

The Snyder Signal

THIRTY-THIRD YEAR.

SNYDER, SCURRY COUNTY, TEXAS, FRIDAY, APRIL 30, 1920.

NUMBER FORTY-SIX

IL INTEREST ON GOOD SIZE BOOM

There seems to be a reviving of oil interest within the last few days, yet there is no more oil in sight than before. So far as concerns the prospects the Signal knows nothing. There are rumors going the rounds, but these some times have led to a fizzle and many people use to give them ear.

It was stated this week by a man we set up, that the Long well is just about as last week and that Jones others will drill another in the near locality.

The Riley well has been making progress and early this week it through hard rock that has been worrying them, into a dark matron, and on Tuesday morning when the engineer was firing up the boiler burst and is a clear loss, together with the boiler shed. The company will get another boiler very soon.

The Camp Springs Company are making on preliminaries. Col. W. Gross said this week that the drilling outfit, an American machine, is then due for the Dunn well, at Taylor Cotton location and that in a few weeks there will be a producing well in that field. He says there are two positive locations. They expect to get shallow oil at about 700 feet.

Mr. Gross said further that a movement has been started to establish a refinery at Poch.

Methodist Church

Threatening weather, but a splendid Sunday School just the same last day. We have averaged two hundred per Sunday through April. We can make a better average through May. Let us start the month at Sunday with a record attendance. Fine fellowship and splendid singing in each class.

We are anxious for a full attendance of our congregation at the regular services next week at the evening hour. We give a most cordial invitation to all other denominations take part in these services. May not together under the leadership of the Holy Spirit win men for Christ. Brother Yoder will lead the congregational choir. We want you singing. The pastor will speak on the following subjects:

7:15—The Harvest Field.
Monday 7:15—The Shameless Gospel.
Tuesday 7:15—Power in Religion.
Wednesday 7:15—The Principles of Choice.
Thursday 7:15—The Wreck of a Lendly Character.
Friday 7:15—The Loving Father.
Sunday 11:00—What Shall I do with My Life?

7:15—Prisoners of Hope.

If you have a Methodist membership not in the church here, why not use it with us this week? The services and time of the afternoon prayer meetings will be announced in the services. Will you not join us in prayer for the success of the revival.

John H. Hicks, Pastor.

Getting Revenues for Schools

The Snyder School Board met Wednesday night to discuss ways to use funds to maintain the school, the highest possible degree of efficiency.

Higher salaries must be paid to the best teachers, and there is use to quibble about it. Snyder must have as good schools as any other town and it will require more money. The law requires the value condition of property for taxation and there is no other way to get the money. The board elected assessor and five or six assistants to assess the district for school taxation and the Signal believes the people will appreciate conditions and will readily make full renditions.

J. N. Patterson, formerly with the ton-Dodson store, and left here to go to the war, is back with us this week for a short visit. He resides in Oklahoma.

Mrs. J. McCarty left Monday Comanche to visit her mother.

LITTLE RUSSELL JOHNSON

Mrs. W. E. Johnson has the most sincere sympathy of many friends and neighbors in her deep grief in the death of her little son, William Russell Johnson, which occurred early Tuesday morning at a sanitarium in Lubbock. Russell was taken seriously ill three weeks ago and was hurried to Lubbock for an operation. His case was serious from the first and for many days he has lingered, with little or no hope of recovery.

The little body was brought home Tuesday and buried from the Baptist Church at 4 o'clock Tuesday evening. Rev. I. D. Hall conducted the funeral services.

Precinct Convention Called

By virtue of authority vested in me as democratic chairman of Snyder precinct, I hereby call for a precinct convention to be held at the Court House in Snyder at 2 o'clock p. m. on Saturday, May 1st, 1920, to elect delegates to the County Convention and transact such other business as may properly come before said convention.

All qualified Democrats, men and women, are urged to attend said convention and take part in same.

J. Z. Noble, Chmn.

"THE WESTERNERS" POWERFUL DRAMA OF BLACK HILLS

"All the world loves American western pictures," says Benjamin B. Hampton, the well-known producer, who specializes in large feature photoplays. "From the days of Broncho Billy's one-reelers to the time of William S. Hart, more net profits have been made by the manufacture of 'westerns' than have come to any other group of picture makers. American audiences love the stories of our outdoors, and English audiences like them just as well. So do the Scandinavians and the South Americans and all the folks in between."

