NO PROSPERITY UNLESS FARM PROSPERS, SAYS DALLAS MAN

Revenue Collector Thinks Critics Farmer Profiting.

"There can be no prosperity unless it exists basically on the farm," W. A. Thomas of Dallas, internal revenue collector for the northern district of Texas, told the Lions Club last Thursday at noon.

"Certain classes of people in this country are jealous of the farmer and do not want to see prosperity come to agriculture. They are the ones who are most freely criticizing the administration's present program. I believe the program seeks to restore prosperity to every farmer in the country.

"A wave of prosperity is gathering on the horizon, and the country is already in its best condition in years. I hope the people will not turn their ears to those who criticize." The speaker turned from the agricultural angle to remind his hearers that safe banks, safe loan companies and safe life insurance companies have replaced the doubt that existed in the early years of

Why Not March On?

"Why in the name of common sense should any people who are receiving such benefits not out their shoulders to the wheel and march on to prosperity?" he ques-

Turning to support of the government's program of helpfulness for tts citizens—who are the government, he reminded-Mr. Thomas said that only by taxataion can the government exist. Large investors, he pointed out, have saved taxes by buying tax-free government bonds. In order to give smaller investors an opportunity to save surplus funds, invest them with interest, and also enter into partnership with their government, U. S. savings bonds, or "baby" bonds are being offered the public.

Subscribers Asked To Aid Publishers

Subscribers who change the mailing address of their papers would help the publishers immensely by notifying the Times office of the change at least week in advance.

The reason: Every copy mailed with a wrong address is returned to The Times by Uncle Sam at the rate of two cents postage each. Reason No. 2 is that your notification will prevent you from missing a single copy of the paper.

Subscribers who have neighbors who are not taking The Times are requested to help the publishers broadcast the special rate of 50 cents, which will bring the paper from now until December 1 to any address in Scurry or adjoining counties.

TO LEAD LIONS

MAGNOLIA SET

Drilled at Once. Location for drilling of another

Scurry County test was made early this week by Magnolia Petroleum Company advance men, it became known here Tuesday. The new well will be in practi-

cally new territory, location having been made 330 feet from the south line and 330 feet from the west line of block 3, section 186 H. & T. C. Railway survey. It will be in the extreme southwest corner of the old W. M. Scott Ranch now the Donaldson Ranch, sever miles almost due south of Snyder and will be known as the W. M. Scott No. 1, since Scott retains mineral rights.

All equipment for sinking ar 18-inch hole started moving to the location Wednesday. Ed McCarty will continue as head driller of the same crew that drilled the J. Wright Mooar No. 1 to a depth of almost 3,000 feet, and the same equipment being used.

A company official said Tuesday that the well will go as deep as necessary to find pay sand, if the drill picks up encouraging indications on the way down. The 18inch hole and the heavy equipment that is being moved on the ground indicates to observers that the well will go to several thousand feet if J. necessary.

The test is in the midst of a Magnolia block of more than 10,000 making final preparations to make acres, which means that there is no other acreage nearby.

The Magnolia test on the Mooar Ranch, on which drilling was stopped about two weeks ago, has been plugged and abandoned.

drive 50 to 100 miles, Mr. McDonald thinks. An experienced caretaker will be in charge while "General Linden" is here. The animal will remain in

Snyder as long as there is a demand for him. The service fee has recently been

increased by the Legislature from \$5 to \$7.50, the commissioner told the county agent. "General Linden" and other state-owned animals are being posted at various counties in the state where farmers and ranchers desire to breed up a finer strain of work animals.

Dental Officials Make Plans for 1935 Convention

Dr. Sed A. Harris of Snyder, veteran secretary-treasurer of the West Texas Dental Association, says plans are being mapped for the annual association convention, to be held in Big Spring the first Friday and Saturday in September. Initial plans were recently made at a meeting of officers in Colorado. Snyder will occupy a unique position in the association next fiscal year, for she will furnish not only the long-time secretary-treasurer, Dr. Harris and Dr. Hicks are part-Dr. Hicks will succeed Dr. Joe A.

