PHONE BUILDING NOW READY — EQUIPMENT AND MATERIAL HERE

Work of remodeling the Mountain States Telephone Co., building at the corner of Main and Third streets has been practically completed. The appearance of the building has been substantially improved with a new coat of stucco, new floors in the interior and new wider windows, which adds materially to the lighting effect of the building.

All of the materials, which will be used by the Mountain States Telephone Co., in their improvement program including the new switch board has been received. No announcement has been made as to when the work will start on installing the improvements.

ROSWELL MAN SHOT TO DEATH AFTER QUARREL SATURDAY EVENING

Due Speed, 38, taxi cab driver at Roswell, was shot and instantly killed by Seth Carroll, at 7:40 p. m., Saturday evening in Roswell, near Second street, at the entrance of an alley, separating the Dock Sandwich Stand and the Lee Tire Sales Co. Trouble which caused the shooting, is said to have arisen over a girl. Carroll, an employee of the Dock Sandwich Stand telephoned speed to come down and talk things over, according to early information from Roswell. Carroll, who was taken to the Chaves county jail shortly after the fatal encounter, claims that he did not intend to fire the revolver and had secured the gun, a .38 calibre from the sandwich stand for the purpose of frightening Speed. Carroll said that just after he drew the gun on Speed, it went off in some manner.

There was only one eye witness to the shooting, Dock Auld, proprietor of the sandwich shop. After an investigation, officers decided not to hold an inquest. Speed is survived by a widow, brother, sister and parents.

Seth Carroll, charged with murder in the first degree, was arraigned before Judge W. C. Winston at Roswell Tuesday morning and after entering a plea of not guilty, his preliminary was set for next Saturday morning at 10:00 o'clock.

Any attempts which may be made on the part of Seth Carroll to secure bond will be resisted by the state, the Roswell Record states. The state has taken the position that this is not a bailable case.

BIG WOOL SHIPMENTS

Two hundred thousand pounds of wool had been shipped from Roswell for the week ending Saturday, May 24, according to information given out at Roswell by C. G. Salter, wool buyer. Most of the wool has been shipped direct to eastern factories. The highest price paid was for the Roe Corn fleeces, which was 23 1/2 cents per pound.

POWER LINE COMPLETE

The power line of the Southwestern Public Service Co., extending from Espula switch northward up into the Cottonwood community for seven miles has been completed. Workmen are now erecting a sub-station on the Recer farm, north of Espula. The new line will serve a number of farms with power and lights.

HOBBS SAFE BLOWN

The safe of the Hobbs Townsite Co., at Hobbs was blown at an early hour yesterday morning and approximately \$600.00 in silver and currency taken, according to word received here. Officers of the Pecos valley have been notified to be on the look out for robbers.

ARTESIA STORES WILL CLOSE TOMORROW

Practically all business houses in Artesia will be closed throughout the day, Friday, in observance of Memorial day. Members of the American Legion circulated a petition among the business men yesterday, asking all to close.

CHARLEY BEAL DEAD

Last week, we received a belated announcement of the death of Charley Beal, age 37, brother of George Beal of Artesia, which occurred at Carlsbad on the 20th, following an operation for appendicitis. Mr. Beal has lived in the valley, practically all of his life and is well known to all of the old timers.

Burial was made at Lovington on the 21st. Among the immediate relatives surviving the deceased are a wife and two children.

BURGLARS BREAK INTO THREE STORES SUNDAY BUT MAKE LIGHT HAULS

Get About \$25.00 At Pior's Service Station — Cash Drawer At Mann's Nets \$10—Jimmy Safe Of Wilson-Anderson.

Robbers were busy over the week end and visited three business establishments Sunday night. They found "poor pickings" at every place entered except one. So far as known at an early check Monday morning, the robbers evidently were looking for cash and did not attempt to molest any merchandise. Pior's Service Station was the hardest hit of any place visited. Here the robbers made entrance into the station building by breaking through a rear window and secured about \$25.00 in cash from the cash drawer. At the Mann Drug Co., they took a brace and bit and bored a hole in the rear door to fit the size of a man's hand, which made the latch and the door bar easily operated. About \$10.00 was secured from the cash drawer at Mann's.

The cash drawer at the Wilson and Anderson produce store on First street yielded only a few pennies and possibly a pocket knife. Not having any luck with the cash drawer, the robbers attempted to break into the safe, but only succeeded in "jimmying" the lock.

Officers have not yet made any arrests in connection with Sunday night's robbery, however, it was understood here yesterday that a local boy will be taken before Judge Richardson in the district court and will possibly be tried for burglary.

JUNE 15th LAST DAY TO ENTER

Attention is called to the fact that all entries in the City Beautiful contest must be in the hands of the committee by June 15th. Entries may be filed with the Chamber of Commerce, phone 36, or any member of the committee. To facilitate matters it is suggested that entries in the City Beautiful contest be filed with the Chamber of Commerce, where the files are maintained.

FORMER ARTESIANS TO TAKE A WORLD TRIP

Old timers will be interested in the news received by Judge and Mrs. Atkeson Monday from Mrs. Ed Phillips, now of Huntington Park, California. Mrs. Phillips, her two sons, William and Dick and her mother, Mrs. William Idler, started the 25th of this month on a trip around the world. They planned to first visit in the old family home at Terre Haute, Indiana, then go to Washington, New York and Boston and sail on the Duchess of York from Montreal, Canada on June 13th. Their itinerary includes among other places England, Germany, France, Switzerland, Italy, Egypt, the Holy Land, India, China and Japan.

THE TAX COMMISSION OKEYS EDDY COUNTY VALUATIONS MONDAY

Commissioner Jaffa and Attorney Chapman of the state tax commission met with the commissioners court and county board of education, Monday at Carlsbad for the purpose of checking over the tax valuations of the county. Representatives from the various school districts were also present at Monday's meeting.

It was said that the representatives of the state tax commission were satisfied with the present valuations over the county. Little or no change was made in the valuations of the various communities. There was some changes made in the budgets of two schools, Loving and Malaga in the south end of the county.

The county board of education approved bids on practically all of the school transportation routes.

The county commissioners will convene today as a board of equalization.

Thursday is getting to be an important day in Artesia. In addition to the birth of the Advocate, which occurs every Thursday, a ten pound son was born to Mr. and Mrs. W. C. Martin at 9:40 this morning.

A WATER PROTECTIVE ASSOCIATION FORMED AT MEET HERE TUES.

Seven Directors Are Elected After Resolutions Are Endorsed — Will Meet At Roswell On Wednesday June 4th.

The Southeastern New Mexico Water Protective Association was formed here Tuesday afternoon, with the election of seven directors. Representatives were present from all the communities of the valley from Roswell south to Carlsbad and the communities of Loving and Otis were also represented.

Ross Malone of Roswell was made chairman of the meeting held in the Chamber of Commerce office. Claude Simpson, secretary of the Roswell Chamber of Commerce was selected clerk.

Mr. Malone called on E. A. Cahoon of Roswell to explain the purpose of the meeting. Mr. Cahoon briefly reviewed the situation with reference to the suit of the Southern Pacific Railway, filed at Carrizozo on May 15th for permission to impound the waters of the Bonito river and divert same to the western slope. Whether the action of the Southern Pacific would seriously affect the eastern slope of the state, Mr. Cahoon stated that he did not know, but he was of the opinion that some sort of an organization should be perfected so that the water users of the Pecos valley could protect their rights.

The chairman, Mr. Malone then called on the clerk, Mr. Simpson to read the proposed resolution, setting forth the plan of the proposed organization. The name, Southeastern New Mexico Water Protective Association was suggested as a fitting name for the proposed organization.

Purpose of Organization
The purpose of the association as outlined in the resolution was to protect the water supply of the valley, prevent the improper diversion of water from the eastern watershed, keep the waters of the area in the proper drainage basin, guard against the contamination of the water supply, protect the timber of the eastern slope and to do such other things as might be necessary for the welfare of the residents of this section.

A round table discussion was held by Chairman Malone and every representative present declared in favor of some sort of an organization. Committeemen from some communities, however, endorsed the proposed association with the provision that the community was in no way financially obligating itself by entering such an organization. Such an endorsement was not necessary according to the explanation as given by Mr. Malone.

The chairman then declared nominations in order for a board of directors, composed of seven members. It was moved and seconded that one director be chosen from (Continued on last page, column 5)

THE CARLSBAD CAVERNS NO. 22 IN NATIONAL PARK CHAIN OF U. S.

WASHINGTON, D. C.—Adding No. 22 to the great chain of America's scenic national parks, President Hoover has affixed his signature to the act of congress creating the Carlsbad cave national monument in New Mexico.

The act known as the Simms bill gives not only park status to the caverns monument, but gives authority to the president to add, on recommendation of the secretary of the interior, surrounding lands up to 193 additional square miles. The surface boundaries of the national monument took in 719 acres, altho the cave extended for miles under ground.

An investigation will be made by department experts to determine just how much of the authorized lands should be added to provide adequate surface protection to the caves and also to permit of broader surface developments for the benefit of the many thousands of annual visitors.

Carlsbad Cavern is the most spectacular of underground wonders in America and probably anywhere in the world. It consists of a series of lofty, spacious chambers and connecting corridors, with alcoves extending off the sides, that are of remarkable beauty.

Already approximately 25 miles of cave have been explored, but there are many parts yet unvisited.

DISTRICT OFFICE OF PUBLIC SERVICE CO., IS LOCATED AT ROSWELL

The Pecos Valley Division of the Southwestern Public Service Co., is now a district of its own, being separated from the Amarillo, Texas office. The new arrangement is effective June 1st. The change made by the head office a St. Louis is result of the growth and expansion of the Pecos valley properties, says an announcement from Roswell.

GOOD STAND COTTON UP

Cotton growers generally have had good success in getting a fine stand of cotton. The plant, however has not made the usual growth owing to the prevailing cool weather.

JOHN J. JOPLIN OF HOPE ENDS LIFE WITH SHOT FROM REVOLVER SAT.

John J. Joplin, 64 of Hope, committed suicide at an early hour Saturday evening, by shooting himself in the cheek with a .38 calibre revolver. The ball ranged upward into the brain. The Joplins have lived in Hope community for the past six or eight months. Mr. Joplin had made his home with his brother G. W. Joplin and family during his residence in this section. They live on the old Lewis place, south of Hope.

Ill health is thought to have caused Mr. Joplin's act. About four o'clock Saturday afternoon, he is said to have told members of the family that he would take a walk down the road. When he did not return for supper, the family started searching for him. He was found sitting beside a wire fence with a bullet hole in his cheek and a revolver in his hand. Mr. Joplin's brother, who had been trading in Artesia earlier in the day, telephoned S. W. Gilbert, justice of the peace to come out and bring Owen McClay, undertaker and hold an inquest. An inquest was held near the spot where the tragedy occurred, the jury rendered a verdict that the deceased had taken his own life.

The body was brought to Artesia and shipped to Madisonville, Texas, former home of Mr. Joplin, on the afternoon train. It was stated here that Mr. Joplin was at one time a prominent resident of Texas. He served as school superintendent for a number of years and was later employed as cashier of a bank.

