Houston, Sept. 10, 1874.—The city election for the corporation to take \$100,000 stock in the Western Narrow Gauge Railway came off today, the polls closing at 6 P. M. The subsidy was carried by an overwhelming majority. Only about onethird of the total registered vote of the city was cast; and 969 votes were polled for and only 139 against the subsidy, leaving a majority of the votes cast 830.

The triends of the enterprise are jubilant, and work on the first ten miles of the road may be expected to begin without delay.

healthy action of the liver. These remedies are a certain cure for Consumption, as the Pulmonic Syrup ripens the matter and purifies the blood. The Mandrake Pills act upon the liver, create a healthy bile, and remove all diseases of the liver, often a cause of Consumption. The Sea Weed Tonic gives tone and strength to the stomach, makes a good digestion, and enables the organs to form good blood; and thus creates a healthy circulation of healthy blood. The com-bined action of these medicines, as thus explained, will cure every case of consumption, if taken in time, and the use of the medicines persevered in.

FOR CONGRESS, Sixth Congressional District,

Jeremiah Galvan, FROM CAMERON COUNTY.

Platform of the Republican Party of the sixth Congressional District.

1st. We, the Republicans of the 6th Congressional District of the State of Texas, having regard to the necessities of West-Texas, declare that in our nomination of a candidate for the representation of the people of this District, in Congress, we place the protection, development and welfare of our country above all partisan considerations, and pledge our candidate to labor assiduously for the common good. 2nd. We hereby charge the administra-tion of Gov. Coke with a neglect, wilful

or ignorant, of the interests and rights of our section, and we charge that the Goliad Convention, by its endorsement of Gov. Coke, forfeited all claim on the part of its candidate to the support of the patriots and well wishers of Western Texas.

3rd. We demand from the Federal Gov ernment the fulfillment of its contracted treaty obligations for the defence of our frontier and pledge our candidate, if elected, to use every proper effort to give effect to our demand.

4th. Whereas past experience has taught us that Western Texas cannot obtain from the State Government the aid which is due to ber, and necessary for the development of her natural resources, and believing that a division of the State will be beneficial to the promotion of her material interests. we declare in favor of a division of the

WEDDED. - The marriage cards of J. W. Van Slyke and Miss Frank Neves, both formerly of this city, were received this morning.

THE Houston Telegraph thinks Galvan will do as well to beat as any other man. When it finds that the District is Galvanized it will be electrified.

THE Republicans of Vermont themselves defeated the author of the press-gag law. In Texas the Democracy endorse the State administration in its efforts to abuse election, but allow the Democratic nomiits printing patronage and destroy the freedom of the press.

WE note with pleasure the contradiction of the reported existence of yellow fever in Galveston. The Houston Telegraph intimates that the rumor was gotten up in the interests of St. Louis by a Washing ton operator. The charge is serious. It should be investigated and, if proven, severe punishment should stultifying themselves. be inflicted on the offender.

MR. DEGENER'S SPEECH. - We give to day the first half of the adadmirable and statesmanlike ad dress delivered by Mr. Degener a week ago in Karber's Garden. The of that class, who have "neither learned pressure upon our space caused by nor forgotten." Much less is he an advothe Convention and the time required for the transcription of the phonographer's report have been the causes of the delay in the pub two Indians." This remark was not relication of the address. After we buked by the President, nor did any memhave completed our report we shall also give space to the speech mad by Col. Schleicher on his acceptance of the Goliad nomination and shall call the attention of our readers to the confirmation given Mr. Schleicher's humanity is beyond sue by it to Mr. Degener's remarks.

ADD"ES OF HON. E. DEGENER.

The question is asked "whether I am a candidate for Congress?" My answer is, "for the time being I am not, eventually I may be a candidate."

Thus far nobody is authorized to auneunce my name, but it depends upon your action, it depends upon the action of other primary meetings of whose preseedings I am not officially informed, and upon the action of the Convention itself whether I can give my consent to have my name published in the papers.

This eventuality needs an explanation, and you are welcome to it, if you will list-

I presume, most of you have read the call for a Congressional Convention, signed by Judge Barden, Chairman of the Republican Executive Committee of this District. I doubt, however, whether many of you have noticed a peculiarity in this call, which is certainly a novelty in a document of this de-cription.

Speaking of the object for which the convention is called, Judge Barden says: "For the purpose of nominating a candidate for Congress, or of taking such action with reference thereto, as may be neces 6ary."

It is the word Or to which I have to call your attention, a word, which gives discretionary power to the convention.

They may nominate a candidate, they may refuse a nomination, they may indorse an independent candidate, ave even the nominee of the Democratic party.

