

THE GRAHAM LEADER

JUST 16th, 1876.

WITH MALICE TOWARD NONE; WITH CHARITY FOR ALL

OLDEST NEWSPAPER IN NORTHWEST TEXAS

GRAHAM, TEXAS, THURSDAY, SEPTEMBER 30, 1920.

NUMBER 5.

DRILLING ACTIVITIES YOUNG CO. OIL FIELD

The continued dry weather has been a great help in carrying on the work in the Young county oil fields. There has been more activity for the past two weeks than at any time since the finding of oil in the county. The rain and mud during the month of August delayed the work of moving heavy material but the sunshine of September has given contractors an opportunity to move the heavy rig timbers to the many new locations.

There are now considerably more than one hundred derricks and drilling wells in the county and probably an additional hundred locations made just waiting for material for rigs. There are at present fifty-two derricks within two and one-half miles of South Bend. We have been unable to ascertain the number around Eliasville but think it is a conservative estimate to say that there are one hundred derricks within three miles of Eliasville. There has been a great deal of activity at Eliasville and South Bend recently. Eliasville has more than twenty wells producing from 500 to 1500 barrels daily. The field has been gradually coming from Breckenridge this way, and Eliasville and South Bend are now attracting the attention of people from all sections of the United States. Eliasville with her real gushers and South Bend with her good paying wells of both oil and gas have put Young county on the oil map.

The Roxana-Boozier is making 200 barrels daily. This well will be shot today. Roxana-Payne No. 1 is flowing about 100 barrels. This well will be put on pump soon and will be a good well.

Colcord-Scott No. 2 is good for 40 barrels on the pump.

Panhandle-Scott No. 3, drilling at 2540 feet.

Panhandle-McCluskey No. 2 is drilling at 1350 feet.

Panhandle-McCluskey No. 3 is rigging up to drill.

Oklahoma Petroleum Co. has made location west of house on the McCluskey farm.

Oklahoma Petroleum Co. is drilling at 300 feet, fifteen hundred feet south of Graham Syndicate.

Graham Syndicate is flowing 100 barrels daily. Pump is being installed. Colcord is drilling at 480 feet on Graham land, southeast corner Samuel Wood survey.

Sun Company is rigging up to drill on Stovall land, Block 36, just west of Snowden & McSweeney.

Erie Oil Co. is drilling at 740 feet on Stovall plantation, Block No. 43.

Panhandle-McCluskey is hauling rig to location on Rogers land, Stovall farm, Block 18.

Burgess No. 1 on Fickling survey hauling material for rig.

Donnell No. 2, 1000 feet south of No. 1, Survey 1111, rigging up to drill.

Goode No. 1, producing one million feet of gas daily. Gas is being used for drilling and for supply camp on Boozier land.

Goode No. 2 is making 100 barrels on the pump.

Godley Oil Company has rig timbers on ground, Graham land, 800 feet south of McCluskey well.

Roxana-J. R. Holcomb, hauling rig to location northwest corner McBrayer survey.

Panhandle-McCluskey No. 4 is building rig. This well is north of No. 1.

Godley Oil Co. has erected rig on Graham land just east of ranch house. This company has two wells on the Graham land.

Shamrock Oil Company, rigging up to drill on southeast corner Stovall plantation, Block 19.

Shamrock Oil Company has erected rig on Graham land south of school house and is hauling out tools to drill.

Homer Chapman has made offset to Oklahoma Petroleum and Gasoline Cos. well on Graham land and is hauling out rig.

The Texas National Company has placed a national drilling machine on south 50 acres of Dooley land Rothen survey and will be ready to drill next week.

Snowden & McSweeney, drilling at 550 feet on Stovall plantation, Block 37.

Roxana Petroleum Company has made two more locations on Pratt land.

Thompson of Mineral Wells, has acquired 80 acres, Stovall land, just

BANK BANDIT MIMS IDENTIFIED

Sheriff Wallace brought Charley Mims, who was connected with the Guaranty State Bank robbery, to Graham last week for the purpose of identification. He was readily and easily identified by those who were in the bank at the time of the holdup. He was returned to Fort Worth immediately after he was identified.

The grand jury was in session while Mims was here and an indictment was returned against him for the robbery of the Guaranty State Bank and his trial set for the next term of court.

west of Shamrock well and off west side Block 19 and has agreed to start well within sixty days.

Miami-McKeen on Wm. Fullerton survey, seven miles southwest of Graham, is drilling at 3600 feet in fine formation.

Pratt No. 1 has been cleaned out and drilled a few feet deeper. It is now producing 85 barrels on the pump from the 1850 sand.

The Roxana-Ford is drilling at 2800 feet. The company has announced that this well will be drilled to 4000 feet as they are anxious to know the value of each separate sand. The well to date has the following paying sands: 1850 feet, 75 barrels; 1950 feet, 100 barrels; 2140 feet, 125 barrels.

Colcord, Maney & Colcord is rigging up to drill Hale No. 1.

The Roxana has made locations for No. 2 and No. 3 on Boozier land and location on Ben Scott land, Jacob Garrett survey for No. 1.

There are several locations in the South Bend field that are not yet ready to be given out. There are now 52 derricks around South Bend and we are sure there will be 100 by the close of the year.

The Steen well, north of Graham, has been placed on the pump and the report has reached The Leader that the well is producing more than fifty barrels.

The Ajax is drilling at 2600 feet. The Dallas Young Oil Co., on the David Dawson survey, is drilling at 2800 feet.

Texas Holding Co., in the northwest corner of the county, reports a fine showing of oil at 2700 foot sand.

BEAUTIFUL HOME IN SHAWNEE BURNS

The new residence in Shawnee Park Addition that J. E. Harrell recently bought from W. B. Douglas was burned last Friday. Mr. Harrell had not owned the house long and in the fire he has suffered a heavy loss as it was only partially insured.

It was reported to The Leader that the fire originated by an oil heater in the bath room that was left burning while Mrs. Harrell was observing an electric washer demonstration in another part of the house. The bath room was in flames when the fire was discovered. The alarm was given and the fire department responded quickly. The flames had spread to practically every room by the time the fire department reached the house. Nearly 1000 feet of hose was laid and the flames were soon extinguished.

The fire boys did good work. The fire was under such headway that it was impossible to save the Harrell residence but the flames were extinguished before the roof fell in.

Graham has one of the best fire departments to be found and the people should, and we believe do, appreciate the heroic spirit of the boys as they risk their lives in saving our property.

JIM SMITH REBUILDS HOME

Jim Smith is making a new house out of his old one on South Oak street. He is enlarging it and when finished it will look like a new house. Mr. Smith has the progressive Graham spirit and is showing it by making substantial improvement to his property.

Practically all the new buildings and improvements in Graham have been of a high standard. For two years Graham has been growing and improving. The population has doubled during these two years.

Mr. Smith only recently returned to Graham and the desire to have a good home took such hold on him that he has rebuilt his house and now is numbered with the large number of good home owners.

Ren Hinson and family and Fred L. Hinson have moved from Breckenridge to Graham. They are in the real estate business and are connected with W. P. Stinson in selling the Rio Grande Valley land.

CHRISTIAN CHURCH BUILDING HOME

The congregation of the Christian church never does small things. A few years ago a magnificent church edifice was erected and now the congregation is building a pastor's home that any city would be proud of. It was the plan originally to build on the lot on which the old church building stood, two lots south of the present church building, but this lot was traded recently for the lot just south and adjoining the church building, where the new structure is being erected.

The house is being built on a reinforced concrete foundation and will have nine rooms, two baths, two porches, hall and large basement. It will be made of white brick like the church.

The plans for the interior are the very best for comfort and convenience and nothing is being omitted that would make it a modern and comfortable home.

GOOD WORK BY VOLUNTEER FIRE BOYS

Graham has an excellent fire department as demonstrated by their work in extinguishing the fire at the J. E. Harrell residence last week. The Leader reporter saw the boys as they let their work and ran to the fire station after the alarm was turned in. It makes us appreciate the work of the boys more when we see them as they race to the station when an alarm is turned in and then risk their lives in fighting the flames as they leap forth through the doors, windows, and roof of the burning buildings.

Fires are usually under such headway when the alarm is turned in that the house cannot be saved but in practically all instances adjoining property is saved. Our fire boys are always on the job and their work and efforts are appreciated by the people although we are often too slow about expressing our appreciation.

MARRIED

James G. Matthews and Miss Mollie Smith, of Eliasville, were married by Dr. C. R. Taylor at his residence in Graham last Thursday, September 23. The bride and groom have both been reared at Eliasville and have a large circle of friends who are extending congratulations and best wishes to the happy couple.

G. H. S. LOSES FIRST FOOTBALL GAME

Battling against one of the most experienced teams that she is likely to meet this season and outweighed ten pounds to the man, Graham High lost her first game of the season last Saturday at Graham Park by one lone touch-down. As the score indicates it was a bitter contest from whistle to whistle and replete with thrilling plays. Not until the referee blew the last whistle was the game decided. However, experience on one side and costly fumbles by the locals coupled with Mineral Wells' ability to recover fumbles lost the game for Graham. Considered all in all, however, it was a merry scrap and both sides came in for unstinted praise on their splendid work.

Mineral Wells gained her touch-down in the third quarter when Graham fumbled twice in succession on Mineral Wells' 25-yard line and Mineral Wells recovered. Immediately upon recovering the fumble Whately kicked a beautiful 50-yard punt to Kidd who juggled the ball and lost it to Mineral Wells. A pass over the goal line gave them the score. Yeager failed to kick goal. This is the story in brief of the breaks that gave Mineral Wells her victory. Otherwise it was an even battle between the two.

As a unit the Graham eleven showed more consistency in ground gaining than did their opponents and also showed up better on forward passes. The backfield interference for the locals was especially good and netted them several nice gains on brush tackle and end runs. Graham completed four passes out of nine attempts; Mineral Wells completed three out of seven attempts. Mineral Wells had the best of the punting game her punter averaging 35 yards but having two of his punts blocked; Williams for Graham averaged 20 yards and had one punt blocked. Mineral Wells were thrown for big losses on every end run they attempted but one and made first down but three times over the line and one of these resulted from an offside penalty. Graham was thrown for very little losses but costly fumbles after passing the line scrimmage worked ill results. Calvin for Graham fumbled twice after he was tackled after making gains of ten and fifteen yards. Outweighed at least ten pounds to the man the Graham line played their opponents

NINE PRODUCERS IN SOUTH BEND FIELD

After an oil field is proved we do not hear so much about it as when the first showing of oil is made in the first well. For some time there has been a great deal of activity around South Bend. A vast amount of material has been hauled from Graham to the oil field nine miles away. It has been only a short time since the first well was brought in, now there are nine as follows:

Scott No. 1, Scott No. 2, Goode No. 1, (gas), Goode No. 2, Payne No. 1, Pratt No. 1, McCluskey No. 1, Donnell No. 1, and Graham Syndicate No. 1.