LIONS CLUB ELECTS OFFICERS

The Lions club elected officers for the ensuing year, at the regular meeting Friday. V. D. Bolton, who was chosen president several months ago to fill out the unexpired term of Willis Morgan, was reelected to this position; Landis Feather was elected first vice-president; R. G. Knoedler, second vice-president; Paul Otts, secretary; Fred Cole, tail twister; Willis Morgan, lion tamer. George Deane and Noel Meeks were elected to the board of directors.

Two new cubs were welcomed into the pack, these being Charles Morgan and E. J. Little.

C. R. Brelin, general manager of the General Motors offices at El Paso, Texas, was a guest of the club. The club is planning to send delegates to the state convention at Tucumcari, N. M., on June 6th and the international convention at Denver, Colorado, on July 15, 16, and 17.

POTASH SHAFT DOWN 400 FEET

The potash shaft of the American Potash Co., in the southeastern portion of the county is down over 400 feet, according to information reaching here the first of the week. The shaft, 8x22 feet in dimensions will be sunk to 1,100 feet, where the company expects to begin mining the first bed of potash. The same information says that the mining operations will be completed electrified. An appropriation of \$1,000,000 has been made to carry on the work.

NEW ARTESIAN WELL FOR WOODS FARM

A good artesian well on the Woods farm, east of Artesia, has recently been drilled in at 1,200 feet, estimated to be flowing 1,000 gallons per minute, according to Myron Bruning driller. The well will likely be drilled a few feet deeper, he says. Plans have been made to install a pump over the well to increase its capacity.

CATTLE SHIPPED

Thirty cars of cattle were shipped Friday from Avalon by B. C. Mossman, Roswell rancher. The cattle were billed to Mossman, S. D.

Good Rains Fall Over the East Slope Tuesday Eve.

Moisture Here Measures .87 Inches—Heaviest In The Oil Field — Will Benefit The Farmers And Stockmen.

The best rain of the spring season fell here Tuesday night, covering a wide scope of country. Artesia and the oil field appeared to be in the center of the heaviest portion of the precipitation. The rain fall Tuesday evening amounted to .87 inches, according to measurements of R. W. Bruce, weather observer. The moisture in the Artesia oil field was more than an inch, according to reports from the field yesterday morning. Showers visited practically all of the eastern portion of the county. At Lake Arthur the rain fall was about a half inch. Four or five miles southeast of here the moisture amounted to about the same.

Heavy rains were reported on the highway north from Roswell. Travelers coming through from Hobbs yesterday morning report mud all the way with water standing in the low places. The highway to Lovington is still passable and in good shape. Travel on the south highway was checked for a short time near Seven rivers Tuesday night on account of high waters.

Scattering showers have fallen over the eastern slope this week. During the early part of the week the rainfall was confined principally to the hills of the Sacramento and to a small section of the county east of the river. Sunday a good rain fell in the Elk, and Mayhill section, extending down as far as lower Pecos. Only a light sprinkle fell at Hope.

PURCHASES CASS AND HAMMOND FARM

T. H. Flint of San Antonio, Texas has purchased the Cass and Hammond farm, east of Dayton, it was announced here Monday. This farm consists of 320 acres. Mr. Flint will drill an artesian well and hopes to have part of the farm in cultivation in time for late crops, it was said.

POPPY SALE

The poppy sale by the American Legion Auxiliary last Saturday was a very successful one. Mrs. Frank Linell, poppy chairman, reports a sale of over \$100 worth here, over \$10 worth in the oil field and over \$50 worth in Carlsbad. Everybody seemed willing to help this good cause along.

HIGH SUM OF MONEY INVOLVED IN HOBBS EXPANSION PROGRAM

The Hobbs oil field is in the midst of its greatest expansion program and several million dollars in improvements including three refineries, two or three casinghead plants, three tank farms and one or two carbon black plants, will be made within the next few months, according to field reports.

Among the projects either planned or under construction is the tank farm of the Atlantic Pipe Line Co. This company is reported to have secured a right of way for its pipe line into Hobbs from its Midland Texas tank farm and to have organized pipe laying crews to work on the line. The Atlantic, expected to be the second pipe line into the Hobbs field is rushing the erection of five 55,000 barrel storage tanks at Hobbs and assembling materials for feeder lines in the vicinity. An other tank farm has been started by the Humble Pipe Line Co., whose line has recently been completed to the Humble Bowers No. 1 and the first oil run.

Reports say that a location for the Midwest Exploration Co., refinery a mile south of Hobbs has been made recently and the Shell Oil Co., is also locating a refinery in sec. 18-19-38, a mile from its casinghead plant in sec. 19-19-38. The Shell it is said expects to spend more than a quarter million dollars on this plant alone.

EDDY COUNTY

OIL AND THE COMMUNITY

Just now there is considerable interest being devel-
oped in the oil possibilities of southeastern New Mex-
ico. It now appears that this area will command in-
creasing attention during the coming months. Where
the play will go or how much territory that will be de-
veloped within the next twelve months, nobody knows,
which makes the game all the more interesting. Lea
county has been placed on the map, both from the
standpoint of wealth and population. Some hazard
the guess that Hobbs will be New Mexico's leading
city within the next two years.

Oil operators are looking forward to opening up
another Hobbs field somewhere to the north and west.
This event means that the trend of play will come
farther into the state and the population and wealth
will follow. What all this development means to the
Pecos valley, the future will tell, however, we have
cause to be optimistic. The big boys have turned their
eyes toward New Mexico and that is the big thing.

Of course the communities located in the oil fields
can't hope to hold their flush population indefinitely.
Nobody expects that, but we do hope to have a more
substantial community by reason of oil development.
The recent census report on some of the earlier oil
towns is rather interesting. Ranger the metropolis of
the Eastland county Texas oil field in 1920 boasted of
16,000 people. Before the coming of oil Ranger was
a village of 800 people. In 1930 6,000 people live in
Ranger. Eastland, the county seat of Eastland county,
lost half of its population between 1920 and 1930, but
at the same time oil increased its population by more
than 100 per cent. Cisco another good Eastland county
town lost 1,500 people in the past ten years, but at
the same time Cisco is a far more substantial town
today, by reason of oil than anyone could have ever
hoped for, if no petroleum had ever been found.

FEED 'EM ALL SUMMER

It is sometimes said that many cows would starve
to death in the summer if the summer were long enough.
Heavy producing cows will not come up to capacity on
grass alone. Oftentimes summer heat and lack of rain
burns out the pastures. Yet, because it is summer
many owners of cows expect them to find enough grass
to keep them alive and in addition, furnish a supply of
milk. Milk is made from water and what the cow
eats. The less it has to eat the less milk there will be.
It pays to feed a producing cow a ration of grain even
though grass is plentiful. How much greater the neces-
sity during the months when grass is short and dry.
A good cow always pays for the feed it consumes and
a good dividend on the investment.—Farm and Ranch.

SHALLOW WATER

If one could visualize our farming operations in the
next twenty years, it would no doubt present an inter-
esting picture. The artesian basin, the development of
which attracted capital to the valley, has proved to be
limited in its source. It cost money to find this
out, but since we found out more about the basin and
its origin, we can proceed with an intelligent develop-
ment. We need not be alarmed at the fact that the
more artesian wells which are drilled in the basin, the
lower will be the water level. The state engineer has
seemingly hit upon the right method in authorizing
future drilling of wells, in that the property owner is
required to plug any abandoned well on his property or
repair any leaky well on his property before he is
permitted to sink a new well. If this regulation is
adhered to, we may expect to see the water level
raised somewhat within the next twenty years.

Judging from the present indications, however, we
do not believe that the farmers will seek to develop
the artesian water, rather they will seek to develop the
shallow water, which lies in abundance in many areas
anywhere from 50 to 150 feet. With the coming of
cheap power, the undeveloped resource can be utilized.
It has been estimated that at least a thousand acres
can be cultivated in this trade territory from the
shallow water without any drain on the artesian water
basin. Development in many areas has already started
on a small scale and is expected to increase because
of its economic possibilities. What California and
other irrigated sections have done we can do. Shallow
water is therefore the one hope that we may hold forth
in increasing our farming area.

ADIOS ONE-HORSE TOWN

The small village where the horses and mules used
to swish flies while hitched at the rack in front of the
general store, and where the villagers used to bask
on the sunny side of the post office discussing national
politics, and where when the telephone bell rang every
housewife used to wipe the dough from her hands and
pick up the receiver, is fast disappearing from the map.
The horse rack is gone and motor cars are parked in
the space it occupied. The cracker box brigade is
playing golf or motoring to the city to see a baseball
game and the housewives, instead of listening to gossip
over the phone, are taking setting-up and laying-down
exercises over the radio.—Florida Times-Union.

WANTS TO EQUALIZE TAXES

Nathan Jaffa, chairman of the state tax commission
is quoted by a press dispatch from Santa Fe as saying
that the visit of the tax commission in the various
sections of the state is for the purpose of equalizing
taxes and not to raise them. "Property valuations, ac-
cording to Mr. Jaffa have reached their limit and there
need be no fear that further raises may occur."
The fear of further raises in valuations appears to be
grounded on the new 100 per cent valuation law.

GREATER HOBBS

Fortune occasionally favors a community and Hobbs
is no exception. Real estate agents promoted Hobbs,
All Hobbs and New Hobbs, but before rivalry develop-
ed the three towns had grown together. That's luck.
Most towns have to struggle along and make the best
of it. Sometimes the leading citizens are so narrow
minded that a town or community stays in the small
town class. Small town citizens live in every com-
munity, but whether the town grows usually depends
on the energy put forth by the substantial residents.

Texans will hear more about Fergusonism during
the coming summer months. Jim Ferguson, former
militant governor has been declared ineligible to have
his name placed on the democratic ballot by the state
supreme court and now Jim says that his wife Miriam
Ferguson, first woman governor of the state will take
his place as a candidate. Fergusonism has been an is-
sue in Texas politics for the past fifteen years and
now the voters will hear more about it.

Henry Ford once said, "None of our men are ex-
perts. We have most unfortunately found it necessary
to get rid of a man as soon as he thinks himself an
expert—because no one ever considers himself an ex-
pert if he really knows his job. A man who knows
a job sees much more to be done than he has done, that
he is always pressing forward and never gives up an
instant of thought to how good and how efficient he is."

The Roswell Record thinks Springer for governor
and Dillon for the U. S. senate would probably be the
most formative republican combination in the state and
would be especially strong in the valley.

BUSINESS TRAINING FOR AGRICULTURAL STUDENTS

Outstanding junior students of agricul-
tural colleges of the United States will receive a special six-weeks course
in business training this summer, ac-
cording to Wm. H. Danforth, presi-
dent of the Danforth Foundation. The
business course is offered thru the
fellowship awards of the founda-
tion.

College students awarded the fel-
lowships will receive business train-
ing in the offices of Purina Mills at
St. Louis, a feed milling concern of
which Mr. Danforth is president. The
business training, he says, should as-
sist them in selecting their life work
after graduation.

The course will begin with a week
at the Purina experimental farm at
Gray Summit, Missouri, an institu-
tion that has attracted attention from
farm leaders throughout the nation.
Then the college students will attend
a sales school for two weeks where
new salesmen of Purina Mills are
trained, following which will come
three weeks of actual experience in
the mill offices.

After completing the six-weeks
course in St. Louis the fellowship
winners will be sent to the American
Youth Foundation camp at Shelby,
Michigan where they will spend two
weeks in contact with outstanding
business, social and religious leaders.

