Nearly 7,000 Families Hit By New England Washouts

38 DEAD IN NEW FLOODS

State Labor Leader Defends Heavy Rains Close Railroad Service To Stricken Area

Cotton Pay Scale For Braceros

By THE ASSOCIATED PRESS

A three-day battle of the elements eight miles high rained death and property destruction of many millions on six Northeastern states over the weekend.

The toll of persons known or presumed dead rose to 38. The sun broke through leaden clouds in New York City

and other areas today and the New York Weather Bureau said at 11:15 a.m. that the worst was over.

From his sick-bed in Denver, President Eisenhower issued assurances of aid to the storm-stricken sectors. Val Petersan, director of civil defense, boarded an army plane to inspect the flooded areas and report back to the President.

Rescuers Labor

Army, Navy, Coast Guard, civil defense units, police and firemen toiled throughout the weekend, in rescue and salvage efforts, but their work is far from done.

The American Red Cross said about 6,900 families have been affected in the storm areas—3,200 in Connecticut, 1,500 each in New York and New Jersey, and 700 in Pennsylvania.

Dozens of bridges and roads are washed out, rail transportation is snarled or suspended, power lines are down, and struggling citizens in many communities face the danger of contaminated drinking water.

The three days of rainfall (Continued on page four)

First U.S. Jet Transport Sets Record

SEATTLE (AP)—Boeing's 707 stratoliner flew round-trip across the country yesterday in less time than it takes conventional airliners to cross the nation one way.

The 707 took 3 hours and 58 minutes to fly from Seattle to Washington, D. C., at an average speed of 592 miles per hour.

After a brief stop-over in the national capital, the first American commercial jet air transport flew back to Seattle in 4 hours and 8 minutes at an average speed of 570 miles an hour.

This means that it took 8 hours and 6 minutes of elapsed flying time at an average of 581 miles per hour for the transcontinental round-trip.

The Boeing test pilot, A. M. (Tex) Johnston, 42, of Emporia, Kan., called it an "uneventful" flight in the four-jet job.

SIMMS TO SPEAK

ALBUQUERQUE (AP)—Gov. John F. Simms will address the University of New Mexico chapter of the American Assn. of University Professors here Tuesday. He has indicated he will speak on financing education.

More Rain Is Predicted for Flooded Areas

BOSTON (AP)—The U. S. Weather Bureau today predicted that except for "some periods of letup," rain which has brought damaging floods and washouts to New England would continue through tomorrow.

Additional rainfall for the next two days will measure one to two inches and "possibly more," the bureau said.

While streams in the Hartford, Conn., area were reported slowly receding, the Weather Bureau cautioned: "All interests should be alert however to further rises in streams in eastern Massachusetts and Rhode Island if the additional rainfall develops."

The government forecasters also said early today that "a storm center is currently over southeastern Massachusetts and moving very slowly, if at all, to the northeast. Another intense center is located in northern Ohio and it will move only into central Pennsylvania by tomorrow morning."

"Thus the outlook is for rain continuing for the next two days." The rain began last Friday and has been falling almost continually since then. Heavy winds occasionally accompanied the rain.

20-30 Club Board Meet Is Changed

A change in meeting date for the board of directors of the 20-30 club was announced this morning by club publicity chairman Lew Pitts.

Pitts said that the meeting, originally scheduled for tomorrow night, has been called for tonight at the home of Troy Rhoads at 1210 W. Center St. Pitts urged all board members to attend tonight's meeting in order to discuss pressing matters of membership and dues.

Artesia Weather

Fair with little change in temperature this afternoon, tonight and Tuesday. The low tonight in Artesia 54 and the high Tuesday 77. The low last night was 41 and the high yesterday at KSVP was 84.

THREE INJURED—This light truck, loaded with six persons, overturned twice Sunday near Cottonwood, putting three of the six passengers in Artesia General Hospital. (Advocate Photo)

Farm Workers Are Injured As Truck Overturns On Road

Three men were seriously hurt—one of them critically injured—when a light truck overturned Sunday afternoon when the truck in which they were riding went out of control and rolled over twice a mile north of the Cottonwood school.

Soviet Clerk Kills Self In New York

NEW YORK (AP)—The gun death of Alexei Minaev, a Russian clerk, has been officially listed as a suicide.

Dr. Milton Helpert, the city's chief medical examiner, issued the ruling yesterday after an autopsy.

The clerk's body, a bullet through the brain, was found Saturday afternoon in the plush Park Hotel headquarters of the Soviet Union delegation.

He was notified six hours and then only when the Russian wanted the body removed from the building.

Helpert accompanied a delegation to the headquarters and later, in a preliminary report, said the clerk had apparently placed the barrel of a 45-caliber automatic in his mouth and pulled the trigger.

Helpert noted he had no authority in the building, officially an embassy territory, was acting as a Soviet representative.

He told him, he said, that he had come here with his Zinaida 10 months ago. Since then, he said, he had been depressed.

Russians had no objection to an autopsy, Helpert said.

Lubbock Oil Man Suffers Injury In Plane Mishap

WARD LAICH, Lubbock oil man, was injured yesterday when his plane nosed over on land near one of his drilling sites seven miles east of here.

Laich, who uses the plane to check on the spot checks at his oil wells, made a good landing but the plane nosed over on the ground. The ship was slightly damaged in the accident.

Plans to Call Prison Board Conference Over Protests to Equipment Bids for New Plant

SANTA FE (AP)—Gov. John F. Williams said today he intends to call a conference with penitentiary board members the details of a criticized letting scheduled for Wednesday for equipment for the new prison.

The governor said he had been reading this morning, on reading a article which quoted spokesman of the state's largest firms as saying they would bid Wednesday because "specifications are rigged in favor of a contractor."

Federal Mediator Here to Arbitrate Malco Pay Dispute

A federal mediator today was attempting to arbitrate the wage dispute between operating engineers at the Malco refinery here and company officials.

Haskell A. Atkins, U.S. mediator from El Paso, arrived in Roswell early this morning by air and after a brief conference with company officials, accompanied them to Artesia where they immediately went into huddle with officials of AFL Local 876.

The arbitration meet started at 10 a. m. at the Hotel Artesia and it was believed that J. W. Lackey, El Bissett, and Lowell Naylor, Artesia plant superintendent, were representing the firm. Odie Jenkins, union president and O. M. Hammond were speaking for the rank and file of the union.

Current dispute stems from union rejection of a 6 per cent across-the-board wage increase in lieu of retroactive pay raises from June of this year, and company rejection of seven guaranteed holidays annually.

The present work contract expires on Nov. 1. Contract negotiations broke down on Oct. 7 and union officials notified the federal mediation service of intentions to strike at the end of the required 60-day cooling off period. A strike vote by the rank and file approved the action on Oct. 10.

More tragic effects were avoided by a quirk of fate that brought quick assistance to the injured on the isolated country road. Deputy Sheriff Ike Funk and (Continued on Page Four)

Says Texas 'Willfully' Ignores Law

ALBUQUERQUE (AP)—A New Mexico labor leader contends that because "Texas can and does willfully" ignore federal laws and an international agreement with Mexico is no reason for New Mexico to do the same.

