

The Snyder Signal

THIRTY-FOURTH YEAR.

SNYDER, SCURRY COUNTY, TEXAS, FRIDAY, AUGUST 20, 1920.

NUMBER TEN

Snyder Schools Have Splendid Prospects

The board of trustees of Snyder schools have labored faithfully to secure the best teachers possible for our city schools for the 21 term. As a result of their diligent efforts Snyder has prospective the strongest faculty in her history.

F. C. V. Hall, our superintendent is a university trained teacher, thoroughgoing in his efforts to meet the needs of the public schools of today. He is now in attendance at our state university at Austin that he may fully keep abreast of the times.

Miss Helen Rootes, of Grandview, is to us as an experienced teacher who has attained a B. A. degree from the University of Texas. Mrs. Meredith comes to us also as an experienced teacher with an M. A. degree from Vanderbilt.

Miss Lucy Jackson, of Sweetwater, has a permanent state certificate, and is a graduate from Xavier College. Miss Rovie Smith, of Garner, has a permanent state certificate and but one year work receiving a B. A. degree from the University of Texas.

Misses Irene and Cora Trowbridge hold first grade state certificates.

Miss Pearl Hudspeth of Greenville has a permanent certificate and a degree.

Miss Lula Belle Rushing has a B. A. degree and is a graduate of the Texas State Normal. She has several years experience in teaching.

All the entire faculty are experienced and successful teachers.

Miss Irene Towler of Lone Oak, has a first grade certificate. Misses Jewel Watts and Mattie Lee are home girls that need no introduction to our home people as to our home people as taught in our schools last winter were very successful in their studies.

Teacher elections have been held, and the principal but the board of trustees received notice of their acceptance.

Assignments have been made as to the different wards. Nor has there been any made as to transferring.

New Bank at Roscoe
Roscoe, Tex., Aug. 5.—The Farm State Bank of Roscoe perfected its organization this afternoon with a capital of \$25,000.00. The officers of the new banking institution were: J. A. and A. J. afflows; S. F. president; W. C. Cress, first vice president; S. P. Smith, cashier. Others S. F. Neely, W. C. Cress, S. L. L. L. McClock, E. J. Worthy.

Big Lobo Wolf Killed
Paul, who is trapping for wild animals in employ of the government, came in home a few days ago exhibiting the skull of a big lobo that he had captured out on the order of Texas. Mr. Paul said he had been chasing this wolf for years and had been unable to kill it. Also it was estimated that it destroyed \$12,000 worth of property.

Formerly Lived Near Snyder
J. N. Baker of Manitou, Okla., to the Signal a report of the death of Mr. M. T. Hutcherson which died August 4th, at Jenkins, Texico. He was born in Obion, Tennessee, April 19, 1847. He married Sept. 24, 1872. He died of his wife Dec. 17, 1895. He was survived by three sons and five daughters. Came to Texas in 1878. He was with the Primitive Baptist church near Snyder in 1907, and a faithful member until his death. He was located at Jenkins he was identified with the Lone Star Church at that place.

farm three miles from Snyder sell at \$50.00 per acre.—Austinity Co.

grades from one building to another as has been reported.

Supt. Hall is expected soon in our city from Austin. No plans will be made until he arrives and takes hold of the situation.

With this splendid faculty for this term and with prospects for new buildings next year with the co-operation and encouragement of all the patrons Snyder schools should be equal to the best in the state.

SCHOOL BOARD STATEMENT

Various and sundry reports are being circulated among the patrons of the Snyder Public Schools that the buildings have been condemned, and that we will have no school this year. The board of trustees are unable to account for the origin of these reports or the motives of those who give expression to them. We desire to assure the public that we will have a school this year, as usual, and that each of the three buildings will be used.

The board sincerely appreciates the spirit of the public in so readily agreeing to the raise in the valuation of the property in this district, and we are trying our very best to secure a faculty of teachers that will be equal to that of any town of this size in the state. We are examining the records of the applicants with a critical eye with a view of obtaining the very best teachers the state affords, for we believe that the patrons are entitled to the best school possible.

We wish the public to know that these schools do not belong to the teachers nor do they belong to the board, but that they do belong to the patrons.

We are greatly handicapped by the insufficiency of the Central Building and the locations of the ward buildings, yet we are trying to make the best out of a bad situation, and in doing this, it will very likely result in some inconvenience to some of the patrons. However, you will please rest assured that the primary department will be taught in each of the buildings.

It is our desire to conduct the school for the benefit of all the patrons, and we ask the co-operation and support of all in order that we may have a school, second to none in the state. BOARD TRUSTEES

Seen Along the Way
The Signal editor returned on the belated train Wednesday morning from a visit of a week with our daughter and family at Ennis. The weather was cloudy there all the time and considerable drizzle of rain just enough to cause the people to fear a scourge of boll worm, though there are none there yet to hurt. Their cotton prospect is good and apparently that country is prosperous.

Politically, they are in the fight. The Bailey men claim the county but the Neff men and women say Ellis county is going to roll up a majority for the Waco man. On the way back I noticed that rain seemed light east of the Brazos river, but heavier from there to Ranger (when the darkness prevented further observation).

There was no track trouble on the T-P but the Santa Fe came to Sweetwater two hours late and had to feel its way over the washout near Pyron, and reached Snyder about daybreak.

No Worms in His Cotton
O. F. Darby was out on his farm west of town this week and made a careful examination of his 125 acres of cotton and found no signs of boll worms. He didn't even see any millers.

Miss Ruth Buchanan is expected to return today (Friday) from the C. I. A., where she has been attending school the past year.

The rainy weather continues to hold on and people are becoming fearful that bollworms may get into the cotton.

REUNION OF 90TH DIVISION

The second annual reunion of the veterans of the 90th Division will be held in Oklahoma City, September 25, 26 and 27. The 90th Division was originally made up of men from Oklahoma and Texas and trained at Camp Travis, Texas. However, many replacements were received from every state in the union. The Division took part in the St. Mihiel and the Meuse-Argonne offensives and was one of the divisions honored by a place in the Army of Occupation in Germany. Every man who trained or served at any time with this division is cordially invited to attend the reunion. The 90th division has permanent headquarters in Dallas, Texas, in charge of Arthur Reinhart, secretary. Special rates have been granted by the railroads from all points in Oklahoma and Texas to all veterans of the 90th Division attending the Second Annual Reunion of the 90th Division which is to be held in Oklahoma City, September 25, 26 and 27—according to word received by Arthur Reinhart, secretary of the 90th Division veterans association of Dallas. These dates mark the first 3 days of the Oklahoma State Fair and in addition to this attraction, Mayor Walton has promised to make it "the best entertainment ever given any one and that the city will be turned over to the former soldiers during their entire stay in the city."

A bully time and a royal welcome awaits these vets.

Santa Fe Comes in on R. S. & P.
On account of a washout Monday on the Santa Fe between Snyder and Sweetwater, the Tuesday morning Santa Fe train which should have arrived here about two o'clock A. M. came in over the R. S. & P. track from Roscoe arriving here at 2 o'clock P. M.

This is the first time in the history of the Snyder railroads that this has occurred.

SCURRY COUNTY NOW HAS FINE PROSPECTS FOR BIG CROP

Everything is in ideal condition for a record-breaking yield of all kinds of crops in Scurry county since the fine rains of this week. Maize, kaffir corn, sorghum and other feed stuff are well developed and will now make without additional rain. Cotton is a little later than usual for this section on account of the late spring but is still growing and promises a big yield.

Home-grown beans, peas, corn, melons, tomatoes and other vegetables are plentiful on the local market.

For the first time in many years Scurry county has no peach, plum and other fruit crops, excepting grapes that never fail and they are unusually fine and juicy this year.

All tanks and lakes are now full and the ranges are in fine shape. The people of this section were able to pay all debts contracted during the drought with last year's big crop. This year the thrifty farmer will beautify the home and improve living conditions on the farm, thus enhancing the value of his property besides adding pleasure to his family.

Scurry county lands have almost doubled in value since a year ago. With good crops and promising oil prospects, land in this section will continue to increase in value. Home seekers can do no better than invest in old Scurry.

PERSONAL ITEMS
Mrs. J. G. Moss and daughter, Mrs. E. L. Doss of Mineral Wells, is visiting Mrs. Moss' daughter, Mrs. S. C. Porter of this place.

Miss Ella Mae Sturdivant of Austin, is in the city visiting friends.

Mr. and Mrs. N. M. Harpole have for their guest their daughter, Mrs. Melvin Newton of Cisco and Mrs. Harpole's sister, Mrs. Bradford of Dallas.

Mr. R. L. Smith of Weatherford, came in Tuesday on business and to visit friends and relatives.

T. C. Hoy came in Tuesday from an extended trip into East Texas.

J. W. Hancock, Frank Wilson and Byron Durham have returned from an extended trip into New Mexico.

Miss Pearl Rye of Benton, Ark., and Miss Ella Mae Sturdivant of Austin, are visiting Mrs. Sam Castevens.

J. S. Hart and family of Snyder are visiting at the home of their son, H. S. Hart, and family—Seminole Sentinel.

Eugene Thompson has resigned as business manager of the Amarillo Tribune and moved back to his home in Dallas.

SNYDER NATIONAL INSTALLS SAFE

The Snyder National Bank has placed in their vault a new safe for the protection of their customers. The primary purpose of this safe is to place Liberty Bonds for safe keeping.

A reporter of the Signal was shown the safe one day this week, and the officers of the bank would be glad to show any of their customers the safe and explain it to them if they will call around.

The walls of this safe are 10 1/2 inches thick made of solid manganese steel. It is 62 inches high and weighs 5300 pounds.

It has three distinct time locks acting independent of each other. It is really a marvel and for mechanism, the most expert possible.

The customers of this bank should avail themselves of the opportunity of seeing this safe and placing their bonds for safe keeping. This bank has placed in their offices two more adding machines at a cost of about \$2,000 which adds greatly to their equipment.

BETTER SEED URGED

Dallas.—While harvesting of the cotton has not yet begun in some sections of the state, salesmen are now in the field making contracts for cotton seed for planting next year's crop. The Texas Chamber of Commerce in a bulletin urging better cotton seed for Texas, says:

"A little more than 2,500,000 bushels of planting seed are purchased from dealers annually by Texas farmers, the greater part of which is mixed as to variety and quality. It is easily possible to increase the value of the Texas cotton crop from \$5 to \$25 a bale by the use of better planting seed.

