of Texas' greatest oil field has gradually been working towards Graham through the hard winter months and now that spring is upon us we can expect the greatest era of development ever witnessed in an oil field in and around the town. Everything used in the work of development in all this section which will require many years, must come and go through Graham. No town in all the great Texas oil field has been so well located. In every direction from Graham oil has been found during the past two years and it is now practically certain that this town will be the hub in the wheel of one of the greatest oil fields ever developed. The oil fraternity realizes this and many of the men who are recognized among those in the highest ranks have purchased many thousand dollars worth of property upon which magnificent residences have or soon will be constructed. Graham is the only town in the great oil field that was in any measure prepared for the great boom the oil development brought and it is now freely predicted by those who are familiar with oil field towns and their growth during the development of a great oil field, that our population will run far above the ten thousand mark before 1920 comes to a close.

J. E. KILPATRICK CANDIDATE FOR COUNTY COMMISSIONER

This week we are authorized by J. E. Kilpatrick to place his name in our announcement column as a candidate for Commissioner of Precinct No. 4, subject to the action of the Democratic primary in July.

Mr. Kilpatrick has lived in the Precinct for the past seven years and is well and favorably known throughout the county. He is a good man with business ability to take care of the best interests of the county and will make a good Commissioner if elected.

Mr. Kilpatrick may be unable to see all the voters of the Precinct between now and election time and he asks that you give his candidacy due consideration before casting your ballot.

RESOLUTIONS OF RESPECT

Whereas the Supreme Ruler of the Universe has, in his infinite wisdom, taken from Magnolia Grove No. 273 our faithful and beloved Banker, Sov. Annie Barnum, be it

Resolved, That the members of the Grove extend to the bereaved family our heartfelt sympathy and may our Heavenly Father heal their broken hearts, and be it further

Resolved, That one copy of these resolutions be spread on the minutes one sent to the family, one to the Tidings and one to The Graham Leader.

REPORTER OF NO. 273. Norris et al; on trial by jury.

GRAND JURY REPORT

To the Honorable District Judge of the 30th Judicial District of Texas: District Court Young County, Texas, March Term, 1920.

Sir: We, your Grand Jury, duly organized as such for the March Term of said Court, beg leave to report:

We have been in session for three days and we have examined the following number of witnesses, about 45, and we have found two bills of indictment.

There has not been called to our attention any violation of the prohibition laws of this State.

There has not been called to our attention any violation of the Anti-Trust law.

There has not been called to our attention any violation of the railroads of giving rebates.

We have not had called to our attention any violation of the election laws.

We beg to report that we have examined the jail and find as follows:

The building is old, walls cracked, floors worn not strong enough to support weight of cells if filled with prisoners. Its location being near a large frame building makes it dangerous in case of fire for the prisoners. It is too small for the county, not sanitary, poorly ventilated, and we consider it not a fit place to confine prisoners and we respectfully condemn the present jail building.

We find the court house in good condition.

We have examined the reports of the County Judge, County Clerk, District Clerk, Justice of the Peace and find same to be well kept.

We wish to thank the Court, the District Attorney, County Attorney, and the Sheriff for courtesies extended, and services rendered.

Having completed our labors as Grand Jurors, we pray to be discharged.

J. T. RICKMAN, Foreman.

ELLIOTT-SWAIN

On last Saturday afternoon, February 28th, at 3 o'clock at the home of Rev. R. E. Boyle, in the presence of a few relatives and friends, O. C. Elliott and Miss Eula Swain were united in holy matrimony, Rev. Boyle officiating.

The groom is a splendid young man of sterling qualities. He is enterprising and energetic; he served his allotted time as a valiant soldier in the world's greatest war. He is the son of Mr. and Mrs. J. G. Elliott, now of Indian Mound, who formerly lived for a number of years in the Shinola community.

The bride is a charming young lady of high accomplishments and refinement. She is numbered with her community's noblest young ladies. She is the daughter of Mr. and Mrs. J. Swain, who have been residents of the Jean community for several years.

This young couple have the high esteem of a great host of friends, who wish them all the success and happiness that can come to them.

RESOLUTIONS OF RESPECT

Whereas the Supreme Ruler of the Universe has, in his infinite wisdom, taken from Magnolia Grove No. 273 our faithful and beloved Banker, Sov. Annie Barnum, be it

Resolved, That the members of the Grove extend to the bereaved family our heartfelt sympathy and may our Heavenly Father heal their broken hearts, and be it further

Resolved, That one copy of these resolutions be spread on the minutes one sent to the family, one to the Tidings and one to The Graham Leader.

REPORTER OF NO. 273. Norris et al; on trial by jury.

DISTRICT COURT NOW IN SESSION

The March term of the District Court convened Monday with Judge W. F. Weldon, appointed to succeed Judge W. N. Bonner, presiding. District Attorney Fletcher S. Jones arrived Sunday night and has been busily engaged with his duties ever since. District Clerk Willie Riggs, although sick, is at his post, as is also Sheriff Mal M. Wallace.

The grand jury was empanelled and charged Monday evening and after three days' labor adjourned, finding two felony bills.

Wm. Johnson is acting as door bailiff; J. W. Robinson and Jim Hubbard, riding bailiffs and J. L. Flint walking bailiff.

The following gentlemen composed the grand jury:

J. T. Rickman, foreman, G. W. Hutchings, Arthur Wilborn, M. F. Wells, J. F. Larimore, J. V. Hamm, T. J. Endlemann, Henry Criswell, H. M. Donnell, F. H. Wilson, R. V. Tidwell, Ed Slater.

J. T. Richardson vs. J. E. Isham, trespass to try title; dismissed at plaintiff's cost.

U. T. Dickson et al vs. J. J. Dickson; trespass to try title; dismissed at plaintiff's cost.

Mattie Dalton vs. Richard Dalton; divorce; continued.

John E. Morrison Co. vs. C. B. Caviness; dismissed at plaintiff's cost.

G. P. Daniels vs. Humble Oil & Refining Co.; cancellation oil and gas lease; dismissed at defendant's cost.

J. T. Edwards vs. Effie Edwards; divorce; dismissed at plaintiff's cost.

J. W. Perselly et al vs. Loving Coal Co.; foreclosure laborers' lien; dismissed.

Ethel Smith vs. Guy Smith; divorce; dismissed at plaintiff's cost.

Service Truck Company of Texas vs. D. B. McIntyre; debt and foreclosure; dismissed.

James J. Shirley et al vs. John Conner et al; trespass to try title; judgment for plaintiff.

J. C. Cunningham vs. Theodore Frois et al; trespass to try title; judgment for plaintiff.

First National Bank of Olney vs. C. M. Parker; debt and foreclosure; dismissed at plaintiff's cost.

S. J. Allen vs. Benj. Hill et al; trespass to try title; judgment for plaintiff.

Wichita Sales Supply Co. vs. Rufus T. Bowen; attachment; judgment by default.

Mrs. Minnie Reynolds vs. Jim B. Reynolds; divorce; dismissed.

J. E. Norris et al vs. N. S. Farmer; trespass to try title; judgment for defendant.

Mattie Westbrook vs. W. N. Westbrook; divorce granted, plaintiff given maiden name and title quieted to property.

Mabel M. Snoddy vs. John G. Snoddy; divorce granted.

May Lokey vs. A. D. Lokey; divorce granted plaintiff.

C. W. Johnson et ux vs. L. M. Osborn et al; trespass to try title; judgment for plaintiff by default.

C. W. Johnson vs. J. W. Scott et al; trespass to try title; judgment for plaintiff.

J. T. Vaughan vs. Dora Brunson; foreclosure; judgment by default for plaintiff.

Katherin Bays vs. J. S. Bays; divorce granted.

Ophelia Lewis vs. F. M. Lewis; divorce granted.

Louise Blodworth et al vs. Texas Wonder Pools Oil Co.; dismissed at plaintiff's cost.

Mrs. Christine Pohlman vs. B. C. Cochran; foreclosure; dismissed.

Ex parte Henry Pringle; removal of minority granted.

Graham Mill & Elevator Co. vs. Walter D. Hines, Director General et al; damages; dismissed at plaintiff's cost.

Ex parte Aline Johnson Ramsey; judgment as prayed for.

State of Texas vs. R. R. Young; embezzlement and theft by baillee; plea of guilty; two years suspended sentence.

John Crutchfield et ux vs. J. B. Norris et al; on trial by jury.

LAST NUMBER LYCEUM COURSE

The last number of the lyceum course will be given Friday, March 12, at the school-house. This number is a lecture, and will be given by Dr. Robinson, whom several of our citizens have heard and vouch for as being a lecturer of more than ordinary ability. He is eloquent, witty, and filled with a spirit of good fellowship, and we are sure all who hear him will feel well repaid.

The Yanks Quartet was indeed a success, both as an entertainment and in a financial way. Tickets sold, and door receipts amounted to \$66, making the total amount, above the guarantee, \$415.

D. K. LYON ANNOUNCES FOR COUNTY SUPERINTENDENT

Mr. Lyon is well known to the majority of the citizens of Young county, having served the county very efficiently as County Superintendent for two years, term ending December 1, 1917.

Mr. Lyon holds a permanent certificate in the State, has had fifteen years experience in teaching and has made a special study of the schools of the State and county and their needs. His past experience as teacher and Superintendent qualifies him well for the position. Will you consider his claims at the Democratic primary in July.

EXCELSIOR LITERARY SOCIETY

The Excelsior Literary Society met Wednesday, March 3, in the high school auditorium in its regular session. The Society was called to order by the vice president, Mary Whitesides, the president being absent.

The roll call was then called and each member answered with a quotation from James Whitcomb Riley. The minutes of the last meeting were then read and approved. It was then decided that the Society would not meet Wednesday, March 10, because we would give our regular program Wednesday morning. There being no further business, the following Riley program was given:

Sketch of Riley's Life—Lilburn Campbell.
Reading, "Out to Old Aunt Mary's"—Mary Whitesides.
Piano Solo—Edna Bowron.
Reading, "Taste"—Jack McGowan.
Reading, "Grigsby's Station"—Sam Crow.

We then heard the report of the critic and the program for March 10 was read, which is:

Vocal Duet—Frances Bowron and Ruby Lee Edens.
Reading—Frank Horton.
Piano Solo—Mary Taylor.
Reading—Lora Seddon.
Society song by all the members.

YOUNG ELLEDGE

W. R. Young and Miss Gay Elledge were united in marriage at the home of the bride's mother, Mrs. J. W. Elledge, in this city at 10 o'clock last Sunday morning, February 19th.

