He just uses his head a bit, and works, that's all.

We're mighty grateful to Mrs. J. W. McCoach for the nice bunch of magazines and periodicals she brought to the office last week. Your thoughtfulness, Mrs. McCoach, has gladdened many kiddies' hearts as well as their papas and mammas, for your secretary drove 60 miles Sunday afternoon giving them out to those whom he knew would appreciate them. There are just lots of ladies in Scurry County who have used magazines and periodicals that the Scurry County Chamber of Commerce would like to have. Phone 166.

Now that our county superintendent of schools is a full fledged member of the Scurry County Chamber of Commerce, he will be expected to put his shoulder to the wheel and help put Scurry County in the lead in West Texas in the production of poultry and dairy products, and as a committee of one see that his farmer friends plant 200 acres of peanuts this year. That man Bullock is strong for peanuts this year. Why? Because he knows the farmers who plant 'em will "wink and smile" at harvest time this fall. You're a welcome member, Mr. Bullock. Many thanks for your good coin.

Mr. Edgar Taylor, the leading merchant of Ira, was in the office this week and placed his signature on the dotted line signifying his desire to be an active member of the S. C. C. of C. Edgar knows he has some farmers in his community who have the very best kind of land to produce fine peanuts, and he has been appointed a committee of one to see that the Ira community plants 500 acres this year. The secretary knows that he knows farmers who plant peanuts on their crop. Plant White Spanish peanuts and leave the rest to the secretary of the Scurry County Chamber of Commerce.

C. OF C. NOTES

By E. P. MOORE, Secretary

J. C. Dawson, local booster, was a welcome visitor in the office this week. Mr. Dawson placed his order for four memberships in the chamber of commerce, one for himself, personally, one for his coal and fuel yard, one for the Dixie Service Station and one for Ollie Bruton. Jim says that he's right in with any movement that will better Scurry County, and he believes the Scurry County Chamber of Commerce is going to get results that will better the financial standing of the county.

Mr. Farmer: Get busy right now and tell all your friends that the Scurry County Chamber of Commerce can furnish you with genuine Porto Rico sweet Potato plants delivered right here in Snyder for \$2.00 per thousand plants. To get this price we have to buy 10,000 plants and at this price

for genuine Porto Rico plants we should not have any trouble in pooling at least 50,000 in Scurry County. This price goes for anybody anywhere in Scurry County. Come right in and tell your secretary how many of these good plants you can use. This is 20 cents per 100 for these plants. No better sweet potatoes are grown in Texas than the Porto Rico, and this is just another opportunity to save you money by quick action.

M. O. Nail, who lives in the Dunn community, received a check Saturday for \$19.16. Mr. Nail comes to Snyder every Saturday, and he says his \$19.16 check is about the average he gets for his cream each week. There are just eleven in Mr. Nail's family that like milk and butter, who must first be taken care of. There are

porters of having good staple cotton of one variety and that they would pay a long price to get it. He shipped a lot of our cotton of many different varieties with their local cotton and probably had drafts drawn back on him for differences in what the cotton actually graded and in what the buyer thought he was getting when he bought a list of Colorado cotton. I am guessing that there will be a fly-back on the Colorado market because they have, perhaps, hurt their reputation of having a one-variety cotton market because of the volume of other varieties from other adjoining counties seeking their market on account of better prices offered for cotton ginned there.

We owe it to ourselves and our neighboring counties to make our own market a good one and to keep it a good one to stand on our own bottom. We can do it by getting the cooperation of a majority of our farmers in planting and raising some one single variety of cotton. There are several varieties of excellent cotton adapted to this locality, but it remains for our planters to get together and cooperate on raising just one of these varieties. If two-thirds of our cotton were of the same variety, regardless of kind if it be a good one, I believe it would mean an additional average profit of \$10 per bale of cotton and would eliminate the long, tiresome, expensive haul to Colorado and leave more money to be banked and spent in our own county.

