PECOS VALLEY GROWING

As a Commercial Orchard Center.
Ed. W. Winn and E. S. Moncrief

General traveling representatives of the Winfield Nursery Co., of Winfield, Kan., are headquartered in this city pushing the fall and winter planting of fruit trees in commercial blocks. This company has had representatives in this section for several years and report their business growing better from year to year. Mr. Cooper, former partner in the firm visited this city and vicinity last fall and placed about \$15000.00 worth of nursery stock in the valley.

Mr. Moncrief and Mr. Winn are interested with the firm, Mr. Moncrief being vice-president, and they wish to thank their patrons for past patronage and to solicit any complaint which they will gladly adjust satisfactorily to all concerned.

STUCK ON RATES

Hereford Man Says Agent There Doubled Rates to Artesia

A gentleman in the Panhandle who contemplated coming the Pecos Valley to live obtained a statement of freight rates to several towns from the agent at Hereford. He alleges that the agent quoted the following rates for the goods he desired to ship: To Hagerman or Carlsbad \$52, to Artesia \$104. Such is the statement made to the Advocate by Owen McClay local manager of the Ullery Furniture Company. He says he has forgotten the name of his informant but the latter said he moved to Hagerman because of said discrimination. Mr. McClay does not vouch for the truth of the gentlemen's statement. While of course no such discrimination as that here alleged is general, yet from time to time things have occurred that makes it look as if the road has no love for Artesia. The deal we got during the festival week, coming directly from head quarters was not such as would inspire confidence in the good faith of the road. Then there were two employes on the train who spent a good deal of their time knocking on Artesia and lying about its conditions.

The Farmers Land League finally took the matter up with the road and an investigation was promised, but nobody seems to know what became of it.

We believe that the railroad committee of the Commercial Club should take up questions of this kind. If any employe of the road act improperly, the matter should be brought to the attention of his superiors and if not corrected and absolute fairness insured, the whole case should be laid before the Interstate Commerce Commission.

The road is either very slipshod in its methods and keeps incompetent workmen or it is quietly knifing Artesia because it realizes that this is the first place in the valley where a competing line will be built. The latter is the more probable hypothesis.

If you want to make a noise like shooting buy your ammunition from Fatherree & Ehfield.

City Dads Do in's.

The council met Tuesday night and transacted the following business:

Passed a weed ordinance; appointed Jim Nelson city marshal; Dr. J. Dale Graham city physician; J. E. Swepton to contract for construction of cement walks where owners failed to comply with ordinance; and Wm. Crandall to negotiate with owners of water rights.

There are "little ducks" out at the lakes. Get a gun and cartridges at Fatherree & Ehfield and bring in the game.

WELL AND RESIDENCE

P. L. Kissenger Will Drill Former And Build Latter

BELIEVES IN IMPROVING LAND

P. L. Kissenger of Fairfield, Neb., who recently bought the two Gesler farms and the Lukins place was in town this week. He is making arrangements for the sinking of another well on one of the Gesler farms and will begin the erection of a large new residence and other building immediately.

He is also preparing to plant 180 acres of alfalfa at once. Mr. Kissenger says he believes that it is the duty of every man to improve his land. He owes it to his neighbors, for the man who fails to do so retards the growth of the country as a whole, and at the same time without any effort on his part the value of the land of the drone is enhanced by the efforts of his fellow citizens without his returning anything to them.

Comment

Mr. Kissinger has the right idea and if all land owners—not only here but elsewhere, in city as well as in country—would take the same view everything would be more prosperous, production would be enormously increased, labor would be better employed and as a result wages would be higher and laborers more contented. It is one of the incongruities of our system of taxation that a man who improves his land is at once fined for doing it by being compelled to pay more taxes.

A couple of years ago an effort was made to put on an extra tax on artesian wells in this territory. To the eternal credit of Gayle Talbot he led a fight on this monstrous inequity through the Advocate and defeated it, except a very trivial fee. In so doing he and those associated with him contributed greatly to the development of the Pecos Valley. Yet, when we come to think of it, it is just as absurd, just as inequitable, just as much opposed to public policy to fine a man for building a house over the ground as it is to fine him for boring a hole into the ground. Both are alike indefensible in reason and morals. The difference is that people have been educated not to think of that matter at all. But a tax on artesian wells was a new application of an old injustice and was so flagrantly wrong that it attracted instant attention.