Scholarships for several hundred
young people are also being offered
by the Danforth foundation this year.
These scholarships are for two weeks
training at camps of the American
Youth Foundation and are benig-
of-fered outstanding 4-H club members,
high school juniors and college fresh-
men. Eastern winners of the schol-
arships will attend Camp Merrow-
vista at Center Ossipee, N. H., and
western winners will attend Camp
Miniwanca at Shelby, Michigan.

The foundation was established by
Mr. Danforth two years ago in the
interest of leadership development in
high schools, colleges and rural or-
ganizations. Unusual interest shown
last year in the various awards re-
sulted in the number of fellowships
being increased this year.

WESTERN STATES FARE WELL IN 1930 CENSUS

WASHINGTON, D. C. — Proportionately speaking, Nevada, Arizona, North Dakota, South Dakota, and New Mexico, among the more sparsely settled states of the Union, fared well indeed in the 1930 census list of cities of more than 10,000 population.

Wyoming, Montana, Idaho and Utah were not quite so prosperous. Nevada and Arizona thus far registered in the big count as the two states showing a more than 50 per cent increase in all cities of more than 10,000 population.

Nevada's one such city, Reno, increased by 53.9 per cent, making its count 18,483.

Arizona's two, Phoenix, and Tucson increased by 60.6 and 59.9 per cent respectively.

Reno's large increase brought her within range of such cities as Pitts- ton, Pa., 18,279; Auburn, Maine, 18,331; Athens, Ga., 18,486; Glen Falls, N. Y., 18,527; Lakeland, Florida, 18,459 and Eugene, Oregon, 18,639.

Phoenix, population 47,950 now ranks just ahead of Stockton, California, 47,590, and Elmira, N. Y., 47,381; and just behind Everett, Mass., 48,073 and Jackson, Miss., 48,298.

Tucson, 32,449, is in the midst of a varied crowd, Wilmington, N. C., 32,167; Moline Ill., 32,330, both of which she passed; Rome, N. Y., 32,496; Meridan, Miss., 32,527, and Colorado Springs, 32,550.

Rapid City, where former President Coolidge held summer capitol, in the high school building, came in with an 80 per cent increase, largest percentage of growth of any city in the state, making its population 170,387.

In New Mexico, Albuquerque, largest city and only one in the state over 10,000 in 1920 was joined by Santa Fe, which made a population of 10,884 on a 50 per cent increase and Roswell with 11,420.

In Wyoming, Casper, 16,764 with a 46.4 per cent increase, gained on Cheyenne, 17,097, increase 23.5 per cent.

Montana's largest city, Butte, 36,540, decreased by 5.2 per cent. Helena, 11,651, lost by 3.3 per cent, Billings 16,332, increased by 7.4 per cent and Missoula 14,616, by 15.5.

Utah, thus far has no new cities in the list. Salt Lake, 140,058 made an 18.6 per cent gain, Ogden, 40,235, a 22.6 per cent gain and Provo 14,752, a 43.1 per cent gain.

CARBON PAPER—The Advocate

NEARLY ALL SETS CAN BRING IN THREE STATIONS

An Albion, Illinois, man bought a radio. It was no different from any other radio much. But he had difficulty in separating the stations. Sunday he tried to tune in and got three stations coming in on the same wave length. One was a minister up in Iowa, preaching a sermon, the second was a Chicago station broadcasting a talk to farmers on raising chickens and the third was a St. Louis station telling of road conditions. Here is what he heard:

"The Old Testament tells us that baby chicks should detour one mile south of Saline and listen to the words of the prophet Sysy. Use great care in the selection of your eggs and you will find a hard road all the way to Tulsa. We find in Genesis that the roads are muddy just west of the henhouse and you should use clean straw in the nests if you expect to save your soul. After you pass Leavenworth turn north to Jerico. There were three wise men who bought an incubator on account of the bad detour. The baby chicks were troubled with the pip and a bond issue is being talked on these roads. Keep the feet clean and dry, live a life of righteousness and turn south at the school house.

"Much care should be used in commanding the sun to stand still, as there is a washout on the road just south of Paola, and the road to salvation is undergoing repairs, making it necessary to keep the temperature in the brooder at least 70°. After you leave Joplin unless you do these things the wrath of God will cause the pin-feathers to fall out and detour one mile south of the cemetery.

"Many are called but few have any luck unless the graveled road between Lawrence and Topeka is mixed with the feed. Out of 500 eggs one should get good roads to Hutchinson and he commanded Noah to build an ark one mile west of Wichita. It rained forty days and forty nights and caused an eight mile detour just

west of the brooder house. Many tourists from Jerusalem are trying Plymouth Rocks this year, mixed with concrete and waste to the right proportions. Amen."—Exchange.

MUST SHOW KEGS, BOTTLES USED TO MAKE BOOZE

WASHINGTON, D. C.—Commissioner Doran Friday instructed prohibition agents that under the recent supreme court decision upholding the seizure of kegs, bottles, labels, etc., used in the manufacture of intoxicants it was necessary for the government to produce proof that such paraphernalia was intended for use in manufacture and sale of liquor before it could be seized.

SILK STOCKINGS in weights and colors for all your summer needs

SILK STOCKINGS are such an important part of the ensemble that they should be selected with great care . . . in colors to blend with the costume and in quality appropriate for the occasion. Millions of women have found the answer to their hosiery problem in our famous numbers . . . well-known for their clear texture, durability . . . and unbelievably low prices.

<p>No. 444</p> <p>A popular pure silk stocking . . . full-fashioned . . . semi-sheer . . . mercerized top and sole for greater durability and the added protection of the step-up toe guard feature.</p> <p>98c</p>	<p>No. 447</p> <p>This semi-service stocking is a general favorite . . . pure silk to the top . . . full-fashioned . . . with silk-plated sole, heel and step-up toe guard.</p> <p>\$1.49</p>
<p>Rayon Damask</p> <p>There's nothing prosaic about a room that has this rich-looking, rayon damask for hangings and table throws! Woven jacquard patterns in solid or striped tones. 50 inches wide.</p> <p>98c yard</p>	<p>Bath Towels</p> <p>25c each</p> <p>Man-size towels of double thread Terry weave. In all over plaid patterns, stripes, all white or with colored borders. Large-size 22x44 inches.</p>

Almost like magic . . . the **HYDRATOR**

—offered only by Frigidaire—keeps vegetables crisp and fresh

The Hydrator is a new Frigidaire compartment into which you put lettuce, water cress, parsley, celery, tomatoes, radishes. If these vegetables are fresh and crisp when you put them in—the Hydrator keeps them that way. If they are dry and wilted, the Hydrator restores their freshness. It's almost like magic!

Every household Frigidaire is now equipped with the Hydrator. Every one has the famous "Cold Control" for faster freezing of ice and desserts. And to make Frigidaire still more convenient, practical and beautiful—every household model is now rust-proof Porcelain-on-steel inside and out.

See these latest Frigidaires. Call at our display room at your first opportunity.

BIRTHDAY DINNER

There was a splendid family dinner at the home of Charley Rogers, southeast of town Sunday, celebrating the birthday anniversary of Mr. Rogers, which occurred the day before. The big event of the day was the presence of Grandma Rogers, who has been bedfast ever since she fell and broke her hip. She stood the trip to the country well and thoroughly enjoyed the outing. Others of the family present were Miss Cora Rogers and Mr. and Mrs. Harry Jernigan.

MRS. CLARENCE STOLDT HONORED AT PARTY

Mr. and Mrs. Leonard Jernigan entertained at bridge Tuesday evening complimentary to Mrs. Clarence Stoldt of Blackwell, Oklahoma. Refreshments consisted of a delicious salad course. The guest list included besides the honoree Messrs. and Mesdames D. A. Miller, T. C. Bird, Glenn Bish, Stanley Blocker and Harry Jernigan.

SUNSHINE CLASS LUNCHEON

The Sunshine class had a covered dish luncheon at the home of Mrs. E. H. Perry last Thursday. There was a large attendance of members and a most profitable and pleasant meeting. Mrs. R. O. Cowan, class teacher, led the Bible study.

PAST NOBLE GRAND'S CLUB

The Past Noble Grand's club presented its play "One Minute To Twelve," at Carlsbad last Friday night. A number of Odd Fellows and Rebekahs drove down to witness the performance.

SUNDAY SCHOOL CLASS PARTY

Mrs. Grant Knepp's Methodist Sunday school class of young girls had an enjoyable party at the home of their teacher, last Wednesday evening. There were music and dancing and refreshments of ice cream and cake.

DINNER PARTY

Mrs. Laura Welsh entertained at twelve o'clock dinner yesterday, her guests being Mr. and Mrs. S. D. Gates, Mrs. J. H. Jackson and Cavitt Jackson, who was down from Pinon for the day.

GIRL SCOUT HOME IN PROSPECT SOON

The Girl Scout Council is planning to accept the generous offer of A. T. Woods of the Gas Company to give the Girl Scouts a cabin and grounds for their exclusive use. The cabin will have to be moved some distance and fixed up. The improvements contemplated will include adding a screened porch all around the cabin, taking out partitions and putting the interior in shape for occupancy. Also erecting a fence around the property when funds will permit. Furniture will also be needed. The council is counting on the cooperation of the community in this laudable effort to promote the happiness and well being of its young girls. There are about 80 scouts and they are enthusiastic and anxious to do their part to put the project over. So it is up to the community to meet them half way and supply the necessary means. Donations of labor as well as supplies are asked for. It would be no great task for fathers, brothers and public spirited men to get together and do much of the work required. The expense incurred, above donations, the girls plan to raise by shows and other activities. The Women's club and American Legion Auxiliary are sponsoring the Girl Scouts and assures the public that the organization will meet its obligations, if given time to do so.

The young people are the greatest asset of any community and we can do no greater service than to help them prepare for the business of life. Fixing up and taking care of this cabin will be valuable training for the girls and with the help of the people the project will soon be a reality. The Scout Council has pledged itself to manage the project and will be on the job and provide adequate supervision.

"ONE MINUTE TO TWELVE"

"One Minute to Twelve," the play given under the auspices of the Past Noble Grand's club will be repeated at the Central Auditorium next Monday in response to popular demand. The play was given during the I. O. O. F. convention and was pronounced so good as to create a demand for its repetition. Time 8:00 p. m.

MONDAY

The Library Board will meet in the library at 3:00 p. m.

TUESDAY

Mrs. E. M. Phillips will entertain the Idlewhites Bridge club at breakfast at 8:30 o'clock for its regular meeting.

The T. E. L. class will hold its regular business and social meeting at Mrs. Harve Muncy's at 2:30 o'clock.

The First Bridge club will meet with Mrs. S. D. Gates at 2:30 p. m.

THURSDAY (NEXT WEEK)

The Christian Ladies association will meet with Mrs. Will Ballard at 2:30 p. m.

The Methodist Missionary Society will meet at the church at 2:30 p. m.

PASSTIME BRIDGE CLUB

The Passtime Bridge club met with Mrs. Boone Barnett Tuesday. There were five substitutes, Mesdames Gillespie, Howard Gissler, Lydia, Clady and Gray. Mrs. George Williams won high score and Mrs. Gray low score. Light refreshments completed the afternoon entertainment.

FORTNIGHTLY BRIDGE CLUB

The Fortnightly Bridge club was entertained at its regular meeting Tuesday at the home of Mrs. Lewis Story, who served a delicious luncheon at one o'clock. Mrs. M. W. Evans was the only substitute.