It is too late to get big results along that line this year, but it is not too late to think the matter over and to talk it over with our neighbors. It is not too late to experiment and to plan and to prepare so that next fall when you are ready to buy planting seed, there will be an organization already formed to handle one or two earloads of pure, pedigreed planting seed of just one variety, and that a sufficient number of farmers will cooperate and plant that particular variety of seed. Perhaps some enterprising gin man will lend his cooperation and assistance and agree to gin nothing but that one particular variety of cotton, and it is plausible that all the inducement such a gin man would want would be the assurance of a sufficient interest on the part of the farmers to cooperate with him.

An inexpensive way to get this movement started would be for every farmer to plant five, ten or twenty acres of pure seed of one variety and to save the seed from cotton produced on these few acres to plant his entire farm the next year and each year thereafter to buy just enough pure seed to plant ten or twenty acres to be used as second year seed on the entire farm the following year. This he could do at a very small cost. It pays to plant good seed and it will pay to raise a good staple cotton if a majority of the farmers raise it, and it should pay big dividends if every farmer in the county would plant the same variety of the best pure seed long staple cotton that could be obtained. If we agree on this, then all that remains to be done is to get together in a spirit of cooperation and learn just what variety of seed the majority of representative farmers consider the best and most adaptable, and then for the rest of the minority of farmers to be good enough sports to fall in line with the majority for the profit and benefit of all concerned.

Through County Agent Willis and the Scurry County Chamber of Commerce, let's get this movement started at once, and get some real results from it in 1928 and from then on.

R. D. KINNEY, JR.

COUNTY FARM AGENT NOTES C. C. WILLIS

Last Thursday a party of twelve braved the cold north wind and paid the agricultural experiment station at Spur a visit. Dave Jones of Fluvanna organized the largest party from any community, Mart Jones, Jim Jones, J. A. J. Jones, Will Beavers and Ramsour all making the trip from Fluvanna, Harris Winston, J. D. Scott, C. C. Willis from Snyder, R. D. Kinney, Mr. Brock and H. M. Murphy from Hermleigh.

The experiment station had 70 calves on feed that were of first interest. Thirty of these calves were divided in three lots of ten calves each, each lot weighing the same at the beginning of the feed, and the same grade and quality of calves. They had been on feed 110 days, weighing around 800 pounds, some over 1000 pounds. They were put in the lot weighing around 425 pounds. Lot No. 1 was fed whole milo heads, three pounds of C. S. M. and bundle cane, unprepared. Lot No. 2 was fed milo heads ground, 3 pounds C. S. M. and bundle cane. Lot No. 3 was fed milo heads ground, 3 pounds C. S. M. and bundle cane run through an ensilage cutter. Lots Nos. 2 and 3 were practically the same weight. Lot No. 1 was 23 pounds lighter than No. 2, and 24 pounds lighter than No. 3 per head. The choicest and fattest calves were found in Lot No. 3, and would probably sell for from 75 cents to \$1 more than the calves in Lot No. 2. In all three of the lots it appeared that the calves had shown good gains and that they would market grain to a greater profit. The same was true of two other lots of calves, one of Bramahs, and one of Herefords, which had also been on feed. Other noticeable features were that the lots show more profits from preparing the feed than the calves, and the cracking of milo by running through an ensilage cutter. The various methods of preparing the feeds were demonstrated for the party.

The Spur experiment station is conducting some very accurate experiments on terracing and has installed instruments for the measuring of the water and the soils that are lost through different methods of rowing and cultivation. The experimenters caught 16 tons of dirt last year from one acre of land having a 2 per cent grade left fall last year. Mr. Dickson had a rainfall chart covering 15 years which showed the advisability of planting cotton and maize in order to have more season for maturing these crops. The chart which was an actual record showed that on an average of 15 years we have twice as much rainfall in August as in July.

The party also made a tour around over the county to visit the numerous alfalfa patches. This crop was found growing very successfully on various types of soils, and, according to Mr. Dickson, a ton to the acre was cut on the experiment station farm during the 1917-18 drouth when not a single head of grain sorghums matured. These experiences suggest that pasture crops of alfalfa might be very practical for Scurry County.