But what we started to say was that holding land for purely speculative purposes ought to be discouraged by taxation and that one P. L. Kissenger of Fairfield, Neb. belongs to a class of citizens that we need in this country.

PRaises Highsmiths

Trees. Parker Earle Says They Are Extra Good.

Col. Parker Earle of the Parker Earle Orchard Co., of Roswell and an authority of national reputation on horticultural matters recently visited the Highsmith nursery along with some other gentlemen. They were highly pleased as the following letter from Mr. Parker shows:

Roswell, N. M., Aug 15, '07
Mr. J. S. Highsmith,

My Dear Sir:—I take pleasure in saying that in my recent visit to your nursery, I was much pleased with the fine appearance of your trees. You have made a pronounced success in growing nursery stock in this valley—and this could hardly be said of the attempts to do so by other men. Your trees are of fine size, very clean and free from insects and disease. They are not only as good trees as come here from northern and eastern and Oregon nurseries, but are better than ninety per cent of the stock that has come here from abroad.

And the advantage of getting trees to plant that are fresh dug from the nursery, over taking stock that has been out of the ground for months, should be appreciated by all orchard planters and think it will be.

Very truly yours,
Parker Earle.

Get in the game by hunting on the lakes. Fatherree & Ehfield supply the firearms and ammunition.

Daniels used to resent the imputation and we at one time feared he would borrow a meat ax and try to change the geography of our face whenever a suitable opportunity presented itself. Since we won the beauty prize Daniels is a changed man. He is as conceited as can be and is accused of talking mysteriously about "our subscription list" when in the presence of strangers.

Judge Alton B. Parker is winning the esteem of the people by his sound political utterances. We always had considerable respect for Parker, but we voted for him without enthusiasm. His greatest error was in allowing Hill and Belmont to manage his campaign and to a great extent determine the platform on which he should run. Speaking generally, Parker stood for modified Republicanism in 1904. Now moderation is often good. There are those who prefer homeopathic physicians to allopathic practitioners, but few want allopathic medicine in homeopathic doses. Either Republicanism is good or it isn't. If it is good let us have the article dished up by the manufacturers; if it is bad, let us have something else. This is our idea and it is the peoples idea. Failing to draw the line of demarcation clearly, and allowing his really good intentions to be emasculated by demagogues of the Hill stripe, Parker permitted himself to be placed in a false position. All Democrats will rejoice that he is earning the respect of all intelligent citizens.

BIGGEST PEARS OF THE SEASON Weigh Over Two Pounds Each Raised By W. P. Riley

W. P. Riley brought in several crates of enormous pears from his farm near Hope Thursday. Many of them weighed more than two pounds apiece. The fruit was solid and of fine flavor. It was bought by the Joyce-Pruit Co.

Swingles Big Melon

Thursday, we and eleven others participated in the demolition of a 46½ pound melon at the Artesia Feed & Fuel Co. store. It was solid red almost to the skin and sweeter than any Brownwood melon we ever tasted. It was grown by W. A. Swingle.

Lost: Heavy brown, checked coat, time book in pocket. Please leave at Advocate office.

ARTESIA COLLEGE

BOARDING DEPARTMENT

Is Co-OPERATIVE, that is, the students furnish the money as a common fund. It is spent in their interest alone. "They pay for nothing they do not get and get all they all they pay for." An exact account of expense is kept, and any money not spent is returned, prorata, to the students.
To secure

MINIMUM OF COST

The products of the college land are passed, less the cost of production, to the credit of the students. Thus: If potatoes can be produced at 1 cent per lb., the student pays that price (1 ct. per lb.) If pork can be produced for 2 cts. per lb., it goes to the student at that price. And this rule is observed throughout. Thus good board will be cheap.

I will not make money from the Boarding Department of a school; and I shall do all in my power to reduce this, the largest expense, attending life at school. By this means it becomes possible for many to attend boarding school, who could not otherwise attend. It were folly to give 10 ct. or 15 ct. per lb. for meat or lard, if the goods of same quality can be had 50 per ct. cheaper. Under our plan this can be done.

TUITION FEES

Belong to the teachers. They do the teaching and for this, but for nothing else, they must be paid; and they must be well paid. Therefore the tuition fees must be liberal.