The bride formerly lived at Eliasville but moved to Graham with her parents about a year ago. She has many friends here and at Eliasville. The groom was reared at Eliasville and is a young man of many good qualities possessing acres of friends. The happy young couple will make their home at Eliasville.

The Leader joins their many friends in extending congratulations and very best wishes for a long, happy and prosperous life.

All this section was yesterday visited by one of the worst sand storms in years. The wind, which changed from the west to the north, became severe and did quite a bit of damage to telephone and electric light wires. The temperature fell rapidly all night and it continues cold today with good indications for a heavy freeze to night. Some fear is entertained for the fruit crop if the freeze should be great. Plums, it is believed, have already been killed.

OIL ACTIVITIES IN GRAHAM FIELD SHOW MARKED INCREASE DAILY

INFLUENZA IN CHINA LEADS TO HIGHER PRICE FOR COFFINS

Hangtung, China, Jan. 26.—The influenza epidemic in this district has caused so many deaths that there is a shortage of caskets and their price has risen 400 per cent in recent weeks.

Because of this many bodies have been buried in shrouds only, a practice uncommon even among the poorest Chinese. Another departure that has been forced upon the people by the existing situation is that Feng Shui, or the practice of geomancy in connection with funerals by which grave sites and times of burial and other details are determined, is being ignored for the first time, for no longer can notice be taken of lucky or unlucky days for holding funerals. Whole households are being wiped out by the epidemic.

WOMAN'S MISSIONARY SOCIETY OF THE METHODIST CHURCH

The Woman's Missionary Society of the Methodist church met Monday afternoon at the parsonage. The President, Mrs. T. E. Bowman, presided over the meeting. The Mission Study Course and plans for raising the Society's pledge toward the erection of a new church building were discussed.

A very novel plan was adopted by the Society for the raising of funds. Each member agreed to contribute one dollar as an original investment and to put the amount so contributed to work as capital, the proceeds and all earnings to go to the building pledge. It will no doubt be quite interesting to see how many uses so small a capital can be put. The ladies of the Society are enthusiastic over the plan and it is expected that a considerable portion of their pledge will be raised in this manner.

This plan was adopted by the Society as a body, and all members who were not present at the last meeting are expected to join in the plan and are urged to put their dollars to work. Those who do not report any earnings on their original contribution will be expected to double the contribution at the next business meeting of the Society, at which time a report of all earnings will be made. After the business meeting a social hour was enjoyed. Mrs. Bowman, assisted by Mrs. Lynch, served a dainty luncheon.

ROYAL BARACA CLASS

The Royal Baraca Class of the Baptist church is now fully organized. They have followed the popular movement among Baptists of the South to organize the classes to do more efficient work for the Sunday Schools. Seeing the needs of this along the church work line, they have prepared themselves to meet the present situation in Graham. It is their purpose to interest those not already active in Sunday School to attend. This class is composed entirely of single men. They are and will continue to be a very active factor in church and Sunday School development.

The officers as elected February 29 are: President, Spencer Mayes; vice president, Frank Horton; secretary, Elmer Calvin.

YOUR TROUBLES ARE OURS

Why not economize on your Tires as well as everything else. That old Tire you carry on your car just to run in on may be as good as one you are running, if the blowout was closed the way we close them. Our guarantee is to make the patch out wear the casing. When this is done that is all there is to do. Casings and Tubes vulcanized. Your Tires changed while you wait. 28-9c. BABB MOTOR CO. 28c

Considerable activity is being manifested in the oil field around South Bend this week, as the Colcord-Scott well, just south of the store, is showing oil around 1850 feet and reported shut down waiting orders, but it is not thought any oil in paying quantities will be reached until they get around 2300, which is in the neighborhood of the Goode shallow sand. We understand they have practically a dry hole and are erecting leverage to set the casing before drilling deeper. This is the Star rig which commenced drilling on February 7th and is considered as holding the record for drilling in Young county, but it is thought in the future this shallow sand can be reached in from thirty to fifty days.

Just northwest of South Bend about one-half mile on the James Tobin Survey, Block 43 of the Stovall Plantation map, Denny et al have made a location and have let the contract for fuel and will probably be drilling in a short time. This will be a Star rig, but it is calmed sufficient to reach this shallow sand at the least expense and in the shortest time possible.

The Ed McCluskey well in the bend of the Clear Fork on the north 200 acres of Survey No. 3415 and just up the river is now drilling with Standard tools. This well is being drilled by the Panhandle Refining Co. of Wichita Falls, and will be a 4,000-foot test.

The Graham Oil Syndicate people are surveying out their land in the Sarah Tankersley Survey, just 700 feet west of the McCluskey well and will begin immediately the erection of a Standard derrick and no doubt, will be drilling before the end of the month.

The Pratt, on Survey 2110, offset to the Donnell, and in the same section as above wells, is still drilling and possibly around 1000 feet, but have had trouble with a crooked hole.

The Ford rig, on the Carter Survey, will soon be completed and will be drilling at an early date.

The Scott well, on the Rudose Irrigation Co. Survey, is around 1800 feet and should reach the Goode shallow sand in the next few days. The two Scott wells, the Timmons, and the McKee are expected in most any day. It is rumored the hole will be ready for the shot at the Timmons Friday and we understand they will shoot it with around 800 quarts of nitroglycerine. This well is showing more oil and has some sixty feet of pay sand.

The Steen is drilling a few feet deeper. It is reported showing more oil, but we have not learned if they will get to shoot it this week.

Most all of the other wells are drilling and brick activity can be seen on every hand.

MONUMENT VS. JEAN

To The Graham Leader: Both boys and girls of the Monument basket ball team met Jean on their court Friday afternoon at 3 o'clock. The Monument girls won a score of 45 to 5 and the boys game was 3 to 11 in Monument's favor. The girls line-up: Monument: forwards: Gladys Barnette, Veda Barnette, Nelle Sanders; centers: Myrtle Burdick, Gladys Long, guards: Alta Maples, Jeanette Alberts. Jean: forwards: Artie Sims, Beulah Watson, centers: Bill Strud, Roma Gray, guards: Elsie Robinson, Loreatha Crabb.

Miss Grace Riddle, the intermediate teacher of the Monument school, refereed the first of the game and Fred McBrayer, principal of the Jean school, refereed the second half. It was a straight game and all present enjoyed it. BOB.

THE HIGHEST BIDDER

On Monday, March 8th we will sell to the highest bidder on the public square a bran new Moon Bass Hack. 28c NORRIS-JOHNSON HDW. CO.

GIRLS! A MASS OF WAVY, GLEAMY BEAUTIFUL HAIR Let "Danderine" save and glorify your hair

In a few moments you can transform your plain, dull, flat hair. You can have it abundant, soft, glossy and full of life. Just get at any drug or toilet counter a small bottle of "Danderine" for a few cents.

Let Danderine put more life, color, vigor and brightness in your hair. This stimulating tonic will freshen your scalp, check dandruff and falling hair, and help your hair to grow long, thick, strong and beautiful.—Adv.

Never Thought of That. A lover of the cranberry says it is a fine antiscorbutic. Now, we had never thought of that.—Arkansas Gazette.

NEW DRESS FOR OLD WITH DIAMOND DYES

Women Can Put Bright, Rich Color in Shabby, Faded Garments.

Don't worry about perfect results. Use "Diamond Dyes," guaranteed to give a new, rich, fadeless color to any fabric, whether it be wool, silk, linen, cotton or mixed goods.—dresses, blouses, stockings, skirts, children's coats, feathers—everything!

Direction Book in package tells how to diamond dye over any color. To match any material, have dealer show you "Diamond Dye" Color Card.—Adv.

Bachelors are the only men who think they know it all.

WATCH THAT COLD!

Colds and chills leave thousands with weak kidneys and aching backs. The kidneys have to do most of the work of fighting off a cold and they weaken—show up. You feel dull and irritable and have headaches, dizziness, backache, and irregular kidney action. Give the kidneys quick help with Doan's Kidney Pills! Doan's are used and recommended the world over for weak kidneys and bad backs. Ask your neighbor!

A Texas Case. Mrs. E. E. Leslie, Merkel, Tex., says: "I was bad off with kidney trouble. I had dull pain through my kidneys and I also suffered from nervous headaches. When I bent over I also became very dizzy and black specks would float in front of my eyes. My kidneys acted irregularly. I heard of Doan's Kidney Pills and I used them. My kidneys were cured. I have been in fine health ever since."

Get Doan's at Any Store, 60c a Box DOAN'S KIDNEY PILLS FOSTER-MILBURN CO., BUFFALO, N. Y.

Safe Remedy for granulated lids, styes, pink-eye. Avoid powerful dangerous drugs—MICHHELL EYE SALVE FOR SORE EYES

GRANGER LIVER REGULATOR For all Liver Complaints, Constipation, Indigestion, etc. PRICE 25c AT ALL DRUGGISTS

WINTERSMITH'S GILL TONIC Sold for 50 Years FOR RHEUMATISM, GOUT AND PAIN Also a Fine General Strengthening Tonic. At All Drug Stores.

ITCH! Money back without question if BURT'S SALVE fails to relieve itching of ITCH, ECZEMA, BURN, WORM, TETTER or other itching skin diseases. Price 25c at all drug stores, or direct from A. B. Burt's Salve Co., Boston, Mass.

WILSON SIGNED RAIL BILL LATE SATURDAY

PRESIDENT ISSUES PROCLAMATION CONTINUING LINES AS DIRECTOR GENERAL

MAKES REPLY TO WORKERS

Advises Brotherhood Heads Board Will Be Appointed to Consider Wage Problems Under Bill.

Washington—President Wilson signed the railroad bill on the eve of the return of the roads to their private operation.

In a proclamation issued at the time the bill was signed, Mr. Wilson vested in Walker D. Hines, director general of railroads, virtually all powers conferred upon the executive by the bill. Mr. Hines will also continue to exercise the duties of director general which continued beyond the return of the roads to private control.

The White House, also made public the text of the president's reply to a recent request of representatives of the railroad brotherhoods that he appoint a commission composed equally of employers' and employees' delegates to consider wage demand settlement proposals and does not refer directly to the memorial later presented by the brotherhood heads asking that he veto the railroad bill.

In this letter, Mr. Wilson said the passage of the railroad bill "made it evident that I could not act on your suggestions until it should have been determined whether the bill would become a law or not."

"It was manifest," the letter continued, "that if the bill should become a law, the negotiations and consideration of the wage matter ought to proceed in harmony therewith."