Mr. Hampton and Rex Beach produced the "Barrier," from Mr. Beach's novel. "The Barrier" photoplay made picture history the world over. Mr. Hampton's latest special production is "The Westerners," which comes to the Cozy Theatre Saturday. "The Westerners" is a novel that made the fame of Stewart Edward White, now known everywhere as a novelist, a sportsman and an explorer.

"The Westerners," a W. W. Hodkinson release, is the western picture in a de luxe edition. Its locale as the thousands of readers of the novel will recall, is the Black Hills, in the days of the gold rush, when the white man broke his treaties and forced his way into Pah-sep-pah, the valley of the Sioux. The Custer massacre followed and the white man drove the Sioux from the Dakotas. The picture is historically correct in every detail. It is beautiful in scenic effects, swift as lightning in drama, with a charming romance and abounding in little touches of pathos and comedy. It has been produced without regard to expense with an all-star cast, among whom are Roy Stewart, Robt. McKim, Mildred Manning, and Wilfred Lucas. The director, Edward Sloman, has made a great name for himself by his able handling of this picture.

The Signal continues to get notices from supply houses urging conservation of print paper, therefore we are forced to hold the sheet down to a minimum size. Many local articles of interest and other lengthy communications must be held over until the paper situation improves. Just as soon as we can safely do so, the Signal will be made larger. We have to conserve paper or our supply will be cut off.

Mr. J. R. Coon was over from near Colorado and stated that two good drilling rigs have just been located near his place. Mr. Coon joins the Signal's reading list.

Mrs. Wilma Shaver and family of Dallas came in this week to visit with the family of J. R. Burdett of Snyder.

Miss Louise Gange of the Snyder National Bank has returned from visiting her parents at Thurber.

THE SNYDER WOMEN ADOPT RESOLUTIONS

Whereas, it is an evident fact that many of the extracts sold by our grocers and druggists contain from 12 1/2 to 89 per cent of alcohol;

And whereas, it appears that a custom seems to be growing among some of our citizens of drinking to a state of intoxication of these extracts;

And whereas, the housewives of the country are responsible for the handling of such goods by our merchants, in that they call for and demand such extracts for use in the preparation of foods;

Therefore, Be it resolved by the organizations subscribed below that we will refuse to eat of the meat whereby our brother stumbleth, or in other words that we will not encourage the spread of alcoholism by using in our foods any extracts containing alcohol in any quantity.

Be it further resolved, that we earnestly request all vendors of extracts to discontinue the importation and sale of such extracts that contain any amount of alcohol in them.

And be it further resolved, that we call upon our officers who have in charge the enforcement of the laws, to be very diligent in prosecuting any person violating the statutes in regard to the sale of any commodity containing alcohol.

And be it further resolved, that we call upon the housewives of this locality who may not be affiliated with any of the organizations subscribed hereto, to cooperate with us in this movement.

Big Rain Over North Scurry

Coming down the Santa Fe last Monday, it was easily seen that the Plains country is needing rain. The wheat is just now at a stage when it must have rain soon or be no good. The rain reported was below the cap rock. In fact, there was none to count till about Justiceburg. The waterholes were full from near Justiceburg, the Fuller country and to Dermott.

It is reported that a two-inch rain fell there and over the north part of Scurry County, and Ennis Creek ran at half bank full. There was practically no rain at Snyder.

Shoulder Broken

The little son of Mr. and Mrs. Sidney Johnson fell off a wagon last Thursday and a wheel ran over him, breaking his shoulder. He is reported now getting along nicely.

Bro. Tate was down Tuesday from Fluvanna. Said he had to detour around by White Bluff to avoid the highway builders.

Switchmen's Strike Plays Out

Newspaper reports indicate that the Switchmen's strike has collapsed though John Grunau, the leader, says it is still in effect. Railroad men say business has been resumed and most of the strikers have returned to their jobs. The strike was a secession from the American Federation, and labor unions have condemned it as illegal and many union men have served as strike breakers, while union officials have been trying to argue some reason into the heads of the Grunau party. The Switchmen tried to appeal to President Wilson and the Labor Board but the government declined to hold conference with an illegal concern. It seems the Switchmen acted without authority and, failing to get union or national recognition, they were doomed to failure.