FIRST EVENING BRIDGE CLUB

The First Evening Bridge club met at the home of Dr. and Mrs. J. J. Clarke, Thursday evening. Members enjoyed a delightful evening at bridge after a delicious dinner was served at 7:00 p. m. Substitutes were Mrs. Mable Welton and Miss Catherine Clarke.

12 IN 1 BRIDGE CLUB

The 12 in 1 Bridge club held its regular meeting at the home of Mr. and Mrs. Jim Haskins in the Phillips Petroleum camp last Wednesday evening. Messrs and Mesdames Dick Vandagriff and Hugh Kiddy were the substitutes and Rocky Kile and Mrs. Charles Morgan won high score. Light refreshments were served.

BRIDGE PARTY

Mr. and Mrs. Harry Jernigan were hosts to three tables of bridge at the E. T. Jernigan home last Wednesday evening at which time the hostess served delicious refreshments of fresh strawberries and cake. Present were Messrs and Mesdames J. A. Clayton, J. D. Jackson, Harold Dunn, T. C. Bird, Leonard Jernigan and the host and hostess.

THE SECOND BRIDGE CLUB

The Second Bridge club met with Mrs. S. E. Ferree Tuesday for one o'clock luncheon, which was served in three courses. Substitutes were Mesdames Sid Cox, Harry Woodman and J. J. Clarke.

THE STATE PRESIDENT W. C. T. U. TO VISIT HERE

Mrs. D. M. Wingo, of Raton, New Mexico state president of the Women's Christian Temperance Union will visit Artesia on Monday June 2nd.

She will address a public meeting to be held in the Presbyterian church on Monday evening at 7:30 p. m.

Mrs. Wingo will bring a message which should be of great interest to all who are watching the trend of affairs just now between the wets and dries. Besides the ministers of our city other speakers will be present to take part.

Singing will furnish part of the evening's program together with instrumental music.

This meeting will provide a helpful way of both airing your views on this important subject and receiving information.

Mrs. Anna Mae Robinson and daughter, Wilma, Mrs. Lucy Robinson and Mrs. Willingham left Monday by auto for Kansas City, Missouri. Mrs. Anna Mae Robinson and daughter will spend the summer with her mother near Kansas City and Mrs. Lucy Robinson will go on to Nebraska to visit a son and will visit there and in Missouri for an indefinite time.

TWO OLD TIMERS VISIT HERE--REVEAL EARLY DAYS IN PEGOS VALLEY

Sam Bynum of Lubbock, Texas and A. C. Heard of Albuquerque, drove down from Roswell, Thursday for a visit with their old time friend D. Burditt of Artesia. Both Mr. Bynum and Mr. Heard were early settlers of this section and saw considerable action in and around the lower valley and the Seven Rivers area during the early days.

Mr. Heard came to the valley in 1881. He established a ranch on Pontoon crossing about 100 miles below Pecos City, Texas and grazed the range on the west side of the river for an area of 100 miles. The western border of the dominion founded by Mr. Heard was the mountains. Canyons and caves in the mountains made a mighty good place to hide calves from cow thieves, the pioneer said. Mr. Heard's early day experiences were not confined to the cattle industry; he served as county officer of Eddy county years ago.

Mr. Bynum, who is now collecting western relics for the West Texas Technical College, at Lubbock, Texas, had his first introduction to this section as an employee of the XT ranch in 1883. Mr. Bynum says long about this time, life on the plains was tough, but men were honest to the last degree and a case in court was infrequent. Range disputes were generally settled by a cowboy court.

"There wasn't as much gun play in the early days as people think, he says. He tells of an amusing incident that occurred at Old Seven Rivers:

"One night the boys landed in Brownie's bar, at Seven Rivers. That was the only little town in eastern New Mexico, except Roswell and Lincoln, toward the west. Everybody got liquored up, and the fun began. "Old Brownie had a new mirror over his bar that he was particularly proud of. The gang began by shooting off the glasses on the counter; then they started on the whiskey bottle behind the bar. "Let 'er roar, boys," the bartender said and he had a smile for every shot. He knew his onions.

"Then they started on the mirror. They broke it in ten thousand pieces by a volley from every gun in the place. The lights went next, and everybody ducked for the tables. All over the barroom you could see the red flashes from those guns, blazing out in the dark, and each report sounded like a cannon. Why we didn't get shot, nobody knows. But most of the gun play ended with no casualties. The next morning the gang all came back sober. "How much, Brownie?" and they paid every cent of it.

"They were an honest crew. I've seen Monte stakes in \$20 bills stacked six inches high, laying on the table under a six shooter, while the dealer ate his supper in the next room. And nobody ever touched it. The dealer knew they wouldn't. You can't say the same today, even if men don't pack guns anymore. "There was an old boy named Charlie; don't remember his last name—he rode for the old LE outfit near Seven Rivers and he had a way for saving money. Once he got \$1,600 together and went to town. He changed \$300 into \$20 gold pieces and put them in his saddle bag; he liked to hear them jingle when his horse trotted.

Once in a while, though, we'd get a case in court. All this country then was under Lincoln, and the old county court house there was the scene of more than one hot battle in court, even after the days of Billy the Kid. But they were seldom occurrences; most of the suits were settled on the range, by an uninterested party."

TORCH BEARERS CLASS

The Torch Bearers class of the Methodist Sunday school had a picnic party at the home of their teacher, Mrs. James Christman, on Tuesday afternoon. The party had some unusual and intriguing features. An auction sale developed some surprising things. With beans for money the children bought community silver (a dime)—fruit holders (a tin can)—green backs (a frog)—one eyed twins (needles), youthful pastimes (chewing gum and all-day suckers) etc., the articles put up at auction being concealed in packages. They also made a treasure chest in which they placed tokens and records. The latter were mostly humorous comments upon each other, which were not to be read until next year when the chest, which was securely hidden, will be found and opened.

The party was planned as a picnic but the rain drove the children indoors, where the picnic lunch was eaten. A number of the class were unable to be present. Those who enjoyed the good time were Juanita Richards, Zanna Filbert, Natalie Filbert, Peggy Rabb, James Sharp, Eddie Gray and Paul Gray.

Vernon Boyd of El Paso, who has been visiting his aunt, Mrs. C. E. Mann and Mr. Mann and family, returned home Sunday. Mr. and Mrs. Fred Cole, Mr. and Mrs. Tex Henson and Misses LaRue, Lela Beas and Janice Mann drove over as far as Cloudford with Mr. Boyd on his return trip.

LOCALS

Mr. and Mrs. I. C. Dixon motored to Roswell Sunday.

Mr. and Mrs. Harve Muncy were Hope visitors Sunday.

Born to Mr. and Mrs. Frank Harbold, Tuesday evening, a son.

Bert Muncy and family spent the week end at the ranch at Elkins.

Ben Hinrichsen of Roswell was visiting friends here over the week end.

Mr. and Mrs. G. R. Brainard left Tuesday morning for a week's stay at Ruidoso.

Prof. Kerr, wife and daughter, Marjorie left Tuesday for a short trip to El Paso.

Harvey Yates and Noble Littlejohn are at home from the Military Institute at Roswell.

Miss Esther Morgan returned home from Roswell Sunday and will spend the summer at home.

E. H. Perry drove to Roswell Tuesday to bring his son, Allen, home from the Military Institute.

C. W. Roberts left Thursday for Temple, Texas, where he entered a sanitarium for medical treatment.

Miss Katie Cowan returned home last week from Nara Visa, where she has been teaching the past year.

Mr. and Mrs. Miller Ammons of Silver City, spent the week end visiting friends in Artesia and Lake Arthur.

C. Y. Rascoe and Elvy Barker of Carlsbad were visiting friends and attending to business matters here Tuesday.

Ira. C. Farney and son, Homer G. Farney of Las Cruces were in town Sunday, en route to the oil field where they have some holdings.

Mrs. T. C. Bird expects to leave Sunday for Murphreesboro, Tennessee, where she will spend a two weeks vacation with her father.

Mr. and Mrs. Tom Heflin drove to Clovis today to meet their daughter, Lillian, who is returning from school at Cottey College at Nevada, Missouri.

Miss Ruth Hoose, who teaches at Loving, spent the week end at home. On Saturday she accompanied her mother, Mrs. E. M. Hoose, on a trip to Roswell.

Rev. and Mrs. Emerson and Mrs. Alf Coll will be delegates to the state convention of the Christian church which will meet in Roswell June 3rd, 4th and 5th.

Mrs. L. R. Buck, of the Cottonwood community expects to leave Saturday for Blackwell and other points in Oklahoma for a two months visit with relatives and friends.

F. B. Chambers of Hope, was trading in town Saturday. The Hope section is rather dry, despite the fact that there is more water in the Hope canal this year than last, he says.

Dr. J. J. Clarke delivered the commencement address Monday evening to the graduating class of the Cathedral High school, which is located at the Community Center in El Paso, Texas.

Mrs. Bird and three children arrived Tuesday from Blanket, Texas for a few days visit with her son, T. C. Bird and wife. They were accompanied by a young friend of the family, Mr. Switzer.

Mrs. Will Crockett underwent an operation for appendicitis at St. Mary's hospital in Roswell last Thursday evening and is progressing satisfactorily. Mr. Crockett who had been with her returned home Sunday evening.

Wilton Tarbet returned last week from the School of Mines at Socorro, and on Thursday drove over to Hobbs with his parents, Mr. and Mrs. A. M. Tarbet, to visit his sister, Mrs. G. O. Dotson, and Mr. Dotson. They returned Friday.

Mrs. W. H. Hopkins of Canadian, Texas attended the graduating exercises of the New Mexico Military Institute at Roswell last week, at which time her son graduated. Over the week end she drove down to visit with her sister, Mrs. Jim Simpson of Artesia.

Mr. and Mrs. Andrew Hemphill left Tuesday for Lubbock, Texas, after a fortnight visit at the home of their brother, E. B. Bullock. Prof. Hemphill will be instructor in voice at Texas Technical school at Lubbock for the six weeks summer term. Later they will go to Chicago, where he will devote a few weeks to the study of music and go from there to Birmingham, Alabama, where he will be instructor in the Southern University.

Calling Cars, 109 for \$1.75, on best grade paneled or plain stock.—The Advocate.

ANGLERS LOOK FOR A GOOD FISHING SEASON

SANTA FE—New Mexico is due for the most propitious opening of a fishing season in more than ten years, providing the weather remains constant during this week, according to Edgar Perry, state game warden.

Tomorrow the season opens with streams carrying their best stock in the history of the state and with "fly water" already prevailing in many sections of the state, Mr. Perry said.

"Normally we do not have good fishing weather in New Mexico until June," Mr. Perry said, "but this year the high water stages have already passed, streams are clearing rapidly, and if there is no heavy rain in the next few days, we will have almost ideal conditions for the opening of the season."

Usually the New Mexico streams are swirling with the muddy water of spring high water until the middle of June.

The 221 fishing streams and lakes of the state have all been stocked with more than 500,000 fish carried in the hatcheries through the winter.

The spring planting for summer anglers is just about complete, Mr. Perry said, and fish planted range in size from seven to eleven inches.

FISHERMEN ASKED TO FEED HUNGRY FISH

SANTA FE—New Mexico's fish are to get a real break if the movement just launched by the Santa Fe G. P. A. materializes in the manner expected.

