It is true you can't teach a cow animals. Therefore they would not ters in Chicago. have an extra hour of daylight at the end of the day in which to en- accrue joy themselves.

But almost everyone else can easily regulate his activities to fit in with daylight savings, and at the same time have an extra hour of daylight at night.

We will admit we thought more of the daylight savings plan during the winter months while the war was on than during the summer, because it gave us a chance to learn how to fly and then to get in many an hour of making like the birds even during the shortest days. And many others derived the ame pleasure.

In the summer it was not as important to us from that standpoint, but we still liked it as long as it

E. R. McKinstry, Loco Hills; Mrs. Ned Martin, Artesia; Mrs. Leroy Cranford, Artesia; Mrs. James B. Thigpen, Cottonwood; Mrs. Harry B. Gilmore, Artesia; Mrs. Ray Williams, Artesia; Mrs. Hardin; Mrs. H. C. Allen, Artesia and Mrs. J. H. McClendon, Artesia. (Photo by Gable).

Political Ads Must Be Paid For In Advance

Political advertising in The Advocate for the campaign this year will be charged for at the usual open rate-cash in advance.

This applies to candidates for state offices, as well as those running for county of-

The cash-in-advance rule is to be rigidly enforced, as experience in the past has shown that sometimes unsuccessful candidates, who have run out of money, are slow to pay off their campaign debts. In fact, there are cases in which they have been worse than slow.

Deadlines for political advertising are the same as for other ads, Monday noon for the Tuesday issue and Wednesday noon for the Friday issue. Copy arriving or placed after those deadlines will be held for the next issue.

Photos, Copy For Folder Received Here By Chamber

Californian To Do Without Artesia Stamps

It looks like E. W. Stiles of Monterey Park, Calif., will have to do without his precancelled Artesia stamps.

The local postoffice has informed the Chamber of Commerce, to which organization the Californian recently made his request, that such stamps are available only to permit holders.

No permit is had by the Chamber of Commerce. Bob Koonce, manager, said there might be a possibility that some Artesian with a permit would be the answer to the California stamp collector, but he doubted if there was sufficient time to arrange it.

Farmers Continuing To Buy Machinery Demand Backlog, Labor Costs Held as Factors

Although farm operators' net income and their purchases of agricultural machinery were both down in 1949, neither has slipped very far from their peak levels. Realized approximated 14 billion dollars, acbureau of agricultural economics.

The bureau reported that no official figure of agricultural machinery purchases in 1949 is yet available, but informed trade and Washington sources expected the total to be down from last year by about the same percentage as farmers' net income. That would indicate a figure of about two to 2.1 bil-

In the record year of 1948, purchasers reached 2.4 billion, an alltime high. If 1949 expectations ma-

ing use of farm machinery, is this farmer operating a tractor to break ground in a matter of hours which would have previously required days.

terialize, farm machinery purchases would still be almost four times as large as the 1935-39 aver-

Several factors besides high incomes have acted in recent years to help boost purchases of equipment. In some measure they were expected to add strength to the equipment market for some time.

Artesia 20-30 To Be Host At Convo May 6-7

Artesia 20-30 Club was reminded f the approaching sub-district convention to be held here May 6-7, in a part of the club's regular weekly meeting held at 7:15 o'clock Friday night in the Masonic building.

This will be the first sub-district convention to be held here this year and the second for the area. First was in Carlsbad last January. Within the region are Clovis, Portales, Hobbs, Carlsbad, and Ar-

Principal speaker on the weekly program was Bob Koonce, manager net income from agriculture in 1949 of the Artesia Chamber of Commerce, who voiced opposition to cording to the latest estimate of the pressure-group government, protested hyphenate Americans, and made a vigorous advocacy of patriotism

Attendance at the meeting was 18, including four members of the Carlsbad club, Bob Gantice, vice president; Buddy and Jack Tice, and Bob Allen.

This group invited the Artesia club to attend the Carlsbad club's ladies' night program to be held this month, exact date unset.

Grand Feeling

ONE OF THE MOST PLEASANT experiences any individual or business firm can enjoy is to have a good credit rating. The individual or firm knowing they can buy what they want where they want it and purchase it on credit have a satisfaction that can only come from meeting and paying our bills promptly and on time.

There is no reason, of course, why anyone should carry us indefinitely on their books after they have granted us credit. It isn't fair for the individual or the business firm to expect someone to time in history. grant them credit and then carry that account while they use the money they have to continue to operate and do business.

In such instances, of course, the firm or concern granting credit is in reality helping to provide funds on which the concern operates.

But good credit ratings can only be secured in one way-the prompt payment of our debts, bills, accounts and obligations. And it is rather amazing how fast the news travels that we are a good credit

We don't have to ask for credit if we have a good rating-we are granted that credit. And we continue to enjoy the privilege of charging our purchases just as long as we take care of our obli-

The small firm or the individual may have to learn to budget their income in order to meet their bills. But if that is necessary then it should be done.

