VEGETABLE SICILIAN HAIR RENEWER

Every year increases the popularity of this valuable Hair Preparation; which is due to merit alone. can assure our old patrons that it is kept fully up to its high standard; and it is the only reliable and perfected preparation for restoring GRAY OR FADED HAIR to its youthful color, making it soft, lustrous, and silken. The scalp, by its use, becomes white, and clean. It removes all cruptions and dandruff, and, by its tonic properties; prevents the hair from falling out, as it stimulates and nourishes the hair-glands. By its use, the hair-grows thicker and stronger. In baldness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most eco-nomical HALE DRESSING ever used, as it requires fewer applications, and gives the hair a splendid, glossy appearance. A. A. Hayes, M.D., State Assayer of Massachusetts, says, "The constituents are pure, and carefully selected for excellent quality; and I consider it the BEST PERPA-BATION for its intended purposes."

THE ROSS ABDUCTION. Philadelphia, Sept. 9.—The trial of Westervelt was continued today. Henry A. Hartman, a New York barkeeper, testified that he knew the prisoner, who introduced Masher and Douglas to bim. Westervelt read to the witness trom papers the story of the abduction of Charlie Ross, and said he would bet two shillings he could tell some of the parties that were into it. After the killing at Bay Ridge the witness accompanied Westervelt to Brooklyn, at the request of the latter. During the trip the two con-versed about Charlie, Ross, and Westervelt said that those were the parties, and if they were arrested the child would not live three days. The witness asked Westervelt where the child was whether hidden in a but, cave, or where I

never tell you," responded Wester-welt. Later, Westervelt said that Mosher had the child up the river somewhere—where, he did'nt know. Memphis, Sept. 9 .- The Republicans of the Third Mississippi Dis-

FATE OF GUIBORD'S BONES. Montreal, September 9. — Gui-bord's remains were guarded at the Protestant Cometery last night, but nothing unusual occurred. Bourget, of this diocese, has writ teu a letter to the daily papers, in which he says that, had Guibord's body been buried in the cemetery in defiance of the laws of the Church, the place where it lay should be immediately interdicted, and looked upon henceforth as a cursed spot, to be held in execuation. If tresh efforts be made to introduce the body into the consecrated precincts he requests all Catholics to remain quiet, like true children of the Church and loyal subjects of Her Majesty the Queen. He invites every one to sign a petition to the Queen, begging Her Majesty to enjoin that rights possesed by the Catholics of this city are not to be

molested in the exercise of their holy faith, but are to be respected by those whom Providence has called to a share of reyal authority.

Kantas City, Mo., Sept. 9,-There are most flattering prospects for a monster attendance at the Kansas City Exposition, which begins here next Monday. All space in the is nearly engaged. A new roof has been put on the main and art halls, and they have been repainted and fitted up better than ever before. The display of agricultural implements and products will be larger than ever, the liberal premiums for the latter inducing a great number of entries.

Hon. Jeff. Davis arrives here on Monday morning, and will remain all week and deliver an address on Tuesday. STOLEN WATCH FOUND.

Yesterday a man stepped into the jewelry store of F. Siemers, near the postoffice, to get a key to a watch. While Mr. Siemers was fitting the key he noticed that the watch and number of it corresponded to that of a watch which had been stolen several weeks before from a Mr. Singer, a memorandum of which he had in his possession. So soon as the man left the store Mr. Siemers went out and got a policeman and the party was arrested. He claim-ed that he had bought the watch from a Mexican, and after sonie loose sgain, on the ground that the evidence was not sufficient to hold him.—Statemens has say aid.

LANDING ARMS AT ASPINWALL. Washington, Sept. 10. - Dis. atches have been received at the Navy Department from Capt. E. Simpson, commanding the United States steamer Omaha, at Pansum, detailing at length the condition of affairs there as already published in the press reports. He tays he did not request the American Con-sul at Aspinwall to prohibit the landing of the 500 rifles purchased for Bolivia; but, on the contrary, sent the Control the following dispatch: "Consider whether it will be a proper act for you to see that those arms are not allowed to be diverted from their original direction, or if that can not be prevent ed, then consider if you have not the power to prevent them from being landed, subject to instructions from Washington." Subsequently from Washington." Subsequently a conference was held between Capt. Simpson and our Cossul at Aspinwall, and it was decided that the Cousul had no right to interfere with the landing of the arms, and this ended the question.

DR. C. M'LANE'S Celebrated American WORM SPECIFIC,

VERMIFUGE. SYMPTOMS OF WORMS.

THE countenance is pale and leaden-colored, with occasional flushes, or a circumscribed spot on one or both cheeks; the eyes become dull; the pupils dilate; an azurc semicircle runs along the lower eyelid; the nose is irritated, swells, and sometimes bleeds; a swelling of the upper lip; occasional headache, with humming or throbbing of the ears;

an unusual secretion of salive; slimy or farrest torque; breath very foot, particularly in the morning; appetite variable, sometimes voracious, with a gnawing sensation of the stomach, at others, entirely gone; fleeting pains in the stomach; occasional nausea and vomiting; violent pains throughout the abdomen; bowels irregular, at times costive; stools slimy, not unfrequently tinged with blood; belly swollen and hard; urine turbid; re spiration occasionally difficult, and accompanied by hiccough; cough sometimes dry and convulsive; aning of the teeth p temper variable,

but generally irritable, etc. Whenever the above symptoms are found to exist.

