Great Britain. LONDON, Feb. 24.—Gladstone published a pamphlet in reply to Dr. Newman and Archbishop Manning. He eulogizes Newman, whose secession is the greatest loss since Wesley; acknowledges that the loyalty of the mass of Catholics is unchanged; refutes Manning's assertion that the claims of the Roman church are not changed by Vatican decrees; and points to doctrinal changes repudiating the doctrine of papal infallibility and temporal power, by which English and Irish Catholics obtained full civil liberty.

It is stated that Earl Derby has accepted from Spain five hundred pounds for each white, and three hundred pounds for each black man murdered in the Virginia affair.

Paris, Feb. 19.—The different working-men's associations of this city are discussing the question of sending delegates to the Centennial Exhibition to be held in Philadelphia in 1876.

Kingston, Jan. 19.—Intelligence has been received from Hayti that General Alexis Nord, who was recently arrested on his arrival in that republic from St. Thomas, has been condemned to five years imprisonment.

San Francisco, Feb. 19.—The Pacific Mail steamer Arizona, from Panama and way ports, arrived to-day. Among the passengers are four Sisters of Charity expelled from Coima and Guadalajara, and the Mexican Land Commissioners to settle the land difficulty in Lower California. The officers of the Arizona report trouble and turbulence along the lower coast, where a religious outbreak is imminent.

Washington, Feb. 20.—Considerable attention was attracted to-day by the remarks of Mr. Storm, Democrat, of Pennsylvania, during the pending discussion on the tax bill. Heretofore he has always advocated a high, protective tariff; to-day he said he believed that the protection afforded the interests of Pennsylvania did not inure to the benefit of the poor man or advance the price of his labor, but rather filled the pockets of the large iron and coal dealers, who, he alleged, were in confederated to keep up the high price of fuel in the winter.

Philadelphia, Feb. 19.—This morning the Naval Board of the Schuykill Navy, accompanied by a number of invited guests went to Flat Rock Dam, Schuykill River, and surveyed the rowing course, to show boating men, and especially collegiate organizations, that it is the best course in the world and every way suited for the international contests to take place in the Centennial year. Upon measuring the course it was found to be 700 feet wide and three and a half miles long. The result is considered extremely satisfactory by boating men in this city.

Nashville, Ten. Feb. 19.—A bill was introduced in the Senate, to-day, providing for the purchase, by the State, of the Hermitage property on which Jackson is buried, near Nashville, and the erection thereon of a State Hospital, to be known as the Jackson Hospital.

Washington, Feb. 20.—The sub-committee of the House Committee on Judiciary, began to-day the inquiry authorized by the resolution introduced in the House by Mr. Dawes, to ascertain if the Western Union declined to send messages of the American Press Association on the ground of criticism of the Western Union Company. Mr. Orton, President of the Western Union Telegraph Company, was examined. It appeared from his testimony that no two press contracts with the company are alike, different rates being charged for different classes of service. The company could afford to charge less to those who did a large regular business over its lines than to parties who sent small quantities, on the principle that a railroad company could afford to charge cheaper freights to wholesale dealers than to occasional customers who sent but little over its road.

Mr. Orton was asked whether wealthy parties had not greater facilities than those of limited means, and whether first-class parties could not obtain their dispatches cheaper than those of less prominence. He thought they could, because of the larger surface covered in arrangements. The reason why the Western Union could not make a contract with the American Press Association was that by taking of a part of the business of its best customers and serving the Association for less, a heavy loss to the company would have been occasioned.

He was asked whether, in case of a paper not in the Western Associated Press arrangement, there would be a difference in telegraphic charges to the Associated Press sending exactly the same matter.

Mr. Orton replied there would, as the business with the single paper would be but a single transaction, and independent of any previous contract. Experts—Change in Rates. WASHINGTON, Feb. 20.—Exporters of whiskey through the port of New York have been trying for a long time to modify the Treasury regulations which have required in all cases real estate bond. Mr. Farwell, of Chicago, who has been active in having the rules so changed as to allow bond to be given with personal property as security, to-day received the following dispatch from the Secretary of the Treasury: "Both regulations relating to bonds to be given for exports of spirits will be revoked. The Collectors of Customs will be left to judge of the sufficiency of bonds, as the law directs."