"The bill having now become a law, the way is open for immediate action on the wage matter in accordance with the terms of the bill. Sec. 301 of the bill evidently contemplates that the carriers and employes should as suggested by you, select representatives who will thus constitute a bipartisan board for the purpose of attempting by conference to agree upon a solution of this wage problem."

FIUME FOOD SUPPLY IS CUT OFF BY BLOCKADE

City in Deep Despair and D'Annunzio's Forces Reduced By Desertions.

Fiume.—A siege of Fiume has begun with a stringent blockade against commodities, including food-stuffs. "We are starving," said a prominent banker, who previously had been a strong supporter of Italian annexation. "We are unable to go further. We are now ready for an international city. We want our port reopened to commerce. We want the city occupied either by an American or a British garrison. The present state is impossible."

D'Annunzio's forces have been considerably diminished during the last weeks by desertions. This is especially noticeable among the officers.

3 1/2 Per Cent Beer Illegal.

Washington.—All persons found violating the federal prohibition enforcement act will be proceeded against to the "limit of the law," irrespective of any state statutes legalizing the sale of liquor, it was announced by commissioner Roper of the internal revenue bureau. Mr. Roper's ruling resulted from the bill now pending before the New Jersey legislature legalizing the sale and manufacture of beer containing 3 1/2 per cent of alcohol.

Dempsey and Kearns Both Indicted.

San Francisco, Cal.—William Harrison (Jack) Dempsey, heavyweight champion of the world, and his manager, Jack Kearns, have been indicted by the federal grand jury here on a charge that they conspired to have Dempsey evade the selective draft. A second indictment against Dempsey charged actual evasion of the draft.

Fuel Administration Continued.

Washington.—Coincident with the signing of the railroad bill President Wilson issued executive orders providing for continuation of the powers of the fuel administration.

Oil Mill Has \$100,000 Fire.

Hillsboro, Texas.—Damage estimated at \$100,000 was sustained by the Hill County Cotton Oil company when the products store building caught on fire.

\$14,300,000 in Gold to Argentina.

New York.—Gold valued at \$14,300,000 has been withdrawn from the subtreasury here this week for shipment to Argentina, it is announced.

Payne Confirmed as Secretary.

Washington.—The senate has confirmed the nomination of John Barton Payne, chairman of the shipping board to be secretary of the interior, to succeed Secretary Lane, resigned.

Aged American Killed by Bandits.

Washington.—Augustus Morrill, formerly American consul at Manzanillo, Mexico, was killed by Mexican bandits Feb. 25. Mr. Morrill was 88 years old and retired from the consular service in 1881.

PRESIDENT VERY FIRM ON ADRIATIC QUESTION

RENEW'S HIS THREAT TO WITHDRAW TREATY OF VERSAILLES FROM SENATE.

Washington.—President Wilson, in his reply to the British and French premiers on the Adriatic question, adheres to his previous decision that unless the terms of settlement are returned to the provisions of the agreement of Dec. 5, he "must take under serious consideration" the withdrawal of the treaty of Versailles and the French alliance from the senate.

Holding that the provisions of the agreement sent as an ultimatum to Jugo Slavia would merely continue "the old order of things which brought so many evils of the world," President Wilson in his first communication to the entente premiers declared that if such were made effective, the time had not come "when this government can entertain a concert of powers, the very existence of which must depend upon a new spirit and a new order." The note then added:

"The president desires to say that he must take under serious consideration the withdrawal of the treaty with Germany and the agreement between the United States and France (the Franco-American treaty), which are now before the senate."

Premiers Millerand of France and Lloyd George of Great Britain stated that changes in opinion and circumstances had occurred since the original proposal to which the United States was a party when drawn, which changes evidently were not fully appreciated in the United States.

France and Great Britain, the premiers' note stated, consequently "view with consternation" the threat of the United States to withdraw from the league of nations. Hope is expressed by the premiers that the United States "will not wreck the whole machinery for dealing with international disputes" because the position of the United States is not accepted in a particular case.

In his last note, the president reiterated in an emphatic manner his stand, from which he asserted there could be no departure, as the course decided upon by the premiers would be "short-sighted and not in accord with the terrible sacrifices of the entire world, which can be justified and ennobled only by leading finally to settlements in keeping with the principles for which the war was fought."

ASQUITH IS ELECTED TO BRITISH PARLIAMENT

Former Premier Defeats Labor and Coalition Unionist Candidate at Paisley.

London.—Former Premier Herbert E. Asquith has been elected to parliament from the Paisley constituency in the recent by-election.

Mr. Asquith, the liberal nominee, polled 14,726 votes, against 11,902 for J. M. Biggar, the labor candidate, and 3,795 for J. A. D. MacKean, coalition unionist.

Announcement of the result met with a mixed reception from a crowd of 10,000 persons assembled about the county building at Paisley. Mr. Asquith appeared, but did not attempt to speak because of the great din. When he left he was pelted with meal and an attempt was made to halt his motor car with a rope. Ultimately he burst through the obstruction amid a babel of cheers and hisses.

Air Service Schools in Texas.

Washington.—Specialized training for army air service personnel is provided in a program approved by Secretary Baker and which includes the establishment of the following service schools: Pilot, Carlstrom Field, Florida and March Field, California; pursuit, Rockwell Field, California; bombardment, Ellington Field, Texas; observation, Post Field, Fort Sill, Ok.; engineering, Dayton, Ohio; general school, Langley Field, Virginia; mechanic school for enlisted men, Kelly Field, Texas; balloon, Ross Field, California, and Lee Hill, Virginia; airship (dirigible school), Brooks Field, Texas.

Will Ignore Red Peace Proposal.

Washington.—Soviet Russia's proposal to the United States for peace will receive no consideration from the American government, it was said at the state department.

Schools Close On Account Smallpox.

Seymour, Texas.—On account of the prevalence of smallpox the Seymour schools have closed. There are 20 cases of the disease reported here. No deaths have occurred.

Love Field Gets Planes.

Dallas.—Thirty-two carloads of airplanes have been received at Love Field from Rich Field at Waco and a large amount of machinery from Tallahferro.

Will Operate Big Airship Lines.

New York.—Plans for the operation of three transcontinental dirigible airship lines for passengers and of several smaller middle western lines are announced here.

News Print Paper Price Raised.

New York.—The price of news print on International Paper company contracts will be increased from 4 1/2 c a pound to 5 c for the quarter beginning April 1. C. W. Lyman, vice-president of the company, announces.

VETO OF RAIL BILL IS ASKED BY LABOR

IF MEASURE IS APPROVED, STEPS TO TEST CONSTITUTIONALITY ARE PLANNED.

Washington.—Railroad labor has decided to ask President Wilson to veto the railroad reorganization bill.

In a memorial to be submitted the representatives of the 2,000,000 workers will request the president to withhold his signature from the measure until they can present a brief of their reasons why it should not have executive approval.

Knowledge of the president's intention to have Attorney General Palmer pass upon the validity of the measure did not deter the union leaders from their determined course of action.

The next step in the union program, if the bill is approved, is to test the constitutionality of the law. Various methods of bringing that about were suggested, but all will be held in abeyance pending the president's action.

President Wilson was also asked in a letter from George P. Hampton, managing director of the Farmers' National Council, on behalf of farm organizations affiliated with the council, to veto the railroad bill on the "grounds of public policy." He asked that the president personally or through Secretary Tumulty receive a delegation and that he defer action on the bill until the farmers' representatives have a chance to express more fully their reasons for opposing it.

The president was told that the return of the railroads would mean an increase of "four to five billion dollars" in the cost of living because of the increase in freight rates, and that one billion dollars—of the increase would be passed on to the farmers. This increase, Mr. Hampton said, could not be borne now, as agriculture was in "a precarious" position.

S. M. U. IS AWARDED \$3,000,000 BY BOARD

Major Portion Is to Be Expended Upon Theological Department Yearly.

Dallas.—Three million dollars has been awarded to Southern Methodist University by the educational commission of the general educational board of the Methodist Episcopal Church, South, according to an announcement made by Judge Cockrell, president of the board of trustees of S. M. U., who has returned from Nashville, Tenn., where he has been in conference with the educational commission.

This sum is to be divided between the theological department of the university and the liberal arts department. Two million five hundred thousand dollars is to go to the theological school and the remaining \$500,000 to the school of liberal arts. The fund is to be paid annually until exhausted.

WARRANTS FOR IRON COUNTY MEN REFUSED

Armed Posse Ordered by Major to Take Men Without Warrants.

Marquette, Mich.—District Attorney Walker at Grand Rapids refused to issue warrants for the arrest of the Iron county officers of the prohibition law. Major A. V. Dalrymple, head of the prohibition forces in the central division, ordered the armed invasion of the mining district to proceed and announced he would bring out the men he wants without warrants.

H. B. Hatch, United States commissioner, in refusing to issue federal warrants for the arrest of Iron county officials, declared he could not act without the approval of District Attorney Walker at Grand Rapids, Federal Judge Sessions or Attorney General Palmer.

Pacific Coast Lumber Prices Reduced.

Spokane, Wash.—As a measure looking toward stabilization of the lumber market, price reductions which, it was declared, would amount to 10 to 30 per cent under present prices, were announced by the Weyerhaeuser Sales company, distributing agency for eleven lumber mills controlled by the Weyerhaeuser interests. The reduced prices, it was declared, would remain effective at least until June 1.

Burgher Has Authority Over State.

Dallas.—Postmaster B. M. Burgher is to have supervision over all third and fourth class mail in Texas, according to information received at the Dallas postoffice Tuesday. Mr. Burgher stated that the state of Texas was to be divided into three main postoffices, one at El Paso, Austin and Dallas. Dallas will handle 122 counties, El Paso 31 and Austin 95. There are 248 counties in the state.

Hunt Is Minister to Siam.

Washington.—George W. P. Hunt of Arizona has been nominated by President Wilson to be minister to Siam.

Federal Engineer Resigns Post.

Dallas.—Leaving for his home at Elmwood Mass., Major P. M. Churchill is severing his connection with the United States government, which first began in 1900. Since that time he has been in the service of various departments, including the reclamation and geological survey, the Indian service and the engineering department. Inadequate compensation is the cause given for his resignation. Major Churchill retires to enter consulting practice.

DECREE RESTRICTS PACKERS TO MEATS

ORDER FILED REQUIRING DIVORCEMENT FROM UNRELATED LINES IN TWO YEARS.

Washington.—Divorcement of the packers from all business not directly related to the packing of meat was made mandatory through signature by Chief Justice McCoy in the District of Columbia supreme court of a decree filed by Attorney General Palmer with the concurrence of the packers.

