Policy of the Administration

In conclusion, I would sum up the policy of the Administration to be a thorough entorcement of every law, a faithful collection of every tax provided for, economy in the disbursement of the same, a prompt payment of every debt of the nation, a reduction of the taxes as rapidly as the requirements of the country will admit, the reduction of taxation and tariff to be so arranged as to affort the greatest relief to the greatest number, honest and fair dealing with all other people, to the end that war, with all its highting consequences, may be avoided, but without summerence, may be avoided, but without summer people, in the treatment of Indians and in the Whois siyl's service of the country, and finally in securing a pure, untrammelied ballot, where Every man entitled to cast a vote may do so just once at each election, without FEAR of molestation or FROSCHIPTION on account of molestation or prosentation on account of his political favil, nativity or color.

THE Cincinnati Enquirer tells an incident in which the late Wesley Smead, the well-known banker, and another well-known and eccentric citizen, whose credit did not stand very high in bank parlors, were acfor a loan, "Certainly Mr. R., I shall accommodate you with pleasure." "But, Mr. Smead, I shall want it for a long time." "So much the better, Mr. R." "And I want \$10,000 for ten years." "Couldn't be better, Mr. R.; that will just answer," said Mr. Smead. "I shall be moderate with you, and barge you but 10 per cent," "That is generous," responded R., "I ex-pected to be charged a higher rate." The rule with bankers, you know, continued Smead, " is to take interest in advance for the time the note has to run. I will deduct ten per cent, for ten thousand dollars you ask, and let you have the proceeds of your note. The Enquirer adds: "It took Ridenour to the day of his death to get that through his

HOW TO MAKE LOVE .- A sugarhearted love dunce writes to a literary paper asking how he shall go to work to win the affections of a woman. Attend, Sapsoul: Don't talk about "going to work" to win the affections of a woman ; it can't be done in that way. The more you go to work the more she won't like you. Push her into a duck pond and pull her out by the hair. If you are afraid to do this, jump in you self and let her pull you out. Lend her money; if you have no money, borrow some from her. Make her believe that she has deeply wronged you, and then forgive her. Deeply wrong her, and don't ask to be forgiven. In short, contrive either to lay her under a lasting obligation to you, or lay your-self under a lasting obligation to her. weakened the frozen bridge that it seemed doubtful whether it was longer safe, and the water and slash which coevred the ice hid from view the dangerous air holes

Although several wished to cross, none would attempt the passage, till at length a gentleman came down to the river's edge and announced his intention of making the attempt. Purchasing from a boatman a good boathook, which he could use as a pole to jump dangerous places and as a support should he go through, he made ready to start. Then a German peddler, with a pack weighing perhaps one hundred pounds on his back, said he would go too, and in spite of the advice of the crowd, who knew the ice would not support two men together at one spot, attempted to walk over the adventurous one first mentioned. That gentleman in vain protested against his doing so; but the peddler said: "My tear, I will go mit you, and den if I gets in you can pull me out mit that stice."

Finding it impossible to persuade him to desist, the gentleman sprang go too, and in spite of the advice

him to desist, the gentleman sprang to the ice and attempted to get such a start as to prevent his "old man of the sea" from at least being by his side; but to no purpose, for the peddler was with him in all his turnings. At last, being fearful for his own safety, the gentleman drew a pistol, and pointing it at the pedaller, proclaimed his determination of blowing out his brains if he persisted in keeping so close to him.

Ayer's Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. Faded or gray hair is soon restored to its original color, with the gloss and

freshness of youth.
Thin hair is thickness often, though not always, cured by its use. Nothing can restore the or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of feeling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous, and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

1971-Through struggle and anticring, at the set of multiform agonies, becavements, systemations, the American Idea embodied the preamble to our fathers' Declarain the preamble to our fathers' Decision of Independece approaches its complete realization. The noble, inspiring assertion that "all men are created equal" and endowed by their Creater with inalienable rights to life, liberty, and the purenit of happiness, is no longer a glittering generality, a poet's fancy, a philosopher's speculation, but the recognized base of our political fabric. The benign Revolution, which dates from the Botton Massacre of 1770, finds its logical completion, just one centery later, in the XVth Amendment, which gives to the equal political and civilights of every man born or naturalized in our Republic the shield and defense of the Federal Constitution, The billows of Caste and Psivilege may rear and rage around that rock, and may translently around that rock, and may transiently seem on the point of washing it away; but its foundations are deep laid and steadfast, and the breakers of Reaction and Slavery are hurled against and dash their spray over it in vain. We do not underrate the forces of Preju-

