DOCKET SET FOR THE DEC **COURT TERM**

Civil and Criminal Docket Set Tuesday By Judge McGhee At Carlsbad; Minor Cases Heard At Setting Tuesday.

Judge James B. McGhee set the criminal and civil cases for the December term of the Eddy county district court at Carlsbad Tuesday. A setting of non-jury cases was also made Tuesday morning by Judge McGhee, who heard a number of motions and minor cases in the chambers of the district court room at Carlsbad.

The December term of court starts on December 9th. Eleven criminal cases and four civil cases have been set on the docket as follows:

L

Criminal Docket December 9-State of New Mexico vs. Ted Johnson, et al.; State of New Mexico vs. Fred Gomez and Alfredo Orosco; State of New Mexico vs. Robert Helbert.

December 10-State of New Mexico vs. Felipe Talmantes; State of New Mexico vs. Roy Hepler and J. L. Williams; State of New Mex-ico vs. Roy Hepler, J. L. Williams and Andres Garcia; State of New Mexico vs. Blas Flores. December 11-State of New car loads have been shipped out

Mexico vs. Warren Graves; State of New Mexico vs. N. F. Walker; State of New Mexico vs. Harold Dickson; State of New Mexico vs. Harold Dickson

this office and asked for money to buy something to eat. From all appearances the girl was in destitute circumstances. She said she was one of a family of eight. When it was suggested the welfare association was able to care for emergency cases and would no doubt be glad to aid the family, the young lady walked out, but not toward the welfare office.

Such cases create sympathy, but how is the ordinary business man able to distinguish the worthy from the unworthy cases? Most anybody up and down the Main street of Artesia as well as any other community would gladly give something to relieve the hunger of a human being, but the point was reached long ago where a private individual had neither the time nor the money to make a personal investigation and there have been so many frauds perpetrated on the public involving misery that the ordinary man has become leery of any proposal from a stranger.

Obviously the sensible thing to do is to refer such cases to the welfare committee for an investigation and if the welfare association is not financially able to assist, but finds the subject worthy, then the example of a commercial appliance public ought to help, but not before.

THE ROGERS MEMORIAL

From now until Thanksgiving, the American people will have an opportunity to contribute to a move to perpetuate the memory of a great citizen of the common ranks, one who never sought political comfort of married life." honor of public recognition in the usual way during his lifetime, but who, through his homely philosophy and common sense, brought cheer and smiles to millions and even though most of us never knew him personally, we did feel a personal loss in the untimely passing of Will Rogers.

Definite plans at to what the memorial will be have not yet been completed, but we are assured by the memorial commission that it will be a fitting tribute to a great citizen beloved by all America.

straw vote, this time on the New Deal. All of which serves to remind us that strenuous efforts will soon be made to save the country. de relief ?" she asked.

The vote is expected to show whether Roosevelt is actually slipping or whether he needs a little more resin on his feet. The her. result of this nation-wide straw vote is expected to prove heartening to the republicans or again it may cause them to have heart-failure.

Among all the other things we have asked the business men to do for us, there are two requests we have never developed the intestinal stamina to make known and still live among you. One is to start a high-powered subscription campaign, fill the streets with beautiful young ladies to solicit subscriptions to win a car, a radio or a pink elephant. The other is to permit some traveling special edition and never would?" representative to come into Artesia and take up your time by reading a long-winded news story about you and your business, winding up by asking for the trifling sum of \$5.00 or perhaps \$15.00.

The other evening we heard a woman ask what in the world would become of the younger generation. That's an easy one. They'll fall in love, get married, have children and trouble and all that sort of thing, and as they get older they will worry about what's to become of the younger generation.

Consistent advertising is the merchant's pledge of quality; it is Jew ye can name, ye can pull out visible proof that he has faith enough in his goods to back them wan av me whiskers, and fer ivery of C. O. Brown as a deer hunter is with his name .- Stolen.

Advertising is what draws away the trade from the small village. Advertising will also keep it at home.

If you know what you want the salesman will be less likely to sell you something you don't want.

Brilliant Coloring of the Trees In Autumn

George and Newt Teel shipped Is Due To Sugar out 831 lambs to Colorado feeders Friday.

SHIPS LAMBS

It's not an early frost, as commonly supposed, that produces the most colorful autumn leaves, says the United States Forest Service. It's a late frost-and the sugar in colors. Just the right combination night. of temperature and moisture is needed. The best colors came

Silviculturists explain that be- Monday.

fore the leaves fall a layer of cells forms at the base of the leaf, which ultimately loosens the leaf, and, when it drops off, forms a scar. If frost doesn't arrive too soon, this layer forms early and quickly. It holds more sugar in the leaf and the sweet sap causes the brilliant reds and oranges and yellows that delight the eye. This is not only true of the gorgeous sugar maples in the north, but of most of the colorful hardwood trees-the oaks, elms, birches, other maples, sweet gum, black gum, hickory, dogwood, and many others. When frost comes too early the leaves dry and lose their sugar before they have time to take on high color.