No individual and no business firm can continue indefinitely spending more money than they take in. Sooner or later there comes a reckoning day. And we just as well realize that in the begin-

If we can't pay for our purchases and haven't the money in sight or coming it is far wiser not to buy. Because if we haven't the money in sight or in hand there is no reason to believe we are going to have it eventually.

Credit, of course, is a fine convewas established as a convenience for those who will have the money to pay. It was not created to serve those who are not able to pay now and won't be able to pay when the account comes due.

After all most credit is granted on a 30-day basis and that 30 days soon passes. But the only way you can have a good credit rating is to pay promptly when the account is due. - O.E.P.

Do We Want To Cut Taxes?

LL OF US are for tax reductions and tax cuts A just as long as it reduces our taxes and does not to live by being more cautious and in not so much take away from us anything we may have or we of a hurry might be good for many of us .- A.L.B. may be enjoying because taxes are high.

We are all for a reduction in the taxes of the nation, the state, the county and the city. But we want this to reduce the pet projects of others-we

The tax bill today insofar as the government is concerned is the result of a lot of pet projects of various congressmen. That means they are pet projects of some particular state or section of some settled and the employes return to work. state in the nation.

government to provide the funds. We want flood control and we want the federal government to furnish it. We want aid for the schools and want Uncle Sam to furnish it. We want river and harbor projects and Uncle Sam to provide it for us.

We want unemployment insurance and the government to provide it. We want old-age pensions and the government to give this to us.

We want a thousand and one things and we for us to have these things.

All of these things cost money. And all the again, money Uncle Sam has comes from taxes-taxes collected from the citizens of the 48 states of this rights and they have to be protected. But every time

Probably the most complete recommendations for overhauling our bureaucratic form of government ever made following a thorough and complete study are those of the Hoover Commission.

The reports of this commission have cited example after example of waste and extravagance and poor accounting. All of these examples show how we are wasting money we need today.

And there is no doubt in anyone's mind but what the recommendations if they were carried out would not only reduce the cost of the operation of the federal government but that they would provide greater service and greater efficiency.

But already the attacks are underway. There are those shouting for efficiency and economy and yet they are opposed to this or they are opposed to that as recommended by the Hoover Commission.

They apparently are attempting to make this non-partisian program worked out under the leaderof a great American, Former President Herb-

ert Hoover, a political issue. They are misrepresenting the reports and recdations of the Hoover Commission. They

cost of federal government, the only thing that can bring about a reduction in our tax bill, then we will recommend that the entire program of the Hoover commission be adopted and be carried out

If we are honest when we say we want the waste and extravagance in our federal government halted and we want service, efficiency and economy established we will favor the recommendations that have been made by the Hoover Commission.

But we will have to be perfectly willing to take the good along with the bad; to be willing to give up some of our own pet projects and we are going to have to be honest and fair about it.

If it means some sacrifices to us-then if we are sincere when we say we want waste and extravagance halted, efficiency and economy installed then we are going to recommend to our Congress they carry out the entire program and recommendations of the Hoover Commission .- O.E.P.

Slow Down And Live

A CCIDENT FIGURES FOR 1949 have recently been released from several quarters, all of which are appaling.

For instance, we read one place that more former servicemen of World War II have been killed in automobile accidents since the war than were killed in any one battle of the war.

And, we have learned, more people have been killed in the United States in cars since 1947 than have been killed in all the wars in which this nation has engaged.

For the period since 1907, when a method of compiling accident records was established, 926,260 persons have been killed in traffic accidents. And in the seven major wars, 852,000 American fight-

From another source we learn that 400,000 casualties in 1949 were the direct result of speeding and that one out of three lives lost in traffic wrecks last year resulted from driving too fast.

Speed has been causing a greater percentage of accidents year after year and in 1949 speed was a greater factor in traffic casualties than at any We talk of the dangers from the A-bomb and

the H-bomb and we view with alarm the possibilities of large numbers of our citizens being wiped out in another war. And we, as a nation, seem to fear Russia, which, of course, needs some thought. But we don't con-

sider so much the things we have to fear within our On the one hand there is the ever-growing trend toward Socialism, which is quite different from so-

called Communism. But the one can lead to the Certainly we need to fear that threat and to do nething about it. We need, as Winchell pointed out the other day, to stop looking under the bed

and have a glance at the soapbox. But another definite threat to thousands of Americans needs thought too. And that is traffic acci- off the honors in mixed chorus

The modern cars and highways are so built that excessive speeds are possible. But if something goes wrong at high speed, there is little chance to do anything about it.

car traveling at high speed in those cases in which of its trophy. speed is involved. Frequently the direct cause of an accident is the other fellow, perhaps a driver in a jalope. It may be two cars coming from the op- and home demonstration train on posite direction, one passing the other at the wrong the Santa Fe Railway over its lines time—on a hill or curve, or when there is not in the state igh time and space in which to clear.

