**That Santa Fe Street.**

That weed patch on the main Santa Fe street in the neighborhood of the old cotton yard block is a disgrace to the town. If there is no law to compel non-resident lot owners to exercise some degree of pride and keep their side walks fixed, then we ought to have a public working and remove the stain of shame that rests on the town. The highway has been built to town on that street. People who come to Snyder over the Santa Fe are brought to town along that street. They brag on the well graded street, but if they ever look at that jungle of weeds and brush, it is all off with them. Then aside from the weed nuisance, there is no care bestowed on the surface of the sidewalk and every time there comes a rain the way is a mass of mud holes. If there is any law to compel a more decent situation it ought to be enforced. A continuous concrete walk ought to line that street from the public square to the depot.

**Scrambled Egg Party Lineup.**

The new political party headed by the notorious 48 have been conventioning in Chicago. This new party is being formed out of a heterogeneous mass of partisan schools. Some pros, some anti, some republicans, democrats, I. W. W.'s, socialists, single taxers, individualists, railroad orders, strike leaders, disappointed office seekers and disgruntled politicians. LaFollette aspires to be the leader, Senator Owen of Oklahoma is headed that way. William Randolph Hearst is to give publicity. Henry Ford is being mentioned as the goat to furnish the money and Bryan the oratory, while Jim Ferguson was the keynote at the Chicago gathering.

There is talk of a rupture over the selection of a name, but an effort will be made to get up a platform that will have a plank for every brand of thought, hope and desire, the main point to be government ownership of nearly everything so that the sorriest individual can live off the industry and frugality of those who are worth while. Speaking of party emblems, one writer says the republicans have the elephant and the democrats the donkey and the appropriate name for the new aggregation would be scrambled eggs, or noodle soup.

**Mr. Bailey Roms on Delegation.**

"They'll come back here," said Mr. Bailey, referring to the Texas delegates to the San Francisco convention, "and tell you they didn't vote wet—that they just didn't vote dry. Well, when a man votes not dry he votes wet, according to my way of thinking." In other words, when the country, by constitutional amendment and act of congress, has gone as dry as law can make it, Mr. Bailey thinks that to accept the situation and do nothing further is equivalent to voting "wet." In short, if a man were in the middle of the Desert of Sahara and should sit down where he was and not move a muscle, Mr. Bailey would accuse him of trying to get a drink. We wonder if Mr. Bailey wants us to accept this as a typical sample of his "way of thinking."—Dallas News.

Carrying out Mr. Bailey's theory, neither on failure to support a certain cause he gives his power and support to the antipode of that cause. And the greater the influence of such a man the more power he can exert. Mr. Bailey saw fit to withhold his support and sympathy from the democratic administration during the world war and has been active in criticism of and opposition to the administration since the war, and according to his "way of thinking" the man who neglects to side with his party in state and national affairs elects to support the opposition. Mr. Bailey said years ago that what is called a pure democracy is impracticable and unworkable and that a representative democracy is the correct system. The delegates to the national convention went to San Francisco to get what Texas wanted, but when they pooled the power of Texas with represen-

tatives from other states, they exercised their judgment as representatives of the people to take the best solution they could get, and in so doing they secured what is believed to be the strongest and cleanest campaign plan to be had.

**Other Turtles in the Tank.**

The Dallas News cites the claim of Mr. Bailey to the governorship of Texas to guarantee that union labor shall not interfere with people who want to work, but says that Mr. Bailey failed to say in referring to the Galveston strike that Gov. Hobby promptly used the power of the state and, re-opened the port there. It was not a question of union or nonunion labor with Gov. Hobby. It was not politics or grand stand play. The ports were closed and nonunion men were intimidated and afraid to work at the docks. Commerce was tied up, the public welfare was suffering and Gov. Hobby maintained the dignity of the law and reopened the ports.

**Allies Force Germany to Terms.**

Germany started out probably under the impression that eventually the allies would soften up and they would get by without having to ever comply with the terms of the peace treaty. They would like to consider the treaty "a mere scrap of paper" but the allies are not so soft. Germans become wroth when told they must disarm in three months. They came back with a counter proposition of fifteen months, but Gen. Foch is telling them that the allies are backed up by a force strong enough to enforce the terms of the treaty and it must be done. There is no room to doubt that Germany will play the waiting and evasion game as long as they dare to do it.