W. S. Roberts, New Mexico Federation of Labor secretary, issued the statement in taking issue with a recent protest by Gov. John F. Simms against rates state cotton growers are required to pay Mexican national laborers.

Simms wired the secretary of labor about what he termed apparent discrimination against New Mexico growers. He said those in this state pay more for harvesting cotton than growers in adjacent Texas counties.

Roberts, a member of the New Mexico Employment Security Commission, said that under terms of Public Law 78 and the international treaty covering use of Mexican workers, the Mexican nationals must be paid the same rates as domestic laborers in a given area.

The labor official said, "It is our duty to uphold the state and national laws and the fact that (Continued on page four)

THIS BOEING 707 JET TRANSPORT, shown in flight over Seattle, Wash., will be America's first commercial jet transport. Pan American-World Airways ordered 20 from Boeing, to be delivered in 1958, and 25 DC-8 jetliners from Douglas, to be delivered in 1959. The plane above carries 104 passengers (125 tourist fashion) and cruises at 550 mph at 30,000 feet. (International Soundphoto)

Slain Taos Bandit Believed To Be Brilliant Akron Youth

AKRON, Ohio (AP)—A bank robber, slain by the FBI after robbing a New Mexico bank, was tentatively identified today as a brilliant young Akron man.

The Federal Bureau of Investigation said fingerprints taken from the body of the slain robber showed on Army records to match those of Thomas Keith Fisher of Akron, Ohio.

Akron school records showed Fisher, 18, had quit high school in his junior year. He had an IQ of 116 and was taking a college preparatory course. There were no indications why he had quit school.

After leaving school, Fisher joined the Army and—apparently—was AWOL when killed near Taos, N. M., since the outfit to which he was assigned is now in Germany.

Father of the blond young man, cut down by a shot-gun blast as he emerged armed from hiding, is Jack Fisher, an Akron furniture store owner. (Continued on Page Four)

Right-of-Way Rights Sought

Completion of State Road 83 Near Mayhill Draws Nearer

Work on surfacing at least half of the tire-shattering 9.6 miles of State Road 83 between Elk and Mayhill may possibly begin either late this fall or in early spring of next year.

This seemed indicated today following an exchange of correspondence between Artesia chamber of commerce Manager Paul Scott and state and federal road officials.

Acting on information received from the area, Scott wired State Engineer L. E. Wilson asking when acquisition of right-of-way for the last unfinished stretch of road would begin.

In reply, Robert A. LaRue told Scott that procurement of the right-of-way would begin just as (Continued on Page Four)

Lea County Asks For Local Option Liquor Election

LOVINGTON (AP)—Petitions bearing 2,046 signatures and asking for a special local option election in Lea County were presented to the Lea County Commission today by organized drys.

Robert C. Dow, Lovington attorney, and Harold Gress, representing the Lea County Civic Loyalty League, delivered the petitions to the commission. They said 1,592 names were required to call the election and that they had 2,046.

Commissioners speculated the election probably will be held the first full week of December, presumably on Tuesday, Dec. 6.

Opposition Rises To Meg's Romance With Townsend

LONDON (AP)—Princess Margaret returned to London today from a weekend in the country with Peter Townsend amid reports of increasing opposition to their marriage in royal circles and some sections of the Church of England.

Hundreds of Londoners assembled at the gate got only a fleeting glimpse of the princess as she drove through the Clarence House gates in a Rolls-Royce, accompanied by her lady-in-waiting, Lady Iris Peake; and her bodyguard, detective Fred Crocker. Only a few minutes earlier, the Queen Mother had returned from Windsor Castle.

Townsend is expected to return later in the day to the home of the Marquis of Abergavenny in Lowndes Square where he is a guest during his leave from his post in Belgium.

There still was no official word on whether the Queen's sister and the handsome air force hero will marry—although millions of Britons are convinced they will.

This Is Artesia

If the state won't resurface the road between Elk and Mayhill soon the winter snows will do just as good a job—at least until the thaws set in.

TAIL TO END of needle nose, 600 feet. Delta wing is well forward; 200-foot altomjet nacelle in tail; passengers are far forward for safety from deadly gamma rays.

FROM RIGHT (forward of delta wing) are pilots' compartment, passengers' compartment and flight deck (100 feet), fore part of 300-foot cargo compartment. Diagram and cross-section of atomic engine and the entire atomic transport.

THE ATOM POWER PLANE of the future will be something like this, according to the ideas of Prof. G. I. Pokrovsky, a Russian scientist, who predicts it won't be long before such huge planes will be able to circle the world non-stop at supersonic speeds. These illustrations appeared in an article by him in the Soviet magazine "Young Engineer." He says the atomic engine would resemble today's turbojet, but with a reactor instead of burners, and uranium dust as fuel. (International Soundphoto)

AAUW Completes Well-Organized State Workshop

American Association of University Women workshop closed with a breakfast at the Old American Dining room on Sunday to which 44 persons were present with the Artesia branch as the hostesses.

Mrs. A. R. Haralson, president of the local branch wishes to thank all the committees that help make the workshop such a success.

The over all planning committee were Mrs. B. H. Gorman, Mrs. V. P. Sheldon and Mrs. Earl Bigler. This group were in charge of planning of meals, place for meetings, motel reservations and all over all general planning.

Friday evening and Saturday luncheon committee were in charge of decorations and assisting as hostesses were Mrs. H. I. Magatagan, Miss Catherine Cummings and Miss Hazel Hockensmith.

Mrs. C. Pardue Bunch and Miss Fern Hass served coffee and donuts during the morning break and Cokes in the afternoon.

Saturday evening dinner at the Country club committee were Mrs. T. J. Sivley, Mrs. M. A. Mapes, Jr., Mrs. Rufus Stinnett, Mrs. J. R. Lund, Miss Margaret Odum and Miss Nancy Haynes.

Sunday morning breakfast committee were Mrs. C. H. Parker, Mrs. Leota Williams, Miss Helen Johnson, Miss Dorothy, and Mrs.

Gertrude Jacobs.

All official greeting and transportation was taken care of by Miss Marion Wood, and Mrs. James Woodlee was in charge of publicity.

Dr. Bornholdt stated this has been one of the most successful and pleasant workshops I have ever attended. The people of Artesia are the most friendly and gracious that I have been privileged to meet.

Dr. Portimier said "of all four of the Rocky Mountain region workshops this has been the best organized. Everything took place just on time and was carried out as it should be. You Artesia women were so thoughtful in planning the activities."

From many of the delegates was heard, we would like to have our workshop with you every year. Everyone is so gracious and everything was so well done. The hospitality of Artesia was certainly something to remember.

RETIREMENT MEET OPENS

SANTA FE (AP)—A 15-state southern conference on teacher retirement opened in Santa Fe today. Leading educators will take part in panel discussions during the three-day session.

Three Artesians Attend State DAR Convention

Three members of Mary Griggs chapter, Daughters of American Revolution of Artesia, returned Saturday afternoon from a three day session of state D.A.R. convention in Deming.