A blowout on another car may be the cause, lege. resulting in the oncoming car to swerve. We know of an Artesia family involved in an accident recently, in which the man at the wheel of the other car was sick and blacked out, causing his car to sideswipe the Artesia car.

And so it is. Perhaps the accident might be caused by the fast driver or his car, or it might be some other factor. But in either case, if there were not so much excessive speed, there would be less to Alamogorco this week. danger of accidents and certainly fewer fatalities. A little common sense in driving and a desire

Permanent Solution

WE HAVE NEVER BEEN ABLE to fully appreciate all of the joy and happiness that seems and other guests present were Calto be mustered up when one of our big strikes is vin Dunn and family, Ben Dunn At the regular meeting at the

We can't see it. The only thing we can see is six We want highway construction and the federal months to a year from now we will be going through the same thing.

Those strike headlines in our paper have become pretty old with us. And we wonder just how smart we are as a people.

We claim, of course, to have the most civilized and the best educated people in the world. We make a lot of claims but when we get into employe-management difficulty we seemingly don't know how to settle it or clear it up. And if we do settle it-it want the federal government to make it possible is only on a temporary basis. We know and you know that in a few months we have it all to do over

Certainly both labor and management have we have a strike not only labor and management lose and suffer but the nation suffers.

Strikes affect every community in some way or other. They hurt business; they halt our production not only in one field but in many fields.

We all know that politicians bid for votes. So they line up and help those best organized and most able to help them.

It is time for our government to demand that labor and management find ways to settle their differences without strikes. It is time the government tell the groups what they are going to do instead of letting them tell the government what it is going

If we are half as intelligent as we claim to be then we know that our present method of settling these differences costs the nation too much every time a strike is called.

And we all suffer and we all lose because the strike is called, because labor walks out and because an agreement and a settlement is not reached.

It is about time if we act half as intelligent as we claim to be to find a permanent solution for our strikes or find ways and means to continue producemploying unfair tactics and making themes rather ridiculous in the eyes of the public.

But if we are sincere in wanting to reduce the sponsible for the strike being called.—O.E.P.

Poultrymen Are Advised To Purchase 'Quality'

"Good chickens can not be sold at a low price," G. S. Vickers, field manager of the Ohio poultry improvement association said in cautioning farmers to "buy on quality-not price."

Outlining a procedure to inspire wise chicken buying, Vickers said: "Investigate your local hatchery. man first. See if he has a careful and thorough pullorum disease control program. See if he obtains good breeding stock; see if he keeps up the quality and constantly improves it by careful selection and the use of ROP pedigreed or other good breeding males from good breeders."

My New You By MEL HEIMER

WINDERMERE, England-You have been overnight in Glasgow, a damp and gloomy city dedicated to the construction of ships that sail the sea, and when you board your British Railways train in the morning, it is, of course, raining.

You are headed for the Oxenholme, down from Scotland, and from there a bus is to take you to Windermere in the lake district, where they hold the sheepdog trials which Lassie always wins in Hollywood. But there are Americans aboard your train,

and-why is it? Put three or more American men on any vehicle going further than a mile, and they start a card game. Always, they find their excuse. Today's is easy. "Look at that rain," one of them says. "It's a shame we won't

be able to see this wonderful scenery. I understand there are lots of old Roman fortresses en route, and castles, and things." Another one nods in agreement. "A shame," he says. "Cut for deal?" By the time the train begins to slide out of the station, a sixpence and shilling limit has been set. The rain drives in against the

windows and you settle yourself on the worn upholstery and await These are old cars you ride in but as they begin to click off the miles, they remind you of an aging Rolls Royce, somewhat dogeared

but still as effective as new. "Dealer's choice?" someone says. "Sure," another replies. "How about beginning with spit in the ocean or baseball, with the nines and threes wild?" Five dark looks are aimed at him. "The ladies' car is in the rear," one caustic player comments.

THROUGH THE MIST OF THE TRAIN WINDOWS, you see the black-faced sheep grazing on the green hills, and the stone fences, and the old and crooked trees. Every now and then the train dips into a hollow and the hills rise on both sides of you and for all you can see you may as well be back on the New York Central, headed for Chappaqua

"Beat the kings." somebody says. "Easy," says another. "It'll cost a shilling." "What did you say these half-crowns are worth?" from another. "Steal it," says a fourth. "You got me studded, any-

A little stream rushes by, and you remember the one yesterday near Edinburgh and the 42-pound salmon taken from it that hung on the wall of the little restaurant. Stations with strange names glide by: Ecclefechan, Nethercleugh, Wamphray.