**Do you carry a buckeye in your pocket?**

Mexican rebels were repulsed by federal troops in a fight last Friday at Ocaña.

At Baltimore eight years ago Woodrow Wilson was nominated on the 46th ballot.

Print paper took another jump upward last week, one cent a pound over June prices.

Two negroes were burned to death at Paris Tuesday evening for killing two white men.

Let us hope the United States will not be in a hurry to recognize the new government in Mexico.

Jim Reed of Missouri is now being mentioned to head the proposed new party. Nothing could be more appropriate.

The Drys need not be afraid of the country ever going wet again. The Volstead prohibition law stands and Gov. Cox says that he will see that it is enforced.

Bryan says the Democratic party has surrendered and Jim Reed says the League of Nations means national death. What will LaFollette and Hearst and Hi Johnson say?

It would be well for every man in Snyder to take a stroll along the sidewalks of the highway leading to the Santa Fe depot. There are places where the weeds have taken up the space so that strollers would have to go in single file and then meander along between weed patches.

Now a chemist has discovered that ripe buttermilk contains three per cent of alcohol. It is up to congress or the courts to define "ripe" buttermilk and then churners will not be allowed to sell it and people who drink it must be classed with boozers.

Senator Harding of Marion, Ohio, is a newspaper man. The republicans nominated him for president. Gov. Cox of Dayton, Ohio, is a newspaper man. The democrats nominated him for president. Now, go to it. No matter how it goes, the newspaper people will hope for relief from the paper shortage and from excessive postal rates.

The open shop movement may soon play out, but in the meantime union labor may be made to see that it shows a disposition to go too far. Most people are friendly to organized labor. There is no reason why free men may not demand a just wage and quit work if they want to, but that same rule of right should estop them from forcing others into idleness.

The new party elements are apt to scatter for want of agreement as to a name for the thing.

The drys need not be afraid of the country ever going wet again. The Volstead prohibition law stands and Gov. Cox says he will see that it is enforced.

The provisional government has issued its ultimatum to Villa, who in turn sends word that he will treat with the head office if they will do as he may dictate. Villa is not much afraid of Mexican threats and edicts. He has outlived quite a number of these things.

Amarillo reports the organization of a strong Thomason club. Judge Crudgington of that town says this is our first opportunity to elect a West Texas man for governor.

Because of the acute shortage of print paper, the Signal will have to drop subscribers who are in arrears unless assurance is given of an early settlement. A large list of paid up patrons must be served and those who are in arrears may not get the paper unless arrangements are soon made at the office.

David White, chief geologist of the United States, estimates that there are 7,000,000,000 barrels of oil still in the ground in the United States and that at the present rate of production the supply will be exhausted in seventeen years and we will then be dependent on foreign oil fields.

A negro in Reynolds County, Missouri criminally assaulted a young lady who was carrying a rural mail route. The sheriff and deputies soon arrested the brute and a crowd of farmers took him away from the officers and shot him to death. People may resolve all they please against mob law, and sometimes it ought not be resorted to, as for instance the burning of two negroes at Paris for killing two white men in a quarrel, but the Missouri case was different. People everywhere North or South will not condemn the prompt disposal of the Missouri negro. Such crimes call for swift action and there is no use to preach against mob law in such cases.

The best time to advertise is in the dull season. In the busy season of the year goods almost sell themselves, but in the quiet time it takes a good advertisement to stimulate business.—Fort Worth Record.

The Post City Post threatens skip one issue because the editor's brother is visiting him. Says can't work and entertain kinfolks at the same time. We suspect aims to go fishing.

**To All Citizens of Scurry County**

Mr. Porter A. Whaley, Manager of the West Texas Chamber of Commerce, and other prominent men will speak at the County Court Room Friday evening at 8 o'clock in the interest of the Scurry County Chamber of Commerce.

This organization will have for its purpose the solving of marketing problems, the development of possible industries and the fostering civic, moral and educational activities in Scurry County.

