## Commissioner Post Runoff Set June 5

In a low voter turnout, 1270 out of 3671 registered Bailey County voters cast their ballots for their chosen candidates in last Saturday, May 1 election primaries.

County absentee voting ran over the norm this year with 109 individuals voting in this manner. Five of these absentee votes cast were Republican, 107 Democratic.

A total of 67 Republican votes were cast with the 1203 balance distributed within the Democratic party. Of the 33 counties included in the South Plains, seven had no Republican primaries.

June 5 runoffs will decide the Democratic candidate for Bailey County Commissioner of Precinct 2 between Don Seales and Roy Whitt. In Saturday's primaries, Seales had total votes of 122 to Whitt's 115 - a mere seven vote margin. The Democratic race for Commissioner of Precinct 2 shut out three other candidates in one of the South Plains most widely contested races. Glen Dalton Harris with 47 votes, Charles L. Glover with 20 and William Carl Patterson with 14 were retired from the race. There were no Republicans filing for this position.

In the county's second hottest race, that of Commissioner of Precinct 4, incumbent and 12 year veteran, Rudolph Moraw, won out over three other Democrats in that race. Moraw received 178 votes, while Dale Middlebrooks, Pete Hurtado and frankie Dee Fine received 102, 41 and 29 votes respectively. This position also was not challenged by a Republican.

An upset came in the County when incumbent Justice of the Peace of Precinct one, Tana Holmes was defeated in the Democratic nominations

## *Sudan Junior, Senior Banquet Held Saturday*

The Sudan junior class sponsored the annual senior class banquet prom on Saturday night in the school cafetorium.

Theme for the banquet was "Fantasy Island" and as guests arrived, they were escorted through an airplane of "Fantasy Airlines." When leaving the plane, they walked into a polynesian scene. As they crossed a bridge, each one was served a tropical punch in a cocktail glass with the theme printed on the side.

A lighted rainbow accented the stage with white clouds hanging from the ceiling. A mural of a white house and the Fantasy Island Airplane covered one wall.

In the center, a chandelier and mirror ball hung from the ceiling. Other accents included a gazebo, fountain and many tropical plants. Blue and white balloons filled with helium covered the ceiling.

Servers were Kim Powell, Vera Wimberly, Danene Cox, Tatia Newsom, David Harper, Randell Damron, Joe Martin and Steven Sheridan.

Scott Ballew gave the welcome, with Dale Harper giving the response. Sheribob Taylor gave the invocation.

The class prophecy was read by Jon Ann Williams and Jerry Fisher. Gary Fields and Laura Powell read the will. The benediction was given by Perry Kent.

The disc jockey for the prom was Chuck Luck of KLLL radio in Lubbock.

## FASTER WAYS WITH MICROWAVES

Southern cooking, like Southern hospitality, has become a legend. Every region of the South enjoys a well-deserved tradition of great culinary heritage and good cooks were known for their knack of flavoring foods with salt pork, bacon and ham. A particular favorite is Black-Eyed Peas and Ham. Here's a recipe from a Whirlpool microwave oven cookbook that is easy to fix and captures that true southern flavor. To top off this delicious entree, serve a light Lemon Cake, another favorite from the South.

**LEMON CAKE**

**Total cooking time: 15 minutes**

- 1½ cups granulated sugar
- ½ cup butter or margarine
- 1½ teaspoons grated lemon peel
- 3 eggs
- 2½ cups all-purpose flour
- ½ teaspoon baking soda
- ½ cup milk
- ¼ cup lemon juice
- 2 cups sifted powdered sugar
- ½ teaspoon vanilla
- Milk

In mixer bowl, cream together granulated sugar, butter, and 1 teaspoon of the peel till fluffy. Add eggs, one at a time, beating well after each addition. Stir together flour and soda; add to creamed mixture alternately with ½ cup milk, beating after each addition. Beat in the lemon juice. Turn into 13×9×2-inch baking dish. Cook, uncovered, at **MEDIUM** for 9 minutes, giving dish a half turn twice. Cook at **HIGH** for 6 minutes or till done. Cool.

Stir together powdered sugar, remaining peel, and vanilla; stir in enough milk (about 2 tablespoons) to make glaze of spreading consistency. Spread glaze on cooled cake.