This list does not include the Ford mentioned in another column which has already encountered three paying sands. The company is drilling to the 4000-foot sand in order to thoroughly test all the sands in this field.

DISTRICT COURT CLOSSES SEPTEMBER TERM

The 30th Judicial District Court adjourned last Friday after having been in session nearly three weeks. The following cases were disposed of after last week's issue of The Leader: John Crutchfield and wife vs. J. B. Norris et al; compromise.

S. & G. Co. vs. E. C. Stovall et al; agreed judgment.

Mrs. Lida Meggison vs. Leonard Meggison; divorce and custody of children granted plaintiff.

Frankie Bailey et al vs. Sallie Hudel et al; land partitioned between parties.

T. C. McClun vs. George Scrogum et al; land partitioned among parties.

O. C. Burns et ux vs. J. L. Wood; dismissed at plaintiff's cost.

Mattie T. Sandstrom vs. J. L. Sandstrom; divorce granted plaintiff.

Lillian Neal vs. J. B. Neal; divorce granted plaintiff.

F. W. Whitaker vs. J. B. Whitaker; divorce granted plaintiff.

name restored to Mary Bole.

Bishop and Babcock Co. vs. R. Harris; judgment for plaintiff.

Myrtle Graham vs. R. G. Graham, Jr.; divorce granted plaintiff and maiden name restored.

to a sandhill and at all times showed more aggressiveness.

Considering the fact that Graham put eleven men on the field of whom but three had ever been in a football game before many of them could be cited for stars. Perhaps the best of Williams, an entirely new man to the game and playing at full, stood out above every one else on either side. On offense he was a consistent ground gainer smashing the line for nice gains and being thrown but once for no gain. On defense he was easily the fiercest man on the field and was into every play tackling low and hard and fierce. He showed especially good nerve when being knocked out in the third quarter he came to and refused to be taken out and continued his stellar work until the end of the game. Kidd and Emmett Stewart also deserve praise for their defensive work, both of them being sure hard tacklers. In the line Johnson was best in his work on defense. He made numerous nice plays, line of scrimmage, and was an obstacle in all tenacity of team play. He was possibly the most aggressive player on the Graham line more opponents.

For Mineral Wells "Tubby" Brister, as he stood head and shoulders above the team. Yeager at an old man of experience and poor judgment in the game and missed lots of yards on his team, one of them was to kick a field goal at the second quarter. Brister was possibly the most aggressive player for Mineral Wells.

While it was desired to results of the game play by unfortunate occurrence caused to get before going to press. From a resume of the game as a whole it can be readily seen that the Graham eleven is a strong team in the making and that all they need is experience to knock off the corners. They play Mineral Wells again October 9th and no doubt a different showing will be made altogether. Hard work at signal practice and tackling will feature work from now until this game. A game Saturday had been scheduled with Weatherford but upon their request was canceled. It is hoped that a game with Bowie or Haskell may be arranged.

Some Reasons Why You Should Attend the Chautauqua

OCTOBER 6, 7, 8,

1. It is not expensive. During the days of high prices it is a novelty to find something that has not gone up in price. The chautauqua tickets remain the same: Adults \$2.00; children \$1.00.

2. It is a matter of civic pride. Every dollar of the proceeds will remain in Graham, going into the fund to build a public library. The library will be yours.

3. Do you know that if you make your living in Graham, with Graham money, you owe some debt to the town which supports you.

4. The little investment in Chautauqua tickets is re-invested for the good of Graham children. The value of a library for the child is incalculable.

5. The program is educational. A Chautauqua program is not, as is sometimes supposed, a "show" bill. Its end and aim is to inspire and to educate.

6. You have variety and screen shows every day. You have the Chautauqua but once a year.

7. It teaches Americanization. Are you willing to work as hard to insure the safety of your government as the reds are working to destroy it?

8. Did you know that the Chautauqua Library Club is composed of a small number of Graham women who have succeeded by tireless work in accumulating six hundred volumes toward a library, several thousand dollars and have had a lot for the library building donated them? The Chautauqua is their annual source of revenue.

9. For music lovers there will be selections, said to be rich in quality by both native and foreign musicians. There will be readers, impersonators and humorists. Something for everybody to enjoy.

"Obey that impulse!" Buy your tickets today. For sale at Leading Stores.

WHY SHOULD I VOTE FOR BETTER SCHOOLS AMENDMENT?

By H. H. Avants, County Superintendent of Young County
 On Nov. 2 the voters of Texas will meet at the opportunity to cast their ballots whether Texas will turn her back to progress and remain in the rut worn by the processions of the past, or whether she

shall take her place educationally with the leading states in the development of the world's greatest resource, the boys and girls. For years Texas stood thirty-ninth in educational rank, but recently by the tireless efforts of a tragic few whose enthusiasm and hope would not die she has been begged, dragged, pushed and kicked into thirty-eighth place. We boast of our primeval forests and limitless plains; of our leadership in cattle, mules, cotton, sugar cane, and rice; of fish and fowl; of sea coast and rivers; of oil and coal and limitless other resources fit to arouse the envy of a King Midas, of health, wealth, and happiness; of fair women and brave men; but we are a bully shorn of our bluff when our public schools are mentioned. Seventy-five years of statehood, almost a half century of it since Reconstruction, have passed, and now at the dawn of a new era we find ourselves riding in an educational ox-cart and rubbing from our eyes the dust raised when our sister states went by.

The world war came and took away the ablest young men of the teaching profession, and after the war opportunities to make a living kept them away. During the war and up to the present time, positions with good salaries came into evidence and the real exodus from the teaching profession began when the tired, over-worked, and little appreciated lady teachers realized that at last opportunity had knocked at their door; and, with sincere regret in most cases, they left the profession by the thousands simply because the salary of a public school teacher rendered life insupportable. And today Texas stands thirty-eighth educationally with many schools closed and many others filled with novices and non-professional teachers, while the best of the profession are standing firm, enduring financial sacrifice, working as never before for your child, Mr. and Mrs. Voter, and hoping and praying that you will not fail that child on November 2nd.

Last year 2000 teaching positions were vacant in Texas, and 50,000 children went untaught. Conditions are no better this year despite the fact that the public is rising heroically to meet the situation. The great trouble lies in the fact that the awakening has been too slow and incomplete, and unless the public makes it possible to raise sufficient revenue for the public schools, we shall at no distant date regret our folly.

At present the only means in sight for saving our schools and assuring that their future usefulness shall not be impaired is the amendment to our

State Constitution removing the fifty-cent tax limit. Texas and Virginia are the only states in the Union that have a school tax limit as low as fifty cents. Several states have tax limits for school purposes ranging from one dollar to two dollars and fifty cents, and a majority of the states place no constitutional limit on the amount of tax a community may vote for school purposes. Those states are the leaders educationally. It is a remarkable fact that in those states and communities where the citizenship spends the most for good schools, good churches, good roads, and improvements for the general welfare; you will find the most contented, happy and prosperous people. And here in this wonderful Texas land that is too big and wealthy to be called a state, but is rather an empire, we have let public education take care of itself and have withheld by our sovereign votes the means of making Texas unashamed to look the world in the fact and say, "I am taking care of the boys and girls today. They will take care of me tomorrow." The great state of Texas has failed so long in her duty toward her children's education that the teachers are going out to more remunerative fields of endeavor, the schools are closing and the prayer of the teaching profession is, "Lord, forgive the man that votes against the schools for we can not."

The proposed amendment does not raise taxes. It merely gives to the citizenship of a community the right to raise sufficient revenue to pay for the maintenance of its schools. Nothing could be more democratic, and we owe it to our neighbor to help him get a good thing even though we do not need it ourselves. The state of Texas can not go on forever draining its treasury for the schools! and besides, such large appropriations raise the general tax rate and the public pays after all. It is my firm belief that the Legislature, having given the public the means through the proposed amendment to solve the State's educational problem, will be very slow in making large appropriations in the future for tiding the schools over an emergency that the public has done nothing to relieve. Then the amendment must carry if we expect our schools to be placed on a sound financial basis where the expense will be met proportionately by all and will be a burden to none.

For these reasons and scores of others that space will not permit the printing of here, we make this personal appeal for your assistance in the greatest crisis that has ever faced this Texas commonwealth. It is no longer a question of how much fi-

nancial aid for the schools a person may shirk, but it is a question of how much financial sacrifice he can make for them if he sincerely desires to repay some of the debt he owes for being a citizen of the fairest land beneath the skies. Do not shut the door of opportunity in the face of your child, but help provide the training that will make him a useful citizen and able to meet and solve the problems of life. Just now the schools of Texas are not able to fulfill their mission. Teachers have quit by the thousands, terms are short, and much instruction is inefficient, and all on account of one thing—money. Countless numbers of our best teachers have left the ranks never to return, but countless others are holding the lines against tremendous odds. They will not fail Texas and her boys and girls, and they believe Texas will not fail them. Tirelessly they are working to convince the public of its duty in this matter, and their motives are entirely unselfish. If the teaching profession will pay them a living and something to lay by for declining years, the public school teachers will not leave the ranks, but rather they will strive with renewed vigor to be better teachers and will return service with interest to you for all you may pay. The amendment will restore confidence of the teachers of Texas. It will check the exodus of teachers to other lines of work, and will bring many good ones back to the profession. And most important of all it will place in our hands the means of holding up our heads educationally, and it will be the first great stride in making Texas public schools second to none. The teaching profession of Texas is tired of apologizing for our schools. Are you? Then, Mr. and Mrs. Voter, what will be your verdict on November 2?

JUST ARRIVED, car of Eupion Oil, 21 cents a gallon—PIERCE OIL CORPORATION, C. C. JOHNSON, Agent.

W. C. Barnum returned last Saturday night from a visit to his parents at Eugene, Oregon. He also visited two sisters in Portland, Oregon, while there. Mr. Barnum has been in Oregon since last April.

JUST ARRIVED, car of Eupion Oil, 21 cents a gallon—PIERCE OIL CORPORATION, C. C. JOHNSON, Agent.

The only merit we can see in the MacSwiney example is that it saves grocery and meat market bills.

JUST ARRIVED, car of Eupion Oil, 21 cents a gallon—PIERCE OIL CORPORATION, C. C. JOHNSON, Agent.

which the Defendant, on request, has failed to pay the same or any part of the Plaintiff's damage in \$400.00.

Plaintiff prays the Defendant be cited to answer this petition; that he pay for his debt, interest and for such other both general and in equity as he may see fit.

A Wonderful Oven

Women know what this means. The Fuel Saving Hot Blast Draft in

COLE'S
 HOT BLAST
 MASTER MALLEABLE RANGE

carries a sweep of clean, bright flame all around the oven. Bakes evenly on all sides.