Anglers preparing for ushering in the season this week end are urged to drop in at a local hardware store and get one of the 400 half pound packets of clover seed purchased by the local association.

Before you ask how that is going to help the fish, let Game Warden Edgar Perry go into detail on this unique project:

"Few of us appreciate that fact that the more food available for the fish, the more fish we will have. This plan will help our 'fish catching industry,' in many instances, more than planting any number of fingerlings.

"When food is scarce, the fish don't starve—they simply eat each other. Thus the future fish crop, not sufficiently capable of escaping their larger and quite cannibalistic brothers, often face the prospects of being annihilated.

"By furnishing them a harbor for insects to breed and thrive in, we give the population of the streams a decided impetus for growth in size and numbers. For bugs are much easier caught and devoured than having to go thru the streams

LAKE ARTHUR

Mrs. Ned Hodges

Rev. Harold Dye filled appointment here Sunday.

E. C. Latta and son were in Roswell on Monday.

No Lake Arthur is away, this is clean up loaded trucks are our day.

Mr. and Mrs. Dunham (Tice) were over from Tuesday visiting Mrs. Dunham.

Mr. and Mrs. Shirley last week for Kings City where they will visit Mrs. Smith's.

Miss Thula Harvey was visiting relatives here last week left the first of her home in Sibley, Minn.

Mr. and Mrs. J. W. Tuesday leaving soon for a summer Mrs. McCall's parents at Ter, Kansas.

Viets Bernard, son of Mrs. C. R. Bernard arrived day morning from Colorado, where he has been the schools the past year.

The faculty so far next year are: Supt. C. Mark Matley, May Smith, Moss Spence, L. ley. There are several to be filled yet.

Mrs. E. C. Latta was the So and Sew club afternoon. Mr. Latta in the frames and the time in quilting. An hour, refreshments of cream were served to the

Mr. and Mrs. R. W. and children returned from a visit with relatives, Texas. They were accompanied by Mr. D. Mrs. E. V. Dunn of Texas, who is visiting sons, R. W. and Prestia, relatives.

ENFORCEMENT IS REFERRED TO THE ATTORNEY GENERAL

WASHINGTON, D. C.—President Coolidge signed the William C. Sullivan bill providing for the transfer of the enforcement of the prohibition law to the attorney general on July 1, 1933.

The bill is designed to bring about uniformity in the enforcement of the law. It provides for the approval of the attorney general, as well as of the secretary of the treasury, of all appointments and dismissals of prohibition administrators. It also provides for the transfer of the enforcement of the law to the attorney general.

The bill provides that the prohibition administrator shall be appointed by the attorney general, and shall be subject to the approval of the secretary of the treasury. The bill also provides that the prohibition administrator shall be subject to the approval of the attorney general.

RECIPE FOR CAKE

Three-cornered wire sink baskets make good receptacles for dusty and oily cloths in the cleaning closet, as they permit a circulation of air and reduce the danger of fire. They take up little space in a small closet.

If you have not tried making a budget for a year, you might try one for a month just ahead. This is a good plan when changes are likely to occur in the family situation and there is some uncertainty as to what the income will be or the demands upon it. At the end of a quarter or a year you can look both backwards and forwards, determine better what the probable outlay for ordinary household expenses come to each month, and so make a more comprehensive budget.

Butter from pasteurized sweet cream keeps better than butter made from raw, sour cream. Cream may be pasteurized easily by putting the cream in shotgun cans or pails, placing them in a wash boiler or other container and heating. Stir the cream occasionally while heating and keep it at a temperature of from 145° to 150° F. for 25 or 30 minutes. Cool it as quickly as possible to 50° F. or lower and keep it at that temperature for at least three hours before churning. This helps to make the butter granules firmer. Churn in the same way as with raw, sour cream.

"You are charged," said the judge "with beating up this government inspector. What have you to say?" "Nothing," replied the grocer. "I am guilty. I lost my head. All morning I held my temper while government agents inspected my scales, tasted my butter, smelled my meat, graded my kerosene. In addition your honor, I had just answered three federal questionnaires. Then this bird came along and wanted to take moving pictures of my cheese and I patted him in the eye."—Typo Graphic.

BUYER OF BOOTLEG LIQUOR NOT ALWAYS GUILTY SAYS COURT

WASHINGTON, D. C.—The buyer of bootleg liquor cannot under ordinary circumstances be prosecuted. In one of the most important decisions under prohibition, the supreme court Monday made this ruling in the test case of James E. Farrar of Boston.

At the same time it in effect declined to pass upon the question whether the buyer of liquor who knows that shipment is involved in delivery can be prosecuted for conspiracy.

The latter case was that of Alfred E. Norris, New York banker, who bought liquor from a Philadelphia bootlegger.

The high court said since Norris had virtually entered a plea of guilty by pleading nolo contendere, his conviction must be sustained.

In the Farrar case, Justice Sutherland pointed out that up until now the government had not considered the buyer guilty. Commenting that no additional legislation had been passed by congress, he said the court sustained a lower tribunal's decision that quashed the case against Farrar.

Justice Sutherland said that congress might have purposely passed no additional laws, in order that the buyer might testify against the seller.

Following the announcement of the decision, Assistant Secretary Lowman of the treasury in charge of prohibition enforcement, said that the prohibition unit had always taken the attitude sustained by the court.

The decision is expected to result in renewed agitation for legislation to make the buyer guilty. A bill to that effect now is pending.

LIONS CLUB HOLDS GOLF TOURNAMENT

The Artesia Lions club staged a golf tournament on the miniature golf course last Monday evening with twenty-four players entered. First prizes were won by Howell Gage and Vernon Bolton. Bolton receiving a silver cigarette case given by the First National Bank and Gage receiving a thermos jug given by the McAdoo Drug Co. A shaving set given by the Citizens State Bank for second prize was given to T. C. Bird while his partner, George Deane received a flashlight and pocket knife, given by Joyce-Fruit Company.

Landis Feather and T. C. Bird were awarded theatre tickets by the Majestic theatre for the best scores made during the tournament, both players tying on a score of 43. I. C. Keller was presented with a fancy gear shift knob and a dust cloth by the Jackson-Bolton Chevrolet Co., as a consolation prize. His score has not been made known; for publication.

The results of the first round were W. Morgan and R. Dunn defeated Knoedler and Little; Feather and Douglass defeated Glover and Otts; Bird and Deane defeated Gage and Bolton; Clarke and Wells defeated Barnett and J. Richards; Cole and Attebery defeated C. Morgan and Meeks; A. Richards and Conner defeated I. Keller and O. Keller.

The results of the second round were W. Morgan and Dunn defeated Feather and Douglass; Bird and Deane defeated Clarke and Wells; Gage and Bolton defeated A. Richards and Conner; Gage and Bolton defeated Glover and Otts.

The results of the semi-finals were Bird and Deane defeated W. Morgan and Dunn by five strokes. Gage and Bolton defeated Cole and Attebery by three strokes.

Gage and Bolton defeated Deane and Bird in the finals by one stroke.

D. Bee. Know Beekeeper

One often hears the statement that bees know their master. This is not true. During the working season a bee lives for only about six weeks, two of which are spent in the hive. It is hardly likely that a beekeeper would examine a hive frequently enough to become known to such short-lived creatures even if it had the ability to distinguish between different human beings.

The plumber worked and the helper stood helplessly looking on. He was learning the business. This was his first day.

"Say," he inquired, "do you charge for my time?"

"Certainly, you idiot," came the reply.

"But I haven't done anything."

The plumber, to fill in the hour had been looking at the finished job with a lighted candle. Handing the

two inches of it that were still unburned to the helper, he said wistfully:

"Here, if you gotta be so darned conscientious, blow that out!"—Exchange.

CONTROLLED VOLATILITY BALANCES GASOLINE TO FIT EACH SEASON

\$50,000 APPROPRIATED FOR WARM WATER FISH HATCHERY IN NEW MEX.

President Herbert Hoover has approved the bill providing for the appropriation of \$50,000 for the location of a warm water fish hatchery in New Mexico.

This information was received by W. A. Losey, of Hagerman, a member of the New Mexico game and fish commission in a telegram from United States Senator Sam G. Bratton, who has been behind this bill in the United States senate.

The bill some time ago passed both the house and the senate and has been before the president for his approval.

New Mexico has one small warm water fish hatchery, a state plant, located near Dexter, which is expected to develop fish on a small scale for lakes and streams in this section of the state.

While no definite announcement has been made it is expected that the fish hatchery provided for under the bill just signed by President Hoover will be located at the Elephant Butte lake and will provide warm water fish for the entire southwest.

FERGUSON LOSES

AUSTIN, Texas—The state supreme court Monday overruled former Governor James E. Ferguson's motion for a rehearing on his application for a mandamus to compel the state democratic executive committee to place his name on the ballots as a candidate for governor in the party primaries.

It's the Examination

Which counts. Other details of "fitting glasses" are of little consequence unless the examination is thorough and scientifically correct.

Stone service is based upon the firm foundation of thorough eyeglass examination.

If your eyes require glasses special lenses meeting the exact demands for correcting the errors in vision will be accurately prepared. And, too, the frames will impart comfort as well as being suited to your individual appearance.

STANDARD OIL COMPANY OF CALIFORNIA

SENSIBLE WAY TO LOSE FAT

Start taking Kruschen Salts—that's the common-sense way to reduce—but don't take them with the idea that they "possess reducing qualities in themselves.

This is what they do—they clean out the impurities in your blood by keeping the bowels, kidneys and liver in splendid working shape and fill you with a vigor and tireless energy you'd almost forgotten had existed.

As a result instead of planting yourself in an easy chair every free moment and letting flabby fat accumulate you feel an urge for activity that keeps you moving around doing the things you've always wanted to do and needed to do to keep you in good condition.

Then watch the pounds slide off! Kruschen Salts are the up-to-date Fountain of Youth. Take one half teaspoonful in a glass of hot or cold water tomorrow morning and every morning—they're tasteless that way, and if they don't change your whole idea about reducing, go back and get the small price you paid for them. Get an 85 cent bottle of Kruschen Salts—lasts 4 weeks—at McAdoo Drug Store or any progressive druggist anywhere in the world.

QUARANTINE BOARD TO MEET

The Western Plant Quarantine board, composed of representatives from the eleven western states, will meet at the New Mexico College of A. and M. A., June 12 to 14.

According to W. C. Jacobsen, a member of the executive committee of the board, the members of the Southern Plant Quarantine board will be invited to attend the meeting at State College. It is probable that representatives of the Mexico department of agriculture will also attend. Fifty delegates are expected for the June meeting.

The quarantine board will discuss matters relative to the shipment of fruits and vegetables from various parts of the United States into the eleven western states. Prof. R. F. Crawford, head of the department of biology at State College, will discuss, during the sessions of the board the question of sweet potato shipments to and from New Mexico.

THE CHURCHES

CHRISTIAN SCIENCE SOCIETY
613 W. Main Street

Sunday services at 11:00 a. m. Wednesday services at 7:30 p. m.

Subject of the Bible lesson for Sunday, June 1, 1930 is—"Ancient and Modern Necromancy, alias Mesmerism and Hypnotism Denounced."

In this lesson the following scriptural selection is found: "No man can serve two masters, for either he will hate the one and love the other; or else he will hold to the one and despise the other. Ye cannot serve God and mammon." (Matt. 6:24).