Fellow citizens, an arbitrary power of this kind is not given to any body of men without good cause.

We shall find a clue to it by reviewing the history of the Republican party in this State. I allude to the last few years, which may with great propriety be called the Era of Defeat. That era conimeuced with the Congressional Election of 1871. in which I was the sufferer, it had its sequel in the Congressional and Presidential election of 1872, and its climax in the general, or State election 1873.

This last election, in which Gov. Davis was defeated, and Mr. Coke became the successful candidate, with so overwhelming a majórity, as Texas had never given before, prostrated the Republican party to such an extent, that the earnest question was raised, whether it was not useless to continue the struggle, and better to drop the Republican organization altogether.

Was it the despondency of the party, or was it the lult which always follows great exitements? This much is certain, the latter idea seemed to prevail, and the hue and cry was raised: "The Republican "party has accomplished its mission, let it 'cease to exist.'

Those who raised this cry did not take into consideration a rule in history, which ever will repeat itself. The rule is this: Whenever a party becomes omnipotent, the extremists in its own ranks (they invariably being the most energetic, will drive the party against the wall, and a new party consisting of the remnants of the old, and the dissatisfied members of the dominant party, will rise in opposition. The older citizens among you will recolleet the anihilation of the Whig party; they will recollect the sudden terrific rise of the Know-Nothings; how these were conquered by the alliance of the foreign born citizens with the Democratic party, little as the ideas of the former might harmonize with the pro-slavery proclivities

of the latter. You all recollect how the civil war originated, how the Union party had the honor to save the Republic, and how the latter was again abandoned by the War-Democrats, but was still powerful enough, under the name of the Republican party, to dictate the conditions of Reconstruction to the vanquished.

The Republican party has certainly not understood to avoid the mistakes previously committed by other dominant par ties and in this State it was prostrated, aye to such an extent, that the stepping in of the historical rule might well have been anticipated.

I must confess, I was not so sanquine. It was my idea not to participate in any nee to walk over the track without opposition on our part, aye even perhaps give my vote to a Democrat, provided :

1. That the nominee did not belong to what is generally styled the Bourbon

2. That he was beyond any suspicion of favoring a ring or clique, but was an able, true and impartial advocate of our western interests:

3. That the platform on which he be nominated was of such a character, that Republicans could vote for him without

Now, fellow citizens, let us see how the Democratic Convention in Goliad bas filled these requirements.

First: Is Mr. Schleicher a Bourbon Democrat? From my personal jutimate connection with the gentleman, I am safe in asserting, that he is not. No he is none cate of the Blood and Terror Policy, which found its illustration in the Goliad Convention, when a delegate declared, that he preferred "to kill one nigger to killing ber of the convention call the advocate of Ku-Kluxism to order, thes allowing this stain to rest on the entire convention. I quote from the Galveston Dews, a Democratic paper, and shall be bappy to apolegize, if the report proves to be false. No,

even the most cultivated colored man in office, especially in a legislative body, but certainly the loss of property in slaves could not engender in him that feeling of hate against the colored race, which is one of the characteristics of Bourbonism. No. no, Mr. Schleicher is not a Bourbon.

Second. Is Mr Schleicher beyond suspi cion of favoring a ring or a clique, is he an able, true and impartial advocate of our western interests f Of Mr. Schleicher's abilities there can exist but one opinion. A happy natural organization in conjunction with an education as perfect as the much boasted German schools and universities could give, together with ample political experience in this State will make Mr. Schleicher a representative of the Democracy on whom they may well look with pride, especially if Mr. Schleicher should be called upon to write important public documents. Those of you who recollect the brilliant letters, which appeared in the Herald of this city, some five or six years ago, over the signature of ' Bexar", on the subject of division of the State. will concur with me, that as a writer Mr. Schleicher has no superior in this district, and will join in my regrets, that his literary efforts were of such short duration.

But is Mr. Schleicher in a position to use his talents impartially in the interest of his constituents, or will his gratitude towards those who seek to elevate him to the distinguished position of a Congressman force him to favor a monopoly, which and of this city ?

Far be it from me to intimate, that he considers wrong, but whatever personal regard we may have for his character, we must acknowledge, that views will differ on the merits of an Internal Improvement question, especially when such improvement is at the mercy of a monopolist.

Mr. Schleicher will no doubt give a flat denial to all the inferences which may be drawn from the surroundings, but until this is done in the most satisfactory manner. Mr. Schleicher must excuse the

people, if in view of existing facts, they consider the same as strong circumstancial evidence, that he is more a representative of the Morgan monopoly, than of the true interest of the people.

