

Some fellows kick if they would be hung, but what we started in to say was this:

A paper salesman came into the office, Monday morning, and told us that in most any town he visits, you'll hear certain business men say "Our newspaper rates are entirely too high."

The Lions Club at their last week's luncheon were introduced to a questionnaire by Pres. Warren Dodson that originated from the Town Doctor articles put out by the International Lions Club.

Some of the answers given were: Yes, because I have had and still have faith in the future of Snyder. Yes, account high and dry climate, good citizens, schools and churches.

Yes, good place to live and a healthy place. You BET. Best town, best people on earth. Yes, I would live in Snyder because of good citizens, the social and religious surroundings.

Yes, because I like the people and the opportunities in a business way. Question No. 2 said: "In your estimation, what is Snyder's greatest asset as a place in which to live?"

Answers included: The progressive spirit of its people. School system. Best and cheapest water supply.

Climate, water, city conveniences, and schools. Good churches, schools and good citizenship. Plenty of good water and fine altitude, with good people.

Remarkable possibilities for future expansion. Question No. 3 said: "What is Snyder's greatest drawback, if any?"

Lack of a modern hotel. Too darn many knockers. Let's all get together. Lack of 100 per cent co-operation in all progressive moves.

Improvement on city streets and water works. Give more employment to entirely local labor. See some of the so-called "gripers" kiss and make up and live their religion.

Revive spirit of town toward carrying out aggressive activity. Set forth a definite, well outlined campaign for a hotel, a better supported band, a public park and auditorium, more pavement, school gymnasium.

Harmony. Several things could be done to improve it. Eliminate outside chain stores. Erect a first class hotel building, creamery plant and manufacturing plants.

Vote bonds for street paving, city hall and make it possible for Snyder to be outstanding small city in West Texas. Better co-operation among our people.

Good Crossings Asked of R. S. & P. Railway Heads

Two Local Crossings in Bad State of Repair and Need Improving

The Roscoe, Snyder & Pacific Railway heads would have the united thanks and good wishes of every person driving an automobile who is compelled to go over either of their crossings here in Snyder.

The following is a copy of a letter that was mailed out of Snyder last Friday.

Mr. W. B. Johnson, Supt. Roscoe, Snyder & Pacific Ry. Co. Roscoe, Texas

I have been called on a number of times by Snyder and Scurry county citizens to make a good crossing on the Highway where the R. S. & P. crosses same in the City of Snyder.

Of course we have nothing to do with these crossings, as you know, but the people do not seem to understand this. I realize the crossing is in bad condition, and have been asked by the citizens and the Highway department to take it up with you and see if something could be done as soon as possible.

As the R. S. & P. officials have always been boosters for Snyder, ready to assist at all times, we hope they will keep up the good work by fixing the two crossings.

Snyder and Scurry county will be everlastingly indebted to the rail officials if they will come to our rescue now, ahead of the heavy tourist season.

Ed. Note:—Speaking of perfect service, the R. S. & P. started to improve crossings early this morning. That's the speed we would say and we are stopping our presses to add this valuable note to our story.

Ahead of the one million dollar mark which is considered excellent for this particular season of the year, and in face of present business conditions throughout the country at large, bank deposits in the three Scurry county banks reflect the stability of the entire section.

Total deposits amount to \$1,272,632.98 in the three institutions divided with The Snyder National Bank having \$614,821.12; The First State Bank & Trust Co. with \$530,179.98 and the First State Bank of Fluvanna with \$127,631.78.

Total loans are shown to aggregate \$1,097,425.89 in the statements that appear in this issue.

Aggregate resources according to the bank statements are \$1,614,602.63 with The Snyder National Bank having \$828,714.57; The First State Bank & Trust Co. with \$644,493.69 and the Fluvanna bank with \$141,454.27.

Because of the call having been issued just following the year's taxes and with ranchmen in all sections springing heavily on feed until spring rains bring relief, it is pointed out that the total is unusually high and very pleasing.

ECONOMY STORE SHOWS STREETS WITH GOLD

The Economy Store announced last week they would give \$50.00 in pennies, nickels, dimes and gold pieces Saturday morning. A crowd that taxed the capacity of the South side of the square was on the job with Mrs. Jim Merket of China Grove being the lucky one to receive the \$5 gold piece.

The money shower was a fine bit of merchandising and a great crowd-getter and the Economy Store more than repaid sales returns with the unusual piece of business promotion.

Italians defer parity demand, but rest assent on its success. Wholesale actions. The Ladies Social Clubs are invited to answer these questions. The Times-Signal would enjoy wholesome comment on the above. Help the Town Doctor in his weekly work on page four of this issue.

Church Observes Unique Ceremony Sunday, June 8th

Church of Christ Joins in Globe-Circling Church Birthday

The local Church of Christ, Thomas M. Broadfoot, minister, is joining in one of the most unique services ever planned in the history of Christendom. It is planning for its greatest day June 8. This day marks the nineteenth-hundredth birthday of the church, and the churches of Christ around the world are all joining in concerted and unified memorial.

Rather than entering in one great mass-meeting, all members in every church, large and small, are to take part. The memorial will center around the table of the Lord's Supper which was inaugurated by the Lord himself as a memorial of His flesh and blood given for the sins of the world, and every congregation is endeavoring to have 100 percent of its members present.

At 11 a. m., June 8, the services will begin in New Zealand, where are to be found the first churches of Christ west of the international date line. It will then be 6 p. m. Saturday, Central Standard time, in America. The service of commemoration will move westward around the world as the hour of 11 a. m. Sunday arrives. Japan, Australia, China, Russia, Great Britain, and all lands are to participate.

The same chapter of Scripture (Acts 2) will be read. The same songs, including "My Faith Looks Up to Thee" and "All Hail The Power of Jesus' Name," will be sung in all lands and all languages. The globe is to be girdled, in one continuous twenty-four-hour service, ending in the churches of Christ in Honolulu.

The local congregation at the S. W. corner of square, Snyder, Texas, will join with all others in this world-girdling service. Every member is being asked to arrange to be present. Men who work Sundays are asked to arrange to lay off that day and participate. The communion table will be kept spread through the entire day for those who cannot possibly lay off. Elders will carry the emblems to the homes of those otherwise unable to attend, if they will notify the church before that time.

The Will Layne Post at Snyder is giving a banquet Monday night. Not that it intends to try to compel you to join the Legion but that we ex-service men might get together for a good time and at the same time meet the man on the outside and see and decide for himself the benefits to be derived from membership with the Legion.

The Legion needs you, and surely you need the Legion, come in and dine with us and we will endeavor to make you glad that you were here.

Your comrade in peace as in war, The American Legion Boys. "SWAP" HOMES

O. P. Thrane and R. H. Curnette "swapped" homes Monday. Following Mr. Curnette's removal to the Thrane property, he is placing a poultry project on the spacious grounds that are included in the property.

Presbyterian women of the Abilene Presbytery, held a District meeting at Stamford April 4th and 5th. Thirteen women were represented, and the following Snyder and Fluvanna ladies were in attendance and report a very interesting meeting: Meses C. R. Buchanan, Mary B. Shell, J. W. Crowley and J. W. McCoach, and Miss Vera Stavelly of Fluvanna.

Shriners from all points of West Texas have been invited to Sweetwater next Sunday to hear the famous Moslah Temple Shrine Band who will present a program. Following a concert on the square the band is to go to the auditorium to present a show, which is to include as principals "Madame Fatima and Company."

The show is to be presented for Shriners, their wives and friends and novices. There is to be no charge for the entertainment or concert. The band is being accompanied by the potentate, Paul Rogers, and his aides.

After you have read the principal head lines on this page, let us call your attention to: Page two—Read the half-page ad of the three Scurry County banks and special bargains of the "M" System store.

Page three—Get the dates of the One Cent Rexall store sale that will be on at both Stinson drug stores. Page four—The special bargains offered by the Snyder Laundry and the Helpy-Selfy store.

FORWARD MARCH! LET'S ALL CHASE DIRT

Attention Ex-Service Men! "WHEN DO WE EAT?" No doubt many of us do not know the high principles for which the American Legion stands; the wonderful work it is accomplishing and the great progress it is making.

Who knows but that you or I may be the next one to fall by the wayside and need the help of the Legion; and do not forget buddy that tho' you are not at your service, for this reason alone you should not neglect to line up with YOUR LEGION and watch this wonderful work continue.

The injured were John Hash, and Miss Margaret Hash, brother and sister of Thelma. The young people were returning from Colorado, according to reports received here, when their car swerved a truck that had broken down and was parked by the roadside. The truck was practically off the paving, and its lights were burning. It was said.