Also the following citation from Science and Health with Key to the Scriptures, by Mary Baker Eddy, page 183: "Divine mind rightly demands man's entire obedience, affection, and strength. No reservation is made for any lesser loyalty." Visitors always welcome.

FIRST CHRISTIAN CHURCH
6th and Quay Streets
Ralph Waldo Emerson, Pastor

9:45 a. m. Bible school.

11:00 a. m. morning worship. Sermon subject—"I Go Fishing."

The children's day program will be given in the evening.

We will unite with the service to be held in the First Presbyterian church Monday evening under the direction of the state president of the W. C. T. U.

Prayer meeting Wednesday evening.

FIRST BAPTIST CHURCH

The holiday season is now on us and we must do our best to keep up our interest in the Lord's work. The evil one never slumbers nor sleeps. As the hot days come on the tendency will be to neglect the house of God. Let us be found faithful at all times as God's servants. We have a good Sunday school but the interest will be kept only as we put ourselves into it. Next Lord's day shall we not do our best to be there and to bring some one with us. Our B. Y. P. U. state convention is to be held next week at Clayton. A great convention is expected. We hope to be represented.

Sunday morning the pastor will bring a message on "Dwelling With Jesus." At the evening service the theme will be—"The Great Malady." Our choir and orchestra will furnish us good music. Let us not forget that our time moves up thirty minutes. The B. Y. P. U. services will begin at 7:00 p. m. and the preaching will begin at 8:00 p. m. Sunday evening. We extend to you a hearty invitation to all our services.

R. PETERSON, Pastor.

FIRST PRESBYTERIAN CHURCH
Fourth and Grand
Rev. John P. Sinclair, Pastor
Phone 249.

Sunday, June 1, 1930.
9:55 a. m. Sabbath school.
11:00 a. m. morning worship.

Sermon subject—"The Church and Moral Questions." This Sunday being the beginning of the fifth year of the pastor's ministry with the church here, he will bring a message bearing upon the place of the ministry in the community. Must the minister confine his message to the pulpit? Is there still a sense that the minister is the keeper of public morals? Has the secularization of life in America gone so far that the church has to be quiet on moral questions? What does history teach of this question.

7:00 p. m. Christian Endeavor, Junior and Intermediate groups.
8:00 p. m. as arranged by the Council of Churches hour for evening worship during June, July and August, will be 8:00 p. m. Evening worship sermon subject—"A Fine Old Judge," find him in the Bible.
7:30 p. m. Wednesday, praise, prayer and Bible study of Acts of the Apostles.

Billy Sunday said recently, "When I started to preach, I was afraid I would hurt someone's feelings; now I am afraid I won't."

METHODIST EPISCOPAL CHURCH SOUTH
Rev. Harold G. Scoggins

"The large church with a warm welcome and a helpful gospel."

9:45 a. m. Sunday school. George Frisch superintendent.

11:00 a. m. the pastor will preach on the "Eucharist" at this service the Sacrament of the Lord's Supper will be administered. The pastor would appreciate the privilege of meeting every member of the church at the communion table.

Epworth Juniors and Seniors in their respective rooms at 6:30 p. m. The pastor will preach at the evening hour on the theme "Thine Eye Be Single."

Last Sunday morning the presiding elder, Dr. Moore preached and special music was given by the choir. The choir will be prepared for special music again Sunday.

THE CHURCH OF CHRIST
One Block West of Central School

Brother Cox preached at both the morning and evening hour. There were several visitors from out of

PICKED UP ON MAIN

Albert Richards would like to borrow a Ladies Birthday Almanac to find out something about what old man Zodiac says, so that he can determine when the signs are right for fishing. Albert has never been able to determine which time the fish bite better, when the sign is in the feet, stomach or head. Ordinarily the stomach would be the logical place it seems to us.

If your neighbor seems to be a bit inquisitive and wants to butt into everything, don't get alarmed, he may have been drinking some of Otis Brown's goat milk. Swinging goat's milk is the latest fad in Artesia and is said to rejuvenate both old and young. Ask Higgins.

It may be quite a relief to know that C. J. Dexter and Hugh Burch have returned safe and sound from Washington, D. C., aside from walking a few corns on their feet in trying to locate the capitol building for the first three days after their arrival, they came through O. K. We can't help but feel a little sorry for Mrs. Hoover, if he believes everything Dexter told him about the Pecos valley.

Abe Conner says that officers can't connect him with Sunday night's robbery, as evidence shows that both robbers had on new shoes.

To "Turn State's Evidence"

State's evidence is the evidence produced by the government in criminal prosecution. The term also applies to a person who gives such evidence. When a person implicated in a crime voluntarily confesses his share and gives testimony that will incriminate his accomplices he is said to "turn state's evidence," namely, he becomes a witness for the state. In such cases there is generally an express or implied promise on the part of the authorities that they will not prosecute the witness who thus testifies, or that he will at least be dealt with leniently. Prosecutors do not usually promise such immunity unless there is insufficient evidence to convict the defendant without the testimony in question. —Pathfinder Magazine.

town whom we are always glad to extend the glad hand of welcome and christian fellowship.

Our Bible school attendance is holding up fine for this time of the year. More of the church members are realizing their duty in meeting on the first day of the week to worship their Master. It is to be hoped that more will do their duty and attend more often. Our Bible school lessons are helpful and instructive and more people should take advantage of the opportunity and attend. We have a good gospel sermon every Lord's day at 11:00 a. m. If you like to be entertained by hearing the gospel preached, we invite you to come and worship with us.

Bible school at 10:00 a. m. Sermon at 11:00 a. m., followed by the regular Lord's day communion service.

Out of town visitors, as well as local visitors will always receive a most hearty welcome.

CHURCH OF THE NAZARENE
W. A. Henry, Pastor.

"The church where you are never a stranger."

Sunday school 9:45 a. m. Clarke Wilde, superintendent.
Morning service 11:00 a. m., sermon by pastor.

Junior meeting 3:00 p. m. Ruth Wilde will have charge of the service.
N. Y. P. S. meeting at 6:30 p. m. Evening service at 7:00 p. m., subject—"Signs of the Times," or "The Second Coming of Christ."

In this message the pastor will tell whether he thinks the world is getting better or worse.

Come out Sunday night and hear this much discussed subject. There will be special music by the local Nazarene orchestra. We are proud of our orchestra and are sure you will enjoy hearing them play.

\$4,000 SAVED BY STATE

SANTA FE—The state of New Mexico will be saved about \$4,000 by State Treasurer Emerson Watts on June 1, when he retires series G-4 highway debentures totaling \$260,000 which is due October 1, 1930. This issue was made October 1, 1927 and bears five per cent interest. Mr. Watts will save the state about four months interest at that per cent.

He said Tuesday that the sufficient amount in the sinking fund on June 1 of this issue and that he called in nearly all of the retirement. Tuesday morning the issue had been turned over to Mr. Watts and he believed that he will be able to those bonds by June 1.

UNIT PLAN ADVOCATED BY THE FEDERAL OIL CONSERVATION BOARD

WASHINGTON, D. C.—Conservation of oil and gas through the "unit plan" of operation and action by the various states to prevent waste was recommended yesterday by the federal oil conservation board in a report on petroleum conditions submitted to President Hoover.

The unit scheme is an arrangement under which all operators tapping a particular pool come to an agreement upon the amount of oil that is to be produced within a given period.

The board also said that a particular need at the present time is "specific recognition by the courts of this community of interest by all the land owners in the content of the oil and gas pools, in the oil and gas separate marketable commodities and in the energy of gas."

The "prompt exercise of the police power of the state," was urged to prevent waste in the unnecessary escape of gas from oil wells.

The need of protecting both public and private interest is shown, the board continued, by the recent record of two wells in California, which the report said, have already turned into pipe lines nearly \$5,000,000 worth of oil and gas but from which gas and gasoline vapor worth more than \$10,000,000 have gone up into the air—a total loss to present and future citizens of the state.

"It is to prevent more losses of that magnitude that the idea of self-regulation by voluntary cooperative action is winning increasing support within the industry," the report said. "Self-regulation in the handling of an oil pool means both efficiency in development and operation and determination of equities among the owners, and this can best be accomplished by unit operation. Justice to all owners and benefit to the public can both result from this observance of natural and economic law in recognizing the oil pool as the natural unit."

LOCALS

Ellis Hnulik and wife have moved out to the country.

Billy Linell went to El Paso on business last Thursday.

Mr. Mahone and family made a trip to Cloudercroft Sunday.

Jimmie Welsh is at home from the Military Institute at Roswell.

Paul and Howard Stroup will be home from State College this week.

Miss Jack Ward visited her sister Mrs. Bob Rehn, in Roswell the first of the week.

Mrs. O. N. Scoggins and Mrs. Dick Carson, of Hope, were shopping in town Monday.

Earl Calloway of Amarillo, Texas, oil field engineer spent Friday here on a prospecting trip.

Mr. and Mrs. Ossie Colson of Carlsbad visited Mr. and Mrs. L. L. Clark Monday evening.

William and Stewart Compton are expected home today from the State University at Albuquerque.

Virgil Wells has purchased the residence belonging to S. W. Gilbert, just west of the Baptist church.

Brantley Hamblin has resigned his position with the Mann Drug Co., and will likely accept a place in Roswell.

Mrs. Ben Pior drove to Carlsbad yesterday and will undergo medical treatment for a week at a Carlsbad hospital.

Tom Heflin has taken for the summer the Bulot house on Missouri avenue and will move into it next week.

Mrs. Will Fleming of Pinon, who has been seriously ill at her home, was taken to a hospital at El Paso Tuesday for medical treatment.

C. F. Montgomery, manager of the Joyce-Fruit stores at Carlsbad, is reported critically ill in a Lubbock, Texas hospital with pneumonia.

Frank Morgan of Los Angeles, California, with the Rio Grande Oil Co., spent a short time here the first of the week, looking after business matters.

Mrs. George Frisch and daughters, the Misses Vesta and Margaret, motored to Roswell Thursday to see Mrs. Harold Scoggins at St. Mary's hospital.

The meeting of the Young Mother's club was abandoned last week and further meetings postponed indefinitely on account of chicken pox among the children.

Miss Opal Martin returned Sunday from a weeks visit with her sister, Mrs. Bernard Cleve, at Elk. She brought her two little nephews for a visit with their grand parents.

Mrs. Nevil Muncy and daughter, Florine, attended the commencement exercises in Roswell, Friday. Mrs. Muncy's brother, Kirk Brookshier, was a member of the graduating class.

A crowd of Artesians witnessed the polo game between the Military Institute and Ft. Bliss teams, and the military drill which followed on the Institute parade grounds in Roswell Sunday afternoon.

Mrs. J. C. Floore and son, J. C. Jr., returned last Thursday from their visit to Texas. They came back sooner than they expected on account of the heavy rains, which threatened to make the highways impassible.

Mrs. Luther Kitchell (Dora Roady) and baby, Ruby Jean, are expected tomorrow from Gallup for a fortnight visit with her sister, Mrs. Calvin Dunn. Miss Edna Schnoor, who has been teaching in Gallup will come home with her.

Mr. W. H. Withington arrived from La Pryor, Texas, Friday for a visit with his children, Mrs. V. L. Gates and Mrs. Rex Wheatley, and families, and will leave for home tomorrow, accompanied by Mrs. Withington who has been here for several weeks.