They were Mrs. Paul Francis, local regent, Mrs. John Cochran, chairman D. A. R. magazine, and Mrs. Cecil Waldrep, vice regent.

Mrs. B. B. Wilson of Roswell, state regent, presided over the convention.

Three state projects were approved: 1, 4-H leaders course for Indians; 2, \$150 to be given to each of the D. A. R. owned schools, Tamasee at Tamasee, S. C. and Kate Duncan Smith at Guttersville, Ala. This money to be given in honor of Mrs. B. B. Wilson, New Mexico state regent, and 3, a compiling of history of the D. A. R. of the state of New Mexico.

The month of February is to be designated as History Month.

Roswell was picked as the site for the 1956 convention of the New Mexico chapter of D. A. R.

This action came at the close of the week end state convention at which delegates selected Mrs. H. S. Aspinwall of Albuquerque as the state's candidate for the na-

Catholic Students Get Instruction

St. Anthony Catholic high school students will meet 7 p. m. this evening in the home of Mrs. Don Kennedy, 1007 N. Ave., for instructions.

The students will meet Monday evening in home of Catholic Daughters of America members.

Younger Shugart Parents of Son

Dr. and Mrs. Ralph A. Shugart, Jr., of Denver, Colo., are the parents of a son, Steven Andrew, born Saturday evening, weighing 10 pounds. Both mother and father doing fine.

Paternal grandparents are Mrs. Ralph Shugart and Mrs. W. G. Shugart, both of Artesia, and maternal grandparents, Rev. and Mrs. W. G. Zier of Vandergrist, Pa.

BELEN (AP)—The Valencia county registration board met today to urge voters lists be purged of the board are Frank C. Belen, Felipe O'Bannon of Lunas and Julian Bleda of Belen.

national office of reporter at the Smithsonian Institute, the first candidate in New Mexico's DAR history to seek an office.

How To Tell Which Eye Is Doing All The Work

By HERMAN N. SUNDESEN, M.D.

MANY of you at one time or another probably have jokingly called on one of your friends to "use your good eye." This might have been occasioned by his missing the target in a shooting gallery, at an archery range or at some other sport.

Actually, he probably wasn't using his "good" eye.

Dominant Eye

Most of us have a dominant eye, which sights or fixes on an object seen in binocular vision. Your dominant eye does the main job in sighting for photography, shooting, archery and other instances where you have to line up an object.

Like to find out which is your dominant eye?

It's easy. Just cut a hole one inch in diameter in the center of a sheet of paper six inches square.

Use a Pebble

Take the paper in your right hand and hold it about 14 inches in front of your nose. Now take a pebble between the thumb and forefinger of your left hand and hold it about a foot beyond the paper.

Using both eyes, look through the hole at the pebble. Without moving the paper, close your left

eye. If you can see the pebble, you are right-eyed.

Close Right Eye

If you can't see it, close your right eye and you'll find it is your left eye that fixes the pebble.

You can't see the pebble through the hole with both eyes at the same time.

These little home tests, suggested by the Better Vision Institute will, I think, help you understand a little more about your vision.

QUESTION AND ANSWER

Mrs. C. W.: I have white patches on my arms and neck. What causes this and is there any treatment for this condition?

Answer: The exact cause for leucoderma or vitiligo is not known, but too much exposure to the sunlight may be partly responsible. Heredity is thought to be a factor by some investigators. There is not a great deal that can be done for this condition.

Certain drugs have been given internally, such as extracts of the thyroid and suprarenal glands. Applying walnut juice to the white patches is a good method of disguising them or the pigment around the white patches may be bleached out with a bleaching solution.

You should consult your doctor concerning treatment.

Green Valley Ranch Couple Have New Son

Mr. and Mrs. George C. Dungan of Green Valley ranch, are the parents of a son Neal Clifford, weighing 7 pounds, 2 ounces, born Friday in Artesia General Hospital.

Neal has a sister, Sherrie Jane, 6, and brother, Donald Brent, 4 years.

Mrs. G. H. Haskins of Boise, Idaho, maternal grandmother is visiting here now. Mrs. Ada V. Dungan of Artesia is the paternal grandmother.

UTZ TAKES OVER

ALBUQUERQUE (AP)—Sgt. Nolen Utz has been placed in charge of the Albuquerque division of New Mexico State Police in what Chief Joe Roach described as a routine matter. He succeeds Sgt. Floyd Miles. Temporarily assigned sergeants have headed the district since the transfer of Capt. Archie White.

14 BANDS TO APPEAR

LAS VEGAS (AP)—More than 635 young musicians in 14 bands will participate Saturday in the Highlands University homecoming celebration. The bands will come from Cimarron, Springer, Clayton, Belen, Pojoaque, Santa Rosa, Taos, East Las Vegas, West Las Vegas, Espanola, Wagon Mound, Santa Cruz and Pecos.

- Cottonwood Woman's club, meeting home Mrs. Ray Zumwalt, 2:30 p. m.
 - PEO chapter "J" meeting home of Mrs. Stanley Carper, 2:30 p. m.

Fun With Music

"Jingle bells, jingle bells, jingle all the way" . . . tiny though she is, this future Miss America already shows she knows there's no music without fun, no fun without music.

The world of music is a fascinating one to a child, and even the very young soon have a natural interest in rhythm and harmony. At such a time parents often have the opportunity to help develop the child's musical abilities by introducing him at an early age to musical toys.

Because children learn by doing, one of the most important considerations in selecting a musical toy is that it be an "action" toy. That is, it should be one that the child can actually play rather than one to which the child only listens.

One of the best of this group are these eight electronically tuned Swiss-type bells made of the finest bell metal and tuned to the conventional musical scale. Each bell is encased in lustrous high-impact polystyrene plastic which gives a resonant tone quality and adds beauty through its brilliant colors.

The set is designed to help children actually learn to read music through separate colors, letters and numbers for each bell. These are keyed to corresponding colors, letters, and numbers in the accompanying song book. Each bell then is simply rung in sequence to play a tune.

The child need not be old enough to read notes to have fun with these brightly colored bells, and even the mother who has had no musical training herself can help her child learn to enjoy music by this simple method.

Hospital Record

Admission Oct. 15—Mrs. Cliff Platter, 317 W. Main, Mrs. Marcelo Bejarano, Cottonwood.

Oct. 16—Polo Martinez, Cottonwood, Francisco Frinseo, Cottonwood, Spedo Varrios, Cottonwood, Mrs. June Waters, 808 Mann Ave.

Discharged Oct. 15—Mrs. Cliff Platter, Hugh R. Burch, Mrs. D. W. White, Garry W. Davison, Mrs. A. J. Posey and son, Mrs. Donald King and daughter, Mrs. J. D. Walker and daughter, Mrs. Gil Martinez.

Discharged Oct. 16—E. T. Longacre, Mrs. Richard Galatian, Mrs. A. T. Woods and baby.

DEMING MAN ELECTED

DEMING (AP)—Members of the New Mexico Shortland Reporters Assn. have elected Howard W. Henry of Deming as president at the end of a two-day convention. Other new officers include Mrs. Reggie Cleveland of Las Cruces, vice-president, Las Cruces was selected site of the 1956 convention.