"This great volume of new wealth can be brought into existence without any additional cost in money and labor. The way to secure this added value is to bring about co-operation between business men who can handle seed and the farmers who plant cotton and have brought in supplies of pure seed of varieties adapted to the soil and climate, giving preference to those varieties that will yield a staple from one and one-sixteenth to one and one-eighth inches long. The supply of seed cotton of this character is limited and, in order to purchase them in quantity, orders must be placed within the next two months, the earlier the better.

"Much of the difficulty in selling the large amount of low grade cotton now on hand, is due to its short or perishable staple, not entirely to grade. It is becoming increasingly difficult to sell the extremely short staple cottons.

"If a community wishes to establish its reputation as a cotton market it should at once take steps to bring about co-operation of farmers and business men to the end of having a community grow one variety of good staple cotton.

"The time to begin such an effort is now and the way is to induce dealers to purchase good seed and farmers to buy it.

"The influence of staple on value of cotton is strikingly shown in market quotations on cotton issued weekly by the United States Bureau of Markets, branch office at 303 1/2 South Ervay Street, Dallas, which will be sent free to any citizen of the State on application."

SCURRY COUNTY TOMATO
In our absence from the office Saturday, we found on our return a great big red luscious tomato on our desk. It stated that this tomato was grown by Mrs. A. N. Epps. We are sure that no county could beat this for tomatoes. Of course, we are sorry that Editor Hardy did not get this tomato but we did it justice and frankly this tomato gave our family a good meal.

Any good thing that comes to the editorial desk gives joy to the whole force, no matter who may be holding down the chair.

Salvation Army Organized in County

Such an organization was formed for Scurry county at a meeting held Wednesday morning at the court house at Snyder. Charles H. Cope, a field representative of the Salvation Army, addressed the meeting, describing the various relief institutions, and plans for placing them at the service of Scurry county. County Judge Adamson acted as temporary chairman of the meeting.

The following advisory board for Scurry county was formed:

P. Brady, president; E. J. Anderson, vice president; O. P. Thrane, secretary; H. W. Waterman, treasurer; R. H. Curnutte, W. M. Morrow, J. K. Blackard, J. R. Strayhorn, Emmett Banks, Dr. A. C. Leslie, J. Z. Noble. Ex-officio: W. S. Adamson, M. A. Fuller.

The board will make a confidential study of the present social condition of the county for the information of the Army, which will serve as a forwarding agent for bringing to the army's attention any opportunities

for its service arising locally, and will be the legal, business and financial advisor and supporter of the army in any work which it will carry on in this county in the future. It will also request a prominent citizen from each of the other towns of the county to serve as an associate member of the board, thus making it a thoroughly representative county organization, in close touch with every part of the county, and of easy access to any person in the county in time of need.

The members of the Scurry county advisory board hereby notify the people of the county at large that they are willing and desirous of serving them confidentially in putting at their service in time of need the institutions of the Salvation Army, and guarantee that any information brought to their attention in this capacity will be treated with the completest secrecy, together with the maximum of results.

GREATEST BEAUTY IN LITTLE THINGS

I was reminded one day recently of the great big importance of little things," said Mary Pickford as she took a breathing spell between scenes while filming "Suds," her forthcoming production for United Artists, which will be seen at the Cozy on Today and tomorrow.

"I had an unusually hard day—had been working since early morning in scenes that were very tiresome. Many other important things also had demanded my attention, and altogether I had put in some very trying hours.

"At about a quarter to six I called it a day and everyone was tired and the atmosphere wasn't real clear and happy, and all felt the strain of the day.

"I was sitting on the old counter in the funny laundry where so many of the scenes of my story are laid, just sort of giving up to the feelings that will creep in some times and I was about ready to cry, when my mother came up to me in her own sweet comforting way hand handed me the most beautiful red rose I have ever seen—and it was full of the fragrance of the roses that grow out in the California sunshine. She had been over to the new home a friend had just bought and in the garden she saw this rose, and she picked it and brought it right over to me.

"That doesn't seem so much when I tell it—but it means worlds to me. The rose was beautiful and perfect—but it wasn't the rose so much that made me happy as it was that mother had thought of me and the little pleasure she could give me. I did cry then—good and hard—but they weren't entirely tired or unhappy tears—they were mostly tears of joy and gratitude that I had been allowed to enjoy the wonderful palship a real mother can give.

"More than ever at times like this does my heart go out to the poor little orphans it has been my privilege to help a bit and to every girl who is not so fortunate as I—to have my mother always with me. Seems like every time when clouds are darkest she is right there to do some little thing that makes the sun shine thru. And I will never forget the little incident of the rose."

SIX ICHES OF RAIN
Since Wednesday morning, Aug. 11th, to Tuesday morning Aug. 17, Snyder and surrounding country has had 6 inches of rain. Deep Creek has been running high and flush for several days, staying bank full. Washouts on the Santa Fe between Snyder and Sweetwater caused that train to be detoured round on the R. S. & P.

Rev. J. W. Morton received a message Thursday saying his son is seriously sick at Caddo Mills, and left here as soon as he could get a train out.

America's Deadly Menace.

The part of wisdom in the individual is to keep his house in order, lest at an hour when he may not be on the alert, some dire calamity may befall him. There used to be a trite saying "Constant vigilance is the price of safety," and in late years a favorite slogan is "Safety First."

A rule that is good for the individual may also be good for the community, the state or the nation. It has always been the policy of the United States to throw open her ports to all persons who might desire to come to America to seek liberty, happiness and fortune. No ban is placed on the thoughts, words or actions of any. They were guaranteed freedom of thought, action, creed and conscience. America has been the asylum for the world. Any people oppressed by tyrant or enthralled by poverty might find protection and opportunity in "the land of the free and the home of the brave."

The American policy in our earlier history served to bring to our shores many honest, worthy, sturdy people. They came from England, France, Germany, Poland, Norway, Ireland and other countries of Europe. They settled homes, built towns, erected schools, colleges and sanctuaries. They have established and operated factories and railroads and steamship lines. They have contributed of brain, brawn and money to establish a common country where all nationalities might enjoy peace and prosperity. These early peoples believed in God and righteousness and there has been less of distress, crime, grief and woe than in any of the countries of the old world.

But, now, how long may we hope for these blessings to continue if the institutions of this country are to fall to the level of the ungodly and

vicious elements if old world disturbers are to be permitted to plant the poison of discontent, of infidelity and anarchy, in the social, religious, industrial and political soil of free America. The anarchist, the I. W. W., the bolshevik, has shown his hand and we must not shut our eyes to his purpose. Papers, documents and propaganda has been found in plenty to prove that these people are seeking to overthrow our democratic government and set up a reign of anarchy, rapine and confiscation.

The time has come to stop the onward march of the torch and bomb. Enough is known to justify the department of justice to limit the scope of freedom of speech and thought, and to shackle the planners and plotters of treason. They are a dangerous people and should be subdued before they do further mischief.

A Day of Reckoning.

A news item sent out from New York on Aug. 5, says:

"Continuance of the tendency toward increase in the country's business mortality is reflected in last month's insolvency statistics which disclose the largest number of business failures of any month since November, 1918, and the heaviest indebtedness, excepting that of June, this year, of all back to January, 1916."

This is a natural result of frenzied living. People have been going it blind in buying and trading in reckless disregard of the certainty of a pay day. A common laborer has been receiving unprecedented wages, business deals have been made in fabulously big figures. Everything bought and sold has been going at unreasonable prices. The crash had to come on somebody and the last man to load up has to bear the brunt. The fellow who could get from under before the drop fell will congratulate himself on his good fortune. The cautious man who has seen war-time inflation and the inevitable collapse and has kept his boat close up to the pier, is in good condition to face the future. Failures are due to overreaching.

Heavy Travel Through the County.

An observer figuring on the number of out of town cars passing through the town and country during the past week or two states that a conservative estimate of their number would be not less than 150 cars per day. Averaging four persons to the car it means that not less than 600 people every day are traveling over the county's good road, and in a comparatively leisurely manner are getting a good idea of the town and country. Regardless of the many other advantages that a good road gives to the country this advertising feature alone pays a big return on the investment. Travelers are noted from every section of Texas and all of the surrounding states. The travel from states east of the Mississippi toward California and Colorado is exceptionally heavy.

The Star-Telegram resents Cone Johnson's statement that the Texan who votes for Bailey votes against the Wilson administration. Now why? A chain is no stronger than its weakest link. Things that are equal to the same thing are equal to each other. A little leaven leaveneth the whole lump. Mr. Bailey has been antagonistic to the Wilson administration, he is not in harmony with the Wilson war policies, the parcels post, the federal loan system, the San Francisco platform is not at all to his notion, and Mr. Bailey boasts that he never changes. Now, it stands to reason that the man who votes for Bailey votes for the things Bailey stands for.

Frankfort is a small mining town in Illinois and Italians are there in great numbers as coal miners. Recently there was a robbery committed and then two boys who knew about the robbers were murdered. The local people charged Italians with these crimes and a mob riot was started. Several people were killed and many injured. Late reports say the Italians have been run out of the town.

Mr. Bailey said at San Angelo that "This sympathy talk for the tenant farmer should stop." Why? Certainly the tenant farmer is not begging, but he ought to have a chance even if he is poor.

Edwards and Armstrong each received 144 votes for county commissioner in their precinct in Lynn county.

Bankers and business men in North Dakota are working like hired men in the harvest fields.

The Cotton Market.

The present status of the cotton market is to be deplored, but what is more deplorable is the fact that one-fifth and perhaps more of the entire last season's cotton production in this county is still on hand unsold. In other words, about one-half million dollars of last year's crop is out of circulation which cost more in ratio to get ready for the market than the early gathered stuff. The tail end of the cotton season found the cotton farmer in early spring; he had remnants of last season's stock on hand. From long experience the merchant has found it profitable to clean up by quick sales and to take a loss if necessary rather than to take chances of coming out next season, especially if some of his goods were shoddy. False prophets advocated the holding of the low grades and last of the crop with the result that today Scurry county farmers are holding the bag. It is to be regretted that during this time of tight money our farmers should be paying interest on last year's assets.

Place Credit Where It Belongs.

