Unofficial Report of the Primary Election in Scurry County

The July primaries of last Saturday brought to many people the surprise of the age. It is not surprising that Bailey gets into the run off, because his opposition was lined up between three other good

This report is made without the complete returns from Turner and some of the other boxes.

Snyder vs. Hamlin.

The first of a three game series went 2 to 1 for Hamlin in eleven innings.

Battery for Snyder, Hassell and Grebble. Luck was with Hamlin at the start and they scratched a run on the boys in the first inning and the game stood 1 and 0 until the seventh when the home boys put a man over the plate tying the score, which stood 1 and 1 until the eleventh and Hamlin again got by with one, making the game go 2 to 1 for Hamlin. Red pitched a dandy game for Snyder for nine innings, striking out 13 men, allowing only three clean hits, walked three on balls and hit two. Muns took the box in the ninth and finished the game, striking out one man and allowing no hits, while West, Hamlin's pitcher, struck out nine men in the full game, allowed three hits, walked none and hit none.

The game closed at 6:45 p. m. and the Hamlin boys said Snyder had the fastest line-up they have so far encountered. The Snyder boys did not lose courage but came back for the second game with the determination to win, and they did what they resolved to do by a score of 4 to 3.

The second game was also a tight one and lasted eleven innings. Gressett took the box for Snyder and held the Hamlin boys down to 6 single hits and one three bagger. Struck out 6, hit one, walked two on balls.

Lefty Wilson pitched for Hamlin. Although the home boys were not used to a south paw they rapped him for 6 single hits and Muns got two 2-baggers. Wilson struck out five men, hit none, walked one on balls. Hamlin again scored one in the first and Muns crossed the plate for Snyder in the third. Hamlin crossed two in the 4th and nothing else got by for either side until the ninth when Finis Werner took the bat, with two men out and two on bases, and on the third strike landed on Wilson for a clean hit and scored both men that were on bases, again tying the score in the ninth. Then it was three up and three down till Snyder again had two outs in the 11th and it had begun to look like we would have to play another inning, but Werner came to bat and once more on the third strike landed on Wilson for a clean hit, finishing up by crossing the plate and ending the game with a score 4 to 3 in favor of Snyder.

The final game of the series started at 3 p. m. Friday with the grandstand full, and the side lines were crowded with people who could not get seats inside. Everybody on both sides started in with plenty of pep, determined to win, if possible. With big Muns in the box for Snyder and Grebble catching, Muns' arm was working good and he got credit for four strike-outs in the first two innings, when Grebble caught a fast one between his two middle fingers, splitting his hand about an inch, which paralyzed the game to such an extent that it jerked the pep out of all the players and even the crowd of spectators forgot to root for several minutes. Pipkin took Grebble's place behind the bat, but the old spirit was not regained in time to win for Snyder. Muns walked two in the third and Hamlin put three over the home plate, crossed another in the 5th, and brought in two more in the 8th, while Snyder could not manage to cross a man over the home plate. Hamlin won the victory by a score of 6 to 0. West pitched for Hamlin. Snyder still held her batting eye and rapped him for 9 clean hits. West struck out six men, walked none and hit none, while Muns allowed only five clean hits, struck out 17, walked four and hit none.

As our pitchers out-pitched Hamlin, and our players out-hit them every game, it is plainly seen that Snyder just played in hard luck the last game, and the last one was crippled with the catcher.

None of the boys seem able to recover, but watch us; we will have a still stronger line-up for our next game, and if Hamlin wins next time they must play for it. We are

bound to admit, however, that there are no flies on their team.

Let's everybody help support our home team by donations if needed, and your attendance at all the games. It takes quite a bit of money to handle the games and the general expense of the team. Other towns are not any better than Snyder, why let them have a better team? Our motto: "We Want the Best."

Poultry People to Meet.

President Emmett Banks wants all poultry raisers and fanciers to meet at the court house at 2 o'clock Saturday, July 31, to start the ball rolling for the biggest poultry show this fall ever pulled off in Scurry county.

El Feliz Entertained.

The El Feliz club was delightfully entertained at their regular meeting with Mrs. Guy E. Paxton. Members and guests were met at the door by the hostess and ushered into the dining room where Mrs. Walter S. Adamson gracefully presided at the punch bowl.

After the regular routine of business quite a number of interesting games of "forty-two" were played.

The hostess served a one-course luncheon to members and the following guests: Mesdames Fish, Matthews and McCormick.

Mr. and Mrs. A. J. Towle entertained the club members and their husbands at a lawn supper Tuesday evening.

After partaking of the bountiful supply of chicken and other good eats, the guests played a few games of "forty-two."

The out of town guests were: Mrs. Eula Arnold, Eastland; Mrs. Bob Warren, Post; Mrs. Ella Cooper, El Paso; Mr. and Mrs. Fritz R. Smith, Austin; Miss Hattie Ladwig, Dallas.

Christian Revival Meeting.