Kennedy of Abilene. Dr. G. C. Turner of Lubbock is vice president.

Dr. Harris states that the 1935 convention is destined to be one of the most complete and interesting in the association's history The printed program will be released some time during August

LOCAL LUMBER YARDS MERGE

Purchase of the D. C. Gibson lumber yard by the O. L. Wilkirson Lumber Company was announced this week. The Gibson vard, in West Snyder, closed its doors Friday and its stock is being moved to the purchasing yard.

The Gibson yard was the youngest of Snyder's four lumber concerns. It was established here about eight years ago by D. C. ing an active part in discussion and Gibson, who also operates a yard at teaching of new methods and plans | Hamlin, R. S. Snow has been manager of the yard.

SCURRY COULD GET \$283,000 THROUGH WPA

County Listed by National Service As Having Total of 472 Employables.

A county planning board for compilation of proposed WPA projects from Scurry County is in process of formation, The Times learned yesterday. It is expected that the personnel of this board will be ready for announcement next week, and that it will go into action to secure this county's share of the giant work fund.

If the new federal WPA realizes its purpose of providing jobs for all employables now on the relief rolls, \$283,000 would be spent in Scurry County to give employment for the 472 employable men and women listed by the National Reemployment Service.

An aggregate of \$5,385,600 will be spent in the 13 counties comprising WPA district No. 13, if this purpose is realized, the Abilene Report-

er-News said Saturday. District 13 had 8,976 employable nen and women at last count of National Reemployment Service agents in each of the counties, E. A. Elliott, District 5 supervisor for the NRS, told the Reporter-News Friday. Elliott's office serves 44 West Texas counties, including all of those in WPA District 13.

Breakdown by Counties.

The breakdown by counties: Eastland, 3,320; Sterling, 58; Taylor, 1,320; Mitchell, 345; Scurry, 472; Jones, 619; Callahan, 688; Nolan, 476: Kent. 176: Shackelford, 280 (plus rural rehabilitation clients); Stephens, 487; Fisher, 561 (also plus RR clients); and Coke, 174.

From the district total, if employment is provided for each employable at \$600 a year-the amount set for the WPA program in Texas -total expenditure of WPA funds in the area also would be \$5,385,600. Of that amount, \$1,992,000 would be spent in Eastland County alone. leader of the district in number of employables on rolls. Taylor County, with 1,320 clients, would stand

Total Expenditures

Total expenditures in the other counties provided work were provided for each employable, as follows: Sterling, \$34,800; Mitchell. \$207,000; Scurry, \$283,000; Jones, \$371,000; Callahan, 412,000; Nolan,

THE WEEKLY DOZEN

Talkative Tillie Observes. Talkative Tillie says she has noticed that men hail storms, crop damage, black widows and depressions are never as wicked as they are cracked up

Weekly Rooseveltiania "If a government is to be prudent, its taxes must produce ample revenue without discouraging enterprise; if it is to be just, it must distribute the burden of taxes equitably."-President Roosevelt.

† g † Or "Water, Water Everywhere."

Pessimism Pete says a Scurry County artist should

No Question About It.

The only close observers of economic conditions who are questioning the gradual return to prosperity are G. O. P. satellites-and they are bound to do some questioning in order to raise Hooverite standards out of the dust. The next question they should be trying to answer is: "When is an elephant?"

† 9 † If You Want to Relax.

If you want a good old-fashioned case of relaxation to break into your hurly-burly life, why don't you come out to the school grounds some evening and watch the softballers perform. There will be plenty of errors, probably, but with every error there is usually a laugh—and with every laugh a forgetting

† g †

Mrs. Stinson Raises Pumpkins.

Mrs. Lee Stinson, whose prize-winning yard won national publicity three summers ago, has a more beautiful yard this year than ever before. The lawn, the artistically arranged trees and shrubs, the blooming flowers-all these form a vista of beauty for the seeker of the beautiful. Then there are pumpkins! Several large ones have grown to yellow adulthood in the back yard. They, of course, add to the unique

t g t Interesting Cotton Figures.

