A NECESSITY.

Correcting some wrong impressions concerning a bit of Texas History that transpired in the early 70's.

The early history of civilized life on the plains of western Texas, Oklahoma, Kansas and portions of Colorado, abound in thrilling stories of adventure and perilous escapades, by a class of hardy pioneers, most of whom have long since hit the western trail, and crossed the great divide, that would read more like romance than history. To those whose minds are so inclined, it is possible, yet, to find here and there scattered over the west, in the land they helped to wrest from the savage and open to civilized life, a very few of this select class, left standing like the mighty oak of the forest, to view the result of their labors in these latter days, from whom first hand and accurate accounts of those bygone days may be had, if perchance one may be so fortunate as to gain their confidence; for those of them who remain will be found to still manifest that imperturbability and independence of mind and action that distinguished the early settlers of these parts.

Soon all the participants in these events will have passed away, and unless some action is taken by the proper authorities to preserve a knowledge of their accomplishments and make them a part of the permanent history of our great state, future generations may never know with what heroism and self sacrifice the foundation of our civil and religious liberty was laid and the material fabric of an empire established.

Aside from personal contact with the makers of this history and a limited connection with the events of those times, the writer has for many years sought from every available source accurate data that might throw light upon that period in our history about which so little of authenticity seems to be known.

A point in question is the Adobe Walls fight that occurred in 1874 in what is now Hutchinson county, Texas, while taking its name from some old prehistoric adobe walls standing on the banks of the Canadian river, the battle took place nearly two miles away at a point where some four separate houses had been erected by traders and buffalo hunters as a kind of trading point and rendezvous for the restless spirits who disputed dominion with the savage over the surrounding country. The fight in point of desperate resistance of a few against many, deserves to be ranked among the most gallant on record.

The facts of this fight between 28 whites and a band of Comanche Indians estimated at not less than 1000, may be obtained from reading the biography of Billy Dixon, published by his widow, who now resides, or did a few years ago, at Miami, Texas. One of the spurious accounts of this fight, and one that was given great publicity because of its having been printed by some of the leading newspapers of the state a few years ago, is that furnished by John Clinton, of Abilene, Texas, who claims to have been present and to have participated in the fight but who, in reality, was not present

as is shown from the appended letter written by W. H. (Mat) Masterson, to a personal friend to correct this much disputed point in the history of the adobe walls fight. Masterson, who now resides in New York, was among the leading spirits in that band of 28 who so gallantly withstood repeated and determined attacks from an overwhelming and well armed enemy. Masterson's letter is as follows:

June 14, 1919.

Mr. J. Wright Moorar,
New York City.

My dear Mr. Moorar:

After having carefully read the two stories you handed me about the adobe walls fight, written by John Clinton, Police Chief of Abilene, Texas, and published by the Fort Worth Record and the Abilene Reporter, respectively, I wish to say that the two stories referred to are the worst kind of inventions.

Police Chief Clinton evidently possesses a lively imagination, otherwise he could not have invented the tale of the adobe walls battle in the thrilling manner he did. However the fact that he describes the battle as having taken place at the old adobe walls building is prima facie evidence that he was not there. The further fact that he asserts that he arrived at the adobe walls accompanied by four Mexican vaqueros, all of whom had been following the Chisholm trail looking for a bunch of lost horses further establishes the fact that he was not there for no such thing happened. The fact is, there was no Chisholm trail in those days.

The battle of the adobe walls was fought in and about the four new buildings that were erected in May and June 1874, which were about two miles from the old walls which had not been occupied by even an Indian for no telling how many years. I knew every man who took part in that fight personally and no such man as John Clinton was there. Nor were there any Mexicans present.

Mr. Clinton, I judge had heard the battle of the adobe walls talked about and more than likely by someone who was not there and in that way got his idea of the battle. In any event Mr. Clinton has no personal knowledge of that fight as is clearly established by his articles.

Jimmy Langdon and Fred Leonard, both of whom were in the fight and I understand are living at Salt Lake City, Utah, at the present time would no doubt, repudiate Mr. Clinton and his stories as forcefully as I have were they to see them.

But, Mr. Moorar, what is the use of me telling you all these things for you were in that country at the time and although not in the fight personally knew all who were. I myself had known you for at least two years before the battle was fought and as you and your brother John were well known Buffalo hunters on the plains in those days, you can't help but be familiar with all the important events that took place in those days in that country.