The revival meeting will begin August 8 at the First Christian church. Elder Clyde Lee Fife will do the preaching and Mr. Robert S. Fife, song leader and director of music.

The people of Snyder and surrounding country are invited to attend. All singers of all the churches are especially invited to help in the singing.

Improving Electric Facilities.

In order to double the ice capacity and insure continuous electric service the Snyder Utilities company have completed plans calling for the expenditure of about \$15,000 during this fall and winter for new equipment for the plant, including a 185 h. p. oil engine complete with generator, etc., also a 75 h. p. motor with silent chain drive for the ice machine. This equipment will insure Snyder electric service second to none and will enable the local plant to take care of some of the demands for ice outside the immediate territory of the town and county.

The firm reports having all the business that can be taken care of at present and are well pleased with the increase of business given them over their successors of last year. There is no doubt in a considerable degree to the improvement in the service rendered. It is requiring rather strenuous efforts on the part of those responsible for the operation of the plant to give continuous service now, owing to the old engine which has been in the plant for several years and which has never been thoroughly dependable. However, with the aid of the smaller new unit installed last winter lights and power service are very seldom interrupted and then just for a few minutes at a time.

Messrs. Yoder and McCormick have proved their skill and ability as electricity men and aside from being a valuable personal addition to our citizenship they have proved a blessing to the civic and business interests. They took hold of the

plant here when it was down and out and now during all the spring and summer they have given the town practically uninterrupted service.

Now, with the greater facilities to be installed Snyder will have a light power and ice furnishing institution second to none.

Attention, Farmers.

I am hereby asking for a meeting of all persons who have shipped cotton, or who may do so, and all other persons interested in the cotton market, to meet at the court house in Snyder on Saturday, August 7, to discuss the matter of classing, marketing and handling the staple.

I am making a special study along this line and I want to meet the people and have a heart-to-heart talk. Let's have a big crowd at this meeting. Our cotton will soon begin to move and we must be ready for it.

Yours for better marketing,
J. M. Hendryx.

Entering Second Campaign.

There has been no bitterness engendered by the political campaign in Scurry county. No mud slinging, no discreditable trickery. Certainly people have differed in choice for officers from governor on down the line but now in all cases of final nomination there is probably not a democrat in the county who will refuse to vote for those whom the majority have selected. In the matter of contested places the voters will still reserve the individual right to work and vote for his choice, but it will be done openly and fairly.

In the race for governor the lines are apt to be closely drawn. The combined votes of Neff, Thomason and Looney were something like twice the number of votes for Mr. Bailey. The form in which the campaign was pitched made of it a battle of three against one. Mr. Bailey is the embodiment of his school of political thought and in the main the other three represented the other system of politics.

It is now believed that the main bulk of the votes for the three exponents of national politics as presented through the Wilson administration will go in the run off primary to the candidate who represents our present administration. Some will, of course, go to Bailey, but the general feeling seems to be that with the public records of the two men before the country the progressive democrats will refuse to countenance a repudiation of the great achievements of the democratic party in the nation and in Texas.

Anyhow, Joe Bailey surprised a lot of us. He and Tom Blanton had the nerve to make a fight against union labor domination and it looks now like they got by with it. It remains to be seen whether or not this flush will work out to economic benefit for the people.

R. M. Dudley of El Paso, manager of Thomason's campaign, says that he will support Bailey, while T. N. Jones of Tyler announces that he will support Neff.

Burial of Henry L. Woodard.

Henry L. Woodard's body now lies entombed in American soil in the cemetery near the home of his boyhood days where his parents, kindred and friends can visit the sacred resting place, and it is decorated with Texas flowers and pays loving tribute to memory of a true, manly and loving son.

Henry, like thousands of other American boys, answered the call of his country to defend it against the greed, the pomp and brutality of a foreign menace. In far away France he was stricken with disease and died in a French hospital, attended by strangers, without the gentle touch of mother's hand to soothe, or the comforting words of parents to reassure him as he neared the margin of the river of death. He was buried along with hundreds of his comrades in a French cemetery at Brest, and then came the good offices of our sympathetic government to restore the bodies of deceased heroes to their homes and kindred.

The body of Henry was shipped out from New York last week in charge of Private Chapman of Chicago, and arrived in Snyder last Sunday where the officers and comrades of Will Lane Post American Legion

took charge of all arrangements.

The casket was placed in state in the court house corridor in care of specially detailed watchers until Monday at 4 p. m., when funeral services were conducted on the court yard lawn.

It was estimated that there were 2,000 people here from all parts of the country to pay their respects to the departed soldier boy. The funeral sermon was preached by Eld. J. S. Newman of Clifton, Texas, a friend of the Woodard family. The funeral oration was delivered by Mr. W. W. Hamilton of Snyder and following a military salute by the long line of ex-soldiers in uniform, the Legion and the people proceeded to the cemetery to perform the last sad rites. It was admittedly the longest funeral procession ever seen in Snyder.