Final figures on the cotton crop of 1934 reveal that farmers actually received several million dollars in the minds of Texans themselves the worthiness more for it, although it was one of the shortest in of the cause. history, than they received for the crop of 1932-before federal adjustment of production set in. These figures, and others, make it difficult to understand how any unprejudiced observer can doubt that the cotton adjustment program, as a whole, has been highly beneficial to the farmer.

> † **9** † We've Missed the Choo-Choo.

Most folks have noticed that the R. S. & P. hasn't been running for more than a week. The flood waters destroyed two bridges and undermined some of the railroad dump; so the short line has been out of the running. Since the railroad became a Snyder institution upwards of 30 years ago, it has been a vital part of the life of the county. We missed you, dear old R. S. & P., and are glad you ed to sway the group toward the impracticable policy are back in the land of the living.

† g †

Our Recent Visitors.

Snyder has been entertaining some rather distinguished visitors in recent days. Among them are Secretary McDonald of the state department of agriculture; Dr. Tom Taylor, president of Howard Payne; W. A. Thomas, collector of internal revenue. Next week will come Rev. Sam Morris of Stamford, hell-roaring preacher who never fails to draw the crowds. Welcome to Snyder, one and all, no matter your creed or previous condition of servitude!

† 9 †

The Value of a "Front." month is this one from the Fort Dodge Bio-Chemic | the Centennial advertising appropriation would be Review: "Appearances make a lot of difference in 'earmarked' for Texas newspapers. It was considered, life, especially from the standpoint of profit and so the Texas newspapermen were told a year ago, loss. What decides a person's choice of a barber as important to sell Texans on the idea of attending shop, restaurant, filling station, hotel or any one of the Centennial as it was to get outsiders to attend, the places given the public service: Nine times out and for this purpose the local newspapers would be of ten the reason is an attractive 'front.' When this used. is backed by competency and good service the combination is unbeatable.'

> † 9 † Thomas Makes a Talk.

W. A. Thomas of Dallas, collector of internal out the Centennial year."-Coleman Democrat-Voice. revenue for the northern district of Texas, told the Lions Club some interesting things about federal financing last Thursday. He put the doubters to rout with his clear logic, and made every listener any cause or project in a long while as they are feel that the government has really done something for the folks it serves-for the folks who are the government. "Why in the name of common sense," he questioned, "shouldn't any people who are re- it represents a rare dream come true. No person ceiving such benefits put their shoulders to the wheel and march on to prosperity?"

t 9 t Dries Against Wets.

One of the chief arguments that is used by wets in the campaign to cancel Texas' prohibition amendment is that the state will actually be drier without prohibition than with it. Thanks to a citizenship that has had the scales removed from its eyes since national prohibition was wiped off the statute books, such an argument is being pooh-poohed. Any way you look at the coming election, it is a case of wets against dries-and it is beginning to look like the dries, with a well-organized, sensible campaign, are going to come off victors in the fight.

Company "G."

Not one Scurry County person out of ten realizes how much Company "G," 142nd Infantry, means to our county well-being, year in and year out.

The National Guard unit annually brings into the county thousands of dollars in cold cash. It brings discipline and training to more than 60 young men. eral countries. It offers "something to do" for young men who might otherwise become drifters with the nation-wide army

Annually, as the boys start to camp, we perk up our ears and pay special attention to Company "G." Most of the remainder of the time we just take the unit for granted.

We do not stop to realize that the company, under command of its organizer and captain, has always have been on the job ten days ago. It should have ranked high among National Guard units of the Denver Lions Club, district governor been an ideal opportunity, he thinks, to translate state. We do not stop to think that it is composed to canvas such a religious theme as "Let the Tides of some of the finest young men in the county-not member of the international board the tough crowd that rules the National Guard roost of directors in 1930, served two

It is especially timely that we rally to our National Guard unit just now, because Snyder has more than an even chance of securing a modern armory under the federal government's plan to construct hundreds of National Guard posts throughout the country.