The decree, which must be carried out within two years, affects 87 corporations and 49 individuals, of which Swift & Co., Armour & Co., Morris & Co., Wilson & Co., and the Cudahy Company are the major members.

Attorney General Palmer, in filing the decree, explained to the court the terms under which the agreement between the government and the packers was reached. When he concluded, a joint statement for all the defendants was made by counsel and Justice McCoy signed the decree, saying that as the parties were in agreement there was no question for him to determine.

In his statement to the court, Mr. Palmer said the decree was "sweeping in its scope," adding that he was sure it would be "highly beneficial to the public in its effect."

M. W. Borders in making the joint statement for the defendants said it was not guilt which prompted the packers to enter into the decree, "for they have not violated any law." Instead, the packers, he said, desired to assure the American people that monopoly of the food supply by the packers was not possible; to stop the criticism of the industry, damaging alike to it and to the people; to promote better understanding between the industry and the public during the dangerous period of reconstruction and to stabilize conditions in order that the efficiency and benefits of the industry might be preserved.

Mr. Palmer says "the decree, which the department of justice has been about to restore freedom of competition and increase the opportunities of individual initiative in business which must in time bear good fruit for the public welfare."

AIRPLANE FALLS FIVE MILES AT DAYTON, OHIO

Pilot Takes His Machine to Altitude of 36,000 Feet, New World's Record.

Dayton, Ohio.—An airplane carrying Major R. W. Schroeder, chief test pilot at McCook Field, fell over five miles after reaching an altitude of 36,000 feet said to be 5,020 feet higher than the world's record.

The Major is now in a hospital suffering from shock and temporary partial blindness. Instruments on the machine indicate that it fell more than five miles in two minutes. While still 2,000 feet above the ground the airplane righted itself and glided to a graceful landing. When the plane settled attendants who rushed toward it found Major Schroeder sitting erect in the machine, apparently lifeless.

Major Schroeder lost consciousness when his machine had reached a height recorded by instruments as 36,000 feet, or 5,020 feet higher than the world's record established by Roland Rohlf last summer.

His senses numbed and his eyes frozen shut in a temperature said to have been 67 degrees below zero Schroeder regained partial consciousness when 2,000 feet above the earth in time to right his machine and prevent it from crashing to the ground.

TEXAS TO GET INTERCHURCH WORLD MOVEMENT HOSPITALS

Dallas Is Promised One for Children to Cost \$1,000,000. Others to Be Established.

Dallas.—A children's orthopedic hospital to cost \$1,000,000 will be established at Dallas for the benefit of the afflicted children of the south and southwest, according to the plans of the Interchurch World Movement just announced at Dallas. Texas is to have two other institutions established by interdenominational agencies, one a general hospital for negro children and the other a home for superannuated ministers and missionaries. It is announced also that the home and hospital department of the interchurch has proposed a bill to be introduced in congress providing that the state stand sponsor for the physical welfare of every child born. This means that every child at birth should be examined for physical defects, and if any are found be taken as soon as possible to some hospital in order that they may be corrected and the infant given an equal chance in the struggle for existence.

Milk in Chicago 11 Cents.

Chicago, Ill.—Milk will be sold at four stores in Chicago next week at 11c a quart, the anti-profiteering league announces. The selling price of milk now is 16c a quart.

Get 40,000 Tons of Wheat

Washington.—The recent acquisition of 40,000 tons of wheat from Rotterdam has assured the Austrian people of sufficient food until about May 1, according to advices received by the state department.

Ask for "HILL'S" FIVE MILLION PEOPLE USED IT LAST YEAR HILL'S CASCARA QUININE BROMIDE

ALL'S FAIR

By R. RAY BAKER

Here's a story about a nurse who...

David had never been sick a day in his life...

David was proprietor of a jewelry-phonograph-sewing machine-camera store...

Now David was a very ingenious young man, albeit somewhat reserved and backward when it came to the business of wooing...

In stories all nurses are pretty, and this one is no exception in that re-

"I Need a Sewing Machine."

gard. Suse had big eyes that usually appeared gray, but at times seemed shaded with deep blue...

Once out of his daze, he tried to cover the fact that he had been in one by rapid monologue...

Suse selected a machine and paid for it, requesting that it be sent to the hospital, and after she left David drifted into a waking dream...

The apparent hopelessness of his dream brought David out of it. "I'm a gonner," he half growled...

However, as has been said, David was an ingenious young man, and it was not long before his brain got to work on a scheme which had for its object the forming of Suse Hopewell's acquaintance...

Two sewing machines were to be delivered on the same trip, and a short time before the driver of the driver called for them David might have been seen busy with a screwdriver...

He watched the machines leave on the truck and, with a queer glitter in his eyes began straightening up the phonograph record racks...

There were no developments that day, but the next afternoon David received a call from Bellevue hospital...

"The new machine I bought, you don't work," said a sweetly familiar voice on the wire. "I need it right now, so please send some one in a hurry to fix it."

Suse ushered him into the presence of the obstinate machine, and he produced a screwdriver from his tool bag to remedy the trouble...

"You won't need that," smiled Suse. "It's something about the belt that's wrong."

With surprise David noted that her statement was true. Something was wrong with the belt, and the hobbin, which he intended should have been come bumpy, worked smoothly...

As he busied himself repairing the belt, David managed to entice Suse into conversation, and when he left he felt that he had made some progress, although he was still mystified...

"The delivery man got them mixed," David decided; but he was just as well pleased, for the broken belt had served its purpose as effectively as the hobbin might have done...

Thus did David Klinger and Suse Hopewell get acquainted, and, encouraged by his progress of the first day, David summoned enough courage to invite Suse to attend the theater with him...

Suse seemed to welcome his attentions, and soon he was calling on her with considerable regularity. Three months after the purchase of the sewing machine that had served to guide their destinies, they became engaged...

"Isn't it wonderful," he observed one night, "what little things serve to bring a man and woman together?"

"Yes," she agreed. "I once heard of a man who met his fate just because a strong wind blew a hat from a young lady's head, and he ran after it for her."

"That case is no stranger than ours," said David. "Just a little sewing machine did the business. Do you know that I fell in love with you the day you came into my store to buy the machine?"

"I damaged my machine?" she inquired, evidently perplexed. "Well, no, I didn't. I damaged another one by mistake—fixed the hobbin so it wouldn't work. As it happened, my strategy proved unnecessary, thanks to the accidental breaking of the belt on your machine."

Suse smiled. There was a queer, rather mischievous twinkle in her eyes. "Yes, it was strange," she admitted. "I suppose you figured all was fair in love. Well, now I'll make a confession of my own: I fell in love with you the day I stepped into your store."

"I never suspected it," he exclaimed. "I didn't intend that you should," she said. "But my heart was bumping so hard when you advanced to wait on me that I feared you would hear it."

"I also believed that all was fair in love," she went on after a brief pause. "In fact, I deliberately broke that belt—so I could have you fix it."

QUEER METHODS OF FISHING

In Palestine They Do Not Use Nets and Would Laugh at a Hook and Line.

The modern Palestine dweller tells us that he would now look in vain for boats "launching out into the deep" and working nets all night in the Sea of Galilee...

Another way of doing the work is by pelted the fish with stones, which can be done very profitably when the schools of yellow moust congregate. Some of the Bedouins, probably taking example by trawlers, fire charges of small shot among them, and so get a bag; so thick are these schools that it is even said that a revolver bullet has been known to kill three fish.

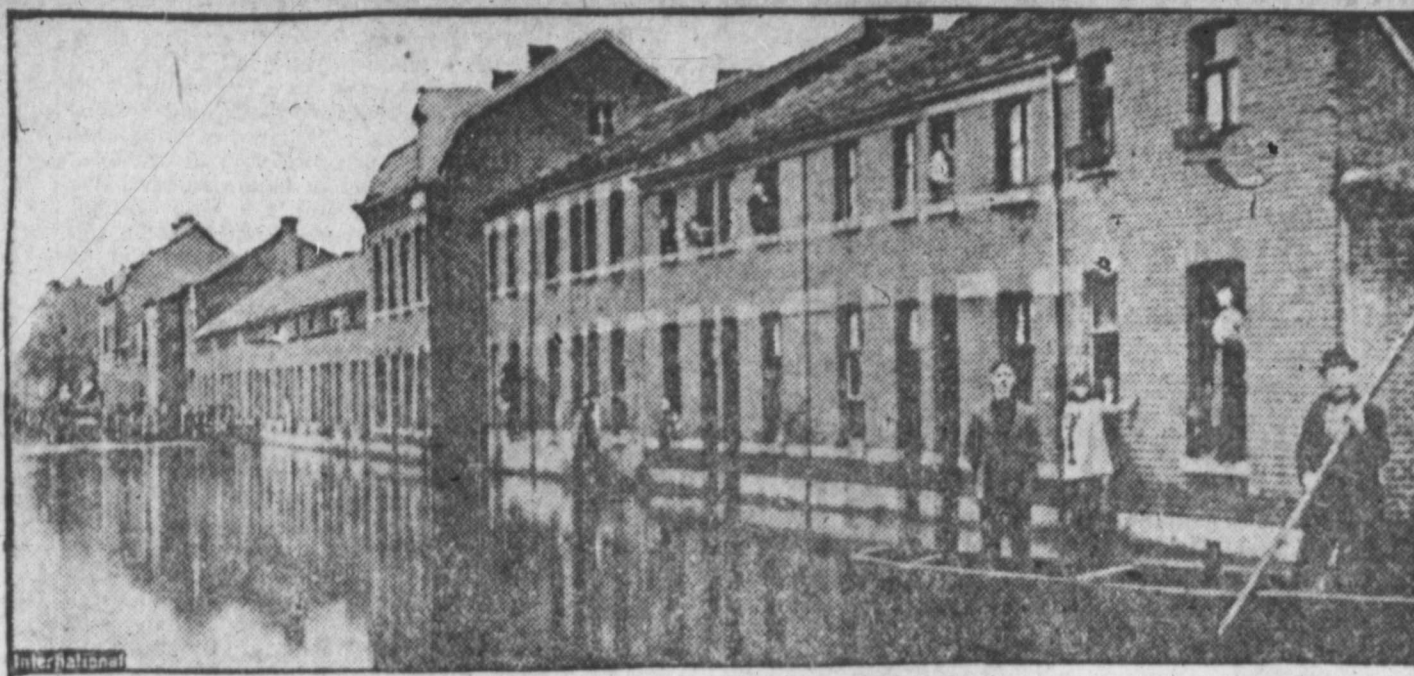

Hook and line may be found very occasionally, but as a rule, when the practices above are not resorted to, the fishing is done by small dip nets or large hand nets; in the former case the fishermen, standing on the banks, lower a kind of bird net which can be closed by the pulling of a rope, from racks or wooden platforms, and hauled up at intervals of an hour or so.