Mr. and Mrs. J. J. Shambaugh and little daughters, Elizabeth and Nancy, came in this week from Des Moines, Iowa, to visit her parents, Mr. and Mrs. W. H. Withington, of La Pryor, Texas and her sisters, Mesdames V. L. Gates and Rex Wheatley and families.

Mrs. C. C. Pior and Mrs. Ben Pior and children drove up to Oklahoma to be present at the commencement exercises of the high school department of Bethany-Peniel College, near Oklahoma City. Miss Vera Pior was a member of the graduating class. Earl Pior was also a student in the school. The young people accompanied them home, also a friend of Miss Vera, Miss Katherine Seidel, who came for an extended visit.

LOCALS

Mrs. H. S. Williams left Sunday for a visit with relatives and friends at Amarillo, Texas and other Panhandle points.

Mr. and Mrs. G. G. Taylor, of Amarillo, were the guests of Mr. and Mrs. R. W. Dunn and family Tuesday and Wednesday.

Miss Helen Sage returned from Roswell Sunday, where she was employed in the Roswell schools, and will spend a short time here with her uncle and aunt, Mr. and Mrs. Frank Wilson, before accompanying Mrs. Wilson to California, where they will spend the summer.

Mrs. Jess Truett and Mrs. Myron Bruning sold poppies in Carlsbad last Saturday, for the Artesia unit of the American Legion Auxiliary. They were splendidly received by the Carlsbad people and were unable to supply the demand as their poppies ran out. As it was they took in over \$50.00.

James Christman, who has been at home for several months, left Tuesday for Kansas City, where he will get an airplane for Shamokin, Pennsylvania. Mr. Christman was employed in aviation at Shamokin and came home after he had the misfortune to lose his airplane. His trip east is for the purpose of going back into the work.

The Latest CORONA

No radical changes. But some interesting refinements and a few added features.

For one thing you may now have a paper bail on your Corona, if you prefer the bail to paper fingers.

You may also order your machine equipped with 1, 1 1/2, 2 line spacing. All typewriters will space single or double between lines; but the 1 1/2 space is something new. It gives a very pleasing effect to a letter and allows you to get more words on a page.

There are other interesting things to learn about the latest Corona. We haven't the space here to describe them; but we will gladly explain them fully if you will drop in or phone us.

THE ARTESIA ADVOCATE

New Mexico Oil Men's Protective Association

The purpose of this organization is to protect the mutual interests of lessees, royalty owners, permittees, operators and producers, so far as it affects their oil and gas interests within the State of New Mexico.

Every person interested in the welfare and development of New Mexico should be a member of this Association.

APPLICATION

I herewith apply for membership in the New Mexico Oil Men's Protective Association and enclose two dollars to cover payment of annual dues for twelve months from date.

THE SEVEN MILLIONTH CHEVROLET ROLLS OFF THE ASSEMBLY LINE

DETROIT, Michigan—The seven millionth car built by the Chevrolet Motor Company is on its way to its owner somewhere in America. The epochal car, which happened to be a coach, rolled off the assembly line yesterday morning, in the company's huge plant at Flint, Michigan. The car was the 1,845,938 six cylinder car produced by Chevrolet since this model was brought out in January 1929.

Chevrolet's newest record maker arrived without benefit of ceremony except for the cheers of the workmen along the final assembly line who halted work long enough to give it welcomed and watch is being driven to the loading docks for shipment. Then work was resumed and not many seconds later car No. 7,000,001 went to join its historic companion.

Various dates in the life of the Chevrolet Motor Company on which the millionth car marks have been past furnish a graphic picture of the rapid strides made by the company to its position of six cylinder leadership in the industry.

Nearly 12 years elapsed after the company's organization before the one millionth car was built, on Feb. 27, 1923, but the second millionth car rolled off the assembly line less than two years and five months later, on July 20, 1925. A year and six months later, on Jan. 13, 1927, the three millionth car was produced. Thereafter less than a year was required to reach each of the succeeding million marks. The four millionth was produced on Jan. 11, 1928, in 363 days; the five millionth, on September 8, 1928, in eight months, three days; the sixth millionth on June 25, 1929, in nine months, seventeen days. The seven millionth mark, just passed, was reached in 10 months, 25 days.

Commenting on the production of the seven millionth Chevrolet, W. S. Knudsen, president and general manager of the company, declared that building a million 6-cylinder cars in less than a year is an outstanding indication of the enthusiasm with which the public has received a 6-cylinder car in the lowest priced field. This class, he explained, offers to buyers to a greater extent than ever before the quality and performance formerly available only in cars of higher price.

COUNTY AGENT SETTING OUT HUCKLEBERRIES IN THE SACRAMENTOS

This week County Agent Leslie Beatty received through the Forestry Service from Oregon a consignment of huckleberry plants.

These will be set out in favorable places near Highrolls and also in Scott Able Canyon, as a beginning. If the plants do well, and it is believed they will, further settings will be made from time to time. Also the huckleberries are expected to spread by seed and runners. At present the huckleberry is unknown to this region, but its natural habitat is similar to many portions of our state.—Alamogordo News.

WOMENS CLUB PLANS NATIONAL MEETING

ALAMOGORDO—The New Mexico Federation of Women's clubs will have a large delegation at the national federation meeting to be held in Denver June 5 to 14, according to Mrs. Tom Charles, state president. New Mexico headquarters will be at Colorado hotel and many reservations are being received from the New Mexico women. Through the cooperation of the state officials at Santa Fe, Ladd Haystad of the highway service bureau will go to Denver with the state exhibit which is now being shown at Hollywood.

It is expected that 1,500 women will attend the Denver meeting and New Mexico has been granted space for extensive exhibits which are being arranged by Mrs. J. D. Atwood of Roswell. Alamogordo is contributing a shipment of white sand with pictures of Alamogordo's all year "snow scene" in the white sands and Tularosa is also featuring the white sands with clever hand-painted place cards and nut cups made of white sands plaster of paris.

Miss Elizabeth Garrett, blind singer and poet, has been given an honored place on the national program of the fine arts department. Miss Garrett is chairman of the folk songs department of the general federation.

CARLSBAD CAVERNS MAY HAVE BEEN ABODE OF AN ANCIENT RACE

CARLSBAD—As awe struck visitors gaze upon the great entrance arch in the future, they may muse upon this realm as perhaps the cradle of a great southwest civilization that abounded forty or fifty centuries ago.

A discovery made known recently unfolds a chapter in an otherwise unrecorded past, revealing how the aborigines of the nearby Guadalupe mountains used the cavern entrance as a shelter and a resting place.

A good example of the basket weaver's handicraft in making sandals, a number of charcoal bits, a few bone fragments, including part of a probable shoulder blade, and a hollow bit of pithy wood tell the story in their own way of how the cavern constituted a "stopping off place" for a long forgotten people.

They were found by Tom Wilson, construction foreman, while directing the work of building a sloping trail to eliminate the eight hundred steps leading into the caverns.

The artifacts were discovered while moving an eight inch layer of rock and a silt deposit near the entrance arch in the lower part. Here the right walls, covered with rusty green only appear solid. Penetrating them for the new trail, to make travel in the cave easier hitherto unsuspected hallways were opened and the relics subsequently found.

Hundreds of thousands of visitors have passed near the place, little knowing of the gnarled, narrow pockets where basket makers rested, and where a former civilization congregated.

It is believed that other fragments were lost in the work. A superficial examination of the discovery place by Superintendent Thomas Boles and

other national park service employees failed to reveal further evidences, as usually found in habitations or burial places, to substantiate any theory that a tribe resided permanently in the caves.

Carrick Salesgirl—And what kind of stepins would you like to buy sir?
Customer—Like those the girl sitting there is wearing.

How to Raise Poultry
By Dr. L. D. LeGear, V. S.
St. Louis, Mo.

Dr. LeGear is a graduate of the Ontario Veterinary College, 1892. Thirty-six years of veterinary practice on diseases of live stock and poultry. Eminent authority on poultry and stock raising. Nationally known poultry breeder. Noted author and popular lecturer.

A GOOD START IS HALF THE RACE

"As the twig is bent so will the tree be inclined," was not spoken of chicks, but the proverb fits splendidly. Chicks must get a good start if they are to develop into good layers. In the first place, strong chicks are necessary. Good environment, sanitary quarters, freedom from dampness and plenty of warmth for comfort are all important factors, but nothing is quite so important as proper feeding.

The ideal feeding method is one which keeps the chicks growing every minute. If your present methods are accomplishing that result do not change but unless your chicks are developing regularly from day to day so that you can literally and actually see them grow, you will probably profit by changing to another plan. That does not mean a more difficult or complicated one. On the contrary it often means simpler and easier methods—most certainly more effective ones.

The time to start proper feeding is the very moment your chicks arrive from the hatchery or when taken from the nest or from your own incubator. Thousands of chicks are killed every year by premature feeding or by being given the wrong kinds of food materials during their first few hours of freedom.

Nature provides all the nourishment needed by a chick during the first two or three days of its life. Just before it emerges from the shell what is left of the yolk which nourished the chick before hatching is absorbed into its abdominal cavity. This supplies all the nourishment needed for the first 48 to 60 hours. To feed anything else during that time may lead to serious digestive disorders causing death later on if not at once. A considerable percentage of so-called white diarrhea cases are caused by premature or improper feeding at this time.

While chicks should receive no grain, mash or other solid food during the first 48 to 60 hours, they can have water, fresh buttermilk or sour milk from the start. If the milk is available water is not necessary, otherwise see that they constantly have before them clean water into which is dissolved Chick Tablets. Water or milk should be given in clean shallow dishes or drinking fountains so arranged that the chicks cannot get into them with their feet.

After about 48 to 60 hours, give them their first feed, placing the food on clean paper or in shallow trays so they can see and learn to eat easily. Do not overfeed as it is extremely dangerous. Baby chicks should be fed about every three hours for the first two weeks and never at any time should they be given more than they can clean up in about fifteen minutes. It is much better to keep them hungry than to stuff them during this period.

Scatter a little grain and fine grit in the litter the first day or two after you start feeding them and teach the little fellows to scratch. If they find some of the grain in the litter they will learn to scratch readily, and as soon as they learn to scratch, all their grain feed should be fed in the litter, as exercise is very important for baby chicks. It causes growth and wards off disease. I can usually teach my chicks to scratch the second or third day, and then I scatter all grain in the litter.

Litter is very essential for baby chicks that are brooded inside. It is the means of providing the exercise necessary for the chick's growth and continuous appetite. It should be dry and clean and free from mold or must.

Chaff that is found in all straw makes excellent litter for chicks. In fact, I prefer it to any other. Shake the chaff from the straw and use it for the chicks. Alfalfa is good, but is should not be as fine as dust, as that will get into the nostrils of the chicks and cause inflammation. Bright straw, hay or alfalfa cut into short pieces make excellent litter for baby chicks.

I have carried on hundreds of experiment during the past fifteen years and as a result of the knowledge thus gained, I have developed a very successful method of feeding baby chicks. Unfortunately, lack of space prevents me from incorporating my method in this article, although I hope to give in the next one. Should you miss the next article or desire any further information about handling and feeding of baby chicks, I shall be glad to answer any questions addressed to me in care of the editor of the paper.