Wishing you a long and prosperous life and trusting I have set you right regarding Mr. Clinton, I am,
Sincerely yours,

W. B. MASTERSON.

The facts contained in the above letter are made public solely with a view to correcting some false statements that have been given the public, concerning this, considered by many, as one of the most heroic battles that has ever occurred on Texas soil.

Mr. Bob Adams and family have moved back from Waco to Herculigh. They had four boys in the war and all now out and ready for life's duties. They say Scurry county looks better to them than anywhere else.

Married at Paris.

Rev. W. L. Edmonson of Roscoe will preach the introductory sermon.

Another Expert Witness.

And now comes Dr. Hannabass, who deposes and says that Col. Noble's estimate of a champion watermelon eater is faulty and without foundation in fact. In support of this contention he avers that just a few days ago Col. Noble confided to him that he had a very fine melon on ice, amply large to fill the capacity of two large men and he wanted him to come at 4 p. m. and help eat it.

The witness further avers that when the hour arrived he informed the Col. that he was busy with a patient but would report in 15 minutes. He worked with his patient about five minutes and then hurried over to the feast and found that his host had already cut the melon and had eaten it all himself, nothing was left but rinds and seeds.

Mr. and Mrs. F. J. Grayum returned Wednesday from an extended tour of the Pacific coast country. They were in California, Oregon, Washington and other states, visited important cities and points of interest and report a fine trip from start to finish. They were tied up for a week by the railroad strike, but they put in their time seeing the towns and country.

A Union Meeting

The Presbyterian and Methodist Churches, at Fluvanna, are planning a union meeting to begin on or about the third Sunday in September. Rev. J. M. Martin, of Sherman, Texas, has been employed to conduct the meeting. Brother Martin is not only an evangelistic preacher of established reputation but an evangelistic singer as well. With the two churches uniting their effort and led by an experienced evangelist we will have a good team for aggressive work. The door is wide open to churches and individuals to join in with us in this campaign. Respectfully submitted by—Jas H. Tate.

ADVISED NEGROES TO STAY IN THEIR PLACE

President J. L. Campbell of the Negro Baptist encampment held last of the recent Shillady affair at Auscage of complaint among negroes against the white people. Speaking week in Austin said there is no just tin, President Campbell said:

"There is no just ground for complaint. The races in the South are getting along smoothly and where the negro accepts the advice of his white neighbor, prosperity is in evidence."

"The officers of the law who took necessary precautions to prevent a clash were indeed wise, for at this present moment an altercation between black men and white men while not intended, might possibly have been the means of the death of many innocent good citizens of both races."

I recommend that the executive board tender its service to Governor Hobby and the authorities, assuring them of our sincerity and readiness to co-operate for the enforcement of the law.

"We should let it be known by the passionate, extremist, irreconcilable persons of our own race seeking fights with other persons that we do not approve of this and will in no sense be responsible for the outcome."

"Our people should be advised to obey the law, stay in their places, keep busy and refuse to be hoodwinked by idle and purposeless classes."

BEAUTIFYING THE SCHOOL GROUNDS

To whom does the school property of a community belong and for whose benefit is it to be used. Primarily it is for the benefit of the children, but this logically makes it for the homes, hence for the entire community.

Ownership and profit bring responsibility, and no citizen of a community is excusable for a lack of interest in its school. The greatest asset of any neighborhood is its boys and girls. Anything that interests them, if it be not unwholesome, is worth the while. How much more is it worth, if it be not only wholesome, but also is uplifting, educational, and adds to their happiness.

It is unquestionably true that one of the great and desirable aims of education is to equip the pupil for enjoying life. Not for having fun, but for finding real pleasure in living, whether he be rich or poor. It is a sad mistake to train a child so he can appreciate only the commercial value of a landscape or a great work of art. There is an innate love of beauty in children. This should be cultivated, not crushed. Pupils of all ages love a pretty school room. This is well known and no teacher, worthy of the name, fails to take advantage of this avenue to success, nor dares to neglect the development of the sense of beauty.

All that is true of the school room is true of the school grounds. Beauty is an aid to discipline during work hours, so it is during playtime.

It is not true that normal boys and girls will wantonly destroy or injure flower beds, gardens, or growing trees. If they feel a personal interest in the plans and arrangements of the grounds, which they must if success is attained, they will take pride in caring for them.

To succeed in beautifying the school ground there must be co-operation of parents and teachers. If it were possible for the teacher to carry on the work without the parents' co-operation during the school term, the work on the grounds would close when the school term closed, and during the long vacation all would be lost that had been gained.