The Fort Worth Star-Telegram, in reporting a speech made in Fort Worth by W. H. Slay, says: "Slay denounced attacks on Bailey's war record and pointed to the fact that he sent two boys to the army."

That was certainly a worthy contribution, but the honor belongs to the two boys. They were 21 years old and accountable for their own actions. It is to their credit that they had the patriotism to defend the flag while their father was holding to the doctrine that this country should stay out of the conflict.

"Another means of silently lessening the inequality of property is to exempt all from taxation below a certain point and to tax the higher portions of property in geometrical progression as they rise. Whenever there is in any country uncultivated lands and unemployed poor, it is clear that the laws of property have been so far extended as to violate natural right. It is none too soon to provide by every possible means that as few as possible shall be without a little portion of land. The small landholders are the most precious part of the state."—Thomas Jefferson.

Mr. Bailey tried to make Neff's Hindenburg line idea sound as an insult to all the people who may vote for Neff, but really it sounds like a pretty accurate figure of speech. Neff, nor any other person, would dare accuse all of Bailey's supporters of being friends of Germany, but Mr. Bailey's war record brands him as a helper against our armies, and surely those who support him now are condoning his past attitude, and Mr. Bailey says he never changes in sentiment or conviction.

Brenham Issues Ultimatum.

Brenham, Texas.—Farmers and business men of Washington county, alarmed at the exodus of laborers from the county, recently met and adopted resolutions declaring they would regard it as an "unfriendly act" on the part of employers living outside the county to induce men to leave this county.

The resolutions declare that Washington county needs all its young men in harvesting its own crops, that it will furnish employment to all at remunerative prices and that any attempt to induce laborers to leave the county will be regarded as "unpatriotic and showing a spirit of hostility toward this county." A committee was appointed to assist in conserving the man power of the county.

Suppose your Liberty Bond should be worth less than par, you have done well to let your government have the money to help win the war. If Germany had triumphed, your bond might have been worthless, because Germany would have dominated this nation, but now, be assured that the power of the United States is behind your bond and your bond will be worth all it calls for, and the interest. American patriotism saved it, even though there are Americans who opposed the war against Germany.

Mr. M. E. Rosser returned Wednesday from Dallas where he accompanied his sister-in-law, Miss Ida Kelley, who has recently undergone an operation at the Baptist sanitarium at that place. He states that the operation was a complete success and every indication is that Miss Ida will soon be completely restored to her usual vigorous health.

HOW TO CATCH ELEPHANTS

Some Suggestions Made by African Paper Would Seem to Border Slightly on the Ridiculous.

Half the inventors in England seem to have set to work on the problem of capturing or destroying the Addo Bush elephants. One man wants to drive them on to lighters moored in the Sunday river, and another suggests hunting them in whippet tanks, which, of course, will go through jungle like a hot knife through a pat of butter. We don't think much of these ideas, however. They do not appeal to us as being sufficiently simple and practical, but as mere destructive criticism is never satisfying, we put forward the following schemes, which could be carried out easily:

First. Erect searchlights round the Bush and concentrate them upon the elephants at night. Dazzled by the glare the brutes will dash head first into the trunks of the trees and stun themselves. Their feet can then be tied together, and they can be dragged away by donkeys or oxen to cages and subsequently sold to circus proprietors or zoological gardens.

Second. Let a big airship (the R-34 would do) move to and fro over the Bush, dragging it thoroughly with grappling hooks. The elephant fished up could be carried without a moment's pause north of the Zambesi and gently lowered to the ground, so that they could make their way into the wilds of Central Africa.

Third. Allow several submarines to stalk to the bottom of the Sunday river. A gang of natives blowing trumpets and beating tin trays would then drive the elephants into the water. As they were swimming across, the submarines would come to the surface underneath them, lifting them out of the water. The submarines would steam away to any destination fixed upon, carrying the elephants on their decks.

Fourth. Scatter several tons of extra strong flypaper throughout the Bush. This will adhere to the trunks and feet of the elephants and the more they attempt to get rid of it the more it will collect until in the end they are suffocated.—Johannesburg (Transvaal) Sunday Times.

Process Hardens Wood.

To prepare the cheaper kind of woods by a patented method that makes them more durable is the purpose of a concern just organized in Koge, Denmark, according to a commercial attache in Copenhagen.

The woods especially to be prepared are birch, ash and elm, all wood treated by this process being called teakin wood.

Certain changes in the character of the wood that normally take place only after many years of drying are by this chemical process produced within 24 hours. Thereafter, when the moisture that may still be left has evaporated, the wood becomes harder and more durable than by the aging process.

Teakin birch is of a beautiful golden brown color, and, when polished with potash, it takes on a mahogany red hue. Teakin ash is a substitute for teak. Teakin elm has none of the disadvantages of natural elm. Teakin fir is of a uniform color all through and is used for office fitting and furniture and for veneering.

Period of Heavy Expenditure.

A period of twenty-five months, from April, 1917, through April, 1919, the war cost the United States considerably more than \$1,000,000 an hour. Treasury disbursements during the period reached a total of \$23,500,000,000, of which \$1,650,000,000 may be charged to the normal expenses which would have occurred in time of peace. The balance may be counted as the direct money cost of the war to the end of April, 1919, a sum of \$21,850,000,000. The figure is twenty times the prewar national debt. In addition to this huge expenditure, loans were advanced to the allies at the rate of nearly \$500,000 an hour. Congress authorized for this purpose \$10,000,000,000, and there was actually paid to various governments the sum of \$8,850,000,000.

Platinum From Alaska.

The output of platinum, palladium, and other metals of the platinum group in Alaska in 1918 is estimated at 284 fine ounces, valued at \$36,600, according to the United States geological survey, department of the interior.

Platinum was recovered from the gold placers of some districts in larger amounts and from some in smaller amounts than last year.

One of the most interesting events of the year in connection with Alaska mining is the recovery of substantial amounts of palladium and of some platinum from the copper ore of the Salt Chuck mine, near Ketchikan.

Proof.

"Could you 'elp a pore feller, mum, wot's been invalided out o' the army with loss o' memory?"

"I don't believe it; you came with quite another story last month."

"Did I, mum? Well, yer can't want better proof than that, can yer?—Bilghty, London.

The Woman Depositor.

"Sorry, madam, but your account is already overdrawn!"

"Well, what of it, young man? Haven't I a right to do what I like with my own account?"—Life.

Too Far Off.

He—I'll bet you a kiss on the next presidential election.

She—Isn't there any election before that?—Boston Evening Transcript.

Joe Bailey's Record

BAILEY OPPOSED the Democratic Administration. In a speech at Wichita Falls, March 30th, Bailey said: "Viewing the whole thing from top to bottom, not one single achievement of the entire Democratic Administration meets with my approval."

BAILEY OPPOSED the principles of the Democratic Party. Bailey said in effect: "If Woodrow Wilson is a Democrat then I was never one. I can never vote for a man who entertains the convictions of Woodrow Wilson—as long as I live."

BAILEY OPPOSED the National Prohibition Amendment. Bailey admitted in a speech at Beaumont that he was paid to represent the Association opposed to National Prohibitions.

BAILEY OPPOSED Woman's Suffrage. He said it would prove to be a greater evil than prohibition.

BAILEY OPPOSED advising his friends to buy Liberty Bonds because they would lose money in making the investment.

BAILEY OPPOSED vigorous and patriotic prosecution of the war. Bailey said: "When war was declared I shut my mouth."

BAILEY OPPOSED the Federal Farm Loan Act.

BAILEY OPPOSED went blank in a speech at Wichita Falls, March 30th, to say how he stood on the open shop.

BAILEY OPPOSED the Federal Reserve Bank Law.

BAILEY OPPOSED the Child Labor Law.

BAILEY OPPOSED the Pure Food Law.

BAILEY OPPOSED rural mail delivery.

BAILEY OPPOSED the Parcel Post that puts the man in the country in touch with the markets.

BAILEY OPPOSED the White Slave Act in the Caminetti case. This law prohibited the immoral act of transporting women for purposes of debauchery and prostitution. This statement is made as a reply to the charge that Neff was attorney for the defendant in the Patterson murder case.

"Neff for Governor" Club for Scurry County

S.—The Baileyites are challenged to point to one constructive measure Bailey ever advocated in favor of the common people when he was in the Senate.

"SUDS"

BY MARY PICKFORD AT COZY Today and Tomorrow

IN THE CHARACTERIZATION OF A LITTLE COCKNEY LAUNDRY DRUDGE IN—"SUDS"

BUILDS THE LOVELIEST DREAM CASTLES OUT OF SOAP SUDS.

It is one of the rare productions that goes straight to the heart and awakens all sorts of human sympathy—strong and moving—and with that measure of humor and pathos that is inseparable from its realism.

Also "The Lost City" Tonite and Saturday Matinee. Saturday night we present the Harold Lloyd Comedy, "His Royal Slynness."

NIGHT PRICES—20 and 35c MATINEE 15 and 30c.

The Best Physic. When you want a pleasant physic try Chamberlain's Tablets. They are easy to take and mild and gentle in effect. They are highly prized by people who have become acquainted with their good qualities. They only cost a quarter. Grayum Drug Co.

Misses Mattie Lee Palmer and Jewell Watts, who have been attending C. I. A., will return Saturday ready to enter the school work.

Mrs. Ethel Irving of the L. & H. Economy Store returned from a week's vacation at Big Springs.

Miss Zonell Harris returned Tuesday from Lampasas where she visited her uncle, George Harris and family.

Life Insurance. We write the best policy on your life that is written. Come in and let us explain it to you, whether you buy or not. Every one should make provision for their loved ones after they are gone. Boren & Erwin, N. W. corner court house. 8tf

Miss Catherine Margarette Duff of Greenville, is in the city the guest of Miss Dimple Gross.

Mrs. M. A. Fuller and little sons, William and Andrew, Mrs. R. G. Davenport and son, McCall, have returned from a summer vacation in California.

The Misses Ainsworth of Fluvanna are visiting friends in this city.

Mrs. E. J. Anderson and little daughter Brentz returned Sunday from an extended visit in Alabama.

Mrs. Fay L. Wilson of Dallas is opening a millinery shop in the L. & H. store. See her ad in the Signal this week.

Mrs. J. D. Norris returned Sunday from Lockney where she has been visiting her brother Lance Suits.