Washington, Feb. 20.—Complaints have come from New York on several occasions that merchants in several of the principal Western cities were importing goods direct from Europe and underselling New York. To-day Phillip Wadsworth, Collector of Internal Revenue for the First Illinois District, and Charles H. Ham, U. S. Appraiser at the port of Chicago, had an interview with Secretary Bristow in relation to undervaluation of imported merchandise and assessments for damages of foreign goods in the voyage of importation. The discussion was confined chiefly to the matter of the abuse believed to exist in the consignment of silks and wools from different manufacturers of France to their agents in New York.

Mr. Ham recommended the adoption of a new regulation, requiring all United States Appraisers of merchandise to keep and forward to the Treasury Department monthly samples of all lines of dry goods passed at the various ports of the country, with a view to secure uniformity of appraisements. PROTECTIVE TARIFF.—A CHANGE OF VIEW. WASHINGTON, Feb. 20.—Considerable attention was attracted to-day by the remarks of Mr. Storm, Democrat, of Pennsylvania, during the pending discussion on the tax bill. Heretofore he has always advocated a high, protective tariff; to-day he said he believed that the protection afforded the interests of Pennsylvania did not inure to the benefit of the poor man or advance the price of his labor, but rather filled the pockets of the large iron and coal dealers, who, he alleged, were in confederated to keep up the high price of fuel in the winter.

Now that the success of the Texas Gift Concert Association is assured, and a full drawing will undoubtedly take place on the day fixed, we recommend all who desire to try their luck to invest at once, as the assessment of the fortunate number, will be, by the investment of a solitary dollar, made happy by securing the \$50,000 prize.

How to get Stamina.—Iron frames and strong nervous systems are not the lot of all. But the feeble need not despair. By adopting the right means, they may live as long and enjoy life as much as their more robust neighbors. Physical invigoration is, however, necessary to this end; and while the spirituous tonics and nervines usually administered eventually depress both body and mind, Dr. J. Walker's CALIFORNIA VINEGAR BITTERS invariably supply new vigor to the system, while they regulate every disordered function.

MONDAY, MARCH 3, 1875.

THE Democratic party increased the debt of New York City \$75,000,000 in three years. That affords a fair specimen of Democratic rule.

BALTIMORE, last year, collected \$197,427 from the city passenger railways, in the shape of a tax for park purposes, and its people are obtaining a superb park without paying any direct tax.

The Republican majority in the House published at Santa Fe, New Mexico, which is well edited and quite interesting. New Mexico is about to be admitted as a State into the Union.

The Galveston and Houston members of the Legislature who voted against the "International compromise bill" are almost universally condemned by their constituents. But the railroad monopolists have more influence with them than their constituents have.

Gen. JAS. H. BRADSHAW of Waco is dead. He was an honest man, a high-toned gentleman, a brave soldier, an able commander, an excellent citizen. We have known him long and well, and though opposed in politics, we have always been warm friends. May he rest in peace, and his memory be honored by his surviving countrymen.

There is a statement, which lacks confirmation, and which is not very probable on its face, that Prince Bismarck is about to be relieved of his duties in part, so he succeeded by Prince Hohenzollern, the present Minister to Paris. The Prince is the statesman who appointed Count Armin in the Paris embassy, and, as one of his house is a cardinal, it is possible his appointment may be a concession to the more liberal spirit of German nationality.

The Herald is right in its division of the State into counties. That is the ground the Express has stood upon for months past. It makes no difference whether we get the International railroad, or whether we lose it; the West will never get justice, or do anything, or be anything, until it is a separate State, with a Legislature all in sympathy with her wants, capacities, and prospects. Division, therefore, should be the motto of every Western man, division unconditionally and without compromise.