Mrs. J. E. Anderson will leave Sunday for Ballinger as a delegate from the Altrurian Club to the Federation of Women's Clubs.

Mrs. Orville Dodson is reporter on the sick list this week.

COURT AND POLICE ARE GRINDING AWAY

County Court has been grinding out judicial grist this week.

The case of W. B. Rhoads vs. B. L. Hall, for debt, was settled.

Blackard Hardware Co. vs. Mount Pleasant Oil Co., account, continued Higginbotham Bros. & Co. vs. Ed Burdine, et al, suit on note, judgment for plaintiff.

Five suits against Mount Pleasant Oil Company for labor claims were settled.

There were three pleas of guilty on gaming charges entered Tuesday and fines paid, ten dollars and costs, in each case.

About a dozen gaming cases were filed Tuesday, mostly against local persons.

It is said that complaints have been made against a number of small boys, who it seems, entered several business houses here last Sunday and did considerable petty filching.

Oil Reported at Pyron

Commissioner J. L. Patterson was here Wednesday and said that he has reliable information that the Pyron Oil Company has started in to build storage tanks at their well on the 13 ranch in Fisher County near Pyron. They report that they have found the oil and will bring in the well just as soon as the tanks are ready. Mr. Patterson said he understood that oil has been found at the well at Bernecker.

First Baptist Church

Teacher's Meeting at 9:00.
Sunday School 9:45.
Preaching Services 11:00 and 7:15.
Let every one who is interested in the cause of Christ be present Sunday.

The Sunday School is growing in interest. New life in every department. You will be welcomed by superintendents, teachers and classes. You are missing a great opportunity if you fail to come.

The pastor is away in a meeting this week, but Dr. Sanders, president of Simmons College, will speak at both hours. All the young men and women will be interested in his messages as he is a very forceful speaker. He will both instruct and entertain you.

All the High School graduates will want to hear Dr. Sanders and learn more of the wonderful school of which he is president.

Every one is especially invited. Let us greet him with a full house. The pastor is very anxious that you remember him in your devotions. Pray that God will give us a gracious revival, not only in Silverton, but in Snyder.

W. H. Sims, pastor.

RUSHING CITY ASSESSMENTS

Special Assessor Harry Winston has been making fair headway in getting the people to raise their renditions to a cash value basis, but it is a big job for one man, and the importance of the matter of raising more revenue is so apparent that a number of our progressive business men have volunteered their personal services to help put the proposition over.

Several men met Wednesday morning at the Assessor's office and the assessment lists were divided up between Special workers in order to get the renditions in shape.

The volunteer workers noticed were, R. H. Curnutte, O. P. Thrane, J. C. Stinson, J. J. Taylor and Gay McGlaun.

AMARILLO AND PANHANDLE PRESS ASSOCIATION

The Signal editor was in Amarillo from Thursday till Monday, seeing the town, visiting the children and attending the Panhandle Press Association. All lines of business are progressing. There is considerable building in progress. Property values are high and rents are out of reason.

The town has a board of city development that are all the time getting new and valuable business enterprises.

I made headquarters at the office of the Daily Tribune where Olin is city editor, and Eugene Thompson is business manager. They have a thoroughly equipped plant, four Intertype machines, besides other modern machines that I know nothing about. They have a big stereotyping outfit and a big web press that prints and folds the papers faster than you could count them. They are doing a fine business.

The panhandle and plains editors were there and seemed to have a fine time. They talked shop all the time and the Chamber of Commerce paid their hotel bills. Now they have voted to meet there again next year. Sam Braswell of Clarendon was elected President and F. B. Jameson of Amarillo, secretary.

Most of the visitors were taken out to the gas wells, thirty miles north. There are four wells. Two were uncapped to show that the gas is there and they certainly have it.

Amarillo has plans under way to pipe the gas to the town for commercial use. The newspaper folks were given a magnificent banquet on Friday night at the Amarillo Hotel, as a courtesy extended by the Daily Tribune Company.

There are grounds for the ambition of Amarillo to bethe chief city of the Panhandle and west Texas.

Altrurian Club

The Altrurian Club had a pleasant meeting with Mrs. Hugh Taylor on Wednesday, April 21. At the close a short business session was held and an interesting program was carried out.