Where the hand net is in use—it is a kind of cross between a butterfly and shrimp net—the fisherman wades in up to his waist with a bag on his shoulder, and is content to catch the fish, one or two at a time. The fish of the Syrian waters are of many different species, but few are peculiar to the country.—Exchange.

Phenomenon Caused Alarm.

It is recorded in the Gentlemen's Magazine that on January 3, 1756, at four o'clock in the afternoon, at Tuam, in Ireland, an unusual light, far above that of the brightest day, struck all the beholders with amazement. It then faded away by invisible degrees; but at seven, from west to east, a "sun of streamers" appeared across the sky, undulating like the waters of a rippling stream. A general feeling of alarm was excited by this phenomenon. The streamers gradually became dissolved, and faded away to the north, attended by a shock which all felt, but which did no damage. The affair seems to have been an example of Aurora Borealis, only singular in its being bright enough to tell upon the daylight.

WHEN HOLLAND IS WETTER EVEN THAN USUAL

Scene near the bridge at Maestricht, Holland, with the waters of the Meuse inundating streets and homes.

Liquor Flows Across Border

Northern Section of Maine Being Flooded With Whisky From Canada.

LAWFUL SEIZURES ARE FEW

Comes Across Line in All Forms into State Which Was Pioneer in "Dry" Laws—Many Ways of Fooling the Sleuths.

Bangor, Me.—The rate at which Canadian and Scotch whiskeys are flowing over the northern border into Maine proves that enforcement of the federal prohibition law hasn't got into its stride as yet, for never in all the history of theoretical droughts have cases been greener, more numerous or closer together in this pioneer dry state than right now, when there is more law than ever before, twice as many "enforcers" and increased penalties.

Travellers who come down say that whisky of all grades and oceans of pure grain alcohol are flowing over the border at a hundred places, and that at four principal points the alcoholic invasion amounts to a flood. These four points are Van Buren, opposite the New Brunswick town of St. Leonards, on the St. John river; Fort Kent, which has easy access to the Canadian village of Clare via a suspension footbridge; Fort Fairfield, which is but nine miles distant from the New Brunswick town of Andover, and Houlton, which is a near neighbor of the provincial town of Woodstock.

Only Occasional Seizures. Occasionally the revenue officers seize a wagon or sled load of whisky coming over the international bridge from St. Leonards or over the ice at some more obscure locality, but nothing is said about the great number of "booze" churlists that get by the government's lookouts and which keep the speakeasies of Aroostook or the bars of Bangor supplied. Also, the St. John river being frozen good and solid for its entire length, men and teams can cross anywhere in the river's 100-mile stretch along the border, so that, as the revenue men themselves admit, a standing army with sentinels every fifty feet would be required to shut out the flood.

There is so much more money to be made in bringing in "booze," even a few bottles at a time, that hundreds of woodsmen have quit swamping roads and chopping trees for the rum-running business, and ninety-nine in 100 of them, knowing the country thoroughly, get by with their goods.

Price of Canadian Whisky. Canadian whiskeys that can be bought at \$3 a "short quart" on the New Brunswick side of the line sell in Aroostook county at \$6 and in Bangor at \$5, while genuine Scotch is \$4 in New Brunswick, \$3 in Aroostook and \$2 to \$15 in Bangor. Pure grain alcohol, to be had in New Brunswick at \$1 a quart, is "spilt" with water on this side of the line, so that every quart yields about \$16. With the addition of

a little prune juice and burnt sugar, this alcohol is transformed into "American rye," supposed to have been brought in from Boston or New York before the lid went on.

Whatever the outcome of the war on "booze," the enforcement of the law will be hardest in Maine, both on account of the state being chesek by Jew with Canada and on account of the seventy years' experience that the people here have had in devising ways and means of fooling the sleuths.

Finally Got New Golden Eagle. Phoenix, Ariz.—Two years ago a fire destroyed the only golden eagle of the Rhizomaniacs, a distinguished society of the Pacific college, California.

Remembering the Phoenix that rises out of its ashes every 500 years, Milnes, secretary to Governor Campbell, decided it would be appropriate

Plan Chain of Landing Fields

Army Air Service Officers Cover 300,000 Miles in Making Aerial Survey.

IS LIKE HARBOR TO LINER

Thirty-two Southern Cities Invited to Provide Stopping Places for Planes—Must Be Fit to Handle All Forms of Aircraft.

New York.—Plans for establishment of a chain of airplane landing fields have been worked out by officers of the army air service and the Manufacturers' Aircraft association, it was announced here.

Army flyers have covered more than 300,000 miles in an aerial survey of the country and made exhaustive reports on the facilities offered to cross-country flyers.

Representatives of 32 southern cities already have been invited to establish landing fields under army direction. Many others will receive like invitations during the next few months.

These must be laid out according to specifications given by the army, and in return the government gives steel hangers to the municipalities. Operation of the "air harbor" is assumed by the municipality.

Since the armistice the number of army fields has been reduced from 50 to 16, and the naval air stations from 17 to 9.

Like Harbor to Liner. "The landing field," says the aircraft association, "is to the airplane what the harbor is to the ocean liner and the railroad terminal is to the train. It is not merely a flat piece of land on which a flyer can bring his craft to earth. Such a piece of ground bears the same relation to a real landing field as an unimproved water inlet to a harbor like New York or Liverpool."

to present his old accomplices with a brand new eagle bird from Phoenix just as soon as it could be obtained. It took him two years to do it, but the bird has at length been caught and prepared for shipment.

It is declared to be the most gigantic bird ever stuffed for museum purposes.

Jump Rails, Ride Ties and Jump Back Again!

Sharon, Pa.—Jumping the track on the Hilliards branch of the Bessemer railroad, a locomotive, pulling a freight train, traveled along the hard packed snow for a distance of 400 feet and then mounted to the rails again.

An Erie freight locomotive east-bound on the Bessemer road jumped the track in the Shenango (Pa.) yards and after proceeding 200 feet, again regained the rails.

And to prove their stories, railroad men will show the locomotives.

Thousands of Rabbits Killed.

Walla Walla, Wash.—More than 11,000 rabbits were killed in a drive near Burbank the other day, thousands of the bunnies escaping because the shooters ran out of ammunition. Forty thousand shots were fired. Within the last few months 25,000 rabbits were killed in drives in counties bordering the Columbia river.

Fields at frequent intervals means that cross-country flyers can come to the earth for rest, replenishment of supplies and adjustments to their machines without inconvenience or unnecessary delay. In the event of a mishap in the air, such as a stalled motor, the near-by landing field permits the pilot to glide to it without damage to the machine or to himself.

This feature is of supreme importance because commercial aerial navigation will develop only in proportion to its commercial value. The field should be identified with markings visible from great heights and with radio apparatus so flyers may be aided in finding their way in spite of the fog or failure to identify the country over which they are passing.

Have in Mishap Occurs. "Fields at frequent intervals means that cross-country flyers can come to the earth for rest, replenishment of supplies and adjustments to their machines without inconvenience or unnecessary delay. In the event of a mishap in the air, such as a stalled motor, the near-by landing field permits the pilot to glide to it without damage to the machine or to himself."

Thousands of Rabbits Killed. Walla Walla, Wash.—More than 11,000 rabbits were killed in a drive near Burbank the other day, thousands of the bunnies escaping because the shooters ran out of ammunition. Forty thousand shots were fired. Within the last few months 25,000 rabbits were killed in drives in counties bordering the Columbia river.

BREATHE THE ROCK DUST

Millions of Particles Taken Into Lungs With Air.

Hygiene Experts Devising Means of Removing Dust and Fumes From Air in Factories.

Niagara Falls, N. Y.—Over 200,000,000 tiny particles of dust, as sharp as ground glass, are breathed into the lungs and air passages with every cubic foot of air in some of the factories in the United States, according to a survey made by the public health service here.

Such dusts breathed into the lungs are never expelled. Photomicrographs show the tiny particles to be exceedingly sharp and jagged and chemical tests prove them to be practically insoluble. Work under such conditions invites respiratory diseases and makes a real health hazard. Similar

investigations in chemical factories showed that laborers were frequently exposed to poisonous fumes and gases.

The investigation was made at Niagara Falls because plants were engaged in the manufacture of abrasives, chemicals, gases, electrodes, carbons, metals and alloys—in all of the factories the laborers were found to be exposed to dangers which would eventually incapacitate them for further work. Fortunately over 90 per cent of the labor in these plants seeks new employment monthly and the result of exposure to such dangers is not evident as it would be if the workers remained at the same work for longer periods.

As a result of the survey industrial hygiene engineers devised means of removing the dust from the air and minimizing hazards from fumes and poisonous gases. In spite of the fact that the installation of such devices was expensive, factory managements immediately put them into use.

Lighthouse Keeper Uses Motorcycle

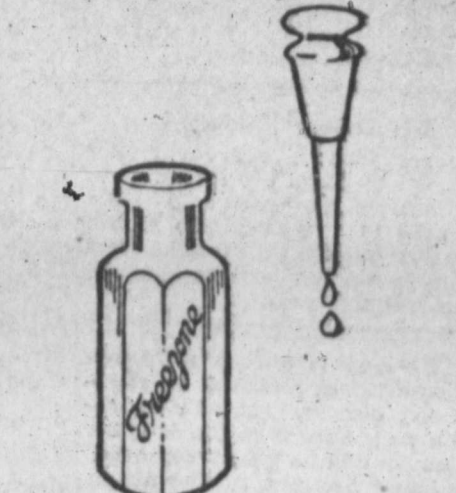

South Norwalk, Conn.—Performing a feat without precedent in government annals here, Capt. Richard G. Hendricks, supervisor of United States lights in this portion of Long Island sound, has been making his rounds for the last few days on his motorcycle, taking a supply of oil in the side car.

The ice has been so thick that he could not get to them with a boat, nor could he, on foot carry a sufficient supply of oil. It is the first time in this state that a motorcycle has been used for such a purpose.

Esquimo women and children catch most of the birds and fish to be stored away for the six months' winter food supply while the men hunt walrus and polar bear.

LIFT OFF CORNS!

Apply few drops then lift sore, touchy corns off with fingers—No pain!