We shall probably learn to-morrow what Coke will do about the International Compromise bill. We still believe that he will veto it, but many think that the change of votes necessary to pass the bill, after it had once been defeated, is an indication that the conclusion has come to by Coke and his satellites to let the bill pass. We shall believe nothing good about Coke until we have undoubted proof. He is not a man to inspire any good man with confidence. He is a fraud, and worse than a fraud; he is a bold, bad, vindictive, selfish, and false-hearted man. As a Governor of a State, he is a monstrosity.

THE INDIAN APPROPRIATION BILL.—The Senate, in an evening session, discussed at length the Indian Appropriation bill, Mr. Windom's amendment to increase the sum for the support and education of orphans in the Central agency from \$19,000 to \$35,000, and afterward to \$30,000, was rejected, while his amendment to authorize the purchase and shipment of goods in this fiscal year when necessary to insure their reaching their destination by the first of the ensuing fiscal year was approved, as were also various changes recommended by the Committee on Indian Affairs, among which was one appropriating \$500,000 for the subsistence of the Assiniboin, Ojibwa, Apachen, Kiowa, Comanche, and Washita in the Indian Territory. Mr. Stewart's amendment to abolish the Plains reservation in Nevada was agreed to while the proposition of Mr. Stevenson to pay the Chickasaw arrears of interest on Arkansas and Tennessee bonds was ruled out as a private claim.

THE TEXAS BORDER DEPREDA-TIONS.—Colonel Robb of the late Mexican Border Commission has appeared before the Committee on Foreign Affairs and made a full statement of the condition of the border. He read affidavits just received by him showing that since the commission left there a year ago the depredations by Mexican raiders on citizens of Texas have increased tenfold. Some of the affants residing at or near Brownsville say thefts of horses and cattle are committed in open day as well as at night, and not unfrequently are accompanied by murders. In a recent case the Mexican authorities were informed of what had happened, but they took no steps to aid in the recovery of the stolen cattle. A petition to the Governor of Texas represented that there was no protection to persons of property outside of Texan towns, and very little to property anywhere, and therefore they applied to him to authorize the raising of minute men for protection.

Irrigating the Rio Grande val-ley. The Rio Grande valley would become the paradise of the American continent if properly irrigated; and the facilities for its general irrigation are ample and comparatively inexpensive. The Brownsville Democrat, as quoted by the Austin Statesman, commending Senator Russell's bill, which contemplates the utilization of Texan rivers, otherwise valueless, in irrigating the plains, declares that the valley of the Rio Grande could be made in the garden of the world by the adoption of the measures proposed. Nature has made rivers in all directions, which only require to be kept full of water to make them valuable for both irrigation and navigation. We are told by engineers that an abundance of water from the Rio Grande can easily be turned into these rivers, which, applied to irrigation, in a short time, would make this valley then with untold wealth. The increased value of property and the consequent increased public and private revenues, would soon reimburse the State for any outlay. There is no question of greater moment to the State, saving the railroad interest, than that of irrigation. Our dry seasons demand measures of the kind, and, besides, when once in operation along the Rio Grande especially, it would make an agricultural barrier through which all the horse and cattle thieves of Christendom could not pass. Many States and Territories are entirely indebted to irrigation for their prosperous condition. In Mexico, nearly all the country lying between the Sierra Madre and the Rio Grande depends upon irrigation for agricultural profits. And there, with all of their primal modes of tilling the soil, the yield and return for the labor employed cannot be surpassed.

The famous Horace Greeley, in his great address before the assembled thousands at the Houston State Fair in 1872, devoted a large part of his thought and time to the future of Texas when developed to her utmost capacity under the influence of a general system of irrigation. He had the sagacity to see that with our vast territory, rich soil, and genial climate, our present great capacity of production would be doubled under such a system. This philosophy applies with double force to Western Texas. But we can never get such a system adopted until the West is a separate State, and the Legislature of her own, every member of which is a Western man, acquainted with the condition of the West, and devoted to her development and welfare.