Following the accident the Odom ambulance went to Roscoe and brought Mr. White's body here where it was prepared for burial. Funeral services for Mr. White were held at the Snyder Cemetery yesterday afternoon in charge of Rev. T. L. Nipp, Mother, step-father and sister survive the young man who had lived in Snyder many years.

Another Poultry Booster in County. W. H. Sterling of the Ira Community has added his name to the list of diversification boosters for Scurry county by starting 3,600 Giles Gainer leg-horn eggs to hatching this morning. He is building a model poultry house and expects to have 1,000 laying pullets this fall.

Another Snyder resident will soon announce a 2,000 laying hen flock as quickly as his business is ready. Snyder and Scurry county are growing, folks.

Called to arrest a woman shoplifter in Berlin, Detective Karl Pfalzen found she was his fiancée.

Choral Club and Friends to Give Vesper Musicale April 16th. The Snyder Choral Club, assisted by other singers of the city will render the Easter Cantata, "The Crucifixion" in a Vesper Musicale service at the First Baptist Church, Wednesday evening, April 16th.

Those taking part in the cantata are: Sopranos—Mrs. Fritz R. Smith, Mrs. R. S. Snow, Mrs. J. E. Senthel, Mrs. C. E. Fish, Mrs. Hugh Boren and Mrs. W. W. Hamilton.

Tenors—Willard Jones, Munger Y. Lewis, I. W. Walton and A. J. Cody. Baritone—R. H. Bell, Homer Springfield, A. A. Bullock and George F. Smith.

The Vesper Musicale will start promptly at 7 o'clock. This being campaign year we will be very soon faced with the problem of candidates' posters and other advertising information of that nature on State highways.

Two years ago we did not interfere with candidates' posters for the reason that many thousands of them were already on the rights-of-way before we were aware of the extent of the problem, but we wish this year to consider such signs of the same nature as merchants' or business men's advertising and prohibit their erection on the right-of-way.

We consider that with such notice given in advance it will not be detrimental to anyone and will be fair to all, and the Commission does not believe that any discrimination should be made between candidates for public office and merchants or others advertising.

State Highway Engineer.

Virgil White Killed in Wreck Near Roscoe

Girl Companion Killed and Three Others Are Injured

Virgil White, 25, step-son of A. M. Cordell of this city, and Miss Thelma Hash, 20, living near Roscoe, were instantly killed Tuesday night near Roscoe when their car crashed into a parked truck on the Broadway of America highway, 3 miles west of Roscoe.

Miss Hash's neck was broken and White received fatal injuries to the head. The young people were returning from Colorado, according to reports received here, when their car swerved a truck that had broken down and was parked by the roadside.

Following the accident the Odom ambulance went to Roscoe and brought Mr. White's body here where it was prepared for burial.

Funeral services for Mr. White were held at the Snyder Cemetery yesterday afternoon in charge of Rev. T. L. Nipp, Mother, step-father and sister survive the young man who had lived in Snyder many years.

Marriages "Faw Down and Go Boom" in County

Joke Law Receives Set-Back from Romeos and Juliets in Old Scurry

With the new marriage laws in effect for one year, the fact that Scurry county weddings are falling behind is evidence that when folks want to get bound up in the holy rites of matrimony, there isn't any law on the books they won't hop over and proceed to get wedded as they please.

Records made available Monday morning in County Clerk Mable Y. German's office show that the year previous to the present law, becoming effective June 13, 1929, that 139 marriages were listed in the books, while the year just passed show but 57.

Official records show the following marriages from June 13, 1928, to April 1, 1929:

Table with 2 columns: Month and Number of Marriages. Total Old Law: 139.

New Law Statistics. Taking June 13, 1929, to April 1, 1930, we have the following:

Table with 2 columns: Month and Number of Marriages. Total New Law: 13.

The law appears to be about as "silly" as the legislator who wanted to introduce a bill in the 41st group against ladies wearing high slippers, as if that could be any of his business.

School Trustees Elected April 5. The voting on school trustees Saturday brought out no opposition with the return of the same trustees to office in Snyder with the exception that Dr. J. G. Hicks takes the place of P. C. Chenaault.

According to County Judge Horace Holley, returns for the rural trustee elections will not be available until next Monday. Seventeen rural districts held elections Saturday with contests appearing at several points.

As quickly as the returns have been made, County Supt. Bullock has promised us the official list.

Reports Tuesday afternoon from the Guinn No. 3 well in the Camp Springs neighborhood was down to 4140 feet with the hole standing full of water. That a good flow of oil will be found at this well is the expression of oil scouts who seem to know their business and will will continue down to the 5,000 foot level unless oil is discovered before that depth is reached.

The Davis-Pender No. 1 well, eleven miles north of Guinn No. 3 is down to 4,225 feet and under-running with six inch casing was being completed. Scouts are looking for something good to happen at this well within the next 200 feet.

The Knights Templar Easter Sunday Services of the Snyder Commandery will be held at the Methodist Church in Snyder at 11 o'clock. All Sir Knights and their ladies are expected and the public is cordially invited.

Program. Song, "All Hail the Power of Jesus' Name." Lord's Prayer. Scripture Reading from Psalms, Gloria.

Notices and Obituary. Quartet, "The Heavens Are Telling"—Ladies Quartet. Roman Prayer, Sir Knight Carlin. Sermon, Sir Knight Wright. Duet—Geo. F. Smith and Munger Y. Lewis. Benediction.

DAWSON CO. LOSES 2ND ROAD ELECTION. Dawson county lost out in their road bond issue Tuesday, by approximately 6 votes. This was their second election.

Born to Mr. and Mrs. John Howard, a 7-1-2 pound girl, at the Emergency Hospital, Tuesday.

Council Calls Franchise Vote for May Fifth

Whether or Not Council Will Grant Light and Power Franchise Decided

City Council in their regular session Monday night have set Monday, May 5th as the date of a city-wide election as to whether or not the Citizens Electric Service Company of Snyder will be granted a light and power franchise.

Messrs. Geer, Rankin and Blekey of the Texas Electric Service were present at the meeting. The council acted very wisely in their decision to leave the matter entirely to the wishes of our local citizenship as the matter may become quite heated before election day.

Pyron Schools Announce New "Gym" to Be Built. Snyder and Scurry county will rejoice with the student body and faculty of the Pyron Public School with the announcement this week that the Board of Trustees of that thriving school district, M. A. Glass, S. P. Bowen and H. W. Beights decided by unanimous decision to erect on the campus a modern physical education building.

The new building is to be a combination auditorium-gymnasium of permanent construction, 60x100 feet and will be modernly equipped throughout. It will provide one of the largest auditoriums in West Texas when completed and will take care of the many public gatherings held at Pyron. The building will also have a spacious stage for dramatic activities of the school. It will be large enough to care for basketball with a court 44x84 feet as well as all other indoor sports. Physical education classes will be conducted in the building.

T. J. Bryant is the popular and beloved head of the school who has made remarkable strides in educational work and who has the good will and esteem of all with whom he has ever come in contact. Pyron school has grown continuously for the past five years, having added during the time three teachers, a two class room and a basement to the school building, a Home Economics and Shop room, and with the new building to be erected, a still brighter day for Pyron has dawned.

The 1930-31 scholastic census shows an increase of 59, making a total of 254, and here is sincere congratulations to the Pyron community for this great and good news that is now being made public.

Times-Signal presses now have on the way a real school paper that the students and faculty of Pyron are sponsoring.

Colorado Will Have Miniature Fat Stock Show. More than seventy-five baby beef calves are to be exhibited at the Mitchell County Fat Stock Show, Saturday, April 12. The show is sponsored by the Colorado Chamber of Commerce for the purpose of exhibiting fat cattle fed out by 4-H Club boys of the county and members of the High School Vocational Agriculture class.

Prizes are being offered by the Chamber of Commerce, local merchants and feed manufacturers to the calves making the greatest gain in 150 days. Other prizes are to be given on best finished calves.

The show will be judged by W. L. Stangel, Head of the Animal Husbandry Department of Texas Tech. The calves will be sold at auction at 3 p. m.

Feeding work here is under direction of W. S. Foster, county agent, and Doyle Williams, Vocational Agriculture Instructor.

Chamber of Commerce Behind Exhibit Feeding Out Cattle by Boys. More than seventy-five baby beef calves are to be exhibited at the Mitchell County Fat Stock Show, Saturday, April 12. Born to Mr. and Mrs. John Howard, a 7-1-2 pound girl, at the Emergency Hospital, Tuesday.

Scurry County Bankers Say

To The Farmers Of This Section

Do you want to take 10c or less for your cotton this year? That prospect is before us. What can we do about it? The most practical thing, in our opinion, is to plant enough feed on your farms for your own use. This can be done by every farmer in Scurry county. It has never yet been done. If we will only do this one thing we will be able at least to get by even if cotton does sell for 10 cents.