The party were guests of the Spur Chamber of Commerce for the noon lunch, an enjoyable part of the day's program, and a very noticeable courtesy to Snyder and the county.

NEW COTTON WINS FAME

Press dispatches Monday carried news that cotton grown near Waco will be placed in every experiment station of the South, by order of the United States department of agriculture.

This cotton was developed by C. S. Lankart, and is known as the "Wacoana" breed. Mr. Lankart having made 15,000 field tests during the past five years on a 6,000 acre tract south of Waco. The cotton was used by J. H. Youngblood on the prize-winning five acres which recently won the News-Tribune's \$300 prize awarded at the Cotton Palace barbecue recently.—Waco News-Tribune.

Through the kind courtesy of Manager E. J. Anderson of the West Texas Public Utilities Company, the "News of 30 Years Ago" starts in this issue. Older residents—our fathers, in fact—will read those items that will bring memories of the days gone by. After all, memories are sweet to all of us.

This week is clean-up—remember that this week is Clean-Up Week. Let's not only wash our neck and ears, but let's get into the matter more boldly. Let the people who come to Snyder know that not only are we outwardly clean, but clean in heart, soul and body. That sort of philosophy gets a grade of 100 per cent every day.

Next Saturday afternoon will be a gala day in Snyder. Bear in mind that extra thousands are coming here to add this city as their trading point. The columns of the Times-Signal offer a remarkable opportunity to the wise merchant to increase his business. Trade comes to those who welcome it with the printed word. This paper covers this county in a satisfactory way. The Times-Signal welcomes accurate advertising—that means just what it says—and the progressive merchant is using its columns regularly—and not spasmodically.

HOW ABOUT A RECREATION PROJECT FOR SNYDER?

A good friend of the Times-Signal has suggested an idea that should be carried out—that of a recreation center for Snyder. He openly stated that the Men's Bible

Class of the Methodist Sunday school should start it, and in turn invite the men's classes of the Baptist church, the Presbyterian church, the Christian church and the Church of Christ. Yes-siree, it would be easy of accomplishment if there were united effort. It was also suggested that the movement might grow till a Y. M. C. A. building would be the ultimate objective. It might take another slant into a new Hotel building. But it could get started. United, cooperative effort in a city the size of Snyder can realize on any objective they might set their minds to do.

One man admits, referring to a program of community betterment, that it is a fine thing, but asks how it is to be secured without increasing taxes. But that is hardly an objection. One doesn't have better clothing, a better house, better food, better house-lighting, or better farm implements without paying for them. There can be no progress without expense. But are not the better things worth their cost? These are better times than the pioneers, or even our fathers, had. Shall we live and work by the old standards, or by the new? Shall we have the good things that are available, or shall we be content with the inferior?

Community betterment does not mean—should not mean—extravagance, or spending more than we have. Instead, it means well-considered improvement. There are hair-brained promoters and enthusiasts who can advocate things beyond reason. But no sane thinking person will close his mind to sane suggestions for the common good. We have always believed in keeping "one jump ahead."

Readers, what do you say? The Times-Signal needs your help. Let's all make Snyder and Scurry County grow. If we can be of any help to our sister towns of Hermleigh, Fluvanna, Dunn, Ira, and Inadale—let's stretch out a hand to help. But what do you think, Mr. and Mrs. Editor? Suggest in a letter to the editor what you think could be done that would help Snyder and Scurry County. Or what would improve or better Snyder and the community!

Scurry County is mighty lucky to have four outstanding people striving—every hour, every day—to bring better things to its midst. They are, namely: Mr. E. P. Moore, secretary of the Scurry County Chamber of Commerce, who is admitted by local business men to be the best chamber of commerce secretary in West Texas; in Mr. A. A. Bullock, better known as "Pat", they have the outstanding county school superintendent in the State; and in Mr. C. C. Willis we have a county farm agent that takes no back seat for any representative agricultural interest. It would be mighty unkind not to give the ladies some attention, when one refers to outstanding folks, and to cap the idea, Miss Bessie Carr, in the home economics department, is keeping pace with the other named Scurry County boosters. Now, we folks who are laymen in the above four

named fields should put our shoulders to the wheel and cooperate with every individual named, to help them all we can.