A good plan is for the teacher to invite the parents to a Friday afternoon program and, after or before the rendering of the program, discuss with them the subject. The teacher should receive suggestions and, if able give suggestions. The community spirit should be cultivated. Create a sentiment in favor of beautifying the grounds by talking about it.

When this is done it will not be difficult to take the first step, which will be clearing it of weeds and cleaning the ground. This makes a good beginning. Most farmers can tell when and how the soil should be prepared for flower beds, gardens etc. They can supply much of the seed and plants needed. Let the pupils have a garden, be it ever so small. It is a good plan to have a day set apart for putting out trees. All this will aid in the study of nature, interest the pupils and generate and maintain a public spirit in the neighborhood.

A home seeker passing through the community will not find it necessary to make the usual inquiry about the school, for a well kept building and grounds is a good advertisement for any community. During vacation a little time and work each week or as often as necessary can easily be given to the school grounds. The burden need not be heavy on any one.

What a pleasure it would be for teacher and pupils to begin school in the fall where the building and grounds were in as good or better condition than when school closed the year before. Perhaps this may not be this year, but it could be next. How many schools will make the effort?

(Miss) IDA KELLEY.

Sheriff Byrd and county Attorney Wilmeth went to Dunn to see about it, and after talking over the affair they left Mr. Johnston on his own recognizance. It is understood Mr. Staggs was not seriously hurt. The men have been neighbors and friends for a number of years and it is hoped the unpleasantness may soon be forgotten.

Our Oil Outlook.

There is not much to tell about the oil situation. The Scurry County Oil Association are awaiting the outcome of their proposition to turn their works over to an outside drilling company.

The Signal is reliably informed that the Stanton people will begin drilling at the Riley location on the 14th inst., and they promise to press the work to the limit.

C. L. Ezell of El Paso is here. He is promoting a big oil proposition in Stephens county and already has two producing wells.

There are plenty of unconfirmed rumors floating around.

The country might as well let up on the meat packers, lest they make matters worse. People have been paying 60c a pound for a certain brand of breakfast bacon and now that same package comes at 75 cents.

Great Faith in Chamberlain's Colic and Diarrhoea Remedy.

"Chamberlain's Colic and Diarrhoea Remedy was used by my father about a year ago when he had diarrhoea. It relieved him immediately by taking three doses he was absolutely cured. He has great faith in this remedy," writes Mrs. W. H. Williams, Stanley, N. Y.

Ex-Senator Joseph Weldon Bailey and his "reconstruction" followers have decided to remain in the old party for the present. We hope they have the good judgment to continue to work in the party, not that we fear the damage they would do the Democratic party of Texas, but because we should regret to see a man whom the party has honored as it has honored Mr. Bailey fool himself into believing that he can lead any considerable number of voters of into a "third" party. Mr. Ferguson's American party has about rippled all it will ever ripple, as we see it, and we shall not be surprised if 1920 finds Texas as usual with only one Democratic party.—Abilene Reporter.

W. S. Reed of Camp Springs has sold \$625.65 worth of fruit from his orchard this year.

Unless a settlement is made by these companies within a reasonable time a list of the delinquents will be furnished the secretary of state's department an d steps taken looking to forfeiture of their charters or permits.—Fort Worth Record.

no proposition to deny the istian ministers a voice in political matters is reason enough to kill aspirations of any sort of politics.

Gov. Hobby believes that armed intervention in Mexico would bring about a state of order in that country and prove a blessing to the Mexican people.

LET GERMANY BE WATCHED.

There may be nothing in the Dr. Altendorff stories about Germany's intention to colonize Mexico and the Latin countries, but people familiar with German character are disposed to believe there is foundation for what he has told.

None of us can doubt the German attitude of Carranza.

He is ready to hand over his country to Germany and to aid Germany in her designs. The Germans already have a foothold in Mexico and will take any sort of opportunity to harass the United States. Already we can see signs of German purpose to align Japanese feeling against us, and while there may not be any German influences at work among the American negroes, it is but reasonable to suspect that it would please Germany to see the negro population arrayed against their home government. Negro soldiers are good fighters in war and in case of a conflict the negroes of this country will add force to whatever side with which they may line up. Germany would send emissaries amongst the negroes and would promise them social equality or anything else. They would incite hatred and treachery among negroes in order to enlist them in their behalf.

The American people will never tolerate social equality and since negroes are now being stirred up on that line they will be easily duped by German agents.