Ladies are cordially invited to participate in the deliberation. We are very anxious to have the entire county liberally represented at this meeting. Please advertise this meeting among your neighbors and show your interest in Scurry County by being present yourself.

**Newspaper Circles**

Last week, at the little city of Canyon local merchants carried several cases of eggs out to the city dump and threw them away. Why? Simply because they could not get cases in which to ship them and had no place to store them.—Southwestern Plainsman.

History says that every time one of the children of Israel tried his hand at hoarding manna it spoiled on him. Maybe that Canyon merchant overplayed the game.

The Colorado Record thinks possibly Joe Bailey may announce as a candidate for governor of Kentucky. He has property interests in that state.

"My heart is in the grave with our cause," said William J. Bryan, when someone asked him what about the San Francisco convention. The grand old warrior might have added that John Barleycorn is there, too.—Ablene Reporter.

Don't cheer, boys, the case is a sad one.

If these two editors were to run this paper to suit the whims and fancies of all our friends, what a conglomerated messes it would be. Roscoe Times.

It can't be did, old man. Even the fellow whose advice you follow would find fault somewhere. Suit yourself and your wife, and let it go at that.

Eastland county is a civilized, law abiding, self respecting community.—Oil Belt News. Tee-hee.

In his Atlanta speech the other day, Hon. Joseph Weldon Bailey made it plain that he was not seeking any office for the money or the glory that was in it for himself. And every fair minded man must know and must acknowledge that he was sincere in what he said. Mr. Bailey has been honored far beyond the position he is now standing for and he can make more in one day out of some of the big lawsuits that come to him than he could make in a year as governor of Texas.—Taylor County Times.

People have been led to suppose that Mr. Bailey has been retained in several of those big suits, then why is he so poor as he claims to be?

Editor Warren says he umpired several baseball games last week but he has decided to leave that job up to some other fellow hereafter. He decided every point as he thought right, but in nearly every case he was forced to accept the old saw that there are always two sides to a question.

Post City Post says: "Arthur Yonge, Sr., and family of Thurber, formerly of Snyder, are moving to Post on the first of next month (August). Judge Yonge is father to our Arthur Yonge and he and another son, Philip Yonge, will open a law office over the W. O. Stevens store and engage in the practice of law. Judge Yonge, and Philip too, are able lawyers and splendid citizens and the Post always is glad to welcome men of their caliber in our midst.

**Loss of Appetite.**

As a general rule there is nothing serious about a loss of appetite, and if you skip a meal or only eat two meals a day for a few days you will soon have a relish for your meals when meal time comes. Bear in mind that at least five hours should always elapse between meals so as to give the food ample time to digest and the stomach a period of rest before a second meal is taken. Then if you eat no more than you crave and take a reasonable amount of outdoor exercise every day you need not worry about your appetite. When the loss of appetite is caused by constipation as is often the case, that should be corrected at once. A dose of Chamberlain's Tablets will do it.

## How many miles did you march the summer Cleveland was nominated

REMEMBER the time the first automobile parade was organized? Even the good old torchlight procession had to give way before the advance of progress.

### II

Tires are often sold the same way politics are.

The last people to wake up to what they are getting are the people who pay the bills.

The bills are getting too big these days in both cases. And the man who is feeling it most with respect to tires is the man who owns a moderate-price car.

### III

The idea that the small car owner doesn't need a good tire is rapidly going the way of all mistaken ideas.

He needs it *more than anyone else*. It's part of our job, as we view it, to see that he gets it.

Our tire service starts with good tires—U. S. Tires. All sizes made to a single standard of quality—none graded down to the price of the car they will go on.

U. S. perfected the first straight side automobile tire—the first pneumatic truck tire.

The U. S. guarantee is for the life of the tire, and not for a limited mileage.

### IV

When we recommend and sell U. S. Tires we do so in the interest of greater tire economy. It is our experience that that is the best way to build up a sound and sizable business.

#### The Names of Snyder Persons Familiar To All.

Who are the witnesses? They are Snyder people—Residents of Snyder who have had kidney backache, kidney ills, bladder ills; who have used Doan's Kidney Pills. These witnesses endorse Doan's.