Dr. C. M'LANE'S VERMIFUGE Will certainly effect a cure. The universal success which has attended the administration of this preparation has been such as to warrant us in pledging ourselves to the public to

RETURN THE MONEY in every instance where it should prove ineffectual: "providing the symptoms attending the sickness of the child or adult should warrant the supposition of worms being the cause." In all cases the Medicine to be given in STRICT ACCORDANCE

HALES VEGETABLE SICILIAN HAIR

> Every year increases the popularity of this valuable Hair Preparation; which is due to merit alone. We can assure our old patrons that it is kept fully up to its high standard; and it is the only reliable and perfected preparation for restoring Gray or Faded Hair to its youthful color, making it soft, lustrous, and silken. The scalp, by its use, becomes white, and clean. It removes all eruptions and dandruff, and, by its tonic properties; prevents the hair from falling out, as it stimulates and nourishes the hair-glands. By its use, the hair grows thicker and stronger. In baldness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most eco-nomical Hair Dressing ever used, as it requires fewer applications, and gives the hair a splendid, glossy appearance. A. A. Hayes, M.D., State Assayer of Massachusetts, says,

THE ROSS ABDUCTION. Philadelphia, Sept. 9.—The trial of Westervelt was continued today. Henry A. Hartman, a New York barkeeper, testified that he knew the prisoner, who introduced Masher and Douglas to him. Westervelt read to the witness arom papers the story of the abduction of Charlie Ross, and said he would bet two shillings he could tell some of the parties that were into it.
After the killing at Bay Ridge the
witness accompanied Westervelt to Brooklyn, at the request of the latter. During the trip the two conversed about Charlie, Ross, and Westervelt said that those were the parties, and if they were arrested the child would not live three days. The witness asked Westervelt where the child was whether hidden in a hut, cave, or where? "I'll never tell you," responded Wester-elt. Later, Westervelt said that Mosher had the child up the river somewhere—where, he did'nt know.

Memphis, Sept. 9 .-- The Republicans of the Third Mississippi District yesterday nominated Finnis

H. Little for Congress. FATE OF GUIBORD'S BONES.

Montreal, September 9. - Gnipord's remains were guarded at the Protestant Cometery last night, but nothing unusual occurred. Bishop Bourget, of this diocese, has writ teu a letter to the daily papers, in which he says that, had Guibord's body been buried in the cemetery in defiance of the laws of the Church, the place where it lay should be immediately intordicted, and looked upon henceforth as a cursed spot, to be held in execration. If iresh efforts be made to introduce the body into the consecrated precincts he requests all Catholics to remain quiet, like true children of the Church and loyal subjects of Her Majesty the Queen. He invites every one to sign a petition to the Queon, begging Her Majesty to en-join that rights possessed by the Cathelics of this city are not to be denied, and that they are not to be molested in the exercise of their holy faith, but are to be respected by those whom Providence has called to a share of royal authority.

THE JETTIES.

New York, Sept. 9 .- The Board of Engineers, charged with the examination of Captain Eads' plan for the improvement of the mouth or the Mississippi, at a supplementery meeting, recommended the immediate construction of one jetty, starting on a tangent to the east bank of the entrance to the pass, and curving thence to the westward on a radius of 8,000 feet till it reach es within twenty-four feet of the Contour line. The further prolong. ation of this work and the execution of the works on the west side to be left for determination after the observation of the effects pro-duced by the construction are recommended. The board then ad-journed, to meet at New Orleans November 10th.

STOLEN WATCH FOUND. Yesterday a man stepped into the ewelry store of F. Siemers, near the postoffice, to get a key to a watch. While Mr. Siemers was fitting the key he noticed that the watch and number of it correspended to that of a watch which had been stolen several weeks before from a Mr. Singer, a memorandum of which he had in his possession. So soon as the man left the store Mr. Siemers went out and got a policeman and the party was arrested. He claim-ed that he had bought the watch from a Mexican, and after some little examination he was turned loose again, on the ground that the evidence was not sufficient to hold him. - Statemen.

She is now in our city, and as she is intimate with the college and its profensors, she can give all necessary information to those who take an interest in the institution.

STOCKMEN .- We notice the presence in our city of a great number of gentlemen engaged in the stock-raising business. They come from all the counties West, South, and East of San Antonio-Uvalde, Bandera, Bee, Atascosa, San Patricio, Live Oak, Goliad, Karnes, Gonzales, and other counties. Some of the stockmen from the lower counties, we learn, are looking after and "cutting out" their cattle from the herds of drovers. There are also some law suits and prosecutions growing out of the stock business.