G. R. Higginbotham of Hermleigh, was here Tuesday.

Mrs. G. R. Higginbotham of Foch fell last week and sustained painful injury.

W. G. Garrard and wife of Megargel were here last week visiting friends and relatives. Mr. Garrard stated that they had a reunion of the family at Hermleigh.

Miss Lizzie Smith and nephew, Tracy Smith, of Austin, are visiting her sister, Mrs. D. P. Lane and other relatives in the city.

W. M. Morrow went to Dallas Sunday to market.

We have recently installed a Mosler Quadruple Manganese Steel Safe

at an expense of approximately \$2600.00, which we purchased for the protection of Liberty Bonds and War Savings Securities, belonging to patrons of the bank.

We invite any one having bonds not already deposited in some bank for safe keeping, to avail themselves without cost of the protection offered.

Any officer of the bank will be pleased to show you the new safe, the first time you happen to be in the bank.

The Snyder National Bank

SPRAINS

This soothing, healing, penetrating remedy takes all of the smarting pain out of burns, scalds, cuts, sprains, etc., and quickly heals the injury. Get a bottle or two bottles of drugstore today.

BOOKKEEPING FREE

INVENTIVE GENIUS ROBS CALOMEL OF NAUSEA AND DANGER

Doctors' Favorite Medicine Now Purified and Refined from All Objectionable Effects. "Calotabs"—the New Name.

What will human ingenuity do next? Smokeless powder, wireless telegraphy, horseless carriages, colorless iodine, tasteless quinine—now comes nausealess calomel. The new improvement called "Calotabs" is now on sale at drugstores. For biliousness, constipation and indigestion the new calomel tablet is a practically perfect remedy, as evidenced by the fact that the manufacturers have authorized all druggists to refund the price if the customer is not "perfectly delighted" with Calotabs. One tablet at bedtime with a swallow of water—that's all. No taste, no nausea, no griping, no salts. By morning your liver is thoroughly cleansed and you are feeling fine, with a hearty appetite. Eat what you please—no danger—go about your business. Calotabs are not sold in bulk. Get an original package, sealed. Price, thirty-five cents.—(adv.)

HAVE ANIMALS SIXTH SENSE?

Hard Otherwise to Explain How Wild Beasts Knew That the Great War Was Over.

Frightened by the noises of battle the wild beasts of East, Central and West Central Africa went scurrying north and south, traveling sometimes hundreds of miles in their fright and taking refuge in localities entirely new to them.

But just as the ruins of northern France have drawn human beings back to them—men and women who dwelt there before the German occupation, home has claimed the wild animals and most of them are now back in their native haunts.

How did the wild beast know that the war was over? The elephant, gorilla, giraffe, antelope, buffalo, rhinoceros, lion, leopard and porcupine are certainly all perfectly aware of the fact!

Human beings have their various avenues of sending news, chief among these the newspapers, the post and the telegraph.

Whatever the method of communication, the wild animals certainly got the news quickly.

Peace was no sooner accomplished than the African natives began to see the homeward migration of whole companies of wild beasts through their territories, animals never familiar in these particular communities and obviously passing through.

Four years previously they had come crashing through the underbrush, bound in an opposite direction. They were in great haste then and possessed of fear; and pachyderms and carnivora traveled together, the aged war of the jungle forgotten in a common plight.

Birds may become accustomed to the sound of firing, but wild animals loathe it. Fear of strange noises is instinctive with them. Animals born in captivity invariably show this instinctive dread. And it is a well-known fact in zoological parks that apes can be controlled instantly by the display of a musket, even when as far as is known they have never seen one spit fire.

Women's Rights in China.

A paternal government in the province of Hupeh, China, is endeavoring by official action to bring the women to order and reason, in the matter of clothes. "Women and girls are not permitted to wear extraordinary clothes," runs the official order which the police have been instructed to enforce. "The women's dresses, which were generally adopted by the Chinese gentle sex previous to the first revolution in 1911, are better suited to young women because they are not too short or too narrow, and they should be used again." The official order gives further particulars of the abuses which it alleges have taken place by which, in the matter of clothes, it is not possible to distinguish the Chinese women of "respectable and good families from those who are not." But the significance of this solicitude on the part of the military governor of Hupeh is found in the part of the order which states that the importance of bearing and clothes is to be recognized, "in view of the fact that women are playing an important part in modern politics in western countries, and there is sufficient reason to believe that this awakening of the gentle sex will soon be extended to the far East."

Grotesque Find.

An extraordinary story comes from Shanghai (China) of a find by some railway men at Harbin. A box car addressed to Colonel Bulikoff, who is the Russian representative at Hallar, was opened and found to contain apparently bags of flour and firewood. Underneath these were found eight caskets, each one duly labeled, six bearing the names of grand dukes and duchesses and the other two the name of a priest and a valet of one of the grand dukes. To make sure there was no ruse, one casket was opened and a body revealed. In addition to the names of the dead there was also written who had killed them and where. The question is being asked who had forwarded these bodies and for what reason, and where they were ultimately destined to be sent. In these days when railwaymen expect to find hidden away gold, jewels and other precious metals, to be confronted with caskets containing murdered persons is indeed a gruesome and unwelcome find.

If She Doesn't Talk Too Much.

The worst woman hater I know is my husband's brother. He is a bachelor M. D. and although busy with his patients, never forgets himself. He seems to dislike women through jealousy of them. As he is only forty-three, we intend starting a campaign at once to convert him. I have invited him to dinner Friday evening. I have also invited an amiable and beautiful young woman, who is a practitioner at the bar of justice. She has my cue to hold the floor for and in favor of women everywhere. She may win him over. If this interests you I will send you the next chapter.—Exchange.

Dub Golfer but Star Casult.

The latest yarn from the lunks concerns a golfer who took a 10 in making the third hole, and said to his opponent, who had a 6: "I'll take 8 here; 10 is too many. I don't like double figures."

"Why not say 9, instead of 8?" suggested the other.

"Well, you see, 9 is a bad number," was the reply. "You can cheat with 9; turn it upside down and it's 6, but 8 is 8, no matter how you look at it."—Boston Transcript.

Gold in Adobe Walls.

The Mexican city of Guanajuato, built near the oldest gold mines in the country, was originally constructed of adobe made of the refuse of these mines. As the early processes of extraction were very imperfect, the walls and floors of these buildings were thus full of gold. Things would have continued thus for an indefinite time, and the inhabitants would have been living yet in these valuable buildings, if the passage of a railway line nearby had not made necessary the demolition of about 100 houses.

Anne Boleyn's Clock.

The weights of a clock at Windsor castle bear on them "The Most Happy," and the clock is further inscribed with the motto, "Dieu et mon droit," and the letters "H. A.," entwined in true-lovers' knots. This exquisitely-made clock—only four inches deep and ten inches high—was a gift from Henry VIII to Anne Boleyn on her wedding day. It was in the possession of Horace Walpole, and Queen Victoria paid \$551 for it when the contents of Strawberry Hill were sold in 1842.

Unpleasant Bedfellow.

In California and on the staked plains in Texas where the nights are cold, it is the rattlesnake's custom to crawl between a traveler's blankets and snuggle up close to him till morning. Numbers of them are killed in camp every year by soldiers campaigning in that section; but as the rattlesnakes seldom abuse hospitality by biting the sleeper, few accidents happen. Still, there are men who, when out on a hard march, prefer to sleep alone.

Content With Little.

"It seems to me," said Marthe, with the wisdom that the simple in heart acquire with pain and travail, "that in this world a woman's only chance of happiness is if she loves. Being loved doesn't make her so. . . . Love's a fire, so it must have fuel to keep it afloat, but a woman's fire needs very little, and that is rather a good thing perhaps, for she seldom gets much."—"The Journey Home," by Sybil Lethbridge.

Sea Serpents Numerous.

There are plenty of sea serpents, and of all snakes they are the most venomous. In tropical waters they are vastly numerous, especially in the Indian ocean, where they are often seen literally by hundreds, swimming at the surface of the water. They are six to eight feet long, very fierce and will commonly attack human beings. Their bodies are flat, and almost wholly filled by the lungs.

Tactful Youngster.

Mother bought a box of candy, but it was nearly dinner time so would not give any to Sonny. While waiting for the dinner bell to ring Sonny said: "Mamma, let's play store." Mother was willing, so the child went on with his game of make-believe. Said he: "This room will be the candy store. You be the clerk and I'll be buying. but, oh, mamma, let's have real candy!"

Why High Noon Weddings.

All of us frequently use expressions of which we do not really know the meaning. Did you, for example, know that noon is the traditional hour for a wedding ceremony because in the olden days in England the bridegroom could not be relied upon to be sober any later in the day than this hour?

Be Truthful Always.

He that is habituated to deceptions and artificialities in trifles, will try in vain to be true in matters of importance; for truth is a thing of habit rather than of will. You cannot in any sudden and single effort will to be true if the habit of your life has been insincere.—F. W. Robertson.

Bad Temper.

It is an almost invariable rule that complaints are mutual. There are two sides to every bad temper. The truth is, bad temper is due less to the occurrence of irritating things than to the occurrence of things to irritable people.

Maggie Sacred in Norway.

The magpie is, or was, held to be sacred in Norway, and whoever lifted a hand against it promptly brought down a curse not only upon himself, but on his family, relations, intimate friends, live stock and household goods.

Napoleon's Height.

Historians say that at the time of his coronation Napoleon Bonaparte was a little under five feet, three inches, but he became stooped later in life and at his death measured scarcely more than five feet.

Awful Possibility.

Edward was talking cannibals to his sister. Rather frightened, the little sister said: "Oh, I hope they don't come here. If they do, the'd enter us up and then we won't have ourselves."

Tempered With Mercy.

Even the girl who gets mad when she is kissed by a man is always merciful enough to remember that "perhaps the poor fellow couldn't resist such a temptation."—Houston Post.

WILLIAM PIERSON

We again present William Pierson of Hunt County for Associate Justice of the Supreme Court. He won first primary by 24,853 plurality. Vote for him August 28th.

H. A. Goodwin left Tuesday for Dangerfield on a visit of about three weeks.

I want to sell my crop, 90 acres cotton and 12 acres of feed. Also two teams, lot of farm tools and two cows and calves. On Wellborn farm 15 miles west of Snyder. 9tf C. F. Neel.

