GOOD STREET WORK. MONEY

Fine Job of Street Grading and Many Needed Culverts Have Been Installed.

J. W. Green, J. T. Ramsey and City Marshal, O. P. Wolfe have of grading and many needed culverts have been built where none have ever been before L. D. Grantham has been busy on that line.

This work has put the streets up to where they will remain good for a long time. The money used for this work is well spent and the people will commend the action of the City force pump at the creek he gets a Council in having the work done.

Saved Girl's Life

"I want to tell you what wonderful benefit I have received from the use of Thedford's Black-Draught," writes Mrs. Sylvania Woods, of Clifton Mills, Ky.

"It certainly has no equal for la grippe, bad colds, liver and stomach troubles. I firmly believe Black-Draught saved my little girl's life. When she had the measles, they went in on her, but one good dose of Thedford's Black-Draught made them break out, and she has had no more trouble. I shall never be without

WHY ANTI-PROHIBITION DEM-OCRATS FAVOR BALL

The North Texas Tom Ball campaign committee with headquarters at Dallas, is an organization of Antiprohibitionists, with J. H. Walker as chairman. They believe first in the welfare of Texas and whether the state goes pro or not, the public interests will be in safe hands with Thos. H. Ball as governor.

In a published address, they say: Reasons for Favoring Ball

"We prefer Col. Ball for the reason that as a good Democrat he agrees to abide by the action of the people in the vote on submission, but if submission is defeated he is committedto such further regulation of the liquor traffic as may be wise and expedient. We believe that further regulation from time to ime is needed, in order further to reduce the confessed evils of the saloon.

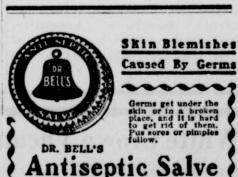

Mr. Ferguson, on the other hand, takes the "stand pat," position that he will veto any legislation on the liquor subject. If any of our local matter what the development of lawlessness or evasion, no matter what new developments of waste or vice in liquor traffic, Mr. Ferguson the slightest reform or amelioration, and nothing could be accomplished except by a two-thirdsmajority of the legislature to override his veto. In short, Mr. Ferguson proposes to draw a deadline and to say to the people of Texas they shall not further regulate, modify or control the liquor business, and shall not encroach upon its operation a minute of time or

"Reasons for Opposing Ferguson. "We favor Col. Ball and oppose Mr. Ferguson because of their respective positions on the land question. Mr. Ferguson proposes to regulate the rental of farms. DID YOU SEE

"That Million Dollar Look!" At the Dreamland Airdome Monday Night?

I have always maintained that a man's clothes are one of the vital factors in his career---that may affect his whole advancement in the game of life. And Monday night, at the Dreamland Airdome, a picture play called "That Million Dollar Look" certainly demonstrated my belief.

No man who saw this unusual picture play, left his seat without feeling a deeper respect than ever for good clothes and their importance to his prosperity.

Incidentally, this picture-play showed that the Million Dollar look is the Royal Tailored Look; that the best "prosperity" clothes are those that are Royal Tailored

One of the most interesting features of the film were the pictures showing the wonderful Royal Tailor shops in Chicago and New York; pictures taking you behind the scenes in the world's greatest tailoring shops; pictures showing how every Royal garment is cut separately and to the individual order and measures of each customer; pictures of the cleanest, sunniest, cheeriest and biggest work-shops you ever looked into, a delightful revelation into the perfection of Royal Tailoring system.

If you saw these pictures, you probably said to yourself, as scores of others did: "No wonder Royal Tailored clothes are considered the best in the world, when they are made in an organization like that."

But please don't think that my object in bringing these pictures to town was wholly selfish. I still say, that if this picture play convinced some of the young men, who have been careless about their clothes, of the importance of good dress in business, I shall feel satisfied. Let them buy the "next best" to Royal Tailored clothes, if they will, that's better than bungling the whole clothes problem entirely.

But for you folks who want the utmost in custom tailoring; for you men, who want the genuine "Million Dollar Look;" for you, who will take no second best, this is just a reminder that my store is the local home of Royal Tailored to your order clothes. Made to your measure at \$16, \$17, \$20, \$25, \$30, and \$35.

JUST TWO ISSUES.

A political correspondent in the Abilene Democrat, a paper which was born in Abilene a few weeks ago, and came boosting for Ferguson, almost fro mthe start, tries to offset Dr. Sandifer's argument in this way:

"In the Abilene Reporter of June 21st, Dr. Sandifer discusses candidates and Leading Issues of Campaign.' The Doctor says 'There are but Two Issues of Moment in this campaign,' viz: The liquor question and the tenant problem.

"It is alright to select these two for the purpose of an argument, and thereby divert attention from other issues, but good democrats believe there are many problems confronting the peopel that concern their welfare. It seems that providing better facilities for the marketing of crops; placing the penitentiary system on a selfsustaining basis; the care of the helpless and insane; providing for a more efficient system of education in the common schools and the higher institutions; the welfare of our tenant farmers, the reformation of our court proceduré, are all subjects in which the people are vitally interested."

In a whole three columns, designed to vanquish Dr. Sandifer's proposition, he gets nowhere. The two issues assertion still stands.

There is no issue between the candidates on the other matters mentioned. Ball has made his position plain on all these things and he will have the courage and backing to put them through.

The older ladies had made the necessary preparation for the dinner. A shade was made with wagon sheets to serve the dinner under and for the benefit of the little children whose mothers were taking apart in the days work. At about seven p. m. the good women announced that the ten gallons of cream was eardy and the tired laborers were soon partaking of the repast. Total number of acres chopped that day was twenty. It was there announced that on next Tuesday, they would try it over. Every one seemed to enjcy themselves and are looking forward to the next time. Other denominations are lending a helping hand for which it is more than appreciated.