A dog charges down a hill, barking at the British Railways in general, and a lonely horse crops grass in a wide field. "Ah, that's a lovely sight," one of the players says. "It is," agrees the man on his right. "I'll take three cards, dealer, although my aces will stand up, I'm sure." Five hundred or more years ago, you reflect, peering out the win-

dows, the sounds in this country were the ring of broadsword on shield, and the clatter of hooves on a hard road. You remember Central Park, back in Manhattan-a weary and beat-up park, with straggly grass and tired eyes-and decide that this hoary countryside makes your favorite park seem like a nursing

But if this is worn and old country, it has kept its fresh and verdant look. Aside from Ireland, you ask yourself, can there be a greener green than the north of England? "If I only would stop trying to buy those inside straights!" a voice at your ear says

WISPS OF SMOKE FLOAT BACK FROM YOUR ENGINE, and more fences, trees and sheep pass your vision. Abington station goes by and you think of Abingdon Square down in the Village and the editor's wife who stood on her head in the corner at the New

Symington station. "Hey," you ask, "isn't that the name of our Secretary of Air, or something like that?" "Something like that," a voice says, sarcastically. "Are you in this hand or not? Costs you A couple of Englishmen pass you in the aisle, eyeing the cards

and money with bafflement, and you notice how they, too, look like

Hollywood's idea of Englishmen-red-faced, white-mustached and tweedy. Can it be that Hollywood has something right? "Terribly sorry, old boy," says another British aisle-passer, as he w in going by. "Pip, pip," you say, and he chuckles

as he goes on. "Jolly good," he calls over his shoulder. "Ah, yes, jolly good," and you meditate on the easiness of getting a laugh in Britain. Anything-but anything-will do it. Even the Ritz brothers would kill

"Ante sixpence," the dealer says. "This will be draw poker, jacks or better to open, with deuces wild." "Pardon me," you say, "but I

am not that degraded yet." You leave the game and enter the diner, to resume peering at the sheep and trees and wonder why you didn't raise when you had three jacks on the sixth card, that other time.

ARTESIA, N. M.

The only real hug-the-road ride is "The New Step-Down Ride"

... because Hudson has the lowest center of gravity in any car!

THERE'S nothing so delightful in all motoring as "The New Step-Down Ride"!

And why?

406 North First

Consider this-technicians in the industry have known for years that the lower a car can be built, the better it will ride, the more surely it will handle and the safer it will be.

You instantly see that the beautiful new Hudson, thanks to its recessed floor ("step-down" design), is the lowestbuilt of them all-and this right along with full road clearance and more head and seating room than any other car! As a result of this low build, you know

instinctively that Hudson has the lowest

center of gravity in any American auto-

mobile! You can just look at this remarkable car and tell that it rides smoother, hugs the road tighter than any you've driven before!

Yes, "The New Step-Down Ride" is a wonderfully safe, hug-the-road way of going that just naturally spoils you for any other car!

Wouldn't you like to try this "New Step-Down Ride" soon?

We cordially invite you to come in, enjoy Hudson's thrilling ride. Try the new no-shift Super-matic Drive*, and the other high-quality features that make "step-down" designed Hudsons leaders in resale value, as shown by Official Used Car Guide Books!

If you're going to buy a car in the low-price

New, Lower-Priced **Pacemaker**

which, for just a few dollars more, brings you all of Hudson's exclusive advantages.

How about a staff "MASTER CHEFS" for your kitchen!

Reddy's always ready ... whatever the cooking task! Yes, electricity's the most versatile "chef" you can have. Your electric range will boil, stew, fry ... bakeall with equal ease.

Beautifully clean-no sooty pans to scrub. Efficient-no "potwatching." So convenient . . . cool, too! Just set the control, leave the rest to electricity. You'll get "cook-book" results every time . . . for an electric range gives uniform, even heat ... consistently! You're out of the kitchen in no time at all.

Add all these features together and you get a sum total of perfection. Next time you visit your dealer . . . ask to see his display of electric ranges. Remember, it's thrifty. Electric service makes it that way.

Grand Feeling

ONE OF THE MOST PLEASANT experiences any individual or business firm can enjoy is to have a good credit rating. The individual or firm knowing they can buy what they want where they want it and purchase it on credit have a satisfaction that can only come from meeting and paying our bills promptly and on time.

There is no reason, of course, why anyone hould carry us indefinitely on their books after they have granted us credit. It isn't fair for the individual or the business firm to expect someone to grant them credit and then carry that account while they use the money they have to continue to operate and do business.

In such instances, of course, the firm or concern granting credit is in reality helping to provide funds on which the concern operates.