Let us see what the Morgan monopoly is. It began with a steamboat line between New Orleans and Galveston and Indianola. Then a railroad was added from New Orleans to Brashear City, which changed to some extent the starting point from the tormer city to the latter This combination soon became strong enough to exclude all competition. Opposition lines were attempted, but soon killed off, and the merchants of this city who patronized the opposition steamers, were charged additional freight as a punishment for their temerity, when they again sent goods on board a Morgan steamer. The merchants here present will bear me out, that my statement is cor-

Subsequently Mr. Morgan became the owner of the Mexican Gulf and San Antonio Railroad charter. The road was built to Victoria and a splendid wharf at Indianola put in direct connection with the road, right through the centre of the city. This forced the commission merchants of Indianola to build houses and establish branch firms at Victoria. Then the road was continued to Cuero, and the same commutation of business firms recommenc-

ed. Hardly was this accomplished, and the Cuero town lots sold, when an arrangement was perfected by which the entire transportation business fell into Mr. Morgan's bands. The commission merchants had no longer any use for their establishments in Cuero, and could go to other parts, The Moor has done his duty. He can go.' In the meantime the people of Bexarcounty were solicited to take \$500,000 stock in railroad stock against their county bonds. The vote of the citizens was in favor of the investment, and Mr. Mergan agreed to pay a forfeit of \$100,000, if within a certain period the road did not reach San Antonio. The Morgan road has until now not reached any further than Cuero. The time has elapsed, but the bond proves to be worthless.

Mr. Morgan is an old man; be says, or is reported to have said, he had no money to continue the road, and did not desire, at his advanced age, to load more liabilities on his shoulders.

But suddenly we read in the papers, that Mr. Morgan has agreed to build a ship channel to Houston. Thus you see he owns the two principal gates which open the trade of our vast territory with the world. Well Mr Morgan has money for the channel. but not for a connection with San Antenio. He had moreover an other one-half million to spare, to buy Texas State bonds and relieve Gov. Coke from his financial difficulties, from which the inference may be drawn, that the Cuero road instead of finding its terminus at San Antonio may be continued to Austin. Why not since it has by legislative action become a Pacific road, and optional whether it be continued to San Antonio or not.

It may further be inferred, that the assistance rendered to Gov. Coke, is either a return for favors already received, or still expected, in the International Rail-

road bond case. But we have the Peirce Railroad, spre Look at the map. See how the two lines of railroad, commencing at Indiano'a and Houston respeceively, converge at Austin, embracing fully the Pierce line, and ready to crush it out, or take it up perhaps into the combination. Truly a brilliant investment of an \$800,000 subsidy. And for this trifle of a sum we have bought the picion of countenancing a Ku-Klux. He privilege of paying to our lives end the

may have his antipathy against seeing high freight which the monopoly may

please to charge.

Do not believe, that the youngest of you will ever see the day, when a competition railroad line from the coast will force the giant Mergan to reduce his tariff. The Pacific road will run up the Colorade Valley, and San Antonio become a rotten borough. Yes, fellow-citizens, when we have fed this monopoly to its full size, our government will receive its one from New Orleans, and we? well we pay for the

Now let us see, what Mr. Schleicher has to do with this monopoly, or what the circumstances are, which place Mr. Schleicher in the unenviable light of being suspected of being the Morgan candidate.

The history of the Goliad convention will show. Gov. Stockdale of Indianola was the favorite candidate, strongly supperted by the anti-International and the anti-Pierce railroad Ireland Democracy.

But was it unwillingness to elect a bitter Democrat, or was it the instinctive caution, with which a man will walk in a dark room, lest he strikes his head against a door standing sjar? certain it is, that the Bexar delegation could not be induced to vote for the Vice-President of the Morgan railroad, notwithstanding his high position as a gentleman and a scholar The fifty third ballot was reached without the requisite two-thirds majority. Then Gov. Stockdale withdrew, Mr. Schleicher, as an ald San Antonio man, appeared on threatens the welfare of Western Texas | the stage, and the Bexar delegation went into the trap. They had fifty-three times refused to vote for the Vice-President of Mr. Schleicher would consent to anything | the road, and then accepted the engineer of the road with three cheers.

Now, to whom does Mr. Schleicher in reality owe his election? To a combination of the extreme Coke Democracy and the supporters of the Morgan monopoly.