The casket was wrapped in the American flag and the floral offering by the Red Cross and other sympathizing women of Scurry county was a visible expression of the sentiment in the hearts of the great throng of people.

Ira.
 A good rain fell south of Ira last week. Crops are still holding up. The election passed off quietly. Everybody seemed to be satisfied with the results, except that Joe fooled us about a half dozen votes. Rev. J. R. Plant has just closed a meeting at this place. The Baptist meeting will begin Wednesday night, Aug. 4. Rev. Garrett of Big Springs will do the preaching. P. A. Miller and family of Colorado, Texas, are visiting in Ira this week. Uncle George Angel, an old Ira citizen, is spending a few weeks here with relatives. C. N. Smithers was called to Lubbock Sunday, occasioned by a death and other serious sickness in the Sullivan family, a brother of Mrs. Smithers. Mrs. Littlepage and children of Brown county are visiting their relative, Mrs. A. G. Eiland. Miss Velma Hill has returned home from San Marcos and is greatly improved in health. Bill Giddings and family have returned from a short visit to Arkansas. Mr. Chiesa and family of Dallas county are visiting their old neighbor, O. H. Holladay, of this place. E. B. Smith and family, formerly of this place but now of Colorado, passed through Ira Monday enroute to Snyder. We hear much talk about a picnic for Ira on August 20. Let's keep talking it, and have it. Ira is still an important district of Scurry county and never fails in any progressive undertaking, and we say let's have a basket picnic and invite Neff and Bailey as speakers. Jess Dixon has just returned from New Mexico. His wife accompanied him.

New Picture Machine at Cozy.
 The Cozy theatre is one of the most popular and pleasing institutions in the town. Manager Crawford plans all the time to give the public the best there is in the movie world and his courteous attention to patrons gives them a feeling of personal interest. The show house is always comfortable and the screen showings are clear and easy of comprehension. In keeping with the progress of the times, the Cozy is now installing a new and expensive Motiograph picture machine and with the two instruments a continuous picture may be given, which will add attractiveness to the presentation. The new machine arrived this week and Mr. Crawford takes pleasure in explaining the mechanism and functions of the new addition and invites the people to come in and see how it works.

Women Give Out.

Housework is hard enough when healthy. Every Snyder woman who is having backache, blue and nervous spells, dizzy headaches and kidney or bladder troubles, should be glad to heed this Snyder woman's experience:

Mrs. M. Neal says: "A few years ago when I would bend over to pick up something, it was painful for me to straighten again, as the pain in the small of my back was so severe. I was greatly annoyed by the irregular action of my kidneys and mornings I would feel awfully tired and languid. Doan's Kidney Pills had been used by other members of my family with such good results that I took them. I only had to use one box of Doan's when my back was strengthened and my kidneys regulated. I take a few Doan's occasionally now as a preventive."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Neal had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

Villa has surrendered and we opine that unless the Mexican government is managed to suit the ideas of citizen Villa, there will be something doing over there again. He will always be a factor in Mexican politics.

It is now announced that Mr. Bailey will campaign the doubtful states for the Cox-Roosevelt ticket. This announcement is made now for effect. We fail to see how he can defend the democratic administration and the San Francisco platform. He has persistently condemned all of it, and he boasts that he never changes. It will come awkward to him to stand up for the democratic platform that endorses the entire administration of Woodrow Wilson and pledges the party to the ratification of the League of Nations covenant.

Cotton seed and all by-products are quoted considerably lower than last year and efforts are being made to find out why.

The sale of the South's cotton crop has, during the last two or three years, been spread over a much longer period than previously. Perhaps this has been due, in some part, to compelling circumstances wrought by the war, but more largely, in all likelihood, to th much better financial facilities afforded by the federal reserve bank system. But not even yet is the cotton crop marketed with the deliberation that is necessary if the producers are to exercise a due influence over the market and so get what it is economically worth. Mr. Lever, now a member of the federal farm loan board, and formerly a member of congress, who devoted himself almost exclusively to a study of the problems of the cotton growers, thinks there is still a need of many more warehouses, which, he says, should be built by the states. Certainly the lack of adequate stor-

age facilities must continue to be a serious impediment to the farmers in their effort to market cotton slowly, and this regardless of how ample may be the financial facilities placed at their disposal.—Dallas News.

Dallas Essex Sets World's Dirt Track Record

1,261 Miles in 24 Hours, Averaging 52 1-2 Miles Per Hour

Made by Privately Owned Essex, Which Had Previously Traveled Over 12,000 Miles But That Is Only One of Hundreds of Records Established by Essex in a Nation-Wide Week of Tests

A new world's 24-hour dirt track record is a contribution of a Dallas Essex to the Nation-wide week of performance tests, in which Essex set hundreds of new marks for economy, speed, hill-climbing and endurance.

The 24 hour record Essex is previously owned by a Dallas resident, and it had already seen 12,000 miles of typical Texas service.

Yet it broke the world's 24 hour dirt track record for both stock and non-stock cars traveling 1,261 miles at an average of 52 1-2 miles an hour.