But good credit ratings can only be secured in one way-the prompt payment of our debts, bills, accounts and obligations. And it is rather amazing how fast the news travels that we are a good credit

We don't have to ask for credit if we have a good rating-we are granted that credit. And we continue to enjoy the privilege of charging our purchases just as long as we take care of our obli-

The small firm or the individual may have to earn to budget their income in order to meet their bills. But if that is necessary then it should be done.

No individual and no business firm can continue indefinitely spending more money than they take in. Sooner or later there comes a reckoning day. And we just as well realize that in the begin-

If we can't pay for our purchases and haven't the money in sight or coming it is far wiser not to buy. Because if we haven't the money in sight or in hand there is no reason to believe we are going to have it eventually.

Credit, of course, is a fine convenience but it have the money to pay. It was not created to serve those who are not able to pay now and won't be able to pay when the account comes due.

After all most credit is granted on a 30-day basis and that 30 days soon passes. But the only way you can have a good credit rating is to pay promptly when the account is due. -O.E.P.

Do We Want To Cut Taxes?

take away from us anything we may have or we of a hurry might be good for many of us .- A.L.B. may be enjoying because taxes are high.

We are all for a reduction in the taxes of the nation, the state, the county and the city. But we want this to reduce the pet projects of others-we want to keep ours.

The tax bill today insofar as the government is concerned is the result of a lot of pet projects of various congressmen. That means they are pet projects of some particular state or section of some settled and the employes return to work. state in the nation.

government to provide the funds. We want flood through the same thing. control and we want the federal government to furnish it. We want aid for the schools and want Uncle Sam to furnish it. We want river and harbor pro. smart we are as a people. jects and Uncle Sam to provide it for us.

We want unemployment insurance and the government to provide it. We want old-age pensions and the government to give this to us.

We want a thousand and one things and we want the federal government to make it possible is only on a temporary basis. We know and you for us to have these things.

All of these things cost money. And all the again. money Uncle Sam has comes from taxes-taxes collected from the citizens of the 48 states of this rights and they have to be protected. But every time

Probably the most complete recommendations for overhauling our bureaucratic form of government ever made following a thorough and complete study are those of the Hoover Commission.

The reports of this commission have cited example after example of waste and extravagance and poor accounting. All of these examples show how we are wasting money we need today.

And there is no doubt in anyone's mind but what the recommendations if they were carried out would not only reduce the cost of the operation of the federal government but that they would provide greater service and greater efficiency.

But already the attacks are underway. There are those shouting for efficiency and economy and yet they are opposed to this or they are opposed to

that as recommended by the Hoover Commission. They apparently are attempting to make this non-partisian program worked out under the leadership of a great American, Former President Herb-

ert Hoover, a political issue. They are misrepresenting the reports and recare employing unfair tactics and making themes rather ridiculous in the eyes of the public.

cost of federal government, the only thing that can bring about a reduction in our tax bill, then we will recommend that the entire program of the Hoover commission be adopted and be carried out.

If we are honest when we say we want the waste and extravagance in our federal government halted and we want service, efficiency and economy established we will favor the recommendations that have been made by the Hoover Commission.

But we will have to be perfectly willing to take the good along with the bad; to be willing to give up some of our own pet projects and we are going to have to be honest and fair about it.

If it means some sacrifices to us-then if we are sincere when we say we want waste and extravagance halted, efficiency and economy installed then we are going to recommend to our Congress they carry out the entire program and recommendations of the Hoover Commission .- O.E.P.

Slow Down And Live

CCIDENT FIGURES FOR 1949 have recently A been released from several quarters, all of which are appaling.

For instance, we read one place that more former servicemen of World War II have been killed in automobile accidents since the war than were killed in any one battle of the war.

And, we have learned, more people have been killed in the United States in cars since 1947 than have been killed in all the wars in which this nation has engaged.

For the period since 1907, when a method of compiling accident records was established, 926,260 persons have been killed in traffic accidents. And in the seven major wars, 852,000 American fighting men were lost.

From another source we learn that 400,000 casualties in 1949 were the direct result of speeding and that one out of three lives lost in traffic wrecks last year resulted from driving too fast.

Speed has been causing a greater percentage of accidents year after year and in 1949 speed was a greater factor in traffic casualties than at any time in history

We talk of the dangers from the A-bomb and the H-bomb and we view with alarm the possibilities of large numbers of our citizens being wiped out in another war. And we, as a nation, seem to fear Russia, which,

of course, needs some thought. But we don't consider so much the things we have to fear within our On the one hand there is the ever-growing trend

toward Socialism, which is quite different from socalled Communism. But the one can lead to the Certainly we need to fear that threat and to do

omething about it. We need, as Winchell pointed out the other day, to stop looking under the bed and have a glance at the soapbox.

ericans needs thought too. And that is traffic acci- off the honors in mixed chorus dents and deaths. The modern cars and highways are so built in cornet solo. Elizabeth Gage was

that excessive speeds are possible. But if something bes wrong at high speed, there is little chance to do anything about it. Accidents are not all caused directly by the

car traveling at high speed in those cases in which of its trophy. speed is involved. Frequently the direct cause of an accident is the other fellow, perhaps a driver in a jalope. It may be two cars coming from the opposite direction, one passing the other at the wrong time—on a hill or curve, or when there is not enough time and space in which to clear.

