'Catch and Have' Contest Will Be Fair Feature

Plans are going forward rapidly for the "Catch and Have" calf contest at the 1944 State Fair. This event has been conducted at the two preceding fairs and has been a major amusement for the grandstand crowds and an important benefit to the boys and girls who have won the calves and have brought them back, with pride, to the fair in the following year. The calves have been donated, and will be donated again this year, by public spirited cattle growers, who are breeders of high grade registered and commercial Hereford cattle.

T. J. Helman of Mosquero, State Fair commissioner, is chairman of the "Catch and Have" committee, and Horace H. Hening, secretary of the New Mexico Cattle Growers Association, has accepted the position of secretary and the job of soliciting for calves. Already four have been offered in response to his requests and he has no doubt that the twenty calves required for this year's contest will be donated.

The date for the "Catch and Have" contest has not yet been set, but will be held, as usual, in the evening before the grandstand.

Only boys and girls who enter calves, sheep or swine in the junior contest are eligible and these

will be chosen, as in the past, according to the quality of the animals they exhibit. Last year nineteen calves entered the arena and were caught. Eighteen of the nineteen will appear in the junior calf contest at this year's fair. In addition to entering the junior contest, they will contest also for \$50 in special prizes offered by the New Mexico Chain Store Committee, whose members have been liberal buyers at junior livestock sales.

It seems silly, but Denver police say that this must be what happened: Thieves stole a small truck. It later was found axle-deep in the shallow Platte River. Marks on the bank indicated that the throttle was wide open and the machine was sent plunging almost sixty feet into the water. Their theory: Somebody wanted to see how big a splash would be made.

whose slip was showing, he thought he'd investigate. The glimpse of lingerie was due to the passerby holding up his arm to steady a case of cigars on his shoulder. Norton found not one but six dainty slips under the man's coat. Both slips and cigars had been stolen.

The old army saw about shells "having your number on them," is no bunk, says Lt. John R. Slaten, of Kenneth Square, Pa. He wrote Evansville, Ind., relatives that his Liberator bomber crew recently found a piece of flak embedded in the ship after a raid. The flak had the number 508 written on it—and 508 is the number of Lieutenant Slater's plane.

Amazing new war vehicle travels in water...glides like a ghost over swamp or sand

Army's latest Weasel M-29C Built by Studebaker and powered by famous Studebaker Champion engine

HERE'S a brand-new example of the teamwork of the Office of Scientific Research and Development, the War Department and Studebaker engineers... It's the latest model of the Army's versatile track-laying vehicle known as the Weasel... This new M29C is just as much at home in water as it is on sand, mud, swamp or solid ground... It not only propels itself in deep water, fully loaded, but it also clambers up and down steep, slippery banks with amazing ease... This new Weasel is built by Studebaker under contract with the Ordnance Department, Army Service Forces. It adds another unit of war equipment to a Studebaker list that includes aircraft engines and war trucks.

Herds of War

"Out where the West begins" is where important food for war begins too.

The thundering herds of our western ranges stand for a basic food men eat to fight on, men eat to work on.

When the war cry went out for meat and still more meat, western

ranchers, stockmen and farmers responded by raising the greatest number of beef cattle, hogs and sheep in the history of our country.

Put her there, partner! You're doing a great job in that fighting Home on the Range!

WFA ATTEMPTS TO INCREASE PELLETS SUPPLIES

To increase production of protein pellets, WFA has extended the quota exemption of protein meals used in the manufacture of range pellets and cubes to the quarter beginning Oct. 1. The exemption provides what amounts to a bonus of protein meal for manufacturers of cubes and pellets—containing not less than 30 per cent protein—for range feeding of cattle or sheep.

PRESENT GRAIN SORGHUM CEILING WILL NOT CHANGE

OPA and WFA have assured producers of grain sorghums that ceiling prices for the 1944 crop will remain at the present level it was announced by Roy Forehand, chairman of the Eddy County AAA Committee.

It is considered impractical, the agencies pointed out, to make any major changes in prices during a period of crop movement.