GAME SIDELIGHTS

"It was a real ball game," was heard more than once by the spectators.

"I have paid \$1.50 a number of times to see worse games," remarked W. A. Forman.

"I'm in favor of having more of them!" shouted Rev. Ferguson when one of his team belted out a home run.

"I think we ought to have one every once-in-a-while and give the proceeds to charity," said John Spear.

"It was the first game I have ever seen in Snyder, but I don't know when I ever had a better time," declared N. M. Harpole.

Some of the old ball players were in surprisingly good form not having had any practice. For instance, Earl Brown, Ralph Odum, Earl Fish, Norman Autrey; in fact, nearly everybody played well.

Pitcher Young seemed to feed to the batters just what they liked. Autry liked it so well he knocked a home run with the bases all "drunk."

Ray Fesmir had his home-run rabbit foot with him—must have had, as he belted out two homers off Pat Bullock.

The ump's were not rotten, but on the other hand, both umpires did fine work. Harrington showed poor judgment before the game began by giving Empire Collier a rotten cigar. George Northcutt of the Baptist aggregation came along and gave Empire Collier a 25-cent Chancellor.

"Uncle" Jack Wolf is to be commended for the big part he did in making the game the financial success that it was by donating the use of his

park and otherwise patronizing the game.

All told, Snyder has sent more than \$200.00 to the Rock Springs sufferers.

Everybody had a good time at the game, and the people of Snyder are to be commended on account of the way they contributed to the cause which was indeed a worthy one.

Rev. Manley again showed his benevolent spirit by taking the lead in the sale of tickets to the game.

Important Notice! MEMBERS of the Texas Farm Bureau Cotton their checks next Saturday totaling approximately \$29,068.81, according to W. W. Porter who announced that these checks represent a final distribution on the past year's cotton from the county marketed orderly and co-operatively through the Association. In addition to the initial advance made at the time the cotton was shipped, distributions have also been made in December and February. A special meeting of the membership has been called for 2 o'clock, Hermleigh, Texas, at the labernacle when E. M. Baldwin, district director of the Association, will present the checks to members and give detailed information on the organization, operation and progress of the Association, as well as plans for the future. This meeting will undoubtedly prove one of the most interesting meetings of its kind ever held in the county, and according to Mr. Porter, a special invitation has been extended to non-members and to business men, as well as women, to attend. "It will be an ideal opportunity for everyone to get a clear, concise and understandable message on just what cotton co-operative marketing is and how it operates," Mr. Porter said. The distribution of this approximate \$29,068.81 at Hermleigh Saturday is a part of the personal distribution of some \$3,500,000 which is being made by other association directors and officials of the Texas Farm Bureau Cotton Association over the State during the three days of Thursday, Friday and Saturday. This plan of making the final distribution is being tried this year in Texas for the first time, and in addition to the distribution of these funds, special charts will be shown and explained covering the season's business in completing the sixth year of its operation. Deliveries during the coming season will open the seventh year, and representatives feel that a substantial increase will be noted in the cotton delivered to co-operative marketing channels from this county. The year just ending, it is said, has been a most successful year from the standpoint of the grower member who has participated in the benefits of orderly and co-operative marketing, association representatives state, details of which will be presented at the meeting at Hermleigh when the approximate \$29,068.81 for this county as final settlement will be distributed. 1

Fluvanna News Notes

Church Services

Last Saturday night the B. Y. P. U. enjoyed a delightful social function in the home of Mrs. Boynton. Of course the attendance was good. A charming color scheme was carried out—pink and white being used—and tasty refreshments were served. Those attending report an all-round good time.