H. V. Matthews of Hobbs and A. M. McCorkle of Fort Worth, Texas, head of the Texas operations of the Standard Oil Co., were the leaf-that gives us the brilliant guests at the Artesia hotel Friday

THERE ARE NO SAFER BRAKES MADE

than the Super-Safety Brakes of the 1936 Ford V-8

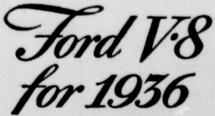

NO other car in America has the same basic design as the Ford V-8. Because of this design, the Ford could use any type of braking system now in common use. (Diagram at left shows why.)

With the whole field to choose from, Ford stands by mechanically-operated Super-Safety brakes as safest, surest, and most positive for the Ford V-8.

This is the type braking system used on many of America's costliest cars and most racing cars. Because of unique chassis design, Ford can use it to better effect than any other car built today.

All in all, no safer brakes are made than you get with the 1936 Ford V-8. Drive it today-and see for yourself.

AUTHORIZED FORD DEALERS

FORD RANGER REVUE, KOA, MONDAYS, 8:30 TO 9:00 P. M.

ARTESIA AUTO CO. Phone 52

4 INDEPENDENT BRAKE-RODS Four brake-rods [3] of strong, tempered steel link the pressure of your foot on the pedal with the four big brake-drums on the wheels. They do this positively, surely, under all road conditions. Note especially that no one Ford brake has to depend on the other three. Failure of one-practically impossible-would still leave you three perfectly-operating brakes.

Tear out this chart and check it with the car you are driving now.

FORD PERMANENT WHEELBASE

Radius rods [1] brace the front axle like a pair of giant arms. Radius rods and Torque-tube [2] give triple bracing to the rear axle. This means that the front and rear axles of a Ford car are always held equi-distant-in perfect alignment. On this permanent wheelbase any braking system now in common use could be used. Only with this Ford-type wheelbase, can mechanical, Super-Safety brakes be used to the fullest advantage.

eousness." (II Tim. 3:16) The lesson-sermon also includes the following passage from the

Christian Science text book: "Christian Science separates error from truth, and breathes thru the sacred pages the spiritual sense of life, substance, and intelligence. In this science, we discover man in the image and likeness of God. We see that man has never lost his spiritual estate and his eternal harmony."

CHURCH OF CHRIST Corner 7th and Grand Ave.

Our Fall meeting begins November 10 and will continue ten days. Reserve the time and attend every service. Regular services Sunday. Bible school at 10 a.m. Preaching 11:00 a. m. and 7:00 p. m Young People's class 6:15 p. m. Prayer meeting Wednesday 7:00 Ladies Bible class Thursday 2:30

p. m. ALLEN E. JOHNSON,

Minister

FIRST CHRISTIAN CHURCH

Announcements for the week: Thursday-

All-day meeting of the Women's association at the home of Mrs. Jeff Hightower. Men of the church are invited to the luncheon.

7:00 Choir rehearsal at the church. Sunday-

9:45 Sunday school.

11:00 Morning worship and Communion. Sermon: "Looking Toward Higher Levels.'

6:15 Young people's meeting.

7:30 Evening service. "Contributions of Non-Christian Religions, No. II." These discussions of nonchristian religions are preliminary to our new Sunday evening series of services: "Toward a Better Understanding of the Religious Bodies of the United States." Following the third Sunday evening on non-christian religious, three sessions will be given to a consideration of Jews and Catholics, and then several weeks on the major protestant bodies, beginning with those represented in our own community. Everyone is cordially invited to attend these studies. Monday-

7:30 Meeting of the church board.

Wednesday-

7:00 Bible study. THOMAS MASSIE, Pastor.

Calling Cards 100 for \$1.75, on best grade paneled or plain stock. -The Advocate.

Undersized Lamps May Save Penneys.

But They Make YOUNG EYES **BALK!**

If good lamp bulbs cost five dollars apiece, there might be reason for using them sparingly. But when good light is so cheap, give young eyes all they need!

Nature never intended eyes to focus on objects less than fifteen feet away. That is why good light is so important whenever close work must be done.

Look at your boy's reading lamp now. Test it with your own eyes. A 60-watt Mazda bulb costs no more than a 40. A small price to pay for helping to keep your child's eyes normal.

8½ chilly hours since he parked

BUT NO CHANCE OF DAMAGE ... HIS ENGINE

stays oilea

Today you can use a winter oil which builds itself right into the "innards" of your engine. That is, a certain portion of Conoco Germ Processed Oil really forms a BOND with metals, and stays on continuous duty where all the worst friction used to come.

This uncanny action, created by the patented Conoco Germ Process, automatically wipes out the costliest winter wear ...

"Dry," unlubricated, wracking starts? ... Not with the oil that's Germ Processed to stay up on the job every minute, every hour, every day that you park-"whatever the weather" ... Not when Germ Processed Oil has become

a part of all metal surfaces . . . Not with the Hidden Quart, which has enabled many an engine to run with the crankcase absolutely empty-in verified show-down tests.