One Snyder resident who speaks is John Brown. He says: "I was troubled with uric acid. I had a frequent desire to pass the kidney secretions which were scanty and caused a lot of pain. I felt pretty bad off until I heard of Doan's Kidney Pills, which I took and I am glad to say I received wonderful relief. Doan's regulated the kidney action and made me feel better in every way."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Brown had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

Mr Bailey says Ben Looney was shoved back to make room for little Willie Hobby, and that it doesn't require much room either, and yet Gov. Hobby did at Galveston just what Bailey offers to sacrifice his fortune to do, save the people from the clutches of labor unions. Hobby reopened the port at Galveston, but Bailey ignores it.

Mrs. M. A. Fuller and children and Mrs. Davenport and son, Mack, left Monday for California.

#### Summer Complaint in Children.

There is not anything like so many deaths from this disease now as before Chamberlain's Colic and Diarrhoea Remedy came into such general use. When this remedy is given with castor oil as directed and proper care is taken as to diet. It is safe to say that fully ninety-nine out of every hundred cases recover. Mr. W. G. Campbell of Butler, Tenn., says, "I have used Chamberlain's Colic and Diarrhoea Remedy for summer complaint in children. It is far ahead of anything I have ever used for this purpose."

Villa has sent word to the provisional government that he will surrender upon certain terms. One of the stipulations is that he is to have command of a certain department of the national army. If he gets that he will soon have all the soldiers with him and can then run affairs as he pleases.

The cordiality expressed in the note of congratulation from Senator Morris Sheppard to Candidate James M. Cox, and the reply sent by Mr. Cox shows that the country need not be uneasy about the prohibition law of the country as contained in the federal constitution. Senator Sheppard is not scared.

## TENS THOUSANDS PROCLAIM THE MERITS OF PE-RU-NA

Read Their Letters

Mrs. Martha C. Dale, R. F. D. 1, Ion, Del., writes: "I am cured of chronic catarrh of stomach and bowels by PE-RU-NA."

J. J. Bayer, Glendale, Oregon: "There is no medicine like PE-RU-NA for catarrhal deafness."

Mrs. Kate Marquis, Middleburg, Va.: "PE-RU-NA cured me of rh of the head and throat."

J. H. Collins, Wesson, Mississippi: "PE-RU-NA makes me vigorous and able to work out that tired, weak feeling I have otherwise."

Mrs. P. Ludvigsen, Austin, Minn.: "I got rid of my liver trouble and can eat anything since using PE-RU-NA."

Mrs. L. Hearing, 283 East 169th New York City: "For catarrh of the head and stomach, I have had PE-RU-NA better than any medicine."

Mrs. W. H. Edgar, 49 Cooper St., Atlanta, Georgia: "PE-RU-NA cured me after I had suffered for years with rheumatism."

Mrs. Leona Dodd, R. No. 3, Memphis, Tennessee: "PE-RU-NA grand medicine for coughs and colds."

"Many diseases are due to catarrh and catarrhal conditions, and PE-RU-NA is the best medicine in the world to have on hand in emergencies and general health action. Thousands of families never without a bottle of PE-RU-NA or a box of PE-RU-NA tablets in the medicine cabinet. It is the safe way. You can buy PE-RU-NA anywhere in tablet or liquid form."

### Foch Frills.

(Written for last week.)  
Grammatically we are unable at this season of the year to parse "hot," unless we add 2-to-2.

We were disappointed last week as our letter did not appear in the Signal. We thought perhaps it was consigned to the waste basket or the train ran into a ditch.

What is the matter that Foch or Snyder failed to celebrate the Fourth by having a barbecue, picnic, or a foot race? It's fine weather for it especially for the sake of our Independence Day.

The following men with their families left for Roby yesterday and today to attend the picnic and ball game at that place: A. Wood, K. B. Rector, A. W. Mobley, Elmer Gardner. Mrs. Gardner will be away two weeks visiting her mother.

Mr. J. T. Rhea is duly installed at the Hotel Hermleigh.

Mrs. W. A. Louder leaves this week for Dallas, where she will visit her mother and other relatives.