Doesn't this feat establish the same ability, speed and endurance for every Essex that was shown by the Essex stock chassis which set the official world's fifty-hour record of 3,037 miles?

At Fort Worth, a stock Essex, officially observed and checked, made the run from Fort Worth to Waco—202 1-4 miles—in 4 hours and 45 minutes 30 seconds. Eight bridges and culverts were washed out, forcing detour through plowed fields; five miles of road was being graded, but nothing could stop or delay the Essex.

Another Essex stock touring car made a new road record from Cisco to Rising Star—44 miles—through sand oil field ruts and mountains in 1 hour and 12 minutes. The best previous time ever made on this road was 1 hour and 50 minutes.

And at Bonham the Essex showed 27-2 miles to the gallon on an official observed economy run.

IS THERE ANYTHING LEFT FOR THE ESSEX TO PROVE?

Economy

Waco—A stock Essex on an economy test showed twenty miles to the gallon of gasoline.

Mineral Wells—Essex stock car, which had already been driven over 8,000 miles, made 22.2 miles per gallon of gasoline from Palo Pinto to Mineral Wells over rough and hilly roads.

Terrell—Essex stock car ran seventy-two hours without stopping, on an average of twenty miles to the gallon of gasoline.

Speed

Wichita Falls—An Essex stock car, which had already been driven 22,000 miles, made the run from Wichita Falls to Arthur City and return—

sixty-one miles—in 1 hour and 22 minutes over typical oil field roads.

Mineral Wells—Essex stock car, already driven more than 8,000 miles, made the run from Palo Pinto to Mineral Wells—twelve miles—in 17 minutes over oil field ruts, sand and mud.

Endurance

Dallas—The unequalled endurance of the Essex was proven in a 168-hour run, during which the motor never faltered. Seven days and nights without a moment's rest, and in as good condition at the end of the run as it was at the beginning.

Terrell—An Essex stock car ran 72 hours without missing.

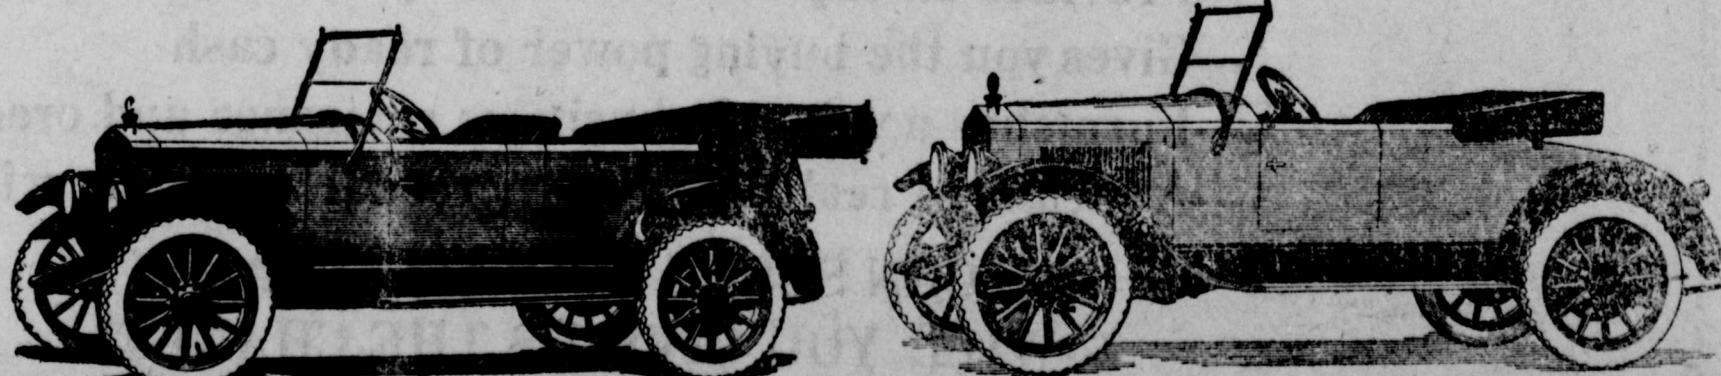

Hillsboro—Stock Essex ran 48 hours without an adjustment.

Bonham—Stock Essex ran from 11 a. m. Friday to 4 p. m. Saturday—longer than your car will run in an average week.

DOESN'T THIS SETTLE THE QUESTION?

Light Car Economy With High-Grade Performance

All over the Nation for a whole week the Essex was put to every conceivable test to show you what you may reasonably demand from a motor car. You will probably never want to drive your car at a mile a minute, but if you should the Essex will give you the speed and more. You will never run your car seven days and nights without a stop, but you should know that Essex endurance will stand this continuous grind. You may not care to drive with the greatest economy, but you should know that the Essex will give you more than twenty miles to the gallon of gasoline. You may not dare set a record with your car, but you should know that the Essex holds thirteen official records, and that it sells for less than \$2000.00.

