

SOCIETY

Vows Are Exchanged Sunday By Maxine Callahan and Bob Horner

Maxine Callahan, daughter of Mr. and Mrs. D. F. Callahan, became the bride of Bob Horner, son of Mr. and Mrs. R. C. Horner, in a candlelight ceremony held in the First Baptist Church at 5 o'clock Sunday afternoon, with Rev. S. M. Morgan, pastor, officiating at the double-ring ceremony.

They were married under a green arch, laced with large white chrysanthemums and white pompons. Two-tiered baskets and two small baskets of chrysanthemums also decorated the altar. White tapers were lighted by Mary Horner.

As wedding guests assembled, Augusta Spratt played a group of wedding selections. Anna Marie Dunn sang, "Because" and "I Love You Truly."

The bride, given in marriage by her father, wore a ballerina-length white satin strapless gown, over which was a bolero of white lace. The headpiece fastening her fingertip veil of nylon net was of tuberoses, illusion and tiny pink French carnations. She carried a white rose corsage on a white satin Bible, showered with ribbons and illusion, tied with tuberoses.

Something old was an old coin in her shoe; something new was a pearl choker, a gift from the bridegroom and something borrowed and blue was the traditional blue garter.

Ellonia Callahan, sister of the bride, was her maid of honor. She wore a gold corduroy dress and carried white moonlight pompons.

The bridesmaids wore corduroy dresses, fashioned after the bride's. Pan Horner's was of rose; she carried a bouquet of white pompon chrysanthemums with deep pink dot centers. Darline Smith was dressed in aqua, her bouquet was of deep lavender ecstasy pompons. Ola Mae Davis wore a rust colored dress and carried golden orange pompons. Each bridesmaid's headpiece matched her bouquet.

Mrs. Callahan chose for her daughter's wedding a gray suit and a corsage of red roses.

Mrs. Horner, mother of the bridegroom, wore a medium brown dress, with dark brown accessories. Her corsage was of Talisman roses.

Anna Marie Dunn wore a dress of burnt orange with a corsage of yellow carnations. Mrs. Spratt chose a navy dress and a corsage of red carnations.

Ronald Horner, ringbearer, carried the rings on a white satin pillow.

Ushers were Keith Kidd, Ray Broocke, James Solon Spence.

Best man was Alex Smith, uncle of the bridegroom.

After the ceremony a reception was held in the home of Mr. and Mrs. J. E. Beddingfield, 405 West

Grand. Rose, gold and white chrysanthemums served as a centerpiece for the refreshment table. White chrysanthemums were also used for decorations.

The bride and bridegroom cut the first piece of the three-tiered wedding cake, which was topped with a miniature bride and bridegroom. Mrs. George Fowler served the punch and Mrs. B. C. Cullins, an aunt of the bride, served the cake. Mrs. James Solon Spence presided at the guestbook.

About 50 guests were present at the reception.

The bride is a graduate of Artesia High School, and was employed as a bookkeeper for Guy Chevrolet Company after her graduation in 1948.

Mr. Horner graduated from Coparas Cove (Texas) High School, in 1942. He was a lieutenant in the Air Force four years. At present, he is engaged in farming.

The couple left for a honeymoon to points of interest in Colorado. Upon their return, they will make their home in Artesia.

Mrs. Glenn Caskey Elected President Of Music Teachers

Mrs. Glenn Caskey was elected president for 1950-51 at the first meeting of the Artesia Music Teachers' Association Monday evening, Oct. 2, in the lounge of the First Methodist Church. Mrs. R. C. Derbyshire was the outgoing president. Mrs. J. W. Vandiver was elected secretary-treasurer.

The association plans to have a recital once a month to present members' pupils who are ready.

The pupils will be presented the second Sunday of each month, except in the month of October, when the recital will be at 2:30 o'clock the third Sunday Oct. 15, in the Park School music room.

The different music teachers will have the programs of the month, selected by them during the school year, and they hope to have some interesting musical programs to present to the public for which there will be no admission charge.

Augusta Spratt will be in charge of the first program of this month.

Telephone Employees Fete Mrs. Jones for 30 Years of Service

Mrs. Mary McCaw Jones, the chief operator for the Mountain State Telephone & Telegraph company, has been 30 years with the telephone company, was surprised at her home Wednesday evening with a party by the employees.

Mrs. Jones was presented an electric toaster by the following friends: Mr. and Mrs. W. F. Hinde, Mr. and Mrs. George Nichols, Mr. and Mrs. George Gore, Mr. and Mrs. Bill Tiner, Mrs. Gladys Ride-out, Elsie South, Enid Lewis, Evelyn Doyle, Evelyn Coor and Misses Celia Rehberg, Nell Lewis, Irene Ogelvie and Billie Baker.

P.E.O. Chuckwagon Supper, Dance Held In Martin Barn

About 180 persons attended a chuckwagon supper served buffet style and a dance sponsored by P.E.O. Chapter "J" Saturday evening of last week at the new barn of W. Leslie Martin southeast of town.

The barn was lighted by electricity and candles and decorated with fall flowers and pumpkins.

After the dinner, the members enjoyed square dancing and old-fashioned dancing, with Joby McPherson teaching square dancing. Some played games, but most of the guests not dancing enjoyed watching others.

Women's Society of Christian Service To Hold Classes

The Women's Society of Christian Service of the First Methodist Church will hold study classes Wednesday and Thursday.

The theme is "Toward a Christian Community." The book to be studied is "Rural Prospect." Mrs. Reed Brainard will lead the study, assisted by Mrs. Katherine Smith.

On Wednesday the study will be held at 9:45 to 11:45 in the morning and 1 to 3 o'clock in the afternoon, with covered-dish luncheon at noon. On Thursday study will be from 9:45 to 11:45 o'clock in the morning only.

Presbyterian Women Meet on Thursday

The Presbyterian Women's Association met Thursday afternoon of last week at the home of Mrs. Ralph A. Shugart with Mrs. D. C. Blue and Mrs. Chester Russell as co-hostesses.

Mrs. Hugh Kidd, president, presided over the business meeting. Plans are being made for an evangelistic conference to be Wednesday, Oct. 18, at the parish hall. It also was announced Circle No. 1 is sponsoring a book review at 2:30 o'clock Wednesday, Oct. 25, at the parish hall. The admission will be 50 cents. A nursery will be provided for the children.

Mrs. Warren Collins was in charge of the program, "Thine Is the Power." The devotions were read by Mrs. Vearlie Allen.

Refreshments of cake and coffee were served to 30 members and two guests. Two new members were added to the roll.

Card of Thanks

We wish to express our deep appreciation to our friends for the many acts of kindness shown us during the loss of our beloved husband and father. Especially do we thank everyone and the Church of Christ and the minister for their solace to us—Mrs. C. N. Calmes, Charley N. Calmes, Jr., Robert L. Calmes, Mrs. Pauline Castleberry.

Carlsbad, Artesia W.S.C.S. Groups Meet Together

Seven women from the Hillcrest Methodist Church in Carlsbad were guests of the local Women's Society of Christian Service of the First Methodist Church at the 10th anniversary birthday party held Thursday afternoon at the church.

The main topic of the afternoon was "Even Unto the Ends of the Earth," telling of the healing mission of the Methodist Church and the program led by Mrs. Keith Dampf. She was assisted by Mrs. J. D. Roberts, leading the worship service, "The Healing Gift He Lends." Mrs. C. P. Bunch gave "Resume of Methodist Hospital and Health Work," and Mrs. T. Stovall "An Inspiring New Adventure," telling of the world health organization as set up by the UN.

Miss Anna Marie Dunn sang, "Lord Let Me Live Today," accompanied by Mrs. Glenn Caskey at the piano.

Prayer by Mrs. Dampf closed the program.

The ceremony of lighting the 10 birthday candles and a large one "to grow on" was held, with Mrs. Curtis Sharp presiding. Others taking part in this ceremony were Misses H. G. Ellis, Reed Brainard, J. H. Walker, George Thalman, Fred Jacobs, R. L. Willingham, George Frisch, Owen Haynes, Herman Green, E. M. Perry and Floyd Davis.

Refreshments of cookies and coffee were served by Mrs. George Thalman, Mrs. J. D. Roberts and Mrs. Stovall, the hostesses.

Guests present from Carlsbad were Misses Hollis Shook, S. S. Birdwell, Clyde Neatherlin, H. M. Austin, Emmett Barron, Afton Townsend, and L. J. Conway.

Meeting Date of Study Group Changed

Meeting/date of the Study Group of the Artesia Woman's Club, which was to have been at 9:30 o'clock Wednesday morning at the home of Mrs. C. R. Blocker has been changed to 9:30 o'clock Friday morning at the home of Mrs. Dave Bunting, 512 West Grand Avenue.

The date was changed because of a meeting of the Artesia Woman's Club Wednesday afternoon.

Cottee College Is P.E.O. Meet Subject

A program on Cottee College at Nevada, Mo., was given by Mrs. Tom Brownlee and Mrs. T. C. Stromberg at a meeting of P.E.O. Chapter "J" held Friday afternoon of last week at the home of Mrs. T. H. Flint.

At the close of the meeting, the hostess served individual pumpkin pie and coffee to 26 members.

The next meeting will be Friday, Oct. 20, at the home of Mrs. Stanley Carper.

Local's

Mrs. W. H. Henderson of Longview, Texas, arrived last week to visit her daughter, Mrs. Vearlie Allen and Mr. Allen.

Mrs. H. R. Paton of Artesia, state president of the department of New Mexico American Legion Auxiliary, and Mrs. Jim Mitchell of Hagerman, child welfare chairman, left Thursday morning of last week to attend the national convention of the American Legion Auxiliary at Los Angeles, Calif.

Students attending New Mexico A. & M. College, Las Cruces, who visited their parents over the week end were Wade Green, Jimmy Sears, Johnny Mathis and Eugene Howell.

Wade Green, son of Mr. and Mrs. H. L. Green, a student at New Mexico A. & M. College, was elected vice president of the class of 1954 out of 250 students.

Rev. Ralph O'Dell, pastor of the First Presbyterian Church, and R. M. Stinnett, principal of the North Side School, planned to leave early

Norma Jane Smith Becomes Bride Of Roy Bowman on Sunday Morning

Miss Norma Jane Smith, daughter of Mr. and Mrs. J. D. Smith, became the bride of Roy Bowman, son of Mr. and Mrs. Earl H. Bowman, at the First Christian Church at 8:30 o'clock Sunday morning, with Rev. Arthur G. Bell, pastor, officiating at the double-ring ceremony.

The bride and bridegroom stood at the altar between two huge baskets of pink and white gladioli and chrysanthemums.

Preceding the ceremony, Mrs. John Lanning sang, "Because" and "Always," accompanied by Miss Marjorie Storm at the piano. Miss Storm played the traditional wedding marches, as well as soft music during the ceremony.

The bride entered on the arm of her father, who gave her in marriage. She chose for her wedding a navy blue suit with pink accessories. Her corsage was of gardenias placed on her Rainbow Bible.

For the old tradition, her suit was new, for something old and borrowed, she wore a sunburst pin belonging to Mrs. F. G. Snow of Carlsbad; she wore the blue garter of the Cokettes and carried a coin for luck.

Miss Laura Lou Smith, sister of the bride, was her only attendant. She wore a wine colored velveteen dress with black accessories. Her corsage was of pink Pincocchio roses.

Jimmy Bowman, brother of the bridegroom, was his only attendant.

Mrs. Smith chose for her daughter's wedding, a black and white

suit with matching accessories. Her corsage was of yellow chrysanthemums.

Mrs. Bowman, mother of the bridegroom, wore a gray suit with matching accessories. Her corsage was of red roses.

Mr. and Mrs. J. D. Smith, parents of the bride were hosts for the bridal party, relatives and close friends with a reception at the home of Mrs. C. R. Blocker, 805 West Main Street.

The reception table was covered with a white cutwork cloth centered with a bouquet of pink and white chrysanthemums. A two-tiered wedding cake topped with a miniature bride and bridegroom was at one end of the table. After the first piece was cut by the bride and bridegroom, Mrs. Clifford G. Smith of Roswell and Mrs. R. T. Spence of Carlsbad, aunts of the bride, presided at the cake. Miss Fid Hamill presided at the silver service.

Miss Laura Lou Smith was in charge of the guestbook.

Mrs. Blocker's home was decorated in fall flowers.

The bride was a member of the Artesia High School class of 1950 and is employed in the office of the Artesia Investment Company.

The bridegroom was a member of the Artesia class of 1947 and attended New Mexico A. & M. College at Las Cruces. He is now engaged in farming with his father northwest of town.

The newlyweds are spending their honeymoon in Albuquerque and upon their return will reside at Artesia.

ther and sister-in-law, Mr. and Mrs. Cecil Holeman and family.

Mr. and Mrs. Evans Boyce and children of Bakersfield, Calif., spent last week visiting relatives.

Mr. and Mrs. J. B. Aldridge of Bristow, Okla., left Monday after visiting their son, Kenneth Aldridge, and family since the first of last week.

Mr. and Mrs. Olin Woodside and son, Gary, left Friday morning of last week for Dallas, Texas, where Gary was to undergo surgery on his eye Saturday morning.

Mrs. Fred Jacobs plans to leave today for Highland Park, Ill., to attend a national committee meeting of Juliette Low Girl Scouts.

Table Decorations Talk, Demonstration Given By Floore

Russell Floore gave an interesting talk on table decorations and arranged a centerpiece of roses and chrysanthemums with which he used peacock feather, at a meeting of Alpha Lambda chapter of the Sigma Phi sorority Thursday evening of last week at the home of Mrs. Oscar Pearson.

Miss Ruth Bigler, president, presided over the business meeting. Plans were made for rush parties.

Mrs. Clevy Marshall conducted a program on table manners and decorations.

The house was decorated with fall flowers. Refreshments of cake and coffee were served to Mrs. Lillian Bigler, Miss Ruth Bigler, Mrs. Clevy Marshall, Mrs. Polly Hulse, Mrs. Ann Stefanko and Miss M. Vandever and a guest.

Those attending were Betty Snow, Joey Hatfield, Short and Pat Young Junior and Polly Doughty, Stevie Dozier, Karen Mills, Dale James, Ann and Joe White, Garry Ashlock, and many others and the mothers.

Nelson Wins Trip To Maytag Home Office in Iowa

Nelson Appliance Company of Artesia won first-place honors in a regional Maytag sales contest, which has just been completed, it

was announced by Maytag Rocky Mountain officials.

As a result, L. D. Nelson, owner, is to leave Artesia Oct. 16 on a free trip to Newton, Iowa, home of the two big Maytag factories. He will join winners of other regional contests at the Broadmoor Hotel in Colorado Springs, from where they leave on a special train for Newton.