The lesson, the first and second part of Pippa Passes, was led by Mrs. Gray and Mrs. Anderson.

Mrs. Whitmore's contributions to the club programs are always enjoyed and her sketch of Pippa was of especial interest.

Little Miss Ruth Miller, with Mrs. Barnes at the piano, entertained us with a humorous reading most cleverly rendered. Mrs. Strayhorn's song enjoyed a hearty encore to which she responded graciously and Mrs. Henry's piano selections were very pleasing.

The hostess, assisted by Mesdames Monroe, Davis and Miller) served a delicious two course luncheon to the club members, and Mesdames Stallings, Cauble, Templeton, Strayhorn, Henry, Cody and Taylor.

Fire broke out Thursday afternoon about 4 o'clock in the negro settlement at the oil mill. As the Signal's forms close four houses occupied by mill workers had burned and the wind was driving the flames to others.

MONTHLY REPORT SNYDER SCHOOLS

We wish kindly to thank our patrons for the cooperation we have received this month. We are constantly striving to serve you in a way to make the school better and better, and also more useful. It is hard to measure the progress of a pupil or a school by only a few months' work. But the progress is clear in the case of 2 pupils one of which has taken advantage of school opportunities over the other and the teacher's greatest reward for school work is the pleasure and satisfaction of having had a part in lifting some one to a better, nobler and more useful life.

That is the whole duty of the teacher. The success of a teacher can be measured by her success in that. Not by her success with a single pupil, but with a number of pupils. A teacher may be able to solve hard problems in mathematics, read all Latin literature, quote innumerable quotations from classics, demonstrate mysteries in science, but if she can not lead her class to a better nobler and more useful life, her learning profiteth her nothing, in the school room.

Our attendance this month in Colonial Hill was 97 per cent; in Central grades, 95 per cent; in High School, 94 per cent; North Ward, 96 per cent.

We had in all the schools 23 tardies this month. It seems that a number of pupils came in tardy one day on account of a misunderstanding of the time. However, it is generally known that we run on Western Union time. We are sorry the pupils were tardy, but there is no way to escape the fact that they were tardy.

KELLER & SON, Snyder, Texas

Plumbers in Amarillo have been getting ten dollars a day and now are contending for a two dollar raise.

Hiram Johnson has been offered the nomination for Vice President, but spurns it. Who could blame him

Lynch Davidson of Houston, president of the Continental Lumber Co., is being urged by friends to become a candidate for the office of Lieutenant Governor.

It is said that Mr. Periman asked for a vote of all trustees who believe in the playing of basket ball at school and that one man held his hand up.

Bailey was given a brass band reception at Clarksville. Anybody can hire a band if he has the price and nobody doubts but that Bailey's backers have got the money.

Senator Buchanan had a letter the first of the week from Gov. Hobby saying a special session of the Legislature will be called for soon after May 15th. The main purpose is to take steps to combat the pink boll worm.

The Railroad Commission has ordered all drillers to not allow their incoming wells to gush and waste the oil. That disappoints us folks in the Snyder territory where we were getting ready to see oil shoot over the top of the derricks.

Judge E. I. Hill, who has been owner and editor of Roscoe Times for about 7 years, has sold the property to G. W. Butler and J. W. King, two well known and competent citizens of Roscoe. Judge Hill is now District Attorney and will devote his time to law and official business.

Judge Poindexter, in a speech at Hillsboro told a supposedly intelligent audience that President Wilson is no more a prohibitionist than is Jake Walters. He says they both favor beer and light wines. Suppose they do. That doesn't change the fact that the American people and Congress have decided for prohibition.

R. B. Haynes has for two years been managing editor and publisher of Lynn County News at Tahoka for J. L. Dow, and recently has bought the paper. The News is a good proposition and Mr. Haynes is to be congratulated on becoming owner of the property.

Mr. Bailey said in his Greenville speech that he would be willing to vote for all the acts of the Wilson administration which are democratic

and the Dallas News moves to insert a comma between the words "administration" and "which" and declares it would then be read with interest.

It has been announced that Gov. Hobby will call the Legislature in special session some time in May.

Is there a person in all this country who is not pleased with rural mail delivery and parcels post service? Just one.

There could not be a more thorough Democratic law than the postal regulation for delivering mail and parcels to all the people at their homes.