Reduction of cotton acreage is the only possible thing that will prevent a low price for cotton this year. This is being advocated by the Farm Relief Board and the Agricultural Departments of our State and Nation. It is self evident.

Raising enough feed for our own use is not all that is necessary to correct the situation but it is a step that is easy and practical.

We strongly urge upon our farmers that they do this thing.

UNLESS SOME CHANGE IS MADE IN OUR FARMING OPERATIONS, THE DAY IS COMING WHEN THE BANKS WILL BE UNABLE TO SAFELY ADVANCE MONEY TO FINANCE PRODUCTION OF COTTON ALONE

First State Bank & Trust Co.

LOCALS

R. J. Randals visited Nibs Warren Saturday, at Morton.

R. E. Meredith of Sweetwater was a Snyder visitor Sunday.

Tracy T. Smith of Big Spring was calling on home folks Monday.

H. C. Teague and H. L. Champion went to McCamey Friday on business.

E. B. Hull of Sweetwater visited his mother, Mrs. D. J. Hull, Sunday.

Mr. and Mrs. George Gray of Sweetwater visited Snyder relatives Sunday.

Dr. L. E. Barr, Census Supervisor of Lubbock, was a Snyder visitor, Saturday.

Dr. Sed A. Harris and niece, Miss Chloe Harris, visited relatives at Amherst Sunday.

Mrs. Robt. Welborn of Amherst is the guest of her sister, Miss Chloe Harris, this week.

Mr. and Mrs. A. S. Graham of Sherwood, spent the week end with Snyder relatives.

Mr. and Mrs. B. G. Johnson spent Sunday in Baird. Mrs. Johnson remained for several days visit.

J. L. Caskey and W. L. Jones of Hernleigh went to Ft. Stockton on business last Thursday and Friday.

Mrs. Ruby English of Abilene was the guest of her sister, Mrs. W. W. Smith and family over Sunday.

Mrs. R. J. Randals and son Jimmie spent last week end with her mother, Mrs. F. P. Anderson at Hamlin.

Fred Yoder, student at McMurry College, at Abilene, spent his mid-term vacation with his parents the past week.

Mrs. Robert Curnutte, Jr., and Mrs. Maurice Brownfield, visited Mrs. R. N. Wilson at Sweetwater Sunday.

Mr. and Mrs. George Webb and baby daughter of Big Spring were Sunday guests in the O. P. Thrane home.

Mr. and Mrs. W. R. Stone of Lockney are visiting Miss Elizabeth Smith, and other Snyder relatives this week.

Mr. and Mrs. C. A. Whitfield of Falls visited Mr. and Mrs. J. R. Joyce and other relatives over the week end.

Mrs. W. W. Gross of Fort Worth arrived Tuesday for a few days visit with Mr. and Mrs. W. L. Gross, and Snyder friends.

Mr. and Mrs. Owen Cloud of Albany spent the week end with the latter's parents, Mr. and Mrs. W. H. Cauble and family.

Mr. and Mrs. John R. Covey and son, John, Jr., of Lubbock, visited Snyder relatives and friends over the week end.

Mrs. Robert Hemby of Sweetwater, came Monday for a few days' visit with her daughter, Mrs. Howard McDonald and family.

Mrs. R. Medlen of Roaring Springs who has been visiting her daughter Mrs. W. J. Ely and family, returned to her home last week.

Misses Margaret Dell Prim, Polly Porter, Gladys Bullard and Thelma Leslie, attending school at Lubbock Tech, spent the week end with home folks.

Supt. C. Wedgworth will leave tomorrow for Temple to be at the bedside of Mrs. Wedgworth who has not been improving as well as expected.

Mrs. T. L. Lollar, Mrs. L. E. Trigg, Mrs. Lee Newsom, Miss Ann Duncan, and Messrs. Homer Springfield and Cecil McBride were visitors at Sweetwater Sunday.

Mrs. P. M. Chambers and daughter Mrs. Gwendolyn Sams went to Ft. Stockton Monday for a few days visit with their husband and father, P. M. Chambers, who recently established a business there.

Mr. and Mrs. B. R. Templeton of Houston, who have been visiting their parents, Mr. and Mrs. J. W. Templeton and Mr. and Mrs. J. R. Joyce and other Snyder relatives, for the past ten days, will return to their home Friday.

H. H. Thomas returned home from Dallas Monday and was accompanied by his mother, Mrs. H. H. Thomas, Sr., of Paris, Texas.

Mr. and Mrs. Wayne Boren and son went to Fort Worth today for a week end visit with Mrs. Boren's parents.

Clarice Hartley, who underwent an operation for appendicitis at the Emergency Hospital last Thursday is improving nicely.

LIONS CLUB ENJOY WEEKLY LUNCHEON

The ladies of the First Christian Church have made themselves very popular with the Lions Club in providing fine tasty foods for the weekly luncheon meets of the or-

ganization. Yesterday was no exception.

Fred Warren Dodson in a most autoerotic manner stated that after May that he would take a recess, and which brought forth a brand new name for him, that of "Mus-solini."

Prize winners in the Clean-Up prize contest of the Chamber of Commerce were named. Judges included Mayor Towle, Ralph Hicks and Warren Dodson.

First prize went to Fred Day, son of Commissioner Lum Day who had between 110 to 120 tow sacks of old cans, making three wagon loads.

Second prize went to Truman Ivison with 62 tow sacks full.

Third prize to J. W. Johnson, Jr., with 40 sacks. M. M. Clark was a close fourth with 32 sacks.

"The clean-up in Snyder was most successful," declared Warren Dodson.

H. H. Thomas presented the club with a fine American flag.

Ollie Morrow, Joe A. Merritt and Sherman Blakely were introduced as guests.

Judge Holley brought good news of the formation of a new Plains to Gulf Highway Association that will enable Galveston and Houston folks to take an air-line route straight through into West Texas.

The judge also declared that the Hernleigh cut-off will be open to traffic within 45 days.

In a short talk by Joe Merritt, he said that he had been living in the same spot for over 25 years and "still waiting for rain" but that it would come and launched into a beautiful shower of oratory that carried himself and his audience to the shimmering heights of delight. Joe invited all his friends

to a rabbit drive that starts at his place tomorrow with a big free feed thrown in.

Ollie Morrow gave a brief address that stressed the needs for good roads and the amount of money that is daily being received here through tourist traffic.

Karl Froenheim, a handsome burglar of Dresden, has received a hundred proposals of marriage since his arrest.

George Webster, 73, won the annual club race in Hempstead, Eng., swimming in water filled with ice.

John Holsten of Derby, Eng., has been ordered to pay for a window he broke getting out of a church in which he had been locked.

Konjola Only Medicine That Did Any Good

New Medicine Banished
Kidney and Stomach Ail-
ments After Other Failed

MR. M. D. ABBOTT

"I suffered for two years with kidney trouble, said Mr. M. D. Abbott, 600 East Hattie street, Fort Worth. 'I have scarcely been able to do any work. Lifting, or turning my body was the signal for severe back pains. Night risings were frequent. My stomach, too, added to my misery. Anything I ate caused gas and a severe pain in the pit of my stomach.

"Konjola is the only medicine that did me any good. I now feel better than I have for many a day. I can eat what I wish without suffering and the pains in my back are gone. My kidneys now are functioning normally. Konjola has gone right to the spot in my case and I praise this wonderful medicine for all that it has done for me. A medicine that did all Konjola did for me can help others and I am recommending it to a lot of my friends who are suffering as I did."

Konjola is not a "cure-all." There is no such thing. But when taken for from six to eight weeks, Konjola will produce amazing results. The countless thousands of endorsements of Konjola have proven that it makes good, even in the most stubborn cases.

Konjola is sold in Snyder, Texas at Stinson Drug Co. and by all the best druggists in all towns throughout this entire section.

THREE ACRES IS FARM, SAY CENSUS OFFICIALS

Farm Is all Land Farmed by
One Person, Whether 3
Acres or 3000 Acres

A farm, according to the Census Bureau is all the land farmed by one person, whether it is three acres or three thousand acres.

Sound simple, doesn't it? Well, it wasn't so simple for the Government officials to decide what should be considered a farm by the enumerators during the census to be taken in April. Much study and years of practical experience were necessary before the short, concise definition was agreed upon.

Dr. L. C. Gray and Dr. O. E. Baker, of the Department of Agriculture, assisted Census officials in deciding upon what should be called a farm.

The amount of farm land owned by one person has nothing to do with the definition of a farm so far as the Census Bureau is concerned. The question is not how much land does he own but how does he operate or farm. A man who owns 300 acres might farm half of it himself and rent the other half out to three tenants, 50 acres each. This would go down on the census records as four farms, because the

BENEVOLENT SOVEREIGN IS OLD KING ALCOHOL

One of the most important commodities used throughout America at the present time is alcohol—believe it or not. "Wets" may cheer at this statement and "Drys" may fear, yet the facts support the claim.

