SNYDER, TEXAS, THURSDAY, APRIL 23, 1925

HIT IN HEAD WITH SLEDGE HAMMER.

A sledge hammer that was being used by a fellow-laborer flew off the handle and hit Carl Keller on the head while Carl was working at the city gravel pit last Friday. For a while it was feared that Mr. Keller was badly injured, but he soon rallied and it is now believed that no permanent injury will be sustained.

SCURRY COUNTY CLUB AT CANYON

Saturday evening twenty members of the Scurry County club at Canyon met at the home of Miss Evelyn Boone for a social. Misses Faye Lemons and Mabel Houston had planned the games which the group enjoyed on the lawn for two hours.

When the directors gave orders to return to the house no one felt that this meant the culmination of their joy, but only an opportunity to play some other games. No one realized what this game was until Faye Lemon and Wayne Boone entered the room with large serving bowls of ice cream and a box of cakes. After they had served the group in desert style the game now resolved itself into a race to see who could eat the most cream. The final decision was that as everyone had eaten all the cream they could, no one really won.

At ten o'clock the club members bade the hostess good night with appreciations for the evening's entertainment. Those present were:

Misses Frances Bentley, Blanche Boone, Henrietta Callis, Lavada Edwards, Dabble Fowler, Elizabeth Hays, Ethel Lynn Hays, Mabel Houston, Faye Lemon and Faye Morgan. Messrs. Fred Boone, Wayne Boone, Ward Golden, Franklin Tate and Mr. and Mrs. Grady Biggs and Mr. and Mrs. Floyd Golden.

HARD ON THE SNAKE BUSINESS.

Last week the Times-Signal made note of the fact that several of our leading snake-catchers were going into the snake business on a big scale and that they would probably ship out a whole car of live rattlers within a short time. The snake business in Snyder got a big set-back this week when the two station agents here declared most emphatically that they would refuse to superintend the loading of the snakes. We understand that the station agents here have been informed that they can be compelled by the interstate commerce law to superintend and bill out any cargo. A. C. Preuit, we are informed, has decided to be ready to face the music, if compelled to ship the rattlers, and has ordered several copies of the following books: "Every Man His Own Snake Charmer," "Snake Charming Made Easy," "Hindoo Secrets of Snake Charming," "Catching Cobras Alive," "How St. Patrick Rode Ireland of Snakes."

R. C. Herm, who claims to be handling everything that lays eggs, and who is believed to be a silent partner in the new snake business, declares that if the two railroad agents of Snyder refuse to accept the snakes for shipment, he will load them in his new Dodge truck and haul them to Sweetwater where there is sharper competition in railway freight traffic, and ship the snakes from that city.

WILL EXTEND PAVING PROGRAM.

The Times Signal has been informed that East Bridge Street will be paved with cement and bricks two blocks east of the public square instead of one block. The street beginning at the southeast corner of the square may also be paved to the R. S. & P. railroad instead of one block as originally planned. This street will be graveled from the R. S. & P. tracks east to the Santa Fe railroad.

Paving is almost as contagious as smallpox. Snyder has been sleeping on her rights too long, but her enterprising citizens are now ready and willing to set their town out of the country-town class into the class with other live cities of its size. The present paving program will be extended into the residential districts of Snyder, and there is no telling how many blocks will be paved before the present program stops.

Mrs. Elza, Mrs. McCoach and Mrs. C. R. Buchanan attended the Presbyterian meeting at Abilene last week. They report a fine meeting with unusually good attendance.

Mrs. Pat Jones was here from Fluvanna Tuesday. The Times-Signal office acknowledges a pleasant call from Mrs. Jones.

BUILDING POOL AT GOLF LINKS.

The big bathing pool at the golf links has been completed, all except the work of building the cement walls. A. L. Martin has the contract and informs the Times-Signal that the pool which is 40x90 feet will be completed in a few days.

WILL PUT OVER INSURANCE ASSOCIATION.

The Times-Signal is informed that Mr. Neil Gross, who for the past five years has been associated with the Grayum Drug Company of this city, has joined A. J. Towle in the Local Benefit Association of this city. It is the intention of Mr. Gross to devote all of his time to the organization, which he and Mr. Towle hope to make one of the strongest mutual benefit organizations in West Texas. The organization has been going successfully for some time, but since Mr. Gross has become interested in it, it has taken on much more new life and new members are being added at a rapid rate.

The First Limited Benefit Association is a Scurry county mutual protective association made up of men, neighbors and friends banded together to help one another. It is established on right and correct fundamental principles and is well worth investigating. A policy in the organization costs but a trifle, and during your membership in it you are well protected; besides, it is a home organization, and an institution in which you can have a voice in its management and operation.

The Times-Signal is glad that Snyder and Scurry county can boast of such an institution. It is made up of home men and will be the means of keeping Scurry county money at home, saying nothing about the safe protection it will assure its members and the very nominal cost of a membership in the organization.

STRANGERS INJURED IN AUTO ACCIDENT.

An automobile containing Mrs. Fulfur, two married daughters and a son, all of Thurber, turned over on the highway east of Snyder last Thursday, breaking Mrs. Fulfur's collar-bone and injuring her internally. They were treated by a local physician and were able to continue their journey, although Mrs. Fulfur was suffering considerably.

"DOC" JOYNER SHOT.

"Doc" Joyner, a young farmer living northeast of town was shot with a shotgun on the farm of Charlie Morton last Friday evening. Just before the shooting, Mr. Morton and a relative, who was at Mr. Morton's home, saw through a field glass some men digging in the ground in Mr. Morton's field. They went to the place and found a gallon of corn, it is said.

Believing that the liquor had been placed there for some one who would come for it, Mr. Morton and his relative proceeded to wait and guard the liquor.