We do not underrate the forces of reju-dice and Aristocracy. We do not forget that a very large minority of the American People still hold in their innest hearts that Blacks have no right which Whites are bound to respect. We fully appreciate the desperation wherewith all the warring largest of hatrag to Remidien active. claments of hatred to Republican achieve-ment will be combined and hurled against the battlements of Republican ascendency in the Presidential Election of 1872. We do not doubt that local successes, facilita-ted by Republican feuds and dissensions, ted by Republican feuds and dissensions, with inspire the charging host with a sangaine hope of victory, such as nerved it to put forth its utmost strength in the earlier stages of the contests of 1864 and 1898. Yet our faith is clear and strong that the American People still bless God that, on the red battle fields of our late Civil War, the Union was upheld and Slavery destroyed, and will never consciously decide that the precious blood thereon poured out was lavished in vaiu.

The Tribunk believes in the prosecution of the great struggle by legitimate

THE TRIBUNE believes in the prosecu-tion of the great struggle by legitimate means to beneficent ends. To State Sove-reignty, it opposes indiscoluble National. Integrity; to Slavery for Blacks, Liberty for All; to Proscription, Enfranchisement; to Popular Ignorance, Universal Educa-tion; to intensity and eternity of wrath-ful Hate, universal and invincible Good Will. It would fain do its utmost to hast-en the glad day when the South shall vie Will. It would fain do its utmost to hasten the glad day when the South shall vie with the North in exultation and gratitude over the disappearance of the last trace or taint of that spirit which impelled Man to exult in the ownership and chattelhood of his fellow Man.

chattelhood of his fellow Mau.

Profoundly de we realize that the contest is not yet ended—that Millions mourn, more or less publicly, the downfall of the slaveholders Confederacy, and rear their children to hate those by whose valor and constancy its overthrow was achieved. If we ever seem to differ essentially from other Lepublicans, our conviction that magnaphints is never weakness, that vence naminity is never weakness, that vengeauce is never politic, and that devils are
ms cast out by Beelzehub, must serve to
explain alleged eccentricities whose perfect vilidication we leave to Time and
Reflection.

The Tribunk has been, is, and must be, a zealous advocate of Protection to Home Industry. Regarding habitual idleness as the greatest fee to human progress, the bane of human happiness, we seek to win our countrymen in masses from the ensuraing lures of Speculation, of Traffic, and of always overcrowded Professions, to the tranquit paths of Productive Industry. We would gladly deplete our overcrowded cities, where thousands valuly jostle and crowd in misguided quest of "Something to Do," to cover prairies and plains with colonies absorbed in Agriculture, Mechanics and Manufactures, and constantly projecting into the blank, void wilderness the homes and the works of civilized Man. Holding the Protection of Home Industry by discriminating duties on imported Wares and Fabrics essential to the rapid, beneficent diffusion of Production in all its phases and departments, THE TRIBUNE has been, is, and must be, a duction in all its phases and departments, and so to the instruction of our people in all the gainful arts of Peace, we urge our countrymen to adhere to and uphold that policy, in undoubting faith that the true interest, not of a class or a section and

Exercise the class, is thereby observed and promoted.

To Agriculture and the subservient arts We have devoted, and shall persistently devote, more means and space than any of our rivals. We aim to make THE WEEK-LY TRIBUNE such a paper as so farmer can abord to do without, however widely his politics may differ from ours. Our reports of the Cattle, Horse, Produce, and General Markets, are so full and accurate, our essays in elucidation of the farmer's realling, and our regular reports of the Farmers' Club and kindred gatherings, are as interesting, that the poorest farmer will find therein a mine of suggestion and counsel, of which he cannot remain ignorant without positive and serious loss. We sell life Weesly to Clubs for less than its value in dwellings for waste-paper; and, though its subscription is already very large, we believe that a Half Million more farmers will take it whenever it shall be comended to their attention. of the State in the case of the city of San Antonio, appellant vs. R. S. Gould, appellee, is a glorious triumph for the city, the results of which we apprehend are not properly appreciated by the people of this city and county.