The Fuel Saving Hot Blast Draft also saves one-third to one-half on the range fuel bill. Just what this will amount to in a year. Just what you have been waiting for. All Cole's specialties are fuel savers. We want also to call your attention to the great beauty of this range. It has many exclusive features that we want to tell you about. See us before our supply is exhausted.

The John E. Morrison Company

Graham Unit Syndicate

960 Units

Par Value \$100.00 Each

The owner of these units will receive a straight assignment of an undivided one nine hundred and sixtieth interest in the lease and finished well.

The lease on which The Graham Unit Syndicate is formed consists of 50 acres in the A. W. Coffman survey located just north-east of the South Bend bridge. This lease has been favorably reported on by leading geologists and experienced drillers.

All funds derived from the sale of Units will be deposited with the Guarantee State Bank and subject to check only of Cashier of Bank who is Trustee for Graham Unit Syndicate.

This is not a stock company. The well and the lease will be turned over to the Unit holders on completion of well. The production obtained will be paid directly to the Guarantee State Bank and the Pipe Line Company and disbursed by the Cashier or Trustee to the Unit holder.

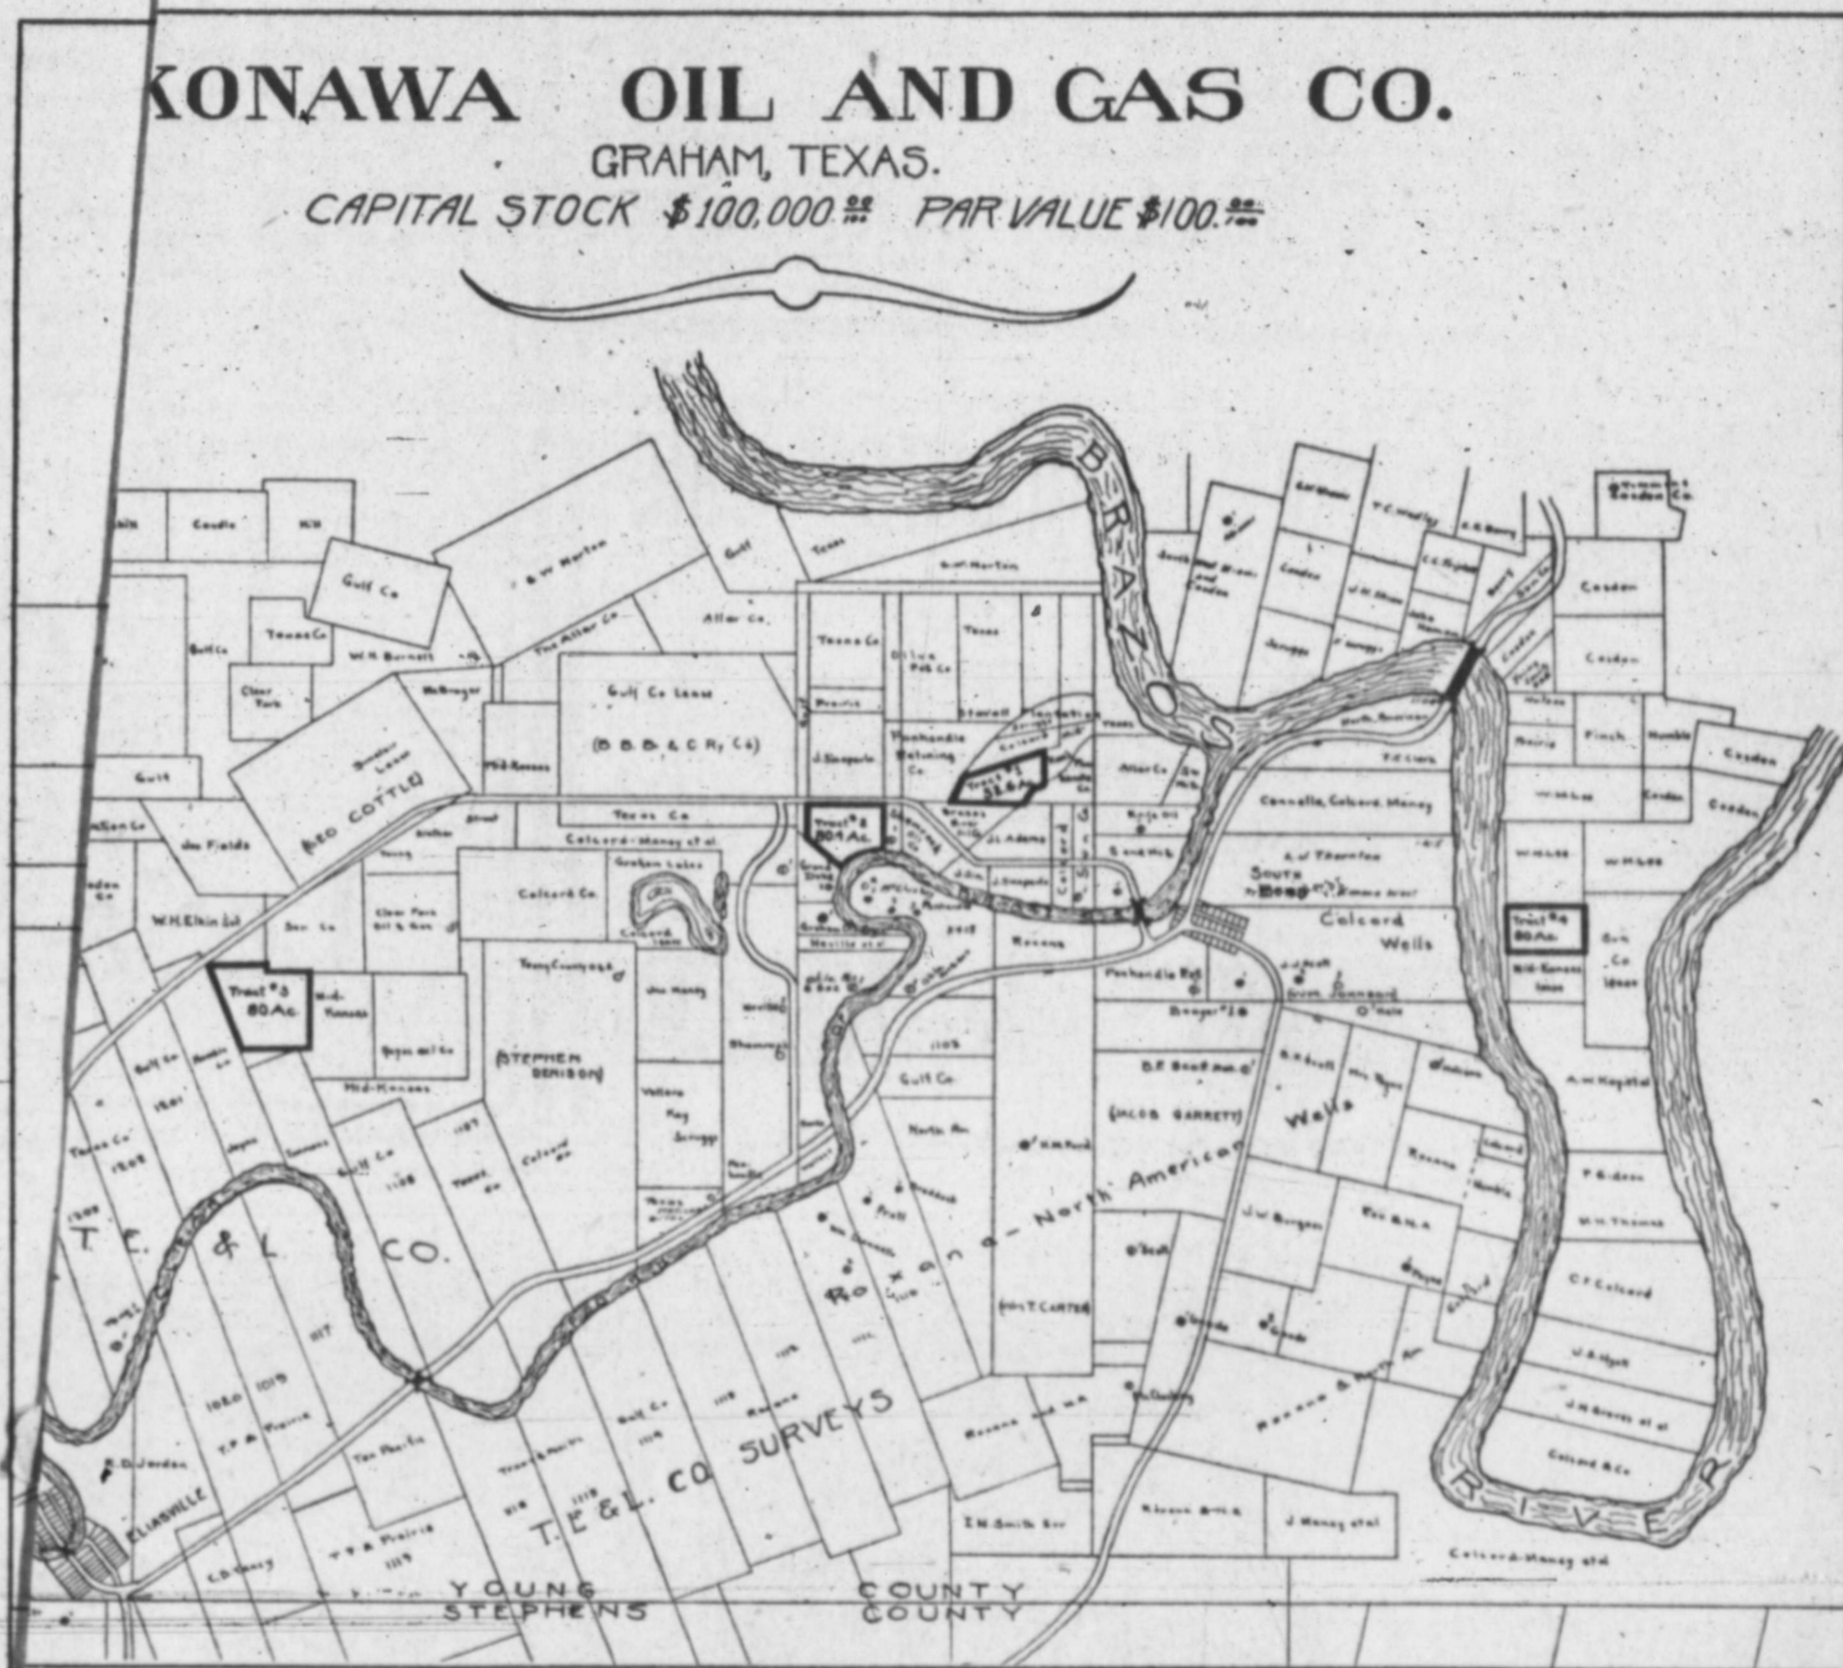

The Units will be offered for sale Monday, October 4, 1920. This is the fairest and cleanest proposition that we can devise.