Doesn't hurt a bit! Drop a little Freezone on an aching corn, instantly that corn stops hurting then you lift it right out. Yes, magic!

A tiny bottle of Freezone costs but a few cents at any drug store, but is sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

Freezone is the sensational discovery of a Cincinnati genius. It is wonderful.—Adv.

Fashionable charity always has a card attached to it.

When you get Indigestion

A few tablets of "Pape's Diapepsin" bring relief almost as soon as they reach the stomach.

"Pape's Diapepsin," by neutralizing the acidity of the stomach, instantly relieves the food souring and fermentation which causes the misery-making gases, heartburn, flatulence, fullness or pain in stomach and intestines.

"Pape's Diapepsin" helps regulate disordered stomachs so favorite foods can be eaten without causing distress. Costs so little at drug stores.

The old reliable BLACK-DRAUGHT for Stock and poultry. Ask your merchant! Merchants: ask your jobbers' salesman about Bee Dee!"

Advertisement for HUNT'S LIGHTNING OIL, featuring a lightning bolt illustration and text: "Bad Sickness Caused by Acid-Stomach. If people only realized the health-destroying power of an acid-stomach—of the many kinds of sickness and misery it causes—the lives it literally wrecks—they would guard against it as carefully as they do against a deadly plague. You know in an instant the first symptoms of acid-stomach—pains of indigestion; distressing, painful bloating; sour, gassy stomach; belching; food repeating; heartburn, etc. Whenever your stomach feels this way you should lose no time in putting it to rights. If you don't, serious consequences are almost sure to follow, such as intestinal fermentation, auto-intoxication, impairment of the entire nervous system, headache, biliousness, cirrhosis of the liver; sometimes even catarrh of the stomach and intestinal ulcers and cancer. If you are not feeling right, see if it isn't acid-stomach that is the cause of your ill health. Take EATONIC, the wonderful modern stomach remedy. EATONIC Tablets quickly and surely relieve the pain, bloating, belching, and heartburn that indicate acid-stomach. Make the stomach strong, clean and sweet. By keeping the stomach in healthy condition so that you can get full strength from your food, your general health steadily improves. Results are marvelously quick. Just try EATONIC and you will be as enthusiastic as the thousands who have used it and who say they never dreamed anything could bring such marvelous relief. Get a big 15-cent box of EATONIC from your druggist today. If not satisfactory return it and he will refund your money."

JUDGE STINSON CALLS CONGRESSMAN BLANTON DOWN

Editor Graham Leader.

Having read so much of Representative Blanton's hot air, and finally noticing in one of our dailies where he said in one of his tirades that 5000 people had sent him messages of encouragement for his attack on labor, finishing with a banter to President Wilson in which he said that the American people were tired of certain policies of the President and were ready for the show-down, or words to that effect, I dropped Mr. Blanton a short note to which he saw fit to reply, asking that his letter be published in the Graham paper, and I am handing you herewith our little correspondence.

Respectfully,
W. P. STINSON.

Graham, Texas, Feby. 16, 1920.
Representative Blanton,
Washington, D. C.

Dear Sir:

As a life-long Democrat, please allow me to predict, that notwithstanding, there are no less than "5000" of them running loose among the real

hangs over your factory, store, or home every day in the year. Rising costs make its threat constantly more dangerous. Insure sufficiently with the Hartford Fire Insurance Company and let this agency help you to do everything possible to prevent fire. Thus you will be doubly protected. If fire comes, you will be promptly reimbursed. If it does not come, you will have that feeling of security that only dependable insurance gives. This is the Hartford local agency.

Graham Insurance Agency

Democrats of the Nation, that when it does come to the "show-down," the American people will endorse the principles outlined in your ravings with about as much ardor as the patriots of Texas will the candidacy of Joe Bailey for Governor of their State.

Yours,
W. P. STINSON.

February 19, 1920.
Hon. W. P. Stinson,
Graham, Texas.

My dear Judge:

Yours received. I am sorry that you do not endorse my fight against the attempt to dominate our Government by radical, autocratic leaders of organized labor. You seem to be out of line with prominent loyal citizens of Young county.

During the war organized labor precipitated strikes, materially lowering hours of work, and doubling and trebling their wages to maximums never before dreamed of; and through threats of absolute destruction, railroad employees forced McAdoo to pay them an annual raise of \$754,000,000, and within a few months thereafter, through like threats, they forced Hines to pay them an additional annual raise of \$12,000,000, and by like threats, they are now trying to force President Wilson to grant additional raises approximating \$50,000,000 more. Many easy-going conductors are now receiving more than the Governor of Texas. Many unskilled shopmen are now receiving more than \$500 per month. At the instance of 5,000 loyal Democrats, I requested the President not to grant these hold-ups. You condemn me and predict my political ruination. Kindly publish this in your Graham newspaper, and learn whether your people are with you and Mr. Gompers.

Very sincerely yours,
THOMAS L. BLANTON.

February 24, 1920.
Hon. Thos. L. Blanton, M. C.,
Washington, D. C.

Dear Judge Blanton:

Your favor of the 19th inst. received; and replying thereto, beg to remind you that, in my short note to you I made no reference whatever to your political destiny, which of itself does not concern nor interest me one way nor the other. I am, however, deeply concerned in the great army of laborers engaged in the production, manufacture, and transportation of the products that go to feed, clothe and warm the world.

Your figures are confusing and unintelligible for the reason that they refer more to the whole than to the individual.

In my opinion, you would be rendering a much greater service to the country if you would lay off of the laboring man and direct your attention to the profiteering shoe manufacturer the lumber king and other cattle of like breed.

It is passing strange that you should so soon forget that we sent our boys all the way to France to make the world safe for democracy; and while our boys were in the trenches our patriotic laborers were breaking world records in ship building, mining, manufacturing, and tonnage headed over our railroads.

The slogan, "Make the world safe for Democracy," inspired to heroic action every patriot at home and at the front; and if these same patriots could not be swayed nor checked by German propaganda and the boastful and arrogant German army, I fear that you, your "prominent loyal citizens," and your immortal "5000" will amount to little more than a handful of bash-whackers before a great, moving army.

I am proud indeed that I am in sympathy with the policies of Wilson, McAdoo, Sheppard, and Gompers; I furthermore regret very seriously that your vision is so limited that you can not see that the old order of things is passing away.

Very sincerely yours,
W. P. STINSON.

DRY CELL BATTERIES

When buying Dry Cell Batteries for your telephone and engines always call for AMERICAN BATTERIES. They are stronger and better Batteries. We test every Battery before it leaves our store. More juice for your money.

NOTICE OF APPLICATION FOR LETTERS—GUARDIANSHIP OF THE STATE OF TEXAS
To the Sheriff or any Constable of Young County:—Greeting:
YOU ARE HEREBY COMMANDED to cause the following notice to be published in a newspaper of general circulation which has been continuously and regularly published for a period of not less than one year preceding the date of the notice in the County of Young, State of Texas, and you shall cause said notice to be printed at least once each week for the period of ten days exclusive of the first day of publication before the return day hereof:

NOTICE OF APPLICATION FOR LETTERS—GUARDIANSHIP OF THE STATE OF TEXAS.
To all persons interested in the welfare of the person and estate of Henry Edward Barron, a minor:
D. E. Barron has filed in the County Court of Young County, an application for Letters of Guardianship of the person and estate of Henry Edward Barron, a minor, which will be heard at the next Term of Court, commencing the First Monday in April, A. D. 1920, at the court house thereof, in the city of Graham, Texas, at which time a person interested in the welfare of such minor may appear and contest such application should they desire to do so. Hencein fail to appear at the time and there before said Court with your return thereon, showing how you have complied with the same.

Given under my hand and seal of said County Court, at the City of Graham, Texas, this 12th day of February, A. D. 1920.

(L. S.)
Clerk County Court, Young County, Texas.

27-9c
Clerk County Court, Texas.

SHERIFF'S NOTICE OF ELECTION THE STATE OF TEXAS

County of Young
Notice is hereby given that an election will be held on the 13th day of March, 1920, at School House in Common School District No. 20 of this county as established by order of the Board of County School Trustees of date the 30th day of October, 1919, which is recorded in Book 1, Page 155 of the minutes of School District Boundary Record to determine whether a majority of the legally qualified taxpaying voters of that district desire the issuance of bonds on the faith and credit of said Common School District in the amount of \$700.00, the bonds to be of the denomination of \$70.00 each, numbered consecutively from one to ten, both inclusive, payable ten years from their date with option of redemption after 5 years, and bearing 4 per cent interest per annum, payable annually on April 10th of each year, to provide funds to be expended in payment of accounts legally contracted in building a partition of wood in the School Building and for fully equipping said School Building and to determine whether the Commissioners' Court of this County shall be authorized to levy, assess and collect annually, while said bonds or any of them are outstanding, a tax upon all taxable property within said district sufficient to pay the current interest on said bonds and provide a sinking fund sufficient to pay the principal at maturity.

All persons who are legally qualified voters of this State and County and who are resident property taxpayers in said district, shall be entitled to vote at said election.

Said election was ordered by the County Judge of this County by order made on the 12th day of February, 1920, and this notice is given in pursuance of said order.

Dated the 12 day of February, 1920.
M. M. WALLACE,
Sheriff Young County, Texas.

JEAN
Mrs. P. L. Willis and children, of Caddo, are visiting R. F. Willis and family.

Roy Swain has returned to his home in Alabama after several months spent here with his parents, Mr. and Mrs. Y. Swain.

W. Duckworth and family have moved to Graham to make their future home. He has bought a nice home in Graham and contemplates going into business there. We regret very much to lose this estimable family. Our town has lost one of its best business men and citizens. The very best wishes of their large circle of friends go with them.

Miss Nettie Petty, of Red Top, is still unable to resume her duties in our school. Miss Edna Petty will take her place next week.

Less Willis left Monday for Dallas to buy dry goods for the firm of R. F. Willis & Son. He was accompanied by his wife, and baby and they will visit relatives at Arlington and Grand Prairie before returning.

H. J. Sparks has moved his family here from Graham. He bought the home and business of W. Duckworth. We welcome Mr. Sparks and family to our town. He owns two good farms about two miles south of town.

Ruel Gray, of Graham, was a Jean visitor Sunday.

Seth Box was in Jermyn Sunday. Cupid has been very busy in and around Jermyn for some time and as a result three weddings have just taken place here. O. C. Elliott, of Indian Mound, and Miss Eula Swain were married Saturday, February 28. Sunday afternoon, February 29, Sam Simpson and Miss Olive Downey were married by Squire Taylor. Lawrence Orr and Miss Zetta Compton were married by Rev. J. L. Hayes. All these are popular young people and have the best wishes of a host of friends as they sail the sea of matrimony.