In brief, the city and county some twenty years ago subscribed \$50,000 each in the stock of the San Antonio and Mexican Gulf-railroad, issuing bonds therefor, hearing coupons, payable every six months; to to levy a tax. For a white this tax was collected, but the company failing to build the road and becoming involved, and changing hands, the intervention of the febellion, &c., left these obligations out and unsettled. After the war suits were hat tuted by several parties to recover accumulated interest on the coupens. A case was tried before Judge Stribbling, who took the case out of the hands of the Jary, practically, and ordered a verdict against city. Judge G. W. Paschall defended this case for the city. The city Council then in office, under the present Muse

A Dinmond and a Bride.

The following is from the Diamond Field South Africa) of the 27th of October :

"A capital story has just been brought in. A sweet-looking Koranus girl went out on the Phiel side, dipping up from the claim of a party in a buckst, and going down to the river and washing it for her own advantage. There was only one whits man in charge of the party, and be asmart young Englishman. He was too pol-ite to drive away a girl, although she did not belong tohis own fair race. He allowsed-her to go on taking up ground from the surface and washing it. At last she threw her hands about, and laughed heartily. Our friend the Englishman rushed over to see what the matter was, when he found that she had picked up a diamond, and a last the band picked up a diamond, and a beauty, too. The gentleman did the prop-er thing; he made her an offer on the spot. He is of first rate family, and vows that he will introduce his wife to his fam-ily as an African Princess of great distinc-tion."

Pity Patti.

[From the Chicago Times.] Pattl will not be in America for over a ear, but the Strakosch family is already ard at work at the preliminary advertising. We are instructed, per cable and re ing. We are instructed, per cable and regular correspondence about once a week, of the tender solicitude felt in the warbling Marquise's fortunes throughout Enrope. The appearance of a "cat boil" upon her distinguished nose sent the horrible rumor through all France that she had been attacked with small-pox, and Von Molke's legions spread not half the terror in that poor country that did this blood-curdling report. She humped her head the other day against one of the wings of a St. Petersburg theater, and we were at once assured that such was the joy on learning that not even her scalp had been abraded, that special thanksgiving servicelearning that not even her scarp had been abraded, that special thanksgiving services were ordered in all the Muscovite churchés. And now she tripped her lovely toes in the toe voluminous folds of a robe, and, sprawling upon the floor, has barked her noble knees. A paragraph auntineing that the Czar and his family have resolved to wear crape until her excoriated legs shall have fully healed will now be started on its journalistic rounds.

A newspaper comes to the Tribuñe from a Western city with this endorsement upon the margin :

"X or be damned." The alternative fearial, but, as of two evils, the Tribune, makes it a rule always to choose the least, it declines to "X." A "little story" is ap propriate here. Some years ago, a young propriate here. Some years ago, a young man of culture and good taste went to hear a well-known ranter preach. Getting disgusted bifre the serueen was half through, he left his seat, and was going on tip-toe toward the door, when the preacher roared out: "Young man! had you rather go to hell than hear me preach? Somewhat startled at first, the young mar forced about, and, with a graceful bow responded, "On the whole, parson I would."-[N. Y. Tribune, 18th.

obvious reason that it is a more rel bie and far more fectual remedy than any other. Those who has tried it, know that it cured them; those who has tried it, know that it cures their neighbors and friends and all know that it cures their neighbors and friends and all know that what it does once it does always — that it never falls through any fault or neg gleet of its composition. We have thousands upon thousands of certificates of their remarkable cares of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and condition in all ellmates; containing neither caloned nor any deleterious drug, they may be taken with safay y anyhooly. Their sugar-coating preserves, then ever fresh, and makes them pleasant to take which being purely vegetable, no harm can arise from their use in any quantity.

being purely vegetable, no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purily the blood and symulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such ofe-rangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these Pills rapidly cure:—

Byspepsia or Endigestion, Listless-Languor and Loss of Appetite, they

## Ayer's Sarsaparilla, FOR PURIFYING THE BLOOD,

The reputation in service cellent medicine enjoys, is derived from its cures, many of which are truly marveilous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were ac-

purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully affilicting, have been radically chired in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal discases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on-the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the laugs or heart, or tumors formed in the liver, or it shows its presence by cruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this Sarsaparvilla is advisable, even when no active symptoms of disease appear. Fersons afficied with the following complaints generally find immediate relief, and, at length, cure, by the use of this \$ARSAPARILLA: St. Authonys' Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringurorm, Sore Eyee, Sere Esses, and other cruptions or visible forms of Serofulous disease. Also in the nore concealed forms, as Dyspepsia, Propsy, Meart Disease, Fits, Epitepsy, Neuralgia, and the various Ulcerous affections of the muscular and nervous systems.