For further information see Graham Oil Exchange

KONAWA MAKES LUCKY PURCHASE

The Konawa bought a lease on the West eighty; block 19, Sarah Tankersley survey, located 1000 feet from the McCluskey. Just across the Clear Fork, northwest. Look at it on the plat. Has heavy line drawn around it. This means 284 acres now owned by the company and we have not increased our capitalization either, but we made a location--made it today. Will drill our first well 200 feet each way from the southeast or offsetting the Shamrock.

Look at this plat carefully and see for yourself just what this Company has and what opportunities that might be in store for its stockholders. Are you going to sit around and see a real oil field developed right under your nose without getting in, or are you going to wait like some others did on the Graham Syndicate and buy after the stock had gone to two fifty. There is not one hundred feet difference in distance from the Graham Syndicate and the Konawa to the McCluskey.

LISTEN? Stop and think what chance you are taking on buying a bill of goods on a declining market? That is what is going on today in every line of business from automobiles to the necessities of life. Do you realize that labor at a dollar a day and teams at twelve it will cost twenty dollars an acre to put in and harvest a crop of wheat. You say I own my team and do my own work. If you were not working in the wheat field you could be hauling pipe or some other oil field supply. If you buy a stock of goods or raise a crop you are satisfied on 100 percent profit and you have to have a good season.

Do you realize it is very hard for this Company to pay ten or fifteen, yes even twenty for one for every dollar put in. The officers and organization of this Company will not make a cent out of it if oil is not produced, because we not only have our efforts, but real money invested. We know we have a real Company and also know if there is a thing in the world to be made we will get oil that will bring big profits to our Company. You will not see stock offered for sale through the press manager, as one third of it is gone now and people who know a real snap when they see it will grab it while they can because our stock wont last long.

Don't go to sleep and make up talking to yourself about what you could have done and DIDN'T. Come to our office just west of the Dolman Hotel and buy stock long, often and much.

KONAWA OIL AND GAS CO.

OFFICERS: G. H. Simpson, President.; D. E. Stimpson, Secretary; Leslie B. Scott, Treasurer
 TRUSTEES: G. H. Simpson; D. E. Stimpson; Leslie B. Scott; H. B. Street; A. M. Rennie

THE NEW GAME LAWS

Revised game laws of the State have been published and are being distributed throughout the State for the benefit of the hunters. A synopsis of the laws is as follows in regard to the opening of the seasons and the amount of game allowed:

Doves in North Texas, September 1 to October 31, fifteen birds a day.
Quail from December 1 to January 31, fifteen birds a day.

Ducks from October 16 to January 31, fifteen birds a day.

Snipe from October 6 to January 31, fifteen birds a day.

Plover from October 16 to January 31, fifteen birds a day.

Wild turkeys December 1 to March 1, two per season.

Buck deer November 1 to December 31, three per season.

Geese from October 16 to January 31, eight per day.

Squirrels, no closed season, ten per day.

Brant October 16 to January 31, eight per day.

Other laws regulating the hunters are: No one is allowed to kill an aggregate of more than twenty-five in one day of ducks, geese, plover, brant, snipe or any other birds.

It is unlawful to kill at any time of year antelope, mountain sheep, prairie chickens, pheasants, woodcock or woodchuck.

There is no law regulating the amount of the following: Rabbits, hawks, crows, buzzards, owls, English sparrows, rice birds, and blackbirds.

The killing of song birds of all kinds is prohibited. Turkey hen are not to be killed at any season of the year.

A hunter cannot ship game other than that killed by himself, and he must accompany the shipment. An affidavit must be made before an officer having the power of attorney or authority to make such affidavit and must accompany the shipment. Not more than twenty game birds or forty-five ducks may be shipped at one time.

Hunter's license may be obtained from the county clerk. For residents of the county the charge is \$1.75 and for non-residents of the State the fee is \$15.00.

It is unlawful to use headlights or other lights for killing deer or other animals after dark and all forms of night shooting are prohibited.

It is unlawful to sell, buy or barter any wild game or game birds.

U. S. IS FACED BY GRAVE SHORTAGE OF NURSES

With an alarming shortage of competent trained nurses in the country, the American Red Cross has launched an intensive effort to recruit young women for the nursing profession, according to an announcement yesterday at the Southwestern Division of the Red Cross, with headquarters in St. Louis. A grave situation would instantly arise at any time should a serious epidemic strike the country or any large sectional area. In the event of an outbreak similar to the recent influenza epidemics the nursing personnel would be inadequate to meet the demands for nurses and the public health would be menaced, it was declared.

The Red Cross will work in close co-operation with the three largest nursing associations of the country in the campaign to turn out more trained nurses and every inducement will be offered eligible young women.

Large numbers of girls have left the nursing vocation and have entered other professions or have gone into business. The training schools for nurses are getting less and less pupils and this, it is said by Red Cross officials, is due to a misconception that the life of a nurse is one of hardship or drudgery. Steps will be taken to remove this conception and portray the opportunities of the nurse in the true light, it was announced.

CIVIC LEAGUE NOTES

The Civic League met September 15. There were only ten present, four of whom were visitors. The manifest indifference of many members is very discouraging to the president and those few who do attend, and unless more interest is shown the club will, of necessity, be disbanded. So few cannot successfully undertake so large a work. Besides it is work in which every woman of the town should be interested, and "many hands make light work." However, hoping that as the weather grows cooler, more can and will attend, the business of the club was carried on as usual.

The following committees were appointed in regard to the lyceum course, two numbers of which will be given in October: Publicity committee, Mesdames E. S. Graham, Sherwood and R. A. Duncan. Ticket selling committee, Mesdames J. C. Rickman, Q. Street and E. L. Morrison. Reserved seat committee, Mesdames M. K. Graham, T. E. Bowman, and R. E. Lynch. Property committee, Mesdames R. G. Hallam, B. W. King, Charles Hinkon and Claud Bloodworth.

REPORTER.

CONNECTICUT RATIFIES WOMAN'S SUFFRAGE

Hartford, Conn., Sept. 14.—In defiance of Governor Marcus H. Holcomb, who said that it might not pass any measure save those which it had been called to consider, the Connecticut General Assembly, today, in special session, adopted a resolution ratifying the nineteenth amendment to the United States constitution. Still in defiance, it adopted, in concurrence, two pieces of legislation, although the Governor had given warning that he would "pocket" any measures so adopted.

IMPROVED MEBANE TRIUMPH COTTON SEED

Our supply comes from ten thousand acres planted in pure seed direct from Mr. A. D. Mebane, furnished by us to our contract growers. We do not buy or sell any seed from other sources. We are the only seed growers and dealers in Lockhart that own and operate a gin that does not gin for the public.

Write us for prices.
A. D. MEBANE COTTONSEED CO., Inc., A. D. Mebane, president, Lockhart, Texas.

CITATION BY PUBLICATION THE STATE OF TEXAS

To the Sheriff or any Constable of Young County—Greeting:
YOU ARE HEREBY COMMANDED to summon J. S. Norton by making publication of this Citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your County, if there be a news-

paper published therein, but if not, then in any newspaper published in the 30th Judicial District; but if there be no newspaper published in said Judicial District, then in a newspaper published in the nearest District to said 30th Judicial District, to appear at the next regular term of the County Court of Young County, to be holden at the Court House thereof, in Graham, on the First Monday in January, A. D. 1921, the same being the 3rd day of January, A. D. 1921, then and there to answer a petition filed in said Court on the 18th day of September, A. D. 1920, in a suit, numbered on the docket of said Court No. 633, wherein The Morrison-Smith Lumber Company, a corporation is Plaintiff, and J. S. Norton is Defendant; and said petition alleging that on June 5, 1920, for a valuable consideration the Defendant became indebted to the Plaintiff in the sum of \$258.50 as evidenced by an open account attached hereto and made a part hereof. That said open account is for goods, wares and merchandise purchased from Plaintiff by Defendant and that by reason of said purchases and delivery of said goods the Defendant obligated and bound himself to pay Plaintiff said sums of money. That said account is now past due and unpaid and Defendant fails and refuses to pay same or any part thereof. Wherefore Plaintiff prays that Defendant be cited to appear and answer this petition and that on a final trial it have judgment against Defendant for its debt, cost of suit other and such other and further relief as it may be entitled to.

Herein Fail Not, but have you before said Court, at its August 1921 term, this writ in your return thereon, showing how you have executed the same.
Witness, C. W. Hinson, Clerk of the County Court of Young County.
Given under my hand and the seal of said Court, at its term in Graham, this, the 20th day of September, A. D. 1920.
C. W. HINSON,
Clerk County Court, Young County, Texas.

Fordson
TRADE MARK
Farm Tractor

Winter or bad weather does not hinder the Fordson's usefulness. There is always some job—draw-bar or belt—that the Fordson will do more quickly, more efficiently and with a small consumption of fuel. Besides it solves the labor problem.

Day or night—twenty-four hours a day if you choose—you can utilize the Fordson. Like the machines in the factories, the Fordson furnishes power that is always ready for use—a power that means a saving in labor and time. And for that reason, the Fordson is a money maker.

Back of the Fordson is the Fordson service organization—Fordson repairmen and stocks of extra parts—are always convenient and insure you continuous use of your tractor.

Don't delay ordering your Fordson. Only so many are allotted this territory and orders are filled in rotation. Let us have your order now; we will give it prompt attention. Have just unloaded a car of Fordson tractors and can make immediate deliveries.

Call at GRAHAM REALTY CO. and get prices, descriptions and look at pictures. 21fp

FOR RENT—Two room furnished or unfurnished.—MRS. W. V. DYE, 931 South Virginia. 5-6p

GRAHAM HIGH SCHOOL NOTES
 By Faye Steen

The enrollment in our school continues to grow, the student body being much larger than it was last year. Consequently the faculty is also enlarged. We hope and believe that this will be a very successful year in our school work.

A larger water supply seems to have been necessary and seven new drinking fountains have been installed on the east grounds. We are gradually building up our school and grounds and hope before long to have a model school.

Rev. Smith, pastor of the Presbyterian church, visited chapel Monday morning delivering a helpful and interesting talk. It is a custom that one of the pastors be with the high school each Monday morning. These visits are always enjoyed by the students.

Mr. Lynch, president of the Beckham National Bank, presented to the library a handsomely bound book containing the portraits and histories of each president in succession. We extend thanks to Mr. Lynch for this present which we trust will be of great benefit and help to us.