J. F. Miller of near Abilene and W. L. Voss of near Sweetwater are visitors this week of Mrs. C. P. Nunn.

The Central Baptist church starts its regular protracted meeting Thursday, July 8. Everybody is invited to attend.

Hermleigh lodge No. 987, A. E. & A. M., met Saturday, July 3, at their hall, and installed the following officers: L. C. Darby, W. M.; R. E.

Adams, S. W.; Warren Fargason, J. W.; W. Gentry, Treas.; K. B. Rector, Sec.; Luther Fargason, Sr. D.; W. G. Lee, Jr. D.; S. M. Kemp, Sr. S.; W. L. Camp, Jr. S.; J. W. Burris, Tiler. Services held at the First Baptist church Saturday and Sunday last were well attended, and three new additions were made. Our Sunday school is now well attended and is growing. Heretofore we had no Sunday school. Protracted meeting begins on the fifth Sunday in August. Rev. C. E. Leslie is pastor. Do big things this year; determine to win; And let us all strive with our might. When we are inclined, we always can find The time to do anything right. OTHELLO.

**Prices of Meats.**  
Fort Worth Record.  
Comparison of prices paid by packers for cattle on the Fort Worth market during June, 1920, with June, 1919, shows a difference ranging from \$1.25 to \$1.75 a hundred pounds. In June, 1919, packers paid on an average of from \$1.25 to \$1.75 more for cattle on hoof than in June of this year, and yet the consumer is paying more for his steak now than he paid in 1919. The comparative prices quoted here are for the best grade of cattle, from which are obtained No. 1 meats, while prices quoted in the press for beef are for No. 2 and No. 3 meats. No. 2 ribs, loins and rounds range in price from 20 cents for rounds to 36 cents a pound for loins, while No. 3 ribs, rounds and loins range in price from 18 cents to 34 cents a pound wholesale. For the month of June, 1920, the bulk of the steers sold on the Fort Worth market brought \$9 to \$11.25, with tops selling as high as \$13.50 one day during the month. No. 1 meats are obtained from steers, although No. 2 meats sometimes are cut from the animal that sells at from \$9 to \$10.50.

The best cows sold at from \$9.10 to \$10 a hundred pounds during June, while the bulk of the cow stuff ranged in price from \$6.50 to \$9.50. The most of the meat used by consumers comes from cows that sold at from 6.50 to \$8.50 a hundred pounds. The meats that the packer pays from \$6.50 to \$9 a hundred pounds is sold to the consumer at from 15 to 50 cents a pound, other killing cattle being sold in proportion to cows and steers.

"Consider the farmers' wives and their daughters," says the Weatherford Herald. "A survey covering 10,015 farm homes in thirty-three states resulted in the following compilation of figures: The working day of the average farm woman is 11.3 hours the year around. In summer it is 13.12. Eighty-seven of each 100 women have no vacation during the year. The average farm woman rejoices in sixteen hours of leisure per day in summer, but has 3.4 in which to revel to her heart's delight in winter. Four per cent have water in the kitchen. The others go to the pump, which is situated where it will be handiest for the men folks. Seventy-nine per cent have kerosene lamps to fill and clean and trim in these days of cheap, practical lighting systems. Ninety-six per cent do the family washing, and less than half of these have no machinery to do it with. The garden work is done by 56 per cent, and 24 per cent spend over six weeks a year in the fields. Aside from this work all they do is the cooking, scrubbing, the sewing, taking care of the children and nursing the sick people and animals. If we are to have farms, there must be women on them, and if the women are to be kept on the farms, these matters must receive a little attention. Most of them are easily remedial, and a little forethought in providing means and machinery for lightening the farm wife's labor will result beneficially on the whole farm situation."

Abilene folks are having a bit of local excitement of their own. Last week the sheriff heard that a bootleg jitney was heading toward Abilene and he called up two police officers and the three motored out to a bridge on the public road. After waiting awhile they saw the headlight of the car of their suspect. The suspicious car was signaled and stopped, and then started backing. It is said the officers then legged a fusillade of shots. Later it was found that two Abilene young men were in the car returning from a trip in the country. The officers can't pacify the people and at a public meeting a resolution was adopted calling on the officers to resign.