CHRISTIAN CHARACTER IN BUSINESS

E. Filmore Irwin

The subject of this article may not be entirely comprehensible to all who read it or the importance of it may not readily be appreciated, but nevertheless it is vitally important and every business is dependent on the part it plays in advancement to the goal of success.

The business world is awakening to the necessity of employing men of definite character. In Romans 12:11 we read: Not slothful in business; fervent in spirit; serving the Lord. We have reason to believe that it has become obvious to every employer and official that the success of any organization is dependent on the character of the men working in it. The discriminating official desires to employ men whom he can trust; men who work and bear responsibility unflinchingly; men who are conscientious and considerate of others; men who shun those things that are dastardly and brutal; men who are prone to see those higher and elevating elements that tend to spin for them a successful future.

Not all efficient and educated men are Christian. These men, too, in many cases, will not confine themselves to legitimate laws and principles in business. Not so with the Christian man; he will serve his employer to the best of his ability, will make it the rule of his life to strive for success in concordance with righteous principles. And this manifestation of Christian character tends to help the less Godly man.

For an employer to realize these benefits in his business, he first must possess all the qualities that he confers in the man he employs. No man must treat his subordinates as though they were inferior to him in knowledge or worthiness. To get the best results be courteous without dissimulation, quick to perceive and reward the man who has been untrifling in his effort to secure promotion. A kindly word will often revive fading inspiration. Discretion should be used in reminding an employe of some error or neglect of duty, as it is often not intentional, and if such matters are not treated properly the result might cause a spirit of non-chalance in the entire office.

At a meeting of labor unions in Ohio it was unanimously decided that the only method of satisfactorily terminating strike controversies was to conform strictly to the principles laid down by our Lord and Savior Jesus Christ. Thank God, the world is coming to realize that part Christianity is playing in every activity of human life. Now is the time to begin to get ready to commence. Try it in your life and office.

Oil Stock Victims Squeal.

New York, June 25.—Hundreds of letters from investors in oil stocks who asserted they had been the victims of fraud, were received today at the office of the United States district attorney. The flood of correspondence following the filing yesterday of five indictments by a federal grand jury against four companies, ten brokerage concerns and fifty individuals, charging fraudulent use of the mails in selling oil stocks.

Some letters bore tales of the loss of lifetime earnings. One woman said she had managed to save \$500 which she invested and now was obliged to take in washing to support her two children. An aged couple wrote that they would be thrown on charity unless they could recover \$1,800 with which they had purchased supposedly bona fide stock.

Superintendent Howell Makes Statement.

To the Voters of Scurry County:
 The duties of the office make it impractical for me to undertake a canvass of the county in behalf of my candidacy for a second term. In fact, quite a number of my friends think it unnecessary.

My record as an official, a citizen and teacher in different parts of the county is already well known. At the same time I am not unmindful of the fact that eight years as a teacher and two and one half years as your county superintendent will antagonize enough people to oppose my reelection.

I have already seen practically half the voters of the county and expect to see all that I possibly can between now and the primary. However, if I should fail to see and talk with any of you concerning my candidacy, it will not be intentional. I feel that to be forced to make a campaign at this time works an injustice not only on myself but to the people of the county, as the duties of the office will to some extent have to be neglected. Only one thing seemingly now will prevent my giving to the campaign practically all summer and that is for the voters to give me a majority of the votes in the first primary. This will settle the matter and make it unnecessary so far as my race is concerned for the second primary. About six bond elections for new schoolhouses as well as many other school matters ought and will be looked after in the meantime. I would be untrue to my oath of office should I do or fail to do anything that would not be to the best interest of the twenty-six hundred school children of the county who are looking to us for help.

The increased responsibilities of the office and the grave situation confronting our public schools make it tremendously imperative that the people of the county give it serious consideration in voting for your next county superintendent.

Very respectfully,

O. L. HOWELL.

Bailey's Great Sacrifice.

Joe Bailey made his speech at Atlanta on June 26, and hurried back to his home in Washington to resume his law practice. Said he expects to catch up with his court business in time to visit Texas again and prosecute his campaign for governor just to save the state from ruin, although it will impoverish him. Says if he is governor four years he will come out 61 years old, with no home, no money and no clients, and if the people will consider his welfare they will not elect him to the office. It is more than probable that the people of Texas will see that he doesn't make the great sacrifice, although there are people who say he could easily be elected, if he would only try. It is being now predicted that he will not continue in the race. He has already said that he couldn't get mad enough at Looney to say anything bad about him and Mr. Looney has said that he was always a personal and political friend of Bailey, even while Bailey was throwing chunks under the wheels of the administration. Now, since the Wilson administration has been endorsed by the party, why should Mr. Bailey not step down and out and let his support go to his personal and political friend?

The Woman's Missionary Auxiliary Meeting.

Mrs. O. P. Thrane, assisted by Mesdames Jno. Hicks and D. P. Yoder, was hostess to the Woman's Missionary auxiliary in a social meeting Monday afternoon from 4 to 5.