FALL IS SUED BY THE INTERNAL REVENUE FOR SUM OF \$236,325

WASHINGTON, D. C.—The Internal Revenue Bureau has filed suit before the U. S. Board of Tax Appeals to collect \$236,325 in deficiency income tax and penalties from Albert B. Fall, former secretary of the interior and his wife, for money received by Fall from Edward L. Dohny and Harry F. Sinclair.

The Denver Post says it has learned authoritatively that the commissioner of internal revenue at Washington has assessed a deficiency income tax and penalties aggregating \$235,325 against Albert B. Fall, former secretary of the interior and Mrs. Fall.

The Post says that Fall has been called upon to pay additional taxes of \$158,127 and penalties of \$77,127. The amount which the government is demanding is almost identical with the amount of liberty bonds traced by government agents from the coffers of the Continental Trading Company to Fall's accounts in the First National Bank of Pueblo, Colorado, and El Paso, Texas.

The discovery of an appeal to the board of tax appeals of the internal revenue department to avoid payment of the taxes and penalty led to the Post's disclosure of the government's move to recover from Fall and his wife, money which the government contends the former interior secretary received from fraudulent leasing of oil reserves.

A demand for \$235,325 was made by Mr. and Mrs. Fall last December by Commissioner of Revenue Lucas, the post says and according to the government's policy in such matters, no announcement was made of the proceedings, despite the fact that Fall has been found guilty of fraud in connection with the leasing of oil reserves and a District of Columbia jury had convicted him of accepting a bribe.

Two colored gentlemen who had just reduced the population of a farmer's henroost were making a getaway.

"Laws, Mose," gasped Sam, "why you s'pose dem flies follow us so close?"

"Keep gallopin', nigger, said Mose, "dem ain't flies, dem's buckshot."

Why Dine your Neighbor's Cow?.

SAGGING BARBED WIRE is an invitation to your neighbor's livestock to take dinner on your property and at your expense.

You can stop these free meals by using COLORADO Cinch Fence Stays—the patented wire stay that prevents sagging wires and makes barbed wire fences strong and tight.

Cinch Fence Stays cost but little and take only a few seconds to apply. They are fireproof and rotproof. In erecting new barbed wire, they will save you money because you can set your posts further apart and have just as strong a fence.

FOR ARTESIA MERCHANTS ONLY
Being one of a series of chats with Artesia businessmen in which they are told how they can increase their volume of sales.

Turning S-L-O-W Sales into Quick Turnovers

IN THIS, the last of a series of six advertisements, the basic idea advanced in the preceding five is emphasized. That idea simply, is this:

You've got to put forth every effort to keep Artesia's folk coming to your stores and buying in your stores.

Advertising in your local home newspaper can help accomplish that aim. Not only your own advertising, but the advertising of the manufacturers whose good you stock as well.

You cannot get the advertising support of these manufacturers merely by wishing for it. You've got to make the manufacturers realize how necessary it is to you, if you are to sell their goods successfully.

And you can make the manufacturers realize it by selling their salesmen who call on you on Artesia—by interesting them in your local, home newspaper as the means to more sales of your merchandise in Artesia.

This is an opportunity, you merchants of Artesia, that you should make the most of, one that may mean all the difference between slow, infrequent sales and quick, profitable turnover.

You need the advertising aid of the manufacturers whose goods you stock—urge their salesmen to recommend your local home newspaper!

60,000 POUNDS WOOL IS SOLD AT ARTESIA IN BIG SALE YESTERDAY

Sixty thousand pounds of wool was sold here yesterday at the Bullock warehouse at a price ranging from 20 to 22 cents per pound. Practically all of the clip offered was purchased by Charles G. Salter, Roswell wool buyer except the fleeces of the Plains Cattle and Sheep Co., amounting to approximately 175 bags, which was purchased by Ralph Vandewart of Roswell. Messrs. Fred Brainard and Dan Beckett consigned 64 bags to the Cooperative Association at Roswell.

Among the growers, who sold at yesterday's sale were 125 bags for Ed Watts; C. W. Hardin, 40 bags; Nat Camp, 4,000 pounds; Fisher Brothers, 51 bags; D. L. Stone, 4 bags; E. Strain, 3 bags; John Wake 3 bags; Plains Cattle and Sheep Co., 175 bags; Elmer Teel, 5 bags.

Buyers present in addition to Messrs Salter and Vandewart were: Mr. Schneider of Boston, Walter M. Connell, Boston; A. Stanton of Albuquerque. C. A. Baker and Mr. Hills of Roswell were representing the Cooperative Association.

FAMILY REUNION

The V. L. Gates and Rex Wheatley families with their guests the parents of the two sisters, Mr. and Mrs. Withington, of La Pryor, Texas and sister, Mrs. J. J. Shambaugh, Mr. Shambaugh and two little girls, Elizabeth and Nancy, of Des Moines, Iowa, are enjoying a family reunion this week. On Tuesday evening they were all together at a family dinner at the Gates home. Last evening Mr. and Mrs. Shambaugh were hosts and the dinner was given in the roof garden of the Artesia hotel. Today they enjoyed a luncheon together at the Wheatley home.

J. R. Smith, son, Turner, and daughters, Mary and Louise, left Sunday for Alabama, where the girls will spend the summer with relatives. Mr. Smith and Turner will return in a short time. Mr. and Mrs. Middleton have taken the house for the summer.

Mrs. Vada Baxter of Elk, underwent an operation for appendicitis at the Sister's hospital in Carlsbad Friday morning and was resting well according to an early report. Mr. and Mrs. Frank Crockett drove Mrs. Baxter down to Carlsbad and remained with her until after the operation.

LACK OF THRIFT IS A FORM OF CARELESSNESS

By S. W. Straus, President American Society for Thrift.

Within recent weeks millions of dollars in property has been destroyed through forest fires. We are just at the beginning of the summer. As the season progresses, there will be, unfortunately, a repetition of these conflagrations in various parts of the United States.

Forest fires are bad not only because they destroy timber but because they denude land which immediately begins to deteriorate in value. The United States can ill afford to lose any of its forests and it is particularly unfortunate that these losses occur largely through sheer negligence. Most forest fires, it has been said, are due to carelessness in throwing lighted matches, cigar or cigarette butts or through the careless handling of fire by campers.

America is paying all too heavily for the vice of carelessness. Most assuredly we need to learn lessons in thrift along these lines.

An insurance company which recently made a study of accidents in homes found that they total 3,000,000 per year of which 17,000 result in deaths. There is a property loss of close to \$500,000,000 yearly due to preventable fires. More than 2,500,000 workers are injured in industry each year which includes thousands of fatalities and thousands of permanent injuries.

The elimination of this tremendous

In changing from old hay to new hay in feeding work horses, do it gradually, using only a small proportion of new hay at first and increasing the proportion gradually. The same advice is good in making any change in ration. Quick changes may induce serious digestive disturbances.

Cracking, breaking and rotting of shoe uppers is often hastened by perspiration. Furthermore, shoes continually soaked with perspiration are neither comfortable nor hygienic. It is both more economical and more comfortable in hot weather to have two pairs of shoes for alternate daily wear, thus giving each pair a chance to dry out between wearings.

Next fall the pullets and cockrels in the poultry flock will all look about alike, though there will be a great difference in their value for laying and breeding. Now is the time to mark the fastest growing chicks and early maturing birds with bands, or by toe punching, so that the best breeders and layers can be selected later on.

A pale skin and pale linings of the mouth and eyelids of sheep at this time of year may indicate the presence of blood-sucking worms. Farmers Bulletin 1330-F, Parasites and Parasitic Diseases of Sheep, which may be secured by writing to the U. S. Department of Agriculture, Washington, D. C., tells how to treat sheep for external and internal parasites.

If you have a garden don't throw away coffee grounds, banana skins and similar material. These things have fertilizing value and may be added to the compost heap. Add cull vegetables and weeds. The basis of the compost heap may be sod or leaves. Animal manure should be added if available. In addition to waste matter, the compost heap will be helped by bone meal, superphosphate, or phosphate rock. Addition of lime or wood ashes will hasten the decomposition.

Alfalfa should be cut for hay when the plants are well in bloom. Cutting at an earlier stage of growth gives hay of a higher protein content, but cutting nearer full bloom keeps the stand in better condition. As the leaves contain about two-thirds of the feeding value of the alfalfa plant, hay should be put in the stack or mow with as many leaves as possible. This can be done only with a minimum amount of handling after the hay begins to dry. It should be raked before it becomes brittle and most of the curing done in windrow or shock.

Spraying with Bordeaux mixture is the best way to control the potato leaf hopper, which not only feeds on the leaves but causes hopperburn, a disease which sometimes ruins an entire potato crop in one or two weeks. When leaf hoppers are abundant make at least three applications of Bordeaux, says the U. S. Department of Agriculture, and spray a fourth time if necessary to keep down hopperburn until the crop has matured. Spray both sides of the rows, using at least 150 pounds pressure, and see that the mixture reaches the undersides of the leaves. The 4-4-50 formula is generally used. The leaf hopper, which is one of the worst enemies of potatoes, is a very small, pale green insect. The adult is about one-eighth of an inch long, with white markings, and has an H on its body.

ANOTHER NAME TO CONTEST

Last week in publishing the names of the entrants in the Cotton contest the name of W. R. Hornbaker was in some manner omitted. The list was correct as published with the exception of Mr. Hornbaker's name.

James Christman was in Vaughn last week helping a student, who was building an airplane to complete and fly it. Mr. Christman made the test flights, which proved successful. The young man is expecting to join Mr. Christman in air activities in the east later in the summer.

waste of life, limb and property must rest almost entirely with the individual. The installation of safety devices and the enactment of laws and regulations can only partly solve the problem. Individuals must learn more and more the advantage and value of being careful in everything—of not taking chances—of keeping their wits about them at all times—of cultivating constant habits of watchfulness. To do this is a splendid example of thrift.

six communities as follows: Roswell, Dexter, Hagerman, Lake Arthur, Artesia and Carlsbad and that a seventh director be selected from the valley at large. W. R. Hornbaker offered an amendment to the motion that the seventh director be elected from some community below Carlsbad, preferably Loving or Otis, however, the amendment was lost for the want of a second after lower valley committeemen declared that they wanted only one director. A motion was made by M. W. Evans and seconded by W. A. Losey of Hagerman that E. A. Cahoon of Roswell be elected as the seventh member. The election of Mr. Cahoon was made unanimous.

A five minute recess was called in order that the six communities might each select a director. After a committee meeting from each community the following directors were selected: R. L. Malone, Roswell; George Frisch, Artesia; C. W. Beeman, Carlsbad; M. Y. Monical, Dexter; Harry Cowan, Hagerman; E. C. Jackson, Lake Arthur.

The following committeemen attended the meeting from the six communities: Roswell—R. L. Malone, E. A. Cahoon, B. C. Mossman, D. H. Wilmot, J. Q. Cummins; Dexter—Isaac Wortman, Olden Moore, M. Y. Monical, J. E. Love; Hagerman—W. E. Bowen, Harry Cowan, J. T. West, E. V. Sweatt, W. A. Losey; Artesia—W. R. Hornbaker, M. W. Evans, George Frisch; Carlsbad—C. P. Pardue, C. W. Beeman, W. E. Smith, L. B. James, Joe Wertheim; J. R. Ogden; Lake Arthur—E. C. Jackson.