But even if we have shown enough appreciation, Captain Sentell and your 68 men, we will back you to the limit in anything you undertake. We have been secretly proud of you for, lo, these many yearsand we believe you will continue to merit every word of praise that we can give you.

May your 1935 camp at Palacios be the most successful one in your 12-year history is Snyder's and Scurry County's wish.

EDITORIAL OF THE WEEK

CENTENNIAL ADVERTISING.

Following editorial, taken from The Brownwood Banner, is exactly to our liking. We second the motion. We fully approve the editorial and believe it is well worth the time of the readers of this newspaper. Here it is:

"Texas newspapers gave liberally of their time and space during the past few years in an effort to bring Texas people to a consciousness of the importance of holding an adequate Texas Centennial. nurtured to fruitation and the Centennial appropriation adopted without this help; possibly not. The work was done in an effort to assist in establishing

"Evidently the Centennial Commission of Control feels the press of Texas can be counted on to continue the work of getting Texans to visit the celebration. Walter Woodul, lieutenant governor, who is head of the commission of control, has appointed a committee of advertising experts as an advertising advisory committee, to have direction of expenditure of the \$500,000 state advertising fund for the Centennial. Considerable criticism has come from Texas newspapers since the committee has been named. and it has been found to be composed of a railroad executive and a "lobbyist" for the sulphur company.

"The Dallas News comes to the defense of the appointees with the statement that 'the presence of active journalists on the committees would have tendof frittering away the advertising appropriation' by buying advertising with the money. The News recommends that all advertising money be spent for highpowered press agents to send out accurate and attractive news of the Centennial, to be published free by the newspapers.

"The Central Exposition management at Dallas has indicated its faith in this policy, Julian Capers, columnist, points out, by hiring a crew of press agents, headed by an expert from San Diego, to send out

"While it is possible that this policy might result in the greatest amount of publicity outside the state it is not making the Centennial any too popular with Texas newspapers. Texas publishers were led to be-One of the most interesting clippings of the lieve, over a period of many months, that a part of

> " Evidently there has been a change of heartpossibly because Texas newspapers have been so enthusiastic about the Centennial that it is felt they can be counted on to continue the good work through-

> > Rallying to the Hospital.

Individuals and organizations have not rallied to rallying to Snyder General Hospital. And is it any wonder? The structure is becoming a focus point of beauty and service for the entire trade territory, and or group of persons can make a mistake when they place confidence and funds in such an institution.

Even a fool, when he holdeth his place, is counted wise; and he that shutteth his lips is esteemed a man of understanding .- Proverbs.

The Times Creed:

For the cause that needs assistance; For the wrongs that need resistance; For the future in the distance, And the good that we can do.

Lions Visit All Mexico on Heels

The nineteenth annual convention of the International Association of Lions Clubs adjourned Friday in Mexico City, and the 5,000 delegates and guests who during the convention had been royally entertained "a Mexicana" by the Lions of Mexico City, began soon to spread out from the capital city to take in all the sights of Old Mexico before returning to their homes in the United States and Canada. Advance estimates on registrations indicated the largest attendance of the association's his-During the four days of the cenvention the fact that the largest

What You Ask of A Bank Depends

Upon What You Know About A Bank

A great many people do ask impos-

sible things of a bank-just because

they do not thoroughly understand

what are the right and the wrong

There is a reason back of every safe

rule in banking. The banker does not

act from whim, or favor this person

or that; he follows the charts of expe-

rience. He tries to steer a safe course,

as the captain does with a great liner.