It was not long before a car stopped nearly opposite where the liquor was buried, and in a few minutes some one came over into the field. Mr. Morton spoke, it is said, and the man started to run. He was ordered to halt, and on refusing to obey, Mr. Morton opened fire, not knowing who it was or whether he had hit the man until the next day. Several shots struck young Joyner, but fortunately he was not badly injured. The Times-Signal is informed that Mr. Joyner says that he had gone over into Mr. Morton's field to look for his cap which had blown off when Mr. Morton shot him. The Times-Signal knows nothing about the facts in the case, the foregoing being an account which we are informed was given the officers.

Mr. and Mrs. Clarence McMinn were here from Roscoe Monday. Clarence is operating a filling station at Roscoe and says that his business is growing all the time.

Mr. and Mrs. Joe Strayhorn returned the latter part of last week from Marlin, where they had been for two weeks recuperation. Mr. Strayhorn says that the whole medical fraternity of Marlin examined him and gave him a lot of medicine to take. He says that it was a good thing that he did not take any of the medicine while in Marlin, because if he had he never would have been able to get back.

Mr. and Mrs. Judd Parker, who live 5 miles north of town, returned Tuesday from Lubbock where Mr. Parker recently underwent an operation.

Miss Cecile Strayhorn visited in Rotan last Friday.

DR. HOWELL APPOINTED HEALTH OFFICER.

The city council has appointed Dr. R. L. Howell as city health officer, the doctor kindly consenting to act in that capacity. The office of city health officer is one that no doctor wants, but it is highly important that every town of any size have one. With Dr. Howell's advice and under his supervision, why not institute a clean-up campaign before hot weather sets in?

THE REICHARDT GIN BURNS.

The Reichardt gin in the southeast part of the city burned at an early hour last Friday morning. The origin of the fire is unknown, but Mr. Reichardt thinks that it must have been set on fire by trespassers who could have entered the room where the fire seemed to have originated by means of a window.

The fire boys made a run, but were unable to save the gin. All other buildings were saved by the chemical engine.

It was a hard blow to Mr. Reichardt who carried only about \$6,000 insurance. He says that he intends to rebuild if he can arrange his finances so that he can possibly do so.

FINE RAIN WEDNESDAY NIGHT.

A fine rain fell over Scurry county Wednesday night, the first of any consequence in several months. The fall at Snyder was practically one and one-half inches. It was reported heavier at a number of other places in the county, while a three-inch rain was reported at Rotan. Ira, Dunn, and Hermleigh report fully two inches. There was some hail, but it was not heavy enough to do any serious damage. It is said that the rain was light at Justiceburg and that Post scarcely got any.

TO THE CITY OF SNYDER.

By virtue of authority vested in me as Mayor of the City of Snyder, I hereby declare and designate the First Week in May as a general CLEAN-UP WEEK. Everybody join us in cleaning up your premises. Put your rubbish in boxes, cans or sacks at a convenient place on the streets or alleys and the city will remove it to the dumping ground free of charge. Let us make Snyder beautiful. Nobody here but just us and I assure you that "Cleanliness is next to Godliness." A long pull, a strong pull, and a pull all together for just one week. Do your part and we will do ours and let us take Snyder to a good cleaning.

FRITZ R. SMITH, Mayor.

SNYDER BAND TO GIVE CONCERT AT IRA.

On Friday night, May 1, the Snyder Municipal Band will give a concert at a pie supper to be given by the Ira band at Ira. The Snyder band will share in the proceeds from the supper. Snyder folks are invited to attend this supper and help the boys out.

INTEREST IN WOODMAN CIRCLE

Tuesday night, Mrs. Tressie Goldsticker of Stamford, our District Manager, with the assistance of Mrs. Hattie Fultz, North West District Captain, organized a degree team for the Woodman Circle of 1269 with the members from Ira, Fluvanna, and Snyder. Mrs. Goldsticker will be here to drill them again, Friday afternoon at 2:30. All members are urged to be present.

Prof. and Mrs. Watson were here from Hermleigh Saturday. Prof. Watson says that the Hermleigh school is moving along nicely, and the Times-Signal is confident that Prof. Watson was not doing himself, his assistants and the progressive people of Hermleigh justice by merely saying that the school was moving along nicely, because it is said that Hermleigh has by far the best school in the history of the town.

Walter Gentry who has just recently moved to Kerrville came in Wednesday afternoon. He says that conditions in the Kerrville country are in a bad way as they have not had a rain there since last June and that the sheep raisers are losing from fifty to seventy-five head of sheep a day. They are all having to feed as he states that there is absolutely no grass in that section of the country.

W. H. Richardson of Dunn visited his son, Earl, at Lubbock last week.

Odell Head, who is attending the Normal at Canyon, visited his parents, Mr. and Mrs. C. C. Head, of Snyder, last week.

Makers of Snyder

ERNEST TAYLOR.

The subject of this sketch first saw the light of day in Denton county, Texas, in 1891. He came to Scurry county with his parents in 1899, locating at Ira. It was while following old Beck up and down the cotton rows that he foresaw the great future and the latent possibilities of Scurry county. Accordingly, he invested some of his first earnings in Scurry county land.

After traveling all over the United States, in 1919, he married Miss Louise Smith of Tennessee, and located in Snyder. For about four years he was actively engaged in buying and selling Scurry county land, it having been often said of him that he handled more land and was responsible for more good farmers buying land in Scurry county than any other two men in the county, "I never in my life insisted on anyone buying land that I knew he could not make a good living on by cultivating it," Mr. Taylor said to a Times-Signal representative Thursday. This policy not only brought to Scurry county men who prospered, but it also brought to Mr. Taylor the success that he deserved.