The Presbyterian congregation held their Sunday school and preaching services last Sunday in the Methodist church. The Methodist people have not finished their task of repairing and painting the interior of their building; nevertheless, it is now available for use. The Presbyterian building is now undergoing repairs and a general interior renovation. This accounts for the arrangement for last Sunday. A splendid congregation heard the Village Preacher present the subject of Sabbath Observance, including the origin and change of this holy day from the seventh to the first day of the week. At the evening service more people came to see and hear the stereopticon lecture on The Life of Christ than could find a place—even standing room—in the spacious building.

We understand that well attended and interesting services were held at the First Baptist church by the pastor, Rev. Charles Leslie, at both morning and afternoon hours.

Next Sunday Rev. Hardy, pastor, will fill his pulpit at the Methodist church at the usual hours.

Business Affairs

Decided improvements on our depot and the Higginbotham-Bartlett Company lumber shed are nearing completion. Perhaps these improvements forebode considerable developments in and about Fluvanna this year. Hope so!

The Spender Company is having one of its farm residences repaired.

Uncle Joe Higginbotham and D. L. Jones have let joint contract for the drilling of a well in quest of oil on the dividing line of their pasture lands in Borden County, some four miles from Fluvanna. For this purpose they have arranged a lease on some twelve sections of land.

Our farmers are pressing the agricultural interest of our community, but their ardor was considerably chilled last Friday morning when the mercury was found tending at 32—the result of a sharp norther during the previous night. It may be recalled that the Fluvanna correspondent called attention several weeks ago to the probability of such conditions.

The Fluvanna Chamber of Commerce has completed its organization and is beginning activities calculated to bring about better conditions for the town and entire community. Let all the people think and pull together.

Quite a large company of men were in attendance at the meeting of our Chamber of Commerce in the Baptist church Tuesday night. Several C. of C. men of Snyder were in attendance, and all brought messages of inspiration and good cheer. Following the opening of the meeting and a few routine matters, President Massey invited E. P. Moore, secretary of the Scurry County Chamber of

Commerce, to the chair. At different intervals Mr. Moore made short and inspiring talks. He introduced B. M. Whiteker of Haskell, exhibit manager of the West Texas Chamber of Commerce, who delivered the principal address of the evening. Mr. Whiteker proved himself master of his subject, and delivered a very impressive, instructive and helpful address. C. C. Willis, county agricultural agent, spoke briefly on the conservation of soil and the proper utilization of feed stuffs. O. P. Thrane declared that he had no speech to make, but in a few well chosen sentences, he offered some fine suggestions. Messrs. Smith and Jones of the Scurry County Times, not really as speakers, but made it clear to all that their splendid paper is being published for the purpose of serving the people—all of Scurry County. On the whole we feel this was really a very important meeting—one that will continue to bear much wholesome fruit. We are all coming to understand more and more of genuine CO-OPERATION.

The Wedding

On Wednesday of last week a fine looking couple—Mr. Ernest E. Barnes and Miss Pearl E. Lane—of Signal, not really as speakers, but made it clear to all that their splendid paper is being published for the purpose of serving the people—all of Scurry County. On the whole we feel this was really a very important meeting—one that will continue to bear much wholesome fruit. We are all coming to understand more and more of genuine CO-OPERATION.

Sickness

Unlike some correspondents, we publish what we know of the bad as well as the good conditions existing among our people. It is all news. At present we know of but few cases of illness, accidents, etc. Houston Jones happened to the misfortune a few days ago of getting his right foot severely mashed by a cross-tie falling on it and fracturing some of the bones. Accordingly, Houston is now trying the expediency of walking on three legs.

J. Y. York was reported seriously ill a few days ago, but was better at last report. The patient is having trouble with his heart.

On last Saturday morning Mrs. Lillie Lee Smith underwent a serious operation at the Lubbock Sanitarium. We understand that the patient is getting along nicely. It is hoped that she will soon be back home with her five children.

On last Monday Mrs. T. J. Rea presented her husband with a bouncing girl—their first born. T. J. may not be an expert vocalist, but he is probably trying to fit some familiar and easy flowing air to the words:

"She has a healthy pair of lungs, And shows it by a blast Of crying spells and noisy yells, And I'm a dad at last."