Miss Mae Jones, who has been visiting in Sweetwater, returned home last Thursday accompanied by her friend, Miss Anita McDaniel.

RENEWED TESTIMONY

No one in Snyder who suffers backache, headaches, or distressing urinary ills can afford to ignore this Colorado man's twice-told story. It is confirmed testimony that no resident of this locality can doubt.

J. H. Cooper, proprietor of blacksmith shop, Sixth and Oak Streets, Colorado, Texas, gave the following statement November 4, 1915: "I have used Doan's Kidney Pills several times in the past for troubles with my back. From the results I obtained I think they are a good, reliable remedy. I gladly recommend Doan's to anyone suffering with their kidneys."

On April 12, 1919, Mr. Cooper said: "I can still recommend Doan's Kidney Pills as highly as I did when I endorsed them in 1915. Doan's certainly benefitted me a great deal."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Cooper had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

Buckhorn Tailors

Better Dress for Men

Snyder, Texas

WHY YOU SHOULD ORDER YOUR SUIT NOW AND HAVE IT DELIVERED WHEN YOU WANT IT.

Usually a man neglects ordering his suit until he is in need of it, then he is more than likely to be disappointed late delivery or goods being sold out. Late in the season usually finds the best patterns picked over and if he is lucky in getting first choice it is right in the heart of the busy season and it likely to take from two to four weeks to get it.

NOW HERE IS OUR PLAN

Come right on in while the stock is complete, everything spick and span. Make your choice now. We will take your measure send it in, have the goods cut and made, then deliver it to you at time you want it say October 15th. When you get ready for your it will be here for you, then you can pay for it when you get ready to wear it.

Yours for service, BUCKHORN TAILORS.

DON'T THROW YOUR DOLLARS AWAY.

just because they are worth about fifty cents if SPENT now.

Deposit them in The First National Bank, Snyder Texas and in a few years they will be worth much more than their present purchasing value.

It is the SPENT dollar that is CHEAP—The SAVED dollar is still VALUABLE.

Dollars are also SAVED when put in War Saving Stamps

THE FIRST NATIONAL BANK SNYDER, TEXAS

of Lands, Lots or Parts of Lots Returned Delinquent for Taxes for the Year 1919, Situated in Scurry Co., Tex.

State of Texas } I, W. M. Curry, Clerk of the County Court in and for Scurry County, Texas, do hereby certify that the above and foregoing is a true and correct copy of the delinquent tax roll arranged numerically as to abstract, Lot and Block No., as reported by S. T. Elza, Tax Collector for Scurry County, Texas for the year 1919 and previous years.
 Given under my hand and seal of office, this the 15th day of June A. D. 1920.
 (Seal) W. M. Curry, County Clerk, Scurry County, Texas.
 By E. C. Curry, Deputy.

Notice by Publication in Probate.
 The State of Texas, To the Sheriff or any Constable of Scurry County, Greeting:

You are hereby commanded to cause to be published (in a newspaper of general circulation, which has been published continuously and regularly for a period of not less than one year in your County) at least once a week for three consecutive weeks previous to the return day hereof, copies of the following notice:

The State of Texas, to all persons interested in the estate of E. C. Taylor, deceased, Hugh Taylor, administrator, has filed in the County Court of Scurry County on the 22nd day of June, 1920, his final report which said application will be heard by said Court on the 11th day of October, 1920, at the Court House of said County, in Snyder, at which time all persons interested in said estate are required to appear and answer said application, should they desire to do so.

Herein fail not, but have you before said Court, on the first day of the next term thereof, this writ, with your return thereon, showing how you have executed the same.
 Witness my hand and official seal, at Snyder, Texas, this 28th day of June, 1920. W. M. Curry, Clerk County Court, Scurry County, Texas.
 (L. S.) 9-11

which said application will be heard by said Court on the 11th day of October, 1920, at the Court House of said County, in Snyder, Texas, at which time all persons interested in said estate are required to appear and answer said application, should they desire to do so.

Herein fail not, but have you before said Court, on the first day of the next term thereof, this writ, with your return thereon, showing how you have executed the same.

Witness my hand and official seal, at Snyder, Texas, this 28th day of June, 1920. W. M. Curry, Clerk County Court, Scurry County, Texas.
 (L. S.) 9-11

The State of Texas, To all persons interested in the estate of Isabel Harden, E. J. Harden and Sophia Harden, minors, Henry James has filed an application in the County Court of Scurry County on the 23rd day of June, 1920, for Letters of Guardianship of the persons and estate of said minors, Isabel Harden, E. J. Harden and Sophia Harden.

Little Miss Cecelie Dorfman, who has been visiting Mr. and Mrs. Nelson Dunn of this place, returned this week to her home in Pittsburg.

A Traveling Man's Experience.

You may learn something from the following by W. H. Ireland, a traveling salesman of Louisville, Ky. "In the summer of 1888 I had a severe attack of cholera morbus. I gave the hotel porter fifty cents and told him to buy me a bottle of Chamberlain's Colic and Diarrhoea Remedy and to take no substitute. I took a double dose of it according to the directions and went to sleep. At five o'clock the next morning I was called by my order and took a train for my next stopping place, a well man." Grayum Drug Co.

D. A. Jones of the First State bank at Fluvanna was a business visitor in Snyder Wednesday.

"Rat-Snap Beats the Best Trap Ever Made," Mrs. Emily Shaw Says.

"My husband bought \$2 trap. I bought a 50c box of RAT-SNAP. The trap only caught 3 rats but RAT-SNAP killed 12 in a week. I'm never without RAT-SNAP. Reckon I couldn't raise chicks without it." RAT-SNAP comes in cakes. Three sizes, 25c, 50c, \$1.00. Sold and guaranteed by W. G. Ralston.

A. M. Curry left Wednesday for Miles on business.

Mr. Vaughan, Farmer, Tells How He Lost All His Prize Seed Corn.

"Some time ago sent away for some pedigreed seed corn. Put it in a gunny sack and hung it on a rope suspended from the roof. Rats got it all—how beats me, but they did because I got 5 dead whoppers in the morning after trying RAT-SNAP." Three sizes, 25c, 50c, \$1.00. Sold and guaranteed by W. G. Ralston.

Mrs. M. A. Banks has gone for a visit to her daughter in Johnson county.

Mr. and Mrs. J. T. T. Harris and son, Claud, motored to Oklahoma City Sunday. Mr. and Mrs. Harris returned Tuesday but Claud decided to stay and accepted a place as driller in the oil fields of Oklahoma.

Commissioners Court.

The Commissioners Court met in regular session last Monday. Besides the general routine of business such as allowing accounts, etc., they purchased a number of tractors from Sanders Bros. through Joe Strayhorn. They checked up the county treasurer and approved his report, and also checked up the 1920 tax rolls.

Why People Buy Rat-Snap in Preference to Rat Poison.

(1) Rat-Snap absolutely kills rats and mice. (2) What it doesn't kill it scares away. (3) Rats killed with RAT-SNAP leave no smell, they dry up inside. (4) Made in cakes, no mixing with other food. (5) Cats or dogs won't touch it. Three sizes, 25c, 50c, \$1.00. Sold and guaranteed by W. G. Ralston.

Mrs. W. B. McCormick is visiting in Lubbock this week. Miss Velma Hester is keeping books for the Snyder Utilities Co. while Mrs. McCormick is away. Miss Hester will likely be located permanently with this company.

Kill the Blue Bugs

And all blood sucking insects, simply by feeding Martin's Wonderful Blue Bug Killer to your chickens. Spray your chicken house with Martin's Sure Death. Your money back if not absolutely satisfied. Guaranteed by Grayum Drug Co. 13

O. L. Morrow left Saturday for Sipe Springs on business.

Mr. J. H. Byrd and family returned Sunday from a few days' visit on the plains.

A Great Remedy.

The merits of Chamberlain's Colic and Diarrhoea Remedy are well known and appreciated, but there is occasionally a man who had no acquaintance with them and should read the following by F. H. Dear, a hotel man at Dupuyer, Mont. "Four years ago I used Chamberlain's Colic and Diarrhoea Remedy with such wonderful results that I have since recommended it to my friends." Grayum Drug Co.

 Snyder, Texas.

FINAL WORD FROM COUNTY SUPERINTENDENT HOWELL

With a feeling of regret that this opportunity of saying a word to my friends through the Signal, I shall ever be grateful for the many kindnesses shown me while among you and more especially do I want to thank you for your hearty support during the recent campaign. I shall always cherish you in my memory and wish to always be so fortunate in finding such friends.

I am leaving my unfinished work in charge of competent hands, E. C. Hodson, who can be found in the office to attend to your wants. Uncle Charlie has been closely associated with me in my work, and understands the duties of the office exceptionally well.

All trustees desiring State Aid should come into the office during the first two weeks of September and assist Uncle Charlie in filling out these blanks. Some twenty-five schools are entitled to this aid, and can be had for the asking.

Efforts should be made to secure teachers before this aid is asked for. There is on file in my office some twelve or fifteen applications from teachers who live outside of the county.

The next teachers' examination is August 23 and 24. Thereafter the first Friday and Saturday in each month for the remainder of the year.

It has been a pleasure to serve you in the capacity of county superintendent. Nothing appeals to me more than to be associated with a work that makes for the betterment of the boys and girls of the country. I believe that I know in a measure, the school game, but I am thoroughly convinced that I do not know the first principles of the political game. —O. L. Howell.

Live Stock Insurance.
We insure every kind of live stock against death from any cause, especially registered stock. Boren & Erwin, N. W. corner of court house. 8tf

Miss Ollie Cheneweth is home from Canyon Normal where she has been taking a normal course.

A. M. Curry and son J. B. are visiting in Christoval this week.

OVERLAND BREAKS ANOTHER U. S. RECORD

Across the United States, 3,442 miles from New York to San Francisco, with an average of 27.2 miles to the gallon of gasoline! Twenty-five different drivers handled the car.

That's the new trans-continental economy record established on Monday morning, July 26th, when the Overland "How Much Gas" car found the end of its trail before the Overland store in Van Ness avenue, San Francisco.

The run was started from 50th street and Broadway, New York, at midnight, July 18th. Just 179 hours later, or roughly 7 1/2 days, this light-weight car had completed one of the most interesting and unusual trans-continental journeys in recent automobile history. Eleven states crossed, with all their variety of rough country roads, broken mountain trails, stretches of mud and weary wastes of desert-land; yet the car arrived in San Francisco ready and fit to make a return trip.