**BLACK-EYED PEAS AND HAM (Shown)**

**Total cooking time: 1 hour 55 minutes**

- 1½ cups dry black-eyed peas
- 5 cups water
- 1½ pounds smoked ham hocks, split
- ¾ cup chopped onion
- ½ cup chopped celery
- ½ teaspoon salt
- ⅛ teaspoon cayenne pepper
- 1 bay leaf
- 1 10-ounce package frozen cut okra

In 3-quart casserole, combine peas and water. Soak overnight. Do not drain. Stir in hocks, onion, celery, salt, cayenne and bay leaf. Cook, covered, at **HIGH** for 15 minutes or till boiling. Cook, covered, at **MEDIUM LOW** for 1½ hours or till peas are done and hocks are tender. Stir in okra. Cook, covered at **MEDIUM** for 10 minutes, giving dish half turn after 5 minutes. Discard bay leaf. Season to taste. Makes 3 servings.

**MICRO TIP: Leftover cake batter can be frozen if you don't intend to bake it right away. Half the batter from a 2-layer size cake can be frozen in a 3-cup freezer container. Thaw, uncovered at DEFROST for 5 minutes. Stir to blend then bake as desired.**

its of Muleshoe, Texas, inside Bailey County, Texas, and that the Bailey County Sheriff's Department will have the responsibility to oversee and enforce any violations that may be committed by the applicants in the operation of its business and any violations of the law that may be committed by the patrons of the business and that the Bailey County Sheriff's Department has only two deputies who have a responsibility of maintaining law enforcement in a county of approximately 900 square miles and that if the said application is granted that the Bailey County Sheriff's Department resources will be taxed and spent in dealing with problems that will arise at the proposed licensed premises thereby causing the rest of Bailey County to be without necessary law enforcement to which people of Bailey County are entitled. (Section 11.46 (a) (8) of the Texas Alcoholic Beverage Code.)

II

That the applicant, Slaughter House Club, will sell liquor unlawfully in a dry area or in a manner contrary to law or will knowingly permit an agent, servant or employee to do so.

III

That the place or manner in which the applicant may conduct its business warrants the refusal of a permit based on the general welfare, health, peace, morals, and safety of the people and on the public sense of decency."

In the applicant's response to the protest, Lamar D. Treadwell, a Muleshoe attorney offered the following denials to allegations of the protestants:

"Applicants testified that they would not conduct their business against the general welfare, health, peace, morals and safety of the people of Bailey County, Texas, and against any sense of public decency.

That it has been some 34 years since a wet or dry election was held (December 7, 1948) and therefore, the results of said election are not relevant to this proceeding before the Commission.

Denied that the J. E. Meeks petition is valid because some of the residents who signed said petition are already members of private clubs existing in Bailey County, or have an application pending before this very Club at issue here.

That some of the persons whose names appear on the petition did in fact not sign their names, but someone else signed their names.

That the manner in which signatures for the petition was elicited makes said petition and signatures thereon invalid.

And, persons who signed the petition are not representative of the majority of the residents of Bailey County demographically, since their average age is in excess of 54 years.

That some of the persons signing the petition appear to be children, who are under age, and subject to the desires and wishes of their parents or grandparents, and

That Bailey County already has two private clubs, Muleshoe Country Club, and the Veterans of Foreign Wars Club, and the Sheriff's Department has not found it necessary to hire additional personnel to patrol these clubs, nor has there been any showing by the Sheriff of Bailey County that these clubs have created problems requiring the employment of additional personnel."

Allen Johnson Director of Hearings at the TABC told *The Journal* Tuesday that a recommendation would be forthcoming, from Hallie Huttash, of the Hearing Division within the next two weeks. She will make her recommendation to the Administrator of the TABC agency and another sixty days must pass before any final ruling is made. Johnson said that while there were a lot (about 25 pages) of names on the petition of protest, the applicants' attorney stated that they were not representative of the county on a whole.

# AAM Chairman Blasts 'Grain Experts'

Reagan's grain "experts" continue to be out horse-traded and the last good deal the United States cut was when Seward bought Alaska from the Russians, the chairman of the American Agriculture Movement claimed today.

Marvin Meek, a Plainview, Texas cotton and milo farmer, and AAM National Chairman, said, "The administration has begged the European Community (EC) to lift wheat and corn tariffs so we can export our way out of the current farm depression."

"It won't work. It hasn't worked," Meek stated, pointing out that soybeans, a protein, are exempt from EC import tariffs and are still selling below cost of production.

In December, Reagan sent Secretaries of State, Commerce, and Agriculture Haig, Baldridge, and Block, plus Trade Representative William E. Brock, to the EC seeking the tariff concession. At the same time, Deputy Agriculture Secretary Richard E. Lyng was telling Senator Ruby Boschwitzs export subcommittee why this was the cure.

"Our leaders told the EC that their tariff is depressing our prices and interferring with third-world trade. They should have told the EC we were raising our prices to the protected price EC farmers enjoy, which is just about at our parity. They got the cart before the horse," Meek said.