Competing against other Maytag dealers in Eastern New Mexico,

Nelson Appliance Company sold 226 per cent of its quota to take top honors.

The contest was conducted by the Maytag Rocky Mountain Company and distributors in New Mexico, Arizona, Texas, Wyoming, Utah and Colorado.

YOU...an Interior Decorator
By BOYD BARNETT

ARMS AND THE MAN

There is no stock answer to that often repeated question: "I want to get a new chair. What kind and color would be best?" The kind of chair will depend on what you expect of it both in a decorative and a functional capacity. Background colors in your room; rug, walls, draperies, will dictate color. You may want to inject a dramatic splash of color contrast into a monochromatic scheme, or play down an existing amount of a certain hue.

The style of the room and where the chair will be placed in relation to other furnishings will determine its weight and scale. And function... the amount of use it must bear will dictate fabric and texture.

In many homes it is taken for granted that certain chairs are reserved for particular members

"A father's chair", perhaps. If your new chair is for the man of the house, study his preferences. Does he like a chair high enough to rest his head against? Is he more comfortable in a chair with arms? Most men are.

Note the comfort-inviting luxury in the reside chair with seat-high hassock sketched above. Dark green leather upholstery blends with leaf pattern in drapery fabric.

Stop in and let us help you make your home a better place in which to live.

Tigers Feverishly Athirst For Second Taste Of Bulldog Blood

Alamogordo Eleven Yearns For Victory Over 'A' Team

After piling up steamroller scores against Lovington and New Mexico Military Institute, the Artesia High School Bulldogs take on the mighty Alamogordo Tigers, current kingpins in Class B football in the state.

The game will be played at 8 o'clock Friday night Oct. 13, on Morris Field here and will round out a two-home game series. The following week the Bulldogs take their longest jaunt of the season when they make the 178-mile trek to Dona Ana County to play the Las Cruces brand of Bulldogs on Friday, Oct. 20.

But Alamogordo is first on the list and they will be striving to keep their record clear. Although beaten by Las Cruces, the Tigers are undefeated in three games of their class. Their latest win was a 48 to 0 shellacking of the Hatch Bears.

It would boost Tiger stock a hundred points if they, a Class B outfit, could knock over the Bulldogs, an A aggregation.

Last year the Tigers did that, whipping the Bulldogs 18 to 6. The Alamogordo eleven is rolling in high gear this season and there'll be no such scores against it as the Bulldogs amassed against the Wild cats and Colts.

Reserves Carried Load

Weakened and crippled by injuries to many of the regular starters, the Bulldogs had to call on their reserves to handle the New Mexico Military Institute Colts in the game here last Friday night.

The Colts were clearly outclassed but they played a valiant game. Dunham, fullback, and Hallenbeck, quarterback, shone in their backfield. Hallenbeck was responsible for nailing the jet-footed Vernon Haldeman, right halfback, just when Haldeman seemed to be in the clear with a one-way ticket for a touchdown.

But not even all the Colt power could stop Haldeman. He had a field day with four touchdowns, three of them in the first half.

Bobby Morgan, left end, played his customary good game, also getting a marker, but it was the reserves who also had their day of glory.

Bailey Turns Loose Blitz

Inexperienced Pug Bailey, showing more all-around ability than he has all season to date, was in there working every minute. He was faster than an express train and able to size up a situation as rapidly as Eisenhower, as shown by his interception of a pair of Colt passes.

Herbie Traveno, who apparently lazes back as unconcerned as though at a Sunday school picnic, shoots off like high octane gasoline touched with a match, showing a burst of speed that leaves the opposition gaping.

He got a touchdown in the third period by taking over from the five yard line, a play set up by Bailey's 30 yard run.

LeRoy Rutledge and Don Golden were standouts.

Rutledge, Golden, and Traveno are all sophomores, good "money in the bank" for the 1951 squad. Not that they won't be heard from more this year, but they still need more experience.

Heaviest of the trio is Bailey, 172-pound junior. Rutledge weighs 145, Golden 158, Traveno, 155.

Sonny Garner had tough luck on his conversions. After kicking three straight to pile up a record of 10 points after touchdown, his foot lost the magic touch, but Sonny is a hard worker and will probably work harder than ever to get back into the groove.

The Bulldogs made 18 first downs to a pair for the Colts, gained 349 yards rushing to the Colts 73.

The game, fifth played by the Bulldogs this season, makes the record read five games played, five won for a total of 154 points to their opponents 28.

In three of the contests the Bulldogs have held their opponents scoreless; in the remaining two, 14 points have been scored against Artesia in both cases.

Lovington Paper Prints Cartoon On Bulldog Game

A bang-up good bit of journalism is the Lovington Press local cartoon, unusual for a newspaper published in the size of a town like Lovington.

The Artesia-Wildcat football game of Sept. 29, played on the Wildcat gridiron Sept. 29, is the theme of a three-column cartoon on Page 1 of The Lovington Press of Oct. 5.

Estiow, first name not given, is the artist. He has four highlights of the game:

"Artesia's toy tank, Fred Hernandez, when he threw a two man key block on Artesia's first TD."

"The flea flicker from 'Well Done' Millsap to L. E. Bullington that resulted in a score for Lovington."

"Twinkle Toes Lawson on his 35-yard touchdown scamper."

Referring possibly to penalties called on the Bulldogs, there is another cartoon showing a No. 38 with arms entwined around a No. 83.

The cartoon line:

"The Bulldogs should have been called the waltzing terriers from their offensive holding tactics."

Excerpts from the by-line yarn of Warner Bench:

"Artesia took the hometown club to a helpfully Friday night 46 to 14."

"Tackle to tackle it was a bang-up good ball club that met Artesia's hefty offensive efforts."

"Hard charging guards and tacklers put a veto on everything that started their way and left their beefier opponent looking just a little frustrated."

"But as in other games this year the Cats were vulnerable around the ends. Time after time they let a span of blockers outside on wide runs and were methodically clipped down."

"Artesia's Haldeman was spotting his pass receiver with pin point accuracy but his throws were double dangerous because the Wildcat backs let the white shirts get behind them."

"In spite of mistakes the local eleven fought every minute they were on the field. They played like they wanted to win and that kind of team is always dangerous no matter how rugged the opposition."

Football Queen Receives Crown At Reunion Dance

Jonell Tinson, daughter of Coach and Mrs. Jack Tinson, is the 1950 Artesia High School football queen. She received her crown in a ceremony held at 9:30 o'clock Saturday night during the homecoming dance held in Central School gymnasium. Coronation was by Bobby Morgan and Vernon Haldeman, captains of the Bulldogs in their game Friday night against New Mexico Military Institute of Roswell. The Bulldogs won 39-0.

Attendants of Queen Jonell were Jean Green, Alice Martin, Wanda Burch and Anna Marie Dunn. Music was by the Four Professors orchestra of Carlsbad. Attendance was 200.

Project Suggested to Raise Money for Bullpup Uniforms

Turning over the entire proceeds of the Artesia B-Ruidoso A football game, to be played on Morris Field, Saturday, Oct. 14, to the Bullpup uniform benefit fund has been a proposal advanced that is scheduled to be brought to the attention of Artesia Quarterback Club.

Timing on that statement is a bit off because by this time this appears in print the deal is slated to have been put before the club at its regular weekly supper meeting.

However, it is still some time before Oct. 14, and it takes work to make any suggestion mean anything so there is still lots to be done.

Basic Training

New to Artesia I had no idea of what the Bullpups were or how they operated, when I heard first the name.

The idea is a good one for only by developing players early does any town produce good football teams. As I said once before there are cases of the boys being taught to ride horses while the boys were barely big enough to sit in the saddle.

Same applies to most all lines of endeavor. The boy who starts early has a big advantage over the boy who starts late.

In the Bullpups, which is a loosely-knit group of fourth, fifth and sixth grade youngsters interested in football, the boys are taught fundamentals of the gridiron.

They get a touch of football, but not enough to put their health in danger, that is, they are not subjected to the severe strains comparable to those of high school age.

That is the way I understand it. In all there are 450 boys interested in the Bullpups but that does not mean all can play as some parents don't wish it.

Coach Jack Tinson explained that the goal is 100 players. The Bullpups include Atkoa and Cottonwood as well as Artesia. To outfit this player costs from \$15 to \$18.

From the talk of money let's get back to the football field, and to the old Morris Field Subway. It was going on all cylinders at the New Mexico Military Institute game.

Jammed into the cheese box like Scots at a free chance on a thousand pound give-away were 10 persons in a space that provides adequate working room for a half dozen.

At one end was Bob Meeker, chief engineer, and Bill Key, Artesia Bill Stern and Dave Button, manager, all of KSPV; at the other Billy Thorp, Bulldog spotter, Fritz Goldstein, the public address announcer, and Sgt. Rolla Hinkle, Roswell, New Mexico Military senior, spotter for the Colts.

I was sandwiched between the youthful armored cavalry sergeant and H. Floyd (One-Gun) Davis, who manipulated the electric scoreboard, once again in operation, as well as firing the pistol at the appropriate intervals.

Fritz Crawford was busy keeping the "stats" on the game on the other side of Davis. Standing against the wall was Jim Heald, warrant officer junior grade of the local National Guard battery and Chuck Brown.

At the end around Goldstein was a man I've seen in the box frequently, who knows my name, but I unfortunately don't know his. He was engaged before the game started in giving a hasty briefing to Irv on his job and in putting those miniature pancake-sized records on the new type player.

Goldstein looked around the boilerhouse and said, "When you said this place was crowded—well, I'm beginning to see what you mean."

Everyone there has a reason for being there but the point is the box just isn't big enough to hold such a crowd and permit all work to be done as easily as it could be.

Like I said before there should be a separate compartment for radio, another for public address, and another for newspaper. It would be money thrown away to build a new press box now or to enlarge the old one, if the new stadium is to be constructed. But when that new stadium is built I hope it has a box with compartment.

worth Military Academy, Lexington, Mo.

The team, coached by Capt. Clyde Etter, plays a complete schedule with other companies on the campus, competing for the Wentworth company grid championship.

Winners are given a banquet at the end of the football season.

Artesia grid fans want to charter buses to Las Cruces for the Artesia-Las Cruces football game there Friday, Oct. 20, they had better swing into action.

As a courtesy to fans who wish to assure themselves of comfortable, safe transportation, free from driving and parking worries, Bob Bourland, Quarterback Club member, volunteered to take lists of those wishing to make reservations.

This was a week ago. Not a single person has signed up for the trip. Bourland believes there will be lots of folks going to the game but thinks they will wait to the last minute to make their intention known.

If so, a lot of folks are going to be disappointed because it takes time to line up the buses required. There will be one 37-passenger available, plenty of 29ers, according to Alvin Law, local agent of New Mexico Transportation.

Route will be from Artesia to Roswell, thence Alamogordo to Las Cruces.

Getting rid of those portable folding chairs and putting in a second wooden bench the school may have handy would solve some of the present traffic jam.

Goldstein did a creditable job of announcing, albeit he was as flustered at first as I would have been if I had been in that spot.

Got a thrill out of Sergeant Hinkle's military noise. Just a youngster, he showed the effects of the good training he has received at New Mexico Military, one of the nation's finest academies.

He sat straight as a ramrod, was accurate in replying to questions, always courteous, and had a plentiful supply of "sirs" in giving the answers. A fine boy and a credit to N.M.M.I.

Am still plugging for more info on the officials at these games. All of a sudden they pop up and nobody seems to know their full names, colleges, or which one is umpire, referee, field judge, or headlinesman.

It is vague to say "Smith, Jones, Brown and White," but when those are all the names given, what else can you do? Nathless, it is slovenly journalism to list them that way.

Secretary Morris Ward of the state athletic association has promised me a list of officials giving all this data. Then, maybe the black and white suited boys won't be mystery men any longer.

Incidentally, one McCrary came into the lineup as field judge, substituted for the official originally slated for that post, at the Bulldog-Colt game.

Perhaps because it is a military school, roster of Colt players sent here listed only last names, but other schools, not military, follow the same practice.

This makes identification difficult. For example, one Colt was Davis, No. 58, a back. Another was Davis, 62, was a tackle. There was no first name of either on the program.

Complete names are important, yet, essential in good journalism. Ever try to find "Smith in New York City?"

There was also no information on hand as to the Colts coaches. I knew Seth Orell was the head coach but that was all. Sergeant Hinkle told me two were here for the game. Lt. Col. Seth Orell and Lt. Ted Brock. This information was not furnished for the programs.

N.M.M.I. colors are red and black. With a foresight that is creditable the numerals on the players scarlet jerseys were white, instead of black, making identification of numbers easy. Players had light colored pants with red stripe down the seam, black helmets with centered white stripe.

When that New Mexico flag went out on the field along with the Stars and Stripes, it added a lot of color and it put an extra punch for me into the band's appearance.

Artesia 39, N.M.M.I. 0.

Mascots Cheaper By Dozen But Kids Need Grid Supplies

Artesia grid fans got their first group preview of future football greats when a Bullpup eleven made its appearance on the turf of Morris Field preceding the Artesia High School-New Mexico Military game Friday night.

Instead of the regular single mascot the Bulldogs had 11 of them, who went through a workout in "big" high school fashion.

To provide uniforms and other equipment for these and other

Have You Signed for Bus Trip To Cruces Game? Now's the Time!

Glenn Collard, secretary of Artesia Quarterback Club, announced just before press time that Monday, Oct. 16, is the deadline for chartering buses to the Artesia-Las Cruces game.

Buses obtainable are 29-passenger capacity.

If Artesia grid fans want to charter buses to Las Cruces for the Artesia-Las Cruces football game there Friday, Oct. 20, they had better swing into action.

As a courtesy to fans who wish to assure themselves of comfortable, safe transportation, free from driving and parking worries, Bob Bourland, Quarterback Club member, volunteered to take lists of those wishing to make reservations.

This was a week ago. Not a single person has signed up for the trip. Bourland believes there will be lots of folks going to the game but thinks they will wait to the last minute to make their intention known.

If so, a lot of folks are going to be disappointed because it takes time to line up the buses required. There will be one 37-passenger available, plenty of 29ers, according to Alvin Law, local agent of New Mexico Transportation.

Route will be from Artesia to Roswell, thence Alamogordo to Las Cruces.

The time to sign up for the trip is now, not a day before the game. If you mean business, go to Bourland Artesia Auto, 302 West Main, and get your name on the list today.

Cowboy Cagers To Vie in Sun Bowl Tournament

The Hardin-Simmons university Cowboy basketball team will participate in the Sun Carnival tournament to be held in El Paso, Dec. 29-30. Coach Jack Martin, announced today. He also announced the addition of another game with Goodfellow Air Base to the 24-card already slated.

The Cowboys will play 12 games in Abilene and 13 on the road. They open their season Dec. 4 when they meet Texas Christian University in Fort Worth.