Col. D. M. STAFF.—We regret sincerely to hear of the death of this old Texan, which took place in Victoria on Monday morning, 22d inst. We knew him intimately for the past 30 years, and a truer and better man never lived. Thus are the old veterans of Texas departing, one by one, and a few years hence none will remain to remind the present generation that there ever were such men as the Veterans of Texas.—Indian Bulletin.

afternoon. During the day several personal alterations took place, and at times numbers looked as if they must necessarily drift into disturbances and chaos. Late in the evening, however, every one seemed worn out, angry passions subsided, and the speaker went to sleep in his chair, and had to be violently awakened to "put a question." The anti-International members gained a temporary victory at 7 P. M., when the House adjourned, after a nine hour session.

Mr. Lumber, down from Llano, where he resides, reports that five men were taken out of the Mason quarry last night and hung by unknown parties. The men were from Parker county, and were suspected of being cattle thieves and desperadoes.

A man named Sercy ran away from Dallas with a muleto girl to get married, but was arrested at Galveston by telegraphic order for having stolen a pair of pistols. J. O. Driscoll's residence at St. Mary's was burned a few days since. Loss \$10,000. Houston is deep in the mud, the papers complain loudly, and everything and everybody got bogged down daily.

Houston Telegraph: Jack Burke, who gained some notoriety for his alleged attempt to burn the Montgomery county jail, was on one of the ring leaders in the second jail delivery we mentioned yesterday. He was put under treatment. He didn't like it, and proposed to tell all he knows about the affair. He has shown the Sheriff the hiding place of some of the tools.

Harry Chesley, formerly a saloon keeper in Harrisburg, but lately of this city, and a boarder at Capt. Borst's, disappeared about two weeks and a half ago and nothing has been heard of him since. When he left he was known to have five hundred dollars in his possession.

It turns out that the shooting affair we referred to yesterday was caused from "foolin' with pistols." It was Charles Eika that was shot. He and a son of Taylor Burke were "foolin' with pistols" last Sunday night, when Burke's pistol went off and Eika was wounded in the neck so badly that his life is now despaired of.

Denison Times: Yesterday three or four little boys were playing together and got to quarreling, when one little fellow picked up an ax and struck one of his companions over the head with it, cutting quite a gash. Had not a lady, who saw them, interfered, he would have struck again. The children were about four or five years old.

Me. Tenney, engineer of a freight-train going north, was struck with a club, which was thrown by some one on the ground outside. The club was thrown through the cab window. This took place near Canyon Switch, Choctaw Nation, and a short distance from these obstructions were found on the track.

Denison, according to a census just taken, has a population of 4611. San Marcos Free Press: Hedgepeth, a Blanco county desperado, who is under arrest for murder, and two other prisoners from that county, are in jail at this place.

# Glorious News! International Bill Passed Both Houses.

[Special to the San Antonio Express.]  
AUSTIN, March 1, 1875.  
International Compromise Bill passed the House finally by two majority.  
In the Senate two majority for concurring in the House amendment.

## Second Dispatch.

The Senate has passed the International bill by fourteen to twelve.

## LOCAL AFFAIRS.

THE DAY has been quite warm, ever warm enough for April, although a brisk breeze has been continually blowing.

COL. GEO. W. BAYLOR, a brother of Gen. J. K. Baylor, has made his home on the Leon, about eight miles from this city, and is engaged in sheep raising. We wish him all success.

FOUR.—MR. HENRY GYGER lost a red pocket butcher's account book last Saturday morning somewhere about the Alamo Plaza. A suitable reward will be paid for its delivery at the Menger Hotel, or at the Alamo Market stall No. 5.  
J. C. H. JOHN LOESSBERG.

MRS. C. C. GILLESPIE, on Soledad street, at Mrs. Judge Paschal's place, furnishes at her own table, as good meals as can be found in the city at \$3.50 a week. diff

THE CARE of Mrs. Reed, or Redway, who ran away from her step-father, is postponed until Saturday next. Reed has left the city. Miss Reed is still at the house of Mr. Meyer, her temporary guardian.

A LOT of choice HATS, of the very latest styles, just received at PANCOAST & SON, Nov. 4th, 1874.