There is enough probability in it to justify the American people to adopt positive measure to checkmate Germany in her schemes.

Constant vigilance is the price of safety and we have learned enough about Germany to warn us to be prompt and prepared to meet any of her cunningly devised plans.

BIG CIRCUS COMING.

He walked into our office this morning, very quietly and unassuming. Merely came to impart the glad tidings that the big circus is coming to town. Oh yes! Beg Pardon, E. P. Wiley is his name and he is the contracting agent for the Yankee Robinson Big Three Ring Wild Animal Circus due in Snyder on Friday, Sept. 19. Of course Mr. Wiley merely dropped in to make the necessary newspaper contracts, but in the course of conversation, just had to admit that the Yankee Robinson Circus has doubled in size since its last visit here and that it now controls the market in polar bears, over one half of those in the United States—to be exact 10 in number—being owned by this show. Oh yes! Plestina, the wrestling marvel is really with the circus and will meet all comers, incidentally donating one hundred dollars to any man he cannot win a fall from in fifteen minutes. The Col. Hobbs Stable of Post Graduate high school and dancing horses, several of which were for four consecutive seasons Blue Ribbon and Diploma winners at the New York and Boston Horse Shows, will be another one of the features in addition to the

wonderful Buchanan Dancing horses, but right here Mr. Wiley admitted that he was the busiest man in town and simply didn't have sufficient time to enumerate all the wonders to be found with the circus. Just be on the downtown streets at about 10:30 a. m. on show day when all the features of the circus will be represented in the mile-long parade and it will be some parade.

The Star Telegram can't understand how the Kenyon bill can bring cheaper meat to the consumer and higher prices for live stock. The only way would be to lower the freight rates and lessen the profits of the packer and the packers say their profits are less than a cent a pound.

Many Bridges Destroyed.

Judge Adamson states that one large wooden bridge and one steel bridge on Canyon were completely washed away last Sunday and the steel bridge at George Autry's was badly damaged and the large steel bridge on the Egypt road is gone. The court recently paid out \$300 for repairing the Autry bridge damaged in the July rain and the Judge thinks it will cost \$3000 to put back new structures in the places of the two big bridges destroyed.

Besides these, it is said all the small bridges in that part of the county were washed out.

SEE BEST CIRCUS HORSES

Yankee Robinson Collection Finest—Dance to Music and Change Step with Change of Music.

Lovers of horses find unusual delight in the horses of the Yankee Robinson Circus which appears here September 19.

The general collection is unusually fine, even for organizations that make a specialty of beautiful and well trained wonders, but nowhere before has ever been seen such horses as those that are ridden by the equestrians who do the artistic riding. There's a reason. The Buchanan Dancing horses, twenty in number, were formerly the property of Col. Hobbs of Boston—a wealthy capitalist who fairly combed the earth for exhibition horses. "Lady Virginia" formerly of the Vanderbilt stables was a Blue Ribbon winner for four consecutive years at the Madison Square Horse Show while "Texas Tommy" won similar laurels at the Boston Horse Show. "White Sox" and "Boston" two others of this famous collection of dancing marvels are now valued members of the Yankee Robinson Three Ring Wild Animal Circus and are just one of the few features to be seen with this big organization.

There ought to be enough sensible Mexicans to enable that country to reason out the fact that when the United States shall be given a chance to show them, conditions in that country will be more tolerable. We don't want Mexico. We want safety in doing business there and we want friendly commercial intercourse with those people.

DODSON-TAYLOR REPORT.

To The Stockholders of the Dodson-Taylor Oil Association.

Dear Sir:
We are glad to inform you that actual drilling has begun on our Dodson-Taylor well and is now down to 800 feet; unavoidable circumstances delayed in starting. As you are aware the Railroad Commissioners of Texas stopped all drilling in the Northwest field, as pipe line facilities were inadequate to provide the production of the oil. This situation has now been greatly relieved and drilling resumed. Shortage of water has also been a serious handicap. All these troubles are practically relieved and we look for no further delay in our drilling.

We are very optimistic over our prospects since the Burk-George well has been completed and is a 2000 barrel well. As this well is North of our holdings it shows the pool is extending in our direction. We will keep you informed from time to time as to the progress of the Company and developments in our section.

Very truly,
Dodson-Taylor Oil Ass'n.

The Bailey democrats had their meeting in Dallas last Saturday, but Bailey was not there and his followers didn't know what to do. They milled around all day and Lieut. Greenwood said they would fight for place in the democratic primaries and will have a complete ticket from governor to constable.