The senior class was organized last week with the following officers: Olin Calvin, president; Chas. McLaren, vice president; Faye Steen, secretary and treasurer.

The junior class also organized and elected the following officers: Nat Price, president; Andrew McNamara, vice president; Annie Lucile Morrison, secretary and treasurer.

Lucile and Ethel Donnel, who have been absent the past week on account of sickness in the family, are back with us again.

Elva Dowd, who had an operation for appendicitis last Thursday, is doing well.

Our football boys fought a brave fight Saturday but luck was against them. They will do better next time and we are boosting our boys.

Mildred Tidwell was absent one day last week on account of sickness.

Malcolm Williams has been absent from school on account of attending court and from illness.

That old-time fashioned good Cowboy Boot may now be found at R. F. SHORT & CO.

JUST ARRIVED, car of Eupion Oil, 21 cents a gallon—PIERCE OIL CORPORATION, C. G. JOHNSON, Agent.

COWBOY BOOTS, the old fashioned kind may be found at R. F. SHORT & CO.

WHAT SHALL WE DO ABOUT LOW-PRICED COTTON SEED

Answering a letter from The Progressive Farmer asking for his advice as to how farmers should deal with the present distressingly low price of cotton seed, Secretary Harris Jordan, of the American Cotton Association, writes us:

"There are two methods of meeting the present cotton seed situation by the farmers, namely:

"1. Store the seed cotton in bulk on the farm and postpone ginning to a later date, say 60 days. The lint fibre will improve in length and texture and gain considerably in weight, while the seed will not damage unless the bulk seed cotton is packed too tight. Some of the largest and most successful cotton farmers in this state build small frame cotton houses in the cotton fields holding from four to six bales of cotton, and never think of ginning a bale before January, or until the picking for the season has been completed. They never have any trouble about heated seed, and gain tremendously in weight and market value of the lint. Under this plan all of the labor is kept busy picking the

crop during the busy season and valuable labor is not kept out of the fields hauling to the gins.

"This is the best economic and protective plan for the farmers to adopt in order to counteract the depression in price of cotton seed and lint cotton which is usually encountered at the opening of the season.

"2. If the seed cotton must be ginned, the seed can be hauled home and stored in dry barns or houses. Such seed, if not stored in too large bulk and the seed stirred about with shovels or pitchforks every few days, the seed will not heat, but will dry out and can then be kept indefinitely. Of course, this is a matter which will require attention, but it has been done successfully in thousands of instances for years, and the difference in gain in prices is certainly worthy a much wider interest and attention of the growers."

In a letter to one of our Progressive Farmer editorial staff, Mr. D. S. Murph, specialist in cotton marketing of the United States Department of Agriculture, gives about the same advice as Mr. Jordan. Mr. Murph writes:

"It is noted that you have made a

practice of storing your cotton in the seed and you ask my opinion as to whether farmers generally should be advised to follow this plan. Experiments have been conducted to determine the practicability and advisability of storing cotton in the seed. Mr. Brand, formerly Chief of this Bureau, arrived at the conclusion that this was a most desirable practice. He found out that if cotton was properly stored in the seed it dried out so as to permit more satisfactory ginning; the seed also dried out and was of better quality that when ginned shortly after picking. The experiments referred to indicated definitely that there was a distinct advantage in storing seed cotton for several weeks before ginning. This seemed to result in an improved quality of seed and lint. Another advantage—it enabled the farmer to devote all of his time to picking during the rush season and enabled him to have the cotton ginned when he was not so urgently needed on the farm. Of course, storing of cotton in the seed must be done, if at all, under correct conditions in order to prevent damage by heating."—Progressive Farmer.

FAMOUS FARCE FILMED

One by one the famous old stage farces are being transformed into rollicking motion picture comedies. "Mrs. Temple's Telegram" is the latest one to reach the screen and will be shown next Wednesday at the National Theatre, with genial Bryant Washburn as the star.

In a laughable mix-up of jealous husbands and wives, Mr. Washburn, in the role of the chief funmaker, figures as an innocent man falsely accused of succumbing to the wiles of a pretty "vamp." His pals, attempting to shield him, only plunge him—and themselves—more deeply into the mess. In the manner of all stage farces, it is all settled happily in the end.

Mr. Washburn is assisted by Wanda Hawley, as the jealous Mrs. Temple and an extremely capable cast, including rotund Walter Hiers, Sylvia Ashton, and Carmen Phillips. James Cruze directed the picture, which was adapted by Elmer Harris from the play by William Morris and Frank Wyatt.

FOR SALE—White split oak Baby Buggy.—MRS. PAT WOOD. 5p.

OPPORTUNITY

The Texas National Oil Co.

The best opportunity today is in the South Bend dis This is conceded by the best geologists and the United States geologist report. There now to be four distinct commercial sands in this district. Any one of these sands devd will give our stockholders big returns from their investments. The Texas National Company has fifty acres on the Dooley tract in the heart of the pool, so described by the eminent geologists.

50 ACRE

Capitalized at \$100,000.00

10.00 Par Value

Just last week forty acres sold south of us with one producing well \$1,500,000. At this same rate the Texas National Oil Company stock should be worth 20 to 1, or for \$100 invested the stockholders would receive \$2000. That's why we say we believe we have the opportunity in the Texas Oil field today. A hundred dollar bill is just a \$100 bill. But 10 shares of Texas National Oil stock may be worth \$2000 in 90 days. In this company you have an equal chance every share is an equal chance participating in all present assets, leases, producing wells that will be or any assets that may be acquired at any future date. The men behind the Texas National Company have made a success in the oil business and stockholders in their companies have received some dividends in following these oil men's judgment.

Our President W. R. Shankle, who successfully organized and managed the Waurika No. 1 known to be one of the most successful oil operators in Texas and has possibly made more money for his stockholders than any operating in the Texas fields today.

Our Vice-President and General Manager, J. S. Van Tassel, better known as "Lucky Van" whose management and careful attention to the drilling of our wells, is an assurance that the stockholders of the Texas National Oil will get a good run for their money.

Our Secretary-Treasurer, Dr. B. B. Luck, is a well known and substantial business man of Stephens County, Texas, who has been successful in the oil business in Stephens County, around Breckenridge.

Our Office Manager, Mr. R. F. Wilbern, who for some time was Secretary-Treasurer of the Rock Island Oil Company, has had a wide experience in handling oil companies.

Our Field Manager, Mr. A. A. Hubert, is one of the most successful drillers to be found in Texas having drilled wells in all parts of the United States.

Small Capitalization

Competent Management Unlimited Possibilities

We are not waiting for action, we are now drilling and expect to have well completed in the next 45 days and for the purpose of developing the company's 50 acre lease on as the Dooley tract located just south and west of the famous McCluskey and the Graham Sy wells in the heart of the pool on the banks of the Clearfork. A limited amount of stock is offered to the public at \$10.00 per share. Nothing can stop the momentum of this successful oil company. The subscription below properly filled out with the proper remittance will pave the way for you to participate in future dividends.

TEXAS NATIONAL OIL COMPANY:
JOINT STOCK ASSOCIATION. CAPITAL \$100,000.00. PAR \$10.00

Enclosed find \$ _____ Dollars, in full payment of _____ shares of stock in this Company. The Company's register to be issued within ten days from date. The right to receive subscription is reassured by the Company. All checks to Texas National Oil Company.

BANK SERVICE

The greatest word in the banking business is SERVICE. Banking is more than a mere money-making business. The banker is as much a public servant as a mayor of a city, or the governor of a state, and he owes a duty to the public exactly as any regularly elected official. We shall be glad to render our patrons every possible service and to assist them to the full limit of legitimate banking.

CHAUTAUQUA NEXT WEEK

The C. L. S. C. is bringing to Graham again this year the Radcliffe Chautauqua. Next Wednesday, Thursday and Friday are the days. The price of tickets are very reasonable. Adults \$2.00, children \$1.00. The program this year is one of Americanization and should appeal to all of our citizens.

The ladies are not giving the Chautauqua for profit to themselves. They are working for the betterment of Graham and our citizens should buy season tickets. Remember the dates, October 6th, 7th and 8th, next Wednesday, Thursday and Friday.

Dress Gingham, full widths, fast colors, 45c, 38c, and 29c. at THE JNO. E. MORRISON CO.

JOE C. WOODALL DEAD

Joe C. Woodall of Graham died in the Harris sanitarium, Fort Worth, Texas the first of this week. The remains were shipped to Graham, Tuesday night and buried at Medlan Chapel yesterday afternoon.

He had lived in Graham some time and was employed by one of the oil companies. He became ill about three weeks ago and went to the sanitarium for an operation. He rallied from the operation but some complications set up and he passed away as above stated.

JUST ARRIVED, car of Eupion Oil, 21 cents a gallon.—PIERCE OIL CORPORATION, C. C. JOHNSON, Agent.

CENSUS RETURNS

The census returns for Young county was given out last week. The 1920 census for the entire county is 13,113. The population for Olney is given at 1164, Newcastle 1452, and Graham 2544.

This is the census as taken in January and does not include the large number of people that have moved into Graham during the spring and summer. The scholastic enrollment for the Graham schools has passed 800. The custom is to multiply the scholastic enrollment by five to get the population of the town. This will give more nearly the population of Graham at the present time.

FOR RENT—Two small houses close to school building.—CHAS. E. HINSON. 5c

MARRIAGE LICENSES

Week ending September 28:
W. Dunn and Mrs. Fern Wilson.

Ray Barron and Miss Lee Slay.
R. L. Corley and Mrs. Mattie Dalton.

Listen, Children, you will find the nicest assortment of School Supplies at SNODDY & SON. 1tf

GRAND JURY REPORT

To the Hon. H. F. Weldon, Judge of the 30th Judicial District:

We, your Grand Jury, beg to report as follows:

We have been in session for three days and we have examined thirty eight witnesses and have returned into Court four indictments charging the offenses of the grade of a felony and two indictments of the grade of a misdemeanor.

There has not been called to our attention any violation of the liquor laws of this State.

There has not been called to our attention any violations of the law relating to bawdy houses.

There has not been called to our attention any violations of the laws relating to rebates by railroads.

We beg to advise that the laws of this State are being observed in this county, however, with a few exceptions and the violations of these laws relate to the offenses of the grade of misdemeanors, but on the whole we find the county in good condition.

We have examined the jail and find the same in very poor condition and we recommend that the same should be overhauled or rebuilt to conform to the best health of the occupants in its present condition the same is very unsanitary.

We beg to report that we have examined the court house and find that the same is in fair repair.

We wish to thank the Sheriff, the bailiffs and the County and District Attorneys for the assistance given us in our work. Our work now being completed we ask that we now be adjourned.