Throughout the run the most careful check was kept of the gasoline and oil consumed. Study of the log of the trip indicates that this Overland was improving in performance all the way across the continent. There was plenty of variety in the weather for the drivers—cloudy, fair, warm, intensely hot, cold and rain. The roads were just as varied. However, these averages between laps tell a story of consistent performance that a few years ago would have been considered an incredible motor car performance.

Serious Accident at Foch

Mrs. T. H. Bills, Calara Bills and Ralph Bills while motoring over the highway near Foch last Sunday happened to a serious accident. The car ran into a culvert place smashing the car. Mrs. Bills was badly hurt. Clara bruised about head, Ralph arm broken. Last reports were that all were doing well.

Strayed.

I had a three year old gray horse to stray, five miles north of Loraine, unbranded, about the 6th of May. \$10 reward to any one that will bring him in or let me know where he is. Phone No. 2 on 78. H. J. Mearse, Loraine, Texas. 9-11

Dr. Davenport and son Robert, M. A. Muller and W. W. Hamilton have returned from a short outing in Colorado.

Mr. and Mrs. Jim Ward of Abilene are visiting Mr. Ward Gross and family of this city.

Mr. T. C. Watkins and family have moved into the home place of Mrs. Jocie Wenninger on the East Side.

H. J. Garrard, of Carrizo, New Mexico, is here this week. Mr. Garrard was at the reunion of the Garrard family at Foch.

Mr. J. F. Arrington of Mt. Vernon is here visiting his daughter, Mrs. J. B. Joyce and family.

Mr. C. B. Aldridge left Sunday for Houston to spend his vacation with relatives at that place.

Ossian.
Ossian, a mythical Gaelic hero and bard, is said to have lived in the third century, and to have been the son of Fingal, a Caledonian prince and hero, whom he accompanied on various expeditions. The story goes that Ossian was carried away by his fairy hind-mother to the "isle of the ever young," but he returned later, and then old, blind and alone, "Ossian after the Feinn," he told the story of the heroes to St. Patrick. In 1760-63 James Mepherston published two epics, which he claimed to be translations from Ossian's poems.

Additions to Earth's Weight.

In the early days of its history the earth grew rapidly by the addition of meteoric matter. It is still growing in the same manner, though scarcely to an appreciable extent, for the mass of meteoric matter added yearly is reckoned to be only 20,000 tons. In the course of ages the larger planets have swept up practically all the fragments of the original disruption, and the only available source of supply of meteoric matter seems to be that brought by comets.

Chinese Made First Bread?

It is said that the Chinese were the first bread makers, and they made bread from wheat and rice as early as 1908 B. C. Probably the first bread made from yeast was baked in England in about 1034. Aerated bread, which rises from carbonic acid gas injected into the dough, became somewhat common in 1857, but practically all bread, bakery-made or home-made, owes its leavening to yeast or baking powder.

Why Clear Nights Are Colder.

A clear, bright starlight night in winter is always much colder than a cloudy one. The reason for this is that the heat of the earth is always thrown off more quickly when there is nothing to intercept it. Clouds act as a kind of blanket, and in preventing the earth's heat from escaping, tend to keep the atmosphere warm.

The Cat Had Tried It.

A friend visiting in the city called on me, and it being almost luncheon time, I asked her to have tea with me and try some of my cake I had just taken from the oven. When I got to the pantry door I found I had forgotten to close the window and my neighbor's cat was enjoying the last of my cake.—Exchange.

Most Sensitive Instrument.

The most sensitive instrument yet made is the bolometer, originally invented by Langley, which is used for measuring variations in the radiation of heat. It registers to a millionth of a degree. The heart of it is a platinum wire so thin that it cannot be seen except when a ray of bright light is reflected from it.

Snails Color Ocean's Beaches.

A curious change of color with the tide is noted in the beaches of Snails' Island in the Gulf of Mexico. The natural golden color of the sands is retained as the tide rises; but with the ebb of the tide the beaches become quite purple, a change that is due to the appearance of great numbers of tiny purple snails.

The Heart and the Pulse.

The walls of the large arteries are composed mostly of elastic connective tissue so that they resemble the consistency of rubber and accordingly are stretched by the blood pumped in by each heart beat. This is what causes pulse, which can be felt whenever an artery is close enough to the surface.

Important Anniversary.

April 24 is the anniversary of the appearance, in 1704, of the first continuous newspaper in America, the News Letter, of Boston. Since that time the development of the newspaper has been one of the potent factors in the rapid advance of the country's prosperity.

Avocado Rich in Fat.

The avocado or alligator pear contains as much nutritious fat as does ordinary cream, sometimes as high as 20 per cent. As it contains little starch or sugar, it might prove valuable in the diet of diabetics if it did not cost so much.

Paper Manufactured From Wood.

The chief raw materials from which paper is made are spruce, hemlock, poplar and pine woods, rags, straw and old paper. Three-fourths of the entire output is manufactured from wood pulp.

Greatest Cotton Producer and User.

The United States consumes more raw cotton and spins more cotton yarn than any other country, producing more than 99 per cent of the yarns required for domestic industry.

Easy for Some People.

A New York woman is said to earn more than \$5,000 a year designing favors and bon bon boxes.

Life Made Up of Surprises.

Life is a series of surprises. We do not guess today the power of tomorrow.—Emerson.

OUR RAINFALL FOR TEN YEARS

By Rev. Jas. H. Tate, Staff Correspondent.
Having kept some brief notes on weather conditions for several years, I have decided to give the readers of the Signal the benefit of such information as may be gleaned from these brief notes relative to the amount of rain we get and when we get it. I must say in the beginning that my figures are not exact since I do not possess a regular weather station outfit. Nevertheless, the figures given are probably not very far wrong. It should be remembered, too, that my observations have all been made at Fluvanna; but as the figures cover a period of ten years—Aug. 16, 1910 to Aug. 16, 1920—the average for Scurry county and adjoining counties is probably about the same.

It should also be remembered that this period includes the great drought of 1917-18. This fact naturally reduces our averages. The Texas Almanac and a rainfall map, published in the Dallas News in April, 1918, each indicates that this section should get an average rainfall of about 21 inches per year. My figures show an average of 17 1/2 inches for the period named. This apparent discrepancy is mainly accounted for by the great drought. In 1917 we had 5 7-16 inches of precipitation; in 1918 we had 12 5-16 inches. This accounts for the complete failure of crops during those years. We have already, this August, had more rain than during the entire year of 1917. More rain fell one afternoon—June 17, 1912—than during 1917. In 1919 we had 28 9-16 inches.

A study of my notes reveal the following facts which may be interesting to some, especially to those farmers who may care to consider them:

Only one January out of last ten had as much as one inch of rain. Only three Februaries and two Marches, out of ten, had as much as one inch. Now note the difference in precipitation with the coming of spring. Six Aprils, five Mays, eight Junes, seven Julies, six Augusts and eight Octobers, out of the ten, each had one inch or more during the same period. Note the change again: Only three Novembers and three, out of the ten, had one inch or more. Thus it will readily be seen that November, December, January and

February and March are, as a rule, comparatively dry months, while the remaining seven months (the cotton growing months) are, as a rule, reasonably seasonable. This, I think, fully accounts for the fact that cotton, maize, sorghum and the like usually do well here, while wheat and oats are not very sure crops.

Note this further fact: Four Novembers, three Decembers, six Januaries, four Februaries and three Marches (during the ten years) had two inches of precipitation or more. It would seem that these facts should give the farmer a pretty safe basis on which to determine the kind of crop to plant and when to plant it.

Finally: Whatever course we may pursue, or whatever business we may be engaged in; let us all remember, in the spirit of love and devotion, Him who is our supreme Benefactor, and without whom we can do nothing.

Coal Situation Will Be Serious.

A representative of our firm spent last week in the coal fields of Colorado trying to obtain an adequate supply of coal for this winter, and had very little success. We are assured of sufficient coal to supply the orders

taken last spring, and will fill them as rapidly as possible within the next sixty or seventy days.

It is practically impossible to secure coal at any price in the Colorado fields at this time, owing to the scarcity of cars for Southern rout-

ings and the underproduction at the mines.

In our visit to three of the largest fields in Colorado we found the production about 50 per cent of normal. The strike situation in Illinois and Indiana has caused coal men to flock to this field for help and they are offering almost any price for coal.

We don't think there is any doubt but that we can take care of the orders we have booked, but those of you who can secure coal had better do so. If you succeed in getting your coal supply elsewhere kindly notify us so that we may cancel the order on our books.

Coal operators and railroad officials have hopes that as soon as the grain is moved in the west, cars will be more plentiful and a sufficient number may be secured to take care of the southern routings of coal very nicely. W. T. Baze & Sons.

The End of the Age—Christ's Second Advent—The Millenium—a booklet of 38 pages. Argument and Bible reference carefully compiled, by Rev. Richard W. W. Roe, Camp Springs, Texas. Price 25 cents. The booklet may be bought at the Signal office.

All persons interested in the election of Hon. Pat M. Neff as governor of Texas are requested to meet in the county court room at Snyder, on Saturday, August 14, at 3:30 p. m. The election is close and we need to organize. This means all Neff supporters. The ladies are especially invited. M. E. Rosser.

The Labor Outlook.

There is no doubt but that the present labor outlook for gathering the local crop is serious. The season of 1919-1920 produced something over 18,000 bales in Scurry county under trying labor conditions. The present crop indicating almost twice this production will need considerably more labor to gather. Just how this labor is to be obtained in time is the problem. Without any plans to overcome this labor shortage beforehand, Scurry county farmers are bound to pay higher prices for labor than the communities in which this matter has been taken care of before the season is well under way.

Some individuals have already made arrangements for farm labor but no concerted effort seems to be under way and unless our people wake up we will be caught in the same tight we have always been in before.

It is to be hoped the various farmers' organizations and business men will co-operate in this matter with a view of having the labor situation well in hand before it is too late.

An Old Fault Finder.

An irritable and fault finding disposition is often caused by indigestion. A man with good digestion and bowels that act regularly is usually good natured. When troubled with indigestion or constipation take Chamberlain's Tablets. They strengthen the stomach and cause it to perform its functions naturally. They also cause a gentle movement of the bowels. Grayum Drug Co.