Vernon and Wilbarger county now occupy a front page position as the liveliest oil district in the state. Burkburnett, Wichita Falls and Ranger are getting into the class with Beaumont.

Mr. Bailey says: "Texas ought not to say what New York shall do," and the Constitution of the United States says through its prohibition amendment: "New York shall not do that which menaces the moral, imperils the health, impedes the progress and corrupts the government of Texas."

President Lyday of the Farmers Union has published an able article showing that the Wilson administration has done more good work in the interest of farmers than was ever done under the long years of Republican control. He cites many measures that have long been demanded by farmers and proves by the records that Mr. Bailey has opposed most of these, and failed or refused to assist in getting any of these measures enacted. Mr. Lyday hopes the farmers of Texas will completely repudiate Bailey.

Last week the business men of Abilene organized an Overall Club with over 100 charter members. The step was taken in order to combat the high cost of clothing. The mayor of Abilene is among the charter members. Some of the leading business houses of the city sold out of overall the first day and all the merchants in the city were busy issuing this brand of clothing to citizens who are taking this method of protecting against high prices. Overall clubs are being organized all over the nation and many of the colleges and universities are joining them.

The overall spirit has struck Snyder and lots of men are wearing, or at least going to wear this line of economy toggerly, and then, it is said prices of overalls are due to go higher. The most effective way of

lowering the high cost of clothing would be to quietly use common sense without so much spectacular parade about it.

Information comes from many points throughout the country that plans are making to grow an unusually big cotton crop this year. Suppose a crop of sixteen or eighteen million bales should be made, and a price of about fifteen cents a pound is offered for it. Will the country be benefited or not?

It has taken a long time for the country at large to realize the shortage of paper, but at last the big dailies have decided to cut out the comic sections and possibly the government bureaus will quit sending out thousands of useless circulars for the country papers to print for nothing.

The Signal has been getting long articles from various institutions with request to publish. A personal note to the editor comes with it saying: "We appreciate the vast work the press is doing for the country and if our resources would enable us would be glad to send along a nice check but we have no funds." The editors are short of funds and the communications are thrown aside.

INVENTIVE GENIUS ROBS CALOMEL OF NAUSEA AND DANGER

Doctors' Favorite Medicine Now Purified and Refined from All Objectionable Effects. "Calotabs"—the New Name.

What will human ingenuity do next? Smokeless powder, wireless telegraphy, horseless carriages, colorless iodine, tasteless quinine,—now comes nauseaseless calomel. The new improvement called "Calotabs" is now on sale at drugstores.

For biliousness, constipation and indigestion the new calomel tablet is a practically perfect remedy, as evidenced by the fact that the manufacturers have authorized all druggists to refund the price if the customer is not "perfectly delighted" with Calotabs. One tablet at bedtime with a swallow of water—that's all. No taste, no nausea, no griping, no salts. By morning your liver is thoroughly cleansed and you are feeling fine, with a hearty appetite. Eat what you please—no danger—go about your business.

Calotabs are not sold in bulk. Get an original package, sealed. Price, thirty-five cents.—(adv.)

A. W. Turner for Superintendent Prof. A. W. Turner of Pyron is a candidate for the office of County Superintendent of Public Instruction, subject to the Democratic primaries.

Mr. Turner is a practical school man, well educated and a successful teacher. He states that he has been in the county four or five years and has taught at several points hereabout.

He is now principal of the Santa Fe school at Pyron and is doing excellent work. He is an energetic progressive young man and if elected will give careful attention to the duties of the office and will work faithfully for the advancement of the educational welfare of the County.