Pix Rhapsody

Hollywood's search for boys to portray the Sullivan brothers in 20th Century-Fox's production of "The Sullivans," which opens Sunday at the Ocotillo Theater, marked what was perhaps the biggest manhunt in motion picture history. The long search for five "unknown" actors was nationwide in scope.

While the manpower problem is as acute in Hollywood as it is anywhere else, it was entirely possible to find five well-known, seasoned actors to portray the brothers in the film which features Anne Baxter and Thomas Mitchell. But Director Lloyd Bacon preferred inexperience. "The Sullivan Boys," he said, "were just average American kids. That's what we're looking for."

That's what he found. James Cardwell, a Camden, N. J., boy who plays George, the eldest brother, was working as a factory expeditor for RCA when 20th Century-Fox talent scouts discovered him.

John Campbell, who was selected as Frank, is a former Dartmouth student, whose only professional acting experience was a tour with a roadshow company of "Junior Miss."

George Offerman, Jr., who grew up at the back door of a major studio, plays Joe. George acted as an extra in several movies while going to school, but has never played a major role.

John Alvin, borrowed from another studio, hails from Chicago. John, who represents Matt, is the closest thing to an experienced

WPB EASES UP ON SALE OF AMMUNITION

The War Production Board is still restricting the sale of ammunition, but New Mexico's predatory birds and animals can look forward to the most dangerous fall and winter since Pearl Harbor.

A. D. Woofter of the State AAA Committee, announced that between now and Jan. 1, dealers may sell to ranchers, farmers, and hunters no more than 150 rounds of .22-calibre rim fire cartridges, forty rounds of centerfire rifle ammunition or fifty rounds of kinds packed fifty to the box, and 100 rounds of shotgun shells of any gauge.

Mrs. Kenneth Brodt and her husband, who received a medical discharge from the Army, have gone to St. Paul, Minn., after spending the month of August with the parents of Mr. Brodt in Rice Lake, Wis. Mr. Brodt expects to enter the University of Minnesota in Minneapolis Sept. 17. Mrs. Brodt is secretary to the head of the English department at the university. They expect to live in St. Paul and commute to Minneapolis.

actor. Oddly enough, he'd played practically nothing but Nazis before this chance at a real-life role.

The coveted romantic lead opposite Anne Baxter was won by an 18-year-old Irish youngster named Eddie Ryan, from Brooklyn. Although Eddie's film career was preceded by a lengthy stage record, he's never appeared in a Hollywood feature film. His last stage appearance was as the oldest boy in "Watch on the Rhine."

Miss Baxter was Katherine Mary Sullivan's own choice to represent herself on the screen. The studio was happy to comply.

Mrs. Brodt is the former Peggy Linell, daughter of Mr. and Mrs. William Linell.

Mrs. D. M. Schneberg and Mrs. E. M. Perry expect to go to Raton today to spend a week with Mrs. L. I. Taylor, sister of Mrs. Schneberg.

HAND IN HAND WITH THE THREE R'S GOES A FOURTH—

Reddy!

School days again remind us that reading, riting, 'rithmetic could hardly get across so well without another "R" necessary to modern education—Reddy Kilowatt.

From the moment their electric clock gets the youngsters up, Reddy is busy all day for them. The breakfast-table toaster, the corner traffic light, often even the school bell itself, depend on modern electric service. You can think of many more ways Reddy helps.

Lighting is the most important. All study needs it, in school or out. With the coming of shorter days, children will spend more time in study, more time studying after dark. Here's where Reddy can do his best for students. Good home lighting is inexpensive. It takes little time or effort. It will pay dividends in easier seeing.

Make sure your light is right! Sight is priceless—light is cheap.

PARENTS — Most electrical dealers now have light bulbs in all common home sizes. Fill your empty sockets and follow these few simple rules to secure more light from your bulbs:

- Wipe all light bulbs frequently. Keep reflector bowls and shades clean. Dust and dirt rob you of light!
- Use the RIGHT SIZE bulb in each lamp or fixture.
- A white-lined shade will reflect more light for use. A dark lining absorbs it.
- Move lamps closer to points of use, so they shed light directly on the work.