In 1923, Mr. Taylor was elected vice-president of the First State Bank & Trust Company of this city. This office he held until February, 1924, when he was elected president. Since that time Mr. Taylor has devoted most of his time in making the First State Bank the strong and popular institution that it is today.

The Times-Signal is going to say without fear of any contradiction whatever that Ernest Taylor is one of the most public-spirited men in Snyder, always found in the front seat of the progressive band wagon, and always willing to contribute his part in promoting any enterprise tending to the civic, social and moral uplift of his town and county.

TWENTY-NINTH ANNUAL CONVENTION OF NATIONAL CONGRESS OF P.-T. ASSN.

Texas will have the honor this year, on April 27 to May 2, of entertaining the National Congress of Parent-Teachers for the first time since its organization in 1897.

This Congress will meet in Austin at the Hotel General F. Austin at 10 a. m. The general theme of the meeting will be "The Home and the School in Education." There will be addresses by some of the leading educators of the United States. Much of the time will be given to the serious study of the work of the organization. The State President, Mrs. C. E. Maddocks, of Ranger, calls on Texas as a whole to make this convention the success it should be. All delegates will be cared for in the homes and hotels of the city. There will be many special features such as the Fellowship banquet, Roof Garden of the Stephen F. Austin; the May Day program at the stadium by the school children of Austin; Reception at the Executive Mansion; Tree Planting and the President's March Through the Capitol grounds. Conference for Men Delegates. "Texas Special Chicken Barbecue" followed by Camp Fire Girls Pageant and a play program at Barton Springs.

The city of San Antonio has arranged for a special train on the closing day that the convention may visit with the city the Alamo, the shrine of Texas Independence, the old missions and the many other historical and beauty spots of that city.

The great Empire of Texas, with her wonderful history, her mighty achievements and her vast resources prides herself on making this convention a memorable one.

Henry Rosenberg, manager of the Economy Dry Goods Company of Snyder, returned Wednesday evening from a business trip to Brownwood. Henry reports a good trip and says that things will be much better since the rain.

TAKING STONES OUT OF HIGHWAY.

Commissioner Jodie Monroe is having the cobblestones taken out of the highway between Snyder and the Garza county line. When this part of the highway was built, the gravel, was not screened, and as a result, the larger stones left in the gravel have made the road very rough. These stones are being dug out with picks and are hauled to culverts and other places in the highway to prevent the water from damaging the road. Mr. Monroe says that he believes that the highway will be given a coat of surfacing after these stones have been removed.

There are stretches that do not have those stones, but it is Mr. Monroe's intention to have the stones removed in the worst places the entire length of the highway.

Mrs. E. B. Wilson of Breckwalker is here visiting her son, Ben Wilson, and entertaining her new grandson that arrived at the Wilson home recently.

Mrs. Leona Renfro of Venus, Johnson county, is here visiting her parents, Mr. and Mrs. T. J. Broxton. Mrs. Renfro says that when she left home last Tuesday the wind was still blowing a gale and that everything had burned up on account of the long drought.

Ed Sutherland returned last Saturday from Eldorado, Texas, where he had been on business. He says that it is awfully dry there and that people are greatly discouraged.

The many friends of Mr. and Mrs. J. L. Suits, who for some time made Slaton their home and was editor of the Slatonite, but now owner and publisher of the Lorenzo paper, will be sorry to know their son, Tom, Ellis, is in very bad health and was carried to Lubbock Wednesday morning for medical treatment. We, with their many other Slaton friends, hope to hear that he is much improved.—Slaton Times.

GOING TO MINERAL WELLS

Now that it has rained, there will no doubt be a large crowd go to Mineral Wells to attend the meeting of the West Texas Chamber of Commerce. The Snyder Municipal Band and the Hermleigh Band will go with good delegations from each place. The Times-Signal job department, through the Lions' Club is getting up some literature of Snyder and Scurry county to be distributed among the 50,000 persons who are supposed to be present at the convention. Don't go without some of this literature, but be sure to take some of this literature and GO!

We are sorry to report that Mr. and Mrs. Clarence Whately have moved to Slaton. We are sure sorry to see them leave.

Mrs. Dollie Ditmore, Mrs. Hail and Mrs. Mary Boatman made a business trip to Fluvanna Friday.

Quite a few of the people here have been sick with bad colds.

Miss Ruby Carter spent Friday with her friend, Miss Carrie Cooper.

Dermott is looking rather natural. Cecil Scrivner is motoring around again.

Miss Carrie Cooper spent Friday night with her friends, Bernice and Ruby Carter.

Dermott Sunday School is still progressing nicely as we have a new superintendent, Mr. Jim Steel. "Come join us." Also come to our singings every Sunday night. Next Sunday night we will elect new superintendent. Mr. Baggett says he will be glad for he thinks someone else can conduct it better than he can, but I am afraid Mr. Baggett will still be our superintendent. Everybody vote for him.—Cutie.

WATCH FOR THEM.

We notice in an exchange that a smooth gang of sharpers are now working a new game on rural residents, having operated in various sections of the state, and feeling that they may turn up in this community, we want to give citizens of Snyder a tip. They are supposed to be selling a superior grade of garden and flower seed, and are very liberal with their samples that they take an order, with a down payment, a dollar or whatever they can get, the balance to be paid when the seed is delivered. The do not ask for large sums in advance, but when they have "worked" an entire community their pockets are pretty well lined. All of us have too many places to put a dollar these days to fall for this kind of crookedness, so be on your guard.

PAYING BILLS FIRST.

If you were to ask a Snyder merchant about now as to how he is getting along in collecting his bills he might state that money is coming in a little slow. Some of his customers are letting their bills go longer than usual on the plea that they had a hard winter, and have many urgent obligations to meet.