A blowout on another car may be the cause, lege. resulting in the oncoming car to swerve. We know of an Artesia family involved in an accident recently, in which the man at the wheel of the other car was sick and blacked out, causing his car to sideswipe the Artesia car.

And so it is. Perhaps the accident might be caused by the fast driver or his car, or it might be some other factor. But in either case, if there were not so much excessive speed, there would be less to Alamogorco this week.

danger of accidents and certainly fewer fatalities. ALL OF US are for tax reductions and tax cuts

A little common sense in driving and a desire to live by being more cautious and in not so much

Permanent Solution

WE HAVE NEVER BEEN ABLE to fully appreciate all of the joy and happiness that seems and other guests present were Calto be mustered up when one of our big strikes is vin Dunn and family, Ben Dunn At the regular meeting at the

We can't see it. The only thing we can see is six We want highway construction and the federal months to a year from now we will be going

Those strike headlines in our paper have beome pretty old with us. And we wonder just how

We claim, of course, to have the most civilized and the best educated people in the world. We make a lot of claims but when we get into employe-management difficulty we seemingly don't know how to settle it or clear it up. And if we do settle it-it

Certainly both labor and management have we have a strike not only labor and management lose and suffer but the nation suffers.

know that in a few months we have it all to do over

Strikes affect every community in some way or other. They hurt business; they halt our production not only in one field but in many fields.

We all know that politicians bid for votes. So they line up and help those best organized and

most able to help them. It is time for our government to demand that

labor and management find ways to settle their differences without strikes. It is time the government tell the groups what they are going to do instead of letting them tell the government what it is going

If we are half as intelligent as we claim to be then we know that our present method of settling these differences costs the nation too much every time a strike is called.

And we all suffer and we all lose because the strike is called, because labor walks out and because an agreement and a settlement is not reached.

It is about time if we act half as intelligent as we claim to be to find a permanent solution for our mendations of the Hoover Commission. They strikes or find ways and means to continue production even during the discussions and the conferences on those points that are supposed to be re-But if we are sincere in wanting to reduce the sponsible for the strike being called .- O.E.P.

the sheepdog trials which Lassie always wins in But there are Am ricans aboard your train, and-why is it? Put three or more American men on any vehicle going further than a mile,

Mel Heimer and they start a card game. Always, they find their excuse. Today's is easy. "Look at that rain," one of them says. "It's a shame we won't be able to see this wonderful scenery. I understand there are lots of old Roman fortresses en route, and castles, and things." Another

pence and shilling limit has been set. The rain drives in against the windows and you settle yourself on the worn upholstery and await the cards. These are old cars you ride in but as they begin to click off the

By the time the train begins to slide out of the station, a six-

one nods in agreement. "A shame," he says. "Cut for deal?"

miles, they remind you of an aging Rolls Royce, somewhat dogeared but still as effective as new. "Dealer's choice?" someone says. "Sure," another replies. "How about beginning with spit in the ocean or baseball, with the nines and threes wild?" Five dark looks are aimed at him. "The ladies'

car is in the rear," one caustic player comments. THROUGH THE MIST OF THE TRAIN WINDOWS, you see the black-faced sheep grazing on the green hilis, and the stone fences, and the old and crooked trees. Every now and then the train dips into a hollow and the hills rise on both sides of you and for all you can see you may as well be back on the New York Central, headed

for Chappaqua. "Beat the kings," somebody says. "Easy," says another. "It'll cost a shilling." "What did you say these half-crowns are worth?" from another. "Steal it," says a fourth. "You got me studded, any-

A little stream rushes by, and you remember the one yesterday near Edinburgh and the 42-pound salmon taken from it that hung on the wall of the little restaurant. Stations with strange names

glide by: Ecclefechan, Nethercleugh, Wamphray. A dog charges down a hill, barking at the British Railways in general, and a lonely horse crops grass in a wide field. "Ah, that's a lovely sight," one of the players says. "It is," agrees the man on his right. "I'll take three cards, dealer, although my aces will stand up. I'm sure."