Do you know that Bessie Love who plays in "How could you Caroline" at the Cozy next Wednesday was born at Midland, Texas. She is your neighbor. Girl, you want to call on her Wednesday.

"Early to Bed."

"The Shuttle," Constance Talmadge's latest Select Picture, which will be the attraction here at the Cozy Theatre on Thursday, was the first picture made in California by this clever comedienne. Immediately after her arrival in Los Angeles, Miss Talmadge commenced work on this production and when it was concluded, she admitted she would be glad of a short respite before starting on her next picture "Up the Road With Sallie."

"Who was that old farmer who invented the couplet about 'early to bed and early to rise—?' Well, the last half of it is true, anyway," she laughed. "The California spotlight does certainly attract the film people out of their downy couches at an early hour. But I went them one better. The other morning I arose while the fog was yet on the ground and drove around to the studio in my Hup. There wasn't any one about and I hadn't a key, so I got the fire axe and broke into my dressing room. I was ready and dressed before the others thought of getting on the set."

"The Knickerbocker Buckaroo."

Filled with a desire to get out into the world and do something, young Mr. Teddy Drake, a typical New Yorker, goes into the West and presently the opportunity offers itself on the train running into Sonora, Mexico.

Teddy encounters Manuel Lopez, leader of an outlaw band, who is being pursued by the sheriff of the county. Drake changes clothes with the bandit, enabling him to elude his pursuers, and Drake himself leads the enforcers of the law and order in a merry chase until he is finally rounded up in the town of Sonora. A merry chase, until he is finally rounded up in the town of Sonora, where he takes refuge on the roof of the county jail, which is the last place the sheriff thinks to search.

Drake encounters Mercedes Sylvester, who has been imprisoned by the rascally sheriff on a trumped-up charge of smuggling, and straightway falls in love with the dainty captive. His sole ambition from that moment is to release the girl and prevent the sheriff and his henchmen from stealing the money which Mercedes and her brother were fore-

ed to conceal in their old home down in Mexico, to prevent the insurrectionists from taking it. In the midst of his activities, Drake is himself captured and thrown into jail, from which he rescues himself, and thereupon ensues a wild chase into Mexico. Time after time the Knickerbocker Buckaroo finds his chance to do something for somebody, but strangely enough, each new move hurls him into fresh trouble, and in the end, with the fortune safely in the possession of the girl and her brother, Drake telegraphs home to his mother that doing something for somebody is all right, but that it keeps a man too constantly in hot water. He thereupon proposes to Mercedes and is accepted, and the happy pair start back to Forty-Second and Broadway.

The moral of the tale is that doing something for somebody is a worthy and laudable ambition, but that unselfishness can sometimes be carried too far, and unless guided by calm judgment, may bring the unselfish one results that he doesn't expect; and secondly, that the proper place to start any reconstruction in character is at home.

THE STATE OF TEXAS

County of Scurry
 I, W. M. CURRY, Clerk of the County Court, in and for Scurry County, Texas, do hereby certify, that the above and foregoing, is a true and correct copy of the delinquent tax rolls arranged numerically as to abstract, block and lot as reported by S. Experience the Best Teacher.

It is generally admitted that experience is the best teacher, but should we not make use of the experience of others as well as our own? The experience of a thousand persons is more to be depended upon than that of one individual. Many thousands of persons have used Chamberlain's Cough Remedy for coughs and colds with the best results, which shows it to be a thoroughly reliable preparation for those diseases. Try it. It is prompt and effectual and pleasant to take.

DON'T RISK NEGLECT.

Don't neglect a constant backache, sharp, darting pains or urinary disorders. The danger of dropsy or Bright's disease is too serious to ignore. Use Doan's Kidney Pills as have your friends and neighbors. A Snyder Case.

Mrs. O. I. McClinton, says: "I have used Doan's Kidney Pills, off and on for a long time with the best of results and I recommend them highly. At times, my back has been weak and lame and so stiff that when I bent over, I could hardly get up again. I have had dizzy spells and headaches and at night I have been nervous and unable to sleep. Every time I have been this way I have used Doan's Kidney Pills, and they have never failed to relieve me." (Statement given November 10, 1915.)

On April 16, 1919, Mrs. McClinton said: "I think just as much of Doan's Kidney Pills as I ever did, for they brought me wonderful relief from kidney trouble. I highly recommend this medicine to all my friends."