But such practice creates bad results in the community. They mean that business men must borrow more money than usual to make up for additional amounts which they must carry on their books. Some people seem to imagine that a business man has plenty of money at his command at all times, and that they do not need to pay their bills promptly. But this is a mistake, and the wrong way to do business. The majority of men depend to some extent on borrowed capital. If payment for merchandise comes in slower than usual the result is the merchant has to go to his banker for a loan to pay the wholesaler or the jobber. He has to pay interest on the loan, and naturally he must add all this to the price of the goods.

Every debt, however small or large, should be considered a debt of honor. If a man does not want to pay cash, it is perfectly legitimate to let the debt run for a reasonable time. But it should be promptly paid when it is due, so that the merchant can use the money in paying his bills, thus keeping down prices to the point where the entire community will profit by it.

ED J. THOMPSON RETURNS FROM DAYTON CONVENTION.

Ed J. Thompson, Delco-Light dealer, located at Snyder, has just returned from the eighth annual Delco-Light convention, held April 9th and 10th at the factory at Dayton, Ohio, where 1,200 Delco-Light dealers, distributors and fieldmen met in what Mr. Thompson declares was by far the most enthusiastic and enjoyable convention which the Delco-Light Company has ever held.

The outstanding, and the most important feature of the whole convention, he states, was the announcement of a new, low-price Delco-Light plant which sells for \$195.00, f. o. b. Dayton, Ohio. The importance of this, he pointed out, lies in the fact that practically every farm home can now enjoy the advantages of electric lights. Even if farmers have felt, heretofore, that lighting plants were high in price, now they have that objection removed, for now they can buy this electric plant, on easy terms, at a price that anyone can afford to pay.

"I firmly believe," said Mr. Thompson, that millions of farm homes that heretofore have put up with smoky kerosene lights will know the joy of clean, safe, bright electric lights, and I know that many of these homes will be found right here in Surry County. Our farmers and their families have just as keen an appreciation of the benefits and advantages of electric lights and other electric service as do those of any other community, and our farmers want to give their families the mod-

ern comfort and convenience of electric service, just as much as they do anywhere else in the world. They have the opportunity to give them these modern electric lights now, with this low-priced plant available and I know they are going to do it."

Special features of the convention were a trip through the big Delco-Light factory, the largest of its kind in the world and where a most instructive and enjoyable exhibit had been specially prepared for benefit of the visiting Delco-Light men, and also a half-day spent with Mr. C. F. Kettering a vice-president of the Central Motors Corporation, president of the General Motors Research Corporation and the inventor of Delco-Light—a half-day filled with educational and inspiration surprises which could be found no place in the world except as Mr. Kettering presented them.

Another memorable feature, and one never to be forgotten was the big banquet which concluded the con-

vention on Friday night, when almost 1,500 convention members and factory representatives enjoyed a banquet program which was filled with enjoyment from start to finish.

"I have come back from this convention a better Delco-Light man, better prepared than ever before to serve the people of my home county with the electrical advantages that Delco-Light products render, and I come also," he concluded, "with a bigger and broader vision of the new advantages and the new enjoyments that are in store for every American home that will fall into line in the march of progress and put electricity and modern improvements to work for them."

Many Snyder Folks Feel Older and Slower Than They Should.

Are you weak, tired, all worn-out? Do you feel years older than other folks of your age? Then look to your kidneys! The kidneys are the blood-filters and if they weaken, the effect is quickly felt. You have constant backache, headaches, dizziness and urinary troubles. You feel lame, stiff and achy—all played out. Don't wait! Use Doan's Pills—a stimulant diuretic to the kidneys. Read what this Snyder resident says:

W. D. Huffman, retired farmer, says. "My back was sore and lame and the cutting pains were so bad, I couldn't do any stooping. My kidneys were weak and nights I had to get up several times to pass the secretions. Headaches came over me and I was all run down. I took Doan's Pills and they cured me of it. Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Pills—the same that Mr. Huffman had. Foster-Milburn Co., Mfrs., Buffalo, N. Y."

The ever-swelling, nation-wide praise which acclaims the brilliant performance of the new good Maxwell will continue to grow in volume because Maxwell will continue to deserve it.

For this great car not only gives performance results and economy heretofore unknown in its class. It is also one of the most soundly engineered and soundly built cars in America—manufactured complete by the Maxwell organization in the great Maxwell plants.

Its motor combines such features as force feed lubrication and fine balance of reciprocating parts—structural practice before confined to cars costing far more. Its transmission, and its rear axle are big enough and strong enough, for the most strenuous daily service and the most powerful lugging through deep sand and mud.

The new good Maxwell owner enjoys his 58 miles per hour, 5 to 25 miles in eight seconds, and 25 miles per gallon in the knowledge that this prized combination is exclusive and distinctive to the new good Maxwell alone. You will find all Maxwell dealers eager to prove these truths.

BOUND FOR AUSTIN.

The judging contest for the representatives to the clothing contest was held Monday. After a long day of difficult judging a list of the winners was handed in for the faculty's approval. The winners for the first year classes were Faye Joyce and Omah Bullard, for the advanced class Fanabelle Pruitt, Mary Bennett and Emel Greene. Faye Joyce won on her second dress while Omah Bullard won on her first. Fanabelle Pruitt won on her middy, Mary Bennett on her tailored dress and Emel Greene on her sheer wash dress.

These girls will leave Wednesday afternoon with Miss Greene for Austin. We are proud of them and are hoping that they will carry off honors at the clothing contest. They have worked hard and deserve this great honor. Many well-made garments were turned in which shows that each girl did her best and even though she has lost, it will cause her to work a little harder next time. The sport is one who can lose with a fine spirit and then determine to fight harder the next time. We are all good sports and can wish these representatives a wonderful trip. We are glad that our school is being represented and we wish to thank everyone who has helped to make this trip possible. Snyder is talked of all over Texas and we want to show people that she is still on the map.—Ledy Potet.