The complete schedule:
Dec. 4—TCU, Fort Worth; Dec. 9—Trinity U., Abilene; Dec. 12—Goodfellow Air Base, Abilene; Dec. 14—FWC, Abilene; Dec. 18—Trinity U., San Antonio; Dec. 19—Brooke Medical Center, San Antonio; Dec. 29—Sun Carnival tournament, El Paso; Jan. 4—U. of N. M., Abilene; Jan. 5—New Mexico A & M, Abilene; Jan. 9—Texas Tech, Lubbock; Jan. 11—Brooke Medical Center, Abilene; Jan. 13—U. of Ariz., Abilene; Jan. 29—West Texas State, Canyon.

Feb. 1—Texas Tech, Abilene; Feb. 5—U. of Ariz., Tucson; Feb. 6—Arizona State of Tempe, Tempe; Feb. 7—Ariz. State (Flagstaff) Flagstaff; Feb. 13—Phillips 66 Oilers, Midland; Feb. 15—Ariz. State (Tempe) Abilene; Feb. 17—Ariz.

Bullpups is the purpose of donation tickets ordered printed yesterday for the Artesia B-Ruidoso A game to be played here Saturday night. There will be 2000 tickets offered.

The mighty mites who made their debut Friday night represented grades from two to five.

They were Bob Hankins, Royce Fletcher, John Cranford, Earl Gray, Andy Anderson, Tommy Hagar, Charlie Gaskins, Wayne Malone, Charles Hogsett, Peyton Yates, Tracy Patterson.

Complete names are important, yet, essential in good journalism. Ever try to find "Smith in New York City?"

There was also no information on hand as to the Colts coaches. I knew Seth Orell was the head coach but that was all. Sergeant Hinkle told me two were here for the game. Lt. Col. Seth Orell and Lt. Ted Brock. This information was not furnished for the programs.

N.M.M.I. colors are red and black. With a foresight that is creditable the numerals on the players scarlet jerseys were white, instead of black, making identification of numbers easy. Players had light colored pants with red stripe down the seam, black helmets with centered white stripe.

FRAUD?

Edwin L. Mechem

Man on the Street Questions: How long should a new tire and tube last?

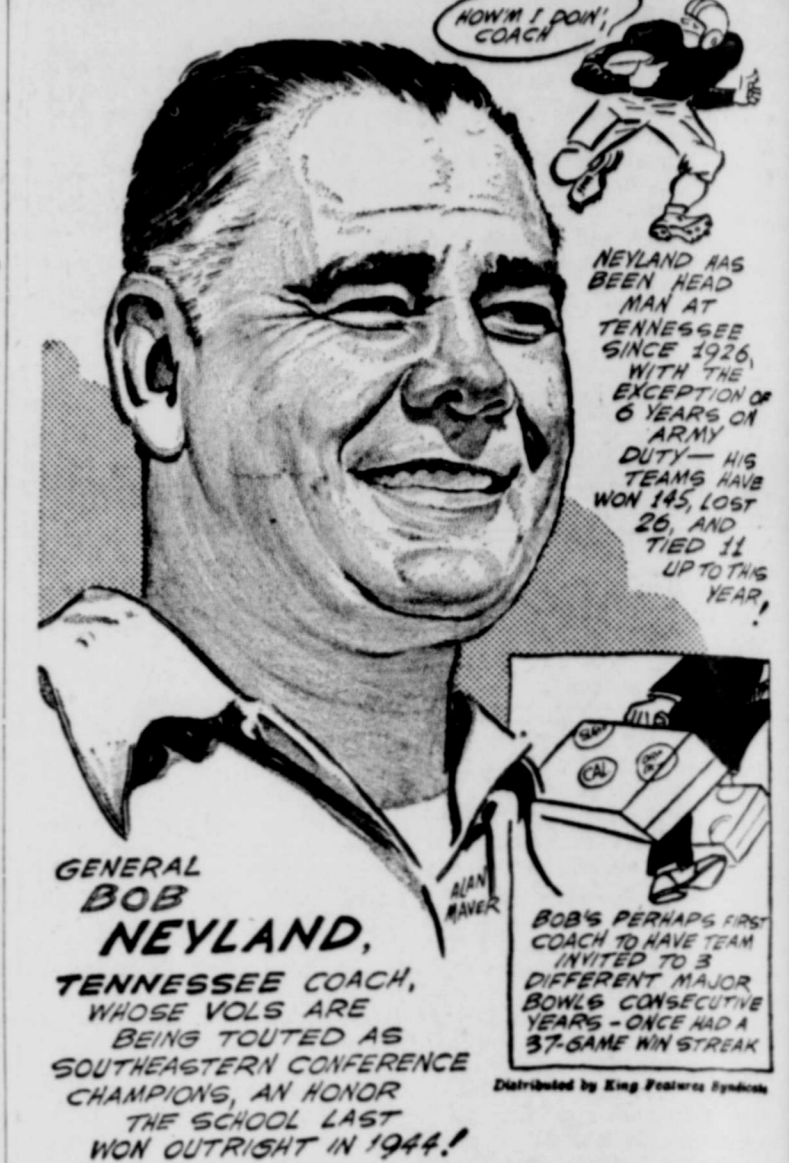

Quoted from the report, Santa Fe Grand Jury Sept. 5, 1942, investigating the Miles administration.

"... purchase of 23 tires of a very high grade, and 14 tubes ... for one state car WITHIN A PERIOD OF 5 MONTHS is an outstanding abuse of administrative authority ..."

How Long Should the Miles-Mahry-Dempsey Machine Last?

VOTE FOR MECHEM FOR GOVERNOR —Paid Pol. Adv.

THAT MAN'S BACK! By Alan Maver

GENERAL BOB NEYLAND, TENNESSEE COACH, WHOSE VOLGS ARE BEING TOUTED AS SOUTHEASTERN CONFERENCE CHAMPIONS, AN HONOR THE SCHOOL LAST WON OVERTHROW IN 1944!

turned down enticing offers from some of the nation's biggest schools to go to Tempe, just six miles from home.

Coach Ed Doherty says the five-foot, nine-inch, 170 pound Ivizver is "as good as any back I've ever seen."

That's high praise from a man who quarterbacked Boston College, helped Frank Leahy with the unbeaten Notre Dame varsity of 1946

and drilled the Boston College backfield.

White gains consistently in all type of situations, possesses dangerous passing skill, defensive alertness, speed, brains and above all, a keen competitive spirit.

Between them, Whizzer White and Model T Ford, things are shaping up for a mighty good football game in Abilene, Oct. 14.

Accidents From Motor Scooters Take Death Toll

Motor scooter accidents in cities killed about 65 persons and injured 5000 in 1948.

That is an estimate based on a sample of 78 cities of more than 10,000 population published in the 1950 edition of "Accident Facts," and the National Safety Council's statistical annual.

More than half the injured riders were 15 to 19 years of age, and only 5 per cent were women.

A 200-pound man would weigh about 5,580 pounds on the sun.

New Teletype Installed at A. & M. College

Operating the new Associated Press teletype machine, recently installed at New Mexico A. & M. College, Las Cruces, is Bill Feather, son of Mr. and Mrs. Landis B. Feather, sports editor of the Round-Up, the college's student magazine. Standing is Orville E. Priestly of Las Cruces, publisher of The Artesia Advocate and The Las Cruces Sun-News, who was instrumental in obtaining the machine for the college.

The latest step toward bringing practical journalism into the classroom was made at New Mexico A. & M. College Oct. 1, when an Associated Press teletype machine was installed and put into operation on the campus at Las Cruces. The installation of the teletype marked the climax of years of effort toward establishing journalism in its most practical form in college. The journalism division of the English department has previously instituted such practices as maintaining a complete photographic darkroom and two student publications which serve as laboratories for the student considering journalism as a profession.

The A. & M. teletype machine, which was installed through the co-operation of the Associated Press and The Las Cruces Sun-News, will be used by students both for sending and receiving news stories, according to J. Paul Boushelle, chairman of the journalism division.

Mechem—

(Continued from page one) Mechem said he and his party propose the improvement of the State Police and its enforcement of law through a non-political police commission, to the end that the chief executive's constant interference would be removed.

He recommended the consolidation of the State Corporation Commission with the Public Service Commission to eliminate the overlapping with its additional expense and to provide for adequate rate-making power for the commission. Mechem said the platform calls for reduction of the present 2-cent gasoline tax by a cent, and for a non-partisan, qualified superintendent of public instruction, and for non-political selection of judicial officers.

Armijo discussed the question of price controls on defense materials. He said Congress gave the president power to put on price controls and appropriated 18 billion dollars for war materials, but because of the price increases in the meantime, already lost in one and a half billion dollars of that amount, equal to the cost of 700 planes.

The candidate quoted Congressman Vinson as saying those planes are necessary and that it will be necessary for the next Congress to appropriate an additional one and a half billion dollars in order to get those planes.

Armijo said it has been predicted President Truman will put price controls into effect immediately after the election. In his remarks Armijo said the national debt is approaching 260 billion dollars and is mounting every fiscal year, which means higher income taxes. And the president has announced 10 to 15 billion dollars more will be appropriated by the next Congress. This also must be raised through income taxes, he said.

Armijo declared that if all the recommendations of the Hoover Commission were to be put into effect, a saving of four to five billion dollars a year would be effected. The 80th Congress, "which President Truman lambasted at every whistle stop," said Armijo, is the only Congress which gave the taxpayers any relief since Roosevelt went into office, by reducing income taxes.

Armijo criticized President Truman as commander-in-chief and chief executive for his stand on the anti-communist bill, through which he would have protected the communists. The Republican candidates visited many of the places of business in Artesia Saturday morning by way of meeting the voters and soliciting their support.

After the football game Friday night, members of the party visited a Spanish-American dance at the army and spoke briefly.

Forget-Me-Not—

(Continued from Page One) refuses to correct the rating we appeal it to Washington, where we frequently win the case, and the veteran—or his dependents—receives the benefits which a grateful nation has determined by law he should receive.

"Another fact that is not known, is that there is no employee of the Veterans Administration who can appeal a case. Once the regional office makes its decision, the VA contact officer must accept the rating, whether right or wrong. Lawyers won't handle them for they have to handle them for practically nothing."

Chandler pointed out also that Artesia veterans' organizations are forced to handle claims for veterans without benefit of a cent of tax money. Carlsbad, Roswell, Silver City, Raton, Gallup, Santa Fe, Albuquerque, and other centers of population in the state have or have had Veterans Administration employes or members of the State Veterans Service Commission to help with veterans problems in those communities. In addition to federal and state aid, Roswell pays a service officer \$250 a month, \$200 of which is tax money, to help its veterans, he said.

Potpourri—

(Continued from page one) workers. "Buster" Mulcock was there also, at least doing some of the supervising. At least that's what we were doing.

Nevertheless, "Bus" was roughing in the numbers between the circles and finally announced to no one in particular, "Well, it came out even—spaces and numbers." Buster replied, "Which proves that between the two of us we can count to 30!"

Jack Sitton, editor of The Carlsbad Citizen-Argus, had a five-second editorial the other day:

"Fifty scientists of eight nations met in Paris Saturday to start planning the first rocket trip to the moon. If conditions get any worse, we may just up and go with them. If you're writing for reservations, Jack, please include us and we can double up on expenses to the launching ramp."

Jaycees Advance Time of Meeting

Regular semi-monthly supper meeting of Artesia Junior Chamber of Commerce will be held at 7 o'clock tomorrow night in Artesia Hotel.

This is a half hour earlier than the time heretofore. Members are asked to note the change and be on hand at 7 o'clock, Clayton Menefee, newly-elected president, said yesterday.

Hagerman News

The W.S.C.S. met on Tuesday afternoon of last week at the undercroft, with Mrs. L. R. Burck as hostess. The president, Mrs. A. A. Bailey, was in the chair during the routine business session. Mrs. J. L. Mann led the interesting year-book lesson, "Health Through a Brotherhood of Nations," stressing the fact that because of the war and rapid means of transportation, health conditions in all parts of the world are of vital concern to each one.

Those assisting with the program were Miss James, Mrs. W. P. West, Mrs. G. H. Woolf, and Mrs. John Shockey, with Mrs. Lester Hinrichsen at the piano. After the lesson refreshments of wafers, homemade cookies, and tea were served by the hostess. Those attending were Miss James, and Mmes. A. A. Bailey, J. F. Campbell, Harry Cowan, C. W. Curry, Lester Hinrichsen, J. N. Hopkins, Ernest Langenegger, Tom McKinstry, J. L. Mann, L. D. Foster, Earl Stine, Shipham, G. H. Woolf, J. W. Wiggins, W. P. West, John Shockey, and L. R. Burck.

Mrs. Clarence Harshey, who had been a patient in a Roswell hospital several days, was brought home Tuesday of last week. She is reported to be getting along as well as can be expected.

Hagerman schools were dismissed on Wednesday in order that the pupils could attend the opening day of the Eastern New Mexico State Fair in Roswell.

Mrs. T. N. Hopkins and children and Dixie Williams of Artesia were week-end guests at the homes of Mr. and Mrs. J. N. Hopkins and Mr. and Mrs. W. H. Templeton. Baby Turley Hopkins is spending the week with his grandparents.

Mrs. Agnes Miller of Boise, Idaho, was visiting her parents, Mr. and Mrs. Bill Ridgley, and Mr. and Mrs. W. E. Graham and Mr. and Mrs. Carl Ridgley last week.

Calvin Graham, a pioneer rancher of this section, is quite ill in an Artesia hospital. Mr. and Mrs. Claud Davis, who recently bought the Sam Boyce Grocery & Filling Station, located on Highway 285 north of Dexter, have taken charge of the business. Mr. and Mrs. Davis are experienced business people who recently sold out their business in Hagerman and are now living on a farm north of town.

Charles Dunlap has sold his residence and tenant house located on West Kansas to Alma Nail, who will use both houses for farm hands. The Thursday Club held its

BUTTONED FROM NECK TO HEM—This plaid tweed cutaway suit is shown in cherry red and black, from a New York designer's fall and winter, 1950-51 collection. (N. Y. Dress Institute Photo)

autumn luncheon on Thursday afternoon at the home of Mrs. Hal Ware. The luncheon table was centered with an artistic arrangement of red pyracantha berries, red-hot poker, red dahlias, and red dahlias and red roses were used in the room decorations. A brief business session was held after the luncheon hour.

Mrs. Opha Gibson of Los Angeles, Calif., and her son, Bill Gibson, of Los Alamos, are visiting at the home of Mrs. Gibson's mother, Mrs. W. E. Bowen, Mrs. Gibson flew to Albuquerque, where her son met her. En route home she will visit her sister, Mrs. Cecil Barnett, in Albuquerque.