RELIGIOUS WORKERS HAD GOOD MEETING IN SNYDER

Religious workers and pastors from all parts of Scurry county attended the county mass meeting of the Interchurch Movement held last Friday at the First M. E. church in Snyder. The meeting was an enthusiastic success and one of the best in point, both of spirit and numbers which has been held in the county. An encouraging factor of the attendance was that it increased with each session of the meeting, the closing night session being attended by nearly five hundred men, women and children. At this meeting the life-lesson in Christian service notes sounded in an eloquent address by Rev. Edgar Hubbard, pastor of the Presbyterian Church at Mesquite, an educational stereopticon lecture given by Rev. L. M. Aldrich of Worth, assistant pastor of the Presbyterian Church of that city, and Rev. P. W. Walthall of Snyder. Numbers of high school students attended lectures and not a few were attracted by the inspirational message of Brother Hubbard and the king facts in the national world view of the Interchurch disclosed in the lecture of Mr. Aldrich. Rev. J. H. Hicks, pastor of the M. E. Church South and Irman of the county, meeting attended to all the preliminary details, a number of ministers from the county districts were present with their wives and families and in several instances with influential members of their churches. Among them were Rev. James H. Tate, pastor of the Presbyterian Church of Fluvanna; Rev. Silas Dixon, pastor of the E. Church South of Fluvanna; Rev. J. R. Plant, pastor of the E. Church South of Dunn. Heartily singing of gospel hymns, one of the features of every session and the spirit of prayer and contemplation hovered over the meetings tributed in no little degree to their wonderful success. The opening address was delivered by Brother Hicks after which Brother Hubbard delivered a sermon which was an explanation of the aims and purposes of the Interchurch Movement. Brother Walthall, who is the team leader and the pastor of the Christian Church at Haskell, gave an address at the afternoon session on the subject of the evangelistic campaign. Pentecostal revival of the cooperating churches, and stressed the necessity of prayer both in personal life and at the family altar. He explained the purpose of the Pentecostal ingathering saying that meant that a personal appeal should be made by every Christian to his friends and associates both in business and social life. The motto in business "Take someone else's size."

In the talk of Brother Hubbard it was explained that the Interchurch movement is not a movement for organic union of churches; not a movement for the union of denominations a co-ordination of the forward movements of the denominations, or unions for the extension of Christ's kingdom in a more efficient manner. He asserted that the movement is as broad as Christianity itself and the greatest religious forward movement since the dawn of Christianity. E. L. Hawes of Dallas gave a statement on the subject of domestic survey and the necessity of religious co-operation by laymen. He showed how economy was the watchword of the men of the movement and that expenditures were only such as the immense needs of the world movement justify.

To the Farmers

For the benefit of the farmers that have shipped cotton to the port I will try to give out the facts covering conditions as I found them on my trip last week to Galveston. In company with R. L. McMullan, Connie McMullan, and T. V. Cumby of Snyder and R. H. Bynum of Carlsbad, I went down to Galveston to look after my interests and the interests of friends. We were met on arrival at the port by J. C. Albritton who accompanied us to the office of W. L. Moody & Co., where our business was made known. Mr. Moody promptly accompanied us to the warehouse where our cotton is stored and we found that we were up against a hard proposition to find our property. The cotton was stacked, end on end, ten to twelve bales high and warehouse full, in some instances to the doors. But Mr. Moody so loved the difficulty by offering to have his men take down the stacked bales and dig out our cotton. This work was started at once and we finally succeeded in seeing some of our cotton. And, in comparing the class of our cotton we found that where there was a difference that the cotton was classed here on the best sample and classed there on the worst sample, obtained from the other side

of the bale. We did not agree as to all grades, but we did agree that W. L. Moody & Company have to sell cotton on the worst sample of the bale, or not sell it at all. And I want to say right here that almost every bale of cotton shipped from this country is what is termed "mixed packed." So after I came to realize how much the farmers of this section have lost by reason of present gin methods of packing, I undertook an investigation with a view to overcoming this loss. I think I have the remedy if we will apply it. So if you people that are interested in your cotton will meet me at the court house in Snyder next Saturday, May 1, at 1:30 p. m., I will explain the whole thing to you. J. M. Hendryx.

Chamberlain's Cough Remedy
The great benefit derived from the use of Chamberlain's Cough Remedy has been gratefully acknowledged by many. Mrs. Benjamin F. Blakey, Decatur, Ill., writes, "Chamberlain's Cough Remedy is by far the best medicine for colds and coughs we have ever used in our family. I gave it to my children when small for croup and have taken it myself. J. W. Joyce left last Thursday for Amarillo to take a position in a

drug store in that town. His family will join him there when he can get a residence.

Notice by Publication in Probate

THE STATE OF TEXAS,
To the Sheriff or any Constable of Scurry County, Greeting:
You are hereby commanded to cause to be published (in a newspaper of general circulation, which has been published continuously and regularly for a period of not less than one year in your County) at least one week for 5 consecutive weeks previous to the return day hereof, copies of the following notice.