Bulldogs One TD Favorite Over Hobbs In District Tilt

Farmington May Sew Up Title There

By THE ASSOCIATED PRESS

Farmington and Highland could sew up their district titles in New Mexico high school football Class A competition this week. Farmington holds a slight edge in the IAA—but the betting is all even on Highland's vital match with the potent Roswell boys.

Dewey Johnson's crew came up with an 18-12 jinx-breaker over Hobbs last week—the first by-the-way victory over Hobbs on the Eagles' home field in at least seven years. That, combined with the so-so showing of Highland in its Saturday game, and the fact that Roswell has a 5-1 overall record—the second best among the big schools—makes the game potentially one of the most interesting and important of the schoolboy season.

Highland won its game Saturday, but lost some face in doing so. The defending state champion snuffed stopped cross-town Valley but almost fooled around too long in wrapping it up. The Hobbs, favored by about three or four touchdowns, had to settle for a 6-0 decision after boying with hard-working Vikings most of the night.

The winner of the vital Roswell-Highland game is picked by most experts as the team most likely to advance to the finals of the playoffs.

Highland, of course, needs only a victory over Roswell to make its way into the semifinals. Roswell could still have to beat Clovis to secure a berth.

Farmington has only to beat Valley to secure its IAA crown. The Scorpion stock took a slight dip last week when they fell from the unbeaten ranks—a 29-19 nudge from Artesia's hopeful Bulldogs. Farmington, however, still has a slight favorite's edge of the Vikings, who have only a 1-4 record for the season.

Artesia, with its ego boosted from the Farmington game, will try Hobbs in the first Dist. 4AA game of the season. Reese Smith's team, 4-1 for the season, is rated a long-touchdown favorite over the Eagles.

The Carlsbad-Albuquerque match, non-district but interesting, heads the rest of the slate. Both teams will be looking for a chance to do some redeeming in the eyes of their fans. Carlsbad took a 20-6 victory over Bowie of El Paso last week, but that made their record only 2-4 for the year—far below the standards the Cavenham faithful have come to expect.

Albuquerque was the victim of one of last week's biggest upsets. The Duke City Bulldogs didn't get beat, but the 6-6 tie against St. Mary's was a great moral victory for the Cougars. Albuquerque was heavily favored.

Las Cruces, the only Class AA team in the state still unbeaten, will look for No. 6 in a sparkling season against Burgess, Ariz., in Las Cruces this week. Las Cruces finished Santa Fe 33-6 last week and firmly established themselves as a power to be considered.

Santa Fe will try to get back on the right track against Class A Las Vegas.

Out-of-Staters Capture Top SW Net Play Awards

ALBUQUERQUE (AP)—Three players, headed by Bernard (Tut) Barten, of Dallas, walked off with the lion's share of the trophies at the conclusion of the four-day Southwestern Tennis Tournament.

Barten, the favorite, made the experts look good as he crushed defending champion George Druiner of Los Angeles in straight sets to capture the men's singles title, 6-1, 6-0, 6-2. He also had a share of the men's doubles title.

SPORTS

Michigan, Maryland, Oklahoma Top National Gridiron Play

By ED CORRIGAN
The Associated Press

Out of the rubble of fallen giants of college football today there emerged three shining lights—three teams that will continue to fight it out for the mythical national title.

Michigan, Maryland and Oklahoma, all undefeated and all powerful, could go all the way. Yet, even these three are not invulnerable.

The Wolverines still have a solid five-game Big Ten schedule to face starting with Minnesota this week. After that, they have Iowa, Illinois, Indiana and Ohio State, any one of which

could rise up and whip them. Maryland heads northward this week for a game with fired-up Syracuse, which trounced Army 13-0 Saturday. If the Terps get by Syracuse, they'll have a clear path.

Oklahoma, with a streak of 23, goes against another undefeated outfit this week—Colorado. The possibility of a Oklahoma Big Seven team beating Alabama seems remote.

But then look what happened to Notre Dame, Georgia Tech, Texas Christian, Washington, Rice and Princeton. All were favored at from one to three touchdowns and all had been undefeated. But when the blackest Saturday of the football season was over, all had tumbled.

Notre Dame hadn't even had its goaline crossed until they came upon Michigan State. The Spartans cracked Notre Dame's 11-game winning skein and did it emphatically 21-7. Gerry Planutis, the goat of last year's game when he missed two extra points in the Irish's two-point triumph, was the big man for the Spartans this time. He scored one touchdown, set up another and kicked three extra points.

Georgia Tech, scourge of the Southeastern Conference, dropped a 14-12 decision to Auburn, and its conference lead along with it.

Texas Christian, boasting one of its best teams in years, came a-cropper at the hands of a young Texas A&M team 19-16.

Washington, still at least one of the favorites for the Pacific Coast Conference championship, was beaten by Baylor 13-7. Rice, another Southwest Conference powerhouse, was shut out by Southern Methodist 20-0. This, combined with Arkansas 29-20 victory over Texas, threw the Southwest Conference race into merry confusion, as usual.

Princeton, which shaped up as the class of the Ivy League, could not cope with Colgate in a non-league tussle 15-6. Yale moved to the front of the loop by nailing Cornell 34-6. The Princeton-Yale game Nov. 12 could decide it if Princeton gets by Cornell this week.

Perhaps the most startling upset of them all was engineered by Syracuse over Army. Or perhaps it wasn't quite the reversal everyone would believe. The Cadets don't have a passer and the opposition can gang up on their runners. Don Hollender, the converted end, completed only one pass a game for three straight weeks. And against Syracuse he was shut out.

Michigan, the No. 1 team in this week's Associated Press poll, had to do some pulling and tugging before defeating Northwestern 14-2. Maryland extended its winning streak to 10 over two years by turning back North Carolina, while Oklahoma rolled to a routine 44-6 triumph over Kansas.

So going into the second half of the season, there are only 10 major undefeateds. Besides Michigan, Maryland and Oklahoma, there are Navy, Duke, West Virginia, Yale, Colorado, Boston College and Holy Cross.

Texas Western Looking Forward To First Crown

PHOENIX (AP)—The Texas Western Miners, usually slow starters in the Border Conference football race, have cut a wide swath through conference opposition.

The Miners looked hopefully ahead today to a possible championship—their first in history—after holding defending champion Texas Tech to a 27-27 tie and smashing Arizona 29-0 on successive weekends.

In their four remaining conference games, the Miners met New Mexico A&M; Hardin-Simmons, a threat if Sammy Baugh can develop something besides his pass; still untested in the conference; and West Texas, probably the toughest of the four.

The Miner victory over Arizona Saturday about eliminated the Wildcat from the conference race.

Utah, Wyoming Game to Set Title Stage

By FRANK PITMAN
Associated Press Sports Writer

Utah's Redskins and the Wyoming Cowboys collide at Salt Lake City Saturday with the loser ticketed to join Denver's defending champions on the sidelines of the Skyline Conference football race.