Nobody asks the captain to head for

an iceberg. Nobody should ask the

banker to depart from any of the

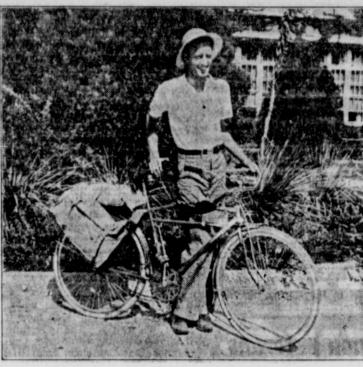

sound principles which give protec-

tion to the bank's depositors.

Snyder National Bank

principles of conducting a bank.

FROM DENTON INTO MEXICO

Pratt Kinard, adventurer and soldier of fortune, has reached the Mexican border, after pedaling five days on his bicycle christened "Pegasus," a postal card received by his friends on the Teachers College, Denton, campus reveals. Kinard, a student of Teachers College and intrepid photograper of the 1935 Yucca, college yearbook, conceived the idea of riding into the interior as far as Mexico City in order to give vent

ed within and which comes to the surface at this season Outfitting himself with a sturdy bicycle, light luggage and a sun helmet, shellacked to turn water. Kinard found that he had only \$50 left with which to make the trip. He left Denton Friday morning, July 28, from the east drive of the administration building, and arrived in Laredo July 2. Undaunted by adversity, Kinard is pushing into the interior of our neighbor country.

Suffer with colds? change to

HEALTHFUL GAS CIRCULATED HEAT

AUGUST

Colds, so doctors tell us, weaken body resistance to serious diseases. Therein lies their danger to health . . . the reason why every precattion against them should be taken. One of the best is proper house heating with CIRCULATED heat.

This kind of heat is healthful because it wipes out excessive moisture to end wall sweating, maintains an even temperature with no cold spots or chilling drafts and because room atmosphere is continuously circulated.

Gas floor furnaces and circulating heaters . . the modern gas units that provide this healthful heat at low cost . . . are on sale now at special August prices. Invest in one for winter health. Pay only small amount down and begin monthly payments in October!

Special prices and terms effective--Now!

TEXAS COTTON INCOME IN 1934 MORETHAN'32

Farmers Received More During One Of Poorest Crop Years Than Before Adjustment.

The cotton income of Texas farmers in 1934, one of the poorest crop years in history, was almost half again larger than in 1932 before the adjustment program started, according to complete official state and county three-year cotton figures just received by Texas A. & M. College Extension Service from the Agricultural Adjustment Adminis-

Farm value of Texas cotton last year, not including benefit payments, was more than 32 million dollars larger than in 1932. Benefit payments designed to bring cotton prices more nearly into line with industrial prices in normal years acted as farmers' crop insurance last year by adding \$34,132,325.09 to the cotton income. This does not include about nine million dollars' worth of unsold Bankhead certificates in farmers' hands.

Total farm value of Texas cotton was \$158,343,000 for 1932; \$297,964,-166.67 for 1933-34; and \$224,779,-307.61 for 1934-35, exclusive of unsold Bankhead certificates. The farm value of lint and seed for 1933 and 1934, exclusive of benefit payments, was \$235,508,000 and \$190,- be closed next Thursday, and the 646,982.52 respectively, compared to second half will be begun immedi-\$158,343,000 in 1932.

to farmers since the beginning of lows: Thursday, August 1, No. 1 the adjustment programs, Texas vs. No. 2; Friday, No. 3 vs. No. 4; has received an average of slightly Monday, No. 1 vs. No. 3; Tuesday, over 100 million dollars more per No. 2 vs. No. 4; Wednesday, No. 1 year for its cotton under the new vs. No. 4; Thursday, August 8, No. order than was received in 1932. 2 vs. No. 3. The increase was almost equally divided between increased market follow: price, due partly to the adjustment program, and the benefit payments derived entirely from processing

The farm value of lint and seed given in this report is based upon yield and price figure furnished by the United States Department of Agriculture. Benefit payments inelude those made to April 30, 1935.

Entertainment Tops Lions Club Program

Two tap dances by Miss Louise Wilsford, who was accompanied at the plane by T. J. Teter, featured the entertainment program at the Lions Club meeting Tuesday at noon.