L. KNAPP has all the magazines for March—Harper's, Scribner's, the Galaxy, the Liberator, St. Nicholas, the Atlantic, Lippincott's, Littell's Living Age, (weekly) and all the rest. Call soon, as they are nearly all sold.

SCHMITZ'S HOTEL, the good order and good living in which we notice recently, is now highly prosperous. We are glad to see it doing well, for it deserves it. Mrs. Schmitz has the experience and taste to conduct it, and she has an able corps of supporters.

PANCOAST & SON keep up with all the latest styles for their CUSTOMERS. They keep first class goods and do first class work. Give them a call.

THE MAN who got a bone in his throat a few days since while eating at one of our public places, says that the gas light is so poor that he cannot see what he is eating. Many others complain that they cannot tell where they are going.

THE PARTY of HUNTERS which left here on Saturday last, returned last night. Their success was wonderful, and those who wish cheap game would do well to call on them. But their success is not to be wondered at when any number of dozens they took with them any number of dozens of bottles of beer, wine, brandy, whisky, vermouth, and the like. With such preparations success was certain—"in a horn."

STOR that could by using CLAVIN'S WILD CHERRY AND SQUILL. For sale by J. CLAVIN and A. DREISS.

GLORIOUS NEWS.—We are happy to be able to publish the telegrams which appear in another place in the Express which announces the passage of the International Compromise bill in both the House and Senate. If Coke does not veto the bill, the West will be filled with rejoicing; if he does veto it, the West will curse him and his memory for generations to come.

THE VETERANS have their celebration to-morrow. The Express has done its utmost to induce the people of San Antonio to join with them and give them due honor. Yet, on Saturday evening we saw their programme for the first time in the Herald. It was not sent to us. We cannot copy such things the day after they are published in another paper. This is grossly ignorant or malicious conduct is not the fault of the Veterans, but of some one who gets to manage for them.

FLANSELL and Merino, Under Wear of a good class furnishing goods at PANCOAST & SON.

BISHOP DEBUS, at the Catholic church, who was once a resident of San Antonio, where he did much for the cause of his church, is thus spoken of by the Dallas Herald:

"The bishop is not only a learned and distinguished prelate, but a most amiable and pleasant gentleman, alike popular as bishop and man. He was for many years stationed in San Antonio, where he is unanimously beloved and respected by the entire community."

## GRAND OPENING ON TUESDAY 10th of March, 1875.

MICHAEL & Co. will open on the 10th of March next, a first-class Billiard Saloon and Bar-Room, in Lavoy's Bazaar, opposite the National Bank. It will be a pleasant place of resort for gentlemen who wish to pass a leisure hour.

The very finest and best Wines, Brandies, Whiskies, and other liquors, with delightful cigars, tobaccos, lunches, and all other comforts, will be kept constantly on hand. 27-28-29

THE THICK UNDERCLOTHING worn during the winter should not be taken off in consequence of the present warm weather, it is exceedingly dangerous in this climate to make this change until settled warm weather.

A MEXICAN JACAL was burned last night before last, about 12 o'clock, just in the rear of the Orphan Asylum. Much excitement was created, the fire companies and the people turned out, the water was insufficient, but as the fire was a small one, it was soon extinguished. We have not learned the amount of loss.

SAN ANTONIO must now rely on her own exertions for the completion of the railroad connections necessary to make her the great commercial city of Western Texas. She must lead off in the division movement. When we have a state of our own, then justice can be done to the railroad companies concerned, so far as the West is involved, and the combined efforts of state and city will soon give us railroad connections with Indianola, Galveston, Houston, Austin, and all the United States.

FOR COUGHS AND COLDS use CLAVIN'S WILD CHERRY AND SQUILL. For sale by J. Clavin and A. Dreiss.

A SAN ANTONIO MAN IN TROUBLE.—The Houston Telegraph of Thursday last says: "A Mr. JOHN BRADY, of San Antonio, was arrested yesterday on a bench warrant from the above city, charged with abducting Mary and Henry, two children of his sister-in-law, Margaret Brady, of Bexar county. The case was duly tried. The children were delivered to Sheriff Able to be returned to their mother, and Mr. Brady was released. We understand that Mr. B. says that Margaret Brady has not lived with her husband for a year, and that he was taking the children to school at the request of their father, who is his brother."