And this same patented Germ Process means extra protection not only for the conventional babbitt bearings, but for the newest bearings-whether copper-lead, high-lead or cadmium-alloy. Germ Processing also creates the highdurability oil film . . . hence a light, free-flowing winter oil that's tougher too, for the toughest going of all the year. You and your Conoco man can make this whole Winter "act gentle" to your motor, beginning today. Drive in.

Conquest of Syphilis

At the recent meeting in Milwaukee of the American Public Health Association a crowded audience of health officers listened with something like amazement while Dr. Einar Rietz, health officer of Stockholm, described the successful Swedish campaign for Out in the plains of lost romances, the conquest of syphilis since the year 1919. Said Dr. W. W. John- It's a tourists' paradise ston, health officer of New Mexico's fifth district: It was worth O the land of golden sunshine, coming to Milwaukee if only to hear this one paper.

Since 1919 syphilis has decreased in Sweden from 6,000 new cases in a year to about 400. One quarter of the remaining annual infections are acquired by Swedish sailors in foreign ports. The population of Sweden is about the same as that of upstate New York where there are at present some 11,000

new cases of syphilis each year. Sweden does not offer free treatment of sickness to its citizens except those suffering from venereal disease and the insane. Every person infected with syphilis must be treated until there is no danger of infectious relapse. Many prefer to be treated by their own doctor. In those cases all drugs are supplied free by the state. This is generally interpreted as a three year period. Hospitalization is provided where needed. All girls under eighteen are taken into hospitals to avoid associations which might be detrimental to them. The transmission of a venereal disease to another person in Sweden is a penal offense involving punishment up to the "class of "forced labor." Diligent search is made for the source of every infection.

The late manifestations of syphilis-heart disease, aneurism, syphilitic insanity and so an-are becoming so rare that it is difficult to find cases with which to instruct the Swedish medical students.

If syphilis can be conquered in Sweden why not also in the United States?

WANTED-Clean Cotton Rags at The Advocate.

Choice," composed by Guy Smith, an Artesia boy, has received praise from many local people. We are reproducing it because we believe it is an outstanding piece of literary work: When you're lauding dear old Texas And the many states we know;

While praising all the others, Don't forget New Mexico. Out here where life is so happy, The air so balmy and light: Where the sun shines in the daytime And the moon and stars at night.

Under New Mexico's full moon; When the desert is in bloom.

Most beautiful state I know: Where the sagebrush and the yucca And the curly mesquite grow.

Oh the plains and the peerless

Oh the sunset's golden glow; Oh the vales and hidden canyons Of this charming land I know. Oh the lure and the enchantment Of New Mexico's fair land; Here we choose to live forever In God's paradise so grand.

Miss Agnes Covalt, public health nurse in Eddy county, who has been appointed chairman of rural Eddy county Tuberculosis Seal sale, talked on the problems of tuberculosis throughout the county of the total lint production, is the and on the seal sale.

Mrs. Ann Kinder, Artesia school nurse, told how the sale had been these certificates at any time in conducted in Artesia in former years and how the proceeds had bad or at Artesia on Saturday, been used. Supt. W. E. Kerr of Artesia schools told of a hot lunch project for which Artesia has applied.

Mrs. Kinder, who has just completed the hearing and the vision tests in the schools, reported a number of parents had taken their children to have their eyes examined by a physician, and a large number of pupils had been fitted with glasses. An unusual record was found in junior high. A class of thirty-six was given the vision test and none were defective and none wore glasses.

any adjustment payment. He also must insert on the cotton sale certificate the number of the Bankhead application covering the cotton described by the cotton sale certificate. These certificates must be submitted to the office of the ounty agent before November 15. covering cotton which was sold

prior to November 1st. All sale ertificates covering cotton sold in November must be in the office of the county agent within seven days after the date of sale. There will be no exceptions to this ruling and the producers are warned to submit their sale certificates immediately after the sale.

Information has been received from the state office that all certificates which were submitted to the national pool in 1934, and all certificates which were surrendered to Washington to be exchanged for certificates in 1934 form, will be returned to the office of the county agent in the near future. When these certificates arrive the county agent will immediately notify all persons who have certificates in this lot.

World's Champion Horse Shoe Pitcher Gives An **Exhibition Here Tuesday**

Ted Allen of Alahambra, Calfornia, world champion horse shoe pitcher, gave a really convincing demonstration of his ability as a slinger of horse shoes, Tuesday evening at the Central school auditorium before a small audience. Mr. Allen, en route home from New York, is making several stops along the way and his appearance here was sponsored by the local recreational committee. The world's champion rung the

peg at a distance of forty feet with almost a monotonous regularity, using a regulation two and a half pound shoe. With the aid of an assistant he stuck three pegs in the box and rung a peg as directed. He also rung the peg with the peg hidden from his view. He ignited the torpedoes and put them out again with his flinging. His most daring trick was knock ing a cigar out of his assistant's mouth with his shoe and at the same time ringing the peg, and the next most daring trick was knocking a paper sack from the head of his assistant and at the same time attempting to ring the peg.