Trips and Visits

Tollie Favor and wife carried Mrs. Dyce to Sweetwater last Sunday afternoon where she is attending the bedside of a sister who is said to be seriously ill.

J. J. Belew made a business trip to Lubbock last Friday.

Rev. Hardy made a flying trip to Brownwood and returned last week.

Prof. H. L. Massey and Miss Winnie Houston accompanied Charles Bley and J. T. Beaver to Lubbock last Friday where these boys were contestants in the school district meet. The boys were not able to bring back any special honors, but, anyway, they are to be congratulated on getting

Ennis Creek School Receives More Aid

Upon checking the amount of money received against the amount allotted by the state aid supervisor, Mr. McClung, I found that he made an error of something like \$200.00 in Ennis Creek school's account. I wrote the Department of Education about it and we were granted \$200 additional aid for the school. This makes a total aid received for the county \$11,120.00.

Schools are closing from time to time now, however the most of them will be out the latter part of May. I believe this has been a most profitable year in the rural schools. Everything has gone smoothly and a great spirit of co-operation has been shown throughout the year by the teachers and patrons.

Plans are being made to build or add new rooms in five of the rural districts. All these will go over, it is almost certain, when the time comes to vote on the propositions. Bell, No. 16, will replace their old one room school with a nice, modern two teacher plant. Canyon will add a new room to their building and build a nice home for teachers. This is one of the best investments a school district can make. We have a lot of nice homes for teachers in the county. Cottonwood, No. 5, will replace their old one teacher building with a modern plant of two rooms. Pleasant Hill, No. 11, will add a new room to their building, which will give them a modern three room plant.

German, No. 31, will build a modern two room building. This also has been a one teacher school.

The Old Pyron district was consolidated with Hermleigh Independent and Santafe, No. 36. This throws the one teacher school of Old Pyron in with an eight teacher school and a five teacher school. One by one the one teacher schools are going. They have served their days of usefulness, and they should go.

Ira will hold an election in the near future to determine whether they will build a brick school or remodel the old structure. One or the other will be done. Ira has something like 185 children in regular attendance with only room for four teachers.

Dunn has received the \$1,000;—at least it has been granted—that they receive as a bonus for the consolidation effected last fall. Beginning September 1 this year the consolidated schools of Dunn and Deepcreek will be in effect. This is the first step in the right direction, and it is hoped that a number of the highest type rural high schools will be formed in the county within the next few years. There is absolutely no reason why the rural boy and girl should be compelled to do without high schools when it will be so easy to give them high schools. If the people of Snyder, Dunn, Hermleigh, Fluvanna and others that have high school advantages get behind the dollar and absolutely refused to go beyond State and County rendition on their property, they could have but very little better schools than you who live

in the rural districts have. These people are willing to pay that their children might get the best, and we will never have the system of rural schools that we should have for our boys and girls until we are willing to do the same in the rural districts.

Give your boy and girl the best chance possible; they deserve it, and you will never regret it.

THE COMMUNITY'S MOST MYSTIC FORCE

F. R. Champion, publisher of the Schenectady (N. Y.) Union Star, gives good reasons why your home town newspaper is the most important magnetic force of the community in which you live. He says:

The one great magnetic force of your community is your newspaper. What a community is, what it does for its people, and what advantages it offers for attracting business and citizens, is determined not so much by its buildings and natural advantages as by the spirit which actuates its citizenry.

Without civic pride natural advantages are of little avail. With its citizenry united and filled with civic pride, the lack of natural ad-

Ennis Creek School Receives More Aid

Upon checking the amount of money received against the amount allotted by the state aid supervisor, Mr. McClung, I found that he made an error of something like \$200.00 in Ennis Creek school's account. I wrote the Department of Education about it and we were granted \$200 additional aid for the school. This makes a total aid received for the county \$11,120.00.

Schools are closing from time to time now, however the most of them will be out the latter part of May. I believe this has been a most profitable year in the rural schools. Everything has gone smoothly and a great spirit of co-operation has been shown throughout the year by the teachers and patrons.