ESSAY WRITING.

Omah Bullard, essay writer for Snyder, won third place at the district meet held in Lubbock last Friday and Saturday. This speaks well of our English department which has progressed rapidly under the proficient instruction of Miss Clark. We have only three affiliated units in English, while Plainview with four units, did not score.—Ledy Potet.

A duke and duchess were chosen from each class. Others that took part in this contest were J. K. Woosley and Alta Belle Davis from the sophomore class. J. G. Morrow and Irene McMillan from the junior class and Beecher Bennett and Tip Messimer from the senior class.

The Duke and Duchess are to choose eight attendants to go with them and take part in the fete. The fete will be May 1 and a number of

TRACK MEET AT LUBBOCK.

The winners in the track team of this county left last Thursday for the district track meet at Lubbock. The tennis games started Thursday evening. Snyder boys double team won first place though not without hard competition. The Snyder boys were Stacy and Woosley, both did excellent playing. Johnston, the singles player of Snyder, lost the match to Lockney Friday morning. The field events started Friday morning. Although Snyder had a good track team there were better ones from other counties and we did not do very good. Fesmire won third place in the half-mile. Friday night the contestants stayed at the Cova Hotel. Mr. Bagwell and Mr. Roberts stayed up all night and kept "bootleggers" off of the boys, but we did not know there were any there. We left Lubbock Saturday evening and got to Snyder during the night.

We had a nice time even if we did not win anything.—Joe Tant Johnston.

BASEBALL.

On Wednesday of last week the Baby Tigers took the Crenshaw team to a cleaning. The score was 18 to 8. Fesmire started tossing the horsehide we love to touch and Joyce relieved him the fifth inning. Cotton did the receiving for Snyder. Crenshaw's battery is unknown.

The team is in fine shape for the coming duel to be waged this Friday at the home of the Snyder Tigers.

Coach Roberts has chalked us up for a double header. One game with Little Sulphur and one with Canyon. Be sure and come to the game Friday.—Henry Cotten.

MOSES IN THE DARK.

Mr. Cary—Now don't touch anything.

Roy F.—Are you going to hold me up by wireless?

Miss Mitchell—What is flirtation?

Mr. Roberts—Attention without intention.

A freshie stood on the burning deck, As far as he could learn, He stood in perfect safety, He was too green to burn.

Great Calamity! The juniors are going to present a play!

Robert—Something is preying on Alene's mind.

Beecher—Don't worry it will die of starvation.

George—You should think of the future.

J. G.—I can't, its Lois' birthday and I must think of the present.

Howard Alexander has been out of school on account of an attack of appendicitis. Margaret Rouse said she was going to become a nurse.

Roy Fesmire drew some attention while at Lubbock. The first thing we saw was a girl sitting in his lap. She said she was a flapper, and liked jelly beans that wore red ties and would give her chewing gum and nickels. Ray happened to have on a red tie, and said he lost four bits. (No doubt.)

Polly Porter was coming down the hall the other day singing "Charlie, My Boy." Charles Cooper blushingly said, "since when?"

Alene went over to Mrs. Wood's

If you have read this book do not fail to see it because of its educational advantages. Remember the seniors will get a per cent of the proceeds. So come and help us—Alene Doak.

SCREEN VERSION OF "CHECKERS" COMING.

Another great stage play has reached the screen and, as a film, bids fair to eclipse all its previous records. This time it is the famous Henry Blossom play, "Checkers," the racehorse drama in which Thomas W. Ross does so much fame. Under the title of "Gold Heels," it is coming to the Cozy Theatre next Saturday, as a William Fox special photodramatic release with Robert Agnew in the Ross part and Peggy Agnew as the heroine. According to advance reports the racing scenes in which the unforgettable equine speed kind, "Remorse," wins spectacularly, are the most thrilling bits of action ever shown on the screen.

Good Business vs. Bad Business "CONCESSIONS"

One of the greatest detriments to good business and one of the most unprofitable elements of bad business is concessions.

What do you mean by concessions?

It is the practice that many business men have of conceding to a prospective good customer prices and services that their average customer does not get.

It is taking an unfair advantage of your competitor, and thereby injuring your own business, to get what you think is a nice patronage. WE ARE ALL TOO ANXIOUS FOR BUSINESS.

This bank was organized, largely, to pay dividends. We offer to the general public a safe place to keep your money, courteous, efficient and complete banking service, an institution governed by high ideals—and nothing else.

GUINN NEWS.

We are having some exceedingly good weather out here despite the fact that it is getting hot and summer-like. The prospects for rain have been good but it seems that we are not going to get any, although it has rained close.

We had a rabbit drive last week and the drivers reported about four hundred jack rabbits killed.

Mr. Dixon gave the young folks a party Thursday night and as it was the first one we have had in a long time it was enjoyed very much.

Claud Ayres has returned from Oklahoma where he has been visiting relatives and Alton Fair made the trip with Mr. Ayres.

John and Fitzhugh Christman together with Mr. Boyer and wife left last week for Louisiana where they intend to get work.

J. B. Hudnall of Hud community spent the evening with Mrs. W. R. Guinn at this community Saturday.

D. O. Rollins of Snyder spent the night with Beecher Bennett of this community Friday night.

Beecher Bennett and sister spent Sunday afternoon with Mr. Price of Snyder.

Tom Bailey of Snyder spent Saturday night with Mr. Basham of this community.

TEARS AND LAUGHTER FOUND IN BIG FILM.