### Reaction Sets Up.

Knoxville, Tenn., July 8.—Miss Annie Bock of Los Angeles, formerly an equal suffrage leader, in a letter to W. K. Anderson, representative in the lower house of the Tennessee legislature, urges him "not to support ratification of the suffrage amendment. Suffrage, she says, coarsens and cheapens women. She expresses her regret at her former activity in this behalf, saying that since suffrage has been granted there has been an alarming increase in immorality, divorce and murder in California.

The letter says: "I was one of the prominent workers who helped to bring suffrage to California and I regret it. "A year in politics has taught me that women are intolerant, radical, revolutionary and more corrupt in politics than men, also all this so-called reform leads to the Socialist co-operative commonwealth. "Since suffrage there has been an alarming increase in immorality, divorces and murder in California. "Woman suffrage has made cowards and puppets of men. It has coarsened and cheapened women. Were the men to vote on woman suffrage in California today it would not carry. "Suffragettes asked suffrage that they might put only good men in office; now they clamor for a fifty-fifty show for all offices. "I shall do penance forever for the part I played in bringing suffrage in California. "Please urge your colleagues not to do what will bring regret and disaster, but to stand for that 90 per cent of women who do not want suffrage but are glad to trust all politics and governmental affairs to their beloved husbands, fathers, sons and brothers. "To the South, woman suffrage would bring more than calamity."

**Cox to Declare Position.**  
Dayton, Ohio, July 8.—Governor James M. Cox today was asked by Richmond P. Hobson, Alabama dry leader and representative of the anti-saloon league, to make a clear definition of his position on the prohibition issue. In a telegram from San Francisco, Hobson declared that a statement from Cox to the effect that he was opposed to any increase of the maximum alcohol content of one half of one per cent, "would save to Democracy millions of voters who hold this question above party success."

The Democratic nominee said that he expected to answer Hobson and the League later in the day and indicated that he did not expect to dodge the issue. Robert M. LaFollette says he will undertake leadership of the new political party if they will give him the nomination and let him write the platform.

**Sheriff's Sale.**  
The State of Texas, County of Scurry. Notice is hereby given that by virtue of a certain Order of Sale issued out of the Honorable District Court of Scurry County, on the 7th day of July, A. D. 1920, by Nellie Weems, Clerk of said District Court, for the sum of five hundred, three and 90-100 dollars and interest and costs of suit, under a judgment in favor of J. K. Scoggin in a certain cause in said Court, No. 2151, and styled J. K. Scoggin vs. J. S. Pogue, placed in my hands for service, I, J. H. Byrd, as Sheriff of Scurry County, Texas, did on the 7th day of July, A. D. 1920, levy on certain Real Estate, situated in Scurry County, Texas, described as follows, to-wit:

All of Lot, No. One (1) in Block No. Thirty-five, in the town of Snyder, Scurry County, Texas, and levied upon as the property of the said J. S. Pogue, and that on the first Tuesday in August, A. D. 1920, the same being the 3rd day of said month, at the Court House door of Scurry County, in the town of Snyder, Texas, between the hours of 10 A. M. and 4 P. M. by virtue said levy and said Order of Sale, I will sell said above described Real Estate at public vendue, for cash, to the highest bidder, as the property of said J. S. Pogue.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the Snyder Signal, a newspaper published in Scurry County. Witness my hand this 7th day of July, A. D. 1920.

J. H. BYRD, Sheriff of Scurry County, Texas.

## CALLED HER FAMILY TO HER BEDSIDE

Years Ago, Thinking She Might Die, Says Texas Lady, But Now She Is a Well, Strong Woman and Praises Cardui For Her Recovery.

Boise City, Tex.—Mrs. Mary Killip, of this place, says: "After the death of my little girl... my side commenced to hurt me. I had to go back to bed. We called the doctor. He attended me... but I got no better. I grew worse and worse until the misery was unbearable... I was in bed for several months and suffered such agony that I was just drawn up in a knot... I told my husband if he would get me a bottle of Cardui I would try it... I commenced taking it, however, that morning I called my family about me... for I knew I could not last any days unless I had a change for the better. That was six years ago and I am still here and am a well, strong woman, and I owe my life to Cardui. I had only taken half the bottle when I began to feel better. The misery in my side got less... I continued right on taking the Cardui until I had taken three bottles and I did not need any more for I was well and never felt better in my life... I have never had any trouble from that day to this."