Mr. and Mrs. Citizen shut off an alarm clock and proceed to crawl out of a bed that is probably lacquered with a substance containing alcohol. Milady sprints across the floor, which is covered with paint or lacquer containing alcohol, and eventually arrives at her Vanity which is likewise decorated.

If she has time, she cleanses her face of the remains of a liberal coat of cold cream (which contains alcohol) with a little powder, rouge and lipstick (which contain alcohol) and then dashes downstairs, while hubby gives himself an alcohol rubdown, snuffs and probably uses a shaving cream and a face lotion, both of which contain alcohol. He cleans his teeth with an alcohol-containing tooth-paste or powder, and if he guards his golden locks he is also using a hair tonic that contains alcohol.

It's a cold winter morning and if the car hasn't the right percentage of alcohol in its radiator, the loud noises emanating from the garage are not caused by hubby's whistling, and the lacquer on the car itself contains alcohol. And if Mr. Citizen has neglected to dust off the seat of his

car lately, his first step upon getting out will be to have some grease or dust spots removed with a preparation containing alcohol, or perhaps just plain alcohol. The upholstery in the car is made of a raw material containing alcohol. If his windshield is of non-shatterable glass, alcohol was used in its manufacture.

Hubby arrives at the office, and after he gets comfortably seated at a desk covered with a varnish containing alcohol and using pens, pencils and other equipment in the manufacture of which alcohol was employed, we leave him for the rest of the day and return to the original scene at home.

Mrs. Housewife heaves a sigh of relief at Mr. Citizen's departure, and proceeds to bathe and beautify herself with perhaps a dozen preparations made with alcohol.

The preparations she uses in her housecleaning contain alcohol. If she finds the furniture in a particularly sticky condition, an alcohol preparation overcomes the difficulty. Denatured alcohol enters into regular, everyday use perhaps more times than any other single product. Millions of gallons yearly are used. It is employed in the manufacture of various radio parts, in the making of ink, films, artificial flowers, laundry bluing, cleaning fluids, mirrors and a thousand other commodities.

near cities, even though little land is employed, are, for the census purposes, farms, provided they produced in 1929 agricultural products of the value of at least \$250. If three places are of more than three acres, they are farms regardless of the value of their produce.

In 1925, the last year in which a farm census was taken in the United States, there were 15,151 farms of less than three acres. The total number of farms in the nation was 6,371,940.

The general definition of a farm—"All the land which is directly farmed by one person, either by his own labor alone or with the assistance of members of his household or hired employees"—has remained practically the same since 1870, the first year in which it was used by the Census Bureau. If the figures for different censuses are to be valuable for purposes of comparison, they must be based on the same definitions. When the census records show that there are six million farms in the country at one time and five million at another, the meaning of the word "farm" must be the same for the two periods if useful conclusions are to be drawn, census officials have pointed out.

HONORS SHOWERED ON GOLDEN WEDDING ANNIVERSARY PAIR

Snyder Music Co. Moves
To East Side of Square

Sunday, March 23, 1930, relatives gathered together at the beautiful home of Mr. and Mrs. P. L. Davis to honor their Golden Wedding anniversary, which, according to the calendar, should have happened on the Thursday previous. Fifty years. What a long time nowadays for a couple to live together that long and in this instance, seems to knit the tie that binds closer every day.

Mr. F. L. Davis, or Uncle Frank as he is better known to those who know and love him, was born Oct. 7, 1856, in Calkwon county, Mississippi.

Mary Allen, or Mrs. Davis, as she is better known, was born in Marion county, Ark., Nov. 27, 1857. There she met Mr. Davis and they were married in 1873, he being 23 years of age and she 22. Of this union 8 children were born, 5 boys and 3 girls. These children are a joy to their parents and a credit to their country. All are still living except a daughter, Virgie, who died in 1920 during the flu epidemic which swept the country.

This couple has 16 grand children and 2 great-grandchildren, of which all are living.

Of the children, Jim and Hugh were born in Marion county, Arkansas; Mack, Walter, Lewis and Myrtle in Brown county. The youngest, Annie, was born in Scurry county.

Mr. and Mrs. Davis moved to Scurry county in 1898 when the county was known to most of the world as part of the Great American Desert. Mr. Davis took up 480 acres of state land 7 miles northwest of Snyder. He paid \$1.00 and \$1.50 an acre for the land. He raised his family there and called it home until the Great War caused him to sell out and move to town, where he now resides.

Neighbors who have lived by them and others who know them, but we doubt if the world of them, but we doubt if they really appreciate their wonderful qualities. While not

an educated man, Mr. Davis has raised his family up to be good citizens, given all who would take it, a helpful start in life and has plenty for his old age. He is a man of very sound judgment, knows men's short-comings and never takes advantage of them. A better dispositioned family I never knew of. I lived a year (1915) with them and never knew them to have a quarrel of any sort. And that is the reason why friends and relatives were able to celebrate the Golden Anniversary of one of Scurry county's oldest and best loved couples on March 23, 1930.

BATTERY BROODER STARTED TUESDAY

About 3,000 baby chicks were loaded into the new battery brooders that Giles Garner has started on West Bridge street. When running full capacity, the new project will take care of 36,000 chickens. The baby chicks are all from the quality flocks that Mr. Garner has at his ranch, west of town.

Since Mr. Garner made his opening announcement of the start of this brooder idea, and which was reported in the daily press, many interested farmers from distant points of the state have come to Snyder to inspect this proposition. The brooder project is brand new here and is eliciting no end of happy comment.

SNYDER MUSIC CO. MOVES TO EAST SIDE OF SQUARE

The Snyder Music Co., operated by J. C. McClothlin, which has been located just south of the Palace Theatre moved this week to the

east side of the square, and are now occupying the building formerly used by Moffett & Noble, gent's furnisiers and tailors.

Mr. McClothlin states that several new lines will be added to his already large stock of musical instruments and sheet music. He invites the general public to call on him in his new location.

If some folks were to truthfully report their principal occupation to the census takers, they would have to say it is losing their money in speculation.

In spite of all efforts to abolish illiteracy, many of the automobile drivers of Texas do not seem to be able to read the warning signs along the roads.

Mark Elsom, a Chicago newsboy, was given a watch by a customer to whom he had returned some forgotten change.

The people of former romantic days used to inquire "When shall we meet again?" are probably asking in these prosaic times, "When do we eat?"

The Little Red Schoolhouse that used to turn out leading business

men and statesmen, is complained of now for not producing ball players.

Rita Hipps, 15-year-old English actress, is the star of the Little Theater in Leeds, her favorite role being Shakespeare's Juliet.

Eyes Tested Glasses Fitted

for Economical Transportation

It's wise to choose a SIX!

It is wise to choose a six-cylinder motor—the only way to get six-cylinder smoothness. Six-cylinder smoothness takes out vibration and roughness. This saves motor, chassis, body, passengers, and driver.

The Chevrolet is a six. Yet it sells at a price that anyone can afford to pay. And it lasts longer, because of fine materials, oversize parts and a big, smooth, 50-horsepower six-cylinder engine that always "takes it easy."

With all its six-cylinder smoothness and power the New Chevrolet Six saves gasoline and oil, through modern efficiency—overhead valves—high compression power—latest carburetor—long-wearing pistons—crankcase ventilation—air cleaner. Thus Chevrolet brings truly modern transportation within reach of all who can afford any car. Chevrolet economy also means sincerity in manufacture. To illustrate:

Chevrolet valves are adjustable—to save replacing. Chevrolet molded brake lining greatly reduces brake wear. The rear axle inspection plate on the Chevrolet means accessibility.

The whole car is full of such evidence that true economy comes from advancement and refinement. There are four extra-long, chrome-vanadium springs controlled

by hydraulic shock absorbers. They are mounted lengthwise, in the direction of car travel, with self-adjusting spring shackles to maintain quiet.

Modern low suspension and extra wheelbase give the Chevrolet Six good proportions. The front view is distinguished by the honeycomb radiator. The gasoline tank is at the rear for safety and finer appearance.

Chevrolet beauty instantly says "Body by Fisher"—style, quiet, safety—Fisher composite steel-and-wood construction—non-glare windshield—adjustable driver's seat—deeper cushions—greater leg room—clearer vision—finer fabrics and fittings.

There is just as much extra value throughout. BY ANY STANDARD the Chevrolet Six is the wisest choice in the low-price field... with its six-cylinder valve-in-head motor... with full scientific equipment... with Body by Fisher... with four long semi-elliptic springs, long wheelbase, low suspension, rear-mounted gasoline tank, honeycomb radiator and all the other features of this day and age.