J. T. RICKMAN,
Foreman of the Grand Jury.

PICNIC PARTY

The following young people enjoyed a moonlight party on the Brazos river Thursday evening:

Misses Eunice Moore, Sallie Timmons, Fannie Ragland, Eureka Slater, Reta Ragland, Susie Guinn, Willie Kizer, Mary Ragland, and Myrtle Kemp; Messrs. Clyde Guinn, George Fore, Spencer Mayes, Ernest High-tower, Jack White, Marvin McCluskey, Jesse Fore and Earl Hutchings. Mr. and Mrs. Roy Holland and Mrs. Joe Wootton and baby chaperoned the young people. Spencer Mayes also assisted the chaperones.

NEW HOUSES COMPLETED

D. D. Dickenson and Sherrill McCasland are completing two modern homes on East Third street. These houses have been under construction several weeks but will soon be completed.

Both are modern in every respect and are in keeping with the high order of building that has been going on in Graham for some time.

Announcing

To our patrons the arrival of a new lot of Serge and Satin Dresses Realizing that our first expectations came far short of our actual need by the fact that we sold every new fall dress in record time, our buyer made a hurried trip to the markets, and as a result has brought for your favor, a collection of just as wonderful models

Serges and Tricotynes trimmed most daintily in burnt orange satin and wonderful embroidered collars and sleeves \$24.50 to \$60.00

A WORD TO THE WISE

To our patrons we wish to take this opportunity of thanking you for patronage in the past and hope that we have served you in such a manner we will merit your continued favor

We are striving to handle only the standard and best advertised brands. Be not fooled in the quality of merchandise for we guarantee our goods to give satisfaction. Low prices sometimes mean LOW QUALITY. We invite the acid test of inspection and use. If you do not find that our goods as sold are not best in quality then we loose our reputation as trustworthy merchants.

Furthermore, after believing our patrons set quality above all else we endeavor to set our prices as low as possible. In the FUTURE as in the past we shall conform to the markets and you may rest assured that we shall take care of your interests in every line that we handle.

HE COULD HARDLY GET HIS BREATH

Johnson's Troubles All Disappear After He Takes Tanslac

"The way Tanslac built me up proves to me that it is a great medicine," said Gust A. Johnson, of Virginia Minn. Mr. Johnson has been employed by the Duluth and Iron Range railroad for thirty-five years. "I suffered from stomach trouble in its worst stages," continued Mr. Johnson. "So much gas formed in my stomach after eating I could hardly breathe. I also had the rheumatism so bad in my knees sometimes it was all I could do to hobble about and I was so nervous that many a night I could not sleep at all, and by morning I was all tired out and weak as if I hadn't been in bed at all. "I noticed in the papers about Tanslac and gave it a trial, and it's a fact, nothing can beat it, for I've taken only three bottles and feel like a new man. I eat anything I want now and am never troubled with gas any more; the rheumatism has left me and my nerves are steady as a clock and I get up every morning feeling fit and ready for the days work. Tanslac is the greatest medicine I've seen and I know what I'm talking about, for I've tried nearly everything."

Tanslac is sold in Graham by Sloan Drug Co., and in Newcastle by Leon Slaughter & Co.

HENRY CHAPEL

Well the thresher has been running three days this week and getting along fine. Some of the wheat is damaged.

Everybody busy now breaking land and some picking cotton.

Sam Needham carried a bale of cotton to the gin Saturday. The gin was out of commission and he will have to go back again Monday.

Will Moren came home last week from Cadde.

Mrs. Callie Shannon left Thursday morning for Dallas where she will begin school the 20th of this month. H. T. Glidewell and children, Mary and Hugh, have whooping cough.

John Logan, little sons, William H. and Oran, spent Sunday with Ruel Young's family.

Mrs. J. T. Shahan returned last week from a visit in Denton county. She reports crops short there this year.

Posie Bowers is in Graham painting H. L. Ribble's new house.

The thresher men spent Sunday with Jim Dillinders and family.

Uncle Sam Williamson returned home last week from a three months visit with his son, Charles, near Lincoln, Arkansas. He liked the country only tolerably well. Said he had lots of good things to eat.

Mr. and Mrs. Arthur Vick and Artie June spent Sunday with Mrs. Jarnagin and family.

Mr. and Mrs. J. H. Agee left Saturday morning for their home in Dallas after a two months' stay here with relatives and friends.

Miss Julia Racliffe had her tonsils removed two weeks ago. She has had trouble with her throat ever since but is some better now.

Spaly is back from a visit to his relatives in West Texas.

W. A. Vock, of Elgin, spent Sunday with his daughter, Mrs. Morris Glidewell, on the Garden ranch.

Mrs. Young, Mrs. Moren and Miss Mildred Moren spent Tuesday evening with Mrs. Jarnagin's family.

We are glad to say Dot Crow is able to attend the Endeavor and prayer-meeting Sunday night.

Lucile McLaren had an attack of tonsillitis and had to come home Thursday. She returned to school Monday morning.

Mrs. Jim Williams and children, of Graham, spent from Friday until Saturday morning with her aunt, Mrs. McLaren's family.

A good crowd of 74 at Sunday School. Prayer-meeting and Endeavor met at night.

FARMER.

The history of Mexico, Russia, and of every other uneducated, or poorly educated nation or state, gives evidence that a people without education, or with insufficient education soon lose possession of their most valuable natural resources, to better educated and more skilled leaders from without.

The statistics of wealth show that productive capacity rises and falls directly with the increase or decrease of education and training in a state or nation. England produced 3.6 times as much per capita per year as did Russia; she has had more than three times as much education. It is no accident that Massachusetts long produced 2.2 times as much wealth per capita as did Tennessee; she had 2.3 times as much education.

Dress Gingham, full widths, fast colors, 45c, 38c, and 29c. at THE JNO. E. MORRISON CO.

Mr. and Mrs. F. H. Bowron left last Friday for a visit to Lubbock, Texas. They made the trip in their car.

JUST ARRIVED, car of Eupion Oil, 21 cents a gallon—PIERCE OIL CORPORATION, C. C. JOHSON, Agent.

PROCLAMATION BY MAYOR

Whereas; Texas suffers a property loss by fire of several millions of dollars annually, seventy-five per cent of which is preventable and can be avoided by applying the simple rules of safety, and by the abandonment of carelessness; and

Whereas; each year many of our citizens are burned to death, or maimed for life by fire. A compilation of statistics by State authorities show there were 152 deaths and 310 injuries during the eleven months period ending July 31, 1920.

Now therefore I, E. S. Graham, Mayor of the City of Graham, to the end that the needless destruction of our created wealth by fire be minimized, and the lives and health of our people properly protected, do hereby proclaim Saturday, the 9th day of October, A. D. 1920, Fire Prevention Day in the city of Graham, and do hereby call upon our entire citizenship to observe the occasion by an examination of all flues and chimneys for the purpose of placing them in a safe condition for use; to clear away all accumulations of trash and other fire breeding agencies; to resolve to abandon careless habits responsible for so much of the fire loss, and particularly to exercise care in the handling, use, and storage of gasoline and other volatiles.

On that day let our commercial organizations, our Women's clubs, Boy Scouts, and other local bodies, stimulate interest in the work of eliminating fire dangers by actively engaging in the campaign against the things that cause fires, and let the teachers in all our schools on the day preceding this occasion, instruct the children under their care in the execution of fire drills, and urge upon them the need for vigorously observing Fire Prevention Day.

In testimony whereof, I hereunto sign my name and affix my official seal this 29th day of September A. D. 1920.

E. S. GRAHAM, Mayor.

INTERSCHOLASTIC LEAGUE

Austin, September 28.—A large increase of membership in the Interscholastic League of the University is expected this year, according to Roy Bedichek, vice chairman of the League. Already 50 counties have reported to the state office and 420 schools have remitted fees. A new feature of the work this year will be a basketball tournament for boys which will determine definitely the championship basketball team of the state, and a bureau of high school football results, which will compile information concerning results of all high school games which are reported. New bulletins of the League have been printed and are being distributed to the schools as they become members. Included in the bulletins this year are those on "The Open vs. Closed Shop," which is to form the basis for the debating contests of the League this year; the new Constitution and Rules; a sixteen page spelling list to be used in the spelling contests, 80,000 of which have been printed to meet the demand. Roy B. Henderson, formerly assistant athletic director at the University, has been appointed physical director for the Interscholastic League.

Official Statement of the Financial Condition of the FIRST STATE BANK

At Elvasville, State of Texas, at the close of business on the 8th day of September, 1920, published in The Graham Leader, a newspaper printed and published at Graham, State of Texas, on the 30th day of September, 1920.

Table with 2 columns: Resource Name and Amount. Includes Loans and Discounts, Real Estate, Furniture, Cash Items, etc.

Total resources, Cash Collections, Total \$147,808.13

LIABILITIES: Capital Stock paid in, Undivided Profits, Individual Deposits, etc.

Subscribed and sworn to before me this 25th day of September A. D. 1920. W. W. PRICE, Notary Public Young County, Texas.

INJUSTICE OF THE COTTON PRICE SITUATION

Cotton farmers are facing a serious situation. Our crop is short, but it has cost more to make than any crop ever grown. Fertilizers, labor, implements, feed—everything, in fact, that has gone into the making of the crop—have cost more than ever before.

But despite these facts, there seems to be a determined effort to force cotton down to 20 cents,—just about half what it cost to make this crop, if our farmers, their wives and children are to get a decent wage for their labor. Seed prices, I understand, have opened up at \$27 a ton—a figure that is simply ridiculous, compared with the \$60 to \$70 we got last year.

When we go to buy bagging and ties, the price is decidedly higher than last year. Ginning prices last year were 30 cents per 100 pounds of seed cotton. This year the ginners have boosted the price to 40 cents, despite the fact that labor is more plentiful than a year ago. Before the war, cotton was ginned for 10 cents. Is there any warrant for charging four times as much now? At this rate the seed out of a bale of cotton will just about pay for ginning and wrapping.

The South has a good many empty farm houses now, but they are not a circumstance to what we will have if this thing keeps up. If the cotton grower is ever to assert his rights, it seems to me that now is the time. If we give away and accept 20 cents for our crop, it is going to mean a certain return to the starvation wages that Southern farmers endured for 50 years following the Civil War.—Progressive Farmer.

Just arrived a new lot of COWBOY FANCY STITCHED TOP BOOTS. This is the first shipment of Boots that we have had in years. They are good ones.—R. F. SHORT & CO.

A new lot of Serge, Trycotone and Silk Dresses in the latest models may be found at R. F. SHORT & CO.

USE YOUR BANK

In these progressive times there are not many farmers who do not make home use of the bank. But it is the exceptional and usually the most successful farmer who makes the full use of it. All farm business, except minor matters where small change only is needed, should be handled through the banks; but it is not enough just to know that our canceled checks are receipts for all our bills, and that we are accumulating a surplus which is safely deposited in the bank. One of the great troubles with Southern agriculture is that most of our farm operations have been under-financed. We should make use of the bank to borrow money just as often as borrowed money can be made to yield a profit to the farm. If by borrowing money at 6 or 8 per cent we can make it return 10 per cent or more on the investment, it is then a mistake not to borrow the amount needed.