A large number of Hagermanites spent Wednesday at the Eastern New Mexico State Fair at Roswell. The Hagerman Methodist Church observed "World Communion Day" Sunday of last week with a large number of communicants present. The Sunday school attendance struck a new high for the year. Mr. and Mrs. A. N. Franklin motored to Artesia Thursday. Mr. and Mrs. W. R. Goodwin,

accompanied by Mr. and Mrs. George Goodwin, and children of Artesia, left Thursday for Breckenridge, Texas, to visit Wallace Goodwin and family.

Mr. and Mrs. Jay Baldock and family have moved to Roswell, where Mr. Baldock was recently transferred to the Kemp Lunner Company office from Hagerman, where he had been manager for several years. Mrs. Baldock, who is employed at the Watford Grocery, is now commuting from Roswell.

Mrs. J. L. Mann and Mrs. John Shockey have left for Abilene, Texas, for a dedication ceremony at McMurry College. Gold Star Mothers who have been donors to a McMurry fund are being honored at this time and their sons' names have been placed on a college gold star honor roll. Mrs. Shockey's son Johnnie Boykin, was a tail gunner on a plane shot down by the Japanese and Mrs. Mann's son, John Mann, was a gunner on the airplane carrier, Liscomb Bay, which was sunk during the war. Sam Boyce, son of Mr. and Mrs.

I. E. Boyce, Sr., will leave for Fort Bliss next week for induction into the Army. Sam is a reservist in the Corps of Engineers. Mrs. Boyce and son, Sammy, will live in Dexter.

Miss Essie Keeth has accepted a position at Dr. Baldwin's office at Roswell. Miss Keeth has been X-ray technician at an Amarillo, Texas, hospital several years. She is a daughter of Mr. and Mrs. W. H. Keeth.

The Hagerman Woman's Club October meeting has been postponed until Oct. 13.

The L. C. Club held a luncheon on Thursday at the home of Mrs. C. G. Mason with covers laid for Mmes. I. E. Boyce, Sr., W. E. Utter-

back, C. O. Holloway, Earl Stone, Charles Michelet, Elmer Graham, Agnes Miller of Boise, Idaho, Elmer Lankford of Roswell, Marion Woody of Dexter, E. G. Lathrop and W. L. Heitman.

Frederick Heitman of Lovington has been visiting his mother, Mrs. W. L. Heitman. He recently sold his irrigated farm near Lovington.

Looking for POWER?

Better Buy Buick!

THAT bold bonnet that stretches out before your eyes on a 1950 Buick isn't there just for show. Lift it up, and you'll find that the space beneath is abundantly occupied, by one of the biggest hoodfuls of power you'll find in any motorcar. What you're looking at is Buick's modern version of the high-compression valve-in-head engine, which gains extra wallop from the fact that it uses the exclusive Fireball combustion principle. We could list a lot of mechanical reasons why fuel gives up extra power in a Fireball engine—how it's wrapped in a swirling, ball-shaped charge—how it burns with a smooth, clean thrust that delivers maximum action. But the best way to find out what all this means is to touch off the eager horsepower out on the highway by a gentle nudge of your toe—and feel your shoulders press deep in the cushions behind them. Now all this sounds thrilling, you say, but how about the feed-bills for all these horses? How about miles-per-gallon? The practical answer to that one is found in this year's experience with the SUPER and SPECIAL—and even the ROADMASTER. In all three, the horsepower was stepped up at the start of the year—and in all three, happy owners report the best mileage in modern Buick experience. This is due to a little-known but authentic engineering fact—which is that an engine burns less gas when it doesn't have to labor. At any normal driving speed, therefore, extra power is extra thrifty. So we say again—if you're looking for power—mighty power—buoyant power—silken power—thrifty power—better buy Buick. Your Buick dealer is eager for the chance to demonstrate how sound this hint really is.

Only BUICK has Dynaflow Drive* and with it goes: HIGHER-COMPRESSION Fireball valve-in-head power in three engines. (New F-263 engine in SUPER models.) • NEW PATTERN STYLING, with MULTI-GUARD fender, taper-through fenders • TRAFFIC-HANDY SEATs over-all length for easier parking and garage-ing, short turning radius • EXTRA-WIDE RIDE, ins. short turning radius • SOFT BUMPS, low-cradled between the axles • SAFETY-RIDE rims, low-pressure tires, ride-steadying torque-tube pressure tires, ride-steadying extra-cool on SUPER and SPECIAL models.

Tune in HENRY J. TAYLOR, ABC Network, every Monday evening.

Phone Your BUICK Dealer for a demonstrative Drive Now!

ets With NSLI and Re-Entering Service Should So Notify VA

Veterans holding National Service Life Insurance and re-entering the armed services can help themselves and their families from some worry, and save money and trouble, for the price of a penny postal card, the Veterans Administration said.

If you have authorized an allotment from your service pay for the payment of your premiums on this insurance, let VA know, the agency charged with re-entering veterans.

A number of veterans who have re-entered service—or their families have recently received notices that the veterans' insurance has lapsed and is no longer in force. Many others will receive such notices.

In most of these cases, the insurance has not lapsed, VA said, the veteran has authorized the allotment from his service pay, but notice of this allotment has not reached the VA District office handling his insurance records.

VA gave this explanation: The veteran's insurance records are maintained in a VA district office in the area of the veteran's home, unless otherwise directed by the veteran. For veterans in New Mexico this office is at Denver.

Premium due notices are mailed to the veteran from this office, and payments are sent this office and credited to his account there.

When the veteran enters service and authorizes an allotment from his service pay for the premium, this allotment goes from his district to the service finance center and finally to the VA office in Washington. But the Washington VA office does not have this serviceman's insurance records, and must obtain them from its field district office.

In the meantime, VA said, the VA district office does not know the veteran has re-entered the service. It knows only that no premium has been received at its own office, and, as far as this office is concerned, the policy has lapsed. The lapse letter follows to the veteran at his home.

VA advised veterans and their families that the policy has not lapsed and will not lapse if the veteran has authorized the allotment from his service pay in time to take care of his next premium.

However, if the veteran will let the VA district office handling his insurance records know when he has re-entered service and made this allotment, lapse notices in these cases can be prevented, VA said.

VA this week directed its field insurance offices to stamp its future lapse notices to veterans with the following statement:

"If you have entered the armed service, and have authorized an allotment from pay to continue time payment of premiums on this insurance, disregard this notice and return this letter noted to show the date you entered the service."

Manchuria Reds?

A COMMUNIST column of 40 tanks and 200 vehicles is reported moving south from Antung (1), Manchurian city just across the border of North Korea, toward Seoul (2), now under assault from the United Nations beachhead. The column was reported to have reached Sariwon (3), north of 38th parallel.

ARTESIA BUSINESS AND PROFESSIONAL REVIEW

Here is Scotty's Nite Club, formerly the Hi-Hat, 13 miles north of Artesia on the Roswell Highway, where Melbourne C. Scott welcomes you. It's just a short drive out to Scotty's for the best mixed drinks in the country and an evening of dancing to the music of Lee Bell and His Boys.

New Mexico was disclosed in a survey of the nation's utility companies.

While government census figures this year indicate a population increase for New Mexico of 27.3 per cent over 1940, W. Paul Jones, president of a leading gas appliance and equipment manufacturer, pointed out that during the same period the number of gas users in the state rose from 23,000 in 1940 to 59,200 in 1950, or an increase of 157.4 per cent. The nation as a whole showed a 57.1 per cent increase in the number of gas customers, he said.

"This figure would have been still larger if the gas utility firms in the state had been able to fill the constantly increasing number of requests from the public for this fuel," Jones added.

He noted that central gas heating installations in the nation had increased 165 per cent in the last 10 years, rising from 1,187,000 in 1940 to 3,119,000 today. Ten years ago, he said, gas was used in only 30 per cent of the nation's automatic home furnaces, while oil accounted for a fraction under 54 per cent and stokers for 16 per cent.

Today, Jones added, gas installations account for 35.5 per cent of the total—an increase of 5.5 per cent—while oil has dropped to 50.5 per cent and stokers to 14 per cent. The continuing expansion of the country's natural gas pipeline system, which now totals 282,000 miles, or 50,000 miles more than the nation's total rail mileage, will result in an even sharper increase in the trend toward the use of gas in homes, he predicted.

'Petroleum Peggy Says'

I imagine any woman would be skeptical if told that the family breadwinner is three times safer on the job than he is at home. It's natural to think the reverse is true. After all, home is supposed to be a place of peace and quiet, not a booby trap.

Most employees are safer at work, however, because of the accident prevention program practiced by

their companies and industries. Business and industrial leaders long ago recognized the need for making the work place safe for employees. Injured workers mean lost time, reduced production and more costly operations. Wives and mothers appreciate such safety programs for the man on the job, too.

Take the oil industry, for example. That's where the employee is three times safer than in his home. Oil workers are among the best protected industrial employees.

Strongly competitive in the dollars and cents business of producing, refining, and selling petroleum, oil companies take a highly co-operative view where the human element is involved. They share their knowledge on the safest ways to do the many jobs necessary to bring Americans about 250 million gallons of petroleum products daily. Codes of safe operating practices have been drawn up. Workers and foremen are trained in accident prevention. As a result, in 1949, when the industry achieved its best safety record, the odds against a man being injured were 4400 to one.

Safety conscious themselves, oil men work to make the oil-using public more safety minded, too. With motion pictures, slide films, booklets and exhibits, the oil men preach safety to men, women, and children at every opportunity.

Oil men develop and bring us hundreds of items ranging from gasoline to insecticides, from fuel

oil to synthetic rubber. They bring us assurance, too, through their safety programs. While safety is not a commodity, I think it ought to stand high on their list of achievements.

The term "blue blood" originated with the Spanish, who believed the veins of a person of aristocratic lineage were bluer than the veins of an ordinary person.

Openings Exist For Marine Corp Reserves in Area

There are six more openings for Marine Corps reserves in the rank of sergeant or above with the Marine recruiting service in this area, Sgt. F. M. Powell, recruiter at El Paso, announced.

In addition to these six men there is still one opening for a woman marine reservist in the rank of sergeant or above for this duty.

These reserves are being placed on active duty in anticipation of a large number of enlistments in the next few months.

All reserves ordered to this recruiting duty will be paid the extra allowances now paid to recruiters under current regulations.

For further information interested marine reserves may call or visit the recruiting office, Room 146, U.S. Court House, El Paso.

"cattle," the county agent points out. "In warm weather, a small pasture near the farmyard that's well fenced with plenty of water handy is also a good spot."

But Rierson says that cattle should not be turned loose in large fields where it's hard to keep a close check on them. Besides, they won't tame down if they can roam around large areas.

Yearlings or older cattle that are held in the lot for resting should have only good roughage for the first week or 10 days. If they are going on feed soon, it's a good idea to scatter a small amount of grain or silage in the bunks so that they can get accustomed to it.

It's safer to feed mixed or non-legume hay to start cattle off. Calves can take a little grain right away along with the hay. Rierson suggests about one to three pounds of whole oats per day for each calf.

Bird Lock-Joint Roofing Vouched For By Williams

The Williams Lumber Company west of Artesia on the Hope highway recommends Bird Lock-Joint roofing for your needs.

Bird Lock-Joint roofing comes in a variety of colors and is a fire-proof shingle, adding safety to your home or other buildings on which it is used.

But Bird Lock-Joint roofing is only one of many lines carried by Williams Lumber Company.

Included, of course, is lumber of all sizes and descriptions, everything you need for any building purposes. Besides, Williams Lumber company carries oil-field and mine timbers.

Besides lumber and Bird Lock-Joint roofing, Williams Lumber Company carries a full line of building supplies, including Ideal window units, sash, window and screen, with patented weights, doors ready to hang, all kinds of builders' hardware, a complete line of paints for inside and outside use, window screen, chicken wire, stucco netting, cement, plaster wallboard, a special type of Tylac board for kitchen and bathroom walls, and Olympic door locks, which are easily and quickly installed.

Williams Lumber Company offers free delivery to any place in the valley on orders of any size. For this service the company has two large trucks and two pick-ups. Besides the general lines of lumber and building supplies, Lew E. Williams and his sons, George and Ralph, who operate Williams Lumber Company, do contracting of all kinds for commercial or residential building. In addition they do repair work and remodeling. They will be happy to submit free plans and estimates on homes.

Make the Williams Lumber Company on the Hope highway, phone 1105, your headquarters for lumber and building supplies.

Universal Items Are Bonus at Cape's Grocery

Cape's grocery on North First Street at the city limits, besides offering a full line of nationally advertised groceries and all other food departments and a complete service station, offers you a bonus on all purchases from 10 cents up.

The bonus is in the form of coupons, which you may save and exchange, without any additional money, for lovely Universal Border Rose dinnerware, kitchenware or refrigerator ware.

All of these Universal items are guaranteed ovenproof. And they are guaranteed against checking or glaze cracking, or any damage to the glaze or decorative treatment resulting from exposure to either heat or cold.

Universal Border Rose dinnerware, kitchenware, or refrigerator ware may be transferred directly from a cold refrigerator to a heated oven. It is all regularly tested for one hour under 150 pounds of live steam pressure, then immersed in 50-degree water, a test more severe than three years of hard kitchen use.

For a lifetime of service, get these Universal items, made by the world's largest manufacturer of ovenproof dinnerware and kitchenware.

And the nice thing about it is that you can get these items as bonuses on your purchases at Cape's Grocery on North First Street at the city limits, where Mr. Cape, owner and Mrs. Boyles, manager, will be glad to explain the simple profit saving method of coupons with each purchase of 10 cents or more in the food store or at the service station.

Six Shilling British Stamp Worth \$45,000

By C. GOTTFRIED FINKE

Have you ever thought that you, yes you, might some time find a rarity in postage stamps? If you did would you let it go or would you try and find out just what that stamp was worth?

Thousands of people in this country as well as in foreign lands have let such items go by. In Georgetown, British Guiana, a school boy, Vernon Vaughan, was turning the pages of the well thumbed album in 1873. He was getting ready to do some stamp trading. His collection was 200 stamps.

He went through his album picking out the drab specimens to trade for ones more decorative. Especially he noted among his collection one he could most certainly part with.

This stamp was the octagon British Guiana stamp, showing a crude outline of a three-masted bark, printed on magenta paper. Around the ship was found the colony's motto, "Damas Petimassaque Vieissim." We give and We Seek in Turn, plus the words British Guiana, and the denomination of 1 cent.

It had been cancelled by pen with the postal clerk's initials, a practice of the time, to prevent forgeries. Vernon took this stamp to a local collector, Neil McKinnon, who offered his six shillings for it.