Pern, to Prof. and Mrs. Fred McBrayer, February 28, a girl.

HAZEL EYES.

NOTICE BY PUBLICATION OF FINAL ACCOUNT
No. 703
THE STATE OF TEXAS

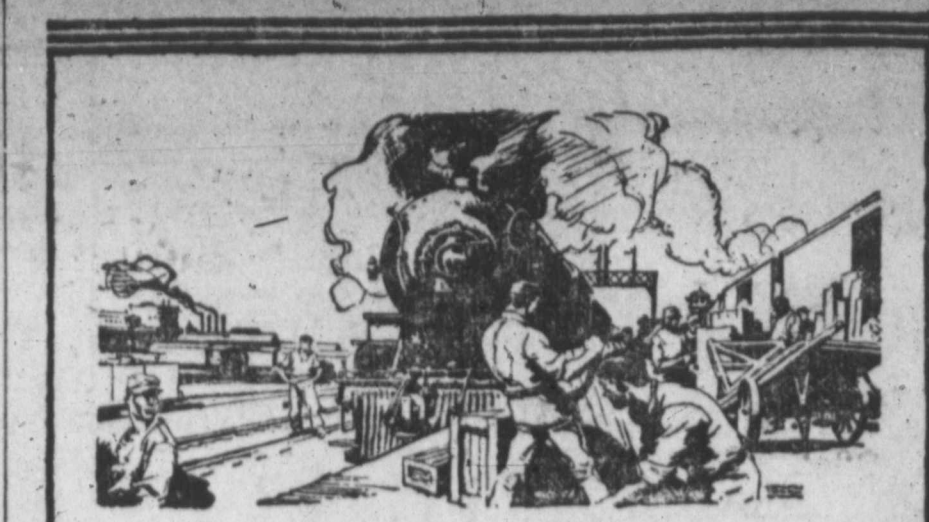

To the Sheriff or any Constable of Young County:—Greeting:
Frank Kineham, Guardian of the Estate of Myrtle Stickney, Orbie Stickney, Nettie Stickney and Frankie Stickney, minors, having filed in our County Court his Final Account of the condition of the Estate of said above named minors together with an application to be discharged from said guardianship.

YOU ARE HEREBY COMMANDED, that by publication of this writ for Twenty Days in a Newspaper regularly published in the County of Young, you give due notice to all persons interested in the Account of Final Settlement of said Estate, to file their objections thereto, if any they have, on or before the April Term, 1920, in the County Court, commencing and to be holden at the Court House of said County, in the City of Graham, on the 5th day in April, A. D. 1920, when said Account and Application will be considered by said Court.

Witness my hand and seal of said County Court, at the City of Graham, Texas, this 12th day of February, A. D. 1920.

C. W. HINSON,
Clerk County Court, Young County, Texas.

27-9c
M. M. WALLACE, Sheriff

They couldn't be built now for twice \$7,000

When the talk turns from politics to railroads, and the traveler with the cocksure air breaks in with, "There's an awful lot of 'water' in the railroads," here are some hard-pan facts to give him:

American railroads have cost \$80,900 a mile—roadbed, structures, stations, yards, terminals, freight and passenger trains—everything from the great city terminals to the last spike.

A good concrete-and-asphalt highway costs \$36,000 a mile—just a bare road, not counting the cost of culverts, bridges, etc.

Our railroads couldn't be duplicated today for \$150,000 a mile.

They are capitalized for only \$71,000 a mile—much less than their actual value. Seventy-one thousand dollars today will buy one locomotive.

English railways are capitalized at \$274,000 a mile; the French at \$155,000; German \$132,000; even in Canada (still in pioneer development) they are capitalized at \$67,000 a mile. The average for all foreign countries is \$100,000.

Low capitalization and high operating efficiency have enabled American Railroads to pay the highest wages while charging the lowest rates.

R. F. SHORT & CO.

The Customer is BOSS in our Store

Avery Tractors!

Avery's are the Tractors with the Perfected Opposed "Draft Horse" Motor. It
is especially built for draft horse work, the kind of work Tractors have to do,
and is used only in Avery Tractors. It is not a race-horse type of motor. It
will give you steady, dependable service for a long time, and then can always
be made new again. The opposed type of motor was adopted for Avery Tractors
because its length distributes the weight better between the front and rear
wheels; its narrow width makes possible a short heavy crankshaft with only two
bearings. It runs at low speed and makes possible a transmission that gives
you a "Direct Drive" in high, low reverse, on in the belt.

The Avery Motor has the heaviest crankshaft in any Tractor motor—so
strong that almost none has ever been broken. Five ring pistons and valves in
head that mean power and economy. The Thermo-siphon cooling system with
round radiator—no fans, pumps, belts, chains and other trouble making parts.

It also has patented renewable inner cylinder walls, duplex gasifiers that turn
kerosene or distillate into gas and burn it all; adjustable crankshaft bearings, re-
movable cylinder heads and many other exclusive and patented Avery features.

Come in and see our line of Avery Tractors with the "Draft-Horse" Motor and
"Direct Drive" Transmission—the Tractors that are in successful operation in
every state in the Union and sixty-four Foreign Countries.

TEXAS WOMAN SUFFERS FROM PAINS IN HEAD

Houston, Texas.—"A few months ago my health became very poor. I was run-down, weak and nervous and could not eat nor sleep. I suffered with pains in my head. I was very miserable when my husband got me a bottle of 'Favorite Prescription,' but by the time I had taken this one bottle my health was completely restored. Dr. Pierce's Favorite Prescription is a fine medicine for women and I take pleasure in giving it a recommendation."—Mrs. N. J. Vess, 1520 Everett St.

San Antonio, Texas.—"For about three years I have been in a run-down condition. I would be so weak at times I could scarcely get around. I was extremely nervous, could not sleep and I was in a miserable state, when just recently I was advised to try Dr. Pierce's Favorite Prescription. I have not taken all of one bottle, but am feeling better than I have for a long time. I am going to continue its use, for I know it is helping me more than any medicine I have taken."—Mrs. H. T. Knappa, 913 Burleson St.

If a woman is nervous or has dizzy spells, suffers from awful pains at regular or irregular intervals she should turn to a woman's tonic made up of herbs and without alcohol, which makes weak women strong and sick women well. It is Dr. Pierce's Favorite Prescription. Druggists sell it in liquid or tablets. Send 10 cents to the Invalids' Hotel, Buffalo, N. Y., for trial package.

Dr. Pierce's Anurie Tablets are intended for people who suffer from kidney disorders—whose backs ache, and whose systems are overrun with uric acid. Nearly everybody has too much uric acid. Anurie Tablets dissolve uric acid quickly, as they are made double strength.

SPRAINS
This soothing, healing, penetrating remedy takes all of the aching pain out of sprains, strains, cuts, sprains, etc., and quickly restores the injured part to its normal condition.
HUNT'S LIGHTNING OIL

FOR WOMEN
Constipation is women's worst enemy. DR. TUTT'S LIVER PILLS regulate and cleanse. The great remedy for women's special ills.
Dr. Tutt's Liver Pills

Plenty of Hops.
"Seems to be a big run to the movies," commented Yorick Hamum. "I wonder if I could make good?"
"Don't see why not," declared Hamlet Fatt. "Here a litter of puppies and a trick mule, and with your acting ability you're bound to make good."—Louisville Courier-Journal.

Red Cross Ball Blue should be used in every home. It makes clothes white as snow and never injures the fabric. All good grocers, 5c.

Unfortunate.
"I love and am loved." "Then you are perfectly happy." "But it isn't the same man."—The Tatler.

SHOOK WITH NERVOUSNESS

A Lady Was Flat On Her Back With Terrible Spells, But Her Husband Got Cardui,— And Now She Is Grateful.

McKinney, Texas.—Mrs. Mary Stephenson, of this place, states: "About a year and a half ago I was down in bed for six weeks, not able to sit up. I was flat on my back and had terrible spells. . . . Why, it looked like I would die. At times I didn't know anything. I would get nervous. I couldn't bear anyone to talk to me. . . . I would just jerk and shoo with nervousness. . . . across my back was so sore and ached me all the time. I would have a dizzy feeling. My limbs ached me and I would get numb and feel so weak. . . . I said to my husband I knew Cardui was good and I believed I had best try it.

He got me a bottle of Cardui, and when I had only taken one-half bottle of Cardui I felt stronger. I took a half a dozen bottles altogether, then in two weeks after I began taking I was up, in three I was doing my work. I praise Cardui for I believe it saved my life and I am grateful."

For over 40 years Cardui has been helping weak, sick women back to health and strength. Try it.—Adv.

His Prestige Gone.
"Rattlesnake Bill is strangely altered. What's the trouble?"
"Bill says if he had known what was before him when he went into the movies he would have stuck to train robbing and kept his self-respect. In the old days no man ever talked to him the way the director does and lived to tell the tale."—Birmingham Age-Herald.

"CALIFORNIA FIG SYRUP" IS CHILD'S LAXATIVE
Look at tongue! Remove poisons from stomach, liver and bowels.

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless laxative or physic for the little stomach, liver and bowels. Children love its delicious fruity taste. Full directions for child's dose on each bottle. Give it without fear.
Mother! You must say "California."
—Adv.

Excess of Oil Production.
Conditions in Oklahoma when the great Cushing pool came in illustrated another aspect of the situation. The flush production, for a time was far in excess of storage and transportation facilities, so that oil was stored on the ground, behind earthen dikes, and run into dry creeks that were dammed up to form reservoirs.
From sheer excess of production over local demand, the price fell to 40 cents a barrel, not because that was the value of the oil to the refinery at Chicago or Bayonne, but because there was no way at the time to get it there, and new wells were coming in by the dozen day after day.—Ray Morris in the World's Work.

Cuticura Soap for the Complexion.
Nothing better than Cuticura Soap daily and Ointment now and then as needed to make the complexion clear, soap clean and hands soft and white. Add to this the fascinating, fragrant Cuticura Talcum and you have the Cuticura Toilet Trio.—Adv.

Another Matter.
With pride in her face, Mrs. Styles faced her husband.
"Don't you think this new hat improves my looks, dear?"
"I suppose so," grunted the man surlily.
"But what makes you look so cross, dear?" asked the woman, anxiously.
"I'm thinking of the bill for that hat," retorted Mr. Styles. "You can't expect that to improve my looks."—London Answers.