The Utes, after smashing Denver's title hopes, 27-7, are favored to dust off the Cowboys and set the stage for a decisive championship meeting between Utah and Colorado A&M, unbeaten in the league, at Salt Lake City, Nov. 12.

The Colorado Aggies, idle last week, celebrate homecoming at Fort Collins Saturday with Utah State's fast-improving Farmers. The C-Aggies, winners over both Denver and Wyoming, will be favored to add the Utes to their list of victims.

Denver's Pioneers, no match for the powerful Utes, entertain Brigham Young's cellar-bound Cougars at the Colorado capital Friday night. New Mexico journeys to Missouri for a Saturday meeting with Montana. All four teams in those two games are second division clubs and the results will have no bearing on the title chase.

Utah's standing in the championship ratings bounced up about 10 notches with the Redskins impressive showing at Denver Friday night. The sophomore—anchored Ute line throttled Denver's running game and senior halfbacks Lou Mele and Herb Nakken chopped up the Denver ends with a wide running attack.

Wyoming gave up two first quarter touchdowns before catching up with Tulsa and rolling on for a 23-19 non-league triumph at Laramie Saturday. Joe Mastroianni ran for one touchdown and passed for another in pulling the Cowboys back into the ball game.

New Mexico's Lobos surprised San Jose State with savage line play but still dropped a 14-0 decision to the Californians at Albuquerque Saturday night in a non-league contest.

Adams, which will compete in the Rocky Mountain Conference next year, moved into solid control of the league with a 19-14 victory Saturday over defending champion Panhandle A&M of Goodwell, Okla.

That defeat, its second against a like number of victories, virtually eliminated the Aggies from consideration as a threat of its third straight title. Adams State now holds a sparkling 3-0 mark in the league.

Australian Davis Cup Champs Snub Big Pro Offers

SYDNEY, Australia (AP)—Ken Rosewall and Lew Hoad, Australia's 20-year-old Davis Cup twins, turned their backs on lucrative pro contracts today and said they would remain tennis amateurs.

American promoter Jack Kramer had offered the two \$50,000 each to join his troupe. Only last week, Kramer signed America's No. 1 Davis Cupper, Tony Trabert, for \$75,000.

Rosewall and Hoad decided to stay with the sporting goods companies for which they work. Rosewall has also been freed to do part time work for a milk company, which will bring his salary to an estimated \$6,600.

Kramer said he is considering asking pro Pancho Gonzales and Frank Sedgman, a former Aussie Davis Cup star, to join the troupe.

Speedboat Sinks After Failing to Shatter Records

LAS VEGAS, Nev., (AP)—Don Campbell of England and his water-soaked, jet-propelled hydroplane, the Bluebird, hope for another day of speed, but not like yesterday.

What happened? The Bluebird failed to break its own world record. And then it sank in Lake Mead while being towed back to shore an hour after the attempt.

Vicious swells brought on by Sunday pleasure craft drivers in scores of boats probably were the reason for the twin misfortunes. Campbell and his crew of many helpers, working far into the night, pulled the 4,000-pound craft out of the water from a depth estimated at 50 feet or more and hauled it back ashore.

The engaging young Britisher, who set the international record in England last July with a speed of 202.32 miles an hour, said it would take about four weeks to get the Bluebird ready for any more speed trials.

Many lice are without eyes.

Adams State May Leave New Mexico Conference With 1955 Championship

By THE ASSOCIATED PRESS

Adams State of Alamosa, Colo., this week finds itself firmly planted in the driver's seat of the football conference it is leaving at the end of this season, the New Mexico Conference.

Adams, which will compete in the Rocky Mountain Conference next year, moved into solid control of the league with a 19-14 victory Saturday over defending champion Panhandle A&M of Goodwell, Okla.

That defeat, its second against a like number of victories, virtually eliminated the Aggies from consideration as a threat of its third straight title. Adams State now holds a sparkling 3-0 mark in the league.

Weekend Play May Untangle Southwest Conference Status

By HAROLD V. RATLIFF
Associated Press Sports Editor

The tangle at the top of the Southwest Conference football race will be partially cleared this week as the comeback kids of Texas A&M meet Baylor's swirling

Green Bay Looks Good For Pro Title

By ED WILKS
The Associated Press

It's been eight years since the Green Bay Packers have had a winning season in the National Football League, but now they're in a three-way deadlock for the Western Conference lead thanks to Fred Cone, who seldom has been spotlighted since coming from the Clemson campus five years ago.

Cone, a 29-year-old Alabamian listed as a fullback on the Packers' roster but specialized as replacement booter, kicked a 26-yard field goal in the final 24 seconds yesterday, snatching victory from the previously unbeaten Los Angeles Rams 30-28.

The victory sent the Packers into a tie with the Rams and the Baltimore Colts, themselves upset by the Chicago Bears 38-10. The last time the Packers were eating that high off the hog was in 1947 when they finished with a 6-5-1 mark.

In the other Western Conference game, San Francisco's 49ers piled up 21 points in the last quarter to defeat winless Detroit, erstwhile conference champion, 27-24.

Cleveland's Browns gained a share of the Eastern Conference lead with Pittsburgh by whipping the Washington Redskins 24-14 while the New York Giants finally turned the trick with a 10-0 victory over the Chicago Cardinals. It was the Giants' first 1955 success.

Pittsburgh snared Philadelphia 13-7 Saturday night to match Cleveland's 3-1 first-place record.

Cone was practically the whole show at Milwaukee as the Packers gained their 3-1 record. After booting only nine field goals all last season, he sent three through the uprights against the Rams for 34, 45 and 26 yards.

The payoff placement lifted Green Bay from seeming defeat. Three minutes before, Jim Cason hauled in his third interception of the day for the Rams and ran it back 25 yards for a TD that put them ahead 28-27.

Bears in the big one at College Station. Three teams—Texas A&M, Baylor and Southern Methodist—are tied for the lead with the campaign thundering to the half-way mark. Southern Methodist will stay there because it has an inter-sectional game Saturday, taking on futile Kansas at Lawrence.

The conference still was agog Monday over the upsurge of the once downtrodden Aggies. They whipped the conference's last undefeated, untied team Saturday as they topped Texas Christian 19-16 and it made them favorites for the title.

It was the first conference victory for Aggieland in two full seasons but it came at the end of a 4-game surge that put the Aggies in a tie with Texas Christian and Baylor in the season standings. Each has won four and lost one.

Almost as shocking as the Aggies' triumph over swaggering Texas Christian was Southern Methodist's decisive 20-0 victory over Rice. The team voted most likely to succeed before the season opened.

Southern Methodist did everything except turn Rice loose in that virtual rout of the hitherto unbeaten Owls. It was the turn that SMU had been expected to make sooner. The Methodists had fire and drive and they treated the Owls rather roughly.

Baylor enhanced the league's prestige with a 13-7 victory over undefeated, untied Washington. Bear Bryant of A&M said he listened to the Baylor triumph and as impressed by the way the Bears kept the ball virtually all the time. "They beat a fine football team that Washington," Bryant said.