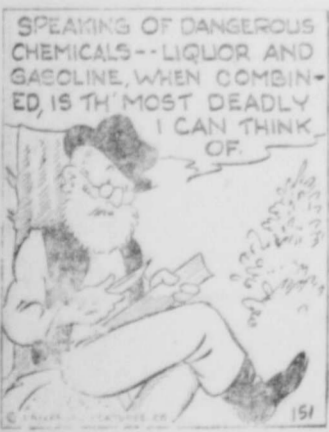

Vernon accepted. He could hardly be expected to know he was parting with what was to become the world's most valuable stamp and that kings would vie with millionaires for its possession.

Also that its value would go to thousands of dollars, for today there is only one in existence.

That one is in a collector's hands here in the United States. He paid \$45,000 for it, recently refused \$60,000. And goes on record as saying that \$100,000 could not buy it.

McKinnon in 1922 sold the stamp to Thomas Ridpath, who paid him \$550. Ridpath sold it to Baron von Ferrari, for \$750. After World War I, it was sold by the French government for reparations in 1922 to Arthur Hind in this coun-

'Beauty and The Beast' Coming On Thursday

Tightly packed with luxurious costumes and beautiful scenic effects, the gaily painted truck of the Clare Tree Major Children's Theater of New York will drive up to the high school auditorium here Thursday for a performance of "Beauty and The Beast." The young occupants of the truck and the accompanying car are bringing not only a gay, exciting play to Artesia, but also happy memories of the bustle and ado of the preparations that have made this nationwide tour possible.

They remember the great gray building, busy as a beehive, that is their Pleasantville, N. Y., headquarters, all four walls resounding to the multitudinous sounds of happy voices giving life to the fabulous characters they are to present for the enjoyment of the nation's small fry.

In one rehearsal room "Rip Van Winkle" is awakening from his 20 years of sleep. In another a company rehearses "The King of the Golden River," while as far from the others as possible, the company of "Pocahontas" beats its drums and dances wildly to fierce old Indian war cries or sings the lovely Indian "Salutation to the Sun."

They recall the whirr of sewing machines at work on the sumptuous costumes, the buzz of saws and banging of hammers which fashion fairyland and settings out of prosaic wood and canvas.

The Children's Theater performances of "Beauty and The Beast" will be presented under the auspices of Story League, Girl Scouts, and Central School Parent-Teacher Association, of which Mrs. V. P. Sheldon is general chairman.

The last day of the meeting will

Women of Artesia Area to Attend National Home Demonstration Meet

A number of women from the Artesia area are planning to attend the 14th annual meeting of the National Home Demonstration Council at Biloxi, Miss., Oct. 16-20.

Mrs. Milton J. Poole, president of the New Mexico Association of Home Extension clubs, plans to leave by plane Oct. 15 to head the New Mexico delegation. In all, more than 2600 women representing 30 states, Hawaii, and Puerto Rico are expected to attend.

Those from this area who plan to be at the meeting include Mrs. W. T. Haldeman, Mrs. Nevil Muncy, Mrs. Ralph Rogers, and Mrs. Glenn Sharp, Artesia.

Mrs. M. D. Brantley, Mrs. Felix Cahape, Mrs. Guy Crockett, Miss Ella Lee Crockett and Mrs. Will Keller, Hope.

Miss Wynona Sweptston, Eddy County demonstration agent, and others from Carlsbad will also attend.

Mrs. Poole will be one of the 40 delegates from New Mexico. Miss Elsie Cunningham, state home agent with the Extension Service of New Mexico A. & M. College, will accompany the New Mexico delegation. Delegates will also attend from Bernalillo, Curry, Colfax, Grant, Quay, Roosevelt, San Juan, San Miguel, Santa Fe, and Union Counties.

The meeting will capture the rural spotlight of the country as women discuss and plan policies affecting local and international affairs. On the roster of speakers are Francis Russell of the State Department; M. L. Wilson, federal extension director; Dr. J. D. Williams, chancellor of Mississippi University and Clayton Rand, author, who will speak on "This Combustible Earth."

The last day of the meeting will

be devoted to hearing reports of U.S. delegates who have just returned from Denmark, where they attended the annual convention of the Associated Country Women of the World.

Speaking of the Biloxi meeting, Mrs. Poole said, "We are looking forward to a jaunt to the deep South. We expect to learn a great deal about our great country as we mingle with delegates from other states and broaden our understanding of public affairs."

During the week, the delegation will be entertained with a tour of old Southern mansions and gardens, boat trip on the Gulf of Mexico and a shrimp jamboree. While en route, New Mexico women plan to do sight-seeing in San Antonio, Austin, Houston and New Orleans.

Take Advantage Of Better Prices

Every year about this time egg prices begin their seasonal upswing. Are you protecting the quality of your eggs to take advantage of the better egg prices?

Maintaining egg quality is always a problem during summer months, so you should be especially watchful and cautious as you care and handle market eggs. Do not sell poor quality, low-grade eggs simply because you neglected some important egg-handling chores. Always market attractive clean eggs that will measure up to and receive the better prices.

Keep handling losses low and egg quality high by following these steadfast rules of proper egg care. Be particularly careful about holding fresh eggs in a warm room

too long. Eggs kept in a kitchen or other warm room which is above 70 degrees temperature will gradually deteriorate. The air cell quickly becomes larger and the white thinner. Place the eggs in a cool moist room as soon as they are collected.

Some poultrymen keep eggs too long and store them in rooms where strong odors are present, such as onions, limberger cheese or kerosene. Eggs absorb such odors and naturally depreciate in quality. Do not hold eggs more than three or four days before marketing or placing in refrigeration.

Pullet eggs are small and do not weigh nearly as much as hen's eggs. Now that you are probably collecting some eggs from early hatched pullets as well as hens, guard against mixing the two sizes in one pack. Mixed lots of eggs such as fresh and stale, large and small, dirty and clean, bring the lowest prices.

Old and dirty egg cases, old and stained flats and fillers are not attractive. Make sure your market eggs are clean and desirable-looking. Use good sound fillers and flatsthat are clean.

And do not pack eggs that may break easily. With this in mind, avoid packing eggs too large for the fillers. They may be broken in handling or on the way to market. Also eggs packed on the large end may be smashed. Pack eggs carefully and get full value from them at the market.

NOTICE OF DISSOLUTION OF PARTNERSHIP

NOTICE is hereby given that the partnership heretofore subsisting between Henry I. Caudle and Fred Henderson, heretofore carrying on the drug and sundries business at firm name of Palace Drug Store, Artesia, New Mexico, under the firm name of Palace Drug Store, has been dissolved as of the close of business September 30, 1950, by

mutual consent, so far as concerns the said Henry I. Caudle who retires from said firm. All debts due to and owing by the said firm will be received and paid respectively by Fred Henderson, who will continue to carry on the said business under the firm name of Palace Drug Store. Dated this 4th day of October, 1950. HENRY I. CAUDLE, FRED HENDERSON.

A Young Couple

started a "proven investment program" in Mutual Fund Shares for their baby's education by purchasing \$2000 worth and by making further investments each quarter.

By following this plan they will have sixteen years of compounding dividends and accumulating capital, the income from which may be used to defray educational expenses. Investment Programs may be started with an initial investment of \$100 or more.

Who Runs America?

the Congress? the President?

OR YOU AND THE MAN NEXT DOOR?

RUNNING AMERICA is the joint job of 150,000,000 people. It's the biggest job in the world today—keeping it running for liberty and for freedom. And the whole world's watching to see whether Americans can do it!

IN MUCH OF THE WORLD today, the people have resigned from running their own countries. Others have been quick to step in—first with promises of "security"—and then with whips and guns—to run things their way. The evidence is on every front page in the world, every day.

FREEDOM COMES UNDER ATTACK. The reality of war has made every American think hard about the things he's willing to work and fight for—and freedom leads the list.

But that freedom has been attacked here recently—just as it has been attacked in other parts of the world. One of the most serious threats to individual freedom has been the threat of Government-dominated Compulsory Health Insurance, falsely presented as a new guarantee of health "security" for everybody.

THE PEOPLE WEIGH THE FACTS. In the American manner, the people studied the case for Socialized Medicine—and the case against it.

They found that Government domination of the people's medical affairs under Compulsory Health Insurance means lower standards of medical care, higher payroll taxes, loss of incentive, damage to research, penalties for the provident, rewards for the improvident.

They found that no country on earth can surpass America's leadership in medical care and progress. They found that able doctors, teachers, nurses and scientists—working in laboratories where Science, not Politics, is master—are blazing dramatic new trails to health for Americans—and for the world.

THE "GRASS ROOTS" SIGNALS CONGRESS. In every community in the Nation, people stood up to be counted on this important issue. Thousands of local women's clubs, civic groups, farm, business, religious, taxpayer, medical, educational and patriotic organizations spoke out—giving the great United States Congress its unmistakable Grass Roots signal from home!

And ever watchful, ever sensitive to an alert people, The Congress saw that signal, and heard the people speak out, loud and plain. That's democracy in action. That's the American way!

Today among the 10,000 great organizations on militant public record against "Compulsory Health Insurance" are:

- General Federation of Women's Clubs, American Farm Bureau Federation, National Grange, Veterans of Foreign Wars, National Conference of Catholic Charities, American Protestant Hospital Association, American Legion, National Association of Small Business Men, United States Chamber of Commerce, National Association of Retail Grocers, National Retail Dry Goods Association, American Bar Association

Doctors of this Nation are grateful that the people refused to be wooed by the fantastic promises of this un-American excursion into State Socialism. Doctors of America are dedicated to serve their fellow citizens at home and their comrades in uniform, wherever service to this Nation may take them. And the thing they stand ready to fight for—to sacrifice for—to die for—is not the alien way of life of Socialism, but the proudest security of a free and self-reliant people!

THE VOLUNTARY WAY IS THE AMERICAN WAY! Throughout the Nation, free men and women, working and planning together, are finding the American answer to every question of medical service, care and cost. Hundreds of Voluntary Health Insurance Plans are in healthy competition—sponsored by doctors, insurance companies, hospitals, fraternal organizations—by industry, agriculture and labor. Today in America—70 million people are protected by Voluntary Health Insurance! Throughout the Nation, families are insuring themselves against the major costs of illness—at reasonable, budget-basis prices. Voluntary Health Insurance takes the economic shock out of illness. Protect your family now. For information, ask your doctor—or your insurance man.

An American's greatest heritage is the right to learn the facts—and to speak his mind. Maintained with honor and used with sincerity—that right will guarantee forever that You and Your Neighbor Run America! PHYSICIANS OF THIS COMMUNITY PARTICIPATED IN PAYING FOR THIS SPACE AMERICAN MEDICAL ASSOCIATION • NATIONAL EDUCATION CAMPAIGN ONE NORTH LA SALLE STREET, CHICAGO, ILLINOIS

Correct Lifting Practices Help Prevent Injuries

Correct lifting should be practiced until it becomes a habit," County Agent Dallas Rierson advised. "Each year thousands are injured by sprains, strains, hernias and other injuries caused by improper lifting."

The county agent says that, according to the records of the National Safety Council, the most common causes of lifting injuries are lifting and lowering with the back muscles instead of the leg muscles, insecure grip or footing and unsafe placing of hands or feet, using quick jerking, twisting or awkward movement of the body, obstructed vision, unstable loads or inadequate control, and insufficient help or failure to use mechanical aids.

The body is a mechanical system of levers and hinges, activated by cables just like many machines," Rierson explains. "Nature intended each bone joint and muscle for a specific purpose. When overloaded or used improperly, injuries are inevitable. It is a common practice to bend at the waist when reaching down to grasp an object. Lifting in this position places a severe strain on the sensitive back and abdominal muscles."

"Always bend your knees and keep back straight when it becomes necessary to lift. Examine farm lifting jobs with a critical eye. Reorganize the work to eliminate or reduce the amount of lifting required. Explore the feasibility of using simple and safe mechanical aids, such as rope hoists, wooden skids, hand trucks, or inexpensive conveyors."

Farm Output Is Up Third Over Prewar Level

With little more acreage and 13 per cent fewer workers, American agriculture this year promises to produce at least a third more than it did before the war, according to estimates based on the latest crop conditions.

This striking evidence of the production potentials of the nation's farms is of major significance at this time in view of the international crises. It shows that the United States can be a major contributor to the world's "breadbasket" if the need arises.

Furthermore, high food production should help to hold prices down in an inflationary situation such as the nation is now facing if it were free from the artificial inflation of political considerations. The key to agricultural progress of recent years is increased productivity, just as it is elsewhere in the economy.

Department of Agriculture figures show, for example, a 35 per cent increase in the average yield of corn per acre for the 1948-50 growing period as compared with the 1929-41 period.

In the case of wheat, the comparable increase between these two periods is 20 per cent, and for cotton almost as much.

The biggest individual average productivity gain per acre between the two periods is 67 per cent in potatoes.

Mechanization and scientific research are largely responsible for these production advances. The number of tractors on farms has more than doubled in the last decade. So has the use of fertilizers. New insecticides have sharply reduced the annual toll from insect damage and research has likewise made other notable contributions to crop yields and farming techniques.

In the aggregate, farmers have increased their dollar investment in machinery and motor vehicles fourfold since prewar.

Everybody's MARKET PLACE is the Advocate Want Ads.

Diagnose Sick Birds Promptly

One of the common faults found in the management practices of poultry raisers is the failure to recognize and treat poultry diseases before they make headway in a flock. This is especially true in the case of the unsuccessful raiser, who often becomes disillusioned and confused when he repeatedly loses birds to disease.

In the first place, a poultryman must become a student of disease problems. Any grower who ignores the disease factor in poultry raising is certain to be handicapped in his efforts sooner or later.

The successful control of poultry diseases and parasites depends to a great extent on the prompt diagnosis of such diseases. Quick recognition of the disease enables the poultryman to curtail its spread in the flock and keep down the losses.

Too often the raisers believe killing ailing birds is the best policy, feeling that by eliminating sick birds they can prevent further spread of the disease. Actually, however, it is best to separate sick birds from the other poultry and observe them for additional symptoms. Following observation, a post mortem examination should be performed.

If a poultryman is to make a success of his enterprise, he owes it to himself to become familiar with the symptoms of poultry diseases. All diseases have distinct symptoms. By learning to recognize these symptoms quickly and accurately, the poultry raiser often can detect diseases early and head-off discouraging outbreaks.

Some common symptoms and the various ailments which they frequently characterize are as follows:

General unthrifty condition—Examine birds for external parasites, such as lice, mites, ticks, etc. Also internal parasites. Examine birds' droppings for roundworms or segments of tape worms.

Lameness—Lameness in turkeys may be due to range paralysis, bumble foot, scaly leg, rickets, fracture or bruises.

Diarrhea—This may be caused by digestive disorders, cholera, coccidiosis, fowl typhoid or worms. Bloody droppings—These may be due to coccidiosis, enteritis, or worms.