Five hundred or more years ago, you reflect, peering out the windows, the sounds in this country were the ring of broadsword on shield, and the clatter of hooves on a hard road. You remember Central Park, back in Manhattan-a weary and

beat-up park, with straggly grass and tired eyes-and decide that this hoary countryside makes your favorite park seem like a nursing But if this is worn and old country, it has kept its fresh and verdant look. Aside from Ireland, you ask yourself, can there be a

greener green than the north of England? "If I only would stop trying to buy those inside straights!" a voice at your ear says WISPS OF SMOKE FLOAT BACK FROM YOUR ENGINE, and more fences, trees and sheep pass your vision. Abington station

goes by and you think of Abingdon Square down in the Village and the editor's wife who stood on her head in the corner at the New Year's Eve party. Symington station. "Hey." you ask, "isn't that the name of our Secretary of Air, or something like that?" "Something like that," a voice says, sarcastically. "Are you in this hand or not? Costs you

one and six." A couple of Englishmen pass you in the aisle, eyeing the cards and money with bafflement, and you notice how they, too, look like Hollywood's idea of Englishmen-red-faced, white-mustached and

tweedy. Can it be that Hollywood has something right? "Terribly sorry, old boy," says another British aisle-passer, as he jiggles your elbow in going by. "Pip, pip," you say, and he chuckles

"Jolly good," he calls over his shoulder. "Ah, yes, jolly good," and you meditate on the easiness of getting a laugh in Britain. Anything-but anything-will do it. Even the Ritz brothers would kill

"Ante sixpence," the dealer says. "This will be draw poker, jacks or better to open, with deuces wild." "Pardon me," you say, "but I am not that degraded yet."

You leave the game and enter the diner, to resume peering at the sheep and trees and wonder why you didn't raise when you had three jacks on the sixth card, that other time.

The only real hug-the-road ride is "The New Step-Down Ride"

... because Hudson has the lowest center of gravity in any car!

NOW...3 GREAT SERIES . Lower-Priced Pacemaker . Famous Super . Custom Commodore

THERE'S nothing so delightful in all motoring as "The New Step-Down

And why?

Consider this-technicians in the industry have known for years that the lower a car can be built, the better it will ride, the more surely it will handle and the safer it will be.

You instantly see that the beautiful new Hudson, thanks to its recessed floor ("step-down" design), is the lowestbuilt of them all—and this right along with full road clearance and more head and seating room than any other car!

As a result of this low build, you know instinctively that Hudson has the lowest center of gravity in any American automobile! You can just look at this remarkable car and tell that it rides smoother, hugs the road tighter than any you've driven before!

Yes, "The New Step-Down Ride" is a wonderfully safe, hug-the-road way of going that just naturally spoils you for any other car!

Wouldn't you like to try this "New

We cordially invite you to come in, leaders in resale value, as shown by

Step-Down Ride" soon?

enjoy Hudson's thrilling ride. Try the new no-shift Super-matic Drive*, and the other high-quality features that make "step-down" designed Hudsons Official Used Car Guide Books!

How about a staff "MASTER CHEFS" for your kitchen!

Reddy's always ready . . . whatever the cooking task! Yes, electricity's the most versatile "chef" vou can have. Your electric range will boil, stew, fry ... bakeall with equal ease.

Beautifully clean-no sooty pans to scrub. Efficient-no "potwatching." So convenient . . . cool, too! Just set the control, leave the rest to electricity. You'll get "cook-book" results every time ... for an electric range gives uniform, even heat ... consistently! You're out of the kitchen in no time at all.

Add all these features together and you get a sum total of perfection. Next time you visit your dealer . . . ask to see his display of electric ranges. Remember, it's thrifty. Electric service makes it that way.

it doesn't take a FORTUNE to get security

Envy the man who has an oil field a few thousand feet under his winter wheat? He has one type of security, no doubt about that, and you'd be right to count him as a lucky and enviable individual.

But a full measure of security that is sound and adequate is available to the average man with an income, too, fortune or no fortune.

For a few dollars a month you can enjoy the solid financial security produced by the pooled resources of millions of people like yourself.

It would take an oil field of 2,000,000,000 barrels to give the equivalent of resources that are cooperatively pooled in The Equitable Society. And every member of the Society shares in the protection these resources offer.

The financial protection provided by life insurance and annuities is available to your family and every family with foresight enough to plan their future. It's the kind of security your family should not be without.

Pictured here is the McCaw Hatchery & Poultry Farm at 13th and Grand Avenue, a leading outlet in this area for feeds and poultry supplies. It is an amazing plant to those who have not previously inspected it, for many local people do not realize how extensive it is. Not only are thousands of chicks hatched for sale, but many of them are scientifically raised to broiler and baking size, for slaughter in the plant's own killing room, ready for freezing and the market. This first-class poultry is available in most of the local food stores as are McCaw selected fresh eggs.