Pathos and comedy form interegral part of "David Copperfield" picture.

You cry one minute and laugh the next. In the big film production of the famous Charles Dickens novel, "David Copperfield," there is a world of bright and cheerful comedy as expounded in the merry life of the unctious Mr. Micawber, while on the other hand there are dark clouds that hover over the house of David Copperfield.

The same familiar characters that Dickens made famous in his popular novel are typically impersonated upon the screen by capable players. One of the best known, perhaps, was the illustrious Mr. Micawber, whose sayings in the Copperfield novel have become a byword wherever the English language is spoken.

This elaborate production is coming to the Cozy Theatre, beginning Tuesday.

RECORD SALES OF DODGE BROTHERS CARS.

In connection with the sale of Dodge Brothers, Inc., to Dillon, Read & Company and the announcement that the organization of this important automobile manufacturer would remain unchanged, it is interesting to find retail sales of Dodge Brothers cars and trucks making still further gains.

Retail deliveries during the week of March 28th, 1925, gained 34 per cent over the same week in 1924, and exceeded every week but one in Dodge Brothers history. Retail orders obtained by dealers established a new high record, exceeding the same week in 1924 by 37 per cent. All sections of the United States shared in these gains, while exports have been increasing even more rapidly than domestic sales.

Deliveries throughout the world in 1925 to date show a gain of approximately 11,800 Dodge Brothers cars and trucks over the same period of 1924.

Despite the large increase in Dodge Brothers output, retail deliveries are running 100 cars a day ahead of production, and new retail orders 300 cars per day ahead of production.

PICTURE STRIKES AT LAX PARENTS.

That modern fathers and mothers are failing in their responsibilities to parenthood is the lesson which is being forcibly driven home at the Cozy Theatre this week in the First National picturization of Warner Fabian's "Flaming Youth."

It's a photodrama of this age of jazz and pocket flasks and scorn of the conventions, and Colleen Moore as Patricia Fentriss is seen as the pampered little flapper who is indulged in all her dangerous whims. She flits from one frivolous love affair to another, but of course the crash comes, and there is a genuinely stirring romance in which the heroine is jolted into her senses.

The sympathy of the audience, however, is at all times with the innocent little flapper that Colleen portrays because the fault is more that of her parents than her own.

Mrs. Dixie Smith and Miss Ruth Smith have gone to Spur and Lubbock for a few days on business.

CAMP SPRING NEWS.

The play, "Clubbing a Husband," which was put on by the ladies of this community last Friday night was very good. It was indeed a real comedy and caused much laughter. There was a large crowd and everyone went away feeling that "The home's the thing." We are planning another play sometime soon.

There will be only four more weeks of school. The time will soon speed away and then—well vacation will be here.

Last Friday evening the school boys and the outsiders had a game of baseball; the outsiders being victorious.

Bro. Wilkerson filled his regular appointment here Saturday night and Sunday.

One of the saddest funerals in the history of our little community was conducted here Monday at 2:30 p. m. The deceased, Mr. Ed Metcalf, was loved and admired by all who knew him, and leaves behind him a vast host of friends. We extend to his dear little wife and other relatives our deepest heartfelt sympathy in this dark hour. Mr. Metcalf was taken ill quite suddenly April 17, with acute appendicitis. He was taken to the Lubbock Sanitarium the following Wednesday morning to undergo an operation, which proved to be unsuccessful and he passed away Sunday at 12:30 p. m. His remains arrived here early Monday morning.

Delegates were elected Sunday to attend the singing convention at Union the fourth Sunday.

Mrs. Douglas Moffitt has been quite sick with a sore throat.

There will be prayer meeting at the tabernacle every Wednesday night. Come, you need the help of your friends and they need yours.

THE DAY OF REST.

Man wisely sets apart one day in seven as a period of rest and change. Sunday is the day to emerge from the rut and groove of life and do something different. The successful farmer renews the soil each year; the flower grower feeds and waters the roots of his plants; the motorist cannot run his car unless he recharges the battery—all life has a tendency to run down if we don't keep building it up. Sunday gives us a few hours to pause and take new breath before making a fresh start. But resting up doesn't mean going to seed entirely, for there is always enough activity on Sunday, doing things that are different from what we have to do during the week, to keep us from growing stale. Going to church is the best way to rest. And we dare you to point to a man who will say that he ever felt he lost anything during the remainder of the week because he spent an hour or so inside a church on Sunday.

Mrs. Clara Bowen of Snyder purchased five unimproved lots through Britton and Smith Saturday. The lots are located on the highway in the west part of town, and Mrs. Bowen expects to improve the property and move here in a short time. —Lorraine Leader.

NORTHWEST COMPANY TO DEVELOP SHALLOW SAND.

The Northwest Company will develop their holdings near Ira in Scurry county for the shallow pay found in More No. 2 at from 1781 to 1830, J. F. Carey, local representative of the company, stated Wednesday. Carey stated that location for two new tests had been made and that additional acreage was being blocked for development in that section.

The Moore well, which is in Section 116 of the H. & T. C. Ry. Co. survey, one and one-half miles southwest from the town of Ira, has settled down to a steady pumper gauging 40 barrels a day. This is the first commercial well to be brought in at this shallow depth.

The crude coming from this sand is testing a higher gravity test than pumped from wells south of the Colorado river. It is about the same quality of oil as that found in the old Colorado-Tex Company's Foster No. 1 at Itan. The oil tests 38 1-2 gravity.—Colorado Record.

How much did your grandfather get for eggs? What did he pay for galluses? If you have any old diaries or records or know of any which show prices received by farmers for their products or prices paid for articles purchased by farmers during the past hundred years, communicate with Charles F. Sarle of the Department of Agriculture, Washington, D. C.