Gasping—Gasping symptoms usually indicate disorders in the wind pipe or larynx. "Colds" coryza or roup may also be responsible for the same symptoms.

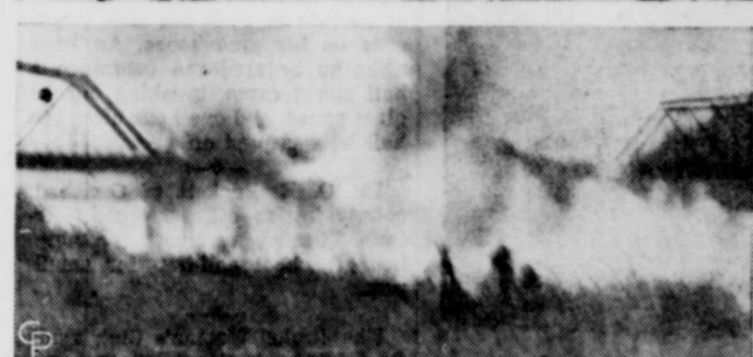

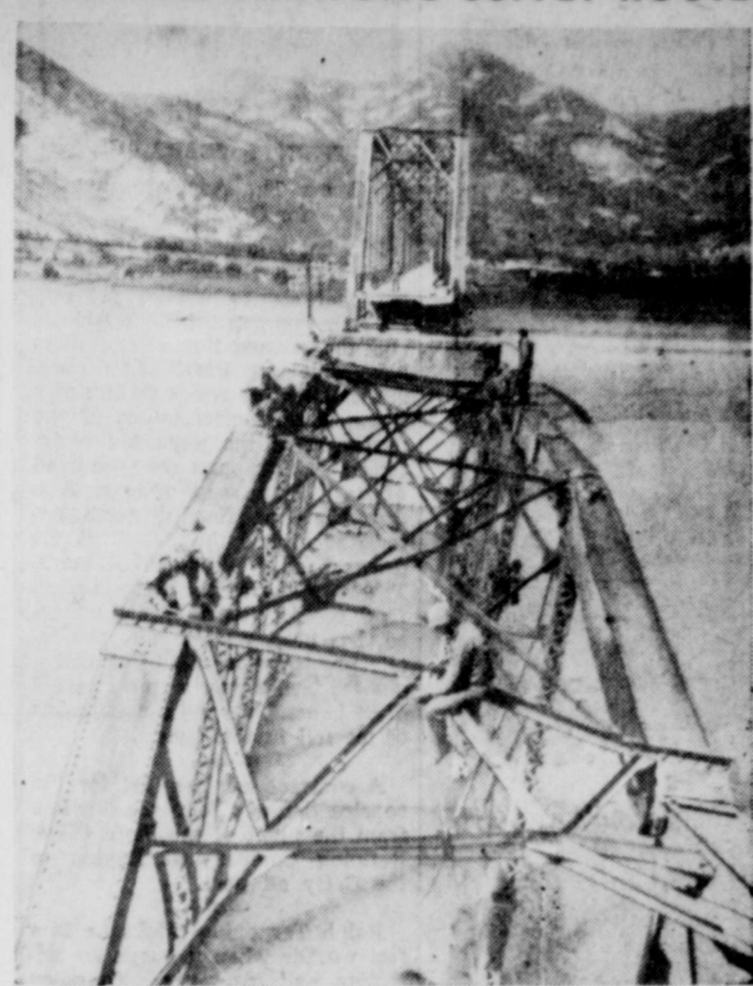

Regulation on GI Bill Tuition

Veterans Administration has issued regulations affecting the amount of tuition it will pay to thousands of schools training veterans under the GI Bill and Public Law 16.

Under the regulations, a school which has had one or more tuition contracts for a period of more than 12 months will continue to receive payments at the rate of the last contract—without the need for further negotiations with VA.

The new regulations apply to

REPAIRING NAKTONG SUPPLY ROUTE

U. S. 8TH ARMY engineers of the 84th Battalion swarm over a wrecked span (upper) of a Naktong river bridge near Waegwan to place demolition charges. The span goes up in smoke (lower) to make way for a new structure so heavy equipment and supplies can be moved up behind the northward racing United Nations forces. (International)

schools offering courses of any length—whether they be short, intensive courses of less than 30 weeks, or courses lasting longer than that period of time.

For schools having "frozen" tuition rates under recently-enacted Public Law 610, today's regulations affect only the period between the date of their last GI Bill contract and July 13, 1950, effective date of the new law.

The VA regulations do not apply to courses in non-profit institutions of higher learning, institutional on-farm training courses or correspondence courses contracted for under either the GI Bill or Public Law 16 (for the disabled).

Where books, supplies and equipment costs are an integral part of a school's tuition rate, the regulations authorize VA to include those costs in the rate it will pay for veteran-students.

Professional Conduct Set-Up Proving Worth

The American Medical Association has announced that 34 of its 48 constituent state medical associations including that in New Mexico, and the District of Columbia Medical Society now have committees which will hear complaints from the public.

Purpose of these committees, according to Dr. George F. Lull, Chicago, secretary and general manager of the A.M.A., is to "iron out any misunderstandings between the public and the profession." He said that the committees are another expression of the physicians' constant concern for the welfare of their patients.

Under the committee set-up, any patient who is dissatisfied with service rendered, who feels he has been overcharged, or who is dissatisfied for any other reason, may take his complaint to the medical society. The committee on professional conduct, as these patient-complaint committees are commonly called, will consider his charges, discuss them with the physician concerned, and recommend a solution.

"Experience has shown that most complaints arise out of misunderstandings that are quickly and amicably settled," Dr. Lull said, adding, "In cases involving fees, many difficulties occur solely because the physician and the patient neglect to discuss charges. Patients often don't realize that many tests and treatments are included under the simple heading, 'For Professional Services Rendered.' After a committee-arranged conference between doctor and patient, these troubles usually evaporate."

"Even in the cases where a com-

mittee finds that the doctor has erred, little difficulty is experienced in settling complaints. Committee after committee has reported to the A.M.A. that they have never had a doctor refuse to accept their recommendations."

If more stringent discipline should be required, however, the medical society has the power to expel the physician involved from membership, or if charges warrant, can even go so far as to request revocation of his license by the state licensing board.

New Mexico Medical Society was one of the first five state associations to organize such a committee. Its committee to guard professional ethics, known as the board of supervisors, has been functioning since August, 1949.

During the first year that the committee has functioned, eight complaints have been received, reports Dr. C. P. Bunch of Artesia, chairman of the board. "Five of these complaints were disposed of by advisory letters to the complainant and the doctor complained against. One case was referred to the county medical society board of censors, and two cases were referred to the Board of Medical Examiners, since they concerned unlicensed practitioners," Dr. Bunch added.

Members of the board are: Dr.

Fire Prevention Week

FIRE PREVENTION WEEK is being observed throughout the nation this week.

It is a period set aside to remind the citizens of the various communities and the nation at large of the danger of fire, of the great destruction it does every year, of the lives and misery it costs, and what can be done about it.

Strange as it may seem, two of the greatest godsend to mankind, fire and water, are the most destructive. Either, when properly used, has a multitude of uses, but when rampant can bring untold chaos.

More and more is being done to harness water, to bring its distribution under control, brought about largely because the average person today uses many times as much water as he did a century ago and because the population of this nation and the world is increasing rapidly.

Hence, while attempting to conserve and redistribute water for the good of mankind, it is being harnessed somewhat against destruction, although that will never be thoroughly accomplished.

Fire, on the other hand, is an individual matter, something which is available to everybody at any time and for many uses. It cannot be controlled by vast flood projects or dams, or by seeding clouds.

On the other hand, the only general control a community or nation has over danger of fire is in the laws regulating the construction of buildings and other structures.

So it is up to the individual to take care of the problem himself, to do all in his power to prevent fire, to be ready to combat it should it spring up at the wrong place and time.

It is well to be reminded during "Fire Prevention Week" to do these things, but everybody should make it a 52-week individual campaign to prevent fire and its destruction.—A.L.B.

We Could Pay Them

MOST OF US CAN PAY OUR BILLS and accounts if we really and truly want to pay them.

The trouble is, of course, we always put off paying them until tomorrow, apparently firmly convinced we will be able to pay them then. Our intentions are good but somehow or other we always find when tomorrow arrives we are no more able to pay them than we were yesterday.

A good many business firms have been watching and checking their accounts and the credit rating of some of their customers for a good many months now. They emphasize the fact that the payment on accounts has slipped considerably during the past few months.

We have slowed down in the paying of our bills—that is some of us have. Others are just as prompt as ever. And others have always been slow.

But the fact does remain that when we are granted credit we are granted a favor. Those extending the credit have favored us in this way.

We should appreciate the courtesy to the point that we pay our accounts promptly and on time not only in appreciation for the credit which has been granted to us because those who granted the credit need their money to pay their bills.

In many instances outstanding accounts 60 or more days over represent profit of the individual or the firm granting the credit. This is money they have earned—they have used the money they collected to pay their costs and their bills.

And all of us, if we who are willing to make the sacrifice necessary to pay our accounts would do this, we could pay either our accounts in full or we could make some small payment on them at regular periods and over a few weeks or months these accounts would be paid.

It might be we would have to use money we want to use for something else. It might mean we would have to forget or postpone or delay a trip. It might be postponing buying something we could get along without.

But there always comes a day and a time when we need our credit and when we need a good credit rating.

And this is usually worth any sacrifice we have to make in order to pay our bills.—O.E.P.

Deserve Those Letters

WE HAVE ALWAYS FELT that high school students who participate and are successful in the various school activities deserve special honors and special mention.

We have never quite agreed with the idea that it isn't just as important to be a good musician, participate in school plays, take high honors in studies, or get out a good school paper as it is to be good in athletics.

We have known many a student who has brought considerable credit and glory to his or her school in other fields than athletics. Maybe it should be some other type of award but certainly those students, who do an outstanding job on the paper, the school annual, in dramatics, debating, musical groups and other activities have earned their recognition, too.

But Artesia does do one thing which some of the schools of the state do not do—they award athletic letters to those who earn them. A student, of course, to be eligible to play football, basketball or participate in track and play baseball must meet the requirements of the High School Athletic Association.

That is only as it should be. They have to have passed certain subjects the previous semester and they have to be passing at the time they are taking part in the sport. But they can earn their letter and have it awarded without having to pass a certain number of subjects during the semester in which they played.

Certainly it has come to our attention there are four or five high schools in the state which require that students after earning their football letter must further earn it by passing three solid subjects during the semester in which they played.

It is true they must pass these subjects to be eligible to participate in athletics the next semester here but they are not required to pass before they are awarded or given the letter which they have earned in football, basketball, baseball, or in track.

We are glad that the Artesia high school athletes are awarded their letters at the end of the playing season—letters they have earned by their hard work and their own efforts during the playing season of that particular sport.—O.E.P.

THE WORLD TONIGHT!

What Other Editors Are Saying

BUSINESS AND WAR TAXES

The United States Chamber of Commerce, the "voice of business," has come out for an excess profits tax in this period of high defense costs. We are glad to see it take this stand, for it is obvious that control of profits is just as vital in times of stress as control of wages and prices—and an excess profits tax is more a method of control than a source of revenue.

The chamber is also willing to support an increase in normal income taxes on corporations, but it does not like the president's plan, which would raise taxes on the larger corporations disproportionately. We are glad to see that here again it accepts the idea that industry should expect larger assessments in times of unusual difficulty. This is particularly significant because, if prices and wages are controlled, the higher taxes on business cannot be passed on as easily as in normal periods.—Milwaukee Journal.

INDIVIDUAL INITIATIVE

The initiative and enterprise of farmers in the Joseph City, Ariz., irrigation unit in solving their own problems makes further federal assistance there unnecessary. Interior Secretary Chapman announced the other day.

For this reason, Chapman said, he has approved a reclamation bureau proposal to withdraw from the unit. Chapman says the reclamation bureau wants to get out of the Joseph City unit because:

1—Investigations showed that the best solution of water shortages on 7600 acres lay in the continued use of the unregulated flow of the Little Colorado River, desilting of the water, rehabilitation of the upper canal, and ground-water pumping to supplement the supply.

2—On the basis of the bureau's findings, the Joseph City Irrigation Company has contracted for construction of an earthen desilting basin, for drilling of a well and installation of pumping equipment.

"As a result of the actions taken by the company, which are substantially in accord with the plan that the bureau would have recommended," Chapman said, "the water problems of the area have been materially relieved and further relief in the future can be obtained without the assistance of the bureau."

If the farmers around Holbrook can take care of their own irrigation problems, why can't the same be done in hundreds of other localities throughout the 17 Western states? We can't see that irrigation needs to be supervised from Washington.

It is high time that all the people throughout the country used a little initiative and enterprise of their own and stopped looking to the Great White Father in Washington to settle their problems for them.—Carlsbad Current-Argus.

OUR HIGHWAYS

Those of us who sit around home complaining about New Mexico's bad roads and sympathizing with the beefs of tourists might do well to take an occasional jaunt into neighboring states. We might not find New Mexico's plight improved to any great extent, but at least some consolation could be gained from learning that other states are in the same predicament we are.

Though we can't speak with any great authority on the road situation, we can say we've seen roads which are both better and worse than New Mexico arteries during a 1200-mile jaunt just completed.

Excepting for a few spots of corduroy paving, U.S. 66 between Albuquerque and the state line to our west is no disgrace to any state. Arizona can't meet that boast over portions of its share of the "Main Street of America." Our own 66 is in far better condition than is 85 south of Denver. And it's a sounder all-weather route than is U.S. 6 through Denver to the Coast.

Completion of repaving of the stretch between Perea and Top of the World has eliminated about the last "death trap" on the main link. The newly-inaugurated check of truck load limits should do much to crack down on truck speed excesses. The heavy beating which trucks give road surfaces are amplified by speed, and yet no crusade has been undertaken to check the unsafe and unwarranted high speeds of motor transports.—Gallup Independent.

HIS BUDDY WAS KILLED IN ACTION

As Artesia Grows

TWENTY YEARS AGO
(From The Advocate files for Oct. 9, 1930)

Hip boots, overshoes, umbrellas and raincoats have become useful paraphernalia to practically everybody in this section, since Artesia and the surrounding communities have gone wet. Boats will replace automobiles for residents of Eagle Draw, if the performances of the first part of the week are maintained. A cloudburst near the head of Eagle Draw west of town, Sunday afternoon flooded north Artesia again and the waters of the draw reached a new high mark. Twelve miles of the Artesia-Hope road, recently scarified and widened, has been washed out. The total precipitation was five and a quarter inches over a storm period of 64 hours. Two and a half inches of ice fell in this time.