Arkansas, already on the ropes with two conference defeats, snapped out of it for an hour of triumph at Little Rock and it was hapless Texas, making its start in the title race, that was the victim. Arkansas whipped Texas 27-20 for the Longhorns' fourth loss in five games.

Two conference games are scheduled Saturday—A&M-Baylor and Rice vs. Texas at Austin—while three members of the league try for inter-sectional glory. CMU will be a solid favorite over Kansas but TCU plays Miami at Miami in a night game while Arkansas meets Mississippi at Oxford. The latter two look like tossups.

Remember When...

50 YEARS AGO

Mr. and Mrs. Nathan Moore will spend the winter in Roswell.

The C. A. P. Land and Cattle Co., yesterday received a second car of hogs from Carlsbad—29,000 pounds in the last shipment.

The "Sock Social" given at the residence of Mrs. J. P. Dyer Friday night was most enjoyable. Splendid punch and cake was served and the paragon society realized about \$40.

Mrs. Brasher and daughter Mrs. E. A. Cox are spending a few days in Roswell.

20 YEARS AGO

I. H. Burgess accompanied by L. A. and C. J. Curtis of Mayhill were visitors here on Saturday.

Jack, Marvin, Robert and Miss Hannah Belle McCaw, sons and daughters of Will McCaw, arrived from their home in Arkansas. Their father is expected soon and the family, who are former residents, will again make their home here.

10 YEARS AGO

Bert Aston of Roswell was elected vice president for New Mexico of the Independent Petroleum Assn of America at Tulsa, Okla., succeeding Mayor Emery Carper of Artesia.

No New State Taxes

WE have escaped any new taxes although the special session of the legislature was held. Whether all of this should be credited to the fact the legislators just realized we have too many taxes now or whether it is because of the election next fall we do not know but the result was the same.

The fact that our state legislature did refuse to vote any additional taxes should give us encouragement toward perhaps convincing congress we have all the taxes we want, need and can stand at this time.

For years now we have gone along and added new taxes. There have been increases in old taxes and those we pay now but these have not met all the needs some of the "do gooders" have felt we should provide, so they have pushed new tax programs.

Everyone is more or less agreed we have about taxed everything to the limit. We have sought out things we have never taxed before and we now pay on these. We have increased the hidden taxes and taxes we continue paying with which we are not familiar.

Other taxes have been increased until today it takes far too much of the earned dollar to keep the politicians going and to carry on a good many programs it becomes more apparent every day we can't afford and we can get along without.

The same principle should apply in the operating of our state or federal government that prevails with the individual or in private business. If the individual does not have the money and is not earning it—then he can only spend so much. He cannot go beyond his ability to pay.

Private business can only spend what it earns whether it is for operation in payments on merchandise, machinery, equipment or supplies.

When the limit has been reached the individual or the business calls a halt.

That isn't true with all the projects and programs we expect the government to provide or carry out. In the event the limit of finances is reached the promoters start yelling for new taxes and more taxes and we have these to pay.

We have always felt those paying the bill should have far more to say about how much taxes they pay and how their money is spent after they pay it than some of those on the taxpayers' payroll or some of the politicians. We will have, when we demand that privilege.

Completion—

(Continued from Page One)
soon as final plans for the road are made ready by the U. S. Bureau of Public Roads.

A letter from W. J. Keller, district engineer of the federal agency indicated that a revised property alignment in the mill at present.

"A federal survey party has just completed a resurvey on portions of the project," wrote Keller, "and redesigning of the project is now in progress in the division offices in Denver.

"Just as soon as this redesigning can be effected, this office will be furnished with the completed plans for use in acquiring right-of-way."

While the exact date couldn't be determined yet, Keller wrote, it was believed it might possibly be about Nov. 15 before work could start on obtaining the right-of-way from property owners in the area.

He said that the project would be advanced to the construction stage at the earliest possible date after right-of-way has been procured.

It was believed that half of the work would be done first.

BUSINESS REMAINS HIGH

ALBUQUERQUE (AP)—Business activity in New Mexico remained in high gear this summer, the Bureau of Business Research of the University of New Mexico reported today. It said total volume of retail sales throughout the state during July alone reached almost 92 million dollars, a record high.

Steady Pouring

Here it paused, pinned down by a high pressure center over northern New England. As a result there has been a continuous feed of rain-bearing southeasterly winds over the Northeast.

Connecticut

Five known dead and 10 persons missing and presumed dead. Norwalk's business and horse damage was estimated at well over four million dollars. Three U. S. Rubber plants in Naugatuck were knocked out and the company said 5,000 workers would be out of jobs temporarily. Danbury and Stamford suffered multimillion-dollar damage. But state officials said the overall property damage would not approach the estimated 215 million dollar loss of last August. Gov. Abraham A. Ribicoff said today rivers are receding.

New York

Eleven persons dead and about 4,500 persons homeless until the surging flood waters recede. The Ulster County town of Ellenville, just beginning to recover from Hurricane Diane, suffered \$400,000 damage. Nine hundred families in Ulster County alone were evacuated. Schoharie and Greene counties also suffered severely. To the north the big Mohawk River went a foot over flood stage at Troy, but was receding in the Schenectady and Amsterdam areas. The Mohawk hit a peak of 33 feet—six feet over flood stage—at 4 a. m. today at Amsterdam, then started to drop. New York Central trains to and from the west were about 10 minutes behind schedule while workmen repaired one passenger track west of Amsterdam. Service on the Central's Boston & Albany division was restored early today after a wash-out near Woronoco, Mass. Besides road, bridge and building damage, rural communities were hit by loss of livestock. The Albany Weather Bureau said flood waters appeared generally to be leveling off and the rain letting up.

Pennsylvania

Seven persons reported dead. The threat of serious floods passed as rivers and streams receded. The danger of dams washing out at Campdown near the New York border at Towanda; and near Alintown eased. Officials said there was little likelihood they would give way. The twin communities of Stroudsburg and East Stroudsburg were spared another rampage by Brodheads Creek, which alone took 70 lives just two months ago. Almost all major roads were open but some secondary routes

Better Take Off Those Colored Glasses

Distributed by King Features Syndicate

Says—

(Continued from Page One)
the state of Texas can and does willfully ignore Public Law 78 and the international agreement with Mexico gives no grounds for the state of New Mexico to do likewise.

Roberts said he is explaining his position on the matter in letters to Simms and members of the state's congressional delegation.

The security commission of which Roberts is a member made wage surveys in the state's cotton growing areas and set rates to be paid Mexican nationals.

He pointed out that the rates differ in various areas. He said workers in the Roswell area are getting \$2.50 per 100 pounds, \$2.40 in the Artesia area and \$2.25 in Carlsbad.

In two areas, Lea County and the Silver City area, the minimum wage for Mexican nationals has been set at \$2.05.

He said failure of the state of Texas to conduct the surveys required by law has the final result of depressing the domestic rates and causing the rate of pay to become static.

Three—

(Continued from Page One)
rancher Elton Green were eye-witnesses to the accident as they were driving a few hundred feet from the pickup when it overturned.

"Green said, 'Ike, that truck's going to turn over.' Funk related Sunday afternoon. 'I looked back just in time to see it swerve and then roll over, throwing bodies out all over the road.'