W. P. Stone of Sweetwater, who is scoutmaster of that city's troop of Sea Scouts, told briefly of the organization and progress of the project, including purchase of a sailboat, and invited Snyder to send her Sea Scouts to Sweetwater Lake if such an organization should be perfected here.

Tail Twister W. E. Holcomb announced that a ten-cent fine would be assessed against the Lion who could tell the worst joke next week. He appointed five to take part

HERE IS MORE CONCERNING Trench Silo-

well fed at slight cost in December and January as in June.

CONCLUDED FROM PAGE 1

The spot selected for a trench sile should be capable of good and easy drainage. A low bluff or hillside is good for this purpose and makes filling easy. The site selected should be located conveniently near the feed barn, or in the pas- need be put on the inside of a ture where the feeding is done. It also should be near the water supply, for much water is required in concrete; otherwise it will have to

will be determined by the amount | the process. of storage space required, but it When the excavation has been should not be less than five feet made to the desired depth, length deep, to insure proper curing. Un- and width, a diversion ditch or der average conditions, a cow will crescent-shaped back furrow should eat about 30 pounds of silage a be run around the upper end to day, while work animals and half- turn water away from it. When the grown animals will eat about 15 sile is filled, a drainage ditch should pounds a day each. With these be cut on each side, to hurry water facts in mind, we can calculate the off, instead of letting it stand and size of silo required. Assuming that seep into the trench. a farm has three cows, four horses and two growing heifers, we find pounds of ensilage per day. One gari, darso, milo, kafir, sweet sorcubic foot of silage weighs about ghum and red, are suitable for fill-25 pounds. The ensilage should be ing a silo. The hard-dough stage removed from the silo in layers is the best stage to cut grain sorvent spoilage. We find that in taking off a three-inch layer each day, 30 square feet of cross-sectional area would be required to furnish the feed needed.

Determining the Size.

of a foot, the length of the silo for to the walls. any given feeding period may be determined by dividing the number of days you expect to feed by four. next to the walls, if the soil is In the above example, if ensilage dry. Each layer should be wetted is to be fed through the three win- down separately. More water will go. As usual, it has been no probter months and also in August (120 be required if the feed is dry, or days), divide 120 by four. Thus we partially dry, than if it is green and find that under the conditions as- full of juice. It is well to add as not a single place will be vacant sumed, a silo 30 feet long would be much as a barrel of water to each when the unit leaves Friday. required. For safety, it should be ton of silage, and if the feed is longer. Within reasonable limits, dry, four or five times as much may silos may be made of any dimensions you wish to give them. It going on, the silage should be packusually is better to make two small ed at intervals by having men or pit silos than one large one, keepother one is emptied.

Parallel With Slope of Land.

silo, stake off the location parallel with the slope of the land. A fresno and a plow are the best implements for digging a trench silo

en the dirt and a freeno to move it. A pick, mattock, spade and hoe are useful in smoothing the walls. The end of the silo should be sloped so a team may be driven down them, but as the work progresses, the upper end may be made as steep as the team can go down easily, while the lower end may have a grade slight enough so the team can pull the loaded fresno out. If possible, the lower end should be closer to the barn or the feeding

troughs No lining or finishing material trench silo, but if the silo is permanent, it should be lined with be shaped up each year, and will The width and length of the silo gradually grow larger by reason of

Crops for Ensilage,

Grain sorghums, including hein a sufficiently watery condition to keep well in a silo.