A contract has been let for the construction of a four-inch pipeline from the plant of the State Oil & Refining Company at Dayton to the Getty oil pool.

Ralph Terpening thinks he is a fast worker when it comes to collecting hail insurance. Thursday afternoon he took out hail insurance on his greenhouse. An hour after he ordered the insurance a hail storm came, breaking out glass panes, and one hour after the hail he was paid off.

Dr. O. E. Puckett of Carlsbad, county health officer, was in Artesia Tuesday vaccinating a number of school children for smallpox.

The Junior Woman's Club made its debut yesterday afternoon at a tea at the Dr. J. J. Clarke home, which was the social event of the season.

The First Bridge Club was entertained at its regular meeting on Tuesday afternoon by Mrs. F. G. Hartell.

Mrs. S. S. Ward entertained at a four-course dinner Tuesday evening in honor of the birthday anniversary of her daughter, Miss Jack.

The Girl Scout Council, Mrs. Rex Wheatley, chairman, entertained the high school troop at Central School Tuesday evening. Including the Scouts and council members and leaders, there were about 30 persons present.

Mr. and Mrs. Stevenson and Mr. and Mrs. Leonard Jernigan and baby daughter of Clovis were Sunday night guests at the home of Leonard Jernigan's parents, Mr. and Mrs. E. T. Jernigan.

A truck bearing three fine Hereford bulls from the livestock ranch of Austin Reeves in the Elk community passed through Artesia Tuesday en route to the Chaves County Cotton Carnival at Roswell.

The P.E.O. sisterhood met with Mrs. Jessie Morgan last Friday afternoon.

TEN YEARS AGO
(From The Advocate files for Oct. 10, 1940)

More than 700 young men who have passed their 21st birthdays and have not passed their 36th birthdays will be registered in Artesia next Wednesday in the nation's first peacetime conscription registration day, it was announced by President Franklin D. Roosevelt in a proclamation.

Mrs. Nancy Jane Sellers Brown, widow of John Riley Brown, and a resident of the Pecos Valley almost a half century, died at the home of her daughter, Mrs. Ernest McGonagill, at Lakewood at the age of 82 years.

The second meeting of the Business and Professional Women of Artesia was held Wednesday evening at the home of Mrs. C. R. Blocker. Mrs. M. A. Mapes, Jr., temporary chairman, presided at the informal business meeting.

Mrs. J. W. Berry entertained the Abnormal Sapiens Bridge Club Wednesday afternoon with a luncheon.

The First Afternoon Bridge Club met with Mrs. Maude Ployhar Tuesday afternoon. Mrs. E. J. Foster held high score for the afternoon.

The Dinner Dance Club of Artesia held its first regular formal dinner dance at the Artesia Hotel Saturday evening. Mr. and Mrs. Kenneth Williams and Mr. and Mrs. Andy Anderson were the hosts for the party and used Halloween decorations and fall flowers.

Mrs. Raymond Bartlett and Mrs. B. B. McDaniel were hostesses at a slumber party Monday night, entertaining "Widows-of-the-day," wives of husbands who are big game hunting and otherwise out of town. A midnight feast was served and breakfast the next morning to Mrs. D. C. Blue, L. P. Evans, Charles Morgan, Jim Ferguson, Ruby Frazier, Joe Nunn, Albert Richards, Andy Anderson, and Lum Richards.

The Thursday Supper Club was entertained last Thursday at the home of Mr. and Mrs. L. B. Feather with a dinner.

Mrs. J. W. Jones was hostess to the Rummy Club Friday morning.

Miss Peggy Lirfel, daughter of Mr. and Mrs. William Linell, a freshman at Colorado Women's College at Denver, has been selected as a reporter on the official student publication, The Western Graphic.

Mrs. W. B. Pistole was hostess to the members of the Women's Christian Temperance Union Monday afternoon.

Mrs. D. C. Blue was hostess to the Past President's Parley at a 1 o'clock luncheon Monday.

By MEL HEIMER

NEW YORK—Now that the eminent William O'Dwyer has departed Gracie Mansion and set his sights on Mexico City, where he presumably will cure his reportedly ailing heart by relaxing several thousand feet above sea level, news virtually is at a standstill in this sinful community. We are indebted to a gentleman named Miles McDonald for whatever goings-on there are, and when I tell you exactly what Mr. McDonald has been up to, you will see for yourself just how badly off we are for news.

Mr. McDonald is the district attorney for Kings county, an archaic pseudonym for the borough of Brooklyn (well, laugh, you fools; Garry Moore once told me that I couldn't miss getting a laugh from my audience, anywhere, if I just mentioned Brooklyn). This job is, incidentally, a job once held by the eminent William O'Dwyer himself. In it, he rose to fame and glory as the prosecutor of Murder, Inc., the astonishing and beautifully-named band of cut-rate cutthroats (Blue Jaw Magoon, Lepke and Gurrah, etc.) who kept our front pages filled for a long time but whom I remember chiefly because their antics were so interesting as to permit a friend of mine named Asa Bordages to write a play about them called *Brooklyn, U. S. A.*

Anyway, the Brooklyn D. A. now is Miles McDonald and for nearly a year he has been investigating the possibility that bookmakers have been operating with police protection in New York. I know it sounds silly to use the word "possibility," since it is obvious to even the smallest grade-school urchin that bookies can do no business without police protection, but I am trying to show you how hard up for news we are. One would think that if an enterprising D. A. were out to make news, he merely would start right in by announcing that at last he was going to round up all the patrolmen, plain clothesmen, desk sergeants and lieutenants, not to mention inspectors and captains, who were taking money from bookies. It is true that such a move would completely decimate almost any American city of policemen, but at least the public would be spared the naivete of such headlines as COPS REPORTED TAKING GRAFT.

THE ROUNDING-UP OF BOOKIES is an annual event here, something like spring housecleaning, and the 90 per cent of the city's population that plays horses suffers impatiently for about two weeks while what is laughingly called The Heat is on. Runners chew their paper slips and swallow them or tuck them into the lining of their neckties, but a handful of them are caught and brought down to the stationhouses, where they remain for an hour or two until the syndicate lawyers pay their fines. The bookies and runners are not indignant; such annual pick-ups are part of the unwritten agreement between bookie and cop, to enable the law to save its two faces.

This latest investigation, however, has its novel aspects. Mr. McDonald—and I do not know whether he is earnest, naive or opportunistic—had to conduct his affairs for some time without the eminent William O'Dwyer's co-operation. Indeed, Mr. O'D., who knew none of his cops took graft—had been a cop himself, hadn't he? Well?—bitterly labeled the McDonald probe a witch hunt and obliquely rebuked the D. A. by attending the funeral of a police captain who had suicided during a routine investigation of his own conduct in re gambling. The mayor brought six thousand cops with him to the funeral, and a rough guess would be that each one was present not so much out of respect to the dead man but to hurl a def, in a vague sort of way, at Mr. McDonald.

The eminent Mr. O'Dwyer always has had a reputation for being loyal to old friends, in much the same way that Harry Truman, unfortunately, has had one. But it did seem a little hilarious at the time for a man intelligent enough to be mayor (did someone accuse me of a non-sequitur?), who once was a policeman, to make a blanket defense against charges that his onetime colleagues took bookie graft, Good heavens—did the eminent Mr. O'D. think that a policeman pays the rent and feeds his family, in these days of taxes, out of his salary?

WELL, THE EMINENT MR. O'D. heard the call, shortly after all this, and it is unlikely that we here in Babylon will hear much more about him. Mr. McDonald, with this albatross removed from his neck, proceeded with his nosing around at an accelerated pace and just recently flushed a Brooklyn bookie named Harry Gross, who at 34 is said to be the head of a twenty-million-dollar-a-year betting syndicate. This makes Mr. Gross one year younger and ever so much wealthier than I, which would bother me except I know there are more important things in life than money. There are so.

Mr. Gross explained one night to Sam Leibowitz, the onetime mouthpiece who now is a county judge, that naturally he couldn't have been in business without police protection; indeed, he added, the cops were just about his partners.

That is about where things stand now, and I just mention all this to show you how hard up we are for news in this city when a Page One headline tells us that apes fact, POLICE ON BOOKIE PAY-ROLLS. Meanwhile, it has become a little harder to make a bet than usual, but it is not, I assure you, impossible. Indeed, if you are going to try and beat that 3 to 5 shot in the fifth, I will book it myself.

tesia held its first regular formal dinner dance at the Artesia Hotel Saturday evening. Mr. and Mrs. Kenneth Williams and Mr. and Mrs. Andy Anderson were the hosts for the party and used Halloween decorations and fall flowers.

Mrs. Raymond Bartlett and Mrs. B. B. McDaniel were hostesses at a slumber party Monday night, entertaining "Widows-of-the-day," wives of husbands who are big game hunting and otherwise out of town. Try and Stop Me

By BENNETT CERF

WHEN Joe E. Lewis is on-stage, he hates to be bothered by noisy or inattentive patrons. One night at the Copacabana, a lady with an enormous, beplumed hat and floppy feather boa sat at a ringside table and talked loudly to her companions straight through one of Joe's funniest songs. At its conclusion, Joe strode over to the offender's table, peered under her ridiculous chapeau, and announced, "Don't look now, lady, but I think you've had a head-on collision with a buzzard."

One psychoanalyst sought the aid of another, who, puzzled, asked, "Why should a man with your great reputation have to come to me for help? Why don't you analyze yourself?" "Frankly," replied the first one, "I can't afford to pay my prices."

Rogers and Hammerstein have announced that they will base one of their fabulous musical plays on the plot of the successful novel and motion picture, "Anna and the King of Siam." Bernie Hart says he has just the name for it: "Babes in Thailand."

Unreasonable Labor Practices Are Few in State

New Mexico employers have generally refused to be panicked into unreasonable labor practices because of the draft of young men to the armed services, Benjamin D. Luchini, chairman-executive director of the Employment Security Commission, said. The war in Korea and the nation's huge preparedness program will require an unprecedented amount of manpower and yet fewer than 5 per cent of the employers placing orders with the New Mexico State Employment Service call for male applicants above 25 years of age because of the present draft ages, he said.

Very few employers question the reserve status of applicants they hire. "This is commendable," Luchini said, "because widespread discrimination by employers in the hiring of young men and reservists would seriously hinder rather than help the nation's manpower and rearmament programs."

The armed forces call for men only when they are needed and as they can be readily absorbed for training. If employers refused to hire young men because they might eventually be called for military service, large numbers of workers would be idle at a time when the productive capacity of every man is desperately needed.

As draft boards are generally empowered to defer key workers until adequate replacements can be hired, employers should accept the workers they need without regard to the age group in which they happen to be, Luchini added.

In addition to the dislocation of the labor market and serious damage to the nation's productive capacity, unwarranted employment discrimination in the hiring of young men under 26 years of age would result in severe personal hardship to the men on whom the nation may eventually depend for its defense. Like any other segment of the labor forces, many of these men have families and other personal responsibilities which must be discharged.

To deny work to these workers now, many months before they may be called to the armed services," Luchini said, "would seri-

Community Spirit Helps Send Boy To A. & M. College

Because a community realized the benefits of a college education, a New Mexico boy was sent to college, and because the New Mexico A. & M. College student commission recognized his ability, he will be able to stay.

Behind the education of Tony Espinoza, 18, freshman at New Mexico A. & M., is a story of community spirit and co-operation. As a climax of efforts of the citizens of Questa, for a better community, he was elected from his graduating class, the first in the school's brief history, to attend college on funds raised through voluntary contributions in the city.

Located in the Red River Canyon in North New Mexico, Questa has in the last year become famous throughout the state for its com-

munity spirit. A small town which was rapidly growing smaller, Questa is made up of 238 families who, recognizing the deficiencies of their village, set about to rectify the situation. In a campaign in which they all took part, they have achieved a remarkable number of their goals, not the least of which is a new four-year high school, which in June graduated nine students.

That Tony Espinoza shared the

community's enthusiasm is evidenced in his high school record. Serving as president of the student body, he found time to play basketball and work on the school paper while contributing labor to the construction of the workshop for veterans and the new gymnasium, both community projects.

On the merits of his past record, the New Mexico A. & M. student commission voted to present Tony the annual student commission scholarship which will pay his

tuition fees for his freshman year. In keeping with his community spirit are Tony's plans for the future, which include returning to Questa when he completes college to teach vocational agriculture at the high school.

Tony is the son of Mr. and Mrs. Emelie Espinoza of Questa. Before World War II, some cities in Greece had a siesta period of 3 1/2 hours, during which time it was unlawful to work.

Big, Non-Rigid Airship for Navy Under Construction at Akron

Construction of the ZPN airship, new weapon for the Navy's modernized anti-submarine warfare arm, is well under way in factories at Akron, Ohio, where the big non-rigid airship was designed. The airship, identified as the ZPQ-1, will incorporate the Navy's latest developments adaptable to aircraft for the purpose of locating and co-operating in the attacking and destruction of enemy submarines in the event of future wars. The total time for design and construction of the craft will approximate two years.

The ZPQ-1's envelope will have a capacity of 875,000 cubic feet of helium gas. This compares with 250,000 cubic feet capacity for the largest rigid airship that currently exists without refueling (more than one week) and 456,000 cubic feet for the K-type ships, of which more than 130 were used in anti-submarine warfare service by the Navy in World War II.

Power plant will be two seven-cylinder single row engines, mounted in an engine room within the car. Each engine can drive two three-bladed, Curtiss Electric full-feathering controllable pitch reversible propellers mounted on outriggers projecting from each side of the car. A series of shafts and gears will transmit the power to the propellers, and, when desirable, one engine can drive both.

Both engines are accessible for maintenance and repair in flight, if necessary.

Sited in the neighborhood of 15 knots is anticipated, but more important in the type of operation in which the blimp is intended, will be its ability to hover practically motionless over a given spot or maintain the relatively low speeds of surface and under-surface craft.

The control car will have two decks with all operational stations on the lower deck and crew quarters on the upper deck. Six bunks and compact crew lockers will be in one upper deck compartment, in another will be an electric galley for providing hot meals, forward will be a small compartment with two additional bunks for the ship's pilots, and aft will be compact tables and seats where crew members may eat meals and relax during off-watch periods. Also in the crew quarters will be washroom and toilet facilities.

Tricycle landing gear, comprising a nose wheel and two larger wheels, one under each propeller outrigger, will be retractable. The nose wheel will retract into the bottom of the forward end of the control car and the main wheels and landing gear will retract into the streamlined nacelles of the outriggers. Nosewheel tire will be an 8.50x19, six-ply rayon and main tires will be 29x13.5, six-ply nylons.

Flight controls are subject to manual or automatic pilot operation. The pilot may control both vertical and horizontal direction alone, or, in co-operation with a co-pilot may divide the duties of maintaining altitude and direction. All controls can be operated through a single control column, which is duplicated at the stations of the pilot and co-pilot.