An interesting musical program was rendered, consisting of an instrumental selection by Mrs. W. W. Hamilton and vocal numbers by both Mesrs. R. D. Meeks and D. P. Yoder, at the conclusion of which two beautiful readings were given by Mrs. Hutcheson.

In a very charming manner Mrs. Jno. Hicks presented Mrs. C. C. Higgins, district secretary of the Sweetwater district, who responded with appropriate words of appreciation.

As a token of love and appreciation and in anticipation of the departure of Mrs. F. L. Hutcheson for Boulder, Colo., Mrs. Jno. Hicks presented her, in behalf of the members with gifts entitled "Home sickness powders."

After contests of tag and alphabet, dainty refreshments were served.

Those present were: Mesdames C. C. Higgins, Joe Strayhorn, Dixie Smith, F. L. Hutcheson, A. M. Curry, R. M. Stokes, J. S. Hardy, W. T. Maury, R. D. Weeks, W. W. Hamilton, Gus McClinton, W. H. Caatle,

HOPI INDIANS "MOVIE" STARS.

Fairbanks Secures Wonderful Scenes from Old Tribe.

Ghosts of the living dead! Such is the reference made to a number of the characters appearing in the forthcoming Douglas Fairbanks-United Artists' production, "The Mollycoddle," which will be shown at the Cozy Theatre, beginning today.

The "living dead" are members of the Hopi Indian tribe who are prominent in several episodes of the third Fairbanks' picture for the "Big Four," who since the filming of the scenes have passed on to the happy hunting grounds.

It was several weeks after the Fairbanks' company had visited the Hopi reservation, one hundred miles from Holbrook, Arizona, that it was learned that five of the Indians, two chiefs included, had succumbed. They had been very conspicuous in a sacred dance of the tribe, which through special arrangement was caught by the camera.

Not alone was it the first time that such a dance had ever been held other than during the proper fiesta celebration but it was also the first time that any member of the Hopi tribe had ever been photographed.

In order to secure the permission to film the Indians it was necessary to provide them with numerous delicacies in the food line which they could not procure and a promise was also made that they would be given work by way of the silver sheet.

When the film had been developed and printed a special screen was constructed on the desert and every Redskin of the tribe attended the showing of this episode of "The Mollycoddle" after the star had had a miniature projection machine sent on from Los Angeles and much time and trouble was given to rigging up an electric appliance.

With much ceremony the guests seated themselves in front of the canvas, most of them to see a motion picture for the first time. As Indian figures in fantastic dances began to zig-zag and wig-wag before their astonished eyes, there was a buzz of

excitement through the audience.

Then there was a noise from the rear of the gathering and two aged Redskins jumped to their feet and shouting in their native tongues disappeared in the dark with considerable rapidity. Others followed and it looked like the show was going to break up and with serious results.

Mr. Fairbanks was quick to realize impending danger so he had the picture stopped. The lights were turned on and the uproar ceased. Investigation then revealed the fact that several of the chiefs and some of the members of the tribe had died since the picture was taken and that the likenesses on the screen were ghosts.

The outcome of it all was that some of the more intelligent Indians took the situation in hand and with the aid and assurance of the Government agent everything was quieted. The show was continued and applauded in Indian fashion via vocal utterances instead of hand enthusiasm and the first bit of "stock" film owned by the Indians is the sacred dance as it appears in "The Mollycoddle."

Governor James M. Cox, as democratic presidential nominee, must be considered the new leader of his party, George White said.
The new chairman of the democratic national committee also said had made no arrangements for a conference with President Wilson during his stay in Washington, declaring he had come here to take charge of party headquarters and meet democratic leaders.
"I will, of course, call at the White House and pay my respects," White said. He added he would see the President if invited to do so.
White's statement concerning party leadership was made in answer to questions about republican charges at Cox allows President Wilson to dictate his policy on the League of Nations.
"The Governor will make clear his

position on the question in his speech of acceptance," White said.
White also discussed general congressional campaign plans, expenditures and a talk he had yesterday with McAdoo.

Won't Store Grain For Higher Prices.

Oklahoma City.—In the campaign to store wheat, which the department of agriculture is now proposing, it was stated there today that it is not the purpose to urge the storing of wheat indefinitely, or for higher prices.
This explanation is made so that no confusing idea may come of the original announcement. The point is to prepare storage for taking care of the grain in its physical condition. The department knows nothing about what the prices are going to be—they may be lower or higher. Present market conditions are good, it is suggested, and if there is any way of disposing of the grain, all right.

Mitchell County to Exhibit.

The exhibit will be shipped from Colorado on Aug. 19, and will be in charge of J. C. Wells.

Married in Chicago Saturday.
A wedding of much interest to Abilene people occurred in Chicago Saturday evening at 7:30 when Miss May Burkett, daughter of Rev. and Mrs. J. C. Burkett of this city was married to Mr. J. Cranford Hardin, formerly of this city. A few Abilene friends of the young couple were present for the occasion. Mr. and Mrs. Hardin left immediately after the ceremony for Louisville, Kentucky, where they will make their home.—Abilene Reporter.
Miss Burkett has scores of friends in Snyder and is esteemed for her many personal graces.