Syphilis or Eenerval and Mevaurial Disease are cured by it, though a long time is re-

the various Uleerous affections of the indicate and nervous systems.

Syphilits or E-mercal and Mercurial Discesses are cared by it, though a long time is required for subduing there obstinate maladies by any medicine. But long-continued use of this medicine will cure the complaints. Lieuworkers or Whites, Uterine Uleerations, and Temate Discesses, are commonly soon releved and ultimately cured by its purifying and ingerorating effect. Minute directions for each case are found in our Almanac, supplied graits. Rheuntatism and Gent, when caused by accumulations of exin our Almanac, supplied gratts. Rheumatism and Goud, when canged by accumulations of extraneous matters in the lilood, yield quickly to it, as also Leber Complaints, Toryidity, Congestion or Inflummation of the Liver, and Jaundice, when arising, as they often do, from the rankling poisons in the blood. This SARSA-PARILLA is a great restorer for the strength and vigor of the system. Those who are Languist and Listless, Despondent, Steepless, and troubled with Nerrous Apprehensions or Fears, or any of the affections symptomatic of Benkness; will find immediate relief and convincing evidence of its restorative power upon trial.

Having for the last thirty-five years de voted my whole time and attention to the study of lung diseases and consumption. I feel that I understand fully the course that ought to be pursued to restore a tolerably-bad case of diseased lungs to healthy soundcase of diseased ings to healthy sound-ness. The first and most important step is for the patient to avoid taking cold, and the best of all places on this continent for this purpose in winter is Florida, well down in the State, where the temperature is regular, and not subjected to such variations as in more Northern latitudes. Patatka is a point more Northern latitudes. Paintka is a point I can recommend. A good hotel is kept there by Peterman. Last winter I raw several persons there whose lungs had been badly diseased, but who, under the healing influence of the climate and my medicines, were getting well.

Our hundred miles further down the river is a point which I would prefer to Palutka, the temperature is more even and the air dry and bracing. Merlonville and Enterprise are located there. I should give a decided

are located there. I should give a decided preference to Mellonville. It is two miles from river or take, and it seems aimost impossible to take cold there. The tables in Florida might be botter, and patients complain at times but that is a good sign, as it radicates a return of appetite, and when this is the case they generally increase in flesh, and then the ungs must heal,

dacksonville, Hibernia, Green Cove, and

Junny other places in various parts of Flori-da, can be safely recommended to consump-tives in winter. My reasons for saying so are that patients are less liable to take cold there than where there is a less even tempe where a consumptive person exposes himself to frequent colds he is certain to die shortly. Therefore my advice is, go well shortly. Therefore my advice is, go well down into the State out of the reach of prevailing coat winds and fogs. Jacksonville, or almost any other of the localities I have named, will benefit those who are troubled with a torpid liver, a diaprdered stomach. deranged bowels, sore throat or cough, but for those whose lurgs are diseased a nore

For fifteen years prior to 1869, I was pro-fessionally in New York, Beston, Baltin ore and Philadelphia every week, where I saw and examined on an average five hundred patients a week. A practice so extensive, carbiracing every possible phase of lung dis-case, has enabled me to understand the discase fully, and hence, my caution in regard to taking cold. A person may take vast quantities of "Schenck's Pulmone Syrup, Seaweed Tonic and Mandrake Pills," and yet-die if-he does not avoid taking old. In Florida, nearly all are using Schenck's Medicine's, espesically Schenck's Mandrake Pills, for the cinnate is more likely to pro-