Mr. Sarle is making a statistical study of prices on all farm products and of things that farmers buy, to develop index numbers and charts on the long time trend of prices. This historical series of prices will be used in various ways by the department in connection with forecasts of what prices will be in the future.

Records of this character, says Mr. Sarle, are usually available from files of country newspapers, farm magazines, accounts of mercantile transactions of country merchants, grain and livestock buyers, and private accounts of farm sales and purchases.

HERE TO STAY.

When the Dodge Brothers automobile plant was sold a few days ago to a group of New York bankers for the stupendous sum of \$146,000,000 we had good proof that the auto is here to stay. But if additional proof is desired, we have only to listen to Henry Ford. He says autos will be bought by new customers as fast as they are made, by people able to own more than one machine, and to replace those torn up or that are constantly wearing out. And within a few more years other countries will get the fever and it will take millions of machines to supply them. Nothing will ever be able to build them in such huge quantities as America. In other words, he says people will always want automobiles, and as long as they want them they are going to be made, and made in such vast numbers as to keep millions and millions of dollars in circulation all the year round. If we have any Snyder residents owning automobile stock, this ought to be a most interesting statement.

GOOD AND USEFUL MAN DIES.

J. B. Taylor, one of Scurry county's most excellent citizens, passed away at his home in the Ira community, Saturday, April 18, of cancer of the stomach.

Deceased had been a resident of Grayson county, Texas, 65 years ago. Removed with his parents to Denton county in 1876. He was married to Miss Mary Woods, to which union were born 12 children, and of which number 10 and the faithful wife survive. One daughter, Mrs. Walter Nash, lives in Denton; another daughter, Mrs. Walter Blevins, lives in Fort Worth; another daughter, Mrs. C. N. Claiborne, lives at Quanah, and another daughter, Mrs. T. A. Adams, lives at Camp Bailey, California. All of the other children live in this county.

Deceased had been a resident of Scurry county for the past 15 years, and was one of the county's thrifty and industrious farmers and one of its most upright citizens. He had been a member of the Church of Christ for thirty-five years and died in the faith of that institution. His funeral was preached at the residence Sunday by Rev. E. Christian, with interment in the Ira cemetery.

CAMP SPRINGS FARMER DIES.

Ed Metcalf, a young farmer of the Camp Springs community, died at a Lubbock sanitarium Sunday following an operation for appendicitis. He leaves a wife but no children.

Several days before his death he consulted a local physician, who informed him that he was threatened with appendicitis, and insisted that he report unless his condition changed. This he failed to do, so we are informed, until after his appendix had burst. He was hurried to a sanitarium where an operation was performed, but septic poisoning had already set up. His remains were brought to Camp Springs where they were buried Monday afternoon.

Snyder is fast becoming an important egg and poultry concentration center. During the past several weeks numbers of cars of live poultry and eggs have been shipped from here. The Model Farm Producers announce that they will make shipment of another car of poultry and also a car of eggs this week. Local activity in this business is building up not only volume but prices. Eggs are now bringing 22c per dozen and the same week last year 13c per dozen was all that was being paid. Hens were bringing from 11 to 14 cents during the same period last year and are now bringing 20 cents per pound. Even though feed is high this year, it was also scarce and high last season over practically all of the West, in fact the Plains area raised an enormous feed crop this past year in most places. At the prices now being paid for poultry products there is more money to be made in them than cotton, livestock or most anything else raised on the farm. The sooner our people realize that a steady, consistent program that embraces poultry as one of the principal sources of revenue the sooner will we come to making Scurry and surrounding territory what it should be.

Tree's Unkind Comment

Stories of Beerholm Tree flourish like the green bay of the same family name. Tree is in fact and for many years has been the legitimate game of all storytellers, a part he undoubtedly enjoyed. The famous scene painter, Harker, is responsible for this one:

Mr. Harker, who painted the scenery for such famous spectacular shows as "Kismet," "Chu Chin Chow," "Cairo and Decameron Nights," was a friend of Tree.

Tree and he had had one of their occasional tiffs, and the actor was feeling vindictive. He and Alfred Wareing, of the Huddersfield Repertory theater, were motoring one day in the country. Wareing called Tree's attention to the glorious sunset.

Tree was silent for a moment, then he snapped: "Ah, in Harker's most violent manner!"

Tracy Smith came over from Abilene last Saturday and spent Sunday with homefolks. Tracy is a student at Simmons College.

Roy Strayhorn and family and a Mr. Moon and family were here from Rotan last Sunday visiting Joe Strayhorn and family.

Senator Burton K. Wheeler went to sleep while being tried at Great Falls, Montana, recently. But wasn't it perfectly natural from force of habit? He imagined that he was in his seat in the Senate and that some fellow senator was delivering a big address.

There is entirely too much petty thieving going on in this good town. You can't leave anything outside a lock and a key without having it stolen. There's a way to break it up, so why not start a campaign that will put such offenders where they belong?

Perhaps Babe Ruth fainted in a Pullman car washroom because he found soap there, says an Amarillo fan.—Amarillo Globe.

Oh, no; the big fellow became exhausted while trying to raise a window in the chair car.

A Sweetwater Mexican was fined \$12.50 recently for hugging a pretty 16-year-old Mexican girl. The girl didn't object to the hugging, but Sweetwater officers objected to public love-making. The Mexican youth objected to the fine, declaring that \$12.50 was "too much dinero" for one hug. Too much for a hug! A young man who would object to \$12.50 for hugging a pretty girl is not worthy of her love! They should have sent that hombre to jail.

THANKS, BOB.