Snyder Precinct Convention.
In accordance with the statute made and provided for the government of political machination in Texas, a precinct convention was held in the district court room Saturday afternoon to elect delegates to the county convention to be held July 31 to put into effect the results of the primary election and name delegates to district and state conventions.
R. H. Curnutte was elected chairman and J. S. Hardy secretary of the meeting.
C. S. Perkins and S. T. Elza were appointed to submit a list of county convention delegates and the following were elected:
M. E. Rosser, C. R. Buchanan, J. C. Maxwell, R. H. Curnutte, W. W. Hamilton, A. D. Erwin, M. A. Fuller, J. W. Couch, J. C. Stinson, W. H. Clements, M. A. Grimes, P. Brady, C. S. Perkins, Jr., S. T. Elza, Mrs. J. T. Whitmore, Mrs. Geo. W. Harris, Mrs. H. H. Cotten, R. L. Johnson, Miss Ida Kelley, Dixie Smith, J. K. Blackard, Joe Monroe, Robert Strayhorn, H. L. Davis.
The following resolutions were presented by C. S. Perkins and adopted:
West Texas A. & M. Resolution:
Whereas, the Democratic party of Texas did in 1917 insert as one of the chief planks in its platform a demand for a full Agricultural and Mechanical College for West Texas, and
Whereas, the Thirty-Fifth Legislature of Texas, in compliance with said demand and because of the urgency and tremendous need for such institution, did pass such legislation and did create such an institution, only by a special session of said Thirty-Fifth Legislature later to repeal the same because of certain complications, and
Whereas, the need for an Agricultural and Mechanical College for West Texas is urgent, imperative and vitally necessary; now therefore, be it

Resolved by Precinct No. 1 of Scurry County, Texas, Democratic Convention, meeting this 24th day of July, A. D. 1920, that we hereby instruct our delegates to the Democratic County Convention meeting in the city of Snyder on July 31, A. D. 1920, to vote for a plank in the platform of the Democratic party demanding the creation by the Thirty-Seventh Legislature of Texas of a full Agricultural and Mechanical College for West Texas, said institution to be located in that part of Texas west of the 100th meridian and north of the 30th parallel.

"The Little Shepherd of Kingdom Come," which can be seen at the Cozy Theatre today, is Jack Pickford's first Goldwyn picture, and is considered one of the best vehicles in which he has ever played.
Left alone by the death of his foster-father, Chad (Jack Pickford), a mountain wail, runs away from his Cumberland home to escape the clutches of a designing mountaineer. After traveling on foot for three days he comes to the Valley of Kingdom Come, where he and his dog, Jack, are taken in by the Turner family. Later, when he is not herding sheep or chopping wood for his keep, he is poring over a book of some kind, bent on getting an education. As a reward for his diligent studying, the schoolmaster takes Chad with him to Lexington, Kentucky. It is the first time he has been in a city and he becomes so interested in a horse auction that he misses the train that was to have taken him back to the mountains.
Major Buford observes the lad's difficulties and takes the boy to his home. He becomes much attached to Chad when he finds that possibly they are distantly related. Resenting the snobbish attitude of the city people, Chad returns to the mountains and finds that Melissa (Pauline Starke), whom he has left behind, is more devoted to him than ever. Chad tells her that while in the city he fell in love with Margaret Dean, the daughter of a general, an old friend and neighbor of Major Buford's.
Two years later Buford comes after Chad, who decides to return to Lexington and complete his education.
While Chad is in Lexington Melissa devoted her time to finding out about his parents, and later goes to Lexington with her father. There she tells Margaret of her discovery, making the supreme sacrifice for her rival.
Major Buford, and General Dean are devout southerners and Margaret also believes in the southern cause in the Civil War, when Kentucky takes her stand, Chad and Harry Dean join the Union forces while Dan Dean enlists in the Confederate army.
The plot thus thickens and its unraveling makes a most absorbing and exciting story. The picture was adapted from the novel by John Fox, Jr., directed by Wallace Worsley, and photographed by Don Short.

THREE YEARS WITHOUT HOPE

A Story of Sickness and Suffering with Final Return to Health
It will do you good to read it
No matter how long nor how much you have suffered, do not give up hope. Do not decide there is no help for you. There is. Make up your mind to get well. You can. There is a remedy in which you may place full reliance as did Mrs. Rozalia Kanis of 39 Silver Street, New Britain, Conn. This is what she says: "I had cramps for three years and thought I would never be any better. I could not eat without distress. Slept with my mouth open and could hardly breathe. No medicine helped me. I had catarrh of the stomach. Now I have no cramps and am feeling well and healthy. I wish every suffering person would take PE-RU-NA."
Catarrh effects the mucous membranes in any organ or part. PE-RU-NA, by regulating the digestion and aiding elimination, sends a rich, pure supply of blood and nourishment to the sick and inflamed membranes and health returns.
For coughs, colds, catarrh and catarrhal conditions generally, PE-RU-NA is recommended. If you are sick, do not wait and suffer. The sooner you begin using Dr. Hartman's well-known PE-RU-NA the sooner you may expect to be well and strong and in full possession of your health. A bottle of PE-RU-NA is the finest emergency, ready-to-take remedy to have in the house. It is fourteen ounces of prevention and protection.
Sold everywhere in tablet or liquid form.