A great many farmers have a horror of going in debt, but it is a mistake to struggle along with meager equipment, lack of fertilizer, lack of good seed or lack of good breeding stock rather than borrow. It takes money to make money on the farm as well as in other lines of business. The farmer who can grow crops and livestock and market them at a profit need have no hesitancy in going to a banker and explaining to him that he wants money to enlarge his business. He need have no fear that the banker will not do his best to make the loan. The bank is a business house. The banker appreciates a good customer just as does the merchant.

Let us learn to use money on the farm. It is one of the best "hired" men we can employ.—Progressive

JUST ARRIVED, car of Eupion Oil, 21 cents a gallon—PIERCE OIL CORPORATION, C. C. JOHSON, Agent.

WEEVIL DAMAGE IS LESS IN BIG OPEN FIELDS

This has been a year of extremely heavy boll weevil infestation, and as a cotton farmer it has been interesting and instructive to me to observe the conditions under which this pest has been most destructive.

As a pretty general rule, the small patch of cotton surrounded by thickets and woods has "caught it," especially if these thick places have not recently been burned out. On the other hand, with other conditions almost identically the same, cotton in big, open fields has suffered comparatively little damage.

Prairie sections, as every one knows, have usually suffered least from the boll weevil, mainly because under such conditions the winter death rate of the weevils is high as they have no suitable place to hibernates. What we need to do, then in so far as we can, is to create

"prairie" conditions. That is, we need to clean out old fence rows, thickets, stumps—any and every place, in fact, where the pest might find favorable winter quarters. This, after all, is merely good farming—cleaning up the non-producing areas and putting them to work making crops instead of doing nothing but furnishing bell weevil shelter.—Progressive Farmer.

REDUCED PRICES On Staple Cotton Goods We offer the following goods at 15% to 30% reduction in prices. Although these goods were made from high price cotton with high price labor, raw cotton has declined sharply during the past sixty days and customers expect immediate declines in the finished goods, we are willing to reduce prices to present. This will put our selling prices below cost and mean a losing to us but is in keeping with our policy to give our customers the best possible bargains.

CONFEDERATE REUNION
F. Herron, Adjutant Camp Young County U. C. V., has received the following letter:

The march of time aligns you for another joyful reunion. The good people in the great city of Houston have cordially invited you and your friends to hold your State and your National Reunion with them October 9th, 1920.

Generous people of Houston are making ample provision for your comfort and your pleasure.

This is not the first time Houston has entertained the Veterans.

Transportation companies grant us passage at one cent a mile each way—really 1-2 cent per mile when we reckon on other values.

General N. B. Forrest, commander of the United Sons of the Confederacy, is in command at Houston. He will justify your confidence and fulfill your demand.

The Daughters of the Confederacy the heart and soul of our Association, will be present in large numbers; ever giving loving service to veterans. Their devotion to soldiers knows no bounds. Their enthusiasm grows with time.

Houston is near the battle field of San Jacinto, birthplace of Texas liberty, which can be viewed by every visitor. Galveston, the premier export shipping point in the South, with her delightful bays, baths and breezes, is close by for all to enjoy. Surrounded by rich soil, by famous oil fields, and by great forests, Houston reigns in opulence and magnificence.

Like the South, France in one contest with her enemy, suffered defeat, but in a later contest she visited a greater defeat upon her enemy. Our neighbors of the North: who are writhing under a fearful overflow of crime and outrage committed by an army of rebels against all form of law and order, by increasing number of Reds, anarchists and communists; should soberly observe the South, a land of law and order, undisturbed by disloyalty to the government, where we have no cause to denounce or otherwise punish citizens for disloyalty. By peaceful methods we manage occasion importations of pro-German disturbers. Confederate veterans, their sons and daughters are 100 per cent American and have always been like France the South is destined to win a victory over her one time enemy, not with implements of carnage but by means of world peace, of justice and truth in history. In a material contest the South struggled to exhaustion. Her spiritual forces was never exhausted and her victory is certain.

At Houston there will be a parade—a pageant of rare distinction. The sons and grandsons of Confederate soldiers who did honorable service in the world war, will, during the Reunion, be on review and march in their army uniforms. American mothers surrendered the lives of sons in the late war for the promised price of world wide peace with honor, and for liberty and safety of all nations. Good people everywhere have promised to pay that price. A league of peace among all civilized nations is a fixed resolution and a foregone fact.

Southern soldiers, their wives, sons and daughters are in the patriotic work of giving aid and comfort to needy veterans and their descendants. As necessity grows, camps are constantly receiving aid from sons and daughters to keep altar fires burning. Every veteran should join some camp and keep his membership intact.

Tickets will be issued on the certificate plan. Blank certificates can be secured by application to Bradford Hancock, Adj. Gen. at 1515 North 13th St., Waco, Texas. By arrangement with ticket agents, Pullman cars will be conveniently parked at Houston where you can sleep and rest. Hotels will not charge unusual rates. Board and lodging will be given to all who ask. On arriving at Houston each veteran should immediately seek headquarters where they can register and receive assignments and other instruction. Texas can send a delegation of 50,000 veterans and friends of veterans to Houston.

Texas State Convention will assemble on October 5th at 10 a. m. Program can be obtained from Adj. Gen. Hancock.
E. W. HANCOCK.

MARTIAL LAW LIFTED AT GALVESTON

Austin, Sept. 18.—All troops are expected to be withdrawn from Galveston not later than October 10 and not earlier than October 5, Governor Hobby said in a formal statement late Saturday.

The statement follows:
The agreement on the part of the city officials of Galveston to place the police department in the hands of a State Ranger captain, designated by me, and to give the police protection, through Rangers and a local police force working under his direction, will, in my judgment, well afford that safety for workers and that protection to property which will, for the first time since military forces have been in Galveston, justify their withdrawal.

The presence of the militia has relieved the congestion in the movement of commerce through the port of Galveston and has guaranteed the right of the individual to work undisturbed and unmolested. The State, through its government, can perform no higher service, and those employed at the port will be given the same protection as heretofore because if the agreement is not carried out in good faith, and if there is any hindrance or interference with the Rangers through local authorities, I will immediately take the necessary steps to give protection, even if the restoration of martial law is necessary, and the soldiers shall be returned.

The laws of the State will be strictly enforced and those arteries of trade essential to the business and prosperity of Texas will be kept open while the free and uninterrupted movement of freight is assured.

COLE'S ORIGINAL HOT BLAST HEATER

is absolutely air-tight and will stay air-tight. That is why it is guaranteed to hold fire for 36 hours without attention.

And remember, every Cole's Hot Blast Heater is guaranteed to consume one-third less fuel than any underdraft stove of the same size. This means money in your pocket. Let us tell you more about this remarkable heater.

The John E. Morrison Company

WHY HOGS EAT CHICKENS

A reader has a brood sow that kills and eats chickens. He asks, "What can I do for her and what makes her eat chickens?"

Little can be done for such a sow, except to keep her and the chickens separated. There is probably no practicable way of breaking a sow of this bad habit.

The hog eats chickens because of two conditions: First, she is more likely to eat chickens if not fed a balanced ration. If in a dry lot without green feed and without sufficient protein and mineral matter she is much more likely to eat her first chicken if one gets in the trough while she is feeding. Also is a dead chicken found by a hog or if one is thrown into her lot she is very likely to eat it, especially if she is not getting a full supply of those materials which her body craves and must have to maintain health.

A hog getting green feed and milk or tankage is not likely to begin to attack, kill and eat live chickens, but even a well fed hog is likely to eat a chicken found dead in the lot. But faulty feeding is probably not the only reason why hogs form the habit of eating chickens. They eat chickens because of their natural desire for animal matter and once having tasted chicken flesh they continue to eat it because they like it.

When young chickens are allowed to eat from the same trough with the hogs some of the hogs are quite likely to form the habit of chicken eating sooner or later.

To prevent the formation of this bad habit, give the hogs green stuff, animal protein and plenty of charcoal and acid phosphate. And keep the hogs and chickens, especially the young chickens and brood sows, separated as far as possible.—Progressive Farmer.

ENFORCING PROHIBITION

The latest expression from the commissioner in charge of the work of enforcing prohibition is to the effect that much more will have to be appropriated to employ many more men, and the admission is made that collusion exists in numerous cases between prohibition agents and illicit dealers in booze, a condition said to obtain in a number of the larger cities, where liquor is still sold more or less openly.

In the state of Washington it is charged by the state enforcement officer that in one county there are 3000 stills, in another 1500 and yet in another 600, and it appears that these "white mule" are equally numerous in other parts of the country, with thousands of men engaged in the traffic in one way or another.

These facts might tend to discourage those people who believe in the enforcement of law and who are op-

posed to the liquor traffic but for the fact that the visible and acknowledged benefits of prohibition have been so many as to offset the lack of complete enforcement of the law. There are fewer dives where crime breeds, there is more money in the banks and more comfort in the homes of the country than when we had saloons, and there are many less examples of drunkenness and of the things drunkenness leads to.

It probably may never be possible to make the land "bone dry." There will always be men who will violate the prohibition laws just as there are always men who will violate other laws. But even so, prohibition is a blessing, and there will never be enough illicit booze to seriously menace the moral fabric of the nation.

We have just received a large shipment of ready made Cotton Sacks at SNODDY & SON. 2tf

SERVICE CAR—Any where, meets all trains.—J. D. LAMAR, Graham, Texas, Ind. Phoe 9W. 4tf

CITATION IN PROBATE
On Order to Appoint Permanent Guardian

The State of Texas,
To the Sheriff or any Constable of Young County—Greeting:

YOU ARE HEREBY COMMANDED to cause the following citation to be published in a newspaper of general circulation which has been continuously and regularly published for a period of not less than one year preceding the date of the citation in the County of Young, State of Texas, and you shall cause said citation to be printed at least once each week for the period of ten days exclusive of the first day of publication before the return day hereof:

CITATION IN PROBATE

The State of Texas,
To all persons interested in the welfare of Lillie B. Harley, Merrell W. Harley, Boyce Harley, Ollie Harley, William B. Harley and Mary E. Harley, Minors:

On the 11th day of September, A. D. 1920, the Honorable W. P. Stinson, County Judge of Young County, Texas, made an order appointing Mrs. Mary E. Harley temporary guardian of the persons and estate of the above named minors, which said order is now recorded in the Probate minutes of said Court, said minors having an estate of the probable value of \$1112.50, consisting of real and personal property.