Pils, for the climate is more likely to proce bilious habits than more northern lattheirs. It is a well established fact that natives of Florida tarely die of consumption especially of the southere part. (In the other hand, in New England, one third, at least, of the population die of this terrible disease. In the Middle States it does not prevail so largely, still there are many thousands of cases there. What a vast per centage of life would be saved if consumptives were as easily sharmed in regard to tives were as easily alarmed in regard to fever, small pox, &c. But they are not They take what they term a little gold which they are credulous enough to behave will wear off in a few days. They pay no attention to it, and hence it lays the foun dation for another and another still, until the lungs are diseased beyond all hope for

My advice to persons whose lungs are affected even slightly is, to lay in a stock of Schenck's Pulmonic Syrop, Schenck's Seaweed Tonic, and Schenck's Mandrake Pills, and go to Florida. I recommend these particular medicines because I am thoroughly acquisited with their action. I know that acquainted with their action. I know that where they are used in strict accordance with my directions, they will do the work

with my directions, ther will do the work that is required. This accomplished, nature will do the res. The physician who prescribes for cold, cough or night sweats, and then advises the patient to walk or ride out every day, will be suce to have a corpe on his bands before long.

My plan is to give my three medicines, a accordance with the printed di. Sons, except in some cases where a freer the Mandrake Pills necessary. My object is to give tone to the stomach—to get up a good appetite. It is always a good sign when a patient begins to grow hungry. I have hopes of such. With a relish or food and the grathication of that relish, come good the gratitication of that relish, blood, and with it more flesh, which is close by followed by a healing of the lungs. Then the cough loosens and abates, the creeping chills and clammy night awents no longer prostrate and annoy, and the patient gets well, provided be avoids taking cold.

Now there are many consimptives who have not the means to go to Fiorida. The question may be asked, is there no hope for such 2 Certainly there is. My advice to such is, and ever has been, to stay in a warm. room during the winter, with a temperature, of about seventy degrees, which should be kept regularly at that point, by means of a thermometer. Let such a patient take his exercise within the limits of the room by walking up and down as much as his strength will permit, in order to keep up a healthy circulation of the blood, I have cured thousands by this system, and can do cured thousands by this system, and can do so again. Consumption is as easily cured as any other disease if it is taken in time, and the proper kind of freatment is pursued. The fact stands undisputed on second that Schenck's Pulmone symp. Mandrake pills and Seawead Tonic, have cured very many of what seemed to be hopeless cases of consumption. Go where you will, you will be almost certain to find some poor consumptive who has been rescued from the very jawa of death by their use. death by their use.

So far as the Mandrake Pills are con cerned, everybody should keep a supidy of them on hand. They are on liver better than calomed, and leave none of its hurtful effects behind. In fact they are excellent in all cases where a purgative medicine is required. If you have partaken too freely of fruit and Siarshoen ensues, a dose of the Mandrakes will oure you. If you are subject to sick headache, take a dose of Mandrakes and they will felleve you in two hours. If you would obviate the effect of a charge of water, or the too free indulgence in fruit, take one of the Mandrakes every night or every other night, and you may then drink water and eat watermelons, pears, apples. liams, peaches or eorn, without the risk of being made sick by them. They will prote those who live in damp situations against chills and fevers. Try them, They are perfectly hardless. They can do you good only.

I have abandoned my professional visits to Boston and New York, but continue to see patients at my office, No. 15 N. SIXTH Street; Philadelphia, every Saturday, from 9 A. M. to 3 P. M. Those who wish a thorough examination with the Respiremeter

The great field trials at Sedalia, Mo., and at Xenis, Ohio, in the Summer of 1869—where "The Clipper" met some 30 competitors including all the leading maghines built, and was awarded the First Premiums and Gold Medal—proves that the proprietors have been able to sustain in the filed their claims of superiority for the Clipper Machine over all others. Its extra-relievely lightness of draft takes one-third of the labor off the team. The adjustability of the finger-par, to cut high or low without stopping the team is worth \$25 on any michine. It is the only mower that has the true center draft in accordance with correct mechanical principles. The great field trials at Sedalia, Mo., and cordance with correct mechanical principles. In short, it is the lightest, the most durable, the least complicated, the most perfectly constructed, the west symmetrical in design. of any implement of its class, Farmers THE CLIFFER is the Horses Friend, and you cannot afford to ignore their welfare.