We trust everything will be settled amicably, and for the promotion of this bid for the class of work. great interest of Western Texas. Fair lealing is as important in this vocation as in any other. A Popular Error Corrected A Popular Error Corrected.

It is an absured but very common error to suppose that a disordered condition of the liver can be remedied by a simple cathartic. Such is, however, far from being the case. Cathartics do not touch the liver at all. It is only when (as in the case of Hostatter's Stomach Bitters) the faxative principle is combined with tonic and atmulative elements, that the great secretive gland is directly acted upon. The Bitters, although sufficiently laxative to relieve the bowels moderately, do not owe their auti-bilious effects to purgation liver from its inaction and impelling it to secrete and distribute the bile in sufficient quantities for the purpose of digestion and evacuation. Its effect upon the quantities for the purpose of digostion and evacuation. Its effect upon the stomach and bowels is such as to ensure the regular discharge of the functions named and prevent abstraction or vitia-tion of the biliary fluid—in other words, to secure entire co-operation with the

In the active pursuit of pleasure or gain, the inestimable blessing of health is too often forgotten until disease is firmly seated and the fact only realized by great bodily and mental suffering. The Liver is the vulnerable point in most persons, and the disarrangement of the brigan involves almost the whole system; hence the reason why under Liver disease there is enumerated such a number of affictions, and we claim the Simmone' Liver Regulator to be a remedy for them all.

The Philosophy of Disease The philosophy of disease is a subject which is well worth the attention of man-kind, but is, nefortunately, more generally neglected than any other under heaven. Decidedly the most important fact that an examination of it discloses is that, in nine cases out of ten, the originating causes of disease is debility, either general or local, and that the carliest manifestations being the case, it is perfectly clear that tonic treatment is what is required in the first instance. As an invigorant, Hos-tetter's Stomach Bitters has received the positive endorsement from eminent physicians, and has long cooppied a foremost rank among standard proprietary remodies. Its properties as an alterative of dies. Its properties as an alterative of disordered conditions of the stomach, livarial diseases, are no less renowned, and have been accorded professional recommendation equally emphatic.

DR. C. MILANES CELEBRATED LIVER PILLS

FOR THE CURE OF LIVER COMPLAINT DYSPEPSIA AND SICK READACHE.

Symptoms of a Diseased Liver. PAIN in the right side, under the edge of the ribs, increase on pressures sometimes the pain is in the

left side; the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulderblade, and it frequently extends to times mistaken for a rheamatism in the arm. The stomach is affected with loss of appetite and slekpess; the bowels in general are contive; sometimes alternative with his; the head is troubled with pain, accom-pance with a dull, heavy sensation in the sack part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A slight, dry cough is sometimes an attendant. The patient complains of weariness and debility; he is easily startled, his feet are cold or burning, and he complains of a prickly sensi-tion of the skin; his spirits are low; and although he is satisfied that exer-cise would be beneficial to him, yet he can scarcely aummon up fortitude enough to try it. In 1805, he distrusts every remedy. Several of the above symptoms attend the disease, but chees have occurred where few of them wanted, yet examination of the body, after death, has shown the ranged.

AGUE AND FEVER. DR. C. M'LANE'S LIVER PILLS, IN CASES OF AGUE AND FEVER, when taken with Quinine, are productive of the most happy results. No better cathartic can be used, preparatory to or after taking Quinine. We would advise all who are afflicted with this disease to give them a FAIR TRIAL.

To Butchers, Stockraisers, and Farmers: It has been the general complaint in past years by tauners who regularly work Texas Hides, that a large part curse das-ing the bot season, work badly turning out a large proportion of badly damaged sides and only a small proportion of good leather. They muses that he bries, being exposed to the san, get

SUNBURNED and that such hides, by bending them short, will break. From this fact, Texas Summer Hides cannot be sold to any adantage; tanners buying them besitating-youly and generally low prices. To make be Summer Hides more desirable should

therefore be the endeavour of all connected with this branch of business.

The easiest way to secomplish this obsject is, "to stretch the hide is the shade immediately after its akinning without laying it exposed to the sun for at least twenty four or thirty-six hours, and where this cannot conveniently be dope, to spread a few handsful of salt and ashes over the freshly skinned hide, soling it up with hair outside and leaving same is this condition for about twenty-four hours." The great danger exists when the hide is green; the flesh thereou, which is moist, coming in contact with the het sun, will accessarily cook and sould it.

Sun instance, April, 18.5.

R. Lassenes. erefore be the endeavour of all connect-

Truly the most important adulterations to avoid are those which are calculated to injure the "staff of life," our family bread. We know that merchants who supply their austainers with pure artisles like Dr. Price's Grunn Halting Powder and his True Flavoring Extracts, retain betlike Dr. Price's Grean Halling Foreder and his True Pisvoring Extracts, retain better patrons, have a larger trade, and make more money, than those who buy and recommend articles that are poor and cheap. Besides its a pleasure to have articles that mever sail to give satisfaction and that can be used with antery. Aside from its excellence, Dr. Price's Cream Hashing Fowder is one third alrenges, two cans equal to three of other kinds.