Editor Martin of the Scurry County Times, in company with his family, stopped over in Slaton Sunday en route home from the north end of the county. It is always a pleasure to us to have a chat with Editor Mar-

It was indeed a creditable issue of that good paper, and was well patronized by business firms of Snyder, one establishment alone using an entire 4-page section.—Bob Collier, in Slaton Slatonite.

A play was given by the members of the band at the school auditorium Saturday night. The play was entitled "It Looks Like Rain." It was very nicely presented and quite a large crowd attended. The proceeds amounted to about sixty dollars, which will aid the band boys on their trip to Mineral Wells. They also gave a concert at the ball park Sunday afternoon, which was well attended and enjoyed by all. The play will be presented at Silvester Monday night and at Dunn Thursday night.

He had probably been dead for 24 hours and was found Saturday morning about ten o'clock. Mr. Heimer lived by himself and it is thought the cause of his death was heart trouble. Interment was made Saturday afternoon in the Hermleigh cemetery. No near relatives survive.

Mr. J. W. Davis and son, J. T., spent the week-end in Littlefield on business.

The oil well being drilled west of Clairmont is now down to depth of 800 feet with the formation still looking good. The drillers of this well say that within the next few weeks they will have this well down to where the pay sand should be. They encountered some trouble last week with quick sand which slowed up the drilling operations considerably. We are all hoping that they will bring in a gusher, and they may do it.—Jayton Chronicle.

PLAINVIEW NOTES.

It is still dry here but we haven't lost hopes yet. We believe in the old slogan, "Where there's a will there's a way."

Friday evening the school team played the first nine. As usual we beat them. The only excuse they had for getting beat was that they had to play Lawrence Dever and John Woodward to have a full nine.

There was a number of people from here that attended the play at Camp Springs Friday night. They state that it was a success.

Harold Cravey gave the young people a party Saturday night. Everybody had a splendid time.

PLEASANT HILL.

Well, one more week has passed and no rain. Things are getting awful gloomy out this way.

We are sorry to say Mrs. Woody has gone to Mineral Wells for her health, but hope she will soon be able to return.

THE TIMES-SIGNAL SIGNALS

It's getting so that when everybody drives out for pleasure there isn't enough of it to supply the demand.

Snyder men do a lot of fussing around about making spring repairs that any woman knows she could make with a hairpin.

We are often driven to the conclusion that a legislature can't even do a foolish thing and get it right.

Hailstones as large as hen eggs are said to have recently fallen near Dallas. Must be having some fowl weather over that way.

Public memory is so short that quite a few Snyder citizens are already wondering what the Teapot Dome trial was about.

A Canadian hunter says he caught 41 skunks last month. He needn't bring them to this office to prove it.

Russia seems to believe not only in giving them liberty or giving them death, but in giving them both.

The average Snyder man is about as helpful with the spring house-cleaning as his wife is with the driving when she's in the back seat.

Nothing ruins a woman's life like having a man cease being foolish about her.

The old-fashioned town-pump drinking cup had its perils but they

were not as great as drinking out of a fruit jar today.

A Snyder girl's idea of helping mother is staying out of the kitchen so she won't be in the way.

Congressmen talk in millions when it comes to appropriation and in dimes when it comes to lowering taxes.

Nothing looks easier than a crossword puzzle to the man who has to make both ends meet on a small salary.

They say there is a feeling of restlessness sweeping over the country, so if it strikes Snyder we would suggest a little more spading in the garden as a cure.

We're willing to bet that the woman who is trying to reduce thinks the woman who is trying to reform a husband has a soft job.

U. S. Senators do a lot of worrying about the poor farmer—when congress is not in session.

A Vermont man died while helping his wife wash the dishes. If some Snyder men would try it it would be the wife that died.

You're probably noticed that the man who wants but little and is satisfied with less is generally contented.

Answer: They know that if they get it, they can sell it quickly—at a good price. Buick reliability has made Buick a first choice in the used car market.

BEST IN FIVE YEARS.

The best news that has come out of Washington City for a long, long time reaches us in an agricultural forecast dated April 5, and which states in positive language that the outlook for the farming interests of the nation is better right now than it has been for 5 years.

The Secretary of Agriculture says there are no large surpluses of grain or livestock to handicap prices, as has been the case for several years past; that there is but one way for wages to go now, and that is back to normal; that world markets are open to the point where the demand is once more greater than our supply and that prosperity is going to shift within the next few months from the cities to the farms. There is still much unemployment in all of the larger cities, but this condition, too, is getting better, though it means that when harvest time again rolls around there will be no scarce of labor, and the growers will not be forced to pay such high wages that their profit will be swept away. The report says every rural activity is in shape to realize good profits this year—wheat, corn, hay, cotton, livestock and fruits. And it not only forecasts a good profit but a bountiful production of everything.

"Go ahead with your spring work with the assurance that you are going to have the most prosperous season in five years," says Secretary Jardine. It is certainly a message that will bring joy to millions of hearts. Citizens around Snyder can make their plans accordingly, for prosperity has had her visit out in the cities—she's going to tarry awhile now in the small towns and on the farms.

Change of Life

"When change of life began on me," says Mrs. Lewis Lisher, of Lamar, Mo., "I suffered so with womanly weakness. I suffered a great deal of pain in my back and sides. My limbs would cramp. I didn't feel like doing my work, and there are so many steps for a woman to take on a farm. I was very anxious to get better. A friend recommended

CARDUI The Woman's Tonic

to me and I began using it. I certainly improved. I went through change of life without any trouble. I can highly recommend Cardui."

At the age of about 40 to 50 every woman has to pass through a critical time, which is called the Change of Life. At this time, great changes take place in her system, causing various painful and disagreeable symptoms.

If you are approaching this period, or are already suffering from any of its troubles or symptoms, take Cardui. It should help you, as it has helped others.