Use Clavin's Wild Cherry and Squill for all diseases of the throat and lungs. For sale by J. CLAVIN and A. DREISS.

THE STREETS, such as Soledad and some others, are being greatly improved, at least that part of them where horses, mules, lack-asses and wagons pass; but the sidewalks, where gentlemen, ladies and children have to walk, are still in a deplorable condition. They are so rough that it is absolutely a risk to one's limbs to travel them of a dark night. Many of the sidewalks have pits holes into which if a man stumbles, he may break his leg.  
Why is it that the city council do not imperatively require all property owners to make good sidewalks in front of their property? We understand that this is the law; why is it not carried out? It is done in other cities.

WHY, IN IT? That cheap, adulterated baking powder and flavoring extracts, are warranties equal to Dr. Fitch's, when it is known that Dr. Fitch's Cream Baking Powder and True Flavoring Extracts are the purest and healthiest made? It is because the adulterated kinds are bought less and give a better profit. Good goods have a valuation and afford a less profit to the seller as well as the manufacturer. Unprincipled dealers, like unprincipled manufacturers, will palm off adulterated articles upon community to engender disease, because it puts a few more dollars into the pocket. This is the reason, and consumers should know it, and demand those articles, which are used in food, that are made by manufacturers who defy competition in price, and make the quality of their goods the primary consideration.

The Jewels from the Khedive. Who was instrumental in bringing the Gift Made—Diplomatic Compliments in the Way of a Formal Presentation.

Mrs. Minnie Sherman Fitch's diamonds are still in the custody of the Custom-house, but they are not likely to remain there much longer, as the President yesterday signed the act of Congress that permits Lieut. Fitch to receive them. The only question now is as to the duties—whether special legislation is needed for their remission. The revenue authorities think not. They believe that the act already passed implies that the jewels shall be delivered free. Where officers in the army, navy, or civil service have received presents from foreign rulers, the custom has been to waive the payment of the duty.

The jewels will be turned over to Lieut. Fitch without any ceremony, as the Khedive of Egypt has no recognized representative here who can make the presentation in his name. Mr. Ed. Sherwin, acting Consul of Turkey, in New York, says that the Turkish Minister at Washington is restrained by diplomatic usage from making the presentation, however much he may desire to make it out of compliment to Gen. Sherman. The Foreign Minister of the Sultan has set out instructions about the diamonds, and consequently the gift is not regarded by the Minister as an international one requiring his action. In the eyes of Turkey's representative he is a subject of the Sultan, and has no official control over them.

The present from the Egyptian ruler was brought about by Gen. Charles P. Stone, formerly of the United States Army and now on the Khedive's staff. Mr. Stone and D. Merchant, Commercial agent of Egypt in this city, says that Gen. Stone and Gen. Sherman are old friends. They first knew each other in San Francisco, twenty years ago. Gen. Stone was stationed there from 1851 to 1856 as Chief of Ordnance of the Pacific Department. He resigned to become a banker, and it was then he made the acquaintance of General Sherman, who was a partner in the banking house of Lucas, Strong & Co. Each helped the other in business. When the rebellion broke out Gen. Stone was made Inspector-General of Volunteers in the District of Columbia, and while there he again met Gen. Sherman, who served as a Colonel at the defense of the capital for two months. After the war Gen. Stone went to Egypt and joined the Khedive's army. The Khedive made him a Fakir Pasha, a rank next to that of a prince of the royal family. It corresponds with the title of General in this country. It was through Gen. Stone that Gen. Sherman, while traveling in the East in 1869, got to know the Khedive.

FOSTER'S SECOND DRAWING takes place on the 31st of next month. Capital Prize, \$10,000 Gold. See advertisement.