Plans are being made to build or add new rooms in five of the rural districts. All these will go over, it is almost certain, when the time comes to vote on the propositions. Bell, No. 16, will replace their old one room school with a nice, modern two teacher plant. Canyon will add a new room to their building and build a nice home for teachers. This is one of the best investments a school district can make. We have a lot of nice homes for teachers in the county. Cottonwood, No. 5, will replace their old one teacher building with a modern plant of two rooms. Pleasant Hill, No. 11, will add a new room to their building, which will give them a modern three room plant.

German, No. 31, will build a modern two room building. This also has been a one teacher school.

The Old Pyron district was consolidated with Hermleigh Independent and Santafe, No. 36. This throws the one teacher school of Old Pyron in with an eight teacher school and a five teacher school. One by one the one teacher schools are going. They have served their days of usefulness, and they should go.

Ira will hold an election in the near future to determine whether they will build a brick school or remodel the old structure. One or the other will be done. Ira has something like 185 children in regular attendance with only room for four teachers.

Dunn has received the \$1,000;—at least it has been granted—that they receive as a bonus for the consolidation effected last fall. Beginning September 1 this year the consolidated schools of Dunn and Deepcreek will be in effect. This is the first step in the right direction, and it is hoped that a number of the highest type rural high schools will be formed in the county within the next few years. There is absolutely no reason why the rural boy and girl should be compelled to do without high schools when it will be so easy to give them high schools. If the people of Snyder, Dunn, Hermleigh, Fluvanna and others that have high school advantages get behind the dollar and absolutely refused to go beyond State and County rendition on their property, they could have but very little better schools than you who live

in the rural districts have. These people are willing to pay that their children might get the best, and we will never have the system of rural schools that we should have for our boys and girls until we are willing to do the same in the rural districts.

Give your boy and girl the best chance possible; they deserve it, and you will never regret it.

Hermleigh News Notes

Miss Ina Mae Caswell is the authorized correspondent for Hermleigh, and as such is authorized to receive renewal and new subscriptions. Co-operate with her in building a fine weekly news column for this thriving town.

School Notes

The regular routine was resumed after examinations, and now everyone is diligently preparing his work for the end of the term.

Miss Pat Jenkins and her second and third grade pupils gave a very enjoyable chapel program last Wednesday morning. After the regular Scripture reading and prayer, a group of little girls, dressed to represent flowers, spoke their respective merits. This was followed by a reading by Pete Nachlinger, a little play emphasizing kindness to dumb animals, and a negro song by Marie Vick. The program concluded with a piano solo rendered by Miss Audrey Jenkins.

The other day the eighth and ninth grades gift-showered their room teacher, Mr. Merrill, and the next day at noon we were surprised to see them creeping slowly around with a "don't touch me" air. Upon inquiring we found that they were justified in such an attitude, for Mr. Merrill had just treated them to all the ice cream and cakes they could eat—which must have been a plenty.

The juniors and seniors linn-showered their room teacher, Miss Eva Strayhorn, last Thursday. She said she thought she would keep the things to look at instead of to use.

The baseball boys played the Snyder high school team last Wednesday on the home field, but were defeated 10 to 4. They take what consolation they can from the fact that the gate receipts were enough to pay their debts and buy a new bat or two.

Yes! We had the senior-junior picnic last Friday! After school these two classes, accompanied by the high school teachers and a few friends, drove out to Green Springs, and after an hour or two spent in laughing, talking, practical joking and a hiking trip from the cave to the springs and back, all were prepared to do justice to the delicious lunch which was spread on the rocks near the cave. The homeward journey was begun about sundown by a tired but happy bunch of pupils and teachers.

What Do You Get When You Buy A Car?

YOU BUY a car to get satisfactory transportation which includes first cost, appearance, safety of operation, easy riding qualities, economy of operation and repair, long life, and resale value.

First Cost—

Now fit a Chevrolet to this. First cost is lowest of any gear-shift car. Also it is a complete car, and you need nothing more than a spare tire to be ready for safe use for any distance.