DOMESTIC HELP

Is an item that comes in Boarding Department. Good cooks command good wages. The students, of course, pay the wages. So of fuel, wear and tare of furniture, etc. But the school is to have no profit from this Department.

EXCHANGE OF VALUES

The teacher has values that the parent wants for his child, viz., school facilities, instruction, care, discipline, etc; and for these the parents are willing to pay money. It is often the case that parents who live near the school have values that the teacher needs, such as farm products, live stock, etc. In such cases an exchange of these surplus values is quite convenient. The other day a gentleman said, I do not know that I shall have any money, but I shall have corn and other products. I replied, all right, I shall need such things. So let us thus help one another.
If there be a demand for it, we shall have.

A KINDERGARTEN

Under the direction of an able teacher. Girls transferred to and from the school free of cost.
SCHOLARSHIPS if applied and paid for in advance, for five months, only \$12.50.
School begins Sept. 9

Reasons Why You Should Go To ARTESIA, New Mexico

LOCATION:—Artesia is on the Pecos Valley R. R. (the Santa Fe System) 42 miles Southeast of Roswell, 35 miles North of Carlsbad and 120 miles North of Pecos City, Texas, on the Texas & Pacific R. R. from Dallas and Fort Worth to El Paso.

ARTESIA was born four years ago (this September 1907) when the first flowing artesian well was completed. It has now a population of 2000 people, 41 business houses, 2 banks, two newspapers, 6 religious organizations, 5 church houses, Methodist, Baptist, Presbyterian, Christian and Catholic, 5 lodges. It has a brick public school building that cost \$10,000, with 500 pupils, a good private college, a fine public library, an up-to-date postoffice, good telegraph and telephone service. Artesia has 4 hotels, Artesia has a \$47,000 municipal water works, a large amount of cement sidewalks, an electric light and ice plant in course of construction and many other modern conveniences. Artesia and the surrounding country has a wide-awake, industrious, progressive, moral and religious people from all sections of the United States.

Artesia was the first town in New Mexico to abolish gambling. Artesia is situated in the widest and best portion of the famous Pecos Valley.

It has an almost ideal climate and is the best place on earth for invalids. We have the largest and best flowing artesian wells in the world. They are obtained at from 600 to 1000 feet and flow from 500 to 5,000 gallons per minute, and the average well will irrigate 160 acres of land without pumping or other machinery of any kind.

We have fertile fields and the finest crops in the United States, irrigated by inexhaustible artesian wells, the largest in the history of the world. Alfalfa makes from 4 to 6 crops per year with a yield of 4 to 8 tons per acre with a value of \$25 to \$40 net per acre.

Corn yields from 40 to 60 bushels, oats from 50 to 80 bushels per acre and weighing from 36 to 44 pounds per bushel, and worth from 48 to 50 cents per bushel of 32 pounds. Kaffir corn and Milo Maize make from 40 to 100 bushels per acre. Old apple and pear orchards yield from \$100 to \$250 per acre yearly. The largest apples ever placed on exhibition come from the Pecos Valley. Apples and peaches from here took both gold and silver medals at the World's Fair at St. Louis in 1904. In 1906, while apples were selling in Kansas and Nebraska at 15 to 20 cents per bushel, the demand for Pecos Valley apples could not be supplied at 80 to \$1.00 per bushel. Our orchards begin bearing at five years.

Hogs can be raised on alfalfa at from 11-4 to 11-2 cents per pound up to 150 to 200 pounds, and topped off on Indian Corn, Kaffir Corn or Milo Maize at a handsome profit. No cholera or other diseases among hogs.

Honey, chickens, butter, etc. can be produced at a large profit. Vegetables of all kinds are grown. Water melons, cantaloupes and pumpkins cannot be excelled. Sweet potatoes yield from 12,000 to 15,000 pounds per acre.

The average family can make a good living on 10 to 20 acres of this irrigated land and a competency on 160 acres. At Artesia you do not have to wait for it to rain and your crop is not destroyed by floods. You have no crop failures. The best, the most healthful climate and the most intelligent and prosperous people in the great and growing west invites you to cast your lot among us.