The Financial Situation.

The financial stress is not local but nation and world wide; with this country, however, it is not a condition brought about by the destruction of war or so much by the failure to produce as is the case in Europe, but rather a condition where high prices for commodities, loose credit

LIVER DIDN'T ACT DIGESTION WAS BAD

Says 65 year Old Kentucky Lady, Who Tells How She Was Relieved
After a Few Doses of Black-Draught.

Meadorsville, Ky.—Mrs. Cynthia Higginbotham, of this town, says: "At my age, which is 65, the liver does not act so well as when young. A few years ago, my stomach was all out of fix. I was constipated, my liver didn't act. My digestion was bad, and it took so little to upset me. My appetite was gone. I was very weak. . . I decided I would give Black-Draught a thorough trial as I knew it was highly recommended for this trouble. I began taking it. I felt better after a few doses. My appetite improved and I became stronger. My bowels acted naturally and the least trouble was soon righted with a few

doses of Black-Draught." Seventy years of successful use has made Thedford's Black-Draught a standard, household remedy. Every member, of every family, at times, need the help that Black-Draught can give in cleansing the system and relieving the troubles that come from constipation, indigestion, lazy liver, etc. You cannot keep well unless your stomach, liver and bowels are in good working order. Keep them that way. Try Black-Draught. It acts promptly, gently and in a natural way. If you feel sluggish, take a dose tonight. You will feel fresh tomorrow. Price 25c. a package—One cent a dose. All druggists. 3. 69

and a surplus of funds had brought around a situation where the vast surplus which the American nation as a whole was accumulating was being squandered in unnecessary, and speculation of the most illegitimate type. The value of a dollar had depreciated until it was a common saying backed up by statistics that a dollar was only worth 50c. The gold reserve of the federal reserve banks fell below the legal requirement, the business barometer of the country indicated a storm brewing and the federal reserve board called a halt with a view to stabilizing industry and rehabilitating the credit of the nation. A dollar spent without a dollar's worth in return is that much lost in the world of industry. Raw products, labor and other articles of commerce were not measuring up to the standard of values necessary to bring about the reconstruction of the after-war period. As soon as the armistice was declared the nation jumped from the extreme of frugality into one of riotous spending. Liberty bonds, savings and everything of value

were thrown on the market to be exchanged for articles that as soon as purchased became a liability instead of an asset; like drunk men our people are now waking up with nothing left after this spending orgy except a headache and an empty bottle. The big merchants, manufacturers, mill owners and others in their class are the first to suffer. In the long run there is no question but the small man will be more largely benefitted than anyone. With the splendid outlook confronting the people in

this section for an opportunity to accumulate a surplus it is to be earnestly hoped that expenditures from now will be commensurate with needs and that bank accounts and investments in genuine good securities will be in order to tide us over the long hot sunny days that will surely come back.

Women in Pants.
 By Jas. H. Tate.
 The time has come when a good many women and girls are donning the style of dress which properly belongs exclusively to men and boys, and are going forth to work or play.

The writer recognizes the fact that, in discussing this subject, he is apt to expose himself to the wrath of some of the fair sex whose friendship he sincerely desires to retain unimpaired. This article is not written in the spirit of harsh criticism, but rather for the purpose of warning; for the purpose of suggesting a few things for consideration. Come, kind friends, let us sit down and reason together about this matter. In the very beginning the writer admits that Texas has no law against the practice. Why should such a law be necessary? There is, however, a moral law against it, which is as follows: The woman shall not wear that which pertaineth unto a man, neither shall a man put on a woman's garment: for all that do so are an abomination to the Lord thy God." (Deut. 22:5). Thus the all-wise Father, infinite in wisdom, justice and goodness, lays down a very important rule for the guidance of both sexes in this very important, matter of dress. Certainly there is a good and sufficient reason for this. Let us look for it.

In the first place the practice has a strong tendency to draw the woman down from her high social plane to the common level occupied by men. The line of distinction is no longer clearly drawn. It adds a touch of coarseness which will inevitably grow and intensify as the years go by. Women and girls thus attired are certain to be exposed to coarse and immoral conditions and influences. They will very often see things they ought not to see, and hear things they ought not to hear for the simple reason that the sex is not readily recognizable. This naturally and unavoidably brings about a familiarity and coarseness of manner and speech between boys and girls and men and women. Any thoughtful person can readily see the drift of this whole matter, so clearly foreseen by our most beneficent Father thousands of years ago.

In this, as in almost any other case, I think some just and reasonable exceptions may be made. For instance, when a woman is doing farm work, handling machinery, such as might entangle her skirts and cause serious injury to her person, she may very readily be excused for donning trousers. In such a case, however, she is in a large measure in private; she is in the field away from the public, and usually in company with members of her own family. Even this practice, while evidently admissible, should be carefully guarded; for, as we all know, such practice is apt to become a fad and rapidly grow into popularity. Such a fashion would certainly deal a serious blow to good morals.

By all means let these women and girls who find it necessary at times to "wear that which pertaineth unto a man" stay off the public roads and streets, and away from other public places. This we urge in behalf of pure womanhood and good morals. The Lord knows best; let us follow His advice.

The Crop Situation in Scurry County.

A rough estimate of the total acreage in cultivation in the county this year places it around 150,000 acres, divided on the basis of about 90,000 acres in cotton and 60,000 acres in feed. There perhaps never was a year when the stand and general condition of the plant was better at this time of the season. So far the insect pests have shown no general activity and the plant is fruiting rapidly. Practically every section of the county has a number of crops that are good for half a bale at this time. The 1914 crop yielded something over 30,000 bales with about 60,000 acres in cultivation. This year's crop is indicating between 30,000 and 40,000 bales.

Early feed has suffered considerably but late feed with a small amount of rain will make good crops. The present outlook, however, on the feed situation is not favorable for a surplus and the general prospect is that on account of the shortage of early feed, the smallness of the acreage planted and our rapidly increased population, that the farmers will have to use caution in saving and disposing of it. The farmer with a big feed crop this year will undoubtedly reap the rewards hereof before another crop is made.

R. C. Huggins returned Thursday from a visit with relatives in Selma, Tenn. Mr. Huggins says that in all his route over three or four states, he never saw anything that looked as good as Scurry county.

Affidavit of Commissioners Court to Treasurer's Quarterly Report.
 In the matter of the Quarterly Report of D. E. Banks, County Treasurer of Scurry County, Texas, and the affidavits of the Commissioners of said County.

Commissioners Court, Scurry County, Texas, August Term, A. D. 1920.

We, the undersigned Commissioners of Scurry County, Texas, and W. S. Adamson, County Judge of said Scurry County, constituting the Commissioners' Court of said County, and each one of us, and do hereby certify upon our oaths that on this, the 11th day of August, A. D. 1920, at a regular term of our said Court, we have compared and examined the quarterly report of D. E. Banks, Treasurer of Scurry County, Texas, for the quarter ending on the 31st day of July, A. D. 1920, and, upon finding same correct, have caused an order to be entered upon the minutes of the Commissioners' Court of Scurry County, stating the approval of said Treasurer's report by said Court, which said order recites separately the amount received and paid out of each fund by said County Treasurer since his last report to this Court, and during the time covered by this report, and the balance remaining in each fund on the said 31st day of July, A. D. 1920, and have ordered the proper credits to be made in the accounts of said Treasurer, in accordance with said order, as required by Article 867, Chapter 2, Title XXV, of the Revised Statutes of Texas, as amended by an act of the Twenty-Fifth Legislature of Texas at its regular session.

And we, and each of us, further certify, upon our oaths, that we have actually and fully inspected and counted the amount of money, in cash and other assets, in the hands of said Treasurer, belonging to Scurry County on this day and date, and found the same to be as follows, to-wit: Total cash on hand belonging to Scurry County in the hands of said Treasurer, on deposit in Snyder National Bank, of Snyder, Texas, \$102,750.74.

Assets in addition to the above amount of money, as actually and fully counted by us in possession of said County Treasurer:
 C. H. Fund, No. 6, \$2000.00; No. 7, \$1300.00; No. 23, \$800.00; No. 30, \$1300.00; \$5400.00. No. 11, \$1300; No. 6, \$800.00; No. 12, \$600.00; No. 22, \$900.00; \$3600.00. Ira Ind. \$2500.00; L. Bonds, \$1500.00; Vic. Bonds, \$1000.00; City W., \$500.00; \$5500.00; \$14,500.00. Jail fund, No. 2, \$1100; No. 24 \$1200; Dunn \$1800 L. Bonds \$400; stamps, \$600; \$5100 R. and B. Sinking, No. 15, \$1500.00; L. Bonds, \$800.00; City W., \$120.00; \$2420.00. Total, \$21,320.00. Grand total, money and assets, \$124,670.74.
 Witness our hands this 11th day of August, A. D. 1920.

W. S. Adamson,
 County Judge.
 D. F. Wilson,
 Commissioner Precinct No. 1.
 J. F. Dowdy,
 Commissioner Precinct No. 2.
 J. M. Cuthbertson,
 Commissioner Precinct No. 3.
 J. L. Patterson,
 Commissioner Precinct No. 4.
 Subscribed and sworn to before me by W. S. Adamson, County Judge, and D. F. Wilson and J. F. Dowdy and J. M. Cuthbertson and J. L. Patterson, County Commissioners of said Scurry County, each respectively, on this, the 11th day of August, A. D. 1920. W. M. Curry,
 Clerk County Court, Scurry County, County, Texas. By E. C. Curry,
 Deputy.

Primitive Baptists are Grateful.

To the Snyder Signal:
 I take this method of thanking the good people of Snyder for their hospitality shown the Primitive Baptists during our association held at Snyder. We feel to thank you good people for the assistance you gave us during our time of worship, also your attendance and good behavior. So far as I know there was not a jar of discord in any way, and I can say of a truth we all felt that God was with us in the whole matter, both spiritual and otherwise. There were eleven came forward and asked a home with us, while there were several not ready for baptism. Also, the church extended the right hand of fellowship to a sister who had joined at her home while sick. Bro. R. B. Hester and several other members met at her home at her request some time ago, and she had not been able to come to our church before this time. May God's richest blessings rest upon all who feel interested.
 Written in respect to the good people of Snyder. J. R. Higgins.