See your nearest Chevrolet dealer today and drive this six. Ten minutes at the wheel will show you what a difference six cylinders make.

CENSUS TALK
EDITORIAL

The question of taking the federal census in Snyder and Scurry county has ceased to be one of future anticipation, for at this time the enumerators are busy with the task of actually counting those who live within the confines of the city and county. For fifteen days these workers will apply themselves in an effort to list every man, woman and child who claims this as their home. It is a big task but it can be properly handled and everyone made to feel that nothing has been left undone if all will take the time to co-operate with the forces in charge of the assignment.

It is important that this city have a full count, if for no other reason than to confirm the belief of the native citizens that we have shown a marked and above normal growth in the past ten years. If this growth, which all of us have pointed to with some degree of pride, is given official confirmation through the channels of the federal census, then we shall have the rare privilege of swelling further our feelings of pride. There is no question but what there are between four and five thousand people in this city. Every tangible proof indicates that. The enrollment in the local schools, the service connections, telephones, number of houses are all direct evidence of the approximate population of Snyder. The water connections of the city water system alone show proof of around 5,000, if we are to gauge from the standards of reliable authorities. But all these are beside the question. What we are all concerned about right now is what will the count show—the federal census report which will be final and official.

This is a question that can best be answered by the manner in which we are to co-operate with the official enumerators. Seventy-five percent of the local population will be listed and in every way accounted for in short order, but the remaining twenty-five percent will be away from home, indifferent, or in some fashion hard to get in contact with. Don't be one of the latter class. You and you alone

WHY DO YOU BUY WHAT YOU BUY WHERE YOU BUY IT?

(Editor's Note: This is the third of a special group of Town Doctor articles in which is set forth those things that an industry, manufacturer or individual interested in a community, desires to know before taking definite action; information desired other than, and in addition to, the regular technical data required.)

This article has nothing to do with "Buy at Home," "Be Loyal to Home Town Merchants," or even "Try the Home Folks First." Forget all you ever heard about anything of this kind when you read this.

It doesn't make any difference here what you buy or where you buy it—it's WHY you buy WHERE you buy.

Whenever you buy anything there is a reason for buying it at the place or store where you buy it. You may not stop to think of that reason, but it's there just the same.

That reason may be (1) convenience, (2) necessity, (3) personal association with the place or someone in that place, (4) because you LIKE to buy at that place (service and atmosphere) (5) selection of merchandise, (6) kind of merchandise the place sells, (7) habit, and (8) price. There are one or two others but the above cover the reasons governing most of us.

Now we all know that as far as convenience and necessity are concerned, the community where we live has the advantage, and the third, "personal association," favors our own community. No. 4 or "because you like to," CAN be favorable to the community, but all too often we would rather, from the enjoyment standpoint, buy elsewhere.

No. 5, "selection of merchandise," is not always in favor of local stores, and that is one reason why so many people want to, and do, go out of town to buy certain things. The merchant says he cannot carry large stocks—he can't if he does the business to warrant it. Whether he does that or not depends on two things—one is himself, the other is you. But that is another subject.

No. 6 is absolutely up to the merchant—he can handle good goods or the other kind and that is strictly his business; but from a community standpoint which is YOUR business, a lot of stores with a lot of cheap merchandise create a cheap impression.

No. 7, "habit," is one of the greatest factors in selling today. We are all creatures of habit. What we do once is easier to do the second time and each time thereafter, and soon we do things and go places from force of habit.

No. 8, "price," here is a real reason. Many people will say price hasn't anything to do with it; that what counts is quality first, price second. There is truth in that, but the fact remains that more of us are coaxed into stores on the price reason, than anything other. It is second.

(Continued at top of page.)

can tell if your name has not been listed. Phone it in, ask for a count and thus become a loyal citizen. Your Chamber of Commerce, the Lions Club, and a large number of other civic bodies in Snyder are urging you to lend your assistance. These enumerators have said that any assistance given them will be gratefully accepted and appreciated, for they desire to complete their duty and leave the field with no dissatisfaction.

All of us have a place in this line of duty and if we will simply make a decided effort to help with the census program then there will be no regrets; Snyder will have all its people counted and thus be assured that the report is authentic and correct.

The same thought goes for Fluvanna, Hemleigh, Dunn, Dermott, Ira and every community in good old Scurry county.

Statement of the Ownership, Management, Circulation, etc., Required by the Act of Congress of August 24th, 1912.

Of the Scurry County Times-Signal, published weekly at Snyder, Texas, for April 1st, 1930.
State of Texas:
County of Scurry: ss

Before me, a Notary Public in and for the State and county aforesaid, personally appeared George F. Smith, who, having been duly sworn according to law, deposes and says that he is one of the publishers of the Scurry County Times-Signal and that the following is, to the best of his knowledge and belief, a true

CHINA GROVE SCHOOL WILL GIVE COMEDY

The China Grove School house will be the scene of a three act comedy drama, "The Silver Lining", Friday night, April 18.

The following composes the cast of characters:

Carlisle Hartley — Clarence Newby
Betty Hartley Mrs. Clarence Newby
Dawson, the butler — Herman Webb
Mary, Irish maid — Gladys Collier
Sadie Saunders — Mrs J. C. Carter
Anne Harcourt — Lula Mae Seale
Rev. Samuel Hartley — J. C. Carter
Louey — Flossie B. Seale

Betty's child was stolen nine years ago. Rev. Hartley visits his son, Carlisle, and is stunned to the core at modernism of Betty and her home, but catches a new vision. He attempts reformation, and to some extent is himself reformed by Sadie, three time bridesmaid, and Anne, three times bride. He falls hard for Sadie, and marries her.

Betty's and Carlisle's child is unexpectedly restored through the exploits of Dawson, perfect butler, and Judge C. R. Buchanan.

TOWN DOCTOR

nature for most of us to be taken in by a bargain—especially the ladies—and if we can, or THINK we can, buy something for less it appeals to us. The price reason DOES influence us.

Now do not misunderstand this or get the wrong impression. Whether one store or one kind of store actually sells for less or not doesn't enter into this. All we are interested in now is whether price is a reason why.

Now, why DO you buy where you buy it? It doesn't make any difference where, in your town or some other place, but—why? What attracts you to stores? If you buy mail order, why? No matter WHERE, why?

Sit down and write out your reasons, in a letter of not more than 100 words, and send it to me. FOR EVERY LETTER THAT IS PUBLISHED, I WILL SEND THE WRITER MY PERSONAL CHECK FOR ONE DOLLAR. You can write as many letters as you like. Of course you will have to sign your name, but I will give you my word that if you say so your name will never be used or published. There is no catch to this, and it is open to everyone, especially the ladies and the farmers.

Do this (it will help you and it will "Help Build Snyder").

Mary, the witty Irish maid. The clouds surely have a silver lining. Supt. J. C. Carter is extending an invitation to all points of the county to meet with them that night. A small admission charge will be made.

DID YOU EVER STOP TO THINK
Edson R. Waite
Shawnee, Okla.

While in West Texas a few days ago I called on my old friend, Boyce House, editor of the Ranger, Texas, Times, Ranger is one of those splendid West Texas cities that is forging ahead so rapidly. While talking with Mr. House he told me about a hotel in Mineral Wells where all West Texas meet. I am interested and am going over and spend a couple of days to see what I can see. Mr. House said: "It was once said of a sidewalk cafe in Paris that if one sat there long enough everyone he knew would pass along. Somewhat the same might be said of the Baker Hotel in Mineral Wells, at least as far as West Texas is concerned. This new hostelry—not surpassed in beauty and luxury even in the greatest cities—was opened only a few months ago, but already it has become the gathering point and meeting place of the citizens of the vast empire of West Texas.

"A few Sundays ago I was in the lobby of the Baker with my friend, R. K. Phillips, publisher of the

Weatherford Democrat, when he exclaimed with delight, 'There's Judge James D. Hamlin.' The two friends greeted each other warmly. It was their first meeting since 1906 when they had been associated in publishing a newspaper in the then small town of Amarillo. Mr. Phillips had prospered. Judge Hamlin had turned to the legal profession with brilliant success and in representing a huge ranch which was divided into hundreds of farms, he had gained a position as an empire builder. This reunion is but typical of scenes in the spacious lobby. I never go there, even if only for a few minutes, that I do not see some friend of other days.

"It is a wonderful hotel that has been built in the pleasure and health resort city. Mr. Baker has spent a million and a half—and is not through spending. Beside the hotel is a swimming pool for the guests and a wading pool and a beach for the children. A few blocks away is a private golf course, and boating and fishing are enjoyed on a private lake, set in the rugged grandeur of the hills adorned with their ancient boulders in picturesque Palo Pinto county—A region that is steeped in Indian tradition and frontier lore."