There will be four control surfaces on the stern of the ship, mounted at 45-degree angles from the vertical and horizontal instead of the more common 90-degree angle. The new control surface arrangement will contribute to the ship's maneuverability and stability. As the surfaces all will be operated in unison for either vertical or horizontal control, they will be known as "ruddervators" instead of "rudders" and "elevators."

Special equipment aboard the ZPQ-1 will make it possible to refuel in flight by taking on fuel from a surface craft, or to re-ballast by taking on water from the ocean through a water pick-up system.

Control car will be constructed of aluminum alloy sheet forming a sandwich with balsa wood core. The envelope will be of Neoprene coated Fortin rayon.

ARE YOUR AUTO INSURANCE RATES TOO HIGH?

DID YOU KNOW?
That Farmers Insurance Group is one of the 6 largest Auto Insurance carriers in U.S.A?
That Farmers write a standard form non-assessable Policy.
That Farmers make no extra charge for ages 21 to 67 years old.
That you can save up to 25% per year on your Auto Insurance premiums with Farmers.
That Farmers have fair, friendly and fast claim service.
That Farmers write 80/20 collision—Farmers pay 80%—you pay 20%—your 20% never exceeds \$50 on each collision.
That you can buy 80/20 collision from Farmers at a low rate that will surprise you. Check and see.
That you might lose your drivers license, car tags and all auto title, in your name if you had an accident without Auto Liability Insurance.
That Rates for all 1950 Fords, Plymouths and Chevrolets are:

BODILY Injury liability \$5,000/10,000	\$34.40
PROPERTY Damage liability \$5,000	
MEDICAL Payments \$500 per person	Current Rates Each 6 Months
COMPREHENSIVE, including Fire, Theft, Windstorm and Glass Breakage, etc.	
\$50 DEDUCTIBLE Collision	

\$5.00 Non re-occurring policy fee at beginning of policy.
HAT* This policy has a Mexican endorsement covering 75 miles into Old Mexico.

ROMANCE---REAL OR A DREAM?

AMID RUMORS that the much-publicized "romance" between Egypt's King Farouk and herself are largely the dream of a press agent, 16-year-old Mimi Modart, St. Louis, Mo., poses in Paris with a pet cat before leaving for London, England, to continue her education after a vacation in Europe. Mimi revealed that Farouk's court had invited her to spend Christmas in Cairo as the king's guest.

'National Fire Prevention Week' Is Observed

Each day in the United States, there are 740 home fires, 30 deaths by fire, 200 store fires, 91 factory fires, eight church fires, seven school fires, three hospital fires.

Each year, 11,900 Americans die needlessly in fire.

Twice that number are severely burned or disfigured for life.

About 16,000 acres of forest land are laid waste each year by fire, an area approximately 160 miles wide and 240 miles long.

These are just a few of the reasons why the week of Oct. 8-14 has been set aside as "National Fire Prevention Week," so proclaimed by President Truman.

"Fire is bad enough in the city, but it usually spells disaster to a farmer," says Charley S. Taylor, state extension agricultural engineer and farm safety chairman for New Mexico.

"Fire is bad enough in the city, but it usually spells disaster to a farmer," says Charley S. Taylor, state extension agricultural engineer and farm safety chairman for New Mexico.

"So, while 'Fire Prevention Week' is the psychological time to look over your fire defenses, it is a much better idea to do it today."

Valuable Tips When Housing Are Issued

After your laying house, or laying houses, have been repaired, re-modeled, cleaned and disinfected, and generally put in good shape for the coming season, you are

ready to begin culling your pullet flock. But before you do this, consider other management duties to be handled at this time.

Of course, the proper time to house birds varies with the section of the country, but as a general rule, it is good practice to house pullets before production hits 10 per cent.

By following this procedure, you are less likely to interrupt egg production and throw your birds into a molt.

As you begin culling your flock, it may seem difficult to pick out the birds most likely to develop into high producing layers.

There's a good reason for this difficulty. At this stage of development, birds do not readily stand out or show particularly outstanding laying characteristics.

And when culling, remember to limit your flock to the number of birds the house will accommodate.

Leghorns must have three feet of space per bird, and heavy breeds require four square feet.

Never overcrowd your layers.

While you are handling birds, take advantage of the opportunity and worm each selected layer individually.

In this way, you give birds an effective worm treatment and eliminate extra work later on.

Always put worm-clean pullets in the laying house.

University Takes On Atmosphere Of United Nations

The University of New Mexico has taken on a sort of United Nations atmosphere with 78 students from 20 foreign countries and territories.

Students have come from Alaska, Argentina, Brazil, Canada, Egypt, Hawaii, Italy, Korea, Mexico, Panama, Canal Zone, Peru, Philippines, Puerto Rico, West Africa, Sweden, Okinawa, Turkey, India, Germany, Cuba, Japan, and El Salvador.

Eleven have enrolled in the Graduate School with 67 listed as undergraduates.

The most colorful group is the 28 freshmen Okinawans. Two of the group are married. They were chosen from a large list of applicants and carefully screened as to the possibilities of getting the most from a year's study at the university.

All foreigners are under the auspices of the Institute of International Education and are always approved by the military and the State Department.

To give the university a still more cosmopolitan atmosphere, 1200 students from every state in the union join the 300 residents of New Mexico in classes daily.

Internal Revenue Collections in State Total 57 Million

According to the report of the U.S. Internal Revenue Bureau, the total internal revenue collections in New Mexico for the year ended June 30 amounted to \$57,906,231.82, including \$41,464,129.76 in individual income tax collections (including taxes withheld by employers), \$7,544,827.27 of corporate income and profits taxes, \$3,664,444.56 in employment taxes (including carriers' taxes), and \$5,232,380.43 of miscellaneous internal revenue.

Approximately 87 per cent of the total receipts were derived from the sale of timber. Revenue from timber sales totaled \$29,379,217, compared with \$26,926,449 for the previous year.

Grazing receipts, which ranked second in importance to the sale of timber, totaled \$3,385,004 for the year ending June 30, a slight increase over the \$3,275,964 collected during fiscal year 1949 for the grazing of cattle, horses, sheep, goats and swine on national forests.

As to corporate income and profits taxes, remittances are in a large share credited to other internal revenue districts in which the corporate headquarters are located. Therefore the amount shown as collections of corporate income and profits taxes in New Mexico does not by any means indicate the total of collections from this source from New Mexico.

The total amount shown as collected may be compared with \$55,378,586.27 for the year ended June 30, 1949, an increase of 4.6 per cent.

New Mexico is one of 10 internal revenue collection districts, out of a total of 64, which show an increase. The total collections for all

districts in this group for the year ended June 30, 1949, totaled \$1,356,194,917.82, an increase of 4.6 per cent.

Male rattlesnakes often grow to more than four feet in length, while females seldom exceed three feet.

Combined incomes of Japanese Emperor Hirohito and his wife totaled \$1,536 in 1949.

Accidents affect family happiness. One way to look at the effect of accidents is in terms of family happiness and the family budget.

Here are some averages presented in the 1950 edition of "Accident Facts," the National Safety Council's statistical yearbook:

In 1949 there was one accidental death in 423 families, one disabling injury in four families, and the budget was nicked for \$195 per family.

There will be music in the wards of New Mexico State Hospital at Las Vegas when organizers of a recently designed recreation program round up 20 or more pianos.

Dr. Marcellus McCreary, superintendent, announced that the recreation program necessitates a piano for each of the mental institution's wards and therapy rooms. He asked New Mexico residents to aid by contributing old pianos.

Persons wishing to contribute a used instrument may contact the public relations office of the hospital collect by telephone or by mail and arrangements to move it will be promptly made.

The recreation program is a part of a large-scale design to provide more entertainment and therapy for patients. The pianos will be used in conjunction with a therapy plan which is to be directed by Dr. Melvin Rigg, head of the department of psychology at Highlands University, and widely known authority on the psychology of music and its application to therapy.

Cottonwood Cast Wins Third Place In State Contest

Cast of the Cottonwood 4-H Club which won third place in the 4-H one-act play contest at the New Mexico Fair in Albuquerque, this week were awaiting arrival of the engraved plaque, trophy of their dramatic skill.

The play was presented on Friday, Sept. 29, 4-H and Future Farmer Day, at the exposition.

First play went to Bernalillo county; second, to Roosevelt.

Title of the Cottonwood play was "Round-up of Minnie," which had a western theme. Director was Mrs. James Thigpen, Cottonwood 4-H leader.

The cast consisted of Abbie Fran-

Plan Wiring System For Permanency Of Farm Buildings

The electric wiring system in the new home will be a permanent part of the house and all farm buildings and should be planned accordingly, suggests Dallas Rierson, county extension agent.

"The wiring system," the agent points out, "should be planned for use in the future as well as the present, just as the house is planned. Consideration should be given to future use before any wiring is installed."

"In a well-planned wiring system, appliances may be added as desired later. A poorly-planned wiring system may mean tearing out old wire and fixtures and replacing with adequate wiring materials, for the addition of needed appliances."

"The best time for adequate wiring to be installed," Rierson emphasizes, "is during the construction of the house."

Help on these and other matters pertaining to better housing is available through the county extension agent's office.

National Forest Receipts Reach New All-Time High

Receipts from national forests during the fiscal year 1950 reached an all-time high of \$3,594,614, an increase of 8 per cent over the \$3,175,321 taken in during the fiscal year 1949, according to the Forest Service of the U.S. Department of Agriculture.

Approximately 87 per cent of the total receipts were derived from the sale of timber. Revenue from timber sales totaled \$29,379,217, compared with \$26,926,449 for the previous year.

Grazing receipts, which ranked second in importance to the sale of timber, totaled \$3,385,004 for the year ending June 30, a slight increase over the \$3,275,964 collected during fiscal year 1949 for the grazing of cattle, horses, sheep, goats and swine on national forests.

National Safety Council Says April Is Safest Month

The safest month of the year? Wait—don't dash for your alarmac. The National Safety Council has the answer. It's April.

Last year February had 50 fewer deaths than April, but because of two less days in that month, April had a lower daily average, according to the 1950 edition of "Accident Facts," the council's statistical yearbook. There were 6800 deaths in February and 6850 in April. The monthly average for the entire year was 7600.

July was the peak month for accidents in 1949. There were 8900 accidental deaths in that single month—1300 more than the average.

The most colorful group is the 28 freshmen Okinawans. Two of the group are married. They were chosen from a large list of applicants and carefully screened as to the possibilities of getting the most from a year's study at the university.

All foreigners are under the auspices of the Institute of International Education and are always approved by the military and the State Department.

To give the university a still more cosmopolitan atmosphere, 1200 students from every state in the union join the 300 residents of New Mexico in classes daily.

Internal Revenue Collections in State Total 57 Million

According to the report of the U.S. Internal Revenue Bureau, the total internal revenue collections in New Mexico for the year ended June 30 amounted to \$57,906,231.82, including \$41,464,129.76 in individual income tax collections (including taxes withheld by employers), \$7,544,827.27 of corporate income and profits taxes, \$3,664,444.56 in employment taxes (including carriers' taxes), and \$5,232,380.43 of miscellaneous internal revenue.

Approximately 87 per cent of the total receipts were derived from the sale of timber. Revenue from timber sales totaled \$29,379,217, compared with \$26,926,449 for the previous year.

Grazing receipts, which ranked second in importance to the sale of timber, totaled \$3,385,004 for the year ending June 30, a slight increase over the \$3,275,964 collected during fiscal year 1949 for the grazing of cattle, horses, sheep, goats and swine on national forests.

As to corporate income and profits taxes, remittances are in a large share credited to other internal revenue districts in which the corporate headquarters are located. Therefore the amount shown as collections of corporate income and profits taxes in New Mexico does not by any means indicate the total of collections from this source from New Mexico.

The total amount shown as collected may be compared with \$55,378,586.27 for the year ended June 30, 1949, an increase of 4.6 per cent.

New Mexico is one of 10 internal revenue collection districts, out of a total of 64, which show an increase. The total collections for all

districts in this group for the year ended June 30, 1949, totaled \$1,356,194,917.82, an increase of 4.6 per cent.

Male rattlesnakes often grow to more than four feet in length, while females seldom exceed three feet.

Combined incomes of Japanese Emperor Hirohito and his wife totaled \$1,536 in 1949.

Accidents affect family happiness. One way to look at the effect of accidents is in terms of family happiness and the family budget.

Here are some averages presented in the 1950 edition of "Accident Facts," the National Safety Council's statistical yearbook:

In 1949 there was one accidental death in 423 families, one disabling injury in four families, and the budget was nicked for \$195 per family.

There will be music in the wards of New Mexico State Hospital at Las Vegas when organizers of a recently designed recreation program round up 20 or more pianos.

Dr. Marcellus McCreary, superintendent, announced that the recreation program necessitates a piano for each of the mental institution's wards and therapy rooms. He asked New Mexico residents to aid by contributing old pianos.

Persons wishing to contribute a used instrument may contact the public relations office of the hospital collect by telephone or by mail and arrangements to move it will be promptly made.

The recreation program is a part of a large-scale design to provide more entertainment and therapy for patients. The pianos will be used in conjunction with a therapy plan which is to be directed by Dr. Melvin Rigg, head of the department of psychology at Highlands University, and widely known authority on the psychology of music and its application to therapy.

National Safety Council Says April Is Safest Month

The safest month of the year? Wait—don't dash for your alarmac. The National Safety Council has the answer. It's April.

Last year February had 50 fewer deaths than April, but because of two less days in that month, April had a lower daily average, according to the 1950 edition of "Accident Facts," the council's statistical yearbook. There were 6800 deaths in February and 6850 in April. The monthly average for the entire year was 7600.

July was the peak month for accidents in 1949. There were 8900 accidental deaths in that single month—1300 more than the average.

University Takes On Atmosphere Of United Nations

The University of New Mexico has taken on a sort of United Nations atmosphere with 78 students from 20 foreign countries and territories.

Students have come from Alaska, Argentina, Brazil, Canada, Egypt, Hawaii, Italy, Korea, Mexico, Panama, Canal Zone, Peru, Philippines, Puerto Rico, West Africa, Sweden, Okinawa, Turkey, India, Germany, Cuba, Japan, and El Salvador.

Eleven have enrolled in the Graduate School with 67 listed as undergraduates.

The most colorful group is the 28 freshmen Okinawans. Two of the group are married. They were chosen from a large list of applicants and carefully screened as to the possibilities of getting the most from a year's study at the university.

All foreigners are under the auspices of the Institute of International Education and are always approved by the military and the State Department.

To give the university a still more cosmopolitan atmosphere, 1200 students from every state in the union join the 300 residents of New Mexico in classes daily.
