#### THE POPPER PROPERTY PRAYER.

"Now I lay me"—say is Darling,
"Lay me," lisped the tiny lips
Of my daughter, knowing, bending,
O'es her folded fuger-tips,

"Down to sleep" - "To sleep," she mu And the curly head dropped low,
"I pray the Lord,"—I gently added—
"You can any it will I believe."

"Pray the Lord" the words came faint Fainter still, "My soul tα keep"— Then the tired head fairty modded, And this child was fast asleep.

But the dawy eyes half opened,
When I siasped her to my breast;
And then the dear voice softly white Mama, God knows all the rest."

It is taken for granted by the organs of the Coke administration as well as by the friends of the International Railroad company, that the company will accept the new terms offered to them by the bill that passed the Legislature, and is the Executive can make it such.

manufacturing my Sewing Machines, and have succeeded in organizing a most complete system, combining perfection of work manship with the largest productions at the smallest cost, LIFE, as a practical mechanic, have been freely contributed, and I believe, with success. Further to facilitate the manufacture and sale of my Machines, The Howe Machine Co. has been organized, and the business will be carried on in the name of that Company, under my supervision. The saviable reputation of my Machines has induced persons to use my name in connection with Machines of an inferior description—and I have, therefore, to protect myself and the public, adopted, as an especial Thank MARK, A MEDALLON, having in the centre the profile of the Inventor surrounded by the legend, "ELIAS HOWE, Jr., INVENTOR AND MAKER, NEW YORK, U. S. A." This medallion is embedded in each Machine, andnone are the production of the Hows Machine Company unless they bear this distinguishing Trade Mark,

The assent of tempor is to was an i country for the oldest Tea Company in America. Greatest inducements, as cure for consumptive, far exceeds all that can be brought to support the pretencions of any other medicine. See Dr. Schenck's Almanac, containing the certificates of many persons of the highest recepetability, who have been restored to health, after being pronounced incurable by physicians of asknowledged ability. Schenck's Pulmonic Syrup alone has cured many, as these evidences will show; but the cure is often promoted by the employ ment of two other remedies which Dr. Schenck provides for the purpose. These additional remedies are Schench's Sea Weed Tonic and Mandrake Pills. By the timely use of these medicines, according to directions, Dr. Schenck certifies that most any case of consumption may be cared.

Every year increases the popularity of this valuable Hair Preparation; which is due to merit alone. We can assure our old patrons that it is kept fully up to its high standard; and it is the only reliable and perfected preparation for restoring GRAY OR FADED HAIR to its youthful color, making it soft, lustrous, and silken. The scalp, by its use, becomes white and clean. It removes all oruptions and dandruff, and, by its tonic properties, prevents the hair from falling out, as it stimulates and nourishes the hair-glands. By its use, the hair grows thicker and stronger. In baldness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most economical HAIR DRESSING ever used, as it requires fewer applications, and gives the hair a splendid, glossy appearance. A. A. Hayes, M.D., State Assayer of Massachusetts, says, "The constituents are pure, and carefully selected for excellent quality; and I consider it the BEST PREPA RATION for its intended purposes."

It is noted this price will place it within the feach of all—the poor as well as the rich. A great superiority of this remedy over any other ever discovered for the speedy and certain cure of intermittents is, that it contains no Quinnin or nineral; consequently it produces no quinism or other injurious effects whatever upon the constitution. Those cured by its are left as healthy as if they had never had the disease.