Do you suffer from headache, backache, pains in sides, or other discomforts, each month? Or do you feel weak, nervous and fagged-out? If so, give Cardui, the woman's tonic, a trial.

**To the Voters of Scurry County.**

No doubt you remember that it was late when my school closed, thereby making it impossible for me to see all the voters. But I have been working every day since school closed and expect to keep busy until election day.

You all know as I that our rural schools are facing a crisis, and you know as well as I that there is a reason.

We need supervision with a definite plan and a county superintendent with initiative power and energy to inaugurate and develop such plans.

I have in mind plans which space here forbids me to discuss but which have met with the approval of leading educators, and which I shall proceed to put in practice immediately upon taking charge of the office of county superintendent, if you should honor me with the nomination in the primary election.

I shall feel very grateful to all who will aid me in this, my humble effort to win a place among you for the purpose of serving you in such way as will strengthen our educational system, our citizenship and our democracy.

Yours respectfully,  
A. W. TURNER.  
(Political advertisement.)

**To the Voters of Scurry County.**

I have never been a candidate for public office myself, but notwithstanding that fact feel a great interest in the political and legislative affairs of our state and nation.

The public welfare is promoted by electing honest, efficient men to office. Being a farmer myself, I am very desirous of having the state department of agriculture so conducted as to render to the farming and business interests the service that could and should be rendered.

For that reason, I am taking this method of asking the voters of Scurry county to vote for Sam H. Dixon of Harris county for commissioner of agriculture. He is a farmer and knows the practical side of farming. He is, in my opinion, the best informed man in Texas with reference to agricultural needs and conditions. If elected, he will make the department of agriculture of practical benefit to you. Serve your own interests by voting for him.

Respectfully,  
F. I. Townsend.

**Jno. A. Russell, Candidate for State Senator.**

I am soliciting the votes of the people of the 28th Senatorial District and offer to them for their consideration the following principles and needs of the people of the District:

I am in favor of education, and if I am elected your State Senator I will use my best efforts to utilize the powers of the State Government to improve the schools of our State. As a means to make our school system more efficient, and conducive to educational advantages, I am not only in favor of better pay for teachers, but adequate pay in order that their living conditions may be in keeping with the dignity of their profession.

As the most important business in Texas is that of farming, in which not only the farmers are interested, but upon which depends the prosperity of merchants, bankers, laborers, and every other class, I am in favor of such laws that will make farming more profitable and bring the producer and consumer closer together, thus benefiting both and incidentally every other class.

I stand for an economical administration of the government. And I mean by economical administration of government, decreasing the number of employees to the minimum by cutting out useless offices, and by abolishing offices that are not of real benefit to the general public.

Since taxes are a burden on the people, I believe in an equal distribution of them, letting the burden fall on all the people in proportion to their ability to pay. And I am against granting special privileges or immunities with reference thereto.

I believe in a written constitution. And since the constitution is the only product of the people and their only bulwark of protection against the encroachments of public servants in every department of government, I stand for a strict construction of its provisions and a close adherence thereto. I, therefore, am not in favor of interpreting the constitution to meet the exigencies and desires of politicians, but instead I am in favor of amending that instrument. Consequently, I shall support the submission to the people, all amendments, that are important and pertinent to the interest of the people.

I believe in the State's using its police powers freely to guarantee the State at large the best moral conditions and environment.

Texas is a State in which a variety of conditions exist relative to kind of soil, rainfall and climatic conditions. And especially is West Texas different from other parts of the State with reference to these conditions. This fact makes it necessary to scientifically arrive at the proper farming methods for this section of our State. Therefore, at an early date, the legislature should establish an Agricultural and Mechanical college in West Texas to care for the needs of that great and growing section.

Very respectfully,  
JNO. A. RUSSELL,  
Eastland, Texas.