ARTESIA - NEW MEXICO

Artesia College Opens

The college opened very auspiciously Monday morning, September 9. Only a few parents were present but those fortunate ones were well repaid by the interesting nature of the exercises. Rev. Ward opened with a prayer and both he and Dr. McIlhany made enthusiastic talks as to the prospects of the college and drew interesting comparisons between its beginning and the early days of other schools which are now large and influential. The enrollment of 24 actual working pupils aside from the departments of music and painting is surely encouraging for so young a school. The following pupils are enrolled for the first week: Crowell Allen, David Cogsdell, Beatrice Butler, Annie Clayton, Roscoe, Rudolph and Ralph Knowles, Lutie, Victoria and Douglas McIlhany, Virginia Pardon, Dorothy Reed, Phoebe Martin, Grace Talbot, Evelyn and Edward Welch, John Ward, Edward Walling, John Gage, Bernice Butler, and Mary Runyon all of Artesia, while Hope contributes three, Maggie Webb, Lee Davis and Earl Whittaker.

Miss Nina Robb of Roswell came down last night to visit Mr. and Mrs. J. E. Swepston.

Chamberlain's Cough Remedy One of the Best on the Market

For many years Chamberlain's Cough Remedy has constantly gained in favor and popularity until it is now one of the most staple medicines in use and has an enormous sale. It is intended especially for acute throat and lung diseases, such as coughs, colds and croup, and can always be depended upon. It is pleasant and safe to take and is undoubtedly the best in the market for the purposes for which it is intended. Sold by Redford & Mann.

Public School Athletes

While the actual hard study going on in our public school is receiving plenty of attention and literary societies and even a kangaroo court are exciting comment, the athletic side is making a strong bid for popularity. The baseball enthusiasts have organized and the 1st, 9th is lined up for business in this way: Bus. Mgr. Prof. Botts, catcher, Charles Kuykendall; Pitcher, Willie Lynn; 1st b. Worlie Lynn; 2nd b. Ruel Crandall; 3rd b. and Captain Roscoe Pickens; s. s. Fred Brainard; l. f. Denver Langford; c. f. Theodore Martin; r. f. Hollie Langford; Substitute, Alf Call. Not to be outdone by the boys, the girls of the 7th and 8th and of the High School, under the directions of Miss Childress, have organized two teams for Basket Ball as follows:

One team with red and black as its colors, Captain, Miss Heath; Goal keeper, Sara Owen Defender, Bertha Motts; L. G., Ruth Brainard; R. G., Bertina Speck; L. F., Fay Elder; R. F., Eloise Wagner. The other team with black as its colors, Captain, Miss Childress; Goal Keeper, Louise Pickens; Defender, Estelle Maudslow, L. G., Bernice Temple; R. G., Texas Acord; L. F., Rosa Wetig; R. She Found Relief

If you are troubled with liver complaint and have not received help, read this. Mrs. Mary E. Hammond, Moody, Texas. I was in poor health—with liver trouble—for over a year. Doctors did me no good and I tried Herbine, and three bottles cured me. I can't say too much for Herbine, as it is a wonderful liver medicine. I always have it in the house. Publish where you wish. Sold by Redford & Mann.

The Train and The Mail

It is all nonsense to have to wait three days for the mail. The road is under contract to carry mail for the United States government and it ought to be made to do so with a reasonable degree of promptness.

The road performs a governmental function; if it fails to do its duty there should be some means of making it do so. In the flagrant case this week there was a wreck, but there is only a partial excuse; the failure to deliver mail was largely the result of inefficient service. The Santa Fe system has had a strike on in its shops for years.

The result is that most of its machinists are incompetent. It keeps the best engine for the main line and sends inferior ones on the branches. We do not know or care anything about the merits of the strike. That is a matter of indifference to the public, but when this road or any road undertakes to perform work for the people it ought to either be made to do it or turn its service over to the government, where the ownership of the roads normally lie.

Let us all petition the postal department and see if we cannot secure more prompt and efficient service.

A Humane Appeal

A humane citizen of Richmond Ind., Mr. U. D. Williams, 107 West Main St., says: "I appeal to all persons with weak lungs to take Dr. King's New Discovery, the only remedy that has helped me and fully comes up to the proprietor's recommendation." It saves more lives than all other throat and lung remedies put together. Used as a cough and cold cure the world over. Cures asthma, bronchitis, croup, whooping cough, quinsy, hoarseness, and phthisis, stops hemorrhages of the lungs and builds them up. Guaranteed at Pecos Valley Drug Co. 50c. and \$1.00. Trial bottle free.