REAL SPANISH AIR TO HAYAKAWA FILM

"The Brand of Lopez", Robertson-Cole Picture, is a Wonder of Authentic Atmosphere

Spanish dancers are part of the realistic atmosphere which Director Joseph De Grasse provided for "The Brand of Lopez," the Robertson-Cole Superior Picture which is opening today at the Cozy Theatre for Thursday. The picture opens by showing the interior of a gay Spanish cafe where Sessue Hayakawa, in the role of "Lopez" has gone with the Spanish beauty he loves.

A whole street of houses of Spanish architecture was erected in the Hawthorn studios for use in the production, while single houses of the Spanish period of California were used for outside locations. A glimpse also is shown of "Lopez" as he is being cheered by the populace of a Spanish city whom he is entertaining in his vocation of a bull-fighter.

The story told is a powerful one regarding the disappointments which came to a matador, who seemed pursued by adverse fortune until he becomes a father. A tremendous climax crowds upon the quick succession of events following the birth of a baby boy, whose arrival promises to be the salvation of the central character.

Miss Annie King of Wills Point, is in the city, the guest of her sister, Mrs. J. A. Howell.

Weather and Crops

The rainy weather which started up here the middle of last week still keeps up the motion. Heavy showers fall every day. The ground is saturated and creeks and branches are becoming little rivers. It was estimated that the rainfall here was seven inches in five days and the end is not yet. One man stated that the rain gauge ran over full and the bureau clerk had to measure the gully that carried off the overflow. There is as yet no way to measure the rain. The feed crop is simply immense and if we escape bollworms the cotton will be enormous.

Rev. W. H. Sims closed his meeting on the Plains last week and reports started a meeting this week at Dunn fifteen additions to the church. He but was rained out. The appointment stands there for the fifth Sunday.

WANTED—50 young hens. Will pay \$1.00 a piece. Must be young—G. F. Willis, Snyder, Texas, P. O. Box 523. 101t

Mr. J. J. Speer of Weatherford is visiting Mr. Rollins of this place.

Mr. E. B. Roley and his sister, Miss Ruth Roley of Altus, Okla., are visiting their aunt, Mrs. W. H. Wilson.

WANTED—A housekeeper; will pay good wages. Apply to Mrs. M. D. Gardner, Foch, Texas. 10

BOLL WEEVILS PLAY HAVOC IN DENTON

Denton, Aug. 15.—Fear of serious damage to cotton from the boll weevils is growing among Denton county farmers. Another heavy rain fell the second of the week and the weather has been cool and cloudy for several days. Weevils are at work in all parts of the county and unless there is hot and dry weather at once farmers say a serious situation faces cotton growers.

MORE RAIN AND MORE RAILROAD TROUBLES

During the early stages of the present rainy spell a washout on the Santa Fe at Pyron caused a considerable delay of traffic but the road was repaired so that trains passed over it Wednesday morning. Then there came heavy rains during Wednesday and there was a more serious washout than before. The south-bound Santa Fe passenger train Wednesday evening has been held here and the Thursday morning train came in and was stopped here. Thus two trains to the South were waiting here Thursday and scores of passengers come down town for hotel accommodations.

No northbound trains have come since Wednesday morning. One of the Santa Fe trains was ordered to double back to Amarillo.

The official weather report shows two and a half inches of rain here up to Sunday and five and a half inches since Sunday up to Thursday, making a rainfall of eight inches in nine days.

Market Changes Hands

W. R. Bell sold his meat market this week to Renza Crowder. He says he doesn't know yet what line he will take up.

Warehouse Notice

A meeting of the Scurry County Warehouse Association is hereby called to meet in Snyder at 2 P. M. Saturday, August 21st for the purpose of electing officers for the next year and the transaction of such other business as may properly come before it. All members are urged to be present.

A. C. WILMETH, Pres.
HORACE HOLLEY, Sec.

The Monroe Doctrine has been in force for about one century, and in all that time there has never been occasion to put it in operation. Article X of the league covenant is the Monroe Doctrine applied to all nations. The fact that the Monroe Doctrine is inexistence has served the purpose of preventing European countries from meddling with affairs of state in the Western Hemisphere. What nation would be rash enough to attack another nation for the purpose of filching it of its territory, with all the other nations in the world forbidding it? Article X guarantees the territorial integrity of all nations "as against external aggression," only that and nothing more.—Abilene Reporter.

NEFF CLUB AT FOCH 100 STRONG

A. J. Kemp of Foch was in the city Wednesday. He said Dr. Morrow, chairman of the Neff Club reported the Club at Foch 100 strong.

First Baptist Church

Pastor at home after great meeting on the Plains. Will preach Sunday morning. Night service given way to revival meeting.

Sunday school promptly at 9:30. Preaching service promptly at 10:30. Service classes at 11:30. Be present for these two hours and make them glorious hours.

W. H. SIMS, Pastor.

McCarthy-Stephens

Mr. B. M. C. McCarthy and Miss Ruby Stephens of the Camp Springs precinct were married here last Saturday night by Rev. L. S. Knight at the preacher's home in west Snyder.

Mr. and Mrs. Jess Thompson of San Antonio, started out in their car this week to come to Snyder to visit the folks, and maybe stuck in mud somewhere along the way. They had not arrived here Thursday morning. They phoned in Tuesday from far down the line that they were pulling through mud all the way. Mrs. Thompson thought Thursday morning that maybe they had gotten to Colorado and would get here during the day.

FOR SALE—6-room house, well improved in West Snyder. Will sell cheap if sold before I leave Snyder next Wednesday. Who?—Miss Lizzie Smith at Hugh Boren's.

Born Aug. 3, to Mr. and Mrs. J. L. Langston, 8 miles northeast of Snyder, a boy.

FOR SALE—Windmill tower, tank and piping, cheap. See Miss Lizzie Smith at Hugh Boren's.

Notice

On and after first of September, on account of the high cost of labor, I will be compelled to raise meals to 60 cents. Rooms and board \$12.50 per week. Hotel Snyder. 12p

The Commissioners' Court has been in session this week checking the tax rolls.

Mr. C. M. Taylor of Van Alstyne is here on a visit to his brother, Frank Taylor and family.

Mrs. W. B. McCormick has returned from a visit on the Plains.

Born, Aug. 17, to Mr. and Mrs. S. F. Whitley, east of Snyder, a boy.

Misses Margaret Wilson and Ruth Roley visited in Roscoe Tuesday and Wednesday.

Joe is a great stickler for the constitution and never changes his mind but it looks like from the above, as well as many other instances, he is just about as changeable as the moon.

Arton West of Loraina is the guest of his cousin, Odell Blackard.

Judge Adamson returned Wednesday morning from a business trip up the Orient. He says the creeks up in that region were all running full.

Supt. O. L. Howell expects to ship out his household goods Saturday for Vaughan, New Mexico, where he and Mrs. Howell have accepted places in the public schools.

Mr. E. C. Dodson will act as assistant county supt. of public instruction to fill the unexpired term of Supt. O. L. Howell. Uncle Charles is an old school teacher and is well qualified to fill the place.

Mr. J. S. Bradbury and family who have been residing at Weatherford for awhile have moved back to their home in Snyder. Mr. Bradbury has been in the railroad business, but has come back to Snyder to take a position as bookkeeper for the Fuller Oil Co.

Mr. and Mrs. Ernest Morris and daughter of San Marcos, Mr. and Mrs. Clayton Martin and son of Quanah and Mrs. Ollie Bailey and son of Burkburnett are guests of Mr. and Mrs. J. C. Moore and Mr. and Mrs. L. A. Martin.

J. F. Merrill was in from his farm Wednesday to find a residence. He is fixing to move to town to send the children to school. Mr. Merrill says he has noticed just a few boll worms in his cotton.

FOR SALE—10 Poland-China pigs, about two months old. See Pat Johnson.

Miss Lee Taylor of Van Alstyne, is visiting friends and relatives in Snyder.

Liv Davis wandered in Wednesday morning from over east.

Finest farm land on the south plains, any size tracts, ten to twenty dollars per acre. Small payment down and long time of 6 per cent on balance. Atry Realty Co., Snyder, Texas.

Letter from Supt. Reeves
Aug. 11, 1920.

Dear Mr. Blackard:
The State Department advised me that we added 1 1/2 credits of affiliation to the Snyder school last year, making in all 21 credits.

I am writing you about it as I am sure you are interested to learn of your success.

You may give this report to the Signal.

I have had a pleasant summer's work.

With best wishes for you and all the people of Snyder, I am,

Sincerely yours,
S. L. RIVES.

Farm Wanted

Wanted to hear from owner of farm or good land for sale. Must be priced right. Write W. L. Jones, Box 551, Olney, Ill. 10p

THEDA BARA COMING IN "LA BELLE RUSSE"

The dancer's smile often veils hidden sorrow because she is sro in satin slippers and vapory ve flutter merrily about her, people accustomed to regard her as happy. But Theda Barra, in "La Belle Russe," which is coming to the Cozy Theatre Thursday shows that a g exterior often masks a tragedy.

"La Belle Russe" is the photoplay version of the famous Belasco stage success of the same name. It is the story of a dancer whose marriage a nobleman brings upon her husband the contempt of his family. He disinherited and she struggles with him faithfully through poverty, a privation, secretly giving dancing lessons so that they may not starve. War tears the husband from her side and she continues her struggle bravely so that her baby boy may not suffer hardship.

The picture ends with a stirring climax which is said to come as a tremendous surprise.

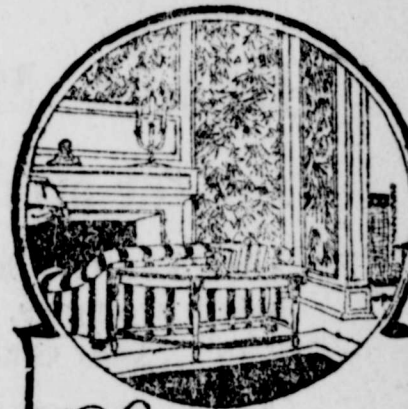

Mr. and Mrs. C. E. Wade of Fort are guests of S. C. Porter a family.

Posted.

This is to notify the public that the W. D. Sims pasture, now in my charge, is posted. Those failing to note the warning will be prosecuted.
Luther Morrow.