Assting Nurses. It is of no use attempting to force nature. She won't stand it, and rebels. She must be coaxed, as if were, not driven. For instance, in attempting to overcome constipation or indigestion, violent, or what physicians call, by way of euphony, "heroic" treatment, is sure to defeat the purpose in view, which is, or should be, to permanently remedy the evil. The use of drastic cathartics is especially to be deprecated, for although they temporarily overcome constipation, yet the intestines are so weakened and inflamed by them as to be rendered unfit to perform the elective function properly. How much better to assist nature in such a case with such a mild and salutary agent as Hostetter's Stomach Bitters, which strengthen at the same time that they relieve the bowels. Not only is this result achieved by their use, but the activity of the torpid liver is restored, the stomach invigorated, and the entire system greatly benefited.

FOSTER'S SECOND TEXAS GRAND PRIZE CONCERT, At Houston Texas, March 3, 1875. \$200,000.00. In Gold, Cash, Choice Lands, Farms and City Real Estate. There will be \$25,000 in Gold. The Real Estate is put at its actual value. Capital Prize, 10,000 Gold-Commentatory.—"Having from our long acquaintance with J. E. Foster, every confidence in his integrity, we feel justified in saying we believe he will carry out his Distribution honestly and fairly." Signed by the Mayor, Hon. J. T. D. Wilson, and the City Council.

That old and reliable paper, the Houston Telegraph, which rapidly responds to notices individual enterprises, says of the First Drawing: "Not even the most captious and suspicious person could take exception to the manner of the drawing. It was fair, honorable and equitable. The committee and recorder were of our very best citizens, and kindly gave their time and labor to the superintendence of the drawing, or rather did the actual labor of it." "Capt. Foster has acted honorably and fairly throughout the whole management of this enterprise. While some money has been made by the venture in all probability, yet the property given as prizes has only netted a fair price, and the profit is only an exchange of the property for cash." That staunch democratic paper, the Houston Age, has the following: "THE COMMITTEE of gentlemen was one of the best that could have been selected by the audience. Hon. D. U. Barlow, who supervised the drawing, is our present Representative, and one of the most popular men in the district."

THE DRAWING was prefaced by an explanation from Capt. Foster, of the mode adopted. This was well received and understood, precisely as explained by the circulars. Capt. Foster said that what he wished was to do for people good luck, he was free to say that with the people of poor Mississippi, Louisiana and South Carolina he felt a greater sympathy, and he did hope they would draw the largest number of prizes, that they might come to a free country, and make a white man's living. This sentiment was received with loud cheers. "The drawing was then proceeded with, and the result is announced elsewhere."

No connection with the Deutscher, Flagging of Lockhart, or any other similar enterprise. Tickets \$3.00 each, and a liberal discount on orders for a greater number. RELIABLE AGENTS WANTED. **CONSUMPTIVE, TAKE NOTICE.**—Every moment of delay makes your cure hopeless, and much depends on the judicious choice of a remedy. The standard of treatment in favor of Dr. Schenck's Pulmonic Syrup as a cure for consumption, is supported by the testimony of any one who has used it. See Dr. Schenck's Almanac, containing the testimonials of many persons of the highest respectability, who have been restored to health, after being pronounced incurable by physicians of acknowledged ability. Schenck's Pulmonic Syrup is a medicine of many, as these testimonials will show; but the cure is often effected by the employment of two other remedies which Dr. Schenck provides for the purpose. These additional remedies are Schenck's Sea Weed Tonic and Madras Pills. By the timely use of these medicines, according to directions, Dr. Schenck certifies that most any case of consumption may be cured. Dr. Schenck is professional at his principal office, Corner Sixth and Arch Sts., Philadelphia, every Monday, where all letters for advice must be addressed.

**A Word of Advice to Travelers.** The Missouri, Kansas & Texas Railway has become so well known to the people of Texas, as one of the finest and most comfortable roads on the continent to travel on, that it seems almost unnecessary to say we should say anything in praise. Yet we cannot ever get back from a trip over this line without saying something in praise of the management, which always seems to be striving to make their patrons comfortable, while traveling over their road.