H. Campbell Jones, managing editor of the Sydney (Australia) Sun, says:

"That truth and service win in advertising as in every other human activity.

There were days when much advertising were as far from fact as the advance posters of a traveling circus.

But time has taught every per-

METHODIST CHURCH

Cal C. Wright, Pastor

The revival services opened with two fine congregations last Sunday. The pastor is doing the preaching with E. D. Curry directing the singing. Miss Irene Meador, Young People's leader is in the services.

The public is invited to these services at 10 in the morning and 8 p. m. Services continue through next week.

No modern newspaper can win a large circle of readers unless it is absolutely trustworthy and renders public service. And advertising and news are one and indivisible.

ARE YOU AVERAGE DRIVER? THEN YOU SHOULD GO 9000 MILES A YEAR

If you're an average American motorist you
Drive 11,420 miles a year;
Use up 571 gallons of gasoline;
Pay \$18 in fuel taxes to the state, and a bit over.

These figures have just been worked out by the American Motorists' association.

Easterers don't drive as far, usually, as westerners.

In Massachusetts, the yearly mileage runs to about 8,600; in California, it's 14,000.

New Mexicans are the longest drivers, they travel about 15,800 miles a year. It costs 'em \$37 for a 5-cent gasoline tax, too.

Washington's motorists average about 10,600 miles a year; Idaho's, about 10,000; Oregon's the same; Utah's 11,500; Texas', 9,000.

The figures are based on the assumption that the motorist gets 20 miles from a gallon of gas.

KNIGHT TEMPLARS EASTER SERVICE

The annual Easter Service of the Knight Templars of Snyder will be observed Easter Sunday at the morning services of the First Methodist church. Rotan, Post and Colorado members will join with this city in the services.

Snyder Commandery with a membership of 180 has many members living outside of Scurry county. They may be found in Wyoming, Alabama, Louisiana and Colorado.

STATE COMMANDER HERE

Ernest Cox, State Commander of the American Legion accompanied by V. Earl Earp, Sweetwater, were Snyder visitors Tuesday.

Arc You Successful?

From the day that a young man starts out to seek his first position to the end of his business life, his health and personal appearance have a world to do with his success. If you are not physically up to the mark—appetite uncertain, digestion poor, and a general sense of incapacity and weakness, take DR. FERGUSON'S GOLDEN MEDICAL DISCOVERY. It renews the blood with the vital life-giving red corpuscles and promotes robust health, a clear skin, energy, pep. Get "GMD" from your druggist in either fluid or tablet. Ingredients printed on label.

Drastic Prices Reductions On Laundry & Dry Cleaning

The Snyder Laundry, in line with its policy of live and let live, is now making a reduction on Rough Dry work, a service of which we sell more than any other that we do. Our former price of nine cents a pound will now be

Eight Cents A Pound

DRY CLEANING PRICES

Dry Cleaning and Pressing — 75c and up, per garment
Men's Suits — 75c
Ladies Dresses — 50c to \$1.50
Cash & Carry Men's Suits C & P 50c

Present business conditions are making it mandatory for us to lower our prices and enable our customers to enjoy our service more. We are taking our sacrifice in profit as others are doing and will do so until conditions change.

SPRING HOUSE CLEANING

Curtains, Draperies, Washable Rugs we will do at a bargain price and will gladly come to your home and give you an estimate on the entire house, or by the room. Home owners should be particular about this type of work before they send their home things out. We guarantee to save you money.

SPECIAL DURING MONTH OF MAY

Five Quilts or Blankets \$1.00

So far as we know, the Snyder Laundry has the lowest price for this type of work anywhere in Texas. It's trading dollars but we are making new friends and adding customers to our list.

The SNYDER LAUNDRY
SAVE YOUR LAUNDRY & DRY CLEANING BILLS

Gubernatorial Race Bids Fair to Outlast Nine Innings This Year

This year's political game will take more than nine innings if every candidate for governor is to have an inning. Here's the box score to date:

Prospective batters that haven't definitely entered the line-up, are listed first.

DAN MOODY—New prison fight; readjusted taxes, lobby-free capitol.

LYNCH DAVIDSON—Business practice; new penitentiary system.

T. W. DAVIDSON—Prison and highway reform.

These are in the field. Besides the three prospectives, there are an even dozen candidates in the field now. In tabloid:

FARLE B. MAYFIELD—No state property tax; lobby is parasite; anti-chain store; "free" lawmakers.

THOMAS B. LOVE—Wants on ticket; would not support man of Al Smith Type; ultra-dry.

JAMES E. FERGUSON—Tax resources; "You can vote for one of the Fergusons."

JAMES YOUNG—Better tax policy; tax resources; supported by John Boyle.

BARRY MILLER—Now lieutenant governor; platform not out; criticized by Moody on pen bill.

W. GREGORY HATCHER—Anti-chain banks; enforce trust laws; adjust taxes; more economy.

T. N. MAURITZ—Five per cent income tax; state property tax; rely on resources; farm lobby, too.

E. G. SENTER—Court reform; willing to withdraw in favor of Lynch Davidson.

KATIE DAFFAN—A woman imbued with ambition to serve her state.

O. F. HOLCOMBE—Ex-Houston mayor says he's running.

CHARLTON BROWN—Hickory-shirt disciple of Hot-Dog Tate.

FRED ROBINSON—Publisher who believes the state needs an able executive.

LET'S FACE THE FACTS

One thing that is necessary for us in Texas, in order to realize our great need of economic development, is to face the economic facts about ourselves squarely. It is particularly necessary that our newspapers, from which most of the people obtain their conception of the economic status of the State, should face the facts and stop the practice, which is rather general, of attempting to make that status appear other than it is.

The following editorial from the Houston Post-Dispatch is a case in point:

"One reason why Texas ranks thirty-eighth among the states in wealth per inhabitant and tenth in total wealth is because of the large negro and Mexican population within the State. The great majority of both of these classes of people are small wage earners and few of them own property, or engage in business. Their wealth per capita is low, and their small holdings operate to bring down the average for the people of the State as a whole. In some Eastern States that outrank Texas both in respect to total wealth and wealth per inhabitant there are many foreigners who are small wage earners, and the majority of them do not own their homes, but as a class, they are more thrifty than the negro people and the Mexicans of Texas. Those foreigners may not own their homes, but many of them own savings bank accounts. The savings bank is more of an institution in the East than it is in the South and the Southwest. Texas wealth per inhabitant is destined to increase rapidly, however, for the economic condition of the negro people is steadily improving. A good proportion of them are now buying homes, and as education becomes more general among them, the tendency is for them to save and be more thrifty. As Mexican immigrants get settled and become accustomed to American ways, they, too, improve their economic position and increase the wealth of the State."

The impression which this would naturally give the average reader is that if it were not for the negroes and the Mexicans our per capita wealth would rank among the leading states. And yet what is the truth? It is simply this: If all the wealth in Texas owned by negroes and Mexicans should be counted as owned by the white population and the per capita computed on the basis of white population alone, Texas would still stand 35th among the States in per capita wealth, and nearly all the States lower in the scale than us would be those having a greater percentage of negro population than Texas. Lets face the cold fact that Texas ranks far down the list among the States of the Union in economic development, and that what we need most is a determination to change the situation. We don't need alibis. —Texas Weekly.

ROTAN WILL GET MORE WATER

The prospects for plenty of that good Camp Springs water for all purposes were increased this week by the bringing in of two new wells near the present source of our water supply, says the Rotan Advance. These wells are said to be standing nearly full of water, and it is hoped that they will furnish enough water, with the other wells already being pumped, to meet present demands.

It is proposed to sink other wells in that territory until a water supply is furnished that will take care of every demand of the city through the summer.

When the Camp Springs supply was turned into the mains only two wells were being pumped, and there was sufficient water for the city from these. However, this water being of such fine quality, the use of city water increased rapidly and soon this supply was insufficient. It is proposed to sink well after well on the 160 acres of land owned by the city in the Camp Springs country until we have a supply that will give everyone all the water they want for every purpose.

It's a good idea to incubate a few eggs before the breeding season as a check on the fertility of the flock. Keep some reserve males on hand in case of sickness or accident to the regular breeders, or to replace males that are not reliable breeders.

Chevrolet Introduces Smart New Model

Expensive car features characterize the new Chevrolet special sedan introduced today. A leading feature of the new model is its equipment of six wire wheels, with large chrome-plated hub caps. The two spare wheels are mounted in special fender wells. The exterior color scheme combines smart Boulevard maroon on the body with a harmonizing shade of red on the wheels. Introduction of the new model brings the Chevrolet passenger car line up to nine body styles, three open and six closed.