Can Mr. Schleicher deny the strength of these facts? Can be philosophise the inferences out of existence, which will be drawn out of these facts ? Will his high intelligence enable him to show that there is no motive even for suspicion? Granting for arguments sake, that Mr. Schleicher should convince us that we misconstruct his position, there still remains an obstacle he can not surmount. He stands on a platform which endorses the Coke-administration, which proclaims the Governor a patriot and a statesman. Gov. Coke, E Republicans and the majority of Democracy, pronounced a failure, a patriot! a statesman! Contradiction would be a superfluity. Can a Republican vote for a condidate who indorses Coke? Can he without being a renegade to his faith and forgetful of his political honor accept such a platform ?

To be concluded.

NEW ADVERTISEMENTS.

$\mathbf{NOTICE}!$

the undersigned, respectfully beg to inform my friends and the public in eneral, that I have on this the first day of September, 1874, sold out and transferred to my young friend Nic TENGG my busi ness kept up since twenty years in the line of BOOKS, STATIONERY, NEWS-PAPERS and FANCY GOODS at present in Mr. L. Zork's Building, No. 60, Commerce Street.

MR. NIC TENGG has been for a series of

years my assistant, is familiar with all my business transactions, has for himself established his reputation in this community as well as with my outside customers, so that on my part it eeems unnecessary to recommend him to the confidence of the

I myself gratefully thank my friends and the public for the patronage and kind favors shown to me for so many years, and beg to be allowed to recommend my successor to the same good confidence which he doubtless will fully deserve.

MR. TENGG, under the firm name of NIC TENGG, successor of Julius Berends, will continue the same business, is fully provided with means to meet every de mand, and is authorized in my name to receive everything due me, as well as to pay everything that I may be indebted.

For an early settlement in this business transaction, all those indebted to me are requested to come up and pay, and those ho have a claim on me to present their Bills. Thankful for all favors received. I am, respectfully,

JULIUS BERENDS.

The undersigned respectfully begs to inform his friends and the public in general that he has purchased the business in the BOOK, STATIONERY, NEWSPAPER, and FANCY GOODS line from Mr. Jul. Berends. and will continue the business on the old stand in Mr. L. Zork's building under the firm name as successor of Mr. Julius Berends. He respectfully solicits the continuance of the patronage and confidence of the public, which he hopes to deserve by strictness, promptness, and energy in accommodating his enstomers. Weak, Nervous, or Debiliated? Are you so Languid, that any exertion requires more of an effort than you feel capable of making ?

Then try JURUBEBA, the wonderful TONIC and INVIGORATOR, which acts so beneficially on the secretive organs as to impart vigor to all the vital forces.
It is no alcoholic appetizer, which stim ulates for a short time, only to let the sufferer fall to a lower depth of misery, but it is a vegetable tonic acting directly

on the liver and spleen. It regulates the bowels, quiets the nerves and gives such a healthy tone to the whole system as to soon make the invalid feel

like a new person.

Its operation is not riolent, but is charac terized by great gentleness; the patient experiences no sudden change, no marked results, but gradually his troubles Fold their tents, like the Arabs,

And silently steal away. This is no new and untried discovery, bu has been long used with wonderful remedial results, and is pronounced by the highest medical authorities, "the most power ful tonic and alterative known."

That which protects from or prevents this disorder must be of immense service in the communities where it prevails. Prevention is better That which protects from or prevents this disorder must be of immense service in the communities where it prevails. Prevention is better than cure, for the patient escapes the risk which he must run in violent attacks of this baleful distemper. This "Curen" expels the missmatic polson of Fever and Ague from the system, and prevents the development of the disease, if taken on the first approach of its premonitory symptoms. It is not only the best remedy ever yet discovered for this class of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of everybody; and in bilious districts, where Fever and Ague prevails, everybody should have it, and use it freely, both for cure and protection. It is hoped this price will place it within the reach of all—the poor as well as the rich. A great superiority of this remedy over any other ever discovered for the speedy and certain cure of intermittents is, that it contains no Quinine or mineral; consequently it produces no quinism or other injurious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never had the disease.

Fever and Ague is not alone the consequence of the minsmatic poison. A great variety of disorders arise from its irritation, among which are Neuralgi' Rheumatism, Gout, Headache, Blindness, Toothache, Earache, Catarrh, Asthma, Palpitation, Painful Affection of the Spleen, Hysterics, Pain in the Bowels, Colic, Paralysis, and derangement of the Stomach, all of which, when originating in this cause, put on the intermittent type, or become periodical. This "Cure" expels the poison from the blood, and consequently cures them all alike. It is an invaluable protection to immigrants and persons travelling or temporarily residing in the malarious districts. If taken occasionally or daily while exposed to the infection, that will be excreted from the system, and cannot accumulate in sufficient quantity to ripen into disease.

Hence it is even more valuable for protection han c