How's This?
We offer \$100.00 for any case of catarrh that cannot be cured by HALL'S CATARRH MEDICINE. HALL'S CATARRH MEDICINE is taken internally and acts through the blood on the mucous surfaces of the system. Sold by druggists for over forty years. Price 50c. Testimonials free.

A popular poet can show his art qualifications real money.

LIVE STOCK

GOOD RECORD IN "T B" DRIVE

Official Tuberculin Testing in October, 1919, Greater Than Any Previous Month.

More official tuberculin testing of cattle was conducted during October, 1919, than in any previous month of any year, according to a summary just issued by the bureau of animal industry, United States department of agriculture. During the month 57,270 cattle were tested by state and federal veterinarians engaged in co-operative tuberculosis-eradication work. Herds or lots tested numbered 3,251, and the total number of reactors found was 2,821, an average of slightly less than one reactor for each.

From the standpoint of the number of animals tested the drive against tuberculosis was most vigorous in Minnesota, where 6,269 cattle underwent the test. Vermont was second with 4,035 and Washington third with 3,855 cattle tested.

The figures, live stock specialists of the department point out, indicate the nation-wide extent of the campaign to stamp out the disease. At the end of October the total number of herds officially accredited as free from tuberculosis after a number of tests was 1,324, more than double the number at the beginning of the year.

PROVIDE WATER FOR CATTLE

Ponds, Springs, Troughs and Other Facilities Should Be Cleaned and Put in Shape.

(Prepared by the United States Department of Agriculture.)

Before turning cattle that have been kept in the barn or lot during the winter onto a pasture a good water supply should be carefully provided for. Ponds, springs, watering troughs or other facilities for watering should be cleaned and put into shape. It is frequently thought that the water supply is abundant early in the season and therefore that no attention need be given to it. This is a mistake, as springs and ponds fill up during the winter and troughs become damaged

Water Supply for Live Stock is of Greatest Importance.

so they fail to hold sufficient water for the needs of the cattle. In most cases the water supply cannot be materially increased, so care must be taken to conserve what is available. It is advisable to fence around springs to prevent the cattle from trampling the earth and polluting the water. The maximum use of water from a spring can be obtained by providing two or three troughs set so that the overflow from one will run into the next one. This arrangement not only makes the water more accessible to the stock but keeps it cleaner and better.

COLLAR FOR MATURE HORSES

Where Animal's Weight Does Not Vary During Year Leather Is Most Suitable.

The best collar for the mature horse, whose weight does not vary much throughout the year, is the leather collar. But for most horses the best collar is one stuffed with hair and covered with ticking.

LIVE STOCK NOTES

Breeding hogs should have lots of exercise.

Every man who is using a scrub bill knows he ought to be using a purebred.

With the present high prices of feeds and the good prices being paid for hogs, no farmer can afford to neglect his pig crop.

Animals should be sheltered in wet weather. On cold days they will do better if confined in the barn than if turned on pasture.

DRUGS EXCITE YOUR KIDNEYS, USE SALTS

If Your Back Hurts or Bladder Bothers, Drink Lots of Water.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salts which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.—Adv.

Cripple Almost Made Whole.

A man who had both arms cut off between wrist and elbow is able to dress, shave, eat, do his work and shake down his furnace by means of artificial arms which have metal wrist plates. Various implements, such as brushes, razor, knife, fork, spoon and pen, fit into sockets in the wrist plates and are held by a spring catch.

CALOMEL!
It's Mercury! Quick-silver! Shocks the Liver—Danger!

You're bilious, but take "Cascarets"! You have a throbbing sensation in your head, a bad taste in your mouth, your eyes burn, your skin is yellow, with dark rings under your eyes; your lips are parched, your bowels are constipated. No wonder you feel foggy, mean and ill-tempered. You need Cascarets tonight. Don't continue being a bilious nuisance to yourself and those who love you, and don't resort to harsh physics that irritate and injure. Remember that most disorders of the stomach, liver and bowels are ended by morning with gentle, harmless Cascarets—they work while you sleep, never gripe, shock, sicken or inconvenience you. They're grand! Adv.

RECIPE FOR GRAY HAIR.

To half pint of water add 1 oz. Bay Rum, a small box of Barbo Compound, and 3/4 oz. of glycerine. Apply to the hair twice a week until it becomes the desired shade. Any druggist can put this up or you can mix it at home at very little cost. It will gradually darken streaked, faded gray hair, and will make harsh hair soft and glossy. It will not excoriate the scalp, is not sticky or greasy, and does not rub off.—Adv.

Show us a man who thinks he understands women and we'll show you a gold brick buyer.

A single dose of Dr. Peery's "Dead Shot" will expel Worms or Tapeworms. Its action upon the Stomach and Bowels is beneficial. No second dose or purgative necessary.—Adv.

Water Power Wasted.

The Alto Parana river, which divides Paraguay from Argentina and Brazil, and its many tributaries, could make Paraguay an important industrial center. The power of these waters is practically unknown, but is estimated as having, in some places, a fall of 200 feet, and a force of 100,000-horse power. The Iguazu falls are regarded as even more powerful than Niagara.

STOP CATARRH! OPEN NOSTRILS AND HEAD

Says Cream Applied in Nostrils Relieves Head-Colds at Once.

If your nostrils are clogged and your head is stuffed and you can't breathe freely because of a cold or catarrh, just get a small bottle of Ely's Cream Balm at any drug store. Apply a little of this fragrant, anti-septic cream into your nostrils and let it penetrate through every air passage of your head, soothing and healing the inflamed, swollen mucous membrane and you get instant relief.

Ah! How good it feels. Your nostrils are open, your head is clear, no more hawking, snuffling, blowing; no more headache, dryness or struggling for breath. Ely's Cream Balm is just what sufferers from head colds and catarrh need. It's a delight.—Adv.

Some men don't care whether they ride in an automobile or a patrol wagon—just so they get a ride.

YESTERDAY I WAS SICK, BILIOUS!

Last Night I took "Dodson's Liver Tone" and Now I Feel Grand—Calomel Upsets You! Salivates!

If you feel bilious, headachy, constipated. If your breath is bad or stomach is sour, just go to your druggist and, for a few cents, get a bottle of Dodson's Liver Tone, which is a harmless vegetable substitute for dangerous Calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty Calomel and without making you sick, just go get your money back.

OLD SORES, PILES AND ECZEMA VANISH

Good, Old, Reliable Peterson's Ointment a Favorite Remedy.

"Had 51 ulcers on my legs. Doctors wanted to cut off leg. Peterson's Ointment cured me."—Wm. J. Nichols, 40 Wilder Street, Rochester, N. Y.
Get a large box for 50 cents at any druggist, says Peterson, of Buffalo, N. Y., and money back if it isn't the best you ever used. Always keep Peterson's Ointment in the house. Fine for burns, scalds, bruises, sunburn, and the surest remedy for itching eczema and piles the world has ever known.

Shave With Cuticura Soap The New Way Without Mug

W. N. U., DALLAS, NO. 10-1920.

NEEDFIRE OLD FOLK CUSTOM

Part of the Ritual of Purification That Has Survived in Scotland Until Recently.

In folk custom, needfire is fire kindled by friction of two sticks of wood or of a rope on a wooden stake to ward off demons of disease. Among the many customs and beliefs connected with fire one of the most important is that of ritual purification. The new fire is supposed to regenerate, as fire sacrifice is designed to sustain, the invisible beings. Needfire is a practice, usually, of shepherd peoples to ward off disease from the flocks. In historic times the sparks for kindling the needfire were obtained by twirling a wooden peg around a wooden post. As in the case of new fire, the needfire was almost always accompanied with the extinguishing of the fires of the locality, and the neighbors also rekindled their fires from it as in the new fire ceremony. In practice, the people passed, or the herds were driven through or between the flames of the needfire for purification. The needfire custom survived in the highlands of Scotland until recent date, and probably traces of this superstition still exist in parts of Europe.

Where One Victim Was.
Policeman (after the smash)—You say the owner of this motorcar did not run away after the collision? Then he is above suspicion.
The Other Victim—I know that, because he is under the motorcar.—London Answers.

Find Out!
If you suspect coffee is upsetting your stomach or nerves, don't let the matter run along. Find out! Change over for ten days to
Instant Postum
a snappy, invigorating table beverage made from wheat, with a bit of wholesome molasses. Postum has a delightful flavor, much like a high grade coffee, but there are no coffee troubles in Postum.

If You Will Visit

Our Ready-to-Wear Department we will be glad to show you the most beautiful styles in—

- SPRING COATS
- COATS-SUITS
- and DRESSES—

that it has ever been your good fortune to see. They are—

BISHOP'S

and that means that they are the smartest, neatest and most becoming garments that can be had. We are proud of them, and you will be too, when you see the effective styles and patterns in fabrics of quality. All of these garments are attractively priced.

You Will Do Well

To visit our Millinery Department. Every day brings many new and desirable models for your inspection. Don't be satisfied with the hat that you like "reasonably well," but call and let us show you the hat you "really want." We feel that we have a bigger and a more varied assortment for you to select from this season than ever before, and want you to take advantage of this opportunity.

Your Special Attention

Is called to our Piece Goods Department. We are now showing some of the dainties Spring Fabrics that the markets afford. Whether your choices be silks, voiles, georgettes, tissues or what not, we can please you in them all.

—Lorain Tissues are very beautiful patterns for Spring, yet they are inexpensive. We have a very choice selection for your inspection. Only 85c yd.

—Printed Georgettes in patterns that will give you a new idea as to the 'newness of this season's mer-

chandise. Very attractively priced.

—Printed Voiles. The very best in quality and pattern. 75c and \$1.00 the yard.

—We can show you a beautiful line of gingham and percales, some of which have just arrived. The price is right.

A Big Shipment

Of Ladies' Shirt Waists and Blouses have just arrived direct from New York. We have quite an assortment of these attractive garments but delay may lose just the one you want. Call in and let us show you.

—Look Ahead—

Spring will soon be here—in warmth as well as in name.

If you are wise you won't delay longer in getting that smart Spring Suit.

KIRSCHBAUM CLOTHES

If you have ever worn these fine hand tailored garments you will know why we recommend them.

It is because they excel in pureness and fineness of fabric.

—in perfection of fit.

—in correctness of style.

—in short, in being every everything that a gentleman's clothes should be.

"Don't put off until tomorrow what you can do today." Get that Suit now while you have the choice of the entire line. We show you the nobby belted effect, the nifty form-fitting model, or the staple plain black. Three-piece Suits from

\$30.00 up