The officer sped to the scene and then called for ambulances as he helped remove the injured from the wreckage.

The critically injured man was riding in the rear of the truck and it was believed the truck rolled over him as it spun out of control. The driver was partially pinned in the wreckage but the three youths, Paulo Ortega, 17, Andy Marquez, 17, and Pete Almaguer, 14 who were riding in the cab, escaped unhurt.

The truck, which belonged to the Curtis-Nix ranch was badly damaged.

LEAPING PARSON QUILTS

LONG BEACH, Calif. (AP)—The pole vaulting parson, the Rev. Robert E. Richards, 29, has resigned as pastor of the First Church of the Brethren, Richards, 1952 olympic pole vault champion and three-time national AAU decathlon champion, said he wants more time for an evangelical campaign and to get ready for the 1956 Olympic games.

WOLCOTT ON FILM

HOLLYWOOD, (AP)—Jersey Joe Wolcott, former world heavyweight boxing champion, reports to Columbia Pictures today for his movie debut in "The Harder They Fall." Wolcott will play a trainer in the prize-fight story.

REDS TOP LIFTERS

MUNICH, Germany. (AP)—The United States' weightlifting team headed home today with three individual champions, including world record holder Paul Anderson, but once again only second best to Russia's team lifters. Russia, piling up points in the lighter weights competition, took the team title with 29 points. The United States had 25.

Stan Musial of the St. Louis Cardinals is 10th in lifetime home run standings. Al Simmons previously held the No. 10 spot with 307 homers.

Proves Lower Operating Costs

Clarence Shelter Jr., California rancher, shown (above) with three of his fleet of four LP-Gas tractors. Savings after conversion of a 1942 gasoline tractor resulted in the purchase of three additional heavy duty machines using the 160-plus octane fuel. (lower right) Checking the gauge of the 750 gallon modern fuel tank on the ranch.

LLANO, Calif.—Savings on motor maintenance and fuel after conversion of a 1942 gasoline tractor to LP-Gas convinced Clarence Shelter Sr., of the advantages of the 100-plus octane fuel.

He now operates a fleet of four tractors, a weed burner and hay baler on his alfalfa, cattle and quarter-horse ranch here.

Motor maintenance cost has been cut in half. Two barrels less oil are required per year, and, because of lower fuel cost, an additional \$300 per year is saved, Shelter claims.

"But the biggest saving is the trouble-free operation," he says. "We know with pre-season maintenance, we won't have costly engine breakdowns during our busy season."

LP-Gas enters the carburetor only as a vapor to mix completely with air for perfect combustion. It burns slowly and completely causing no oil dilution or sludge to wear out the motor.

Shelter Sr., and his young son operate their 240-acre irrigated ranch with the help of only one additional hand.

Kan. The unit later was sent to Germany.

Tellers of the First State Bank at Taos were forced to place money in a paper sack by a tall slender blond youth Thursday. The bandit commandeered a taxi at gunpoint, drove until the vehicle ran out of gas, and disappeared into the forests in the mountainous area near Taos.

More than 200 state and federal officers and a bloodhound, which later got lost itself and then turned up again Sunday, combed the brush for the fugitive. The search ended late Friday when the young man stepped from a hiding spot with a gun in his hand and was shot down by FBI Agent Clarence Crandall.

Found on the body was a note, the signature apparently torn from the bottom, in which the writer said "if anyone reads this, I probably will be dead or dying. My whole life has been a failure. I have never done anything right or good. I have let my relatives and friends down. I am about to try something desperate. I am going to rob a bank. I am probably won't get away with it. If I don't they will kill me. I would rather die than spend 20 years behind bars and I will never surrender."

He asked his guns be sent to his dad—but left no name or address.

Bill Stitt, Detroit Lions halfback from UCLA, works as a movie extra in Hollywood during the off-season.

Duke University halfback Bob Bascall has had good training. His father was his high school coach.

News Briefs

INDIANS IN TRAINING

WASHINGTON (AP)—A six-week course is being conducted at Phoenix, Ariz., for 30 young Indians from 12 states including New Mexico for sanitation work among their own people, the Public Health Service has announced. The course is designed to outfit the Indians to assist Health Service sanitary engineers on reservations throughout the nation.

CLINIC DATES SET

ALBUQUERQUE (AP)—Members of the New Mexico Hairdressers and Cosmetologists Assn., will meet in Albuquerque Saturday and Sunday for their annual clinic. Orlene Hawker, official hair fashion committee member from Lubbock, Tex., will be guest artist.

LIQUOR DEALERS MEET

RUIDOSO (AP)—Retail liquor dealers from Otero and Lincoln counties met Sunday with industry and state officials to discuss state liquor enforcement policies. Speakers included Liquor Director Harold Dickson and Frank Padilla of Albuquerque, New Mexico Retail Censored Beverage Assn. president.

TEENAGERS CONFESS

SANTA FE (AP)—Santa Fe Police Capt. George Craig reports that teenagers, 14 and 17, captured in Albuquerque, have confessed to the \$215 armed robbery of a liquor store and drive-in theater here last week. When they were arrested, Albuquerque police found a tin of tin of marijuana in their possession. The boys said they obtained it in Juarez.

BLOODHOUND FOUND

SANTA FE (AP)—Symbol, bloodhound, has been returned to his kennel at nearby Nambé, after spending a cold night in the mountains. He got away from a Santa Fe Police car returning him to Santa Fe after a search for the bank robber was called off. The dog was found again Sunday in the Holman area between Tres Marias and Mora.

ELECTED TO 4TH TERM

ALBUQUERQUE (AP)—Mrs. E. Galloway of Albuquerque was elected to her fourth term as president of the Women's Christian Temperance Union following the state convention here over the weekend. She told convention delegates a 1954 study shows that alcoholism in New Mexico is as times as frequent as polo.

WHO DOES IT?

Duzzles and Pastimes

CAN YOU STRIKE OUT?

By H. C. Kaufman
TO SCORE a strike in the diagram at left, that is, to succeed in crossing out all of the numbers, you must find the correct numerical answers to the definitions below. If the answer to No. 1, for instance, is 0, cross out 0 in the diagram; if the answer to No. 2 is 4315, cross out 4, 3, 1 and 5. Etc. Answers may have as many as five digits. Can you bowl a perfect score?