OH, THE COST OF CONGRESSMEN

A CONGRESSMAN'S cost to the taxpayer is getting higher and higher, this compilation of expenses and allowances indicates. The Congressional Reorganization Act of 1947 added several of the graph allowance. It all adds up to upwards of \$30,000 a year for each of the 435 House of Representatives members. (International)

kidnaping charges in case of 13-year-old Sally Horner, who says

LaSalle held her prisoner for two years.

the list in population. Only seven states have a smaller population than our New Mexico. They are Arixona, Delaware, Idaho, Nevada, New Hampshire, Vermont, and Wyoming. This means, considering our small population and great distances between communities, that it is pretty expensive to afford the adequate public services demanded of the people in many fields. For example, in the field of public health, public welfare, highway construction, and particularly in common school education.

The picture recently presented by the economic and tax survey "The greatest fault, I should conducted by university experts shows that while the over-all cost -Thomas Carlyle of government in all states averages \$118.67 per person that New Mexico gets by with a cost of only

Meet The Guy Chevrolet Sales Staff

Clyde Gilman General Sales Manager

Guy Chevrolet Co. first knew Mr. Gilman as district manager with the Chevrolet Di-vision of General Motors Corporation. His territory included the southern half of New Mexico and El Paso, Texas. During 1948 and 1949 he made regular visits in Artesia and at that time Guy Chevrolet Co. was under his supervision. Mr. Guy was very much impressed with the efficient way he handled his job and he liked the way they operated, so Mr. Guy offered him the place of general sales manager over all departments of the organization and he moved to Artesia with his family Aug. 1, 1949.

Mr. and Mrs. Gilman with their son and daughter, reside at 801 Bullock Avenue. He is a member of the Lions Club and Junior Chamber of Commerce.

During World War II he served as an instructor for the U.S. Air Force near Phoe-

nix. Ariz., for three years Mr. Gilman tells us that he likes Artesia and plans to be here to see it become the city we all expect. He is a very enthusiastic salesman, for he knows that when selling Chevrolets, Buicks and Oldsmobiles, he is selling the best cars for the money, backed one of the oldest manufacturers of qualautomobiles and the oldest automotive sales and service dealer in Artesia.

Ray Griffin Truck Specialist

Four years ago, Mr. Griffin came to Artesia from Hobbs, N. M. Ray and Mrs. Griffin have two sons and own their home at 208 South Cowan. He spent three years in the U. S. Navy yards on the West Coast, As an active member in the 20-30 Club and the Elks, he is interested in civic improvements.

Mr. Griffin came to Guy Chevrolet Co. from the Cox Motor Co. April 15. His ex-perience in the automobile business is varied, as he has worked as a salesman in parts, accessories, tires, cars and trucks. Ray has had a lot of experience in trucks and special truck equipment. If you bring your hauling problems to him, he will recommend the size of truck, the kind of body or special equipment that will best suit your needs

Mr. Clyde Guy, Owner

Mr. Guy has owned and directed the Guy Chevrolet Company since 1926. Mr. and Mrs. Guy have two sons, Joe Lamar and Eddie and own their home at 705 Grand Avenue.

Mr. Guy came to Artesia in 1925 when it was just a small community of about 3000 people. His business has kept pace with the town and has expanded from four employes at its beginning to 36 today. Like other foresighted business men in this area, his faith in Artesia has helped it grow to its present size.

Mr. Guy's able direction and admininstration of the company's business and policies have made the Guy Chevrolet Company one of the most outstanding automobile dealerships in New Mexico, Through his sound judgment and fair treatment of customers he has given Artesia one of its most substantial business establishments.

All these men are thoroughly trained in all lines of automobile

selling and even though they have specialized in various branches,

any one of them can ably assist you in the purchase of any new

James Anderson Used Car Manager

Mr. Anderson came to Artesia 14 years ago from Littlefield, Texas. He is married, has a son 15 years old and own his home at 601 Dallas Avenue. He is an active member in the Elks Lodge.

Mr. Anderson came to Guy Chevrolet from Boyd-Cole Motor Co. the first of this year. He has had several years experience in the automobile business, specializing in used cars. His knowledge of the used car market and of car values enable him to give you top dollar value for your trade in or to recommend the best buy in the OK Used

Orville "Rooster" Durbin New Car Manage

"Rooster" doesn't remember living any place other than Artesia, for it was 21 years ago that he came here. Mr. and Mrs. Durbin have a daughter and son. They own their home at 813 South Fifth Street. Orville spent two years in the U.S. Marine Corps in the South. Central and Asiatic Pacific. He is active in the V.F.W., on the board of directors of the 20-30 Club and the Junior Chamber of Commerce.

Mr. Durbin has been engaged in the automobile business for 10 years and all of this time he has been with Guy Chevrolet Co. He has served as service station attendant, parts manager, service manager and new car manager. His grand personality has won for him a host of friends. His wide knowledge of the mechanics and the construction of the new Buicks, Oldsmobiles and Chevrolets is very beneficial in helping you appreciate the comfort, performance and economy offered in these fine cars. He will appreciate the opportunity of helping you select your next new car.