In Appearance—

It is admittedly one of the prettiest cars sold under \$1,000. With Fisher body, Duco paint and modern design, the New Chevrolet is a new car; practically no parts of the last series will fit a 24 model. It is absolutely clear of 1910 design and is not already an old car when you get it.

Riding Qualities—

It is admitted by all competent observers to be the easiest riding light car.

Economy of Operation and Repair—

Economy of operation is a basic claim of Chevrolet users. Accurate records by firms who use large numbers of cars show an operating economy of more than a cent a mile cheaper than any other car regardless of weight, size, or first cost. There is no car sold in Scurry County coming even reasonably close to Chevrolet economy. Repair cost is low because the New Chevrolet will not "two-bit you into bankruptcy"; also, the Chevrolet can be repaired cheaper than other cars because it is modern in design, and it is not necessary to dismantle the whole car to get at some small part. Parts are low priced, some of them half the price of corresponding parts in cars costing even less than the Chevrolet.

Fleet or large users as well as individuals are going to Chevrolets in a landslide, as is proven by the fact that one make of car which sold 63 per cent of all cars in the U. S. in 1920 has dropped to 36 per cent in 1926, while General Motors, who build the Chevrolet, have doubled their output in the same time.

Long Life—

Long life is an outstanding feature of the New Chevrolet, due to use of heavy crankshaft, high pistons and other modern features. A car to stand up to our fast roads and present day demand must be kept up to date. You can't reasonably expect to get satisfactory transportation from a car that has followed the same general design for 15 or 20 years. You want a new car. The time is fast passing when you can buy a car, drive it a year—or less than 10,000 miles—then sell it for nearly the cost of a new one. The country is all cluttered up with the kind of cars now, and nearly everybody is trying to get rid of them at once. A New Chevrolet looks good, and runs good at 50,000 miles or more. We have had them here with 43,000 mileage and some are here frequently with 35,000 mileage. Ask the user.

The Re-Sale Value—

If you want to fine out the resale value of a New Chevrolet, try to buy a '25 or '26 model from the owner and see what he asks for it.

Safe to Drive—

The New Chevrolet is far and away the safest light car on the road, as proven by a comparison of the number of "wrecks" and "turn-overs". Absolutely no car made, capable of making a high speed, has a record more clear of "turn-overs" and "defective steering gear" wrecks. Do you want your family or yourself ditched or turned over by a little soft dirt or sand in the road? Buy a New Chevrolet and play safe.

Then, Sneaking Generally—

You can then put the saving in first cost out at interest and let it apply on upkeep. The New Chevrolet has better than 98 per cent satisfied users of its style and class of "transportation plus," and everyone planning for a new car owes it to themselves to investigate it before they buy any more transportation. Are You "Toxic"?

It Is Well, Then, to Learn the Importance of Good Elimination.

FUNCTIONAL inactivity of the kidneys permits a retention of waste poisons in the blood. Symptoms of this toxic condition are a dull, languid feeling, drowsy headaches and, sometimes, toxic backache and dizziness. That the kidneys are not functioning as they should is often shown by scanty or burning passage of secretions. Many readers have learned the value of Doan's Pills, stimulant diuretic to the kidneys, in this condition. Users everywhere endorse Doan's. Ask your neighbor!

PRE-EASTER MUSIC BY THE SNYDER CHORAL CLUB

An appreciative audience filled the Methodist church on Wednesday evening preceding Easter to hear a presentation of "The Crucifixion," by John Stainer, by members of the choral club assisted by tenor and bass voices.

This inspiring cantata is a meditation on the sacred passion of the Holy Redeemer, beginning with the agony of our Lord in Gethsemane, the processional to Calvary, then the Divine humiliation, concluding with the appeal from the cross. The musical score is of the highest type, but it is to the words of this cantata that it owes its appeal. On this occasion the audience evinced unusual response. The solos were taken by the following singers who sang with great sympathy and understanding: Mesdames Hugh Boren, Earl Fish, R. D. Kinney, Miss Georgia Bolin, Messrs. Cody, Martin, Yoder, Bell and Dawes. Mr. Thomas Dawes very ably