All persons interested in the welfare of Lillie B. Harley, Merrell W. Harley, Boyce Harley, Ollie Harley, William B. Harley and Mary E. Harley, minors, are hereby cited to appear before the County Court of Young County, Texas, at the court house in the city of Graham, Texas, on the 4th day of October, A. D. 1920, the same being at a regular term of said

Court, then and there to contest such appointment if they so desire, and that if such appointment is not contested at such term, then the same shall become permanent.

Here Fall Not, but have you before said Court on the first day of the next term thereof, this Writ, with your return thereon, showing how you have executed the same.

Witness my hand and official seal, (L. S.) at Graham Texas, this 4th day of September, 1920.

C. W. HINSON,
Clerk County Court, Young County, Texas

I hereby certify that the above and foregoing is a true and correct copy of the original Writ now in my hands.

M. M. WALLACE, Sheriff.

The teacher shortage remains a menace to the public schools according to preliminary reports made public today by the national Education Association. Replies to questionnaires sent out by the Association have come from all sections of the United States. These reports show that in places where teachers' salaries have been increased one hundred per cent or more the situation is nearly always satisfactory. But such places are comparatively few, and in localities where salaries have been increased fifty per cent or less the teacher shortage is commonly greater than a year ago. Rural com-

munities are hardest hit. Signed reports from superintendents of many counties indicate that a third of their rural schools cannot open for want of teachers. Tens of thousands of schools will be in charge of teachers who have had no professional

preparation and whose academic training barely exceeds that of the children they teach.

Relief from this serious situation which imperils the stability of American rural life, will be sought from the next session of Congress.

Renewed effort will be made to obtain the passage of the Smith-Townner Bill, which creates a department of education with a secretary in the President's cabinet and provides federal aid of \$100,000,000 for education.

**Something that has never
Been in GRAHAM Before!**

Three hundred pair of WEED MUD CHAINS.—Two hundred RADIATOR CAPS, Fit any make of car.—one thousand EDISON MAZDA AUTOMOBILE LAMPS. INDEPENDENT PHONE 51

Look at the
roads for twenty miles
around on a Sunday

THERE isn't any "country" any more. The automobile has brought the most remote settlement almost as close to the center of things as the next county was in the old days.

They make no distinction between the small car owner and the owner of the biggest car in the country.

It's all the same to them. So long as a man owns an automobile—large or small—he's entitled to the very best tire they can give him.

Quality has always been the outstanding feature of U. S. Tires. There's no limit on the U. S. guarantee. All U. S. Tires are guaranteed for the life of the tire.

To hear some tire dealers talk you might think that nobody knew anything about tires except the fellow from Broadway.

That's not the basis we go on.

We give every man credit for knowing what he is spending his money on, whether he drives up here in his small car from ten miles out in the country or is passing through from the capital in his limousine.

That's one thing we like about U. S. Tires.

We have given a lot of thought to this tire proposition. There is some advantage in being the representatives of the oldest and largest rubber concern in the world.

Drop in the next time you're down this way and let us tell you some interesting facts about tires.

Select your tires according to the roads they have to travel:

In sandy or hilly country, wherever the going is apt to be heavy—The U. S. Nobby.

For ordinary country roads—The U. S. Chain or Usco.

For front wheels—The U. S. Plain.

For best results—everywhere—U. S. Royal Cords.

A REAL OPPORTUNITY THAT'S GOING SOON

We want the best. Are you the man? Some real money can be made in this territory by the man appointed as local dealer, for one of America's Nationally advertised, medium weight, popular priced six-cylinder Automobiles. A car that's known and admired everywhere. If you are the man wire or write today.

AMERICAN LEGION NEWS

Mrs. Wendell Phillips, of New York, is representing the American Legion at the fourth inter-allied conference to study questions affecting war-disabled soldiers, which is meeting in Brussels, Belgium. Mrs. Phillips was wounded while serving with the ambulance forces in France. She has been decorated by the French government and is the only woman ever recommended to receive the Congressional Medal of Honor, the highest reward for valor in the gift of the United States.

The American Legion welcomes American Indians to full membership in spite of the fact they are not eligible to the full privileges of citizenship and efforts are under way to form posts of Indian ex-service men at reservations and schools throughout the country. A recent ruling of the legal division of national headquarters of the Legion settled the status of aborigine ex-service men, so far as the veterans' organization is concerned.

Presentation of Victory Medals to all service men and women will be made with formal ceremony on Armistice Day, November 11th, and will, according to plans now being worked out, mark the biggest Legion day of this year. Every service man is urged by Department Commander Guy O. Shirey to obtain at once through his nearest recruiting officer, Red Cross Chapter, or American Legion Post, the necessary forms which must be forwarded to Philadelphia for the issuance of the Victory Medal.

This ordinarily takes three or four weeks, and all men who have not yet obtained their medal, should take immediate action to see that they obtain this acknowledgment of a grateful nation for their splendid service during the Great War.

According to information given out by Legion officials and by the War Department, but surprisingly few appli-

cants for the Victory Medal have been received. In order to insure the complete success of Armistice Day and the formal presentation of Victory Medals, every man who is authorized to receive a medal should turn it over to his local Adjutant a few days before November 11th in order that the formal presentation may be made. The medal issued to service men, who were in France or any foreign country, has a clasp; while that which is issued to men who were in the United States, is without this clasp but in all other respects is the same. Those who took part in the Argonne and other battles, battle clasps with the name of the engagement in which they figured will be issued.

THE NEW KANRED WHEAT
Edgar H. Kemp.

Many of the people of this section have already learned of the new variety of wheat which has been originated at the Kansas experiment station at Manhattan, Kansas, and there have been many inquiries concerning its habits, prevailing prices for seed, etc. For the benefit of those who are not already familiar with this variety I will give a brief history.

In 1906 a single head of this wheat was selected from a field of wheat in Crimea, a province of Russia. This was brought to America and turned over to the Kansas experiment station. There it was propagated and

bred up to its present state, which is stated as very high in comparison with other varieties of winter wheat. Since 1906 it has been subjected to rigid tests which have demonstrated conclusively that it shows greater winter hardiness than Turkey red; that is more rust resistant; maturing earlier, and yielding from three to twelve bushels more per acre. Indications are that within a few years this variety will replace other varieties of winter wheat.

Pure Kanred seed wheat from pedigreed stock can be had at \$3.75 per bushel f. o. b. Atchison, Kansas. All farmers who desire to try out this wheat should place their orders as soon as possible.

JUNIOR BOYS' C. E. PICNIC

Last Saturday afternoon the Boys' C. E. of the Presbyterian church hiked to the golf links just out of town. There all kinds of games were played until supper time when a picnic lunch was spread.

This was the occasion of the quarterly opening of mite boxes. The offering amounted to \$11.44 and is to be given to Goodland Indian School in Oklahoma, to help Nicholas

Maumbie, a little eight-year old Indian who is attending school there. The Junior Boys are doing good work. There are twenty-one members.

Mayor of Dallas Invites All Texas Children and Teachers to State Fair

CITY OF DALLAS
FRANK W. WOZENCRAFT, Mayor

To the Children of Texas and Their Teachers: September 9, 1920

As a firm believer in, and friend of, education, I want every pupil and every teacher in Texas to visit the State Fair. I want them to learn the lessons it teaches and to have the fun a visit will afford. I have asked Honorable E. J. Kiest, President of the State Fair, to let me invite all the children of Texas and their teachers to visit the Fair as my guests and Mr. Kiest, with his ever-present desire to help accomplish worthwhile projects, has granted my request. I take it as a means of extending you an invitation and I am going to be disappointed unless all of you accept.

The day set aside is Friday, October 15. If you will write to Mr. W. H. Stratton, Secretary of the Fair, Dallas, Texas, and tell him how many tickets your school can use, he will send tickets admitting you to the grounds and to the afternoon performances at the Coliseum and the grand stand. All you have to do is to write to Mr. Stratton for the tickets. Of course, the tickets will not be good any day except Friday, October 15, and I am going to look forward to meeting all of you personally at the Fair that day.

Frank Wozencraft
Mayor of Dallas

STATE FAIR CITY OF TEXAS OCT. 9 TO 24

The Young County Oil & Gas Company

Have Begun Operation

The rig, or derrick, furnished by Walter Douglas, a complete California pattern, is on the lease. This is on our 120 acre lease in the Stephen Dennison survey. The Young County Oil & Gas Company own an undivided one-half interest in this lease. We are in partners with C. F. Colcord with this 120 acre lease. The Roxana Petroleum Company are in partners with Mr. Colcord on their acreage. They agreed and contracted to drill fifteen wells for their acreage. The Shamrock Oil Company are in partners with Mr. Colcord on their acreage. They agreed to drill five wells for their acreage. The Young County Oil and Gas Company agree to drill two wells for their acreage. Our 22 acre lease in the James Tobin survey, is a straight commercial lease. Our 40 acre lease on the H. T. Graham survey is a straight commercial lease. On the acreage owned by the Young County Oil & Gas Company we agree to drill three wells. We agree and make it a part of the contract between the stockholder and the company to pay in dividends at least 25 per cent of the revenue derived from the production of oil on any of our leases. Our books are open to inspection at any, and all times. We want you to investigate our proposition. The more rigid and searching the investigation, the more sure we are that you will admit that we have the best proposition ever presented to the public in the way of an oil investment. We have organized The Young County Oil & Gas Company to make money for our stockholders, not for a few individuals. No officer is drawing a salary. No official will be a commission paid for selling stock. The rules of the company provide that all officers to whom are entrusted the funds of the company be under bond.

We Will as Near as Possible Make Our Stock as Good as a U. S. Bond

Our acreage is in our opinion absolutely the best obtainable in the South Bend territory. Every officer, every trustee, pledge themselves to conduct the business of the company in perfect fairness to the stockholders to employ only those contractors and employees known to be capable and efficient. Look over the list of officers and trustees, Are they not men in whom you can place confidence? Now that the South Bend field is opening up and is proven territory there will be a number of companies formed, men will come to Graham from other fields and organize companies here. Business will be good. The field will be fully developed. There is room for all and we can use the money that the production in this field will bring. If these men have a clean, straight proposition we are for them and wish them success.

WARNING

The Young County Oil & Gas Company will in the near future, in fact as soon as our first well is fairly started, increase the price per share of stock. We will start a twenty inch hole prepared to go past the 3200 foot sand if necessary. We will take no chances. Ours is a sure fire proposition. Every piece of acreage is close to production and development. We are informed that there have been three locations made within a quarter mile of our lease in the H. T. Graham survey. Our stock is today worth more than par, \$10.00, and will in all probability be selling for \$12.50 per share within sixty days. There is no question in the mind of any fair minded man in Young County, about the Young County Oil & Gas Company. You want to be a stockholder in this company and share in the profits that is practically accrue to our stockholders.