NEWSPAPER IDEALS

Every newspaper publisher wants his newspaper to be the best. The difficulty is in the difference of opinions as to what constitutes the best newspaper. An editor asked his readers how he could make his paper ideal, with this result: "Cut out the crimes, the murders, the sensational divorce case reports," said the nice people. "Cut out the accidents, the railway and steamship disasters," said the people who "couldn't bear" to read such things. "Cut out the politics," said the old-fashioned woman. "I don't understand it and haven't time for it."

REDUCE THE HERD—DON'T SKIMP ON FEED

"Cut out the so-called funny pictures," said the careful mother. "Such pictures aren't funny, and they're bad, very bad, for children. 'Cut out the ponderous editorials,' snapped the man who merely scans the headlines. 'Nobody reads 'em nowadays.'"

"Cut out the woman's page," said the female with the strong mind. "It's mostly trashy, trivial, an insult to our sex."

"Cut out the sports and theaters," said the intellectual. "Both are bad influences, and both have received altogether too much notice."

"Cut out—" began another and still another, but he publisher beat them to it.

"Stop it, all of you," he cried. "On second thought, I have decided to cut out myself. It is no use trying to publish the ideal paper until I come across the ideal reader."

Without readers no newspaper can live, and until humanity has come to live an ideal life there will be no ideal newspaper; for nobody would read one that spoke only of virtue and never of evil. Newspapers are published to print the news; the nature of the news is what people make it.—Washington Newspaper.

TEXAS VOTING IS DIVIDED ON LIQUOR BALLOT

The vote for strict enforcement of the prohibition laws shows a slight gain in the returns for the fourth week of the Literary Digest's poll. Texas has sent in 15,998 votes; 7,848 of which are for enforcement; 4,235 for modification, and 3,994 for repeal.

Of the 20,000,000 ballots sent out by the magazine, 2,000,340 have been returned from 40 states and the District of Columbia.

The votes were distributed as follows: For Repeal—848,751 or 42 percent; For Modification—598,252 or 30 percent; For Enforcement—553,337 or 28 per cent.

The only so-called "bone-dry" states are listed as Kansas and Tennessee. In each of them the vote for enforcement is larger than the combined total for modification and repeal.

New York, New Jersey, Pennsylvania and Illinois continue to be the chief strength of the wets.

The students who have been going without their hats all winter, might like to live in a house without any roof.

HERSHEY—(Continued From Last Week)

By waiting until then to plant you will have feed at an earlier date than you would if you planted before the weather and soil were sufficiently warm, for Hershey is a hot weather crop, and the hotter the weather when it is planted, the more quickly it will grow to maturity.

Before planting your main crop, in order to determine if conditions are right for planting, take a garden hoe and open up a furrow 8 or 10 feet in length, on the flat of ground you are going to plant to Hershey, and drop the seed by hand, cover as herein directed, stick a peg at the end of the row, wait five days, and repeat the process, beginning at the peg. When the seed germinate promptly and the plants are up in five days from date of planting, and look thrifty, thus indicating that weather conditions are favorable, then it is time to begin planting.

Plant one-third of your crop, then wait two weeks and plant one-third more, wait two or three weeks and plant the remaining third. The reason for this is obvious to any good farmer.

From then until Sept. 1st you can plant Hershey. It can be planted any year in West Texas below the Caprock, as late as Sept. 1st and mature a crop.

It can be planted on land infested with Johnson grass and be ready to harvest before the Johnson grass seed have matured sufficiently to germinate. It will make a crop on blueweed land, and when sown broadcast at the rate of 15 pounds per acre (two crops a year), will

another out the blue weed. It is an eradicator of sow thistle and quack grass.

It can be cut for hay when the grain is in the dough stage. Hershey is sown broadcast and there is no row planting in Colorado. They make two crops a year on an average rainfall of 17 inches, but in the Dakotas both the row and broadcast methods are used, and they produce two crops a year on less than 14 inches of rainfall.

Mr. E. D. Heath, Otis, Colorado, from whom I purchased the car of seed, does not think the row method of planting will pay here, owing to the fact that only 5 or 6 pounds of seed should be planted per acre in 3 foot rows, whereas from 15 to 20 pounds per acre are sown broadcast, and he thinks that while the row method will produce crops of Hershey with more certainty than broadcasting, the yield will be light because of the small quantity of seed planted per acre. However, I recommend the row method for the first crop and after the farmers have produced plenty of Hershey for planting they can try out both methods, and decide for themselves which method is most profitable.

It is my opinion that Hershey should be broadcast at all points in Texas east of Fort Worth. However, I would recommend to those living in that section to use the row method in growing planting seed, until they have tested the broadcast method. It is probable also that in that section of the state as much as 30 pounds of seed per acre should be sown broadcast.

In harvesting use either a broadcast or row binder. For feeding to horses you can feed in the bundle

as we do cane, or grind, bundle and grain together and feed. For cattle grind bundle and grain together. For hogs, grain should be threshed and ground. You can then feed the hay to horses, cattle or sheep. For sheep it can be prepared as directed either for cattle or hogs. For lambs a ration of ground Hershey, alfalfa meal, cottonseed meal and hay has been found to give good results. Hershey is a fine poultry feed. It can be ground and mixed with other feeds and fed as a mash, and can be fed as whole grain. Hershey is used by those engaged in selling bird seed mixtures.

Any person desiring additional information regarding Hershey can obtain same by addressing the undersigned and enclosing stamped envelope for reply.

F. I. TOWNSEND Snyder, Texas. Hyde tells Hoover some insurance companies cut farm loans.

THANKS, TOM WHITE

District Manager Tom A. White of the Southwestern Bell Telephone Co. has furnished the Times-Signal with the name and phone number of every newspaper published in the state. This effort no doubt cost Tom a lot of sweat and extra worry, for which the Times-Signal thanks him a great deal. You gotta hand it to Tom, that boy gets some bright and brilliant ideas now and then and proceeds right away to carry them out—that's why he is in the position he holds today.

Rev. I. S. Colvin of Newcastle, Eng., set a record for ministers by marrying his 1,000th couple exactly 26 years after he was ordained.

YOU HAVE YOUR OWN NATURAL GAS PLANT JUST OUTSIDE YOUR DOOR

You'll find a new joy in Cooking with STARGAS

TO those women who have not experienced the many pleasures of cooking with natural gas—STARGAS will be a revelation. It is so convenient . . . strike a match . . . turn on the gas . . . you have an instant hot flame. There is no waiting for a burner to get hot enough to cook with . . . nor finding yourself out of fuel just after you have put the biscuits in the oven. In a STARGAS oven biscuits

so quickly reach that tempting, delicious brown . . . top and bottom . . . that makes them simply melt in your mouth.

What is STARGAS? STARGAS is natural gas refined and compressed into steel cylinders so that it can be conveniently and economically delivered to you who live beyond the gas mains. Natural gas for cooking, lighting, refrigeration, heating water and ironing . . . all of those conveniences from your one STARGAS installation! STARGAS is safe! There are no dangerous fuel tanks close to a fire that might cause serious accidents. STARGAS is clean! It does not give off fumes, soot, nor offensive odors. A STARGAS installation will give you many hours of freedom from your kitchen. Send the coupon for the interesting story of STARGAS.

- for Cooking . . . Heating Water . . . Lighting . . . Refrigeration . . . Ironing

STARGAS Equipment Including Range \$180 Complete STARGAS equipment, consisting of cabinet, two cylinders of gas, hose piping for cooking and STARGAS Range, can be purchased for about \$180, depending on the range selected. A small down payment enables you to start cooking with STARGAS at once. Spread the balance over a year, if you like. The coupon will bring you complete information about STARGAS.