When a minimum price for grain is reached in Europe, the EC authorities purchases on top of a variable levy. Even total elimination of the tariff won't work, Meek said, citing soybeans as proof.

With no tariff at all, soybeans closed April 15 at $7.35 in Europe, up from $7.22 a bushel the day before, and $6.83 March 14. In Chicago Wednesday, soybeans closed at $6.02, up four cents from a month ago.

USDA 1982 share-renter projected production costs for soybeans is $8.28 a bushel, up 83 cents from the 1981 figure, and $4.52 below parity, Meek said.

"Of course, we need export markets, but to think that the EC lifting a corn and wheat tariff is going to solve our problems is foolish. We need the price," Meek said.

David Senter, AAM National Director, said, "We can't continue to give away the produce our our famrs and expect the farmers' lot to improve, nor the nation's economy."

In other AAM news, the National AAM, Inc. officially endorsed the American Agriculture Clearinghouse Marketing Co-Operative (AAC) on Monday, April 19, according to Key Crawford, National AAM marketing representative.

This will require everyone presenting a program to make the presentation according to the specifics of the law and in accordance with the articles of the AAC. After clearance of the Marketing Co-operative in each state anyone presenting will be reqaired to notify the State American Agriculture Movement president or delegate in said state.

The Marketing Co-Operative is headquartered in Monroe, Louisiana and will offer contracts on wheat, cotton, corn, milo and soybeans for 85 per cent parity. Thus far, only Louisiana and Mississippi are cleared to sign contracts. Crawford states that in order for this plan to work effectively, it must have signatures on production nation - wide, even though those who sign will receive 85 per cent parity for their production.

According to Crawford, this program will work the same as if the Secretary of Agriculture set the CCC loan rates at 85% parity. Although the entire program is a farmer's marketing co-operative, the only basic requirement is to participate in the USDA-ASCS programs and purchase one share of stock at $100 per member. "This can be one of the greatest things that has happened to American Agriculture, if we all work together," said the marketing representative.

# Jail Inmates Get Exercise Area Fence

Bailey County Commissioner's Court met Friday, April 30 in a special called session in the Courthouse. Following routine business matters, the court addressed the problem of an exercise area for the jail inmates, as required by law.

An order was passed approving a proposal with Settle Fence Company of Lubbock, for the installation of a fence to be used for prisoner exercise at the total installation charge of $1530. The approval was passed with the provision that the constructed fence will meet with Jail Standards Commission.

Jimmy Crawford and Mike Woolley, representatives of American Public Life Insurance Company of Jackson, Mississippi, met with the court and received approval to meet in group sessions with county employees regarding purchase of cancer and life insurance policies on an optional basis. Payroll savings plan or a deduction plan will also be discussed.

In other business, the court approved a request by Five Area Telephone Cooperative for a permit to install utility lines in the county road right-of-way. These are buried lines.

## Aggie inventor inducted into Hall of Fame

COLLEGE STATION — The inventor of the integrated circuit and the hand-held calculator — a Texas A&M University electrical engineer — has been chosen for induction into the National Inventors Hall of Fame.

Jack S. Kilby of Dallas will join Thomas Edison, Alexander Graham Bell, the Wright Brothers and other legendary inventors already named to the distinguished group. Kilby is one of five inventors named this year to the honor coordinated by the U.S. Patent and Trademark office.

Kilby was elected for his invention of the integrated circuit which he created in 1958 when an engineer at Texas Instruments Inc. The integrated circuit was a revolutionary advance in solid-state electronics and led to new products such as the pocket calculator. He has been on leave of absence from TI since 1970.

The inventor joined the Texas A&M faculty in 1978 as a Distinguished Professor of Electrical Engineering. He divides his time between Texas A&M programs and his other research activities.

**At General Telephone... We're Not Simply Talking About Service Improvements We're Making Them In Muleshoe**

At General Telephone, better service isn't just a goal, it's a solid commitment. General Telephone spent over 354 million dollars in 1981 on capital expenditure projects (i.e. new electronic switches, expanded cable projects, modernization), and GTE will spend over 410 million dollars in 1982 to provide you the best telecommunications available.

For Muleshoe this investment in service improvement is working as shown below. General Telephone is working hard to continually provide you with the best of service.

The Texas Public Utilities Commission (PUC) has established certain standards in public hearings, and our service results are listed against those standards.

(Does not apply to special purchase, close out sales, or limited quantity merchandise.) Authorized Dealer stores are independently owned and operated; therefore, prices and terms may vary. Because of limited floor space, all stores may not carry every item featured in this advertisement. All items are available by special order from our nearest distribution center.