BY BILL DUNNAM
"SHIPWRECK" ENGHOLM

It was a sad day for us when a message came telling of the passing of W. R. ("Shipwreck") Engholm, who gave his all out in the "Shipwreck"—and there's a story connected with that. "Shipwreck" was a likable, lovable easy-going kind of fellow. He was courteous and without a drop of malice or hatred, kindly, courteous and without a drop of malice or hatred, kindly, courteous and without a drop of malice or hatred. We always had it in our mind if any of the boys were killed from the war, it would be "Shipwreck."

Unfortunately, we didn't know "Shipwreck" but a few months before he was killed we formed an attachment for each other. These few months we formed an attachment for each other. We think of those "bull sessions," they bring to mind one of the best and most desirable virtues. He was tolerant toward his fellow men. Never, do we recall, "Shipwreck" ever saying an unkind word to any other human being. Not even about those who had wronged him.

PICNIC AT RUIDOSO

A campaign of Republican candidates for state office got off to a start at Ruidoso over the week end. J. G. Moore, Republican chairman of Lincoln County, and H. Smith, precinct chairman of the same county, assisted and supported financially by the business people of the resort town, regardless of political affiliation, gave a party. The party consisted of a banquet Saturday night and wound up with a picnic Sunday afternoon. The state candidates who spoke, were Gunderson, candidate for governor; Filemon T. Martinez, for lieutenant governor; Manuel Alvarez, for congressman; and Seth Alston, for state treasurer. The picnic was officially launched at a barbecue at noon. More than 2,000 people were served. Volunteer counters checked them out before the last couple of hundred were fed. The picnic was a success. The candidates' addresses which impressed us were his reference to roads. As we understood it, Mr. Gunderson's farm and ranch to market roads in this state before they were built. He told how farmers and ranchmen in his part of the state, frequently had to haul their produce and livestock because the roads were so muddy and poor. He said there were other large sections of the state which were no better than his. Maintained he knew from having ridden over them. He said it was a fine send-off for the Republican party and it was a tribute with gratitude honors accorded it. It was somewhat astonishing to find such a large number of prominent Democrats taking part in the proceedings and their support and votes to the GOP.

GUNDERSON

Mr. Gunderson, big 6-foot, 240-pound hunk of patriotic American, candidate for governor, kind of grows on you the more you are with him. Our only criticism of fellow is that he is too much of a politician and not enough politician. He likes to say "yes," but he says "no," so positively and emphatically the subject is dead from the ground. A few facts we learned about him. Like most successful politicians, he is reluctant to discuss himself or private affairs, except when he is a candidate for the highest office in the state and no

Mrs. Harold Crozier drove to Lubbock Saturday and returned Sunday, bringing Mrs. A. C. Crozier, who underwent major surgery in a Lubbock hospital two weeks ago. Mrs. A. C. Crozier made the return trip fine and is recovering rapidly. Mr. Crozier, who had been in Lubbock with his wife, returned home also.

June Roberts, young daughter of Guy Roberts, arrived last week from Mississippi, where she has been for several months with her grandmother and other relatives.

What we couldn't pry out of him we secured through other reliable sources. Gunderson was born in Eagle Grove, Iowa, and came to New Mexico in 1917—27 years ago. He is of Norwegian descent. Since coming to the state, he has been employed principally in a sales capacity in Bernalillo, Sandoval and Valencia counties, until he entered business for himself years ago.

He is now serving his third term as mayor of his home town, Grants, which is a thriving community over in the western part of the state. It is surrounded by mining, cattle and sheep and agriculture industries.

During his administration, not one cent of city property tax has gone into the municipal fund. Such taxes are diverted to the city school system.

Through careful, economical and efficient management of city affairs, his administration has accumulated more than \$20,000 worth of property for his town on which not one dime is owing.

Since his discharge from the U. S. Navy after World War I, he has been active in the affairs of the American Legion, in the hopes, as he put it, that "I might render some small service to those buddies who were not as fortunate as we, and returned with broken health and disabled bodies."