Silage usually is cut with an ensilage or a feed cutter, but is sometimes put into the silage without To find the average width re- cutting. The advantage of putting quired, divide the area by the depth. feed into a silo uncut is that it saves Taking six feet as the depth, we the cost of cutting; but as it takes find that the silo should be five more work to get uncut silage out, feet wide. Since the silo should be it is debatable whether there is so shaped that the bottom will be any saving in the end. There is about two feet narrower than the little difference in the amount of top, we find that the silo should be spoilage by the two methods if the six feet wide at the top and four bundles are cut when the feed is feet wide at the bottom. The width put in, if it is packed lengthwise of the silo for any number of ani- in the trench, and if it is thoroughmals can be figured in the same ly packed when it is put in. When putting feed in uncut, special care Since three inches is one-fourth should be taken to scatter it clear

Plenty of water should be used in filling a trench silo, especially be required. While the filling is horses trample it, or by running a ing one of them sealed until the tractor over it. Silage can not be packed too much. The silo should be filled to the ground level, then rounded up. No covering of straw In making ready to build a trench or any other material other than

dirt is necessary or desirable. Cover With 12 Inches Dirt.

The most common method of cova farm. A plow is required to loos- inches of dirt over it. There is no special objection to dirt covering, as Pitner, Cecil H. Reynolds. it is easily removed with a fresno. Unless the dirt is moist when it is When finished, a filled pit silo privates first class, messengers. should have a rounded top of scil and be provided with means for

draining water away from it. Feed stored in a pit silo may be kept several years without attention. Cattle prefer silage to hay or dry cornstalks. Some cows will even leave alfalfa hay for ensilage. A pit silo is an ideal device for

Abilene Softball Squad Noses Out Locals Thursday

Magnolia Flyers, one of Abilene's leading softball squads, nosed a local all-star aggregation out of a decision here last Thursday afternoon, as several hundred fans watched an almost-perfect game.

Neither team made a technical error, and only seven hits were made-two by Abilene and five by portable typewriter on display at Snyder. The final score was 3-0. The visitors took their tallies in the fourth, when they made both their hits and received one of their two guest of Miss Mae White. walks. Brookshire proved the hero of the day when he socked a homer between right and center fields, after a single and a walk had put two men on bases.

Both squads played brilliant ball, Red Hill at short and Aubrey Wiese at third handling hard chances most acceptably for the home crew. The dreaded Grady Shytles Jr. from Abilene managed to keep the locals from scoring with his fast ball, but he fanned only three men, and was so wild in spots that the five hits would have made runs if they had come at more opportune

Sisk Repairs Home.

Noa B. Sisk, dispatcher in the local post office, is enlarging and turn, is being carried by Obert Lit- improving his stucco home on the tlepage of the local post office east side of town, just a block south of the new hospital. He is wielding the saw and hammer most of the time in his "off" hours, and thinks he will have quite a presentable home despite the fact that he is not a natural-born carpenter.

folks know is trustworthy

The confidence thousands of parents have in good, old reliable, powdered Thedford's Black-Draught has prompted them to get the new Syrup of Black-Draught for their children. The grown folks stick to the powdered Black-Draught; the youngsters probably will prefer it when they outgrow their childish love of sweets. . Mrs. C. W. Adams, of Murray, Ky., writes: "I have used Thedford's Black-Draught (powder) about thirteen years, taking it for billiousness. Black-Draught acts well and I am always pleased with the results. I wanted a good, reliable laxative for my children. I have found Syrup of Black-Draught to be just that."

Don't Prolong The Agony!

Next time you suffer from Gas on Stomach, Headache, Sour Stomach, a Cold, Muscular, Rheumatic, Sciatic or Periodic Pains; That Tired Feeling, That "Morning After" Feeling. Get a glass of water and drop in one or two tablets of

Alka-Seltzer

The New Pain-Relieving, Alkalizing, Effervescent Tablet Watch it bubble up, then drink it. You will be amazed at the almost instant relief.

It is called Alka-Seltzer because it makes a sparkling alkaline drink, and as it contains an analgesic (Acetyl-Salicylate) it first relieves the pain of everyday ailments and then by restoring the alkaline balance corrects the cause when due to

After trying many brands of medicines—so-called relief for gas, and all of them a failure, I gave up hopes. By chance I tried Alka-Seltzer—I am more than satisfied. Geo. Bennett, New York, N. Y.

Get a glass at your drug store soda fountain. Take home a 30 cent or 60 cent package.