Pottery Clay at Menard.

Menard, Texas. — Pottery clay in lasting quantity, discovered near this city, presages early erection here of a brick-pottery plant. A. E. Fielder and M. R. Looney, of Cisco, have blocked up the clay property on the A. E. Turner land, near Calf Creek, and are reported to have ordered the first unit of machinery, and will form a \$15,000 to \$20,000 company. Their land lease runs twenty-five years. The clay, after being assayed, shows a consistency of earth qualities justifying manufacture of stoneware, drain tile, sewer pipe, vitrified paving and face brick.

According to the West Texas Chamber of Commerce, Menard section possesses a valuable deposit of ochre, which, it was reported some time ago, will be developed and a paint factory erected.

Fire at Vernon.

Vernon, Texas.—One man is dead, one will probably die, three are badly burned and one is seriously injured and a block in the business district of Vernon is in smoking as a result of the explosion of a gasoline tank here at 11:15 o'clock Saturday morning. The loss is more than \$100,000.

Gasoline being run from a tank truck into a storage tank in the rear of the cleaning and pressing Shop of Smith & Hansard exploded spontaneously, blowing the tank from the truck 300 feet in the air.

M. F. Edwards, the driver of the truck who was standing nearest the tanks holding the hose, was fatally burned. He drove the tank truck here from Electra.

Charles Hansard of the firm of Smith & Hansard, owners of the shop, was so badly burned by the explosion that he is expected to die.

Smith was badly burned but will recover. H. A. Sanderson, a presser in the shop, was also severely burned but is expected to live.

"Jim" Reed says that another world war is imminent. "Every moment, we keep our soldiers in Europe they are a menace to us,"

he declares. If there is anything at all in this "warning," those who are chiefly responsible for it are the United States Senators, who, like "Jim" Reed, have stood in the way of settled peace for months. And, incidentally, bringing our soldiers home would not decrease the seriousness of the menace that another world war would be to us.—Star-Telegram.

STOMACH TROUBLE

Mr. Marion Holcomb, of Nancy, Ky., says: "For quite a long while I suffered with stomach trouble. I would have pains and a heavy feeling after my meals, a most disagreeable taste in my mouth. If I ate anything with butter, oil or grease, I would spit it up. I began to have regular sick headache. I had used pills and tablets, but after a course of these, I would be constipated. It just seemed to tear my stomach all up. I found they were no good at all for my trouble. I heard

Driving away Gloom.

The "gloom-bug" which has infected the mind and heart and very soul of the pessimist for years and years are sure to be destroyed if Mack Sennett, the comedy king, has his way. He has been spending the better part of his "young life" finding ways and means by which this infection can be destroyed and with each of his big special productions his doses come nearer and nearer. The real "gloom" dispeller is at last found in his latest five reeler, "Down on the Farm" which is released by United Artists and will be at the Cozy Theatre on next Friday and Saturday, August 6 and 7. Sennett, when he first began to find the remedy was in despair for he found that most people were pessimists, but he has wormed his ideas of laugh into their beings, and now has a following that numbers more than thirty millions and with each getting at least a thousand laughs out of his latest sensational comedy, the thirty billion laughs should have at least some effect on the populace.

Election Expenses.

A confidential friend of Com. Ezell, recently nominated for county commissioner, has handed the Signal this campaign statement. He says:

"This is the story of the election expenses of a man who was nominated for county commissioner in the recent primary. His sworn statement runs:

"Lost 1,349 hours sleep thinking about the election. Lost two front teeth and a whole lot of hair in a personal encounter with an opponent. Donated one beef, four shoats and five sheep to a county barbecue. Gave away two pairs of suspenders, four calico dresses, \$5 cash, and thirteen baby rattles. Kissed 126 babies. Kindled fourteen kitchen fires. Put up four stoves. Walked 4,076 miles. Shook hands with 9,508 persons. Told 10,101 lies, and talked enough to make, in print, 1,000 volumes. Attended sixteen revival meetings, and was baptized four different times by immersion, and twice some other way. Contributed \$50 to foreign missions, and made love to nine grass widows. Hugged forty-nine old maids. Got dog bit thirty-nine times, but was elected after all."

Whenever a person, a state or a nation cuts loose from the Christian religion it marks the beginning of the end. "Be not deceived, God is not mocked, whatsoever a man sows, that shall he also reap." The man who scoffs at the Christian ministry and the church of the living God is fighting the religion of Jesus Christ.