THE STATE OF TEXAS,
To all persons interested in the estate of A. B. Stiles, deceased.

William B. Stiles filed an application in the County Court of Scurry County on the 31 day of March, 1920, for the probate of will of A. B. Stiles, deceased, which said application will be heard by said Court on the 12th day of July, 1920, at the Court House of said County, in Snyder, at which time all persons interested in said estate are required to appear and answer said application, should they desire to do so.

Herein fail not, but have you before said Court, on the first day of the next term thereof, this writ, with your return thereon, showing how you have executed the same.

Witness my hand and official seal, at Snyder, Texas, this 15th day of April, 1920.

In the spring when you're "all in"—fagged out—blood thin, if you will turn to Nature's remedy, a tonic made from wild roots and barks, which has stood fifty years as the best spring tonic—you will find strength regained. No need to tell you it's Dr. Pierce's Golden Medical Discovery, put up in tablet or liquid form, and sold by every druggist in the land. After a hard winter—shut up indoors, your blood needs a temperance tonic, a tissue-builder and blood-maker such as this "Medical Discovery" of Dr. Pierce's.

I have taken three bottles of 'Golden Medical Discovery' and one of 'Favorite Prescription' and am much improved. They have done me so much good I can't praise them enough. I was in bed with a sore leg for a week and the 'Discovery' cured it."—Mrs. J. A. White, R. B. Box 30.

**A LETTER WITH THE
RIGHT RING IN IT**

Foch, Texas, 4 26-1920.

"Ed Signal"
Being an American citizen, a citizen of the grand old State of Texas, always ready to lend a hand to a fellow man and for the upbuilding of the town I live in and to be a solid neighbor to our county seat and its inhabitants, I take pleasure in writing of this little place. When I came here a year ago there was darkness; after a while sunshine peeped in and the farmers were all blessed with a great big bumper crop. This made us all as happy as a big sun flower.

Now, dear "Ed," I'm not going to say bad things about our neighbor, but for all you'll find good and bad on every hand. So now to the name—it was Hermleigh when I came, but the name changed to Foch. I like the former name best, no matter, there's nothing much in a name, so the heart is sound an dhealthy. I know jealousy finds its way to the hearts of some towns as well as the people and I for one like Snyder and all the people, but like the home own best. Who wouldn't? I find some good enterprising business men here. A genuine chautauqua has just closed its five day engagement here. Their tent was filled at each performance. At first people doubted like Thomas did. Some thought it like a carnival, but not so Mr. O. W. Reed, manager, assured us that all would be truly delighted and satisfied. I found he was correct, not only that, but there appeared lean men who were educated, men who gave us good sound lectures worthy of any man, woman or child's attention, from President Wilson down to a justice of the peace. The ladies in this company were well be-

haved, intelligent, excellent singers. The advance agent I found to be polite and did not misrepresent the coming of this company nor did Mr. Reed, the manager. The lectures alone were worth the price. There were 6 subscribers for next year against twenty-five this year. It was neither a show nor a carnival, but a high class chautauqua.

I like to see Foch grow. Oil wells may not pay our bills but good crops will.

Dr. J. P. Carrington,
Foch, Texas.

Remembering the awful strain that was on this country last year to get stock feed, when people were paying enormous prices for wheat straw or anything else that cattle could be forced to eat, it is surprising to note the hundreds, maybe thousands, of stacks of straw going to waste all over the wheat growing sections of Texas.

Mr. J. H. Day, who left here some time ago to visit in Illinois, is back in Snyder, looking just the same. He got sick and has been at Carbon, Texas making a study of oil. He says he found a likely oil proposition here and here is hoping that he gets rich in the game.

**FOR THE PROTECTION OF
READY-TO-WEAR BUYERS**

In the future we will not send out Ready-to-wear garments on approval. This step has become necessary for the protection of our Ready-to-Wear customers, owing to the fact that many garments have been taken out and tried on and by doing are brought back damaged. The "approval" custom has been grossly abused by garments being taken out and copied into cheaper garments, and we think that people who purchase this class of garments should be protected along this line. We will find ample accommodations for expert help for trying on and fitting the garments in our stores. We sincerely trust that our action will be appreciated by those who value our Ready-to-Wear products.