- Today's definitions:
1. Cheaper by the —
 2. Normal human body temperature: —
 3. A seahorse has this many legs: —
 4. Joe College is through his sophomore year, so he's in the Class of —
 5. He is generally considered President No. —

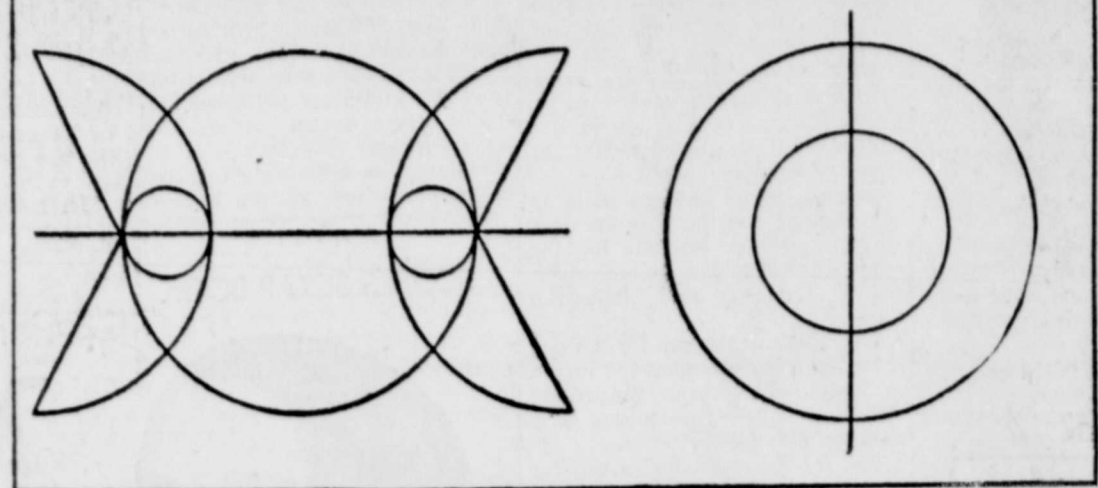

in one line

UNICURSAL problems are solved with a continuous single line. Note the example (A) at left. This figure is drawn with an uninterrupted line (B) without taking the pencil from the paper, retracing, or crossing a line at any point. There are no gimmicks—the paper is not folded. Double pencils are not used, etc.

Two problems with similar requirements are presented below. Solutions to both appear elsewhere in the page, but you are asked to try them, unaided, before consulting the answers. Remember, the line must be continuous, must not be retraced and must not cross itself. Can you solve one or both?

Continuous line puzzles are among man's oldest.

Riddle NAME THE RELATIVES

- THOUGH none of them are kin, you should be able to identify most of the following relatives—famous Uncles, Aunts, Fathers, etc.
1. Uncle made famous by Harriet Beecher Stowe: —
 2. Father who goes on as strongly as ever all the time: —
 3. Aunt of Tom Sawyer: —
 4. Husband of Pocahontas, who wasn't John Smith, but John —
 5. Husband of Mrs. Spratt, who could eat no fat: —
 6. Wife of John Alden: —, who chose him instead of Myles Standish.

Sum Workout Here

THREE members of the board of directors of an orphanage each year give a sum of money which is determined by multiplying the ages of their respective sons. Each has one son.

This year they gave a total of \$280 to the orphanage, the product of the ages of their three sons. The total of the product was twenty years.

What amount will they be giving next year? How old will the boys then be?

Something at Home on an Outing

CRYPTO-CRAX

SOLVERS of Crypto-Crax are asked to restore the punch lines to amusing quips or anecdotes. These have been encoded by substituting other letters for the original ones—the same letter substituting for the same letter whenever it appears.

Today's quip—a wag's definition of a pessimist:

"R SNNVQJ KCQ. KCNJ BFGNJ R LQFLN QH ZKQ NGFYV. LQQQVNY WQZC."

Cryptic hint: Double letters within words are always a help. Possibilities, of course, include: oo, ll, mm, cc, ss, etc. In this instance, it's oo.

Hensome Question

A FARMER paid \$72 for a certain number of hens for his breeding flock. Had he been able to reduce the price another dollar each, he would have obtained six more hens for his money. Can you tell how many hens he bought and what was the cost of each?

This One Is Easy—Oh, Sure!

ANYONE can find a dozen mistakes in this drawing, but that's not the test. Study the scene carefully for as long as you like; then try to write down at least five errors therein from memory. Easy? Try it.

If two or more try, a competi-

ROUNDING UP THE HOT DOGS

ROUNDING up stray dogs during hot weather is a difficult task in itself, but see what's happened here! Twenty-two animals have escaped from Hank the Dogcatcher's van, and he's having a lot of trouble getting them back. You can help him, if you'd like, by using a pencil as a net.

Start at any point and draw a line from corner to corner along the dotted lines. The line you draw must be continuous. You must not go over the same line twice. Every time you outline the square which surrounds one of the dogs, you are credited with having caught it. How many dogs can you catch?

As it is not possible to net all the dogs in the picture, Hank will handle three of them himself; you have the privilege of selecting which three he takes. Whether you find a solution depends on the three animals you leave incompletely outlined.

QUIZ CROSSWORD With Wisdom From the Bible

By Eugene Sheffer

HORIZONTAL

- 1—Father of Bashemath (Gen. 26:34)
- 5—He killed Eglon, king of Moab (Judg. 3:21)
- 9—Class in society.

- 50—Dip slightly into water, as a bird.
- 51—Party givers.
- 52—Military assistants.
- 53—Show mercy.
- 54—Chief.
- 55—Mythological king.
- 56—At that time.
- 58—Ice crystals.
- 61—Masculine name.
- 62—Imitate.
- 63—Prevarication.

PAPERWORK TO NOISE AROUND

NOISE MAKING novelties are always amusing. Here's one that can be made from a sheet of paper.

Roll the paper about a pencil, from corner to corner, as shown at top right. When a tube has been formed, fasten it at center with tape or a piece of string. Remove the pencil.

Now cut one projecting end with a razor blade or scissors to produce a triangular tab. Fold this tab over the end of the tube. Inhaling and exhaling on the tube will cause the tab to vibrate against the opening to produce a rasping discord.

Help Yourself

A CONTINUING directory of noteworthy hobby, how-to-do-it, and self-help books. Clip and save for reference.

Selected by Clark Kinnaird

The Story of Mosses, Ferns & Mushrooms, by Dorothy Sterling (Doubleday, 159 pages; \$2.75). Inviting photo guide to the flowerless, seedless plants that should attract the interest of any outdoors habitué. The fine photos are by Myron Ehrenberg.

Power Boating, by Geoffrey Smith (Wilfred Funk, 96 pages; \$4). Answers to common questions regarding boatmanship in coastal or inland waters are given in excellent photos made by Mr. Smith and John Keller and terse text. One of the most attractive books on the subject.

Small Boat Owners' Guide, by Frank C. True (Lantern Press, 250 pages; \$3.50). Simple device addressed to newcomers to what's now the fastest growing participant sport. It covers boat-buying, repairs, fitting, chart reading, sailing, navigation rules, briefly. Some illustrations.

Harmonize Your Home, by Kay Hardy (Funk & Wagnalls, 128 pages; \$3.95). Basic interior decoration formulas expounded by a professional in the art or craft, with a variety of how-to-do-it yourself patterns and plans. Hundreds of black and white drawings; seven full-color photo plates.

Colorgraph

IT'S possible to visualize some of the picture at right by studying the diagram closely, but it's easier to make it appear by coloring the segments according to the following indicators:

B—Blue
G—Green
Y—Yellow
BR—Brown
V—Violet
R—Red
O—Orange

The object in question is often associated with slow, cautious plodding. But if you remember your fables from Aesop, you'll recall it can also be a winner.

How quickly can you fill it in?