The fact that he has not devoted all of his time to his personal affairs and the building of personal wealth is attested by the fact that he is a member of the National Council of Boy Scouts, was District Governor of Lions, and is now Deputy District Governor.

He was selected as chairman of the committee to raise funds for relief of the unfortunate victims of one of America's most shameful and disastrous defeats—Bataan, Corregidor. Under his direction the committee raised \$14,000. Look up the size of his town and you'll realize what a feat that was.

He is also a member of the Masonic Blue Lodge at Gallup; the Scottish Rite at Santa Fe, and the Shrine at Albuquerque.

He is married and has two sons. Charles, 20, is a research technician with the University of New Mexico and is engaged on work for the government which is so secret, he is not allowed to tell his own father and mother the nature of it.

The other son, Raymond, 16, is a junior in the Grants Union High school.

DEMPESEY-MICHAELS

Jack Depsey should be defeated for governor, if for no other reason, the simple fact that his administration supports in idleness one Johnny Michaels, European or Asiatic-born bohunk of some kind or other.

It has been years and years since this peddler of bathroom supplies has worked. He lives in idleness, we are told, and when his funds get low, he sells some disinfectant or janitor supplies to state institutions, in this way replenishing his bank account at the expense of the taxpayers of this state. It would nauseate us enough to know that Dempsey was supporting, with the taxpayers money, native-born political parasites, but when it comes to some of the foreign-born, vermin-infested scum on the state payroll, we have to "urp."

As for Mr. Michaels, it is our opinion, he would last in the Pecos valley, trying to dictate to red-blooded Americans, just long enough for one of them to grab him in the collar, spit in his face and slap him so hard that forever thereafter he would be able to look down his spine without turning his head.

This is not an indictment of all foreign-born citizens. Some of our most patriotic, loyal and hardworking men and women were not born here. It does apply to that scum that was so dissatisfied or disgruntled it left its own native land, or was chased out by the law, and when allowed to enter and live in America tries to dictate to Americans how to run this country.

Santa Claus Will Take on Rank of Rear Admiral Until Christmas

Santa Claus may well take on temporary rank of rear admiral during the next few months, for a fleet of hundreds of cargo ships will be placed in his service to deliver Christmas packages to Army, Navy, Marine, and Coast Guard men overseas throughout the world.

Final preparations are being made by Navy fleet postoffices to handle 25,000,000 packages, which are expected to be mailed to men overseas during Christmas mailing month, Sept. 15 through Oct. 15.

This is almost four times the volume of packages mailed to men of the services for Christmas of last year.

Some parcels may travel by train, truck, ship, plane, and amphibious craft before reaching the addresses, officers of the San Diego fleet postoffice said.

Because of the great morale value of the packages, the Navy will make every effort to deliver them by Christmas. Senders must comply with the following regulations, however, to make such delivery possible:

Give the full address of the man, including his ship or unit. Place the address clearly on one side of the package and inside on a card. List contents on the card.

Packages must not exceed five pounds in weight, fifteen inches in length or thirty-six inches in length and girth combined. They must be wrapped securely.

Christmas gift parcels must be mailed between Sept. 15 and Oct. 15.

Perishables will not be accepted and foods and materials of a fragile nature are strongly discouraged.

SANTA FE CARLOADINGS

The Santa Fe System carloadings for week ending Sept. 9 were 23,858, compared with 21,193 for the same week in 1943. Cars received from connections totaled 12,602, compared with 13,473 for the same week in 1943. Total cars moved were 36,460, compared with 34,666 for the same week in 1943. Santa Fe handled total of 39,112 cars in the preceding week of this year.

How times change. Time was when women had to lift their skirts to cross the street. Now they have to hold them down.

RUBBER HOSE connections for gas appliances are not only out of style, they are dangerous because—

- 1 Children can loosen rubber hoses
- 2 Anyone can trip over them, causing disconnection
- 3 They deteriorate, permitting gas to leak
- 4 They are inflammable

All rubber hose connections should be replaced with the rigid metal tubing designed especially for your protection. Call your Gas Company for further information and make an appointment for the installation of these safe connections before the heating season begins.