COMMUNITY NATURAL GAS COMPANY SNYDER, TEXAS

STARGAS STARTS WHERE GAS MAINS STOP

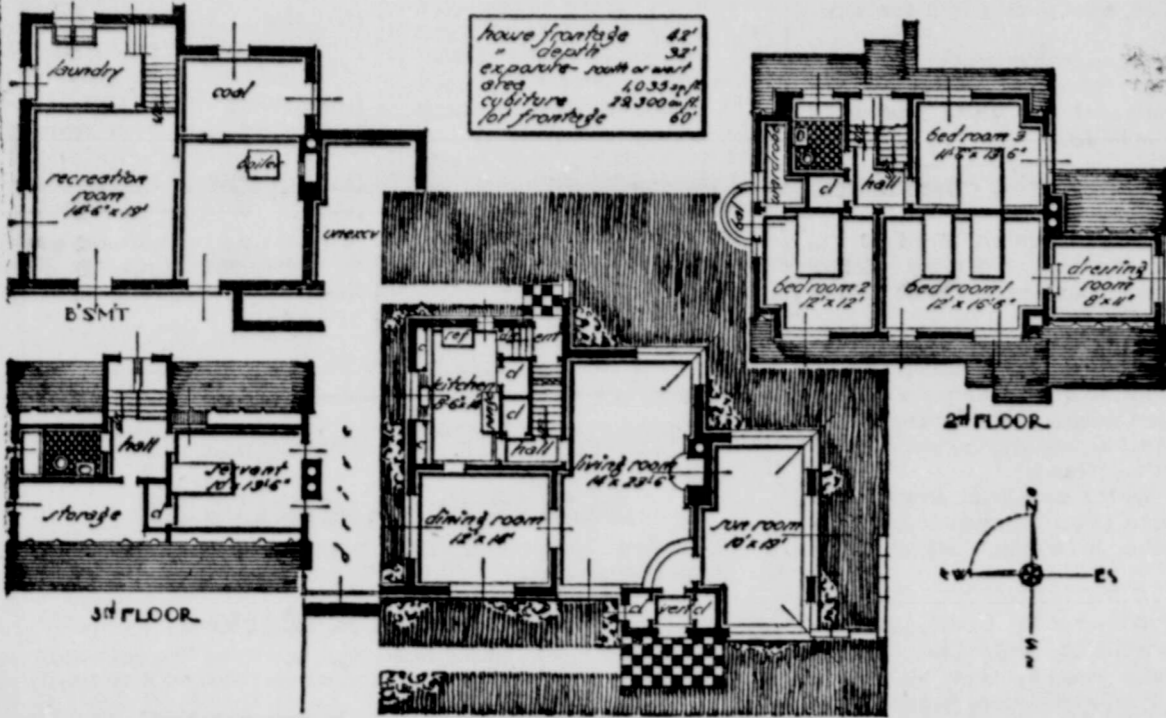

Please send "The Happiness Home" and the complete story of STARGAS. Name Address

ONE THIMBLEFUL—A DAY'S FEED FOR ONE CHICK! THINK OF IT! One tiny thimbleful . . . all the feed a chick can put in its little crop in one day. On this tiny bit it must live . . . grow . . . build bones . . . build muscles . . . start feathers. Think of the job feed has to do! They must depend on feed for so many things! They get them all in Purina Chick Startena (mash) or Purina All-Mash Startena Chow . . . 12 different ingredients in every thimbleful. Cod-liver oil . . . dried buttermilk . . . alfalfa flour . . . granulated meat . . . these and eight others are there! These 12 ingredients . . . think how carefully they must be mixed to make every thimbleful alike. Purina Startena and All-Mash Startena Chow are mixed over and over again . . . 960 times just to be thorough! You will find the same care taken with Baby Chick Chow (scratch) . . . to be fed with Startena until your chicks are six weeks old . . . and with Purina Growena (mash) and Purina Intermediate Hen Chow (scratch) . . . to be fed from then on until the pullets are laying at 16 weeks. How little feed a chick eats . . . just one thimbleful a day . . . yet how important it is . . . how much depends on it . . . the chick's very life . . . its growth . . . what the pullets will do for you next fall and winter when eggs are sure to be worth good money. You can afford to feed only the best . . . Purina Poultry Chows.

Winston & Clements SNYDER, TEXAS PHONE 408. Includes images of Purina Startena Chow and Purina Growena Chow cans.

and the Service accommodations on the third floor. Note the large windows to let in the sunshine and the sun-drying breezes. Note the substantial and simple construction—brick walls, tile roof and metal windows.

Ceiling Heights—Basement, seven feet; First Floor, eight feet; Second Floor, eight feet; Third floor, seven feet, six inches. Exposure—The plans as shown are for a lot facing South or West. For a lot facing North or East the plans should be reversed.

ART GUILD MEETS The Art Guild, a recently organized club, under the auspices of the Altrurian Club of Snyder, held its first meeting Tuesday afternoon at the home of Mrs. C. R. Buchanan.

SNYDER LADIES ON DISTRICT PROGRAM The District Meeting of the Baptist Womens Missionary Union will be held at Big Spring, April 16 and 17th and included in the program will be the following from this section: Mrs. T. L. Nipp, Dunn; Mrs. J. A. Woodfin will give a report of the Mitchell-Scurry Association;

Sellers, and her removal here, she has won a large circle of friends through her pleasing personality and genial charms. Mrs. Sellers has conducted a music studio during her residence here.

Each year many thousands of trees that might be saved are killed by rodents. Resort to bridge grafting if the injury is severe or the tree is entirely girdled. A bridge graft is made by using scions or small limbs to connect the injured areas of bark. Farmers' Bulletin 1369-P on "Bridge Grafting", which can be secured from the U. S. Department of Agriculture, Washington, tells how to make successful bridge grafts.

MRS. C. C. HIGGINS IS HOSTESS TO ALTRURIANS Mrs. C. C. Higgins graciously entertained the Altrurian Club at her home, last Friday afternoon. On the further study of Western literature the following interesting program was given:

WHAT KIND OF COTTON IS BEST FOR PLAINS FARMS Below We Give a List of All the Well Known Breeds Tried at the Lubbock Experiment Station. Make Your Choice of Early Maturing, Long Staple Breed

IMPORTANT 2500 of the Quality Baby Chicks in the new 36,000 Giles Garner Battery Brooder were delivered Monday from our Petersime Incubator. 8000 more on the way.

A San Francisco windmill developing 100 horsepower in a strong breeze.

COTTON BURR MADE INTO PROFITABLE SOIL FERTILIZER
 The lowly cotton burr, once regarded solely as farm waste, has been made a source of income to F. O. Masten of Wellington, former tenant farmer who has an experimental nature.
 Masten discovered that by placing the cotton burrs on his farm as fertilizer, the soil was greatly enriched and his yield accordingly increased. He found that the waste products, which the gins usually pay to have hauled away, were worth \$10 a ton in first-year returns.
Bale to Acre Average
 During the past five years, Masten has averaged a bale of cotton to the acre on land treated with burrs. Last year he made 150 bales of cotton on 80 acres, almost two bales to the acre on land that formerly had been producing about one-fourth of a bale.
 At 31, Masten was a tenant farmer and started on the road to owning his land by systematic improvement of the soil through use of the burr fertilizer.
 Statistics kept by Masten showed it cost approximately \$6 per acre to buy, haul, and spread the fertilizer. He already has made more than \$100.00 which he credited to the adoption of the waste product to soil building.
S. S. WORKERS CONFERENCE
 Sunday afternoon, April 13, at 2:30, the regular Sunday School Worker's Conference will be held at Wastella.
 Walter Jackson, educational director of the First Baptist Church of Abilene, will be the main speaker on the program. Mr. Jackson is one of the foremost Sunday School men in West Texas.
 A special devotional program will also be given. Everyone who is interested in Sunday School work

will do well to attend this program.
 John, Boston Roscoe, Texas,
 M. W. M. S. Meek

The Methodist Women's Missionary Society met in business session Monday, April 7 at 3 p. m. with nineteen members present. Plans were entered into for the revival meeting, also for the Bible study which is to be the "Life and Letters of Paul". As this was the first meeting since the membership contest closed for the quarter, the losing side served a delightfully refreshing plate, as a pleasant surprise, which was much appreciated and greatly enjoyed.
 The devotional was given by Mrs. Odum, who presided over the meeting. It is to be deplored that the Conference contributions to Missions has been decreased and it is a challenge to all to bring up the needed increase for this year.

HOT CHECK CAUGHT
 A Tahoka youth went into the Economy Dry Goods store, Tuesday, purchased an 83 cent shirt and gave a \$2 check. Boss Nate Rosenberg became suspicious and told the law about it, who in turn took the youth in camp and officially decorated him with a can which meant going due east and no stopping.
 Denise Wilson, daughter of Robert Forrest Wilson, the author, became the youngest American pupil at the national opera ballet school in Paris at the age of 9.

Approved By The Ford Motor Co.
 The Economy Store is featuring the Wolverine Work Shoe for men. The Ford Motor Co. of Detroit has adopted the Wolverine Shoe for its thousands of workmen on account of the many features of this shoe. It is scuff-proof, pliable and stays soft in all kinds of weather. Mr. Rosenberg had the factory send him a complete set of the horsehide off the hips of a horse from which Wolverine Shoes are made and will be glad to show the shoe to The Economy Store's many friends.

Half and Half At Bargain Price!
 Our seed are grown from Sumner's Georgia Strain, the best there is; has made as high as 3 bales to the acre. Largest 5-bushel Bell and longest Half and Half staple grown. We Are Here To Help Build Snyder

The Snyder Council have called an election for Monday, May 5th as to whether or not the citizens of Snyder will grant our company a franchise to furnish power and light to the citizens. We are asking our friends and well wishers to co-operate with us and vote for the City Council to grant us a franchise to put a \$175,000 modern and new electric light plant here.

Watch for further announcements.
